ADR American Depositary Receipt

- (a) Non-income producing security.
- (e) Security is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. Unless otherwise indicated, this security has been determined to be liquid under procedures established by the Board of Directors and may be resold in transactions exempt from registration, normally to qualified institutional buyers.
- (i) Security has been deemed illiquid pursuant to procedures approved by the Board of Directors and may be difficult to sell.
  - A China A shares.
  - B China B shares.

As of March 31, 2015, aggregate cost for Federal income tax purposes was \$117,524,439. The aggregate unrealized gain for all securities is as follows:

Excess of value over cost	\$ 35,289,342
Excess of cost over value	(3,000,232)
<b>Net unrealized gain</b>	<b>\$ 32,289,110</b>

**JPMorgan China Region Fund, Inc.**

**INVESTMENT PORTFOLIO**

AT MARCH 31, 2015 (Unaudited) (continued)

**A. Valuation** The valuation of the investments is in accordance with U.S. generally accepted accounting principles ( GAAP ) and the Fund s valuation policies set forth by and under the supervision and responsibility of the Board of Trustees (the Board ), which established the following approach to valuation, as described more fully below: (i) investments for which market quotations are readily available shall be valued at such unadjusted quoted prices and (ii) all other investments for which market quotations are not readily available shall be valued at their fair value as determined in good faith by the Board.

JPMorgan Funds Management, Inc. (the Administrator ) has established the J.P. Morgan Asset Management Americas Valuation Committee ( AVC ) to assist the Board with the oversight and monitoring of the valuation of the Fund s investments. The Administrator implements the valuation policies of the Fund s investments, as directed by the Board. The AVC oversees and carries out the policies for the valuation of investments held in the Fund. This includes monitoring the appropriateness of fair values based on results of ongoing valuation oversight, including but not limited to consideration of macro or security specific events, market events and pricing vendor and broker due diligence. The Administrator is responsible for discussing and assessing the potential impacts to the fair values on an ongoing basis, and at least on a quarterly basis with the AVC and the Board.

A market-based approach is primarily used to value the Fund s investments. Investments for which market quotations are not readily available are fair valued by approved pricing vendors or third party broker-dealers (collectively referred to as Pricing Services ) or may be internally fair valued using methods set forth by the valuation policies approved by the Board. This may include related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may be used in which the anticipated future cash flows of the investment are discounted to calculate the fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Valuations may be based upon current market prices of securities that are comparable in coupon, rating, maturity and industry. It is possible that the estimated values may differ significantly from the values that would have been used, had a ready market for the investments existed, and such differences could be material.

Equities and other exchange-traded instruments are valued at the last sale price or official market closing price on the primary exchange on which the instrument is traded before the net asset values ( NAV ) of the Fund are calculated on a valuation date.

Valuations reflected in this report are as of the report date. As a result, changes in valuation due to market events and/or issuer related events after the report date and prior to issuance of the report are not reflected herein.

The various inputs that are used in determining the fair value of the Fund s investments are summarized into the three broad levels listed below.

Level 1 Unadjusted inputs using quoted prices in active markets for identical investments.

Level 2 Other significant observable inputs including, but are not limited to, quoted prices for similar investments, inputs other than quoted prices that are observable for investments (such as interest rates, prepayment speeds, credit risk, etc.) or other market corroborated inputs.

Level 3 Significant inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund s assumptions in determining the fair value of investments).

A financial instrument s level within the fair value hierarchy is based on the lowest level of any input, both individually and in the aggregate, that is significant to the fair value measurement. The inputs or methodology used for valuing instruments are not necessarily an indication of the risk associated with investing in those instruments.

The following table represents each valuation input as presented on the Schedule of Portfolio Investments ( SOI ):

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	
	Quoted prices	Other significant observable inputs	Significant unobservable inputs	<b>Total</b>

<b>Total Investments in Securities(a)</b>	<b>\$ 149,813,549</b>	<b>\$</b>	<b>\$</b>	<b>\$ 149,813,549</b>
---	-----------------------	-----------	-----------	-----------------------

(a) All portfolio holdings designated as Level 1 are disclosed individually on the SOI. Please refer to the SOI for industry specifics of portfolio holdings.

There were no transfers between Levels 1 and 2 during the period ended March 31, 2015.

ITEM 2. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers have concluded based on their evaluation of the registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the registrant on Form N-Q is recorded, processed, summarized and reported within the required time periods and that information required to be disclosed by the registrant in the reports that it files or submits on Form N-Q is accumulated and communicated to the registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding disclosure.
  
- (b) There were no changes in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 3. EXHIBITS.

- (a) Certifications pursuant to Rule 30a-2(a) under the 1940 Act, and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.
