Notice on the forecast of year-end dividend for the year ending March 31, 2009

Please be advised that Kubota Corporation (hereinafter the Company) has forecast the year-end dividend per ADS (American Depositary Share) for the year ending March 31, 2009 as follows:

| | Interim dividend | Year-end dividend | (per ADS) Annual dividend |
|---|------------------|-------------------|------------------------------|
| This fiscal year ending March 31, 2009 | ¥35 | ¥35 | ¥70 |
| | (paid) | (forecast) | |
| Comparable previous year ended March 31, 2008 | ¥30 | ¥40 | ¥70 |

The Company believes returning profit to shareholders is its important mission and executes it through providing stable, sustainable cash dividends, and repurchase and retirement of its own shares.

Considering these policies of returning profit to shareholders and the Company's current business performance, the Company will propose ¥35 of the year-end dividend per ADS, the same amount as interim dividend of this fiscal year.

Accordingly, the annual dividends for the year ending March 31, 2009 will be ¥70 per ADS, including the interim dividend of ¥35.

< Cautionary Statements with Respect to Forward-Looking Statements >

This document may contain forward-looking statements that are based on management's expectations, estimates, projections and assumptions. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results may differ materially from what is forecast in forward-looking statements due to a variety of factors, including, without limitation: general economic conditions in the Company's markets, particularly government agricultural policies, levels of capital expenditures, both in public and private sectors, foreign currency exchange rates, continued competitive pricing pressures in the marketplace, as well as the Company's ability to continue to gain acceptance of its products.

Notice of Reforming Management Systems

Please be advised that the Board of Directors of Kubota Corporation (the Company) resolved at the Board of Directors Meeting held on February 10, 2009 to reform management systems: Introducing the Corporate Officer System; reducing the numbers of Board of Directors; reorganizing consolidated division of the parent company; and establishing the strategic planning committees to enhance competence of R&D, quality control and manufacturing. Details are as follows:

1. Introducing the Corporate Officer System

The Company will introduce the Corporate Officer System and appoint 26 corporate officers on April 1, 2009 in order that the Company intends to agilely adapt to business environment and improve management efficiency by reinforcing strategic decision-making function of Board of Directors and operational function of business activities by President and Corporate Officers.

2. Reducing members of Board of Directors

The Company will nominate 6 persons for board members out of incumbent 24 members of Board of Directors at the Ordinary General Meeting of Shareholders to be held on June 2009 in order to promote strategic decision-making by Board of Directors more agilely.

3. Appointing outside director

The Company will propose to appoint outside director at the Ordinary General Meeting of Shareholders to be held on June 2009 in order to improve supervisory function of Board of Directors.

4. Reorganizing consolidated divisions of the parent company

The Company reviewed present 2 consolidated divisions of the parent company; Farm & Industrial Machinery Consolidated Division and ; Water, Environment & Infrastructure Consolidated Division from a viewpoint of market segment, and will reorganize these 2 consolidated divisions into 3 consolidated divisions; Farm & Industrial Machinery Consolidated Division ; Water & Environment Systems Consolidated Division and; Social Infrastructure Consolidated Division on April 1, 2009.

(1) Farm & Industrial Machinery Consolidated Division

This consolidated division promotes soil and agriculture related business with farm equipment, engines, construction machinery and other related products.

(2) Water & Environment Systems Consolidated Division

Edgar Filing: KUBOTA CORP - Form 6-K

This consolidated division promotes water and environment engineering related business with pipe systems, water & sewage treatment systems, pumps and other related products.

(3) Social Infrastructure Consolidated Division

This consolidated division promotes social infrastructure development related business with industrial castings, air-conditioning equipment, vending machine and other related products.

Table of Contents**5. Establishing the strategic planning committees related to R&D**

The Company will establish Research & Development Strategy Committee and Quality Assurance & Manufacturing Strategy Committee on April 1, 2009 in order to enhance underlying competence of R&D, quality control and manufacturing. President will assume the offices of chairman of these committees.

(1) Research & Development Strategy Committee

This committee will assume the rolls of enhancing corporate capabilities for promoting strategic R&D through evaluating and consulting R&D themes and considering and proposing proactive R&D activities.

(2) Quality Assurance & Manufacturing Strategy Committee

This committee will assume the rolls of enhancing manufacturing capability proactively through discussing and supervising direction of manufacturing technology and production management technology, technological issues and their countermeasures.

These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results may differ materially from what is forecast in forward-looking statements due to a variety of factors, including, without limitation: general economic conditions in the Company's markets, particularly government agricultural policies, levels of capital expenditures, both in public and private sectors, foreign currency exchange rates, continued competitive pricing pressures in the marketplace, as well as the Company's ability to continue to gain acceptance of its products.

Table of Contents

**Kubota Corporation
and Subsidiaries**

1. Review of Operations and Financial Condition

1. Review of operations

Summary of the results of operations for the nine months under review

For the nine months ended December 31, 2008, revenues of Kubota Corporation and subsidiaries (collectively the Company) increased ¥4.0 billion (0.5 %), to ¥841.6 billion from the corresponding period in the prior year, due mainly to an increase in overseas revenues in Internal Combustion Engine & Machinery, while domestic revenues decreased.

In the domestic market, revenues decreased ¥8.5 billion (2.1 %), to ¥394.5 billion from the corresponding period in the prior year. Revenues in Internal Combustion Engine & Machinery decreased. Sales of farm equipment and engines decreased slightly, while sales of construction machinery declined substantially.

Revenues in Pipes, Valves, and Industrial Castings increased due mainly to sales increase of ductile iron pipes and spiral welded steel pipes, while sales of industrial castings decreased. Revenues in Environmental Engineering increased, but revenues in Other decreased.

In overseas markets, revenues increased ¥12.5 billion (2.9 %), to ¥447.2 billion from the corresponding period in the prior year. Revenues in Internal Combustion Engine & Machinery increased mainly due to sales increase of farm equipment and engines, even though sales of construction machinery declined. Revenues in Pipes, Valves, and Industrial Castings substantially increased due to sales increase of ductile iron pipes. Revenues in Environmental Engineering decreased, while revenues in Other increased. As a result, the ratio of overseas revenues to consolidated revenues rose 1.2 percentage points, to 53.1 % compared with the corresponding period in the prior year.

Operating income decreased ¥10.2 billion (9.5 %), to ¥96.3 billion from the corresponding period in the prior year. Operating income in Internal Combustion Engine and Machinery decreased mainly due to appreciation of the yen and price hikes of materials. Operating income in Pipes, Valves, and Industrial Castings increased owing to sales increase of ductile iron pipes. Although operating loss in Environmental Engineering decreased steadily, operating income in Other decreased due to a decreased sales of vending machines.

Income from continuing operations before income taxes, minority interests in earnings of subsidiaries, and equity in net income of affiliated companies decreased ¥21.6 billion (20.2 %), to ¥85.3 billion. This decrease is due to a decrease in operating income and an increase in other expenses resulting from increases in foreign exchange loss.

Income taxes were ¥33.4 billion (representing an effective tax rate of 39.1 %), and net amount of minority interests in earnings of subsidiaries and equity in net income of affiliated companies to deduct was ¥5.5 billion. As a result, net income was ¥46.5 billion, ¥13.5 billion (22.5 %) lower than the corresponding period in the prior year.

Table of Contents**Kubota Corporation
and Subsidiaries****(2) Review of operations by industry segment****1) Internal Combustion Engine and Machinery**

Revenues in Internal Combustion Engine and Machinery were ¥600.5 billion, 0.4% higher than the corresponding period in the prior year, comprising 71.3 % of consolidated revenues. Domestic revenues decreased 4.2 %, to ¥181.7 billion, and overseas revenues increased 2.5 %, to ¥418.9 billion. This segment comprises farm equipment, engines and construction machinery.

In the domestic market, the operating environment continued to be challenging due to a decrease in construction investment and stagnant demand for farm equipment resulted from economic slowdown and the price hikes of fertilizer and fodder. In this circumstance, the Company actively introduced new products and implemented promotional sales activity, however total sales of farm equipment slightly decreased, and construction machinery decreased substantially. On the other hand, sales of engines slightly increased.

In overseas markets, sales of tractors increased. Sales of tractors in North America decreased due to a stagnation of the markets and appreciation of the yen. In Asia outside Japan, sales of tractors in Thailand continued to increase, and sales in Europe also increased steadily due to launching new products. Sales of farm machinery also increased sharply owing to a sales increase of combine harvesters and rice transplanters in China. On the other hand, sales of construction machinery decreased due to the rapid economic slowdown in Europe, sales of engine decreased due to inventory adjustment in European and North American clients.

2) Pipes, Valves, and Industrial Castings

Revenues in Pipes, Valves, and Industrial Castings increased 5.1 %, to ¥152.1 billion from the corresponding period in the prior year, comprising 18.1% of consolidated revenues. Domestic revenues increased 4.1%, to ¥128.3 billion, and overseas revenues increased 10.9%, to ¥23.8 billion. This segment comprises pipes and valves (ductile iron pipes, spiral welded steel pipes, plastic pipes, and valves), and industrial castings.

In the domestic market, sales of ductile iron pipes increased largely due to price increases, and sales of spiral welded steel pipes also increased. On the other hand, sales of plastic pipes decreased due to declining demand, and sales of industrial castings decreased substantially due to decreased sales of ductile tunnel segment.

In overseas markets, sales of industrial castings slightly decreased, however export sales of ductile iron pipes to the Middle East increased.

3) Environmental Engineering

Revenues in Environmental Engineering increased 18.5 %, to ¥37.6 billion from the corresponding period in the prior year, comprising 4.5 % of consolidated revenues. Domestic revenues increased 24.0 %, to ¥34.3 billion, and overseas revenues decreased 18.2 %, to ¥3.3 billion. This segment consists of environmental control plants and pumps.

In the domestic market, sales of all products increased. In overseas markets, sales of pumps increased, while sales of submerged membrane system decreased.

4) Other

Revenues in Other decreased 18.5 %, to ¥51.3 billion from the corresponding period in the prior year, comprising 6.1 % of consolidated revenues. Domestic revenues decreased 19.8 %, to ¥50.2 billion, and overseas revenues increased 161.2 %, to ¥1.2 billion. This segment comprises vending machines, electronic-equipped machinery, air-conditioning equipment, construction, septic tanks and other business.

Sales of vending machine decreased substantially in this segment due to the decreased demand for cigarette-vending machines with the function of age-identification, for which the temporary demand was very high in the prior year. Sales of construction also decreased.

Edgar Filing: KUBOTA CORP - Form 6-K

In addition, sales of condominiums were absent in this fiscal year because some shares of the subsidiary which conducted condominium business were sold and the subsidiary changed into an affiliated Company in the prior year. As a result, revenues in Other largely decreased.

-4-

Table of Contents**Kubota Corporation
and Subsidiaries****2. Financial condition****(1) Assets, liabilities and shareholders' equity**

Total assets at the end of December 2008 amounted to ¥1,483.6 billion, an increase of ¥19.4 billion (1.3%) compared with those at the end of March 2008. Current assets increased largely due to an increase in notes and accounts receivable and inventories. An increase in notes and accounts receivable resulted from a large reduction in sales of trade accounts in North America. On the other hand, investments and long-term finance receivables decreased due to a decrease in unrealized gains on securities as a result of the decline in stock market prices. As for liabilities, interest-bearing debt increased largely owing to an increase of borrowing resulted from a reduction in sales of trade accounts, and trade notes and accounts payable also increased. Total shareholders' equity decreased because an increase in amount of accumulated other comprehensive loss, which resulted mainly from a decrease in unrealized gains on securities, exceeded the increase in retained earnings. Shareholders' equity ratio was 42.2 %, 2.1 percentage points lower than the prior year end.

(2) Cash flows

Net cash provided by operating activities during the nine months under review was ¥7.2 billion. Total net cash provided by operating activities was limited, because of an increase in notes and accounts receivables, which resulted from a sharp reduction in sales of trade accounts in North America, and an increase in inventories.

Net cash used in investing activities was ¥61.8 billion. Amount of increase in finance receivables exceeded amount of collection of finance receivables due to an expansion of retail financing in Thailand.

Net cash provided by financing activities was ¥61.3 billion. Borrowing amount exceeded repayment amount due to additional funding requirement arisen from an expansion of retail financing and reduction in sales of trade accounts in North America.

3. Prospect for the fiscal year under review

The Company revised downward a forecast of revenues for the year ending March 31, 2009 by ¥35.0 billion, to ¥1,100.0 billion from the previous forecast, which was released in November 7, 2008.

In overseas markets, revenues in Internal Combustion Engine and Machinery are forecast to decrease significantly from the previous forecast. In the domestic market, revenues in Internal Combustion Engine and Machinery and Pipes, Valves and Industrial Castings are expected to decrease from the previous forecast.

The forecast of operating income is expected to decrease ¥5.0 billion, to ¥105.0 billion, from the previous forecast, in consideration of business performance up to the third quarter of this fiscal year and recent business development. Income from continuing operation before income taxes, minority interests in earnings of subsidiaries, and equity in net income of affiliated companies is forecast to decrease ¥13.0 billion, to ¥92.0 billion, from the previous forecast. Net income is also forecast to decrease ¥8.0 billion, to ¥50.0 billion, from the previous forecast. (These forecasts are based on the assumption of an exchange rate of ¥103=US\$1.)

4. Other information

(1) Changes in number of material subsidiaries

None

(2) Adoption of simplified accounting procedures or specific accounting procedures for consolidated quarterly financial statements

Income tax expense for the nine months ended December 31, 2008 was calculated using a reasonably estimated annual effective tax rate for this fiscal year.

(3) Changes in accounting principles, procedures and presentations for consolidated financial statements

1) Changes due to the revision of accounting standards

Since April 1, 2008, the Company has adopted SFAS No. 157, Fair Value Measurements . This statement defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurement. The adoption of this statement did not have a material impact on the Company's consolidated result of operations and financial position.

2) Changes in matters other than 1) above.

None

(4) Assumptions for going concern

None
