If you vote using a gold card provided to you by Oak Street, you can subsequently revoke it by using the **WHITE** proxy card and following its instructions to vote by telephone or Internet, or by signing, dating and returning the **WHITE** proxy card in the postage-paid envelope provided. Only your last-dated proxy will count. Any proxy may be revoked at any time prior to its exercise at the Annual Meeting as described in the Proxy Statement.

Whether or not you attend in person, **it is important** your shares be represented and voted at the meeting. I urge you to sign, date and return the enclosed **WHITE** proxy card or vote via telephone or the Internet as directed on the proxy card, at your earliest convenience.

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Denny's Corporation to be used at the upcoming Annual Meeting of Stockholders. The information provided herein concerns not only Denny's Corporation, but also Denny's, Inc. ("Denny's"), a subsidiary which it wholly owns through another wholly-owned subsidiary, Denny's Holdings, Inc., since substantially all operations of Denny's Corporation are currently conducted through Denny's.

Stockholder Voting

You may vote at the Annual Meeting either by proxy or in person. Only holders of record of common stock of Denny's Corporation, par value \$0.01 per share (the "Common Stock") as of the close of business on March 23, 2010 (the "Record Date") will be entitled to notice of, and to vote at, the Annual Meeting. To vote by proxy, you must either properly execute and return prior to the meeting the **WHITE** proxy card, or follow the instructions set forth in the enclosed **WHITE** proxy card to vote by phone or on the Internet. Where you have appropriately specified how your proxy is to be voted, it will be voted accordingly. If no specifications are made, your proxy will be voted (i) in favor of the eight (8) nominees to the Board of Directors, and (ii) in favor of the selection of KPMG LLP as the independent registered public accounting firm of Denny's Corporation and its subsidiaries (collectively, the "Company") for the year ending December 29, 2010. The Company does not know of any matter that is not referred to herein to be presented for action at the Annual Meeting. If any other matter of business is brought before the Annual Meeting, the proxy holders may vote the proxies at their discretion.

If you execute a proxy, you may revoke it at any time before it is exercised by delivering a written notice to J. Scott Melton, Assistant General Counsel, Corporate Governance Officer and Secretary of Denny's Corporation, either at the Annual Meeting or prior to the meeting date at the Denny's Corporation principal executive offices at 203 East Main Street, Spartanburg, South Carolina 29319, by executing and delivering a later-dated proxy, or by attending the meeting and voting in person. The Board of Directors has determined that, other than Mr. Marchioli, each current member of the Board is independent under NASDAQ listing standards. Each such committee is made up solely of independent directors as defined by NASDAQ listing standards applicable to each committee. The Audit and Finance Committee currently consists of Messrs. Audit Committee Report. A formal written charter was originally adopted by the Audit Committee on March 14, 2000, and subsequently approved and adopted by the Board on May 24, 2000. Thereafter it has been amended and restated on November 12, 2003, August 25, 2006, October 29, 2007 and January 27, 2010. Compensation and Incentives Committee

Summary of Responsibilities. The Compensation and Incentives Committee (the Compensation Committee), which held seven (7) meetings in 2009, is responsible for (i) overseeing the Company's overall compensation program and philosophy, (ii) reviewing and approving compensation of the Chief Executive Officer and senior management of the Company, (iii) administering the Company's short- and long-term incentive plans and other stock or stock-based plans, (iv) overseeing the Company's executive compensation disclosure and issuing the Committee's report as required by the applicable rules and regulations governing the Company's annual proxy statement, (v) reviewing and making recommendations to the Board regarding director compensation, and (vi) overseeing the Company's various benefit plans. For a complete description of the Compensation Committee's power, duties and responsibilities, see the charter of the Compensation Committee which may be found on the Company's website at www.dennys.com.

Process for Determination of Executive and Director Compensation. Executive compensation is determined by the Compensation Committee pursuant to the authority granted to it by the Board. Director Compensation is determined by the Board upon recommendation by the Compensation Committee. In 2009, the Compensation Committee engaged consultant Towers Watson (formerly Towers Perrin) and considered data and analysis prepared by these consultants regarding competitive pay practices among the Company's peer group and restaurant industry to determine the appropriate level of director and executive officer compensation. Additionally, the Committee considered the recommendation of the CEO with respect to compensation levels of executive officers other than the CEO.

Also when making compensation decisions, the Compensation Committee annually analyzes tally sheets prepared for each of the named executive officers. These tally sheets were prepared by our human resources department and our compensation consultant. Each of these tally sheets presents the dollar amount of each component of the named executive officers' compensation, including current cash compensation (base salary and bonus), accumulated deferred compensation balances, outstanding equity awards, retirement benefits, perquisites and any other compensation. These tally sheets reflect the annual compensation for the named executive officers (both target and actual), as well as the potential payments under selected performance scenarios and termination of employment and change-in-control scenarios.

The overall purpose of these tally sheets is to bring together, in one place, all of the elements of actual and potential future compensation of our named executive officers, as well as information about wealth accumulation (discussed in more detail in the Post-Termination Arrangements section of the Compensation Discussion & Analysis section elsewhere in this Proxy Statement), so that the Compensation Committee may analyze both the individual elements of compensation (including the compensation mix) as well as the aggregate total amount of actual and projected compensation. For additional information regarding the basis for determining executive and director compensation, see the Compensation Discussion and Analysis section elsewhere in this Proxy Statement.

Compensation Risk Assessment. A group of senior management from various departments of the Company, under the direction of the Compensation Committee, completed a process by which an assessment was made of the level and materiality of identified risks associated with the Company's compensation practices and policies for its employees which was discussed with the Compensation Committee. Specifically, this group assessed the Company's incentive plans against a set of indicators that included pay mix, performance metrics, target setting/

Table of Contents

pay determination and governance/administration. Based on this assessment, the Compensation Committee determined that the risks arising from the Company's compensation practices and policies are not reasonably likely to have a material adverse impact on the Company.

Compensation Committee Interlocks and Insider Participation. The following persons served as members of the Compensation Committee during the fiscal year ended December 30, 2009: Vera K. Farris (January to May), Brenda J. Lauderback, Michael Montelongo (January to May), Donald R. Shepherd, Donald C. Robinson and Louis P. Neeb (May to December). None of the members of the Compensation Committee were officers or employees of the Company during 2009 or any time prior thereto. During 2009, except as noted in the Related Party Transaction section elsewhere in this Proxy Statement, none of the members of the Compensation Committee had any relationship, directly or indirectly, with the Company requiring disclosure under Item 404 of Regulation S-K, and none of our executive officers served on the compensation committee (or equivalent) or the board of directors of another entity whose executive officers served on our Board or Compensation Committee.

Compensation Committee Report. The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis section of this Proxy Statement and based on this review and discussion, the Compensation Committee has recommended to the Board that the Compensation Discussion and Analysis section be included in the Company's Annual Report on Form 10-K for the year ended December 30, 2009 and this proxy statement.

he or she must be willing to apply sound, independent business judgment;

he or she must have sufficient time to devote to being a member of the Board; and

he or she must be fluent in the English language.

Annually, the Governance Committee will identify the areas of expertise or skill needed on the Board for the upcoming Board term. The Governance Committee will identify potential nominees for director from (1) the slate of current directors, (2) referrals from professional search firms, typically in those instances when the committee identifies a needed skill or expertise not possessed by the current slate of directors, and (3) recommendations from stockholders.

The Governance Committee will evaluate a potential nominee by considering whether the potential nominee meets the minimum qualifications identified by the committee, as well as considering the following factors:

whether the potential nominee has leadership, strategic, or policy setting experience in a complex organization, including any scientific, governmental, educational, or other non-profit organization;

Edgar Filing: DENNYS CORP - Form PREC14A

whether the potential nominee has experience and expertise that is relevant to the Company's business including any specialized business experience, technical expertise, or other specialized skills, and whether the potential nominee has knowledge regarding issues affecting the Company;

whether the potential nominee is highly accomplished in his or her respective field;

whether the potential nominee has high ethical character and a reputation for honesty, integrity, and sound business judgment;

whether the potential nominee is independent, as defined by listing standards, whether he or she is free of any conflict of interest or the appearance of any conflict of interest, and whether he or she is willing and able to represent the interests of all Denny's Corporation stockholders;

any factor affecting the ability or willingness of the potential nominee to devote sufficient time to the Board's activities and to enhance his or her understanding of the Company's business; and

how the potential nominee would contribute to diversity, with a view toward the needs of the board of directors as a whole. Additionally, with respect to an incumbent director whom the Governance Committee is considering as a potential nominee for re-election, the committee will review and consider the incumbent director's service during his or her term, including the number of meetings attended, level of participation, and overall contribution to the Company. The manner in which the committee evaluates a potential nominee will not differ based on whether the potential nominee is recommended by a stockholder.

The Company did pay fees to a professional search firm to help identify and evaluate potential nominees for director to present to stockholders for election at the 2010 Annual Meeting. The Governance Committee did not receive, by December 14, 2009 (the 120th calendar day before the first anniversary of the date of release of the 2009 proxy statement), any recommended nominee from a stockholder who beneficially owns more than 5% of Common Stock or from a group of stockholders who beneficially own, in the aggregate, more than 5% of the Common Stock.

Board Diversity. The Governance Committee and Board are committed to a diversified membership, placing a high priority on diversity, with a particular emphasis on individuals who satisfy the factors outlined above and individuals with a wide variety of management, operating, and restaurant experience and skills in addition to other attributes such as race, gender and national origin. The Governance Committee continues to look for opportunity to progress its diversity initiatives further.

Board Leadership Structure and Risk Oversight

For the past eight years, the Company has separated the positions of Chief Executive Officer and Chairman of the Board and has appointed an independent Chairman. The Company believes having a separate CEO and Chairman is an important part of its overall commitment to the highest standards of corporate governance and believes that it allows the Board to effectively develop and oversee its business strategy and monitor risk. The separate positions also allow the Board to freely perform its management oversight function. Additionally, each member of the Board, with the exception of Mr. Marchioli, is independent under the applicable standards. Although the Company has in the past utilized a lead director, due to its independent Chairman, it is no longer necessary to do so.

The Board of Directors has the ultimate responsibility for risk management. However, the Board has delegated the responsibility of risk assessment and risk management to the Audit Committee. Periodically, with the assistance of management, the Audit Committee undertakes an extensive company-wide risk assessment. This extensive risk assessment identifies the main strategic, operational and financial risks the Company is facing based on its strategic objectives. The assessment also identifies the steps that management is or should be taking to address and mitigate exposure to such risks and the Audit Committee will periodically receive reports from management regarding the steps that management is taking to address and mitigate such risks.

Board Meeting Information

During 2009, there were eight (8) meetings of the Board. Each director serving on the Board in 2009 attended at least 75% of the meetings of the Board (and, as applicable, committees thereof) during the year.

Table of Contents**Communications Between Security Holders and Board of Directors**

The process for security holders of Denny's Corporation to send communications to the Board is as follows. Security holders may send written communications to the Board or any one or more of the individual members of the Board by directing such communication to the Secretary of Denny's Corporation by mail in the care of the Secretary, at our principal executive offices, or by e-mail to smelton@dennys.com. All written communications will be compiled by the Secretary and promptly submitted to the individual directors being addressed or to the Chair of the committee whose areas of responsibility includes the specific topic addressed by such communication, or in all other cases, to the Chairman of the Board.

Board Member Attendance at Annual Meetings of Stockholders

It is the policy of Denny's Corporation that all of the members of the Board and all nominees for election to the Board at the annual meeting of stockholders attend such meeting except in cases of extraordinary circumstances. All current directors attended last year's annual meeting of stockholders, with the exception of Laysha Ward, who was appointed on January 26, 2010.

Director Compensation

For a description of the compensation of the directors, please see the Director Compensation Table and the narrative description following it elsewhere in this Proxy Statement.

SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

As a result of the adoption of the Sarbanes-Oxley Act of 2002, and related regulations adopted by the SEC, and by each national securities exchange, audit committees of public companies are formally charged with the responsibility for the appointment, compensation, retention and oversight of the independent registered public accounting firm that serves as the Company's independent auditor. The Audit Committee takes this responsibility very seriously and for the year 2010, the Audit Committee has selected KPMG as the independent registered public accounting firm of the Company. This selection is submitted for ratification of and approval by the stockholders at this Annual Meeting. Representatives of KPMG are expected to attend the Annual Meeting. They will have an opportunity to make a statement, if they so desire, and to respond to appropriate questions. If the stockholders do not ratify this selection, other independent registered public accounting firms will be considered by the Audit Committee.

2009 and 2008 Audit Information

KPMG served as the Company's independent registered public accounting firm to audit the Company's financial statements for the fiscal years December 31, 2008 and December 30, 2009. The fees billed in the fiscal years ended December 31, 2008 and December 30, 2009 for KPMG's services to the Company were:

	Year ended December 31, 2008	Year ended December 30, 2009
Audit Fees	\$ 589,000	\$ 590,000
Audit-Related Fees	53,600	45,000
Tax Fees		
All Other Fees		
Total Fees	\$ 642,600	\$ 635,000

Table of Contents

In the above table, in accordance with applicable SEC rules:

audit fees are fees billed by the independent registered public accounting firm for professional services for the audit of the annual Consolidated Financial Statements included in the Company's Form 10-K and review of the Condensed Consolidated Financial Statements included in the Company's Form 10-Qs, or for services that are normally provided by the independent registered public accounting firm in connection with statutory and regulatory filings or engagements, including comfort letters, consents, registration statements, statutory audits and reports on internal controls required by the Sarbanes Oxley Act of 2002;

audit-related fees are fees billed by the independent registered public accounting firm for assurance and related services that are reasonably related to the performance of the audit or review of the financial statements, and generally include fees for audits of the Company's employee benefit plans and audit or attest services not required by statute or regulation;

tax fees are fees billed by the independent registered public accounting firm for professional services for tax compliance, tax advice, and tax planning; and

all other fees are fees billed by the independent registered public accounting firm to the Company for any services not included in the first three categories above.

The Audit Committee has considered and determined that the services for which audit-related fees were billed were compatible with KPMG maintaining its independence.

Audit Committee's Pre-approval Policies and Procedures

It is the policy of the Audit Committee to pre-approve all audit and permitted non-audit services proposed to be performed by the Company's independent registered public accounting firm. The process for such pre-approval is typically as follows. Audit Committee pre-approval is sought at one of the committee's regularly scheduled meetings following the presentation of information at such meeting detailing the particular services proposed to be performed. Additionally, the Chair of the Audit Committee has been delegated the authority by the committee to pre-approve, where necessary, such services requiring pre-approval in between regularly scheduled committee meetings. The Chair will report any such decisions at the committee's next scheduled meeting. In 2009, the services described above were pre-approved by the Audit Committee pursuant to policy of the Audit Committee, and none of such services were approved pursuant to the exception provided by Rule 2-01(c)(7)(i)(C) under Regulation S-X.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This is an overview and analysis of the compensation objectives and policies for our executive officers and the material compensation decisions we made with respect to such officers for 2009. This information should be read in conjunction with the compensation tables, related narratives, and notes contained later in this Proxy Statement. This discussion focuses on the compensation awarded to, earned by, and paid to the following individuals, who were our named executive officers:

Nelson J. Marchioli, our President and Chief Executive Officer;

F. Mark Wolfinger, our Executive Vice President, Chief Administrative Officer and Chief Financial Officer;

Janis S. Emplit, our former Executive Vice President, Chief Operating Officer (separated from Denny's on December 23, 2009); and

Mark E. Chmiel, our former Executive Vice President, Chief Marketing and Innovation Officer (separated from Denny's on December 30, 2009).

Summary of 2009 Performance

and its Impact on Executive Compensation

An integral part of the Company's compensation strategy is the alignment of incentive targets and goals under the Company's compensation programs with the Company's strategic goals. For 2009, such strategic goals included (i) achieving System-Wide Sales of \$2.277 billion and Adjusted Income Before Taxes of \$20.0 million, (ii) the continued selling of restaurant units under the Company's Franchise Growth Initiative (FGI), and (iii) the continued transformation of the Company's organizational structure, through the Franchise Services Initiative (FSI), to better support the transition to a franchised-focused business model pursuant to FGI. The Company's performance in 2009 was highlighted by: (i) increased profitability – 2009 Adjusted Income Before Taxes was \$30.0 million, \$10 million greater than our target and a growth of 30% from 2008, and (ii) the continued successful transition to a more franchised-based operating structure – sold 81 units to franchisees through FGI, introduced Brand Building Committees in the areas of Marketing, Operations and Development (jointly attended by the Company and Franchisees), and continued to reduce administrative and support costs. This performance resulted in significant achievement of targets set forth under the Company's annual corporate incentive program and the company's Paradigm Shift Incentive Plan, which led to payouts to participants including our named executive officers as further described herein.

Economic Impact on Compensation Decisions for 2009 and 2010

In November 2008, the Compensation Committee, in response to the economic downturn and its potential impact on the Company, determined that there would be no annual base salary increases for Company employees, including the Company's executive officers. Additionally, in connection with the Company's 2010 strategic plan, the Committee determined that there would be no general, across the board salary increases for Company employees, including the Company's executive officers, for 2010. In early 2010, the Compensation Committee certified and approved the partial payout of incentives that were earned under the Company's 2009 Corporate Incentive Program pursuant to its terms as further described herein.

Compensation Outlook for 2010

The Compensation Committee, along with Denny's senior management team, is committed to ensuring that Denny's compensation practices and programs are competitive, motivational, aligned with shareholders' interests, and appropriately reward employees, including the named executive officers, for achievement of the Company's strategic objectives.

Table of Contents

While the Company had a more profitable year for 2009, Denny's management and Compensation Committee have implemented changes to the 2010 compensation practices and incentive plans to ensure a stronger alignment with shareholders' interests and an enhanced focus on the Company's achievement of our same-store sales goal.

Therefore we will only reward for positive same store sales performance under the 2010 Corporate Incentive Plan (CIP) and other field incentive plans. As approved by the Compensation Committee on January 26, 2010, partial payouts will not be made for achieving a threshold (or less than target) level of sales. Instead, awards will only be earned by employees, including the named executive officers, by achieving or exceeding the target same-store sales metric. In addition, to further strengthen the focus on achieving same-store sales targets, 75% of the 2010 CIP (and other field incentive plans) is tied to this goal.

To ensure a continued focus on generating shareholder value, the 2010 Denny's Long-Term Performance Incentive Program (LTPIP) approved by the Compensation Committee on January 26, 2010 retains a Total Shareholder Return metric. Participants in this Program can earn from 0% to 150% of the target performance shares and target cash award based on the results of Denny's TSR compared to the TSR's of our Peer Group over a three-year performance period.

2010 LTPIP award levels remain below market relative to our peers and the Company's targeted market position. In addition, Mr. Marchioli and the Compensation Committee agreed that 2009 sales results did not warrant him receiving an equity award and he will not participate in any LTPIP awards for 2010.

In connection with the 2010 Company strategic plan which was approved by the Board of Directors on November 11, 2009, the Committee suspended for a second year general, across the board salary increases, including those for the named executive officers. We will rely on incentive plans to reward optimal performance in achieving the Company's strategic objectives and to align with shareholder interests.

Compensation Objective and Design

The Compensation Committee developed compensation programs for our named executive officers with guidance and analysis from our consultant, Towers Watson. The overall design objective of a competitive compensation program is to attract, motivate and retain top quality leadership talent while ensuring that their interests are aligned with the interests of our shareholders and that their efforts are focused on the Company's key strategic objectives. When evaluating and designing compensation programs, the Committee reviews market survey data, proxy information from our restaurant peer group, and industry compensation practices.

The Company's rewards strategy is designed to be integrated across time, performance metrics and types of payout. The 2010 CIP, for example, rewards executives based on the attainment of near-term internal goals, specifically annual sales and profitability, and is paid in cash. Longer-term equity vehicles such as performance shares and performance units reward executives for stock price performance relative to the Peer Group over a three-year period and are settled in stock (performance shares) and cash (performance units). The Company also uses stock options, which have a ten-year life, and reward executives for long-term, absolute stock price growth.

Key objectives of the Company's rewards strategy and the executive compensation program are to:

- i provide base compensation for day-to-day responsibilities,
- i reward the achievement of key annual performance goals deemed critical to the Company's overall success,
- i reward the long-term success of the Company in a manner that is directly linked to shareholder value creation,

Table of Contents

i reward the completion of key components of the Company’s innovation strategies, and

i provide health care and financial security benefits to our executive officers similar to those provided for all our management employees.

To accomplish these five objectives, we provided executive officers with a 2009 compensation package that included the following elements: (i) base salary, (ii) annual cash incentive bonus opportunities, (iii) long-term equity incentives, (iv) a paradigm shift incentive program, and (v) benefits and perquisites. Each of these compensation elements is described and analyzed in further detail below.

Use of Market Data and Peer Groups

To assist in evaluating and determining competitive levels of compensation for the various elements of pay, the Compensation Committee relied in 2009 upon various sources of data which included:

Proxy data collected and analyzed from a peer group of 20 restaurant companies operating in the family dining, casual and quick service segments. This restaurant peer group consisted of the following companies:

Bob Evans Farms, Inc.	Darden Restaurants, Inc.	Red Robin Gourmet Burgers, Inc.
Brinker International, Inc.	DineEquity, Inc.	Ruby Tuesday, Inc.
Buffalo Wild Wings, Inc.	Domino’s Pizza, Inc.	Sonic Corp.
Burger King Holdings, Inc.	Jack in the Box Inc.	The Steak ‘n Shake Company
California Pizza Kitchen, Inc.	O’Charley’s Inc.	Texas Roadhouse, Inc.
Cracker Barrel Old Country Store, Inc.	Panera Bread Company	Wendy’s/Arby’s Group, Inc.
CKE Restaurants, Inc.	Papa John’s International, Inc.	

The peer group includes the public restaurant companies which most nearly match the Company’s revenue, system-wide sales, geographic coverage, and mix of franchised and corporate-owned stores. The Committee believes that this peer group presents an accurate picture of industry practices.

Data from the peer group is used to assess market practices for executive pay, the use and mix of pay devices, and perquisites and benefits.

Competitive compensation market analysis of published surveys from the Chain Restaurant Compensation Association (covering the chain restaurant industry) and Towers Watson U.S. CDB General Industry Executive Database, which provide aggregated information on base salary, total cash (base salary and bonus), and total direct compensation (base salary, bonus and long-term incentives) for each benchmark executive position.

Additional data on long-term incentive opportunities in the hospitality, restaurant and retail industries, for a general understanding of current compensation practices.

The Company strives to provide pay opportunities (e.g., base salary, target bonus and long-term incentive awards) that are at approximately the competitive median (i.e., the size-adjusted 50th percentile) of our restaurant peer group. Company incentive plans are designed to have significant differentiation in payouts based on performance. As a result, actual compensation payouts are intended to be market-appropriate given our performance for the applicable year or period. The Compensation Committee annually analyzes tally sheets for each executive officer (as further described in the Compensation Committee section elsewhere in this Proxy Statement). This review helps ensure that executive compensation decisions are aligned with shareholder interests, that termination provisions are appropriate and in-line with market practices, and that changes in the value of executive share holdings and unvested incentives track changes in shareholder value.

Table of Contents

Base Salary

In General. The objective of base salary is to compensate the executive officer for day-to-day responsibilities and sustained performance relative to his or her position. The base salary program is designed to be competitive relative to all companies of a similar size and our peer group while recognizing the abilities, accomplishments and contributions of each executive officer.

How Amounts are Determined. Median base salary levels of our restaurant peer group and survey data were reviewed on a rank-order basis and, where possible, a position-specific basis. As noted above, the Compensation Committee instituted a salary freeze for the named executive officers for 2009 and 2010. However, when base salary adjustments are made, the Compensation Committee generally considers (i) existing base salary levels, (ii) experience and time in position, (iii) individual performance, (iv) internal equity, and (v) current and past responsibilities with the Company relative to the market and proxy data for similar positions. With the exception of Mr. Marchioli, executive officers' individual performances were evaluated utilizing the performance appraisal system used for all other Company employees. Mr. Marchioli's performance was evaluated by the Compensation Committee based upon its annual review of his performance relative to his individual pre-established goals and objectives. These objectives were set by the Committee specifically to align with the Company's strategic plan goals for 2009.

Pursuant to Mr. Marchioli's current employment agreement as amended, the Compensation Committee reviews his base salary annually and adjusts his salary, if warranted, based upon the Committee's annual review of his performance and other factors discussed herein. (See the Employment Agreements section later in this Proxy Statement for additional information).

No Salary Adjustments for 2009 and 2010. In November 2008, the Compensation Committee, in response to the economic downturn and its potential impact on the Company, determined that there would be no annual salary increases for Company employees including the Company's executive officers (that were to be based upon 2008 individual performance evaluations and made effective in early 2009). Consequently, for 2009, base salaries of the named executive officers remained at the same level as in 2008: Mr. Marchioli \$780,000, Mr. Wolfinger \$490,000, Ms. Emplit \$390,000, and Mr. Chmiel \$350,000. A similar year-end review of base salaries and the Company's performance at the end of 2009, in conjunction with the approval of the 2010 Company strategic plan, resulted in no adjustments to the base salaries of the named executive officers for 2010.

Annual Cash Incentives

In General. The Compensation Committee adopted the Denny's 2009 Corporate Incentive Program (the 2009 CIP), a variable pay component for non-field management and staff, including our named executive officers, structured around Company performance, employee contribution and Company affordability, as part of the named executive officers' compensation packages for 2009. The goal of the 2009 CIP was to reward the achievement during the year of two key performance goals deemed critical to the Company's overall success: increasing System-Wide Sales and growing Adjusted Income Before Taxes. The 2009 CIP was offered pursuant to the Denny's Corporation 2008 Omnibus Incentive Compensation Plan (the Denny's 2008 Omnibus Plan) to each named executive officer with the exception of Mr. Marchioli, whose 2009 CIP opportunity was offered under the Denny's Corporation 2004 Omnibus Incentive Compensation Plan (the Denny's 2004 Omnibus Plan).

What the Pay Element Rewards. The 2009 CIP was designed to promote the alignment of individual goals with the Company's strategic plan goals by creating incentives for participants targeted toward increased Company sales and profitability.

How Target Bonuses were Determined. Under the 2009 CIP, a participant was eligible to earn a target incentive award (Target Award) equal to a percentage of his or her base salary, depending on the participant's position. Target Awards are determined for the named executive officers based upon a comparison of the

Table of Contents

executive's incentive level with published survey data and proxy information from our restaurant peer group. 2009 CIP payout targets (expressed as a percentage of base salary) were not changed from 2008. The Committee feels that target payout levels for the named executive officers are at least competitive with market practices. Based on the Company failing to meet system-wide sales targets in 2009, 2009 CIP payouts were below target, resulting in total annual compensation below targeted levels.

The Target Awards for each of the named executive officers under the 2009 CIP were as follows:

Name	Target as a Percentage of Base Salary	Target Amount
Nelson J. Marchioli	100%	\$ 780,000
F. Mark Wolfinger	75%	\$ 367,500
Janis S. Emplit	75%	\$ 292,500
Mark E. Chmiel	75%	\$ 262,500

Performance Goals for 2009 Bonuses. Target Awards are earned by participants based on the achievement of certain pre-established annual performance goals for two performance categories: (i) System-Wide Sales; and (ii) Adjusted Income Before Taxes. The amount of actual incentives earned may range from 25% to 50% of the Target Award, if certain threshold goals are met, to 150% of the Target Award, if targeted goals are exceeded. No payout is made if a threshold level of performance is not achieved. Additionally, participants' individual performance ratings (which for Mr. Marchioli was determined by the Compensation Committee, as discussed further above, and for each other executive officer, was determined by Mr. Marchioli, with the approval of the Compensation Committee) impact the amount, resulting in a possible incentive range from 0% to 187.5% of a participant's Target Award. For example, an employee with a sub-par performance rating receives no payout, whereas a superior performance rating can earn up to 187.5% of a participant's target award if the Company exceeds the top end of the performance range. The performance goals and the associated payouts for 2009 were as follows:

Performance Category	At Threshold		At Target		At Maximum	
	Performance Goal	Payout(1)	Performance Goal	Payout(1)	Performance Goal	Payout(1)
System-wide Sales	\$ 2.231 billion	25%	\$ 2.277 billion	50%	\$ 2.368 billion	75%
Adjusted Income Before Taxes(2)	\$ 17.0 million	25%	\$ 20.0 million	50%	\$ 30.0 million	75%
Total Payout		25% to 50%		50% to 100%		75% to 150%

(1) As a percentage of the participants' Target Award.

(2) For a reconciliation of net income to Adjusted Income Before Taxes, a non-GAAP-based financial measure, see below.

Payouts for 2009 Performance/Certified Results. The Compensation Committee preliminarily reviewed the 2009 performance achievement relative to the identified criteria on January 26, 2010, and certified final results on February 16, 2010. Set forth below are the actual results of the program metrics for 2009 along with the reconciliation of net income to the non-GAAP-based financial measure, Adjusted Income Before Taxes:

	Year Ended December 30, 2009 (In thousands unless shown otherwise)
System-wide Sales	\$ 2,226 billion
Net Income	\$ 41,554
Provision for income taxes	\$ 1,400
Operating gains, losses and other charges, net	\$ (14,483)

Edgar Filing: DENNYS CORP - Form PREC14A

Other non-operating income, net	\$	(3,125)
Share-based compensation	\$	4,671
Adjusted Income Before Taxes	\$	30,017

Table of Contents

Based upon actual 2009 performance, no payout was earned with respect to the system-wide sales goal, and a payout of 75% of Target Awards was earned pursuant to the Adjusted Income Before Taxes goal. This amount was further adjusted upward for Mr. Wolfinger based on his individual performance rating, resulting in him being paid 82.5% of his Target Award. As noted in the section 2010 Outlook, changes have been implemented for the 2010 CIP with a greater focus on same-store sales growth.

Long-Term Equity Incentive Compensation

In General. A key component of the total compensation package of our executive officers is a long-term equity incentive program that is designed to meet the following objectives:

- (i) Reward long-term Company profitability and growth,
- (ii) Promote increased shareholder value and align our executives' interests with the interests of our shareholders,
- (iii) Offer competitive awards aligned with market practice,
- (iv) Promote stock ownership among executives,
- (v) Encourage a long-term perspective among executive officers, and
- (vi) Provide an incentive for executives to remain with the Company.

For 2009, with the assistance of Towers Watson, the Compensation Committee reviewed the Company's long-term incentive structure to develop a strategy that supports the Company's strategic business goals, aligns with the interests of shareholders, and improves the program's competitiveness, through a plan that could be used year after year to provide continuity, better understanding of the metrics, and an enhanced focus on a designated key metric.

To accomplish these objectives and as part of the Company's reward strategy discussed previously, the long-term incentive program for our executive officers for 2009 (the Denny's Long-Term Performance Incentive Program or 2009 LTPIP) consisted of stock options, performance shares and performance cash awards (performance units).

How Total Long-Term Incentive Grant Amounts were Determined. The Compensation Committee reviewed two sets of market data to determine competitive levels of long-term incentive opportunities for 2009: (1) Towers Watson U.S. CDB General Industry Executive Database, and (2) restaurant peer group proxy data. The Committee strives to grant LTI awards with an expected value at grant approximately equal to market median practices for the Peer Group and similarly-sized general industry companies. In 2009, however, the Committee approved LTI awards well below market median practices (and the Committee's pay philosophy) due to the Committee's desire in light of the economic environment to reduce share usage, share overhang and compensation costs. The total economic value of the awards was delivered 50% in stock options, 25% as a targeted number of performance shares, and 25% as a target cash award (performance cash awards).

The Company's long-term incentive program supports the stated objectives by rewarding plan participants for stock price performance over a three to ten year period from the date of grant.

Approximately half of the long-term incentive value and the majority of granted shares is composed of stock options, which reward the recipient only if and to the extent that the Company's stock price increases from the date of grant. Options remain outstanding for up to ten years. Options are the largest long-term pay component because they have the most direct link to shareholder returns and have a longer-term focus than other pay elements.

Table of Contents

The other half of each named executive officer's long-term incentives are composed of performance shares and units (each equaling approximately 25% of the total value of the long-term incentive). The performance shares and units have value to the extent that the Company's total shareholder return over a three-year period equals or exceeds peer companies' TSR performance, with no payout at all if relative TSR performance is below a threshold amount. These three devices balance mid-term and long-term shareholder value creation in excess of peer company results, encourage executive retention, and encourage stock ownership, while balancing share dilution and cash expenses.

Timing of Awards. The awards under the 2009 LTPIP were granted by the Compensation Committee on March 31, 2009. Pursuant to the Company's Equity Awards Policy and Procedures adopted by the Committee on January 23, 2007 and as amended on January 26, 2010, annual broad-based awards are awarded at the fair market value on the date of grant and are granted during the 1st quarter of the fiscal year at a regularly scheduled meeting of the Compensation Committee.

Stock Options

What the Element Rewards. Stock options reward common stock price increases measured from the market price on the date of grant, over a 10-year term, and reward continued tenure over a 3-year vesting term.

Why the Company Uses the Element. Stock options are included in the long-term incentive program to align executives' interests with those of stockholders by rewarding share price appreciation while encouraging retention.

2009 Option Grants. Stock options granted to the named executive officers are set forth in the 2009 Grants of Plan-Based Awards Table later in this Proxy Statement. These were granted consistent with the Company's practice and policy of setting an exercise price equal to the closing price of the Company's Common Stock on the date of grant.

Performance Shares and Performance Cash Awards

What the Element Rewards. The performance share and performance cash awards under the 2009 LTPIP reward corporate performance that results in increases in the price of our stock and generates increased shareholder value.

Why the Company Uses the Element. These awards:

- (i) focus Denny's leadership team on the growth of the Company's Common Stock price,
- (ii) emphasize generating additional value for our shareholders through total shareholder return,
- (iii) further align the interests of our executives and shareholders, and
- (iv) encourage executive retention with a three-year performance/vesting period.

2009 Grants. Under the program, the named executive officers and selected members of management were awarded a target number of performance shares and performance cash awards, which will be adjusted to between 0% and 200% of the number and amount originally granted, based on the Company's Total Shareholder Return (TSR) ranking relative to the Company's peer group (listed previously) over the three-year performance period beginning January 1, 2009 and ending December 28, 2011. Performance shares and performance cash awards will vest and be earned at the end of the performance period. The performance shares convert to and are settled in shares of Denny's stock on a one-for-one basis. The target performance share and performance cash awards for each named executive officer are provided in the 2009 Grants of Plan-Based Awards Table later in this Proxy Statement.

Table of Contents

Performance will be measured based on the TSR of Denny’s stock compared to the TSR of the stocks of the Company’s peer group over the three-year performance period. TSR, which combines share price appreciation and dividends paid to show a total return to the shareholder, will be calculated as follows:

$$\text{TSR} = (\text{ending stock price} - \text{beginning stock price} + \text{reinvested dividends}) / \text{beginning stock price}$$

Denny’s TSR performance ranking compared to its Peer Group determines the payout level as shown below:

Paradigm Shift Incentive Program

In General. On November 28, 2007, the Compensation Committee approved and adopted an incentive compensation arrangement for all executive officers (excluding Mr. Marchioli) and certain key employees known as the Denny’s Paradigm Shift Incentive Program (the Paradigm Shift Incentive Program).

Under the Paradigm Shift Incentive Program (offered pursuant to the Denny’s 2004 and 2008 Omnibus Plans), as originally implemented, executive officer participants were eligible to earn cash awards over a three year period (from 2007 to 2009), depending on their level of participation and responsibility, in attaining predetermined milestones/metrics supporting the Company’s Franchise Growth Initiative, a program to sell and convert Company restaurants to franchisees, and other process and innovations initiatives designed to strategically transform our operating model and energize the Denny’s brand. Awards were paid on a prorated basis at the end of the 2nd and 4th quarters. For 2009, FGI was the only remaining element of the Paradigm Shift Incentive Program.

What the Pay Element Rewards. The Paradigm Shift Incentive Program as amended for 2009 was designed to reward the completion of certain defined milestones established for the Company’s Franchise Growth Initiative (FGI).

Why the Company Uses the Element. The Paradigm Shift Incentive Program was designed to encourage the Company’s executive officers to work collaboratively to execute significant culture changes and paradigm shifts, such as the FGI program, that transformed the Company’s operating model.

How Cash Awards were Determined. FGI cash award payouts were based on the units sold to franchisees under the program as compared to the three-year targeted milestone amount of 306 units, above a pre-set threshold for each year. The percentage of units sold for the year (as compared to the three-year target) was then multiplied by the total award opportunity for the respective executive officer (which for the named executive officers ranged from \$60,000 to \$125,000) to determine participants’ cash award amounts. The Company selected restaurants for divestiture through the FGI program, and then terms of sale, with the goal of creating shareholder value while furthering its strategic objectives of focusing Company operations in fewer markets around higher volume restaurants; encouraging franchise development; and expanding the size and experience of the franchise base. The successful adherence to these objectives is shown in the progressively improved profitability of the Company overall, as well as the Company-operated restaurants, since the FGI program began in 2007.

2009 Performance Results/Program Payouts. 81 restaurants were sold to franchisees pursuant to FGI in 2009, which exceeded the pre-set threshold amount of 12 units and resulted in payments for participants ranging from \$15,900 to \$33,125. Actual payouts received by each named executive officer as a result of the achieved performance are provided in the Summary Compensation Table later in this Proxy Statement.

Benefits and Perquisites

In General. Company executives are eligible to participate on the same basis as other salaried employees in health and welfare plans, qualified retirement and savings plans, and other benefit plans intended to provide a safety net of coverage for various events, such as death, disability and retirement. Along with other members of the management team, the named executive officers also participate in a non-qualified savings plan intended to allow them to contribute to a retirement plan without regard to IRS limits on the amount of earned compensation that can be voluntarily deferred into a 401k retirement plan. The named executive officers also receive certain perquisites including telecommunication allowances, car allowances and reimbursement for executive physicals. These perquisites are limited and consistent with those of restaurant and other companies of similar size.

Retirement and Savings Plans

Pension Plan. The Company's Pension Plan (known as the Advantica Pension Plan) was frozen to new participants on January 1, 2000 and for benefit accrual purposes as of December 31, 2004. Only one of the named executive officers (Ms. Emplit) had accrued pension benefits under the plan, which are held under an ancillary, non-qualified plan due to the limits on benefits and compensation under the Internal Revenue Code of 1986, as amended (the Code). There were no new benefit accruals to any of the named executive officers in 2009.

Deferred Compensation Plan/401(k) Plan. Generally, all employees are eligible to participate in the Company's 401(k) Plan, but due to IRS limits, most executives are not eligible to receive the Company's matching contribution of up to three percent of compensation under the 401(k) Plan. Therefore, a non-qualified deferred compensation plan is offered to certain management level employees, including the named executive officers, to provide retirement benefits similar to those available to other Denny's employees. The deferred compensation plan lets participants: (i) defer up to 50% of salary and 100% of annual incentive bonus on a pre-tax basis, and (ii) receive a Company match up to three percent, which is the match offered to all employees in the Company's 401(k) plan.

Post-Termination Payments

In General.

Mr. Wolfinger is a participant in the Denny's Corporation Executive Severance Pay Plan (the Severance Plan). The Severance Plan was adopted in January 2008 to provide severance payments and benefits to our executive officers in a consistent manner. In the event of a participant's employment termination without cause or for good reason (as such terms are defined in the Severance Plan), the Severance Plan provides for, among other items, salary continuation and health benefits for 12 months. Under the Severance Plan's change in control provisions, a participant is entitled to an enhanced severance payment plus health benefits for 24 months. Two events must take place—a termination in connection with a change in control of the Company—before a participant is entitled to these enhanced benefits. Under the Severance Plan, no benefits are payable following a termination for cause or voluntary termination (resignation). Potential benefits under the Severance Plan for Mr. Wolfinger are discussed further under the section entitled "Summary of Termination Payments and Benefits" later in this Proxy Statement.

Because we maintain an Employment Agreement with Mr. Marchioli that contains severance provisions beyond the scope of the Severance Plan, Mr. Marchioli is not a participant in the Severance Plan. For more information regarding these specific provisions for Mr. Marchioli, please see the "Summary of Termination Payments and Benefits" section later in this Proxy Statement.

Why the Company Uses the Element. We provide involuntary termination severance benefits to protect individuals from events outside their control and to offer compensation packages similar to those commonly found in our market for competing executive talent. Furthermore, we provide enhanced benefits in the event of a change in control to protect against disruption during change in control activities.

Post-Termination Payments in 2009. On December 18, 2009, the Company announced the separations from the Company of Ms. Emplit and Mr. Chmiel. Pursuant to these separations, Ms. Emplit's employment with the Company ended on December 23, 2009, and Mr. Chmiel's employment with the Company ended on December 30, 2009.

Upon her departure, Ms. Emplit was paid the severance benefits provided under her agreement with the Company dated February 9, 2000 as amended December 12, 2008. In addition, Ms. Emplit was granted eligibility to receive payouts under existing incentive plans and programs as if she had remained employed until the end of the Company's fiscal year. (See the Employment Agreements section later in this Proxy Statement for additional information). Upon his departure, Mr. Chmiel was paid severance benefits pursuant to the Severance Plan. For more information regarding the severance benefits paid to Ms. Emplit and Mr. Chmiel, see the section entitled Summary of Termination Payments and Benefits later in this Proxy Statement.

Tax Considerations

Section 162(m) of the Code places a limit of \$1 million on the amount of compensation that we may deduct in any year with respect to any one of our named executive officers. This limitation does not apply to compensation that meets the requirements under Section 162(m) for qualified performance-based compensation. The 2009 CIP and the 2009 LTIP were designed to meet the requirements of Section 162(m) and be fully deductible by the Company. The Committee intends to maximize deductibility of executive compensation while retaining some discretion to compensate executives in a manner commensurate with performance and the competitive landscape for executive talent.

Table of Contents**Pension Benefits Table**

The following table sets forth information with respect to the Advantica Pension Plan (the Pension Plan) and ancillary plan, which provide for payments or other benefits to Ms. Emplit at, following, or in connection with retirement. The other named executive officers do not participate in the Pension Plan or ancillary plan because the plans were frozen to new participants on January 1, 2000.

Name	Plan Name	Number of Years of Credited Service	Present Value of Accumulated Benefit(1)	Payments During Last Fiscal Year
Nelson J. Marchioli	n/a		\$	\$
F. Mark Wolfinger	n/a		\$	\$
Mark E. Chmiel	n/a		\$	\$
Janis S. Emplit	The Advantica Pension Plan	8	\$ 20,342	\$ 199,815

(1) The amount for Ms. Emplit represents the \$20,342 present value of accumulated benefits in the Pension Plan and the \$0 present value of accumulated benefits in the ancillary plan.

The Advantica Pension Plan (the Pension Plan) is a noncontributory tax qualified defined benefit retirement plan maintained by Denny s. As of December 31, 1999, no new participants were allowed into the Pension Plan and, as of December 31, 2004, all benefit accruals were frozen. During the period between December 31, 1999 and 2004, all pension benefit accruals for a select group of management and highly compensated employees were earned under a non-qualified ancillary plan, which provided for benefits limited by the limits on benefits and compensation under the Internal Revenue Code of 1986, as amended. As a result of these events, Ms. Emplit is the only named executive officer who participates in the Pension Plan and ancillary plan and who has not accrued any benefit after December 31, 2004.

The table above shows the estimated annual benefits for a single life annuity that could be payable under the Pension Plan and the ancillary plan upon a person s normal retirement at age 65. Details on the assumptions made in the valuation of these awards can be found in Note 12 to the Consolidated Financial Statements in our Form 10-K filed on March 12, 2010.

Under the Pension Plan, a participant s annual retirement benefit at normal retirement age is calculated by multiplying the number of years of participation in the Pension Plan (not to exceed 35 years, and not including years after 1999 for highly compensated participants or years after 2004 for other participants) by the sum of: (i) 1 % of the average compensation (which generally consists of base salary and any year-end bonus) paid during 60 consecutive calendar months chosen to produce the highest average (the Average Compensation) plus (ii) an additional 0.5 % of the Average Compensation in excess of the average Social Security wage base. Benefits payable cannot exceed 50% of the Average Compensation. Plan benefits are normally paid in the form of a life annuity or, if the retiree is married, a joint and survivor annuity.

Employees may retire as early as age 55 with 5 years of service. Employees with age and service equaling or exceeding 85 and who are within 5 years of the normal retirement age will receive no reduction of accrued benefits. Employees who are at least 55 years of age with 15 years of service will receive a reduction of 3 % in accrued benefits for the first 5 years prior to normal retirement date and 6 % for the next 5 years. Accrued benefits for employees retiring with less than 15 years of service will be actuarially reduced. Retirement benefits are fully vested after a participant completes 5 years of service.

Table of Contents**Nonqualified Deferred Compensation Table**

The following table sets forth information with respect to Denny's, Inc. Deferred Compensation Plan which provides for the deferral of compensation for the named executive officers that is not tax-qualified.

Janis S. Emplit	\$ 104,942	\$ 11,700	\$ 176,594	\$	\$ 953,947

- (1) Amounts in this column are reported as 2009 compensation in the Salary column of the Summary Compensation Table.
- (2) Amounts included in this column are reported as 2009 compensation in the All Other Compensation column of the Summary Compensation Table.
- (3) Aggregate balances as of December 30, 2009 include the following amounts that were reported as compensation to the named executive officers in the Summary Compensation Table for years prior to 2009: \$716,189 for Mr. Marchioli; \$113,211 Mr. Wolfinger; \$25,398 for Mr. Chmiel and \$355,905 for Ms. Emplit.

The Denny's Inc. Deferred Compensation Plan (the "Deferred Compensation Plan") allows participants to defer current compensation on a pre-tax basis. Participation is restricted to a select group of management or highly compensated employees of the Company.

Under the terms of the Deferred Compensation Plan, a participant may elect to defer up to 50% of base salary and up to 100% of bonus. Denny's will match 100% of each participant's deferrals up to 3% of the participant's compensation. Deferrals will be credited to the participant's account on a periodic basis consistent with the payroll cycle. Deferral elections will remain in effect from plan year to plan year unless modified or revoked by the participant during an enrollment period.

The participant's account will be credited with earnings and losses based on the investment options selected by the participant. The participant may request a change in the allocation of an account balance or future deferrals at any time. A participant is at all times 100% vested in his or her deferral account.

Upon termination of employment for any reason (except following a change in control), a participant will receive his or her account balance in a lump sum or in installments based on his or her election. Account balances less than \$50,000 will be distributed in a lump sum. At the death of a participant, the remaining amount in the participant's account will be paid to his or her beneficiary in accordance with the participant's election. Upon a termination of employment within two years of a change in control, a participant will receive his or her account balance in a lump sum distribution. In the event of an unforeseen financial emergency, the plan administrator may approve a participant's withdrawal up to the amount necessary to satisfy the hardship. A participant may change the distribution schedule prior to termination of employment from a lump sum to annual installments, but not from annual installments to a lump sum. All changes must be made at least 13 months prior to termination of employment.

The Deferred Compensation Plan also provides for an "In-Service Distribution" account, typically used to save for specific financial needs at a specified date, such as college tuition payments. A participant may elect to receive some or all of a particular year's deferral and related earnings on a particular date prior to retirement or termination of employment. Distributions can be made in a lump sum or, if the balance is at least \$10,000, in 2-5 annual installments. A participant may extend an In-Service Distribution date by at least 5 years or may cancel the date, which results in the account balance being combined with the termination of employment account.

As a result of Code Section 409A, certain key employees (including the named executive officers) may be subject to a six-month waiting period for distributions following termination.

Table of Contents**Summary of Termination Payments and Benefits**

In 2009, Messrs. Wolfinger and Chmiel were participants in the Severance Plan, which provides for severance payments and benefits in the event of a participant's employment termination without cause or for good reason (as such terms are defined in the Severance Plan), plus enhanced benefits if such termination is in connection with a change in control of the Company. Because the Company maintained a Letter Agreement with Ms. Emplit and currently maintains an Employment Agreement with Mr. Marchioli, both of which set forth severance provisions beyond the scope of the Severance Plan, any severance benefits for Ms. Emplit and Mr. Marchioli are governed by their individual agreements with the Company.

The following table summarizes the approximate value of the termination payments and benefits that each of Messrs. Marchioli and Wolfinger would have received if he had terminated employment at the close of business on December 30, 2009. The table also summarizes the actual payments and benefits paid to Ms. Emplit and Mr. Chmiel in connection with their resignation of employment with the Company as of December 23, 2009 and December 30, 2009, respectively. The amounts shown in the table exclude distributions under our 401(k) retirement plan that is generally available to all of our salaried employees, as well as the executive's accrued but unpaid obligations. The amounts also exclude benefits and payments that are disclosed in the Pension Benefits Table elsewhere in this Proxy Statement and the Nonqualified Deferred Compensation Table elsewhere in this Proxy Statement.

If such terminations occur within one year after a change in control of the Company, the multiple is 2.99 times then-current base salary and target bonus (which may not be less than 100% of base salary), reduced as necessary to bring total parachute payments to below the IRS-allowed amount if total parachute payments minus the excise tax would be lower than the IRS-allowed amount.

- (2) The amounts in this column reflect the grant date fair value of deferred stock units (DSUs) awarded to directors pursuant to our 2004 Omnibus Incentive Plan. Under the current director compensation package, each director receives an annual award of 22,000 DSUs in addition to receiving DSUs for participation in any unscheduled, specially-called meeting (i.e., any meeting called in addition to the typically five regularly scheduled board and committee meetings). The number of DSUs earned by directors for specially-called meetings is determined on a quarterly basis using a rate of \$1,000 for attendance in person and \$500 for telephonic participation and is calculated by dividing the total dollar value earned for such meeting attendance for the quarter by the closing price of the Common Stock on the last day of the quarter. RELATED PARTY TRANSACTIONS

In the summer of 2009, the company conducted a promotional suggestive sell program consisting of a sweepstakes designed to (i) provide an incentive to servers to encourage guests to purchase additional items, and (ii) encourage guests to return to the restaurant. Fifty trips for two to the Bahamas were offered as grand prizes of the sweepstakes (42 to guests and 8 to servers). These trips consisted of lodging for five nights, air travel, a golf package and casino voucher totaling an approximate value of \$3,000 per trip. Baha Mar Resorts, Ltd (a resort development in Nassau, Bahamas of which Denny's Board member, Donald Robinson, is President) provided, without charge to the Company, the lodging, golf and casino vouchers for the sweepstakes. For more information regarding the Board's review of the transaction and its review and determination with respect to the transaction's effect on Mr. Robinson's independence as a director of the company, see the Corporate Governance section found elsewhere in this Proxy Statement.

On May 20, 2009, the above referenced transaction was approved pursuant to a written policy and procedures maintained by the Company for the review, approval or ratification of related party transactions. Pursuant to the Company's Related Party Transaction Policy and Procedures, the Company will enter into or ratify transactions with related parties (as the term is defined in Item 404 of Regulation S-K) only when the Board, acting through the Governance Committee determines that the related party transaction in question is in, or is not inconsistent with, the best interests of the Company and its stockholders, including but not limited to situations where the Company may obtain products or services of a nature, quantity or quality, or on other terms, that are not readily available from alternative sources or when the Company provides or receives products or services to or from a related party on an arm's length basis on terms comparable to those provided to unrelated third parties or on terms comparable to those provided to employees generally. Accordingly, the Governance Committee shall review the material facts of all proposed related party transactions that require approval and either approve or disapprove of the entry into the related party transaction. If advance Governance Committee approval of a related party transaction is not feasible, then the related party transaction shall be considered and, if the Governance Committee determines it to be appropriate, ratified at the committee's next regularly scheduled meeting. In determining whether to approve or ratify a related party transaction, the Governance Committee will take into account, among other factors it deems appropriate, whether the related party transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related party's interest in the transaction.
