Form 10-Q

August 07, 2017

[Table of Contents](#)

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

**Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended June 30, 2017**

or

**Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
Commission File No. 001- 34280**

American National Insurance Company

(Exact name of registrant as specified in its charter)

Texas (State or other jurisdiction of	74-0484030 (I.R.S. Employer
incorporation or organization)	Identification No.)
One Moody Plaza	
Galveston, Texas 77550-7999	
(Address of principal executive offices) (Zip Code)	
(409) 763-4661	
(Registrant's telephone number, including area code)	

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§229.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See definitions of large accelerated filer, accelerated filer, smaller reporting company, and emerging growth company in Rule 12b-2 of the Exchange Act:

Large accelerated filer	Smaller reporting company
Non-accelerated filer	Accelerated filer
Emerging growth company	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of August 01, 2017, there were 26,931,884 shares of the registrant's voting common stock, \$1.00 par value per share, outstanding.

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 Nature of Operations

American National Insurance Company and its consolidated subsidiaries (collectively American National or the Company) offer a broad spectrum of insurance products, including individual and group life insurance, annuities, health insurance, and property and casualty insurance. Business is conducted in all 50 states, the District of Columbia and Puerto Rico.

Note 2 Summary of Significant Accounting Policies and Practices

The consolidated financial statements and notes thereto have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) and are reported in U.S. currency. American National consolidates entities that are wholly-owned and those in which American National owns less than 100% but controls, as well as variable interest entities in which American National is the primary beneficiary. Intercompany balances and transactions with consolidated entities have been eliminated. Investments in unconsolidated affiliates are accounted for using the equity method of accounting. Certain amounts in prior years have been reclassified to conform to current year presentation.

The interim consolidated financial statements and notes herein are unaudited and reflect all adjustments which management considers necessary for the fair presentation of the interim consolidated statements of financial position, operations, comprehensive income, changes in equity, and cash flows.

The interim consolidated financial statements and notes should be read in conjunction with the annual consolidated financial statements and notes thereto included in American National s Annual Report on Form 10-K as of and for the year ended December 31, 2016. The consolidated results of operations for the interim periods should not be considered indicative of results to be expected for the full year.

The preparation of the consolidated financial statements in conformity with GAAP requires the use of estimates and assumptions that affect the reported consolidated financial statement balances. Actual results could differ from those estimates.

Table of Contents**Note 2 Summary of Significant Accounting Policies and Practices (Continued)****Revision to Previously Reported Amounts**

Correction of an Immaterial Error. During the fourth quarter of 2016, the Company revised previously reported amounts to include cash held in a bank custody account representing collateral provided to us by third parties for equity-option derivative transactions. For details, see Note 7, Derivative Instruments, of the Notes to the Consolidated Financial Statements. In accordance with Staff Accounting Bulletin (SAB) No. 99, *Materiality*, and SAB No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*, management evaluated the materiality of the error from qualitative and quantitative perspectives, and concluded the error was immaterial to the current and prior periods. The correction of the immaterial error revised the consolidated statements of financial position and statements of cash flows as disclosed in our 2016 Annual Report on Form 10-K filed with the SEC on March 10, 2017. There was no revision to the consolidated statements of operations, comprehensive income or changes in equity.

The Company has revised prior period amounts in the Consolidated Statements of Cash Flows included herein to reflect the immaterial correction of an error.

Financial statement amounts previously reported were revised as shown below (in thousands):

	Six months ended June 30, 2016		
	As Reported	As Revised	Effect of Change
Statement of Cash Flow			
Change in collateral held for derivatives	\$	\$ (4,266)	\$ (4,266)

Cash at beginning of period	190,237	310,930	120,693
Cash at end of period	133,889	248,052	114,163

Table of Contents

Note 3 Recently Issued Accounting Pronouncements

Future Adoption of New Accounting Standards The FASB issued the following accounting guidance relevant to American National:

In May 2014, the FASB issued guidance that will supersede most existing revenue recognition requirements in GAAP. Insurance contracts generally are excluded from the scope of the guidance. For those contracts which are impacted, the transaction price is attributed to the underlying performance obligations in the contract and revenue is recognized as the entity satisfies the performance obligations and transfers control of a good or service to the customer. The standard is effective for annual periods and interim periods within those annual periods beginning after December 15, 2017. The Company intends to adopt the standard effective January 1, 2018 using a modified retrospective approach. Since the majority of our revenue sources are insurance related and accordingly, not in scope of the standard, we do not expect the adoption of the standard to be material to the Company's results of operations or financial position. The Company is currently identifying those contracts which are in the scope of the standard, and assessing the impact to those non-insurance revenue streams.

In January 2016, the FASB issued guidance that will change certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The new guidance requires that equity investments in unconsolidated entities be measured at fair value and the changes in fair value are recognized through earnings. When the fair value option has been elected for financial liabilities, changes in fair value due to instrument-specific credit risk will be recognized separately in other comprehensive income. The guidance also simplifies the impairment assessment of equity investments and eliminates the disclosure requirements for methods and significant assumptions used to estimate fair value of financial instruments that are measured at amortized cost on the statement of financial position. The standard is effective for annual periods and interim periods within those annual periods beginning after December 15, 2017. The Company is currently evaluating the impact of adoption to the Company's results of operations and financial position.

In February 2016, the FASB issued guidance that will require significant changes to the statement of financial position of lessees. With certain limited exceptions, lessees will need to recognize virtually all of their leases on the statement of financial position, by recording a right-of-use asset and a lease liability. Lessor accounting is less affected by the standard, but has been updated to align with certain changes in the lessee model and the new revenue recognition standard. The standard is effective for annual periods and interim periods within those annual periods beginning after December 15, 2018. We are currently quantifying the expected gross up of our balance sheet for a right of use asset and a lease liability as required. Since the majority of our lease activity is as a lessor, we do not expect the adoption of the standard to be material to the Company's results of operations or financial position.

In June 2016, the FASB issued guidance that will significantly change how entities measure credit losses for most financial assets and certain other instruments that are not measured at fair value through net income. The guidance will replace the current incurred loss approach with an expected loss model for instruments measured at amortized cost. For available-for-sale debt securities, entities will be required to record allowances rather than reduce the carrying amount, as they do under the current other-than-temporary impairment model. The standard is effective for annual periods and interim periods within those annual periods beginning after December 15, 2019. The Company must develop appropriate models to measure expected credit losses to begin determining the impact of adopting the standard on our results of operations or financial position.

In March 2017, the FASB issued guidance on the presentation of net periodic pension and postretirement benefit costs. The guidance requires the service cost component to be reported in the same line item as other compensation costs. All other components of net benefit cost are required to be presented in the income statement separately from

the service cost component and outside of income from operations. The standard is effective for annual periods, including interim periods within those annual periods beginning after December 15, 2017. The Company plans to adopt the standard effective January 1, 2018. Considering the Company's defined benefit pension plans are frozen, this guidance is not expected to have a material impact to the Company's results of operations or financial position.

Table of Contents**Note 4 Investment in Securities (Continued)**

The amortized cost and fair value, by contractual maturity, of fixed maturity securities are shown below (in thousands):

	June 30, 2017			
	Bonds Held-to-Maturity		Bonds Available-for-Sale	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Due in one year or less	\$ 510,417	\$ 519,885	\$ 222,627	\$ 227,075
Due after one year through five years	3,429,929	3,607,802	1,547,018	1,624,300
Due after five years through ten years	2,874,949	2,955,702	3,364,202	3,478,405
Due after ten years	328,349	338,256	572,221	583,666
Without single maturity date	5,850	5,131	5,000	5,016
Total	\$ 7,149,494	\$ 7,426,776	\$ 5,711,068	\$ 5,918,462

Actual maturities differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. Residential and commercial mortgage-backed securities, which are not due at a single maturity, have been allocated to their respective categories based on the year of final contractual maturity.

Proceeds from sales of available-for-sale securities, with the related gross realized gains and losses, are shown below (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2017	2016	2017	2016
Proceeds from sales of available-for-sale securities	\$ 16,834	\$ 27,026	\$ 44,557	\$ 42,731
Gross realized gains	4,162	3,517	14,988	8,584
Gross realized losses	(140)	(214)	(146)	(338)

Gains and losses are determined using specific identification of the securities sold. During the six months ended June 30, 2017, bonds with a carrying value of \$15,000,000 transferred from held-to-maturity to available-for-sale after a significant deterioration in the issuers' credit worthiness became evident. A realized loss of \$6,000,000 was recorded in 2017 on the bond that was transferred, due to an other-than-temporary impairment. During the six months ended June 30, 2016 there were no bonds transferred from held-to-maturity to available-for-sale.

The components of the change in net unrealized gains (losses) on securities are shown below (in thousands):

As of June 30, 2017, the securities with unrealized losses including those exceeding one year were not deemed to be other-than-temporarily impaired. American National has the ability and intent to hold those securities until a market price recovery or maturity. It is not more-likely-than-not that American National will be required to sell them prior to recovery, and recovery is expected in a reasonable period of time. It is possible an issuer's financial circumstances may be different in the future, which may lead to a different impairment conclusion in future periods.

Table of Contents**Note 4 Investment in Securities (Continued)**

Note 5 Mortgage Loans

Generally, commercial mortgage loans are secured by first liens on income-producing real estate. American National attempts to maintain a diversified portfolio by considering the location of the underlying collateral. The distribution based on carrying amount of mortgage loans by location is as follows:

	June 30, 2017	December 31, 2016
East North Central	15.3%	16.2%
East South Central	3.6	3.7
Mountain	12.9	10.6
Pacific	18.1	17.6
South Atlantic	14.7	15.1

Edgar Filing: AMERICAN NATIONAL INSURANCE CO /TX/ - Form 10-Q

West South Central	29.3	31.0
Other	6.1	5.8
Total	100.0%	100.0%

For the six months ended June 30, 2017, American National did not foreclose on any loans, and two loans with a total recorded investment of \$4,225,000 were in the process of foreclosure. For the year ended December 31, 2016, American National did not foreclose on any loans, and one loan with a recorded investment of \$1,940,000, was in the process of foreclosure. American National did not sell any loans during the six months ended June 30, 2017 or during the year ended December 31, 2016.

Table of Contents**Note 5 Mortgage Loans (Continued)**

The age analysis of past due loans is shown below (in thousands):

June 30, 2017	30-59 Days Past Due	60-89 Days Past Due	More Than 90 Days	Total	Current	Total Amount	Percent

Allowance for loan losses (12,490)

Total, net of allowance \$ 4,348,046

Total mortgage loans are net of unamortized discounts of \$119,000 and \$233,000 and unamortized origination fees of \$32,041,000 and \$33,019,000 at June 30, 2017 and December 31, 2016, respectively. No unearned income is included in these amounts.

Allowance for Credit Losses

A loan is considered impaired when it is probable that all amounts due will not be collected according to the contractual terms of the loan agreement. Mortgage loans with temporary difficulties are not considered impaired when the borrower has the financial capacity to fund revenue shortfalls from the properties for the foreseeable future. Individual valuation allowances are established for impaired loans to reduce the carrying value to the fair value of the collateral. Loans not evaluated individually for collectability are segregated by property-type and location, and allowance factors are applied. These factors are developed based on our historical loss experience adjusted for the expected trend in the rate of foreclosure losses. Allowance factors are higher for loans of certain property types and in certain regions based on loss experience or a blended historical loss factor.

The change in allowance for credit losses in mortgage loans is shown below (in thousands, except number of loans):

	Collectively Evaluated for Impairment			Individually Impaired			Total		
	Number of	Recorded	Valuation	Number of	Recorded	Valuation	Number of	Recorded	Valuation
	Loans	Investment	Allowance	Loans	Investment	Allowance	Loans	Investment	Allowance
Beginning balance, 2017	430	\$ 4,358,596	\$ 11,488	2	\$ 1,940	\$ 1,002	432	\$ 4,360,536	\$ 12,490
Change in allowance			1,559			3,146			4,705
Net change in recorded investment	2	279,995		2	6,895		4	286,890	
Ending balance at June 30, 2017	432	\$ 4,638,591	\$ 13,047	4	\$ 8,835	\$ 4,148	436	\$ 4,647,426	\$ 17,195

Table of Contents**Note 5 Mortgage Loans (Continued)****Troubled Debt Restructurings**

American National has granted concessions which are classified as troubled debt restructurings to certain mortgage loan borrowers. Concessions are generally one of, or a combination of, a delay in payment of principal or interest, a reduction of the contractual interest rate or an extension of the maturity date. American National considers the amount, timing and extent of concessions in determining any impairment or changes in the specific allowance for loan losses recorded in connection with a troubled debt restructuring. The carrying value after specific allowance, before and after modification in a troubled debt restructuring, may not change significantly, or may increase if the expected recovery is higher than the pre-modification recovery assessment.

Troubled debt restructuring mortgage loan information is as follows (in thousands, except number of loans):

	Six months ended June 30,									
	2017			2016						
	Number of loans	Recorded investment pre- modification	Recorded investment post- modification	Number of loans	Recorded investment pre- modification	Recorded investment post- modification				
Retail		\$		\$	1	\$	3,934	\$	3,934	
Other (hotel/motel)	5		24,801		24,801					
Total	5	\$	24,801	\$	24,801	1	\$	3,934	\$	3,934

There are \$7,919,000 of commitments to lend additional funds to debtors whose loans have been modified in troubled debt restructuring, and there have been no defaults on modified loans during the periods presented.

Table of Contents**Note 6 Real Estate and Other Investments (Continued)**

American National regularly invests in real estate partnerships and joint ventures. American National frequently participates in the design of these entities with the sponsor, but in most cases, its involvement is limited to financing. Through analysis performed by American National, some of these partnerships and joint ventures have been determined to be variable interest entities (VIEs). In certain instances, in addition to an economic interest in the entity, American National holds the power to direct the most significant activities of the entity and is deemed the primary beneficiary or consolidator of the entity. The assets of the consolidated VIEs are restricted and must first be used to settle their liabilities. Creditors or beneficial interest holders of these VIEs have no recourse to the general credit of American National, as American National's obligation is limited to the amount of its committed investment. American National has not provided financial or other support to the VIEs in the form of liquidity arrangements, guarantees, or other commitments to third parties that may affect the fair value or risk of its variable interest in the VIEs in 2017 or 2016.

The assets and liabilities relating to the VIEs included in the consolidated financial statements are as follows (in thousands):

	June 30, 2017	December 31, 2016
Investment real estate	\$ 157,694	\$ 173,816
Short-term investments	1,001	1
Cash and cash equivalents	2,243	6,099
Other receivables	5,496	6,456
Other assets	10,420	8,820
Total assets of consolidated VIEs	\$ 176,854	\$ 195,192
Notes payable	\$ 140,216	\$ 136,080
Other liabilities	3,663	10,037
Total liabilities of consolidated VIEs	\$ 143,879	\$ 146,117

The notes payable in the consolidated statements of financial position pertain to the borrowings of the consolidated VIEs. The liability of American National relating to notes payable of the consolidated VIEs is limited to the amount of its direct or indirect investment in the respective ventures, which totaled \$30,482,000 and \$31,795,000 at June 30, 2017 and December 31, 2016, respectively.

The total long-term notes payable of the consolidated VIEs consists of the following (in thousands):

Interest rate	Maturity	June 30, 2017	December 31, 2016
Prime	2018	\$ 1,698	\$ 1,267
LIBOR	2020	9,407	7,318
90 day LIBOR + 2.5%	2021	40,070	37,074

4% fixed	2022	89,041	90,421
Total		\$ 140,216	\$ 136,080

Table of Contents**Note 6 Real Estate and Other Investments (Continued)**

For other VIEs in which American National is a partner, it is not the primary beneficiary, and these entities are not consolidated, as the major decisions that most significantly impact the economic activities of the VIE require unanimous consent of all partners. The carrying amount and maximum exposure to loss relating to unconsolidated VIEs follows (in thousands):

	June 30, 2017		December 31, 2016	
	Carrying Amount	Maximum Exposure to Loss	Carrying Amount	Maximum Exposure to Loss
Investment in unconsolidated affiliates	\$ 329,601	\$ 329,601	\$ 323,933	\$ 323,933
Mortgage loans	563,487	563,487	481,799	481,799
Accrued investment income	1,997	1,997	1,919	1,919

As of June 30, 2017, no real estate investments were classified as held for sale.

Note 7 Derivative Instruments

American National purchases over-the-counter equity-indexed options as economic hedges against fluctuations in the equity markets to which equity-indexed products are exposed. These options are not designated as hedging instruments for accounting purposes under U.S. GAAP. Equity-indexed contracts include a fixed host universal-life insurance or annuity contract and an equity-indexed embedded derivative. The detail of derivative instruments is shown below (in thousands, except number of instruments):

Derivatives Not Designated as Hedging Instruments	Location in the Consolidated Statements of Financial Position	June 30, 2017			December 31, 2016		
		Number of Instruments	Notional Amounts	Estimated Fair Value	Number of Instruments	Notional Amounts	Estimated Fair Value

Table of Contents**Note 7 Derivative Instruments (Continued)**

The Company's use of derivative instruments exposes it to credit risk in the event of non-performance by the counterparties. The Company has a policy of only dealing with counterparties we believe are credit worthy and obtaining sufficient collateral where appropriate, as a means of mitigating the financial loss from defaults. The non-performance risk is the net counterparty exposure based on the fair value of the open contracts, less collateral held. The Company maintains master netting agreements with its current active trading partners. As such, a right of offset has been applied to unrestricted collateral that supports credit risk and has been recorded in the consolidated statements of financial position as an offset to Other invested assets with an associated payable to Other liabilities for excess collateral. Restricted collateral has been recorded as Other liabilities because of the uncertainty of its availability to offset exposure losses.

Information regarding the Company's exposure to credit loss on the options it holds is presented below (in thousands):

June 30, 2017						
Collateral						
Counterparty	Moody/S&P Rating	Options Fair Value	Collateral Held	Amounts used to Offset Exposure	Excess and Restricted Collateral	Exposure Net of Collateral
Barclays	Baa2/BBB	\$ 41,063	\$ 41,153	\$ 41,063	\$ 90	\$

Total financial liabilities	\$ 10,250,341	\$ 10,250,341	\$ 10,177,434	\$ 10,177,434

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability. A fair value hierarchy is used to determine fair value based on a hypothetical transaction at the measurement date from the perspective of a market participant. American National has evaluated the types of securities in its investment portfolio to determine an appropriate hierarchy level based upon trading activity and the observability of market inputs. The classification of assets or liabilities within the fair value hierarchy is based on the lowest level of significant input to its valuation. The input levels are defined as follows:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 Quoted prices in markets that are not active or inputs that are observable directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities other than quoted prices in Level 1; quoted prices in markets that are not active; or other inputs that are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Unobservable inputs reflect American National's own assumptions about the assumptions that market participants would use in pricing the asset or liability. Level 3 assets and liabilities

include financial instruments whose values are determined using pricing models and third-party evaluation, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Fixed Maturity Securities and Equity Options American National utilizes a pricing service to estimate fair value measurements. The estimates of fair value for most fixed maturity securities, including municipal bonds, provided by the pricing service are disclosed as Level 2 measurements as the estimates are based on observable market information rather than market quotes.

Table of Contents**Note 9 Fair Value of Financial Instruments (Continued)**

The pricing service utilizes market quotations for fixed maturity securities that have quoted prices in active markets. Since fixed maturity securities generally do not trade on a daily basis, the pricing service prepares estimates of fair value measurements for these securities using its proprietary pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities, sector groupings and matrix pricing. Additionally, an option adjusted spread model is used to develop prepayment and interest rate scenarios.

The pricing service evaluates each asset class based on relevant market information, credit information, perceived market movements and sector news. The market inputs utilized in the pricing evaluation, listed in the approximate order of priority, include: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, and economic events. The extent of the use of each market input depends on the asset class and the market conditions. Depending on the security, the priority of the use of inputs may change or some market inputs may not be relevant. For some securities, additional inputs may be necessary.

American National has reviewed the inputs and methodology used and the techniques applied by the pricing service to produce quotes that represent the fair value of a specific security. The review confirms that the pricing service is utilizing information from observable transactions or a technique that represents a market participant's assumptions. American National does not adjust quotes received from the pricing service. The pricing service utilized by American National has indicated that they will only produce an estimate of fair value if there is objectively verifiable information available.

American National holds a small amount of private placement debt and fixed maturity securities that have characteristics that make them unsuitable for matrix pricing. For these securities, a quote from an independent broker (typically a market maker) is obtained. Due to the disclaimers on the quotes that indicate that the price is indicative only, American National includes these fair value estimates in Level 3.

For securities priced using a quote from an independent broker, such as the equity-indexed options and certain fixed maturity securities, American National uses a market-based fair value analysis to validate the reasonableness of prices received. Price variances above a certain threshold are analyzed further to determine if any pricing issue exists. This analysis is performed quarterly.

Equity Securities For publicly-traded equity securities, prices are received from a nationally recognized pricing service that are based on observable market transactions, and these securities are classified as Level 1 measurements. For certain preferred stock, current market quotes in active markets are unavailable. In these instances, an estimate of fair value is received from the pricing service. The service utilizes similar methodologies to price preferred stocks as it does for fixed maturity securities. These estimates are disclosed as Level 2 measurements. American National tests the accuracy of the information provided by reference to other services regularly.

Mortgage Loans The fair value of mortgage loans is estimated using discounted cash flow analyses on a loan by loan basis by applying a discount rate to expected cash flows from future installment and balloon payments. The discount rate takes into account general market trends and specific credit risk trends for the individual loan. Factors used to arrive at the discount rate include inputs from spreads based on U.S. Treasury notes and the loan's credit quality, region, property type, lien priority, payment type and current status.

Table of Contents**Note 9 Fair Value of Financial Instruments (Continued)**

Embedded Derivative The amounts reported within policyholder contract deposits include equity linked interest crediting rates based on the S&P 500 index within index annuities and indexed life. The following unobservable inputs are used for measuring the fair value of the embedded derivatives associated with the policyholder contract liabilities:

Lapse rate assumptions are determined by company experience. Lapse rates are generally assumed to be lower during a contract's surrender charge period and then higher once the surrender charge period has ended. Decreases to the assumed lapse rates generally increase the fair value of the liability as more policyholders persist to collect the crediting interest pertaining to the indexed product. Increases to the lapse rate assumption will have the inverse effect decreasing the fair value.

Mortality rate assumptions vary by age and by gender based on company and industry experience. Decreases to the assumed mortality rates increase the fair value of the liabilities as more policyholders earn crediting interest. Increases to the assumed mortality rates decrease the fair value as higher decrements reduce the potential for future interest credits.

Equity volatility assumptions begin with current market volatilities and grow to long-term values. Increases to the assumed volatility will increase the fair value of liabilities, as future projections will produce higher increases in the linked index. At June 30, 2017 and December 31, 2016, the one year implied volatility used to estimate embedded derivative value was 13.9% and 16.5%, respectively.

Fair values of indexed life and annuity liabilities are calculated using discounted cash flow technique. Shown below are the significant unobservable inputs used to calculate the Level 3 fair value of the embedded derivatives within policyholder contract deposits (in millions, except range percentages):

	Fair Value		Unobservable Input	Range
	June 30, 2017	December 31, 2016		
Indexed Annuities	\$ 379.9	\$ 306.5	Lapse Rate	1%-66%
			Mortality Multiplier	90%-100%
			Equity Volatility	12%-40%
Indexed Life	10.3	7.8	Lapse Rate	
			Mortality Multiplier	
			Equity Volatility	12%-40%

Table of Contents

Note 9 Fair Value of Financial Instruments (Continued)

Other Financial Instruments Other financial instruments classified as Level 3 measurements, as there is little or no market activity, are as follows:

Policy loans The carrying value of policy loans is the outstanding balance plus any accrued interest. Due to the collateralized nature of policy loans such that they cannot be separated from the policy contracts and the unpredictable timing of repayments and the fact that settlement is at outstanding value, American National believes the carrying value of policy loans approximates fair value.

Investment contracts The carrying value of investment contracts is equivalent to the accrued account balance. The accrued account balance consists of deposits, net of withdrawals, plus or minus interest credited, fees and charges assessed and other adjustments. American National believes that the carrying value of investment contracts approximates fair value because the majority of these contracts interest rates reset to current rates offered at anniversary.

Notes payable Notes payable are carried at outstanding principal balance. The carrying value of the notes payable approximates fair value because the underlying interest rates approximate market rates at the balance sheet date.

Table of Contents**Note 9 Fair Value of Financial Instruments (Continued)****Quantitative Disclosures**

The fair value hierarchy measurements of the financial instruments are shown below (in thousands):

	Fair Value Measurement as of June 30, 2017

Table of Contents**Note 9 Fair Value of Financial Instruments (Continued)**

For financial instruments measured at fair value on a recurring basis using Level 3 inputs during the period, a reconciliation of the beginning and ending balances is shown below (in thousands):

	Level 3					
	Three months ended June 30,			Six months ended June 30,		
	Assets	Liability		Assets	Liability	
	Investment Securities	Equity-Indexed Options	Embedded Derivative	Investment Securities	Equity-Indexed Options	Embedded Derivative
Beginning balance, 2017	\$ 17,329	\$ 174,258	\$ 346,634	\$ 14,264	\$ 156,479	\$ 314,330
Total realized and unrealized investment gains (losses) included in other comprehensive income	105			(4,362)		
Net fair value change included in realized gains (losses)						
Net gain for derivatives included in net investment income		13,275			36,333	
Net change included in interest credited			18,977			44,104
Purchases, sales and settlements or maturities						
Purchases		13,463			21,015	
Sales	(1,582)	(12,837)		(3,539)	(12,837)	
Settlements or maturities		(15,782)		(3,010)	(28,613)	
Premiums less benefits			24,578			31,755
Carry value transfers in				15,000		
Gross transfers into Level 3				382		
Gross transfers out of Level 3				(2,883)		
Ending balance at June 30, 2017	\$ 15,852	\$ 172,377	\$ 390,189	\$ 15,852	\$ 172,377	\$ 390,189
Beginning balance, 2016	\$ 21,689	\$ 123,761	\$ 258,267	\$ 20,130	\$ 123,007	\$ 242,412
Total realized and unrealized investment gains included in other comprehensive income	352			511		
Net fair value change included in realized gains	1			1		
Net gain for derivatives included in net investment income		5,789			2,150	
Net change included in interest credited			8,725			6,173

Purchases, sales and settlements or maturities

Purchases		7,178		12,471	
Sales					
Settlements or maturities	(376)	(2,153)	(389)	(3,053)	
Premiums less benefits			11,578		29,985
Gross transfers into Level 3			1,413		
Gross transfers out of Level 3					

Ending balance at June 30, 2016	\$ 21,666	\$	134,575	\$	278,570	\$ 21,666	\$	134,575	\$	278,570
--	------------------	-----------	----------------	-----------	----------------	------------------	-----------	----------------	-----------	----------------

Within the net gain for derivatives included in net investment income were unrealized gains of \$13,660,000, and \$19,745,000 relating to assets still held at June 30, 2017, and 2016, respectively.

There were no transfers between Level 1 and Level 2 fair value hierarchies. The transfers into Level 3 during the six months ended June 30, 2017 and 2016 were the result of existing securities no longer being priced by the third-party pricing service at the end of the period and unless information is obtained from the brokers that indicate observable inputs were used in their pricing, there are not enough observable inputs to enable American National to classify the securities priced by the brokers as other than Level 3. American National's valuation of these securities involves judgment regarding assumptions market participants would use including quotes from independent brokers. The inputs used by the brokers include recent transactions in the security, similar bonds with same name, ratings, maturity and structure, external dealer quotes in the security, Bloomberg evaluated pricing and prior months pricing. None of them are observable to American National as of June 30, 2017. The transfers out of Level 3 during the six months ended June 30, 2017 were securities being priced by the third-party service at the end of the period, using inputs that are observable or derived from market data, which resulted in classification of these assets as Level 2.

Table of Contents**Note 10 Deferred Policy Acquisition Costs**

Deferred policy acquisition costs are shown below (in thousands):

	Life	Annuity	Accident & Health	Property & Casualty	Total
Beginning balance, 2017	\$ 745,840	\$ 394,208	\$ 40,620	\$ 113,775	\$ 1,294,443
Additions	60,650	50,856	5,603	142,022	259,131
Amortization	(42,086)	(33,686)	(7,752)	(138,425)	(221,949)
Effect of change in unrealized gains on available-for-sale securities	(3,982)	(4,719)			(8,701)
Net change	14,582	12,451	(2,149)	3,597	28,481
Ending balance at June 30, 2017	\$ 760,422	\$ 406,659	\$ 38,471	\$ 117,372	\$ 1,322,924

Commissions comprise the majority of the additions to deferred policy acquisition costs.

Note 11 Liability for Unpaid Claims and Claim Adjustment Expenses

The liability for unpaid claims and claim adjustment expenses (claims) for accident and health, and property and casualty insurance is included in Policy and contract claims in the consolidated statements of financial position and is the amount estimated for incurred but not reported (IBNR) claims and claims that have been reported but not settled. Liability for unpaid claims are estimated based upon American National's historical experience and actuarial assumptions that consider the effects of current developments, anticipated trends and risk management programs, less anticipated salvage and subrogation. The effects of the changes are included in the consolidated results of operations in the period in which the changes occur. The time value of money is not taken into account for the purposes of calculating the liability for unpaid claims. There have been no significant changes in methodologies or assumptions used to calculate the liability for unpaid claims and claim adjustment expenses.

Information regarding the liability for unpaid claims is shown below (in thousands):

	Six months ended June 30,	
	2017	2016
Unpaid claims balance, beginning	\$ 1,140,723	\$ 1,104,302
Less reinsurance recoverables	216,903	217,337
Net beginning balance	923,820	886,965
Incurred related to		
Current	563,959	523,388

Prior years	(40,137)	(16,628)
Total incurred claims	523,822	506,760
Paid claims related to		
Current	288,731	266,566
Prior years	205,702	209,805
Total paid claims	494,433	476,371
Net balance	953,209	917,354
Plus reinsurance recoverables	195,072	206,962
Unpaid claims balance, ending	\$ 1,148,281	\$ 1,124,316

The net and gross reserve calculations have shown favorable development as a result of favorable loss emergence compared to what was implied by the loss development patterns used in the original estimation of losses in prior years. Estimates for ultimate incurred claims attributable to insured events of prior years decreased by approximately \$40,137,000 during the first six months of 2017 and decreased by approximately \$16,628,000 during the first six months of 2016. This was a reflection of lower-than-anticipated losses in the auto, business owner and commercial package policy lines of business in 2017.

For short-duration health insurance claims, the total of IBNR plus expected development on reported claims included in the liability for unpaid claims and claim adjustment expenses at June 30, 2017 was \$24,587,000.

Table of Contents**Note 12 Federal Income Taxes**

A reconciliation of the effective tax rate to the statutory federal tax rate is shown below (in thousands, except percentages):

	Three months ended June 30,				Six months ended June 30,			
	2017		2016		2017		2016	
	Amount	Rate	Amount	Rate	Amount	Rate	Amount	Rate
Income tax on pre-tax income	\$ 16,175	35.0%	\$ 14,727	35.0%	\$ 34,467	35.0%	\$ 23,283	35.0%
Tax-exempt investment income	(1,769)	(3.8)	(1,974)	(4.7)	(3,601)	(3.7)	(3,946)	(5.9)
Deferred tax change	(464)	(1.0)	(341)	(0.8)	(1,231)	(1.2)	(10,508)	(15.8)
Dividend exclusion	(2,322)	(5.0)	(1,879)	(4.5)	(4,164)	(4.2)	(4,226)	(6.4)
Miscellaneous tax credits, net	(2,542)	(5.5)	(2,865)	(6.8)	(4,799)	(4.9)	(5,116)	(7.7)
Low income housing tax credit expense	1,256	2.7	1,295	3.1	2,509	2.5	2,589	3.9
Other items, net	141	0.3	885	2.1	322	0.4	1,142	1.7
Provision for federal income tax before interest expense	10,475	22.7	9,848	23.4	23,503	23.9	3,218	4.8
Interest expense	40	0.1	42	0.1	84	0.1	2,602	3.9
Total	\$ 10,515	22.8%	\$ 9,890	23.5%	\$ 23,587	24.0%	\$ 5,820	8.7%

American National made income tax payments of \$8,466,000 and \$35,458,000 during the six months ended June 30, 2017 and 2016, respectively.

Management believes sufficient taxable income will be achieved over time to utilize the deferred tax assets in the consolidated federal tax return; therefore, no valuation allowance was recorded as of June 30, 2017 and 2016. There are no net operating or capital loss carryforwards that will expire by December 31, 2017.

American National's federal income tax returns for years 2013 to 2016 and years 2005 to 2009 are subject to examination by the Internal Revenue Service. In the opinion of management, all prior year deficiencies have been paid or adequate provisions have been made for any tax deficiencies that may be upheld. No provision for penalties was established; however, management accrued an additional \$84,000 in interest, net of tax, during 2017 relating to a dispute with the Internal Revenue Service. Management does not believe there are any uncertain tax benefits that could be recognized within the next twelve months that would decrease American National's effective tax rate.

Table of Contents**Note 13 Accumulated Other Comprehensive Income**

The components of and changes in the accumulated other comprehensive income (AOCI), and the related tax effects, are shown below (in thousands):

	Net Unrealized Gains (Losses) on Securities	Defined Benefit Pension Plan Adjustments	Foreign Currency Adjustments	AOCI
Beginning balance, 2017	\$ 547,138	\$ (88,603)	\$ (2,636)	\$ 455,899

Foreign currency adjustment (net of tax expense \$232)			430	430
Ending balance at June 30, 2016	\$ 584,210	\$ (93,633)	\$ (2,495)	\$ 488,082

Note 14 Stockholders' Equity and Noncontrolling Interests

American National has one class of common stock with a par value of \$1.00 per share and 50,000,000 authorized shares. The amounts outstanding at the dates indicated are shown below:

	June 30, 2017	December 31, 2016
Common stock		
Shares issued	30,832,449	30,832,449
Treasury shares	(3,900,565)	(3,917,933)
Outstanding shares	26,931,884	26,914,516
Restricted shares	(74,000)	(76,000)
Unrestricted outstanding shares	26,857,884	26,838,516

Stock-based compensation

American National has a stock-based compensation plan, which allows for grants of Non-Qualified Stock Options, Stock Appreciation Rights (SAR), Restricted Stock (RS) Awards, Restricted Stock Units (RSU), Performance Awards, Incentive Awards or any combination thereof. This plan is administered by the American National Board Compensation Committee. All awards are subject to review and approval by the Board Compensation Committee both at the time of setting applicable performance objectives and at payment of the awards. The number of shares available for grants under the plan cannot exceed 2,900,000 shares, and no more than 200,000 shares may be granted to any one individual in any calendar year. Grants are made to certain officers meeting established performance objectives and directors as compensation and to align their interests with those of other shareholders.

Table of Contents**Note 14 Stockholders Equity and Noncontrolling Interests (Continued)**

SAR, RS and RSU information for the periods indicated are shown below:

	SAR Weighted-Average Grant Date		RS Shares Weighted-Average Grant Date		RS Units Weighted-Average Grant Date	
	Shares	Fair Value	Shares	Fair Value	Units	Fair Value
Outstanding at December 31, 2016	6,153	\$ 113.36	76,000	\$ 110.73	100,445	\$ 105.97
Granted					16,500	117.69
Exercised			(2,000)	130.52	(61,386)	108.81
Forfeited					(33)	104.75
Expired	(3,034)	118.50				
Outstanding at June 30, 2017	3,119	\$ 108.37	74,000	\$ 110.19	55,526	\$ 106.32

	SAR	RS Shares	RS Units
Weighted-average contractual remaining life (in years)	0.97	2.89	1.11
Exercisable shares	3,119	N/A	N/A
Weighted-average exercise price	\$ 108.37	\$ 110.19	\$ 106.32
Weighted-average exercise price exercisable shares	108.37	N/A	N/A
Compensation expense (credit)			
Three months ended June 30, 2017	\$ (14,000)	\$ 205,000	\$ 1,519,000
Three months ended June 30, 2016	4,000	209,000	345,000
Six months ended June, 2017	(49,000)	412,000	1,649,000
Six months ended June, 2016	37,000	419,000	4,447,000
Fair value of liability award			
June 30, 2017	\$ 30,000	N/A	\$ 6,468,000
December 31, 2016 (restated)	213,000	N/A	13,197,000

The SARs give the holder the right to cash compensation based on the difference between the stock price on the grant date and the stock price on the exercise date. The SARs vest at a rate of 20% per year for five years and expire five years after vesting.

RS awards entitle the participant to full dividend and voting rights. Each RS share awarded has the value of one share of restricted stock and vests 10 years from the grant date. Unvested shares are restricted as to disposition, and are subject to forfeiture under certain circumstances. Compensation expense is recognized over the vesting period. The restrictions on these awards lapse after 10 years and most of these awards feature a graded vesting schedule in the case of the retirement, death or disability of an award holder. Restricted stock awards for 350,334 shares have been granted at an exercise price of zero, of which 74,000 shares are unvested.

RSU awards allow the recipient of the awards to settle the vested RSUs in either shares of American National's common stock, cash or a combination of both. RSUs granted vest after a one-year or three-year graded vesting requirement or over a shorter period as a result of death, disability or retirement after age 65.

Table of Contents**Note 14 Stockholders Equity and Noncontrolling Interests (Continued)****Earnings per share**

Basic earnings per share were calculated using a weighted average number of shares outstanding. Diluted earnings per share include RS and RSU award shares.

	Three months ended June 30,		Six months ended June 30,	
	2017	2016	2017	2016
Weighted average shares outstanding	26,892,656	26,908,077	26,896,965	26,908,748

Basic earnings per share	\$ 1.34	\$ 1.21	\$ 2.82	\$ 2.30
Diluted earnings per share	1.33	1.21	2.81	2.30

Statutory Capital and Surplus

Risk Based Capital (RBC) is a measure insurance regulators use to evaluate the capital adequacy of American National Insurance Company and its insurance subsidiaries. RBC is calculated using formulas applied to certain financial balances and activities that consider, among other things, investment risks related to the type and quality of investments, insurance risks associated with products and liabilities, interest rate risks and general business risks. Insurance companies that do not maintain capital and surplus at a level at least 200% of the authorized control level RBC are required to take certain actions. At June 30, 2017 and December 31, 2016, American National Insurance Company's statutory capital and surplus was \$3,028,989,000 and \$2,985,909,000, respectively. American National Insurance Company and each of its insurance subsidiaries had statutory capital and surplus at June 30, 2017 and December 31, 2016, substantially above 200% of the authorized control level.

American National and its insurance subsidiaries prepare statutory-basis financial statements in accordance with statutory accounting practices prescribed or permitted by the insurance department of the state of domicile, which include certain components of the National Association of Insurance Commissioners' Codification of Statutory Accounting Principles (NAIC Codification). NAIC Codification is intended to standardize regulatory accounting and reporting to state insurance departments. However, statutory accounting practices continue to be established by individual state laws and permitted practices. Modifications by the various state insurance departments may impact the statutory capital and surplus of American National Insurance Company and its insurance subsidiaries.

Statutory accounting differs from GAAP primarily by charging policy acquisition costs to expense as incurred, establishing future policy benefit liabilities using different actuarial assumptions, and valuing securities on a different basis. In addition, certain assets are not admitted under statutory accounting principles and are charged directly to

surplus.

One of American National's insurance subsidiaries has been granted a permitted practice from the Missouri Department of Insurance to record as the valuation of its investment in a wholly-owned subsidiary that is the attorney-in-fact for a Texas domiciled insurer, the statutory capital and surplus of the Texas domiciled insurer. This permitted practice increases the statutory capital and surplus of both American National Insurance Company and the Missouri domiciled insurance subsidiary by \$64,533,000 and \$64,555,000 at June 30, 2017 and June 30, 2016, respectively. The statutory capital and surplus of both American National Insurance Company and the Missouri domiciled insurance subsidiary would have remained substantially above the company action level RBC had it not used the permitted practice.

Table of Contents**Note 14 Stockholders Equity and Noncontrolling Interests (Continued)**

The statutory capital and surplus and net income of our life and property and casualty insurance entities in accordance with statutory accounting practices are shown below (in thousands):

	June 30, 2017	December 31, 2016
Statutory capital and surplus		
Life insurance entities	\$ 1,959,927	\$ 1,921,171
Property and casualty insurance entities	1,079,183	1,074,525

	Three months ended June 30,		Six months ended June 30,	
	2017	2016	2017	2016
Statutory net income (loss)				
Life insurance entities	\$ 20,809	\$ 19,182	\$ 18,342	\$ 23,109
Property and casualty insurance entities	(5,639)	(1,291)	1,172	3,257

Dividends

American National Insurance Company's payment of dividends to stockholders is restricted by insurance law. The restrictions require life insurance companies to maintain minimum amounts of capital and surplus, and in the absence of special approval, limit the payment of dividends to the greater of the prior year's statutory net income from operations, or 10% of prior year statutory surplus. American National Insurance Company is permitted without prior approval of the Texas Department of Insurance to pay total dividends of \$298,591,000 during 2017. Similar restrictions on amounts that can transfer in the form of dividends, loans, or advances to American National Insurance Company apply to its insurance subsidiaries.

Noncontrolling interests

American National County Mutual Insurance Company (County Mutual) is a mutual insurance company owned by its policyholders. American National has a management agreement that effectively gives it control of County Mutual. As a result, County Mutual is included in the consolidated financial statements of American National. Policyholder interests in the financial position of County Mutual are reflected as noncontrolling interest of \$6,750,000 at June 30, 2017 and December 31, 2016.

American National Insurance Company and its subsidiaries exercise significant control or ownership of various joint ventures, resulting in their consolidation into American National's consolidated financial statements. The interests of the other partners in the consolidated joint ventures are shown as noncontrolling interests of \$1,637,000 and \$2,567,000 at June 30, 2017 and December 31, 2016, respectively.

Table of Contents

Note 15 Segment Information

Management organizes the business into five operating segments:

Life markets whole, term, universal, indexed and variable life insurance on a national basis primarily through career, multiple-line, and independent agents as well as direct marketing channels.

Annuity offers fixed, indexed, and variable annuity products. These products are primarily sold through independent agents, brokers, and financial institutions, along with multiple-line and career agents.

Health primary lines of business are Medicare supplement, stop loss, other supplemental health products and credit disability insurance. Health products are typically distributed through independent agents and managing general underwriters.

Property and Casualty writes personal, agricultural and targeted commercial coverages and credit-related property insurance. These products are primarily sold through multiple-line and independent agents.

Corporate and Other consists of net investment income from investments not allocated to the insurance segments and revenues from non-insurance operations.

The accounting policies of the segments are the same as those described in Note 2 to American National's 2016 annual report on Form 10-K. All revenues and expenses specifically attributable to policy transactions are recorded directly to the appropriate operating segment. Revenues and expenses not specifically attributable to policy transactions are allocated to each segment as follows:

Recurring income from bonds and mortgage loans is allocated based on the assets allocated to each line of business at the average yield available from these assets.

Net investment income from all other assets is allocated to the insurance segments in accordance with the amount of capital allocated to each segment, with the remainder recorded in the Corporate and Other business segment.

Expenses are allocated based upon various factors, including premium and commission ratios of the operating segments.

The following summarizes the results of operations measured as the income before federal income taxes, and equity in earnings of unconsolidated affiliates by operating segments (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2017	2016	2017	2016
Life	\$ 7,816	\$ 16,766	\$ 15,303	\$ 13,285
Annuity	17,871	17,463	41,624	35,434
Health	3,492	4,419	5,549	3,785
Property and Casualty	(9,267)	(4,775)	(6,844)	2,215
Corporate and Other	13,989	6,407	21,032	9,069
Total	\$ 33,901	\$ 40,280	\$ 76,664	\$ 63,788

Table of Contents

Note 16 Commitments and Contingencies

Commitments

American National had aggregate commitments at June 30, 2017, to purchase, expand or improve real estate, to fund fixed interest rate mortgage loans, and to purchase other invested assets of \$859,961,000 of which \$455,221,000 is expected to be funded in 2017 with the remainder funded in 2018 and beyond.

American National has a \$100,000,000 short-term variable rate borrowing facility containing a \$55,000,000 sub-feature for the issuance of letters of credit. Borrowings under the facility are at the discretion of the lender and would be used only for funding working capital requirements. The combination of borrowings and outstanding letters of credit cannot exceed \$100,000,000 at any time. As of June 30, 2017 and December 31, 2016, the outstanding letters of credit were \$9,548,000 and \$9,473,000, respectively, and there were no borrowings on this facility. This facility expires on October 30, 2017. American National expects it will be able to be renewed on substantially equivalent terms upon expiration.

Guarantees

American National has guaranteed bank loans for customers of a third-party marketing operation. The bank loans are used to fund premium payments on life insurance policies issued by American National. The loans are secured by the cash values of the life insurance policies. If the customer were to default on a bank loan, American National would be obligated to pay off the loan. As the cash values of the life insurance policies always equal or exceed the balance of the loans, management does not foresee any loss on these guarantees. The total amount of the guarantees outstanding as of June 30, 2017, was approximately \$206,376,000, while the total cash value of the related life insurance policies was approximately \$212,268,000.

Litigation

American National and certain subsidiaries, in common with the insurance industry in general, are defendants in various lawsuits concerning alleged breaches of contracts, various employment matters, allegedly deceptive insurance sales and marketing practices, and miscellaneous other causes of action arising in the ordinary course of operations. Certain of these lawsuits include claims for compensatory and punitive damages. We provide accruals for these items to the extent we deem the losses probable and reasonably estimable. After reviewing these matters with legal counsel, based upon information presently available, management is of the opinion that the ultimate resultant liability, if any, would not have a material adverse effect on American National's consolidated financial position, liquidity or results of operations; however, assessing the eventual outcome of litigation necessarily involves forward-looking speculation as to judgments to be made by judges, juries and appellate courts in the future.

Such speculation warrants caution, as the frequency of large damage awards, which bear little or no relation to the economic damages incurred by plaintiffs in some jurisdictions, continues to create the potential for an unpredictable judgment in any given lawsuit. These lawsuits are in various stages of development, and future facts and circumstances could result in management changing its conclusions. It is possible that, if the defenses in these lawsuits are not successful, and the judgments are greater than management can anticipate, the resulting liability could have a material impact on our consolidated financial position, liquidity or results of operations. With respect to the existing litigation, management currently believes that the possibility of a material judgment adverse to American National is remote and no estimate of range can be made for loss contingencies that are at least reasonably possible but not accrued.

One-Time Pension Payout Window

The one-time window offering to terminated, vested participants of our qualified defined benefit pension plans allowing participants to take a lump sum or annuity payout of their pension benefit, closed in March 2017. Payments to participants that elected to take a lump sum payout were made from pension plan assets in April, 2017. A portion of the pension actuarial loss included in Accumulated Other Comprehensive Income was recognized as pension costs in proportion to the reduction of the pension plans' total benefit obligations. The after-tax expense recognized in the second quarter of 2017 was approximately \$4,673,000.

Table of Contents**Note 17 Related Party Transactions**

American National has entered into recurring transactions and agreements with certain related parties. These include mortgage loans, management contracts, agency commission contracts, marketing agreements, accident and health insurance contracts, and legal services. The impact on the consolidated financial statements of significant related party transactions is shown below (in thousands):

		Dollar Amount of Transactions to (from) American National Insurance Company			
		Six months ended			
Related Party	Financial Statement Line Impacted	June 30, 2017	June 30, 2016	December 31, 2017	December 31, 2016
Gal-Tex Hotel Corporation	Mortgage loan on real estate	\$ 752	\$ 700	\$ 3,004	\$ 3,756
Gal-Tex Hotel Corporation	Net investment income	125	177	18	23
Greer, Herz & Adams, LLP	Other operating expenses	5,624	4,627	(417)	(283)

Mortgage Loans to Gal-Tex Hotel Corporation (Gal-Tex): American National holds a first mortgage loan originated in 1999, with an interest rate of 7.25% and final maturity date of April 1, 2019 issued to a subsidiary of Gal-Tex, which is collateralized by a hotel property in San Antonio, Texas. This loan is current as to principal and interest payments.

Transactions with Greer, Herz & Adams, LLP: Irwin M. Herz, Jr. is an American National advisory director and a Partner with Greer, Herz & Adams, LLP, which serves as American National's General Counsel.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In the following pages is management's discussion and analysis (MD&A) of financial condition and results of operations for the three and six months ended June 30, 2017 and 2016 of American National Insurance Company and its subsidiaries (referred to in this document as we , our , us , or the Company). This information should be read in conjunction with our consolidated financial statements included in Item 1, Financial Statements (unaudited), of this Form 10-Q.

Forward-Looking Statements

This document contains forward-looking statements that reflect our estimates and assumptions related to business, economic, competitive and legislative developments. Forward-looking statements generally are indicated by words such as expects, intends, anticipates, plans, believes, estimates, will or words of similar meaning and include limitation, statements regarding the outlook of our business and expected financial performance. Forward-looking statements are not guarantees of future performance and involve various risks and uncertainties. Moreover, forward-looking statements speak only as of the date made, and we undertake no obligation to update them. Certain important factors could cause our actual results to differ, possibly materially, from our expectations or estimates. These factors are described in greater detail in Item IA, Risk Factors, in our 2016 Annual Report on Form 10-K filed with the SEC on March 10, 2017, and in Part II, Item IA, Risk Factors of this Form 10-Q, and they include among others:

Economic & Investment Risk Factors

difficult conditions in the economy, which may not improve in the near future, and risks related to persistently low or unpredictable interest rates;

fluctuations in the markets for fixed maturity securities, equity securities, and commercial real estate, which could adversely affect the valuation of our investment portfolio, our net investment income, our retirement expense, and sales of or fees from certain of our products;

lack of liquidity for certain of our investments;

risk of investment losses and defaults;

Operational Risk Factors

differences between actual experience regarding mortality, morbidity, persistency, expense, surrenders and investment returns, and our assumptions for product pricing, establishing liabilities and reserves or for other purposes;

potential ineffectiveness of our risk management policies and procedures;

changes in our experience related to deferred policy acquisition costs;

failures or limitations of our computer, data security and administration systems;

potential employee error or misconduct, which may result in fraud or adversely affect the execution and administration of our policies and claims;

the material weakness in our internal controls over financial reporting, as discussed in Item 4 below;

Catastrophic Event Risk Factors

natural or man-made catastrophes, pandemic disease, or other events resulting in increased claims activity from catastrophic loss of life or property;

the effects of unanticipated events on our disaster recovery and business continuity planning;

Marketplace Risk Factors

the highly competitive nature of the insurance and annuity business;

potential difficulty in attraction and retention of qualified employees and agents;

the introduction of alternative healthcare solutions or changes in federal healthcare policy, both of which could impact our supplemental healthcare business;

Table of Contents

Litigation and Regulation Risk Factors

adverse determinations in litigation or regulatory proceedings which may result in significant financial losses and harm our reputation;

significant changes in government regulation;

changes in tax law;

changes in statutory or U.S. generally accepted accounting principles (GAAP), practices or policies;

Reinsurance and Counterparty Risk Factors

potential changes in the availability, affordability, adequacy and collectability of reinsurance protection;

potential default or failure to perform by the counterparties to our reinsurance arrangements and derivative instruments;

Other Risk Factors

potentially adverse rating agency actions; and

control of our company by a small number of stockholders.

Revision to Previously Reported Amounts

Correction of an Immaterial Error. During the fourth quarter of 2016, the Company revised previously reported amounts to include cash held in a bank custody account representing collateral provided to us by third parties for equity-option derivative transactions. In accordance with Staff Accounting Bulletin (SAB) No. 99, *Materiality*, and SAB No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*, management evaluated the materiality of the error from qualitative and quantitative perspectives, and concluded the error was immaterial to the current and prior periods. The correction of the immaterial error revised the consolidated statements of financial position and statements of cash flows as disclosed in our 2016 Annual Report on Form 10-K filed with the SEC on March 10, 2017. Detail regarding the revision amounts is included in Part I, Item 1, Note 2 Summary of Significant Accounting Policies and Practices, of the Notes to the Unaudited Consolidated Financial Statements.

Overview

Chartered in 1905, we are a diversified insurance and financial services company offering a broad spectrum of insurance products in all 50 states, the District of Columbia and Puerto Rico. Our headquarters are in Galveston, Texas.

General Trends

American National had no material changes to the general trends, as discussed in the MD&A included in our 2016 Annual Report on Form 10-K filed with the SEC on March 10, 2017.

Table of Contents***Critical Accounting Estimates***

The unaudited interim consolidated financial statements have been prepared in conformity with GAAP. In addition to GAAP, insurance companies apply specific SEC regulations when preparing the consolidated financial statements. The preparation of the consolidated financial statements and notes requires us to make estimates and assumptions that affect the amounts reported. Actual results could differ from results reported using those estimates and assumptions. Our accounting policies inherently require the use of judgment relating to a variety of assumptions and estimates, particularly expectations of current and future mortality, morbidity, persistency, expenses, interest rates, and property and casualty loss frequency, severity, claim reporting and settlement patterns. Due to the inherent uncertainty when using the assumptions and estimates, the effect of certain accounting policies under different conditions or assumptions could vary from those reported in the consolidated financial statements.

For a discussion of our critical accounting estimates, see the MD&A in our 2016 Annual Report on Form 10-K filed with the SEC on March 10, 2017. There have been no material changes in accounting policies since December 31, 2016.

Recently Issued Accounting Pronouncements

Refer to Note 3, Recently Issued Accounting Pronouncements, of the Notes to the Unaudited Consolidated Financial Statements in Item 1.

Consolidated Results of Operations

The following sets forth the consolidated results of operations (in thousands):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change
Premiums and other revenues						
Premiums	\$ 514,519	\$ 512,699	\$ 1,820	\$ 986,291	\$ 1,003,698	\$ (17,407)
Other policy revenues	66,076	65,489	587	129,528	129,836	(308)
Net investment income	234,618	210,710	23,908	463,121	406,764	56,357
Realized investments gains, net	9,932	3,415	6,517	17,157	9,001	8,156
Other income	8,948	8,135	813	17,793	16,119	1,674
Total premiums and other revenues	834,093	800,448	33,645	1,613,890	1,565,418	48,472
Benefits, losses and expenses						
Policyholder benefits	176,707	185,409	(8,702)	319,477	367,427	(47,950)
Claims incurred	277,438	261,287	16,151	529,496	505,537	23,959
Interest credited to policyholders account balances	94,548	85,901	8,647	190,556	162,428	28,128
Commissions for acquiring and servicing policies	141,440	114,945	26,495	266,931	227,829	39,102
Other operating expenses	137,754	129,197	8,557	267,948	259,573	8,375

Change in deferred policy acquisition costs ⁽¹⁾	(27,695)	(16,571)	(11,124)	(37,182)	(21,164)	(16,018)
Total benefits and expenses	800,192	760,168	40,024	1,537,226	1,501,630	35,596
Income before other items and federal income taxes	\$ 33,901	\$ 40,280	\$ (6,379)	\$ 76,664	\$ 63,788	\$ 12,876

- (1) A negative amount of net change indicates more expense was deferred than amortized and represents a decrease to expenses in the period indicated.

A positive net change indicates less expense was amortized and represents an increase to expenses in the period indicated.

Consolidated earnings decreased during the three months ended June 30, 2017 compared to 2016 primarily due to a pension settlement expense of \$7.2 million relating to the completion of a one-time retirement benefit withdrawal window for the frozen defined benefit pension plans. Consolidated earnings increased during the six months ended June 30, 2017 compared to 2016 primarily due to an increase in net investment income. The increase in net investment income is attributable to increased investment income on mortgage loans and increased assets in the annuity segment, as measured by account value and reserves.

Table of Contents**Life**

Life segment financial results for the periods indicated were as follows (in thousands):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change
Premiums and other revenues						
Premiums	\$ 79,287	\$ 77,053	\$ 2,234	\$ 156,761	\$ 152,170	\$ 4,591
Other policy revenues	62,464	62,579	(115)	122,373	124,187	(1,814)
Net investment income	60,689	56,060	4,629	122,898	110,244	12,654
Other income	503	477	26	1,119	1,070	49
Total premiums and other revenues	202,943	196,169	6,774	403,151	387,671	15,480
Benefits, losses and expenses						
Policyholder benefits	98,909	91,754	7,155	198,017	192,525	5,492
Interest credited to policyholders account balances	19,876	17,470	2,406	35,281	33,555	1,726
Commissions for acquiring and servicing policies	36,773	31,189	5,584	71,583	60,983	10,600
Other operating expenses	50,276	50,450	(174)	101,531	101,829	(298)
Change in deferred policy acquisition costs ⁽¹⁾	(10,707)	(11,460)	753	(18,564)	(14,506)	(4,058)
Total benefits and expenses	195,127	179,403	15,724	387,848	374,386	13,462
Income before other items and federal income taxes	\$ 7,816	\$ 16,766	\$ (8,950)	\$ 15,303	\$ 13,285	\$ 2,018

(1) A negative amount of net change indicates more expense was deferred than amortized and represents a decrease to expenses in the period indicated.

A positive net change indicates less expense was deferred than amortized and represents an increase to expenses in the period indicated.

Earnings decreased during the three months ended June 30, 2017 compared to 2016 primarily due to an increase in the frequency of incurred claims. Earnings increased during the six months ended June 30, 2017 compared to 2016 primarily due to a higher return on invested assets, partially offset by an increase in policyholders' benefits.

Premiums and other revenues

Premiums increased during the three and six months ended June 30, 2017 compared to 2016 primarily due to continued growth in renewal premium on traditional life products. Other policy revenues include mortality charges, earned policy service fees and surrender charges on interest-sensitive life insurance policies.

Life insurance sales

The following table presents life insurance sales as measured by annualized premium, a non-GAAP measure used by the insurance industry, which allows a comparison of new policies sold by an insurance company during the period (in thousands):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change
Traditional Life	\$ 15,439	\$ 13,774	\$ 1,665	\$ 29,704	\$ 27,313	\$ 2,391
Universal Life	6,165	4,807	1,358	11,490	8,965	2,525
Indexed UL	6,878	6,511	367	12,787	11,589	1,198
Variable UL		24	(24)		24	(24)
Total Recurring	\$ 28,482	\$ 25,116	\$ 3,366	\$ 53,981	\$ 47,891	\$ 6,090
Single and excess	\$ 821	\$ 532	\$ 289	\$ 1,422	\$ 955	\$ 467
Credit life	1,060	1,165	(105)	2,069	2,045	24

Table of Contents

Life insurance sales are based on the total yearly premium that insurance companies would expect to receive if all recurring premium policies would remain in force, plus 10% of single and excess premiums and 15% of credit life premium. Life insurance sales measure activity associated with gaining new insurance business in the current period, and includes deposits received related to interest sensitive life and universal life-type products.

GAAP premium revenues are associated with policies sold in current and prior periods. Deposits received related to interest sensitive life and universal life-type products are recorded in a policyholder account which is reflected as a liability. Therefore, a reconciliation of premium revenues and insurance sales is not meaningful.

Life insurance sales increased for all major lines during the three and six months ended June 30, 2017 compared to 2016.

Benefits, losses and expenses

Policyholder benefits increased during the three and six months ended June 30, 2017 compared to 2016 primarily due to an increase in the frequency of incurred claims.

Commissions increased during the three and six months ended June 30, 2017 compared to 2016 commensurate with the increase in life sales.

The following table presents the components of the change in DAC (in thousands):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change
Acquisition cost capitalized	\$ 31,604	\$ 29,247	\$ 2,357	\$ 60,650	\$ 54,464	\$ 6,186
Amortization of DAC	(20,897)	(17,787)	(3,110)	(42,086)	(39,958)	(2,128)
Change in DAC	\$ 10,707	\$ 11,460	\$ (753)	\$ 18,564	\$ 14,506	\$ 4,058

Policy in-force information

The following table summarizes changes in the Life segment's in-force amounts (in thousands):

	June 30, 2017	December 31, 2016	Change
Life insurance in-force			
Traditional life	\$ 70,474,059	\$ 67,649,433	\$ 2,824,626
Interest-sensitive life	28,623,748	27,971,646	652,102
Total life insurance in-force	\$ 99,097,807	\$ 95,621,079	\$ 3,476,728

The following table summarizes changes in the Life segment's number of policies in-force:

	June 30, 2017	December 31, 2016	Change
Number of policies in-force			
Traditional life	1,819,009	1,841,359	(22,350)
Interest-sensitive life	226,611	222,845	3,766
Total number of policies	2,045,620	2,064,204	(18,584)

Total life insurance in-force increased during the six months ended June 30, 2017 compared to December 31, 2016, while the total number of policies decreased for the same periods, reflecting the transition to policies with higher face amounts.

Table of Contents**Annuity**

Annuity segment financial results for the periods indicated were as follows (in thousands):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change
Premiums and other revenues						
Premiums	\$ 65,389	\$ 86,030	\$ (20,641)	\$ 95,198	\$ 156,238	\$ (61,040)
Other policy revenues	3,612	2,910	702	7,155	5,649	1,506
Net investment income	131,952	123,640	8,312	271,629	240,536	31,093
Other income	974	802	172	1,639	1,762	(123)
Total premiums and other revenues	201,927	213,382	(11,455)	375,621	404,185	(28,564)
Benefits, losses and expenses						
Policyholder benefits	77,798	93,655	(15,857)	121,460	174,902	(53,442)
Interest credited to policyholders account balances	74,672	68,431	6,241	155,275	128,873	26,402
Commissions for acquiring and servicing policies	33,407	21,363	12,044	50,691	43,271	7,420
Other operating expenses	12,718	15,808	(3,090)	23,741	28,966	(5,225)
Change in deferred policy acquisition costs ⁽¹⁾	(14,539)	(3,338)	(11,201)	(17,170)	(7,261)	(9,909)
Total benefits and expenses	184,056	195,919	(11,863)	333,997	368,751	(34,754)
Income before other items and federal income taxes	\$ 17,871	\$ 17,463	\$ 408	\$ 41,624	\$ 35,434	\$ 6,190

(1) A negative amount of net change indicates more expense was deferred than amortized and represents a decrease to expenses in the period indicated.

A positive net change indicates less expense was deferred than amortized and represents an increase to expenses in the period indicated.

Earnings increased during the six months ended June 30, 2017 compared to 2016 primarily due to increased assets, as measured by account value and reserves, leading to an increase in investment income net of interest credited to policyholders' account balances.

When comparing the three month period ending June 30, 2017 to the prior year, earnings were relatively stable. The improvement in investment income related to increased assets was partly offset by immediate annuities having better than expected mortality experience in the second quarter of 2016.

Premiums and other revenues

Annuity premium and deposit amounts received are shown below (in thousands):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change
Fixed deferred annuity	\$ 306,954	\$ 145,792	\$ 161,162	\$ 454,156	\$ 329,948	\$ 124,208
Single premium immediate annuity	80,724	98,552	(17,828)	116,901	177,164	(60,263)
Equity-indexed deferred annuity	256,899	159,292	97,607	389,800	301,271	88,529
Variable deferred annuity	19,606	20,685	(1,079)	39,912	40,574	(662)
Total premium and deposits	664,183	424,321	239,862	1,000,769	848,957	151,812
Less: Policy deposits	598,794	338,291	260,503	905,571	692,719	212,852
Total earned premiums	\$ 65,389	\$ 86,030	\$ (20,641)	\$ 95,198	\$ 156,238	\$ (61,040)

Sales strengthened during the second quarter of 2017 led by the fixed deferred and equity indexed products. Earned premium, however, which is reflective of decreased single premium immediate annuity sales, decreased during the three and six months ended June 30, 2017 compared to 2016.

Table of Contents

We monitor account values and changes in those values as a key indicator of performance in our Annuity segment. Shown below are the changes in account values (in thousands):

	Six months ended June 30,	
	2017	2016
Fixed deferred and equity-indexed annuity		
Account value, beginning of period	\$ 9,118,350	\$ 8,880,448
Net inflows	699,473	492,357
Surrenders	(410,957)	(439,972)
Fees	(3,742)	(3,060)
Interest credited	152,332	125,050
Account value, end of period	9,555,456	9,054,823
Single premium immediate annuity		
Reserve, beginning of period	1,566,440	1,398,481
Net inflows	29,405	97,199
Interest and mortality	27,101	21,486
Reserve, end of period	1,622,946	1,517,166
Variable deferred annuity		
Account value, beginning of period	392,345	417,821
Net inflows	37,495	39,470
Surrenders	(78,881)	(52,156)
Fees	(2,281)	(2,364)
Change in market value and other	33,502	2,986
Account value, end of period	382,180	405,757
Total account value, end of period	\$ 11,560,582	\$ 10,977,746

Benefits, losses and expenses

Policyholder benefits consist of annuity payments and reserve increases for SPIA contracts. Reserve increases are highly correlated to the sales volume of SPIA contracts. The decrease in the level of benefits for the six months ended June 30, 2017 was commensurate with decreases in SPIA premium relative to the prior year.

Commissions increased during the three and six months ended June 30, 2017 compared to 2016 driven by an increase in sales of deferred annuity and equity indexed products.

Other operating expenses decreased during the three and six months ended June 30, 2017 compared to 2016 as annuity volume increased.

The change in DAC represents acquisition costs capitalized less the amortization of existing DAC, which is calculated in proportion to expected gross profits. The following shows the components of the change in DAC (in thousands):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change
Acquisition cost capitalized	\$ 33,010	\$ 22,349	\$ 10,661	\$ 50,856	\$ 43,295	\$ 7,561
Amortization of DAC	(18,471)	(19,011)	540	(33,686)	(36,034)	2,348
Change in DAC	\$ 14,539	\$ 3,338	\$ 11,201	\$ 17,170	\$ 7,261	\$ 9,909

The change in DAC increased during the six months ended June 30, 2017 compared to 2016 due to a increase in capitalization which is primarily driven by the increase in commissions.

The amortization of DAC as a percentage of gross profits is an important ratio for the Annuity segment. Changes in this ratio reflect the impact of emerging experience. The ratios for the six months ended June 30, 2017 and 2016 were 33.9% and 35.9% respectively. The favorable decrease in the 2017 ratio is due to lower than expected surrenders in 2017.

Table of Contents**Options and Derivatives**

Net investment income without equity-indexed options or option return remained relatively flat for the three and six months ended June 30, 2017 compared to 2016.

The S&P 500 Index increased by approximately 8.2% and 2.7% in the six months ended June 30, 2017 and 2016, respectively. This change in index performance led to an increase in the option return of \$29.6 million during the six months ended June 30, 2017 compared to 2016, offset by a \$32.3 million increase in the related equity-indexed embedded derivative for a net decrease in earnings of \$2.7 million.

The following table summarizes the incremental impact of the investment performance of option return on net investment income, and the impact of the equity-indexed annuity embedded derivatives to interest credited to policyholder's account balances (in thousands):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change
Net investment income						
Without option return	\$ 119,984	\$ 118,040	\$ 1,944	\$ 239,485	\$ 237,993	\$ 1,492
Option return	11,968	5,600	6,368	32,144	2,543	29,601
Interest credited to policy account balances						
Without embedded derivatives	58,345	59,735	(1,390)	116,555	122,486	(5,931)
Equity-indexed annuity embedded derivatives	16,327	8,696	7,631	38,720	6,387	32,333
Health						

Health segment results for the periods indicated were as follows (in thousands):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change
Premiums and other revenues						
Premiums	\$ 36,593	\$ 44,828	\$ (8,235)	\$ 73,632	\$ 87,141	\$ (13,509)
Net investment income	2,505	2,519	(14)	5,012	4,968	44
Other income	4,321	4,637	(316)	8,667	8,816	(149)
Total premiums and other revenues	43,419	51,984	(8,565)	87,311	100,925	(13,614)
Benefits, losses and expenses						
Claims incurred	23,258	30,327	(7,069)	47,786	62,619	(14,833)
Commissions for acquiring and servicing policies	6,270	5,380	890	12,160	10,258	1,902
Other operating expenses	9,582	11,081	(1,499)	19,667	21,913	(2,246)
Change in deferred policy acquisition costs ⁽¹⁾	817	777	40	2,149	2,350	(201)

Total benefits and expenses	39,927	47,565	(7,638)	81,762	97,140	(15,378)
Income before other items and federal income taxes	\$ 3,492	\$ 4,419	\$ (927)	\$ 5,549	\$ 3,785	\$ 1,764

- (1) A negative amount of net change indicates more expense was deferred than amortized and represents a decrease to expenses in the period indicated.

A positive net change indicates less expense was deferred than amortized and represents an increase to expenses in the period indicated.

Earnings remained relatively constant during the three months ended June 30, 2017 compared to 2016. Earnings increased during the six months ended June 30, 2017 compared to 2016, in part due to the absence of group major medical plans with losses that were not renewed effective January 1, 2017.

Table of Contents***Premiums and other revenues***

Health earned premiums for the periods indicated were as follows (in thousands, except percentages):

	Three months ended June 30,				Six months ended June 30,			
	2017		2016		2017		2016	
Medicare Supplement	\$ 16,400	44.7%	\$ 17,236	38.4%	\$ 32,851	44.7%	\$ 34,876	40.0%
Credit accident and health	4,464	12.2	3,397	7.6	9,232	12.5	6,188	7.1
MGU	4,385	12.0	4,846	10.8	8,898	12.1	8,265	9.5
Supplemental insurance	6,249	17.1	5,191	11.6	12,468	16.9	10,448	12.0
Medical expense	3,167	8.7	3,505	7.8	6,380	8.7	7,205	8.3
Group health	586	1.6	9,186	20.5	1,209	1.6	17,417	20.0
All other	1,342	3.7	1,467	3.3	2,594	3.5	2,742	3.1
Total	\$ 36,593	100.0%	\$ 44,828	100.0%	\$ 73,632	100.0%	\$ 87,141	100.0%

Medicare Supplement earned premiums decreased slightly based on the continued shift in sales from comprehensive higher premium plans to the lower premium high deductible plan. Credit accident and health increased primarily due to the onboarding of new producers writing new credit monthly pay business. Supplement Insurance increased due to increased sales in group worksite health benefit programs. Medical expense and group health are closed blocks of business. Written premiums on these closed blocks declined during the three and six months ended June 30, 2017 compared to 2016 due to non-renewal of a group health plan and lapsation.

Our in-force certificates or policies as of the dates indicated are as follows:

	Six months ended June 30,			
	2017		2016	
Medicare Supplement	33,887	6.6%	33,896	6.1%
Credit accident and health	183,884	35.9	193,147	34.9
MGU	194,851	38.1	210,353	38.0
Supplemental insurance	50,521	9.9	61,828	11.2
Medical expense	2,055	0.4	2,384	0.4
Group health	14,686	2.9	16,725	3.0
All other	31,852	6.2	35,311	6.4
Total	511,736	100.0%	553,644	100.0%

Total in-force policies decreased during the six months ended June 30, 2017 compared to 2016, primarily due to the decrease in the MGU line, Supplemental Insurance, and continued shrinkage of the closed Medical Expense and All Other blocks. Medicare Supplement in-force policies remained stable although the sale of lower premium policies caused a decrease in earned premium. Credit accident and health in-force policies do not include monthly pay business. Although Credit accident and health premiums increased, policy counts decreased due to a decrease in the traditional single premium business. Although Supplemental Insurance sales increased, the termination of a large group with low coverage amounts produced a net decrease in Supplemental Insurance policy counts. Group health

in-force policies decreased due to the non-renewal of a group health plan included in 2016 health results.

Benefits, losses and expenses

Claims incurred decreased during the three and six months ended June 30, 2017 compared to 2016 due to the non-renewal of a group health plan.

Commissions increased slightly during the three and six months ended June 30, 2017 compared to 2016 primarily due to increased sales in Credit accident and health on monthly pay business and Supplemental Insurance.

Table of Contents**Change in Deferred Policy Acquisition Costs**

The following table presents the components of the change in DAC (in thousands):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change
Acquisition cost capitalized	\$ 2,732	\$ 935	\$ 1,797	\$ 5,603	\$ 4,915	\$ 688
Amortization of DAC	(3,549)	(1,712)	(1,837)	(7,752)	(7,265)	(487)
Change in DAC	\$ (817)	\$ (777)	\$ (40)	\$ (2,149)	\$ (2,350)	\$ 201

Property and Casualty

Combined ratio without impact of catastrophe events	95.8%	94.8%	1.0	95.9%	95.2%	0.7
Gross catastrophe losses	\$ 41,262	\$ 35,024	\$ 6,238	\$ 68,034	\$ 57,351	\$ 10,683
Net catastrophe losses	41,213	35,020	6,193	67,988	57,163	10,825

- (1) A negative amount of net change indicates more expense was deferred than amortized and represents a decrease to expenses in the period indicated.

A positive net change indicates less expense was deferred than amortized and represents an increase to expenses in the period indicated.

Property and Casualty results declined during the three and six months ended June 30, 2017 compared to 2016 primarily due to increased catastrophe losses and other fire and wind/hail losses impacting the homeowners and personal auto lines.

Premiums and other revenues

Net premiums written and earned increased for all major lines of business during the three and six months ended June 30, 2017 compared to 2016. The largest increases were in the personal automobile and other commercial lines of business.

Benefits, losses and expenses

Claims incurred increased during the three and six months ended June 30, 2017 compared to 2016, as a result of increases in catastrophe losses as well as non-catastrophe property losses.

Table of Contents

Commissions for acquiring and servicing policies increased during the three and six months ended June 30, 2017 compared to 2016, primarily as a result of the premium growth as well as the mix of products.

Operating expenses increased during the three and six months ended June 30, 2017 compared to 2016, as a result of costs related to growth initiatives.

Products

Our Property and Casualty segment consists of: (i) Personal products, marketed primarily to individuals, representing 54.9% of net premiums written; (ii) Commercial products, focused primarily on agricultural and other business related markets, representing 34.7% of net premiums written; and (iii) Credit-related property insurance products, marketed to and through financial institutions and retailers, representing 10.4% of net premiums written.

Personal Products

Personal Products results for the periods indicated were as follows (in thousands, except percentages):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change
Net premiums written

Personal line combined ratio	115.5%	108.4%	7.1%	110.2%	105.0%	5.2%

Automobile: Net premiums written and earned increased in our personal automobile line during the three and six months ended June 30, 2017 compared to 2016 due to rate increases and an increase of policies in force. The loss and combined ratios decreased during the three and six months ended June 30, 2017 compared to 2016 primarily due to an

improvement in rate adequacy somewhat offset by an increase in catastrophe losses.

Homeowners: Net premiums written and earned increased during the three and six months ended June 30, 2017 compared to 2016 primarily due to increased sales of homeowner products to renters. The loss and combined ratios increased during the three and six months ended June 30, 2017 compared to 2016 due to an increase in catastrophe claim activity as well as an increase in non-catastrophe fire and wind/hail losses compared to prior year.

Other Personal: These products include watercraft, rental-owner and umbrella coverages for individuals seeking to protect their personal property and liability not covered within their home and auto policies. The loss and combined ratios increased during the three and six months ended June 30, 2017 compared to 2016 due to catastrophe losses in the rental-owners line along with a large umbrella coverage loss.

Table of Contents**Commercial Products**

Commercial Products results for the periods indicated were as follows (in thousands, except percentages):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change

Automobile	56.2	66.2	(10.0)	62.8	70.1	(7.3)
Commercial line loss ratio	59.5%	68.4%	(8.9)%	64.0%	71.2%	(7.2)%
Combined ratio						
Other Commercial	91.5%	95.9%	(4.4)%	90.2%	98.8%	(8.6)%
Agricultural Business	101.1	111.5	(10.4)	113.0	114.7	(1.7)
Automobile	79.9	90.3	(10.4)	87.3	94.6	(7.3)
Commercial line combined ratio	91.9%	99.9%	(8.0)%	97.0%	103.2%	(6.2)%

Other Commercial: Net premiums written and earned increased during the three and six months ended June 30, 2017 compared to 2016 primarily due to increased sales of mortgage security insurance and workers compensation. The decrease in the loss and combined ratios for the three and six months ended June 30, 2017 compared to 2016 are primarily due to decreased claim activity on the workers compensation and business owners lines of business.

Agricultural Business: Our agricultural business product allows policyholders to customize and cover their agriculture exposure using a package policy which includes coverage for residences and household contents, farm buildings and building contents, personal and commercial liability and personal property. Net premiums written and earned increased during the three and six months ended June 30, 2017 compared to 2016 primarily as a result of improved rate adequacy. The loss and combined ratios decreased during the three and six months ended June 30, 2017 compared to 2016 primarily due to a decrease in catastrophe losses.

Commercial Automobile: Net premiums written and earned increased during the six months ended June 30, 2017 compared to 2016, primarily due to increased sales as well as improved rate adequacy. The loss and combined ratios decreased during the three and six months ended June 30, 2017 compared to 2016 primarily due to a decrease in the

average severity of losses.

Table of Contents**Credit Products**

Credit-related property product results for the periods indicated were as follows (in thousands, except percentages):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change
Net premiums written	\$ 31,640	\$ 30,145	\$ 1,495	\$ 74,557	\$ 66,140	\$ 8,417
Net premiums earned	36,008	34,707	1,301	78,473	74,581	3,892
Loss ratio	61.4%	56.4%	5.0%	53.9%	50.2%	3.7%
Combined ratio	117.1%	113.6%	3.5%	111.5%	107.7%	3.8%
Credit-related property products are offered on automobiles, furniture and appliances in connection with the financing of those items. These policies pay an amount if the insured property is lost or damaged and the amount paid is not directly related to an event affecting the consumer's ability to pay the debt.						

Net written and earned premiums increased during the three and six months ended June 30, 2017 compared to 2016 primarily due to increases in our Collateral Protection and debt cancellation business. The loss and combined ratios increased during the three and six months ended June 30, 2017 compared to 2016 primarily due to an increase in claims in our Guaranteed Auto Protection (GAP) business.

Corporate and Other

Corporate and Other segment financial results for the periods indicated were as follows (in thousands):

	Three months ended June 30,			Six months ended June 30,		
	2017	2016	Change	2017	2016	Change
Other revenues						
Net investment income	\$ 23,697	\$ 15,451	\$ 8,246	\$ 33,767	\$ 23,064	\$ 10,703
Realized investment gains, net	9,932	3,415	6,517	17,157	9,001	8,156
Other Income	954	858	96	2,234	2,120	114

Commissions	(5)		(5)	(6)	(2)	(4)
Other operating expenses	20,599	13,317	7,282	32,132	25,118	7,014
Total benefits, losses and expenses	20,594	13,317	7,277	32,126	25,116	7,010
Income before other items and federal income taxes	\$ 13,989	\$ 6,407	\$ 7,582	\$ 21,032	\$ 9,069	\$ 11,963

Earnings increased during the three and six months ended June 30, 2017 compared to 2016 primarily due to an increase in net investment income primarily attributable to increased prepayment fees on mortgage loans and realized investment gains reflecting increased sales of certain real estate investments. These increases were partially offset by

an increase in other operating expenses which includes a pension cost of \$7.2 million relating to the completion of the one-time pension payment window.

Investments

We manage our investment portfolio to optimize the rate of return commensurate with sound and prudent asset selection and to maintain a well-diversified portfolio. Our investment operations are regulated primarily by the state insurance departments where our insurance companies are domiciled. Investment activities, including setting investment policies and defining acceptable risk levels, are subject to oversight by our Board of Directors, which is assisted by our Finance Committee and Management Risk Committee.

Our insurance and annuity products are supported by investment-grade bonds and commercial mortgage loans. We also invest in equity options as a hedge for our indexed products. We purchase fixed maturity securities and designate them as either held-to-maturity or available-for-sale considering our estimated future cash flow needs.

Table of Contents

We also monitor the composition of our fixed maturity securities classified as held-to-maturity and available-for-sale and adjust the mix within the portfolio as investments mature or new investments are purchased. We invest in commercial mortgage loans when the yield and credit risk compare favorably with fixed maturity securities. Individual residential mortgage loans including sub-prime or Alt-A mortgage loans have not been and are not expected to be part of our investment portfolio. We purchase real estate and equity investments based on a risk and reward analysis where we believe there are opportunities for enhanced returns.

The following summarizes the carrying values of our invested assets (other than investments in unconsolidated affiliates) by asset class (in thousands, except percentages):

	June 30, 2017		December 31, 2016	
Bonds held-to-maturity, at amortized cost	\$ 7,149,494	34.3%	\$ 7,251,385	35.8%
Bonds available-for-sale, at fair value	5,918,462	28.2	5,803,276	28.7
Equity securities, at fair value	1,641,900	7.8	1,541,676	7.6
Mortgage loans, net of allowance	4,647,426	22.1	4,348,046	21.5
Policy loans	383,928	1.8	384,376	1.9
Investment real estate, net of accumulated depreciation	555,797	2.6	593,417	2.9
Short-term investments	576,878	2.7	192,226	1.0
Other invested assets	108,985	0.5	113,550	0.6
Total investments	\$ 20,982,870	100.0%	\$ 20,227,952	100.0%

The increase in our total investments at June 30, 2017 compared to 2016 was primarily a result of an increase in mortgage loans, and short-term investments.

Bonds We allocate most of our fixed maturity securities to support our insurance business. At June 30, 2017, our fixed maturity securities had an estimated fair value of \$13.3 billion, which was \$0.5 billion, or 3.8%, above amortized cost. At December 31, 2016, our fixed maturity securities had an estimated fair value of \$13.3 billion, which was \$0.4 billion, or 2.9%, above amortized cost. The estimated fair value for securities due in one year or less remained constant at \$0.7 billion at June 30, 2017 and December 31, 2016. For additional information regarding total bonds by credit quality rating refer to Note 4, Investments in Securities, of the Notes to the Unaudited Consolidated Financial Statements.

Equity Securities We invest in companies publicly traded on national U.S. stock exchanges. See Note 4, Investments in Securities, of the Notes to the Unaudited Consolidated Financial Statements for the cost, gross unrealized gains and losses, and fair value of the equity securities.

Mortgage Loans We invest in commercial mortgage loans that are diversified by property-type and geography. Generally, mortgage loans are secured by first liens on income-producing real estate with a loan-to-value ratio of up to 75%. Mortgage loans are carried at outstanding principal balances, adjusted for any unamortized premium or discount, deferred fees or expenses, and net of allowances. The weighted average coupon yield on the principal funded for mortgage loans was 4.7% at June 30, 2017 and December 31, 2016.

Policy Loans For certain life insurance products, policyholders may borrow funds using the policy's cash value as collateral. The maximum amount of the policy loan depends upon the policy's surrender value. As of June 30, 2017,

we had \$383.9 million in policy loans with a loan to surrender value of 65.6%, and at December 31, 2016, we had \$384.4 million in policy loans with a loan to surrender value of 64.6%. Interest rates on policy loans primarily range from 3.0% to 12.0% per annum. Policy loans may be repaid at any time by the policyholder and have priority to any claims on the policy. If the policyholder fails to repay the policy loan, funds are withdrawn from the policy's benefits.

Investment Real Estate We invest in commercial real estate where positive cash flows and/or appreciation in value is expected. Real estate may be owned directly by our insurance companies or non-insurance affiliates or indirectly in joint ventures with real estate developers or investors we determine share our perspective regarding risk and return relationships. The carrying value of real estate is stated at cost, less accumulated depreciation and valuation allowances, if any. Depreciation is provided over the estimated useful lives of the properties.

Table of Contents

Short-Term Investments Short-term investments are primarily commercial paper rated A2 or P2 or better by Standard & Poor's and Moody's, respectively. The amount fluctuates depending on our view of the desirability of investing in the available long-term investment opportunities and our liquidity needs, including mortgage investment-funding commitments.

Net Investment Income and Net Realized Gains (Losses)

Net investment income increased \$56.4 million during the six months ended June 30, 2017 compared to 2016 primarily due to an increase in realized and unrealized gain of equity-indexed options as a result of increases in the S&P 500 and an increase in mortgage loan income. Equity-indexed options are recorded at fair value with changes in fair value recorded as investment income.

Interest income on mortgage loans is accrued on the principal amount of the loan at the contractual interest rate. Accretion of discounts is recorded using the effective yield method. Interest income, accretion of discounts and prepayment fees are reported in net investment income. Interest is not accrued on loans generally more than 90 days past due or when the collection of interest is not considered probable. Loans in foreclosure are placed on non-accrual status. Interest received on non-accrual status mortgage loans is included in net investment income in the period received.

Net realized gains increased \$9.4 million during the six months ended June 30, 2017 compared to 2016 primarily due to an increase in investment gain on securities. Other-than-temporary impairment on investment securities increased \$1.2 million during the six months ended June 30, 2017 compared to 2016.

Net Unrealized Gains and Losses

The unrealized gains and losses of our fixed maturity and equity securities investment portfolio are shown below (in thousands):

	June 30, 2017	December 31, 2016	Change
Held-to-Maturity			
Gains	\$ 300,368	\$ 285,315	\$ 15,053
Losses	(23,086)	(40,008)	16,922
Net Gain	277,282	245,307	31,975
Available-for-Sale ⁽¹⁾			
Gains	1,142,242	986,635	155,607
Losses	(33,561)	(43,100)	9,539
Net Gain	1,108,681	943,535	165,146
Total	\$ 1,385,963	\$ 1,188,842	\$ 197,121

(1) Includes bonds and equity securities

The net change in the unrealized gains on fixed maturity securities between December 31, 2016 and June 30, 2017 is primarily attributable to the decrease in interest rates. The Company does not currently intend to sell nor does it expect to be required to sell any of the securities in an unrealized loss position.

The net unrealized gains of our equity securities were \$901.3 million and \$809.2 million at June 30, 2017 and December 31, 2016, respectively. The increase is attributable to favorable market conditions.

Liquidity

Our liquidity requirements have been and are expected to continue to be met by funds from operations, comprised of premiums received from our customers, collateral for derivative transactions, and investment income. The primary use of cash has been and is expected to continue to be payment of policyholder benefits and claims incurred. Current and expected patterns of claim frequency and severity may change from period to period but continue to be within historical norms. Management considers our current liquidity position to be sufficient to meet anticipated demands over the next twelve months. Our contractual obligations are not expected to have a significant negative impact to cash flow from operations.

Table of Contents

Changes in interest rates during 2017 and market expectations for potentially higher rates through 2018, may lead to an increase in the volume of annuity contracts, which may be partially offset by increases in surrenders. Our defined benefit plans are frozen and currently adequately funded; however, low interest rates, increased longevity of participants, and rising Pension Benefit Guaranty Corporation (PBGC) premiums may cause us to increase our funding of the plans. Future contributions to our defined benefit plans are not expected to significantly impact cash flow and are expected to enhance overall funded status of plans. No unusually large capital expenditures are expected in the next 12-24 months. We have paid dividends to stockholders for over 110 consecutive years and expect to continue this trend. There are no other known trends or uncertainties regarding product pricing, changes in product lines or rising costs that are expected to have a significant impact to cash flows from operations.

Funds received as premium payments and deposits are generally invested in bonds and commercial mortgages. Funds are invested with the intent that income from the investments and proceeds from the maturities will meet our ongoing cash flow needs. We historically have not had to liquidate invested assets in order to cover cash flow needs. We believe our portfolio of highly liquid available-for-sale investment securities, including equity securities, is sufficient to meet future liquidity needs as necessary.

The Company holds collateral to offset exposure from its derivative counterparties. Cash flows associated with collateral received from counterparties change as the market value of the underlying derivative contract changes. As the value of a derivative asset declines or increases, the collateral requirements would also decline or increase respectively. For more information, see Note 7, Derivative Instruments, of the Notes to the Unaudited Consolidated Financial Statements.

Our cash and cash equivalents and short-term investment position increased from \$481.6 million at December 31, 2016 to \$1.0 billion at June 30, 2017.

A downgrade or a potential downgrade in our financial strength ratings could result in a loss of business and could adversely affect our cash flow from operations.

Further information regarding additional sources or uses of cash is described in Note 16, Commitments and Contingencies, of the Notes to the Unaudited Consolidated Financial Statements.

Capital Resources

Our capital resources are summarized below (in thousands):

	June 30, 2017	December 31, 2016
American National stockholders equity, excluding accumulated other comprehensive income, net of tax (AOCI)	\$ 4,230,447	\$ 4,196,279
AOCI	560,511	455,899
Total American National stockholders equity	\$ 4,790,958	\$ 4,652,178

We have notes payable relating to borrowings by real estate joint ventures that we consolidate into our financial statements that are not part of our capital resources. The lenders for the notes payable have no recourse against us in

the event of default by the joint ventures. Therefore, the liability we have for these notes payable is limited to our investment in the respective ventures, which totaled \$30.5 million and \$31.8 million at June 30, 2017 and December 31, 2016, respectively.

Table of Contents

The changes in our capital resources are summarized below (in thousands):

	Six months ended June 30, 2017		
	Capital and Retained Earnings	AOCI	Total
Net income attributable to American National	\$ 75,799	\$	\$ 75,799

Statutory Capital and Surplus and Risk-based Capital

Statutory capital and surplus is the capital of our insurance companies reported in accordance with accounting practices prescribed or permitted by the applicable state insurance departments. RBC is calculated using formulas applied to certain financial balances and activities that consider, among other things, investment risks related to the type and quality of investments, insurance risks associated with products and liabilities, interest rate risks and general business risks. Insurance companies that do not maintain capital and surplus at a level of at least 200% of the authorized control level RBC are required to take certain actions. At June 30, 2017 and December 31, 2016, American National Insurance Company's statutory capital and surplus was \$3,028,989,000 and \$2,985,909,000, respectively. American National Insurance Company and each of its insurance subsidiaries had statutory capital and surplus at June 30, 2017 and December 31, 2016, substantially above 200% of the authorized control level.

The achievement of long-term growth will require growth in American National Insurance Company's and our insurance subsidiaries' statutory capital and surplus. Our subsidiaries may obtain additional statutory capital through various sources, such as retained statutory earnings or equity contributions from us.

Contractual Obligations

Our future cash payments associated with claims and claims adjustment expenses, life, annuity and disability obligations, contractual obligations pursuant to operating leases for office space and equipment, and notes payable have not materially changed since December 31, 2016. We expect to have the capacity to pay our obligations as they come due.

One-Time Pension Payout Window

The one-time window offering to terminated, vested participants of our qualified defined benefit pension plans allowing participants to take a lump sum or annuity payout of their pension benefit, closed in March 2017. Payments to participants that elected to take a lump sum payout were made from pension plan assets in April, 2017. A portion of the pension actuarial loss included in Accumulated Other Comprehensive Income was recognized as pension costs in proportion to the reduction of the pension plans' total benefit obligations. The after-tax expense recognized in the second quarter of 2017 was approximately \$4,673,000.

Off-Balance Sheet Arrangements

We have off-balance sheet arrangements relating to third-party marketing operation bank loans as discussed in Note 16, Commitments and Contingencies, of the Notes to the Unaudited Consolidated Financial Statements. We could be exposed to a liability for these loans, which are supported by the cash value of the underlying insurance contracts. The cash value of the life insurance policies is designed to always equal or exceed the balance of the loans. Accordingly, management does not foresee any loss related to these arrangements.

Table of Contents

Related-Party Transactions

We have various agency, consulting and service arrangements with individuals and entities considered to be related parties. Each of these arrangements has been reviewed and approved by our Audit Committee, which retains final decision-making authority for these transactions. The amounts involved, both individually and in the aggregate, with these arrangements are not material to any segment or to our overall operations. For additional details see Note 17, Related Party Transactions, of the Notes to the Unaudited Consolidated Financial Statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our market risks have not changed materially from those disclosed in our 2016 Annual Report on Form 10-K filed with the SEC on March 10, 2017.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures (as that term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to provide reasonable assurance that information required to be disclosed in the Company's reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of June 30, 2017. Based upon that evaluation and subject to the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2017, the design and operation of the Company's disclosure controls and procedures were not effective because of the two material weaknesses disclosed in our 2016 Annual Report on Form 10-K. No additional material weaknesses in the Company's disclosure controls and procedures were identified in the current evaluation.

Changes in Internal Control Over Financial Reporting

Management has monitored the internal controls over financial reporting, including any material changes to the internal control over financial reporting. There were no changes in the Company's internal control over financial reporting (as that term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the six months ended June 30, 2017 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting, other than changes in internal control related to the two material weaknesses identified in our Annual Report on form 10-K for the year ended December 31, 2016 as described below.

Remediation Actions

The Company is committed to remediating the material weaknesses in a timely manner. We have developed a remediation plan and are executing changes in our financial reporting processes and related internal controls to

address the material weaknesses in internal control over financial reporting identified in our Annual Report on form 10-K for the year ended December 31, 2016. Specifically, we have begun and intend to continue to implement and monitor the following actions to accumulate adequate evidence over a reasonable period of time to determine that new or modified processes, procedures, controls and oversight relating to such controls are operating effectively.

Table of Contents

Deferred Income Taxes

Engaging tax advisors to assist with enhancing internal controls over financial reporting for income taxes and developing and implementing a remediation plan;

Hiring accountants with more expertise in federal income taxes and providing additional income tax accounting training to tax and financial personnel;

Working with the investing and operating areas to enhance the quality of information, analysis, review and documentation provided to the tax department; and

Reviewing the new tax processes and system, including controls, with necessary Company personnel, including relevant internal bodies responsible for testing internal controls.

Equity Option Derivatives Collateral

Requiring notice of relevant facts from the investment area to Corporate Controllers when new investment arrangements or types are contemplated;

In the event of any such new investment arrangements or types, requiring the Corporate Controllers area (with outside assistance when appropriate) to determine if existing accounting processes and policies are adequate and to specify new accounting processes as appropriate; and

Verifying that the approved accounting is installed and operational by necessary Company personnel, including relevant internal bodies responsible for testing internal controls.

While management believes that significant progress has been made in enhancing internal controls as of June 30, 2017 and in the period since, the material weaknesses have not been fully remediated due to insufficient time to fully implement and assess the design and operating effectiveness of the related controls. Management, with oversight from the Company's Audit Committee, will continue the process to enhance internal controls throughout 2017 and will make any further changes management deems appropriate.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Information required for Item 1 is incorporated by reference to the discussion under the heading "Litigation" in Note 16, Commitments and Contingencies, of the Notes to the Unaudited Consolidated Financial Statements.

ITEM 1A. RISK FACTORS

There have been no material changes with respect to the risk factors as previously disclosed in our 2016 Annual Report on Form 10-K filed with the SEC on March 10, 2017, except as set forth below.

We are subject to extensive regulation, and potential further regulation may increase our operating costs and limit our growth. We are subject to extensive insurance laws and regulations that affect nearly every aspect of our business. We are also subject to additional laws and regulations administered and enforced by a number of different governmental authorities, such as state securities and workforce regulators, the SEC, the Internal Revenue Service ("IRS"), FINRA, the U.S. Department of Justice, the U.S. Department of Labor ("DOL"), the U.S. Department of Housing and Urban Development ("HUD"), HHS, the Federal Trade Commission and state attorneys general, each of which exercises a degree of interpretive latitude. We face the risks that any particular regulator's or enforcement authority's interpretation of a legal issue may conflict with that of another regulator or enforcement authority or may change over time to our detriment. Regulatory investigations, which can be broad and unpredictable, may raise issues not identified previously and could result in new legal actions against us and industry-wide regulations that could adversely affect us. Further, we are experiencing increasing information requests from regulators without corresponding direct regulation being applicable to us, on issues such as climate change and our investments in certain companies or industries. Responding to such requests adds to our compliance burden.

The laws and regulations applicable to us are complex and subject to change, and compliance is time consuming and personnel-intensive. Changes in these laws and regulations, or interpretations by courts or regulators, may materially increase our costs of doing business and may result in changes to our practices that may limit our ability to grow and improve our profitability. Regulatory developments or actions against us could have material adverse financial effects and could cause harm to our reputation. Among other things, we could be fined, prohibited from engaging in some or all of our business activities, or made subject to limitations or conditions on our business activities.

As insurance industry practices and legal, judicial, social, and other conditions outside of our control change, unexpected issues related to claims and coverage may emerge. These changes may include modifications to long established business practices or policy interpretations, which may adversely affect us by extending coverage beyond our underwriting intent or by increasing the type, number, or size of claims. For example, a growing number of states have adopted legislation that is similar to the Model Unclaimed Life Insurance Benefits Act. Such legislation imposes new requirements on insurers to periodically compare their life insurance and annuity contracts and retained asset accounts against the U.S. Social Security Administration's Death Master File, investigate any potential matches, determine whether benefits are payable, and attempt to locate beneficiaries. Some states are attempting to apply these laws retroactively to existing policies. A number of states have aggressively audited life insurance companies, including us and some of our subsidiaries, for compliance with such laws, and more states could do so. Such audits have sought to identify unreported insured deaths and to determine whether any unpaid benefits, proceeds or other payments under life insurance or annuity contracts should be treated as unclaimed property to be escheated to the state. We have modified our claims process to stay current with emerging trends. It is possible that such audits or

additional enactment of similar legislation may result in additional payments to beneficiaries, additional escheatment of funds deemed abandoned under state laws, regulatory actions, litigation, administrative fines and penalties, interest, and additional changes to our procedures.

Table of Contents

Federal regulatory changes and initiatives have a growing impact on us. For example, Dodd-Frank provides for enhanced federal oversight of the financial services industry through multiple initiatives. Provisions of Dodd-Frank are or may become applicable to us, our competitors, or certain entities with which we do business. For example, it is possible that regulations issued by the Consumer Financial Protection Bureau (CFPB) may extend, or be interpreted to extend, to the sale of certain insurance products by covered financial institutions, which could adversely affect sales of such products. The Federal Insurance Office, as a result of various studies it conducts, may also recommend changes in laws or regulations that affect our business.

We are subject to various conditions and requirements of the Patient Protection and Affordable Care Act of 2010 (the Healthcare Act). The Healthcare Act may affect the small blocks of business we have offered or acquired over the years that are, or deemed to be, health insurance. The Healthcare Act also influences the design of products sold by our Health segment, which may influence consumer acceptance of such products and the cost of monitoring compliance with the Healthcare Act. Moreover, the Healthcare Act affects the benefit plans we sponsor for employees or retirees and their dependents, our expense to provide such benefits, our tax liabilities in connection with the provision of such benefits, and our ability to attract or retain employees. Any repeal, replacement or amendment of the Healthcare Act could have similar effects on us.

Certain federal regulation may impact our property and casualty operations. In 2013, HUD finalized a disparate impact regulation that may adversely impact our ability to differentiate pricing for homeowners policies using traditional risk selection analysis. Various legal challenges to this regulation are being pursued by the industry. If this regulation is implemented, whether or not modified by HUD, it is uncertain to what extent it may impact the property and casualty industry underwriting practices. Such regulation could increase litigation costs, force changes in underwriting practices, and impair our ability to write homeowners business profitably. In addition, Congress or states may enact legislation affecting insurers' ability to use credit-based insurance scores as part of the property and casualty underwriting or rating process, which could force changes in underwriting practices and impair our property and casualty operations' ability to write homeowners business profitably.

There have been federal efforts to change the standards of care applicable to broker-dealers and investment advisers. In April 2016, the U.S. Department of Labor (DOL) issued a regulation that will significantly expand the range of activities considered to be fiduciary investment advice under the Employee Retirement and Income Security Act of 1974 and the Internal Revenue Code of 1986. This regulation impacts individuals and entities that offer investment advice to purchasers of qualified retirement products, such as IRAs and qualified retirement plans. It applies ERISA's fiduciary standard to many insurance agents, broker-dealers, advisers and others not currently subject to the standard, when they sell annuities to IRAs and qualified retirement plans. Further, it prohibits such individuals from receiving commission-based compensation from such sales unless they comply with a prohibited transaction exemption under the rule. In April 2017, the DOL delayed the beginning of the rule's implementation until June 9, 2017, with full implementation delayed until January 1, 2018, and subsequently asked for additional public comment regarding the rule and the advisability of possible further delay. In addition, pursuant to direction from the Trump administration, the DOL is further studying the economic impact of the rule. Given these developments, as well as current pending litigation challenging the rule, there is still some uncertainty about the form and timing of the rule's final implementation. Compliance with the rule may result in decreased premium on certain life and annuity products as a result of more limited sales opportunities through our current distribution arrangements. We may also experience a loss of some in-force business, as well as increased regulatory burdens and litigation risk. In addition, following a study required by Dodd-Frank, the staff of the SEC recommended a uniform fiduciary duty standard applicable to both broker-dealers and investment advisers when providing personalized investment advice to retail customers. It is not clear at the present time whether or when the SEC will ultimately implement this change. However, if implemented, it would apply a different standard of care than is currently applicable to broker-dealers and would affect how our variable insurance products are designed and sold.

International standards continue to emerge in response to the globalization of the insurance industry and evolving standards of regulation, solvency measurement and risk management. Any international conventions or mandates that directly or indirectly impact or influence the nature of U.S. regulation or industry operations could negatively affect us.

Table of Contents

For further discussions of the kinds of regulation applicable to us, see Item 1, Business, Regulation Applicable to Our Business, in our 2016 Annual Report on Form 10-K filed with the SEC on March 10, 2017.
