PROXY STATEMENT

SPECIAL MEETING OF STOCKHOLDERS

To Be Held November 23, 2009

9:00 a.m.

Solicitation and Revocation of Proxies

The accompanying proxy is solicited by and on behalf of the Board of Directors of Cortex Pharmaceuticals, Inc., a Delaware corporation (the **Company**), and the Company will bear the cost of such solicitation. Solicitation of proxies will be primarily by mail, although some of the officers, directors and employees of the Company may solicit proxies personally or by telephone. The Company has retained Georgeson Inc. (**GS**) as its proxy solicitation agent, and has agreed to pay GS a fee of \$7,500 plus out of pocket expenses. The Company also will reimburse brokerage houses and other custodians, nominees or fiduciaries for their reasonable expenses in sending proxy materials to their principals.

The person named as proxy was designated by the Board of Directors and is a director of the Company. All properly executed proxies will be voted (except to the extent that authority to vote has been withheld) and where a choice has been specified by the stockholder as provided in the proxy it will be voted in accordance with the specification so made. Proxies submitted without specification will be voted **FOR** the approval of an Amendment to the Company's Restated Certificate of Incorporation to increase the authorized number of shares of Common Stock from 105,000,000 to 205,000,000.

Any stockholder may revoke a proxy at any time before it is voted at the meeting by a proxy bearing a later date. A proxy may also be revoked by any stockholder by delivering written notice of revocation to the Secretary of the Company or by voting in person at the meeting.

This proxy statement and proxy are being mailed to stockholders of the Company on or about October 23, 2009.

Voting at the Meeting

Only record holders of Common Stock of the Company at the close of business on October 19, 2009, will be entitled to notice of, and to vote at, the meeting. As of the record date, there were _____ shares of the Company's Common Stock outstanding. The presence at the meeting of a majority of the outstanding shares, in person or by proxy relating to any matter to be acted upon at the meeting, is necessary to constitute a quorum for the meeting. Each outstanding share is entitled to one vote on all matters, except as noted below. For purposes of the quorum and the discussion below regarding the vote necessary to take stockholder action, stockholders of record who are present at the meeting in person or by proxy and who vote for or against, abstain or withhold their vote from a matter, including broker non-votes, are considered stockholders who are present and entitled to vote and count toward the quorum. As used herein, **broker non-vote** means the votes that are not cast on the matter in question by a broker with

respect to shares because (i) the broker has not received voting instructions from the beneficial owner on such matter and (ii) such broker lacks discretionary voting authority to vote the shares on such matter. Brokers holding shares of record for beneficial owners generally are entitled to exercise their discretion to vote on the proposals included in this proxy statement unless they receive other instructions from their customers. The effect of proxies marked "abstain" and broker non-votes are discussed more fully below.

PROPOSAL 1

AMENDMENT OF CERTIFICATE OF INCORPORATION TO

INCREASE AUTHORIZED COMMON STOCK

The Board of Directors has unanimously approved a proposed amendment to the Company's Restated Certificate of Incorporation to increase the number of authorized shares of Common Stock of the Company from 105,000,000 to 205,000,000 and to increase the aggregate number of authorized shares of capital stock from 110,000,000 to 210,000,000, with no increase in the 5,000,000 authorized shares of Preferred Stock. If the amendment is approved by the stockholders, the text of paragraph (A)(1) of Article Fourth of the Company's Restated Certificate of Incorporation will be amended and restated to read in its entirety as follows:

FOURTH: (A)(1) AUTHORIZED CAPITAL. The total number of shares of capital stock which the Company has the authority to issue is 210,000,000 consisting of 205,000,000 shares of Common Stock, \$0.001 par value per share (the "Common Stock"), and 5,000,000 shares of Preferred Stock, \$0.001 par value per share (the "Preferred Stock").

As more fully set forth below, the proposed amendment is intended to improve the Company's flexibility in meeting its future needs for unreserved Common Stock. However, and while this is not the intent of the proposal, in addition to general corporate purposes, the proposed amendment can be used to make more difficult a change in control of the Company.

As of the close of business on September 30, 2009, the Company had 104,555,914 shares of Common Stock issued and reserved for issuance upon conversion of outstanding Series B Convertible Preferred Stock, under all warrant and option agreements, and for potential repayment of the Company's advance from the Institute for the Study of Aging, calculated as follows:

Shares issued and outstanding	68,412,618
Shares issuable upon conversion of outstanding shares of Series B Convertible Preferred Stock	3,679
Shares reserved for issuance under issued and outstanding warrants	21,983,008
Shares reserved for issuance under issued and outstanding options	13,674,698
Shares reserved for issuance under stock option plans	411,969
Shares reserved for potential repayment to The Institute for the Study of Aging	69,942
	104,555,914

After taking into consideration the above shares issued and reserved for issuance and assuming no increase in the number of authorized shares, the Company has only 444,086 unreserved shares of Common Stock available.

Reasons for the Amendment

From its inception, the Company generally has funded its operations through the issuance of Common Stock, securities convertible into its Common Stock, or through collaborative research and licensing agreements secured with larger pharmaceutical companies. It is the Company's first priority to secure additional corporate alliances to assist in funding the advanced development of its AMPAKINE technology. But the Company must assure that it can remain financially viable while pursuing such options. Without the ability to secure financing through the issuance of its stock, the Company believes that its future progress would be severely jeopardized and result in extremely adverse consequences for its shareholders.

Additionally, corporate partnerships often involve the possibility of an equity investment as part of a licensing arrangement. In order to strengthen the Company's financial position and negotiate favorable agreements with other potential licensees, the Board of Directors strongly recommends that stockholders approve the proposal to increase the authorized number of shares of Common Stock.

The Board of Directors believes that the proposed increase in the number of authorized shares of Common Stock is essential to facilitate the Company's efforts to raise additional capital to fund its research and development of the AMPAKINE technology. Such shares could be used to increase funding through potential equity transactions with institutional or other investors, a rights offering to the Company's stockholders or to help secure a licensing/development agreement with a larger pharmaceutical partner who may seek an equity arrangement as part of an agreement, as well as for other bona fide corporate purposes.

If the stockholders do not approve this proposal to increase the number of authorized shares, the Company will be severely limited in its ability to finance any further development of the AMPAKINE technology.

Moving forward, it is difficult for the Company to estimate its stock price and thus, the number of shares that may be issued to obtain any necessary funding, based on a number of uncertainties, which include, but are not limited to:

The uncertainty of future research and development costs associated with the Company's technology due to the number of unknowns and uncertainties associated with preclinical and clinical trial development, including, but not limited to, the uncertainties relating to (i) future clinical trial results, (ii) the cost of future clinical and preclinical developments, (iii) delays in patient enrollment and unexpected preclinical toxicology findings, each of which may increase or decrease its future expenses;

The uncertainty of future partnering or licensing revenue, including potential equity investments into the Company, whereby the Company would possibly issue stock directly to a strategic partner; and

The uncertainty of the Company's access to the capital markets and its cost of capital.

The increased number of authorized shares of Common Stock will be available for issue from time to time for such purposes and consideration as the Board of Directors may approve and no further vote of stockholders of the Company will be required, except as provided under Delaware law or under the rules of any national securities exchange or market on which shares of Common Stock of the Company are at the time listed. The availability of additional shares for issuance, without the delay and expense of obtaining the approval of stockholders at a subsequent special meeting, will afford the Company greater flexibility in acting upon proposed transactions.

The Company currently has no plans to issue any additional shares of Common Stock other than the shares that previously have been reserved for issuance as described above.

The increase in authorized Common Stock will not have any immediate effect on the rights of existing stockholders. To the extent that additional authorized shares are issued in the future, they would decrease the existing stockholders' percentage equity ownership and, depending on the price at which they are issued, may be dilutive to existing stockholders. The additional shares of Common Stock for which authorization is sought would have identical rights, preferences and privileges to the shares of Common Stock of the Company authorized prior to approval of this proposal. Holders of Common Stock do not have preemptive rights to subscribe to additional securities that may be issued by the Company, which means that current stockholders do not have a prior right to purchase any new issue of capital stock of the Company in order to maintain their proportionate ownership thereof.

In February 2002, the Company adopted a Shareholder Rights Plan and declared a dividend distribution of one Right for each outstanding share of the Company's Common Stock to stockholders of record on the close of business on February 15, 2002. One Right also attaches to each share of Common Stock subsequently issued by the Company. In general, the Rights become exercisable or transferable only upon the occurrence of certain events related to changes in ownership of the Common Stock and would have the effect of substantially diluting the equity interest in the Company to a person's or group's ownership interest in the Common Stock that attempts to acquire the Company on terms not approved by the Company's Board of Directors.

The increase in the authorized Common Stock may facilitate certain other anti-takeover devices that may be advantageous to management if management attempts to prevent or delay a change of control. For example, the Board of Directors could cause additional shares to be issued to a holder or holders who might side with the Board of Directors in opposing a takeover bid. Additionally, the existence of such shares might have the effect of discouraging any attempt by a person or entity, through an acquisition of a substantial number of shares of Common Stock, to acquire control of the Company, since the issuance of such shares could dilute the Common Stock ownership of such person or entity. Employing such devices may adversely impact stockholders who desire a change in management or who desire to participate in a tender offer or other sale transaction involving the Company. At the present time, the Company is not aware of any contemplated mergers, tender offers or other plans by a third party to attempt to effect a change in control of the Company, and this proposal is not being made in response to any such attempts.

The Restated Certificate of Incorporation of the Company authorizes the issuance of 5,000,000 shares of Preferred Stock, of which 514,500 shares remain undesignated as of September 30, 2009. In 2002, the Board of Directors designated 35,000 shares of Preferred Stock as Series A Junior Participating Preferred Stock in connection with its adoption of the Shareholders Rights Plan (discussed above). The Board of Directors, within the limitations and restrictions contained in the Restated Certificate of Incorporation, applicable law and stock exchange regulations, and without further action by the

Company's stockholders, has the authority to issue the remaining undesignated Preferred Stock with rights that could, under certain circumstances, have the effect of delaying or preventing a change in control of the Company.

The Company is also governed by Section 203 of the Delaware General Corporation Law (the Delaware anti-takeover law), which provides that certain business combinations between a Delaware corporation whose stock is generally traded or held of record by more than 2,000 stockholders, such as the Company, and an interested stockholder (generally defined as a stockholder who beneficially owns 15% or more of a Delaware corporation's voting stock) are prohibited for a three-year period following the date that such stockholder became an interested stockholder, unless certain exceptions apply. The term business combination is defined generally to include, among other transactions, mergers, tender offers and transactions which increase an interested stockholder's percentage ownership of stock in a Delaware corporation.

While it may be deemed to have potential anti-takeover effects, the proposed amendment to increase the authorized Common Stock is not proposed for such reason or prompted by any specific effort or takeover threat currently perceived by the Board of Directors. Moreover, the Board of Directors does not currently intend to propose additional anti-takeover measures in the foreseeable future.

Vote Required; Board of Directors Recommendation

The affirmative vote of the holders of a majority of the outstanding shares of Common Stock of the Company is required to authorize the proposed increase in the authorized number of shares of Common Stock. Both abstentions and broker non-votes are not affirmative votes and, therefore, will have the same effect as votes against this proposal.

The Board of Directors unanimously recommends that you vote FOR the proposal to amend the Restated Certificate of Incorporation to increase the authorized number of shares of Common Stock from 105,000,000 to 205,000,000. Proxies solicited by management for which no specific direction is included will be voted FOR the proposal unless a vote against the proposal or abstention is specifically indicated.

Board of Directors Reservation of Rights

The Board of Directors retains the authority to take or to authorize discretionary actions as may be appropriate in order to carry out the purposes and intentions of this proposal, including, without limitation, editorial modifications or any other change to the proposed amendment to the Restated Certificate of Incorporation which the Board of Directors may adopt without stockholder vote in accordance with Delaware General Corporation Law.

No Dissenters Rights

Under Delaware law, stockholders are not entitled to dissenters' rights of appraisal with respect to this proposal.
