CAUTIONARY NOTE TO UNITED STATES INVESTORS CONCERNING

ESTIMATES OF MEASURED, INDICATED AND INFERRED MINERAL RESOURCES

Unless otherwise indicated, all reserve and resource estimates included in this Annual Report on Form 40-F (this Annual Report) have been prepared in accordance with Canadian National Instrument 43-101 *Standards of Disclosure for Mineral Projects* (NI 43-101) and the Canadian Institute of Mining, Metallurgy and Petroleum classification system. NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects.

Canadian standards, including NI 43-101, differ significantly from the requirements of the United States Securities and Exchange Commission (the SEC), and reserve and resource information included herein may not be comparable to similar information disclosed by U.S. companies. In particular, and without limiting the generality of the foregoing, this Annual Report uses the terms measured resources, indicated resources and inferred resources. U.S. investors are advised that, while such terms are recognized and required by Canadian securities laws, the SEC does not recognize them. The requirements of NI 43-101 for the identification of reserves are also not the same as those of the SEC, and reserves reported by the Registrant in compliance with NI 43-101 may not qualify as reserves under SEC standards. Under U.S. standards, mineralization may not be classified as a reserve unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. U.S. investors are cautioned not to assume that any part of a measured resource or indicated resource will ever be converted into a reserve. U.S. investors should also understand that inferred resources have a great amount of uncertainty as to their existence and as to their economic and legal feasibility. It cannot be assumed that all or any part of inferred resources exist, are economically or legally mineable or will ever be upgraded to a higher category. Under Canadian rules, estimated inferred resources may not form the basis of feasibility or pre-feasibility studies except in rare cases. In addition, disclosure of contained ounces in a mineral resource is permitted disclosure under Canadian regulations. However, the SEC normally only permits issuers to report mineralization that does not constitute reserves by SEC standards as in place tonnage and grade, without reference to unit measures. Accordingly, information concerning mineral deposits set forth in this Annual Report may not be comparable with information made public by companies that report in accordance with U.S. standards.

A. Disclosure Controls and Procedures

Disclosure controls and procedures are defined in Rule 13a-15(e) under the U.S. Securities Exchange Act of 1934, as amended (the Exchange Act), as those controls and other procedures that are designed to ensure that information required to be disclosed by the Registrant in reports filed or submitted by it under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Rule 13a-15(e) also provides that disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Registrant is accumulated and communicated to the Registrant's management as appropriate to allow timely decisions regarding required disclosure.

The Registrant's Interim Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Registrant's disclosure controls and procedures, as defined in Rule 13a-15(e) under the Exchange Act, as of December 31, 2012 and have determined that such disclosure controls and procedures were effective as of December 31, 2012. See Management's Discussion and Analysis of Operations and Financial Position Internal Controls Disclosure Controls and Procedures included in Exhibit 1.2 to this Annual Report.

B. Management's Annual Report on Internal Control Over Financial Reporting

The Registrant's management is responsible for establishing and maintaining adequate internal control over financial reporting. Rules 13a-15(f) and 15d-15(f) under the Exchange Act define internal control over financial reporting as a process designed by, or under the supervision of, the Registrant's principal executive and principal financial officers and effected by the Registrant's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that: (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Registrant; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Registrant are being made only in accordance with authorizations of management and directors of the Registrant; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Registrant's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements on a timely basis. Also, projections of any evaluation of effectiveness of internal control over financial reporting to future periods are subject to risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Registrant's internal control over financial reporting as at December 31, 2012. In making this assessment, the Registrant's management used the criteria established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. This assessment included review of the documentation of controls, evaluation of the design effectiveness of controls, testing of the operating effectiveness of controls and a conclusion on this assessment. Based on this assessment, the Registrant's management has concluded that the Registrant's internal control over financial reporting was effective as of December 31, 2012 and no material weaknesses were discovered. See Management's Discussion and Analysis of Operations and Financial Position Internal Controls Internal Control over Financial Reporting included in Exhibit 1.2 to this Annual Report.

The Registrant's auditor, the registered public accounting firm that audited the financial statements filed as an exhibit to this Annual Report, has issued an attestation report on management's assessment of internal control over financial reporting as at December 31, 2012. Van Staveren, an individual serving on the audit committee of the Registrant's board of directors, is an audit committee financial expert within the meaning of General Instruction B(8)(b) of Form 40-F under the Exchange Act and is independent within the meaning of Rule 10A-3 under the Exchange Act and applicable Canadian requirements.

The SEC has indicated that the designation or identification of a person as an audit committee financial expert does not make such person an expert for any purpose, impose any duties, obligations or liability on such person that are greater than those imposed on members of the audit committee and the board of directors who do not carry this designation or identification, or affect the duties, obligations or liability of any other member of the audit committee or board of directors.

G. Code of Ethics

The Registrant's board of directors has adopted a code of ethics that applies to all directors, officers and employees, including its Chief Executive Officer, Chief Financial Officer and other senior officers.
