To Our

Shareholders

Dear Shareholders,

In 2014, Spectra Energy delivered strong financial and business results and remained committed to creating value for our investors. We will again highlight some of those results during our Annual Meeting of Shareholders in Houston on April 28, 2015, and invite you to attend either in person or via our webcast.

Our financial and strategic plans, reviewed and approved by our directors, support continued earnings, cash and dividend growth. We have expanded our portfolio of assets, which helped in securing \$3.5 billion of new growth projects supported by firm, fee-based contracts.

We have been rigorous in our assessment of both the opportunities and risks facing our business in the current and longer-term environment. We have worked diligently to buffer your company from the volatility that accompanies commodity, currency and economic cycles.

We believe the primary fundamentals driving the current period of midstream infrastructure

Dear Shareholders,

Spectra Energy is a company deeply grounded in sound governance principles. Those principles are designed and continually assessed to ensure that we operate our business responsibly, ethically and in a manner aligned with the interests of our investors and stakeholders.

The governance structure of our board is focused within four committees: audit, compensation, corporate governance, and finance and risk management all comprised solely of independent directors.

The rapidly shifting dynamics of our business and world make risk management a key imperative, and each year the board reviews prioritized risks across four areas: financial, strategic, operational and legal. Additionally, at every meeting, the board is updated on risk trends, changes to previously identified risks and emerging risks.

Spectra Energy's Audit Committee oversees the quality and integrity of the Company's

build-out are still strong: increasing supplies of natural gas, natural gas liquids and crude oil require paths to growing markets. Our expansive North American asset footprint allows us to efficiently connect supply to demand, customers to service and solutions, and investors to value growth.

The directors, executives and employees of Spectra Energy are dedicated to serving our investors' needs and expectations with excellence over the long term.

Sincerely,

Gregory L. Ebel

**CHAIRMAN, PRESIDENT AND CHIEF
EXECUTIVE OFFICER**

financial statements and internal controls and compliance with legal and regulatory requirements.

The Compensation Committee of the board ensures that Spectra Energy executives are compensated in a manner that is fair, equitable, performance-based and guided by the long-term interests of investors.

Through our Corporate Governance Committee, we continuously review and refine the structure, composition, principles and guidelines of our board to serve your needs now and into the future. The Finance and Risk Management Committee provides oversight of the company's financial affairs and risk management, and oversight on environmental, health, safety and sustainability issues affecting the company.

As Lead Director, it is my privilege to work alongside committed and engaged board members who bring exceptional knowledge, perspective and accountability to their roles, and oversee Spectra Energy's talented executive team.

Sincerely,

F. Anthony Comper

LEAD DIRECTOR

Table of Contents

Proposal 1:

Election of Directors

Based on recommendations from the Corporate Governance Committee, our Board has nominated the following 11 individuals for election to the Board:

Gregory L. Ebel, our Chairman, President and Chief Executive Officer;

F. Anthony Comper, our Lead Director (independent); and

our other independent nominees: Austin A. Adams, Joseph Alvarado, Pamela L. Carter, Clarence P. Cazalot Jr, Peter B. Hamilton, Miranda C. Hubbs, Michael McShane, Michael G. Morris and Michael E. J. Phelps. Presently, the size of our Board is fixed at 10 members. Prior to the Annual Meeting, the Board will amend the Company's By-Laws to increase the size of the Board to 11 members. All the nominees (other than Ms. Hubbs) are current members of our Board. Each nominee is standing for election to a one-year term that will expire at the 2016 Annual Meeting. If any nominee is unable to stand for election, the Board may either reduce the number of directors or designate a substitute. If the Board chooses to designate a substitute, shares represented by proxies may be voted for that substitute. We do not expect that any nominee will be unavailable or unable to serve.

Information on our Nominees

We believe that all nominees are well qualified to fulfill their responsibilities. Their qualifications include strong leadership ability, global business experience, financial and industry expertise and experience in law and public policy. The characteristics we look for in any director candidate include intelligence, perceptiveness, good judgment, maturity, high ethical standards, integrity and fairness, professional compatibility with our other directors and executives, and diversity that enhances the perspective and experience of our Board.

This year, our nominees include Ms. Hubbs, a seasoned financial services professional in the Canadian energy industry. Ms. Hubbs brings significant financial and business experience to our Board, having served as an Executive Vice President and Managing Director of a large Canadian financial services company.

Gregory L. Ebel Chairman, President and Chief Executive Officer, Spectra Energy

SKILLS AND QUALIFICATIONS:

Serves as our Chairman, President and CEO

Served as President of Union Gas Limited, one of our Canadian subsidiaries

Served as our Chief Financial Officer and in other leadership positions in operations, strategic development, and government and investor relations

KEY EXPERIENCE:

Age 50

Director since

2008

Before assuming his current position on January 1, 2009, Mr. Ebel had served as Spectra Energy's Group Executive and Chief Financial Officer since January 2007. Prior to that time, he served as President of Union Gas Limited from January 2005 until January 2007, and Vice President, Investor & Shareholder Relations of Duke Energy Corporation from November 2002 until January 2005. Mr. Ebel joined Duke Energy in March 2002 as Managing Director of Mergers and Acquisitions in connection with Duke Energy's acquisition of Westcoast Energy Inc. Mr. Ebel is Chairman, President and Chief Executive Officer of our master limited partnership, Spectra Energy Partners, LP (SEP), and he is also a director of our joint venture entity, DCP Midstream, LLC.

OTHER PUBLIC DIRECTORSHIPS DURING PAST FIVE YEARS:

The Mosaic Company (current).

4 SPECTRA ENERGY CORP 2015 PROXY STATEMENT

Table of Contents

PROPOSAL 1: ELECTION OF DIRECTORS

Information on Our Nominees

F. Anthony Comper Retired President and Chief Executive Officer, BMO Financial Group

SKILLS AND QUALIFICATIONS:

Experience as both chairman and CEO of a large global financial institution

Significant knowledge of the Canadian marketplace and Canadian political and regulatory environments

Financial expertise, including extensive experience with capital markets transactions and risk management

Has served as Lead Director of Spectra Energy since 2014

Age 69

KEY EXPERIENCE:

Mr. Comper is the retired President and Chief Executive Officer and former director of BMO Financial Group, a diversified financial services organization and one of the largest banks in North America. He was appointed to those positions in February 1999 and served as Chairman from July 1999 to May 2004. He previously served on the Board of Directors of BMO Financial Group.

Director since

2007 and

Lead Director since

2014

Austin A. Adams Retired Executive Vice President and Chief Information Officer, JPMorgan Chase & Co.

SKILLS AND QUALIFICATIONS:

Expertise in information technology and security, risk management and strategy, and human resources

Experience that enables him to help the Audit Committee and Board assess technology, security and other types of risk, which is particularly helpful given the importance of these issues in our daily operations

OTHER PUBLIC COMPANY DIRECTORSHIPS DURING PAST FIVE YEARS:

Marathon Oil Corporation (current) and Canadian Pacific Railway Company (former).

Table of Contents

Corporate Governance

Our Board recognizes that excellence in corporate governance is essential to carrying out its responsibilities to our shareholders. The framework for our corporate governance can be found in our Principles for Corporate Governance, our Code of Business Ethics, and the charters of the Audit Committee, the Compensation Committee, the Corporate Governance Committee and the Finance and Risk Management Committee. You can access these governance materials on our website at <http://investors.spectraenergy.com>. Click on the Corporate Governance link. You can receive printed copies upon request.

Independent Directors

In exercising their duties to our shareholders, our Board members should not be conflicted in any way. To minimize potential conflicts, the only member of our Board who is not independent is our Chairman, President and Chief Executive Officer.

In accordance with the standards for companies listed on the New York Stock Exchange (NYSE), the Board considers a director to be independent if it has affirmatively determined that the director has no material relationship with Spectra Energy or its consolidated subsidiaries, either directly or as a shareholder, director, officer or employee of an organization that has a relationship with us or our subsidiaries. The Board makes independence determinations when it approves director nominees for election at the Annual Meeting and also whenever a new director joins the Board between Annual Meetings.

For 2014, the Board determined that none of Spectra Energy's independent directors and Ms. Hubbs as an independent director nominee, nor any member of their immediate families, had a material relationship with our Company or its subsidiaries. All of these independent director nominees (Messrs. Adams, Alvarado, Cazalot, Comper, Hamilton, McShane, Morris, Phelps, and Meses. Carter and Hubbs) are therefore independent under the NYSE's listing standards. In reaching this conclusion, the Board considered all transactions and relationships between each such nominee (or any member of his or her immediate family) and our Company and its subsidiaries.

To assist in its independence determinations, the Board has adopted specific standards under which certain relationships are deemed not to impair a director's independence. Please see Other Information beginning on page 57 of this proxy statement for more details.

Board Leadership Structure

One of the Board's key responsibilities is determining the appropriate leadership structure for the Board, which helps ensure its effective and independent oversight of management on behalf of the Company's shareholders. The Board has chosen one independent director, F. Anthony Comper, to serve as its Lead Director, while our President and Chief Executive Officer, Gregory L. Ebel, serves as Chairman of the Board.

We believe that our Board leadership structure is appropriate for Spectra Energy because it allows one person to speak for and lead both the Company and the Board, while also providing for effective oversight by an independent board through an independent lead director. The Board reviews its leadership structure and has the flexibility to revise it at any time as it deems appropriate.

In his role as Lead Director, Mr. Comper has broad authority and responsibility over Board governance and operations. His responsibilities, described in our Principles for Corporate Governance, include:

presiding at Board meetings at which the Chairman is not present, including executive sessions of the independent directors, which are held after each Board meeting;

consulting with the Chairman on Board meeting agendas;

calling meetings of independent directors and setting agendas for executive sessions;

10 SPECTRA ENERGY CORP 2015 PROXY STATEMENT

Table of Contents

CORPORATE GOVERNANCE

Risk Oversight

serving as a liaison between the Chairman and the independent directors;

approving meeting schedules to ensure that there is sufficient time for discussions; and

representing the Board from time to time in consultations or direct communications with shareholders.

Risk Oversight

The Board is responsible for overseeing our risk management process. Acting as a whole, the Board exercises its oversight responsibility with respect to certain business risks that we face, including strategic and competitive risks and risks related to succession of our Chief Executive Officer and other members of management. The Board exercises additional risk oversight responsibilities through its committees, which are comprised solely of independent directors. Each such committee has primary risk oversight responsibility with respect to all matters within the scope of its duties as contemplated by its charter and as described in the table below.

Board Committee	Areas of Risk Oversight	Additional Information
Audit Committee	Financial reporting, internal control, legal, compliance and technology risks	Receives regular reports from management regarding risks faced in our business, including operational and project risks. As noted below, the Finance and Risk Management Committee also receives these types of reports.
Compensation Committee	Compensation programs	Management has undertaken, and the Compensation Committee has reviewed, an evaluation of any incentives created by our compensation programs that may encourage our employees to take risks. Based upon that evaluation, the Committee has concluded that Spectra Energy's compensation programs do not encourage unnecessary or excessive risks that are reasonably likely to result in a material adverse effect on the Company.
Finance and Risk Management Committee	Credit, commodity, environment, health & safety, financial risks; and overseeing company-wide risk management and risk management governance structure	Together with the Audit Committee, receives regular reports from management regarding risks our business faces, including operational and project risks.

Board Meetings and Attendance

Our Board held seven meetings during 2014 and the committees of the Board met a total of 26 times. All of the directors attended at least 90% of the meetings of the Board and meetings of the committees on which they served during fiscal year 2014. Directors are encouraged to attend the Annual Meeting, and all Board members attended our 2014 Annual Meeting.

CORPORATE GOVERNANCE

Board Committees

Board Committees

The Board has four standing committees – Audit; Compensation; Corporate Governance; and Finance and Risk Management. Each committee operates under a written charter adopted by the Board. The charters are posted on our website at <http://investors.spectraenergy.com> in the Corporate Governance section. The charters are available in print to any shareholder upon request.

Audit Committee

Chair The Audit Committee’s responsibilities include:

Hamilton

selecting and hiring an independent public accounting firm to conduct audits of our accounting and financial reporting activities and those of our subsidiaries

reviewing with the accounting firm our accounting procedures, internal controls, and accounting and financial reporting policies and practices, as well as those of our subsidiaries

Other Members

Adams

approving all audit and permissible non-audit services that our accounting firm provides

reporting and making recommendations to the Board as it deems appropriate

McShane

9 Meetings

reviewing with the accounting firm the scope and results of its audits

providing oversight for all matters related to the security of information technology systems and procedures

Held in 2014

overseeing our ethics and compliance activities

See page 21 for additional information on the Audit Committee's pre-approval policy.

The Board has determined that each member of the Audit Committee is independent under the NYSE's listing standards, applicable securities regulations, and the Company's categorical standards for independence. The Board has also determined that Messrs. Comper, Hamilton and McShane are audit committee financial experts as defined by the Securities and Exchange Commission (SEC).

Compensation Committee

Chair

The Compensation Committee's responsibilities include:

Phelps

establishing and reviewing our overall executive compensation philosophy and approving changes to our compensation program

approving equity grants under our Long-Term Incentive Plan

Other Members

Alvarado

reviewing and approving corporate goals and objectives relevant to our CEO's compensation and evaluating his performance in light of those goals and objectives

reviewing and discussing with management our compensation-related disclosures

Carter

Cazalot

Morris

reviewing and approving annual salaries, short-term and long-term incentive opportunities, and results and other benefits for our CEO and other executive officers

5 Meetings

Held in 2014

reviewing and approving any agreement that we enter into with an executive officer

The Board has determined that each member of the Compensation Committee is independent under the NYSE's listing standards and the Company's categorical standards for independence, a non-employee director under the Securities Exchange Act Rule 16b-3, and an outside director as defined in Section 162(m) of the Internal Revenue Code.

CORPORATE GOVERNANCE

Board and Committee Performance Evaluations

Corporate Governance Committee

Chair The Corporate Governance Committee's responsibilities include:

Carter

making recommendations on the size and composition of the Board and its committees

recommending the slate of director nominees for each year's Annual Meeting, including any nominees recommended by shareholders

Other Members

Adams

making recommendations on the compensation of independent directors

Comper

overseeing the self-evaluation of the Board and its committees

Hamilton

recommending potential CEO candidates as part of our succession-planning process

reviewing any conflict of interest involving officers and directors

5 Meetings

Held in 2014

recommending qualified and suitable individuals to fill Board vacancies when they occur (and hiring external search firms or other third parties to help identify and evaluate potential nominees)

The Board has determined that each member of the Corporate Governance Committee is independent under the NYSE's listing standards and the Company's categorical standards for independence.

Finance and Risk Management Committee

Chair The Finance and Risk Management Committee's responsibilities include:

McShane

**Other
Members**

reviewing our overall financial and fiscal affairs and making recommendations to the Board regarding dividends, financing and fiscal policies

overseeing enterprise risk management

Alvarado

overseeing management of environmental, health and safety matters

Cazalot

reviewing our financial exposure and the strategies used to mitigate risk

Morris

Phelps

reviewing our risk exposure as it relates to earnings and to the overall corporate portfolio

6 Meetings

Held in 2014

reviewing the financial impacts of major transactions such as mergers, acquisitions, reorganizations and divestitures

Board and Committee Performance Evaluations

In 2014, as they do each year, the Board and its standing committees conducted self-evaluations of their performance. The Corporate Governance Committee oversaw these performance evaluations, which were also discussed with the full Board. These self-evaluations did not suggest a need for any material changes to the processes and governance procedures of the Board or its Committees.

Table of Contents

CORPORATE GOVERNANCE

Transactions with Related Persons

Transactions with Related Persons

The Board is responsible for the oversight and approval (or ratification) of any related-person transactions. These are transactions, relationships or arrangements involving the Company in which any related person has a direct or indirect material interest. For this purpose, the following persons are considered related to the Company:

our directors, director nominees, executive officers, and their immediate family members;

beneficial owners of more than 5% of our common stock and their immediate family members; and

entities in which a person described above is employed, has a substantial interest, or holds a position such as general partner or principal.

Under the Board's written procedures for the reporting, review and approval of related-person transactions, the Corporate Governance Committee evaluates these transactions and approves only those that it believes are consistent with the best interests of the Company and its shareholders as the Committee determines in good faith. The Committee bases this evaluation on all relevant factors, including:

the benefits of the transaction to the Company;

the terms of the transaction and whether they were made on an arm's-length basis and in the ordinary course of the Company's business;

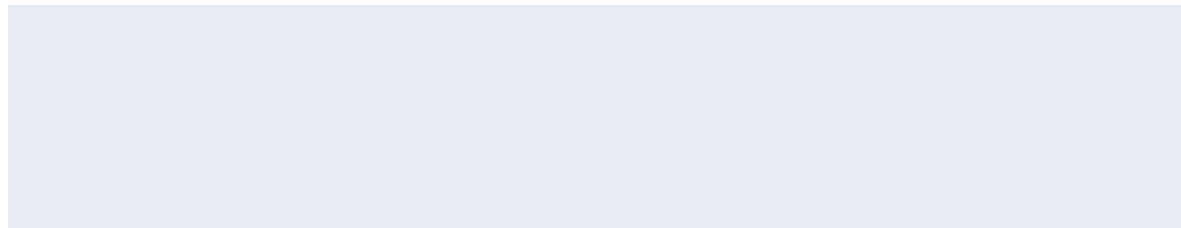

the direct or indirect nature of the related person's interest in the transaction;

the size and expected term of the transaction; and

other facts and circumstances that bear on the materiality of the transaction under applicable laws and listing standards.

Report of the Corporate Governance Committee

The following report of the Corporate Governance Committee describes its philosophy, its responsibilities, and certain of its policies relating to the Board.

Philosophy

The Corporate Governance Committee believes that sound corporate governance has three components:

Board independence;

processes and practices that foster solid decision-making by both management and the Board; and

balancing the interests of all of our stakeholders — our investors, customers, employees, the communities we serve and the environment.

The Committee's charter is available on our website at <http://investors.spectraenergy.com/> in the Corporate Governance section. The Committee's charter is summarized below.

Membership

The Corporate Governance Committee must have three or more members, all of whom must qualify as independent directors under the listing standards of the NYSE and other applicable rules and regulations.

Responsibilities

The Committee's responsibilities include, among other things:

implementing policies regarding corporate governance matters;

assessing the Board's membership needs and recommending nominees;

recommending to the Board those directors to be selected for membership on, or removal from, the various Board committees and those directors to be designated as chairs of Board committees;

recommending compensation of independent directors;

reviewing or approving related party transactions; and

sponsoring and overseeing performance evaluations for the various Board committees, the Board as a whole, and the directors and management, including the Chief Executive Officer.

The Committee may conduct or authorize investigations or studies of matters within the scope of the Committee's duties and responsibilities, and may retain, at the Company's expense and at the Committee's sole discretion, consultants and attorneys to assist in such work as the Committee deems necessary. In addition, the Committee has the sole authority to retain or terminate any search firm to be used to identify director candidates, including the sole authority to approve the search firm's fees and other retention terms, with such fees to be borne by the Company. Finally, the Committee conducts an annual self-evaluation of its performance.

Table of Contents

REPORT OF THE CORPORATE GOVERNANCE COMMITTEE

Director Candidates

Director Candidates

Profile

While the Committee has not prescribed standards for considering diversity, as a matter of practice, the Committee looks for diverse nominees who can enhance perspective and experience through diversity in gender, ethnic background, geographic origin and professional experience. The Committee looks for the following characteristics in any candidate for nominee to serve on our Board:

fundamental qualities of intelligence, perceptiveness, good judgment, maturity, high ethics and standards, integrity and fairness;

a genuine interest in the Company and a recognition that, as a member of the Board, one is accountable to the Company's shareholders as a whole;

a background that includes broad business experience or demonstrates an understanding of business and financial affairs and the complexities of a large, multifaceted, global business organization;

experience as a present or former chief executive officer, chief operating officer, or substantially equivalent level executive officer of a highly complex organization such as a corporation, university or major unit of government, or as a professional who regularly advises such organizations;

no conflict of interest or impediment that would interfere with the duty of loyalty owed to the Company and its shareholders;

the ability and willingness to spend the time required to function effectively as a director;

compatibility and ability to work well with other directors and executives in a team effort with a view to a long-term relationship with the Company as a director;

independent judgment and willingness to express views in a constructive manner; and

diversity and the extent to which the nominee would fill a present need on the Board.

Identifying Nominees

As noted above, the Committee may engage a third party from time to time to assist it in identifying and evaluating new director candidates. Based on surveys of the then-current Board members and the profile described above, the Committee will advise the third party of the characteristics, skills and experiences that may complement those of our existing members. The third party will then recommend nominees having such attributes. All of the nominees on the proxy card are current members of our Board and were recommended by the Committee, except for Ms. Hubbs, who was nominated by the Committee for her initial election at the Annual Meeting. Ms Hubbs was recommended by a current member of the Board.

Nominations by Shareholders

The Committee considers nominees recommended by shareholders on a similar basis as it does nominees recommended by other third parties, taking into account, among other things, the profile criteria described above and the nominee's experiences and skills. In addition, the Committee considers the shareholder nominee's independence with respect to both the Company and the nominating shareholder. Shareholders interested in submitting nominees for the Board will need to provide timely written notice to the Corporate Governance Committee, c/o Corporate Secretary, Spectra Energy Corp, 5400 Westheimer Court, Houston, Texas 77056. Our Corporate Secretary must receive this notice not less than 90 or more than 120 days prior to the anniversary of the Annual Meeting.

Under our By-Laws, the notice must include certain information about the nominee. You can access the By-Laws on our website at <http://investors.spectraenergy.com>. Click on the Corporate Governance link.

REPORT OF THE CORPORATE GOVERNANCE COMMITTEE

Resignation Policy

Resignation Policy

In an uncontested election, any nominee for director who receives a greater number of votes against his or her election than votes for such election is required to tender his or her resignation following certification of the shareholder vote. The Corporate Governance Committee is then required to make recommendations to the Board with respect to any such letter of resignation. The Board is required to take action with respect to this recommendation and to disclose its decision-making process. Full details of this policy are set out in our Principles for Corporate Governance, which is posted on our website at <http://investors.spectraenergy.com/> in the Corporate Governance section.

Communications with Directors

Interested parties can communicate with any of our directors by writing to our Corporate Secretary at the following address:

Corporate Secretary

Spectra Energy Corp

5400 Westheimer Court

Houston, TX 77056

Our Corporate Secretary will distribute communications to the Board, to an individual director or to selected directors, depending on the content of the communication. In accordance with rules of the NYSE, interested parties wishing to communicate only with the non-management or independent directors can address their communications to

Independent Directors, c/o Corporate Secretary at the above-mentioned address. In that regard, the Board has requested that certain items that are unrelated to the duties and responsibilities of the Board be excluded, such as: spam; junk mail and mass mailings; service complaints; resumes and other forms of job inquiries; surveys; and business solicitations or advertisements. In addition, material that is unduly hostile, threatening, obscene or similarly unsuitable will be excluded. However, any communication that is so excluded remains available to any director upon request.

SPECTRA ENERGY CORP 2015 PROXY STATEMENT [17](#)

Table of Contents**Director Compensation****Compensation Structure for Non-Employee Directors**

We use a combination of cash and stock-based compensation to attract and retain qualified candidates to serve on our Board. In making its recommendation on independent director compensation, the Corporate Governance Committee considers peer and general industry data, including an analysis of director compensation provided by an independent consultant. Under our stock ownership policy, outside directors are required to own 15,000 shares of the Company's common stock (or common stock equivalents) within five years after becoming subject to the policy. At the end of 2014, all directors had met the targeted ownership level, except for Messrs. Alvarado and Cazalot, who are on track to reach the targeted ownership level within the five-year period. Our Chairman, President and Chief Executive Officer does not receive compensation for his services as a director.

2014 DIRECTOR COMPENSATION STRUCTURE

Type	Amount
Annual retainer for all non-employee directors	\$120,000 in Spectra Energy shares*
Retainers for Committee Chairs	\$105,000 in cash Corporate Governance Committee: \$10,000 (cash)
Retainer for Lead Director	All other committees: \$15,000 (cash) \$30,000 (cash)

* Valued at the NYSE closing price on the date of grant.

Charitable Giving Program. Under the Spectra Energy Foundation Matching Gifts Program, the Company will match contributions to qualifying institutions of up to \$7,500 per director per calendar year. In 2014, the Spectra Energy Foundation made matching charitable contributions on behalf of Messrs. Adams, Alvarado, Comper, Esrey, Hamilton, Morris and Phelps, respectively.

Expense Reimbursement. The Company reimburses non-employee directors for expenses they reasonably incur in connection with attending and participating in Board and Committee meetings, director education conferences and seminars, and special functions.

2014 COMPENSATION OF NON-EMPLOYEE DIRECTORS

Name	Fees Earned or Paid in Cash (\$)	Change in Pension Value and Nonqualified Deferred			All Other Compensation (\$)(3)	Total (\$)
		Stock Awards Options Awards (\$)(2)	Options Awards (\$)	Compensation Earnings (\$)		
A. Adams	105,000	120,006			4,000	229,006
J. Alvarado	105,000	120,006			4,500	229,506
P. Carter	115,000	120,006				235,006
C. Cazalot	105,000	120,006				225,006
F. Comper	125,000	120,006			5,000	250,006
W. Esrey(1)	118,333				610,750 ⁽⁴⁾	729,083
P. Hamilton	120,000	120,006			4,750	244,756
D. Hendrix(1)	35,000					35,000
M. McShane	120,000	120,006				240,006
M. Morris	105,000	120,006			5,000	230,006
M. Phelps	120,000	120,006			15,000 ⁽⁵⁾	255,006

(1) Messrs. Esrey and Hendrix retired from the Board at the 2014 Annual Meeting.

(2) This column reflects the aggregate grant date fair value of the stock awarded, computed in accordance with FASB ASC Topic 718.

(3) This column reflects matching charitable contributions made in 2014 pursuant to the Spectra Energy Foundation Matching Gifts Program, which matches contributions made by our directors to qualifying institutions up to \$7,500 per director per calendar year.

(4) \$601,000 of which relates to a charitable contribution made on behalf of Mr. Esrey under the Director's Charitable Program upon his retirement. Under this program, the Company could make charitable donations of up to \$1,000,000 upon Mr. Esrey's death, or at Mr. Esrey's request, during his lifetime. The maximum donation made upon his retirement was reduced to an actuarially-determined net present value basis.

(5) \$7,500 of which related to a 2013 charitable contribution.

The value of all perquisites and other personal benefits or property received by each non-employee director in 2014 was less than \$5,000 and is not included in the above table.

Table of Contents**Stock Ownership Information**

The following table shows, as of January 31, 2015, the amount of our common stock beneficially owned by our directors, the executive officers listed in the Summary Compensation Table under Compensation Tables on page 43 (referred to as the Named Executive Officers), and by all directors and executive officers as a group. The table also shows the number of common units of SEP beneficially owned by these individuals. SEP is a publicly traded master limited partnership in which Spectra Energy Corp owns approximately 82% of the outstanding equity interest.

Name or Beneficial Owner	Number of Shares Held	Number of Shares Acquirable within 60 day	Total Shares Beneficially Owned	Percent of Class	Total Units of SEP Beneficially Owned
Dorothy M. Ables	138,328	41,500	179,828	*	4,353

Peter B. Hamilton	31,374		31,374	*	909
Reginald D. Hedgebeth	107,795	11,600	119,395	*	
Miranda C. Hubbs					
Michael McShane	25,257		25,257	*	
Michael G. Morris	16,287		16,287	*	11,900
Michael E. J. Phelps	86,716		86,716	*	
J. Patrick Reddy	85,502	13,200	98,702(1)	*	
William T. Yardley	53,020	32,300	85,320	*	540
Directors and executive officers as a group	884,527	230,272	1,114,799	*	25,634

*Represents less than 1%.

(1) Messrs. Ebel and Reddy beneficially own additional 1,400 and 88,801 shares, respectively, in a Company-sponsored deferred compensation plan. Generally, those shares will be paid out six months following their separation from service.

Edgar Filing: Spectra Energy Corp. - Form DEF 14A

The following table lists the beneficial owners of more than 5% of the outstanding shares of Spectra Energy common stock as of March 10, 2015. This information is based on the most recently available reports filed with the SEC.

Name and Address of Beneficial Owner	Shares of common stock	
	Beneficially Owned	Percentage
The Vanguard Group(1)	37,111,669	5.53%
100 Vanguard Blvd., Malvern, PA 19355 BlackRock, Inc.(2)	42,464,367	6.3%
55 East 52nd Street, New York, NY 10022		

(1) According to the Schedule 13G filed on February 11, 2015 by The Vanguard Group, these shares are beneficially owned by its clients, and it has sole voting power with respect to 1,194,838 shares, sole dispositive power with respect to 36,025,350 shares and shared dispositive power with respect to 1,086,319 shares.

(2) According to the Schedule 13G/A filed on February 9, 2015 by BlackRock Inc., these shares are beneficially owned by its clients, and it has sole voting power with respect to 36,396,747 shares and sole dispositive power with respect to all the shares.

Table of Contents**Proposal 2:****Ratification of Appointment of Independent Registered Public Accounting Firm for Fiscal Year 2015**

Although our By-Laws do not require that the Company's shareholders ratify the appointment of Deloitte & Touche LLP as the Company's independent registered public accounting firm, the Board is submitting the appointment of Deloitte & Touche LLP to the Company's shareholders for ratification as a matter of good corporate governance. If the shareholders fail to ratify the selection, the Audit Committee will reconsider whether or not to retain Deloitte & Touche LLP.

Representatives of Deloitte & Touche LLP are expected to be present at the Annual Meeting. They will have an opportunity to make a statement, if they desire to do so, and will be available to respond to appropriate questions.

The following table presents fees for professional services rendered by Deloitte & Touche LLP, and the member firms of Deloitte Touche Tohmatsu and their respective affiliates (collectively, "Deloitte") to the Company for 2014 and 2013:

Type of Fees (in millions)	2014	2013
Audit Fees(a)	\$8.4	\$8.2
Audit-Related Fees(b)	\$0.8	\$1.7
Tax Fees(c)	\$1.0	\$1.7
All Other Fees(d)	\$0.1	\$0.1
Total	\$10.3	\$11.7

(a) Audit Fees are fees billed or expected to be billed by Deloitte for professional services for the audit of our Consolidated Financial Statements (including associated fees for our consolidated master limited partnership, SEP) included in our Annual Report on Form 10-K and review of financial statements included in our quarterly reports on Form 10-Q, services that are normally provided by Deloitte in connection with statutory, regulatory or other filings or engagements or any other service performed by Deloitte to comply with generally accepted auditing standards. Audit Fees also include fees billed or expected to be billed by Deloitte for professional services for the audit of our internal controls under the requirements of Section 404 of the Sarbanes-Oxley Act of 2002 and related regulations.

(b) Audit-Related Fees are fees billed by Deloitte for assurance and other services that are reasonably related to the performance of an audit or review of our financial statements, including assistance with acquisitions and divestitures, and internal control reviews. Audit-Related Fees also include comfort and consent letters in

connection with SEC filings and financing transactions.

(c) Tax Fees are fees billed by Deloitte for tax-return assistance and preparation, tax-examination assistance, and professional services related to tax planning and tax strategy.

(d) All Other Fees are fees billed by Deloitte for any services not included in the first three categories, primarily translation of audited financials into foreign languages.

20 SPECTRA ENERGY CORP 2015 PROXY STATEMENT

**PROPOSAL 2: RATIFICATION OF APPOINTMENT OF INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM FOR FISCAL YEAR 2015**

To safeguard the continued independence of our independent auditor, our Audit Committee adopted a policy that prevents our independent auditor from providing services to us and our subsidiaries that are prohibited under Section 10A(g) of the Securities Exchange Act of 1934 (Exchange Act). This policy also provides that the independent auditor is only permitted to provide services to us and our subsidiaries that have been pre-approved by our Audit Committee or the Audit Committee of SEP. Pursuant to the policy, all audit services require advance approval by these audit committees.

Our Audit Committee's Charter describes its responsibilities and is available on our website at <http://investors.spectraenergy.com/> in the *Corporate Governance* section

All other services by the independent auditor that fall within certain designated dollar thresholds, both per engagement as well as annual aggregate, have been pre-approved under the policy. Different dollar thresholds apply to the three categories of pre-approved services specified in the policy (Audit-Related services, Tax services and Other services). All services that exceed the dollar thresholds must be approved in advance by our Audit Committee or the Audit Committee of SEP. Pursuant to applicable provisions of the Exchange Act, the audit committees have delegated approval authority to the Chairman of each audit committee. The Chairman has presented all approval decisions to the full audit committee. All engagements performed by the independent auditor were approved by the audit committee pursuant to its pre-approval policy.

Table of Contents

Report of the Audit Committee

The Audit Committee assists the Board in its general oversight of the Company's financial reporting, internal controls and audit functions. Management has the primary responsibility for establishing and maintaining adequate internal financial controls, for preparing the financial statements and for the public reporting process. Deloitte is responsible for performing an independent audit of the consolidated financial statements and expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States, as well as expressing an opinion on the effectiveness of internal control over financial reporting.

In this context:

the Audit Committee has reviewed and discussed with management and Deloitte the Company's audited financial statements for the year ended December 31, 2014 and Deloitte's evaluation of the Company's internal controls over financial reporting;

the Audit Committee has discussed with Deloitte the matters that are required to be discussed by Public Company Accounting Oversight Board (PCAOB) Auditing Standards No. 16, *Communications with Audit Committee*;

Deloitte has provided the Audit Committee with written disclosures and the PCAOB-required letter regarding the independent accountant's communications with the Audit Committee concerning independence, and the Audit Committee has discussed with Deloitte that firm's independence; and

the Audit Committee has concluded that Deloitte's provision of audit and non-audit services to the Company and its affiliates is compatible with Deloitte's independence.

Based on the review and discussions referenced above, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's 2014 Annual Report on Form 10-K, for filing with the SEC.

This report is provided by the following independent directors who comprise the Audit Committee:

Peter B. Hamilton (Chair)

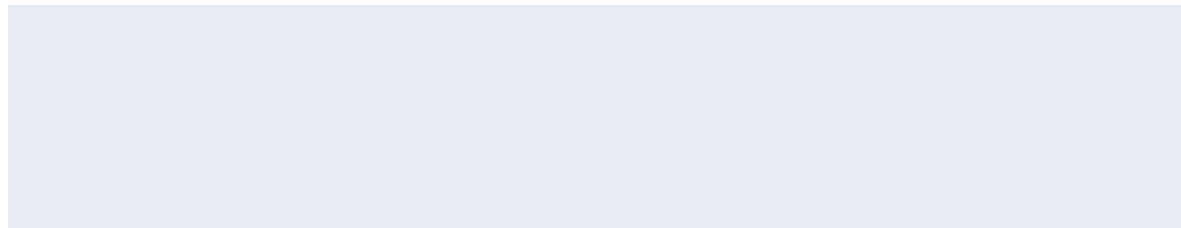

Austin A. Adams

F. Anthony Comper

Michael McShane

Proposal 3:

Advisory Vote Approving Executive Compensation

As required by Section 14A of the Exchange Act, we are asking our shareholders to provide an advisory, non-binding vote to approve the compensation of our Named Executive Officers. We conduct an advisory vote approving executive compensation at each year's Annual Meeting. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our Named Executive Officers and our compensation-related policies and practices as described in this proxy statement.

We ask that, as you consider your vote, you review the Compensation Discussion and Analysis on the following pages and the compensation tables that begin on page 43. We designed our compensation programs to attract, retain and incentivize executives of high caliber who create value for our shareholders.

We therefore ask that you vote to approve the compensation of our Named Executive Officers as disclosed in this proxy statement. This vote is advisory and not binding on the Company, the Compensation Committee or the Board. However, the Board and the Compensation Committee value the opinions of the Company's shareholders and expect to consider the outcome of the vote, along with other relevant factors, when considering future executive compensation decisions.

RESOLVED, that the shareholders approve the compensation awarded to the Company's Named Executive Officers for 2014, as disclosed under SEC rules, including the Compensation Discussion and Analysis, the Compensation Tables and related material included in this proxy statement.

Table of Contents

Report of the Compensation Committee

The Compensation Committee has reviewed and discussed the following Compensation Discussion and Analysis with management. Based on this review and discussion, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement. This report is provided by the following independent directors who comprise the Compensation Committee:

Michael E. J. Phelps (Chair)

Joseph Alvarado

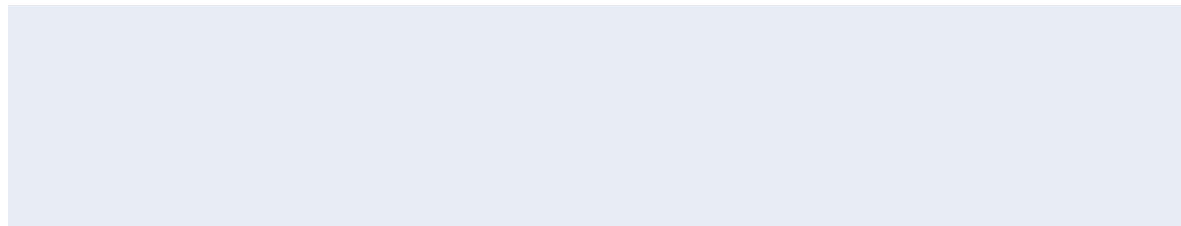

Pamela L. Carter

Clarence P. Cazalot Jr

Michael G. Morris

24 SPECTRA ENERGY CORP 2015 PROXY STATEMENT

Table of Contents

Compensation Discussion and Analysis

In this section, we describe the design and purpose of the compensation programs that apply to the executive officers of Spectra Energy who are listed in the Summary Compensation Table on page 43. We refer to these officers as our Named Executive Officers. They are:

Gregory L. Ebel, Chairman, President and Chief Executive Officer

J. Patrick Reddy, Chief Financial Officer

Reginald D. Hedgebeth, General Counsel and Chief Ethics & Compliance Officer

William T. Yardley, President, U.S. Transmission

Dorothy M. Ables, Chief Administrative Officer

2014 Summary

- ^u Target pay opportunities for our executives are established within range of the median of Peer Group information and the markets in which we compete for talent.
- ^u Our direct compensation program consists of 1) base salary, 2) short-term incentives and 3) long-term incentives, with the incentive compensation elements representing a clear alignment with pay for performance.
- ^u The financial and operating objectives in our short-term incentive program focus management on critical performance levers that drive shareholder value. For 2014, we exceeded all of our short-term objectives by generating strong earnings and cash flows from our fee-based assets, executing on capital expansion plans, operating our assets reliably and achieving an all-time high in our safety results. Please see pages 34-37 for more information about our short-term incentive objectives and results.

- u In spite of excellent 2014 financial and operational results, our share price was more sensitive to energy price volatility than many of our peers and in the last quarter of 2014, total shareholder return for our 2012-2014 long-term performance cycle fell from 41.42% to 34.60%. This last quarter change resulted in goal achievement moving from an above-target payout of approximately 140% to no payout for performance shares.
- u As a result, consistent with our pay for performance philosophy and alignment with our shareholders, we achieved above-target payout on short-term incentives and zero payout on performance shares.

Summary of Compensation Philosophy

We believe that the successful execution of our strategy should result in enhanced shareholder value. Our executive compensation programs are designed to attract and retain executives who are highly qualified to carry out our strategy and to create incentives that link to our strategic direction.

To achieve these objectives, we design compensation opportunities for executives based on the following principles:

- u Compensation programs should support the accomplishment of our strategic goals.
- u The majority of compensation available for our Named Executive Officers should be contingent on the Company's attainment of pre-established performance objectives, both short-term and long-term.
- u Compensation opportunities should be aligned with the interests of shareholders, and incentive programs should be designed in consideration of their impact on shareholders, both immediately and in the long-term.
- u Compensation opportunities — as measured by the sum of salary, short-term cash incentive target, and the targeted value of long-term compensation awards — should be sufficiently competitive (in relation to the median of the markets in which we compete for executives) to attract, retain and incentivize Spectra Energy's executives.
- u Fringe benefits, perquisite programs and other forms of indirect compensation should be minimized.

COMPENSATION DISCUSSION AND ANALYSIS

Summary of Compensation Philosophy

Overview of 2014 Company Performance

Throughout 2014, we continued to successfully execute the long-term strategies we outlined for our shareholders meeting the needs of our customers, generating strong earnings and cash flows from our fee-based assets, executing capital expansion plans that underlie our growth objectives, and maintaining a strong balance sheet. Again in 2014, these results, combined with future growth opportunities, led our Board of Directors to approve an increase in our quarterly dividend effective with the last quarter of 2014 to \$0.37 per share, or \$1.48 per share annually. The new dividend level represents an increase of more than 10% from the previous quarter.

Many additional accomplishments marked our success in 2014. We successfully delivered a slate of new projects into service. In total during 2014, we placed \$800 million of growth projects into service. Also, we supplemented our backlog of new projects by securing \$3.5 billion in new fee-based projects with long-term contracts.

Successful execution of our 2014 projects allowed us to continue to achieve aggregate returns over the last eight years consistent with our targeted return on capital employed or ROCE range, having invested \$2.3 billion of capital and investment expenditures in 2014, including \$1.5 billion of expansion capital expenditures. We delivered EPS, earnings before interest taxes depreciation and amortization (EBITDA) and ROCE that exceeded our targeted amounts under our 2014 Short-Term Incentive Plan as well as exceeded the target for our operational and project results. We are pleased with our record of operating our assets reliably and safely, achieving an all-time record result for safety in 2014.

Therefore, the 2014 Short-Term Incentive Plan payouts were awarded to our Named Executive Officers at a range of 158% to 179% of target amounts. Please see 2014 Compensation Short-Term Incentive Opportunities for a discussion of how we set our target levels. In spite of these accomplishments in 2014, our stock performance was impacted by the rapid drop in commodity prices at the end of 2014. Up until the last quarter of 2014, our three-year total shareholder return (TSR) was 41.42% and would have resulted in an above-target payout of our performance share units. However, some of our peers were not as impacted by the energy price volatility in the market, which caused our TSR for the three-year period ending December 31, 2014 to be 34.60%. This TSR was at the 19.1 percentile of the 18 peer companies in our 2012 LTI peer group, which was below our targeted minimum payout level. As a result, consistent with our pay for performance philosophy and alignment with our shareholders, there is no payout to our Named Executive Officers for performance units awards granted for the 2012-2014 performance cycle. Please see Factors Considered in Determining Total Compensation Peer Group Comparison and 2014 Compensation 2014 Long-Term Incentive Opportunities, respectively, for a discussion of how we set our peer group and target levels.

Role of Performance Measures in Our Compensation Program

Each year the Committee establishes financial and operational objectives for each Named Executive Officer that are linked to our strategic goals. Our compensation plans are designed to reduce compensation below targeted payouts if

these objectives are not realized. Alternatively, in the event we exceed our objectives, these plans are designed to compensate executives at above-target levels.

As noted above, providing safe and reliable operations continues to be a foundational strategy of our business. Although safe and reliable operations benefit the Company and its shareholders in the long-term, the Compensation Committee believes that this goal is best measured in the short-term. The Compensation Committee also believes it is important to link compensation opportunities for our executives to our stock performance over the long-term. Given these considerations, the Committee links compensation incentive opportunities with meeting financial targets while providing safe and reliable operations in the short-term, and enhancing shareholder return over the long-term.

Consistent with this philosophy, the Committee has structured our annual short-term incentive program to provide our Named Executive Officers with substantial incentives to reach short-term strategic objectives that are aligned with the Company's long-term strategic plan. Short-term cash payouts are tied to specific financial and operational goals at the

26 SPECTRA ENERGY CORP 2015 PROXY STATEMENT

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

Compensation-Setting Process

corporate and business unit level, where appropriate, that align with our strategic objectives and our shareholders interests:

70% of each executive's short-term cash incentive opportunity is based upon targets for our EPS, Spectra Energy Transmission EBITDA and ROCE of our core businesses.

The remaining 30% is based upon achieving operational, safety and capital project objectives. Please see pages 34-36 to learn more about these performance measures and why the Committee chose them.

In our long-term incentives, the Committee emphasizes TSR. A substantial portion of the compensation opportunities for our Named Executive Officers consists of long-term equity-based incentives that are designed both to align our executives' interests with our shareholders' long-term interests and to provide meaningful performance and retention incentives:

60% of the long-term incentive grants made to our Named Executive Officers vest based on TSR measured over a three-year period.

40% of the grants are subject to vesting requirements at the end of three years. Please see pages 37-39 for more detail about our long-term incentives.

2014 Shareholder Advisory Vote on Compensation

We have traditionally received very strong support for our executive compensation practices. In an advisory vote held at the 2014 Annual Meeting, our shareholders voted in strong support of the executive compensation programs and on the compensation earned by our Named Executive Officers, with a vote of over 95% in favor.

Compensation-Setting Process

Compensation Committee

The Compensation Committee's responsibilities include:

establishing and reviewing the Company's overall compensation philosophy;

reviewing the effectiveness of our compensation program on a regular basis and approving changes to the program;

reviewing and approving the salaries and other compensation of all our executive officers, including the Named Executive Officers, and any agreements with executive officers regarding their compensation;

with input from the Board, performing an annual evaluation of our Chief Executive Officer's performance; and

making recommendations to the Board on targeted compensation levels for our Chief Executive Officer.

The Compensation Committee operates under a written charter adopted by the Board, which you may view in the Corporate Governance section of our website at <http://investors.spectraenergy.com>. For more information about the Committee and its responsibilities, see page 12.

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

Compensation-Setting Process

Five independent directors make up our Compensation Committee: Michael E. J. Phelps (Chair), Joseph Alvarado, Pamela L. Carter, Clarence P. Cazalot Jr and Michael G. Morris. Each has had significant responsibility for the design and administration of executive compensation programs, having served either on other public company compensation committees or as the senior executive of a business unit.

COMPENSATION COMMITTEE MEMBERS: RELEVANT EXPERIENCE

Mr. Phelps over 10 years as a member and chairman of the compensation committees of the Canadian Imperial Bank of Commerce, Canadian Pacific Railway Company, Fairborne Energy Ltd. and Prodigy Gold Incorporated and currently Chairman and founder of Dornoch Capital Inc. and a director of Marathon Oil Corporation
(Chair)

also served as Chairman, President and Chief Executive Officer of Westcoast Energy Inc. (a company later acquired by a predecessor of Spectra Energy)

Mr. Alvarado currently serves as Chairman, President and Chief Executive Officer and a director of Commercial Metals Company

Ms. Carter serves as President of a business unit at Cummins Inc., a global manufacturer of diesel engines and related technologies, and is a director of CSX Corporation

Mr. Cazalot previously served as Chairman, President and Chief Executive Officer of Marathon Oil Corporation, and is also a director of Baker Hughes Incorporated and FMC Technologies

Mr. Morris previously served as Chairman, President and Chief Executive Officer of American Electric Power Company, Inc. and is also a director of Alcoa Inc., L Brands, Inc. and The Hartford Financial Services Group

also serves on the compensation and benefits committee of the Board of Alcoa Inc.

It is expected that the Compensation Committee will meet as often as is necessary to perform its duties and responsibilities. In 2014, the Committee met five times. Our Chief Executive Officer and other members of management may attend Compensation Committee meetings, as invited. The Compensation Committee also meets in executive session without the presence of management or its consultant.

The Chair of the Compensation Committee works with management to establish meeting agendas. The Committee receives and reviews materials in advance of each meeting; these may include information that management believes will be helpful to the Compensation Committee, as well as materials the Committee has specifically requested. In 2014, these materials addressed matters such as (1) the competitiveness of executive compensation programs based on market data; (2) total compensation provided to Spectra Energy executives; (3) trends and legislative activity in executive compensation and/or benefits; (4) executive stock ownership levels; and (5) corporate financial and operational performance compared to predetermined objectives.

Compensation Committee Interlocks and Insider Participation

None of the members of our Compensation Committee is or has been an officer or employee of Spectra Energy. In addition, during the last fiscal year, none of our executive officers served as a member of the board or the compensation committee of any entity in which a Spectra Energy Board or Compensation Committee member is an executive officer.

Committee Advisors

Since 2007, the Compensation Committee has retained ExeQuity, LLP as its independent compensation consultant. ExeQuity reports directly to the Compensation Committee on matters related to executive compensation, advises it on best practices, and analyzes meeting materials prepared by management. It confers, independently of management, with the Committee's Chair and with the full Committee, although it may discuss compensation matters with management on a limited basis at the Committee's direction. As needed, ExeQuity meets with the Committee in executive sessions at which no one from Spectra Energy's management is present. ExeQuity performs no other services for the Company.

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

Factors Considered in Determining Total Compensation

In 2014, ExeQuity prepared materials for the Compensation Committee, reviewed materials provided to the Compensation Committee by management, consulted with the Chair prior to meetings regarding agenda items, and attended Committee meetings.

In retaining ExeQuity, the Compensation Committee considered the six factors set forth in Section 303A.05(c)(iv) of the NYSE Listed Company Manual concerning potential conflicts of interest. In addition, after a review of information provided by each member of the Compensation Committee, as well as information provided by ExeQuity, the Compensation Committee determined that there are no conflicts of interest raised by ExeQuity's work with the Compensation Committee.

Role of Management

Members of Spectra Energy's management, including our Chief Executive Officer, participate in certain aspects of the compensation-setting process, including:

recommending compensation programs, compensation policies, compensation levels and incentive opportunities;

compiling, preparing and distributing materials for Compensation Committee meetings, including market data;

recommending performance targets and objectives; and

evaluating employee performance (other than the performance of our Chief Executive Officer, whose performance is reviewed by the independent members of the Board).

In 2012, management hired the consulting firm of Aon Hewitt. As management's consultant, the firm assists management in developing its recommendations regarding compensation and may be asked to attend the Compensation Committee meetings from time to time to discuss research and reports that it prepares at management's request.

Factors Considered In Determining Total Compensation

Group Comparison

Compensation Committee sets salaries and short-term and long-term Incentive target

s based in part on what it determines to be the market median of compensation
able to our executives in the market. The market for highly talented executives is
competitive, and we believe our success depends on our ability to attract and retain
executives who are qualified to successfully execute our short-term and long-term
objectives. We believe that our hiring objectives cannot be achieved unless we offer
compensation opportunities that are competitive in the marketplace.

we would prefer to define the market median based on the practices of a sizeable peer
group of companies with market capitalizations and revenues comparable to ours and with
business of business similar to ours. However, there are not enough companies meeting this
description to allow us to assemble such a peer group. Therefore, in setting compensation
policies, the Compensation Committee considers data from published compensation
surveys as well as information from the public filings of representative companies in the
markets where we compete for executive talent and capital which we refer to as the
Peer Group. Companies included in the Peer Group are shown to the right.

Peer Group*

CenterPoint Energy, Inc.

Consolidated Edison, Inc.

Dominion Resources, Inc.

DTE Energy Company

Enbridge Inc.

EQT Corporation

Kinder Morgan, Inc.

National Fuel Gas Company

NiSource Inc.

ONEOK, Inc.

PG&E Corporation

Public Service Enterprise Group Inc.

Sempra Energy

TransCanada Corporation

Williams Companies, Inc.

Xcel Energy Inc.

*In prior years, we distinguished between a Compensation Peer Group and an LTI Peer Group. The Compensation Peer Group provided an informal benchmark of compensation practices of companies with which we compete for executive talent and was considered when setting compensation targets for our Named Executive Officers, while the LTI Peer Group provided a measure of our performance compared to companies with which we compete for capital and was used to determine the appropriate payout percentage for our performance share units at the end of each performance period. For 2014, the Compensation Committee has determined that a single Peer Group can be used for both purposes. Questar Corporation, which was part of the 2013 Compensation and LTI Peer Groups, and Ameren Corporation, which was part of the 2013 LTI Peer Group, have been removed from the Peer Group primarily because they were significantly smaller than Spectra Energy in size.

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

Elements of Our Compensation Program

The Compensation Committee also considers trends in the broader market as shown in general industry surveys. Specifically, the Compensation Committee has used the Aon Hewitt Total Compensation Management Database because it believes this survey provides a reliable indication of compensation practices in companies with revenues comparable to ours.

Our total incentive opportunities emphasize long-term goals to drive long-term decision-making and shareholder alignment.

External Market Conditions and Individual Factors

In addition to using benchmark survey data, the Compensation Committee takes into account external market conditions and individual factors when establishing the total compensation of each Named Executive Officer. Individual factors include the executive's performance, level of experience, tenure, responsibilities and position. External market conditions include competitive pressures for the executive's particular position within the industry, economic developments, the condition of labor markets, and the financial and market performance of the Company. To assist in its evaluation, the Compensation Committee uses tally sheets that assign a dollar amount to each of these elements and provide the details of an executive's historical and proposed compensation. Finally, the Compensation Committee considers internal equity when evaluating the compensation of our Named Executive Officers relative to one another.

Risk Considerations in Our Compensation Program

In addition to reviewing market factors, the Compensation Committee reviews the alignment of the executive compensation program components with the interests of our shareholders. The overall mix and design of our executives' short- and long-term incentive compensation opportunities are balanced to mitigate undue risk and promote the health of the Company.

To drive long-term decision-making, our total incentive opportunities place greater emphasis on long-term goals. In our short-term program, no more than 25% of a Named Executive Officer's targeted award is dependent on any one performance measure. Our short-term measures are chosen to balance the importance of generating short-term earnings and cash with the efficiency and effectiveness of our employed capital. Sixty (60) percent of each executive's long-term opportunity is contingent on the performance of our stock relative to that of our peers, and each executive is required to own certain amounts of Spectra Energy stock, which provides continued alignment with our shareholders' interests in the long-term growth of the Company.

Elements of Our Compensation Program

The objective of our compensation program is to link total compensation to individual and company performance on both a short-term and long-term basis. To carry out this objective, the program is structured to include short-term incentives that reward the achievement of predetermined performance objectives and long-term incentives that reward

positive stock performance and encourage our executives to align their interests with those of shareholders.

COMPENSATION DISCUSSION AND ANALYSIS

2014 Compensation

**Component
Severance**

Rationale

Promotes management continuity and focus on best results for shareholders in the event of a change of control of the Company

Incorporates features that limit the circumstances in which payout can occur and the amount paid (e.g., double-trigger, no tax gross-ups)

Structure

Agreements that provide benefits upon termination following a change of control of the Company.

2014 Compensation

Pay Mix

An executive's total compensation opportunity is the sum of annual base salary, annual cash incentive target, and the target value of his or her annual long-term incentive grant. The opportunity established for each of our Named Executive Officers is intended to provide total target compensation that falls in the median range for individuals who hold comparable positions in the markets in which we compete for executive talent.

For 2014, the total target pay opportunity, in aggregate, was at the market median for our Named Executive Officers.

Consistent with the pay-for-performance objectives of our compensation program, 84% of our Chief Executive Officer's total target pay opportunity, and an average of 68% of all other Named Executive Officers' total target pay opportunity, was in the form of short-term and long-term incentives.

The following charts show the mix of total target compensation for our Chief Executive Officer and for the other Named Executive Officers.

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

2014 Compensation

Salary and Total Pay Opportunities

Chief Executive Officer

In determining Mr. Ebel's 2014 total compensation opportunity, in February 2014 the Compensation Committee reviewed his 2013 performance and that of the Company; the Company's long-term performance; market survey data; and Peer Group data.

Among the Company's performance results and other factors the Committee considered were the following:

In 2013, \$7 billion of new, fee-based projects with long-term contracts was secured and \$6 billion of capital was placed into service through both expansion of our asset footprint, such as the New Jersey-New York pipeline, and strategic acquisitions, including the Express-Platte Pipeline System. This growth is a record achievement for Spectra Energy.

One of the largest fee-based master limited partnerships in North America was created with a major dropdown of assets into our master limited partnership.

During the five-year period under Mr. Ebel's leadership and tenure as Chief Executive Officer, Spectra Energy's total assets increased by 63% and a 182% return to shareholders was achieved.

Mr. Ebel's 2013 total compensation opportunity was below the median of our Peer Group and below the general industry survey data, while the Company's performance, based on TSR, was above the Peer Group median from both a 1-year and 5-year perspective.

After considering this record of achievement, the Compensation Committee deemed it appropriate to increase Mr. Ebel's long-term incentive target from 325% to 425%. This level of long-term incentive aligns him with the overall general industry survey data as well as our Peer Group and continues to place emphasis on long-term performance. Mr. Ebel also received a 3% increase to his base salary for 2014.

Other Named Executive Officers

In February 2014, the Compensation Committee reviewed the 2013 salaries of our Named Executive Officers and approved salary adjustments based on job responsibilities, levels of experience, individual performance, the salaries of executives in comparable positions as obtained from market surveys, and internal comparisons. The Compensation

Committee also reviewed the 2013 total target pay opportunities for our executives to see how those opportunities compare with pay opportunities at companies with which we compete for talent.

To ensure that their salaries remain competitive with the marketplace, Mr. Reddy, Mr. Hedgebeth and Ms. Ables received a 3% base salary adjustment for 2014. In addition, to align incentives with market-competitive levels, Mr. Reddy's long-term incentive target was increased from 170% to 180%.

The following table shows the 2014 target pay opportunities for each Named Executive Officer.

2014 TARGET PAY OPPORTUNITIES

Name	Salary*	STI Target Opportunity	LTI Target Opportunity	Total Target Opportunity
Gregory L. Ebel	\$1,133,000	\$1,133,000 (100%)	\$4,815,250 (425%)	\$7,081,250
J. Patrick Reddy	\$609,400	\$457,050 (75%)	\$1,096,920 (180%)	\$2,163,370
Reginald D. Hedgebeth	\$554,200	\$387,940 (70%)	\$831,300 (150%)	\$1,773,440
William T. Yardley	\$413,400	\$227,370 (55%)	\$578,760 (140%)	\$1,219,530
Dorothy M. Ables	\$463,925	\$324,748 (70%)	\$579,906 (125%)	\$1,368,579

*Base salary effective March 1, 2014

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

2014 Compensation

Short-Term Incentive Opportunities

The 2014 short-term incentive opportunities under the Spectra Energy Executive Short-Term Incentive (STI) Plan were designed to compensate executives based on the Company s 2014 financial and operational performance against goals set at the beginning of the year, and also on each executive s overall individual performance during the year. The Committee established threshold, target and maximum incentive opportunities for each participant, expressed as a percentage of base salary. Target STI awards for our Named Executive Officers in 2014 are reflected in the 2014 Target Pay Opportunities table above.

Under guidelines adopted for the 2014 STI program, the Compensation Committee set a maximum payment opportunity on 2014 short-term incentive payments for all of our executives equal to 200% of their STI target. In order to meet requirements relating to the Company s tax deduction under Section 162(m) of the Internal Revenue Code, annual incentive payouts are initially set at this maximum level to the extent that performance against any one of the Spectra Energy, Spectra Energy Transmission or business unit financial goals meets the threshold level of performance. To determine actual payouts, however, the Compensation Committee applies the following framework (in conjunction with actual performance against the Company s financial and operational measures and individual performance evaluations in order to determine appropriate payout levels):

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

2014 Compensation

Spectra Energy Ongoing EPS is one of the primary measures the investment community uses to value the Company. We define this measure as earnings per share adjusted for the per-share impact of discontinued operations and certain charges and credits that we believe will not be recurring on a regular basis. As shown to the right, the actual 2013 EPS result was \$1.64 and the

EPS target for 2014 was set at \$1.40. The EPS target for 2014 was set lower than the actual 2013 EPS result because approximately 18% of SEP's earnings are being distributed to the holders of SEP's publicly traded common units as a result of the major dropdown of assets into SEP in 2013. The EPS amount necessary to achieve the maximum payout was set at \$1.70, or about 22% above the target, an earnings level that was judged to be possible if financial performance was far superior to our original expectation.

Spectra Energy Transmission EBITDA is a measure of the effectiveness of the core business's ability to generate cash without depreciation, interest or taxes, excluding our joint venture, DCP Midstream, LLC (DCP Midstream). This measure is important, given the major dropdown of assets into our master limited partnership in 2013. In determining this measure, we have eliminated the impact of certain factors in order to make this measure a clearer gauge of the performance of our four core business units, including among others, the elimination of the effect of commodity price changes, the effect of exchange rate fluctuations in Canadian currency and the impact of weather at our distribution business unit. Target performance was set at a level that matched our corporate forecasts. Maximum performance was set at a level judged to be difficult to achieve, and minimum performance was set at the lowest level that would justify a payout.

Spectra Energy Transmission / U.S. Transmission ROCE reflects the efficiency and effectiveness of capital deployment in our core business. Our business is capital-intensive and depends on the effective execution of our projects. Our ability to achieve our targeted returns on these projects is vital to the success of our business. Spectra Energy Transmission ROCE is one of the 2014 STI performance measures used for all of our Named Executive Officers, except Mr. Yardley, for whom U.S. Transmission ROCE is used. We define Spectra Energy Transmission ROCE as our EBIT (excluding results from DCP Midstream) divided by our annual average total debt plus equity minus cash on hand and our investment in DCP Midstream. We define U.S. Transmission ROCE as EBIT divided by annual average total debt plus equity minus cash on hand for our U.S. Transmission business unit. Target performance was set at a level consistent with corporate forecasts. Similar to other measures, maximum and minimum performance were set, respectively, at levels deemed by the Compensation Committee to be significant challenges or minimally acceptable.

Given the importance of safe and reliable operations, two scorecards were designed to provide alignment and a common culture in all our field and office locations. The first scorecard is the **Environmental, Health and Safety Scorecard**, which consists of several industry-leading and lagging indicators that promote leadership, continuous improvement and a culture of zero injury or illness. Annual targets in these areas are set to achieve incremental improvement in performance over prior years' results.

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

2014 Compensation

To promote leadership in enhancing a safety culture, management employees conducted stand-up-for-safety meetings, senior management conducted safety tours, and employees were required to complete all applicable environmental, health and safety training.

We emphasized the importance of a zero-injury culture in two areas: our people and our environment. With respect to our people, we measured improvement in frequency rates for recordable employee and contractor injury, for employee lost and restricted work incident frequency, and for preventable vehicle incidents. With respect to our environment, we focused on: ensuring that corrective actions and root cause analyses are developed for recordable incidents, increased reporting of non-recordable incidents, increased fuel efficiency for fleet vehicles, and minimized impacts on our environment.

The second scorecard is the **Operations Scorecard**, which consists of several goals designed to ensure effective management of efficient operations. These measures consisted of effectively managing operational and maintenance costs, measuring the reliability of performance at our compressor stations and processing plants, measuring the compliance of our pipelines with prescribed inspection and maintenance work, and maintaining the integrity of our pipelines.

We also have a third scorecard, which is the **Project Scorecard**. This consists of two goals designed to ensure effective management of budget and schedule for our capital expansion projects. These measures consisted of: meeting budgeted capital expenditures and achieving budgeted internal rates of return on these projects.

Determination of 2014 Short-Term Incentive Payments

At the end of the 2014 cycle, management prepared a report on the achievement of the financial and operational goals under our STI plan. The Compensation Committee reviewed and approved these results in February 2015, along with any proposed adjustments based on individual performance for each Named Executive Officer. In the case of Named Executive Officers other than our Chief Executive Officer, the Chief Executive Officer made recommendations to the Committee regarding any adjustments based on individual performance. In the case of our Chief Executive Officer, the Committee reviewed and approved his performance against financial and operational objectives and his overall individual performance. Following this process, the Compensation Committee approved the final performance results and payment of incentives to all Named Executive Officers.

The table below shows the level of performance needed to achieve the threshold, target and maximum payouts established for each financial goal, as well as the actual 2014 results and actual payout percentages. As discussed above, for each goal, achievement of the threshold, target and maximum amounts would result in corresponding payout percentages of 50%, 100% and 200%, respectively, of the target level.

For example, an executive's short-term incentive payment associated with our Spectra Energy Ongoing EPS results was calculated as 25% of the executive's target cash incentive opportunity (25% being the weighting assigned to the

EPS measure) multiplied by the actual 2014 payout percentage for the EPS measure, which was 173.33%.

36 SPECTRA ENERGY CORP 2015 PROXY STATEMENT

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS**

2014 Compensation

In determining the final award amount for Mr. Yardley, the Compensation Committee also considered other factors driving the Company's strong performance in 2014, such as securing \$2.4 billion in new, fee-based projects with long-term contracts and achieving an all-time record on safety results.

2014 STI AWARDS

Name	Actual Short-Term Incentive Payout	Payout as a Percent of STI Target Opportunity
Gregory L. Ebel	\$1,784,594	158%
J. Patrick Reddy	\$719,902	158%
Reginald D. Hedgebeth	\$611,046	158%
William T. Yardley	\$408,013	179%
Dorothy M. Ables	\$511,511	158%

2014 Long-Term Incentive Opportunities

We provide long-term incentive opportunities to our executive officers to achieve an alignment of executive and shareholder interests. These opportunities are designed to incentivize executives to achieve strategic goals that will maximize long-term shareholder value.

The Compensation Committee decided that our long-term incentive program should consist of both a time-based element and a performance-based element. It believes that combining these two forms of awards, with a heavier weighting on the performance element, is an effective means of creating a focus on shareholder return and helping us retain our executive talent in a competitive market. We therefore award performance share units, which generally vest when certain specific performance goals are achieved, in combination with phantom units that generally vest over a three-year period if the grantee remains continuously employed by the Company/affiliates.

Phantom units

Phantom units make up 40% of the annual LTI grant value. These units vest at the end of three years (assuming the executive is still employed with us), at which time they are paid in cash, based on the fair market value of Spectra Energy common stock at the time of vesting. Dividend equivalents are accumulated from the date of grant and paid (in cash) only on the number of phantom units that actually vest.

Performance share units

For 2014, performance share unit awards continued to make up the remaining 60% of the target value of annual long-term compensation. These units are earned based on how the Company performs over a three-year period relative

to our Peer Group. Please see [Factors Considered in Determining Total Compensation](#) *Peer Group Comparison* for more information regarding the Peer Group.

The vesting of performance share unit awards depends on how the TSR of our common stock (a performance metric under our long-term incentive program) compares to TSR results of our Peer Group over a three-year measurement period, as shown below:

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS**

2014 Compensation

The Compensation Committee approved these percentages after reviewing similar plans adopted by many of the companies in the Peer Group, reviewing the historical returns of the Peer Group as well as indices that track energy company performance, and consulting with its independent compensation consultant.

Once earned, the performance share units are converted to shares of Spectra Energy common stock at the time of vesting. This payout design for the performance share units, in combination with the payout design for the phantom units, is intended to provide for stock accumulation while also allowing for investment diversification. Dividend equivalents are accumulated from the date of grant and paid (in cash) only on the number of performance share units that actually vest.

For the purpose of determining the number of performance share units and phantom units granted, we use Aon Hewitt's Total Compensation Management valuation model. Based on this model, adjustments are made to reflect the risk associated with the performance and time vesting conditions, resulting in discounts to 88.76% and 93.76% for performance share units and phantom units, respectively.

We use this expected value methodology in determining awards because this valuation method represents the benefit or opportunity to the employee. It assigns a prospective dollar value to long-term incentives for various compensation-related purposes including comparison of compensation across companies in a peer group. The value shown in the Summary Compensation Table is calculated using standard accounting methodologies. Under the accounting rules, use of a relative TSR performance measure generally produces higher accounting expense than awards that vest based on other measures or solely on service.

We believe in strong alignment of executive pay with TSR. This alignment provides competitive long-term incentive opportunities and incentivizes management to focus on the critical value of shareholder returns. Even though it produces higher accounting expense, we have a heavier weighting on relative TSR as a performance metric than the majority of our peers, as we believe it has the strongest alignment with returns our shareholders realize.

The table below shows long-term incentive awards granted to our Named Executive Officers in 2014:

2014 LTI GRANTS

Name	Expected Value of LTI/Equity Grants (as a % of Base Salary)	Number of Performance Share Units Granted	Number of Phantom Units Granted
Gregory L. Ebel	425%	90,500	57,100
J. Patrick Reddy	180%	20,600	13,000
Reginald D. Hedgebeth	150%	15,600	9,900
William T. Yardley	140%	10,900	6,900

Dorothy M. Ables

2014 Compensation

Determination of 2012-2014 Performance Share Unit Awards

The 2012 performance unit cycle commenced on January 1, 2012 and ended on December 31, 2014. Performance share units vest based on our TSR for this three-year period as compared to the TSR for companies in our 2012 LTI Peer Group (which was the same as the 2014 Peer Group shown on page 29, except that it also included Ameren Corporation and Questar Corporation). As of September 30, 2014, our TSR was 41.42% for the performance period, which was at the 61.7 percentile of our peer group and equated to a goal achievement of approximately 140%. However, performance results changed in the last quarter, as our stock performance was negatively impacted by energy price volatility in the market more than some of our peers while some of our utility peers were positively impacted by lower interest rates. Our final TSR for the three-year period was 34.60%, which is at the 19.1 percentile of the 2012 LTI Peer Group. In accordance with our pay for performance philosophy, because this three year period did not achieve at least the 30th percentile of our peer group, this resulted in no payout and no dividend equivalents for this award. Therefore, the following performance shares that were granted for the 2012-2014 performance period and the associated grant values originally shown in the 2013 proxy statement and included in the 2012 Stock Award value shown in the Summary Compensation Table on page 43 were not realized by our Named Executive Officers:

Name	Original 2012 PSU Grant		Vested PSU / Compensation Realized from Award
	# Shares at Target	Value of Grant	
Gregory L. Ebel	82,200	\$ 3,369,378	\$0
J. Patrick Reddy	21,100	\$ 864,889	\$0
Reginald D. Hedgebeth	18,600	\$ 762,414	\$0
William T. Yardley	10,500	\$ 430,395	\$0
Dorothy M. Ables	13,000	\$ 532,870	\$0

COMPENSATION DISCUSSION AND ANALYSIS

Retirement and Other Benefits

Retirement and Other Benefits

Retirement Benefits

We provide our executives with retirement benefits under the Spectra Energy Retirement Savings Plan, the Spectra Energy Executive Savings Plan, the Spectra Energy Retirement Cash Balance Plan and the Spectra Energy Executive Cash Balance Plan. The Compensation Committee has determined that, based on market surveys, these plans are comparable to the benefits provided by our peers and provide an important tool for attracting and retaining our executives. Please refer to Compensation Tables beginning on page 43 for disclosure of the amounts paid to our Named Executive Officers under these plans.

The Spectra Energy Retirement Savings Plan, a 401(k) plan, is generally available to all our employees in the United States. It is a tax-qualified retirement plan that provides a means for employees to save for retirement on a tax-deferred basis and to receive an employer matching contribution. Earnings on amounts credited to the plan depend on each participant's investment choices (which may include a Spectra Energy common stock fund).

The Spectra Energy Executive Savings Plan enables executives to defer compensation, and receive employer matching contributions, in excess of the limits of the Internal Revenue Code that apply to qualified retirement plans such as the Spectra Energy Retirement Savings Plan. Investment choices under this plan are similar to those offered to all employees under the Spectra Energy Retirement Savings Plan.

The Spectra Energy Retirement Cash Balance Plan provides a defined benefit beginning at retirement, the amount of which is based on a participant's cash balance account balance, which grows with monthly pay and interest credits.

The Spectra Energy Executive Cash Balance Plan provides executives with the retirement benefits to which they would be entitled under the Spectra Energy Retirement Cash Balance Plan in the absence of the Internal Revenue Code limits.

Perquisites and Personal Benefits

At the direction of the Board, Mr. Ebel uses the Company aircraft for personal travel in limited circumstances, primarily for business efficiency. Mr. Ebel's family and guests may accompany him on business and personal trips. Other executive officers are not allowed to initiate personal trips on corporate or chartered aircraft. However, they are permitted to invite their spouses or guests to accompany them on business trips when space is available. When an executive officer's use of aircraft or a guest's travel does not meet the Internal Revenue Service's standard for business use, the cost of that travel is imputed as income to the officer even if it did not result in incremental cost to the Company.

Severance

The Compensation Committee believes that change-in-control severance arrangements serve shareholders' best interests by diminishing the potential distraction created by the personal uncertainties and risks that may affect our executives' focus in the context of a potential corporate restructuring or change-in-control transaction. These protections also help ensure continuity of management in the event of certain corporate transactions.

However, the Committee believes that executives should not be unduly enriched if change-in-control severance arrangements are triggered. Accordingly, each Named Executive Officer has entered into an agreement with the Company that defines the circumstances under which severance benefits would be paid.

The Compensation Committee approved the terms of these agreements after consultation with its independent compensation consultant and with outside counsel. The agreements include the provisions listed below, which the Compensation Committee considered to be sufficient to achieve its objectives. *See also* Compensation Tables Potential Payments upon Termination of Employment or Change in Control.

Agreements are triggered only if there is both a change in control of the Company and a qualifying termination of employment. This feature is commonly called a "double trigger."

Cash severance benefits are limited to two times annual salary plus two times annual target cash incentive.

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

Other Compensation Policies

Medical, dental and life insurance are continued during the two years following severance.

A lump-sum payment is provided for company savings-plan and pension-plan contributions.

There is no provision to gross-up excise taxes that may be triggered under Section 4999 of the Internal Revenue Code. However, severance payments may be reduced to a level that does not trigger the excise tax if this results in greater net after-tax benefits for the executive than if severance benefits were not reduced and excise tax was paid.

Executives are subject to certain non-competition and non-solicitation provisions.

Other Compensation Policies

Clawback Policy

In December 2014, we adopted a policy on recovery of executive compensation (Clawback Policy). Our executive officers who are subject to Section 16 of the Exchange Act are subject to the Clawback Policy (each, a Covered Person). If our financial results are significantly restated due to fraud or intentional misconduct and a Covered Person is found to be personally responsible for the fraud or intentional misconduct that caused the need for the restatement, the Clawback Policy permits seeking recoupment of incentive, equity and/or performance-based compensation amounts awarded and paid to such Covered Person during the three-year period preceding the date of the restatement. Determinations of whether or not to seek such recoupment will be made, with respect to our Chief Executive Officer, at the sole discretion of our Board, and with respect to other Covered Persons, at the sole discretion of the Compensation Committee.

Stock Ownership Policy

We have adopted a stock ownership policy for executive officers and other key employees who receive long-term incentives. We believe that our executives should be required to own shares of Spectra Energy in order to establish an alignment between their interests and the interests of our shareholders. The employee is required to satisfy the ownership target within five years after becoming subject to the policy. To reinforce the importance of stock ownership, employees who do not achieve their ownership targets by a preset date become ineligible for future long-term incentives unless they apply all short-term incentive payments to the purchase of our common stock until the ownership target is achieved.

The following table summarizes our stock ownership policy for our executive officers. All Named Executive Officers have exceeded their aggregate stock ownership requirement under this policy.

STOCK OWNERSHIP REQUIREMENTS

Position	Number of Shares
Chairman, President and Chief Executive Officer	200,000
Other Named Executive Officers	70,000
All Other Executives Subject to Guidelines	2,000-30,000

Derivative Transactions

Our stock trading policy applies to transactions in any securities that derive their value from our common stock or any of our debt securities. To avoid even the appearance of insider trading, this policy permits trading by our directors and executives in our securities only during a 30-day window following our quarterly or annual earnings release and only after obtaining preclearance from our Chief Executive Officer or General Counsel. In addition, because of the inherent potential for abuse, this policy restricts our directors and executives from entering into short-swing transactions, short sales, or the use of derivative securities, hedging transactions or margin accounts when such accounts or transactions relate to our securities.

COMPENSATION DISCUSSION AND ANALYSIS

Other Compensation Policies

Tax and Accounting Implications of Our Compensation Program

Deductibility of Executive Compensation

The Compensation Committee reviewed and considered the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that the Company generally may not deduct for federal income tax purposes annual compensation in excess of \$1 million paid to certain employees. However, the \$1 million limit does not apply to performance-based compensation that is paid pursuant to shareholder-approved plans and is approved by directors who qualify as outside directors within the meaning of Section 162(m) of the Internal Revenue Code.

The Compensation Committee generally structures and administers executive compensation plans and arrangements so that they will not be subject to the 162(m) deduction limit. However, to maintain flexibility in structuring appropriate compensation programs in the interest of shareholders, the Committee may from time to time approve payments that cannot be deducted. For example, phantom units awarded to certain employees under our Long-Term Incentive Plan may not be deductible for federal income tax purposes, depending on the amount and type of other compensation these employees receive.

Accounting for Stock-Based Compensation

In accounting for employee awards, equity classified stock-based compensation cost is measured at the grant date based on the fair value of the award and is generally recognized as expense over the period beginning on the date the award is granted and ending on the earlier of the date the award vests or the date the employee becomes retirement-eligible. For accounting purposes, awards granted to retirement-eligible employees are deemed to vest on the grant date and their cost is recognized at that time. Liability classified stock-based compensation cost is re-measured at each reporting period and is recognized as expense over the requisite service period.

Internal Revenue Code Section 409A

To the extent we permit executives to defer compensation or we commit to deliver compensation at a later date than when earned and vested, we endeavor to ensure that, if applicable, the requirements of Section 409A of the Internal Revenue Code are satisfied. Failure to satisfy the Section 409A requirements could subject the executives receiving such nonqualified deferred compensation to a 20% excise tax.

(1)

Stock Awards column reflects the aggregate grant date fair value of performance share units and phantom units awards granted each year as shown in the 2014 Grants of Plan-Based Awards table on page 44, and computed in accordance with the provisions of FASB ASC Topic 718. The aggregate dollar amount was determined without regard to any estimate of forfeitures related to service-based vesting conditions. See Note 24 of the Notes to Consolidated Financial Statements in our Form 10-K for the year ended December 31, 2014 regarding assumptions underlying the valuation of equity awards. See page 38 for determination of units granted and variance with accounting values shown above. If the performance share units vested at the maximum level, the following represents the maximum value that would be payable on the performance share units granted in 2014, based on the closing stock price of our common stock on the grant date of these awards for Messrs. Ebel, Reddy, Hedgebeth and Yardley and Ms. Ables: \$6,704,240; \$1,526,048; \$1,155,648; \$807,472; and \$807,472, respectively.

- (2) Non-Equity Incentive Plan Compensation column includes amounts payable under the Spectra Energy Executive STI Plan with respect to the 2014, 2013 and 2012 performance periods. Unless deferred, these amounts were paid, respectively, in March 2015, February 2014 and March 2013.
- (3) Change in Pension Value and Nonqualified Deferred Compensation Earnings represents the change in value during the twelve-month period ending on December 31 of each year. These changes were as follows for each Named Executive Officer:

	Gregory L. Ebel	J. Patrick Reddy	Reginald D. Hedgebeth	William T. Yardley	Dorothy M. Ables
	(\$)	(\$)	(\$)	(\$)	(\$)
Change in actuarial present value of accumulated benefit under the Spectra Energy Retirement Cash Balance Plan	41,234	30,099	31,467	44,404	59,628
Change in actuarial present value of accumulated benefit under the Spectra Energy Executive Cash Balance Plan	390,663	134,059	107,540	70,772	107,440
Change in actuarial present value of accumulated benefit under the Pension Choices Plan for Employees of Westcoast Energy Inc. and Affiliated Companies	(11,552)				
Change in actuarial present value of accumulated benefit under the Spectra Energy Supplemental Pension Plan	336,282				
Total	756,627	164,158	139,007	115,176	167,068

Table of Contents**COMPENSATION TABLES**

2014 Grants of Plan-Based Awards

(4) All Other Compensation column includes the following for 2014:

	Gregory L. Ebel	J. Patrick Reddy	Reginald D. Hedgebeth	William T. Yardley	Dorothy M. Ables
	(\$)	(\$)	(\$)	(\$)	(\$)
Matching contributions under the Spectra Energy Retirement Savings Plan	15,600	15,600	15,600	15,600	15,600
Make-whole matching contribution credits under the Spectra Energy Corp Executive Savings Plan	168,522	61,670	47,098	30,400	36,885
Premiums for life insurance coverage provided under life insurance plans	2,622	7,524	1,710	2,112	4,496
Matching charitable contributions made in the name of the executive under Spectra Energy's matching gift policy	7,000	7,500	4,380	3,200	7,500
Personal use of Company aircraft	106,410	2,934	2,761	4,855	
Tax-return preparation services	10,956				
Total	311,110	95,228	71,549	56,167	64,481

The amounts shown as Personal use of Company aircraft reflect the personal use of the Company's aircraft by the Named Executive Officers. When travel costs did not meet the IRS standard for business use, income was imputed to the officer even though such travel may not have resulted in incremental cost to Spectra Energy. The methodology used to compute the incremental cost of this benefit was based on the hourly variable cost for the use of the aircraft, plus any tax-deduction disallowance.

(5) A portion of Mr. Ebel's pension value for 2014, 2013 and 2012 was provided in Canadian dollars and has been converted to U.S. dollars using the Bloomberg spot rate of \$.8605 on December 31, 2014, \$.09414 on December 31, 2013 and \$.9921 on December 31, 2012.

	2/18/2014	2/17/2014							6,900	\$ 255,500

(1) This column shows the potential payout opportunities established for the 2014 performance period under the terms of the Spectra Energy Executive STI Plan. The actual amounts paid to each executive under the plan for 2014 are disclosed in the Summary Compensation Table.

(2) Awards were made in units of Spectra Energy common stock and were granted under the terms of the Spectra Energy Corp 2007 Long-Term Incentive Plan, as amended and restated.

(3) All awards reflected in this column were computed in accordance with FASB ASC Topic 718. The per-share full grant date fair value of the phantom units and performance share units granted on February 18, 2014 were \$37.04 and \$46.08, respectively. The per-share full grant date fair value of the phantom units granted on July 1, 2014 was \$42.45.

Table of Contents**COMPENSATION TABLES**

2014 Option Exercises and Stock Vested

(4) The Spectra Energy Compensation Committee, at its meeting on June 16, 2014, approved retention grants of phantom units to Messrs. Hedgebeth and Yardley. At the time of these awards, there was an increasingly high demand for recognized executive leadership in the energy industry. These key executives possess highly marketable skills in positions of strategic importance as the Company executes on its growth strategy. The Committee sought to ensure that these executives would continue to be integral to Spectra Energy's succession plan.

Table of Contents**COMPENSATION TABLES****Pension Benefits****Pension Benefits**

This section contains information regarding benefits available to our Named Executive Officers under the Company's pension and retirement plans.

Spectra Energy Retirement Cash Balance Plan and Executive Cash Balance

We provide pension benefits that are intended to assist our retirees with their retirement income needs. This section contains a detailed description of the plans that make up our pension program.

Each of the Named Executive Officers actively participated in pension plans sponsored by us or an affiliate in 2014. This included the Spectra Energy Retirement Cash Balance Plan (RCBP), a noncontributory, defined-benefit retirement plan that is intended to qualify under Section 401(a) of the Internal Revenue Code. The RCBP generally covers non-bargaining employees of the Company and its affiliates, and provides benefits under a cash balance account formula.

Each of the Named Executive Officers who participates in the RCBP has satisfied the requirements for receiving his or her account benefit upon termination of employment. The RCBP benefit is payable in the form of a lump sum in the amount credited to the hypothetical account at the time of benefit commencement. Payment is also available in the form of an annuity based on the actuarial equivalent of the account balance.

The amount credited to the hypothetical account is increased with monthly pay credits, as follows:

Age and service	Percentage of eligible monthly compensation*
Participants with combined age and service of less than 35 points	4%
Participants with combined age and service of 35 to 49 points	5%
Participants with combined age and service of 50 to 64 points	6%
Participants with combined age and service of 65 or more points	7%

* For the RCBP, eligible monthly compensation is equal to Form W-2 wages, plus elective deferrals under a 401(k) or cafeteria plan. It does not include severance pay (including payment for unused vacation), expense reimbursements, allowances, cash or noncash fringe benefits, moving expenses, bonuses for performance periods in excess of one year, transition pay, long-term incentive compensation (including income resulting from any stock-based awards such as stock options, stock appreciation rights, phantom stock or restricted stock) and certain other compensation items.

If the participant earns more than the Social Security wage base, the account is credited with additional pay credits equal to 4% of eligible compensation above the Social Security wage base. Interest credits are credited monthly. The interest rate is determined quarterly based upon the 30-year Treasury rate, but with a 4% minimum and a 9% maximum.

A participant's RCBP benefit may not be less than the amount determined under certain prior benefit formulas (including optional forms). In addition, the benefit is subject to benefit and compensation limits under the Internal Revenue Code.

Each of our Named Executive Officers was also eligible to participate in the Spectra Energy Executive Cash Balance Plan (ECBP), a noncontributory, defined-benefit retirement plan that is not intended to satisfy the requirements for qualification under Section 401(a) of the Internal Revenue Code. Benefits earned under the ECBP are attributable to (a) compensation in excess of the Internal Revenue Code's annual compensation limit (\$260,000 for 2014) for the determination of pay credits under the RCBP; (b) restoration of benefits in excess of a defined-benefit plan maximum annual benefit limit (\$210,000 for 2014) under the Internal Revenue Code that applies to the RCBP; and (c) supplemental benefits granted to a particular participant. Generally, benefits earned under the RCBP and the ECBP vest upon completion of three years of service and, with certain exceptions, vested benefits generally become payable upon termination of employment with the Company.

We have established a grantor trust that is subject to the claims of our creditors into which funds related to the ECBP are deposited. Funds deposited into the trust are managed by an independent trustee subject to guidelines provided by the Company.

Table of Contents**COMPENSATION TABLES**

Pension Benefits

Pension Choices Plan for Employees of Westcoast Energy Inc. and Spectra Energy Supplemental Pension Plan

Mr. Ebel participated in the Pension Choices Plan for Employees of Westcoast Energy Inc. and Affiliated Companies (Pension Plan) and the Spectra Energy Supplemental Executive Retirement Plan (SERP) while he resided in Canada prior to 2007. The Pension Plan is registered under the Income Tax Act and under the Pension Benefits Act (Ontario). The executive component of the Pension Plan is a non-contributory defined-benefit plan that provides a pension based on 2% of the annualized average of the executive's highest consecutive 36 months' salary and cash incentive multiplied by his or her years of service while located in Canada. The Income Tax Act imposes a limit on the amount of benefits that can be paid from a registered pension plan.

The SERP is primarily intended to restore benefits under the Pension Plan to the level that would be available absent this limit. Mr. Ebel's benefit accruals related to the Duke SERP were transferred to the Spectra Energy SERP effective with the spin-off. SERP benefits are paid from the general revenues of Spectra Energy as a life annuity. Effective with his transfer to the United States, Mr. Ebel began participating in the Spectra Energy RCBP, and his active participation in the Pension Plan was suspended, although compensation (but not additional service) with Spectra Energy will be used in the calculation of his Pension Plan and SERP benefit. The table below provides information, determined as of December 31, 2014, about each plan that provides for payments or other benefits to our Named Executives Officers at, following or in connection with retirement:

PENSION BENEFITS TABLE

Name	Plan Name	Number of Years of Credited Service (#)	Present

Spectra Energy Executive Savings Plan

Under the Spectra Energy Executive Savings Plan, participants can elect to defer a portion of their base salary, short-term incentive compensation and long-term incentive compensation (other than stock options). Participants also receive a company matching contribution in excess of the contribution limits prescribed by the IRS under the Spectra Energy Retirement Savings Plan. In general, payments are made following termination of employment or death in the form of a lump sum or installments, as selected by the participant. Participants may request an accelerated distribution upon an unforeseeable emergency. In general, participants may direct the deemed investment of base salary deferrals, short-term incentive deferrals and matching contributions among investment options available under the Spectra Energy

Table of Contents**COMPENSATION TABLES****Potential Payments Upon Termination of Employment or Change in Control**

Retirement Savings Plan, including in a Spectra Energy Common Stock Fund. Deferrals of equity awards are credited with earnings and losses based on the performance of the Spectra Energy Common Stock Fund. We have established a grantor trust that is subject to the claims of our creditors into which funds related to the Spectra Energy Executive Savings Plan are deposited; an independent trustee manages these funds under guidelines provided by the Company.

NONQUALIFIED DEFERRED COMPENSATION

Name	Company		Aggregate		Aggregate Balance at Last FYE
	Executive Contributions in Last FY	Contributions in Last FY	Earnings/Withdrawals/ Distribution	Aggregate	
	(\$) ⁽¹⁾	(\$) ⁽²⁾	(\$)	(\$)	(\$)
Gregory L. Ebel	292,457	168,522	67,656		2,213,710

Dorothy M. Ables	29,485	36,885	74,568		1,271,872

(1) The table reflects contributions made to the Spectra Energy Executive Savings Plan. Executive contributions credited to the plan in 2014 include amounts reported as Salary in the Summary Compensation Table as well as Non-Equity Incentive Plan Compensation paid in 2014 but reported in the table as compensation earned in 2013. Amounts may also include elective deferrals of awards earned under our Long-Term Incentive Plan and payable in 2014.

(2) Reflects matching contribution credits made in 2014 under the plan with respect to elective salary deferrals made by executives during 2014.

Potential Payments upon Termination of Employment or Change**in Control**

Under certain circumstances, each Named Executive Officer would be entitled to compensation if his or her employment were to terminate. The amount of compensation is contingent upon a variety of factors, including the circumstances of the termination. The agreements and terms of awards affecting this type of compensation are described below, followed by a table that estimates the amount that would become payable to each Named Executive

Officer as a result of a change in control or a termination of employment, assuming a termination was effective as of December 31, 2014. The actual amounts that would be paid can be determined only at the time of the Named Executive Officer's termination of employment.

48 SPECTRA ENERGY CORP 2015 PROXY STATEMENT

Table of Contents**COMPENSATION TABLES****Potential Payments Upon Termination of Employment or Change in Control****Effect of Termination on Long-Term Incentive Awards**

The following table summarizes the consequences that would occur in the event of a change in control or the termination of employment of a Named Executive Officer under our long-term incentive award agreements, without giving effect to the change in control agreements described below.

Event	Consequences
Change in Control	Phantom Units continue to vest
Termination with cause	Performance Share Units award vests based on target performance Phantom and Performance Share Units executive's right to unvested portion of award terminates immediately
Voluntary termination (not retirement eligible)	Phantom and Performance Share Units executive's right to unvested portion of award terminates immediately
Involuntary termination without cause (not retirement eligible)	Phantom Units prorated portion of award vests
Voluntary termination or involuntary termination without cause (retirement eligible)	Performance Share Units prorated portion of award vests based on actual performance after performance period ends Phantom Units prorated portion of award continues to vest
Involuntary termination after a Change in Control	Performance Share Units prorated portion of award vests based on actual performance after performance period ends Phantom Units award vests

	Performance Share Units	award vests based on target performance
Termination due to Death or Disability	Phantom Units	award vests

	Performance Share Units	award vests based on target performance
--	-------------------------	---

Change in Control Agreements

Each Named Executive Officer has entered into a change in control agreement with the Company. The agreements have an initial term of two years, and automatically extend for a year starting on the first anniversary of the date of the agreements. The Company or the Named Executive Officers can terminate the agreements following the initial two-year term, after providing 6 months advance written notice.

The change in control agreements provide for payments and benefits to the executive in the event of termination of employment within two years after a change in control of the Company, other than termination: (1) by the Company for cause; (2) by reason of death or disability; or (3) of the executive for other than good reason (each such term as defined in the agreements).

Payments and benefits include:

a lump-sum cash payment equal to a pro-rata amount of the executive's target cash incentive for the year in which the termination occurs;

Table of Contents

COMPENSATION TABLES

Potential Payments Upon Termination of Employment or Change in Control

a lump-sum cash payment equal to two times the sum of the executive's annual base salary and target annual cash incentive opportunity in effect immediately prior to termination or, if higher, in effect immediately prior to the first occurrence of an event or circumstance constituting "good reason";

continued medical, dental and basic life insurance coverage for a two-year period (which can also be provided through a third-party insurer); and

a lump-sum cash payment representing the amount the Company would have allocated or contributed to the executive's qualified and nonqualified defined-benefit pension plan and defined contribution savings plan accounts during the two years following the termination date, plus the unvested portion, if any, of the executive's accounts as of the date of termination that would have vested during such two-year period.

In addition, under certain circumstances, the agreements may provide for continued vesting of certain long-term incentive awards for two additional years.

Under the change in control agreements, each Named Executive Officer also is entitled to reimbursement of up to \$50,000 for the cost of certain legal fees incurred in connection with claims under the agreements. In the event that any of the payments or benefits provided for in the change in control agreement otherwise would constitute an "excess parachute payment" (as defined in Section 280G of the Internal Revenue Code), the amount of payments or benefits would be reduced to the maximum level that would not result in excise tax under Section 4999 of the Internal Revenue Code, if this reduction would cause the executive to receive a larger after-tax amount than if no reduction were made. In the event a Named Executive Officer becomes entitled to payments and benefits under a change in control agreement, he or she would be subject to a one-year non-competition and non-solicitation provision from the date of termination, in addition to certain confidentiality and cooperation provisions.

Potential Payments Upon Termination of Employment or a Change in Control Table

The amounts listed in the following table have been estimated based on a variety of assumptions, and the actual amounts to be paid out can only be determined at the time of each Named Executive Officer's termination of employment. Amounts shown do not include compensation to which each Named Executive Officer would be entitled without regard to his or her termination of employment, including (a) base salary and short-term incentives that have been earned but not yet paid, and (b) amounts that have been earned, but not yet paid, under the terms of the plans listed under the "Pension Benefits" and "Nonqualified Deferred Compensation" tables.

50 SPECTRA ENERGY CORP 2015 PROXY STATEMENT

Table of Contents**COMPENSATION TABLES****Potential Payments Upon Termination of Employment or Change in Control**

With respect to a Named Executive Officer who is covered by a change in control agreement, the amounts shown do not reflect any reduction in payments that might be made so that the excise tax under Section 4999 of the Internal Revenue Code would not apply.

Table of Contents

COMPENSATION TABLES

Potential Payments Upon Termination of Employment or Change in Control

- (1) Amounts in the table represent obligations of the Company under agreements currently in place, and valued as of December 31, 2014.
- (2) Amounts payable under the terms of the Named Executive Officer's change in control agreement, not including accrued salary and cash incentive payments earned but not paid through December 31, 2014 (these amounts are reflected in the Summary Compensation Table, however).
- (3) Pursuant to the Named Executive Officers' change in control agreements, this column represents the additional amounts that would be credited and vested in respect of the Spectra Energy Retirement Cash Balance Plan, Spectra Energy Executive Cash Balance Plan, Spectra Energy Retirement Savings Plan and the Spectra Energy Executive Savings Plan if the Named Executive Officer continued to be employed by Spectra Energy for two additional years, at his or her rate of base salary plus target bonus percentage as in effect on December 31, 2014.
- (4) Amounts include the maximum accrued vacation allowed under Company policy and the amount that would be paid to each Named Executive Officer who has entered into a change in control agreement in lieu of providing continued welfare benefits for 24 months.
- (5) Amounts that would result from the acceleration of the vesting of previously awarded stock and any associated dividend equivalent payments due upon vesting. For Mr. Reddy and Ms. Ables, who are retirement eligible, amounts also include the continued vesting of previously awarded phantom units after the applicable termination event.

The amounts shown above with respect to the Company's outstanding stock awards were calculated based on a variety of assumptions, including the following: (a) the Named Executive Officer terminated employment on the last day of 2014; (b) a stock price for our common stock equal to \$36.30, which was the closing price on the last trading day of 2014; (c) the continuation of our dividend at the rate in effect on December 31, 2014; and (d) performance at the target level with respect to performance share units.

Current Equity Compensation Plan Information

The following table contains information, as of December 31, 2014, about securities to be issued upon the exercise of outstanding options, warrants and rights under our equity compensation plans, along with the weighted-average exercise price of the outstanding options, warrants and rights and the number of securities remaining available for future issuance under the plans.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available under equity compensation plans (excluding securities reflected in column ⁽¹⁾)
Equity compensation plans approved by security holders	1,102,312	25.36	11,690,255
Equity compensation plans not approved by security holders			
Total	1,102,312	25.36	11,690,255

(1) Represents shares available for issuance for awards of phantom unit awards, performance share unit awards or options under the Spectra Energy Corp 2007 Long-Term Incentive Plan, as amended and restated. In the case of performance share units, amounts assume target performance.

Shareholder Proposals

Proposal 4: Shareholder Proposal-Political Contributions

The Nathan Cummings Foundation (the Foundation), located at 475 Tenth Avenue, 14th Floor, New York, New York 10018, has notified Spectra Energy that it intends to present the resolution set forth below at the Annual Meeting for action by the shareholders. The Foundation was the beneficial owner of the Company's common stock as of November 3, 2014, with a market value in excess of \$2,000. The Foundation's supporting statement for the resolution, along with the Board's statement in opposition is set forth below.

Resolved: That the shareholders of Spectra Energy (Company) hereby request that the Company provide a report, updated semiannually, disclosing the Company's:

1. Policies and procedures for making, with corporate funds or assets, contributions and expenditures (direct or indirect) to (a) participate or intervene in any political campaign on behalf of (or in opposition to) any candidate for public office, or (b) influence the general public, or any segment thereof, with respect to an election or referendum.
2. Monetary and non-monetary contributions and expenditures (direct and indirect) used in the manner described in section 1 above, including:
 - a. The identity of the recipient as well as the amount paid to each; and
 - b. The title(s) of the person(s) in the Company responsible for decision-making.

The report shall be presented to the board of directors or relevant board committee and posted on the Company's website.

Supporting Statement: As long-term shareholders of Spectra Energy, we support transparency and accountability in corporate spending on political activities. These include any activity considered intervention in a political campaign under the Internal Revenue Code, such as direct and indirect political contributions to candidates, political parties, or political organizations; independent expenditures; or electioneering communications on behalf of federal, state or local candidates.

Disclosure is in the best interest of the Company and its shareholders and critical for compliance with federal ethics laws. Moreover, the Supreme Court's *Citizens United* decision recognized the importance of political spending

disclosure for shareholders when it said, “[D]isclosure permits citizens and shareholders to react to the speech of corporate entities in a proper way. This transparency enables the electorate to make informed decisions and give proper weight to different speakers and messages. Gaps in transparency and accountability may expose the Company to reputational and business risks that could threaten long-term shareholder value.

We note that Spectra Energy provides a brief policy statement on political spending on its website. However, this does not include any information regarding to whom the Company gave, either directly or indirectly. Indeed, Spectra Energy placed near the bottom of the *2014 CPA-Zicklin Index of Corporate Political Accountability and Disclosure*, receiving just 33 points out of 100.

We ask the Company to disclose all of its political spending, including payments to trade associations and other tax exempt organizations used for political purposes. This would bring our Company in line with a growing number of leading companies that support transparency and present this information on their websites, including Noble Energy, ConocoPhillips, and Exelon Corporation.

The Company’s Board and its shareholders need comprehensive disclosure to be able to fully evaluate the political use of corporate assets. We urge your support for this critical governance reform.

Table of Contents

SHAREHOLDER PROPOSALS

Proposal 4: Political Contributions

Opposition Statement of the Company

This proposal is identical to a proposal that was submitted twice by the same shareholder proponent and was included in our 2013 and 2014 Proxy Statements. Supporting the Board's opposition to the Proposal each time it was submitted, a significant majority of our shareholders voted against this Proposal.

Our approach to political engagement and related governance practices continues to be guided by what we believe is in the best interests of our shareholders, the Company, its employees, customers and other key stakeholders. These interests are best served when we engage constructively in the political process to support policies that create shareholder value and further our business interests. We continue to be committed to the highest standards of ethical conduct and to compliance with applicable laws in our involvement in the political process. Likewise, we are committed to providing shareholders and other interested parties with information about our political activity.

Following considerable engagement with our shareholders, including The Nathan Cummings Foundation, the proponent of this Proposal, in February 2013, we enhanced and published our political contributions policy on our website at <http://investors.spectraenergy.com/phoenix.zhtml?c=204494&p=iro-l-govHighlights>. The political contributions policy was again enhanced in January 2015, to provide additional disclosures on our lobbying activities. The political contributions policy, as well as our Code of Business Ethics, which is also available on our website at <http://investors.spectraenergy.com/phoenix.zhtml?c=204494&p=iro-l-govHighlights>, set out the governance principles and standards for participation in the political process by the Company and its employees and substantially address the concerns raised by this Proposal.

In our sustainability report, we regularly publish the details of the Company's public policy positions, advocacy priorities and aggregate political contribution amounts, among other information, which we believe fulfill the proponent's request for transparency and accountability. Our 2013 Sustainability Report, published in May 2014, is available at www.spectraenergy.com/sustainability.

As expressly stated in our political contributions policy, we follow Federal laws in both Canada and the United States which place limits on a company's ability to participate in the political process, and as such, we do not contribute corporate funds directly to federal political candidates, committees or parties in either jurisdiction. On a limited basis, we may use corporate funds in the United States to make contributions to 527 organizations (tax-exempt organizations that engage in political activities).

We also participate in business and industry forums, such as trade associations, which provide an appropriate and cost-effective means to share our perspective on matters important to our business and our shareholders' interests. The trade associations where we have a greater level of participation are listed in our sustainability report and are on our website. In all of these efforts, we advocate for our industry by lending our resources, knowledge and influence to encourage understanding and appreciation for the important role natural gas, natural gas liquids and oil are playing in achieving North America's energy, environmental and economic goals and to spur positive policy and action toward that end.

Our governance practices ensure accountability for the Company's political activity. All of our proposed political contributions are reviewed and approved by a senior business unit government affairs officer and, in some instances, by the President of the relevant business unit or our Chief Executive Officer. Our political spending policies and practices, as well as our public policy positions, advocacy priorities and aggregate political contributions also are reviewed annually by our Board.

We believe that the disclosure enhancements we made in 2013 and 2015 are responsive to the request made in the Proposal and represent corporate best practices. We continue to provide ample disclosure about our participation in the political process, and our internal governance practices ensure accountability for the Company's political contributions and related expenditures.

Table of Contents

SHAREHOLDER PROPOSALS

Proposal 5: Lobbying Disclosures

Proposal 5: Shareholder Proposal Lobbying Disclosures

The Unitarian Universalist Association, located at 24 Farnsworth Street, Boston, MA 02210-1409, has notified Spectra Energy that it intends to present the resolution set forth below at the Annual Meeting for action by the shareholders. As of November 6, 2014, The Unitarian Universalist Association owned the Company's common stock having a market value in excess of \$2,000.

Whereas, corporate lobbying exposes our company to risks that could adversely affect the company's stated goals, objectives, and ultimately shareholder value, and

Whereas, we rely on the information provided by our company to evaluate goals and objectives, and we, therefore, have a strong interest in full disclosure of our company's lobbying to assess whether our company's lobbying is consistent with its expressed goals and in the best interests of shareholders and long-term value.

Resolved, the shareholders of Spectra Energy Corp (Spectra Energy) request the Board authorize the preparation of a report, updated annually, disclosing:

1. Company policy and procedures governing lobbying, both direct and indirect, and grassroots lobbying communications.
2. Payments by Spectra Energy used for (a) direct or indirect lobbying or (b) grassroots lobbying communications, in each case including the amount of the payment and the recipient.
3. Spectra Energy's membership in and payments to any tax-exempt organization that writes and endorses model legislation.
4. Description of the decision making process and oversight by management and the Board for making payments described in section 2 and 3 above.

For purposes of this proposal, a grassroots lobbying communication is a communication directed to the general public that (a) refers to specific legislation or regulation, (b) reflects a view on the legislation or regulation and (c) encourages the recipient of the communication to take action with respect to the legislation or regulation. Indirect lobbying is lobbying engaged in by a trade association or other organization of which Spectra Energy is a member.

Both direct and indirect lobbying and grassroots lobbying communications include efforts at the local, state and federal levels. Neither lobbying nor grassroots lobbying communications include efforts to participate or intervene in any political campaign or to influence the general public or any segment thereof with respect to an election or referendum.

The report shall be presented to the Audit Committee or other relevant oversight committees and posted on the company's website.

Supporting Statement

As shareholders, we encourage transparency and accountability in the use of staff time and corporate funds to influence legislation and regulation both directly and indirectly. Spectra Energy does not comprehensively disclose its memberships in, or payments to, trade associations, or the portions of such amounts used for lobbying. Absent a system of accountability, company assets could be used for objectives contrary to Spectra Energy's long term interests.

Spectra Energy spent \$2.67 million in 2012 and 2013 on direct federal lobbying activities (opensecrets.org). These figures do not include lobbying expenditures to influence legislation in states, where Spectra Energy also lobbies. And Spectra Energy does not disclose membership in or contributions to tax-exempt organizations that write and endorse model legislation, such as the company's \$5,000 contribution to the 2011 annual meeting of the American Legislative Exchange Council (ALEC). At least 90 companies have publicly left ALEC, including ConocoPhillips, Entergy, and Occidental Petroleum.

We urge support for this proposal.

Table of Contents

SHAREHOLDER PROPOSALS

Proposal 5: Lobbying Disclosures

Opposition Statement of the Company

As we stated in our response to Proposal 4, our approach to political engagement and related governance practices are guided by what we believe is in the best interests of our shareholders, the Company, its employees, customers and other key stakeholders. Our approach to political engagement, including lobbying activities, supports our belief in strong governance practices that ensure transparency with respect to our public policy involvement. Our political engagement and advocacy priorities are published in our sustainability report and are on our website. We believe that ensuring transparency in this area should be a continuing process that is assessed in light of the changing environment and what is in the best interest of our stakeholders.

In January 2015, we enhanced our political contributions policy to specifically include discussing our lobbying activities and our public disclosure of those activities. The policy now includes a section entitled "Lobbying" which sets forth why we employ and engage lobbyists, how we select lobbyists and a description of the approval and oversight process with respect to the lobbyists that we engage. We have also set forth in the policy a detailed description of the public disclosure related to our lobbying activities in both the U.S. and Canada.

As set forth in the policy, we file lobbying reports with the U.S. Congress, the Government of Canada, state and provincial agencies on a regular basis, disclosing information about lobbying activities. The reports include information on the issues lobbied, the agencies contacted and the expenditures made, and are available for public review in the United States on the websites of the U.S. House of Representatives (<http://www.house.gov>) and the U.S. Senate (<http://www.senate.gov>), and in Canada on the websites of Office of the Commissioner of Lobbying of

Canada, as noted below. In many cases, state and provincial reports are made available for review on the applicable state or provincial agency website.

In the U.S., we maintain and file Lobbying Disclosure Act Registration and Reports (Form LD-2) with the U.S. Congress. These reports detail the particular bills and issues on which individual lobbyists had activity, as well as the total lobbying expenses incurred during each calendar quarter. The Lobbying reports may be found at: http://www.senate.gov/legislative/Public_Disclosure/LDA_reports.htm.

In the U.S., Spectra Energy and its registered federal lobbyists must also file semi-annual reports detailing, among other things, Spectra-DCP PAC disbursements and personal and/or direct contributions to federal candidates. These

Edgar Filing: Spectra Energy Corp. - Form DEF 14A

forms (LD-203) are viewable by using the following link: http://www.senate.gov/legislative/Public_Disclosure/LDA_reports.htm.

In Canada, Spectra Energy's registered consultants and in-house lobbyists must file monthly reports detailing communications with designated public office holders. These forms are publically available at: <http://ocl-cal.gc.ca/eic/site/012.nsf/eng/home>.

We believe our enhanced policy directly responds to this Proposal and sets forth a more comprehensive system of accountability than sought by the Proposal.

56 SPECTRA ENERGY CORP 2015 PROXY STATEMENT

Table of Contents

Other Information

NYSE Listing Standards

Because our common stock is listed on the New York Stock Exchange, we are subject to the NYSE's regulations regarding corporate governance and other matters. As of the date of this proxy statement, we are in compliance with all applicable NYSE regulations.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors and executive officers, and persons owning more than 10% of our common stock, to file with the SEC initial reports of beneficial ownership of the Company's equity securities and of certain changes in that beneficial ownership. We prepare and file these reports on behalf of our directors and executive officers. To our knowledge, all Section 16(a) reporting requirements applicable to our directors and executive officers were complied with during 2014 with the exception of one late filing for Mr. Guy G. Buckley.

Proposals and Business by Shareholders

If you wish to submit a proposal for inclusion in the proxy statement for our 2016 Annual Meeting of Shareholders, we must receive it by November 20, 2015.

In addition, if you wish to introduce business at our 2016 Annual Meeting (other than proposals to be included in the proxy statement), you must send us written notice of the matter. Your notice must comply with the requirements of our By-laws, and we must receive it no earlier than December 30, 2015 and no later than January 29, 2016. The individuals named as proxy holders for our 2016 Annual Meeting will have discretionary authority to vote proxies on matters of which we are not properly notified and also may have discretionary voting authority under other circumstances.

Your proposal or notice should be mailed to our Corporate Secretary at 5400 Westheimer Court, Houston, Texas 77056.

Director Independence Standards for Relationships Deemed Immaterial

As noted on page 10, the Board has adopted categorical standards under which certain relationships are deemed not to impair a director's independence. Those standards are as follows:

Relationship	Requirements for Immateriality of Relationship
--------------	--

Personal Relationships

The director or an immediate family member resides within a service area of, and is provided with utility service by, Spectra Energy or its subsidiaries.

The director or an immediate family member holds securities issued publicly by Spectra Energy or its subsidiaries.

The director or an immediate family member receives pension or other forms of deferred compensation for prior service, or other compensation unrelated to director or meeting fees, from Spectra Energy or its subsidiaries.

Utility services must be provided in the ordinary course of the provider's business and at rates or charges fixed in conformity with law or governmental authority, or if the service is unregulated, on arm's-length terms.

The director or immediate family member can receive no extra benefit not shared on a pro rata basis.

The compensation cannot be contingent in any way on continued service, and

Table of Contents

OTHER INFORMATION

Director Independence Standards for Relationships Deemed Immaterial

Relationship

Requirements for Immateriality of Relationship

A director's immediate family member is an employee (other than an executive officer) of a company that does business with Spectra Energy or its subsidiaries, or in which Spectra Energy or its subsidiaries have an equity interest. The director and his or her immediate family members together own 5% or less of a company that does business with Spectra Energy or its subsidiaries, or in which Spectra Energy and its subsidiaries have an equity interest.

The director has not been employed by Spectra Energy or any company that was a subsidiary of Spectra Energy at the time of such employment for at least three years, or the immediate family member has not been an executive officer of Spectra Energy for at least three years and any such compensation that is not pension or other forms of deferred compensation for prior service cannot exceed \$10,000 per year.

If the immediate family member lives in the director's home, the business must be done in the ordinary course of Spectra Energy's or its subsidiary's business and on arm's-length terms.

None; relationship is considered immaterial.

Business Relationships

Payments for property or services are made between Spectra Energy or its subsidiaries and a company associated* with the director or immediate family member who is an executive officer of the associated company.

Payment amounts must not exceed the greater of \$1 million or 2% of the associated company's revenues in any of its last three fiscal years, and

Relationship must be in the ordinary course of Spectra Energy's or its subsidiary's business and on arm's-length terms.

Indebtedness is outstanding between Spectra Energy or its subsidiaries and a company associated* with the director or immediate family member.

Indebtedness amounts must not exceed 5% of the associated company's assets in any of its last three fiscal years, and

Relationship must be in the ordinary course of Spectra Energy's or its subsidiary's business and on arm's-length terms.

The director or immediate family member is a non-management director of a company that does business with Spectra Energy or its subsidiaries or in which Spectra Energy or its subsidiaries have an equity interest.

Charitable Relationships

Charitable donations or pledges are made by Spectra Energy or its subsidiaries to a charity associated* with the director or immediate family member.

A charity associated* with the director or immediate family member is located within a service area of, and is provided with utility service by, Spectra Energy or its subsidiaries.

Payments for property or services are made between Spectra Energy or its subsidiaries and a charity associated* with the director or immediate family member.

The business must be done in the ordinary course of Spectra Energy's or its subsidiary's business and on arm's-length terms.

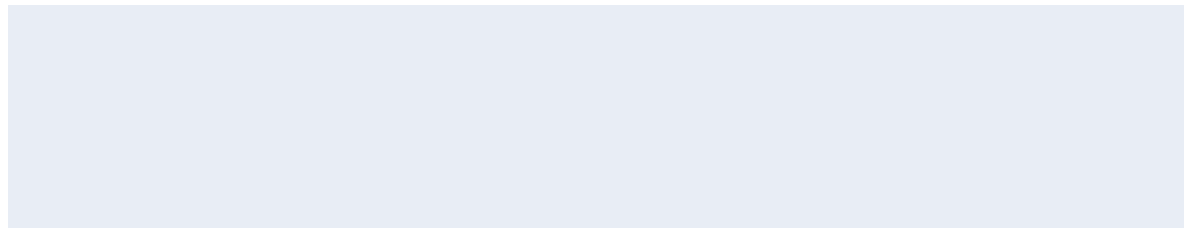

Donations and pledges must not result in payments exceeding the greater of \$100,000 and 2% of the charity's revenues in any of its last three fiscal years.

Utility service must be provided in the ordinary course of the provider's business and at rates or charges fixed in conformity with law or governmental authority, or if the service is unregulated, on arm's-length terms.

Relationships must be in the ordinary course of Spectra Energy's or its subsidiary's business and on arm's-length terms or subject to competitive bidding.

- * An associated company is one (a) for which the director or immediate family member is a general partner, principal or employee, or (b) of which the director and immediate family members together own more than 5%. An associated charity is one for which the director or immediate family member serves as an officer, director, advisory board member or trustee.

Table of Contents

Annual Meeting Information

About this Proxy Statement

We are furnishing this proxy statement in connection with the solicitation by our Board of Directors of proxies to be voted at our 2015 Annual Meeting of Shareholders. It contains important information for you to consider when deciding how to vote your shares at the Annual Meeting, so we ask that you read it carefully.

You received this proxy statement and you are eligible to vote at this year's Annual Meeting because you owned our common stock at the close of business on March 2, 2015. We refer to this date as the record date.

How We Furnish Proxy Materials To Shareholders

Electronic and Paper Delivery

We use an e-proxy process to furnish these important proxy materials to our shareholders in order to reduce the cost and lessen the environmental impact of our proxy distribution. This means that if you are eligible to vote, we sent you a Notice by mail informing you where to go online to access the proxy statement, our 2014 Annual Report to Shareholders and our Annual Report on Form 10-K for the fiscal year ended December 31, 2014. We have also mailed paper copies to shareholders who requested them.

To request a paper copy of the current proxy statement: notify Investor Relations by phone at 713-627-4606, by e-mail at investorrelations@spectraenergy.com, or by mail at Spectra Energy Corp, c/o Investor Relations, 5400 Westheimer Court, Houston, Texas 77056.

To enroll in electronic delivery of proxy materials going forward: go to <http://enroll.icsdelivery.com/SE> and follow the instructions. You will need to enter a valid email address along with your social security number.

Multiple Shareholders in the Same Household

Under a procedure approved by the Securities and Exchange Commission, when more than one shareholder reside at the same address, those shareholders can consent to receive a single copy of Spectra Energy's annual report and proxy statement. Shareholders will still receive separate proxy cards so that they can cast their own votes. This householding procedure reduces printing costs and fees. However, if any shareholder within a household does not consent to householding, we will mail these documents separately to that shareholder.

Note that householding applies only to proxy materials and annual reports; it does not affect the mailing of dividend checks or Stock Purchase and Dividend Reinvestment Plan statements.

If you have consented to householding but wish to receive separate annual reports and proxy statements in the future, notify Investor Relations by phone at 713-627-4606, by e-mail at investorrelations@spectraenergy.com or by mail at Spectra Energy Corp, c/o Investor Relations, 5400 Westheimer Court, Houston, Texas 77056. You will be removed from the householding program within 30 days after we receive your notice. If your household received a single mailing this year and you would like to receive additional copies of our 2014 Annual Report to Shareholders and our 2015 proxy materials, Investor Relations can promptly handle that request for you as well.

Multiple Proxy Cards

You may receive multiple proxy cards if you own Spectra Energy common stock through multiple accounts. Please sign and return all proxy cards to ensure that all of your shares are voted at the Annual Meeting.

ANNUAL MEETING INFORMATION

About Proxy Voting

About Proxy Voting

What is a proxy?

Because most shareholders are not able to vote in person at the Annual Meeting, we ask that they designate another person to vote their shares at the meeting in accordance with their instructions. That person is called a proxy. If you designate someone as your proxy in a written document, that document is also called a proxy or a proxy card.

If you mail us your properly completed and signed proxy card, or you vote by telephone or Internet, your shares of our common stock will be voted according to the choices that you specify.

What happens if I don't provide a proxy or I don't give voting instructions on all matters?

The answer depends on whether you hold your shares in your own name or in the name of a brokerage firm, bank or other holder of record.

If you hold your shares directly in your own name, your shares will not be voted unless you provide a proxy or vote in person. If you sign and mail your proxy card without marking any choices, your

How to Vote

By Proxy

Before the Annual Meeting, you can give a proxy to vote your shares of our common stock in one of the following ways:

by telephone – shareholders located in the United States can vote by calling 1-800-690-6903 toll-free and following the instructions on the proxy card;

by Internet – you can vote over the Internet at www.proxyvote.com by following the instructions on the proxy card; or

by mail – if you received your proxy materials by mail, you can vote by completing and signing your proxy card and mailing it in time to be received prior to the Annual Meeting.

Scan this QR code

proxy will be voted:

FOR the election of all nominees for director;

FOR the ratification of the appointment of Deloitte & Touche LLP as Spectra Energy's independent registered public accounting firm for fiscal year 2015;

FOR the approval, on an advisory, non-binding basis, of the compensation of our Named Executive Officers; and

AGAINST each of the two shareholder proposals described in this proxy statement, if properly presented.

If your shares are held through a brokerage firm or bank, in the absence of instructions from you, the brokerage firm or bank can vote your shares only on Proposal 2 – the selection of

Deloitte & Touche LLP as our independent registered public accounting firm. This is because Proposal 2 is considered to be a routine matter under the rules that govern the annual meeting process. The other proposals on this year's agenda are not considered routine matters, and therefore your broker will not be able to vote on any of those proposals without your instructions. This is called a broker non-vote.

However you hold your shares, we urge you to exercise your voting rights as a shareholder and vote at the Annual Meeting.

to vote with your
mobile device

During the telephone and Internet voting process, you will confirm your identity, give your voting instructions, and receive verification that your instructions have been properly recorded.

In Person

You may come to the Annual Meeting and cast your vote there. If your shares are held in the name of your broker, bank or other nominee and you wish to vote at the Annual Meeting, you must bring an account statement or letter from the nominee indicating that you were the owner of the shares at the close of business on March 2, 2015. You will need a current government-issued photo identification (such as a driver's license or a passport) to enter the Annual Meeting.

Table of Contents

ANNUAL MEETING INFORMATION

About Proxy Voting

What if proposals that weren't listed on my proxy are put to a vote at the Annual Meeting?

We do not expect that any additional matters will be brought before the Annual Meeting. However, you should be aware that by giving your proxy, you appoint the persons named as proxies as your representatives at the Annual Meeting. Therefore, if an issue comes up for a vote at the Annual Meeting that is not included in this proxy statement, the proxy holders will vote your shares in accordance with their best judgment.

Voting Shares in Your Spectra Energy Retirement Savings Plan Account

If you participate in the Spectra Energy Retirement Savings Plan, you have the right to provide voting directions to the plan trustee for those shares of our common stock that are allocated to your plan account. Plan participant proxies are treated confidentially.

If you elect not to provide voting directions to the plan trustee, the trustee will vote the Spectra Energy shares allocated to your plan account in the same proportion as those shares for which the plan trustee has received voting directions from other plan participants, unless it determines that to do so would be contrary to the Employee Retirement Income Security Act of 1974. **Because the plan trustee must process voting instructions from participants before the date of the Annual Meeting, you are urged to deliver your instructions well in advance of the Annual Meeting so that the instructions are received no later than April 23, 2015.**

Changing Your Vote

You may change your vote or revoke your proxy by:

notifying our Corporate Secretary in writing that you are revoking your proxy;

providing another signed proxy that is dated after the proxy you wish to revoke;

using the telephone or Internet voting procedures; or

attending the Annual Meeting and voting in person.

How Voting Works

Quorum requirement

In order to conduct the Annual Meeting, a majority of the shares entitled to vote must be present in person or by proxy. This is referred to as a quorum. If you submit a properly executed proxy card or vote by telephone or on the Internet, you will be considered part of the quorum.

Abstentions and broker non-votes will be counted as present and entitled to vote for purposes of determining whether there is a quorum at the Annual Meeting.

A broker non-vote occurs when, as discussed above, a bank or broker holds shares for another person, has not received voting instructions from that person, and does not have discretionary authority to vote the shares on a proposal because the proposal is not considered to be routine.

Table of Contents

ANNUAL MEETING INFORMATION

[About Proxy Voting](#)

As of the record date, 671,320,402 shares of our common stock were issued and outstanding and entitled to vote at the Annual Meeting. Each share of our common stock has one vote.

REQUIRED VOTES FOR EACH PROPOSAL

Proposal	Votes required	What happens if you abstain or you do not give voting instructions to your broker
Proposal 1 (Election of Directors)	A director will be elected if the number of shares voted FOR the director exceeds the number of votes AGAINST that director	Abstentions: No effect on outcome
Proposal 2 (Ratification of Appointment of Independent Registered Public Accounting Firm)	Adoption requires the affirmative vote of a majority of the shares that are present at the meeting in person or by proxy and are entitled to vote on Proposal 2	No instructions to broker: Results in a broker non-vote, which has no effect on the outcome Abstentions: same effect as votes AGAINST
Proposal 3 (Advisory Vote Approving Executive Compensation)	Adoption requires the affirmative vote of a majority of the shares that are present at the meeting in person or by proxy and are entitled to vote on Proposal 3	No instructions to broker: Broker may vote FOR or AGAINST, or may choose not to vote. If it chooses not to vote, this results in a broker non-vote, which has the same effect as votes AGAINST Abstentions: same effect as votes AGAINST
Proposal 4 (Shareholder Proposal-Political Contributions)	Adoption requires the affirmative vote of a majority	No instructions to broker: Results in a broker non-vote, which has no effect on the outcome Abstentions: same effect as votes AGAINST

of the shares that are present at the meeting in person or by proxy and are entitled to vote on Proposal 4

No instructions to broker: Results in a broker non-vote, which has no effect on the outcome

Proposal 5 (Shareholder Proposal-Lobbying Disclosures)

Adoption requires the affirmative vote of a majority of the shares that are present at the meeting in person or by proxy and are entitled to vote on Proposal 5

Abstentions: same effect as votes AGAINST

No instructions to broker: Results in a broker non-vote, which has no effect on the outcome

Effect of Voting on Certain Matters

Election of Directors

In any uncontested election, any nominee for director who receives a greater number of votes against his or her election than votes for such election is required to tender his or her resignation. The Corporate Governance Committee must then make recommendations to the Board with respect to the resignation, and the Board is required to make a decision on this recommendation and to disclose its decision-making process. Full details of this policy are set out in our Principles for Corporate Governance, which is posted on the Corporate Governance section of our website at <http://investors.spectraenergy.com/>.

ANNUAL MEETING INFORMATION

[About Proxy Voting](#)

Advisory vote approving executive compensation

As required by SEC rules, we are asking our shareholders to provide an advisory, nonbinding vote to approve the compensation awarded to our Named Executive Officers. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our Named Executive Officers and Spectra Energy's philosophy, policies and procedures relating to executive compensation described in this proxy statement.

Cost of Proxy Solicitation

The Spectra Energy Board of Directors is requesting your proxy for the Annual Meeting and will pay all the costs of requesting shareholder proxies. We have hired Broadridge Financial Solutions, Inc. to assist in mailing proxy materials, providing electronic access to the proxy materials and requesting proxies. Broadridge's fee for these services is approximately \$65,000 plus out-of-pocket expenses. We have also hired Morrow & Co., LLC to assist in the solicitation of proxies for a fee of \$12,000.

We can request proxies through the mail or personally by telephone, fax or other means. We can use our directors, officers and other employees to request proxies. These people do not receive additional compensation for these services. We will reimburse brokerage houses and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for forwarding solicitation materials to the beneficial owners of our common stock.

SPECTRA ENERGY CORP

Annual Meeting of Shareholders

April 28, 2015 10:00 AM, CT

This proxy is solicited by the Board of Directors

The undersigned hereby appoints Reginald D. Hedgebeth, J. Patrick Reddy and Patrica M. Rice, or any of them, as proxies, with full power of substitution, to vote as designated on the reverse side all shares of common stock held by the undersigned at the Annual Meeting of Shareholders of Spectra Energy Corp to be held on Tuesday, April 28, 2015, at 10:00 a.m., Central Time, at the Company's headquarters at 5400 Westheimer Court, Houston, Texas 77056, or any postponement or adjournment thereof, and with discretionary authority to vote on all other matters that may properly come before the meeting.

If you wish to vote in accordance with the recommendations of the Board of Directors, you may just sign and date on the reverse side and mail in the postage-paid envelope provided, or direct your vote by Internet or telephone as described on the reverse side. Specific choices may be made on the reverse side. In absence of instructions to the contrary, the shares represented will be voted in accordance with the Board's recommendations.

Continued and to be signed on reverse side
