Item 11. *Executive Compensation*

COMPENSATION DISCUSSION AND ANALYSIS

The Compensation Committee of our board oversees our executive compensation program. In this role, the Compensation Committee annually reviews and approves all compensation decisions relating to our executive officers. Information about the Compensation Committee, including its composition, responsibilities and processes, and compensation, can be found beginning on page 10 of this Form 10-K/A. The following discussion summarizes Analogic's compensation philosophy and programs generally, as well as their application and relationship to compensation awards and decisions made with respect to the fiscal year ended July 31, 2009 (which we refer to as fiscal 2009). This discussion should be read in conjunction with the other compensation information contained in this Form 10-K/A.

Objectives and Philosophy of Our Executive Compensation Program

The primary objectives of the Compensation Committee with respect to executive compensation are to:

attract, retain and motivate the best possible executive talent;

ensure executive compensation is aligned with our corporate strategies and business objectives and promote the achievement of key strategic and financial performance measures by linking short-and long-term cash and equity incentives to the achievement of measurable corporate and individual performance goals; and

align executives' incentives with the creation of stockholder value.

To achieve these objectives, the Compensation Committee has regularly evaluated our executive compensation program with the goal of setting compensation at levels the Compensation Committee believes are necessary to allow us to compete for executive talent with other companies in our industry and region. Further, our executive compensation program has tied a substantial portion of each executive's overall compensation to the achievement of key strategic and financial goals, including adjusted earnings per share and revenue growth. Finally, in fiscal 2009 we provided a portion of our executive compensation in the form of time-based stock options, time-based restricted stock, and performance-contingent restricted stock grants, which we believe help to retain our executives and aligns their interests with those of our stockholders.

In making compensation decisions for fiscal 2009, the Compensation Committee engaged the services of Watson Wyatt, independent compensation consultants, to assist us in defining an updated peer group of companies and collect relevant market data from those companies. This information was used to determine the appropriate mix of fixed and variable compensation and to link the achievement of key strategic and financial

Table of Contents

performance measures to short- and long-term awards. The following 15 companies were included in the updated peer group: American Medical Systems Holdings, Inc.; AnthroCare Corp.; Cognex Corporation; Coherent Inc.; ev3, Inc.; FEI Company; Greatbatch Inc.; GSI Group, Inc.; Haemonetics Corp.; L-1 Identity Solutions, Inc.; Micrel Incorporated; MTS Systems Corporation; OmniVision Technologies, Inc.; OSI Systems, Inc.; and TomoTherapy, Incorporated. With information from these companies as well as survey data provided by Watson Wyatt, the Compensation Committee approved the fiscal 2009 annual incentive program awards and the long term incentive program awards, consisting of time-based restricted stock, performance-based restricted stock, and time-based stock options. The target award levels for each of these incentive compensation programs was set to generally approximate the median market values in our peer group for each of the eligible positions in the plans. The Compensation Committee generally targeted overall compensation for executives to be competitive with compensation paid to similarly situated executives of the companies in its peer group. Overall compensation for our executives in fiscal 2009 was set approximately in the middle of the range of our peer group based upon our financial performance for the previous fiscal year. Variations to this general target occurred as dictated by the experience level of the individual, market factors and individual performance.

Components of our Executive Compensation Program

The primary elements of our fiscal 2009 executive compensation program were:

- a) base salary;
- b) annual incentive program;
- c) long-term incentive program;
- d) employee benefits and other compensation; and
- e) severance and change-of-control benefits.

For fiscal 2009, we did not have any formal or informal policy or target for allocating compensation between long-term and short-term compensation, between cash and non-cash compensation, or among the different forms of non-cash compensation. Instead, the Compensation Committee, after reviewing information provided by Watson Wyatt, determined what it believed to be the appropriate level and mix of the various compensation components.

Base Salary

Base salary is used to recognize the experience, skills, knowledge and responsibilities required of all our employees, including our executives. When establishing executive base salaries for fiscal 2009, the Compensation Committee considered the survey data of compensation in the peer group, as well as a variety of other factors, including the seniority and performance of the individual, the level of the individual's responsibility, the base salary of the individual at his prior employment, if applicable, the number of well qualified candidates to assume the individual's role, and the financial performance of Analogic in the past year. Generally, we believe that executive base salaries should be competitive with salaries for executives in similar positions at comparable companies.

Base salaries are reviewed at least annually by our Compensation Committee, and are adjusted from time to time to realign salaries with market levels after taking into account individual responsibilities, individual performance and experience, and the performance of Analogic. Base salaries for our executive officers were set by the Compensation Committee, taking into account the peer group information received from Watson Wyatt and the recommendation of the Chief Executive Office (or CEO). The annual base salaries for each of our executive officers, except for Mr. Levitz, in fiscal 2009, were established on August 24, 2008 to be at approximately the 50th percentile of the peer group, except for Mr. Melson, whose base salary was set above the

Table of Contents

75th percentile of a published survey based upon his experience, job performance, and salary at his prior employer. There was no peer group information available for Mr. Melson's position. The new annual base salaries were set as follows:

Name	New Annual Base Salary	% Increase
James W. Green	\$ 490,000	11.4%
John J. Millerick	\$ 279,450	3.5%
John J. Fry	\$ 294,500	3.3%
Peter M. Howard	\$ 276,925	4.5%
Donald B. Melson	\$ 225,000	12.5%

The base salary for Mr. Levitz, which was \$265,000, was targeted between the 25th and 50th percentile of the peer group information provided by Watson Wyatt based upon his being new to the position.

Annual Incentive Program

In September 2008, the Compensation Committee adopted an annual incentive program for fiscal 2009 (which we refer to as the FY 09 AIP), in which certain salaried management employees, including our executive officers, are eligible to participate. Executive officers were given a target award, ranging from approximately thirty-five percent to eighty percent of their annual base salary, with an opportunity to earn a maximum of twice their target. The target award for Mr. Green was set near the median level for companies in our compensation peer group, while all other executive officers were set at or below the 25th percentile of the peer group. The FY 09 AIP targets for each of the executive officers, except Mr. Levitz, who did not participate in the FY 09 AIP, were as follows:

Name	FY 09 AIP Target	% of Base Salary
James W. Green	\$ 392,000	80%
John J. Millerick	\$ 111,780	40%
John J. Fry	\$ 132,525	45%
Peter M. Howard	\$ 124,616	45%
Donald B. Melson	\$ 78,750	35%

Bonuses under the FY09 AIP were payable in cash, except that bonuses in excess of the target award were payable fifty percent in cash and fifty percent in restricted stock, which would vest immediately. Bonuses under the FY09 AIP for each executive officer except Mr. Howard's bonus was based on targets as follows: i) seventy percent on achievement of adjusted diluted earnings per share of \$1.74 and ii) thirty percent on achievement of \$445,000,000 of revenue. The bonus under the FY09 AIP for Mr. Howard was based on targets as follows: i) thirty four percent on achievement of adjusted diluted earnings per share of \$1.74, ii) thirty three percent on achievement of \$24,930,000 of profit before interest and tax for his business unit, and iii) thirty three percent on achievement of \$237,202,000 of revenue for his business unit. A minimum adjusted diluted earnings per share must be achieved to receive any payment under the FY09 AIP. The minimum adjusted diluted earnings per share needed to be achieved to receive a bonus payment were \$1.32 for all executive officers except Mr. Howard and \$0.87 for Mr. Howard. All performance targets were set by the Compensation Committee to be reasonably likely, but by no means certain, of being attained. Because our performance in fiscal 2009 did not achieve the minimum adjusted diluted earnings per share targets for the executive officers, no bonus payments were made to the executive officers under the FY09 AIP.

Analogic exceeded the revenue and adjusted diluted earnings per share targets set for purposes of the fiscal 2008 Annual Incentive Program. As a result, participating executives received a portion of their bonuses in time-based restricted stock awards that vest over two years. These time-based restricted stock awards were granted by the Compensation Committee on September 23, 2008. The amount of shares granted to each executive officer was as follows: Mr. Green 1,025; Mr. Fry 269; Mr. Millerick 369; Mr. Howard 133; and Mr. Melson 175.

Table of Contents**Long Term Incentive Program**

Our Long Term Incentive Program is an equity-based award program and has been the primary vehicle for offering long-term incentives to our executives. We believe that equity-based grants provide our executives with a strong link to our long-term performance, create an ownership culture and help to align the interests of our executives and our stockholders. In addition, the vesting feature of the equity grants should further our goal of executive retention because this feature provides an incentive to our executives to remain in our employ during the vesting period. All grants of equity-based awards to our executives are approved by the Compensation Committee. In determining the size of equity-based awards to our executives, the Compensation Committee considers company-level performance and scope of responsibility, the applicable executive's performance, the amount of equity previously awarded to the executive, the vesting of such awards, and the recommendations of management, and compensation paid by the peer group. We do not have any equity ownership guidelines for our executives.

Based in part upon the Watson Wyatt study prepared for fiscal 2009, the Compensation Committee granted time-based stock options, time-based restricted stock, and performance-contingent restricted stock awards to our executive officers on September 23, 2008. The annual aggregate value of these awards was set near the 25th percentile for companies in our compensation peer group. The shares of performance contingent restricted stock will vest based on the achievement of certain growth targets in our adjusted diluted earnings per share over the three year period ending July 31, 2011. The time-based restricted stock and stock options will all vest on July 31, 2011. The table below summarizes the awards granted to our executive officers in September 2008:

Name	Performance		Time-Based Restricted Awards (in shares)	Stock Options (in shares)
	Contingent Awards at Target (in shares)	Restricted Stock Awards at Maximum (in shares)		
James W. Green	3,264	6,528	3,264	9,791
John J. Fry	1,569	3,138	1,569	4,707
John J. Millerick (1)	1,340	2,680	1,340	4,020
Peter M. Howard	1,476	2,952	1,476	4,427
Donald B. Melson	959	1,918	959	2,877

(1) Per the terms of Mr. Millerick's Separation Agreement, the vesting of 1,152 and 2,903 time-based restricted stock awards and stock options, respectively, was accelerated while 372 and 1,117 shares, respectively, were cancelled on September 29, 2009. Mr. Millerick may also earn up to 4,168 shares of performance contingent restricted stock based on our performance in fiscal 2009 and 2010.

Under the terms of Mr. Levitz's agreement with us, we granted him 10,000 time-based stock options and 6,868 shares of time-based restricted stock, each of which vest at 33% per year beginning on the first anniversary of the date of the grant.

Employee Benefits and Other Compensation

We maintain broad-based benefits that are provided to all employees, including health and dental insurance, life and disability insurance, and a 401(k) plan with employer matching contributions. Executives are eligible to participate in all of our employee benefit plans, in each case on the same basis as other employees.

During fiscal 2009, we provided other compensation to our executive officers in the following forms:

Other Bonuses During fiscal year 2009, Mr. Howard was eligible to receive a target bonus of \$100,000 for the performance of Copley Controls Corporation (which we refer to as Copley) in fiscal 2009. To achieve the target bonus payment, Copley had to have achieved income from operations and gross external revenue of \$11,902,000 and \$85,780,000, respectively, in fiscal 2009. No bonus payment

Table of Contents

was made since Copley did not achieve the minimum required target of \$9,522,000 of income from operations or \$77,202,000 of gross external revenue in fiscal 2009.

Perquisites Per his employment agreement, Mr. Green receives an annual allowance of \$20,000, paid quarterly, for use in connection with customary perquisites, such as automobile and financial planning expenses.

401(k) Matching Contributions During fiscal 2009, we matched each employee contribution to the 401(k) plan up to 4% of their total wages. These contributions vest immediately.

Non-qualified Deferred Compensation Plan During fiscal 2009, we matched non-qualified deferred compensation contributions to the plan up to 4% of their total wages. These contributions vest immediately.

Severance In return for Mr. Millerick's execution of his Separation Agreement, he received a severance payment of \$279,450, which is being paid over a period of 12 months. As part of the Separation Agreement, Mr. Millerick also receives health and dental coverage for a period of 12 months from his resignation date, which has a cost to us of approximately \$22,000, as well as \$30,000 for transition services and approximately \$25,000 for career transition services.

Severance and Change-of-Control Benefits

Pursuant to employment agreements between us and Mr. Green, Mr. Levitz, and Mr. Fry, as well as our Severance Plan for Management Employees, Key Employee Stock Bonus Plan (as amended on January 27, 1988), Key Employee Stock Bonus Plan (as amended on March 11, 2003), 2007 Restricted Stock Plan, and 2007 Stock Option Plan, our executives are entitled to specified benefits in the event of the termination of their employment under specified circumstances, including termination following a change of control of Analogic. We have provided more detailed information about these benefits with respect to our Named Executive Officers (as defined under Compensation of Executive Officers Summary Compensation Table below), along with estimates of their value under various circumstances, under the caption Potential Payments upon Termination or Change of Control beginning on page 16 of this Form 10-K/A.

We believe that providing these benefits helps us compete for executive talent. After reviewing the practices of companies represented in our compensation peer group, we believe that our severance and change of control benefits are generally in line with severance packages offered to executives by the companies in our peer group.

In the case of change-of-control benefits, our practice has been to structure these benefits so cash benefits are paid only if the employment of the executive is terminated during a specified period after a change of control has occurred, while equity-based benefits are triggered by the occurrence of the change-of-control itself. We believe this structure maximizes stockholder value because it prevents an unintended windfall to executives in the event of a friendly change of control, while still providing them appropriate incentives to cooperate in negotiating any change of control after which they believe they may lose their jobs.

Tax Considerations

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a tax deduction for compensation in excess of \$1,000,000 paid to our CEO and certain other highly paid executive officers. Qualifying performance-based compensation is not subject to the deduction limitation if specified requirements are met. Although we do not believe that the limitations of Section 162(m) have a material impact on us at the current compensation levels, we periodically review the potential consequences of Section 162(m) and generally intend to structure the equity-based portion of our executive compensation, where feasible, to comply with exemptions in Section 162(m) so that the compensation would remain tax deductible to us. However, the Compensation Committee may, in its judgment, authorize compensation payments that do not comply with the exemptions in Section 162(m) when it believes that such payments are appropriate to attract and retain executive talent.

- (1) This column represents discretionary bonuses. During fiscal 2007, we paid \$25,000 to Mr. Melson for his guaranteed bonus after he completed one year of service. During fiscal 2007 we also paid a discretionary bonus of \$1,500 to Mr. Melson in addition to the amount he received under the executive annual cash incentive bonus plan in recognition for individual performance during fiscal 2007 not contemplated in that plan. In fiscal 2008, we paid to Mr. Fry a signing bonus of \$200,000, which he would have had to repay to us on a prorated basis had he left our employ voluntarily and without good reason within two years of his start date.
- (2) This column represents the dollar amount we recognized as expense for financial statement reporting purposes with respect to fiscal 2009, 2008, and 2007 related to restricted stock awards, disregarding the estimate for forfeitures, and thus includes amounts for restricted stock awards granted in fiscal 2009 as well as prior fiscal years. Additional information can be found in Note 2 to the consolidated financial statements included in our Annual Report on Form 10-K for fiscal 2009.

- estimate for forfeitures, and thus includes amounts for stock option awards granted in fiscal 2009 as well as prior fiscal years. Additional information can be found in Note 2 to the consolidated financial statements included in our Annual Report on Form 10-K for fiscal 2009.
- (4) No stock options were granted in fiscal 2008 and 2007 to the Named Executive Officers other than those granted to Mr. Green and Mr. Melson as part of their employment agreements. In fiscal 2009, stock options were granted as follows to the Named Executive Officers: Mr. Green 9,791; Mr. Levitz 10,000; Mr. Fry 4,707; Mr. Howard 4,427; Mr. Millerick 4,020; and Mr. Melson 2,877.
 - (5) This column represents incentive compensation earned for fiscal 2009, 2008, and 2007 under our executive annual incentive cash bonus program; the fiscal 2009 plan is described beginning on page 7 of this Form 10-K/A. Under our employment agreement with Mr. Green, his target bonus for fiscal 2008 was guaranteed at sixty-five percent of his base salary, or \$292,500. Under our employment agreement with Mr. Fry, his target bonus for fiscal 2008 was guaranteed at forty percent of his base salary, prorated for the eight full calendar months he worked for Analogic during fiscal 2008, or \$76,000. Because our performance in fiscal 2008 exceeded applicable performance targets, payment of target bonuses to Mr. Green and Mr. Fry on a guaranteed basis was not necessary. This column includes amounts in excess of the guaranteed portion of the annual incentive bonus for fiscal 2008 paid to Mr. Green and Mr. Fry (including amounts allocated to the restricted stock). For our other executives, the amounts shown in this column include the entire amount of the annual incentive bonus for fiscal 2008 (including the amounts allocated to the restricted stock). The portion of such amounts which represents the value of the excess paid in the form of restricted stock that vests over two years is as follows for each of such officers: Mr. Green \$65,825; Mr. Fry \$17,275; Mr. Millerick \$23,697; and Mr. Melson \$11,239.
 - (6) Please see the All Other Compensation table below.
 - (7) Mr. Green began serving as our President and Chief Executive Officer on May 21, 2007.
 - (8) Mr. Levitz began serving as our Vice President, Chief Financial Officer, and Treasurer, on July 6, 2009.
 - (9) Mr. Fry began serving as our Vice President, General Counsel, and Corporation Secretary on November 26, 2007.
 - (10) Mr. Millerick resigned as an executive officer as of July 5, 2009 but remained as an employee until September 29, 2009.

Potential Payments Upon Termination or Change of Control

On May 1, 2007, we entered into an employment agreement with Mr. Green. The employment agreement provides that if, during the employment period, we terminate Mr. Green's employment other than for cause, we shall pay him twelve months of salary paid on a bi-weekly basis, a lump payment equal to his target bonus, and accelerate the vesting of stock options and restricted stock as follows:

a portion of the 5,000 shares of performance-based restricted stock granted as part of this agreement based on his service completed;

50% of the unvested time-based stock options from his initial grant of 50,000 options granted as part of this agreement, of which 15,000 options were cancelled by the Compensation Committee in October 2007;

50% of his unvested time-based restricted stock from his one-time equity grant as part of this agreement; and

100% of his unvested time-based stock options from his one-time equity grant as part of this agreement.

Mr. Green's agreement also entitles him to the following change-in-control benefits in the event his employment is terminated without cause within twenty-four months following a change in control:

Two times base salary plus greater of the target or the three year average bonus;

Pro-rata bonus, equal to the greater of target or actual to the extent determinable, for year of termination;

Benefits continuation for twenty-four months;

Edgar Filing: ANALOGIC CORP - Form 10-K/A

Equity acceleration as described above; and

If excise taxes are imposed, he will be eligible for a tax gross up only if the benefits exceed the safe harbor by greater of \$50,000 or 10%; otherwise, his benefits will be reduced only if this results in a better after-tax position for Mr. Green.

On October 29, 2008, we entered into an employment agreement with Mr. Fry. The employment agreement provides that if we terminate Mr. Fry's employment other than for cause, or if he terminates his employment for good reason, he will be eligible to receive base salary continuation for the greater of (1) the remainder of

Table of Contents

the twenty-four month period following his start date or (2) twelve months of salary paid on a bi-weekly basis, a lump payment equal to the greater of his target bonus or his actual bonus, to the extent determinable, for the year of termination, outplacement assistance, and relocations costs (but only if he had moved back to Cleveland, Ohio within two years of his start date).

Mr. Fry's agreement also entitles him to the following change-in-control benefits in the event his employment is terminated by us without cause, or if he terminates his employment for "good reason", within twenty-four months following a change in control:

One times base salary plus greater of the target or the three year average bonus;

Pro-rata bonus, equal to the greater of target or actual to the extent determinable, based on the number of whole months worked in the year of termination;

Benefits continuation for twelve months;

Acceleration of all unvested equity awards; and

If excise taxes are imposed, he will be eligible for a tax gross up only if the benefits exceed the safe harbor by greater of \$50,000 or 10%; otherwise, his benefits will be reduced only if this results in a better after-tax position for Mr. Fry.

On June 8, 2009, we entered into an employment agreement with Mr. Levitz. The employment agreement provides that if we terminate Mr. Levitz' employment other than for "cause" we shall pay him twelve months of salary paid on a bi-weekly basis, and continuation of health insurance for up to twelve months.

Mr. Levitz' agreement also entitles him to the following change-in-control benefits in the event his employment is terminated without cause within twenty-four months following a change of control:

Twelve months salary paid on a bi-weekly basis;

Benefits continuation for up to twelve months;

Target bonus under the Annual Incentive Plan for the termination year payable in a lump sum;

If excise taxes are imposed, he will be eligible for a tax gross up only if the benefits exceed the safe harbor by greater of \$50,000 or 10%; otherwise, his benefits will be reduced only if this results in a better after-tax position for Mr. Levitz.

Further, we have two severance plans, one of which is for management and the other for non-management employees. The plan for management employees covers designated corporate officers, and other designated officers, including all of our Named Executive Officers. Messrs Green, Levitz, and Fry each have an employment agreement which includes severance provisions that supersede the provisions of the severance plan. Those severance provisions are discussed beginning at page 16 of this Form 10-K/A. Participants in the management plan are entitled to receive severance benefits as follows:

Edgar Filing: ANALOGIC CORP - Form 10-K/A

For management employees reporting directly to the President and CEO, the employee receives a severance benefit of compensation and health and life insurance coverage equal to two weeks for each complete year of service, which may not be less than six months nor more than one year.

For all other management employees, the employee receives a severance benefit of compensation and health and life insurance coverage equal to two weeks for each complete year of service, which may not be less than two weeks nor more than one year. A participant in the management plan becomes entitled to receive the benefits described above only if he or she timely signs and returns to us a severance agreement in a form provided by us, in our sole discretion, by which he or she agrees to waive and release us from all legal claims he or she may have against us in exchange for payment of such severance benefits. The management employee will not be eligible to receive such severance

Table of Contents

benefits if we become aware, before expiration of the period over which such severance benefits are paid, of circumstances that would have caused his or her termination for cause, or the management employee has previously entered into an employment agreement with us which provides for payment, or non-payment, of such severance benefits or payments upon termination of employment. According to its terms, the management plan does not operate to affect or modify the terms of a participant's employment in any way.

Additionally, while not part of either severance plan, we have a practice of providing all employees over the age of forty with four weeks of additional severance benefits in addition to what they receive under the applicable severance plan.

Under the 2007 Stock Option Plan, upon an involuntary termination without cause, stock options that are not exercisable on the date of termination shall be terminated at that time. On March 3, 2008, the Compensation Committee approved accelerated vesting upon involuntary termination without cause for all outstanding time-based stock options at that time under the June 11, 1993 Plan (as amended on October 12, 2000) and the June 11, 1998 Plan (as amended on October 12, 2000 and November 16, 2001) that would vest within the subsequent twelve months from the date of termination.

Under the 2007 Restricted Stock Plan, all time-based restricted stock whose restrictions have not lapsed will be forfeited upon employment termination. For performance contingent-restricted stock awards under the 2007 Restricted Stock Plan, upon an involuntary termination not for cause, a number of shares which can be earned shall be a prorated portion of the target number of shares, determined by multiplying the target number of shares by a fraction, the numerator of which shall be the sum of the number of full calendar months during the performance period during which the participant remained in our employ and the number of full months of severance the employee is entitled to and the denominator of which shall be 36. The prorated number of shares actually earned, if any, shall be determined at the end of the performance period based on the achievement of the performance criteria. On March 3, 2008, the Compensation Committee approved accelerated vesting upon involuntary termination without cause for all unvested time-based restricted stock at that time under the Key Employee Stock Bonus Plan (as amended on January 27, 1988) and the Key Employee Stock Bonus Plan (as amended on March 11, 2003) that would vest within the subsequent twelve months from the date of termination.

Lastly, upon a qualifying change-in-control, restrictions will lapse on any time-based restricted stock granted under our Key Employee Stock Bonus Plan (as amended on January 27, 1988), Key Employee Stock Bonus Plan (as amended on March 11, 2003), and the 2007 Restricted Stock Plan. Upon a qualifying change-in-control, restrictions will lapse on the target number of any performance-contingent restricted stock granted under our 2007 Restricted Stock Plan for the awards made under the fiscal year 2008 and 2009 Long Term Incentive Programs. Further, all unvested stock options granted under our 2007 Stock Option Plan will become immediately vested and exercisable upon a qualifying change-in-control. On March 3, 2008, the Compensation Committee approved accelerated vesting for all unvested time-based restricted stock under the June 11, 1993 Plan (as amended on October 12, 2000) and the June 11, 1998 Plan (as amended on October 12, 2000 and November 16, 2001) upon a qualifying change-in-control.

The tables below reflect the compensation and benefits due to each Named Executive Officer, (other than Mr. Millerick, whose actual severance payments are described on page 9 of this Form 10-K/A), upon an involuntary termination other than for cause, and a termination following a change of control without cause or by the executive officer for good reason. The amounts shown assume that each termination of employment was effective as of July 31, 2009. The value of accelerated stock options was calculated by multiplying the number of accelerated options by the difference between the exercise price and the closing stock price of our common stock as of July 31, 2009, which was \$37.91. The value of accelerated restricted stock was calculated by multiplying the number of accelerated shares by the closing price of our common stock as of July 31, 2009. The amounts shown in the table are estimates of the amounts which would be paid upon termination of employment. The actual amounts to be paid can only be determined at the time of the termination of employment.

DIRECTOR COMPENSATION

The Compensation Committee evaluates the appropriate level and form of compensation for non-employee directors at least annually and recommends changes to the board when appropriate. The primary objectives of the Compensation Committee with respect to non-employees director compensation are to:

Attract, retain and motivate the best possible non-employee talent; and

Align non-employee director compensation with the creation of stockholder value.

Non-employee directors receive annual cash compensation and annual equity awards for their service. No compensation is paid to any director for his or her service as such if that director is an employee of ours.

Cash compensation consists of retainer payments and meeting fees. For fiscal 2009, all non-employee directors received an annual cash retainer of \$25,000. The Chairman of the Board and Vice Chairman of the Board received annual retainers of \$120,000 and \$48,000, respectively. The chairman of the Audit Committee received an annual retainer of \$10,000 and the Chairman of the Compensation Committee, the Nominating and Corporate Governance Committee, and the Technology Committee each received annual retainers of \$7,500. For each meeting of the board or any board committee, each of our non-employee directors received a fee of \$1,500 per meeting for each meeting attended in person, and a fee of \$1,000 per meeting for each meeting attended by telephone. Directors also received reimbursement for meeting-related travel expenses.

Equity compensation consists of stock option awards, granted under the 1997 Non-Qualified Stock Option Plan for Non-Employee Directors, and an annual share retainer granted under the Analogic Corporation Non-Employee Director Stock Plan. The non-employee directors may elect to defer this retainer in the form of deferred stock units (which we refer to as DSUs).

In June 1996, the board adopted and our stockholders approved at the January 1997 Annual Meeting of Stockholders, the 1997 Non-Qualified Stock Option Plan for Non-Employee Directors, which was amended by the board on December 8, 2003, and approved by the stockholders at the January 2004 Annual Meeting of the Stockholders, and as further amended by the board on September 20, 2006 (which we refer to as the 1997 Plan). Pursuant to the 1997 Plan, options to purchase 150,000 shares of common stock may be granted only to our directors or directors of any of our subsidiaries who are not employees of Analogic or any such subsidiary. The

Table of Contents

exercise price of options granted under the 1997 Plan is the fair market value of the common stock on the date of grant. The 1997 Plan provides that each new non-employee director who is elected to the board shall be granted an option to acquire 5,000 shares, effective as of the date on which he or she is first elected to the board. The 1997 Plan further provides that every four years from the date on which a non-employee director was last granted a non-employee director option, that non-employee director shall be granted an option to acquire 5,000 shares, effective as of the date of that fourth anniversary.

Options granted under the 1997 Plan become exercisable in three equal annual installments on each of the first three anniversaries of the date of grant, and expire ten years after the date of grant. In fiscal 2009, grants of options were made under the 1997 Plan to Mr. Judge, Mr. Melia, Mr. Modic, and Ms. Vandebroek. The 1997 Plan is administered by the board.

On January 28, 2008, our stockholders approved a new share-based director compensation plan for the non-employee members of the board named the Analogic Corporation Non-Employee Director Stock Plan (which we refer to as the 2008 Plan). The 2008 Plan provides for an annual share award (which we refer to as an Annual Share Retainer) to be granted to each participant on each February 1. The Annual Share Retainer for calendar year 2008 had a value of \$35,000. The number of shares of common stock a participant will receive as a result of the Annual Share Retainer is equal to the quotient determined by dividing the dollar value of the Annual Share Retainer by the fair market value of a share of common stock on February 1 of the relevant year. The dollar value of the Annual Share Retainer may be adjusted from year to year as determined by the board after review by and a recommendation from the Compensation Committee, subject to a maximum annual dollar amount of \$70,000 per non-employee director. Participants are not required to pay any purchase price for the Annual Share Retainer. Each participant may elect to receive some or all of (i) his or her Annual Share Retainer for a given calendar year or (ii) his or her Annual Cash Retainer (which consists of the annual base cash compensation he or she receives for service on the board and on any committees of the board, and, if applicable, all other compensation received for service as Chairman of the Board and as a Committee Chairman) in the form of DSUs, as elected by the participant no later than December 15 of the preceding calendar year. If DSUs are elected, the number of units is determined by dividing the dollar value of the Annual Share Retainer and/or Annual Cash Retainer (or portion thereof being deferred) by the fair market value of a share of common stock on the date that the retainer otherwise would have been paid. The DSUs are then assigned to a Deferred Stock Unit Account established and maintained by us for each participant in the plan. At any given time, the value of a DSU held for a participant is equal to the then-current value of a share of our common stock. Additional DSUs will be credited to this account based on the value of dividend equivalents that are earned on DSUs, and which are equal to dividends that are paid on a corresponding number of shares. The payout of the value (as adjusted in accordance with the 2008 Plan) of each grant of DSUs will be made in a single cash payment within 30 days following the participant's termination of service on the board or sooner, if previously elected by the participant, on a date certain selected by the participant prior to the time the DSUs were acquired by the participant; provided, however, that the date selected may not be less than one year from the date on which such DSUs were acquired.

Security Ownership of Certain Beneficial Owners and Management

The following table sets forth information as to the beneficial ownership of our common stock as of October 16, 2009 (except as otherwise indicated) by (a) all persons (including any group, as defined in Section 13(d)(3) of the Exchange Act) known by us to beneficially own 5% or more of our common stock, (b) each director and nominee for director, (c) our Named Executive Officers, and (d) all of our directors and executive officers as a group. With respect to directors and executive officers, the amounts shown are based upon information furnished by the individual directors and officers. Beneficial ownership is determined in accordance with the rules of the SEC. These rules generally attribute beneficial ownership of securities to persons who possess sole or shared voting power or investment power with respect to those securities and include shares of common stock issuable upon exercise of stock options that are immediately exercisable or exercisable within 60 days after October 16, 2009. In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed outstanding shares of common stock subject to options held by that person that are currently exercisable or exercisable within 60 days after October 16, 2009. Except as otherwise indicated, to our knowledge, the persons identified below have sole voting and sole investment power with respect to the shares they own of record.

Securities Authorized for Issuance Under Equity Compensation Plans

See Securities Authorized for Issuance Under Equity Compensation Plans in Item 5 of our Annual Report on Form 10-K filed on September 29, 2009.

Item 13. *Certain Relationships and Related Transactions, and Director Independence*
Certain Relationships and Related Transactions

Our board has adopted written policies and procedures for the review of any transaction, arrangement or relationship in which Analogic is a participant, the amount involved exceeds \$100,000, and one of our executive officers, directors, director nominees or 5% stockholders (or their immediate family members), each of whom we refer to as a related party, has a direct or indirect material interest.

If a related party proposes to enter into such a transaction, arrangement or relationship, which we refer to as a related party transaction, the related party must report the proposed related party transaction to our General Counsel. The policy calls for the proposed related party transaction to be reviewed and, if deemed appropriate, approved by the board's Audit Committee. Whenever practicable, the reporting, review and approval will occur prior to entry into the transaction. If advance review and approval is not practicable, the committee will review, and, in its discretion, may ratify the related party transaction. The policy also permits the chairman of the committee to review and, if deemed appropriate, approve proposed related party transactions that arise between committee meetings, subject to ratification by the committee at its next meeting. Any related party transactions that are ongoing in nature will be reviewed annually.

A related party transaction reviewed under the policy will be considered approved or ratified if it is authorized by the committee after full disclosure of the related party's interest in the transaction. The committee will review and consider such information regarding the related party transaction as it deems appropriate under the circumstances.

The committee may approve or ratify the transaction only if the committee determines that, under all of the circumstances, the transaction is in or is not inconsistent with Analogic's best interests. The committee may impose any conditions on the related party transaction that it deems appropriate.

In addition to the transactions that are excluded by the instructions to the SEC's related party transaction disclosure rule, the board has determined that the following transactions do not create a material direct or indirect interest on behalf of related parties and, therefore, are not related party transactions for purposes of this policy:

interests arising solely from the related party's position as an executive officer of another entity (whether or not the person is also a director of such entity), that is a participant in the transaction, where

Table of Contents

(a) the related party and all other related parties own in the aggregate less than a 10% equity interest in such entity and (b) the related party and his or her immediate family members are not involved in the negotiation of the terms of the transaction and do not receive any special benefits as a result of the transaction; and

a transaction that is specifically contemplated by provisions of Analogic's charter or By-laws.

The policy provides that transactions involving compensation of executive officers shall be reviewed and approved by the Compensation Committee in the manner specified in its charter.

There were no related party transactions in fiscal 2009.

Director Independence

Under NASDAQ rules applicable to us, a director of Analogic qualifies as an independent director only if, in the opinion of the board, that person does not have a relationship which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The board has determined that none of Mr. Judge, Mr. Melia, Dr. Modic, Dr. Parks, Dr. Steinhauer, Dr. Vandebroek, Mr. Voboril, or Dr. Wilson has, or during the last fiscal year had, a relationship which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director, and that each of these directors is an independent director as defined by NASDAQ Marketplace Rules. The board also has determined that all of the current members of our Audit, Compensation, and Nominating and Corporate Governance Committees are independent as defined under NASDAQ rules.
