**Chunghwa Telecom Reports Operating Results for 1H 2008**

Taipei, Taiwan, R.O.C. AUGUST 28, 2008 Chunghwa Telecom Co., Ltd (TAIEX: 2412, NYSE: CHT) ( Chunghwa or the Company ), today reported its consolidated operating results for the first six months of 2008. All figures were prepared in accordance with ROC GAAP.

*(Comparisons, unless otherwise stated, are with the prior year period)*

**Financial Highlights for 1H08:**

Total consolidated revenue increased by 5.4% to NT\$100.9 billion

Internet and data revenue grew by 1.8%;  
ADSL & FTTB revenue increased by 0.8%

Mobile revenue decreased by 1.2%; Mobile VAS revenue increased by 31.7%

Net income totaled NT\$23.2 billion, a decrease of 5.6%

Basic earnings per share (EPS) increased by 5.2% to NT\$2.43

**Financial Highlights for 2Q08:**

Total consolidated revenue decreased by 0.6% to NT\$50.0 billion

Internet and data revenue grew by 0.8%;  
ADSL & FTTB revenue decreased by 0.7%

Mobile revenue decreased by 2.7%; Mobile VAS revenue increased by 28.3%

Net income totaled NT\$12.5 billion, an increase of 0.1%

Basic earnings per share (EPS) increased by 12.0% to NT\$1.31

**Revenues**

Chunghwa's total consolidated revenue for the first half of 2008 increased by 5.4% year-on-year to NT\$100.9 billion, of which 28.5% was from fixed-line services, 35.9% was from mobile services, 24.6% was from Internet and data services, and the remaining 11.0% was from other revenues, including handset sales of Chunghwa and SENAO. Revenue growth for the full six month period in 1H 2008 was mainly due to the consolidation of the Senao subsidiary, as only 2.5 months of Senao's operational results were included in CHT's consolidated 1H 2007 financials. In addition, the Internet and data businesses were a positive contribution. At NT\$24.8 billion, Internet and data revenue in 1H 2008 was 1.8% higher than in 1H 2007. This was driven by the continued total broadband

subscriber base growth and broadband speed upgrades, and was partly offset by an ADSL tariff adjustment that took effect on April 1, 2008. Mobile revenue decreased by 1.2% in the first half of 2008 to NT\$36.3 billion. This was mainly due to the decrease in traffic and the tariff cuts imposed by the NCC. Fixed-line revenues decreased by 3.1% to NT\$28.7 billion in the first half of this year. Local revenues decreased by 2.3% year-on-year due to broadband, mobile and VoIP substitution. Mobile and VoIP substitution was largely responsible for a 5.6% domestic long distance revenue decrease. In addition, International long distance revenue declined 3.2% year-on-year primarily due to increased competition for calling card services posed by our competitors' prepaid card service and the decrease in settlement income resulting from the appreciation of new Taiwan dollars.

For the second quarter of 2008, total consolidated revenue was NT\$50.0 billion, a 0.6% decrease from the same period last year. Of this, 28.7% was from fixed-line services, 36.3% was from mobile services and 24.5% was from Internet and data services, and over half of the remainder 10.5% were mainly attributed to the consolidation of revenue from SENAO.

#### **Costs and expenses**

For 1H 2008, total operating costs and expenses increased year-on-year by 4.9% to NT\$68.6 billion, due primarily to the operating costs and expenses from subsidiaries, especially SENAO. For the parent company, total operating costs and expenses decreased by NT\$0.42 billion, representing a year-over-year decrease of 0.7%. The decrease was primarily from decreased personnel and depreciation expenses.

For the second quarter of 2008, total operating costs and expenses decreased by 2.7%, mainly from declines in personnel expenses and depreciation, since the Company has not provided an early retirement program this year up to now and therefore incurred no related expenses.

#### **Income tax**

Income taxes for 1H 2008 were NT\$7.0 billion, an increase of 8.8% compared to NT\$6.4 billion for 1H 2007. This was mainly due to the higher effective tax rate for the 1H 2008 consolidated financials as compared to 1H 2007, resulting from a lower investment tax credits in 1H 2008.

#### **EBITDA and net income**

EBITDA for 1H 2008 increased 2.6% year-on-year to NT\$51.5 billion. Due to the 2Q 2007 acquisition of SENAO, which has a lower EBITDA margin than Chunghwa, the Company's EBITDA margin in 1H 2008 was 51.1%, down from 52.5% in 1H 2007. Net

income for 1H 2008 was NT\$23.2 billion, a decrease of 5.6%. The decrease in net income was due to the unrealized mark-to-market loss stemming from the foreign exchange derivative contract.

### **Capex**

Capital expenditures totaled NT\$11.3 billion for 1H 2008, of which 73.6% was for wire line equipment (including fixed-line and Internet and data), 12.7% was for wireless equipment, and the remainder was for other expenditures. Total capital expenditures increased due to a NT\$1.2 billion purchase of state-owned land in 1Q 2008, where one of Chunghwa's outlets is located.

### **Cash Flow**

Net cash flow from operations increased by 27% to NT\$41.5 billion, as compared to NT\$32.7 billion in 1H 2007. This was primarily due to a decrease in other financial assets, an increase in accounts payable and taxes payable. As of June 30, 2008, the Company's cash and cash equivalents totaled NT\$95.3 billion, an increase of 15.8% year-on-year despite the capital reduction cash payment of NT\$9.6 billion in January this year.

### **Businesses Performance Highlights:**

#### **Internet and Data Services**

Total HiNet subscribers increased to 4.1 million as of June 30, 2008. HiNet broadband subscribers including HiNet ADSL and HiNet FTTx increased by 23,000 to 3.5 million quarter-on-quarter.

ADSL subscribers decreased by 126,000 to 3.5 million quarter-on-quarter. This decline was offset by strong growth in FTTB subscriptions, with 148,000 net additions to around 0.8 million over the course of the second quarter of 2008, bringing the total number of broadband subscribers to 4.3 million on June 30, 2008, a 3.4% increase compared to the same period of last year. By the end of June 2008, the number of ADSL and FTTx subscriptions with a service speed of greater than 8 Mbps reached 1.38 million, representing 32.1% of total broadband subscribers.

At the end of June 2008, Chunghwa had 508,000 MOD subscribers, with 73,000 new subscriptions added during the second quarter.

#### **Mobile Services**

As of June 30, 2008, Chunghwa had 8.8 million mobile subscribers, slightly up quarter-on-quarter by 0.63% compared to 8.7 million on March 31, 2008.

Chunghwa remained the leading mobile operator in Taiwan. According to statistics published by the NCC, at the end of June 2008, the Company's total subscriber market share (including 2G, 3G and PHS) was 35.6%, while its revenue share was 33.6%.

Chunghwa had 306,000 net additions to its 3G subscriber base during the second quarter, recording a 11.8% rise in the total number of 3G subscribers to 2.9 million on June 30, 2008.

Mobile VAS revenue for 1H 2008 was NT\$3.4 billion, a 31.7% year-on-year increase, with SMS revenue up 24.9% and mobile Internet revenue up 58.2%.

#### **Fixed-line Services**

At the end of June 2008, the Company maintained its leading fixed-line market position, with fixed-line subscribers totaling 12.9 million.

#### **2008 Olympic Games on New Media**

The Company broadcasted the 2008 Olympic Games across its MOD, emome and hiChannel platforms in August. According to its internal statistics, during the Olympic Games, from August 8 until August 24, the highest number of view household for MOD was up to 1.6 times compared to before the game.

HiChannel visitors were 3.3 times and the page views amounted to 11.3 times compared to before the Games.

Number of video clips viewed, page views and traffic over our mobile portal emome were 15.8, 10 and 10 times respectively, as compared to the period before the Games.

#### **Financial Statements**

Financial statements and additional operational data can be found on the Company's website at [www.cht.com.tw/ir/filedownload](http://www.cht.com.tw/ir/filedownload).

#### **Note Concerning Forward-looking Statements**

Except for statements in respect of historical matters, the statements made in this press release contain forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual performance, financial condition or results of operations of Chunghwa to be materially different from what may be implied by such forward-looking statements. Investors are cautioned that actual events and results could differ materially from those statements as a

result of a number of factors including, among other things: extensive regulation of telecom industry; the intensely competitive telecom industry; our relationship with our labor union; general economic and political conditions, including those related to the telecom industry; possible disruptions in commercial activities caused by natural and human induced events and disasters, including terrorist activity, armed conflict and highly contagious diseases, such as SARS; and those risks identified in the section entitled "Risk Factors" in Chunghwa's annual reports on Form F-20 filed with the SEC.

The forward-looking statements in this press release reflect the current belief of Chunghwa as of the date of this press release and we undertake no obligation to update these forward-looking statements for events or circumstances that occur subsequent to such date.

#### **SPECIAL NOTE REGARDING NON-GAAP FINANCIAL MEASURES**

A body of generally accepted accounting principles is commonly referred to as "GAAP". A non-GAAP financial measure is generally defined by the SEC as one that purports to measure historical or future financial performance, financial position or cash flows but excludes or includes amounts that would not be so adjusted in the most comparable U.S. GAAP measure. We disclose in this report certain non-GAAP financial measures, including EBITDA. EBITDA for any period is defined as consolidated net income (loss) excluding (i) depreciation and amortization, (ii) total net comprehensive financing cost (which is comprised of net interest expense, exchange gain or loss, monetary position gain or loss and other financing costs and derivative transactions), (iii) other expenses, net, (iv) income tax, (v) cumulative effect of change in accounting principle, net of tax and (vi) (income) loss from discontinued operations.

In managing our business we rely on EBITDA as a means of assessing our operating performance. We believe that EBITDA can be useful to facilitate comparisons of operating performance between periods and with other companies because it excludes the effect of (i) depreciation and amortization, which represents a non-cash charge to earnings, (ii) certain financing costs, which are significantly affected by external factors, including interest rates, foreign currency exchange rates and inflation rates, which have little or no bearing on our operating performance, (iii) income tax and tax on assets and statutory employee profit sharing, which is similar to a tax on income and (iv) other expenses or income not related to the operation of the business. EBITDA is also a useful basis of comparing our results with those of other companies because it presents operating results on a basis unaffected by capital structure and taxes.

EBITDA is not a measure of financial performance under U.S. GAAP or ROC GAAP. EBITDA should not be considered as an alternate measure of net income or operating income, as determined on a consolidated basis using amounts derived from statements of operations prepared in accordance with ROC GAAP, as an indicator of operating performance or as cash flows from operating activity or as a measure of liquidity. EBITDA has material limitations that impair its value as a measure of a company's overall profitability since it does not address certain ongoing costs of our business that could significantly affect profitability such as financial expenses and income taxes, depreciation, pension plan reserves or capital expenditures and associated charges. The EBITDA presented herein relates to ROC GAAP, which we use to prepare our consolidated financial statements.

**INDEPENDENT AUDITORS' REPORT**

The Board of Directors and Stockholders

Chunghwa Telecom Co., Ltd.

We have audited the accompanying balance sheets of Chunghwa Telecom Co., Ltd. as of June 30, 2008 and 2007, and the related statements of income, changes in stockholders' equity and cash flows for the six months then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of Taiwan International Standard Electronics Co., Ltd. and Equity-accounted investee of SENAOC of Senao Networks, Inc. The aggregate carrying values of those equity method investees were NT\$655,093 thousand and NT\$614,285 thousand as of June 30, 2008 and 2007 and the equity in their earnings (loss) were NT\$69,502 thousand and NT\$(16,641) thousand, respectively, for the six months then ended. The financial statements of Taiwan International Standard Electronics Co., Ltd. and equity-accounted investee of SENAOC of Senao Networks, Inc. as of and for the six months ended June 30, 2008 and 2007, were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for these equity method investees, is based solely on the reports of the other auditors.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards required that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the financial reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of the other auditors, the financial statements referred to first paragraph present fairly, in all material respects, the financial position of the Company as of June 30, 2008 and 2007, and the results of their operations and cash flows for the six months then ended in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As stated in Note 3 to the financial statements, on January 1, 2008, the Company adopted Interpretation 96-052 issued by the Accounting and Research Development Foundation of the Republic of China that requires companies to record bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings.

We have also audited the consolidated financial statements of the Company and its subsidiaries as of the six months ended June 30, 2008 and 2007, and have expressed an modified unqualified opinion on those consolidated financial statements.

**NOTES TO FINANCIAL STATEMENTS**

**FOR THE SIX MONTHS ENDED JUNE 30, 2008 AND 2007**

**(Amounts in Thousands of New Taiwan Dollars, Unless Stated Otherwise)**

**1. GENERAL**

Chunghwa Telecom Co., Ltd. ( Chunghwa ) was incorporated on July 1, 1996 in the Republic of China ( ROC ) pursuant to the Article 30 of the Telecommunications Act. Chunghwa is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications ( MOTC ). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications ( DGT ). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off to as Chunghwa which continues to carry out the business and the DGT continues to be the industry regulator.

As a telecommunications service provider of fixed-line and cellular telephone services, Chunghwa was announced as a market dominator by the MOTC; therefore Chunghwa is subject to the applicable telecommunications regulations for market dominators of the ROC.

Effective August 12, 2005, the MOTC had completed the process of privatizing Chunghwa by reducing the government ownership to below 50% in various stages. In July 2000, Chunghwa received approval from the Securities and Futures Commission (the SFC ) for a domestic initial public offering and its common shares were listed and traded on the Taiwan Stock Exchange (the TSE ) on October 27, 2000. Certain of Chunghwa s common shares had been sold, in connection with the foregoing privatization plan, in domestic public offerings at various dates from August 2000 to July 2003. Certain of Chunghwa s common shares had also been sold in an international offering of securities in the form of American Depository Shares ( ADS ) in July 17, 2003 and were listed and traded on the New York Stock Exchange (the NYSE ). The MOTC sold 289,431 thousand common shares of Chunghwa by auction in the ROC on August 9, 2005 and 1,350,682 thousand common shares of Chunghwa on August 10, 2005 in an international offering. Upon completion of the share transfers associated with these offerings on August 12, 2005, the MOTC owned less than 50% of the outstanding shares of Chunghwa and completed the privatization plan.

The numbers of employees as of June 30, 2008 and 2007 are 24,519 and 24,097, respectively.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements were prepared in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law, Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the ROC ( ROC GAAP ). The preparation of financial statements requires management to make reasonable estimates and assumptions on allowances for doubtful accounts, valuation allowances on inventories, depreciation of property, plant and equipment, impairment of assets, bonuses paid to employees, remuneration to board of directors and supervisors, pension plans and income tax which are inherently uncertain. Actual results may differ from these estimates. The significant accounting policies are summarized as follows:

### **Classification of Current and Noncurrent Assets and Liabilities**

Current assets are assets expected to be converted to cash, sold or consumed within one year from balance sheet date. Current liabilities are obligations expected to be settled within one year from balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

### **Cash Equivalents**

Cash equivalents are commercial paper and bond with resale agreements purchased with maturities of three months or less from the date of acquisition. The carrying amount approximates fair value.

### **Financial Assets and Liabilities at Fair Value Through Profit or Loss**

Financial instruments classified as financial assets or financial liabilities at fair value through profit or loss ( FVTPL ) include financial assets or financial liabilities held for trading and those designated as at FVTPL on initial recognition. The Company recognizes a financial asset or a financial liability when the Company becomes a party to the contractual provisions of the financial instrument. A financial asset is derecognized when the Company loses control of its contractual rights over the financial asset. A financial liability is derecognized when the obligation specified in the relevant contract is discharged, cancelled or expired.

Financial instruments at FVTPL are initially measured at fair value. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized as expenses as incurred. Financial assets or financial liabilities at FVTPL are remeasured at fair value, subsequently with changes in fair value recognized in earnings. Cash dividends received subsequently (including those received in the period of investment) are recognized as income. On derecognition of a financial asset or a financial liability, the difference between its carrying amount and the sum of the consideration received and receivable or consideration paid and payable is recognized in earnings. A regular way purchases or sales of financial assets is accounted for using trade date accounting.

Derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading. When the fair value is positive, the derivative is recognized as a financial asset, when the fair value is negative, the derivative is recognized as a financial liability.

### **Available-for-sale Financial Assets**

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of stockholders' equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

The recognition and derecognition of available-for-sale financial assets are similar to those of financial assets at FVTPL.

Fair values are determined as follows: Listed stocks at closing prices at the balance sheet date; open-end mutual funds at net asset values at the balance sheet date; bonds quoted at prices provided by the Taiwan GreTai Securities Market; and financial assets and financial liabilities without quoted prices in an active market at values determined using valuation techniques.

Cash dividends are recognized in earnings on the ex-dividend date, except for the dividends declared before acquisition are treated as a reduction of investment cost. Stock dividends are recorded as an increase in the number of shares and do not affect investment income. The total number of shares subsequent to the increase of stock dividends is used for recalculate cost per share.

An impairment loss is recognized when there is objective evidence that the financial asset is impaired. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent to the decrease and recorded as an adjustment to stockholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

#### **Held-to-maturity Financial Assets**

Held-to-maturity financial assets are carried at amortized cost using the effective interest method. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains or losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

#### **Revenue Recognition, Account Receivables and Allowance for Doubtful Receivables**

Revenues are recognized when revenues are realized or realizable and earned. Related costs are expensed as incurred.

Sales prices are determined using fair value taking into account related sales discounts and quantity discounts agreed to by the Company and its customers. Since the receivables from sales are collectible within one year and such transactions are frequent, fair value of the receivables is equivalent to the nominal amount of the cash to be received.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance), cellular services, Internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon minutes of traffic processed when the services are provided in accordance with contract terms.

Other revenues are recognized as follows: (a) one-time subscriber connection fees (on fixed-line services) are deferred and recognized over the average expected customer service periods, (b) fixed-monthly fees (on fixed-line services, wireless and Internet and data services) are accrued every month, and (c) prepaid services (fixed line, cellular and Internet) are recognized as income based upon actual usage by customers or when the right to use those services expires.

An allowance for doubtful receivables is provided based on a review of the collectibility of accounts receivable. The Company determines the amount of allowance for doubtful receivables by examining the aging analysis of outstanding accounts receivable.

### **Inventories**

Inventories are stated at the lower of cost (weighted-average cost) or market value (replacement cost or net realizable value).

### **Investments Accounted for Using Equity Method**

Investments in companies where in the Company exercises significant influence over the operating and financial policy decisions are accounted for by the equity method. Under the equity method, the investment is initially stated at cost and subsequently adjusted for its proportionate share in the net earnings of the investee companies. Any cash dividends received are recognized as a reduction in the carrying value of the investments.

Gains or losses on sales from the Company to equity method investees wherein the Company does not have substantial control over these equity investees are deferred in proportion to the Company's ownership percentage in the investees until such gains or losses are realized through transactions with third parties. Gains or losses on sales from the Company to equity method investees are eliminated if the Company has substantial control over these equity investees. Gains or losses on sales from equity method investees to the Company are deferred in proportion to the Company's ownership percentages in the investees until they are realized through transactions with third parties.

Effective January 1, 2006, pursuant to the revised Statement of Financial Accounting Standards, the cost of an investment shall be analyzed and the difference between the cost of investment and the fair value of identifiable net assets acquired, representing goodwill, shall not be amortize and instead shall be tested for impairment annually. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of noncurrent assets except (a) financial assets other than investments accounted for using equity method, (b) assets to be disposed of by sale (c) deferred tax assets, and (d) prepaid assets relating to pension or other postretirement benefit plans. If any excess remains after reducing the aforementioned items, the remaining excess shall be recognized as an extraordinary gain.

When the Company subscribes for additional investees shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company share of the investee's equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to additional paid-in capital the extent available, with the balance charged to retained earnings.

### **Financial Assets Carried at Cost**

Investments in equity instruments that do not have a quoted price in an active market and whose fair values that cannot be reliably measured are measured at their original cost, such as non-publicly traded stocks. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

### **Property, Plant and Equipment**

Property, plant and equipment are stated at cost plus a revaluation increment, if any, less accumulated depreciation and accumulated impairment loss. The interest costs that are directly attributable to the acquisition, construction of a qualifying asset are capitalized as property, plant and equipment. Major renewals and betterments are capitalized, while maintenance and repairs are expensed currently.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized.

An impairment loss on a revalued asset is charged to unrealized revaluation increment under equity to the extent available, with the balance recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment could be reversed and recognized as a gain, with the remaining credited to unrealized revaluation increment .

Depreciation expense is computed using the straight-line method over the following estimated service lives: land improvements 10 to 30 years; buildings 10 to 60 years; computer equipment 6 to 10 years; telecommunications equipment 6 to 15 years; transportation equipment 5 to 10 years; and miscellaneous equipment 3 to 12 years.

Upon sale or disposal of property, plant and equipment, the related cost, accumulated depreciation, accumulated impairment losses and any unrealized revaluation increment are deducted from the corresponding accounts, and any gain or loss recorded as non-operating gains or losses in the period of sale or disposal.

### **Intangible Assets**

Intangible assets mainly including 3G Concession, computer software and patents.

3G Concession is amortized upon the MOTC granted the license of using the straight-line method over the shorter of the legal useful life or estimated useful life. Computer software costs and patents are amortized using the straight-line method over the estimated useful lives of 3-20 years.

Effective January 1, 2007, the Company adopted the newly released Statements of Financial Accounting Standards No. 37, Intangible Assets. Expenditure on research shall be expensed as incurred. Development costs are capitalized when those costs meet relative criteria and are amortized using the straight-line method over estimated useful lives. Development costs do not meet relative criteria shall be expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, as if no impairment loss had been recognized.

### **Idle Assets**

Idle assets are carried at the lower of recoverable amount or carrying amount.

### **Pension Costs**

For employees under defined benefit pension plans, pension costs are recorded based on actuarial calculations. For employees under defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees individual pension accounts during their service periods.

### **Expense Recognition**

The costs of providing services are recognized as incurred. The cost includes incentives to third party dealers for inducing business which are payable when the end user enters into an airtime contract bundled with the handsets.

### **Treasury Stock**

Treasury stock is recorded at cost and shown as a reduction to stockholders' equity. Upon cancellation of treasury stock, the treasury stock account is reduced and the common stocks as well as the capital surplus are reversed on a pro rata basis. If capital surplus is not sufficient for debiting purposes, the difference is charged to retained earnings.

### **Income Tax**

The Company applies inter-period allocations for its income tax, whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Income taxes (10%) on undistributed earnings is recorded in the year of stockholders approval which is the year subsequent to the year the earnings are generated.

### **Foreign-currency Transactions**

Foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

The financial statements of foreign equity investees are translated into New Taiwan dollars at the following exchange rates. Assets and liabilities - spot rates at year-end; stockholders' equity - historical rates, income and expenses - average rates during the year. The resulting translation adjustments are recorded as a separate component of stockholders' equity.

### **Hedge Accounting**

Hedged items are recognized as follows:

- a. The gain or loss from remeasuring the hedging instrument at fair value and the gain or loss on the hedged item attributable to the hedged risk are recognized in profit or loss.
- b. The gain or loss on the hedged item attributable to the hedged risk shall adjust the carrying amount of the hedged item and be currently recognized in earnings.

### **Reclassifications**

Certain accounts in the financial statements as of and for the six months ended June 30, 2007 have been reclassified to conform to the presentation of the financial statements as of and for the six months ended June 30, 2008.

**3. EFFECT OF CHANGES IN ACCOUNTING PRINCIPLE**

In March 2007, the ARDF issued an Interpretation 96-052 that requires companies to recognize bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings beginning January 1, 2008. These bonuses were previously recorded as appropriations from earnings. The adoption of this interpretation resulted in a decrease of NT\$562,776 thousand (including NT\$548,054 thousand recorded by Chunghwa and NT\$14,722 thousand recorded by its equity-accounted investees) in net income and a decrease in basic earnings per share (after income tax) of NT\$0.06 for the six months ended June 30, 2008.

As of June 30, 2008 and 2007, the deposits paid for index future contracts were \$101,374 thousand and \$63,619 thousand, respectively.

In September 2007, Chunghwa entered into a 10-year, foreign currency derivative contract with Goldman Sachs Group Inc. ( Goldman ) and valuations are made biweekly starting from September 20, 2007 which are 260 valuation periods totally. Under the terms of the contract, if the NT dollar/US dollar exchange rate is less than NT\$31.50 per US\$ at any two consecutive bi-weekly valuation dates during the valuation period starting from October 4, 2007 to September 5, 2017, Chunghwa is required to make a cash payment to Goldman. The settlement amount is determined by the difference between the applicable exchange rates and the base amount of US\$4,000 thousand. Conversely, if the NT dollar/US dollar exchange rate is above NT\$31.50 per US dollar using the same valuation methodology, Goldman would have a settlement obligation to Chunghwa determined using a base amount of US\$2,000 thousand. Further, if the exchange rate is at or above NT\$32.70 per US dollar starting from December 12, 2007 at any time, the contract will be terminated at that time. In accordance with the terms of the contract, Chunghwa deposited US\$3,000 thousand with Goldman (included in other current assets ) with annual yield rate of 8%. As of June 30, 2008, there are 240 remaining valuation periods.

Net losses arising from financial assets and liabilities at fair value through profit or loss for the six months ended June 30, 2008 and 2007 were \$2,104,697 thousand (including realized settlement gains of \$559,140 thousand and valuation losses of \$2,663,837 thousand; such valuation loss included a total of \$2,694,448 from foreign currency derivative contract with Goldman) and \$74,306 thousand (including realized settlement losses of \$77,018 thousand and valuation gain of \$2,712 thousand), respectively.

## 18. STOCKHOLDERS EQUITY

Under Chunghwa's Articles of Incorporation Chunghwa's authorized capital is \$120,000,000,020, which is divided into 12,000,000,000 common shares (at \$10 par value per share), which are issued and outstanding 9,557,776,912 shares, and 2 preferred shares (at \$10 par value per share), which was approved by the board of directors to be issue on March 28, 2006, and the MOTC purchased 2 preferred shares at par value on April 4, 2006.

For the purpose of privatizing Chunghwa, the MOTC sold 1,109,750 thousand common shares of Chunghwa in an international offering of securities in the form of American Depositary Shares ( ADS ) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange on July 17, 2003. Afterwards, the MOTC sold 1,350,682 thousand common shares in the form of ADS amounting to 135,068 thousand units on August 10, 2005. Subsequently, the MOTC and Taiwan Mobile Co., Ltd. sold 505,389 thousand and 58,959 thousand common shares of Chunghwa, respectively, in the form of ADS totally amounting to 56,435 thousand units on September 29, 2006. The MOTC and Taiwan Mobile Co., Ltd. have sold 3,024,780 thousand common shares in the form of ADS amounting to 302,478 thousand units. As of June 30, 2008, the outstanding ADSs were 1,781,712 thousand units, which equaled approximately 178,171 thousand common shares and represented 18.64% of Chunghwa's total outstanding common shares.

The ADS holders generally have the same rights and obligations as other common stockholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents:

- a. Exercise their voting rights;
- b. Sell their ADSs, and
- c. Receive dividends declared and subscribe to the issuance of new shares.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in Chunghwa's Articles of Incorporation as follows:

- a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.
- b. The holder of preferred shares has the same pre-emptive rights as holders of common shares when Chunghwa raises capital by issuing new shares.
- c. The holder of the preferred shares will have the right to veto on any change in the name of Chunghwa or the nature of its business and any transfer of a substantial portion of Chunghwa's business or property.
- d. The holder of the preferred shares may not transfer the ownership. Chunghwa must redeem all outstanding preferred shares within three years from the date of their issuance.

Under the ROC Company Law, additional paid-in capital may only be utilized to offset deficits. For those companies having no deficits, additional paid-in capital arising from capital surplus can be used to increase capital stock and distribute to stockholders in proportion to their ownership at the ex-dividend date. Also, such amounts can only be declared as a stock dividend by Chunghwa at an amount calculated in accordance with the provisions of existing regulations.

In addition, before distributing a dividend or making any other distribution to stockholders, Chunghwa must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and depending on its business needs or requirements, may also set aside a special reserve. In accordance with the Articles of Incorporation, no less than 50% of the remaining earnings comprising remaining balance of net income, if any, plus cumulative undistributed earnings shall be distributed in the following order: (a) from 2% to 5% of distributable earnings shall be distributed to employees as employee bonus; (b) no more than 0.2% of distributable earnings shall be distributed to board of directors and supervisors as remuneration; and (c) cash dividends to be distributed shall not be less than 50% of the total amount of dividends to be distributed. If cash dividends to be distributed is less than NT\$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Chunghwa operates in a capital-intensive and technology-intensive industry and requires capital expenditures to sustain its competitive position in high-growth market. Thus, Chunghwa's dividend policy takes into account future capital expenditure outlays. In this regard, a portion of the earnings may be retained to finance these capital expenditures. The remaining earnings can then be distributed as dividends if approved by the stockholders in the following year and will be recorded in the financial statements of that year.

For the six months ended June 30, 2008, the accrual amounts for bonuses to employees and remuneration to directors and supervisors were accrued based on past experiences and represented 3.37% and 0.2%, respectively, of net income after setting aside 10% legal reserve.

If the initial accrual amounts of the aforementioned bonus are significantly different from the amounts proposed by the board of directors, the difference is charged to the earnings of the year making the initial estimate. Otherwise, the difference between initial accrual amount and the amount resolved in the shareholders' meeting is charged to the earnings of the following year as a result of change of accounting estimate.

Under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of Chunghwa. This reserve can only be used to offset a deficit, or when reaching 50% of the aggregate par value of the outstanding capital stock of Chunghwa, up to 50% of the reserve may, at the option of Chunghwa, be declared as a stock dividend and transferred to capital.

The appropriations and distributions of the 2007 and 2006 earnings of Chunghwa have been approved and resolved by the stockholders on June 19, 2008 and June 15, 2007 as follows:

	Appropriation and Distribution		Dividend Per Share	
	2007	2006	2007	2006

On June 27, 2008, the board of directors of Chunghwa resolved to transfer capital surplus in the amount of \$19,115,554 thousand to common capital stock. Furthermore, they resolved to reduce the same amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and to refund the excess funds to shareholders. The proposal was resolved by the stockholders meeting which was held on August 14, 2008.

The stockholders meeting held on June 15, 2007 also resolved to transfer capital surplus in the amount of \$9,667,845 thousand to common capital stock.

The above proposals have had an effective registration with the Securities and Futures Bureau of Financial Supervisory Commission, Executive Yuan ( SFC ). The board of directors resolved the ex-dividend date of aforementioned proposals as August 1, 2007.

The stockholders, at the stockholders meeting held on June 15, 2007, resolved to reduce the amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and better utilize its excess funds. The capital reduction plan was effected by a transfer of capital surplus in the amount of NT\$9,667,845 thousand to common capital stock. Chunghwa obtained the approval letter from Financial Supervisory Commission, Executive Yuan which stated the effective registration date of capital reduction is October 17, 2007. Chunghwa decided October 19, 2007 and December 29, 2007 as the record date and stock transfer date of capital reduction, respectively. Subsequently, common capital stock was reduced by NT\$9,667,845 thousand and a liability for the actual amount of cash to be distributed to stockholders of NT\$9,557,777 thousand was recorded. The difference between the reduction in common capital stock and the distribution amount represents treasury stock of NT\$110,068 thousand held by Chunghwa and concurrently cancelled.

Information on the appropriation of 2007 earnings, employee bonus and remuneration to board of directors and supervisors proposed by the board of directors and resolved by the stockholders is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on July 1, 1998, R.O.C. resident stockholders are allowed a tax credit for their proportionate share of the income tax paid by Chunghwa on earnings generated since January 1, 1998.

Chunghwa presumes that the bonuses to employees will be settled in shares and takes those shares into consideration when calculating the weighted average number of shares outstanding used in the calculation of diluted EPS. The number of shares is calculated by dividing the amount of bonuses by the closing price of the Chunghwa's shares of the balance sheet date. The dilutive effect of the shares needs to be considered until the shareholders resolve the number of shares to be distributed to employees in their meeting in the following year.

The diluted earnings per share for the six months ended June 30, 2008 and 2007 was due to the effect of potential common stock of stock options by SENAO.

### **23. PENSION PLAN**

Chunghwa completed privatization plans on August 12, 2005. Chunghwa is required to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization in accordance with the Statute Governing Privatization of Stated-owned Enterprises. After paying all pension obligations for privatization, the plan assets of Chunghwa should be transferred to the Fund for Privatization of Government-owned Enterprises (the Privatization Fund) under the Executive Yuan. On August 7, 2006, Chunghwa transferred the remaining balance of fund to the Privatization Fund. However, according to the instructions of MOTC, Chunghwa would, on behalf of the MOTC to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization.

The pension plan under the Labor Pension Act of ROC is effective beginning July 1, 2005 and this pension mechanism is considered as a defined contribution plan. The employees who were subject to the Labor Standards Law prior to the July 1, 2005 may choose to be subject to the pension mechanism under this Act or continue to remain to be subject to the pension mechanism under the Labor Standards Law. For those employees who were subject to the Labor Standards Law prior to July 1, 2005 and still work for the same company after July 1, 2005 and choose to be subject to the pension mechanism under this Act, their seniority as of July 1, 2005 shall be maintained. The monthly contribution shall not be less than 6% of each employee's monthly salary. Chunghwa made monthly contributions equal to 6% of each employee's monthly salary to employee's pension accounts beginning July 1, 2005.

Chunghwa's pension plan is considered as a defined benefit plan under the Labor Standards Law that provide benefits based on an employee's length of service and average six-month salary prior to retirement at retirement. Chunghwa contributes an amount at 15% or less of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the names of the Committees in the Bank of Taiwan.

The balance of Chunghwa's plan assets subject to defined benefit plan were \$2,961,507 thousand and \$2,521,981 thousand as of June 30, 2008 and 2007, respectively.

Pension costs of Chunghwa were \$1,410,232 thousand (\$1,374,036 thousand subject to defined benefit plan and \$36,196 thousand subject to defined contribution plan) and \$1,524,809 thousand (\$1,496,208 thousand subject to defined benefit plan and \$28,601 thousand subject to defined contribution plan) for the six months ended June 30, 2008 and 2007, respectively.

**24. TRANSACTIONS WITH RELATED PARTIES**

The ROC Government, one of Chunghwa's customers held significant equity interest in Chunghwa. Chunghwa provides fixed-line services, wireless services, internet and data and other services to the various departments and institutions of the ROC Government and other state-owned enterprises in the normal course of business and at arm's-length prices. The information on service revenues from government bodies and related organizations have not been provided because details of the type of transactions were not summarized by Chunghwa. Chunghwa sold the land with a carrying value of \$703,125 thousand to Light Era Development Co., Ltd.( LED ) at price of \$1,820,880 thousand. However, since the gain on disposal of land amounting to \$1,117,755 thousand is unrealized, the gain is recognized as deferred credit profit on intercompany transactions, and will not be recognized as revenue till the gain is realized in the future.

The transaction terms, except of SENAO, CHIEF, CIYP were determined in accordance with mutual agreements. The foregoing transactions with related parties were conducted under normal commercial terms.

**25. COMMITMENTS AND CONTINGENT LIABILITIES**

As of June 30, 2008, Chunghwa's remaining commitments under non-cancellable contracts with various parties were as follows:

- a. Acquisitions of land and buildings of \$1,004,818 thousand.
- b. Acquisitions of telecommunications equipment of \$21,856,769 thousand.
- c. Unused letters of credit of \$1,076,870 thousand.
- d. Contracts to print billing, envelopes and selling gifts \$190,220 thousand.
- e. Chunghwa also has non-cancellable operating leases covering certain buildings, computers, computer peripheral equipment and operating system software under contracts that expire in various years. Future lease payments were as follows:

Year	Rental Amount
2008 (from July 1, 2008 to December 31, 2008)	\$ 642,132
2009	1,100,092
2010	795,156
2011	520,016
2012 and thereafter	468,379

- f. A commitment to contribute \$2,000,000 thousand to a Piping Fund administered by the Taipei City Government, of which \$1,000,000 thousand was contributed by Chunghwa on August 15, 1996 (classified as long-term investment other monetary assets). When the fund is not sufficient, Chunghwa will contribute the remaining \$1,000,000 thousand after getting the notification from the Taipei City Government. For Piping Fund, Chunghwa understands that if the project is considered no longer be necessary by the ROC government, Chunghwa will receive back its proportionate share of the net equity of the fund upon dissolution of the fund.
- g. A portion of the land used by Chunghwa during the period July 1, 1996 to December 31, 2004 was co-owned by Chunghwa and Chunghwa Post Co., Ltd. In accordance with the claims process in Taiwan, on July 12, 2005, the Taiwan Taipei District Court sent a claim notice to Chunghwa to reimburse Chunghwa Post Co., Ltd. in the amount of \$767,852 thousand for land usage compensation due to the portion of land usage area in excess of Chunghwa's ownership and along with interest calculated at 5% interest rate from June 30, 2005 to the payment date. However, Chunghwa believes that the computation used to derive the land usage compensation amount is inaccurate because most of the compensation amount has expired as result of the expiration clause. Therefore, Chunghwa has filed an appeal at the Taiwan Taipei District Court. As of audit report date, the case is still in the procedure of the first instance at the Taiwan Taipei District Court.
- h. Giga Media filed a civil action against Chunghwa with the Taiwan Taipei District Court. The complaint alleged that Chunghwa infringed Giga Media's R.O.C. Patent No. I258284 which is a Point-to-Point Protocol over Ethernet ( PPPoE ) technique used to launch fixed IP of ADSL. Giga Media is seeking damage of NT\$500,000 thousand and interest calculated at 5% from the date the indictment was received by Chunghwa to the payment date. Chunghwa claims that its service technique is different from the nature of Giga Media's patent and that it does not need to use Giga Media's PPPoE technique for its services. Chunghwa has filed a statement of defense with the Taiwan Taipei District Court.

**26. FAIR VALUE OF FINANCIAL INSTRUMENTS**

b. Methods and assumptions used in the estimation of fair values of financial instruments:

- 1) The fair values of certain financial instruments recognized in the balance sheet generally correspond to the market prices of the financial assets. Because of the short maturities of these instruments, the carrying value represents a reasonable basis to estimate fair values. This method does not apply to the financial instruments discussed in Notes 2 and 3 below.
- 2) If the financial assets/liabilities at fair value through profit or loss and the available-for-sale financial assets have quoted market prices in an active market, the quoted market prices are viewed as fair values. If the market price of the available-for-sale financial assets are not readily available, valuation techniques is used incorporating estimates and assumptions that are consistent with prevailing market conditions.

- 3) Long-term investments are based on the net asset values of the investments in unconsolidated companies, if quoted market prices are not available.

- c. Fair values of financial instruments were as follow:

	Amount Based on Quoted Market Price		Amount Determined Using Valuation Techniques	
	2008	2007	2008	2007
<b>Assets</b>				
Financial assets at fair value through profit or loss - current	\$ 135,238	\$ 65,441	\$	\$
Available-for-sale financial assets	18,509,251	17,615,909		
Hedging derivative financial assets (classified as other current monetary assets)		2,861		
<b>Liabilities</b>				
Financial liabilities at fair value through profit or loss	38,684	19,692	3,274,607	
Hedging derivative financial liabilities (classified as other current liabilities)	5,263			

- d. Information about financial risks

1) Market risk

The foreign exchange rate fluctuations would result in Chunghwa's foreign-currency-dominated assets and liabilities and open forward exchange contracts exposed to rate risk.

The fluctuations of market price would result in the index future contracts exposed to price risk.

The financial instruments categorized as available-for-sale financial assets are mainly listed stocks and open-end mutual funds. Therefore, the market risk is the fluctuations of market price. In order to manage this risk, Chunghwa would assess the risk before investing, therefore, no material market risk are anticipated.

2) Credit risk

Credit risk represents the potential loss that would be incurred by Chunghwa if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties to the aforementioned financial instruments are reputable financial institutions. Management believes that Chunghwa's exposure to default by those parties is low.

3) Liquidation risk

Chunghwa has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments. Therefore, the cash flow risk is low.

The financial instruments of the Company categorized as available-for-sale financial assets are publicly-traded, easily converted to cash. Therefore, no material liquidation risk are anticipated. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market. Therefore, material liquidation risk are anticipated.

4) Cash flow interest rate risk

Chunghwa engages in investments in fixed-interest-rate debt securities. Therefore, cash flows from such securities are not expected to fluctuate significantly due to changes in market interest rates.

In addition, Chunghwa engages in investments in floating-interest-rate debt securities. The changes in market interest rate would impact the floating-interest rate; therefore, cash flows from such securities are expected to fluctuate due to changes in market interest rates.

e. Fair value hedge

Chunghwa entered into forward exchange contracts is mainly to hedge the fluctuation in exchange rates of beneficiary certificate denominated in foreign currency, which is fair value hedge. The transaction was assessed as highly effective for the six months ended June 30, 2008 and 2007.

Outstanding forward exchange contracts of hedge as of June 30, 2008 and 2007:

	Currency	Holding Period	Contract Amount (in Thousands)
<b>June 30, 2008</b>			
Sell	USD/NTD	2008.09	US\$ 65,000
<b>June 30, 2007</b>			
Sell	USD/NTD	2007.09	US\$ 15,000

As of June 30, 2008 and 2007, the forward exchange contract was measured at fair value of \$5,263 thousand (classified as other current liabilities) and \$2,861 thousand (classified as other current monetary assets).

According to the regulations of Securities and Futures Bureau, Chunghwa should disclose the derivative transactions of Chunghwa's investees, SENA0, which was as follows:

1) Holding period and contract amounts

SENA0 entered into a forward exchange contract for the six months ended June 30, 2008 and 2007 to reduce the exposure to foreign currency risk.

Outstanding forward exchange contracts as of June 30, 2008 and 2007:

	Currency	Holding Period	Contract Amount (in Thousands)
<b>June 30, 2008</b>			
Buy	USD/NTD	2008.07	NT\$ 149,934
<b>June 30, 2007</b>			
Buy	USD/NTD	2007.07	NT\$ 31,727

2) Market risk

SENAO uses forward contracts to hedge the fluctuations of adverse exchange rate on foreign currency assets and liabilities. The gain and loss from the fluctuation of exchange rate under forward contracts was offset by that of the hedged assets or liabilities. Therefore, the market risk was not significant.

3) Credit risk

Financial assets represents the potential loss that would be incurred by SENAO if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The maximum credit risk amount of all kinds of financial instruments is equal to its book value.

4) Liquidation risk

SENAO's investments in domestic open-end mutual fund and convertible bonds are publicly-traded, easily converted to cash. Therefore, no material cash flow risks are anticipated. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market. Therefore, material liquidation risk would be anticipated. SENAO uses forward contracts to hedge the fluctuations of adverse exchange rate on foreign currency assets and liabilities. There will be corresponding cash inflows or outflows upon maturity dates, and SENAO has sufficient cash flow and operating capital to meet the cash demand, thus; there shall be no risk on raising capital. In addition, the exchange rates in the forward contracts are fixed; therefore, there is no significant risk of cash flow.

The Board of Directors and Stockholders

Chunghwa Telecom Co., Ltd.

We have audited the accompanying consolidated balance sheets of Chunghwa Telecom Co., Ltd. and its subsidiaries ( the Company ) as of June 30, 2008 and 2007, and the related consolidated statements of income, changes in stockholders' equity and cash flows for the six months then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of Taiwan International Standard Electronics Co., Ltd. and of Senao Networks, Inc. The aggregate carrying values of these equity method investees were NT\$830,220 thousand and NT\$796,430 thousand, respectively, as of June 30, 2008 and 2007 and the equity in their earnings were NT\$80,097 thousand and NT\$14,925 thousand, respectively, for the six months then ended. The financial statements of Taiwan International Standard Electronics Co., Ltd. and of Senao Networks, Inc. as of and for the six months ended June 30, 2008 and 2007, were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for these equity method investees, is based solely on the reports of the other auditors.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards required that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits and the financial reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of the other auditors, the consolidated financial statements referred to first paragraph present fairly, in all material respects, the consolidated financial position of the Company as of June 30, 2008 and 2007, and the consolidated results of their operations and consolidated cash flows for the six months then ended in conformity with the Securities and Exchange Act and the Guidelines Governing the Preparation of Financial Reports by Securities Issuers relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As stated in Note 3 to the consolidated financial statements, on January 1, 2008, the Company adopted Interpretation 96-052 issued by the Accounting and Research Development Foundation of the Republic of China that requires companies to record bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings.

August 15, 2008

**Notice to Readers**

*The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.*

*For the convenience of readers, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.*
