EXPLANATORY NOTE

This Registration Statement is organized as follows:

- a. Letter to Common Shareholders of BlackRock New Jersey Municipal Bond Trust (BLJ), BlackRock New Jersey Municipal Income Trust (BNJ) and BlackRock MuniYield New Jersey Fund, Inc. (MYJ).
- b. Questions and Answers for Common Shareholders of BLJ, BNJ and MYJ.
- c. Notice of Joint Special Meeting of Common Shareholders of BLJ, BNJ and MYJ.
- d. Joint Proxy Statement/Prospectus regarding the proposed reorganizations of BLJ and BNJ into MYJ.
- e. Statement of Additional Information regarding the proposed reorganizations of BLJ and BNJ into MYJ.
- f. Part C: Other Information.
- g. Exhibits.

[], 2018

Dear Common Shareholder:

You are cordially invited to attend a joint special shareholder meeting (the *Special Meeting*) of BlackRock New Jersey Municipal Bond Trust (*BLJ*), BlackRock New Jersey Municipal Income Trust (*BNJ*) and BlackRock MuniYield New Jersey Fund, Inc. (*MYJ* or the *Acquiring Fund* and together with *BLJ* and *BNJ*, the *Funds*, and each, a *Fund*), to be held at the offices of BlackRock Advisors, LLC, 1 University Square Drive, Princeton, New Jersey 08540-6455, on March 28, 2018 at [] (Eastern time). Before the *Special Meeting*, I would like to provide you with additional background information and ask for your vote on important proposals affecting the *Funds*.

Common Shareholders of BLJ: You and the preferred shareholders of *BLJ* are being asked to vote as a single class on a proposal to approve the reorganization of *BLJ* into the *Acquiring Fund* (the *BLJ Reorganization*), a *Fund* with substantially similar (but not identical) investment objectives, investment policies and investment restrictions. Preferred shareholders of *BLJ* are also being asked to vote as a separate class on a proposal to approve the *BLJ Reorganization*.

Common Shareholders of BNJ: You and the preferred shareholders of *BNJ* are being asked to vote as a single class on a proposal to approve the reorganization of *BNJ* into the *Acquiring Fund* (the *BNJ Reorganization*), a *Fund* with substantially similar (but not identical) investment objectives, investment policies and investment restrictions. Preferred shareholders of *BNJ* are also being asked to vote as a separate class on a proposal to approve the *BNJ Reorganization*.

Common Shareholders of the Acquiring Fund: You and the preferred shareholders of the *Acquiring Fund* are being asked to vote as a single class on a proposal to approve the issuance of additional common shares of the *Acquiring Fund* in connection with the *BLJ Reorganization* and the *BNJ Reorganization* (each, a *Reorganization*). Preferred shareholders of the *Acquiring Fund* are also being asked to vote as a separate class on a proposal to approve each *Reorganization*.

The enclosed Joint Proxy Statement/Prospectus is only being delivered to the *Funds* common shareholders. The preferred shareholders of each *Fund* are also being asked to attend the *Special Meeting* and to vote as a separate class with respect to the proposals described above. Each *Fund* is delivering to its preferred shareholders a separate Proxy Statement with respect to the proposals described above.

The Board of Trustees or Board of Directors, as applicable, of each *Fund* believes that the proposal that the common shareholders of its *Fund* are being asked to vote upon is in the best interests of its respective *Fund* and its shareholders and unanimously recommends that you vote **FOR** such proposal.

We encourage you to carefully review the enclosed materials, which explain the proposals in more detail. As a shareholder, your vote is important, and we hope that you will respond today to ensure that your shares will be represented at the meeting. You may vote using one of the methods below by following the instructions on your proxy card or voting instruction form(s):

By touch-tone phone;

By internet;

Table of Contents

By signing, dating and returning the enclosed proxy card or voting instruction form(s) in the postage-paid envelope; or

In person at the meeting.

If you do not vote using one of the methods described above, you may be called by Georgeson, LLC, the Funds' proxy solicitor, to vote your shares.

As always, we appreciate your support.

Sincerely,

JOHN M. PERLOWSKI

President and Chief Executive Officer of the Funds

Please vote now. Your vote is important.

To avoid the wasteful and unnecessary expense of further solicitation(s), we urge you to indicate your voting instructions on the enclosed proxy card, date and sign it and return it promptly in the postage-paid envelope provided, or record your voting instructions by telephone or via the internet, no matter how large or small your holdings may be. If you submit a properly executed proxy but do not indicate how you wish your common shares to be voted, your common shares will be voted **FOR the proposal. If your common shares are held through a broker, you must provide voting instructions to your broker about how to vote your common shares in order for your broker to vote your common shares as you instruct at the Special Meeting.**

IMPORTANT NOTICE
TO COMMON SHAREHOLDERS OF
BLACKROCK MUNIYIELD NEW JERSEY FUND, INC.
BLACKROCK NEW JERSEY MUNICIPAL BOND TRUST
BLACKROCK NEW JERSEY MUNICIPAL INCOME TRUST

QUESTIONS & ANSWERS

Although we urge you to read the entire Joint Proxy Statement/Prospectus, we have provided for your convenience a brief overview of some of the important questions concerning the joint special shareholder meeting (the Special Meeting) of BlackRock New Jersey Municipal Bond Trust (BLJ), BlackRock New Jersey Municipal Income Trust (BNJ) and BlackRock MuniYield New Jersey Fund, Inc. (MYJ or the Acquiring Fund and together with BLJ and BNJ, the Funds, and each, a Fund) and the proposals to be voted on. It is expected that the effective date (the Closing Date) of the Reorganizations will be sometime during the second quarter of 2018, but it may be at a different time as described in the Joint Proxy Statement/Prospectus.

The enclosed Joint Proxy Statement/Prospectus is being sent only to the holders of common shares of beneficial interest or shares of common stock (Common Shares) of BLJ, BNJ and the Acquiring Fund. Each of BLJ and the Acquiring Fund is separately soliciting the votes of its holders of Variable Rate Demand Preferred Shares (VRDP Shares) and BNJ is separately soliciting the votes of its holders of Variable Rate Muni Term Preferred Shares (VMTP Shares) and together with the Common Shares of BLJ, BNJ and the Acquiring Fund and the VRDP Shares of BLJ and the Acquiring Fund, the Shares) through a separate Proxy Statement.

Q: Why is a shareholder meeting being held?

A: *Common Shareholders of BlackRock New Jersey Municipal Bond Trust (NYSE American Ticker: BLJ):* You and the holders of the VRDP Shares (VRDP Holders) of BLJ are being asked to vote as a single class on a proposal to approve the Agreement and Plan of Reorganization (the BLJ Reorganization Agreement) between BLJ and the Acquiring Fund, pursuant to which (i) the Acquiring Fund will acquire substantially all of BLJ's assets and assume substantially all of BLJ's liabilities in exchange solely for newly issued Common Shares and VRDP Shares of the Acquiring Fund, which will be distributed to the common shareholders (although cash may be distributed in lieu of fractional Common Shares) and VRDP Holders, respectively, of BLJ, and (ii) BLJ will terminate its registration under the Investment Company Act of 1940, as amended (the 1940 Act), and liquidate, dissolve and terminate in accordance with its Agreement and Declaration of Trust and Delaware law.

BLJ VRDP Holders are also being asked to vote as a separate class on a proposal to approve the BLJ Reorganization Agreement and the transactions contemplated therein, including the termination of BLJ's registration under the 1940 Act and the dissolution of BLJ under Delaware law (the BLJ Reorganization), through a separate Proxy Statement.

Common Shareholders of BlackRock New Jersey Municipal Income Trust (NYSE Ticker: BNJ): You and the holders of the VMTP Shares (VMTP Holders) of BNJ are being asked to vote as a single class on a proposal to approve the Agreement and Plan of Reorganization (the BNJ Reorganization Agreement, and together with the BLJ Reorganization Agreement, the Reorganization Agreements) between BNJ and the Acquiring Fund. If the BNJ Reorganization Agreement is approved, prior to the Closing Date of the BNJ Reorganization (as defined herein), it is expected that BNJ will issue VRDP Shares with terms substantially identical to the terms of the outstanding Acquiring Fund's VRDP Shares and use the proceeds from such issuance to redeem all of BNJ's outstanding VMTP Shares (the VMTP Refinancing). If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated. If the VMTP Refinancing is completed prior to the Closing Date

Table of Contents

of the BNJ Reorganization, pursuant to the BNJ Reorganization Agreement (i) the Acquiring Fund will acquire substantially all of BNJ's assets and assume substantially all of BNJ's liabilities in exchange solely for newly issued Common Shares and VRDP Shares of the Acquiring Fund, which will be distributed to the common shareholders (although cash may be distributed in lieu of fractional Common Shares) and VRDP Holders, respectively, of BNJ, and (ii) BNJ will terminate its registration under the 1940 Act, and liquidate, dissolve and terminate in accordance with its Agreement and Declaration of Trust and Delaware law.

BNJ VMTP Holders are also being asked to vote as a separate class on a proposal to approve the BNJ Reorganization Agreement and the transactions contemplated therein, including the termination of BNJ's registration under the 1940 Act and the dissolution of BNJ under Delaware law (the BNJ Reorganization), through a separate Proxy Statement.

Common Shareholders of BlackRock MuniYield New Jersey Fund, Inc. (NYSE Ticker: MYJ): You and the Acquiring Fund VRDP Holders are being asked to vote as a single class on a proposal to approve the issuance of additional Common Shares of the Acquiring Fund in connection with each Reorganization Agreement (each, an Issuance and collectively, the Issuances).

Acquiring Fund VRDP Holders are also being asked to vote as a separate class on a proposal to approve each Reorganization Agreement and the transactions contemplated therein, including the issuance of additional Acquiring Fund VRDP Shares, through a separate Proxy Statement.

The transactions contemplated by each Reorganization Agreement, including an Issuance, are referred to herein as a Reorganization and collectively, the Reorganizations. The term Combined Fund refers to the Acquiring Fund as the surviving Fund after the consummation of the Reorganizations.

The BNJ Reorganization is contingent upon the completion of the VMTP Refinancing. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

A Reorganization is not contingent upon the approval of the other Reorganization. If a Reorganization is not consummated, then the Fund for which such Reorganization(s) was not consummated would continue to exist and operate on a stand-alone basis.

Q: Why has each Fund's Board recommended these proposals?

A: The Board of Trustees or Board of Directors, as applicable (each, a Board and each member thereof, a Board Member), of each Fund has determined that its Reorganization(s) is in the best interests of its Fund and that the interests of existing common shareholders and preferred shareholders of its Fund will not be diluted with respect to net asset value (NAV) and liquidation preference, respectively, as a result of the Reorganization. The Reorganizations seek to achieve certain economies of scale and other operational efficiencies by combining three Funds that have substantially similar (but not identical) investment objectives, investment policies, investment restrictions and portfolio compositions and are managed by the same investment adviser, BlackRock Advisors, LLC (the Investment Advisor), and portfolio management team.

In light of these similarities, the Reorganizations are intended to reduce fund redundancies and create a single, larger fund that may benefit from anticipated operating efficiencies and economies of scale. The Reorganizations are intended to result in the following potential benefits to common shareholders:

- (i) lower total expenses per Common Share for common shareholders of each Fund (as common shareholders of the Combined Fund following the Reorganizations) due to economies of scale resulting from the larger size of the Combined Fund;
- (ii) improved earnings yield on NAV for common shareholders of each Fund;
- (iii) improved secondary market trading of the Common Shares of the Combined Fund; and

Table of Contents

- (iv) operating and administrative efficiencies for the Combined Fund, including the potential for the following:
 - (a) greater investment flexibility and investment options;
 - (b) greater diversification of portfolio investments;
 - (c) the ability to trade in larger positions and more favorable transaction terms;
 - (d) additional sources of leverage or more competitive leverage terms and more favorable transaction terms;
 - (e) benefits from having fewer closed-end funds offering similar products in the market, including an increased focus by investors on the remaining funds in the market (including the Combined Fund) and additional research coverage; and
 - (f) benefits from having fewer similar funds in the same fund complex, including a simplified operational model and a reduction in risk of operational, legal and financial errors.

The Board of each Fund, including Board Members thereof who are not interested persons (as defined in the 1940 Act), approved its Reorganization Agreement(s) or the Issuances, as applicable, concluding that the Reorganization(s) is in the best interests of its Fund and that the interests of existing common shareholders and preferred shareholders of its Fund will not be diluted with respect to NAV and liquidation preference, respectively, as a result of the Reorganization(s). As a result of the Reorganizations, however, common and preferred shareholders of each Fund may hold a reduced percentage of ownership in the larger Combined Fund than they did in any of the individual Funds before the Reorganizations. Each Board's conclusion was based on each Board Member's business judgment after consideration of all relevant factors taken as a whole with respect to its Fund and the Fund's common and preferred shareholders, although individual Board Members may have placed different weight on various factors and assigned different degrees of materiality to various factors.

Because the shareholders of each Fund will vote separately on the Fund's respective Reorganization(s) or Issuances, as applicable, and the BNJ Reorganization is contingent upon the completion of the VMTP Refinancing, there are multiple potential combinations of Reorganizations. The Board of each Fund and the Investment Advisor believe that the most likely result of the potential combinations of Reorganizations is the combination of all of the Funds. To the extent that only one of the Reorganizations is completed, any expected expense savings by the Combined Fund, or other potential benefits resulting from the Reorganizations, may be reduced.

If a Reorganization is not consummated, then the Investment Advisor may, in connection with ongoing management of the Fund for which such Reorganization(s) was not consummated and its product line, recommend alternative proposals to the Board of that Fund.

Q: How will the Reorganizations affect the fees and expenses of the Funds?

A: For the fiscal year ended July 31, 2017, the Total Expense Ratios of the Acquiring Fund and BNJ were 1.93% and 2.21%, respectively. For the fiscal year ended August 31, 2017, the Total Expense Ratio of BLJ was 2.48%. Total Expenses means a Fund's total annual operating expenses (including interest expense). Total Expense Ratio means a Fund's Total Expenses expressed as a percentage of its average net assets attributable to its Common Shares. If any of the Reorganizations are consummated, the Investment Advisor has voluntarily agreed to waive a portion of its investment management fees equal to an annual rate of 0.01% of the average daily net assets of the Combined Fund (the Voluntary Waiver). This Voluntary Waiver may be reduced or discontinued at any time.

Table of Contents

As of July 31, 2017, the historical and *pro forma* Total Expense Ratios (including the Voluntary Waiver) applicable to the Reorganizations are as follows:

BLJ	BNJ	Acquiring Fund (MYJ)	Pro Forma Combined Fund (BLJ into MYJ)	Pro Forma Combined Fund (BNJ into MYJ)	Pro Forma Combined Fund (BLJ and BNJ into MYJ)
2.46%	2.21%	1.93%	1.91%	1.92%	1.92%

The Funds estimate that the completion of all of the Reorganizations would result in a Total Expense Ratio (including the Voluntary Waiver) for the Combined Fund of 1.92% on a historical and *pro forma* basis for the 12-month period ended July 31, 2017, representing a reduction in the Total Expense Ratio (including the Voluntary Waiver) for the common shareholders of BLJ, BNJ and the Acquiring Fund of 0.54%, 0.29% and 0.01%, respectively.

Each Fund's Total Expenses include interest expense associated with such Fund's preferred shares. For the fiscal year ended July 31, 2017, the Total Expense Ratios (excluding interest expense) of the Acquiring Fund and BNJ were 0.93% and 1.16%, respectively. For the fiscal year ended August 31, 2017, the Total Expense Ratio (excluding interest expense) of BLJ was 1.43%.

The Funds estimate that the completion of all of the Reorganizations would result in a Total Expense Ratio (excluding interest expense and including the Voluntary Waiver) for the Combined Fund of 0.90% on a historical and *pro forma* basis for the 12-month period ended July 31, 2017, representing a reduction in the Total Expense Ratio (excluding interest expense and including the Voluntary Waiver) for the common shareholders of BLJ, BNJ and the Acquiring Fund of 0.53%, 0.26% and 0.03%, respectively.

The Combined Fund will have a lower annual contractual investment management fee rate than each of BLJ and BNJ and the same annual contractual investment management fee rate as the Acquiring Fund. BLJ currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.65% of its average weekly managed assets. BNJ currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.60% of its average weekly managed assets. Average weekly managed assets are the average weekly value of the Fund's total assets minus the sum of the Fund's accrued liabilities (which does not include liabilities represented by tender option bond (TOB) leverage and the liquidation preference of BLJ's VRDP Shares or BNJ's VMTP Shares). The Acquiring Fund currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.50% of its average daily Net Assets. Average daily Net Assets are the average daily value of the Acquiring Fund's total assets minus the sum of the Acquiring Fund's accrued liabilities (which does not include liabilities represented by TOB leverage and the liquidation preference of the Acquiring Fund VRDP Shares).

If the Reorganizations are consummated, the annual contractual investment management fee rate of the Acquiring Fund will be the annual contractual investment management fee rate of the Combined Fund, which will be 0.50% of the average daily Net Assets of the Combined Fund. The annual contractual investment management fee rate of the Combined Fund represents a 15 basis point reduction in the annual contractual investment management fee rate for BLJ and a 10 basis point reduction in the annual contractual investment management fee rate for BNJ. Additionally, if any of the Reorganizations are consummated, the Investment Advisor has voluntarily agreed to waive a portion of its investment management fees equal to an annual rate of 0.01% of the average daily net assets of the Combined Fund, resulting in a contractual investment management fee rate of 0.49% of the average daily Net Assets of the Combined Fund. This voluntary waiver may be reduced or discontinued at any time.

Based on a *pro forma* Broadridge peer expense group for the Combined Fund, the estimated total annual fund expense ratio (excluding investment-related expenses and taxes) is expected to be in the second quartile and contractual investment management fee rate and actual investment management fee rate over total assets are each expected to be in the first quartile.

Table of Contents

The level of expense savings (or increases) will vary depending on the combination of the Funds in the Reorganizations, and furthermore, there can be no assurance that future expenses will not increase or that any expense savings for any Fund will be realized as a result of any Reorganization.

Q: How will the Reorganizations affect the earnings, distributions and undistributed net income of the Funds?

A: The Combined Fund's earnings yield on NAV following the Reorganizations is expected to be potentially higher than each Fund's current earnings yield on NAV. The distribution level of any fund is subject to change based upon a number of factors, including the current and projected level of the fund's earnings, and may fluctuate over time; thus, subject to a number of other factors, including the fund's distribution policy, a higher earnings profile may potentially have a positive impact on such fund's distribution level over time. The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganizations. A Fund's earnings and net investment income are variables which depend on many factors, including its asset mix, portfolio turnover level, the amount of leverage utilized by the Fund, the costs of such leverage, the performance of its investments, the movement of interest rates and general market conditions. In addition, the Combined Fund's future earnings will vary depending upon the combination of the Reorganizations. There can be no assurance that the future earnings of a Fund, including the Combined Fund after the Reorganizations, will remain constant.

If the Reorganizations are approved by shareholders, then substantially all of the undistributed net investment income, if any, of each Fund is expected to be declared to such Fund's common shareholders prior to the effective date of the Reorganizations (the Closing Date) (the Pre-Reorganization Declared UNII Distributions). The declaration date, ex-dividend date (the Ex-Dividend Date) and record date of the Pre-Reorganization Declared UNII Distributions will occur prior to the Closing Date. However, all or a significant portion of the Pre-Reorganization Declared UNII Distributions may be paid in one or more distributions to common shareholders of the Funds entitled to such Pre-Reorganization Declared UNII Distributions after the Closing Date. Former BLJ and BNJ shareholders entitled to such Pre-Reorganization Declared UNII Distributions paid after the Closing Date will receive such distributions in cash.

Persons who purchase Common Shares of any of the Funds on or after the Ex-Dividend Date for the Pre-Reorganization Declared UNII Distributions should not expect to receive any distributions from any Fund until distributions, if any, are declared by the Board of the Combined Fund and paid to shareholders entitled to any such distributions. No such distributions are expected to be paid by the Combined Fund until at least approximately one month following the Closing Date.

Additionally, the Acquiring Fund, in order to seek to provide its common shareholders with distribution rate stability, may include in its Pre-Reorganization Declared UNII Distribution amounts in excess of its undistributed net investment income and net investment income accrued through the Closing Date; any such excess amounts are not expected to constitute a return of capital. This would result in the Acquiring Fund issuing incrementally more Common Shares in the Reorganizations since its NAV as of the business day prior to the Closing Date of the Reorganizations would be lower relative to a scenario where such excess amounts were not included in the Acquiring Fund's Pre-Reorganization Declared UNII Distribution.

The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganizations. The Combined Fund is anticipated to retain a lower UNII balance after the Reorganizations than the Acquiring Fund prior to the Reorganizations. The lower anticipated UNII balance for the Combined Fund relative to the UNII balance of the Acquiring Fund poses risks for shareholders of the Combined Fund. UNII balances, in part, support the level of a fund's regular distributions and provide a cushion in the event a fund's net earnings for a particular distribution period are insufficient to support the level of its regular distribution for that period. If the Combined Fund's net earnings are below the level of its current distribution rate, the Combined Fund's UNII balance could be more likely to contribute to a

Table of Contents

determination to decrease the Combined Fund's distribution rate, or could make it more likely that the Combined Fund will make distributions consisting in part of a return of capital to maintain the level of its regular distributions. See Dividends and Distributions. Moreover, because a fund's UNII balance, in part, supports the level of a fund's regular distributions, the UNII balance of the Combined Fund could impact the trading market for the Combined Fund's Common Shares and the magnitude of the trading discount to NAV of the Combined Fund's Common Shares. However, the Combined Fund is anticipated to benefit from a lower expense ratio (compared to BNJ and BLJ), a potentially higher earnings profile and other anticipated benefits of economies of scale as discussed herein. Each Fund, including the Combined Fund, reserves the right to change its distribution policy with respect to common share distributions and the basis for establishing the rate of its distributions for the Common Shares at any time and may do so without prior notice to common shareholders. The payment of any distributions by any Fund, including the Combined Fund, is subject to, and will only be made when, as, and if, declared by the Board of such Fund. There is no assurance the Board of any Fund, including the Combined Fund, will declare any distributions for such Fund.

To the extent any Pre-Reorganization Declared UNII Distribution is not an exempt interest dividend (as defined in the Internal Revenue Code of 1986, as amended (the Code)), the distribution may be taxable to shareholders for U.S. federal income tax purposes.

Q: Have Common Shares of each Fund historically traded at a premium or discount?

A: The Common Shares of each Fund have historically traded at both a premium and a discount. The table below sets forth the market price, NAV, and the premium/discount to NAV of each Fund as of November 30, 2017.

Fund	Market Price	NAV	Premium/(Discount) to NAV
BLJ	\$ 14.48	\$ 15.66	(7.54)%
BNJ	\$ 15.51	\$ 15.42	0.58%
Acquiring Fund (MYJ)	\$ 15.59	\$ 15.86	(1.70)%

To the extent BLJ's or BNJ's Common Shares are trading at a wider discount (or a narrower premium) than the Acquiring Fund at the time of its Reorganization, BLJ's or BNJ's common shareholders would have the potential for an economic benefit by the narrowing of the discount or widening of the premium. To the extent BLJ's or BNJ's Common Shares are trading at a narrower discount (or wider premium) than the Acquiring Fund at the time of its Reorganization, BLJ's or BNJ's common shareholders may be negatively impacted if its Reorganization is consummated. Acquiring Fund common shareholders would only benefit from a premium/discount perspective to the extent the post-Reorganization discount (or premium) of the Acquiring Fund Common Shares improves.

There can be no assurance that, after the Reorganizations, Common Shares of the Combined Fund will trade at a narrower discount to NAV or wider premium to NAV than the Common Shares of any individual Fund prior to the Reorganizations. Upon consummation of the Reorganizations, the Combined Fund Common Shares may trade at a price that is less than the current market price of Acquiring Fund Common Shares. In the Reorganizations, common shareholders of BLJ and BNJ will receive Acquiring Fund Common Shares based on the relative NAVs (not the market values) of the respective Fund's Common Shares. The market value of the Common Shares of the Combined Fund may be less than the market value of the Common Shares of each respective Fund prior to the Reorganizations.

Q: How will holders of Preferred Shares be affected by the Reorganizations?

A: As of the date of the enclosed Joint Proxy Statement/Prospectus, BLJ and the Acquiring Fund each have VRDP Shares outstanding and BNJ has VMTP Shares outstanding. As of November 30, 2017, BLJ had 187 Series W-7 VRDP Shares outstanding, BNJ had 591 Series W-7 VMTP Shares outstanding, and the Acquiring Fund had 1,022 Series W-7 VRDP Shares outstanding. Prior to the Reorganizations, it is expected that all of the VMTP Shares of BNJ will be refinanced into BNJ VRDP Shares with terms

Table of Contents

substantially identical to those of the Acquiring Fund's VRDP Shares pursuant to the VMTP Refinancing. In connection with the Reorganizations, and assuming that the VMTP Refinancing is completed prior to the Closing Date of the BNJ Reorganization, the Acquiring Fund expects to issue 187 additional VRDP Shares to BLJ VRDP Holders and 591 additional VRDP Shares to BNJ VRDP Holders. Following the completion of the Reorganizations, the Combined Fund is expected to have 1,800 VRDP Shares outstanding. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

Assuming all of the Reorganizations are approved by shareholders and the VMTP Refinancing is completed prior to the Closing Date of the BNJ Reorganization, upon the Closing Date of the Reorganizations, BLJ and BNJ VRDP Holders will receive on a one-for-one basis one newly issued Acquiring Fund VRDP Share, par value \$0.10 per share and with a liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on the BLJ or BNJ VRDP Shares up to and including the day immediately preceding the Closing Date of the Reorganizations if such dividends have not been paid prior to the Closing Date), in exchange for each BLJ or BNJ VRDP Share held by the BLJ or BNJ VRDP Holders immediately prior to the Closing Date. The newly issued Acquiring Fund VRDP Shares may be of the same series as the Acquiring Fund's Series W-7 VRDP Shares or a substantially identical series. No fractional Acquiring Fund VRDP Shares will be issued. The terms of the Acquiring Fund VRDP Shares to be issued in connection with the Reorganizations will be substantially identical to the terms of the Acquiring Fund's outstanding VRDP Shares and will rank on a parity with the Acquiring Fund's outstanding VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The newly issued Acquiring Fund VRDP Shares will be subject to the same special rate period (including the terms thereof) applicable to the outstanding Acquiring Fund VRDP Shares as of the Closing Date of the Reorganization. Such special rate period will terminate on June 20, 2018, unless extended. The Reorganizations will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

The newly issued Acquiring Fund VRDP Shares will have terms that are substantially identical to the terms of the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the outstanding BLJ VRDP Shares, except that the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041. BLJ VRDP Shares have a mandatory redemption date of July 1, 2042. The VRDP Shares of the Acquiring Fund and BLJ are currently in a one year special rate period that will end on June 20, 2018, unless extended (the Special Rate Period). The terms applicable to the VRDP Shares of the Acquiring Fund and BLJ during the Special Rate Period are substantially identical. The BNJ VRDP Shares to be issued in connection with the VMTP Refinancing will also be subject to a special rate period and the terms of BNJ's VRDP Shares during such special rate period will be substantially identical to the terms of the Special Rate Period for the outstanding Acquiring Fund and BLJ VRDP Shares. The terms of the special rate period applicable to the newly issued Acquiring Fund VRDP Shares will be substantially identical to the terms of the special rate period applicable to the Funds' VRDP Shares as of the Closing Date of the Reorganization.

None of the expenses of the Reorganizations are expected to be borne by the VRDP Holders of the Funds.

Following the Reorganizations, the VRDP Holders of each Fund will be VRDP Holders of the larger Combined Fund that will have a larger asset base and more VRDP Shares outstanding than any Fund individually before the Reorganizations. With respect to matters requiring all preferred shareholders to vote separately or common and preferred shareholders to vote together as a single class, following the Reorganizations, holders of VRDP Shares of the Combined Fund may hold a smaller percentage of the outstanding preferred shares of the Combined Fund as compared to their percentage holdings of outstanding preferred shares of their respective Fund prior to the Reorganizations.

Q: How similar are the Funds?

A: The Funds have the same investment adviser, portfolio managers, officers and trustees. BLJ and BNJ are each organized as a Delaware statutory trust and the Acquiring Fund is organized as a Maryland

Table of Contents

corporation. Because the Acquiring Fund is organized as a Maryland corporation, shareholders of BLJ and BNJ will become shareholders of a Maryland corporation rather than shareholders of a Delaware statutory trust if the Reorganizations are completed. A more detailed description of the differences between Delaware statutory trust law and Maryland corporate law is contained in the Joint Proxy Statement/Prospectus under the heading *Governing Law*.

Each of the Acquiring Fund and BNJ has its Common Shares listed on the NYSE and BLJ has its Common Shares listed on the NYSE American. The Acquiring Fund and BLJ each has privately placed VRDP Shares outstanding. BNJ has privately placed VMTP Shares outstanding. Each Fund is managed by a team of investment professionals lead by Phillip Soccio and Theodore R. Jaeckel, Jr.

The investment objective, significant investment strategies and operating policies, and investment restrictions of the Combined Fund will be those of the Acquiring Fund, which are substantially similar (but not identical) as those of BLJ and BNJ.

Investment Objective: The investment objective of each of BLJ and BNJ is to provide current income exempt from regular federal income tax and New Jersey gross income tax. The investment objective of the Acquiring Fund is to provide shareholders with as high a level of current income exempt from federal income taxes and New Jersey personal income tax as is consistent with its investment policies and prudent investment management.

New Jersey Municipal Bonds: Below is a comparison of each Fund's policies with respect to municipal bonds, the interest of which is exempt from federal income tax and New Jersey gross income tax.

BLJ	BNJ	The Acquiring Fund (MYJ)
<p>As a fundamental policy, under normal market conditions, the Fund will invest at least 80% of its Managed Assets in municipal bonds, the interest of which is exempt from regular federal income tax and New Jersey gross income tax. Managed Assets means the total assets of the Fund (including any assets attributable to any preferred shares that may be outstanding) minus the sum of accrued liabilities (other than debt representing financial leverage).</p>	<p>As a matter of fundamental policy, under normal market conditions, the Fund will invest at least 80% of its managed assets in investments the income from which is exempt from federal income tax and New Jersey gross income taxes (except that interest may be subject to the alternative minimum tax). For the purposes of the foregoing policy managed assets are the Fund's net assets plus borrowings for investment purposes.</p>	<p>The Fund seeks to achieve its investment objective by investing, as a fundamental policy, at least 80% of an aggregate of the Fund's net assets (including proceeds from the issuance of any preferred stock) and the proceeds of any borrowings for investment purposes, in a portfolio of municipal obligations issued by or on behalf of the State of New Jersey, its political subdivisions, agencies and instrumentalities and by other qualifying issuers, each of which pays interest that, in the opinion of bond counsel to the issuer, is excludable from gross income for federal income tax purposes (except that the interest may be includable in taxable income for purposes of the federal alternative minimum tax) and exempt from New Jersey personal income tax.</p>

Table of Contents

Investment Grade Securities: Below is a comparison of each Fund’s policy with respect to investment grade securities.

BLJ	BNJ	The Acquiring Fund (MYJ)
The Fund will invest at least 80% of its Managed Assets in municipal bonds that at the time of investment are investment grade quality. The Fund may invest up to 20% of its Managed Assets in municipal bonds that at the time of investment are rated Ba/BB or B by Moody’s, S&P or Fitch or bonds that are unrated but judged to be of comparable quality by the Fund’s investment advisor and/or sub-advisor.	Same as BLJ	Under normal market conditions, the Fund expects to invest primarily in a portfolio of long term Municipal Bonds that are commonly referred to as investment grade securities.

Bond Maturity: Below is a comparison of each Fund’s policy with respect to bond maturity.

BLJ	BNJ	The Acquiring Fund (MYJ)
The average maturity of the Fund’s portfolio securities varies from time to time based upon an assessment of economic and market conditions by the Investment Advisor. The Fund’s portfolio at any given time may include both long-term and intermediate-term municipal bonds.	Same as BLJ	Same as BLJ

Leverage: Each Fund utilizes leverage through the issuance of either VRDP Shares or VMTP Shares and tender option bonds. See The Acquiring Fund’s Investments Leverage; General Risks of Investing in the Acquiring Fund Leverage Risk; and General Risks of Investing in the Acquiring Fund Tender Option Bond Risk. Each of BLJ and the Acquiring Fund currently leverages its assets through the use of VRDP Shares and tender option bonds. BNJ currently leverages its assets through the use of VMTP Shares and tender option bonds. The Acquiring Fund is expected to continue to leverage its assets through the use of VRDP Shares and tender option bonds after the Closing Date of the Reorganizations. Common shareholders of BNJ and BLJ will be subject to the terms and costs of the Acquiring Fund VRDP Shares after the consummation of the Reorganizations. Please see Information about the Preferred Shares of the Funds in the Joint Proxy Statement/Prospectus for additional information about the preferred shares of each Fund.

The annualized dividend rates for the preferred shares for each Fund’s most recent fiscal year end were as follows:

Fund	Preferred Shares	Rate
BLJ	VRDP Shares	1.64%
BNJ	VMTP Shares	1.63%
Acquiring Fund (MYJ)	VRDP Shares	1.61%

Please see below a comparison of certain important ratios related to (i) each Fund’s use of leverage as of November 30, 2017, (ii) the Combined Fund’s estimated use of leverage, assuming only the Reorganization of BLJ into the Acquiring Fund had taken place as of November 30, 2017, (iii) the Combined Fund’s estimated use of leverage, assuming only the Reorganization of BNJ into the Acquiring Fund had taken

Table of Contents

place as of November 30, 2017, and (iv) the Combined Fund's estimated use of leverage, assuming the Reorganizations of all the Funds had taken place as of November 30, 2017, which represents the most likely combination of the Reorganizations:

Ratios	BLJ	BNJ	Acquiring Fund (MYJ)	Pro Forma Combined Fund (BLJ into MYJ)	Pro Forma Combined Fund (BNJ into MYJ)	Pro Forma Combined Fund (BLJ and BNJ into MYJ)
Asset Coverage Ratio	295%	300%	323%	319%	315%	313%
Regulatory Leverage Ratio ⁽¹⁾	33.90%	33.31%	30.92%	31.35%	31.75%	31.96%
Effective Leverage Ratio ⁽²⁾	40.50%	40.47%	39.54%	34.94%	34.50%	39.92%

- (1) Regulatory leverage consists of preferred shares issued by the Fund, which is a part of the Fund's capital structure. Regulatory leverage is sometimes referred to as 1940 Act Leverage and is subject to asset coverage limits set forth in the 1940 Act.
- (2) Effective leverage is a Fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative investments in the Fund's portfolio. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings, in addition to any regulatory leverage, are included in effective leverage ratios.

Q: How will the Reorganizations be effected?

A: Assuming each Reorganization receives the requisite shareholder approvals, as well as certain consents, confirmations and/or waivers from various third parties, including the liquidity provider with respect to the outstanding VRDP Shares, and assuming the VMTP Refinancing is completed prior to the Closing Date of the BNJ Reorganization, the Acquiring Fund will acquire substantially all of BLJ's and BNJ's assets and assume substantially all of BLJ's and BNJ's liabilities in exchange solely for newly issued Common Shares and VRDP Shares of the Acquiring Fund, which will be distributed to the shareholders of BLJ and BNJ (although cash may be distributed in lieu of fractional Common Shares). BLJ and BNJ will then terminate their registration under the 1940 Act and liquidate, dissolve and terminate in accordance with their respective Agreement and Declaration of Trust and Delaware law. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

Shareholders of BLJ and BNJ will become shareholders of the Acquiring Fund. Common shareholders of BLJ and BNJ will receive newly issued Common Shares of the Acquiring Fund, par value \$0.10 per share, the aggregate NAV (not the market value) of which will equal the aggregate NAV (not the market value) of the Common Shares of BLJ and BNJ such shareholders held immediately prior to the Closing Date (although common shareholders of BLJ and BNJ may receive cash for fractional Common Shares). The NAV of BLJ and BNJ and the Acquiring Fund immediately prior to the Closing Date will be reduced by the costs of the Reorganizations borne by each Fund, if any. The NAV of BLJ and BNJ Common Shares will not be diluted as a result of the Reorganizations. The common shareholders of each Fund have substantially similar voting rights and rights with respect to the payment of dividends and distribution of assets upon liquidation of their respective Fund and have no preemptive, conversion or exchange rights.

On the Closing Date of the Reorganizations, BLJ and BNJ VRDP Holders will receive on a one-for-one basis one newly issued Acquiring Fund VRDP Share, par value \$0.10 per share and with a liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on the BLJ or BNJ VRDP Shares up to and including the day immediately preceding the Closing Date of the Reorganizations if such dividends have not been paid prior to the Closing Date), in exchange for each BLJ or BNJ VRDP Share held by the BLJ or BNJ VRDP Holders immediately prior to the Closing Date. The newly issued Acquiring Fund VRDP Shares may be of the same series as the Acquiring Fund's Series W-7 VRDP Shares or a substantially identical series. No fractional Acquiring Fund VRDP Shares will be issued.

Table of Contents

The terms of the Acquiring Fund VRDP Shares to be issued in connection with the Reorganizations will be substantially identical to the terms of the Acquiring Fund's outstanding VRDP Shares and will rank on a parity with the Acquiring Fund's outstanding VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund.

The newly issued Acquiring Fund VRDP Shares will be subject to the same special rate period (including the terms thereof) applicable to the outstanding Acquiring Fund VRDP Shares as of the Closing Date of the Reorganization. Such special rate period will terminate on June 20, 2018, unless extended. The Reorganizations will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

The newly issued Acquiring Fund VRDP Shares will have terms that are substantially identical to the terms of the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the outstanding BLJ VRDP Shares, except that the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041. BLJ VRDP Shares have a mandatory redemption date of July 1, 2042. The VRDP Shares of the Acquiring Fund and BLJ are currently in a one year special rate period that will end on June 20, 2018, unless extended. The terms applicable to the VRDP Shares of the Acquiring Fund and BLJ during the Special Rate Period are substantially identical. The BNJ VRDP Shares to be issued in connection with the VMTP Refinancing will also be subject to a special rate period and the terms of BNJ's VRDP Shares during such special rate period will be substantially identical to the terms of the Special Rate Period for the outstanding Acquiring Fund and BLJ VRDP Shares. The terms of the special rate period applicable to the newly issued Acquiring Fund VRDP Shares will be substantially identical to the terms of the special rate period applicable to the Funds' VRDP Shares as of the Closing Date of the Reorganization.

Shareholders of the Acquiring Fund will remain shareholders of the Acquiring Fund, which will have additional Common Shares and VRDP Shares outstanding after the Reorganizations.

Q: Will I have to pay any U.S. federal income taxes as a result of the Reorganizations?

A: Each Reorganization is intended to qualify as a reorganization within the meaning of Section 368(a) of the Code. If a Reorganization so qualifies, in general, common shareholders of BLJ and BNJ will recognize no gain or loss for U.S. federal income tax purposes upon the exchange of their BLJ and BNJ Shares for Acquiring Fund Shares pursuant to their Reorganization (except with respect to cash received in lieu of fractional Common Shares). Additionally, each of BLJ and BNJ will recognize no gain or loss for U.S. federal income tax purposes by reason of its Reorganization. Neither the Acquiring Fund nor its shareholders will recognize any gain or loss for U.S. federal income tax purposes pursuant to the Reorganizations.

Shareholders of each Fund may receive distributions prior to, or after, the consummation of the Reorganizations, including distributions attributable to their proportionate share of each Fund's undistributed net investment income declared prior to the consummation of the Reorganizations or the Combined Fund built-in gains, if any, recognized after the Reorganizations, when such income and gains are eventually distributed by the Combined Fund. To the extent that such a distribution is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. federal income tax purposes.

The Funds' shareholders should consult their own tax advisers regarding the U.S. federal income tax consequences of the Reorganizations, as well as the effects of state, local and non-U.S. tax laws, including possible changes in tax laws.

Q: Will I have to pay any sales load, commission or other similar fees in connection with the Reorganizations?

A: You will pay no sales loads or commissions in connection with the Reorganizations. Regardless of whether the Reorganizations are completed, however, the costs associated with the Reorganizations, including the

Table of Contents

costs associated with the Special Meeting, will be borne directly by each of the respective Funds incurring the expense or will otherwise be allocated among the Funds proportionately or on another reasonable basis as discussed more fully in the Joint Proxy Statement/Prospectus. Common shareholders of BLJ and BNJ will indirectly bear the costs of the Reorganizations. The expenses of the Reorganizations are estimated to be \$223,000 for BLJ and \$263,000 for BNJ. Additionally for BNJ, the costs of the VMTP Refinancing are estimated to be \$215,000. These costs will be amortized over the life of the VRDP Shares by the Combined Fund. Because of the expected expense savings and other anticipated benefits for each of BLJ and BNJ, the Investment Advisor recommended and the Board of BLJ and BNJ has approved that its respective Fund be responsible for its own reorganization expenses. The Investment Advisor will bear all of the Acquiring Fund's reorganization expenses, which are expected to be approximately \$290,000. The actual costs associated with the Reorganizations may be more or less than the estimated costs discussed herein.

VRDP Holders are not expected to bear any costs of the Reorganizations.

Neither the Funds nor the Investment Advisor will pay any expenses of shareholders arising out of or in connection with the Reorganizations (*e.g.*, expenses incurred by the shareholder as a result of attending the Special Meeting, voting on the Reorganizations or other action taken by the shareholder in connection with the Reorganizations).

Q: What shareholder approvals are required to complete the Reorganizations?

A: The BLJ Reorganization is contingent upon the following approvals:

1. The approval of the BLJ Reorganization Agreement and the transactions contemplated therein, including the termination of BLJ's registration under the 1940 Act and the dissolution of BLJ under Delaware law, by BLJ's common shareholders and VRDP Holders voting as a single class;
2. The approval of the BLJ Reorganization Agreement and the transactions contemplated therein, including the termination of the BLJ's registration under the 1940 Act and the dissolution of BLJ under Delaware law, by BLJ VRDP Holders voting as a separate class;
3. The approval of the BLJ Reorganization Agreement and the transactions contemplated therein, including the issuance of additional Acquiring Fund VRDP Shares, by Acquiring Fund VRDP Holders voting as a separate class; and
4. The approval of the Issuance with respect to the BLJ Reorganization by the Acquiring Fund's common shareholders and Acquiring Fund VRDP Holders voting as a single class.

The BNJ Reorganization is contingent upon the following approvals or actions:

1. The approval of the BNJ Reorganization Agreement and the transactions contemplated therein, including the termination of BNJ's registration under the 1940 Act and the dissolution of BNJ under Delaware law, by BNJ's common shareholders and VMTP Holders voting as a single class;
2. The approval of the BNJ Reorganization Agreement and the transactions contemplated therein, including the termination of BNJ's registration under the 1940 Act and the dissolution of BNJ under Delaware law, by BNJ VMTP Holders voting as a separate class;
- 3.

Edgar Filing: BLACKROCK MUNIYIELD NEW JERSEY FUND, INC. - Form N-14 8C

The approval of the BNJ Reorganization Agreement and the transactions contemplated therein, including the issuance of additional Acquiring Fund VRDP Shares, by Acquiring Fund VRDP Holders voting as a separate class; and

4. The approval of the Issuance with respect to the BNJ Reorganization by the Acquiring Fund's common shareholders and Acquiring Fund VRDP Holders voting as a single class.

5. The completion of the VMTP Refinancing.

Table of Contents

The BNJ Reorganization is contingent upon the completion of the VMTP Refinancing. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

A Reorganization is not contingent upon the approval of the other Reorganization. If a Reorganization is not consummated, then the Fund for which such Reorganization(s) was not consummated would continue to exist and operate on a stand-alone basis.

If the requisite shareholder approvals for a Reorganization is not obtained, the Board of the Fund for which such Reorganization(s) were not consummated may take such actions as it deems in the best interests of the Fund, including conducting additional solicitations with respect to the Reorganization(s) or continuing to operate the Fund as a stand-alone Delaware statutory trust (or, with respect to the Acquiring Fund, a Maryland corporation) registered under the 1940 Act as a non-diversified closed-end management investment company advised by the Investment Advisor. The Investment Advisor may, in connection with the ongoing management of the Fund and its product line, recommend alternative proposals to the Board of the Fund.

In order for the Reorganizations to occur, each Fund must obtain all requisite shareholder approvals with respect to the Reorganizations, as well as certain consents, confirmations and/or waivers from various third parties, including the liquidity provider with respect to the outstanding VRDP Shares. Because the closing of each Reorganization is contingent upon the applicable Fund and the Acquiring Fund obtaining the requisite shareholder approvals and third party consents and satisfying (or obtaining the waiver of) other closing conditions, it is possible that a Reorganization will not occur, or that only one of BLJ or BNJ will be reorganized into the Acquiring Fund, even if shareholders of a Fund entitled to vote on the Reorganization approve the Reorganization and such Fund satisfies all of its closing conditions, if the other Fund does not obtain its requisite shareholder approvals or satisfy its closing conditions.

The preferred shares were issued on a private placement basis to one or a small number of institutional holders. Please see Information about the Preferred Shares of the Funds for additional information. To the extent that one or more preferred shareholder of BLJ, BNJ or the Acquiring Fund owns, holds or controls, individually or in the aggregate, all or a significant portion of such Fund's outstanding preferred shares, the preferred shareholder approval required for a Reorganization may turn on the exercise of voting rights by such particular preferred shareholder(s) and its (or their) determination as to the favorability of the Reorganization with respect to its (or their) interests. The Funds exercise no influence or control over the determinations of such preferred shareholder(s) with respect to the Reorganization; there is no guarantee that such preferred shareholder(s) will approve the Reorganization, over which it (or they) may exercise effective disposition power.

Q: Why is the vote of shareholders of the Acquiring Fund being solicited in connection with the Reorganizations?

A: The rules of the New York Stock Exchange (on which the Acquiring Fund Common Shares are listed) require the Acquiring Fund's shareholders to approve each Issuance with respect to a Reorganization. If the Issuance with respect to a Reorganization is not approved, then the corresponding Reorganization will not occur.

We are also seeking the approval of each Reorganization Agreement and the transactions contemplated therein, including the issuance of additional Acquiring Fund VRDP Shares, by the Acquiring Fund VRDP Holders voting as a separate class pursuant to the governing document of the Acquiring Fund VRDP Shares. If Acquiring Fund VRDP Holders do not approve a Reorganization Agreement as a separate class, then the corresponding Reorganization will not occur.

Table of Contents

Q: How does the Board of my Fund suggest that I vote?

A: After careful consideration, the Board of your Fund unanimously recommends that you vote **FOR** the proposal(s) relating to your Fund.

Q: How do I vote my proxy?

A: Shareholders of record of each Fund as of the close of business on January 29, 2018 are entitled to notice of and to vote at the Special Meeting or any adjournment or postponement thereof. You may cast your vote by mail, phone, internet or in person at the Special Meeting. To vote by mail, please mark your vote on the enclosed proxy card and sign, date and return the card in the postage-paid envelope provided.

If you choose to vote by phone or internet, please refer to the instructions found on the proxy card accompanying the Joint Proxy Statement/Prospectus. To vote by phone or internet, you will need the control number that appears on the proxy card.

If you plan to attend the Special Meeting in person, in order to gain admission you must show valid photographic identification, such as your driver's license or passport. If you hold your Shares of a Fund through a bank, broker or other nominee, and plan to attend the Special Meeting in person, in order to gain admission you must show valid photographic identification, such as your driver's license or passport, and satisfactory proof of ownership of Shares in a Fund, such as your voting instruction form (or a copy thereof) or a letter from your bank, broker or other nominee or broker's statement indicating ownership as of January 29, 2018. If you hold your Shares of a Fund in a brokerage account or through a bank or other nominee, you will not be able to vote in person at the Special Meeting unless you have previously requested and obtained a legal proxy from your broker, bank or other nominee and present it at the Special Meeting. Even if you plan to attend the Special Meeting, please promptly follow the enclosed instructions to submit voting instructions by telephone or via the Internet. Alternatively, you may submit voting instructions by signing and dating each proxy card you receive, and if received by mail, returning it in the accompanying postage-paid return envelope.

Q: Whom do I contact for further information?

A: You may contact your financial advisor for further information. You may also call Georgeson, LLC, the Funds' proxy solicitor, at [].

NOTICE OF JOINT SPECIAL MEETING OF SHAREHOLDERS

TO BE HELD ON MARCH 28, 2018

Notice is hereby given that a joint special meeting of shareholders (the *Special Meeting*) of BlackRock New Jersey Municipal Bond Trust (NYSE American Ticker: BLJ) (*BLJ*), BlackRock New Jersey Municipal Income Trust (NYSE Ticker: BNJ) (*BNJ*) and BlackRock MuniYield New Jersey Fund, Inc. (NYSE Ticker: MYJ) (*MYJ* or the *Acquiring Fund*, and together with BLJ and BNJ, the *Funds*, and each, a *Fund*) will be held at the offices of BlackRock Advisors, LLC, 1 University Square Drive, Princeton, New Jersey 08540-6455, on March 28, 2018 at [] (Eastern time) for the following purposes:

Proposal 1: The Reorganizations of the Funds

For Shareholders of BLJ:

Proposal 1(A): The holders of common shares of beneficial interest or shares of common stock, as applicable (*Common Shares*) and holders of Variable Rate Demand Preferred Shares (*VRDP Shares*) of BLJ are being asked to vote as a single class on a proposal to approve an Agreement and Plan of Reorganization between BLJ and the Acquiring Fund (the *BLJ Reorganization Agreement*), pursuant to which (i) the Acquiring Fund will acquire substantially all of BLJ's assets and assume substantially all of BLJ's liabilities in exchange solely for newly issued Common Shares and VRDP Shares of the Acquiring Fund, which will be distributed to the common shareholders (although cash may be distributed in lieu of fractional Common Shares) and holders of VRDP Shares (*VRDP Holders*), respectively, of BLJ, and (ii) BLJ will terminate its registration under the Investment Company Act of 1940, as amended (the *1940 Act*), and liquidate, dissolve and terminate in accordance with its Agreement and Declaration of Trust and Delaware law.

Proposal 1(B): The VRDP Holders of BLJ are being asked to vote as a separate class on a proposal to approve the BLJ Reorganization Agreement and the transactions contemplated therein, including the termination of BLJ's registration under the 1940 Act and the dissolution of BLJ under Delaware law.

For Shareholders of BNJ:

Proposal 1(C): The holders of Common Shares and holders of Variable Rate Muni Term Preferred Shares (*VMTP Shares*) of BNJ are being asked to vote as a single class on a proposal to approve an Agreement and Plan of Reorganization between BNJ and the Acquiring Fund (the *BNJ Reorganization Agreement*). If the BNJ Reorganization Agreement is approved, prior to the effective date of the BNJ Reorganization (defined herein), it is expected that BNJ will issue VRDP Shares with terms substantially identical to the terms of the outstanding Acquiring Fund's VRDP Shares and use the proceeds from such issuance to redeem all of BNJ's outstanding VMTP Shares (the *VMTP Refinancing*). If the VMTP Refinancing is not completed prior to the effective date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated. If the VMTP Refinancing is completed prior to the effective date of the BNJ Reorganization, pursuant to the BNJ Reorganization Agreement (i) the Acquiring Fund will acquire substantially all of BNJ's assets and assume substantially all of BNJ's liabilities in exchange solely for newly issued Common Shares and VRDP Shares of the Acquiring Fund, which will be distributed to the common shareholders (although cash may be distributed in lieu of fractional Common Shares) and VRDP Holders, respectively, of BNJ, and (ii) BNJ will terminate its registration under the 1940 Act, and liquidate, dissolve and terminate in accordance with its Agreement and Declaration of Trust and Delaware law.

Table of Contents

Proposal 1(D): The holders of BNJ's VMTP Shares are being asked to vote as a separate class on a proposal to approve the BNJ Reorganization Agreement and the transactions contemplated therein, including the termination of BNJ's registration under the 1940 Act and the dissolution of BNJ under Delaware law (the BNJ Reorganization).

For Shareholders of the Acquiring Fund:

Proposal 1(E): The VRDP Holders of the Acquiring Fund are being asked to vote as a separate class on a proposal to approve the BLJ Reorganization Agreement and the transactions contemplated therein, including the issuance of additional Acquiring Fund VRDP Shares.

Proposal 1(F): The VRDP Holders of the Acquiring Fund are being asked to vote as a separate class on a proposal to approve the BNJ Reorganization Agreement and the transactions contemplated therein, including the issuance of additional Acquiring Fund VRDP Shares.

Proposal 2: The Issuance of Additional Acquiring Fund Common Shares

Proposal 2(a): The common shareholders and VRDP Holders of the Acquiring Fund are being asked to vote as a single class on a proposal to approve the issuance of additional Common Shares of the Acquiring Fund in connection with the BLJ Reorganization Agreement.

Proposal 2(b): The common shareholders and VRDP Holders of the Acquiring Fund are being asked to vote as a single class on a proposal to approve the issuance of additional Common Shares of the Acquiring Fund in connection with the BNJ Reorganization Agreement.

The BNJ Reorganization is contingent upon the completion of the VMTP Refinancing. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

A Reorganization is not contingent upon the approval of the other Reorganization. If a Reorganization is not consummated, then the Fund for which such Reorganization(s) was not consummated would continue to exist and operate on a stand-alone basis.

Shareholders of record of each Fund as of the close of business on January 29, 2018 are entitled to notice of and to vote at the Special Meeting or any adjournment or postponement thereof.

The Funds are soliciting the vote of their common shareholders on Proposal 1(A), Proposal 1(C) and Proposal 2 through a Joint Proxy Statement/Prospectus.

Each Fund is separately soliciting the votes of its respective preferred shareholders on Proposal 1 and Proposal 2 through a separate Proxy Statement and not through the Joint Proxy Statement/Prospectus.

The officers, directors or trustees of each Fund named as proxies by shareholders may participate in the Special Meeting by remote communications, including, without limitation, by means of a conference telephone or similar communications equipment by means of which all persons participating in the Special Meeting can hear and be heard by each other, and the participation of such officers, directors or trustees in the Special Meeting pursuant to any such communications system shall constitute presence in person at the Special Meeting.

THE BOARD OF TRUSTEES OR DIRECTORS, AS APPLICABLE, (EACH, A BOARD) OF EACH OF THE FUNDS RECOMMENDS THAT YOU VOTE YOUR SHARES BY INDICATING YOUR VOTING INSTRUCTIONS ON THE ENCLOSED PROXY CARD, DATING AND SIGNING SUCH PROXY CARD AND RETURNING IT IN THE ENVELOPE PROVIDED, WHICH IS ADDRESSED FOR YOUR CONVENIENCE AND NEEDS NO POSTAGE IF MAILED IN THE UNITED STATES, OR BY RECORDING YOUR VOTING INSTRUCTIONS BY TELEPHONE OR VIA THE INTERNET.

(800) 882-0052

This Joint Proxy Statement/Prospectus is furnished to you as a common shareholder of BlackRock New Jersey Municipal Bond Trust (NYSE American Ticker: BLJ) (BLJ), BlackRock New Jersey Municipal Income Trust (NYSE Ticker: BNJ)(BNJ) and/or BlackRock MuniYield New Jersey Fund, Inc. (NYSE Ticker: MYJ) (MYJ or the Acquiring Fund and together with BLJ and BNJ, the Funds, each, a Fund) in connection with the solicitation of proxies by each Fund's Board of Directors or Board of Trustees, as applicable (the Board, the members of which are referred to as Board Members). The proxies will be voted at the joint special meeting of the shareholders of each Fund and at any and all adjournments, postponements and delays thereof (the Special Meeting). The Special Meeting will be held at the offices of BlackRock Advisors, LLC (the Investment Advisor), 1 University Square Drive, Princeton, New Jersey 08540-6455, on March 28, 2018 at [] (Eastern time) to consider the proposals set forth below and discussed in greater detail elsewhere in this Joint Proxy Statement/Prospectus. If you are unable to attend the Special Meeting or any adjournment or postponement thereof, the Board of Trustees or Board of Directors, as applicable, of your Fund (the Board) recommends that you vote your common shares of beneficial interest or shares of common stock, as applicable (Common Shares), by completing and returning the enclosed proxy card or by recording your voting instructions by telephone or via the internet. The approximate mailing date of this Joint Proxy Statement/Prospectus and accompanying form of proxy is February 9, 2018. It is expected that the effective date (the Closing Date) of the Reorganizations will be sometime during the second quarter of 2018, but it may be at a different time as described herein.

The purposes of the Special Meeting are:

Proposal 1: The Reorganizations of the Funds

For Shareholders of BLJ:

Proposal 1(A): The common shareholders and holders of Variable Rate Demand Preferred Shares (VRDP Shares) of BLJ are being asked to vote as a single class on a proposal to approve an Agreement and Plan of Reorganization between BLJ and the Acquiring Fund (the BLJ Reorganization Agreement), pursuant to which (i) the Acquiring Fund will acquire substantially all of BLJ's assets and assume substantially all of BLJ's liabilities in exchange solely for newly issued Common Shares and VRDP Shares of the Acquiring Fund, which will be distributed to BLJ's common shareholders (although cash may be distributed in lieu of fractional Common Shares) and holders of VRDP Shares (VRDP Holders), respectively, and (ii) BLJ will terminate its registration under the Investment Company Act of 1940, as amended (the 1940 Act), and liquidate, dissolve and terminate in accordance with its Agreement and Declaration of Trust and Delaware law.

Table of Contents

Proposal 1(B): The VRDP Holders of BLJ are being asked to vote as a separate class on a proposal to approve the BLJ Reorganization Agreement and the transactions contemplated therein, including the termination of BLJ's registration under the 1940 Act and the dissolution of BLJ under Delaware law (the BLJ Reorganization).

For Shareholders of BNJ:

Proposal 1(C): The holders of Common Shares and holders of Variable Rate Muni Term Preferred Shares (VMTP Shares) of BNJ are being asked to vote as a single class on a proposal to approve an Agreement and Plan of Reorganization between BNJ and the Acquiring Fund (the BNJ Reorganization Agreement). If the BNJ Reorganization Agreement is approved, prior to the BNJ Reorganization, it is expected that all of the VMTP Shares of BNJ will be refinanced into BNJ VRDP Shares with terms substantially identical to those of the Acquiring Fund's VRDP Shares. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated. If the VMTP Refinancing is completed prior to the Closing Date of the BNJ Reorganization, pursuant to the BNJ Reorganization Agreement (i) the Acquiring Fund will acquire substantially all of BNJ's assets and assume substantially all of BNJ's liabilities in exchange solely for newly issued Common Shares and VRDP Shares of the Acquiring Fund, which will be distributed to the common shareholders and VRDP Holders, respectively, of BNJ (although cash may be distributed in lieu of fractional Common Shares), and (ii) BNJ will terminate its registration under the 1940 Act, and liquidate, dissolve and terminate in accordance with its Agreement and Declaration of Trust and Delaware law.

Proposal 1(D): The holders of BNJ's VMTP Shares (VMTP Holders) are being asked to vote as a separate class on a proposal to approve the BNJ Reorganization Agreement and the transactions contemplated therein, including the termination of BNJ's registration under the 1940 Act and the dissolution of BNJ under Delaware law (the BNJ Reorganization).

The BNJ Reorganization is contingent upon the completion of the VMTP Refinancing. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

For Shareholders of the Acquiring Fund:

Proposal 1(E): The VRDP Holders of the Acquiring Fund are being asked to vote as a separate class on a proposal to approve the BLJ Reorganization Agreement and the transactions contemplated therein, including the issuance of additional Acquiring Fund VRDP Shares.

Proposal 1(F): The VRDP Holders of the Acquiring Fund are being asked to vote as a separate class on a proposal to approve the BNJ Reorganization Agreement and the transactions contemplated therein, including the issuance of additional Acquiring Fund VRDP Shares.

Proposal 2: The Issuance of Additional Acquiring Fund Common Shares

Proposal 2(A): The common shareholders and VRDP Holders of the Acquiring Fund are being asked to vote as a single class on a proposal to approve the issuance of additional Common Shares of the Acquiring Fund in connection with the BLJ Reorganization Agreement (the BLJ Issuance).

Proposal 2(B): The common shareholders and VRDP Holders of the Acquiring Fund are being asked to vote as a single class on a proposal to approve the issuance of additional Common Shares of the Acquiring Fund in connection with the BNJ Reorganization Agreement (the BNJ Issuance) and together with the BLJ Issuance, each, an Issuance).

The BNJ Reorganization is contingent upon the completion of the VMTP Refinancing. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

Table of Contents

A Reorganization is not contingent upon the approval of the other Reorganization. If a Reorganization is not consummated, then the Fund for which such Reorganization(s) was not consummated would continue to exist and operate on a stand-alone basis.

The Board of each Fund has determined that including these proposals in one Proxy Statement will reduce costs and is in the best interest of each Fund's shareholders.

Distribution to the shareholders of this Proxy Statement and the accompanying materials, or a Notice of Internet Availability of Proxy Materials, will commence on or about February 9, 2018.

Shareholders of record of each Fund as of the close of business on January 29, 2018 (the Record Date) are entitled to notice of and to vote at the Special Meeting or any adjournment or postponement thereof.

Shareholders of each Fund are entitled to one vote for each Common Share, VRDP Share or VMTP Share, as applicable (each, a Share), held, with no Shares having cumulative voting rights. Preferred shareholders of each Fund will have equal voting rights with the common shareholders of such Fund with respect to the proposals that require the vote of the Fund's VRDP Shares or VMTP Shares and Common Shares as a single class. The quorum and voting requirements for each Fund are described in the section herein entitled Voting Information and Requirements.

This Joint Proxy Statement/Prospectus is only being delivered to the common shareholders of each Fund. Each Fund is separately soliciting the votes of its respective preferred shareholders on each of the foregoing proposals that require the vote of preferred shareholders through a separate proxy statement and not through this Joint Proxy Statement/Prospectus.

Each Reorganization Agreement that BLJ or BNJ shareholders are being asked to consider involves transactions, including an Issuance, that will be referred to in this Joint Proxy Statement/Prospectus as each, a Reorganization and collectively, the Reorganizations. The Fund surviving the Reorganizations is referred to herein as the Combined Fund.

BLJ and BNJ are each organized as a Delaware statutory trust. The Acquiring Fund is organized as a Maryland corporation. Each Fund is a non-diversified closed-end management investment company registered under the 1940 Act. The Reorganizations seek to achieve certain economies of scale and other operational efficiencies by combining three Funds that have substantially similar (but not identical) investment objectives, investment policies and investment restrictions.

In the Reorganizations, the Acquiring Fund will acquire substantially all of the assets and assume substantially all of the liabilities of BLJ and BNJ in exchange solely for newly issued Common Shares and VRDP Shares of the Acquiring Fund in the form of book entry interests. The Acquiring Fund will list the newly issued Common Shares on the New York Stock Exchange (NYSE). Such newly issued Acquiring Fund Shares will be distributed to BLJ and BNJ shareholders (although cash may be distributed in lieu of fractional Common Shares) and each of BLJ and BNJ will terminate its registration under the 1940 Act and liquidate, dissolve and terminate in accordance with its respective Agreement and Declaration of Trust and Delaware law. The Acquiring Fund will continue to operate after the Reorganizations as a registered, non-diversified, closed-end management investment company with the investment objective, investment policies and investment restrictions described in this Joint Proxy Statement/Prospectus.

As a result of the Reorganizations, each common shareholder of BLJ and BNJ will own Acquiring Fund Common Shares that (except for cash payments received in lieu of fractional Common Shares) will have an aggregate net asset value (NAV) (not the market value) immediately after the Closing Date equal to the aggregate NAV (not the market value) of that shareholder's BLJ or BNJ Common Shares immediately prior to the effective date of the Reorganizations (the Closing Date). The NAV of BLJ and BNJ and the Acquiring

Table of Contents

Fund immediately prior to the Closing Date will be reduced by the costs of the Reorganizations borne by each Fund, if any. The value of each Fund's net assets will be calculated net of the liquidation preference (including accumulated and unpaid dividends) of all outstanding VRDP Shares of such Fund.

Each outstanding VRDP Share of BLJ and BNJ will, without any action on the part of the holder thereof, be exchanged for one newly issued VRDP Share of the Acquiring Fund. The newly issued Acquiring Fund VRDP Shares will have terms that are substantially identical to the terms of the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the outstanding BLJ VRDP Shares, except that the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041. BLJ VRDP Shares have a mandatory redemption date of July 1, 2042. The terms of the Acquiring Fund VRDP Shares to be issued in connection with the Reorganizations will be substantially identical to the terms of the Acquiring Fund's outstanding VRDP Shares and will rank on a parity with the Acquiring Fund's outstanding VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The newly issued Acquiring Fund VRDP Shares will be subject to the same special rate period (including the terms thereof) applicable to the outstanding Acquiring Fund VRDP Shares as of the Closing Date of the Reorganization. Such special rate period will terminate on June 20, 2018, unless extended. The Reorganizations will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

If the requisite shareholder approvals for a Reorganization are not obtained, the Board of the Fund for which such Reorganization(s) was not consummated may take such actions as it deems in the best interests of the Fund, including conducting additional solicitations with respect to the Reorganization(s) or continuing to operate the Fund as a stand-alone Delaware statutory trust (or, with respect to the Acquiring Fund, a Maryland corporation) registered under the 1940 Act as a non-diversified closed-end management investment company advised by the Investment Advisor. The Investment Advisor may, in connection with the ongoing management of the Fund and its product line, recommend alternative proposals to the Board of the Fund.

The Fund(s) in which you owned Shares on the Record Date is named on the proxy card or Notice of Internet Availability of Proxy Materials. If you owned Shares in more than one Fund on the Record Date, you may receive more than one proxy card. Even if you plan to attend the Special Meeting, please sign, date and return EACH proxy card you receive or, if you provide voting instructions by telephone or via the Internet, please vote on each proposal affecting EACH Fund you own. If you vote by telephone or via the Internet, you will be asked to enter a unique code that has been assigned to you, which is printed on your proxy card(s) or Notice of Internet Availability of Proxy Materials, as applicable. This code is designed to confirm your identity, provide access into the voting website and confirm that your voting instructions are properly recorded.

All properly executed proxies received prior to the Special Meeting will be voted in accordance with the instructions marked thereon or otherwise as provided therein. On any matter coming before the Special Meeting as to which a shareholder has specified a choice on that shareholder's proxy, the Shares will be voted accordingly. If a proxy card is properly executed and returned and no choice is specified with respect to a proposal, the Shares will be voted FOR the proposal. Shareholders who execute proxies or provide voting instructions by telephone or via the Internet may revoke them with respect to a proposal at any time before a vote is taken on the proposal by filing with the applicable Fund a written notice of revocation (addressed to the Secretary of the Fund at the principal executive offices of the Fund at the New York address provided herein), by delivering a duly executed proxy bearing a later date or by attending the Special Meeting and voting in person by ballot, in all cases prior to the exercise of the authority granted in the proxy card. Merely attending the Special Meeting, however, will not revoke any previously executed proxy. If you hold Shares through a bank or other intermediary, please consult your bank or intermediary regarding your ability to revoke voting instructions after such instructions have been provided.

If you are a record holder of a Fund's Shares and plan to attend the Special Meeting in person, in order to gain admission you must show valid photographic identification, such as your driver's license or

Table of Contents

passport. If you hold your Shares of a Fund through a bank, broker or other nominee, and plan to attend the Special Meeting in person, in order to gain admission you must show valid photographic identification, such as your driver's license or passport, and satisfactory proof of ownership of Shares in a Fund, such as your voting instruction form (or a copy thereof) or a letter from your bank, broker or other nominee or broker's statement indicating ownership as of the Record Date. If you hold your Shares of a Fund in a brokerage account or through a bank or other nominee, you will not be able to vote in person at the Special Meeting unless you have previously requested and obtained a legal proxy from your broker, bank or other nominee and present it at the Special Meeting. Even if you plan to attend the Special Meeting, please promptly follow the enclosed instructions to submit voting instructions by telephone or via the Internet. Alternatively, you may submit voting instructions by signing and dating each proxy card you receive, and if received by mail, returning it in the accompanying postage-paid return envelope.

For directions to the Special Meeting, please contact Georgeson, LLC, the firm assisting us in the solicitation of proxies, at [].

This Joint Proxy Statement/Prospectus sets forth concisely the information that common shareholders of each Fund should know before voting on the proposals set forth herein. Please read it carefully and retain it for future reference. A Statement of Additional Information, dated [], relating to this Joint Proxy Statement/Prospectus (the Statement of Additional Information) has been filed with the United States Securities and Exchange Commission (the SEC) and is incorporated herein by reference. Copies of each Fund's most recent annual report and semi-annual report can be obtained on a website maintained by BlackRock, Inc. (BlackRock) at www.blackrock.com. In addition, each Fund will furnish, without charge, a copy of the Statement of Additional Information, or its most recent annual report or semi-annual report to any shareholder upon request. Any such request should be directed to BlackRock by calling (800) 882-0052 or by writing to the respective Fund at 100 Bellevue Parkway, Wilmington, Delaware 19809. The Statement of Additional Information and the annual and semi-annual reports of each Fund are available on the EDGAR Database on the SEC's website at www.sec.gov. The address of the principal executive offices of the Funds is 100 Bellevue Parkway, Wilmington, Delaware 19809, and the telephone number is (800) 882-0052.

Each Fund is subject to the informational requirements of the Securities Exchange Act of 1934 (the Exchange Act) and the 1940 Act and, in accordance therewith, file reports, proxy statements, proxy materials and other information with the SEC. Materials filed with the SEC can be reviewed and copied at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549 or downloaded from the SEC's website at www.sec.gov. Information on the operation of the SEC's Public Reference Room may be obtained by calling the SEC at (202) 551-8090. You may also request copies of these materials, upon payment at the prescribed rates of a duplicating fee, by electronic request to the SEC's e-mail address (publicinfo@sec.gov) or by writing the Public Reference Branch, Office of Consumer Affairs and Information Services, Securities and Exchange Commission, Washington, D.C. 20549-0102. Reports, proxy statements and other information concerning the Funds may also be inspected at the offices of the NYSE, 20 Broad Street, New York, New York 10005.

BlackRock updates performance information and certain other data for the Funds on a monthly basis on its website in the Closed-End Funds section of www.blackrock.com as well as certain other material information as necessary from time to time. Investors and others are advised to check the website for updated performance information and the release of other material information about the Funds. References to BlackRock's website are intended to allow investors public access to information regarding the Funds and do not, and are not intended to, incorporate BlackRock's website in this Joint Proxy Statement/Prospectus.

Please note that only one copy of shareholder documents, including annual or semi-annual reports and proxy materials, may be delivered to two or more shareholders of the Funds who share an address, unless the Funds have received instructions to the contrary. This practice is commonly called householding and it is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. To request a separate copy of any

Table of Contents

shareholder document or for instructions as to how to request a separate copy of these documents or as to how to request a single copy if multiple copies of these documents are received, shareholders should contact the respective Fund at the address and phone number set forth above.

Each Fund is a non-diversified closed-end management investment company registered under the 1940 Act. The Common Shares of BlackRock MuniYield New Jersey Fund, Inc. are listed on the NYSE under the ticker symbol MYJ and will continue to be so listed after the completion of the Reorganizations. The Common Shares of BlackRock New Jersey Municipal Bond Trust are listed on the NYSE American under the ticker symbol BLJ and the Common Shares of BlackRock New Jersey Municipal Income Trust are listed on the NYSE under the ticker symbol BNJ.

This Joint Proxy Statement/Prospectus serves as a prospectus of the Acquiring Fund in connection with each Issuance. No person has been authorized to give any information or make any representation not contained in this Joint Proxy Statement/Prospectus and, if so given or made, such information or representation must not be relied upon as having been authorized. This Joint Proxy Statement/Prospectus does not constitute an offer to sell or a solicitation of an offer to buy any securities in any jurisdiction in which, or to any person to whom, it is unlawful to make such offer or solicitation.

THE SEC HAS NOT APPROVED OR DISAPPROVED THESE SECURITIES OR PASSED UPON THE ADEQUACY OF THIS JOINT PROXY STATEMENT/PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this Joint Proxy Statement/Prospectus is [].

SUMMARY

The following is a summary of certain information contained elsewhere in this Joint Proxy Statement/Prospectus and in the Statement of Additional Information and is qualified in its entirety by reference to the more complete information contained in this Joint Proxy Statement/Prospectus and in the Statement of Additional Information. Shareholders should read the entire Joint Proxy Statement/Prospectus carefully.

The Reorganizations

Assuming all of the Reorganizations receive the requisite shareholder approvals and the VMTP Refinancing is completed prior to the Closing Date of the BNJ Reorganization, as well as certain consents, confirmations and/or waivers from various third parties, including the liquidity provider with respect to the outstanding VRDP Shares, the Acquiring Fund will acquire substantially all of the assets and assume substantially all of the liabilities of BLJ and BNJ in exchange solely for newly issued Acquiring Fund Shares in the form of book entry interests. The Acquiring Fund will list the newly issued Common Shares on the NYSE. Such newly issued Acquiring Fund Shares will be distributed to BLJ and BNJ shareholders (although cash may be distributed in lieu of fractional Common Shares) and each of BLJ and BNJ will terminate its registration under the 1940 Act and liquidate, dissolve and terminate in accordance with its respective Agreement and Declaration of Trust and Delaware law. The Acquiring Fund will continue to operate after the Reorganizations as a registered, non-diversified, closed-end management investment company with the investment objective, investment policies and investment restrictions described in this Joint Proxy Statement/Prospectus.

As a result of the Reorganizations, each common shareholder of BLJ and BNJ will own Acquiring Fund Common Shares that (except for cash payments received in lieu of fractional Common Shares) will have an aggregate NAV (not the market value) immediately after the Closing Date equal to the aggregate NAV (not the market value) of that shareholder's BLJ or BNJ Common Shares immediately prior to the Closing Date. The NAV of BLJ and BNJ and the Acquiring Fund immediately prior to the Closing Date will be reduced by the costs of the Reorganizations borne by each Fund, if any. The value of each Fund's net assets will be calculated net of the liquidation preference (including accumulated and unpaid dividends) of all outstanding VRDP Shares of such Fund.

If the BNJ Reorganization Agreement is approved, prior to the Closing Date, it is expected that BNJ will issue VRDP Shares with terms substantially identical to the terms of the outstanding Acquiring Fund's VRDP Shares and use the proceeds from such issuance to redeem all of BNJ's outstanding VMTP Shares (the VMTP Refinancing). If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

Table of Contents

On the Closing Date of the Reorganizations, each outstanding VRDP Share of BLJ and BNJ will, without any action on the part of the holder thereof, be exchanged for one newly issued VRDP Share of the Acquiring Fund. The terms of the Acquiring Fund VRDP Shares to be issued in connection with the Reorganizations will be substantially identical to the terms of the Acquiring Fund's outstanding VRDP Shares and will rank on a parity with the Acquiring Fund's outstanding VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The newly issued Acquiring Fund VRDP Shares will be subject to the same special rate period (including the terms thereof) applicable to the outstanding Acquiring Fund VRDP Shares as of the Closing Date of the Reorganization. Such special rate period will terminate on June 20, 2018, unless extended. The Reorganizations will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

The newly issued Acquiring Fund VRDP Shares will have terms that are substantially identical to the terms of the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the outstanding BLJ VRDP Shares, except that the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041. BLJ VRDP Shares have a mandatory redemption date of July 1, 2042. The VRDP Shares of the Acquiring Fund and BLJ are currently in a one year special rate period that will end on June 20, 2018, unless extended (the Special Rate Period). The terms applicable to the VRDP Shares of the Acquiring Fund and BLJ during the Special Rate Period are substantially identical. The BNJ VRDP Shares to be issued in connection with the VMTP Refinancing will also be subject to a special rate period and the terms of BNJ's VRDP Shares during such special rate period will be substantially identical to the terms of the Special Rate Period for the outstanding Acquiring Fund and BLJ VRDP Shares. The terms of the special rate period applicable to the newly issued Acquiring Fund VRDP Shares will be substantially identical to the terms of the special rate period applicable to the Funds' VRDP Shares as of the Closing Date of the Reorganization.

Subject to the requisite approval of the shareholders of each Fund with respect to its respective Reorganization, as well as certain consents, confirmations and/or waivers from various third parties, including the liquidity provider with respect to the outstanding VRDP Shares and, with respect to the BNJ Reorganization, subject to the completion of the VMTP Refinancing prior to the Closing Date of the BNJ Reorganization, it is expected that the Closing Date of the Reorganizations will be sometime during the second quarter of 2018, but it may be at a different time as described herein.

Table of Contents

The BNJ Reorganization is contingent upon the completion of the VMTP Refinancing. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

A Reorganization is not contingent upon the approval of the other Reorganization. If a Reorganization is not consummated, then the Fund for which such Reorganization(s) was not consummated will continue to operate for the time being as a stand-alone Delaware statutory trust (or, with respect to the Acquiring Fund, a Maryland corporation) and will continue to be advised by the Investment Advisor. However, if a Reorganization is not consummated, the Investment Advisor may, in connection with ongoing management of each Fund and its product line, recommend alternative proposals to the Board of each Fund for which such Reorganization(s) were not consummated.

Background and Reasons for the Reorganizations The proposed Reorganizations seek to achieve certain economies of scale and other operational efficiencies by combining three funds that have substantially similar (but not identical) investment objectives, investment policies, investment restrictions and portfolio compositions and are managed by the same investment adviser and portfolio management team.

The proposed Reorganizations are intended to result in the following potential benefits to common shareholders: (i) lower total expenses per Common Share for common shareholders of each Fund (as common shareholders of the Combined Fund following the Reorganizations) due to economies of scale resulting from the larger size of the Combined Fund; (ii) improved earnings yield on net asset value (NAV) for common shareholders of each Fund; (iii) improved secondary market trading of the Common Shares of the Combined Fund; and (iv) operating and administrative efficiencies for the Combined Fund, including the potential for the following: (a) greater investment flexibility and investment options; (b) greater diversification of portfolio investments; (c) the ability to trade in larger positions and more favorable transaction terms; (d) additional sources of leverage or more competitive leverage terms and more favorable transaction terms; (e) benefits from having fewer closed-end funds offering similar products in the market, including an increased focus by investors on the remaining funds in the market (including the Combined Fund) and additional research coverage; and (f) benefits from having fewer similar funds in the same fund complex, including a simplified operational model and a reduction in risk of operational, legal and financial errors.

The Board of each Fund, including the trustees or directors, as applicable (Board Members), who are not interested persons of each Fund (as defined in the 1940 Act) (Independent Board Members), has unanimously approved the Reorganizations,

Table of Contents

concluding that the Reorganizations are in the best interests of its Fund and that the interests of existing common shareholders and preferred shareholders of its Fund will not be diluted with respect to NAV and liquidation preference, respectively, as a result of the Reorganizations. As a result of the Reorganizations, however, common and preferred shareholders of each Fund may hold a reduced percentage of ownership in the larger Combined Fund than they did in any of the individual Funds before the Reorganizations. Each Board's conclusion was based on each Board Member's business judgment after consideration of all relevant factors taken as a whole with respect to its Fund and the Fund's common and preferred shareholders, although individual Board Members may have placed different weight on various factors and assigned different degrees of materiality to various factors. Please see "Reasons for the Reorganizations" for additional information about the factors considered by each Board.

Because the shareholders of each Fund will vote separately on the Fund's respective Reorganization(s) or Issuances, as applicable, and the BNJ Reorganization is contingent upon the completion of the VMTP Refinancing, there are multiple potential combinations of Reorganizations. The Board of each Fund and the Investment Advisor believe that the most likely result of the potential combinations of Reorganizations is the combination of all of the Funds. To the extent that one Reorganization is not completed, but the other Reorganization is completed, any expected expense savings by the Combined Fund, or other potential benefits resulting from the Reorganizations, may be reduced.

If a Reorganization is not consummated, then the Investment Advisor may, in connection with ongoing management of the Fund for which such Reorganization(s) was not consummated and its product line, recommend alternative proposals to the Board of that Fund.

Net and Managed Assets

As of November 30, 2017, BLJ had approximately \$36.5 million in net assets and approximately \$61.3 million in managed assets, BNJ had approximately \$118.3 million in net assets and approximately \$198.7 million in managed assets and the Acquiring Fund had approximately \$228.3 million in net assets and approximately \$377.7 million in managed assets.

Total Expenses and Management Fees

For the fiscal year ended July 31, 2017, the Total Expense Ratios of the Acquiring Fund and BNJ were 1.93% and 2.21%, respectively. For the fiscal year ended August 31, 2017, the Total Expense Ratio of BLJ was 2.48%. Total Expenses means a Fund's total annual operating expenses (including interest expense). Total Expense Ratio means a Fund's Total Expenses expressed as a percentage of its average net assets attributable to its Common Shares. If any of the Reorganizations are consummated, the Investment Advisor has voluntarily agreed to waive a portion of its investment management

Table of Contents

fees equal to an annual rate of 0.01% of the average daily net assets of the Combined Fund (the Voluntary Waiver). This Voluntary Waiver may be reduced or discontinued at any time.

As of July 31, 2017, the historical and *pro forma* Total Expense Ratios (including the Voluntary Waiver) applicable to the Reorganizations are as follows:

			Pro Forma Combined Fund (BLJ into MYJ)	Pro Forma Combined Fund (BNJ into MYJ)	Pro Forma Combined Fund (BLJ and BNJ into MYJ)
BLJ	BNJ	Acquiring Fund (MYJ)			
2.46%	2.21%	1.93%	1.91%	1.92%	1.92%

The Funds estimate that the completion of all of the Reorganizations would result in a Total Expense Ratio (including the Voluntary Waiver) for the Combined Fund of 1.92% on a historical and *pro forma* basis for the 12-month period ended July 31, 2017, representing a reduction in the Total Expense Ratio (including the Voluntary Waiver) for the common shareholders of BLJ, BNJ and the Acquiring Fund of 0.54%, 0.29% and 0.01%, respectively.

Each Fund's Total Expenses include interest expense associated with such Fund's preferred shares. For the fiscal year ended July 31, 2017, the Total Expense Ratios (excluding interest expense) of the Acquiring Fund and BNJ were 0.93% and 1.16%, respectively. For the fiscal year ended August 31, 2017, the Total Expense Ratio (excluding interest expense) of BLJ was 1.43%.

The Funds estimate that the completion of all of the Reorganizations would result in a Total Expense Ratio (excluding interest expense and including the Voluntary Waiver) for the Combined Fund of 0.90% on a historical and *pro forma* basis for the 12-month period ended July 31, 2017, representing a reduction in the Total Expense Ratio (excluding interest expense and including the Voluntary Waiver) for the common shareholders of BLJ, BNJ and the Acquiring Fund of 0.53%, 0.26% and 0.03%, respectively.

The Combined Fund will have a lower annual contractual investment management fee rate than each of BLJ and BNJ and the same annual contractual investment management fee rate as the Acquiring Fund. BLJ currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.65% of its average weekly managed assets. BNJ currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.60% of its average weekly managed assets. Average weekly managed assets are the average weekly value of the Fund's total assets minus the sum of the Fund's accrued liabilities (which does not include liabilities represented by tender option bond (TOB) leverage and the liquidation preference of BLJ's VRDP Shares or BNJ's VMTP Shares). The Acquiring Fund currently pays the

Table of Contents

Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.50% of its average daily Net Assets. Average daily Net Assets are the average daily value of the Acquiring Fund's total assets minus the sum of the Acquiring Fund's accrued liabilities (which does not include liabilities represented by TOB leverage and the liquidation preference of the Acquiring Fund VRDP Shares).

If the Reorganizations are consummated, the annual contractual investment management fee rate of the Acquiring Fund will be the annual contractual investment management fee rate of the Combined Fund, which will be 0.50% of the average daily Net Assets of the Combined Fund. The annual contractual investment management fee rate of the Combined Fund represents a 15 basis point reduction in the annual contractual investment management fee rate for BLJ and a 10 basis point reduction in the annual contractual investment management fee rate for BNJ. Additionally, if any of the Reorganizations are consummated, the Investment Advisor has voluntarily agreed to waive a portion of its investment management fees equal to an annual rate of 0.01% of the average daily net assets of the Combined Fund, resulting in a contractual investment management fee rate of 0.49% of the average daily Net Assets of the Combined Fund. This voluntary waiver may be reduced or discontinued at any time.

Based on a *pro forma* Broadridge peer expense group for the Combined Fund, the estimated total annual fund expense ratio (excluding investment-related expenses and taxes) is expected to be in the second quartile and contractual investment management fee rate and actual investment management fee rate over total assets are each expected to be in the first quartile.

The level of expense savings (or increases) will vary depending on the combination of the Funds in the Reorganizations, and furthermore, there can be no assurance that future expenses will not increase or that any expense savings for any Fund will be realized as a result of any Reorganization.

Earnings, Distributions and Undistributed Net Investment Income

Earnings and Distribution Rate: The Combined Fund's earnings yield on NAV following the Reorganizations is expected to be potentially higher than each Fund's current earnings yield on NAV. The distribution level of any fund is subject to change based upon a number of factors, including the current and projected level of the fund's earnings, and may fluctuate over time; thus, subject to a number of other factors, including the fund's distribution policy, a higher earnings profile may potentially have a positive impact on such fund's distribution level over time. The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the

Table of Contents

Reorganizations. A Fund's earnings and net investment income are variables which depend on many factors, including its asset mix, portfolio turnover level, the amount of leverage utilized by the Fund, the costs of such leverage, the performance of its investments, the movement of interest rates and general market conditions. In addition, the Combined Fund's future earnings will vary depending upon the combination of the Reorganizations. There can be no assurance that the future earnings of a Fund, including the Combined Fund after the Reorganizations, will remain constant.

Distribution Policy: Each Fund intends to make regular monthly cash distributions of all or a portion of its net investment income to holders of such Fund's Common Shares, except as described below under Undistributed Net Investment Income. Each Fund intends to pay any capital gains distributions at least annually. A return of capital distribution may involve a return of the common shareholder's original investment. Though not currently taxable, such a distribution may lower a common shareholder's basis in such Fund, thus potentially subjecting the common shareholder to future tax consequences in connection with the sale of Fund Common Shares, even if sold at a loss to the common shareholder's original investment. When total distributions exceed total return performance for the period, the difference will reduce a Fund's total assets and NAV and, therefore, could have the effect of increasing the Fund's expense ratio and reducing the amount of assets the Fund has available for long term investment.

Automatic Dividend Reinvestment: Common shareholders of each Fund will automatically have all dividends and distributions reinvested in Common Shares of such Fund in accordance with such Fund's dividend reinvestment plan, unless an election is made to receive cash by contacting the Reinvestment Plan Agent (as defined herein), at (800) 699-1236. See Automatic Dividend Reinvestment Plan.

Undistributed Net Investment Income: If the Reorganizations are approved by shareholders, then substantially all of the undistributed net investment income, if any, of each Fund is expected to be declared to such Fund's common shareholders prior to the Closing Date (the Pre-Reorganization Declared UNII Distributions). The declaration date, ex-dividend date (the Ex-Dividend Date) and record date of the Pre-Reorganization Declared UNII Distributions will occur prior to the Closing Date. However, all or a significant portion of the Pre-Reorganization Declared UNII Distributions may be paid in one or more distributions to common shareholders of the Funds entitled to such Pre-Reorganization Declared UNII Distributions after the Closing Date. Former BLJ and BNJ shareholders entitled to such Pre-Reorganization Declared UNII Distributions paid after the Closing Date will receive such distributions in cash.

Table of Contents

Persons who purchase Common Shares of any of the Funds on or after the Ex-Dividend Date for the Pre-Reorganization Declared UNII Distributions should not expect to receive any distributions from any Fund until distributions, if any, are declared by the Board of the Combined Fund and paid to shareholders entitled to any such distributions. No such distributions are expected to be paid by the Combined Fund until at least approximately one month following the Closing Date.

Additionally, the Acquiring Fund, in order to seek to provide its common shareholders with distribution rate stability, may include in its Pre-Reorganization Declared UNII Distribution amounts in excess of its undistributed net investment income and net investment income accrued through the Closing Date; any such excess amounts are not expected to constitute a return of capital. This would result in the Acquiring Fund issuing incrementally more Common Shares in the Reorganizations since its NAV as of the business day prior to the Closing Date of the Reorganizations (the Valuation Time) would be lower relative to a scenario where such excess amounts were not included in the Acquiring Fund's Pre-Reorganization Declared UNII Distribution.

The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganizations. The Combined Fund is anticipated to retain a lower UNII balance after the Reorganizations than the Acquiring Fund prior to the Reorganizations. The lower anticipated UNII balance for the Combined Fund relative to the UNII balance of the Acquiring Fund poses risks for shareholders of the Combined Fund. UNII balances, in part, support the level of a fund's regular distributions and provide a cushion in the event a fund's net earnings for a particular distribution period are insufficient to support the level of its regular distribution for that period. If the Combined Fund's net earnings are below the level of its current distribution rate, the Combined Fund's UNII balance could be more likely to contribute to a determination to decrease the Combined Fund's distribution rate, or could make it more likely that the Combined Fund will make distributions consisting in part of a return of capital to maintain the level of its regular distributions. See Dividends and Distributions. Moreover, because a fund's UNII balance, in part, supports the level of a fund's regular distributions, the UNII balance of the Combined Fund could impact the trading market for the Combined Fund's Common Shares and the magnitude of the trading discount to NAV of the Combined Fund's Common Shares. However, the Combined Fund is anticipated to benefit from a lower expense ratio (compared to BNJ and BLJ), a potentially higher earnings profile and other anticipated benefits of economies of scale as discussed herein. Each Fund, including the Combined Fund, reserves the right to change its distribution policy with respect to common share distributions and the

Table of Contents

basis for establishing the rate of its distributions for the Common Shares at any time and may do so without prior notice to common shareholders. The payment of any distributions by any Fund, including the Combined Fund, is subject to, and will only be made when, as, and if, declared by the Board of such Fund. There is no assurance the Board of any Fund, including the Combined Fund, will declare any distributions for such Fund.

To the extent any Pre-Reorganization Declared UNII Distribution is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. federal income tax purposes.

Premium/Discount to NAV of Common Shares

The Common Shares of each Fund have historically traded at both a premium and a discount. The table below sets forth the market price, NAV, and the premium/discount to NAV of each Fund as of November 30, 2017.

Fund	Market Price	NAV	Premium/(Discount) to NAV
BLJ	\$ 14.48	\$ 15.66	(7.54)%
BNJ	\$ 15.51	\$ 15.42	0.58%
Acquiring Fund (MYJ)	\$ 15.59	\$ 15.86	(1.70)%

To the extent BLJ's or BNJ's Common Shares are trading at a wider discount (or a narrower premium) than the Acquiring Fund at the time of its Reorganization, BLJ's or BNJ's common shareholders would have the potential for an economic benefit by the narrowing of the discount or widening of the premium. To the extent BLJ's or BNJ's Common Shares are trading at a narrower discount (or wider premium) than the Acquiring Fund at the time of its Reorganization, BLJ's or BNJ's common shareholders may be negatively impacted if its Reorganization is consummated. Acquiring Fund common shareholders would only benefit from a premium/discount perspective to the extent the post-Reorganization discount (or premium) of the Acquiring Fund Common Shares improves.

There can be no assurance that, after the Reorganizations, Common Shares of the Combined Fund will trade at a narrower discount to NAV or wider premium to NAV than the Common Shares of any individual Fund prior to the Reorganizations. Upon consummation of the Reorganizations, the Combined Fund Common Shares may trade at a price that is less than the current market price of Acquiring Fund Common Shares. In the Reorganizations, common shareholders of BLJ and BNJ will receive Acquiring Fund Common Shares based on the relative NAVs (not the market values) of the respective Fund's Common Shares. The market value of the Common Shares of the Combined Fund may be less than the market value of the Common Shares of each respective Fund prior to the Reorganizations.

Table of Contents

Preferred Shares

As of November 30, 2017, BLJ has 187 Series W-7 VRDP Shares outstanding, BNJ has 591 Series W-7 VMTP Shares outstanding, and the Acquiring Fund has 1,022 Series W-7 VRDP Shares outstanding.

For the fiscal year ended July 31, 2017, the annualized dividend rate for the VRDP Shares of the Acquiring Fund was 1.61%. For the fiscal year ended August 31, 2017, the annualized dividend rate for the VRDP Shares of BLJ was 1.64%. For the fiscal year ended July 31, 2017, the annualized dividend rate for the VMTP Shares of BNJ was 1.63%.

Prior to the Reorganizations, it is expected that all of the VMTP Shares of BNJ will be refinanced into BNJ VRDP shares with terms substantially identical to those of the Acquiring Fund's VRDP Shares. In connection with the Reorganizations, and assuming the VMTP Refinancing is completed prior to the Closing Date of the BNJ Reorganization, the Acquiring Fund expects to issue 187 additional VRDP Shares to BLJ VRDP Holders and 591 additional VRDP Shares to BNJ VRDP Holders. Following the completion of the Reorganizations, the Combined Fund is expected to have 1,800 VRDP Shares outstanding. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

Assuming all of the Reorganizations are approved by shareholders and the VMTP Refinancing is completed prior to the Closing Date of the BNJ Reorganization, upon the Closing Date of the Reorganizations, BLJ and BNJ VRDP Holders will receive on a one-for-one basis one newly issued Acquiring Fund VRDP Share, par value \$0.10 per share and with a liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on the BLJ or BNJ VRDP Shares up to and including the day immediately preceding the Closing Date if such dividends have not been paid prior to the Closing Date), in exchange for each BLJ and BNJ VRDP Share held by the BLJ or BNJ VRDP Holders immediately prior to the Closing Date. The newly issued Acquiring Fund VRDP Shares may be of the same series as the Acquiring Fund's Series W-7 VRDP Shares or a substantially identical series. No fractional Acquiring Fund VRDP Shares will be issued. The terms of the Acquiring Fund VRDP Shares to be issued in connection with the Reorganizations will be substantially identical to the terms of the Acquiring Fund's outstanding VRDP Shares and will rank on a parity with the Acquiring Fund's outstanding VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The newly issued Acquiring Fund VRDP Shares will be subject to the same special rate period (including the terms thereof) applicable to the outstanding Acquiring Fund VRDP Shares as of the Closing Date of the Reorganization. Such special rate period will terminate on

Table of Contents

June 20, 2018, unless extended. The Reorganizations will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

The newly issued Acquiring Fund VRDP Shares will have terms that are substantially identical to the terms of the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the outstanding BLJ VRDP Shares, except that the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041. BLJ VRDP Shares have a mandatory redemption date of July 1, 2042. The VRDP Shares of the Acquiring Fund and BLJ are currently in a one year special rate period that will end on June 20, 2018, unless extended. The terms applicable to the VRDP Shares of the Acquiring Fund and BLJ during the Special Rate Period are substantially identical. The BNJ VRDP Shares to be issued in connection with the VMTP Refinancing will also be subject to a special rate period and the terms of BNJ's VRDP Shares during such special rate period will be substantially identical to the terms of the Special Rate Period for the outstanding Acquiring Fund and BLJ VRDP Shares. The terms of the special rate period applicable to the newly issued Acquiring Fund VRDP Shares will be substantially identical to the terms of the special rate period applicable to the Funds' VRDP Shares as of the Closing Date of the Reorganization.

None of the expenses of the Reorganizations are expected to be borne by the VRDP Holders of the Funds.

Following the Reorganizations, the VRDP Holders of each Fund will be VRDP Holders of the larger Combined Fund that will have a larger asset base and more VRDP Shares outstanding than any Fund individually before the Reorganizations. With respect to matters requiring all preferred shareholders to vote separately or common and preferred shareholders to vote together as a single class, following the Reorganizations, holders of VRDP Shares of the Combined Fund may hold a smaller percentage of the outstanding preferred shares of the Combined Fund as compared to their percentage holdings of outstanding preferred shares of their respective Fund prior to the Reorganizations.

Please see Information about the Preferred Shares of the Funds for additional information.

Appraisal Rights

Common shareholders of BLJ and BNJ do not have appraisal rights for their respective common shares because the Funds are each organized as Delaware statutory trusts and the Funds' respective declarations of trust do not provide for appraisal rights. Under Maryland law, stockholders of an investment company whose shares are traded publicly on a national securities exchange, such as Common Shares of the Acquiring Fund, are not entitled to demand the fair value of their shares in connection with a reorganization.

Table of Contents

U.S. Federal Income Tax Consequences of the Reorganizations

Each Reorganization is intended to qualify as a reorganization within the meaning of Section 368(a) of the Code. If a Reorganization so qualifies, in general, common shareholders of BLJ and BNJ will recognize no gain or loss for U.S. federal income tax purposes upon the exchange of their Fund Shares for Acquiring Fund Shares pursuant to their Reorganization (except with respect to cash received in lieu of fractional Common Shares). Additionally, each of BLJ and BNJ will recognize no gain or loss for U.S. federal income tax purposes by reason of its Reorganization. Neither the Acquiring Fund nor its shareholders will recognize any gain or loss for U.S. federal income tax purposes pursuant to the Reorganizations.

Shareholders of each Fund may receive distributions prior to, or after, the consummation of the Reorganizations, including distributions attributable to their proportionate share of each Fund's undistributed net investment income declared prior to the consummation of the Reorganizations or the Combined Fund built-in gains, if any, recognized after the Reorganizations, when such income and gains are eventually distributed by the Combined Fund. To the extent that such a distribution is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. federal income tax purposes.

The Funds' shareholders should consult their own tax advisers regarding the U.S. federal income tax consequences of the Reorganizations, as well as the effects of state, local and non-U.S. tax laws, including possible changes in tax laws.

General Information and History

BLJ and BNJ are each organized as a statutory trust under the laws of the State of Delaware. The Acquiring Fund is organized as a Maryland corporation. Each Fund is a non-diversified, closed-end management investment company registered under the 1940 Act.

Each Fund's principal office is located at 100 Bellevue Parkway, Wilmington, Delaware 19809, and its telephone number is (800) 882-0052.

BNJ and the Acquiring Fund have a July 31 fiscal year end. BLJ has an August 31 fiscal year end.

The Acquiring Fund Common Shares are listed on the NYSE as MYJ.

BLJ Common Shares are listed on the NYSE American as BLJ.

BNJ Common Shares are listed on the NYSE as BNJ.

Each of BLJ and the Acquiring Fund have VRDP Shares outstanding and BNJ has VMTP Shares outstanding. Each Fund's preferred shares are not listed on a national stock exchange and have not been

Table of Contents

registered under the Securities Act of 1933, as amended (the Securities Act), or any state securities laws, and unless so registered, may not be offered, sold, assigned, transferred, pledged, encumbered or otherwise disposed of except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws.

Investment Objective and Policies

The Funds have substantially similar (but not identical) investment objectives, investment policies and investment restrictions. The investment objective, significant investment strategies and operating policies, and investment restrictions of the Combined Fund will be those of the Acquiring Fund, which are substantially similar (but not identical) as those of BLJ and BNJ.

Investment Objective:

The investment objective of each of BLJ and BNJ is to provide current income exempt from regular federal income tax and New Jersey gross income tax.

The investment objective of the Acquiring Fund is to provide shareholders with as high a level of current income exempt from federal income taxes and New Jersey personal income tax as is consistent with its investment policies and prudent investment management.

New Jersey Municipal Bonds:

For BLJ, as a fundamental policy, under normal market conditions, the Fund will invest at least 80% of its Managed Assets in municipal bonds, the interest of which is exempt from regular federal income tax and New Jersey gross income tax. Managed Assets means the total assets of the Fund (including any assets attributable to any preferred shares that may be outstanding) minus the sum of accrued liabilities (other than debt representing financial leverage).

For BNJ, as a fundamental policy, under normal market conditions, the Fund will invest at least 80% of its managed assets in investments the income from which is exempt from federal income tax and New Jersey gross income taxes (except that interest may be subject to the alternative minimum tax). For the purposes of the foregoing policy managed assets are the Fund's net assets plus borrowings for investment purposes.

For the Acquiring Fund, the Fund seeks to achieve its investment objective by investing, as a fundamental policy, at least 80% of an aggregate of the Fund's net assets (including proceeds from the issuance of any preferred stock) and the proceeds of any borrowings for investment purposes, in a portfolio of municipal obligations issued

Table of Contents

by or on behalf of the State of New Jersey, its political subdivisions, agencies and instrumentalities and by other qualifying issuers, each of which pays interest that, in the opinion of bond counsel to the issuer, is excludable from gross income for federal income tax purposes (except that the interest may be includable in taxable income for purposes of the federal alternative minimum tax) and exempt from New Jersey personal income tax (New Jersey Municipal Bonds).

Investment Grade Securities:

For BLJ and BNJ, each Fund will invest at least 80% of its Managed Assets in municipal bonds that at the time of investment are investment grade quality. The Funds may invest up to 20% of its Managed Assets in municipal bonds that at the time of investment are rated Ba/BB or B by Moody's, S&P or Fitch or bonds that are unrated but judged to be of comparable quality by the Fund's investment advisor and/or sub-advisor.

For the Acquiring Fund, under normal market conditions, the Fund expects to invest primarily in a portfolio of long term Municipal Bonds that are commonly referred to as investment grade securities.

Bond Maturity:

The average maturity of each Fund's portfolio securities varies from time to time based upon an assessment of economic and market conditions by the Investment Advisor. Each Fund's portfolio at any given time may include both long-term and intermediate-term municipal bonds.

Leverage:

Each Fund utilizes leverage through the issuance of either VRDP Shares or VMTP Shares and tender option bonds. See The Acquiring Fund's Investments Leverage; General Risks of Investing in the Acquiring Fund Leverage Risk; and General Risks of Investing in the Acquiring Fund Tender Option Bond Risk. Each of BLJ and the Acquiring Fund currently leverages its assets through the use of VRDP Shares and tender option bonds. BNJ currently leverages its assets through the use of VMTP Shares and tender option bonds. The Acquiring Fund is expected to continue to leverage its assets through the use of VRDP Shares and tender option bonds after the Closing Date of the Reorganizations. Common shareholders of BNJ and BLJ will be subject to the terms and costs of the Acquiring Fund VRDP Shares after the consummation of the Reorganizations. Please see Information about the Preferred Shares of the Funds for additional information about the preferred shares of each Fund.

Table of Contents

The annualized dividend rates for the preferred shares for each Fund's most recent fiscal year end were as follows:

Fund	Preferred Shares	Rate
BLJ	VRDP Shares	1.64%
BNJ	VMTP Shares	1.63%
Acquiring Fund (MYJ)	VRDP Shares	1.61%

Please see below a comparison of certain important ratios related to (i) each Fund's use of leverage as of November 30, 2017, (ii) the Combined Fund's estimated use of leverage, assuming only the Reorganization of BLJ into the Acquiring Fund had taken place as of November 30, 2017, (iii) the Combined Fund's estimated use of leverage, assuming only the Reorganization of BNJ into the Acquiring Fund had taken place as of November 30, 2017, and (iv) the Combined Fund's estimated use of leverage, assuming the Reorganizations of all the Funds had taken place as of November 30, 2017, which represents the most likely combination of the Reorganizations:

Ratios	BLJ	BNJ	Acquiring Fund (MYJ)	Pro Forma Combined Fund (BLJ into MYJ)	Pro Forma Combined Fund (BNJ into MYJ)	Pro Forma Combined Fund (BLJ and BNJ into MYJ)
Asset Coverage Ratio	295%	300%	323%	319%	315%	313%
Regulatory Leverage Ratio ⁽¹⁾	33.90%	33.31%	30.92%	31.35%	31.75%	31.96%
Effective Leverage Ratio ⁽²⁾	40.50%	40.47%	39.54%	34.94%	34.50%	39.92%

- (1) Regulatory leverage consists of preferred shares issued by the Fund, which is a part of the Fund's capital structure. Regulatory leverage is sometimes referred to as 1940 Act Leverage and is subject to asset coverage limits set forth in the 1940 Act.
- (2) Effective leverage is a Fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative investments in the Fund's portfolio. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings, in addition to any regulatory leverage, are included in effective leverage ratios.

Fund Management

The Board of each Fund is responsible for the overall supervision of the operations of its respective Fund and performs the various duties imposed on the trustees of investment companies by the 1940 Act and under applicable state law. Each Fund has the same Board Members and officers.

Investment Advisor

BlackRock Advisors, LLC serves as the investment adviser for each Fund and is expected to continue to serve as investment adviser for the Combined Fund.

Portfolio Management Team

Each Fund is managed by a team of investment professionals lead by Phillip Soccio and Theodore R. Jaeckel, Jr. After the Reorganizations,

Table of Contents

it is expected that each Fund's current portfolio management team will continue to comprise the team of investment professionals for the Combined Fund.

Other Service Providers

The other professional service providers for the Funds are or will be as follows:

Service	Service Providers to the Funds
Administrative Services Provider	State Street Bank and Trust Company
Custodian	State Street Bank and Trust Company
Transfer Agent, Dividend Disbursing Agent and Registrar	Computershare Trust Company, N.A.
Liquidity Provider to VRDP Shares	Citibank, N.A.
Remarketing Agent to VRDP Shares	Citigroup Global Markets Inc.
Tender and Paying Agent to VRDP Shares	The Bank of New York Mellon
VMTP Redemption and Paying Agent	The Bank of New York Mellon
Independent Registered Public Accounting Firm	[]
Fund Counsel	Skadden, Arps, Slate, Meagher & Flom LLP
Counsel to the Independent Board Members	Debevoise & Plimpton LLP

Table of Contents**EXPENSE TABLE FOR COMMON SHAREHOLDERS**

The following table illustrates the anticipated reduction or increases in the Total Expense Ratio for the common shareholders of each Fund expected as a result of the completion of the Reorganizations. The table sets forth (i) the Total Expense Ratio for each Fund for the 12-month period ended July 31, 2017; (ii) the *pro forma* Total Expense Ratio for the Combined Fund, assuming only the Reorganization of BLJ into the Acquiring Fund was consummated as of July 31, 2017; (iii) the *pro forma* Total Expense Ratio for the Combined Fund, assuming only the Reorganization of BNJ into the Acquiring Fund was consummated as of July 31, 2017; and (iv) the *pro forma* Total Expense Ratio for the Combined Fund, assuming all of the Reorganizations were consummated as of July 31, 2017, which represents the most likely combination of the Reorganizations.

The level of expense savings (or increases) will vary depending upon the combination of the Funds in the Reorganizations. Because each of the Reorganizations may occur whether or not the other Reorganization is approved, several combinations are possible. The scenarios presented illustrate the *pro forma* effects on operating expenses for all possible combinations.

	BLJ	BNJ	Acquiring Fund (MYJ)	Combined Fund (BLJ into MYJ) ⁽¹⁾	Combined Fund (BNJ into MYJ) ⁽¹⁾	Combined Fund (BLJ and BNJ into MYJ) ⁽¹⁾
Shareholder Transaction Expenses						
Maximum Sales Load (as a percentage of the offering price) imposed on purchases of Common Shares ⁽²⁾	None	None	None	None	None	None
Dividend Reinvestment Plan Fees ⁽³⁾	Same as MYJ	Same as MYJ	\$0.02 per share for open-market purchases	Same as MYJ	Same as MYJ	Same as MYJ
Annual Total Expenses (as a percentage of average net assets attributable to Common Shares)						
Investment Management Fees ⁽⁴⁾	1.07%	0.99%	0.81%	0.81%	0.82%	0.82%
Other Expenses	0.36%	0.17%	0.12%	0.12%	0.11%	0.10%
Interest Expense ⁽⁵⁾	1.03%	1.05%	1.00%	1.00%	1.01%	1.02%
Total Annual Fund Operating Expenses ⁽⁵⁾	2.46%	2.21%	1.93%	1.93%	1.94%	1.94%

(1) Assumes the Reorganizations had taken place on July 31, 2017.

(2) No sales load will be charged in connection with the issuance of Acquiring Fund Common Shares as part of the Reorganizations. Common Shares are not available for purchase from the Funds but may be purchased on the NYSE through a broker-dealer subject to individually negotiated commission rates. Common Shares purchased in the secondary market may be subject to brokerage commissions or other charges.

(3) The Reinvestment Plan Agent's fees for the handling of the reinvestment of dividends will be paid by the Fund. However, you will pay a \$2.50 sales fee and a \$0.15 per share fee if you direct the Reinvestment Plan Agent to sell your Common Shares held in a dividend reinvestment account. Per share fees include any applicable brokerage commissions the Reinvestment Plan Agent is required to pay. See Automatic Dividend Reinvestment Plan for additional information.

(4) BLJ currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.65% of its average weekly managed assets. BNJ currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.60% of its average weekly managed assets. Average weekly managed assets are the average weekly value of the Fund's total assets minus the sum of the Fund's accrued liabilities (which does not include liabilities represented by tender option bond (TOB) leverage and the liquidation preference of BLJ's VRDP Shares or BNJ's VMTP Shares). The Acquiring Fund currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.50% of its average daily Net Assets. Average daily Net Assets are the average daily value of the Acquiring Fund's total assets minus the sum of the Acquiring Fund's

Table of Contents

accrued liabilities (which does not include liabilities represented by TOB leverage and the liquidation preference of the Acquiring Fund VRDP Shares). If the Reorganizations are consummated, the annual contractual investment management fee rate of the Acquiring Fund will be the annual contractual investment management fee rate of the Combined Fund, which will be 0.50% of the average daily Net Assets of the Combined Fund. The annual contractual investment management fee rate of the Combined Fund represents a 15 basis point reduction in the annual contractual investment management fee rate for BLJ and a 10 basis point reduction in the annual contractual investment management fee rate for BNJ. Additionally, if any of the Reorganizations are consummated, the Investment Advisor has voluntarily agreed to waive a portion of its investment management fees equal to an annual rate of 0.01% of the average daily Net Assets of the Combined Fund, resulting in a contractual investment management fee rate of 0.49% of the average daily Net Assets of the Combined Fund. This voluntary waiver may be reduced or discontinued at any time. The *pro forma* net annual fund operating expenses (including the Voluntary Waiver) for the Funds are presented below:

Pro Forma Combined Fund (BLJ into MYJ)	Pro Forma Combined Fund (BNJ into MYJ)	Pro Forma Combined Fund (BLJ and BNJ into MYJ)
1.91%	1.92%	1.92%

- (5) The total expense table includes interest expense associated with the Funds' investments in tender option bonds (also known as inverse floaters). Although such interest expense is actually paid by special purpose vehicles in which the Funds invest, they are recorded on the Funds' financial statements for accounting purposes. The total expense table also includes, in interest expense, dividends associated with the VRDP Shares or VMTP Shares because the VRDP Shares and VMTP Shares are considered debt of the Funds for financial reporting purposes.

Each Fund uses leverage to seek to enhance its returns to common shareholders. This leverage generally takes two forms: the issuance of preferred shares and investment in tender option bonds. Both forms of leverage benefit common shareholders if the cost of the leverage is lower than the returns earned by a Fund when it invests the proceeds from the leverage. In order to help you better understand the costs associated with the Funds' leverage strategy, the Total Annual Fund Operating Expenses (excluding interest expense) for the Funds are presented below:

BLJ	BNJ	Acquiring Fund (MYJ)	Pro Forma Combined Fund (BLJ into MYJ)	Pro Forma Combined Fund (BNJ into MYJ)	Pro Forma Combined Fund (BLJ and BNJ into MYJ)
1.43%	1.16%	0.93%	0.93%	0.92%	0.92%

The following example is intended to help you compare the costs of investing in the Common Shares of the Combined Fund *pro forma* if (i) only the BLJ Reorganization is completed, (ii) only the BNJ Reorganization is completed, and (iii) all of the Reorganizations are completed with the costs of investing in BLJ, BNJ and the Acquiring Fund without the Reorganizations. An investor in Common Shares would pay the following expenses on a \$1,000 investment, assuming (1) the Total Annual Fund Operating Expenses for each Fund set forth in the total expenses table above and (2) a 5% annual return throughout the period:

	1 Year	3 Years	5 Years	10 Years
BLJ	\$ 25	\$ 77	\$ 131	\$ 280
BNJ	\$ 22	\$ 69	\$ 118	\$ 254
Acquiring Fund (MYJ)	\$ 20	\$ 61	\$ 104	\$ 225
<i>Pro Forma</i> Combined Fund (BLJ into MYJ)	\$ 20	\$ 61	\$ 104	\$ 225
<i>Pro Forma</i> Combined Fund (BNJ into MYJ)	\$ 20	\$ 61	\$ 104	\$ 225
<i>Pro Forma</i> Combined Fund (BLJ and BNJ into MYJ)	\$ 25	\$ 77	\$ 131	\$ 280

The examples set forth above assume Common Shares of each Fund were owned as of the completion of the Reorganizations and the reinvestment of all dividends and distributions and uses a 5% annual rate of return as mandated by SEC regulations. The examples should not be considered a representation of past or future expenses or annual rates of return. Actual expenses or annual rates of return may be more or less than those assumed for purposes of the examples.

Common shareholders of BLJ and BNJ will indirectly bear the costs of the Reorganizations. The expenses of the Reorganizations are estimated to be \$223,000 for BLJ and \$263,000 for BNJ. Additionally for BNJ, the costs of the VMTP Refinancing are estimated to be \$215,000. These costs will be amortized over the life of the

Table of Contents

VRDP Shares by the Combined Fund. Because of the expected expense savings and other anticipated benefits for each of BLJ and BNJ, the Investment Advisor recommended and the Board of BLJ and BNJ has approved that its respective Fund be responsible for its own reorganization expenses. The Investment Advisor will bear all of the Acquiring Fund's reorganization expenses, which are expected to be approximately \$290,000. The actual costs associated with the Reorganizations may be more or less than the estimated costs discussed herein.

Table of Contents**RISK FACTORS AND SPECIAL CONSIDERATIONS****Comparison of Risks**

The Combined Fund will be managed in accordance with the same investment objective and investment policies, and subject to the same risks, as the Acquiring Fund. The Funds have substantially similar (but not identical) investment objectives, investment policies and investment restrictions and are subject to substantially similar (but not identical) investment risks. Each Fund seeks to achieve its investment objective by investing at least 80% of its net assets (including proceeds from issuance of preferred shares or other borrowings for investment purposes) in New Jersey Municipal Bonds. In addition, under normal market conditions, the Acquiring Fund intends to invest primarily in a portfolio of investment grade Municipal Bonds. Similarly, each of BLJ and BNJ intends to invest, under normal market conditions, at least 80% of its managed assets in a portfolio of investment grade Municipal Bonds.

Each Fund utilizes leverage through the issuance of either VRDP Shares or VMTP Shares and tender option bonds. See *The Acquiring Fund's Investments*; *Leverage*; *General Risks of Investing in the Acquiring Fund*; *Leverage Risk*; and *General Risks of Investing in the Acquiring Fund*; *Tender Option Bond Risk*. Each of BLJ and the Acquiring Fund currently leverages its assets through the use of VRDP Shares and tender option bonds. BNJ currently leverages its assets through the use of VMTP Shares and tender option bonds. The Acquiring Fund is expected to continue to leverage its assets through the use of VRDP Shares and tender option bonds after the Closing Date of the Reorganizations. Common shareholders of BNJ and BLJ will be subject to the terms and costs of the Acquiring Fund VRDP Shares after the consummation of the Reorganizations. Please see *Information about the Preferred Shares of the Funds* for additional information about the preferred shares of each Fund.

Risks that predominately affect the Common Shares of the Funds include risks associated with municipal obligations, including New Jersey municipal obligations, including interest rate risk, credit risk, non-diversification risk and leverage risk. In addition, as exchange-traded closed-end funds, the Funds are subject to the risk that the Funds' Common Shares may trade at a discount from the Funds' NAV. Accordingly, the Funds are primarily designed for long-term investors and should not be considered a vehicle for trading purposes. In the normal course of business, each Fund invests in securities and enters into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations (issuer credit risk). The value of securities held by the Funds may decline in response to certain events, including those directly involving the issuers whose securities are owned by the Funds; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations. Similar to issuer credit risk, the Funds may be exposed to counterparty credit risk, or the risk that an entity with which the Funds have unsettled or open transactions may fail to or be unable to perform on its commitments.

Risk is inherent in all investing. An investment in the Common Shares of the Acquiring Fund should not be considered a complete investment program. Each shareholder should take into account the Acquiring Fund's investment objective as well as the shareholder's other investments when considering an investment in the Acquiring Fund. You may lose part or all of your investment in the Acquiring Fund or your investment may not perform as well as other similar investments.

Risks Related to the Reorganizations*Expenses.*

While the Funds currently estimate that the Reorganizations will result in reduced aggregate expenses of the Combined Fund by approximately \$507,625 per year if all the Reorganizations are completed (which represents the most likely combination of the Reorganizations), the realization of these reduced expenses will not affect common shareholders of the Funds proportionately, and may take longer than expected to be realized or may not be realized at all.

Table of Contents

For the fiscal year ended July 31, 2017, the Total Expense Ratios of the Acquiring Fund and BNJ were 1.93% and 2.21%, respectively. For the fiscal year ended August 31, 2017, the Total Expense Ratio of BLJ was 2.48%. Total Expenses means a Fund's total annual operating expenses (including interest expense). Total Expense Ratio means a Fund's Total Expenses expressed as a percentage of its average net assets attributable to its Common Shares. If any of the Reorganizations are consummated, the Investment Advisor has voluntarily agreed to waive a portion of its investment management fees equal to an annual rate of 0.01% of the average daily net assets of the Combined Fund (the Voluntary Waiver). This Voluntary Waiver may be reduced or discontinued at any time.

As of July 31, 2017, the historical and *pro forma* Total Expense Ratios (including the Voluntary Waiver) applicable to the Reorganizations are as follows:

		Acquiring Fund	Pro Forma Combined Fund	Pro Forma Combined Fund	Pro Forma Combined Fund
		(MYJ)	(BLJ into MYJ)	(BNJ into MYJ)	(BLJ and BNJ into MYJ)
BLJ	BNJ				
2.46%	2.21%	1.93%	1.91%	1.92%	1.92%

The Funds estimate that the completion of all of the Reorganizations would result in a Total Expense Ratio (including the Voluntary Waiver) for the Combined Fund of 1.92% on a historical and *pro forma* basis for the 12-month period ended July 31, 2017, representing a reduction in the Total Expense Ratio (including the Voluntary Waiver) for the common shareholders of BLJ, BNJ and the Acquiring Fund of 0.54%, 0.29% and 0.01%, respectively.

Each Fund's Total Expenses include interest expense associated with such Fund's preferred shares. For the fiscal year ended July 31, 2017, the Total Expense Ratios (excluding interest expense) of the Acquiring Fund and BNJ were 0.93% and 1.16%, respectively. For the fiscal year ended August 31, 2017, the Total Expense Ratio (excluding interest expense) of BLJ was 1.43%.

The Funds estimate that the completion of all of the Reorganizations would result in a Total Expense Ratio (excluding interest expense and including the Voluntary Waiver) for the Combined Fund of 0.90% on a historical and *pro forma* basis for the 12-month period ended July 31, 2017, representing a reduction in the Total Expense Ratio (excluding interest expense and including the Voluntary Waiver) for the common shareholders of BLJ, BNJ and the Acquiring Fund of 0.53%, 0.26% and 0.03%, respectively.

The Board of each Fund and the Investment Advisor believe that the most likely result of the potential combinations of the Reorganizations is the combination of all of the Funds.

The Combined Fund will have a lower annual contractual investment management fee rate than each of BLJ and BNJ and the same annual contractual investment management fee rate as the Acquiring Fund. BLJ currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.65% of its average weekly managed assets. BNJ currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.60% of its average weekly managed assets. Average weekly managed assets are the average weekly value of the Fund's total assets minus the sum of the Fund's accrued liabilities (which does not include liabilities represented by TOB leverage and the liquidation preference of BLJ's VRDP Shares or BNJ's VMTP Shares). The Acquiring Fund currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.50% of its average daily Net Assets. Average daily Net Assets are the average daily value of the Acquiring Fund's total assets minus the sum of the Acquiring Fund's accrued liabilities (which does not include liabilities represented by TOB leverage and the liquidation preference of the Acquiring Fund VRDP Shares).

If the Reorganizations are consummated, the annual contractual investment management fee rate of the Acquiring Fund will be the annual contractual investment management fee rate of the Combined Fund, which

Table of Contents

will be 0.50% of the average daily Net Assets of the Combined Fund. The annual contractual investment management fee rate of the Combined Fund represents a 15 basis point reduction in the annual contractual investment management fee rate for BLJ and a 10 basis point reduction in the annual contractual investment management fee rate for BNJ. Additionally, if any of the Reorganizations are consummated, the Investment Advisor has voluntarily agreed to waive a portion of its investment management fees equal to an annual rate of 0.01% of the average daily net assets of the Combined Fund, resulting in a contractual investment management fee rate of 0.49% of the average daily Net Assets of the Combined Fund. This voluntary waiver may be reduced or discontinued at any time.

Based on a *pro forma* Broadridge peer expense group for the Combined Fund, the estimated total annual fund expense ratio (excluding investment-related expenses and taxes) is expected to be in the second quartile and contractual investment management fee rate and actual investment management fee rate over total assets are each expected to be in the first quartile.

The level of expense savings (or increases) will vary depending on the combination of the Funds in the Reorganizations, and furthermore, there can be no assurance that future expenses will not increase or that any expense savings for any Fund will be realized as a result of any Reorganization.

Please see the Expense Table for Common Shareholders for additional information about the Funds' expenses.

Earnings and Distribution Rate.

The Combined Fund's earnings yield on NAV following the Reorganizations is expected to be potentially higher than each Fund's current earnings yield on NAV. The distribution level of any fund is subject to change based upon a number of factors, including the current and projected level of the fund's earnings, and may fluctuate over time; thus, subject to a number of other factors, including the fund's distribution policy, a higher earnings profile may potentially have a positive impact on such fund's distribution level over time. The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganizations. A Fund's earnings and net investment income are variables which depend on many factors, including its asset mix, portfolio turnover level, the amount of leverage utilized by the Fund, the costs of such leverage, the performance of its investments, the movement of interest rates and general market conditions. In addition, the Combined Fund's future earnings will vary depending upon the combination of the Reorganizations. There can be no assurance that the future earnings of a Fund, including the Combined Fund after the Reorganizations, will remain constant.

Undistributed Net Investment Income.

If the Reorganizations are approved by shareholders, then substantially all of the undistributed net investment income, if any, of each Fund is expected to be declared to such Fund's common shareholders prior to the Closing Date (the Pre-Reorganization Declared UNII Distributions). The declaration date, ex-dividend date (the Ex-Dividend Date) and record date of the Pre-Reorganization Declared UNII Distributions will occur prior to the Closing Date. However, all or a significant portion of the Pre-Reorganization Declared UNII Distributions may be paid in one or more distributions to common shareholders of the Funds entitled to such Pre-Reorganization Declared UNII Distributions after the Closing Date. Former BLJ and BNJ shareholders entitled to such Pre-Reorganization Declared UNII Distributions paid after the Closing Date will receive such distributions in cash.

Persons who purchase Common Shares of any of the Funds on or after the Ex-Dividend Date for the Pre-Reorganization Declared UNII Distributions should not expect to receive any distributions from any Fund until distributions, if any, are declared by the Board of the Combined Fund and paid to shareholders entitled to

Table of Contents

any such distributions. No such distributions are expected to be paid by the Combined Fund until at least approximately one month following the Closing Date.

Additionally, the Acquiring Fund, in order to seek to provide its common shareholders with distribution rate stability, may include in its Pre-Reorganization Declared UNII Distribution amounts in excess of its undistributed net investment income and net investment income accrued through the Closing Date; any such excess amounts are not expected to constitute a return of capital. This would result in the Acquiring Fund issuing incrementally more Common Shares in the Reorganizations since its NAV as of the Valuation Time would be lower relative to a scenario where such excess amounts were not included in the Acquiring Fund's Pre-Reorganization Declared UNII Distribution.

The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganizations. The Combined Fund is anticipated to retain a lower UNII balance after the Reorganizations than the Acquiring Fund prior to the Reorganizations. The lower anticipated UNII balance for the Combined Fund relative to the UNII balance of the Acquiring Fund poses risks for shareholders of the Combined Fund. UNII balances, in part, support the level of a fund's regular distributions and provide a cushion in the event a fund's net earnings for a particular distribution period are insufficient to support the level of its regular distribution for that period. If the Combined Fund's net earnings are below the level of its current distribution rate, the Combined Fund's UNII balance could be more likely to contribute to a determination to decrease the Combined Fund's distribution rate, or could make it more likely that the Combined Fund will make distributions consisting in part of a return of capital to maintain the level of its regular distributions. See Dividends and Distributions. Moreover, because a fund's UNII balance, in part, supports the level of a fund's regular distributions, the UNII balance of the Combined Fund could impact the trading market for the Combined Fund's Common Shares and the magnitude of the trading discount to NAV of the Combined Fund's Common Shares. However, the Combined Fund is anticipated to benefit from a lower expense ratio (compared to BNJ and BLJ), a potentially higher earnings profile and other anticipated benefits of economies of scale as discussed herein. Each Fund, including the Combined Fund, reserves the right to change its distribution policy with respect to common share distributions and the basis for establishing the rate of its distributions for the Common Shares at any time and may do so without prior notice to common shareholders. The payment of any distributions by any Fund, including the Combined Fund, is subject to, and will only be made when, as, and if, declared by the Board of such Fund. There is no assurance the Board of any Fund, including the Combined Fund, will declare any distributions for such Fund. To the extent any Pre-Reorganization Declared UNII Distribution is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. federal income tax purposes.

Premium/Discount to NAV.

As with any capital stock, the price of each Fund's Common Shares will fluctuate based on market conditions and other factors. If Common Shares are sold, the price received may be more or less than the original investment. Each Fund's Common Shares are designed for long-term investors and should not be treated as trading vehicles. Shares of closed-end management investment companies frequently trade at a discount from their NAV. This risk may be greater for investors who sell their Common Shares in a relatively short period of time after the completion of the Reorganizations.

The Common Shares of each Fund have historically traded at both a premium and a discount. The table below sets forth the market price, NAV, and the premium/discount to NAV of each Fund as of November 30, 2017.

Fund	Market Price	NAV	Premium/(Discount) to NAV
BLJ	\$14.48	\$15.66	(7.54)%
BNJ	\$15.51	\$15.42	0.58%
Acquiring Fund (MYJ)	\$15.59	\$15.86	(1.70)%

Table of Contents

To the extent BLJ s or BNJ s Common Shares are trading at a wider discount (or a narrower premium) than the Acquiring Fund at the time of its Reorganization, BLJ s or BNJ s common shareholders would have the potential for an economic benefit by the narrowing of the discount or widening of the premium. To the extent BLJ s or BNJ s Common Shares are trading at a narrower discount (or wider premium) than the Acquiring Fund at the time of its Reorganization, BLJ s or BNJ s common shareholders may be negatively impacted if its Reorganization is consummated. Acquiring Fund common shareholders would only benefit from a premium/discount perspective to the extent the post-Reorganization discount (or premium) of the Acquiring Fund Common Shares improves.

There can be no assurance that, after the Reorganizations, Common Shares of the Combined Fund will trade at a narrower discount to NAV or wider premium to NAV than the Common Shares of any individual Fund prior to the Reorganizations. Upon consummation of the Reorganizations, the Combined Fund Common Shares may trade at a price that is less than the current market price of Acquiring Fund Common Shares. In the Reorganizations, common shareholders of BLJ and BNJ will receive Common Shares of the Acquiring Fund based on the relative NAVs (not the market values) of each respective Fund s Common Shares. The market value of the Common Shares of the Combined Fund may be less than the market value of the Common Shares of each respective Fund prior to the Reorganizations.

Tax Considerations.

Each Reorganization is intended to qualify as a reorganization within the meaning of Section 368(a) of the Code. If a Reorganization so qualifies, in general, common shareholders of the applicable Fund will recognize no gain or loss for U.S. federal income tax purposes upon the exchange of their BLJ and BNJ Shares for Acquiring Fund Shares pursuant to their Reorganization (except with respect to cash received in lieu of fractional Common Shares). Additionally, each of BLJ and BNJ will recognize no gain or loss for U.S. federal income tax purposes by reason of its Reorganization. Neither the Acquiring Fund nor its shareholders will recognize any gain or loss for U.S. federal income tax purposes pursuant to the Reorganizations.

Shareholders of each Fund may receive distributions prior to, or after, the consummation of the Reorganizations, including distributions attributable to their proportionate share of each Fund s undistributed net investment income declared prior to the consummation of the Reorganizations or the Combined Fund built-in gains, if any, recognized after the Reorganizations, when such income and gains are eventually distributed by the Combined Fund. To the extent that such a distribution is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. federal income tax purposes.

The Funds shareholders should consult their own tax advisers regarding the U.S. federal income tax consequences of the Reorganizations, as well as the effects of state, local and non-U.S. tax laws, including possible changes in tax laws.

See U.S. Federal Income Tax Consequences of the Reorganizations for a summary of U.S. federal income tax consequences generally applicable to the Reorganizations.

General Risks of Investing in the Acquiring Fund

The Combined Fund will be managed in accordance with the same investment objective and investment policies, and subject to the same risks, as the Acquiring Fund. Risk is inherent in all investing. The value of your investment in the Acquiring Fund, as well as the amount of return you receive on your investment, may fluctuate significantly from day to day and over time. The Acquiring Fund is not meant to provide a vehicle for those who wish to exploit short-term swings in the stock market and is intended for long-term investors. An investment in Common Shares of the Acquiring Fund should not be considered a complete investment program. Each shareholder should take into account the Acquiring Fund s investment objective as well as the shareholder s other investments when considering an investment in the Acquiring Fund. You may lose part or all of your

Table of Contents

investment in the Acquiring Fund or your investment may not perform as well as other similar investments. The risks that predominately affect Common Shares of the Acquiring Fund include the following:

Non-Diversified Status. The Acquiring Fund is a non-diversified fund. As defined in the 1940 Act, a non-diversified fund may invest a significant part of its investments in a smaller number of issuers than can a diversified fund. Having a larger percentage of assets in a smaller number of issuers makes a non-diversified fund, like the Acquiring Fund, more susceptible to the risk that one single event or occurrence can have a significant adverse impact upon the Acquiring Fund.

Investment and Market Discount Risk. An investment in the Acquiring Fund's Common Shares is subject to investment risk, including the possible loss of the entire amount that you invest. As with any stock, the price of the Acquiring Fund's Common Shares will fluctuate with market conditions and other factors. If shares are sold, the price received may be more or less than the original investment. Common Shares are designed for long-term investors and the Acquiring Fund should not be treated as a trading vehicle. Shares of closed-end management investment companies frequently trade at a discount from their NAV. This risk is separate and distinct from the risk that the Acquiring Fund's NAV could decrease as a result of its investment activities. At any point in time an investment in the Acquiring Fund's Common Shares may be worth less than the original amount invested, even after taking into account distributions paid by the Acquiring Fund. This risk may be greater for investors who sell their Common Shares in a relatively short period of time after completion of the Reorganizations. During periods in which the Acquiring Fund may use leverage, the Acquiring Fund's investment, market discount and certain other risks will be magnified.

Municipal Bond Market Risk. Economic exposure to the municipal securities market involves certain risks. The Acquiring Fund's economic exposure to municipal securities includes municipal securities in the Acquiring Fund's portfolio and municipal securities to which the Acquiring Fund is exposed through the ownership of residual interest municipal tender option bonds (TOB Residuals). The municipal market is one in which dealer firms make markets in bonds on a principal basis using their proprietary capital, and during the financial crisis of 2007-2009 these firms' capital was severely constrained. As a result, some firms were unwilling to commit their capital to purchase and to serve as a dealer for municipal securities. Certain municipal securities may not be registered with the SEC or any state securities commission and will not be listed on any national securities exchange. The amount of public information available about the municipal securities to which the Acquiring Fund is economically exposed is generally less than that for corporate equities or bonds, and the investment performance of the Acquiring Fund may therefore be more dependent on the analytical abilities of the Investment Advisor than would be a fund investing solely in stocks or taxable bonds. The secondary market for municipal securities, particularly the below investment grade securities to which the Acquiring Fund may be economically exposed, also tends to be less well-developed or liquid than many other securities markets, which may adversely affect the Acquiring Fund's ability to sell such securities at attractive prices or at prices approximating those at which the Acquiring Fund currently values them.

In addition, many state and municipal governments that issue securities are under significant economic and financial stress and may not be able to satisfy their obligations. The ability of municipal issuers to make timely payments of interest and principal may be diminished during general economic downturns and as governmental cost burdens are reallocated among federal, state and local governments. The taxing power of any governmental entity may be limited by provisions of state constitutions or laws and an entity's credit will depend on many factors, including the entity's tax base, the extent to which the entity relies on federal or state aid, and other factors which are beyond the entity's control. In addition, laws enacted in the future by Congress or state legislatures or referenda could extend the time for payment of principal and/or interest, or impose other constraints on enforcement of such obligations or on the ability of municipalities to levy taxes. Issuers of municipal securities might seek protection under the bankruptcy laws. In the event of bankruptcy of such an issuer, holders of municipal securities could experience delays in collecting principal and interest and such holders may not, in all circumstances, be able to collect all principal and interest to which they are entitled. To enforce its rights in the event of a default in the payment of interest or repayment of principal, or both, the

Table of Contents

Acquiring Fund may take possession of and manage the assets securing the issuer's obligations on such securities, which may increase the Acquiring Fund's operating expenses. Any income derived from the Acquiring Fund's ownership or operation of such assets may not be tax-exempt or may fail to generate qualifying income for purposes of the income tests applicable to regulated investment companies (RICs).

Taxable Municipal Securities Risk. Build America Bonds involve similar risks as municipal bonds, including credit and market risk. In particular, should a Build America Bond's issuer fail to continue to meet the applicable requirements imposed on the bonds as provided by the American Recovery and Reinvestment Act (ARRA), it is possible that such issuer may not receive federal cash subsidy payments, impairing the issuer's ability to make scheduled interest payments. The Build America Bond program expired on December 31, 2010 and no further issuance is permitted unless Congress renews the program. As a result, the number of available Build America Bonds is limited, which may negatively affect the value of the Build America Bonds. In addition, there can be no assurance that Build America Bonds will be actively traded. It is difficult to predict the extent to which a market for such bonds will continue, meaning that Build America Bonds may experience greater illiquidity than other municipal obligations. The Build America Bonds outstanding as of December 31, 2010 will continue to be eligible for the federal interest rate subsidy, which continues for the life of the Build America Bonds; however, no bonds issued following expiration of the Build America Bond program will be eligible for the U.S. federal tax subsidy.

Risk Factors and Special Considerations Relating to New Jersey Municipal Bonds. The Acquiring Fund ordinarily will invest at least 80% of its total assets in New Jersey Municipal Bonds; therefore, it is more susceptible to factors adversely affecting issuers of New Jersey Municipal Bonds than is a municipal bond fund that is not concentrated in issuers of New Jersey Municipal Bonds to this degree. Briefly summarized below are important financial concerns relating to the Acquiring Fund's investments in New Jersey municipal obligations. The information set forth below and in Appendix B to the Statement of Additional Information is derived from sources that are generally available to investors. This information is intended to give a recent historical description and is not intended to indicate future or continuing trends in the financial or other positions of the State of New Jersey. It should be noted that the information recorded here primarily is based on the economic and budget forecasts found in certain recent publications issued by New Jersey. The accuracy and completeness of those publications have not been independently verified. There may be significant changes in circumstances altering the economic and budget predictions since the time of those publications or after the publication of this Joint Proxy Statement/Prospectus.

The Acquiring Fund is susceptible to certain factors which could adversely affect issuers of New Jersey municipal obligations. The ability of issuers to pay interest on, and repay principal of, New Jersey municipal obligations may be affected by: (1) amendments to the Constitution of the State of New Jersey and other statutes that limit the taxing and spending authority of New Jersey government entities; (2) the general financial and economic profile as well as the political climate of New Jersey, its public authorities and political subdivisions; and (3) a change in New Jersey laws and regulations or subsequent court decisions that may affect, directly or indirectly, New Jersey municipal obligations. The Fund's yield and share price are sensitive to these factors as one or more of such factors could undermine New Jersey issuers' efforts to borrow, inhibit secondary market liquidity and erode credit ratings. Furthermore, it should be noted that the creditworthiness of obligations issued by local New Jersey issuers may be unrelated to the creditworthiness of obligations issued by New Jersey and that there is no obligation on the part of New Jersey to make payment on such local obligations in the event of default.

The State Department of the Treasury's Office of Management and Budget's Comprehensive Annual Financial Report for the fiscal year ended June 30, 2016 reported that for fiscal year 2016, State revenues, including transfers, totaled \$58.9 billion or a decrease of \$0.9 billion when compared to the prior fiscal year. The decrease in total revenues is primarily attributable to decreases in interest earnings and general taxes, primarily the State's Corporate Business Tax. State expenses totaled \$66 billion, for an increase of \$0.9 billion in comparison to the prior fiscal year.

Table of Contents

As of June 30, 2016, New Jersey's outstanding long-term debt obligations for governmental activities totaled \$171.6 billion, representing an \$18.1 billion increase from the prior fiscal year. Long-term bonded debt obligations totaled \$42.7 billion, while other long-term obligations totaled \$128.9 billion.

New Jersey's various outstanding general obligation bonds were rated **A** with a negative outlook by Fitch Ratings (**Fitch**) as of September 5, 2014, **A3** by Moody's Investors Service, Inc. (**Moody's**) as of March 27, 2017, and **A-** by Standard & Poor's Ratings Group, a division of The McGraw-Hill Companies, Inc. (**S&P**) as of November 14, 2016. Kroll Bond Rating Agency has also assigned an **A** rating to New Jersey's general obligation debt. These ratings reflect New Jersey's credit quality only, and do not indicate the creditworthiness of other tax-exempt securities in which the Acquiring Fund may invest.

The foregoing information constitutes only a brief summary of some of the general factors that may impact certain issuers of municipal bonds and does not purport to be a complete or exhaustive description of all adverse conditions to which the issuers of municipal bonds held by the Acquiring Fund are subject. See Appendix B to the Statement of Additional Information for a further discussion of factors affecting New Jersey municipal securities. The information set forth above and in Appendix B to the Statement of Additional Information is derived from sources that are generally available to investors. This information is intended to give a recent historical description and is not intended to indicate future or continuing trends in the financial or other positions of the State of New Jersey.

Municipal Securities Risks. Municipal securities risks include the ability of the issuer to repay the obligation, the relative lack of information about certain issuers of municipal securities, and the possibility of future legislative changes which could affect the market for and the value of municipal securities. These risks include:

General Obligation Bonds Risks. The full faith, credit and taxing power of the municipality that issues a general obligation bond secures payment of interest and repayment of principal. Timely payments depend on the issuer's credit quality, ability to raise tax revenues and ability to maintain an adequate tax base.

Revenue Bonds Risks. Revenue bonds issued by state or local agencies to finance the development of low-income, multi-family housing involve special risks in addition to those associated with municipal bonds generally, including that the underlying properties may not generate sufficient income to pay expenses and interest costs. Payments of interest and principal on revenue bonds are made only from the revenues generated by a particular facility, class of facilities or the proceeds of a special tax or other revenue source. These payments depend on the money earned by the particular facility or class of facilities or the amount of revenues derived from another source. Such bonds are generally nonrecourse against the property owner, may be junior to the rights of others with an interest in the properties, may pay interest that changes based in part on the financial performance of the property, may be prepayable without penalty and may be used to finance the construction of housing developments which, until completed and rented, do not generate income to pay interest. Increases in interest rates payable on senior obligations may make it more difficult for issuers to meet payment obligations on subordinated bonds.

Private Activity Bonds Risks. Municipalities and other public authorities issue private activity bonds to finance development of industrial facilities for use by a private enterprise. The private enterprise pays the principal and interest on the bond, and the issuer does not pledge its full faith, credit and taxing power for repayment. If the private enterprise defaults on its payments, the Acquiring Fund may not receive any income or get its money back from the investment. These bonds may subject certain investors in the Acquiring Fund to the federal alternative minimum tax.

Moral Obligation Bonds Risks. Moral obligation bonds are generally issued by special purpose public authorities of a state or municipality. If the issuer is unable to meet its obligations, repayment of these bonds becomes a moral commitment, but not a legal obligation, of the state or municipality.

Table of Contents

Municipal Notes Risks. Municipal notes are shorter term municipal debt obligations. They may provide interim financing in anticipation of, and are secured by, tax collection, bond sales or revenue receipts. If there is a shortfall in the anticipated proceeds, the notes may not be fully repaid and the Acquiring Fund may lose money.

Municipal Lease Obligations Risks. In a municipal lease obligation, the issuer agrees to make payments when due on the lease obligation. The issuer will generally appropriate municipal funds for that purpose, but is not obligated to do so. Although the issuer does not pledge its unlimited taxing power for payment of the lease obligation, the lease obligation is secured by the leased property. However, if the issuer does not fulfill its payment obligation it may be difficult to sell the property and the proceeds of a sale may not cover the Acquiring Fund's loss.

Municipal leases and certificates of participation involve special risks not normally associated with general obligations or revenue bonds. Leases and installment purchase or conditional sale contracts (which normally provide for title to the leased asset to pass eventually to the governmental issuer) have evolved as a means for governmental issuers to acquire property and equipment without meeting the constitutional and statutory requirements for the issuance of debt. The debt issuance limitations are deemed to be inapplicable because of the inclusion in many leases or contracts of nonappropriation clauses that relieve the governmental issuer of any obligation to make future payments under the lease or contract unless money is appropriated for such purpose by the appropriate legislative body on a yearly or other periodic basis. In addition, such leases or contracts may be subject to the temporary abatement of payments in the event that the governmental issuer is prevented from maintaining occupancy of the lease premises or utilizing the leased equipment. Although the obligations may be secured by the leased equipment or facilities, the disposition of the property in the event of nonappropriation or foreclosure might prove difficult, time consuming and costly, and may result in a delay in recovering or the failure to fully recover ownership of the assets.

Certificates of participation, which represent interests in unmanaged pools of municipal leases or installment contracts, involve the same risks as the underlying municipal leases. In addition, the Acquiring Fund may be dependent upon the municipal authority issuing the certificate of participation to exercise remedies with respect to the underlying securities.

Certificates of participation also entail a risk of default or bankruptcy, both of the issuer of the municipal lease and also the municipal agency issuing the certificate of participation.

Liquidity of Investments. Certain municipal securities in which the Acquiring Fund invests may lack an established secondary trading market or are otherwise considered illiquid. Liquidity of a security relates to the ability to easily dispose of the security and the price to be obtained and does not generally relate to the credit risk or likelihood of receipt of cash at maturity. Illiquid securities may trade at a discount from comparable, more liquid investments.

The financial markets in general, and certain segments of the municipal securities markets in particular, have in recent years experienced periods of extreme secondary market supply and demand imbalance, resulting in a loss of liquidity during which market prices were suddenly and substantially below traditional measures of intrinsic value. During such periods some securities could be sold only at arbitrary prices and with substantial losses. Periods of such market dislocation may occur again at any time.

Tax-Exempt Status Risk. In making investments, the Acquiring Fund and the Investment Advisor will rely on the opinion of issuers' bond counsel and, in the case of derivative securities, sponsors' counsel, on the tax-exempt status of interest on municipal obligations and payments under tax-exempt derivative securities. Neither the Acquiring Fund nor the Investment Advisor will independently review the bases for those tax opinions. If any of those tax opinions are ultimately determined to be incorrect or if events occur after the security is acquired that impact the security's tax-exempt status, the Acquiring Fund and its shareholders could be subject to substantial tax liabilities. An assertion by the Internal Revenue Service (the "IRS") that a portfolio

Table of Contents

security is not exempt from U.S. federal income tax (contrary to indications from the issuer) could affect the Acquiring Fund's and its shareholders' income tax liability for the current or past years and could create liability for information reporting penalties. In addition, an IRS assertion of taxability may cause the Acquiring Fund to be ineligible to pay exempt-interest dividends or may impair the liquidity and the fair market value of the securities.

Taxability Risk. The Acquiring Fund intends to minimize the payment of taxable income to shareholders by investing in tax-exempt or municipal securities in reliance at the time of purchase on an opinion of bond counsel to the issuer that the interest paid on those securities will be excludable from gross income for U.S. federal income tax purposes. Such securities, however, may be determined to pay, or have paid, taxable income subsequent to the Acquiring Fund's acquisition of the securities. In that event, the IRS may demand that the Acquiring Fund pay U.S. federal income taxes on the affected interest income, and, if the Acquiring Fund agrees to do so, the Acquiring Fund's yield could be adversely affected. In addition, the treatment of dividends previously paid or to be paid by the Acquiring Fund as exempt interest dividends could be adversely affected, subjecting the Acquiring Fund's shareholders to increased U.S. federal income tax liabilities. In addition, future laws, regulations, rulings or court decisions may cause interest on municipal securities to be subject, directly or indirectly, to U.S. federal income taxation or interest on state municipal securities to be subject to state or local income taxation, or the value of state municipal securities to be subject to state or local intangible personal property tax, or may otherwise prevent the Acquiring Fund from realizing the full current benefit of the tax-exempt status of such securities. Any such change could also affect the market price of such securities, and thus the value of an investment in the Acquiring Fund.

Fixed Income Securities Risks. Fixed income securities in which the Acquiring Fund may invest are generally subject to the following risks:

Interest Rate Risk. The market value of bonds and other fixed-income securities changes in response to interest rate changes and other factors. Interest rate risk is the risk that prices of bonds and other fixed-income securities will increase as interest rates fall and decrease as interest rates rise. The Acquiring Fund may be subject to a greater risk of rising interest rates due to the current period of historically low interest rates. The Federal Reserve recently increased the federal funds rate and has indicated that it may raise the federal funds rate further in the near future. Therefore, there is a risk that interest rates will rise, which will likely drive down bond prices. The magnitude of these fluctuations in the market price of bonds and other fixed-income securities is generally greater for those securities with longer maturities. Fluctuations in the market price of the Acquiring Fund's investments will not affect interest income derived from instruments already owned by the Acquiring Fund, but will be reflected in the Acquiring Fund's NAV. The Acquiring Fund may lose money if short-term or long-term interest rates rise sharply in a manner not anticipated by the Acquiring Fund's management. To the extent the Acquiring Fund invests in debt securities that may be prepaid at the option of the obligor (such as mortgage-related securities), the sensitivity of such securities to changes in interest rates may increase (to the detriment of the Acquiring Fund) when interest rates rise. Moreover, because rates on certain floating rate debt securities typically reset only periodically, changes in prevailing interest rates (and particularly sudden and significant changes) can be expected to cause some fluctuations in the NAV of the Acquiring Fund to the extent that it invests in floating rate debt securities. These basic principles of bond prices also apply to U.S. Government securities. A security backed by the full faith and credit of the U.S. Government is guaranteed only as to its stated interest rate and face value at maturity, not its current market price. Just like other fixed-income securities, government-guaranteed securities will fluctuate in value when interest rates change.

The Acquiring Fund's use of leverage, as described below, will tend to increase the Acquiring Fund's interest rate risk. The Acquiring Fund may utilize certain strategies, including taking positions in futures or interest rate swaps, for the purpose of reducing the interest rate sensitivity of fixed income securities held by the Acquiring Fund and decreasing the Acquiring Fund's exposure to interest rate risk. The Acquiring Fund is not required to hedge its exposure to interest rate risk and may choose not to do so. In addition, there is no assurance

Table of Contents

that any attempts by the Acquiring Fund to reduce interest rate risk will be successful or that any hedges that the Acquiring Fund may establish will perfectly correlate with movements in interest rates.

The Acquiring Fund may invest in variable and floating rate debt instruments, which generally are less sensitive to interest rate changes than longer duration fixed rate instruments, but may decline in value in response to rising interest rates if, for example, the rates at which they pay interest do not rise as much, or as quickly, as market interest rates in general. Conversely, variable and floating rate instruments generally will not increase in value if interest rates decline. The Acquiring Fund also may invest in inverse floating rate debt securities, which may decrease in value if interest rates increase, and which also may exhibit greater price volatility than fixed rate debt obligations with similar credit quality. To the extent the Acquiring Fund holds variable or floating rate instruments, a decrease (or, in the case of inverse floating rate securities, an increase) in market interest rates will adversely affect the income received from such securities, which may adversely affect the NAV of the Acquiring Fund's Common Shares.

Issuer Risk. The value of fixed income securities may decline for a number of reasons which directly relate to the issuer, such as management performance, financial leverage, reduced demand for the issuer's goods and services, historical and prospective earnings of the issuer and the value of the assets of the issuer.

Credit Risk. Credit risk is the risk that one or more fixed income securities in the Acquiring Fund's portfolio will decline in price or fail to pay interest or principal when due because the issuer of the security experiences a decline in its financial status. Credit risk is increased when a portfolio security is downgraded or the perceived creditworthiness of the issuer deteriorates. To the extent the Acquiring Fund invests in below investment grade securities, it will be exposed to a greater amount of credit risk than a fund which only invests in investment grade securities. In addition, to the extent the Acquiring Fund uses credit derivatives, such use will expose it to additional risk in the event that the bonds underlying the derivatives default. The degree of credit risk depends on the issuer's financial condition and on the terms of the securities. If rating agencies lower their ratings of municipal securities in the Acquiring Fund's portfolio, the value of those securities could decline, which could jeopardize rating agencies' ratings of Acquiring Fund VRDP Shares. Because a significant source of income for the Acquiring Fund is the interest and principal payments on the municipal securities in which it invests, any default by an issuer of a municipal security could have a negative impact on the Acquiring Fund's ability to pay dividends on Common Shares or any VRDP Shares then outstanding and could result in the redemption of some or all of any VRDP Shares then outstanding.

Prepayment Risk. During periods of declining interest rates, borrowers may exercise their option to prepay principal earlier than scheduled. For fixed rate securities, such payments often occur during periods of declining interest rates, forcing the Acquiring Fund to reinvest in lower yielding securities, resulting in a possible decline in the Acquiring Fund's income and distributions to shareholders. This is known as prepayment or call risk. Below investment grade securities frequently have call features that allow the issuer to redeem the security at dates prior to its stated maturity at a specified price (typically greater than par) only if certain prescribed conditions are met (call protection). For premium bonds (bonds acquired at prices that exceed their par or principal value) purchased by the Acquiring Fund, prepayment risk may be enhanced.

Reinvestment Risk. Reinvestment risk is the risk that income from the Acquiring Fund's portfolio will decline if the Acquiring Fund invests the proceeds from matured, traded or called fixed income securities at market interest rates that are below the Acquiring Fund portfolio's current earnings rate.

Duration and Maturity Risk. The Investment Advisor may seek to adjust the portfolio's duration or maturity based on its assessment of current and projected market conditions and all factors that the Investment Advisor deems relevant. Any decisions as to the targeted duration or maturity of any particular category of investments or of the Acquiring Fund's portfolio generally will be made based on all pertinent market factors at any given time. The Acquiring Fund may incur costs in seeking to adjust the portfolio average duration or maturity. There can be no assurances that the Investment Advisor's assessment of current and projected market conditions will be

Table of Contents

correct or that any strategy to adjust the portfolio's duration or maturity will be successful at any given time. Generally speaking, the longer the duration of the Acquiring Fund's portfolio, the more exposure the Acquiring Fund will have to the interest rate risks described above.

Leverage Risk. The use of leverage creates an opportunity for increased net investment income dividends to Common Shares, but also creates risks for the holders of Common Shares. There is no assurance that the Acquiring Fund's intended leveraging strategy will be successful. Leverage involves risks and special considerations for common shareholders, including:

the likelihood of greater volatility of NAV, market price and distribution rate of the Common Shares than a comparable portfolio without leverage;

the risk that fluctuations in interest rates on borrowings and short-term debt or in the interest or dividend rates on any leverage that the Acquiring Fund must pay will reduce the return to the common shareholders;

the effect of leverage in a declining market, which is likely to cause a greater decline in the NAV of the Common Shares than if the Acquiring Fund were not leveraged, which may result in a greater decline in the market price of the Common Shares;

when the Acquiring Fund uses financial leverage, the investment advisory fee payable to the Investment Advisor will be higher than if the Acquiring Fund did not use leverage; and

leverage may increase operating costs, which may reduce total return.

Any decline in the NAV of the Acquiring Fund's investments will be borne entirely by the holders of Common Shares. Therefore, if the market value of the Acquiring Fund's portfolio declines, leverage will result in a greater decrease in NAV to the holders of Common Shares than if the Acquiring Fund were not leveraged. This greater NAV decrease will also tend to cause a greater decline in the market price for the Common Shares. While the Acquiring Fund may from time to time consider reducing leverage in response to actual or anticipated changes in interest rates in an effort to mitigate the increased volatility of current income and NAV associated with leverage, there can be no assurances that the Acquiring Fund will actually reduce leverage in the future or that any reduction, if undertaken, will benefit the holders of Common Shares. Changes in the future direction of interest rates are very difficult to predict accurately. If the Acquiring Fund were to reduce leverage based on a prediction about future changes to interest rates, and that prediction turned out to be incorrect, the reduction in leverage would likely operate to reduce the income and/or total returns to holders of Common Shares relative to the circumstance where the Acquiring Fund had not reduced leverage. The Acquiring Fund may decide that this risk outweighs the likelihood of achieving the desired reduction to volatility in income and share price if the prediction were to turn out to be correct, and determine not to reduce leverage.

The Acquiring Fund currently utilizes leverage through the issuance of VRDP Shares (see Information about the Preferred Shares of the Funds) and investments in TOB Residuals (see Tender Option Bond Risk). The use of TOB Residuals may require the Acquiring Fund to segregate or designate on its books and records assets to cover its obligations. While the segregated or earmarked assets may be invested in liquid assets, they may not be used for other operational purposes. Consequently, the use of leverage may limit the Acquiring Fund's flexibility and may require that the Acquiring Fund sell other portfolio investments to pay Fund expenses, to maintain assets in an amount sufficient to cover the Acquiring Fund's leveraged exposure or to meet other obligations at a time when it may be disadvantageous to sell such assets.

Certain types of leverage used by the Acquiring Fund may result in the Acquiring Fund being subject to covenants relating to asset coverage and portfolio composition requirements. The Acquiring Fund may be subject to certain restrictions on investments imposed by guidelines of one or more rating agencies, which issue ratings for the VRDP Shares issued by the Acquiring Fund or the governing instrument for the Acquiring Fund VRDP Shares. These guidelines may impose asset coverage or portfolio composition requirements that are more

Table of Contents

stringent than those imposed by the 1940 Act. The Investment Advisor does not believe that these covenants or guidelines will impede it from managing the Acquiring Fund's portfolio in accordance with the Acquiring Fund's investment objective and policies.

While there are any preferred shares of the Acquiring Fund outstanding, the Acquiring Fund may not declare any cash dividend or other distribution on its Common Shares, unless at the time of such declaration, (i) all accrued preferred shares dividends have been paid and (ii) the value of the Acquiring Fund's total assets (determined after deducting the amount of such dividend or other distribution), less all liabilities and indebtedness of the Acquiring Fund, is at least 200% (as required by the 1940 Act) of the liquidation preference of the outstanding preferred shares (expected to equal the aggregate original purchase price of the outstanding preferred shares plus any accrued and unpaid dividends thereon, whether or not earned or declared on a cumulative basis). In addition to the requirements of the 1940 Act, the Acquiring Fund may be required to comply with other asset coverage requirements as a condition of the Acquiring Fund obtaining a rating of its preferred shares from a nationally recognized rating service or other asset coverage requirements under an agreement with the liquidity provider of the Acquiring Fund VRDP Shares. These requirements may include an asset coverage test more stringent than that under the 1940 Act. This limitation on the Acquiring Fund's ability to make distributions on its Common Shares could in certain circumstances impair the ability of the Acquiring Fund to maintain its qualification for taxation as a regulated investment company under the Code. The Acquiring Fund may, however, to the extent possible, purchase or redeem preferred shares from time to time to maintain compliance with such asset coverage requirements and may pay special dividends to the holders of the preferred shares in certain circumstances in connection with any such impairment of the Acquiring Fund's status as a regulated investment company under the Code.

The Acquiring Fund may invest in the securities of other investment companies. Such securities may also be leveraged, and will therefore be subject to the leverage risks described above. This additional leverage may in certain market conditions reduce the NAV of the Acquiring Fund's Common Shares and the returns to the holders of Common Shares.

Tender Option Bond Risk. The Acquiring Fund currently leverages its assets through the use of TOB Residuals, which are derivative interests in municipal bonds. The TOB Residuals in which the Acquiring Fund may invest pay interest or income that, in the opinion of counsel to the issuer of such TOB Residuals, is exempt from regular U.S. federal income tax. No independent investigation will be made to confirm the tax-exempt status of the interest or income paid by TOB Residuals held by the Acquiring Fund. There is no assurance that the Acquiring Fund's strategy of using TOB Residuals to leverage its assets will be successful.

TOB Residuals represent beneficial interests in a special purpose trust formed for the purpose of holding municipal bonds contributed by one or more funds (a TOB Trust). A TOB Trust typically issues two classes of beneficial interests: short-term floating rate interests (TOB Floaters), which are sold to third party investors, and TOB Residuals, which are generally issued to the fund(s) that transferred municipal bonds to the TOB Trust. TOB Floaters may have first priority on the cash flow from the municipal bonds held by the TOB Trust and are enhanced with a liquidity support arrangement provided by a third party bank or other financial institution (the TOB's Liquidity Provider) which allows holders to tender their position at par (plus accrued interest). The Acquiring Fund, as a holder of TOB Residuals, is paid the residual cash flow from the TOB Trust. As result, distributions on TOB Residuals will bear an inverse relationship to short-term municipal bond interest rates. Distributions on the TOB Residuals paid to the Acquiring Fund will be reduced or, in the extreme, eliminated as short-term municipal interest rates rise and will increase when short-term municipal interest rates fall. The amount of such reduction or increase is a function, in part, of the amount of TOB Floaters sold by the TOB Trust relative to the amount of the TOB Residuals that it sells. The greater the amount of TOB Floaters sold relative to the TOB Residuals, the more volatile the distributions on the TOB Residuals will be. Short-term interest rates are at historic lows and may be more likely to rise in the current market environment.

Table of Contents

The municipal bonds transferred to a TOB Trust typically are high grade municipal bonds. In certain cases, when municipal bonds transferred are lower grade municipal bonds, the TOB Trust transaction includes a credit enhancement feature that provides for the timely payment of principal and interest on the bonds to the TOB Trust by a credit enhancement provider. The TOB Trust would be responsible for the payment of the credit enhancement fee and the Acquiring Fund, as a TOB Residual holder, would be responsible for reimbursement of any payments of principal and interest made by the credit enhancement provider.

Any economic leverage achieved through the Acquiring Fund's investment in TOB Residuals will increase the possibility that Common Share long-term returns will be diminished if the cost of the TOB Floaters issued by a TOB Trust exceeds the return on the securities in the TOB Trust. If the income and gains earned on municipal securities owned by a TOB Trust that issues TOB Residuals to the Acquiring Fund are greater than the payments due on the TOB Floaters issued by the TOB Trust, the Acquiring Fund's returns will be greater than if it had not invested in the TOB Residuals.

Although the Acquiring Fund generally would unwind a TOB transaction rather than try to sell a TOB Residual, if it did try to sell a TOB Residual, its ability to do so would depend on the liquidity of the TOB Residual. TOB Residuals have varying degrees of liquidity based, among other things, upon the liquidity of the underlying securities deposited in the TOB Trust. The market price of TOB Residuals is more volatile than the underlying municipal bonds due to leverage.

The leverage attributable to the Acquiring Fund's use of TOB Residuals may be called away on relatively short notice and therefore may be less permanent than more traditional forms of leverage. The TOB Trust may be collapsed without the consent of the Acquiring Fund upon the occurrence of termination events, as defined in the TOB Trust agreements. Upon the occurrence of a termination event, a TOB Trust would be liquidated with the proceeds applied first to any accrued fees owed to the trustee of the TOB Trust, the remarketing agent of the TOB Floaters and the TOBs Liquidity Provider. Upon certain termination events, the holders of the TOB Floaters would be paid before the TOB Residual holders (i.e., the Acquiring Fund) whereas in other termination events, the holders of TOB Floaters and the TOB Residual holders would be paid pro rata.

The Acquiring Fund may invest in a TOB Trust on either a non-recourse or recourse basis. If the Acquiring Fund invests in a TOB Trust on a recourse basis, it will typically enter into a reimbursement agreement with the TOBs Liquidity Provider pursuant to which the Acquiring Fund is required to reimburse the TOBs Liquidity Provider the balance, if any, of the amount owed under the liquidity facility over the liquidation proceeds (the Liquidation Shortfall). As a result, if the Acquiring Fund invests in a recourse TOB Trust, the Acquiring Fund will bear the risk of loss with respect to any Liquidation Shortfall.

The use of TOB Residuals will require the Acquiring Fund to earmark or segregate liquid assets in an amount equal to any TOB Floaters, plus any accrued but unpaid interest due on the TOB Floaters, issued by TOB Trusts sponsored by, or on behalf of, the Acquiring Fund that are not owned by the Acquiring Fund. The use of TOB Residuals may also require the Acquiring Fund to earmark or segregate liquid assets in an amount equal to loans provided by the TOBs Liquidity Provider to the TOB Trust to purchase tendered TOB Floaters. While the segregated assets may be invested in liquid securities, they may not be used for other operational purposes. Consequently, the use of leverage through TOB Residuals may limit the Acquiring Fund's flexibility and may require that the Acquiring Fund sell other portfolio investments to pay Fund expenses, to maintain assets in an amount sufficient to cover the Acquiring Fund's leveraged exposure or to meet other obligations at a time when it may be disadvantageous to sell such assets. Future regulatory requirements or SEC guidance may necessitate more onerous contractual or regulatory requirements, which may increase the costs or reduce the degree of potential economic benefits of TOB Trust transactions or limit the Acquiring Fund's ability to enter into or manage TOB Trust transactions.

The Acquiring Fund structures and sponsors the TOB Trusts in which it holds TOB Residuals and has certain duties and responsibilities, which may give rise to certain additional risks including, but not limited to, compliance, securities law and operational risks.

Table of Contents

The SEC and various federal banking and housing agencies recently adopted credit risk retention rules for securitizations (the Risk Retention Rules). The Risk Retention Rules would require the sponsor of a TOB Trust to retain at least 5% of the credit risk of the underlying assets supporting the TOB Trust's municipal bonds. The Risk Retention Rules may adversely affect the Acquiring Fund's ability to engage in TOB Trust transactions or increase the costs of such transactions in certain circumstances.

TOB Trusts constitute an important component of the municipal bond market. Any modifications or changes to the rules governing TOB Trusts may adversely impact the municipal market and the Acquiring Fund, including through reduced demand for and liquidity of municipal bonds and increased financing costs for municipal issuers. The ultimate impact of any potential modifications on the TOB market and the overall municipal market is not yet certain.

Please see The Acquiring Fund's Investments Leverage Tender Option Bonds for additional information.

Insurance Risk. Insurance guarantees that interest payments on a municipal security will be made on time and that the principal will be repaid when the security matures. Insurance is expected to protect the Acquiring Fund against losses caused by a municipal security issuer's failure to make interest and principal payments. However, insurance does not protect the Acquiring Fund or its shareholders against losses caused by declines in a municipal security's value. Also, the Acquiring Fund cannot be certain that any insurance company will make the payments it guarantees. Certain significant providers of insurance for municipal securities incurred significant losses as a result of exposure to sub-prime mortgages and other lower credit quality investments that experienced defaults or otherwise suffered extreme credit deterioration during the financial crisis of 2007-2009. These losses have reduced the insurers' capital and called into question their continued ability to perform their obligations under such insurance if they are called upon to do so in the future. While an insured municipal security will typically be deemed to have the rating of its insurer, if the insurer of a municipal security suffers a downgrade in its credit rating or the market discounts the value of the insurance provided by the insurer, the rating of the underlying municipal security will be more relevant and the value of the municipal security would more closely, if not entirely, reflect such rating. The Acquiring Fund may lose money on its investment if the insurance company does not make payments it guarantees. If a municipal security's insurer fails to fulfill its obligations or loses its credit rating, the value of the security could drop.

Yield and Ratings Risk. The yields on debt obligations are dependent on a variety of factors, including general market conditions, conditions in the particular market for the obligation, the financial condition of the issuer, the size of the offering, the maturity of the obligation and the ratings of the issue. The ratings of Moody's, S&P and Fitch, which are described in Appendix C to the Statement of Additional Information, represent their respective opinions as to the quality of the obligations which they undertake to rate. Ratings, however, are general and are not absolute standards of quality. Consequently, obligations with the same rating, maturity and interest rate may have different market prices. Subsequent to its purchase by the Acquiring Fund, a rated security may cease to be rated. The Investment Advisor will consider such an event in determining whether the Acquiring Fund should continue to hold the security.

Ratings are relative and subjective and, although ratings may be useful in evaluating the safety of interest and principal payments, they do not evaluate the market value risk of such obligations. Although these ratings may be an initial criterion for selection of portfolio investments, the Investment Advisor also will independently evaluate these securities and the ability of the issuers of such securities to pay interest and principal. To the extent that the Acquiring Fund invests in lower grade securities that have not been rated by a rating agency, the Acquiring Fund's ability to achieve its investment objective will be more dependent on the Investment Advisor's credit analysis than would be the case when the Acquiring Fund invests in rated securities.

High Yield Securities Risk. The Acquiring Fund may invest in high yield municipal bonds that are rated, at the time of investment, Ba/BB or B by Moody's, S&P or Fitch or securities comparably rated by other rating

Table of Contents

agencies or in unrated securities determined by the Investment Advisor to be of comparable quality. The value of high yield, lower quality bonds is affected by the creditworthiness of the issuers of the securities and by general economic and specific industry conditions. Issuers of high yield bonds are not perceived to be as strong financially as those with higher credit ratings. These issuers are more vulnerable to financial setbacks and recession than more creditworthy issuers, which may impair their ability to make interest and principal payments. Lower grade securities may be particularly susceptible to economic downturns. It is likely that an economic recession could severely disrupt the market for such securities and may have an adverse impact on the value of such securities. In addition, it is likely that any such economic downturn could adversely affect the ability of the issuers of such securities to repay principal and pay interest thereon and increase the incidence of default for such securities. See

Risks Associated with Recent Market Events.

Lower grade securities, though high yielding, are characterized by high risk. They may be subject to certain risks with respect to the issuing entity and to greater market fluctuations than certain lower yielding, higher rated securities. The secondary market for lower grade securities may be less liquid than that for higher rated securities. Adverse conditions could make it difficult at times for the Acquiring Fund to sell certain securities or could result in lower prices than those used in calculating the Acquiring Fund's NAV. Because of the substantial risks associated with investments in lower grade securities, you could lose money on your investment in Common Shares of the Acquiring Fund, both in the short-term and the long-term.

The prices of fixed income securities generally are inversely related to interest rate changes; however, below investment grade securities historically have been somewhat less sensitive to interest rate changes than higher quality securities of comparable maturity because credit quality is also a significant factor in the valuation of lower grade securities. On the other hand, an increased rate environment results in increased borrowing costs generally, which may impair the credit quality of low-grade issuers and thus have a more significant effect on the value of some lower grade securities. In addition, the current extraordinary low rate environment has expanded the historic universe of buyers of lower grade securities as traditional investment grade oriented investors have been forced to accept more risk in order to maintain income. As rates rise, these recent entrants to the low-grade securities market may exit the market and reduce demand for lower grade securities, potentially resulting in greater price volatility.

Unrated Securities Risk. Because the Acquiring Fund may purchase securities that are not rated by any rating organization, the Investment Advisor may, after assessing their credit quality, internally assign ratings to certain of those securities in categories similar to those of rating organizations. Some unrated securities may not have an active trading market or may be difficult to value, which means the Acquiring Fund might have difficulty selling them promptly at an acceptable price. To the extent that the Acquiring Fund invests in unrated securities, the Acquiring Fund's ability to achieve its investment objective will be more dependent on the Investment Advisor's credit analysis than would be the case when the Acquiring Fund invests in rated securities.

Zero-Coupon Securities Risk. Zero-coupon securities are securities that are sold at a discount to par value and do not pay interest during the life of the security. The discount approximates the total amount of interest the security will accrue and compound over the period until maturity at a rate of interest reflecting the market rate of the security at the time of issuance. Upon maturity, the holder of a zero-coupon security is entitled to receive the par value of the security.

While interest payments are not made on zero coupon securities, holders of such securities are deemed to have received income (phantom income) annually, notwithstanding that cash may not be received currently. The effect of owning instruments that do not make current interest payments is that a fixed yield is earned not only on the original investment but also, in effect, on all discount accretion during the life of the obligations. This implicit reinvestment of earnings at a fixed rate eliminates the risk of being unable to invest distributions at a rate as high as the implicit yield on the zero coupon bond, but at the same time eliminates the holder's ability to reinvest at higher rates in the future. For this reason, some of these securities may be subject to substantially greater price fluctuations during periods of changing market interest rates than are comparable securities that pay

Table of Contents

interest currently. Longer term zero coupon bonds are more exposed to interest rate risk than shorter term zero coupon bonds. These investments benefit the issuer by mitigating its need for cash to meet debt service, but also require a higher rate of return to attract investors who are willing to defer receipt of cash.

The Acquiring Fund accrues income with respect to these securities for U.S. federal income tax and accounting purposes prior to the receipt of cash payments. Zero coupon securities may be subject to greater fluctuation in value and less liquidity in the event of adverse market conditions than comparably rated securities that pay cash interest at regular intervals.

Further, to maintain its qualification for pass-through treatment under the federal tax laws, the Acquiring Fund is required to distribute income to its shareholders and, consequently, may have to dispose of other, more liquid portfolio securities under disadvantageous circumstances or may have to leverage itself by borrowing in order to generate the cash to satisfy these distributions. The required distributions may result in an increase in the Acquiring Fund's exposure to zero coupon securities.

In addition to the above-described risks, there are certain other risks related to investing in zero coupon securities. During a period of severe market conditions, the market for such securities may become even less liquid. In addition, as these securities do not pay cash interest, the Acquiring Fund's investment exposure to these securities and their risks, including credit risk, will increase during the time these securities are held in the Acquiring Fund's portfolio.

Variable Rate Demand Obligations Risk. Variable rate demand obligations (VRDOs) are floating rate securities that combine an interest in a long-term municipal bond with a right to demand payment before maturity from a bank or other financial institution. If the bank or financial institution is unable to pay, the Acquiring Fund may lose money.

Indexed and Inverse Securities Risk. Investments in inverse floaters, residual interest tender option bonds and similar instruments expose the Acquiring Fund to the same risks as investments in fixed income securities and derivatives, as well as other risks, including those associated with leverage and increased volatility. An investment in these securities typically will involve greater risk than an investment in a fixed rate security. Distributions on inverse floaters, residual interest tender option bonds and similar instruments will typically bear an inverse relationship to short term interest rates and typically will be reduced or, potentially, eliminated as interest rates rise. Inverse floaters, residual interest tender option bonds and similar instruments will underperform the market for fixed rate securities in a rising interest rate environment. Inverse floaters may be considered to be leveraged to the extent that their interest rates vary by a magnitude that exceeds the magnitude of the change in a reference rate of interest (typically a short term interest rate). The leverage inherent in inverse floaters is associated with greater volatility in their market values. Investments in inverse floaters, residual interest tender option bonds and similar instruments that have fixed income securities underlying them will expose the Acquiring Fund to the risks associated with those fixed income securities and the values of those investments may be especially sensitive to changes in prepayment rates on the underlying fixed income securities.

When-Issued, Forward Commitment and Delayed Delivery Transactions Risk. The Acquiring Fund may purchase securities on a when-issued basis (including on a forward commitment or TBA (to be announced) basis) and may purchase or sell those securities for delayed delivery. When-issued and delayed delivery transactions occur when securities are purchased or sold by the Acquiring Fund with payment and delivery taking place in the future to secure an advantageous yield or price. Securities purchased on a when-issued or delayed delivery basis may expose the Acquiring Fund to counterparty risk of default as well as the risk that securities may experience fluctuations in value prior to their actual delivery. The Acquiring Fund will not accrue income with respect to a when-issued or delayed delivery security prior to its stated delivery date. Purchasing securities on a when-issued or delayed delivery basis can involve the additional risk that the price or yield available in the market when the delivery takes place may not be as favorable as that obtained in the transaction itself.

Table of Contents

Repurchase Agreements Risk. Repurchase agreements typically involve the acquisition by the Acquiring Fund of fixed income securities from a selling financial institution such as a bank, savings and loan association or broker-dealer. The agreement provides that the Acquiring Fund will sell the securities back to the institution at a fixed time in the future. The Acquiring Fund does not bear the risk of a decline in the value of the underlying security unless the seller defaults under its repurchase obligation. In the event of the bankruptcy or other default of a seller of a repurchase agreement, the Acquiring Fund could experience both delays in liquidating the underlying securities and losses, including possible decline in the value of the underlying security during the period in which the Acquiring Fund seeks to enforce its rights thereto; possible lack of access to income on the underlying security during this period; and expenses of enforcing its rights. While repurchase agreements involve certain risks not associated with direct investments in fixed income securities, the Fund follows procedures approved by the Board that are designed to minimize such risks. The value of the collateral underlying the repurchase agreement will be at least equal to the repurchase price, including any accrued interest earned on the repurchase agreement. In the event of a default or bankruptcy by a selling financial institution, the Acquiring Fund generally will seek to liquidate such collateral. However, the exercise of the Acquiring Fund's right to liquidate such collateral could involve certain costs or delays and, to the extent that proceeds from any sale upon a default of the obligation to repurchase were less than the repurchase price, the Acquiring Fund could suffer a loss.

Reverse Repurchase Agreements Risk. Reverse repurchase agreements involve the risks that the interest income earned on the investment of the proceeds will be less than the interest expense of the Acquiring Fund, that the market value of the securities sold by the Acquiring Fund may decline below the price at which the Acquiring Fund is obligated to repurchase the securities and that the securities may not be returned to the Acquiring Fund. There is no assurance that reverse repurchase agreements can be successfully employed.

Securities Lending Risk. The Acquiring Fund may lend securities to financial institutions. Securities lending involves exposure to certain risks, including operational risk (i.e., the risk of losses resulting from problems in the settlement and accounting process), gap risk (i.e., the risk of a mismatch between the return on cash collateral reinvestments and the fees the Acquiring Fund has agreed to pay a borrower), and credit, legal, counterparty and market risk. If a securities lending counterparty were to default, the Acquiring Fund would be subject to the risk of a possible delay in receiving collateral or in recovering the loaned securities, or to a possible loss of rights in the collateral. In the event a borrower does not return the Acquiring Fund's securities as agreed, the Acquiring Fund may experience losses if the proceeds received from liquidating the collateral do not at least equal the value of the loaned security at the time the collateral is liquidated, plus the transaction costs incurred in purchasing replacement securities. This event could trigger adverse tax consequences for the Acquiring Fund. The Acquiring Fund could lose money if its short-term investment of the collateral declines in value over the period of the loan. Substitute payments for dividends received by the Acquiring Fund for securities loaned out by the Acquiring Fund will generally not be considered qualified dividend income. The securities lending agent will take the tax effects on shareholders of this difference into account in connection with the Acquiring Fund's securities lending program. Substitute payments received on tax-exempt securities loaned out will generally not be tax-exempt income.

Restricted and Illiquid Securities Risk. The Acquiring Fund may invest in illiquid or less liquid investments or investments in which no secondary market is readily available or which are otherwise illiquid, including private placement securities. The Acquiring Fund may not be able to readily dispose of such investments at prices that approximate those at which the Acquiring Fund could sell such investments if they were more widely-traded and, as a result of such illiquidity, the Acquiring Fund may have to sell other investments or engage in borrowing transactions if necessary to raise cash to meet its obligations. Limited liquidity can also affect the market price of investments, thereby adversely affecting the Acquiring Fund's NAV and ability to make dividend distributions. The financial markets in general, and certain segments of the mortgage related securities markets in particular, have in recent years experienced periods of extreme secondary market supply and demand imbalance, resulting in a loss of liquidity during which market prices were suddenly and substantially below traditional measures of intrinsic value. During such periods, some investments could be sold only at arbitrary prices and

Table of Contents

with substantial losses. Periods of such market dislocation may occur again at any time. Privately issued debt securities are often of below investment grade quality, frequently are unrated and present many of the same risks as investing in below investment grade public debt securities.

Restricted securities are securities that may not be sold to the public without an effective registration statement under the Securities Act, or that may be sold only in a privately negotiated transaction or pursuant to an exemption from registration. When registration is required to sell a security, the Acquiring Fund may be obligated to pay all or part of the registration expenses and considerable time may pass before the Acquiring Fund is permitted to sell a security under an effective registration statement. If adverse market conditions develop during this period, the Acquiring Fund might obtain a less favorable price than the price that prevailed when the Acquiring Fund decided to sell. The Acquiring Fund may be unable to sell restricted and other illiquid securities at opportune times or prices.

Investment Companies Risk. Subject to the limitations set forth in the 1940 Act and the Acquiring Fund's governing documents or as otherwise permitted by the SEC, the Acquiring Fund may acquire shares in other affiliated and unaffiliated investment companies, including exchange-traded funds (ETFs) and business development companies (BDCs). The market value of the shares of other investment companies may differ from their NAV. As an investor in investment companies, including ETFs or BDCs, the Acquiring Fund would bear its ratable share of that entity's expenses, including its investment advisory and administration fees, while continuing to pay its own advisory and administration fees and other expenses. As a result, shareholders will be absorbing duplicate levels of fees with respect to investments in other investment companies, including ETFs or BDCs.

The securities of other investment companies, including ETFs or BDCs, in which the Acquiring Fund may invest may be leveraged. As a result, the Acquiring Fund may be indirectly exposed to leverage through an investment in such securities. An investment in securities of other investment companies, including ETFs or BDCs, that use leverage may expose the Acquiring Fund to higher volatility in the market value of such securities and the possibility that the Acquiring Fund's long-term returns on such securities (and, indirectly, the long-term returns of the Acquiring Fund's Common Shares) will be diminished.

ETFs are generally not actively managed and may be affected by a general decline in market segments relating to its index. An ETF typically invests in securities included in, or representative of, its index regardless of their investment merits and does not attempt to take defensive positions in declining markets.

Strategic Transactions and Derivatives Risk. The Acquiring Fund may engage in various derivative transactions or portfolio strategies (Strategic Transactions) for duration management and other risk management purposes, including to attempt to protect against possible changes in the market value of the Acquiring Fund's portfolio resulting from trends in the securities markets and changes in interest rates or to protect the Acquiring Fund's unrealized gains in the value of its portfolio securities, to facilitate the sale of portfolio securities for investment purposes or to establish a position in the securities markets as a temporary substitute for purchasing particular securities or to enhance income or gain. Derivatives are financial contracts or instruments whose value depends on, or is derived from, the value of an underlying asset, reference rate or index (or relationship between two indices). The Acquiring Fund also may use derivatives to add leverage to the portfolio and/or to hedge against increases in the Acquiring Fund's costs associated with any leverage strategy that it may employ. The use of Strategic Transactions to enhance current income may be particularly speculative.

The risks associated with Strategic Transactions include (i) the imperfect correlation between the value of such instruments and the underlying assets, (ii) the possible default of the counterparty to the transaction, (iii) illiquidity of the derivative instruments, and (iv) high volatility losses caused by unanticipated market movements, which are potentially unlimited. Although both over-the-counter (OTC) and exchange-traded derivatives markets may experience a lack of liquidity, OTC non-standardized derivative transactions are generally less liquid than exchange-traded instruments. The illiquidity of the derivatives markets may be due to

Table of Contents

various factors, including congestion, disorderly markets, limitations on deliverable supplies, the participation of speculators, government regulation and intervention, and technical and operational or system failures. In addition, daily limits on price fluctuations and speculative position limits on exchanges on which the Acquiring Fund may conduct its transactions in derivative instruments may prevent prompt liquidation of positions, subjecting the Acquiring Fund to the potential of greater losses. Furthermore, the Acquiring Fund's ability to successfully use Strategic Transactions depends on the Investment Advisor's ability to predict pertinent securities prices, interest rates, currency exchange rates and other economic factors, which cannot be assured. Strategic Transactions subject the Acquiring Fund to the risk that, if the Investment Advisor incorrectly forecasts market values, interest rates or other applicable factors, the Acquiring Fund's performance could suffer. Certain of these Strategic Transactions, such as investments in inverse floating rate securities and credit default swaps, may provide investment leverage to the Acquiring Fund's portfolio. The Acquiring Fund is not required to use derivatives or other portfolio strategies to seek to increase return or to seek to hedge its portfolio and may choose not to do so. The use of Strategic Transactions may result in losses greater than if they had not been used, may require the Acquiring Fund to sell or purchase portfolio securities at inopportune times or for prices other than current market values, may limit the amount of appreciation the Acquiring Fund can realize on an investment or may cause the Acquiring Fund to hold a security that it might otherwise sell. Additionally, segregated or earmarked liquid assets, amounts paid by the Acquiring Fund as premiums and cash or other assets held in margin accounts with respect to Strategic Transactions are not otherwise available to the Acquiring Fund for investment purposes. Please see the Acquiring Fund's Statement of Additional Information for a more detailed description of Strategic Transactions and the various derivative instruments the Acquiring Fund may use and the various risks associated with them.

Many OTC derivatives are valued on the basis of dealers' pricing of these instruments. However, the price at which dealers value a particular derivative and the price which the same dealers would actually be willing to pay for such derivative should the Acquiring Fund wish or be forced to sell such position may be materially different. Such differences can result in an overstatement of the Acquiring Fund's NAV and may materially adversely affect the Acquiring Fund in situations in which the Acquiring Fund is required to sell derivative instruments.

Exchange-traded derivatives and OTC derivative transactions submitted for clearing through a central counterparty have become subject to minimum initial and variation margin requirements set by the relevant clearinghouse, as well as possible SEC- or Commodity Futures Trading Commission (CFTC) mandated margin requirements. The CFTC and federal banking regulators also have imposed margin requirements on non-cleared OTC derivatives, and the SEC has proposed (but not yet finalized) such non-cleared margin requirements. As applicable, margin requirements will increase the overall costs for the Acquiring Fund.

While hedging can reduce or eliminate losses, it can also reduce or eliminate gains. Hedges are sometimes subject to imperfect matching between the derivative and the underlying security, and there can be no assurances that the Acquiring Fund's hedging transactions will be effective.

Derivatives may give rise to a form of leverage and may expose the Acquiring Fund to greater risk and increase its costs. Recent legislation calls for new regulation of the derivatives markets. The extent and impact of the regulation is not yet known and may not be known for some time. New regulation may make derivatives more costly, may limit the availability of derivatives, or may otherwise adversely affect the value or performance of derivatives.

In 2015 the SEC proposed rules on the use of derivatives by registered investment companies. If adopted, these rules could adversely affect the Acquiring Fund's ability to successfully use derivative instruments.

Counterparty Risk. The Acquiring Fund will be subject to credit risk with respect to the counterparties to the derivative contracts purchased by the Acquiring Fund. Because derivative transactions in which the Acquiring Fund may engage may involve instruments that are not traded on an exchange or cleared through a central counterparty but are instead traded between counterparties based on contractual relationships, the Acquiring Fund is subject to the risk that a counterparty will not perform its obligations under the related contracts. If a

Table of Contents

counterparty becomes bankrupt or otherwise fails to perform its obligations due to financial difficulties, the Acquiring Fund may experience significant delays in obtaining any recovery in bankruptcy or other reorganization proceedings. The Acquiring Fund may obtain only a limited recovery, or may obtain no recovery, in such circumstances. Although the Acquiring Fund intends to enter into transactions only with counterparties that the Investment Advisor believes to be creditworthy, there can be no assurances that, as a result, a counterparty will not default and that the Acquiring Fund will not sustain a loss on a transaction. In the event of the counterparty's bankruptcy or insolvency, the Acquiring Fund's collateral may be subject to the conflicting claims of the counterparty's creditors, and the Acquiring Fund may be exposed to the risk of a court treating the Acquiring Fund as a general unsecured creditor of the counterparty, rather than as the owner of the collateral.

The counterparty risk for cleared derivatives is generally lower than for uncleared OTC derivative transactions since generally a clearing organization becomes substituted for each counterparty to a cleared derivative contract and, in effect, guarantees the parties' performance under the contract as each party to a trade looks only to the clearing organization for performance of financial obligations under the derivative contract. However, there can be no assurances that a clearing organization, or its members, will satisfy its obligations to the Acquiring Fund, or that the Acquiring Fund would be able to recover the full amount of assets deposited on its behalf with the clearing organization in the event of the default by the clearing organization or the Acquiring Fund's clearing broker. In addition, cleared derivative transactions benefit from daily marking-to-market and settlement, and segregation and minimum capital requirements applicable to intermediaries. Uncleared OTC derivative transactions generally do not benefit from such protections. This exposes the Acquiring Fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Acquiring Fund to suffer a loss. Such counterparty risk is accentuated for contracts with longer maturities where events may intervene to prevent settlement, or where the Acquiring Fund has concentrated its transactions with a single or small group of counterparties.

In addition, the Acquiring Fund is subject to the risk that issuers of the instruments in which it invests and trades may default on their obligations under those instruments, and that certain events may occur that have an immediate and significant adverse effect on the value of those instruments. There can be no assurances that an issuer of an instrument in which the Acquiring Fund invests will not default, or that an event that has an immediate and significant adverse effect on the value of an instrument will not occur, and that the Acquiring Fund will not sustain a loss on a transaction as a result.

Swaps Risk. Swaps are a type of derivative. Swap agreements involve the risk that the party with which the Acquiring Fund has entered into the swap will default on its obligation to pay the Acquiring Fund and the risk that the Acquiring Fund will not be able to meet its obligations to pay the other party to the agreement. In order to seek to hedge the value of the Acquiring Fund's portfolio, to hedge against increases in the Acquiring Fund's cost associated with interest payments on any outstanding borrowings or to seek to increase the Acquiring Fund's return, the Acquiring Fund may enter into swaps, including interest rate swap, total return swap and/or credit default swap transactions. In interest rate swap transactions, there is a risk that yields will move in the direction opposite of the direction anticipated by the Acquiring Fund, which would cause the Acquiring Fund to make payments to its counterparty in the transaction that could adversely affect Acquiring Fund performance. In addition to the risks applicable to swaps generally (including counterparty risk, high volatility, liquidity risk and credit risk), credit default swap transactions involve special risks because they are difficult to value, are highly susceptible to liquidity and credit risk, and generally pay a return to the party that has paid the premium only in the event of an actual default by the issuer of the underlying obligation (as opposed to a credit downgrade or other indication of financial difficulty).

Historically, swap transactions have been individually negotiated non-standardized transactions entered into in OTC markets and have not been subject to the same type of government regulation as exchange-traded instruments. However, the OTC derivatives markets have recently become subject to comprehensive statutes and regulations. In particular, in the United States, the Dodd-Frank Act, signed into law by President Obama

Table of Contents

July 21, 2010, requires that certain derivatives with U.S. persons must be executed on a regulated market and a substantial portion of OTC derivatives must be submitted for clearing to regulated clearinghouses. As a result, swap transactions entered into by the Acquiring Fund may become subject to various requirements applicable to swaps under the Dodd-Frank Act, including clearing, exchange-execution, reporting and recordkeeping requirements, which may make it more difficult and costly for the Acquiring Fund to enter into swap transactions and may also render certain strategies in which the Acquiring Fund might otherwise engage impossible or so costly that they will no longer be economical to implement. Furthermore, the number of counterparties that may be willing to enter into swap transactions with the Acquiring Fund may also be limited if the swap transactions with the Acquiring Fund are subject to the swap regulation under the Dodd-Frank Act.

Credit default and total return swap agreements may effectively add leverage to the Acquiring Fund's portfolio because, in addition to its Managed Assets, the Acquiring Fund would be subject to investment exposure on the notional amount of the swap. Total return swap agreements are subject to the risk that a counterparty will default on its payment obligations to the Acquiring Fund thereunder. The Acquiring Fund is not required to enter into swap transactions for hedging purposes or to enhance income or gain and may choose not to do so. In addition, the swaps market is subject to a changing regulatory environment. It is possible that regulatory or other developments in the swaps market could adversely affect the Acquiring Fund's ability to successfully use swaps.

Legal, Tax and Regulatory Risks. Legal, tax and regulatory changes could occur that may materially adversely affect the Acquiring Fund. For example, the regulatory and tax environment for derivative instruments in which the Acquiring Fund may participate is evolving, and changes in the regulation or taxation of derivative instruments may materially adversely affect the value of derivative instruments held by the Acquiring Fund and the ability of the Acquiring Fund to pursue its investment strategies.

To qualify for the favorable U.S. federal income tax treatment generally accorded to RICs, the Acquiring Fund must, among other things, derive in each taxable year at least 90% of its gross income from certain prescribed sources and distribute for each taxable year at least 90% of its investment company taxable income (generally, ordinary income plus the excess, if any, of net short-term capital gain over net long-term capital loss) and its net tax-exempt interest income. If for any taxable year the Acquiring Fund does not qualify as a RIC, all of its taxable income for that year (including its net capital gain) would be subject to tax at regular corporate rates without any deduction for distributions to shareholders, and such distributions would be taxable as ordinary dividends to the extent of the Acquiring Fund's current and accumulated earnings and profits.

The Trump administration has called for substantial changes to U.S. fiscal and tax policies, including comprehensive corporate and individual tax reform (which Congress is currently working on and may soon enact into law). In addition, the Trump administration has called for significant changes to U.S. trade, healthcare, immigration, foreign, and government regulatory policy. In this regard, there is significant uncertainty with respect to legislation, regulation and government policy at the federal level, as well as the state and local levels. Recent events have created a climate of heightened uncertainty and introduced new and difficult-to-quantify macroeconomic and political risks with potentially far-reaching implications. There has been a corresponding meaningful increase in the uncertainty surrounding interest rates, inflation, foreign exchange rates, trade volumes and fiscal and monetary policy. To the extent the U.S. Congress or Trump administration implements changes to U.S. policy, those changes may impact, among other things, the U.S. and global economy, international trade and relations, unemployment, immigration, corporate taxes, healthcare, the U.S. regulatory environment, inflation and other areas. Some particular areas identified as subject to potential change, amendment or repeal include the Dodd-Frank Act, including the Volcker Rule and various swaps and derivatives regulations, credit risk retention requirements and the authorities of the Federal Reserve, the Financial Stability Oversight Council and the SEC. Although the Acquiring Fund cannot predict the impact, if any, of these changes to the Acquiring Fund's business, they could adversely affect the Acquiring Fund's business, financial condition, operating results and cash flows. Until the Acquiring Fund knows what policy changes are made and how those changes impact the Acquiring Fund's business and the business of the Acquiring Fund's competitors over the long term, the Acquiring Fund will not know if, overall, Acquiring Fund will benefit from them or be negatively affected by them.

Table of Contents

1940 Act Regulation. The Acquiring Fund is a registered closed-end management investment company and as such is subject to regulations under the 1940 Act. Generally speaking, any contract or provision thereof that is made, or where performance involves a violation of the 1940 Act or any rule or regulation thereunder is unenforceable by either party unless a court finds otherwise.

Legislation Risk. At any time after the date of this Joint Proxy Statement/Prospectus, legislation may be enacted that could negatively affect the assets of the Acquiring Fund. Legislation or regulation may change the way in which the Acquiring Fund itself is regulated. The Investment Advisor cannot predict the effects of any new governmental regulation that may be implemented and there can be no assurances that any new governmental regulation will not adversely affect the Acquiring Fund's ability to achieve its investment objective.

LIBOR Risk. According to various reports, certain financial institutions, commencing as early as 2005 and throughout the global financial crisis, routinely made artificially low submissions in the London Interbank Offered Rate (LIBOR) setting process. Since the LIBOR scandal came to light, several financial institutions have been fined significant amounts by various financial regulators in connection with allegations of manipulation of LIBOR rates. Other financial institutions in various countries are being investigated for similar actions. These developments may have adversely affected the interest rates on securities whose interest payments were determined by reference to LIBOR. Any future similar developments could, in turn, reduce the value of such securities owned by the Acquiring Fund.

In July 2017, the head of the United Kingdom Financial Conduct Authority announced the desire to phase out the use of LIBOR by the end of 2021. There is currently no definitive information regarding the future utilization of LIBOR or of any particular replacement rate. Abandonment of or modifications to LIBOR could have adverse impacts on newly issued financial instruments and existing financial instruments which reference LIBOR. While some instruments may contemplate a scenario where LIBOR is no longer available by providing for an alternative rate setting methodology, not all instruments may have such provisions and there is significant uncertainty regarding the effectiveness of any such alternative methodologies. Abandonment of or modifications to LIBOR could lead to significant short-term and long-term uncertainty and market instability. It remains uncertain how such changes would be implemented and the effects such changes would have on the Acquiring Fund, issuers of instruments in which the Acquiring Fund invests and financial markets generally.

Risks Associated with Recent Market Events. Periods of market volatility remain, and may continue to occur in the future, in response to various political, social and economic events both within and outside of the United States. These conditions have resulted in, and in many cases continue to result in, greater price volatility, less liquidity, widening credit spreads and a lack of price transparency, with many securities remaining illiquid and of uncertain value. Such market conditions may adversely affect the Acquiring Fund, including by making valuation of some of the Acquiring Fund's securities uncertain and/or result in sudden and significant valuation increases or declines in the Acquiring Fund's holdings. If there is a significant decline in the value of the Acquiring Fund's portfolio, this may impact the asset coverage levels for the Acquiring Fund's outstanding leverage.

Risks resulting from any future debt or other economic crisis could also have a detrimental impact on the global economic recovery, the financial condition of financial institutions and the Acquiring Fund's business, financial condition and results of operation. Market and economic disruptions have affected, and may in the future affect, consumer confidence levels and spending, personal bankruptcy rates, levels of incurrence and default on consumer debt and home prices, among other factors. To the extent uncertainty regarding the U.S. or global economy negatively impacts consumer confidence and consumer credit factors, the Acquiring Fund's business, financial condition and results of operations could be significantly and adversely affected. Downgrades to the credit ratings of major banks could result in increased borrowing costs for such banks and negatively affect the broader economy. Moreover, Federal Reserve policy, including with respect to certain interest rates, may also adversely affect the value, volatility and liquidity of dividend- and interest-paying securities. Market volatility, rising interest rates and/or a return to unfavorable economic conditions could impair the Acquiring Fund's ability to achieve its investment objective.

Table of Contents

Market Disruption and Geopolitical Risk. The occurrence of events similar to those in recent years, such as the aftermath of the war in Iraq, instability in Afghanistan, Pakistan, Egypt, Libya, Syria, Russia, Ukraine and the Middle East, ongoing epidemics of infectious diseases in certain parts of the world, terrorist attacks in the U.S. and around the world, social and political discord, debt crises (such as the Greek crisis), sovereign debt downgrades, continued tensions between North Korea and the United States and the international community generally, new and continued political unrest in various countries, such as Venezuela, the exit or potential exit of one or more countries from the European Union (the EU) or the Economic and Monetary Union (the EMU), the change in the U.S. president and the new administration, among others, may result in market volatility, may have long term effects on the U.S. and worldwide financial markets, and may cause further economic uncertainties in the U.S. and worldwide.

As a consequence of the United Kingdom's vote to withdraw from the EU, the government of the United Kingdom gave notice of its withdrawal from the EU (Brexit). As a result of this decision, the financial markets experienced high levels of volatility and it is likely that, in the near term, Brexit will continue to bring about higher levels of uncertainty and volatility. During this period of uncertainty, the negative impact on not only the United Kingdom and European economies, but the broader global economy, could be significant, potentially resulting in increased volatility and illiquidity and lower economic growth for companies that rely significantly on Europe for their business activities and revenues. It is possible, that certain economic activity will be curtailed until some signs of clarity begin to emerge, including negotiations around the terms for United Kingdom's exit out of the EU. Any further exits from the EU, or the possibility of such exits, would likely cause additional market disruption globally and introduce new legal and regulatory uncertainties.

The occurrence of any of these above event(s) could have a significant adverse impact on the value and risk profile of the Acquiring Fund's portfolio. The Acquiring Fund does not know how long the securities markets may be affected by similar events and cannot predict the effects of similar events in the future on the U.S. economy and securities markets. Non-investment grade and equity securities tend to be more volatile than investment-grade fixed income securities; therefore, these events and other market disruptions may have a greater impact on the prices and volatility of non-investment grade and equity securities than on investment-grade fixed income securities. There can be no assurances that similar events and other market disruptions will not have other material and adverse implications.

Regulation and Government Intervention Risk. The recent instability in the financial markets discussed above has led the U.S. Government and certain foreign governments to take a number of unprecedented actions designed to support certain financial institutions and segments of the financial markets that have experienced extreme volatility, and in some cases a lack of liquidity, including through direct purchases of equity and debt securities. Federal, state, and other governments, their regulatory agencies or self-regulatory organizations may take actions that affect the regulation of the issuers in which the Acquiring Fund invests in ways that are unforeseeable. Legislation or regulation may also change the way in which the Acquiring Fund is regulated. Such legislation or regulation could limit or preclude the Acquiring Fund's ability to achieve its investment objective.

The Dodd-Frank Act contains sweeping financial legislation regarding the operation of banks, private fund managers and other financial institutions. The Dodd-Frank Act includes provisions regarding, among other things, the regulation of derivatives, the identification, monitoring and prophylactic regulation of systemic risks to financial markets, and the regulation of proprietary trading and investment activity of banking institutions. The continuing implementation of the Dodd-Frank Act and any other regulations could adversely affect the Investment Advisor and the Acquiring Fund. The Investment Advisor may attempt to take certain actions to lessen the impact of the Dodd-Frank Act and any other legislation or regulation affecting the Acquiring Fund, although no assurances can be given that such actions would be successful and no assurances can be given that such actions would not have a significant negative impact on the Acquiring Fund. The ultimate impact of the Dodd-Frank Act, and any additional future legislation or regulation, is not yet certain and the Investment Advisor and the Acquiring Fund may be affected by governmental action in ways that are unforeseeable.

Table of Contents

Furthermore, the Dodd-Frank Act created the Financial Stability Oversight Council (FSOC), an interagency body charged with identifying and monitoring systemic risks to financial markets. The FSOC has the authority to require that non-bank financial companies that are predominantly engaged in financial activities, such as the Acquiring Fund, the Investment Advisor and BlackRock, whose failure it determines would pose systemic risk, be placed under the supervision of the Federal Reserve. The FSOC has the authority to recommend that the Federal Reserve adopt more stringent prudential standards and reporting and disclosure requirements for non-bank financial companies supervised by the Federal Reserve. The FSOC also has the authority to make recommendations to the Federal Reserve on various other matters that may affect the Acquiring Fund, including requiring financial firms to submit resolution plans, mandating credit exposure reports, establishing concentration limits and limiting short-term debt. The FSOC may also recommend that other federal financial regulators impose more stringent regulation upon, or ban altogether, financial activities of any financial firm that poses what it determines are significant risks to the financial system. In the event that the FSOC designates the Acquiring Fund, the Investment Advisor or BlackRock as a systemic risk to be placed under the Federal Reserve's supervision, the Acquiring Fund, the Investment Advisor or BlackRock could face stricter prudential standards, including risk-based capital requirements, leverage limits, liquidity requirements, concentration requirements and overall risk management requirements, among other restrictions. Such requirements could hinder the Acquiring Fund's ability to meet its investment objective and may place the Acquiring Fund at a disadvantage with respect to its competitors.

Moreover, the SEC and its staff are also reportedly engaged in various initiatives and reviews that seek to improve and modernize the regulatory structure governing investment companies. These efforts appear to be focused on risk identification and controls in various areas, including imbedded leverage through the use of derivatives and other trading practices, cybersecurity, liquidity, enhanced regulatory and public reporting requirements and the evaluation of systemic risks. Any new rules, guidance or regulatory initiatives resulting from these efforts could increase the Acquiring Fund's expenses and impact its returns to shareholders or, in the extreme case, impact or limit the Acquiring Fund's use of various portfolio management strategies or techniques and adversely impact the Acquiring Fund.

The Volcker Rule contained in Section 619 of the Dodd-Frank Act will limit the ability of banking entities to sponsor, invest in or serve as investment manager of certain private investment funds. Because the Federal Reserve currently treats BlackRock as a nonbank subsidiary of The PNC Financial Services Group, Inc. (PNC), BlackRock may be required to conform its activities to the requirements of the Volcker Rule. On December 10, 2013, U.S. financial regulators adopted final regulations (the Final Regulations) to implement the statutory mandate of the Volcker Rule. Pursuant to the Dodd-Frank Act, the Volcker Rule's effective date was July 21, 2012 and the Final Regulations became effective on April 14, 2014; however, concurrent with the adoption of the Final Regulations the Federal Reserve granted a statutorily permitted conformance period, essentially making the effective date of the Volcker Rule and the Final Regulations July 21, 2015. On July 7, 2016, the Federal Reserve granted an additional extension to the conformance period, giving banking entities until July 21, 2017 to comply with the Volcker Rule, in respect of investments in and relationships with certain funds that were in place prior to December 31, 2013. All banking entities' investments in and relationships with funds covered by the Volcker Rule made after that date, however, must have been divested or restructured by July 21, 2015. The Volcker Rule and the Final Regulations could have a significant negative impact on BlackRock and the Investment Advisor. BlackRock may attempt to take certain actions to lessen the impact of the Volcker Rule, although no assurances can be given that such actions would be successful and no assurances can be given that such actions would not have a significant negative impact on the Acquiring Fund. Upon the end of the applicable conformance period, BlackRock's relationship with PNC may require BlackRock to curtail some or all of the Acquiring Fund's activities with respect to PNC (if any).

In the aftermath of the recent financial crisis, there appears to be a renewed popular, political and judicial focus on finance related consumer protection. Financial institution practices are also subject to greater scrutiny and criticism generally. In the case of transactions between financial institutions and the general public, there may be a greater tendency toward strict interpretation of terms and legal rights in favor of the consuming public,

Table of Contents

particularly where there is a real or perceived disparity in risk allocation and/or where consumers are perceived as not having had an opportunity to exercise informed consent to the transaction. In the event of conflicting interests between retail investors holding common shares of a closed-end investment company such as the Acquiring Fund and a large financial institution, a court may similarly seek to strictly interpret terms and legal rights in favor of retail investors.

Additionally, the change in presidential administration could significantly impact the regulation of United States financial markets. Areas subject to potential change, amendment or repeal include the Dodd-Frank Act, including the Volcker Rule and various swaps and derivatives regulations, the authority of the Federal Reserve and FSOC, and renewed proposals to separate banks' commercial and investment banking activities. Other potential changes that could be pursued by the new presidential administration could include the United States' withdrawal from, or attempt to renegotiate, various trade agreements or the taking of other actions that would change current trade policies of the United States. It is not possible to predict which, if any, of these actions will be taken or, if taken, their effect on the economy, securities markets or the financial stability of the United States. The Acquiring Fund may be affected by governmental action in ways that are not foreseeable, and there is a possibility that such actions could have a significant adverse effect on the Acquiring Fund and its ability to achieve its investment objective.

Potential Conflicts of Interest of the Investment Advisor and Others. BlackRock, the ultimate parent company of the Investment Advisor, and its affiliates, which include the Investment Advisor and PNC, are involved worldwide with a broad spectrum of financial services and asset management activities and may engage in the ordinary course of business in activities in which their interests or the interests of their clients may conflict with those of the Acquiring Fund. BlackRock and its affiliates may provide investment management services to other funds and discretionary managed accounts that follow an investment program similar to that of the Acquiring Fund. Subject to the requirements of the 1940 Act, BlackRock and its affiliates intend to engage in such activities and may receive compensation from third parties for their services. Neither BlackRock nor its affiliates are under any obligation to share any investment opportunity, idea or strategy with the Acquiring Fund. As a result, BlackRock and its affiliates may compete with the Acquiring Fund for appropriate investment opportunities. The results of the Acquiring Fund's investment activities, therefore, may differ from those of an affiliate or another account managed by an affiliate and it is possible that the Acquiring Fund could sustain losses during periods in which one or more affiliates and other accounts achieve profits on their trading for proprietary or other accounts. The 1940 Act imposes limitations on certain transactions between a registered investment company and affiliated persons of the investment company, as well as affiliated persons of such affiliated persons. Among others, affiliated persons of an investment company include its investment adviser; officers; directors/trustees; any person who directly or indirectly controls, is controlled by or is under common control with such investment company; any person directly or indirectly owning, controlling or holding with power to vote, five percent or more of the outstanding voting securities of such investment company; and any person five percent or more of whose outstanding voting securities are directly or indirectly owned, controlled or held with power to vote by such investment company. BlackRock has adopted policies and procedures designed to address potential conflicts of interests. For additional information about potential conflicts of interest and the way in which BlackRock addresses such conflicts, please see "Conflicts of Interest" in the Statement of Additional Information.

Market and Selection Risk. Market risk is the possibility that the market values of securities owned by the Acquiring Fund will decline. There is a risk that equity and/or bond markets will go down in value, including the possibility that such markets will go down sharply and unpredictably.

Stock markets are volatile, and the price of equity securities fluctuates based on changes in a company's financial condition and overall market and economic conditions. An adverse event, such as an unfavorable earnings report, may depress the value of a particular common stock held by the Acquiring Fund. Also, the price of common stocks is sensitive to general movements in the stock market and a drop in the stock market may depress the price of common stocks to which the Acquiring Fund has exposure. Common stock prices fluctuate

Table of Contents

for several reasons, including changes in investors' perceptions of the financial condition of an issuer or the general condition of the relevant stock market, or when political or economic events affecting the issuers occur.

The prices of fixed income securities tend to fall as interest rates rise, and such declines tend to be greater among fixed income securities with longer maturities. Market risk is often greater among certain types of fixed income securities, such as zero coupon bonds that do not make regular interest payments but are instead bought at a discount to their face values and paid in full upon maturity. As interest rates change, these securities often fluctuate more in price than securities that make regular interest payments and therefore subject the Acquiring Fund to greater market risk than a fund that does not own these types of securities.

When-issued and delayed delivery transactions are subject to changes in market conditions from the time of the commitment until settlement, which may adversely affect the prices or yields of the securities being purchased. The greater the Acquiring Fund's outstanding commitments for these securities, the greater the Acquiring Fund's exposure to market price fluctuations.

Selection risk is the risk that the securities that the Acquiring Fund's management selects for the Acquiring Fund will underperform the equity and/or bond market, the market relevant indices or other funds with similar investment objectives and investment strategies.

Defensive Investing Risk. For defensive purposes, the Acquiring Fund may allocate assets into cash or short-term fixed income securities. In doing so, the Acquiring Fund may succeed in avoiding losses but may otherwise fail to achieve its investment objective. Further, the value of short-term fixed income securities may be affected by changing interest rates and by changes in credit ratings of the investments. If the Acquiring Fund holds cash uninvested it will be subject to the credit risk of the depository institution holding the cash.

Decision-Making Authority Risk. Investors have no authority to make decisions or to exercise business discretion on behalf of the Acquiring Fund, except as set forth in the Acquiring Fund's governing documents. The authority for all such decisions is generally delegated to the Board, which in turn, has delegated the day-to-day management of the Acquiring Fund's investment activities to the Investment Advisor, subject to oversight by the Board.

Management Risk. The Acquiring Fund is subject to management risk because it is an actively managed investment portfolio. The Investment Advisor and the individual portfolio managers will apply investment techniques and risk analyses in making investment decisions for the Acquiring Fund, but there can be no guarantee that these will produce the desired results. The Acquiring Fund may be subject to a relatively high level of management risk because the Acquiring Fund may invest in derivative instruments, which may be highly specialized instruments that require investment techniques and risk analyses different from those associated with equities and bonds.

Valuation Risk. The price the Acquiring Fund could receive upon the sale of any particular portfolio investment may differ from the Acquiring Fund's valuation of the investment, particularly for securities that trade in thin or volatile markets or that are valued using a fair valuation methodology or a price provided by an independent pricing service. As a result, the price received upon the sale of an investment may be less than the value ascribed by the Acquiring Fund, and the Acquiring Fund could realize a greater than expected loss or lesser than expected gain upon the sale of the investment. Pricing services that value fixed-income securities generally utilize a range of market-based and security-specific inputs and assumptions, as well as considerations about general market conditions, to establish a price. Pricing services generally value fixed-income securities assuming orderly transactions of an institutional round lot size, but may be held or transactions may be conducted in such securities in smaller, odd lot sizes. Odd lots often trade at lower prices than institutional round lots. The Acquiring Fund's ability to value its investments may also be impacted by technological issues and/or errors by pricing services or other third-party service providers. Additionally, fair valuation processes of certain securities necessarily involve subjective judgments and assumptions about the value of an asset or liability and these judgments and assumptions may ultimately be incorrect.

Table of Contents

Reliance on the Investment Advisor Risk. The Acquiring Fund is dependent upon services and resources provided by the Investment Advisor, and therefore the Investment Advisor's parent, BlackRock. The Investment Advisor is not required to devote its full time to the business of the Acquiring Fund and there is no guarantee or requirement that any investment professional or other employee of the Investment Advisor will allocate a substantial portion of his or her time to the Acquiring Fund. The loss of one or more individuals involved with the Investment Advisor could have a material adverse effect on the performance or the continued operation of the Acquiring Fund.

Reliance on Service Providers Risk. The Acquiring Fund must rely upon the performance of service providers to perform certain functions, which may include functions that are integral to the Acquiring Fund's operations and financial performance. Failure by any service provider to carry out its obligations to the Acquiring Fund in accordance with the terms of its appointment, to exercise due care and skill or to perform its obligations to the Acquiring Fund at all as a result of insolvency, bankruptcy or other causes could have a material adverse effect on the Acquiring Fund's performance and returns to common shareholders. The termination of the Acquiring Fund's relationship with any service provider, or any delay in appointing a replacement for such service provider, could materially disrupt the business of the Acquiring Fund and could have a material adverse effect on the Acquiring Fund's performance and returns to common shareholders.

Information Technology Systems Risk. The Acquiring Fund is dependent on the Investment Advisor for certain management services as well as back-office functions. The Investment Advisor depends on information technology systems in order to assess investment opportunities, strategies and markets and to monitor and control risks for the Acquiring Fund. It is possible that a failure of some kind which causes disruptions to these information technology systems could materially limit the Investment Advisor's ability to adequately assess and adjust investments, formulate strategies and provide adequate risk control. Any such information technology-related difficulty could harm the performance of the Acquiring Fund. Further, failure of the back-office functions of the Investment Advisor to process trades in a timely fashion could prejudice the investment performance of the Acquiring Fund.

Cyber Security Risk. With the increased use of technologies such as the Internet to conduct business, the Acquiring Fund is susceptible to operational, information security and related risks. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber-attacks include, but are not limited to, gaining unauthorized access to digital systems (e.g., through hacking or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber-attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (i.e., efforts to make network services unavailable to intended users). Cyber security failures or breaches by the Investment Advisor and other service providers (including, but not limited to, fund accountants, custodians, transfer agents and administrators), and the issuers of securities in which the Acquiring Fund invests, have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Acquiring Fund's ability to calculate its NAV, impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs. In addition, substantial costs may be incurred in order to prevent any cyber incidents in the future. While the Acquiring Fund has established business continuity plans in the event of, and risk management systems to prevent, such cyber-attacks, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Acquiring Fund cannot control the cyber security plans and systems put in place by service providers to the Acquiring Fund and issuers in which the Acquiring Fund invests. The Acquiring Fund and its shareholders could be negatively impacted as a result.

Misconduct of Employees and of Service Providers Risk. Misconduct or misrepresentations by employees of the Investment Advisor or the Acquiring Fund's service providers could cause significant losses to the Acquiring Fund. Employee misconduct may include binding the Acquiring Fund to transactions that exceed authorized limits or present unacceptable risks and unauthorized trading activities, concealing unsuccessful trading activities

Table of Contents

(which, in any case, may result in unknown and unmanaged risks or losses) or making misrepresentations regarding any of the foregoing. Losses could also result from actions by the Acquiring Fund's service providers, including, without limitation, failing to recognize trades and misappropriating assets. In addition, employees and service providers may improperly use or disclose confidential information, which could result in litigation or serious financial harm, including limiting the Acquiring Fund's business prospects or future marketing activities. Despite the Investment Advisor's due diligence efforts, misconduct and intentional misrepresentations may be undetected or not fully comprehended, thereby potentially undermining the Investment Advisor's due diligence efforts. As a result, no assurances can be given that the due diligence performed by the Investment Advisor will identify or prevent any such misconduct.

Inflation Risk. Inflation risk is the risk that the value of assets or income from investment will be worth less in the future, as inflation decreases the value of money. As inflation increases, the real value of the Common Shares and distributions on those shares can decline. In addition, during any periods of rising inflation, interest rates on any borrowings by the Acquiring Fund would likely increase, which would tend to further reduce returns to the holders of Common Shares.

Deflation Risk. Deflation risk is the risk that prices throughout the economy decline over time, which may have an adverse effect on the market valuation of companies, their assets and their revenues. In addition, deflation may have an adverse effect on the creditworthiness of issuers and may make issuer default more likely, which may result in a decline in the value of the Acquiring Fund's portfolio.

Portfolio Turnover Risk. The Acquiring Fund's annual portfolio turnover rate may vary greatly from year to year, as well as within a given year. Portfolio turnover rate is not considered a limiting factor in the execution of investment decisions for the Acquiring Fund. A higher portfolio turnover rate results in correspondingly greater brokerage commissions and other transactional expenses that are borne by the Acquiring Fund. High portfolio turnover may result in an increased realization of net short-term capital gains by the Acquiring Fund which, when distributed to common shareholders, will be taxable as ordinary income. Additionally, in a declining market, portfolio turnover may create realized capital losses.

Anti-Takeover Provisions Risk. The charter or agreement and declaration of trust, as applicable, and bylaws of each Fund and Maryland law with respect to the Acquiring Fund include provisions that could limit the ability of other entities or persons to acquire control of the Acquiring Fund or convert the Acquiring Fund to open-end status or to change the composition of the Board. Such provisions could limit the ability of holders of Common Shares to sell their Common Shares at a premium over prevailing market prices by discouraging a third party from seeking to obtain control of the Acquiring Fund. See Certain Provisions in the Declarations of Trust, Charter and Bylaws.

Table of Contents

INFORMATION ABOUT THE REORGANIZATIONS

The Reorganizations seek to combine three funds that have the same investment adviser, the same portfolio managers, the same Board Members, and substantially similar (but not identical) investment objectives, investment policies and investment restrictions.

Description of the Reorganizations

Each Reorganization Agreement (a form of which is attached as Appendix A to the Statement of Additional Information) provides for the Acquiring Fund's acquisition of substantially all of the assets of BLJ and BNJ and assumption of substantially all of the liabilities of BLJ and BNJ in exchange for newly issued Acquiring Fund Common Shares, with a par value \$0.10 per share, and newly issued Acquiring Fund VRDP Shares, with a par value of \$0.10 per share and liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on the BLJ or BNJ VRDP Shares up to and including the day immediately preceding the Closing Date if such dividends have not been paid prior to the Closing Date). The Acquiring Fund will list the newly issued Common Shares on the NYSE. Each of BLJ and BNJ will distribute Acquiring Fund Shares received by it pro rata to BLJ or BNJ shareholders (although cash may be paid in lieu of any fractional Common Shares). The newly-issued Acquiring Fund Shares will be issued in the form of book entry interests. Such distribution of Acquiring Fund Shares to BLJ or BNJ shareholders will be accomplished by opening new accounts on the books of the Acquiring Fund in the names of the shareholders of BLJ and BNJ and transferring to those shareholder accounts Acquiring Fund Shares.

Each newly-opened account on the books of Acquiring Fund for the former common shareholders of BLJ and BNJ will represent the respective pro rata number of Acquiring Fund Common Shares (rounded down, in the case of fractional Common Shares held other than in an automatic dividend reinvestment plan account (Plan Account), to the next largest number of whole Common Shares) due such common shareholder. No fractional Acquiring Fund Common Shares will be issued (except for Common Shares held in a Plan Account). In the event there are fractional Common Shares in an account other than a Plan Account, the Acquiring Fund's transfer agent will aggregate all such fractional BLJ or BNJ Common Shares and sell the resulting whole Common Shares on the NYSE or NYSE American, as applicable, for the account of all holders of such fractional interests, and each such holder will be entitled to the pro rata share of the proceeds from such sale upon surrender of the BLJ or BNJ Common Share certificates. See Terms of the Reorganization Agreements Surrender and Exchange of Share Certificates for a description of the procedures to be followed by BLJ and BNJ common shareholders to obtain their Acquiring Fund Common Shares (and cash in lieu of fractional Common Shares, if any). Similarly, each newly-opened account on the books of the Acquiring Fund for BLJ and BNJ VRDP Holders would represent the respective pro rata number of Acquiring Fund VRDP Shares due such BLJ and BNJ VRDP Holder.

As a result of the Reorganizations, each common shareholder of BLJ and BNJ will own Acquiring Fund Common Shares that (except for cash payments received in lieu of fractional Common Shares) will have an aggregate NAV (not the market value) immediately after the Closing Date equal to the aggregate NAV (not the market value) of that shareholder's BLJ or BNJ Common Shares immediately prior to the Closing Date. The NAV of BLJ, BNJ and the Acquiring Fund immediately prior to the Closing Date will be reduced by the costs of the Reorganizations borne by each Fund, if any. The NAV of BLJ and BNJ Common Shares will not be diluted as a result of the Reorganizations. The value of each Fund's net assets will be calculated net of the liquidation preference (including accumulated and unpaid dividends) of all outstanding VRDP Shares of such Fund. The market value of the Common Shares of the Combined Fund may be less than the market value of the Common Shares of each respective Fund prior to the Reorganizations.

If the BNJ Reorganization Agreement is approved by BNJ shareholders, prior to the Closing Date of the BNJ Reorganization, it is expected that BNJ will issue VRDP Shares with terms substantially identical to the terms of the outstanding Acquiring Fund VRDP Shares and use the proceeds from such issuance to redeem all of BNJ's outstanding VMTP Shares. The BNJ VRDP Shares that will be issued in connection with the VMTP

Table of Contents

Refinancing will have the same \$100,000 liquidation preference per share, dividend period, dividend payment date, voting rights, redemption provisions, remarketing procedures, mandatory purchase events, mandatory tender events, transfer restrictions and covenants with respect to effective leverage, asset coverage and eligible investments, mechanism for determining the applicable dividend rate and maximum rate, and the same liquidity provider, remarketing agent and tender and paying agent as the outstanding Acquiring Fund VRDP Shares. The BNJ VRDP Shares will also be subject to a special rate period and the terms of BNJ's VRDP Shares during such special rate period will be substantially identical to the terms of the Special Rate Period for the outstanding Acquiring Fund VRDP Shares, including the same mechanism for determining the applicable dividend rate and maximum rate, redemption premiums and transfer restrictions. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

Assuming all of the Reorganizations are approved by shareholders and the VMTP Refinancing is completed prior to the Closing Date of the BNJ Reorganization, upon the Closing Date of the Reorganizations, BLJ and BNJ VRDP Holders will receive on a one-for-one basis one newly issued Acquiring Fund VRDP Share, par value \$0.10 per share and with a liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on the BLJ or BNJ VRDP Shares up to and including the day immediately preceding the Closing Date of the Reorganizations if such dividends have not been paid prior to the Closing Date), in exchange for each BLJ or BNJ VRDP Share held by the BLJ or BNJ VRDP Holders immediately prior to the Closing Date. The newly issued Acquiring Fund VRDP Shares may be of the same series as the Acquiring Fund's Series W-7 VRDP Shares or a substantially identical series. No fractional Acquiring Fund VRDP Shares will be issued. The terms of the Acquiring Fund VRDP Shares to be issued in connection with the Reorganizations will be substantially identical to the terms of the Acquiring Fund's outstanding VRDP Shares and will rank on a parity with the Acquiring Fund's outstanding VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The newly issued Acquiring Fund VRDP Shares will be subject to the same special rate period (including the terms thereof) applicable to the outstanding Acquiring Fund VRDP Shares as of the Closing Date of the Reorganization. Such special rate period will terminate on June 20, 2018, unless extended. The Reorganizations will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

The newly issued Acquiring Fund VRDP Shares will have terms that are substantially identical to the terms of the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the outstanding BLJ VRDP Shares, except that the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041. BLJ VRDP Shares have a mandatory redemption date of July 1, 2042. The VRDP Shares of the Acquiring Fund and BLJ are currently in a one year special rate period that will end on June 20, 2018, unless extended. The terms applicable to the VRDP Shares of the Acquiring Fund and BLJ during the Special Rate Period are substantially identical. The BNJ VRDP Shares to be issued in connection with the VMTP Refinancing will also be subject to a special rate period and the terms of BNJ's VRDP Shares during such special rate period will be substantially identical to the terms of the Special Rate Period for the outstanding Acquiring Fund and BLJ VRDP Shares. The terms of the special rate period applicable to the newly issued Acquiring Fund VRDP Shares will be substantially identical to the terms of the special rate period applicable to the Funds' VRDP Shares as of the Closing Date of the Reorganization.

Since the Acquiring Fund VRDP Shares would be issued at a liquidation preference and value per share equal to the liquidation preference and value per share of the VRDP Shares of BLJ and BNJ, the interests of BLJ and BNJ VRDP Holders will not be diluted as a result of the Reorganizations. BNJ VMTP Holders will have their VMTP Shares redeemed by the Fund in connection with the VMTP Refinancing if the BNJ Reorganization is approved by the requisite shareholders.

As a result of the Reorganizations, a common or preferred shareholder of any of the Funds may hold a reduced percentage of ownership in the Combined Fund than they did in BLJ and BNJ. No sales charge or fee of any kind will be charged to shareholders of BLJ and BNJ in connection with their receipt of Acquiring Fund Shares in the Reorganizations.

Table of Contents

As soon as practicable after the Closing Date for the Reorganizations, each of BLJ and BNJ will deregister as an investment company under the 1940 Act and liquidate, dissolve and terminate in accordance with its respective Agreement and Declaration of Trust and Delaware law. The Acquiring Fund will continue to operate after the Reorganizations as a registered, non-diversified, closed-end management investment company with the investment objective, investment policies and investment restrictions described in this Joint Proxy Statement/Prospectus.

The BNJ Reorganization is contingent upon the completion of the VMTP Refinancing. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

A Reorganization is not contingent upon the approval of the other Reorganization. If a Reorganization is not consummated, then the Fund for which such Reorganization(s) was not consummated will continue to operate for the time being as a stand-alone Delaware statutory trust (or, with respect to the Acquiring Fund, a Maryland corporation) and will continue to be advised by the Investment Advisor. However, if a Reorganization is not consummated, the Investment Advisor may, in connection with ongoing management of each Fund and its product line, recommend alternative proposals to the Board of each Fund for which such Reorganization(s) was not consummated.

The Board's Recommendation

The Board of BLJ recommends that the common shareholders of BLJ vote **FOR** the proposed BLJ Reorganization Agreement at the Special Meeting.

The Board of BNJ recommends that the common shareholders of BNJ vote **FOR** the proposed BNJ Reorganization Agreement at the Special Meeting.

The Board of the Acquiring Fund recommends that common shareholders of the Acquiring Fund vote **FOR** the proposed BLJ Issuance at the Special Meeting.

The Board of the Acquiring Fund recommends that common shareholders of the Acquiring Fund vote **FOR** the proposed BNJ Issuance at the Special Meeting.

Shareholder approval of the BLJ Reorganization Agreement requires (i) the affirmative vote of the holders of a 1940 Act Majority (as defined below) of the outstanding BLJ Common Shares and BLJ VRDP Shares voting as a single class, (ii) the affirmative vote of a 1940 Act Majority (as defined below) of BLJ VRDP Holders voting as a separate class and (iii) the affirmative vote of a majority of the outstanding Acquiring Fund VRDP Holders voting as a separate class. Shareholder approval of the BNJ Reorganization Agreement requires (i) the affirmative vote of the holders of a 1940 Act Majority (as defined below) of the outstanding BNJ Common Shares and BNJ VMTP Shares voting as a single class, (ii) the affirmative vote of a 1940 Act Majority (as defined below) of BNJ VMTP Holders voting as a separate class and (iii) the affirmative vote of a majority of the outstanding Acquiring Fund VRDP Holders voting as a separate class. Each Issuance requires the affirmative vote of a majority of the votes cast by the Acquiring Fund Common Shares and Acquiring Fund VRDP Shares voting as a single class. A 1940 Act Majority means the affirmative vote of either (i) 67% or more of the voting securities present at the Special Meeting, if the holders of more than 50% of the outstanding voting securities of the Fund are present or represented by proxy or (ii) more than 50% of the outstanding voting securities of the Fund, whichever is less.

In order for the Reorganizations to occur, each Fund must obtain all requisite shareholder approvals with respect to its Reorganization, as well as certain consents, confirmations and/or waivers from various third parties, including the liquidity provider with respect to the outstanding VRDP Shares. Because the closing of the Reorganization with respect to BLJ or BNJ is contingent upon such Fund and the Acquiring Fund obtaining the

Table of Contents

requisite shareholder approvals and third party consents and satisfying (or obtaining the waiver of) other closing conditions, it is possible that a Reorganization will not occur, even if shareholders of a Fund entitled to vote on the Reorganization approve the Reorganization and such Fund satisfies all of its closing conditions, if the other Fund in the Reorganization does not obtain its requisite shareholder approvals or satisfy its closing conditions. If the BNJ Reorganization Agreement is approved, prior to the BNJ Reorganization, it is expected that all of the VMTP Shares of BNJ will be refinanced into BNJ VRDP shares with terms substantially identical to those of the Acquiring Fund's VRDP Shares.

The BNJ Reorganization is contingent upon the completion of the VMTP Refinancing. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

A Reorganization is not contingent upon the approval of the other Reorganization. If a Reorganization is not consummated, then the Fund for which such Reorganization(s) was not consummated would continue to exist and operate on a stand-alone basis.

The preferred shares of the Funds were issued on a private placement basis to one or a small number of institutional holders. Please see Information about the Preferred Shares of the Funds for additional information. To the extent that one or more preferred shareholder of BLJ, BNJ or the Acquiring Fund owns, holds or controls, individually or in the aggregate, all or a significant portion of such Fund's outstanding preferred shares, the preferred shareholder approval required for the Reorganizations may turn on the exercise of voting rights by such particular preferred shareholder(s) and its (or their) determination as to the favorability of the Reorganization with respect to its (or their) interests. The Funds exercise no influence or control over the determinations of such preferred shareholder(s) with respect to the Reorganization; there is no guarantee that such preferred shareholder(s) will approve the Reorganization, over which it (or they) may exercise effective disposition power.

Subject to the requisite approval of the shareholders of each Fund with respect to its respective Reorganization, as well as certain consents, confirmations and/or waivers from various third parties, including the liquidity provider with respect to the outstanding VRDP Shares and, with respect to the BNJ Reorganization, subject to the completion of the VMTP Refinancing prior to the Closing Date of the BNJ Reorganization, it is expected that the Closing Date of the Reorganizations will be sometime during the second quarter of 2018, but it may be at a different time as described herein.

For additional information regarding voting requirements, see Voting Information and Requirements.

Reasons for the Reorganizations

The Board of each Fund, including the Independent Board Members, unanimously approved the Reorganizations on December 1, 2017 (the Approval). Based on the considerations below, the Board of each Fund, including the Independent Board Members, has determined that the Reorganizations are in the best interests of such Fund and that the interests of its existing common shareholders and preferred shareholder would not be diluted with respect to NAV and the liquidation preference, respectively, as a result of the Reorganizations. As a result of the Reorganizations, however, common and preferred shareholders of each Fund may hold a reduced percentage of ownership in the larger Combined Fund than they did in any of the individual Funds before the Reorganizations.

Each Board's determination to approve the Reorganizations was made on the basis of each Board Member's business judgment after consideration of all of the factors taken as a whole with respect to each Fund and its shareholders, although individual Board Members may have placed different weight and assigned different degrees of materiality to various factors. Because the shareholders of each Fund will vote separately on the Fund's respective Reorganization(s) or Issuances, as applicable, and the BNJ Reorganization is contingent upon the completion of the VMTP Refinancing, there are multiple potential combinations of Reorganizations. The

Table of Contents

Board of each Fund and the Investment Advisor believe that the most likely result of the potential combinations of the Reorganizations is the combination of all of the Funds. To the extent that one Reorganization is not completed, but the other Reorganization is completed, any expected expense savings by the Combined Fund, or other potential benefits resulting from the Reorganizations, may be reduced. If a Reorganization is not consummated, then the Investment Advisor may, in connection with ongoing management of the Fund for which such Reorganization(s) was not consummated and its product line, recommend alternative proposals to the Board of that Fund. Before reaching these conclusions, the Board of each Fund, including the Independent Board Members, engaged in a thorough review process relating to the Reorganizations, as well as alternatives to the Reorganizations. The Board of each Fund also received a memorandum outlining, among other things, the legal standards and certain other considerations relevant to the Board's deliberations.

The Board of each Fund considered the Reorganizations over a series of meetings. In preparation for the Approval, the Investment Advisor provided each Board with information regarding the Reorganizations, including the rationale therefor and alternatives considered to the Reorganizations.

Each Board considered a number of factors presented at the time of the Approval or prior meetings in reaching their determinations, including, but not limited to, the following, which are discussed in further detail below:

potential for improved economies of scale and a lower Total Expense Ratio with respect to each Fund;

the potential effects of the Reorganizations on the earnings and distributions of each Fund;

the potential effects of the Reorganizations on each Fund's premium/discount to NAV of Common Shares;

the potential effects of the Reorganizations on each Fund's preferred shares;

the compatibility of the Funds' investment objectives, investment policies and related risks and risk profiles;

consistency of portfolio management and portfolio composition;

the potential for improved secondary market trading, including the potential for greater secondary market liquidity for the Combined Fund's Common Shares, which may result in tighter bid-ask spreads and better trade execution for the Combined Fund's common shareholders when purchasing or selling the Combined Fund's Common Shares;

the potential for operating and administrative efficiencies for the Combined Fund, including the potential for the following benefits:

greater investment flexibility and investment options, greater diversification of portfolio investments, the ability to trade in larger positions, additional sources of leverage or more competitive leverage terms and more favorable transaction terms;

benefits from having fewer closed-end funds offering similar products in the market, including an increased focus by investors on the remaining funds in the market (including the Combined Fund) and additional research coverage; and

Edgar Filing: BLACKROCK MUNIYIELD NEW JERSEY FUND, INC. - Form N-14 8C

benefits from having fewer similar funds in the same fund complex, including a simplified operational model and a reduction in risk of operational, legal and financial errors;

the anticipated tax-free nature of the Reorganizations (except with respect to taxable distributions, if any, from any Fund prior to, or after, the consummation of the Reorganizations, and the receipt of cash in lieu of fractional Shares);

the potential effects on the Funds' capital loss carryforwards;

the potential effects on each Fund's undistributed net investment income;

Table of Contents

the expected costs of the Reorganizations;

the terms of the Reorganizations and whether the Reorganizations would dilute the interests of shareholders of the Funds;

the effect of the Reorganizations on shareholder rights;

alternatives to the Reorganizations for each Fund; and

any potential benefits of the Reorganizations to the Investment Advisor and its affiliates.

Potential for Improved Economies of Scale and Potential for a Lower Expense Ratio. Each Board considered the fees and Total Operating Expenses of its Fund (including estimated expenses of the Combined Fund after the Reorganizations). For the fiscal year ended July 31, 2017, the Total Expense Ratios of the Acquiring Fund and BNJ were 1.93% and 2.21%, respectively. For the fiscal year ended August 31, 2017, the Total Expense Ratio of BLJ was 2.48%. Total Expenses means a Fund's total annual operating expenses (including interest expense). Total Expense Ratio means a Fund's Total Expenses expressed as a percentage of its average net assets attributable to its Common Shares. If any of the Reorganizations are consummated, the Investment Advisor has voluntarily agreed to waive a portion of its investment management fees equal to an annual rate of 0.01% of the average daily net assets of the Combined Fund (the Voluntary Waiver). This Voluntary Waiver may be reduced or discontinued at any time.

As of July 31, 2017, the historical and *pro forma* Total Expense Ratios (including the Voluntary Waiver) applicable to the Reorganizations are as follows:

		Acquiring Fund	Pro Forma Combined Fund	Pro Forma Combined Fund	Pro Forma Combined Fund
		(MYJ)	(BLJ into MYJ)	(BNJ into MYJ)	(BLJ and BNJ into MYJ)
BLJ	BNJ	(MYJ)	(BLJ into MYJ)	(BNJ into MYJ)	(BLJ and BNJ into MYJ)
2.46%	2.21%	1.93%	1.91%	1.92%	1.92%

The Funds estimate that the completion of all of the Reorganizations would result in a Total Expense Ratio (including the Voluntary Waiver) for the Combined Fund of 1.92% on a historical and *pro forma* basis for the 12-month period ended July 31, 2017, representing a reduction in the Total Expense Ratio (including the Voluntary Waiver) for the common shareholders of BLJ, BNJ and the Acquiring Fund of 0.54%, 0.29% and 0.01%, respectively.

Each Fund's Total Expenses include interest expense associated with such Fund's preferred shares. For the fiscal year ended July 31, 2017, the Total Expense Ratios (excluding interest expense) of the Acquiring Fund and BNJ were 0.93% and 1.16%, respectively. For the fiscal year ended August 31, 2017, the Total Expense Ratio (excluding interest expense) of BLJ was 1.43%.

The Funds estimate that the completion of all of the Reorganizations would result in a Total Expense Ratio (excluding interest expense and including the Voluntary Waiver) for the Combined Fund of 0.90% on a historical and *pro forma* basis for the 12-month period ended July 31, 2017, representing a reduction in the Total Expense Ratio (excluding interest expense and including the Voluntary Waiver) for the common shareholders of BLJ, BNJ and the Acquiring Fund of 0.53%, 0.26% and 0.03%, respectively.

The Combined Fund will have a lower annual contractual investment management fee rate than each of BLJ and BNJ and the same annual contractual investment management fee rate as the Acquiring Fund. BLJ currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.65% of its average weekly managed assets. BNJ currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.60% of its average weekly managed assets. Average weekly managed assets are the average weekly value of the Fund's total assets minus the sum of the Fund's accrued liabilities (which does not include liabilities represented by TOB leverage and the liquidation preference of BLJ's

Table of Contents

VRDP Shares or BNJ's VMTP Shares). The Acquiring Fund currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.50% of its average daily Net Assets. Average daily Net Assets are the average daily value of the Acquiring Fund's total assets minus the sum of the Acquiring Fund's accrued liabilities (which does not include liabilities represented by TOB leverage and the liquidation preference of the Acquiring Fund VRDP Shares).

If the Reorganizations are consummated, the annual contractual investment management fee rate of the Acquiring Fund will be the annual contractual investment management fee rate of the Combined Fund, which will be 0.50% of the average daily Net Assets of the Combined Fund. The annual contractual investment management fee rate of the Combined Fund represents a 15 basis point reduction in the annual contractual investment management fee rate for BLJ and a 10 basis point reduction in the annual contractual investment management fee rate for BNJ. Additionally, if any of the Reorganizations are consummated, the Investment Advisor has voluntarily agreed to waive a portion of its investment management fees equal to an annual rate of 0.01% of the average daily net assets of the Combined Fund, resulting in a contractual investment management fee rate of 0.49% of the average daily Net Assets of the Combined Fund. This voluntary waiver may be reduced or discontinued at any time.

Based on a *pro forma* Broadridge peer expense group for the Combined Fund, the estimated total annual fund expense ratio (excluding investment-related expenses and taxes) is expected to be in the second quartile and contractual investment management fee rate and actual investment management fee rate over total assets are each expected to be in the first quartile.

The level of expense savings (or increases) will vary depending on the combination of the Funds in the Reorganizations, and furthermore, there can be no assurance that future expenses will not increase or that any expense savings for any Fund will be realized as a result of any Reorganization.

Potential Effects of the Reorganizations on Earnings and Distributions. The Boards noted that the Combined Fund's earnings yield on NAV following the Reorganizations is expected to be potentially higher than each Fund's current earnings yield on NAV. The distribution level of any fund is subject to change based upon a number of factors, including the current and projected level of the fund's earnings, and may fluctuate over time; thus, subject to a number of other factors, including the fund's distribution policy, a higher earnings profile may potentially have a positive impact on such fund's distribution level over time. The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganizations. A Fund's earnings and net investment income are variables which depend on many factors, including its asset mix, portfolio turnover level, the amount of leverage utilized by the Fund, the costs of such leverage, the performance of its investments, the movement of interest rates and general market conditions. In addition, the Combined Fund's future earnings will vary depending upon the combination of the Reorganizations. There can be no assurance that the future earnings of a Fund, including the Combined Fund after the Reorganizations, will remain constant.

Potential Effects of the Reorganizations on Premium/Discount to NAV of Common Shares. Each Board noted that the Common Shares of its Fund have historically traded at both a premium and a discount. As of November 30, 2017, the NAV per Common Share of BLJ was \$15.66 and the market price per Common Share of BLJ was \$14.48, representing a discount to NAV of 7.54%, the NAV per Common Share of BNJ was \$15.42 and the market price per Common Share of BNJ was \$15.51, representing a premium to NAV of 0.58% and the NAV per Common Share of the Acquiring Fund was \$15.86 and the market price per Common Share of the Acquiring Fund was \$15.59, representing a discount to NAV of 1.70%. The Boards of BLJ and BNJ noted that to the extent BLJ and BNJ Common Shares are trading at a wider discount or a narrower premium than the Acquiring Fund at the time of the Reorganizations, BLJ and BNJ common shareholders would have the potential for an economic benefit by the narrowing of the discount or widening of the premium. The Boards of BLJ and BNJ also noted that to the extent the BLJ or BNJ Common Shares are trading at a narrower discount or wider premium than the Acquiring Fund at the time of the Reorganizations, BLJ and BNJ common shareholders may

Table of Contents

be negatively impacted if the Reorganizations are consummated. The Board of the Acquiring Fund noted that Acquiring Fund common shareholders would only benefit from a premium/discount perspective to the extent the post-Reorganization discount (or premium) of the Acquiring Fund Common Shares improves. There can be no assurance that, after the Reorganizations, Common Shares of the Combined Fund will trade at a narrower discount to NAV or wider premium to NAV than the Common Shares of any individual Fund prior to the Reorganizations. Upon consummation of the Reorganizations, the Combined Fund Common Shares may trade at a price that is less than the current market price of Acquiring Fund Common Shares. In the Reorganizations, common shareholders of BLJ and BNJ will receive Common Shares of the Acquiring Fund based on the relative NAVs (not the market values) of each respective Fund's Common Shares. The market value of the Common Shares of the Combined Fund may be less than the market value of the Common Shares of each respective Fund prior to the Reorganizations.

Potential Effects of the Reorganizations on the Preferred Shares. The Board noted that each Fund has preferred shares outstanding. As of November 30, 2017, BLJ has 187 Series W-7 VRDP Shares outstanding, BNJ has 591 Series W-7 VMTP Shares outstanding, and the Acquiring Fund has 1,022 Series W-7 VRDP Shares outstanding. Prior to the Reorganizations, it is expected that all of the VMTP Shares of BNJ will be refinanced into BNJ VRDP shares with terms substantially identical to those of the Acquiring Fund's VRDP Shares. In connection with the Reorganizations, and assuming the VMTP Refinancing is completed prior to the Closing Date of the BNJ Reorganization, the Acquiring Fund expects to issue 187 additional VRDP Shares to BLJ VRDP Holders and 591 additional VRDP Shares to BNJ VRDP Holders. Following the completion of the Reorganizations, the Combined Fund is expected to have 1,800 VRDP Shares outstanding. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

The Board noted that, assuming the VMTP Refinancing is completed prior to the Closing Date of the BNJ Reorganization, upon the Closing Date of the Reorganizations, BLJ and BNJ VRDP Holders will receive on a one-for-one basis one newly issued Acquiring Fund VRDP Share, par value \$0.10 per share and with a liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on the BLJ or BNJ VRDP Shares up to and including the day immediately preceding the Closing Date if such dividends have not been paid prior to the Closing Date), in exchange for each BLJ and BNJ VRDP Share held by the BLJ or BNJ VRDP Holders immediately prior to the Closing Date. The newly issued Acquiring Fund VRDP Shares may be of the same series as the Acquiring Fund's Series W-7 VRDP Shares or a substantially identical series. No fractional Acquiring Fund VRDP Shares will be issued. The terms of the Acquiring Fund VRDP Shares to be issued in connection with the Reorganizations will be substantially identical to the terms of the Acquiring Fund's outstanding VRDP Shares and will rank on a parity with the Acquiring Fund's outstanding VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The newly issued Acquiring Fund VRDP Shares will be subject to the same special rate period (including the terms thereof) applicable to the outstanding Acquiring Fund VRDP Shares as of the Closing Date of the Reorganization. Such special rate period will terminate on June 20, 2018, unless extended. The Reorganizations will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

The newly issued Acquiring Fund VRDP Shares will have terms that are substantially identical to the terms of the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the outstanding BLJ VRDP Shares, except that the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041. BLJ VRDP Shares have a mandatory redemption date of July 1, 2042. The VRDP Shares of the Acquiring Fund and BLJ are currently in a one year special rate period that will end on June 20, 2018, unless extended. The terms applicable to the VRDP Shares of the Acquiring Fund and BLJ during the Special Rate Period are substantially identical. The BNJ VRDP Shares to be issued in connection with the VMTP Refinancing will also be subject to a special rate period and the terms of BNJ's VRDP Shares during such special rate period will be substantially identical to the terms of the Special Rate Period for the outstanding Acquiring Fund and BLJ

Table of Contents

VRDP Shares. The terms of the special rate period applicable to the newly issued Acquiring Fund VRDP Shares will be substantially identical to the terms of the special rate period applicable to the Funds' VRDP Shares as of the Closing Date of the Reorganization.

The Board noted that none of the expenses of the Reorganizations are expected to be borne by the VRDP Holders of the Funds.

Following the Reorganizations, the VRDP Holders of each Fund will be VRDP Holders of the larger Combined Fund that will have a larger asset base and more VRDP Shares outstanding than any Fund individually before the Reorganizations. With respect to matters requiring all preferred shareholders to vote separately or common and preferred shareholders to vote together as a single class, following the Reorganizations, holders of VRDP Shares of the Combined Fund may hold a smaller percentage of the outstanding preferred shares of the Combined Fund as compared to their percentage holdings of outstanding preferred shares of their respective Fund prior to the Reorganizations.

Compatibility of Investment Objectives, Investment Policies and Related Risks and Risk Profiles. Each Board noted that its Fund's shareholders will remain invested in an exchange-listed, non-diversified closed-end management investment company registered under the 1940 Act that will have substantially greater net assets and substantially similar (but not identical) investment objective, investment policies and investment restrictions. Each Fund seeks to achieve its investment objective by investing at least 80% of its net assets (including proceeds from issuance of preferred shares or other borrowings for investment purposes) in New Jersey Municipal Bonds. In addition, under normal market conditions, the Acquiring Fund intends to invest primarily in a portfolio of investment grade Municipal Bonds. Similarly, each of BLJ and BNJ intends to invest, under normal market conditions, at least 80% of its managed assets in a portfolio of investment grade Municipal Bonds. Each Fund also utilizes leverage in the form of preferred shares and tender option bonds. The risk/return profile of the Combined Fund is expected to remain comparable to those of each Fund before the Reorganizations because of the similarities in the investment policies of each Fund.

Consistency of Portfolio Management and Portfolio Composition. Each Board noted that each Fund has the same investment adviser and portfolio managers and that each Fund's shareholders will benefit from the continuing experience and expertise of its current portfolio management team. Each Fund is managed by a team of investment professionals lead by Phillip Soccio and Theodore R. Jaeckel, Jr. Each Board also considered the portfolio composition of its Fund and the impact of the Reorganizations on the Fund's portfolio. Each Board noted that it is not anticipated that there will be any significant disposition of the holdings in its Fund as a result of the Reorganizations because of the similarities among the portfolio guidelines of the Funds. For additional information, please see *Comparison of the Funds' Investments and Risk Factors and Special Considerations*.

Potential for Improved Secondary Market Trading for Common Shares. While it is not possible to predict trading levels at the time the Reorganizations close, each Board considered that the Combined Fund may provide greater secondary market liquidity for its Common Shares as it would be larger than any of the Funds, which may result in tighter bid-ask spreads, better trade execution for the Combined Fund's common shareholders when purchasing or selling Combined Fund Common Shares. However, there can be no assurance that the Reorganizations will result in such benefits or that the Common Shares of the Combined Fund will trade at a narrower discount to NAV or wider premium to NAV than the Common Shares of any individual Fund prior to the Reorganizations. Upon consummation of the Reorganizations, the secondary market liquidity, bid-ask spreads, and trade execution with respect to the Combined Fund's Common Shares may deteriorate. Furthermore, the Combined Fund Common Shares may trade at a price that is less than the current market price of Acquiring Fund Common Shares.

Potential for Operating and Administrative Efficiencies. Each Board noted that the Combined Fund may achieve certain operating and administrative efficiencies from its larger net asset size, including greater investment flexibility and investment options, greater diversification of portfolio investments, the ability to trade

Table of Contents

in larger positions, additional sources of leverage or more competitive leverage terms and more favorable transaction terms. Each Board also noted that the Combined Fund may experience potential benefits from having fewer closed-end funds offering similar products in the market, including an increased focus by investors on the remaining funds in the market (including the Combined Fund) and additional research coverage.

Each Board also noted that the Combined Fund may experience potential benefits from having fewer similar funds in the same fund complex, including a simplified operational model, the elimination of complexities involved with having duplicative funds, easier product differentiation for shareholders (including shareholders of the Combined Fund) and reduced risk of operational, legal and financial errors.

Anticipated Tax-Free Reorganizations. Each Board noted that it is anticipated that shareholders of its Fund will generally recognize no gain or loss for U.S. federal income tax purposes as a result of the Reorganizations (except with respect to cash received in lieu of fractional Common Shares), as each Reorganization is intended to qualify as a reorganization within the meaning of Section 368(a) of the Code.

Shareholders of each Fund may receive distributions prior to, or after, the consummation of the Reorganizations, including distributions attributable to their proportionate share of each Fund's undistributed net investment income declared prior to the consummation of the Reorganizations or the Combined Fund built-in gains, if any, recognized after the Reorganizations, when such income and gains are eventually distributed by the Combined Fund. To the extent that such a distribution is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. federal income tax purposes.

Capital Loss Carryforward Considerations. Each Board considered that capital loss carryforwards of the Combined Fund attributable to BLJ and BNJ will be subject to tax loss limitation rules by reason of BLJ and BNJ undergoing an ownership change in the Reorganizations. Each Board also noted that the Combined Fund's capital loss carryforward loss on a per share basis is expected to be lower than the Acquiring Fund's capital loss carryforward loss per share, but higher than BLJ and BNJ capital loss carryforward loss per share. Each Board considered that the ability of its Fund to fully utilize its existing capital loss carryforwards depends on many variables and assumptions, including projected performance, and is, therefore, highly uncertain.

Potential Effects of the Reorganizations on Undistributed Net Investment Income. If the Reorganizations are approved by shareholders, then substantially all of the undistributed net investment income, if any, of each Fund is expected to be declared to such Fund's common shareholders prior to the Closing Date (the Pre-Reorganization Declared UNII Distributions). The declaration date, ex-dividend date (the Ex-Dividend Date) and record date of the Pre-Reorganization Declared UNII Distributions will occur prior to the Closing Date. However, all or a significant portion of the Pre-Reorganization Declared UNII Distributions may be paid in one or more distributions to common shareholders of the Funds entitled to such Pre-Reorganization Declared UNII Distributions after the Closing Date. Former BLJ and BNJ shareholders entitled to such Pre-Reorganization Declared UNII Distributions paid after the Closing Date will receive such distributions in cash.

Persons who purchase Common Shares of any of the Funds on or after the Ex-Dividend Date for the Pre-Reorganization Declared UNII Distributions should not expect to receive any distributions from any Fund until distributions, if any, are declared by the Board of the Combined Fund and paid to shareholders entitled to any such distributions. No such distributions are expected to be paid by the Combined Fund until at least approximately one month following the Closing Date.

Additionally, the Acquiring Fund, in order to seek to provide its common shareholders with distribution rate stability, may include in its Pre-Reorganization Declared UNII Distribution amounts in excess of its undistributed net investment income and net investment income accrued through the Closing Date; any such excess amounts are not expected to constitute a return of capital. This would result in the Acquiring Fund issuing incrementally more Common Shares in the Reorganizations since its NAV as of the Valuation Time would be

Table of Contents

lower relative to a scenario where such excess amounts were not included in the Acquiring Fund's Pre-Reorganization Declared UNII Distribution.

The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganizations. The Combined Fund is anticipated to retain a lower UNII balance after the Reorganizations than the Acquiring Fund prior to the Reorganizations. The lower anticipated UNII balance for the Combined Fund relative to the UNII balance of the Acquiring Fund poses risks for shareholders of the Combined Fund. UNII balances, in part, support the level of a fund's regular distributions and provide a cushion in the event a fund's net earnings for a particular distribution period are insufficient to support the level of its regular distribution for that period. If the Combined Fund's net earnings are below the level of its current distribution rate, the Combined Fund's UNII balance could be more likely to contribute to a determination to decrease the Combined Fund's distribution rate, or could make it more likely that the Combined Fund will make distributions consisting in part of a return of capital to maintain the level of its regular distributions. See Dividends and Distributions. Moreover, because a fund's UNII balance, in part, supports the level of a fund's regular distributions, the UNII balance of the Combined Fund could impact the trading market for the Combined Fund's Common Shares and the magnitude of the trading discount to NAV of the Combined Fund's Common Shares. However, the Combined Fund is anticipated to benefit from a lower expense ratio (compared to BNJ and BLJ), a potentially higher earnings profile and other anticipated benefits of economies of scale as discussed herein. Each Fund, including the Combined Fund, reserves the right to change its distribution policy with respect to common share distributions and the basis for establishing the rate of its distributions for the Common Shares at any time and may do so without prior notice to common shareholders. The payment of any distributions by any Fund, including the Combined Fund, is subject to, and will only be made when, as, and if, declared by the Board of such Fund. There is no assurance the Board of any Fund, including the Combined Fund, will declare any distributions for such Fund.

To the extent any Pre-Reorganization Declared UNII Distribution is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. federal income tax purposes.

Expected Costs of the Reorganizations. Each Board considered the terms and conditions of its Reorganization Agreement(s), including the estimated costs associated with the Reorganizations, and the allocation of such costs among the Funds. Each Board noted, however, that the Investment Advisor anticipated that the projected costs of the Reorganizations may be recovered over time. Common shareholders of BLJ and BNJ will indirectly bear the costs of the Reorganizations. The expenses of the Reorganizations are estimated to be \$223,000 for BLJ and \$263,000 for BNJ. Additionally for BNJ, the costs of the VMTP Refinancing are estimated to be \$215,000. These costs will be amortized over the life of the VRDP Shares by the Combined Fund. Because of the expected expense savings and other anticipated benefits for each of BLJ and BNJ, the Investment Advisor recommended and the Board of BLJ and BNJ has approved that its respective Fund be responsible for its own reorganization expenses. The Investment Advisor will bear all of the Acquiring Fund's reorganization expenses, which are expected to be approximately \$290,000. The actual costs associated with the Reorganizations may be more or less than the estimated costs discussed herein. Each Board also noted that the VRDP Holders of the Funds are not expected to bear any of the costs of the Reorganizations, while the common shareholders of the Funds will indirectly bear the costs of the Reorganizations.

Terms of the Reorganizations and Impact on Shareholders. Each Board noted that the aggregate NAV (not the market value) of the Acquiring Fund Common Shares that BLJ or BNJ common shareholders will receive in the Reorganizations are expected to equal the aggregate NAV (not the market value) of BLJ and BNJ Common Shares that BLJ and BNJ common shareholders owned immediately prior to the Closing Date. The NAV of BLJ and BNJ and the Acquiring Fund immediately prior to the Closing Date will be reduced by the costs of the Reorganizations borne by each Fund, if any. The NAV of BLJ and BNJ Common Shares will not be diluted as a result of the Reorganizations. Fractional Acquiring Fund Common Shares will generally not be issued to BLJ and

Table of Contents

BNJ common shareholders in connection with the Reorganizations, and BLJ and BNJ common shareholders should expect to receive cash in lieu of such fractional Common Shares.

Each Board further noted that holders of BLJ or BNJ VRDP Shares will receive the same number of Acquiring Fund VRDP Shares as the BLJ or BNJ VRDP Shares held by such VRDP Holders immediately prior to the Closing Date. BNJ VMTP Holders will have their VMTP Shares redeemed by the Fund in connection with the VMTP Refinancing if the BNJ Reorganization is approved by the requisite shareholders.

The newly issued Acquiring Fund VRDP Shares will have terms that are substantially identical to the terms of the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the outstanding BLJ VRDP Shares, except that the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041. BLJ VRDP Shares have a mandatory redemption date of July 1, 2042. The VRDP Shares of the Acquiring Fund and BLJ are currently in a one year special rate period that will end on June 20, 2018, unless extended. The terms applicable to the VRDP Shares of the Acquiring Fund and BLJ during the Special Rate Period are substantially identical. The BNJ VRDP Shares to be issued in connection with the VMTP Refinancing will also be subject to a special rate period and the terms of BNJ's VRDP Shares during such special rate period will be substantially identical to the terms of the Special Rate Period for the outstanding Acquiring Fund and BLJ VRDP Shares. The terms of the special rate period applicable to the newly issued Acquiring Fund VRDP Shares will be substantially identical to the terms of the special rate period applicable to the Funds' VRDP Shares as of the Closing Date of the Reorganization.

Effect on Shareholder Rights. Each Board noted that BLJ and BNJ are each organized as a Delaware statutory trust and that the Acquiring Fund is organized as a Maryland corporation. Each Board also noted that the common shareholders of each Fund have substantially similar voting rights and rights with respect to the payment of dividends and distribution of assets upon liquidation of their respective Fund and have no preemptive, conversion or exchange rights.

Each Board also noted that the terms of the Acquiring Fund VRDP Shares to be issued in connection with the Reorganizations will have terms that are substantially identical to the terms of the Acquiring Fund's outstanding VRDP Shares and will rank on a parity with the Acquiring Fund's outstanding VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The newly issued Acquiring Fund VRDP Shares will be subject to the same special rate period (including the terms thereof) applicable to the outstanding Acquiring Fund VRDP Shares as of the Closing Date of the Reorganization. Such special rate period will terminate on June 20, 2018, unless extended. The Reorganizations will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

Alternatives to the Reorganizations. In reaching its decision to approve the Reorganizations, the Board considered alternatives to the Reorganizations, including continuing to operate each Fund as a separate Fund.

Potential Benefits to the Investment Advisor and its Affiliates. Each Board recognized that the Reorganizations may result in some benefits and economies of scale for the Investment Advisor and its affiliates. These may include, for example, administrative and operational efficiencies or a reduction in certain operational expenses as a result of the elimination of BLJ and BNJ as separate funds in the BlackRock closed-end fund complex.

Each Board noted that, if the Reorganizations are consummated, the annual contractual investment management fee rate of the Combined Fund will be 0.50% of the average daily Net Assets of the Combined Fund. Each Board noted that the annual contractual investment management fee rate of the Combined Fund represents a 15 basis point reduction in the annual contractual investment management fee rate for BLJ and a 10 basis point reduction in the annual contractual investment management fee rate for BNJ. Additionally, if any of the Reorganizations are consummated, the Investment Advisor has voluntarily agreed to waive a portion of its

Table of Contents

investment management fees equal to an annual rate of 0.01% of the average daily net assets of the Combined Fund, resulting in a contractual investment management fee rate of 0.49% of the average daily Net Assets of the Combined Fund. This voluntary waiver may be reduced or discontinued at any time.

The Investment Advisor will bear all of the Acquiring Fund's reorganization expenses, which are expected to be approximately \$290,000.

Conclusion. Each Board, including the Independent Board Members, approved each Reorganization Agreement and each Issuance, as applicable, concluding that the Reorganizations are in the best interests of its Fund and that the interests of existing common shareholders and preferred shareholders of its Fund will not be diluted with respect to NAV and liquidation preference, respectively, as a result of the Reorganizations. This determination was made on the basis of each Board Member's business judgment after consideration of all of the factors taken as a whole with respect to its Fund and the Fund's common and preferred shareholders, although individual Board Members may have placed different weight on various factors and assigned different degrees of materiality to various factors.

Because the shareholders of each Fund will vote separately on the Fund's respective Reorganization(s) or Issuances, as applicable, and the BNJ Reorganization is contingent upon the completion of the VMTP Refinancing, there are multiple potential combinations of Reorganizations. The Board of each Fund and the Investment Advisor believe that the most likely result of the potential combinations of Reorganizations is the combination of all of the Funds. To the extent that one Reorganization is not completed, but the other Reorganization is completed, any expected expense savings by the Combined Fund, or other potential benefits resulting from the Reorganizations, may be reduced.

If a Reorganization is not consummated, then the Investment Advisor may, in connection with ongoing management of the Fund for which such Reorganization(s) was not consummated and its product line, recommend alternative proposals to the Board of that Fund.

Terms of the Reorganization Agreements

The following is a summary of the significant terms of each Reorganization Agreement. This summary is qualified in its entirety by reference to the Forms of Agreement and Plan of Reorganization attached as Appendix A to the Statement of Additional Information.

Valuation of Assets and Liabilities

The respective assets of each of the Funds will be valued on the business day prior to the Closing Date of the Reorganizations (the Valuation Time). The valuation procedures are the same for each Fund: the NAV per Common Share of each Fund will be determined after the close of business on the NYSE (generally, 4:00 p.m., Eastern time) at the Valuation Time. For the purpose of determining the NAV of a Common Share of each Fund, the value of the securities held by such Fund plus any cash or other assets (including interest accrued but not yet received) minus all liabilities (including accrued expenses) of such Fund is divided by the total number of Common Shares of such Fund outstanding at such time. Daily expenses, including the fees payable to the Investment Advisor, will accrue at the Valuation Time.

Dividends will accumulate on the BLJ or BNJ VRDP Shares up to and including the day immediately preceding the Closing Date. BLJ and BNJ VRDP Holders will receive on a one-for-one basis one newly issued VRDP Share of the Acquiring Fund, par value \$0.10 per share and with a liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on the BLJ or BNJ VRDP Share up to and including the day immediately preceding the Closing Date if such dividends have not been paid prior to Closing Date), in exchange for each BLJ and BNJ VRDP Share held by the BLJ or BNJ VRDP Holders immediately prior to the Closing Date. The newly issued Acquiring Fund VRDP Shares may be of the same series as the

Table of Contents

Acquiring Fund's Series W-7 VRDP Shares or a substantially identical series. No fractional Acquiring Fund VRDP Shares will be issued.

The first dividend period for the Acquiring Fund VRDP Shares to be issued in the Reorganizations will commence on the Closing Date and end on the day immediately preceding the first dividend payment date for such VRDP Shares, which will be the first business day of the month following the month in which the Closing Date occurs.

Amendments and Conditions

A Reorganization Agreement may be amended at any time prior to the Closing Date with respect to any of the terms therein upon mutual agreement. However, after adoption of the Reorganization Agreement and approval of the Reorganization, no amendment or modification may be made which by law requires further approval by shareholders without such further approval. The obligations of each Fund pursuant to a Reorganization Agreement are subject to various conditions, including a registration statement on Form N-14 being declared effective by the SEC, approval of the Reorganization Agreement by the shareholders of BLJ and BNJ and the VRDP Holders of the Acquiring Fund, certain third-party consents, the approval of each Issuance by the shareholders of the Acquiring Fund, receipt of an opinion of counsel as to tax matters, receipt of an opinion of counsel as to corporate and securities matters and the continuing accuracy of various representations and warranties of the Funds being confirmed by the respective parties.

The BNJ Reorganization is contingent upon the completion of the VMTP Refinancing. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

A Reorganization is not contingent upon the approval of the other Reorganization. If a Reorganization is not consummated, then the Fund for which such Reorganization(s) was not consummated would continue to exist and operate on a stand-alone basis.

Postponement; Termination

Under a Reorganization Agreement, the Board of any Fund that is a party to the Reorganization Agreement may cause the related Reorganization to be postponed or abandoned under certain circumstances should such Board determine that it is in the best interests of the shareholders of its respective Fund to do so. A Reorganization Agreement may be terminated, and the related Reorganization abandoned at any time (whether before or after adoption thereof by the shareholders of either of the Funds involved in the Reorganization) prior to the Closing Date, or the Closing Date may be postponed: (i) by mutual consent of the Boards of such Funds and (ii) by the Board of either such Fund if any condition to that Fund's obligations set forth in the Reorganization Agreement has not been fulfilled or waived by such Board.

Surrender and Exchange of Share Certificates

The Acquiring Fund will issue to BLJ and BNJ VRDP Holders book entry interests for the Acquiring Fund VRDP Shares registered in the name of such BLJ and BNJ VRDP Holders on a one for one basis for each holder's holdings of BLJ or BNJ VRDP Shares. Each Fund's VRDP Shares were or will be issued in book-entry form as global securities, and such global securities were deposited with, or on behalf of, The Depository Trust Company (DTC) and registered in the name of Cede & Co., the nominee of DTC. Beneficial interests in the global securities are held only through DTC and any of its participants.

The Acquiring Fund will issue to BLJ and BNJ common shareholders book entry interests for the Acquiring Fund Common Shares registered in the name of such shareholders on the basis of each shareholder's proportionate interest in the aggregate net asset value of BLJ and BNJ Common Shares. With respect to any BLJ

Table of Contents

or BNJ common shareholder holding certificates evidencing ownership of BLJ or BNJ Common Shares as of the Closing Date, and subject to the Acquiring Fund being informed thereof in writing by BLJ and BNJ, the Acquiring Fund will not permit such shareholder to receive new book entry interests of Acquiring Fund Common Shares, until notified by BLJ or BNJ or its respective agent that such shareholder has surrendered his or her outstanding certificates evidencing ownership of BLJ or BNJ Common Shares, as applicable, or, in the event of lost certificates, posted adequate bond. Each Fund, at its own expense, will request its common shareholders to surrender their outstanding certificates evidencing ownership of BLJ or BNJ Common Shares or post adequate bond. From and after the Closing Date, there will be no transfers on the stock transfer books of BLJ and BNJ. If, after the Closing Date, certificates representing Common Shares of BLJ or BNJ are presented to the Acquiring Fund, they will be cancelled and exchanged for book entry interests representing Acquiring Fund Common Shares and cash in lieu of fractional Common Shares, if applicable, distributable with respect to BLJ and BNJ Common Shares in the Reorganizations.

Expenses of the Reorganizations

Each Fund will bear expenses incurred in connection with the Reorganizations. The expenses incurred in connection with the Reorganizations include but are not limited to, costs related to the preparation and distribution of materials distributed to each Fund's Board, expenses incurred in connection with the preparation of the Reorganization Agreements, the registration statement on Form N-14 and the separate Joint Proxy Statement to preferred shareholders, the printing and distribution of this Joint Proxy Statement/Prospectus delivered to common shareholders, the separate Proxy Statement delivered to preferred shareholders and any other materials required to be distributed to shareholders, SEC and state securities commission filing fees, and legal and audit fees in connection with the Reorganizations, including fees incurred in obtaining the requisite consents of rating agencies, counterparties or service providers to the VRDP Shares, legal fees incurred in connection with amending the transaction documents for the VRDP Shares, which may include the legal fees of counterparties and service providers to the extent applicable, legal fees incurred preparing each Fund's Board materials, attending each Fund's Board meetings and preparing the minutes, auditing fees associated with each Fund's financial statements, stock exchange fees, transfer agency fees, rating agency fees, portfolio transfer taxes (if any), any similar expenses incurred in connection with the Reorganizations, and with respect to BNJ, the VMTP Refinancing, which will be borne directly by the respective Fund incurring the expense or allocated among the Funds proportionately or on another reasonable basis, as appropriate.

Common shareholders of BLJ and BNJ will indirectly bear the costs of the Reorganizations. The expenses of the Reorganizations are estimated to be \$223,000 for BLJ and \$263,000 for BNJ. Additionally for BNJ, the costs of the VMTP Refinancing are estimated to be \$215,000. These costs will be amortized over the life of the VRDP Shares by the Combined Fund. Because of the expected expense savings and other anticipated benefits for each of BLJ and BNJ, the Investment Advisor recommended and the Board of BLJ and BNJ has approved that its respective Fund be responsible for its own reorganization expenses. The Investment Advisor will bear all of the Acquiring Fund's reorganization expenses, which are expected to be approximately \$290,000. The actual costs associated with the Reorganizations may be more or less than the estimated costs discussed herein. Each Board also noted that the VRDP Holders of the Funds are not expected to bear any of the costs of the Reorganizations, while the common shareholders of the Funds will indirectly bear the costs of the Reorganizations.

Neither the Funds nor the Investment Advisor will pay any expenses of shareholders arising out of or in connection with the Reorganizations (e.g., expenses incurred by the shareholder as a result of attending the Special Meeting, voting on the Reorganizations or other action taken by the shareholder in connection with the Reorganizations). The actual costs associated with the Reorganizations may be more or less than the estimated costs discussed herein.

Table of Contents

Appraisal Rights

Common shareholders of BLJ and BNJ do not have appraisal rights for their respective common shares because BLJ and BNJ are each organized as Delaware statutory trusts and the Funds' respective declarations of trust do not provide for appraisal rights. Under Maryland law, stockholders of an investment company whose shares are traded publicly on a national securities exchange, such as Common Shares of the Acquiring Fund, are not entitled to demand the fair value of their shares in connection with a reorganization.

Description of Common Shares to Be Issued by the Acquiring Fund

The terms of the Acquiring Fund Common Shares to be issued pursuant to the Reorganizations will be substantially identical to the terms of the Acquiring Fund Common Shares that are currently outstanding. The Acquiring Fund Common Shares, when issued, will be fully paid and non-assessable and have no preemptive, conversion or exchange rights or rights to cumulative voting.

Please see Information about the Common Shares of the Funds for additional information about the Funds' Common Shares.

Description of VRDP Shares to Be Issued by the Acquiring Fund

Assuming all of the Reorganizations are approved by shareholders and the VMTP Refinancing is completed prior to the Closing Date of the BNJ Reorganization, upon the Closing Date of the Reorganizations, BLJ and BNJ VRDP Holders will receive on a one-for-one basis one newly issued Acquiring Fund VRDP Share, par value \$0.10 per share and with a liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on the BLJ or BNJ VRDP Shares up to and including the day immediately preceding the Closing Date of the Reorganizations if such dividends have not been paid prior to the Closing Date), in exchange for each BLJ or BNJ VRDP Share held by the BLJ or BNJ VRDP Holders immediately prior to the Closing Date. The newly issued Acquiring Fund VRDP Shares may be of the same series as the Acquiring Fund's Series W-7 VRDP Shares or a substantially identical series. No fractional Acquiring Fund VRDP Shares will be issued. The terms of the Acquiring Fund VRDP Shares to be issued in connection with the Reorganizations will be substantially identical to the terms of the Acquiring Fund's outstanding VRDP Shares and will rank on a parity with the Acquiring Fund's outstanding VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The newly issued Acquiring Fund VRDP Shares will be subject to the same special rate period (including the terms thereof) applicable to the outstanding Acquiring Fund VRDP Shares as of the Closing Date of the Reorganization. Such special rate period will terminate on June 20, 2018, unless extended. The Reorganizations will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

The newly issued Acquiring Fund VRDP Shares will have terms that are substantially identical to the terms of the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the outstanding BLJ VRDP Shares, except that the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041. BLJ VRDP Shares have a mandatory redemption date of July 1, 2042. The VRDP Shares of the Acquiring Fund and BLJ are currently in a one year special rate period that will end on June 20, 2018, unless extended. The terms applicable to the VRDP Shares of the Acquiring Fund and BLJ during the Special Rate Period are substantially identical. The BNJ VRDP Shares to be issued in connection with the VMTP Refinancing will also be subject to a special rate period and the terms of BNJ's VRDP Shares during such special rate period will be substantially identical to the terms of the Special Rate Period for the outstanding Acquiring Fund and BLJ VRDP Shares. The terms of the special rate period applicable to the newly issued Acquiring Fund VRDP Shares will be substantially identical to the terms of the special rate period applicable to the Funds' VRDP Shares as of the Closing Date of the Reorganization.

None of the expenses of the Reorganizations are expected to be borne by the VRDP Holders of the Funds.

Table of Contents

Following the Reorganizations, the VRDP Holders of each Fund will be VRDP Holders of the larger Combined Fund that will have a larger asset base and more VRDP Shares outstanding than any Fund individually before the Reorganizations. With respect to matters requiring all preferred shareholders to vote separately or common and preferred shareholders to vote together as a single class, following the Reorganizations, holders of VRDP Shares of the Combined Fund may hold a smaller percentage of the outstanding preferred shares of the Combined Fund as compared to their percentage holdings of outstanding preferred shares of their respective Fund prior to the Reorganizations.

Please see Information about the Preferred Shares of the Funds for additional information.

Table of Contents

THE FUNDS

BLJ and BNJ are each organized as a Delaware statutory trust pursuant to its Agreement and Declaration of Trust governed by the laws of the State of Delaware. The Acquiring Fund is organized as a Maryland corporation pursuant to its Articles of Incorporation (the Charter) and governed by the laws of the State of Maryland. Each Fund is a non-diversified, closed-end management investment company registered under the 1940 Act. Each Fund's principal office is located at 100 Bellevue Parkway, Wilmington, Delaware 19809, and each Fund's telephone number is (800) 882-0052.

BLJ was organized as a Delaware statutory trust pursuant to an Agreement and Declaration of Trust governed by the laws of the State of Delaware on March 14, 2002, and commenced operations on April 25, 2002.

BNJ was organized as a Delaware statutory trust pursuant to an Agreement and Declaration of Trust governed by the laws of the State of Delaware on March 30, 2001, and commenced operations on July 26, 2001.

The Acquiring Fund was organized as a Maryland corporation governed by the laws of the State of Maryland on February 21, 1992, and commenced operations on May 18, 1992.

The Acquiring Fund Common Shares are listed on the NYSE as MYJ. BLJ's Common Shares are listed on the NYSE American as BLJ. BNJ's Common Shares are listed on the NYSE as BNJ.

BNJ and the Acquiring Fund have a July 31 fiscal year end. BLJ has an August 31 fiscal year end.

Each of BLJ and the Acquiring Fund has VRDP Shares outstanding and BNJ has VMTP Shares outstanding. Each Fund's preferred shares are not listed on a national stock exchange and have not been registered under the Securities Act, or any state securities laws, and unless so registered, may not be offered, sold, assigned, transferred, pledged, encumbered or otherwise disposed of except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws. Please see Information about the Preferred Shares of the Funds for additional information.

THE ACQUIRING FUND'S INVESTMENTS

Investment Objective and Policies

The investment objective of the Acquiring Fund is to provide shareholders with as high a level of current income exempt from federal income taxes and New Jersey personal income tax as is consistent with its investment policies and prudent investment management. The Acquiring Fund's investment objective and its policy of investing at least 80% of an aggregate of the Acquiring Fund's net assets (including proceeds from the issuance of any preferred stock) and the proceeds of any borrowings for investment purposes, in New Jersey Municipal Bonds are fundamental policies that may not be changed without the approval of a majority of the outstanding voting securities of the Fund (as defined in the 1940 Act).

The Acquiring Fund seeks to achieve its investment objective by investing at least 80% of an aggregate of the Acquiring Fund's net assets (including proceeds from the issuance of any preferred stock) and the proceeds of any borrowings for investment purposes, in a portfolio of municipal obligations issued by or on behalf of the State of New Jersey, its political subdivisions, agencies and instrumentalities and by other qualifying issuers, each of which pays interest that, in the opinion of bond counsel to the issuer, is excludable from gross income for federal income tax purposes (except that the interest may be includable in taxable income for purposes of the federal alternative minimum tax) and exempt from New Jersey personal income tax (New Jersey Municipal Bonds). The Acquiring Fund also may invest in municipal obligations issued by or on behalf of states, territories and possessions of the United States and their political subdivisions, agencies or instrumentalities, each of which

Table of Contents

pays interest that, in the opinion of bond counsel to the issuer, is excludable from gross income for federal income tax purposes but is not exempt from gross income for New Jersey personal income tax purposes (Municipal Bonds). Unless otherwise noted, the term Municipal Bonds also includes New Jersey Municipal Bonds. The Acquiring Fund may invest directly in such securities or synthetically through the use of derivatives. The Acquiring Fund typically invests at least 80% of its total assets in New Jersey Municipal Bonds. The Acquiring Fund's investment objective and its policy of investing at least 80% of an aggregate of the Acquiring Fund's net assets (including proceeds from the issuance of any preferred stock) and the proceeds of any borrowings for investment purposes, in New Jersey Municipal Bonds are fundamental policies that may not be changed without the approval of a majority of the outstanding voting securities of the Acquiring Fund (as defined in the 1940 Act). There can be no assurance that the Acquiring Fund's investment objective will be realized.

The Acquiring Fund may invest in certain tax exempt securities classified as private activity bonds (or industrial development bonds, under pre-1986 law) (PABs) (in general, bonds that benefit non-governmental entities) that may subject certain investors in the Acquiring Fund to an alternative minimum tax. The percentage of the Acquiring Fund's total assets invested in PABs will vary from time to time.

Under normal market conditions, the Acquiring Fund expects to invest primarily in a portfolio of long term Municipal Bonds that are commonly referred to as investment grade securities, which are obligations rated at the time of purchase within the four highest quality ratings as determined by either Moody's Investors Service, Inc. (Moody's) (currently Aaa, Aa, A and Baa), Standard & Poor's (S&P) (currently AAA, AA, A and BBB) or Fitch Ratings (Fitch) (currently AAA, AA, A and BBB). In the case of short term notes, the investment grade rating categories are SP-1+ through SP-2 for S&P, MIG-1 through MIG-3 for Moody's and F-1+ through F-3 for Fitch. In the case of tax exempt commercial paper, the investment grade rating categories are A-1+ through A-3 for S&P, Prime-1 through Prime-3 for Moody's and F-1+ through F-3 for Fitch. Obligations ranked in the lowest investment grade rating category (BBB, SP-2 and A-3 for S&P; Baa, MIG-3 and Prime-3 for Moody's and BBB and F-3 for Fitch), while considered investment grade, may have certain speculative characteristics. There may be sub-categories or gradations indicating relative standing within the rating categories set forth above. In assessing the quality of Municipal Bonds with respect to the foregoing requirements, the Investment Advisor takes into account the nature of any letters of credit or similar credit enhancement to which particular Municipal Bonds are entitled and the creditworthiness of the financial institution which provided such credit enhancement. Insurance is expected to protect the Acquiring Fund against losses caused by a bond issuer's failure to make interest or principal payments. However, insurance does not protect the Acquiring Fund or its shareholders against losses caused by declines in a bond's market value. If a bond's insurer fails to fulfill its obligations or loses its credit rating, the value of the bond could drop. See Appendix C Ratings of Investments to the Statement of Addition Information. If unrated, such securities will possess creditworthiness comparable, in the opinion of the Investment Advisor, to other obligations in which the Acquiring Fund may invest.

All percentage and ratings limitations on securities in which the Acquiring Fund may invest apply at the time of making an investment and shall not be considered violated as a result of subsequent market movements or if an investment rating is subsequently downgraded to a rating that would have precluded the Acquiring Fund's initial investment in such security. In the event that the Acquiring Fund disposes of a portfolio security subsequent to its being downgraded, the Acquiring Fund may experience a greater risk of loss than if such security had been sold prior to such downgrade.

The average maturity of the Acquiring Fund's portfolio securities varies from time to time based upon an assessment of economic and market conditions by the Investment Advisor. The Acquiring Fund's portfolio at any given time may include both long-term and intermediate-term municipal bonds.

The net asset value of the shares of common stock of a closed-end investment company, such as the Acquiring Fund, which invests primarily in fixed income securities, changes as the general levels of interest rates fluctuate. When interest rates decline, the value of a fixed income portfolio can be expected to rise. Conversely,

Table of Contents

when interest rates rise, the value of a fixed income portfolio can be expected to decline. Prices of longer term securities generally fluctuate more in response to interest rate changes than do shorter term securities. These changes in net asset value are likely to be greater in the case of a fund having a leveraged capital structure, such as the Acquiring Fund.

For temporary periods or to provide liquidity, the Acquiring Fund has the authority to invest as much as 20% of its total assets in tax exempt and taxable money market obligations with a maturity of one year or less (such short term obligations being referred to herein as Temporary Investments). In addition, the Acquiring Fund reserves the right as a defensive measure to invest temporarily a greater portion of its assets in Temporary Investments, when, in the opinion of the Investment Advisor, prevailing market or financial conditions warrant. Taxable money market obligations will yield taxable income. The Acquiring Fund also may invest in variable rate demand obligations (VRDOs) and VRDOs in the form of participation interests (Participating VRDOs) in variable rate tax exempt obligations held by a financial institution. The Acquiring Fund's hedging strategies, which are described in more detail under Strategic Transactions Financial Futures Transactions and Options, are not fundamental policies and may be modified by the Board of Directors of the Acquiring Fund without the approval of the Acquiring Fund's shareholders. The Acquiring Fund is also authorized to invest in indexed and inverse floating rate obligations for hedging purposes and to seek to enhance return.

The Acquiring Fund may invest in securities not issued by or on behalf of a state or territory or by an agency or instrumentality thereof, if the Acquiring Fund receives an opinion of counsel to the issuer that such securities pay interest that is excludable from gross income for federal income tax purposes and, if applicable, exempt from New Jersey personal income tax (Non-Municipal Tax Exempt Securities). Non-Municipal Tax Exempt Securities could include trust certificates, partnership interests or other instruments evidencing interest in one or more long term municipal securities. Non-Municipal Tax Exempt Securities also may include securities issued by other investment companies that invest in Municipal Bonds, to the extent such investments are permitted by the Acquiring Fund's investment restrictions and applicable law. Non-Municipal Tax Exempt Securities are subject to the same risks associated with an investment in Municipal Bonds as well as many of the risks associated with investments in derivatives. If the Internal Revenue Service were to issue any adverse ruling or take an adverse position with respect to the taxation on these types of securities, there is a risk that the interest paid on such securities would be deemed taxable at the federal level.

The Acquiring Fund ordinarily does not intend to realize significant investment income not exempt from regular U.S. federal income tax and New Jersey personal income tax. From time to time, the Acquiring Fund may realize taxable capital gains.

Federal tax legislation may limit the types and volume of bonds the interest on which qualifies for a U.S. federal income tax exemption. As a result, current legislation and legislation that may be enacted in the future may affect the availability of Municipal Bonds for investment by the Acquiring Fund.

Description of Municipal Bonds

Set forth below is a detailed description of the Municipal Bonds and Temporary Investments in which the Acquiring Fund may invest. Information with respect to ratings assigned to tax-exempt obligations that the Fund may purchase is set forth in Appendix C to the Statement of Additional Information. Obligations are included within the term Municipal Bonds if the interest paid thereon is excluded from gross income for federal income tax purposes in the opinion of bond counsel to the issuer.

Municipal Bonds include debt obligations issued to obtain funds for various public purposes, including the construction of a wide range of public facilities, refunding of outstanding obligations and obtaining funds for general operating expenses and loans to other public institutions and facilities. In addition, certain types of private activity bonds (PABs) are issued by or on behalf of public authorities to finance various privately owned or operated facilities, including among other things, airports, public ports, mass commuting facilities,

Table of Contents

multi-family housing projects, as well as facilities for water supply, gas, electricity, sewage or solid waste disposal and other specialized facilities. Other types of PABs, the proceeds of which are used for the construction, equipment or improvement of privately operated industrial or commercial facilities, may constitute Municipal Bonds. The interest on Municipal Bonds may bear a fixed rate or be payable at a variable or floating rate. The two principal classifications of Municipal Bonds are general obligation bonds and revenue bonds, which latter category includes PABs and, for bonds issued on or before August 15, 1986, industrial development bonds or IDBs. Municipal Bonds typically are issued to finance public projects, such as roads or public buildings, to pay general operating expenses or to refinance outstanding debt. Municipal Bonds may also be issued for private activities, such as housing, medical and educational facility construction, or for privately owned industrial development and pollution control projects. General obligation bonds are backed by the full faith and credit, or taxing authority, of the issuer and may be repaid from any revenue source. Revenue bonds may be repaid only from the revenues of a specific facility or source. Municipal Bonds may be issued on a long term basis to provide permanent financing. The repayment of such debt may be secured generally by a pledge of the full faith and credit taxing power of the issuer, a limited or special tax, or any other revenue source, including project revenues, which may include tolls, fees and other user charges, lease payments and mortgage payments. Municipal Bonds may also be issued to finance projects on a short-term interim basis, anticipating repayment with the proceeds of the later issuance of long-term debt.

The Acquiring Fund has not established any limit on the percentage of its portfolio that may be invested in PABs. The Acquiring Fund may not be a suitable investment for investors who are already subject to the federal alternative minimum tax or who would become subject to the federal alternative minimum tax as a result of an investment in the Acquiring Fund's Common Shares.

General Obligation Bonds. General obligation bonds are typically secured by the issuer's pledge of faith, credit and taxing power for the repayment of principal and the payment of interest. The taxing power of any governmental entity may be limited, however, by provisions of its state constitution or laws, and an entity's creditworthiness will depend on many factors, including potential erosion of its tax base due to population declines, natural disasters, declines in the state's industrial base or inability to attract new industries, economic limits on the ability to tax without eroding the tax base, state legislative proposals or voter initiatives to limit ad valorem real property taxes and the extent to which the entity relies on federal or state aid, access to capital markets or other factors beyond the state's or entity's control. Accordingly, the capacity of the issuer of a general obligation bond as to the timely payment of interest and the repayment of principal when due is affected by the issuer's maintenance of its tax base.

Revenue Bonds. Revenue or special obligation bonds are typically payable only from the revenues derived from a particular facility or class of facilities or, in some cases, from the proceeds of a special excise tax or other specific revenue source such as from the user of the facility being financed. Accordingly, the timely payment of interest and the repayment of principal in accordance with the terms of the revenue or special obligation bond is a function of the economic viability of such facility or such revenue source. Revenue bonds issued by state or local agencies to finance the development of low-income, multi-family housing involve special risks in addition to those associated with municipal securities generally, including that the underlying properties may not generate sufficient income to pay expenses and interest costs. Such bonds are generally non-recourse against the property owner, may be junior to the rights of others with an interest in the properties, may pay interest that changes based in part on the financial performance of the property, may be prepayable without penalty and may be used to finance the construction of housing developments which, until completed and rented, do not generate income to pay interest. Increases in interest rates payable on senior obligations may make it more difficult for issuers to meet payment obligations on subordinated bonds.

Municipal Notes. Municipal notes are shorter term municipal debt obligations. They may provide interim financing in anticipation of tax collection, bond sales or revenue receipts. If there is a shortfall in the anticipated proceeds, repayment on the note may be delayed or the note may not be fully repaid, and the Acquiring Fund may lose money.

Table of Contents

Municipal Commercial Paper. Municipal commercial paper is generally unsecured and issued to meet short-term financing needs. The lack of security presents some risk of loss to the Acquiring Fund since, in the event of an issuer's bankruptcy, unsecured creditors are repaid only after the secured creditors out of the assets, if any, that remain.

PABs. The Acquiring Fund may purchase Municipal Bonds classified as PABs. Interest received on certain PABs is treated as an item of tax preference for purposes of the federal alternative minimum tax and may impact the overall tax liability of certain investors in the Acquiring Fund. PABs, formerly referred to as industrial development bonds, are issued by, or on behalf of, states, municipalities or public authorities to obtain funds to provide privately operated housing facilities, airport, mass transit or port facilities, sewage disposal, solid waste disposal or hazardous waste treatment or disposal facilities and certain local facilities for water supply, gas or electricity. Other types of PABs, the proceeds of which are used for the construction, equipment, repair or improvement of privately operated industrial or commercial facilities, may constitute municipal securities, although the federal tax laws may place substantial limitations on the size of such issues. Such bonds are secured primarily by revenues derived from loan repayments or lease payments due from the entity which may or may not be guaranteed by a parent company or otherwise secured. PABs generally are not secured by a pledge of the taxing power of the issuer of such bonds. Therefore, an investor should be aware that repayment of such bonds generally depends on the revenues of a private entity and be aware of the risks that such an investment may entail. The continued ability of an entity to generate sufficient revenues for the payment of principal and interest on such bonds will be affected by many factors including the size of the entity, capital structure, demand for its products or services, competition, general economic conditions, government regulation and the entity's dependence on revenues for the operation of the particular facility being financed.

Moral Obligation Bonds. Municipal Bonds may also include moral obligation bonds, which are normally issued by special purpose public authorities. If an issuer of moral obligation bonds is unable to meet its obligations, the repayment of such bonds becomes a moral commitment but not a legal obligation of the state or municipality in question.

Municipal Lease Obligations. Also included within the general category of Municipal Bonds are certificates of participation (COPs) issued by government authorities or entities to finance the acquisition or construction of equipment, land and/or facilities. The COPs represent participations in a lease, an installment purchase contract or a conditional sales contract (hereinafter collectively called lease obligations) relating to such equipment, land or facilities. Municipal leases, like other municipal debt obligations, are subject to the risk of non-payment. Although lease obligations do not constitute general obligations of the issuer for which the issuer's unlimited taxing power is pledged, a lease obligation is frequently backed by the issuer's covenant to budget for, appropriate and make the payments due under the lease obligation. However, certain lease obligations contain non-appropriation clauses which provide that the issuer has no obligation to make lease or installment purchase payments in future years unless money is appropriated for such purpose on a yearly basis. Although non-appropriation lease obligations are secured by the leased property, disposition of the property in the event of foreclosure might prove difficult and the value of the property may be insufficient to issue lease obligations. Certain investments in lease obligations may be illiquid.

The ability of issuers of municipal leases to make timely lease payments may be adversely impacted in general economic downturns and as relative governmental cost burdens are allocated and reallocated among federal, state and local governmental units. Such non-payment would result in a reduction of income to the Acquiring Fund, and could result in a reduction in the value of the municipal lease experiencing non-payment and a potential decrease in the net asset value of the Acquiring Fund. Issuers of municipal lease obligations might seek protection under the bankruptcy laws. In the event of bankruptcy of such an issuer, the Acquiring Fund could experience delays and limitations with respect to the collection of principal and interest on such municipal leases and the Acquiring Fund may not, in all circumstances, be able to collect all principal and interest to which it is entitled. To enforce its rights in the event of a default in lease payments, the Acquiring Fund might take possession of and manage the assets securing the issuer's obligations on such securities, which may increase the

Table of Contents

Acquiring Fund's operating expenses and adversely affect the net asset value of the Acquiring Fund. When the lease contains a non-appropriation clause, however, the failure to pay would not be a default and the Acquiring Fund would not have the right to take possession of the assets. Any income derived from the Acquiring Fund's ownership or operation of such assets may not be tax-exempt or may fail to generate qualifying income for purposes of the income tests applicable to RICs. In addition, the Acquiring Fund's intention to qualify as a RIC under the Internal Revenue Code of 1986, may limit the extent to which the Acquiring Fund may exercise its rights by taking possession of such assets, because as a RIC the Acquiring Fund is subject to certain limitations on its investments and on the nature of its income.

Zero Coupon Bonds. Municipal Bonds may include zero-coupon bonds. Zero coupon bonds are securities that are sold at a discount to par value and do not pay interest during the life of the security. The discount approximates the total amount of interest the security will accrue and compound over the period until maturity at a rate of interest reflecting the market rate of the security at the time of issuance. Upon maturity, the holder of a zero coupon bond is entitled to receive the par value of the security.

While interest payments are not made on such securities, holders of such securities are deemed to have received income (phantom income) annually, notwithstanding that cash may not be received currently. The effect of owning instruments that do not make current interest payments is that a fixed yield is earned not only on the original investment but also, in effect, on all discount accretion during the life of the obligations. This implicit reinvestment of earnings at a fixed rate eliminates the risk of being unable to invest distributions at a rate as high as the implicit yield on the zero coupon bond, but at the same time eliminates the holder's ability to reinvest at higher rates in the future. For this reason, some of these securities may be subject to substantially greater price fluctuations during periods of changing market interest rates than are comparable securities that pay interest currently. Longer term zero coupon bonds are more exposed to interest rate risk than shorter term zero coupon bonds. These investments benefit the issuer by mitigating its need for cash to meet debt service, but also require a higher rate of return to attract investors who are willing to defer receipt of cash.

The Acquiring Fund accrues income with respect to these securities for U.S. federal income tax and accounting purposes prior to the receipt of cash payments. Zero coupon bonds may be subject to greater fluctuation in value and less liquidity in the event of adverse market conditions than comparably rated securities that pay cash interest at regular intervals.

Further, to maintain its qualification for pass-through treatment under the federal tax laws, the Acquiring Fund is required to distribute income to its shareholders and, consequently, may have to dispose of other, more liquid portfolio securities under disadvantageous circumstances or may have to leverage itself by borrowing in order to generate the cash to satisfy these distributions. The required distributions may result in an increase in the Acquiring Fund's exposure to zero coupon bonds.

In addition to the above-described risks, there are certain other risks related to investing in zero coupon bonds. During a period of severe market conditions, the market for such securities may become even less liquid. In addition, as these securities do not pay cash interest, the Acquiring Fund's investment exposure to these securities and their risks, including credit risk, will increase during the time these securities are held in the Acquiring Fund's portfolio.

Pre-Refunded Municipal Securities. The principal of, and interest on, pre-refunded municipal securities are no longer paid from the original revenue source for the securities. Instead, the source of such payments is typically an escrow fund consisting of U.S. Government securities. The assets in the escrow fund are derived from the proceeds of refunding bonds issued by the same issuer as the pre-refunded municipal securities. Issuers of municipal securities use this advance refunding technique to obtain more favorable terms with respect to securities that are not yet subject to call or redemption by the issuer. For example, advance refunding enables an issuer to refinance debt at lower market interest rates, restructure debt to improve cash flow or eliminate restrictive covenants in the indenture or other governing instrument for the pre-refunded municipal securities.

Table of Contents

However, except for a change in the revenue source from which principal and interest payments are made, the pre-refunded municipal securities remain outstanding on their original terms until they mature or are redeemed by the issuer.

Special Taxing Districts. Special taxing districts are organized to plan and finance infrastructure developments to induce residential, commercial and industrial growth and redevelopment. The bond financing methods such as tax increment finance, tax assessment, special services district and Mello-Roos bonds (a type of municipal security established by the Mello-Roos Community Facilities District Act of 1982), are generally payable solely from taxes or other revenues attributable to the specific projects financed by the bonds without recourse to the credit or taxing power of related or overlapping municipalities. They often are exposed to real estate development-related risks and can have more taxpayer concentration risk than general tax-supported bonds, such as general obligation bonds. Further, the fees, special taxes, or tax allocations and other revenues that are established to secure such financings are generally limited as to the rate or amount that may be levied or assessed and are not subject to increase pursuant to rate covenants or municipal or corporate guarantees. The bonds could default if development failed to progress as anticipated or if larger taxpayers failed to pay the assessments, fees and taxes as provided in the financing plans of the districts.

Indexed and Inverse Floating Rate Securities. The Acquiring Fund may invest in Municipal Bonds (and Non-Municipal Tax Exempt Securities) that yield a return based on a particular index of value or interest rates. For example, the Acquiring Fund may invest in Municipal Bonds that pay interest based on an index of Municipal Bond interest rates. The principal amount payable upon maturity of certain Municipal Bonds also may be based on the value of the index. To the extent the Acquiring Fund invests in these types of Municipal Bonds, the Acquiring Fund's return on such Municipal Bonds will be subject to risk with respect to the value of the particular index. Interest and principal payable on the Municipal Bonds may also be based on relative changes among particular indices. Also, the Acquiring Fund may invest in so-called inverse floating rate bonds or residual interest bonds on which the interest rates typically vary inversely with a short-term floating rate (which may be reset periodically by a dutch auction, a remarketing agent, or by reference to a short-term tax-exempt interest rate index). The Acquiring Fund may purchase synthetically-created inverse floating rate bonds evidenced by custodial or trust receipts. Generally, income on inverse floating obligations will decrease when short-term interest rates increase, and will increase when short-term interest rates decrease. Such securities have the effect of providing a degree of investment leverage, since they may increase or decrease in value in response to changes, as an illustration, in market interest rates at a rate that is a multiple (typically two) of the rate at which fixed-rate, long-term, tax-exempt securities increase or decrease in response to such changes. As a result, the market values of such securities generally will be more volatile than the market values of fixed-rate tax-exempt securities. To seek to limit the volatility of these securities, the Acquiring Fund may purchase inverse floating rate bonds with shorter-term maturities or limitations on the extent to which the interest rate may vary. Certain investments in such obligations may be illiquid.

When Issued Securities, Delayed Delivery Securities and Forward Commitments. The Acquiring Fund may purchase or sell securities that it is entitled to receive on a when issued basis. The Acquiring Fund may also purchase or sell securities on a delayed delivery basis. The Acquiring Fund may also purchase or sell securities through a forward commitment. These transactions involve the purchase or sale of securities by the Acquiring Fund at an established price with payment and delivery taking place in the future. The purchase will be recorded on the date the Acquiring Fund enters into the commitment and the value of the securities will thereafter be reflected in the Acquiring Fund's net asset value. The Acquiring Fund has not established any limit on the percentage of its assets that may be committed in connection with these transactions. At the time the Acquiring Fund enters into a transaction on a when-issued basis, it will segregate or designate on its books and records cash or liquid assets with a value not less than the value of the when-issued securities.

There can be no assurance that a security purchased on a when issued basis will be issued or that a security purchased or sold through a forward commitment will be delivered. A default by a counterparty may result in the Acquiring Fund missing the opportunity of obtaining a price considered to be advantageous. The value of

Table of Contents

securities in these transactions on the delivery date may be more or less than the Acquiring Fund's purchase price. The Acquiring Fund may bear the risk of a decline in the value of the security in these transactions and may not benefit from an appreciation in the value of the security during the commitment period.

If deemed advisable as a matter of investment strategy, the Acquiring Fund may dispose of or renegotiate a commitment after it has been entered into, and may sell securities it has committed to purchase before those securities are delivered to the Acquiring Fund on the settlement date. In these cases the Acquiring Fund may realize a taxable capital gain or loss.

When the Acquiring Fund engages in when-issued, delayed delivery or forward commitment transactions, it relies on the other party to consummate the trade. Failure of such party to do so may result in the Acquiring Fund's incurring a loss or missing an opportunity to obtain a price considered to be advantageous.

The market value of the securities underlying a commitment to purchase securities, and any subsequent fluctuations in their market value, is taken into account when determining the market value of the Acquiring Fund starting on the day the Acquiring Fund agrees to purchase the securities. The Acquiring Fund does not earn interest on the securities it has committed to purchase until they are paid for and delivered on the settlement date.

Call Rights. The Acquiring Fund may purchase a Municipal Bond issuer's right to call all or a portion of such Municipal Bond for mandatory tender for purchase (a Call Right). A holder of a Call Right may exercise such right to require a mandatory tender for the purchase of related Municipal Bonds, subject to certain conditions. A Call Right that is not exercised prior to the maturity of the related Municipal Bond will expire without value. The economic effect of holding both the Call Right and the related Municipal Bond is identical to holding a Municipal Bond as a non-callable security. Certain investments in such obligations may be illiquid.

Yields. Yields on Municipal Bonds are dependent on a variety of factors, including the general condition of the money market and of the municipal bond market, the size of a particular offering, the financial condition of the issuer, the maturity of the obligation and the rating of the issue. The ability of the Acquiring Fund to achieve its investment objective is also dependent on the continuing ability of the issuers of the securities in which the Acquiring Fund invests to meet their obligations for the payment of interest and principal when due. There are variations in the risks involved in holding Municipal Bonds, both within a particular classification and between classifications, depending on numerous factors. Furthermore, the rights of owners of Municipal Bonds and the obligations of the issuer of such Municipal Bonds may be subject to applicable bankruptcy, insolvency and similar laws and court decisions affecting the rights of creditors generally and to general equitable principles, which may limit the enforcement of certain remedies.

Leverage

The Acquiring Fund may utilize leverage to seek to enhance the yield and NAV of its Common Shares. However, this objective cannot be achieved in all interest rate environments. The Acquiring Fund currently leverages its assets through the use of VRDP Shares and tender option bonds. The Combined Fund would also utilize such forms of leverage. Each Fund's total economic leverage through the use of VRDP Shares and tender option bonds does not exceed 45% of its respective total assets.

Under the 1940 Act, the Acquiring Fund is permitted to issue debt up to $33\frac{1}{3}\%$ of its managed assets (50% of its net assets) or preferred equity securities up to 50% of its managed assets (100% of its net assets). The Acquiring Fund may voluntarily elect to limit its leverage to less than the maximum amount permitted under the 1940 Act. In addition, the Acquiring Fund may also be subject to certain asset coverage, leverage or portfolio composition requirements imposed by the VRDP Shares' governing instruments, counterparties or by agencies rating the VRDP Shares, which may be more stringent than those imposed by the 1940 Act.

Table of Contents

In general, the concept of leveraging is based on the premise that the financing cost of leverage, which will be based on short-term interest rates, will normally be lower than the income earned by the Acquiring Fund on its longer-term portfolio investments purchased with the proceeds from leverage. To the extent that the total assets of the Acquiring Fund (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, the Acquiring Fund's common shareholders can benefit from incremental net income. The interest earned on securities purchased with the proceeds from leverage is paid to common shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share NAV.

However, in order to benefit common shareholders, the return on assets purchased with leverage proceeds must exceed the ongoing costs associated with the leverage. If interest and other costs of leverage exceed the Acquiring Fund's return on assets purchased with leverage proceeds, income to common shareholders will be lower than if the Acquiring Fund had not used leverage. Furthermore, the value of the Acquiring Fund's portfolio investments generally varies inversely with the direction of long-term interest rates, although other factors can influence the value of portfolio investments. In contrast, the value of the Acquiring Fund's obligations under its leverage arrangement generally does not fluctuate in relation to interest rates. As a result, changes in interest rates can influence the Acquiring Fund's NAVs positively or negatively.

Changes in the future direction of interest rates are very difficult to predict accurately, and there is no assurance that the Acquiring Fund's leveraging strategy will be successful.

Leverage also will generally cause greater changes in the Acquiring Funds' NAVs, market prices and dividend rates than comparable portfolios without leverage. In a declining market, leverage is likely to cause a greater decline in the net asset value and market price of the Acquiring Fund's Common Shares than if the Acquiring Fund were not leveraged. In addition, the Acquiring Fund may be required to sell portfolio securities at inopportune times or at distressed values in order to comply with regulatory requirements applicable to the use of leverage or as required by the terms of leverage instruments, which may cause the Acquiring Fund to incur losses. The use of leverage may limit the Acquiring Fund's ability to invest in certain types of securities or use certain types of hedging strategies. The Acquiring Fund will incur expenses in connection with the use of leverage, all of which are borne by common shareholders and may reduce income to the Common Shares. During periods in which the Acquiring Fund is using leverage, the fees paid to the Investment Advisor for advisory services will be higher than if the Acquiring Fund did not use leverage, because the fees paid will be calculated on the basis of the Acquiring Fund's total managed assets, which includes the proceeds from leverage. The Acquiring Fund's leveraging strategy may not be successful.

There can be no assurance the Combined Fund will be able to continue to use leverage through the use of preferred shares, tender option bonds or otherwise during periods of instability or illiquidity in the debt markets, during periods of high short-term interest rates or due to other adverse market conditions, because the Combined Fund may not be able to enter into tender option bond transactions or use other forms of leverage during such periods. There can be no assurance that the Combined Fund's leverage strategy will be successful. The use of leverage can create risks. See Risk Factors and Special Considerations General Risks of Investing in the Acquiring Fund Leverage Risk.

Effects of Leverage

Assuming that leverage will represent approximately 38.9% of the Combined Fund's total managed assets and that the Combined Fund will bear expenses relating to that leverage at an average annual rate of 1.59%, the income generated by the Combined Fund's portfolio (net of estimated expenses) must exceed 0.62% in order to cover the expenses specifically related to the Combined Fund's estimated use of leverage. Of course, these numbers are merely estimates used for illustration. Actual leverage expenses will vary frequently and may be significantly higher or lower than the rate estimated above.

Table of Contents

The following table is furnished in response to requirements of the SEC. It is designed to illustrate the effect of leverage on Common Share total return, assuming investment portfolio total returns (comprised of income and changes in the value of securities held in the Combined Fund's portfolio) of (10)%, (5)%, 0%, 5% and 10%. These assumed investment portfolio returns are hypothetical figures and are not necessarily indicative of the investment portfolio returns experienced or expected to be experienced by the Combined Fund. The table further reflects the use of leverage representing 38.9% of the Combined Fund's total managed assets and the Combined Fund's currently projected annual leverage expense of 1.59%.

Assumed Portfolio Total Return (net of expenses)	(10)%	(5)%	0%	5%	10%
Common Share Total Return	(17.4)%	(9.2)%	(1.0)%	7.2%	15.4%

Common Share total return is composed of two elements: the Common Share dividends paid by the Combined Fund (the amount of which is largely determined by the net investment income of the Combined Fund) and gains or losses on the value of the securities the Combined Fund owns. As required by SEC rules, the table assumes that the Combined Fund is more likely to suffer capital losses than to enjoy capital appreciation. For example, a total return of 0% assumes that the tax-exempt interest the Combined Fund receives on its municipal bonds investments is entirely offset by losses in the value of those securities.

Preferred Shares

The Acquiring Fund has leveraged its portfolio by issuing VRDP Shares. Under the 1940 Act, the Acquiring Fund is not permitted to issue preferred shares if, immediately after such issuance, the liquidation value of the Acquiring Fund's outstanding preferred shares exceeds 50% of its assets (including the proceeds from the issuance) less liabilities other than borrowings (i.e., the value of the Acquiring Fund's assets must be at least 200% of the liquidation value of its outstanding preferred shares). In addition, the Acquiring Fund would not be permitted to declare any cash dividend or other distribution on its Common Shares unless, at the time of such declaration, the value of the Acquiring Fund's assets less liabilities other than borrowings is at least 200% of such liquidation value. Please see Information about the Preferred Shares of the Funds for a description of the Acquiring Fund's VRDP Shares.

For tax purposes, the Acquiring Fund is currently required to allocate tax-exempt interest income, net capital gain and other taxable income, if any, between its Common Shares and preferred shares outstanding in proportion to total dividends paid to each class for the year in which or with respect to which tax-exempt income, the net capital gain or other taxable income is paid. If net capital gain or other taxable income is allocated to preferred shares, instead of solely tax-exempt income, the Acquiring Fund will likely have to pay higher total dividends to preferred shareholders or make special payments to preferred shareholders to compensate them for the increased tax liability. This would reduce the total amount of dividends paid to the holders of Common Shares, but would increase the portion of the dividend that is tax-exempt. If the increase in dividend payments or the special payments to preferred shareholders are not entirely offset by a reduction in the tax liability of, and an increase in the tax-exempt dividends received by, the holders of Common Shares, the advantage of the Acquiring Fund's leveraged structure to holders of Common Shares will be reduced.

Tender Option Bonds

The Acquiring Fund currently leverages its assets through the use of TOB Residuals, which are derivative interests in municipal bonds. The TOB Residuals in which the Acquiring Fund will invest pay interest or income that, in the opinion of counsel to the issuer of such TOB Residuals, is exempt from regular U.S. federal income tax. No independent investigation will be made to confirm the tax-exempt status of the interest or income paid by TOB Residuals held by the Acquiring Fund. Although volatile, TOB Residuals typically offer the potential for yields exceeding the yields available on fixed rate municipal bonds with comparable credit quality.

Table of Contents

TOB Residuals represent beneficial interests in a TOB Trust formed for the purpose of holding municipal bonds contributed by one or more funds. A TOB Trust typically issues two classes of beneficial interests: TOB Floaters, which are sold to third party investors, and TOB Residuals, which are generally issued to the fund(s) that transferred municipal bonds to the TOB Trust. The Acquiring Fund may invest in both TOB Floaters and TOB Residuals. TOB Floaters may have first priority on the cash flow from the municipal bonds held by the TOB Trust and are enhanced with a liquidity support arrangement from a third party TOBs Liquidity Provider (defined below) which allows holders to tender their position at par (plus accrued interest). The Acquiring Fund, as a holder of TOB Residuals, is paid the residual cash flow from the TOB Trust. The Acquiring Fund contributes municipal bonds to the TOB Trust and is paid the cash received by the TOB Trust from the sale of the TOB Floaters, less certain transaction costs, and typically will invest the cash to purchase additional municipal bonds or other investments permitted by its investment policies. If the Acquiring Fund ever purchases all or a portion of the TOB Floaters sold by the TOB Trust, it may surrender those TOB Floaters together with a proportionate amount of TOB Residuals to the TOB Trust in exchange for a proportionate amount of the municipal bonds owned by the TOB Trust.

Other BlackRock-Advised Funds may contribute municipal bonds to a TOB Trust into which the Acquiring Fund has contributed municipal bonds. If multiple BlackRock-Advised Funds participate in the same TOB Trust, the economic rights and obligations under the TOB Residual will generally be shared among the funds ratably in proportion to their participation in the TOB Trust.

The municipal bonds transferred to a TOB Trust typically are high grade municipal bonds. In certain cases, when municipal bonds transferred are lower grade municipal bonds, the TOB Trust transaction includes a credit enhancement feature that provides for the timely payment of principal and interest on the bonds to the TOB Trust by a credit enhancement provider. The TOB Trust would be responsible for the payment of the credit enhancement fee and the Acquiring Fund, as a TOB Residual holder, would be responsible for reimbursement of any payments of principal and interest made by the credit enhancement provider.

The TOB Residuals held by the Acquiring Fund generally provide the Acquiring Fund with the right to cause the holders of a proportional share of the TOB Floaters to tender their notes to the TOB Trust at par plus accrued interest. Thereafter, the Acquiring Fund may withdraw a corresponding share of the municipal bonds from the TOB Trust. As a result, a TOB transaction, in effect, creates exposure for the Acquiring Fund to the entire return of the municipal bonds in the TOB Trust, with a net cash investment by the Acquiring Fund that is less than the value of the municipal bonds in the TOB Trust. This multiplies the positive or negative impact of the municipal bonds' return within the Acquiring Fund (thereby creating leverage). The leverage within a TOB Trust depends on the value of the municipal bonds deposited in the TOB Trust relative to the value of the TOB Floaters it issues.

The Acquiring Fund may invest in highly leveraged TOB Residuals. A TOB Residual generally is considered highly leveraged if the principal amount of the TOB Floaters issued by the related TOB Trust exceeds 75% of the principal amount of the municipal bonds owned by the TOB Trust.

The leverage attributable to the Acquiring Fund's use of TOB Residuals may be called away on relatively short notice and therefore may be less permanent than more traditional forms of leverage. The TOB Trust may be collapsed without the consent of the Acquiring Fund upon the occurrence of termination events, as defined in the TOB Trust agreements. Upon the occurrence of a termination event, a TOB Trust would be liquidated with the proceeds applied first to any accrued fees owed to the trustee of the TOB Trust, the remarketing agent of the TOB Floaters and the TOBs Liquidity Provider. Upon certain termination events, the holders of the TOB Floaters would be paid before the TOB Residual holders (i.e., the Acquiring Fund) whereas in other termination events, the holders of TOB Floaters and the TOB Residual holders would be paid pro rata.

TOB Trusts are typically supported by a liquidity facility provided by a TOBs Liquidity Provider that allows the holders of the TOB Floaters to tender their TOB Floaters in exchange for payment of par plus accrued interest

Table of Contents

on any business day (subject to the non-occurrence of a termination event). The tendered TOB Floaters are remarketed by a remarketing agent. In the event of a failed remarketing, the TOB Trust may draw upon a loan from the TOBs Liquidity Provider to purchase the tendered TOB Floaters. Any loans made by the TOBs Liquidity Provider will be secured by the purchased TOB Floaters held by the TOB Trust and will be subject to an increased interest rate based on number of days the loan is outstanding.

The Acquiring Fund may invest in a TOB Trust on either a non-recourse or recourse basis. When the Acquiring Fund invests in TOB Trusts on a non-recourse basis, and the TOBs Liquidity Provider is required to make a payment under the liquidity facility, the TOBs Liquidity Provider will typically liquidate all or a portion of the municipal bonds held in the TOB Trust and then fund the balance, if any, of the Liquidation Shortfall. If the Acquiring Fund invests in a TOB Trust on a recourse basis, it will typically enter into a reimbursement agreement with the TOBs Liquidity Provider pursuant to which the Acquiring Fund is required to reimburse the TOBs Liquidity Provider the amount of any Liquidation Shortfall. As a result, if the Acquiring Fund invests in a recourse TOB Trust, the Acquiring Fund will bear the risk of loss with respect to any Liquidation Shortfall. If multiple BlackRock-Advised Funds participate in any such TOB Trust, these losses will be shared ratably, in proportion to their participation in the TOB Trust.

Under accounting rules, municipal bonds of the Acquiring Fund that are deposited into a TOB Trust are investments of the Acquiring Fund and are presented on the Acquiring Fund's Schedule of Investments and outstanding TOB Floaters issued by a TOB Trust are presented as liabilities in the Acquiring Fund's Statement of Assets and Liabilities. Interest income from the underlying municipal bonds is recorded by the Acquiring Fund on an accrual basis. Interest expense incurred on the TOB Floaters and other expenses related to remarketing, administration, trustee and other services to a TOB Trust are reported as expenses of the Acquiring Fund. In addition, under accounting rules, loans made to a TOB Trust sponsored by the Acquiring Fund may be presented as loans of the Acquiring Fund in the Acquiring Fund's financial statements even if there is no recourse to the Acquiring Fund's assets.

For TOB Floaters, generally, the interest rate earned will be based upon the market rates for municipal bonds with maturities or remarketing provisions that are comparable in duration to the periodic interval of the tender option. Since the tender option feature has a shorter term than the final maturity or first call date of the underlying municipal bonds deposited in the TOB Trust, the holder of the TOB Floaters relies upon the terms of the agreement with the financial institution furnishing the liquidity facility as well as the credit strength of that institution. The risk associated with TOB Floaters, however, may be increased in the current market environment as a result of recent downgrades to the credit ratings, and thus the perceived reliability and creditworthiness, of many major financial institutions, some of which sponsor and/or provide liquidity support to TOB Trusts. This in turn may reduce the desirability of TOB Floaters as investments, which could impair the viability or availability of TOB Trusts.

The use of TOB Residuals will require the Acquiring Fund to earmark or segregate liquid assets in an amount equal to any TOB Floaters, plus any accrued but unpaid interest due on the TOB Floaters, issued by TOB Trusts sponsored by, or on behalf of, the Acquiring Fund that are not owned by the Acquiring Fund. The use of TOB Residuals may also require the Acquiring Fund to earmark or segregate liquid assets in an amount equal to loans provided by the TOBs Liquidity Provider to the TOB Trust to purchase tendered TOB Floaters. The Acquiring Fund reserves the right to modify its asset segregation policies in the future to the extent that such changes are in accordance with applicable regulations or interpretations. Future regulatory requirements or SEC guidance may necessitate more onerous contractual or regulatory requirements, which may increase the costs or reduce the degree of potential economic benefits of TOB Trust transactions or limit the Acquiring Fund's ability to enter into or manage TOB Trust transactions.

Credit Facility. The Acquiring Fund may leverage its portfolio by entering into one or more credit facilities. If the Acquiring Fund enters into a credit facility, the Acquiring Fund may be required to prepay outstanding amounts or incur a penalty rate of interest upon the occurrence of certain events of default. The Acquiring Fund

Table of Contents

would also likely have to indemnify the lenders under the credit facility against liabilities they may incur in connection therewith. In addition, the Acquiring Fund expects that any credit facility would contain covenants that, among other things, likely would limit the Acquiring Fund's ability to pay distributions in certain circumstances, incur additional debt, change certain of its investment policies and engage in certain transactions, including mergers and consolidations, and require asset coverage ratios in addition to those required by the 1940 Act. The Acquiring Fund may be required to pledge its assets and to maintain a portion of its assets in cash or high-grade securities as a reserve against interest or principal payments and expenses. The Acquiring Fund expects that any credit facility would have customary covenant, negative covenant and default provisions. There can be no assurances that the Acquiring Fund will enter into an agreement for a credit facility, or one on terms and conditions representative of the foregoing, or that additional material terms will not apply. In addition, if entered into, a credit facility may in the future be replaced or refinanced by one or more credit facilities having substantially different terms, by the issuance of preferred shares or debt securities or by the use of other forms of leverage.

Reverse Repurchase Agreements. The Acquiring Fund may enter into reverse repurchase agreements with respect to its portfolio investments subject to the investment restrictions set forth herein. Reverse repurchase agreements involve the sale of securities held by the Acquiring Fund with an agreement by the Acquiring Fund to repurchase the securities at an agreed upon price, date and interest payment. At the time the Acquiring Fund enters into a reverse repurchase agreement, it may establish and maintain a segregated account with the custodian containing cash and/or liquid assets having a value not less than the repurchase price (including accrued interest). If the Acquiring Fund establishes and maintains such a segregated account, or earmarks such assets as described, a reverse repurchase agreement will not be considered a senior security under the 1940 Act and therefore will not be considered a borrowing by the Acquiring Fund; however, under certain circumstances in which the Acquiring Fund does not establish and maintain such a segregated account, or earmark such assets on its books and records, such reverse repurchase agreement will be considered a borrowing for the purpose of the Acquiring Fund's limitation on borrowings discussed above. The use by the Acquiring Fund of reverse repurchase agreements involves many of the same risks of leverage since the proceeds derived from such reverse repurchase agreements may be invested in additional securities. Reverse repurchase agreements involve the risk that the market value of the securities acquired in connection with the reverse repurchase agreement may decline below the price of the securities the Acquiring Fund has sold but is obligated to repurchase. Also, reverse repurchase agreements involve the risk that the market value of the securities retained in lieu of sale by the Acquiring Fund in connection with the reverse repurchase agreement may decline in price.

If the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, such buyer or its trustee or receiver may receive an extension of time to determine whether to enforce the Acquiring Fund's obligation to repurchase the securities and the Acquiring Fund's use of the proceeds of the reverse repurchase agreement may effectively be restricted pending such decision. Also, the Acquiring Fund would bear the risk of loss to the extent that the proceeds of the reverse repurchase agreement are less than the value of the securities subject to such agreement.

The Acquiring Fund also may effect simultaneous purchase and sale transactions that are known as sale-buybacks. A sale-buyback is similar to a reverse repurchase agreement, except that in a sale-buyback, the counterparty that purchases the security is entitled to receive any principal or interest payments made on the underlying security pending settlement of the Acquiring Fund's repurchase of the underlying security.

Dollar Roll Transactions. The Acquiring Fund may enter into dollar roll transactions. In a dollar roll transaction, the Acquiring Fund sells a mortgage related or other security to a dealer and simultaneously agrees to repurchase a similar security (but not the same security) in the future at a pre-determined price. A dollar roll transaction can be viewed, like a reverse repurchase agreement, as a collateralized borrowing in which the Acquiring Fund pledges a mortgage related security to a dealer to obtain cash. However, unlike reverse repurchase agreements, the dealer with which the Acquiring Fund enters into a dollar roll transaction is not obligated to return the same securities as those originally sold by the Acquiring Fund, but rather only securities

Table of Contents

which are substantially identical, which generally means that the securities repurchased will bear the same interest rate and a similar maturity as those sold, but the pools of mortgages collateralizing those securities may have different prepayment histories than those sold.

During the period between the sale and repurchase, the Acquiring Fund will not be entitled to receive interest and principal payments on the securities sold. Proceeds of the sale will be invested in additional instruments for the Acquiring Fund and the income from these investments will generate income for the Acquiring Fund. If such income does not exceed the income, capital appreciation and gain that would have been realized on the securities sold as part of the dollar roll, the use of this technique will diminish the investment performance of the Acquiring Fund compared with what the performance would have been without the use of dollar rolls.

At the time the Acquiring Fund enters into a dollar roll transaction, it may establish and maintain a segregated account with the custodian containing cash and/or liquid assets having a value not less than the repurchase price (including accrued interest). If the Acquiring Fund establishes and maintains such a segregated account, or earmarks such assets as described, a dollar roll transaction will not be considered a senior security under the 1940 Act and therefore will not be considered a borrowing by the Acquiring Fund; however, under certain circumstances in which the Acquiring Fund does not establish and maintain such a segregated account, or earmark such assets on its books and records, such dollar roll transaction will be considered a borrowing for the purpose of the Acquiring Fund's limitation on borrowings.

Dollar roll transactions involve the risk that the market value of the securities the Acquiring Fund is required to purchase may decline below the agreed upon repurchase price of those securities. The Acquiring Fund's right to purchase or repurchase securities may be restricted. Successful use of mortgage dollar rolls may depend upon the investment manager's ability to correctly predict interest rates and prepayments. There is no assurance that dollar rolls can be successfully employed.

Derivatives. The Acquiring Fund may enter into derivative transactions that have economic leverage embedded in them. Derivative transactions that the Acquiring Fund may enter into and the risks associated with them are described elsewhere in this Joint Proxy Statement/Prospectus and are also referred to as Strategic Transactions. The Acquiring Fund cannot assure you that investments in derivative transactions that have economic leverage embedded in them will result in a higher return on its Common Shares.

To the extent the terms of such transactions obligate the Acquiring Fund to make payments, the Acquiring Fund may earmark or segregate cash or liquid assets in an amount at least equal to the current value of the amount then payable by the Acquiring Fund under the terms of such transactions or otherwise cover such transactions in accordance with applicable interpretations of the staff of the SEC. If the current value of the amount then payable by the Acquiring Fund under the terms of such transactions is represented by the notional amounts of such investments, the Acquiring Fund would segregate or earmark cash or liquid assets having a market value at least equal to such notional amounts, and if the current value of the amount then payable by the Acquiring Fund under the terms of such transactions is represented by the market value of the Acquiring Fund's current obligations, the Acquiring Fund would segregate or earmark cash or liquid assets having a market value at least equal to such current obligations. To the extent the terms of such transactions obligate the Acquiring Fund to deliver particular securities to extinguish the Acquiring Fund's obligations under such transactions the Acquiring Fund may cover its obligations under such transactions by either (i) owning the securities or collateral underlying such transactions or (ii) having an absolute and immediate right to acquire such securities or collateral without additional cash consideration (or, if additional cash consideration is required, having earmarked or segregated an appropriate amount of cash or liquid assets). Such earmarking, segregation or cover is intended to provide the Acquiring Fund with available assets to satisfy its obligations under such transactions. As a result of such earmarking, segregation or cover, the Acquiring Fund's obligations under such transactions will not be considered senior securities representing indebtedness for purposes of the 1940 Act, or considered borrowings subject to the Acquiring Fund's limitations on borrowings discussed above, but may create leverage

Table of Contents

for the Acquiring Fund. To the extent that the Acquiring Fund's obligations under such transactions are not so earmarked, segregated or covered, such obligations may be considered senior securities representing indebtedness under the 1940 Act and therefore subject to the asset coverage requirements described above.

These earmarking, segregation or cover requirements can result in the Acquiring Fund maintaining securities positions it would otherwise liquidate, segregating or earmarking assets at a time when it might be disadvantageous to do so or otherwise restrict portfolio management.

Temporary Borrowings. The Acquiring Fund may also borrow money as a temporary measure for extraordinary or emergency purposes, including the payment of dividends and the settlement of securities transactions which otherwise might require untimely dispositions of Acquiring Fund securities. Certain short-term borrowings (such as for cash management purposes) are not subject to the 1940 Act's limitations on leverage if (i) repaid within 60 days, and (ii) not in excess of 5% of the Acquiring Fund's total assets.

Strategic Transactions

The Acquiring Fund may purchase and sell futures contracts, enter into various interest rate transactions and swap contracts (including, but not limited to, credit default swaps) and may purchase and sell exchange-listed and OTC put and call options on securities and swap contracts, financial indices and futures contracts and use other derivative instruments or management techniques. These Strategic Transactions may be used for duration management and other risk management purposes, subject to the Acquiring Fund's investment restrictions. While the Acquiring Fund's use of Strategic Transactions is intended to reduce the volatility of the net asset value of the Acquiring Fund's Common Shares, the net asset value of the Acquiring Fund's Common Shares will fluctuate. No assurance can be given that the Acquiring Fund's Strategic Transactions will be effective.

There is no particular strategy that requires use of one technique rather than another as the decision to use any particular strategy or instrument is a function of market conditions and the composition of the portfolio. The ability of the Acquiring Fund to use Strategic Transactions successfully will depend on the Investment Advisor's ability to predict pertinent market movements as well as sufficient correlation among the instruments, which cannot be assured. Strategic Transactions subject the Acquiring Fund to the risk that, if the Investment Advisor incorrectly forecasts market values, interest rates or other applicable factors, the Acquiring Fund's performance could suffer. Certain of these Strategic Transactions, such as investments in inverse floating rate securities and credit default swaps, may provide investment leverage to the Acquiring Fund's portfolio. The Acquiring Fund is not required to use derivatives or other portfolio strategies to seek to hedge its portfolio and may choose not to do so.

The use of Strategic Transactions may result in losses greater than if they had not been used, may require the Acquiring Fund to sell or purchase portfolio securities at inopportune times or for prices other than current market values, may limit the amount of appreciation the Acquiring Fund can realize on an investment or may cause the Acquiring Fund to hold a security that it might otherwise sell. In addition, because of the leveraged nature of the Common Shares, Strategic Transactions will result in a larger impact on the net asset value of the Common Shares than would be the case if the Common Shares were not leveraged. Furthermore, the Acquiring Fund may only engage in Strategic Transactions from time to time and may not necessarily be engaging in hedging activities when movements in interest rates occur.

Inasmuch as any obligations of the Acquiring Fund that arise from the use of Strategic Transactions will be covered by segregated or earmarked liquid assets or offsetting transactions, the Acquiring Fund and the Investment Advisor believe such obligations do not constitute senior securities and, accordingly, will not treat such transactions as being subject to its borrowing restrictions. Additionally, segregated or earmarked liquid assets, amounts paid by the Acquiring Fund as premiums and cash or other assets held in margin accounts with respect to Strategic Transactions are not otherwise available to the Acquiring Fund for investment purposes.

Table of Contents

For so long as the VRDP Shares are rated by a rating agency, the Acquiring Fund's use of options and certain financial futures and options thereon will be subject to such rating agency's guidelines and limitations on such transactions. In order to maintain ratings on the VRDP Shares from one or more rating agencies, the Acquiring Fund may be required to limit its use of Strategic Transactions in accordance with the specified guidelines of the applicable rating agencies.

Certain federal income tax requirements may restrict or affect the ability of the Acquiring Fund to engage in Strategic Transactions. In addition, the use of certain Strategic Transactions may give rise to taxable income and have certain other consequences.

Put and Call Options on Securities and Indices. The Acquiring Fund may purchase and sell put and call options on securities and indices. A put option gives the purchaser of the option the right to sell and the writer the obligation to buy the underlying security at the exercise price during the option period. The Acquiring Fund may also purchase and sell options on bond indices (index options). Index options are similar to options on securities except that, rather than taking or making delivery of securities underlying the option at a specified price upon exercise, an index option gives the holder the right to receive cash upon exercise of the option if the level of the bond index upon which the option is based is greater, in the case of a call, or less, in the case of a put, than the exercise price of the option. The purchase of a put option on a debt security could protect the Acquiring Fund's holdings in a security or a number of securities against a substantial decline in the market value. A call option gives the purchaser of the option the right to buy and the seller the obligation to sell the underlying security or index at the exercise price during the option period or for a specified period prior to a fixed date. The purchase of a call option on a security could protect the Acquiring Fund against an increase in the price of a security that it intended to purchase in the future.

Writing Covered Call Options. The Acquiring Fund is authorized to write (i.e., sell) covered call options with respect to municipal bonds it owns, thereby giving the holder of the option the right to buy the underlying security covered by the option from the Fund at the stated exercise price until the option expires. The Acquiring Fund writes only covered call options, which means that so long as the Fund is obligated as the writer of a call option, it will own the underlying securities subject to the option.

The Acquiring Fund receives a premium from writing a call option, which increases the Acquiring Fund's return on the underlying security in the event the option expires unexercised or is closed out at a profit. By writing a call, the Acquiring Fund limits its opportunity to profit from an increase in the market value of the underlying security above the exercise price of the option for as long as the Acquiring Fund's obligation as a writer continues. Covered call options serve as a partial hedge against a decline in the price of the underlying security. The Acquiring Fund may engage in closing transactions in order to terminate outstanding options that it has written.

Additional Information About Options. The Acquiring Fund's ability to close out its position as a purchaser or seller of an exchange-listed put or call option is dependent upon the existence of a liquid secondary market on option exchanges. Among the possible reasons for the absence of a liquid secondary market on an exchange are: (i) insufficient trading interest in certain options; (ii) restrictions on transactions imposed by an exchange; (iii) trading halts, suspensions or other restrictions imposed with respect to particular classes or series of options or underlying securities; (iv) interruption of the normal operations on an exchange; (v) inadequacy of the facilities of an exchange or OCC to handle current trading volume; or (vi) a decision by one or more exchanges to discontinue the trading of options (or a particular class or series of options), in which event the secondary market on that exchange (or in that class or series of options) would cease to exist, although outstanding options on that exchange that had been listed by the OCC as a result of trades on that exchange would generally continue to be exercisable in accordance with their terms. OTC options are purchased from or sold to dealers, financial institutions or other counterparties which have entered into direct agreements with the Acquiring Fund. With OTC options, such variables as expiration date, exercise price and premium will be agreed upon between the Acquiring Fund and the counterparty, without the intermediation of a third party such as the OCC. If the

Table of Contents

counterparty fails to make or take delivery of the securities underlying an option it has written, or otherwise settle the transaction in accordance with the terms of that option as written, the Acquiring Fund would lose the premium paid for the option as well as any anticipated benefit of the transaction. OTC options and assets used to cover OTC options written by the Acquiring Fund are considered by the staff of the SEC to be illiquid. The illiquidity of such options or assets may prevent a successful sale of such options or assets, result in a delay of sale, or reduce the amount of proceeds that might otherwise be realized.

The Acquiring Fund may engage in options and futures transactions on exchanges and options in the over-the-counter markets. The Acquiring Fund will only enter into OTC options with counterparties the Investment Advisor believes to be creditworthy at the time they enter into such transactions.

The hours of trading for options on debt securities may not conform to the hours during which the underlying securities are traded. To the extent that the option markets close before the markets for the underlying securities, significant price and rate movements can take place in the underlying markets that cannot be reflected in the option markets.

Financial Futures Transactions and Options. The Acquiring Fund is authorized to purchase and sell certain exchange traded financial futures contracts (financial futures contracts) in order to hedge its investments against declines in value, and to hedge against increases in the cost of securities it intends to purchase or to seek to enhance the Acquiring Fund's return. However, any transactions involving financial futures or options (including puts and calls associated therewith) will be in accordance with the Acquiring Fund's investment policies and limitations. A financial futures contract obligates the seller of a contract to deliver and the purchaser of a contract to take delivery of the type of financial instrument covered by the contract, or in the case of index-based futures contracts to make and accept a cash settlement, at a specific future time for a specified price. To hedge its portfolio, the Acquiring Fund may take an investment position in a futures contract which will move in the opposite direction from the portfolio position being hedged. A sale of financial futures contracts may provide a hedge against a decline in the value of portfolio securities because such depreciation may be offset, in whole or in part, by an increase in the value of the position in the financial futures contracts. A purchase of financial futures contracts may provide a hedge against an increase in the cost of securities intended to be purchased because such appreciation may be offset, in whole or in part, by an increase in the value of the position in the futures contracts.

Distributions, if any, of net long term capital gains from certain transactions in futures or options are taxable at long term capital gains rates for U.S. federal income tax purposes.

Futures Contracts. A futures contract is an agreement between two parties to buy and sell a security or, in the case of an index-based futures contract, to make and accept a cash settlement for a set price on a future date. A majority of transactions in futures contracts, however, do not result in the actual delivery of the underlying instrument or cash settlement, but are settled through liquidation, i.e., by entering into an offsetting transaction. Futures contracts have been designed by boards of trade which have been designated contracts markets by the CFTC.

The purchase or sale of a futures contract differs from the purchase or sale of a security in that no price or premium is paid or received. Instead, an amount of cash or securities acceptable to the broker and the relevant contract market, which varies, but is generally about 5% of the contract amount, must be deposited with the broker. This amount is known as initial margin and represents a good faith deposit assuring the performance of both the purchaser and seller under the futures contract. Subsequent payments to and from the broker, called variation margin, are required to be made on a daily basis as the price of the futures contract fluctuates making the long and short positions in the futures contract more or less valuable, a process known as marking to the market. At any time prior to the settlement date of the futures contract, the position may be closed out by taking an opposite position that will operate to terminate the position in the futures contract. A final determination of variation margin is then made, additional cash is required to be paid to or released by the broker and the purchaser realizes a loss or gain. In addition, a nominal commission is paid on each completed sale transaction.

Table of Contents

The Acquiring Fund may also purchase and sell financial futures contracts on U.S. Government securities as a hedge against adverse changes in interest rates as described below. The Acquiring Fund may purchase and write call and put options on futures contracts on U.S. Government securities in connection with its hedging strategies.

The Acquiring Fund also may engage in other futures contracts transactions such as futures contracts on municipal bond indices that may become available if the Investment Advisor should determine that there is normally a sufficient correlation between the prices of such futures contracts and municipal bonds in which the Acquiring Fund invests to make such hedging appropriate.

Futures Strategies. The Acquiring Fund may sell a financial futures contract (i.e., assume a short position) in anticipation of a decline in the value of its investments resulting from an increase in interest rates or otherwise. The risk of decline could be reduced without employing futures as a hedge by selling investments and either reinvesting the proceeds in securities with shorter maturities or by holding assets in cash. This strategy, however, entails increased transaction costs in the form of dealer spreads and typically would reduce the average yield of the Acquiring Fund's portfolio securities as a result of the shortening of maturities. The sale of futures contracts provides an alternative means of hedging against declines in the value of its investments. As such values decline, the value of the Acquiring Fund's positions in the futures contracts will tend to increase, thus offsetting all or a portion of the depreciation in the market value of the Acquiring Fund's investments that are being hedged. While the Acquiring Fund will incur commission expenses in selling and closing out futures positions, commissions on futures transactions are typically lower than transaction costs incurred in the purchase and sale of the Acquiring Fund's investments being hedged. In addition, the ability of the Acquiring Fund to trade in the standardized contracts available in the futures markets may offer a more effective defensive position than a program to reduce the average maturity of the portfolio securities due to the unique and varied credit and technical characteristics of the instruments available to the Acquiring Fund. Employing futures as a hedge also may permit the Acquiring Fund to assume a defensive posture without reducing the yield on its investments beyond any amounts required to engage in futures trading.

When the Acquiring Fund intends to purchase a security, the Acquiring Fund may purchase futures contracts as a hedge against any increase in the cost of such security resulting from a decrease in interest rates or otherwise, that may occur before such purchase can be effected. Subject to the degree of correlation between such securities and the futures contracts, subsequent increases in the cost of such securities should be reflected in the value of the futures held by the Acquiring Fund. As such purchases are made, an equivalent amount of futures contracts will be closed out. Due to changing market conditions and interest rate forecasts, however, a futures position may be terminated without a corresponding purchase of portfolio securities.

Call Options on Futures Contracts. The Acquiring Fund may also purchase and sell exchange traded call and put options on financial futures contracts. The purchase of a call option on a futures contract is analogous to the purchase of a call option on an individual security. Depending on the pricing of the option compared to either the futures contract upon which it is based or the price of the underlying securities, it may or may not be less risky than ownership of the futures contract or underlying securities. Like the purchase of a futures contract, the Acquiring Fund may purchase a call option on a futures contract to hedge against a market advance when the Acquiring Fund is not fully invested.

The writing of a call option on a futures contract constitutes a partial hedge against declining prices of the securities which are deliverable upon exercise of the futures contract. If the futures price at expiration is below the exercise price, the Acquiring Fund will retain the full amount of the option premium which provides a partial hedge against any decline that may have occurred in the Acquiring Fund's portfolio holdings.

Put Options on Futures Contracts. The purchase of a put option on a futures contract is analogous to the purchase of a protective put option on portfolio securities. The Acquiring Fund may purchase a put option on a futures contract to hedge the Acquiring Fund's portfolio against the risk of rising interest rates.

Table of Contents

The writing of a put option on a futures contract constitutes a partial hedge against increasing prices of the securities which are deliverable upon exercise of the futures contract. If the futures price at expiration is higher than the exercise price, the Acquiring Fund will retain the full amount of the option premium which provides a partial hedge against any increase in the price of securities which the Acquiring Fund intends to purchase.

The writer of an option on a futures contract is required to deposit initial and variation margin pursuant to requirements similar to those applicable to futures contracts. Premiums received from the writing of an option will be included in initial margin. The writing of an option on a futures contract involves risks similar to those relating to futures contracts.

The CFTC subjects advisers to registered investment companies to regulation by the CFTC if a fund that is advised by the investment adviser either (i) invests, directly or indirectly, more than a prescribed level of its liquidation value in CFTC-regulated futures, options and swaps (CFTC Derivatives), or (ii) markets itself as providing investment exposure to such instruments. To the extent the Acquiring Fund uses CFTC Derivatives, it intends to do so below such prescribed levels and will not market itself as a commodity pool or a vehicle for trading such instruments. Accordingly, the Investment Advisor has claimed an exclusion from the definition of the term commodity pool operator under the Commodity Exchange Act (CEA) pursuant to Rule 4.5 under the CEA. The Investment Advisor is not, therefore, subject to registration or regulation as a commodity pool operator under the CEA in respect of the Acquiring Fund.

Interest Rate Swap Transactions. In order to seek to hedge the value of the Acquiring Fund against interest rate fluctuations, to hedge against increases in the Acquiring Fund's costs associated with the dividend payments on any preferred shares, including the VRDP Shares, or to seek to increase the Acquiring Fund's return, the Acquiring Fund may enter into interest rate swap transactions such as Municipal Market Data AAA Cash Curve swaps (MMD Swaps) or Securities Industry and Financial Markets Association Municipal Swap Index swaps (SIFMA Swaps). To the extent that the Acquiring Fund enters into these transactions, the Acquiring Fund expects to do so primarily to preserve a return or spread on a particular investment or portion of its portfolio as a duration management technique or to protect against any increase in the price of securities the Acquiring Fund anticipates purchasing at a later date. The Acquiring Fund may enter into these transactions primarily as a hedge or for duration or risk management rather than as a speculative investment. However, the Acquiring Fund also may invest in MMD Swaps and SIFMA Swaps to seek to enhance return or gain or to increase the Acquiring Fund's yield, for example, during periods of steep interest rate yield curves (i.e., wide differences between short term and long term interest rates).

The Acquiring Fund may purchase and sell SIFMA Swaps in the SIFMA swap market. In a SIFMA Swap, the Acquiring Fund exchanges with another party their respective commitments to pay or receive interest (e.g., an exchange of fixed rate payments for floating rate payments linked to the SIFMA Municipal Swap Index). Because the underlying index is a tax-exempt index, SIFMA Swaps may reduce cross-market risks incurred by the Acquiring Fund and increase the Acquiring Fund's ability to hedge effectively. SIFMA Swaps are typically quoted for the entire yield curve, beginning with a seven day floating rate index out to 30 years. The duration of a SIFMA Swap is approximately equal to the duration of a fixed-rate municipal bond with the same attributes as the swap (e.g., coupon, maturity, call feature).

The Acquiring Fund may also purchase and sell MMD Swaps, also known as MMD rate locks. An MMD Swap permits the Acquiring Fund to lock in a specified municipal interest rate for a portion of its portfolio to preserve a return on a particular investment or a portion of its portfolio as a duration management technique or to protect against any increase in the price of securities to be purchased at a later date. By using an MMD Swap, the Acquiring Fund can create a synthetic long or short position, allowing the Acquiring Fund to select the most attractive part of the yield curve. An MMD Swap is a contract between the Acquiring Fund and an MMD Swap provider pursuant to which the parties agree to make payments to each other on a notional amount, contingent upon whether the Municipal Market Data AAA General Obligation Scale is above or below a specified level on the expiration date of the contract. For example, if the Acquiring Fund buys an MMD Swap and the Municipal

Table of Contents

Market Data AAA General Obligation Scale is below the specified level on the expiration date, the counterparty to the contract will make a payment to the Acquiring Fund equal to the specified level minus the actual level, multiplied by the notional amount of the contract. If the Municipal Market Data AAA General Obligation Scale is above the specified level on the expiration date, the Acquiring Fund will make a payment to the counterparty equal to the actual level minus the specified level, multiplied by the notional amount of the contract.

In connection with investments in SIFMA and MMD Swaps, there is a risk that municipal yields will move in the opposite direction than anticipated by the Acquiring Fund, which would cause the Acquiring Fund to make payments to its counterparty in the transaction that could adversely affect the Acquiring Fund's performance.

The Acquiring Fund has no obligation to enter into SIFMA Swaps or MMD Swaps and may elect not to do so. The net amount of the excess, if any, of the Acquiring Fund's obligations over its entitlements with respect to each interest rate swap will be accrued on a daily basis, and the Acquiring Fund will segregate or designate on its books and records liquid assets having an aggregate net asset value at least equal to the accrued excess.

If there is a default by the other party to an uncleared interest rate swap transaction, generally the Acquiring Fund will have contractual remedies pursuant to the agreements related to the transaction. With respect to interest rate swap transactions cleared through a central clearing counterparty, a clearing organization will be substituted for the counterparty and will guarantee the parties' performance under the swap agreement. However, there can be no assurances that the clearing organization will satisfy its obligation to the Acquiring Fund or that the Acquiring Fund would be able to recover the full amount of assets deposited on its behalf with the clearing organization in the event of the default by the clearing organization or the Acquiring Fund's clearing broker. Certain U.S. federal income tax requirements may limit the Acquiring Fund's ability to engage in interest rate swaps. Distributions attributable to transactions in interest rate swaps generally will be taxable as ordinary income to shareholders.

Counterparty Credit Standards. To the extent that the Acquiring Fund engages in principal transactions, including, but not limited to, OTC options, forward currency transactions, swap transactions, repurchase and reverse repurchase agreements and the purchase and sale of bonds and other fixed income securities, it must rely on the creditworthiness of its counterparties under such transactions. In certain instances, the credit risk of a counterparty is increased by the lack of a central clearing house for certain transactions, including certain swap contracts. In the event of the insolvency of a counterparty, the Acquiring Fund may not be able to recover its assets, in full or at all, during the insolvency process. Counterparties to investments may have no obligation to make markets in such investments and may have the ability to apply essentially discretionary margin and credit requirements. Similarly, the Acquiring Fund will be subject to the risk of bankruptcy of, or the inability or refusal to perform with respect to such investments by, the counterparties with which it deals. The Investment Advisor will seek to minimize the Acquiring Fund's exposure to counterparty risk by entering into such transactions with counterparties the Investment Advisor believes to be creditworthy at the time it enters into the transaction. Certain option transactions and Strategic Transactions may require the Acquiring Fund to provide collateral to secure its performance obligations under a contract, which would also entail counterparty credit risk.

Other Investment Policies

The Acquiring Fund has adopted certain other policies as set forth below.

Temporary Investments. The Acquiring Fund may invest in short term tax exempt and taxable securities subject to the limitations set forth above. The tax exempt money market securities may include municipal notes, municipal commercial paper, municipal bonds with a remaining maturity of less than one year, variable rate demand notes and participations therein. Municipal notes include tax anticipation notes, bond anticipation notes, revenue anticipation notes and grant anticipation notes. Anticipation notes are sold as interim financing in anticipation of tax collection, bond sales, government grants or revenue receipts. Municipal commercial paper refers to short term unsecured promissory notes generally issued to finance short term credit needs. The taxable

Table of Contents

money market securities in which the Acquiring Fund may invest as Temporary Investments consist of U.S. Government securities, U.S. Government agency securities, domestic bank or savings institution certificates of deposit and bankers' acceptances, short term corporate debt securities such as commercial paper and repurchase agreements. These Temporary Investments must have a stated maturity not in excess of one year from the date of purchase. The Acquiring Fund may not invest in any security issued by a commercial bank or a savings institution unless the bank or institution is organized and operating in the United States, has total assets of at least one billion dollars and is a member of the Federal Deposit Insurance Corporation (FDIC), except that up to 10% of total assets may be invested in certificates of deposit of smaller institutions if such certificates are fully insured by the FDIC.

Credit Default Swap Agreements. The Acquiring Fund may enter into credit default swap agreements for hedging purposes or to seek to increase its return. The credit default swap agreement may have as reference obligations one or more securities that are not currently held by the Acquiring Fund. The protection buyer in a credit default contract may be obligated to pay the protection seller an upfront or a periodic stream of payments over the term of the contract provided that no credit event on a reference obligation has occurred. If a credit event occurs, the seller generally must pay the buyer the par value (full notional value) of the swap in exchange for an equal face amount of deliverable obligations of the reference entity described in the swap, or the seller may be required to deliver the related net cash amount, if the swap is cash settled. The Acquiring Fund may be either the buyer or seller in the transaction. If the Acquiring Fund is a buyer and no credit event occurs, the Acquiring Fund may recover nothing if the swap is held through its termination date. However, if a credit event occurs, the buyer generally may elect to receive the full notional value of the swap in exchange for an equal face amount of deliverable obligations of the reference entity whose value may have significantly decreased. As a seller, the Acquiring Fund generally receives an upfront payment or a fixed rate of income throughout the term of the swap, which typically is between six months and three years, provided that there is no credit event. If a credit event occurs, generally the seller must pay the buyer the full notional value of the swap in exchange for an equal face amount of deliverable obligations of the reference entity whose value may have significantly decreased. As the seller, the Acquiring Fund would effectively add leverage to its portfolio because, in addition to its total net assets, the Acquiring Fund would be subject to investment exposure on the notional amount of the swap.

Credit default swap agreements involve greater risks than if the Acquiring Fund had invested in the reference obligation directly since, in addition to general market risks, credit default swaps are subject to illiquidity risk, counterparty risk and credit risks. The Acquiring Fund will enter into credit default swap agreements only with counterparties the Investment Advisor believes to be creditworthy at the time they enter into such transactions. A buyer generally also will lose its investment and recover nothing should no credit event occur and the swap is held to its termination date. If a credit event were to occur, the value of any deliverable obligation received by the seller, coupled with the upfront or periodic payments previously received, may be less than the full notional value it pays to the buyer, resulting in a loss of value to the seller. The Acquiring Fund's obligations under a credit default swap agreement will be accrued daily (offset against any amounts owing to the Acquiring Fund).

The Acquiring Fund will at all times segregate or designate on its books and records in connection with each such transaction liquid assets or cash with a value at least equal to the Acquiring Fund's exposure (any accrued but unpaid net amounts owed by the Acquiring Fund to any counterparty) on a marked-to-market basis (as calculated pursuant to requirements of the SEC). If the Acquiring Fund is a seller of protection in a credit default swap transaction, it will segregate or designate on its books and records in connection with such transaction liquid assets or cash with a value at least equal to the full notional amount of the contract. Such segregation or designation will ensure that the Acquiring Fund has assets available to satisfy its obligations with respect to the transaction and will avoid any potential leveraging of the Acquiring Fund's portfolio. Such segregation or designation will not limit the Acquiring Fund's exposure to loss.

VRDOs and Participating VRDOs. VRDOs are tax-exempt obligations that contain a floating or variable interest rate adjustment formula and right of demand on the part of the holder thereof to receive payment of the

Table of Contents

unpaid principal balance plus accrued interest upon a short notice period not to exceed seven days. There is, however, the possibility that because of default or insolvency the demand feature of VRDOs and Participating VRDOs may not be honored. The interest rates are adjustable at intervals (ranging from daily to up to one year) to some prevailing market rate for similar investments, such adjustment formula being calculated to maintain the market value of the VRDOs, at approximately the par value of the VRDOs on the adjustment date. The adjustments typically are based upon the SIFMA Municipal Swap Index or some other appropriate interest rate adjustment index. The Acquiring Fund may invest in all types of tax exempt instruments currently outstanding or to be issued in the future which satisfy its short term maturity and quality standards.

Participating VRDOs provide the Acquiring Fund with a specified undivided interest (up to 100%) of the underlying obligation and the right to demand payment of the unpaid principal balance plus accrued interest on the Participating VRDOs from the financial institution upon a specified number of days' notice, not to exceed seven days. In addition, the Participating VRDO is backed by an irrevocable letter of credit or guaranty of the financial institution. The Acquiring Fund would have an undivided interest in the underlying obligation and thus participate on the same basis as the financial institution in such obligation except that the financial institution typically retains fees out of the interest paid on the obligation for servicing the obligation, providing the letter of credit and issuing the repurchase commitment. It is contemplated that the Acquiring Fund will not invest more than 20% of its assets in Participating VRDOs.

VRDOs that contain an unconditional right of demand to receive payment of the unpaid principal balance plus accrued interest on a notice period exceeding seven days may be deemed to be illiquid securities. The Directors may adopt guidelines and delegate to the Investment Advisor the daily function of determining and monitoring liquidity of such VRDOs.

The Temporary Investments, VRDOs and Participating VRDOs in which the Acquiring Fund may invest will be in the following rating categories at the time of purchase: MIG-1/VMIG-1 through MIG-3/VMIG-3 for notes and VRDOs and Prime-1 through Prime-3 for commercial paper (as determined by Moody's), SP-1 through SP-2 for notes and A-1 through A-3 for VRDOs and commercial paper (as determined by S&P), or F-1 through F-3 for notes, VRDOs and commercial paper (as determined by Fitch). Temporary Investments, if not rated, must be of comparable quality in the opinion of the Investment Advisor. In addition, the Acquiring Fund reserves the right to invest temporarily a greater portion of its assets in Temporary Investments for defensive purposes, when, in the judgment of the Investment Advisor, market conditions warrant.

Repurchase Agreements. The Acquiring Fund may invest in securities pursuant to repurchase agreements. Repurchase agreements may be entered into only with a member bank of the Federal Reserve System or primary dealer or an affiliate thereof, in U.S. Government securities or an affiliate thereof. A repurchase agreement is a contractual agreement whereby the seller of securities agrees to repurchase the same security at a specified price on a future date agreed upon by the parties. The agreed-upon repurchase price determines the yield during the Acquiring Fund's holding period. The risk to the Acquiring Fund is limited to the ability of the issuer to pay the agreed-upon repurchase price on the delivery date; however, although the value of the underlying collateral at the time the transaction is entered into always equals or exceeds the agreed-upon repurchase price, if the value of the collateral declines there is a risk of loss of both principal and interest. In the event of default, the collateral may be sold but the Acquiring Fund might incur a loss if the value of the collateral declines, and might incur disposition costs or experience delays in connection with liquidating the collateral. In addition, if bankruptcy proceedings are commenced with respect to the seller of the security, realization upon the collateral by the Acquiring Fund may be delayed or limited.

In general, for federal income tax purposes, repurchase agreements are treated as collateralized loans secured by the securities sold. Therefore, amounts earned under such agreements will not be considered tax exempt interest. The treatment of purchase and sales contracts is less certain.

Table of Contents

Investment Restrictions

The following are fundamental investment restrictions of the Acquiring Fund and may not be changed without the approval of the holders of a majority of the Acquiring Fund's outstanding Common Shares and outstanding shares of VRDP Shares and any other preferred stock, voting together as a single class, and a majority of the outstanding shares of VRDP Shares and any other preferred stock, voting as a separate class (which for this purpose and under the 1940 Act means the lesser of (i) 67% of the shares of each class of capital stock represented at a meeting at which more than 50% of the outstanding shares of each class of capital stock are represented or (ii) more than 50% of the outstanding shares of each class of capital stock). The Acquiring Fund may not:

1. Make investments for the purpose of exercising control or management.
2. Purchase securities of other investment companies, except (i) in connection with a merger, consolidation, acquisition or reorganization, (ii) by purchase of shares of tax-exempt money market funds advised by the Investment Advisor or its affiliates (as defined in the 1940 Act) to the extent permitted by an exemptive order issued to the Acquiring Fund by the SEC, or (iii) by purchase in the open market of securities of closed-end investment companies and only if immediately thereafter not more than 10% of the Acquiring Fund's total assets would be invested in such securities.
3. Purchase or sell real estate, real estate limited partnerships, commodities or commodity contracts; provided that the Acquiring Fund may invest in securities secured by real estate or interests therein or issued by companies that invest in real estate or interests therein and the Acquiring Fund may purchase and sell financial futures contracts and options thereon.
4. Issue senior securities other than preferred stock or borrow in excess of 5% of its total assets taken at market value; provided, however, that the Acquiring Fund is authorized to borrow moneys in excess of 5% of the value of its total assets for the purpose of repurchasing shares of common stock or redeeming shares of preferred stock.
5. Underwrite securities of other issuers except insofar as the Acquiring Fund may be deemed an underwriter under the Securities Act of 1933, as amended, in selling portfolio securities.
6. Make loans to other persons, except that the Acquiring Fund may purchase New Jersey Municipal Bonds, Municipal Bonds and other debt securities in accordance with its investment objective, policies and limitations.
7. Purchase any securities on margin, except that the Acquiring Fund may obtain such short-term credit as may be necessary for the clearance of purchases and sales of portfolio securities (the deposit or payment by the Acquiring Fund or initial or variation margin in connection with financial futures contracts and options thereon is not considered the purchase of a security on margin).
8. Make short sales of securities or maintain a short position or invest in put, call, straddle or spread options, except that the Acquiring Fund may write, purchase and sell options and futures on New Jersey Municipal Bonds, Municipal Bonds, U.S. Government obligations and related indices or otherwise in connection with bona fide hedging activities.
9. Invest more than 25% of its total assets (taken at market value at the time of each investment) in securities of issuers in a single industry; provided that, for purposes of this restriction, states municipalities and their political subdivisions are not considered to be part of any industry.

For purposes of investment restriction (4) above, the Acquiring Fund may borrow moneys in excess of 5% of the value of its total assets to the extent permitted by Section 18 of the 1940 Act or otherwise as permitted by applicable law for the purpose of repurchasing shares of common

stock or redeeming shares of preferred stock. For purposes of fundamental investment restriction (9) above, the exception for states, municipalities and their political subdivisions applies only to tax-exempt securities issued by such entities.

Table of Contents

An additional investment restriction adopted by the Acquiring Fund, which may be changed by the Board of Directors without stockholder approval, provides that the Acquiring Fund may not mortgage, pledge, hypothecate or in any manner transfer, as security for indebtedness, any securities owned or held by the Acquiring Fund except as may be necessary in connection with borrowings mentioned in investment restriction (4) above or except as may be necessary in connection with transactions in financial futures contracts and options thereon.

If a percentage restriction on the investment or use of assets set forth above is adhered to at the time a transaction is effected, later changes in percentage resulting from changing values will not be considered a violation.

The Acquiring Fund is classified as non-diversified within the meaning of the 1940 Act, which means that the Acquiring Fund is not limited by the 1940 Act in the proportion of its total assets that it may invest in securities of a single issuer. However, the Acquiring Fund's investments are limited so as to qualify the Acquiring Fund for the special tax treatment afforded RICs under the federal tax laws. In order to qualify as a RIC, the Acquiring Fund must, among other things, diversify its holdings so that, at the close of each quarter of its taxable year, (i) at least 50% of the value of its total assets consists of cash, cash items, U.S. Government securities, securities of other RICs and other securities, with such other securities limited in respect of any one issuer to an amount not greater in value than 5% of the value of the Acquiring Fund's total assets and to not more than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of the total assets is invested in the securities (other than U.S. Government securities and securities of other RICs) of any one issuer, any two or more issuers controlled by the Acquiring Fund and engaged in the same, similar or related trades or businesses, or any one or more qualified publicly traded partnerships. For purposes of this restriction, the Acquiring Fund will regard each state and each political subdivision, agency or instrumentality of such state and each multi-state agency of which such state is a member and each public authority which issues securities on behalf of a private entity as a separate issuer, except that if the security is backed only by the assets and revenues of a non-government entity then the entity with the ultimate responsibility for the payment of interest and principal may be regarded as the sole issuer. These tax-related limitations may be changed by the Board of the Acquiring Fund to the extent necessary to comply with changes in the federal tax requirements.

To the extent that the Acquiring Fund assumes large positions in the securities of a small number of issuers, its yield may fluctuate to a greater extent than that of a diversified company as a result of changes in the financial condition or in the market's assessment of the issuers.

The Acquiring Fund's VRDP Shares are assigned long-term ratings by Moody's and Fitch. In order to maintain the required ratings, the Acquiring Fund is required to comply with certain investment quality, diversification and other guidelines established by Moody's and Fitch. Such guidelines may be more restrictive than the restrictions set forth above. The Acquiring Fund does not anticipate that such guidelines would have a material adverse effect on its ability to achieve its investment objective. Moody's and Fitch receive fees in connection with their ratings issuances. The Acquiring Fund is also subject to certain covenants and requirements under the terms of the Acquiring Fund VRDP Shares and related documents, including the terms of the liquidity facility supporting the Acquiring Fund VRDP Shares. Such requirements may be more restrictive than the restrictions set forth above. The Acquiring Fund does not anticipate that such requirements would have a material adverse effect on its ability to achieve its investment objective. Please see Information about the Preferred Shares of the Funds for additional information.

Management of Investment Portfolio and Capital Structure to Limit Leverage Risk

The Acquiring Fund may take certain actions if short-term interest rates increase or market conditions otherwise change (or the Acquiring Fund anticipates such an increase or change) and the Acquiring Fund's leverage begins (or is expected) to adversely affect common shareholders. In order to attempt to offset such a negative impact of leverage on common shareholders, the Acquiring Fund may shorten the average maturity of its investment portfolio (by investing in short-term securities) or may reduce its indebtedness or extend the

Table of Contents

maturity of outstanding preferred shares or unwind other leverage transactions. The Acquiring Fund may also attempt to reduce the leverage by redeeming or otherwise purchasing preferred shares. The success of any such attempt to limit leverage risk depends on the Investment Advisor's ability to accurately predict interest rate or other market changes. Because of the difficulty of making such predictions, the Acquiring Fund may never attempt to manage its capital structure in the manner described in this paragraph. If market conditions suggest that additional leverage would be beneficial, the Acquiring Fund may sell previously unissued preferred shares or preferred shares that the Acquiring Fund previously issued but later repurchased.

Table of Contents

COMPARISON OF THE FUNDS INVESTMENTS

The investment objective, significant investment strategies and operating policies, and investment restrictions of the Combined Fund will be those of the Acquiring Fund, which are substantially similar (but not identical) as those of BLJ and BNJ. The Funds have substantially similar (but not identical) investment objectives, investment policies and investment restrictions. A summary of the Funds' investment objectives and significant investment policies and the Funds' portfolio credit quality and leverage ratios is set forth below.

Summary Comparison of the Funds' Investment Objectives and Policies

The Funds have substantially similar (but not identical) investment objectives, investment policies and investment restrictions. The investment objective, significant investment strategies and operating policies, and investment restrictions of the Combined Fund will be those of the Acquiring Fund, which are substantially similar (but not identical) as those of BLJ and BNJ.

Investment Objective. The investment objective of each of BLJ and BNJ is to provide current income exempt from regular federal income tax and New Jersey gross income tax. The investment objective of the Acquiring Fund is to provide shareholders with as high a level of current income exempt from federal income taxes and New Jersey personal income tax as is consistent with its investment policies and prudent investment management.

New Jersey Municipal Bonds. Below is a comparison of each Fund's policies with respect to New Jersey Municipal Bonds.

BLJ	BNJ	The Acquiring Fund (MYJ)
<p>As a fundamental policy, under normal market conditions, the Fund will invest at least 80% of its Managed Assets in municipal bonds, the interest of which is exempt from regular federal income tax and New Jersey gross income tax. Managed Assets means the total assets of the Fund (including any assets attributable to any preferred shares that may be outstanding) minus the sum of accrued liabilities (other than debt representing financial leverage).</p>	<p>As a matter of fundamental policy, under normal market conditions, the Fund will invest at least 80% of its managed assets in investments the income from which is exempt from federal income tax and New Jersey gross income taxes (except that interest may be subject to the alternative minimum tax). For the purposes of the foregoing policy, managed assets are the Fund's net assets plus borrowings for investment purposes.</p>	<p>The Fund seeks to achieve its investment objective by investing, as a fundamental policy, at least 80% of an aggregate of the Fund's net assets (including proceeds from the issuance of any preferred stock) and the proceeds of any borrowings for investment purposes, in a portfolio of municipal obligations issued by or on behalf of the State of New Jersey, its political subdivisions, agencies and instrumentalities and by other qualifying issuers, each of which pays interest that, in the opinion of bond counsel to the issuer, is excludable from gross income for federal income tax purposes (except that the interest may be includable in taxable income for purposes of the federal alternative minimum tax) and exempt from New Jersey personal income tax (New Jersey Municipal Bonds).</p>

Table of Contents

Please see below a comparison of the approximate amount invested in municipal bonds as a percentage of total assets for (i) each Fund as of November 30, 2017, (ii) the Combined Fund, assuming only the Reorganization of BLJ into the Acquiring Fund was consummated as of November 30, 2017, (iii) the Combined Fund, assuming only the Reorganization of BLJ into the Acquiring Fund was consummated as of November 30, 2017, and (iv) the Combined Fund, assuming all of the Reorganizations were consummated as of November 30, 2017, which represents the most likely combination of the Reorganizations.

Investment Grade Securities. Below is a comparison of each Fund's policy with respect to investment grade securities.

BLJ	BNJ	The Acquiring Fund (MYJ)
The Fund will invest at least 80% of its Managed Assets in municipal bonds that at the time of investment are investment grade quality. The Fund may invest up to 20% of its Managed Assets in municipal bonds that at the time of investment are rated Ba/BB or B by Moody's, S&P or Fitch or bonds that are unrated but judged to be of comparable quality by the Fund's investment advisor and/or sub-advisor.	Same as BLJ	Under normal market conditions, the Fund expects to invest primarily in a portfolio of long term Municipal Bonds that are commonly referred to as investment grade securities.

Please see below a comparison of the approximate amount invested in investment grade quality municipal bonds as a percentage of total assets for (i) each Fund as of November 30, 2017, (ii) the Combined Fund, assuming only the Reorganization of BLJ into the Acquiring Fund was consummated as of November 30, 2017, (iii) the Combined Fund, assuming only the Reorganization of BLJ into the Acquiring Fund was consummated as of November 30, 2017, and (iv) the Combined Fund, assuming all of the Reorganizations were consummated as of November 30, 2017, which represents the most likely combination of the Reorganizations.

Edgar Filing: BLACKROCK MUNIYIELD NEW JERSEY FUND, INC. - Form N-14 8C

Credit quality ratings shown above reflect the highest rating assigned by either S&P or Moody if ratings differ. These rating agencies are independent, nationally recognized statistical rating organizations and are widely used. Investment grade ratings are credit ratings of

Table of Contents

BBB/Baa or higher. Below investment grade ratings are credit ratings of BB/Ba or lower. Investments designated N/R are not rated by either rating agency. Unrated investments do not necessarily indicate low credit quality. Credit quality ratings are subject to change.

(2) Reflects the effect of the Reorganization(s).

(3) The Investment Advisor evaluates the credit quality of unrated investments based upon certain factors including, but not limited to, credit ratings for similar investments and financial analysis of sectors and individual investments. Using this approach, the Investment Advisor has deemed certain of these unrated securities as investment grade quality.

Bond Maturity. Below is a comparison of each Fund's policy with respect to bond maturity.

BLJ	BNJ	The Acquiring Fund (MYJ)
The average maturity of the Fund's portfolio securities varies from time to time based upon an assessment of economic and market conditions by the Investment Advisor. The Fund's portfolio at any given time may include both long-term and intermediate-term municipal bonds.	Same as BLJ	Same as BLJ

Leverage. Each Fund utilizes leverage through the issuance of either VRDP Shares or VMTP Shares and investments in TOB Residuals. See The Acquiring Fund's Investments Leverage; General Risks of Investing in the Acquiring Fund Leverage Risk; and General Risks of Investing in the Acquiring Fund Tender Option Bond Risk. Each of BLJ and the Acquiring Fund currently leverages its assets through the use of VRDP Shares and TOB Residuals. BNJ currently leverages its assets through the use of VMTP Shares and TOB Residuals. The Acquiring Fund is expected to continue to leverage its assets through the use of VRDP Shares and TOB Residuals after the Closing Date of the Reorganizations. Common shareholders of BNJ and BLJ will be subject to the terms and costs of the Acquiring Fund VRDP Shares after the consummation of the Reorganizations. Please see Information about the Preferred Shares of the Funds for additional information about the preferred shares of each Fund.

The annualized dividend rates for the preferred shares for each Fund's most recent fiscal year end were as follows:

Fund	Preferred Shares	Rate
BLJ	VRDP Shares	1.64%
BNJ	VMTP Shares	1.63%
Acquiring Fund (MYJ)	VRDP Shares	1.61%

Please see below a comparison of certain important ratios related to (i) each Fund's use of leverage as of November 30, 2017, (ii) the Combined Fund's estimated use of leverage, assuming only the Reorganization of BLJ into the Acquiring Fund had taken place as of November 30, 2017, (iii) the Combined Fund's estimated use of leverage, assuming only the Reorganization of BNJ into the Acquiring Fund had taken place as of November 30, 2017, and (iv) the Combined Fund's estimated use of leverage, assuming the Reorganizations of all the Funds had taken place as of November 30, 2017, which represents the most likely combination of the Reorganizations:

Ratios	BLJ	BNJ	Acquiring Fund (MYJ)	Pro Forma Combined Fund (BLJ into MYJ)	Pro Forma Combined Fund (BNJ into MYJ)	Pro Forma Combined Fund (BLJ and BNJ into MYJ)
Asset Coverage Ratio	295%	300%	323%	319%	315%	313%
Regulatory Leverage Ratio ⁽¹⁾	33.90%	33.31%	30.92%	31.35%	31.75%	31.96%
Effective Leverage Ratio ⁽²⁾	40.50%	40.47%	39.54%	34.94%	34.50%	39.92%

Table of Contents

- (1) Regulatory leverage consists of preferred shares issued by the Fund, which is a part of the Fund's capital structure. Regulatory leverage is sometimes referred to as 1940 Act Leverage and is subject to asset coverage limits set forth in the 1940 Act.

- (2) Effective leverage is a Fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative investments in the Fund's portfolio. Currently, the leverage effects of TOB inverse floater holdings, in addition to any regulatory leverage, are included in effective leverage ratios.

Table of Contents

MANAGEMENT OF THE FUNDS

The Board of Trustees or Board of Directors and Officers

The Funds have the same Board Members and officers. The Board of each Fund is responsible for the overall supervision of the operations of the Fund and performs the various duties imposed on the trustees of investment companies by the 1940 Act and under applicable state law. A list of the Board Members and officers of the Funds, a brief biography of each Board Member and officer and additional information relating to the Board and officers are included in "Management of the Funds" in the Statement of Additional Information.

The Investment Advisor

BlackRock Advisors, LLC serves as the investment adviser for each Fund and is expected to continue to serve as investment adviser for the Combined Fund. The Investment Advisor is responsible for the management of each Fund's portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of each Fund.

Each Fund entered into an Investment Management Agreement with the Investment Advisor to provide investment advisory services. For such services, BLJ currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.65% of its average weekly managed assets. BNJ currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.60% of its average weekly managed assets. Average weekly managed assets are the average weekly value of the Fund's total assets minus the sum of the Fund's accrued liabilities (which does not include liabilities represented by TOB leverage and the liquidation preference of BLJ's VRDP Shares or BNJ's VMTP Shares). The Acquiring Fund currently pays the Investment Advisor a monthly fee at an annual contractual investment management fee rate of 0.50% of its average daily Net Assets. Average daily Net Assets are the average daily value of the Acquiring Fund's total assets minus the sum of the Acquiring Fund's accrued liabilities (which does not include liabilities represented by TOB leverage and the liquidation preference of the Acquiring Fund VRDP Shares).

If the Reorganizations are consummated, the annual contractual investment management fee rate of the Acquiring Fund will be the annual contractual investment management fee rate of the Combined Fund, which will be 0.50% of the average daily Net Assets of the Combined Fund. The annual contractual investment management fee rate of the Combined Fund represents a 15 basis point reduction in the annual contractual investment management fee rate for BLJ and a 10 basis point reduction in the annual contractual investment management fee rate for BNJ. Additionally, if any of the Reorganizations are consummated, the Investment Advisor has voluntarily agreed to waive a portion of its investment management fees equal to an annual rate of 0.01% of the average daily net assets of the Combined Fund, resulting in a contractual investment management fee rate of 0.49% of the average daily Net Assets of the Combined Fund. This voluntary waiver may be reduced or discontinued at any time.

Based on a *pro forma* Broadridge peer expense group for the Combined Fund, the estimated total annual fund expense ratio (excluding investment-related expenses and taxes) is expected to be in the second quartile and contractual investment management fee rate and actual investment management fee rate over total assets are each expected to be in the first quartile.

The level of expense savings (or increases) will vary depending on the combination of the Funds in the Reorganizations, and furthermore, there can be no assurance that future expenses will not increase or that any expense savings for any Fund will be realized as a result of any Reorganization.

A discussion regarding the basis for the approval of the Investment Management Agreement by the Board of each Fund is provided in such Fund's Form N-CSR for such Fund's most recent fiscal year end available at www.sec.gov or by visiting www.blackrock.com.

Table of Contents

The Investment Advisor is located at 100 Bellevue Parkway, Wilmington, Delaware 19809 and is a wholly owned subsidiary of BlackRock. BlackRock is one of the world’s largest publicly-traded investment management firms. As of September 30, 2017, BlackRock’s assets under management were approximately \$5.977 trillion. BlackRock has over 20 years of experience managing closed-end products and, as of November 30, 2017, advised a registered closed-end family of 73 exchange-listed active funds with approximately \$46.6 billion in assets.

BlackRock is a global leader in investment management, risk management and advisory services for institutional and retail clients. BlackRock helps clients meet their goals and overcome challenges with a range of products that include separate accounts, mutual funds, iShares® (exchange-traded funds), and other pooled investment vehicles. BlackRock also offers risk management, advisory and enterprise investment system services to a broad base of institutional investors through BlackRock Solutions®. Headquartered in New York City, as of December 31, 2016, the firm had approximately 13,000 employees in more than 30 countries and a major presence in key global markets, including North and South America, Europe, Asia, Australia and the Middle East and Africa.

Portfolio Management

Each Fund is managed by a team of investment professionals lead by Theodore R. Jaeckel, Jr., CFA, Managing Director at BlackRock, and Phillip Soccio, CFA. Messrs. Jaeckel and Soccio are each Fund’s portfolio managers and are responsible for the day-to-day management of each Fund’s portfolio and the selection of its investments. Messrs. Jaeckel and Soccio have been members of each Fund’s portfolio management team since May 26, 2017.

The biography of each portfolio manager of the Funds are set forth below:

Portfolio Manager

Theodore R. Jaeckel, Jr., CFA

Phillip Soccio, CFA

Biography

Managing Director of BlackRock since 2006; Managing Director of MLIM from 2005 to 2006; Director of MLIM from 1997 to 2005.

Director of BlackRock since 2009; Vice President of BlackRock from 2005 to 2008.

After the Reorganizations, it is expected that the Acquiring Fund’s current portfolio management team, consisting of Messrs. Jaeckel and Soccio, will continue to comprise the team of investment professionals for the Combined Fund.

The Statement of Additional Information provides additional information about the portfolio managers’ compensation, other accounts managed by the portfolio managers, and the portfolio managers’ ownership of securities in each Fund.

Portfolio Transactions with Affiliates

The Investment Advisor may place portfolio transactions, to the extent permitted by law, with brokerage firms affiliated with the Funds and the Investment Advisor, if it reasonably believes that the quality of execution and the commission are comparable to that available from other qualified brokerage firms.

None of the Funds paid brokerage commissions to affiliated broker-dealers during their three most recent fiscal years.

 Debevoise & Plimpton LLP

It is not anticipated that the Reorganizations will result in any change in the organizations providing services to the Acquiring Fund as set forth above. As a result of the Reorganizations, the service providers to the Acquiring Fund are anticipated to be the service providers to the Combined Fund.

Administrative Services Provider

State Street Bank and Trust Company provides certain administration and accounting services to each Fund pursuant to an Administrative Services Agreement. State Street Bank and Trust Company is paid a monthly fee at an annual rate ranging from 0.0075% to 0.015% of each Fund's respective managed assets, along with an annual fixed fee ranging from \$3,000 to \$10,000 for the services it provides to each Fund.

Custody of Assets

The custodian of the assets of each Fund is State Street Bank and Trust Company, 225 Franklin Street, Boston, Massachusetts 02110. The custodian is responsible for, among other things, receipt of and disbursement of funds from each Fund's accounts, establishment of segregated accounts as necessary, and transfer, exchange and delivery of Fund portfolio securities.

Transfer Agent, Dividend Disbursing Agent and Registrar

Computershare Trust Company, N.A., 250 Royall Street, Canton, Massachusetts 02021, serves as each Fund's transfer agent with respect to such Fund's Common Shares.

VRDP Shares Liquidity Provider

Citibank, N.A., New York, New York 10179, serves as the liquidity provider for BLJ and the Acquiring Fund VRDP Shares and will serve as the liquidity provider to the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the VRDP Shares of the Combined Fund.

VRDP Shares Remarketing Agent

Citigroup Global Markets Inc. New York, New York 10179, serves as the remarketing agent for BLJ and the Acquiring Fund VRDP Shares and will serve as the remarketing agent to the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the VRDP Shares of the Combined Fund

Table of Contents

VRDP Shares Tender and Paying Agent

The Bank of New York Mellon, One Wall Street, New York, New York 10286, acts as the tender agent, transfer agent and registrar, dividend disbursing agent and paying agent and redemption price disbursing agent with respect to the BLJ VRDP Shares and the Acquiring Fund VRDP Shares and will serve in such capacity with respect to the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the VRDP Shares of the Combined Fund.

VMTP Redemption and Paying Agent

The Bank of New York, Mellon, New York, New York 10286, acts as BNJ's redemption paying agent with respect to BNJ's VMTP Shares.

Table of Contents**INFORMATION ABOUT THE COMMON SHARES OF THE FUNDS****General**

Common shareholders of each Fund are entitled to share equally in dividends declared by such Fund's Board as payable to holders of the Fund's Common Shares and in the net assets of the Fund available for distribution to holders of the Common Shares. Common shareholders do not have preemptive or conversion rights and each Fund's Common Shares are not redeemable. Voting rights are identical for the common shareholders of each Fund. Common shareholders of each Fund are entitled to one vote for each Share held by them and do not have any preemptive or preferential right to purchase or subscribe to any Shares of such Fund. Each Fund's Common Shares do not have cumulative voting rights, which means that the holders of more than 50% of a Fund's Common Shares voting for the election of Board Members can elect all of the Board Members standing for election by such holders, and, in such event, the holders of the Fund's remaining Common Shares will not be able to elect any Board Members. The outstanding Acquiring Fund Common Shares are fully paid and non-assessable. The outstanding BLJ and BNJ Common Shares are fully paid and non-assessable, except that the Board of each Fund have the power to cause common shareholders to pay certain expenses of the applicable Fund by setting off charges due from common shareholders from declared but unpaid dividends or distributions owed the common shareholders and/or by reducing the number of Common Shares owned by each respective common shareholder. Whenever preferred shares, including VRDP Shares or VMTP Shares, are outstanding, a Fund may not declare a dividend or distribution to common shareholders (other than a distribution in Common Shares of the Fund) or purchase its Common Shares unless all accumulated dividends on preferred shares have been paid, and unless asset coverage (as defined in the 1940 Act) with respect to preferred shares at the time of declaration of such dividend or distribution or at the time of such purchase would be at least 200% after giving effect to the dividend or distribution or purchase price.

Purchase and Sale of Common Shares

Purchase and sale procedures for the Common Shares of each of the Funds are identical. Each of the Acquiring Fund and BNJ has its Common Shares listed on the New York Stock Exchange and BLJ has its Common Shares listed on the NYSE American. Investors typically purchase and sell Common Shares of the Funds through a registered broker-dealer on the NYSE or NYSE American, as applicable, thereby incurring a brokerage commission set by the broker-dealer. Alternatively, investors may purchase or sell Common Shares of each of the Funds through privately negotiated transactions with existing common shareholders. Set forth below is information about each Fund's Common Shares as of November 30, 2017.

Fund	Title of Class	Amount Authorized	Amount Held by Fund for its Own Account	Amount Outstanding Exclusive of Amount Shown in Previous Column
BLJ	Common Shares	Unlimited	None	2,327,921
BNJ	Common Shares	Unlimited	None	7,675,428
Acquiring Fund (MYJ)	Common Shares	199,994,218	None	14,394,776

Common Share Price Data

The following tables set forth the high and low market prices for Common Shares of each Fund on the NYSE or NYSE American, as applicable, for each full quarterly period within each Fund's two most recent fiscal years and each full quarter since the beginning of each Fund's current fiscal year, along with the NAV and discount or premium to NAV for each quotation.

10/31/16	\$ 17.62	\$ 16.20	\$ 16.91	\$ 16.47	4.2%	(1.6)%
07/29/16	\$ 17.57	\$ 16.24	\$ 16.90	\$ 16.68	4.0%	(2.6)%
04/29/16	\$ 16.90	\$ 15.75	\$ 16.62	\$ 16.44	1.7%	(4.2)%
01/29/16	\$ 15.89	\$ 14.87	\$ 16.39	\$ 16.14	(3.1)%	(7.9)%
10/30/15	\$ 15.28	\$ 14.45	\$ 15.96	\$ 15.98	(4.3)%	(9.6)%

For the periods shown in the tables above, the Common Shares of each Fund have traded at both a premium and a discount.

The table below sets forth the market price, NAV, and the premium/discount to NAV of each Fund as of November 30, 2017.

Fund	Market Price	NAV	Premium/(Discount) to NAV
BLJ	\$ 14.48	\$ 15.66	(7.54)%
BNJ	\$ 15.51	\$ 15.42	0.58%
Acquiring Fund (MYJ)	\$ 15.59	\$ 15.86	(1.70)%

To the extent BLJ s or BNJ s Common Shares are trading at a wider discount (or a narrower premium) than the Acquiring Fund at the time of its Reorganization, BLJ s or BNJ s common shareholders would have the potential for an economic benefit by the narrowing of the discount or widening of the premium. To the extent

Table of Contents

BLJ's or BNJ's Common Shares are trading at a narrower discount (or wider premium) than the Acquiring Fund at the time of its Reorganization, BLJ's or BNJ's common shareholders may be negatively impacted if its Reorganization is consummated. Acquiring Fund common shareholders would only benefit from a premium/discount perspective to the extent the post-Reorganization discount (or premium) of the Acquiring Fund Common Shares improves.

There can be no assurance that, after the Reorganizations, Common Shares of the Combined Fund will trade at, above or below NAV. Upon consummation of the Reorganizations, the Combined Fund Common Shares may trade at a price that is less than the current market price of Acquiring Fund Common Shares. In the Reorganizations, common shareholders of BLJ and BNJ will receive the Acquiring Fund Common Shares based on the relative NAVs (not the market values) of the respective Fund's Common Shares. The market value of the Common Shares of the Combined Fund may be less than the market value of the Common Shares of any Fund prior to the Reorganizations.

Performance Information

The performance table below illustrates the past performance of an investment in Common Shares of each Fund by setting forth the average total returns for the Funds for the periods indicated. A Fund's past performance does not indicate or guarantee how its Common Shares will perform in the future. Investment return and principal value of an investment will fluctuate so that the Common Shares, when sold, may be worth more or less than the original cost. Current performance may be lower or higher than the performance quoted, and numbers may reflect small variances due to rounding. Standardized performance and performance data current to the most recent month end may be obtained by visiting the

Closed-End Funds section of www.blackrock.com. References to BlackRock's website are intended to allow investors public access to information regarding the Funds and do not, and are not intended to, incorporate BlackRock's website in this Joint Proxy Statement/Prospectus.

Average Annual Total Returns as of October 31, 2017

Fund	Trailing 12-month Distribution Yield based on October 31, 2017 NAV	One Year ended October 31, 2017 based on NAV	One Year ended October 31, 2017 based on Market Price	Five Year ended October 31, 2017 based on NAV	Five Year ended October 31, 2017 based on Market Price	Ten Year ended October 31, 2017 based on NAV	Ten Year ended October 31, 2017 based on Market Price
BLJ	4.89%	2.13%	(5.73)%	4.50%	1.29%	6.32%	4.86%
BNJ	5.40%	2.53%	5.43%	5.10%	2.97%	6.50%	5.55%

Table of Contents**INFORMATION ABOUT THE PREFERRED SHARES OF THE FUNDS**

BLJ's and BNJ's respective Agreement and Declaration of Trust authorizes the issuance of an unlimited number of shares, par value \$0.001 per share, all of which were initially classified as Common Shares. The Acquiring Fund's Charter authorizes 200 million shares, par value \$0.10 per share, all of which were initially classified as Common Shares. The Board of each Fund is authorized, however, to reclassify any unissued Common Shares to preferred shares without the approval of its common shareholders. Set forth below is information about each Fund's preferred shares as of November 30, 2017.

Fund	Title of Class	Amount Authorized	Amount Authorized Under Each Series	Amount Held by Fund for its Own Account	Amount Outstanding Exclusive of Amount Shown in Previous Column	Issue Date	Mandatory Redemption Date
BLJ	VRDP Shares	187	Series W-7 187	None	187	June 14, 2012	July 1, 2042
BNJ	VMTP Shares	591	Series W-7 591	None	591	March 22, 2012	March 30, 2019
Acquiring Fund (MYJ)	VRDP Shares	1,022	Series W-7 1,022	None	1,022	April 21, 2011	May 1, 2041

The outstanding preferred shares of each Fund are fully paid and non-assessable and have no preemptive or cumulative voting rights.

Below is a table that details, as of November 30, 2017, (i) each Fund's current leverage attributable to preferred shares as a percentage of its total net assets, (ii) the Combined Fund's leverage attributable to preferred shares on a *pro forma* basis as a percentage of its total net assets assuming only the BLJ Reorganization was consummated as of November 30, 2017, (iii) the Combined Fund's leverage attributable to preferred shares on a *pro forma* basis as a percentage of its total net assets assuming only the BNJ Reorganization was consummated as of November 30, 2017, and (iv) the Combined Fund's leverage attributable to preferred shares on a *pro forma* basis as a percentage of its total net assets assuming all of the Reorganizations were consummated November 30, 2017, which represents the most likely combination of the Reorganizations.

Fund	Title of Class	Shares Outstanding	Liquidation Preference Per Share	Aggregate Liquidation Preference	Total Managed Assets	As Percentage of Net Assets
BLJ	VRDP Shares	187	100,000	18,700,000	55,163,422	51.3%
BNJ	VMTP Shares	591	100,000	59,100,000	177,426,886	50.0%
Acquiring Fund (MYJ)	VRDP Shares	1,022	100,000	102,200,000	330,538,949	44.8%
<i>Pro Forma</i> Combined Fund (BLJ into MYJ)	VRDP Shares	1,209	100,000	120,900,000	385,702,371	45.7%
<i>Pro Forma</i> Combined Fund (BNJ into MYJ)	VRDP Shares	1,613	100,000	161,300,000	507,965,835	46.5%
<i>Pro Forma</i> Combined Fund (BLJ and BNJ into MYJ)	VRDP Shares	1,800	100,000	180,000,000	563,129,257	47.0%

BLJ and the Acquiring Fund have each issued VRDP Shares, \$100,000 liquidation value per share, with substantially identical terms, except that the BLJ VRDP Shares have a mandatory redemption date of July 1, 2042, while the Acquiring Fund VRDP Shares have a mandatory redemption date of May 1, 2041. The outstanding VRDP Shares of the Acquiring Fund and BLJ are currently in a one year Special Rate Period that will end on June 20, 2018, unless extended. The terms applicable to the outstanding VRDP Shares of the Acquiring Fund and BLJ during the Special Rate Period are substantially identical. Please see Description of

Table of Contents

the VRDP Shares of the Acquiring Fund and Description of the VRDP Shares of BLJ for additional information. BNJ has issued VMTP Shares, \$100,000 liquidation value per share. Please see Description of the VMTP Shares of BNJ for additional information.

The VRDP Shares and VMTP Shares were offered to qualified institutional buyers in private transactions exempt from registration under the Securities Act.

The annualized dividend rates for the preferred shares for each Fund's most recent fiscal year end were as follows:

Fund	Rate
BLJ	1.64%
BNJ	1.63%
Acquiring Fund (MYJ)	1.61%

If the BNJ Reorganization Agreement is approved by BNJ shareholders, prior to the Closing Date of the BNJ Reorganization, it is expected that BNJ will issue VRDP Shares with terms substantially identical to the terms of the Acquiring Fund VRDP Shares and use the proceeds from such issuance to redeem all of BNJ's outstanding VMTP Shares. The BNJ VRDP Shares that will be issued in connection with the VMTP Refinancing will have the same \$100,000 liquidation preference per share, dividend period, dividend payment date, voting rights, redemption provisions, remarketing procedures, mandatory purchase events, mandatory tender events, transfer restrictions and covenants with respect to effective leverage, asset coverage and eligible investments, mechanism for determining the applicable dividend rate and maximum rate, and the same liquidity provider, remarketing agent and tender and paying agent as the outstanding Acquiring Fund VRDP Shares. However, the mandatory redemption date of the BNJ VRDP Shares may be different from the mandatory redemption date of the Acquiring Fund VRDP Shares. The BNJ VRDP Shares will also be subject to a special rate period and the terms of BNJ's VRDP Shares during such special rate period will be substantially identical to the terms of the Special Rate Period for the outstanding Acquiring Fund VRDP Shares, including the same mechanism for determining the applicable dividend rate and maximum rate, redemption premiums and transfer restrictions. If the VMTP Refinancing is not completed prior to the Closing Date of the BNJ Reorganization, then the BNJ Reorganization will not be consummated.

In connection with the Reorganizations, the Acquiring Fund expects to issue 187 additional VRDP Shares to BLJ VRDP Holders and 591 additional VRDP Shares to BNJ VRDP Holders. Following the completion of the Reorganizations, the Combined Fund is expected to have 1,800 VRDP Shares outstanding. Assuming all of the Reorganizations are approved by shareholders and the VMTP Refinancing is completed prior to the Closing Date of the BNJ Reorganization, upon the Closing Date of the Reorganizations, BLJ and BNJ VRDP Holders will receive on a one-for-one basis one newly issued Acquiring Fund VRDP Share, par value \$0.10 per share and with a liquidation preference of \$100,000 per share (plus any accumulated and unpaid dividends that have accrued on the BLJ or BNJ VRDP Shares up to and including the day immediately preceding the Closing Date of the Reorganizations if such dividends have not been paid prior to the Closing Date), in exchange for each BLJ or BNJ VRDP Share held by the BLJ or BNJ VRDP Holders immediately prior to the Closing Date. The newly issued Acquiring Fund VRDP Shares may be of the same series as the Acquiring Fund's Series W-7 VRDP Shares or a substantially identical series. No fractional Acquiring Fund VRDP Shares will be issued. The terms of the Acquiring Fund VRDP Shares to be issued in connection with the Reorganizations will be substantially identical to the terms of the Acquiring Fund's outstanding VRDP Shares and will rank on a parity with the Acquiring Fund's outstanding VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The newly issued Acquiring Fund VRDP Shares will be subject to the same special rate period (including the terms thereof) applicable to the outstanding Acquiring Fund VRDP Shares as of the Closing Date of the Reorganization. Such special rate period will terminate on June 20, 2018, unless extended. The Reorganizations will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding.

Table of Contents

The newly issued Acquiring Fund VRDP Shares will have terms that are substantially identical to the terms of the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the outstanding BLJ VRDP Shares, except that the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041. BLJ VRDP Shares have a mandatory redemption date of July 1, 2042. The VRDP Shares of the Acquiring Fund and BLJ are currently in a one year special rate period that will end on June 20, 2018, unless extended. The terms applicable to the VRDP Shares of the Acquiring Fund and BLJ during the Special Rate Period are substantially identical. The BNJ VRDP Shares to be issued in connection with the VMTP Refinancing will also be subject to a special rate period and the terms of BNJ's VRDP Shares during such special rate period will be substantially identical to the terms of the Special Rate Period for the outstanding Acquiring Fund and BLJ VRDP Shares. The terms of the special rate period applicable to the newly issued Acquiring Fund VRDP Shares will be substantially identical to the terms of the special rate period applicable to the Funds' VRDP Shares as of the Closing Date of the Reorganization.

Description of the VMTP Shares of BNJ

BNJ's VMTP Shares may be redeemed, in whole or in part, at any time at the option of BNJ. The redemption price per VMTP Share is equal to the liquidation preference per share plus any outstanding unpaid dividends and applicable redemption premium. If BNJ redeems the VMTP Shares prior to the term redemption date of the VMTP Shares and the VMTP Shares have long-term ratings above A1/A+ or its equivalent by the ratings agencies then rating the VMTP Shares, then such redemption may be subject to a prescribed redemption premium (up to 3% of the liquidation preference) payable to the holder of the VMTP Shares based on the time remaining until the term redemption date of the VMTP Shares, subject to certain exceptions for redemptions that are required to comply with minimum asset coverage requirements. BNJ is required to redeem its VMTP Shares on the term redemption date of the VMTP Shares, unless earlier redeemed or repurchased or unless extended. If the VMTP Refinancing does not occur, there is no assurance that the term of BNJ's VMTP Shares will be extended further or that BNJ's VMTP Shares will be replaced with any other preferred shares or other form of leverage upon the redemption or repurchase of the VMTP Shares. Six months prior to the term redemption date of the VMTP Shares, BNJ is required to begin to segregate liquid assets with BNJ's custodian to fund the redemption. In addition, BNJ is required to redeem certain of its outstanding VMTP Shares if it fails to comply with certain asset coverage, basic maintenance amount or leverage requirements.

Dividends on BNJ's VMTP Shares are declared daily and payable monthly at a variable rate set weekly at a fixed rate spread to the SIFMA Municipal Swap Index. The fixed spread is determined based on the long-term preferred share rating assigned to BNJ's VMTP Shares by the ratings agencies then rating BNJ's VMTP Shares. At the date of issuance, BNJ's VMTP Shares were assigned long-term ratings of Aaa from Moody's and AAA from Fitch. Subsequent to the issuance of BNJ's VMTP Shares, Moody's completed a review of its methodology for rating securities issued by registered closed-end funds. As of November 30, 2017, BNJ's VMTP Shares were assigned a long-term rating of Aa2 from Moody's under its new rating methodology. BNJ's VMTP Shares continue to be assigned a long-term rating of AAA from Fitch. The dividend rate on BNJ's VMTP Shares is subject to a step-up spread if BNJ fails to comply with certain provisions, including, among other things, the timely payment of dividends, redemptions or gross-up payments, and complying with certain asset coverage and leverage requirements. The dividend rate of the BNJ VMTP Shares as of November 30, 2017 was 1.89%.

BNJ's VMTP Shares are subject to certain restrictions on transfer, and BNJ may also be required to register its VMTP Shares for sale under the Securities Act under certain circumstances. In addition, amendments to BNJ's VMTP Shares' governing documents generally require the consent of the holders of VMTP Shares.

BNJ's VMTP Shares rank prior to BNJ's Common Shares as to the payment of dividends by BNJ and distribution of assets upon dissolution or liquidation of BNJ. The 1940 Act prohibits the declaration of any dividend on BNJ's Common Shares or the repurchase of BNJ's Common Shares if BNJ fails to maintain asset coverage of at least 200% of the liquidation preference of BNJ's outstanding VMTP Shares. In addition, pursuant to the VMTP Shares' governing instruments, BNJ is restricted from declaring and paying dividends on classes of

Table of Contents

shares ranking junior to or on parity with BNJ's VMTP Shares or repurchasing such shares if BNJ fails to declare and pay dividends on the VMTP Shares, redeem any VMTP Shares required to be redeemed under the VMTP Shares' governing instruments or comply with the basic maintenance amount requirement of the ratings agencies rating the VMTP Shares.

The holders of BNJ's VMTP Shares have voting rights equal to the voting rights of the holders of BNJ's Common Shares (one vote per share) and will vote together with holders of BNJ's Common Shares (one vote per share) as a single class on certain matters. However, the holders of BNJ's VMTP Shares, voting as a separate class, are also entitled to elect two trustees to the Board of BNJ. The holders of BNJ's VMTP Shares are also entitled to elect BNJ's full board of trustees if dividends on the VMTP Shares are not paid for a period of two years. The holders of BNJ's VMTP Shares are also generally entitled to a separate class vote to amend the VMTP Shares' governing documents. In addition, the 1940 Act requires the approval of the holders of a majority of any outstanding VMTP Shares, voting as a separate class, to (a) adopt any plan of reorganization that would adversely affect the VMTP Shares, (b) change BNJ's sub-classification as a closed-end investment company or change its fundamental investment restrictions or (c) change its business so as to cease to be an investment company.

Description of the VRDP Shares of the Acquiring Fund

The Acquiring Fund's VRDP Shares have the benefit of an unconditional demand feature pursuant to a purchase agreement provided by Citibank, N.A. acting as liquidity provider to ensure full and timely repayment of the liquidation preference amount plus any accumulated and unpaid dividends to holders upon the occurrence of certain events (the "Liquidity Facility"). The Acquiring Fund entered into a fee agreement with the liquidity provider (the "Fee Agreement") in connection with the Liquidity Facility that require a per annum liquidity fee payable to the liquidity provider. The Fee Agreement between the Acquiring Fund and the liquidity provider is scheduled to expire, unless renewed or terminated in advance, on July 5, 2018.

The Liquidity Facility requires the liquidity provider to purchase all VRDP Shares tendered for sale that were not successfully remarketed. The Acquiring Fund is required to redeem the Acquiring Fund's VRDP Shares owned by the liquidity provider after six months of continuous, unsuccessful remarketing. Upon the occurrence of the first unsuccessful remarketing, the Acquiring Fund is required to segregate liquid assets to fund the redemption. In the event the Fee Agreement for the Acquiring Fund is not renewed or is terminated in advance, and the Acquiring Fund does not enter into a fee agreement with an alternate liquidity provider, the Acquiring Fund's VRDP Shares will be subject to mandatory purchase by the liquidity provider prior to the termination of the Fee Agreement. There is no assurance the Acquiring Fund will replace such redeemed VRDP Shares with any other preferred shares or other form of leverage.

Except during the Special Rate Period (as defined and described below), holders of VRDP Shares have the right to give notice on any business day to tender the VRDP Shares for remarketing in seven days, the VRDP Shares are subject to a mandatory tender for remarketing upon the occurrence of certain events, and should a remarketing be unsuccessful, the dividend rate for such VRDP Shares will reset to a maximum rate as defined in the governing documents of the VRDP Shares. The Acquiring Fund's VRDP Shares are also subject to certain restrictions on transfer outside of the remarketing process. Except during the Special Rate Period, the Acquiring Fund may incur remarketing fees at the annual rate of 0.10% on the aggregate principal amount of the Acquiring Fund's VRDP Shares.

The Acquiring Fund is required to redeem its VRDP Shares on May 1, 2041, the mandatory redemption date for such VRDP Shares, unless earlier redeemed or repurchased. Six months prior to the mandatory redemption date, the Acquiring Fund is required to begin to segregate liquid assets with the Acquiring Fund's custodian to fund the redemption. In addition, the Acquiring Fund is required to redeem certain of its outstanding VRDP Shares if it fails to maintain certain asset coverage, basic maintenance amount or leverage requirements.

Table of Contents

Subject to certain conditions, the Acquiring Fund's VRDP Shares may be redeemed, in whole or in part, at any time at the option of the Acquiring Fund. The redemption price per VRDP Share is equal to the liquidation value per VRDP Share plus any outstanding unpaid dividends, except that a redemption premium may be applicable during the Special Rate Period.

Except during the Special Rate Period, dividends on the Acquiring Fund's VRDP Shares are payable monthly at a variable rate set weekly by the remarketing agent. Such dividend rates are generally based upon a spread over a base rate and cannot exceed a maximum rate. In the event of a failed remarketing, the dividend rate of the VRDP Shares will be reset to a maximum rate. The maximum rate is determined based on, among other things, the long-term preferred share rating assigned to the VRDP Shares and the length of time that the VRDP Shares fail to be remarketed. The maximum rate of the VRDP Shares will not exceed 15% per annum, exclusive of any applicable gross-up payments or increased dividend payment relating to the inclusion in any dividend of net capital gains or ordinary income taxable for regular U.S. federal income tax purposes. At the date of issuance, the VRDP Shares of the Acquiring Fund were assigned a long-term rating of Aaa from Moody's and AAA from Fitch. Subsequent to the issuance of the VRDP Shares, Moody's completed a review of its methodology for rating securities issued by registered closed-end funds. As of November 30, 2017, the VRDP Shares of the Acquiring Fund were assigned a long-term rating of Aa2 from Moody's under its new ratings methodology. The VRDP Shares of the Acquiring Fund continue to be assigned a long-term rating of AAA from Fitch.

The short-term ratings on the VRDP Shares were withdrawn by Moody's, Fitch and/or S&P at the commencement of the Special Rate Period, as described below. The short-term ratings on the Acquiring Fund's VRDP Shares are directly related to the short-term ratings of the liquidity provider for such VRDP Shares. Changes in the credit quality of the liquidity provider could cause a change in the short-term credit ratings of the VRDP Shares. Except during the Special Rate Period, a change in the short-term credit rating of the liquidity provider or the VRDP Shares may adversely affect the dividend rate paid on such VRDP Shares, although the dividend rate paid on the VRDP Shares is not directly related to the short-term rating. The liquidity provider may be terminated prior to the scheduled termination date if the liquidity provider fails to maintain short-term debt ratings in one of the two highest rating categories.

The Acquiring Fund's VRDP Shares are senior in priority to the Acquiring Fund's Common Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of such Fund. The Acquiring Fund's VRDP Shares will rank on parity with other preferred shares of the Acquiring Fund as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The 1940 Act prohibits the declaration of any dividend on the Acquiring Fund's Common Shares or the repurchase of the Acquiring Fund's Common Shares if the Acquiring Fund fails to maintain the asset coverage of at least 200% of the liquidation preference of the outstanding VRDP Shares. In addition, pursuant to the VRDP Shares' governing instruments, the Acquiring Fund is restricted from declaring and paying dividends on classes of shares ranking junior to or on parity with the VRDP Shares or repurchasing such shares if the Acquiring Fund fails to declare and pay dividends on the VRDP Shares, redeem any VRDP Shares required to be redeemed under the VRDP Shares' governing instruments or comply with the basic maintenance amount requirement of the agencies rating the VRDP Shares.

The Acquiring Fund's VRDP Holders have voting rights equal to the Acquiring Fund's common shareholders (one vote per Share) and will vote together with such common shareholders (one vote per Share) as a single class. However, the Acquiring Fund's VRDP Holders, voting as a separate class, are also entitled to elect two Board Members for the Acquiring Fund. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of a 1940 Act Majority of the VRDP Holders of the Acquiring Fund, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the VRDP Shares of the Acquiring Fund, (b) change the Acquiring Fund's sub-classification as a closed-end management investment company or change its fundamental investment restrictions or (c) change its business so as to cease to be an investment company.

Table of Contents

On June 21, 2012, the Acquiring Fund commenced a three-year special rate period ending June 24, 2015 with respect to its VRDP Shares. This special rate period has been extended each year for an additional one-year term and is currently set to expire on June 20, 2018. Prior to June 20, 2018, the holders of the VRDP Shares and the Acquiring Fund may mutually agree to extend the special rate period. If the special rate period is not extended, the VRDP Shares will revert to remarketable securities upon the termination of the special rate period and will be remarketed and available for purchase by qualified institutional investors. The Liquidity Facility remains in effect for the duration of the Special Rate Period and the VRDP Shares are still subject to mandatory redemption by the Acquiring Fund on their respective mandatory redemption date. However, the VRDP Shares will not be remarketed or subject to optional or mandatory tender events during such time. The short-term ratings of the VRDP Shares were withdrawn by Moody's, Fitch and/or S&P upon the commencement of the Special Rate Period. Short-term ratings may be re-assigned upon the termination of the Special Rate Period.

During the Special Rate Period, the Acquiring Fund is required to maintain the same asset coverage, basic maintenance amount and leverage requirements for the VRDP Shares as was required prior to the Special Rate Period.

During the Special Rate Period, the Acquiring Fund will pay no fees to the liquidity provider and remarketing agent, but will instead and pay dividends monthly based on the sum of Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index and a percentage per annum based on the long-term ratings assigned to the VRDP Shares (Ratings Spread). As of November 30, 2017, the BLJ VRDP Shares and the Acquiring Fund VRDP Shares were both assigned long-term ratings of Aa2 from Moody's and AAA from Fitch. The annualized dividend rates of the BLJ VRDP Shares and the Acquiring Fund VRDP Shares as of November 30, 2017 were as follows:

Fund	Rate
BLJ	1.85%
Acquiring Fund (MYJ)	1.85%

The Ratings Spread will increase in the event the VRDP Shares are rated below Aaa/AAA by all of the rating agencies rating the VRDP Shares at the time such Ratings Spread is determined, up to a maximum of 4.00% in the event the VRDP Shares are either rated below Baa3/BBB- by at least one of the rating agencies then rating the VRDP Shares or not rated by any rating agency.

In addition, if the Acquiring Fund redeems its VRDP Shares on a date that is one year or more before the end of the Special Rate Period and the VRDP Shares of the Acquiring Fund are rated above A1/A+ by all rating agencies then rating the VRDP Shares, then such redemption is subject to a redemption premium payable to the Acquiring Fund's VRDP Holders based on the time remaining in the Special Rate Period, subject to certain exceptions for redemptions that are required to maintain minimum asset coverage requirements.

Under the Acquiring Fund's Fee Agreement with the liquidity provider, to the extent the liquidity provider together with certain affiliates individually or in the aggregate own at least 20% of the outstanding VRDP Shares and the Acquiring Fund has not failed to pay dividends on the VRDP Shares for two years, the liquidity provider agreed to enter into and maintain a voting trust agreement and convey into the voting trust the right to vote all of its VRDP Shares owned by it or such affiliates, with respect to: (i) the election of the two members of the Board for which VRDP Holders are entitled to vote under the 1940 Act and all other rights given to VRDP Holders with respect to the election of the Board; (ii) the conversion of the Acquiring Fund from a closed-end management investment company to an open-end fund, or to change the Acquiring Fund's classification from diversified to non-diversified; (iii) the deviation from a policy in respect of concentration of investments in any particular industry or group of industries as recited in the Acquiring Fund's registration statement; (iv) borrowing money, issuing senior securities, underwriting securities issued by other persons, purchasing or selling real estate or commodities or making loans to other persons other than in accordance with the recitals of policy with respect thereto in the Acquiring Fund's registration statement; and (v) all other voting and consent rights of the liquidity

Table of Contents

provider as beneficial owner of the VRDP Shares unless such voting or consent rights relate to situations where the rights or seniority of the beneficial owners of the VRDP Shares could be adversely affected.

If the Special Rate Period is not extended, the VRDP Shares will revert back to remarketable securities and will be remarketed and available for purchase by qualified institutional investors. There is no assurance that the VRDP Shares will be remarketed or purchased by investors after the termination of the Special Rate Period. If the VRDP Shares are not remarketed or purchased, then a failed remarketing will occur. As described above, in the event of a failed remarketing, the dividend rate of the VRDP Shares will be reset to the maximum rate and the VRDP Shares that have not been remarketed are required to be purchased by the liquidity provider and subject to redemption by the Acquiring Fund after six months of continuous, unsuccessful remarketing.

Description of the VRDP Shares of BLJ

BLJ's VRDP Shares have terms substantially identical to the terms of the Acquiring Fund's VRDP Shares as described herein, except that the BLJ VRDP Shares have a mandatory redemption date of July 1, 2042, while the outstanding Acquiring Fund VRDP Shares have a mandatory redemption date of May 1, 2041. The outstanding VRDP Shares of the Acquiring Fund and BLJ have the same \$100,000 liquidation preference per share, dividend period, dividend payment date, voting rights, redemption provisions, remarketing procedures, mandatory purchase events, mandatory tender events, transfer restrictions and covenants with respect to effective leverage, asset coverage, eligible investments, mechanism for determining the applicable dividend rate and maximum rate, and the same liquidity provider, remarketing agent and tender and paying agent. The outstanding VRDP Shares of the Acquiring Fund and BLJ are currently in a one year Special Rate Period that will end on June 20, 2018, unless extended. The terms applicable to the outstanding VRDP Shares of the Acquiring Fund and BLJ during the Special Rate Period are substantially identical. During the Special Rate Period, the outstanding VRDP Shares of the Acquiring Fund and BLJ have the same mechanism for determining the applicable dividend rate and maximum rate, redemption premiums and transfer restrictions.

- (7) Do not reflect the effect of dividends to AMPS Shareholders.
- (8) Annualized.
- (9) For the year ended July 31, 2012, the total expense ratio after fees waived and paid indirectly and excluding interest expense, fees, amortization of offering costs, liquidity and remarketing fees was 0.93%.

Table of Contents**DIVIDENDS AND DISTRIBUTIONS****General**

The Acquiring Fund's dividend and distribution policy with respect to Common Shares will be the Combined Fund's dividend and distribution policy with respect to Common Shares. BLJ's and BNJ's dividend and distribution policy with respect to Common Shares is substantially similar (but not identical) as that of the Acquiring Fund. The Acquiring Fund intends to make regular monthly cash distributions of all or a portion of its net investment income, after payment of dividends on the Acquiring Fund's preferred shares outstanding, to holders of the Acquiring Fund's Common Shares, except as described below in Undistributed Net Investment Income. The Acquiring Fund's net investment income consists of all interest income accrued on portfolio assets less all expenses of the Acquiring Fund. The Acquiring Fund is required to allocate net capital gains and other taxable income, if any, received by the Acquiring Fund among its common shareholders on a pro rata basis in the year for which such capital gains and other income is realized.

Various factors will affect the level of the Acquiring Fund's net investment income, such as its asset mix, portfolio turnover level, performance of its investments, level of retained earnings, the amount of leverage utilized by the Acquiring Fund and the effects thereof, the costs of such leverage, the movement of interest rates and general market conditions. In addition, the Combined Fund's future earnings will vary depending upon the combination of the Reorganizations. These factors, among others, may result in the Combined Fund's level of net investment income being different from the level of net investment income for any of the individual Funds if the Reorganizations were not completed. To permit the Acquiring Fund to maintain more stable monthly distributions and to the extent consistent with the distribution requirements imposed on regulated investment companies by the Code, the Acquiring Fund may from time to time distribute less than the entire amount earned in a particular period. The income would be available to supplement future distributions. As a result, the distributions paid by the Acquiring Fund for any particular month may be more or less than the amount actually earned by the Acquiring Fund during that month. The amount of undistributed income paid by the Acquiring Fund for any particular month may vary from time to time. The portion of a Combined Fund's monthly distribution that consists of undistributed income may be greater than any individual Fund prior to the Reorganizations for any particular month. Undistributed earnings will increase the Acquiring Fund's NAV and, correspondingly, distributions from undistributed earnings and from capital, if any, will reduce the Acquiring Fund's NAV.

Acquiring Fund common shareholders will automatically have all dividends and distributions reinvested in Common Shares issued by the Acquiring Fund or Acquiring Fund Common Shares purchased in the open market in accordance with the Acquiring Fund's Automatic Dividend Reinvestment Plan, unless an election is made to receive cash. For information concerning the manner in which dividends and distributions to holders of the Acquiring Fund Common Shares may be reinvested automatically in the Acquiring Fund Common Shares, see Automatic Dividend Reinvestment Plan.

Undistributed Net Investment Income

If the Reorganizations are approved by shareholders, then substantially all of the undistributed net investment income, if any, of each Fund is expected to be declared to such Fund's common shareholders prior to the Closing Date (the Pre-Reorganization Declared UNII Distributions). The declaration date, ex-dividend date (the Ex-Dividend Date) and record date of the Pre-Reorganization Declared UNII Distributions will occur prior to the Closing Date. However, all or a significant portion of the Pre-Reorganization Declared UNII Distributions may be paid in one or more distributions to common shareholders of the Funds entitled to such Pre-Reorganization Declared UNII Distributions after the Closing Date. Former BLJ and BNJ shareholders entitled to such Pre-Reorganization Declared UNII Distributions paid after the Closing Date will receive such distributions in cash.

Table of Contents

Persons who purchase Common Shares of any of the Funds on or after the Ex-Dividend Date for the Pre-Reorganization Declared UNII Distributions should not expect to receive any distributions from any Fund until distributions, if any, are declared by the Board of the Combined Fund and paid to shareholders entitled to any such distributions. No such distributions are expected to be paid by the Combined Fund until at least approximately one month following the Closing Date.

Additionally, the Acquiring Fund, in order to seek to provide its common shareholders with distribution rate stability, may include in its Pre-Reorganization Declared UNII Distribution amounts in excess of its undistributed net investment income and net investment income accrued through the Closing Date; any such excess amounts are not expected to constitute a return of capital. This would result in the Acquiring Fund issuing incrementally more Common Shares in the Reorganizations since its NAV as of the Valuation Time would be lower relative to a scenario where such excess amounts were not included in the Acquiring Fund's Pre-Reorganization Declared UNII Distribution.

The Combined Fund's earnings and distribution rate on NAV will change over time, and depending on market conditions, may be higher or lower than each Fund's earnings and distribution rate on NAV prior to the Reorganizations. The Combined Fund is anticipated to retain a lower UNII balance after the Reorganizations than the Acquiring Fund prior to the Reorganizations. The lower anticipated UNII balance for the Combined Fund relative to the UNII balance of the Acquiring Fund poses risks for shareholders of the Combined Fund. UNII balances, in part, support the level of a fund's regular distributions and provide a cushion in the event a fund's net earnings for a particular distribution period are insufficient to support the level of its regular distribution for that period. If the Combined Fund's net earnings are below the level of its current distribution rate, the Combined Fund's UNII balance could be more likely to contribute to a determination to decrease the Combined Fund's distribution rate, or could make it more likely that the Combined Fund will make distributions consisting in part of a return of capital to maintain the level of its regular distributions. See Dividends and Distributions. Moreover, because a fund's UNII balance, in part, supports the level of a fund's regular distributions, the UNII balance of the Combined Fund could impact the trading market for the Combined Fund's Common Shares and the magnitude of the trading discount to NAV of the Combined Fund's Common Shares. However, the Combined Fund is anticipated to benefit from a lower expense ratio (compared to BNJ and BLJ), a potentially higher earnings profile and other anticipated benefits of economies of scale as discussed herein. Each Fund, including the Combined Fund, reserves the right to change its distribution policy with respect to common share distributions and the basis for establishing the rate of its distributions for the Common Shares at any time and may do so without prior notice to common shareholders. The payment of any distributions by any Fund, including the Combined Fund, is subject to, and will only be made when, as, and if, declared by the Board of such Fund. There is no assurance the Board of any Fund, including the Combined Fund, will declare any distributions for such Fund.

To the extent any Pre-Reorganization Declared UNII Distribution is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. federal income tax purposes.

Restrictions on Distributions to Common Shares

While there are any preferred shares of the Acquiring Fund outstanding, the Acquiring Fund may not declare any cash dividend or other distribution on its Common Shares, unless at the time of such declaration, (i) all accrued preferred shares dividends have been paid and (ii) the value of the Acquiring Fund's total assets (determined after deducting the amount of such dividend or other distribution), less all liabilities and indebtedness of the Acquiring Fund, is at least 200% (as required by the 1940 Act) of the liquidation preference of the outstanding preferred shares (expected to equal the aggregate original purchase price of the outstanding preferred shares plus any accrued and unpaid dividends thereon, whether or not earned or declared on a cumulative basis). In addition to the requirements of the 1940 Act, the Acquiring Fund may be required to comply with other asset coverage requirements as a condition of the Acquiring Fund obtaining a rating of its preferred shares from a nationally recognized rating service. These requirements may include an asset coverage

Table of Contents

test more stringent than that under the 1940 Act. This limitation on the Acquiring Fund's ability to make distributions on its Common Shares could in certain circumstances impair the ability of the Acquiring Fund to maintain its qualification for taxation as a regulated investment company under the Code. The Acquiring Fund intends, however, to the extent possible, to purchase or redeem preferred shares from time to time to maintain compliance with such asset coverage requirements and may pay special dividends to the holders of the preferred shares in certain circumstances in connection with any such impairment of the Acquiring Fund's status as a regulated investment company under the Code.

Tax Treatment of Distributions

The tax treatment and characterization of the Acquiring Fund's distributions may vary significantly from time to time because of the varied nature of the Acquiring Fund's investments. The Acquiring Fund will indicate the proportion of its capital gains distributions that constitute long-term and short-term gains annually.

The final tax characterization of distributions is determined after the end of the Acquiring Fund's fiscal year and is reported to shareholders on Form 1099. Distributions will be characterized as tax-exempt interest income, ordinary income, capital gains and/or return of capital. The Acquiring Fund's net investment income or net realized capital gains may not be sufficient to support the level of distributions paid. To the extent that distributions exceed the Acquiring Fund's current and accumulated earnings and profits in the current fiscal year, the excess may be treated as a return of capital. A return of capital distribution does not necessarily reflect the Acquiring Fund's investment performance and should not be confused with yield or income. A return of capital is a return of a portion of an investor's original investment. A return of capital is generally not taxable, but it reduces a shareholder's tax basis in his or her shares, thus reducing any loss or increasing any gain on a subsequent disposition by the shareholder of his or her shares. It is possible that a substantial portion of the distributions paid during a calendar year may ultimately be classified as return of capital for income tax purposes when the final determination of the source and character of the distributions is made.

As described above, the portion of distributions that exceeds the Acquiring Fund's current and accumulated earnings and profits, which are calculated under tax principles, will constitute a non-taxable return of capital. Although capital loss carryforwards from prior years can offset realized net capital gains, capital loss carryforwards will offset current earnings and profits only if they were generated in the Acquiring Fund's 2012 taxable year or thereafter. If distributions in any tax year are less than the Acquiring Fund's current earnings and profits but are in excess of net investment income and net realized capital gains (which would occur, for example, if the Acquiring Fund utilizes pre-2012 capital loss carryforwards to offset capital gains in that tax year), such excess is not treated as a non-taxable return of capital but rather may be taxable to shareholders at ordinary income rates even though it may economically represent a return of capital. Under certain circumstances, such taxable excess distributions could be significant.

Table of Contents**AUTOMATIC DIVIDEND REINVESTMENT PLAN**

Unless the registered owner of Acquiring Fund Common Shares elects to receive cash by contacting the Reinvestment Plan Agent, Computershare Trust Company, N.A., all dividends or other distributions (together, a dividend) declared for your Acquiring Fund Common Shares will be automatically reinvested by the Reinvestment Plan Agent, as agent for shareholders in administering the Acquiring Fund's dividend reinvestment plan (the Reinvestment Plan), in additional Acquiring Fund Common Shares.

Shareholders who elect not to participate in the Reinvestment Plan will receive all dividends in cash paid by check mailed directly to the shareholder of record (or, if the Common Shares are held in street or other nominee name, then to such nominee) by Computershare Trust Company, N.A., as dividend disbursing agent. You may elect not to participate in the Reinvestment Plan and to receive all dividends in cash by contacting Computershare Trust Company, N.A., as Reinvestment Plan Agent, at the address provided on the following page. Participation in the Reinvestment Plan is completely voluntary and may be terminated or resumed at any time without penalty by written notice if received and processed by the Reinvestment Plan Agent prior to the dividend record date. Additionally, the Reinvestment Plan Agent seeks to process notices received after the record date but prior to the payable date and such notices often will become effective by the payable date. Where late notices are not processed by the applicable payable date, such termination or resumption will be effective with respect to any subsequently declared dividend.

Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional Acquiring Fund Common Shares for you. If you wish for all dividends declared on your Acquiring Fund Common Shares to be automatically reinvested pursuant to the Reinvestment Plan, please contact your broker.

The Reinvestment Plan Agent will open an account for each Acquiring Fund common shareholder under the Reinvestment Plan in the same name in which such common shareholder's Acquiring Fund Common Shares are registered. Whenever the Acquiring Fund declares a dividend payable in cash, non-participants in the Reinvestment Plan will receive cash and participants in the Reinvestment Plan will receive the equivalent in Acquiring Fund Common Shares. The Acquiring Fund Common Shares will be acquired by the Reinvestment Plan Agent for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Acquiring Fund Common Shares from the Acquiring Fund (newly issued Acquiring Fund Common Shares) or (ii) by purchase of outstanding Acquiring Fund Common Shares on the open market (open-market purchases). If, on the dividend payment date, the NAV per share is equal to or less than the market price per share plus estimated brokerage commissions (such condition often referred to as a market premium), the Reinvestment Plan Agent will invest the dividend amount in newly issued Acquiring Fund Common Shares on behalf of the participants. The number of newly issued Acquiring Fund Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the dividend by the NAV on the dividend payment date. However, if the NAV is less than 95% of the market price on the dividend payment date, the dollar amount of the dividend will be divided by 95% of the market price on the dividend payment date. If, on the dividend payment date, the NAV is greater than the market price per share plus estimated brokerage commissions (such condition often referred to as a market discount), the Reinvestment Plan Agent will invest the dividend amount in Acquiring Fund Common Shares acquired on behalf of the participants in open-market purchases. In the event of a market discount on the dividend payment date, the Reinvestment Plan Agent will have until the last business day before the next date on which the Acquiring Fund Common Shares trade on an ex-dividend basis or 30 days after the dividend payment date, whichever is sooner (the last purchase date), to invest the dividend amount in Acquiring Fund Common Shares acquired in open-market purchases. If, before the Reinvestment Plan Agent has completed its open-market purchases, the market price per Acquiring Fund Common Share exceeds the NAV per Acquiring Fund Common Share, the average per Acquiring Fund Common Share purchase price paid by the Reinvestment Plan Agent may exceed the NAV of the Acquiring Fund Common Shares, resulting in the acquisition of fewer Acquiring Fund Common Shares than if the dividend had been paid in newly issued Acquiring Fund Common Shares on the dividend payment date.

Table of Contents

Because of the foregoing difficulty with respect to open-market purchases, the Reinvestment Plan provides that if the Reinvestment Plan Agent is unable to invest the full dividend amount in open-market purchases, or if the market discount shifts to a market premium during the purchase period, the Reinvestment Plan Agent may cease making open-market purchases and may invest any uninvested portion in newly issued Acquiring Fund Common Shares. Investments in newly issued Acquiring Fund Common Shares made in this manner would be made pursuant to the same process described above and the date of issue for such newly issued Acquiring Fund Common Shares will substitute for the dividend payment date.

The Reinvestment Plan Agent maintains all shareholders' accounts in the Reinvestment Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Acquiring Fund Common Shares in the account of each participant will be held by the Reinvestment Plan Agent on behalf of such participant, and each shareholder proxy will include those Acquiring Fund Common Shares purchased or received pursuant to the Reinvestment Plan.

In the case of shareholders such as banks, brokers or nominees, which hold shares for others who are the beneficial owners, the Reinvestment Plan Agent will administer the Reinvestment Plan on the basis of the number of Acquiring Fund Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Reinvestment Plan.

The Reinvestment Plan Agent's fees for the handling of the reinvestment of dividends will be paid by the Acquiring Fund; however, each participant will pay a \$0.02 per share fee incurred in connection with open-market purchases of Acquiring Fund Common Shares pursuant to the Reinvestment Plan, which will be deducted from the value of the dividend. The automatic reinvestment of dividends pursuant to the Reinvestment Plan will not relieve participants of any U.S. federal, state or local income tax that may be payable (or required to be withheld) on such dividends.

Participants that request a sale of Acquiring Fund Common Shares through the Reinvestment Plan Agent are subject to a \$2.50 sales fee and a \$0.15 per share fee. Per share fees include any applicable brokerage commissions the Reinvestment Plan Agent is required to pay.

The Acquiring Fund reserves the right to amend or terminate the Reinvestment Plan. There is no direct service charge to participants with regard to purchases in the Reinvestment Plan; however, the Acquiring Fund reserves the right to amend the Reinvestment Plan to include a service charge payable by the participants. Notice of amendments to the Reinvestment Plan will be sent to participants.

All correspondence concerning the Reinvestment Plan, including any questions about the Reinvestment Plan, should be directed to the Reinvestment Plan Agent at Computershare Trust Company, N.A., through the internet at www.computershare.com/blackrock, by calling 1-800-699-1236 or in writing to Computershare Trust Company, N.A., P.O. Box 505000, Louisville, KY 40233.

All overnight correspondence should be directed to the Reinvestment Plan Agent at Computershare, 462 South 4th Street, Suite 1600, Louisville, KY 40202.

Table of Contents

CERTAIN PROVISIONS OF THE DECLARATIONS OF TRUST, CHARTER AND BYLAWS

Each of BLJ s and BNJ s Amended and Restated Agreement and Declaration of Trust and Amended and Restated Bylaws, and the Acquiring Fund s Charter and Amended and Restated Bylaws include provisions that could have the effect of limiting the ability of other entities or persons to acquire control of the Fund or to change the composition of its Board. This could have the effect of depriving shareholders of an opportunity to sell their shares at a premium over prevailing market prices by discouraging a third party from seeking to obtain control over the Fund. Such attempts could have the effect of increasing the expenses of the Fund and disrupting the normal operation of the Fund.

Certain Provisions in the Declaration of Trust or Charter of Each Fund

The Board of each of BLJ and BNJ is divided into three classes, with the terms of one class expiring at each annual meeting of shareholders. At each annual meeting, one class of Board Members for each of BLJ and BNJ is elected to a three-year term. This provision could delay for up to two years the replacement of a majority of the Board of each Fund. In contrast, the Board of the Acquiring Fund is not classified.

For each of BLJ and BNJ, a Board Member may be removed from office for cause only, and not without cause, by the action of a majority of the remaining Board Members or by a vote of the holders of at least 75% of the shares entitled to vote in an election of such Board Member. For the Acquiring Fund, a Board Member may be removed with or without cause, but only by action taken by holders of at least $66\frac{2}{3}\%$ of the shares entitled to vote in an election to fill that directorship.

Holders of each Fund s outstanding preferred shares, including VRDP Shares and VMTP Shares, voting together as a class, to the exclusion of the holders of all other securities and classes of shares of such Fund, are entitled to elect two Board Members of such Fund at any annual meeting in which Board Members are elected.

In addition, each of BLJ s and BNJ s Agreement and Declaration of Trust requires the affirmative vote or consent of a majority of the Board Members then in office followed by the affirmative vote of the holders of not less than 75% of the outstanding shares of each affected class or series outstanding, voting as a separate class or series, to approve, adopt or authorize certain transactions with five percent-or-greater holders of a class or series of shares and their associates, unless 80% of the Board Members by resolution have approved a memorandum of understanding with such holders with respect to and substantially consistent with such transaction, in which case approval by a 1940 Act Majority will be the only vote of the shareholders required. These voting requirements are in addition to any regulatory relief required from the SEC with respect to such transaction. For purposes of these provisions, a five percent-or-greater holder of a class or series of shares (a Principal Shareholder) refers to any corporation, person or other entity which is the beneficial owner, directly or indirectly, of 5% or more of the outstanding shares of any class or series and shall include any affiliate or associate.

The transactions subject to these special approval requirements are:

The merger or consolidation of BLJ or BNJ or any subsidiary of the Fund with or into any Principal Shareholder.

The issuance of any securities of BLJ or BNJ to any Principal Shareholder for cash (other than pursuant to a dividend reinvestment plan).

The sale, lease or exchange of all or any substantial part of the assets of BLJ or BNJ to any Principal Shareholder (except assets having an aggregate fair market value of less than \$1,000,000, aggregating for the purpose of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period).

The sale, lease or exchange to BLJ or BNJ or any subsidiary of the Fund, in exchange for securities of such Fund, of any assets of any Principal Shareholder (except assets having an aggregate fair market

Table of Contents

value of less than \$1,000,000, aggregating for purposes of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period).

Each of BLJ and BNJ may merge or consolidate with any other corporation, association, trust or other organization or may sell, lease or exchange all or substantially all of BLJ's and BNJ's property, including its good will, upon such terms and conditions and for such consideration when and as authorized by two-thirds of such Fund's Board Members and approved by a 1940 Act Majority of such Fund's shareholders.

For the Acquiring Fund, the Acquiring Fund's Charter provides that a favorable vote of the holders of at least $66\frac{2}{3}\%$ of the outstanding shares of capital stock entitled to be voted on the matter shall be required to approve, adopt or authorize (i) a merger or consolidation or statutory share exchange of the Acquiring Fund with any other corporation, (ii) a sale of all or substantially all of the assets of the Acquiring Fund (other than in the regular course of its investment activities), or (iii) a liquidation or dissolution of the Acquiring Fund, unless such action has previously been approved, adopted or authorized by the affirmative vote of at least two-thirds of the Acquiring Fund's Board Members, in which case the affirmative vote of the holders of a majority of the outstanding shares of capital stock of the Acquiring Fund entitled to vote thereon shall be required.

If any plan of reorganization (as such term is used under the 1940 Act) adversely affects a Fund's preferred shares, including such Fund's VRDP Shares or VMTP Shares, then such plan of reorganization will require the approval of a 1940 Act Majority of the holders of such preferred shares, including such Fund's VRDP Holders or VMTP Holders.

With respect to the Acquiring Fund, Subtitle 8 of Title 3 of the Maryland General Corporation Law permits a Maryland corporation with a class of equity securities registered under the Securities and Exchange Act of 1934 and at least three independent directors to elect to be subject, by provision in its charter or bylaws or a resolution of its board of directors and notwithstanding any contrary provision in the charter or bylaws, to a provision requiring that a vacancy on the board be filled only by the remaining directors and for the remainder of the full term of the directorship in which the vacancy occurred. Pursuant to Subtitle 8 and by amendment to the bylaws, the Board of the Acquiring Fund elected to provide that vacancies on the Board be filled only by the remaining directors and for the remainder of the full term of the directorship in which the vacancy occurred.

The Board of each Fund has determined that the voting requirements described above are in the best interests of shareholders generally. Reference should be made to the Declaration of Trust or Charter of each Fund on file with the SEC for the full text of these provisions.

Certain Provisions in the Bylaws of Each Fund

Each Fund's bylaws generally require that advance notice be given to the Fund in the event a shareholder desires to nominate a person for election to the Board or to transact any other business at an annual meeting of shareholders. Notice of any such nomination or business must be delivered to or received at the principal executive offices of the Fund not less than 120 calendar days nor more than 150 calendar days prior to the anniversary date of the prior year's annual meeting (subject to certain exceptions). Any notice by a shareholder must be accompanied by certain information as provided in the bylaws. Reference should be made to each Fund's bylaws on file with the SEC for the full text of these provisions.

Table of Contents

GOVERNING LAW

BLJ was organized as a Delaware statutory trust pursuant to an Agreement and Declaration of Trust governed by the laws of the State of Delaware on March 14, 2002 and commenced operations on April 25, 2002. BNJ was organized as a Delaware statutory trust pursuant to an Agreement and Declaration of Trust governed by the laws of the State of Delaware on March 30, 2001 and commenced operations on July 26, 2001. The Acquiring Fund was organized as a Maryland corporation governed by the laws of the State of Maryland on February 21, 1992 and commenced operations on May 18, 1992.

In general, a Delaware statutory trust provides greater flexibility with respect to procedural matters and a corporation provides greater certainty with respect to limitation of personal liability. Under the Delaware Statutory Trust Act, shareholders of a Delaware statutory trust are entitled to the same limitation of personal liability as is extended to shareholders of a private corporation organized for profit under the General Corporation Law of the State of Delaware. However, there is a remote possibility that shareholders of a Delaware statutory trust could, under certain circumstances be held liable for the Delaware statutory trust's obligations to the extent the courts of another state refused to recognize such limited liability in a controversy involving a Delaware statutory trust's obligations. BLJ's and BNJ's governing document disclaims shareholder liability for acts or obligations of such Fund. Thus, a Delaware statutory trust shareholder's risk of incurring financial loss due to shareholder liability is limited to circumstances in which a court refuses to recognize the Delaware Statutory Trust Act and the complaining party is held not bound by the Delaware statutory trust's disclaimer regarding shareholder liability. As noted above, a Maryland corporation provides greater certainty with respect to limitation of personal liability. Shareholders of a Maryland corporation currently have no personal liability for the corporation's acts or obligations, except that a shareholder may be liable to the extent that (i) the shareholder knowingly accepted a distribution in violation of such Maryland corporation's charter or the Maryland General Corporation Law or (ii) the subscription price or other agreed upon consideration for stock subscribed for has not been paid.

In contrast to the Maryland General Corporation Law, the Delaware Statutory Trust Act allows the parties to define their business relationships. The Delaware Statutory Trust Act provides rules only in situations where the parties have failed to agree and the Delaware Statutory Trust Act gives maximum effect to the principle of freedom of contract and to the enforceability of a statutory trust's governing instrument. The Delaware Statutory Trust Act permits a trust's governing instrument to contain provisions relating to shareholder rights and removal of trustees, and provide trusts with the ability to amend or restate the trust's governing instruments. The Delaware Statutory Trust Act also authorizes the trustees to take various actions without requiring shareholder approval if permitted by a Fund's governing instruments.

The foregoing discusses only certain differences between the Acquiring Fund under Maryland law and BLJ and BNJ under Delaware law. It is not intended to be a complete list of differences, and shareholders should refer to the relevant laws of each state and the provisions of each Fund's applicable organizational documents for a more thorough comparison. Such documents are filed as part of each Fund's registration statement with the SEC, and shareholders may obtain copies of such documents as described on pages v-vi of this Joint Proxy Statement/Prospectus.

Table of Contents

CONVERSION TO OPEN-END FUND

To convert each of BLJ or BNJ to an open-end investment company, BLJ's and BNJ's Declaration of Trust each requires an amendment to the Fund's declaration of trust or charter. The amendment requires the favorable vote a majority of the Board Members then in office followed by the favorable vote of the holders of not less than 75% of the shares of each affected class or series outstanding, voting as separate classes or series, unless such amendment has been approved by 80% of the Board Members, in which case approval by a 1940 Act Majority of such Fund's shareholders is required. With respect to the Acquiring Fund, the Acquiring Fund's Charter provides that a favorable vote of the holders of at least $66\frac{2}{3}\%$ of the outstanding shares of capital stock entitled to be voted on the matter shall be required to convert the Acquiring Fund to an open-end investment company, unless such action has previously been approved, adopted or authorized by the affirmative vote of at least two-thirds of the Acquiring Fund's Board Members, in which case the affirmative vote of the holders of a majority of the outstanding shares of capital stock of the Acquiring Fund entitled to vote thereon shall be required.

The foregoing votes would satisfy a separate requirement in the 1940 Act that any conversion of a Fund to an open-end investment company be approved by the shareholders. If approved in the foregoing manners, we anticipate conversion of a Fund to an open-end investment company might not occur until 90 days after the shareholders' meeting at which such conversion was approved and would also require at least 10 days prior notice to all shareholders. Following any such conversion, it is possible that certain of the Fund's investment policies and strategies would have to be modified to assure sufficient portfolio liquidity. In the event of conversion, the Fund's Common Shares would cease to be listed on the NYSE or NYSE American, as applicable. Shareholders of an open-end investment company may require the company to redeem their shares at any time, except in certain circumstances as authorized by or under the 1940 Act, at their NAV, less such redemption charge, if any, as might be in effect at the time of redemption. An open-end investment company expects to pay all such redemption requests in cash, but reserves the right to pay redemption requests in a combination of cash and securities. If such partial payment in securities were made, investors may incur brokerage costs in converting such securities to cash. If a Fund were converted to an open-end investment company, it is likely that new shares would be sold at NAV plus a sales load. Each Board believes, however, that its Fund's closed-end structure is desirable in light of its Fund's investment objective and policies. Therefore, shareholders should assume that it is not likely that any Board would vote to convert its Fund to an open-end fund.

Table of Contents**CAPITALIZATION TABLE**

The Board of each Fund may authorize separate classes of shares together with such designation of preferences, rights, voting powers, restrictions, limitations, qualifications or terms as may be determined from time to time by the Board of such Fund. The tables below set forth (i) the capitalization of BLJ and MYJ as of November 30, 2017 and the *pro forma* capitalization of the Combined Fund assuming only the BLJ Reorganization was consummated as of November 30, 2017; (ii) the capitalization of BNJ and MYJ as of November 30, 2017 and the *pro forma* capitalization of the Combined Fund assuming only the BNJ Reorganization was consummated as of November 30, 2017; and (iii) the capitalization of the Funds as of November 30, 2017 and the *pro forma* capitalization of the Combined Fund assuming all of the Reorganizations were consummated as of November 30, 2017, which represents the most likely combination of the Reorganizations.

i. Capitalization of BLJ and MYJ as of November 30, 2017 and *pro forma* capitalization of the Combined Fund assuming only the BLJ Reorganization is consummated (unaudited)

	Target Fund (BLJ)	Acquiring Fund (MYJ)	Adjustments	<i>Pro Forma</i> Combined Fund (BLJ into MYJ)
Net Assets Attributable to:				
Common Shares ⁽¹⁾	\$ 36,463,422	\$ 228,338,949	\$ (223,000) ⁽²⁾	\$ 264,579,371

(1) Based on the number of outstanding Common Shares as of November 30, 2017.

(2) Reflects non-recurring aggregate estimated reorganization expenses of \$486,000, of which \$223,000 was attributable to BLJ, and \$263,000 was attributable to BNJ. The actual costs associated with the Reorganizations may be more or less than the estimated costs discussed herein.

(3) Reflects adjustments due to VMTP Shares refinancing to VRDP Shares.

(4) Reflects adjustments due to differences in per Common Share NAV.

(5) Assumes no Target Fund VRDP Holders exercise their appraisal rights.

VOTING RIGHTS

Voting rights are identical for the holders of each Fund's Common Shares. Holders of each Fund's Common Shares are entitled to one vote for each Common Share held by them. Holders of each Fund's preferred shares are entitled to one vote for each preferred share held by them. Each Fund's Common Shares and preferred shares do not have cumulative voting rights.

APPRAISAL RIGHTS

Shareholders of BLJ and BNJ do not have appraisal rights for their respective common or preferred shares because the Funds are each organized as Delaware statutory trusts and the Funds' respective declarations of trust do not provide for appraisal rights. Under Maryland law, stockholders of an investment company whose shares are traded publicly on a national securities exchange, such as Common Shares of the Acquiring Fund, are not entitled to demand the fair value of their shares in connection with a reorganization.

Table of Contents

U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE REORGANIZATIONS

The following is a general summary of the U.S. federal income tax consequences of the Reorganizations to the U.S. holders of BLJ or BNJ Common Shares. The discussion is based upon the Code, Treasury regulations, court decisions, published positions of the IRS and other applicable authorities, all as in effect on the date hereof and all of which are subject to change or differing interpretations (possibly with retroactive effect). The discussion is limited to U.S. persons who hold Common Shares of BLJ and BNJ as capital assets for U.S. federal income tax purposes (generally, assets held for investment). This summary does not address all of the U.S. federal income tax consequences that may be relevant to a particular shareholder or to shareholders who may be subject to special treatment under U.S. federal income tax laws. No ruling has been or will be obtained from the IRS regarding any matter relating to the Reorganizations. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax aspects described below. This summary of U.S. federal income tax consequences is for general information only. The Funds' shareholders should consult their own tax advisers regarding the U.S. federal income tax consequences of the Reorganizations, as well as the effects of state, local and non-U.S. tax laws, including possible changes in tax law.

It is a condition to the closing of the Reorganizations that each Fund receives an opinion from Skadden Arps, dated as of the Closing Date, regarding the characterization of each Reorganization as a reorganization within the meaning of Section 368(a) of the Code. The opinion of Skadden Arps will be based on U.S. federal income tax law in effect on the Closing Date. In rendering its opinion, Skadden Arps will also rely upon certain representations of the management of each Fund and assume, among other things, that the Reorganizations will be consummated in accordance with each Reorganization Agreement and other operative documents and as described herein. An opinion of counsel is not binding on the IRS or any court.

As a reorganization, the U.S. federal income tax consequences of the Reorganizations can be summarized as follows:

No gain or loss will be recognized by a Fund by reason of the Reorganizations.

No gain or loss will be recognized by a shareholder of BLJ and BNJ who exchanges, as the case may be, all of its Common Shares solely for Acquiring Fund Common Shares or all of its BLJ or BNJ VRDP Shares solely for Acquiring Fund VRDP Shares pursuant to the Reorganizations (except with respect to cash received in lieu of a fractional Acquiring Fund Common Share, as discussed below).

The aggregate tax basis of Acquiring Fund Common Shares received by a shareholder of BLJ or BNJ pursuant to the Reorganizations will be the same as the aggregate tax basis of the shareholder's BLJ or BNJ Common Shares surrendered in exchange therefor (reduced by any amount of tax basis allocable to a fractional Acquiring Fund Common Share for which cash is received).

The holding period of Acquiring Fund Common Shares received by a shareholder of BLJ and BNJ pursuant to the Reorganizations will include the holding period of the shareholder's Common Shares surrendered in exchange therefor.

A shareholder of BLJ and BNJ that receives cash in lieu of a fractional Acquiring Fund Common Share in connection with the Reorganizations will be treated as having received cash in redemption of such fractional Acquiring Fund Common Share. A BLJ or BNJ shareholder that receives cash in lieu of a fractional Acquiring Fund Common Share will recognize capital gain or loss equal to the difference between the amount of cash deemed received for the fractional Acquiring Fund Common Share and BLJ or BNJ shareholder's tax basis in BLJ or BNJ Common Shares allocable to the fractional Acquiring Fund Common Share. The capital gain or loss will be a long-term capital gain or loss if BLJ or BNJ shareholder's holding period for BLJ or BNJ Common Shares is more than one year as of the date the Reorganizations are consummated.

The Acquiring Fund's tax basis in BLJ's and BNJ's assets received by the Acquiring Fund pursuant to the Reorganizations will, in each instance, equal the tax basis of such assets in the hands of BLJ and BNJ immediately prior to the Closing Date, and the Acquiring Fund's holding period for such assets will, in each instance, include the period during which the assets were held by BLJ and BNJ.

Table of Contents

The Acquiring Fund intends to continue to be taxed under the rules applicable to regulated investment companies as defined in Section 851 of the Code, which are the same rules currently applicable to each Fund and its shareholders.

None of the Funds intend to sell any assets in connection with the Reorganizations other than in the ordinary course of business. If, however, assets of BLJ and BNJ were to be sold in connection with the Reorganizations, or if such assets were required to be marked to market as a result of the termination of BLJ's and BNJ's taxable year or as a result of the transfer of certain assets in the Reorganizations, the tax impact of any such sales (or deemed sales) would depend on the difference between the price at which such portfolio assets are sold and BLJ's and BNJ's basis in such assets. Any capital gains recognized in these sales (or deemed sales) on a net basis will be distributed to BLJ or BNJ shareholders as capital gain dividends (to the extent of net realized long-term capital gains) and/or ordinary dividends (to the extent of net realized short-term capital gains) during or with respect to the year of sale (or deemed sale) and prior to or after the date of the Reorganizations, and such distributions will be taxable to BLJ or BNJ shareholders.

Prior to the Closing Date, each Fund will declare a distribution to its shareholders, which together with all previous distributions, will have the effect of distributing to the shareholders of such Fund all of the Fund's (i) investment company income (computed without regard to the deduction for dividends paid), if any, through the Closing Date, (ii) net capital gains, if any, through the Closing Date, and (iii) net tax-exempt interest income, if any, through the Closing Date. To the extent that such a distribution is not an exempt interest dividend (as defined in the Code), the distribution may be taxable to shareholders for U.S. federal income tax purposes.

The Acquiring Fund will succeed to capital loss carryforwards (and certain unrealized built-in losses, if any) of BLJ and BNJ, which are expected to be subject to tax loss limitation rules because BLJ and BNJ will undergo an ownership change for U.S. federal income tax purposes. Because BLJ and BNJ will undergo an ownership change, the Code will generally limit the amount of pre-ownership change losses of BLJ and BNJ that may be used to offset post-ownership change gains to a specific annual loss limitation amount (generally the product of (i) the fair market value of the stock of BLJ or BNJ, with certain adjustments, immediately prior to the Reorganizations and (ii) a rate established by the IRS). Subject to certain limitations, any unused portion of these losses may be available in subsequent years, subject to the remaining portion of any applicable capital loss carryforward limit, as measured from the date of recognition.

Although the capital loss carryforwards of the Combined Fund attributable to BLJ or BNJ may be subject to tax loss limitation rules to the extent outlined above, it is currently expected that such tax loss limitation rules should not have a material adverse effect on the Combined Fund's utilization of BLJ's or BNJ's capital loss carryforward as compared with what each Fund's utilization of its own capital loss carryforward would be without the Reorganizations. The ability of each Fund (and the Combined Fund) to utilize any capital loss carryforwards now or in the future depends on many variables and assumptions, including but not limited to, projected performance of a Fund, the unrealized gain/loss position of a Fund, the types of securities held by a Fund, the current and future market environment (including the level of interest rates), portfolio turnover and applicable law (including the requirement that capital loss carryforwards without expiration dates be utilized before capital loss carryforwards that have expiration dates), and is, therefore, highly uncertain. The Funds' capital loss carryforwards as of the Closing Date are estimated to be approximately as follows (subject to change based on actual operating results after the date hereof):

Capital Loss Amount

Expiration	BLJ	BNJ	Acquiring Fund (MYJ)
2018		\$ 842,367	
2019		27,464	
No expiration date	\$ 348,945	1,034,744	\$ 2,764,930

Table of Contents

Due to the operation of these tax loss limitation rules, it is possible that shareholders of BLJ or BNJ or the Acquiring Fund would receive taxable distributions of short-term and long-term capital gains earlier than they would have in the absence of the Reorganizations. Such taxable distributions will be treated either as ordinary income (and not as favorably taxed qualified dividend income) if such capital gains are short term or as favorably taxed capital gain dividends if such capital gains are long term. The actual financial effect of the loss limitation rules on a shareholder of BLJ or BNJ whose losses are subject to the loss limitation rules would depend on many variables, including BLJ's or BNJ's expected growth rate if the relevant Reorganization were not to occur (i.e., whether, in the absence of the Reorganizations, BLJ or BNJ would generate sufficient capital gains against which to utilize its capital loss carryforwards prior to their expiration (and certain realized built-in losses), in excess of what would have been the annual loss limitation amount had the relevant Reorganizations occurred), the timing and amount of future capital gains recognized by the Combined Fund if the Reorganizations were to occur, and the timing of a historic BLJ or BNJ shareholder's disposition of its Shares (the tax basis of which might, depending on the facts, reflect that shareholder's share of such Fund's capital losses). Shareholders of all of the Funds should consult their own tax advisors in this regard.

For five years beginning on the Closing Date of the Reorganizations, the Combined Fund will not be allowed to offset certain pre-Reorganization built-in gains attributable to a Fund that is a gain corporation with capital loss carryforwards (and certain built-in losses) attributable to another Fund.

Table of Contents**VOTING INFORMATION AND REQUIREMENTS****Record Date**

The Funds have fixed the close of business on January 29, 2018 as the record date (the Record Date) for the determination of shareholders entitled to notice of, and to vote at, the Special Meeting or any adjournment or postponement thereof. Shareholders on the Record Date will be entitled to one vote for each Share held, with no Shares having cumulative voting rights.

A list of each Fund's shareholders of record as of the Record Date will be available for inspection at the shareholder meeting. For each of BLJ and BNJ, a list of shareholders of record as of the Record Date will be available at the offices of such Funds, 100 Bellevue Parkway, Wilmington, DE 19809, for inspection by such Fund's shareholders during regular business hours beginning ten days prior to the date of the Special Meeting.

As of the Record Date, the Funds had the following number of Common Shares and preferred shares outstanding:

Title of Class	BLJ	BNJ	Acquiring Fund (MYJ)
Common Shares	[]	[]	[]
VRDP Shares	187		1,022
VMTP Shares		591	

Proxies

Shareholders may vote by appearing in person at the Special Meeting, by returning the enclosed proxy card or by casting their vote via telephone or the Internet using the instructions provided on the enclosed proxy card (described in greater detail below). Shareholders of each Fund have the opportunity to submit their voting instructions via the Internet or by touch-tone telephone voting. The giving of such a proxy will not affect your right to vote in person should you decide to attend the Special Meeting. To use the Internet, please access the Internet address found on your proxy card. To record your voting instructions by automated telephone, please call the toll-free number listed on your proxy card. The Internet and automated telephone voting instructions are designed to authenticate shareholder identities, to allow shareholders to give their voting instructions, and to confirm that shareholders' instructions have been recorded properly. Shareholders submitting their voting instructions via the Internet should understand that there may be costs associated with Internet access, such as usage charges from Internet access providers and telephone companies that must be borne by the shareholders. Any person giving a proxy may revoke it at any time prior to its exercise by giving written notice of the revocation to the Secretary of the Fund at 40 East 52nd Street, New York, New York 10022, by delivering a duly executed proxy bearing a later date, by recording later-dated voting instructions via the Internet or automated telephone or by attending the Special Meeting and voting in person. The giving of a proxy will not affect your right to vote in person if you attend the Special Meeting and wish to do so.

Votes cast by proxy or in person at the Special Meeting will be tabulated by the inspectors of election appointed for the Special Meeting. For BLJ and BNJ, the holders of a majority of the shares entitled to vote on any matter at the Special Meeting present in person or by proxy shall constitute a quorum at such Special Meeting of the shareholders for purposes of conducting business on such matter. For the Acquiring Fund, the presence in person or by proxy of the holders of shares entitled to cast one-third of the votes entitled to be cast shall constitute a quorum to conduct business at the Special Meeting, except with respect to any matter which requires approval by a separate vote of one or more classes or series of shares, in which case the presence in person or by proxy of the holders of shares entitled to cast one-third of the votes entitled to be cast by each class or series entitled to vote as a separate class or series shall constitute a quorum to conduct business at the Special Meeting. A quorum, once established, shall not be broken by the withdrawal of enough votes to leave less than a

Table of Contents

quorum. If, however, such quorum shall not be present or represented at any meeting of the shareholders, the chair of the Special Meeting shall have power to adjourn the meeting from time to time, in the manner provided in the Fund's bylaws, until a quorum shall be present or represented.

The inspectors of election, who may be employees of BlackRock, will determine whether or not a quorum is present at the Special Meeting. The inspectors of election will generally treat abstentions and broker non-votes (i.e., shares held by brokers or nominees, typically in street name, as to which proxies have been returned but (a) instructions have not been received from the beneficial owners or persons entitled to vote and (b) the broker or nominee does not have discretionary voting power or elects not to exercise discretion on a particular matter) as present for purposes of determining a quorum, subject to any applicable rules of the stock exchange on which a Fund's shares are listed.

If you hold your shares directly (not through a broker-dealer, bank or other financial institution) and if you return a properly executed proxy card that does not specify how you wish to vote on a proposal, your shares will be voted FOR each Proposal on which you are entitled to vote.

Broker-dealer firms holding shares of a Fund in street name for the benefit of their customers and clients will request the instructions of such customers and clients on how to vote their shares on Proposals 1-2 before the Special Meeting. Proposals 1-2 are not routine matters and shareholder instructions are required for broker-dealers to vote a beneficial owner's shares.

If you hold shares of a Fund through a bank or other financial institution or intermediary (called a service agent) that has entered into a service agreement with the Fund or a distributor of the Fund, the service agent may be the record holder of your shares. At the Special Meeting, a service agent will vote shares for which it receives instructions from its customers in accordance with those instructions. A properly executed proxy card or other authorization by a shareholder that does not specify how the shareholder's shares should be voted on a proposal may be deemed to authorize a service provider to vote such shares in favor of the proposal. Depending on its policies, applicable law or contractual or other restrictions, a service agent may be permitted to vote shares with respect to which it has not received specific voting instructions from its customers. In those cases, the service agent may, but may not be required to, vote such shares in the same proportion as those shares for which the service agent has received voting instructions. This practice is commonly referred to as echo voting.

All properly executed proxies received prior to the Special Meeting will be voted in accordance with the instructions marked thereon or otherwise as provided therein. Unless instructions to the contrary are marked, proxies will be voted FOR the approval of each proposal. Abstentions and broker non-votes are not treated as votes FOR a proposal.

Common shareholders of BLJ are being asked to consider Proposal 1(A) below. With respect to Proposal 1(A), abstentions and broker non-votes will be counted as shares present and will therefore have the same effect as votes AGAINST the proposal.

Common shareholders of BNJ are being asked to consider Proposal 1(C) below. With respect to Proposal 1(C), abstentions and broker non-votes will be counted as shares present and will therefore have the same effect as votes AGAINST the proposal.

Common shareholders of the Acquiring Fund are being asked to consider Proposals 2(A) and 2(B) below. With respect to Proposals 2(A) and 2(B), abstentions will be counted as votes cast and will therefore have the same effect as votes AGAINST the proposal and broker non-votes will not have any effect on the result of the vote.

Table of Contents

Voting Requirement for Proposal 1: The Reorganizations of the Funds

Proposals	Required Approval of Shareholders
<i>Proposal 1(A):</i> The common shareholders and VRDP Holders of BLJ are being asked to vote as a single class on a proposal to approve the BLJ Reorganization Agreement and the transactions contemplated therein, including the termination of BLJ's registration under the 1940 Act and BLJ's dissolution in accordance with its Agreement and Declaration of Trust and Delaware law.	1940 Act Majority
<i>Proposal 1(C):</i> The common shareholders and VMTP Holders of BNJ are being asked to vote as a single class on a proposal to approve the BNJ Reorganization Agreement and the transactions contemplated therein, including the termination of BNJ's registration under the 1940 Act and BNJ's dissolution in accordance with its Agreement and Declaration of Trust and Delaware law.	1940 Act Majority

Voting Requirement for Proposal 2: The Issuance of Acquiring Fund Common Shares

Proposals	Required Approval of Shareholders
<i>Proposal 2(A):</i> The common shareholders and VRDP Holders of the Acquiring Fund are being asked to vote as a single class on a proposal to approve the issuance of additional Acquiring Fund Common Shares in connection with the BLJ Reorganization.	Majority of the Votes Cast
<i>Proposal 2(B):</i> The common shareholders and VRDP Holders of the Acquiring Fund are being asked to vote as a single class on a proposal to approve the issuance of additional Acquiring Fund Common Shares in connection with the BNJ Reorganization.	Majority of the Votes Cast

Table of Contents**SHAREHOLDER INFORMATION**

Unless otherwise indicated, the information set forth below is as of November 30, 2017. To each Fund's knowledge, no person beneficially owned more than 5% of the Fund's respective outstanding Common Shares, except as set forth below.

Fund	Investor	Address	Common Shares Held	Common Shares % Held	Preferred Shares Held	Preferred Shares % Held
BLJ	Citibank, N.A. ⁽¹⁾	399 Park Avenue New York, New York 10022			187	100%
					VRDP Shares	
BLJ	First Trust Portfolios, L.P. ⁽²⁾	120 East Liberty Drive, Suite 400 Wheaton, Illinois 60187	157,866	6.78%		
BNJ	Wells Fargo & Company ⁽³⁾	420 Montgomery Street, San Francisco, CA 94163			591	100%
					VMTP Shares	
BNJ	First Trust Portfolios, L.P. ⁽²⁾	120 East Liberty Drive, Suite 400 Wheaton, Illinois 60187	512,864	6.69%		
Acquiring Fund (MYJ)	Citibank, N.A. ⁽¹⁾	399 Park Avenue New York, New York 10022			1,022	100%
					VRDP Shares	
Acquiring Fund (MYJ)	First Trust Portfolios, L.P. ⁽²⁾	120 East Liberty Drive, Suite 400 Wheaton, Illinois 60187	748,795	5.22%		

The information contained in this table is based on Schedule 13D/13G filings made on or before November 30, 2017.

(1) Citibank, N.A., Citicorp and Citigroup, Inc. filed their Schedule 13G jointly and did not differentiate holdings as to each entity.

Edgar Filing: BLACKROCK MUNIYIELD NEW JERSEY FUND, INC. - Form N-14 8C

- (2) First Trust Portfolios, L.P., First Trust Advisors L.P. and The Charger Corporation filed their Schedule 13G jointly and did not differentiate their holdings as to each entity.
- (3) Wells Fargo & Company filed a Schedule 13G on behalf of the following subsidiaries: Wells Fargo Bank, National Association. According to the Schedule 13G, aggregate beneficial ownership reported by Wells Fargo & Company is on a consolidated basis and includes any beneficial ownership separately reported on the Schedule 13G by a subsidiary.

As of November 30, 2017 the officers and Board Members of each Fund, as a group, beneficially owned less than 1% of the outstanding Common Shares of each such Fund and none of the outstanding VRDP Shares or VMTP Shares of each such Fund.

SHAREHOLDER PROPOSALS

To be considered for presentation at a shareholder's meeting, rules promulgated by the SEC generally require that, among other things, a shareholder's proposal must be received at the offices of the relevant Fund a reasonable time before solicitation is made. In addition, each Fund's bylaws provide for advance notice provisions, which require shareholders to give timely notice in proper written form to the Secretary of the Fund. Shareholders should review each Fund's bylaws for additional information regarding the Funds' advance notice

Table of Contents

provisions. The bylaws of BLJ and BNJ were filed with the SEC on October 29, 2010 on Form 8-K and the bylaws of the Acquiring Fund were filed with the SEC on September 10, 2010 on Form 8-K. Shareholders may obtain copies of such documents as described on pages v-vi of this Joint Proxy Statement/Prospectus.

The timely submission of a proposal does not necessarily mean that such proposal will be included. Any shareholder who wishes to submit a proposal for consideration at a meeting of such shareholder's Fund should send such proposal to the relevant Fund at 40 East 52nd Street, New York, New York 10022.

SOLICITATION OF PROXIES

Solicitation of proxies is being made primarily by the mailing of this Notice and Joint Proxy Statement/Prospectus with its enclosures on or about February 9, 2018. Shareholders of the Funds whose shares are held by nominees such as brokers can vote their proxies by contacting their respective nominee. In addition to the solicitation of proxies by mail, employees of the Investment Advisor and their affiliates as well as dealers or their representatives may solicit proxies in person or by mail, telephone, fax or the internet. The Funds and the Investment Advisor have retained Georgeson, LLC to assist with the distribution of proxy materials and the solicitation and tabulation of proxies. The cost of Georgeson LLC's services in connection with the proxy is anticipated to be approximately \$12,735, \$27,869 and \$31,862 for BLJ, BNJ and the Acquiring Fund, respectively.

LEGAL MATTERS

Certain legal matters concerning the U.S. federal income tax consequences of the Reorganizations will be passed upon by Skadden, Arps, Slate, Meagher & Flom LLP, which serves as special counsel to the Funds. Certain legal matters concerning the issuance of Acquiring Fund Shares will be passed upon by Miles & Stockbridge P.C., which serves as special Maryland counsel to the Acquiring Fund.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The independent registered public accounting firm for the Funds performs an annual audit of each Fund's financial statements. Each Fund's Board has appointed [] to be each Fund's independent registered public accounting firm. [] is located at [].

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires the Funds' Board Members, executive officers, persons who own more than ten percent of a registered class of a Fund's equity securities, the Investment Advisor and certain officers of the Investment Advisor (the "Section 16 insiders"), including in some cases former Section 16 insiders for a period of up to 6 months, to file reports on holdings of, and transactions in, Fund shares with the SEC and to furnish the Funds with copies of all such reports. Based solely on a review of copies of such reports furnished to the relevant Funds and representations from these reporting persons, each Fund believes that its Board Members, executive officers, ten percent holders, the Investment Advisor and certain officers of the Investment Advisor met all such applicable SEC filing requirements for the Funds most recently concluded fiscal year, except for any late filings disclosed in previous proxy statements.

Table of Contents

OTHER MATTERS WITH RESPECT TO THE MEETING

Shareholders who want to communicate with the Board or any individual Board Member should write to the attention of the Secretary of their Fund, 40 East 52nd Street, New York, NY 10022. Shareholders may communicate with the Boards electronically by sending an e-mail to *closedendfundsbod@blackrock.com*. The communication should indicate that you are a Fund shareholder. If the communication is intended for a specific Board Member and so indicates, it will be sent only to that Board Member. If a communication does not indicate a specific Board Member, it will be sent to the Chair of the Governance Committee and the outside counsel to the Independent Board Members for further distribution as deemed appropriate by such persons.

Additionally, shareholders with complaints or concerns regarding accounting matters may address letters to the CCO of their respective Fund 40 East 52nd Street, New York, NY 10022. Shareholders who are uncomfortable submitting complaints to the CCO may address letters directly to the Chair of the Audit Committee of the Board that oversees the Fund. Such letters may be submitted on an anonymous basis.

ADJOURNMENTS AND POSTPONEMENTS

Failure of a quorum to be present at the Special Meeting may necessitate adjournment. The Board of each Fund, prior to the Special Meeting being convened, may postpone such meeting from time to time to a date not more than 120 days after the original record date. The chair of the Special Meeting may also adjourn the Special Meeting from time to time to reconvene at the same or some other place, and notice need not be given of any such adjourned meeting if the time and place by which shareholders may be deemed to be present in person and vote at such adjourned meeting are announced at the meeting at which the adjournment is taken. The chair of the Special Meeting may adjourn the Special Meeting to permit further solicitation of proxies with respect to a proposal if they determine that adjournment and further solicitation is reasonable and in the best interests of shareholders. At the adjourned meeting, the Fund may transact any business which might have been transacted at the original meeting. Any adjourned meeting may be held as adjourned one or more times without further notice not later than 120 days after the record date.

Table of Contents

PRIVACY PRINCIPLES OF THE FUNDS

The Funds are committed to maintaining the privacy of their current and former shareholders and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information the Funds collect, how the Funds protect that information and why, in certain cases, the Funds may share such information with select parties.

The Funds obtain or verify personal non-public information from and about you from different sources, including the following: (i) information the Funds receive from you or, if applicable, your financial intermediary, on applications, forms or other documents; (ii) information about your transactions with the Funds, their affiliates or others; (iii) information the Funds receive from a consumer reporting agency; and (iv) information the Funds receive from visits to the Funds or their affiliates websites.

The Funds do not sell or disclose to non-affiliated third parties any non-public personal information about their current and former shareholders, except as permitted by law or as is necessary to respond to regulatory requests or to service shareholder accounts. These non-affiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

The Funds may share information with their affiliates to service your account or to provide you with information about other BlackRock products or services that may be of interest to you. In addition, the Funds restrict access to non-public personal information about their current and former shareholders to those BlackRock employees with a legitimate business need for the information. The Funds maintain physical, electronic and procedural safeguards that are designed to protect the non-public personal information of their current and former shareholders, including procedures relating to the proper storage and disposal of such information.

If you are located in a jurisdiction where specific laws, rules or regulations require a Fund to provide you with additional or different privacy-related rights beyond what is set forth above, then the Fund will comply with those specific laws, rules or regulations.

OTHER INFORMATION

BlackRock is independent in ownership and governance, with no single majority stockholder and a majority of independent directors. The PNC Financial Services Group, Inc. (PNC) is BlackRock s largest stockholder and is an affiliate of BlackRock for 1940 Act purposes.

If you cannot be present in person at the Special Meeting, please fill in, sign and return the enclosed proxy card or please record your voting instructions by telephone or via the Internet promptly. No postage is necessary if the enclosed proxy card is mailed in the United States.

STATEMENT OF ADDITIONAL INFORMATION

BLACKROCK MUNIYIELD NEW JERSEY FUND, INC.

BLACKROCK NEW JERSEY MUNICIPAL BOND TRUST

BLACKROCK NEW JERSEY MUNICIPAL INCOME TRUST

Dated []

This Statement of Additional Information is available to the common shareholders of BlackRock New Jersey Municipal Bond Trust (NYSE American: BLJ) (BLJ) and BlackRock New Jersey Municipal Income Trust (NYSE: BNJ) (BNJ) in connection with the Reorganization (each, a Reorganization and collectively, the Reorganizations) of each of BLJ and BNJ into BlackRock MuniYield New Jersey Fund, Inc. (NYSE: MYJ) (MYJ or the Acquiring Fund, and together with BLJ and BNJ, the Funds, and each, a Fund), whereby the Acquiring Fund will acquire substantially all of the assets and assume substantially all of the liabilities of BLJ and BNJ in exchange solely for newly issued shares of the Acquiring Fund's common shares of beneficial interest or shares of common stock, par value \$0.10 per share (Common Shares) and Variable Rate Demand Preferred Shares, par value \$0.10 per share and with a liquidation preference of \$100,000 per share (VRDP Shares and together with the Common Shares, the Shares) (plus any accumulated and unpaid dividends that have accrued on the BLJ and BNJ VRDP Shares up to and including the day immediately preceding the Closing Date of the Reorganizations if such dividends have not been paid prior to such Closing Date), in the form of book entry interests. The Acquiring Fund will list the newly issued Common Shares on the New York Stock Exchange (NYSE). BLJ and BNJ will then distribute the newly issued Acquiring Fund Common Shares and Acquiring Fund VRDP Shares to BLJ and BNJ common shareholders (although cash may be distributed in lieu of fractional Common Shares) and holders of VRDP Shares (VRDP Holders) of BLJ and BNJ, respectively, and then terminate their registration under the Investment Company Act of 1940, as amended (the 1940 Act), and liquidate, dissolve and terminate in accordance with their respective Agreement and Declaration of Trust and Delaware law. The Acquiring Fund will continue to operate after the Reorganizations as a registered, non-diversified, closed-end management investment company with the investment objective, investment policies and investment restrictions described in the Joint Proxy Statement/Prospectus.

The aggregate net asset value (NAV) (not the market value) of the Acquiring Fund Common Shares received by the common shareholders of BLJ and BNJ in the Reorganizations will equal the aggregate NAV (not the market value) of the BLJ or BNJ Common Shares held by such common shareholders immediately prior to the Closing Date, less the costs of the Reorganizations (although BLJ and BNJ common shareholders may receive cash for their fractional Common Shares). The value of each Fund's net assets will be calculated net of the liquidation preference (including accumulated and unpaid dividends) of all outstanding VRDP Shares of such Fund. If the BNJ Reorganization Agreement is approved, prior to the Closing Date, it is expected that BNJ will issue VRDP Shares with terms substantially identical to the terms of the outstanding Acquiring Fund's VRDP Shares and use the proceeds from such issuance to redeem all of BNJ's outstanding VMTP Shares (the VMTP Refinancing). Following the completion of the VMTP Refinancing, in connection with the Reorganizations, each outstanding VRDP Share of BLJ and BNJ will, without any action on the part of the holder thereof, be exchanged for one newly issued VRDP Share of the Acquiring Fund. The newly issued Acquiring Fund VRDP

Table of Contents

Shares will have terms that are substantially identical to the terms of the BNJ VRDP Shares to be issued in connection with the VMTP Refinancing and the outstanding BLJ VRDP Shares, except that the BLJ VRDP Shares have a mandatory redemption date of July 1, 2042, while the newly issued Acquiring Fund VRDP Shares are expected to have a mandatory redemption date of May 1, 2041. The terms of the Acquiring Fund VRDP Shares to be issued in connection with the Reorganizations will be substantially identical to the terms of the outstanding Acquiring Fund VRDP Shares and will rank on a parity with the Acquiring Fund's outstanding VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The newly issued Acquiring Fund VRDP Shares will be subject to the same special rate period (including the terms thereof) applicable to the outstanding Acquiring Fund VRDP Shares as of the Closing Date of the Reorganization. Such special rate period will terminate on June 20, 2018, unless extended. The Reorganizations will not result in any changes to the terms of the Acquiring Fund's VRDP Shares currently outstanding. A copy of a form of the Agreement and Plan of Reorganization that will be entered into between each of BLJ and BNJ with the Acquiring Fund is attached hereto as Appendix A. Unless otherwise defined herein, capitalized terms have the meanings given to them in the Joint Proxy Statement/Prospectus.

This Statement of Additional Information is not a prospectus and should be read in conjunction with the Joint Proxy Statement/Prospectus dated [] relating to the Reorganizations. A copy of the Joint Proxy Statement/Prospectus may be obtained, without charge, by writing to the Funds at 1 University Square Drive, Princeton, New Jersey 08540-6455, or by calling (800) 882-0052.

The Acquiring Fund will provide, without charge, upon the written or oral request of any person to whom this Statement of Additional Information is delivered, a copy of any and all documents that have been incorporated by reference in the registration statement of which this Statement of Additional Information is a part.

ADDITIONAL RISK FACTORS AND SPECIAL CONSIDERATIONS

The following information supplements the discussion of the Acquiring Fund's risk factors that are described in the Joint Proxy Statement/Prospectus.

Risk Factors in Strategic Transactions and Derivatives. The Acquiring Fund's use of derivative instruments involves risks different from, and possibly greater than, the risks associated with investing directly in securities and other traditional investments. Derivatives are subject to a number of risks such as credit risk, leverage risk, liquidity risk, correlation risk and index risk as described below:

Credit Risk the risk that the counterparty in a derivative transaction will be unable to honor its financial obligation to the Acquiring Fund, or the risk that the reference entity in a derivative will not be able to honor its financial obligations. In particular, derivatives traded in over-the-counter (OTC) markets often are not guaranteed by an Exchange (as defined herein) or clearing corporation and often do not require payment of margin, and to the extent that the Acquiring Fund has unrealized gains in such instruments or has deposited collateral with its counterparties the Acquiring Fund is at risk that its counterparties will become bankrupt or otherwise fail to honor its obligations.

Currency Risk the risk that changes in the exchange rate between two currencies will adversely affect the value (in U.S. dollar terms) of an investment.

Leverage Risk the risk associated with certain types of investments or trading strategies (such as, for example, borrowing money to increase the amount of investments) that relatively small market movements may result in large changes in the value of an investment. Certain transactions in derivatives (such as futures transactions or sales of put options) involve substantial leverage risk and may expose the Acquiring Fund to potential losses that exceed the amount originally invested by the Acquiring Fund. When the Acquiring Fund engages in such a transaction, the Acquiring Fund will deposit in a segregated account, or earmark on its books and records, liquid assets with a value at least equal to the Acquiring Fund's exposure, on a mark-to-market basis, to the transaction (as calculated pursuant to requirements of the SEC). Such segregation will ensure that the Acquiring Fund has assets available to satisfy its obligations with respect to the transaction, but will not limit the Acquiring Fund's exposure to loss.

Liquidity Risk the risk that certain securities may be difficult or impossible to sell at the time that the Acquiring Fund would like or at the price that the Acquiring Fund as seller believes the security is currently worth. There can be no assurances that, at any specific time, either a liquid secondary market will exist for a derivative or the Acquiring Fund will otherwise be able to sell such instrument at an acceptable price. It may, therefore, not be possible to close a position in a derivative without incurring substantial losses, if at all. The absence of liquidity may also make it more difficult for the Acquiring Fund to ascertain a market value for such instruments. Although both OTC and exchange-traded derivatives markets may experience a lack of liquidity, certain derivatives traded in OTC markets, including indexed securities, swaps and OTC options, involve substantial liquidity risk. The illiquidity of the derivatives markets may be due to various factors, including congestion, disorderly markets, limitations on deliverable supplies, the participation of speculators, government regulation and intervention, and technical and operational or system failures. In addition, the liquidity of a secondary market in an exchange-traded derivative contract may be adversely affected by daily price fluctuation limits established by the exchanges which limit the amount of fluctuation in an exchange-traded contract price during a single trading day. Once the daily limit has been reached in the contract, no trades may be entered into at a price beyond the limit, thus preventing the liquidation of open positions. Prices have in the past moved beyond the daily limit on a number of consecutive trading days. If it is not possible to close an open derivative position entered into by the Acquiring Fund, the Acquiring Fund would continue to be required to make daily cash payments of variation margin in the event of

Table of Contents

adverse price movements. In such a situation, if the Acquiring Fund has insufficient cash, it may have to sell portfolio securities to meet daily variation margin requirements at a time when it may be disadvantageous to do so.

Correlation Risk the risk that changes in the value of a derivative will not match the changes in the value of the portfolio holdings that are being hedged or of the particular market or security to which the Acquiring Fund seeks exposure through the use of the derivative. There are a number of factors which may prevent a derivative instrument from achieving the desired correlation (or inverse correlation) with an underlying asset, rate or index, such as the impact of fees, expenses and transaction costs, the timing of pricing, and disruptions or illiquidity in the markets for such derivative instrument.

Index Risk If the derivative is linked to the performance of an index, it will be subject to the risks associated with changes in that index. If the index changes, the Acquiring Fund could receive lower interest payments or experience a reduction in the value of the derivative to below the price that the Acquiring Fund paid for such derivative. Certain indexed securities, including inverse securities (which move in an opposite direction to the index), may create leverage, to the extent that they increase or decrease in value at a rate that is a multiple of the changes in the applicable index.

Volatility Risk the risk that the Acquiring Fund's use of derivatives may reduce income or gain and/or increase volatility. Volatility is defined as the characteristic of a security, an index or a market to fluctuate significantly in price over a defined time period. The Acquiring Fund could suffer losses related to its derivative positions as a result of unanticipated market movements, which losses are potentially unlimited.

When a derivative is used as a hedge against a position that the Acquiring Fund holds, any loss generated by the derivative generally should be substantially offset by gains on the hedged investment, and vice versa. While hedging can reduce or eliminate losses, it can also reduce or eliminate gains. Hedges are sometimes subject to imperfect matching between the derivative and the underlying security, and there can be no assurances that the Acquiring Fund's hedging transactions will be effective. The Acquiring Fund could also suffer losses related to its derivative positions as a result of unanticipated market movements, which losses are potentially unlimited. BlackRock Advisors, LLC (the Investment Advisor) may not be able to predict correctly the direction of securities prices, interest rates and other economic factors, which could cause the Acquiring Fund's derivatives positions to lose value. In addition, some derivatives are more sensitive to interest rate changes and market price fluctuations than other securities. The possible lack of a liquid secondary market for derivatives and the resulting inability of the Acquiring Fund to sell or otherwise close a derivatives position could expose the Acquiring Fund to losses and could make derivatives more difficult for the Acquiring Fund to value accurately.

When engaging in a hedging transaction, the Acquiring Fund may determine not to seek to establish a perfect correlation between the hedging instruments utilized and the portfolio holdings being hedged. Such an imperfect correlation may prevent the Acquiring Fund from achieving the intended hedge or expose the Acquiring Fund to a risk of loss. The Acquiring Fund may also determine not to hedge against a particular risk because they do not regard the probability of the risk occurring to be sufficiently high as to justify the cost of the hedge or because they do not foresee the occurrence of the risk. It may not be possible for the Acquiring Fund to hedge against a change or event at attractive prices or at a price sufficient to protect the assets of the Acquiring Fund from the decline in value of the portfolio positions anticipated as a result of such change. The Acquiring Fund may also be restricted in its ability to effectively manage the portion of their assets that are segregated to cover their obligations. In addition, it may not be possible to hedge at all against certain risks.

If the Acquiring Fund invests in a derivative instrument it could lose more than the principal amount invested. Moreover, derivatives raise certain tax, legal, regulatory and accounting issues that may not be presented by investments in securities, and there is some risk that certain issues could be resolved in a manner that could adversely impact the performance of the Acquiring Fund.

Table of Contents

The Acquiring Fund is not required to use derivatives or other portfolio strategies to seek to increase return or to seek to hedge its portfolio and may choose not to do so. Also, suitable derivative transactions may not be available in all circumstances and there can be no assurances that the Acquiring Fund will engage in these transactions to reduce exposure to other risks when that would be beneficial. Although the Investment Advisor seeks to use derivatives to further the Acquiring Fund's investment objective, there is no assurance that the use of derivatives will achieve this result.

Options Risk. There are several risks associated with transactions in options on securities and indexes. For example, there are significant differences between the securities and options markets that could result in an imperfect correlation between these markets, causing a given transaction not to achieve its objectives. In addition, a liquid secondary market for particular options, whether traded OTC or on a recognized securities exchange (e.g., NYSE), separate trading boards of a securities exchange or through a market system that provides contemporaneous transaction pricing information (an exchange) may be absent for reasons which include the following: there may be insufficient trading interest in certain options; restrictions may be imposed by an exchange on opening transactions or closing transactions or both; trading halts, suspensions or other restrictions may be imposed with respect to particular classes or series of options or underlying securities; unusual or unforeseen circumstances may interrupt normal operations on an exchange; the facilities of an exchange or the Office of the Comptroller of the Currency (OCC) may not at all times be adequate to handle current trading volume; or one or more exchanges could, for economic or other reasons, decide or be compelled at some future date to discontinue the trading of options (or a particular class or series of options), in which event the secondary market on that exchange (or in that class or series of options) would cease to exist, although outstanding options that had been issued by the OCC, as a result of trades on that exchange would continue to be exercisable in accordance with their terms.

Futures Transactions and Options Risk. The primary risks associated with the use of futures contracts and options are (a) the imperfect correlation between the change in market value of the instruments held by the Acquiring Fund and the price of the futures contract or option; (b) possible lack of a liquid secondary market for a futures contract and the resulting inability to close a futures contract when desired; (c) losses caused by unanticipated market movements, which are potentially unlimited; (d) the Investment Advisor's inability to predict correctly the direction of securities prices, interest rates, currency exchange rates and other economic factors; and (e) the possibility that the counterparty will default in the performance of its obligations.

Investment in futures contracts involves the risk of imperfect correlation between movements in the price of the futures contract and the price of the security being hedged. The hedge will not be fully effective when there is imperfect correlation between the movements in the prices of two financial instruments. For example, if the price of the futures contract moves more or less than the price of the hedged security, the Acquiring Fund will experience either a loss or gain on the futures contract which is not completely offset by movements in the price of the hedged securities. To compensate for imperfect correlations, the Acquiring Fund may purchase or sell futures contracts in a greater dollar amount than the hedged securities if the volatility of the hedged securities is historically greater than the volatility of the futures contracts. Conversely, the Acquiring Fund may purchase or sell fewer futures contracts if the volatility of the price of the hedged securities is historically lower than that of the futures contracts.

The particular securities comprising the index underlying a securities index financial futures contract may vary from the securities held by the Acquiring Fund. As a result, the Acquiring Fund's ability to hedge effectively all or a portion of the value of its securities through the use of such financial futures contracts will depend in part on the degree to which price movements in the index underlying the financial futures contract correlate with the price movements of the securities held by the Acquiring Fund. The correlation may be affected by disparities in the average maturity, ratings, geographical mix or structure of the Acquiring Fund's investments as compared to those comprising the securities index and general economic or political factors. In addition, the correlation between movements in the value of the securities index may be subject to change over time as additions to and deletions from the securities index alter its structure. The correlation between futures contracts

Table of Contents

on U.S. Government securities and the securities held by the Acquiring Fund may be adversely affected by similar factors and the risk of imperfect correlation between movements in the prices of such futures contracts and the prices of securities held by the Acquiring Fund may be greater. The trading of futures contracts also is subject to certain market risks, such as inadequate trading activity, which could at times make it difficult or impossible to liquidate existing positions.

The Acquiring Fund may liquidate futures contracts it enters into through offsetting transactions on the applicable contract market. There can be no assurances, however, that a liquid secondary market will exist for any particular futures contract at any specific time. Thus, it may not be possible to close out a futures position. In the event of adverse price movements, the Acquiring Fund would continue to be required to make daily cash payments of variation margin. In such situations, if the Acquiring Fund has insufficient cash, it may be required to sell portfolio securities to meet daily variation margin requirements at a time when it may be disadvantageous to do so. The inability to close out futures positions also could have an adverse impact on the Acquiring Fund's ability to hedge effectively its investments in securities. The liquidity of a secondary market in a futures contract may be adversely affected by daily price fluctuation limits established by commodity exchanges which limit the amount of fluctuation in a futures contract price during a single trading day. Once the daily limit has been reached in the contract, no trades may be entered into at a price beyond the limit, thus preventing the liquidation of open futures positions. Prices have in the past moved beyond the daily limit on a number of consecutive trading days.

The successful use of transactions in futures and related options also depends on the ability of the Investment Advisor to forecast correctly the direction and extent of interest rate movements within a given time frame. To the extent interest rates remain stable during the period in which a futures contract or option is held by the Acquiring Fund or such rates move in a direction opposite to that anticipated, the Acquiring Fund may realize a loss on the Strategic Transaction which is not fully or partially offset by an increase in the value of portfolio securities. As a result, the Acquiring Fund's total return for such period may be less than if it had not engaged in the Strategic Transaction.

Because of low initial margin deposits made upon the opening of a futures position, futures transactions involve substantial leverage. As a result, relatively small movements in the price of the futures contracts can result in substantial unrealized gains or losses. There is also the risk of loss by the Acquiring Fund of margin deposits in the event of bankruptcy of a broker with which the Acquiring Fund has an open position in a financial futures contract. Because the Acquiring Fund will engage in the purchase and sale of futures contracts for hedging purposes or to seek to enhance the Acquiring Fund's return, any losses incurred in connection therewith may, if the strategy is successful, be offset in whole or in part by increases in the value of securities held by the Acquiring Fund or decreases in the price of securities the Acquiring Fund intends to acquire.

The amount of risk the Acquiring Fund assumes when it purchases an option on a futures contract is the premium paid for the option plus related transaction costs. In addition to the correlation risks discussed above, the purchase of an option on a futures contract also entails the risk that changes in the value of the underlying futures contract will not be fully reflected in the value of the option purchased.

Over-the-Counter Trading Risk. The derivative instruments that may be purchased or sold by the Acquiring Fund may include instruments not traded on an exchange. The risk of nonperformance by the counterparty to an instrument may be greater than, and the ease with which the Acquiring Fund can dispose of or enter into closing transactions with respect to an instrument may be less than, the risk associated with an exchange traded instrument. In addition, significant disparities may exist between bid and asked prices for derivative instruments that are not traded on an exchange. The absence of liquidity may make it difficult or impossible for the Acquiring Fund to sell such instruments promptly at an acceptable price. Derivative instruments not traded on exchanges also are not subject to the same type of government regulation as exchange traded instruments, and many of the protections afforded to participants in a regulated environment may not be available in connection with the transactions. Because derivatives traded in OTC markets generally are not guaranteed by an exchange or

Table of Contents

clearing corporation and generally do not require payment of margin, to the extent that the Acquiring Fund has unrealized gains in such instruments or has deposited collateral with its counterparties the Acquiring Fund is at risk that its counterparties will become bankrupt or otherwise fail to honor its obligations.

Dodd-Frank Act Risk. Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the *Dodd-Frank Act* and Title VII thereof, the *Derivatives Title*) imposes a new regulatory structure on derivatives markets, with particular emphasis on swaps and security-based swaps (collectively *swaps*). This new regulatory framework covers a broad range of swap market participants, including banks, non-banks, credit unions, insurance companies, broker-dealers and investment advisers. The SEC, other U.S. regulators, and to a lesser extent the Commodity Futures Trading Commission (the *Regulators*) still are in the process of adopting regulations to implement the *Derivatives Title*, though certain aspects of the new regulatory structure are substantially complete. Until the *Regulators* complete their rulemaking efforts, the full extent to which the *Derivatives Title* and the rules adopted thereunder will impact the Acquiring Fund is unclear. It is possible that the continued development of this new regulatory structure for swaps may jeopardize certain trades and/or trading strategies that may be employed by the Investment Advisor, or at least make them more costly.

Recently, new regulations have required the mandatory central clearing and mandatory exchange trading of particular types of interest rate swaps and index credit default swaps (together, *Covered Swaps*). Together, these new regulatory requirements change the Acquiring Fund's trading of *Covered Swaps*. With respect to mandatory central clearing, the Acquiring Fund is now required to clear its *Covered Swaps* through a clearing broker, which requires, among other things, posting initial margin and variation margin to the Acquiring Fund's clearing broker in order to enter into and maintain positions in *Covered Swaps*. With respect to mandatory exchange trading, the Investment Advisor may be required to become a participant of a new type of execution platform called a swap execution facility (*SEF*) or may be required to access the *SEF* through an intermediary (such as an executing broker) in order to be able to trade *Covered Swaps* for the Acquiring Fund. In either scenario, the Investment Advisor and/or the Acquiring Fund may incur additional legal and compliance costs and transaction fees. Just as with the other regulatory changes imposed as a result of the implementation of the *Derivatives Title*, the increased costs and fees associated with trading *Covered Swaps* may jeopardize certain trades and/or trading strategies that may be employed by the Investment Advisor, or at least make them more costly.

Additionally, the *Regulators* (except for the SEC) have recently finalized regulations that would require swap dealers to collect from, and post to, the Acquiring Fund variation margin (and initial margin, if the Acquiring Fund exceeds a specified exposure threshold) for uncleared derivatives transactions. United States federal banking regulators have also finalized regulations that would impose upon swap dealers new capital requirements. The Commodity Futures Trading Commission and SEC have each proposed, but not yet adopted, capital requirements for swap dealers, and the SEC is still in the process of finalizing its proposed uncleared margin rules. As uncleared margin and capital requirements have been and continue to be finalized and implemented, such requirements may make certain types of trades and/or trading strategies more costly or impermissible.

There may be market dislocations due to uncertainty during the implementation period of any new regulation and the Investment Advisor cannot know how the derivatives market will adjust to new regulations. Until the *Regulators* complete the rulemaking process for the *Derivatives Title*, it is unknown the extent to which such risks may materialize.

Legal and Regulatory Risk. At any time after the date hereof, legislation or additional regulations may be enacted that could negatively affect the assets of the Acquiring Fund. Changing approaches to regulation may have a negative impact on the securities in which the Acquiring Fund invests. Legislation or regulation may also change the way in which the Acquiring Fund itself is regulated. There can be no assurances that future legislation, regulation or deregulation will not have a material adverse effect on the Acquiring Fund or will not impair the ability of the Acquiring Fund to achieve its investment objective. In addition, as new rules and

Table of Contents

regulations resulting from the passage of the Dodd-Frank Act are implemented and new international capital and liquidity requirements are introduced under the Basel III Accords, the market may not react the way the Investment Advisor expects. Whether the Acquiring Fund achieves its investment objective may depend on, among other things, whether the Investment Advisor correctly forecasts market reactions to this and other legislation. In the event the Investment Advisor incorrectly forecasts market reaction, the Acquiring Fund may not achieve its investment objective.

Regulation as a Commodity Pool. The Commodity Futures Trading Commission (CFTC) subjects advisers to registered investment companies to regulation by the CFTC if a fund that is advised by the investment adviser either (i) invests, directly or indirectly, more than a prescribed level of its liquidation value in CFTC-regulated futures, options and swaps (CFTC Derivatives), or (ii) markets itself as providing investment exposure to such instruments. To the extent the Acquiring Fund uses CFTC Derivatives, it intends to do so below such prescribed levels and will not market itself as a commodity pool or a vehicle for trading such instruments. Accordingly, the Investment Advisor has claimed an exclusion from the definition of the term commodity pool operator under the Commodity Exchange Act (CEA) pursuant to Rule 4.5 under the CEA. The Investment Advisor is not, therefore, subject to registration or regulation as a commodity pool operator under the CEA in respect of the Acquiring Fund.

Failure of Futures Commission Merchants and Clearing Organizations. The Acquiring Fund may deposit funds required to margin open positions in the derivative instruments subject to the CEA with a clearing broker registered as a futures commission merchant (FCM). The CEA requires an FCM to segregate all funds received from customers with respect to any orders for the purchase or sale of U.S. domestic futures contracts and cleared swaps from the FCM's proprietary assets. Similarly, the CEA requires each FCM to hold in a separate secure account all funds received from customers with respect to any orders for the purchase or sale of foreign futures contracts and segregate any such funds from the funds received with respect to domestic futures contracts. However, all funds and other property received by a clearing broker from its customers are held by the clearing broker on a commingled basis in an omnibus account and may be invested by the clearing broker in certain instruments permitted under the applicable regulation. There is a risk that assets deposited by the Acquiring Fund with any swaps or futures clearing broker as margin for futures contracts may, in certain circumstances, be used to satisfy losses of other clients of the Acquiring Fund's clearing broker. In addition, the assets of the Acquiring Fund may not be fully protected in the event of the clearing broker's bankruptcy, as the Acquiring Fund would be limited to recovering only a *pro rata* share of all available funds segregated on behalf of the clearing broker's combined domestic customer accounts.

Similarly, the CEA requires a clearing organization approved by the CFTC as a derivatives clearing organization to segregate all funds and other property received from a clearing member's clients in connection with domestic futures, swaps and options contracts from any funds held at the clearing organization to support the clearing member's proprietary trading. Nevertheless, with respect to futures and options contracts, a clearing organization may use assets of a non-defaulting customer held in an omnibus account at the clearing organization to satisfy payment obligations of a defaulting customer of the clearing member to the clearing organization. As a result, in the event of a default or the clearing broker's other clients or the clearing broker's failure to extend own funds in connection with any such default, the Acquiring Fund would not be able to recover the full amount of assets deposited by the clearing broker on its behalf with the clearing organization.

MANAGEMENT OF THE FUNDS**The Board of Trustees or Board of Directors and Officers**

The Board of Trustees or Board of Directors, as applicable (the Board), of each Fund currently consists of eleven individuals (each, a Board Member), nine of whom are not interested persons of each Fund as defined in the 1940 Act (the Independent Board Members). The registered investment companies advised by the

Table of Contents

Investment Advisor or its affiliates (the BlackRock-Advised Funds) are organized into one complex of closed-end funds (the Closed-End Complex), two complexes of open-end funds (the Equity-Liquidity Complex and the Equity-Bond Complex) and one complex of exchange-traded funds (each such complex a BlackRock Fund Complex). Each Fund is included in the Closed-End Complex. The Board Members also oversee as Board members the operations of the other closed-end registered investment companies included in the Closed-End Complex.

Certain biographical and other information relating to the Board Members and officers of each Fund is set forth below, including their year of birth, their principal occupation for at least the last five years, the length of time served, the total number of investment companies overseen in the BlackRock Fund Complexes and any public directorships or trusteeships.

Please refer to the below table which identifies the Board Members and sets forth certain biographical information about the Board Members for each Fund.

Name, Address⁽¹⁾ and Year of Birth	Position(s) Held with Funds	Length of Time Served⁽³⁾	Principal Occupation(s) During Past Five Years	Number of BlackRock- Advised Registered Investment Companies (RICs) Consisting of Investment Portfolios (Portfolios) Overseen⁽⁴⁾	Other Public Company or Investment Company Directorships Held During Past Five Years⁽⁵⁾
Independent Board Members⁽²⁾ Richard E. Cavanagh 1946	Chair of the Board and Board Member	Since 2007	Director, The Guardian Life Insurance Company of America since 1998; Board Chair, Volunteers of America (a not-for-profit organization) since 2015 (board member since 2009); Director, Arch Chemical (chemical and allied products) from 1999 to 2011; Trustee, Educational Testing Service from 1997 to 2009 and Chairman thereof from 2005 to 2009; Senior Advisor, The Fremont Group since 2008 and Director thereof since 1996; Faculty Member/Adjunct Lecturer, Harvard University since 2007; President and Chief Executive Officer, The Conference Board, Inc. (global business research organization) from 1995 to 2007.	74 RICs consisting of 74 Portfolios	None

(1) The address of each Board Member is c/o BlackRock, Inc., 55 East 52nd Street, New York, NY 10055.

(2) Each Independent Board Member will serve until his or her successor is elected and qualifies, or until his or her earlier death, resignation, retirement or removal, or until December 31 of the year in which he or she turns 75. The maximum age limitation may be waived as to any Board Member by action of a majority of the Board Members upon a finding of good cause therefor. Mr. Harris has informed the Board that he intends to retire from the Board of each Fund on or about December 31, 2017.

(3) Date shown is the earliest date a person has served for the Funds covered by this Joint Proxy Statement/Prospectus. Following the combination of Merrill Lynch Investment Managers, L.P. (MLIM) and BlackRock, Inc. (BlackRock) in September 2006, the various

Table of Contents

legacy MLIM and legacy BlackRock fund boards were realigned and consolidated into three new fund boards in 2007. As a result, although the chart shows certain Independent Board Members as joining the Board in 2007, each Board Member first became a member of the boards of other legacy MLIM or legacy BlackRock funds as follows: Richard E. Cavanagh, 1994; Frank J. Fabozzi, 1988; Jerrold B. Harris, 1999; R. Glenn Hubbard, 2004; W. Carl Kester, 1995; and Karen P. Robards, 1998.

- (4) For purposes of this chart, RICs refers to investment companies registered under the 1940 Act and Portfolios refers to the investment programs of the BlackRock-Advised Funds. The Closed-End Complex is comprised of 74 RICs. Ms. Novick and Mr. Perlowski are also board members of certain complexes of BlackRock registered open-end funds. Ms. Novick is also a board member of the BlackRock Equity-Liquidity Complex and Mr. Perlowski is also a board member of the BlackRock Equity-Bond Complex and the BlackRock Equity-Liquidity Complex.

- (5) Directorships disclosed under this column do not include directorships disclosed under the column Principal Occupation(s) During Past Five Years.

- (6) Ms. Novick and Mr. Perlowski are both interested persons, as defined in the 1940 Act, of the Funds based on their positions with BlackRock and its affiliates. Ms. Novick and Mr. Perlowski are also board members of certain complexes of BlackRock registered open-end funds. Ms. Novick is also a board member of the BlackRock Equity-Liquidity Complex and Mr. Perlowski is also a board member of the BlackRock Equity-Bond Complex and the BlackRock Equity-Liquidity Complex. Interested Board Members serve until their resignation, removal or death, or until December 31 of the year in which they turn 72. The maximum age limitation may be waived as to any Board Member by action of a majority of the Board Members upon a finding of good cause therefor.

Experience, Qualifications and Skills of the Board Members

The Independent Board Members have adopted a statement of policy that describes the experiences, qualifications, skills and attributes that are necessary and desirable for potential Independent Board Member candidates (the Statement of Policy). The Boards believe that each Independent Board Member satisfied, at the time he or she was initially elected or appointed a Board Member, and continues to satisfy, the standards contemplated by the Statement of Policy as well as the standards set forth in each Fund s By-laws. Furthermore, in determining that a particular Board Member was and continues to be qualified to serve as a Board Member, the Boards have considered a variety of criteria, none of which, in isolation, was controlling. The Boards believe that, collectively, the Board Members have balanced and diverse experiences, skills, attributes and qualifications, which allow the Boards to operate effectively in governing the Funds and protecting the interests of shareholders. Among the attributes common to all Board Members is their ability to review critically, evaluate, question and discuss information provided to them, to interact effectively with the Funds Investment Advisor, other service providers, counsel and independent auditors, and to exercise effective business judgment in the performance of their duties as Board Members. Each Board Member s ability to perform his or her duties effectively is evidenced by his or her educational background or professional training; business, consulting, public service or academic positions; experience from service as a board member of the Funds or the other funds in the BlackRock Fund Complexes (and any predecessor funds), other investment funds, public companies, or not-for-profit entities or other organizations; ongoing commitment and participation in Board and committee meetings, as well as their leadership of standing and other committees throughout the years; or other relevant life experiences.

The table below discusses some of the experiences, qualifications and skills of Board Members that support the conclusion that they should serve on the Boards.

Board Members

Experience, Qualifications and Skills

Richard E. Cavanagh

Mr. Cavanagh brings to the Boards a wealth of practical business knowledge and leadership as an experienced director/trustee of various public and private companies. In particular, because Mr. Cavanagh served for over a decade as President and Chief Executive Officer of The Conference Board, Inc., a global business research organization, he is able to provide the Boards with expertise about business and economic trends and governance practices. Mr. Cavanagh created the blue ribbon Commission on Public Trust and Private Enterprise in 2002, which recommended corporate governance enhancements. Mr. Cavanagh s service as a director of The Guardian Life Insurance Company of America and as a senior advisor and director of The Fremont Group

Table of Contents**Board Members****Experience, Qualifications and Skills**

provides added insight into investment trends and conditions. Mr. Cavanagh's long-standing service on the boards of the Closed-End Complex also provides him with a specific understanding of the Funds, their operations, and the business and regulatory issues facing the Funds. Mr. Cavanagh is also an experienced board leader, having served as the lead independent director of a NYSE public company (Arch Chemicals) and as the Board Chairman of the Educational Testing Service. Mr. Cavanagh's independence from the Funds and the Investment Advisor enhances his service as Chair of the Boards and Chair of the Executive Committee and as a member of the Governance and Nominating Committee (the Governance Committee), Compliance Committee and Performance Oversight Committee.

Karen P. Robards

The Boards benefit from Ms. Robards's many years of experience in investment banking and the financial advisory industry where she obtained extensive knowledge of the capital markets and advised clients on corporate finance transactions, including mergers and acquisitions and the issuance of debt and equity securities. Ms. Robards's prior position as an investment banker at Morgan Stanley provides useful oversight of the Funds' investment decisions and investment valuation processes. Additionally, Ms. Robards's experience as a director of publicly held and private companies allows her to provide the Boards with insight into the management and governance practices of other companies. Ms. Robards's long-standing service on the boards of the Closed-End Complex also provides her with a specific understanding of the Funds, their operations, and the business and regulatory issues facing the Funds. Ms. Robards's knowledge of financial and accounting matters qualifies her to serve as Vice Chair of the Boards and as Chair of each Fund's Audit Committee. Ms. Robards's independence from the Funds and the Investment Advisor enhances her service as a member of the Performance Oversight Committee, Executive Committee and Governance Committee.

Michael J. Castellano

The Boards benefit from Mr. Castellano's career in accounting which spans over forty years. Mr. Castellano has served as Chief Financial Officer of Lazard Ltd. and as a Managing Director and Chief Financial Officer of Lazard Group. Prior to joining Lazard, Mr. Castellano held various senior management positions at Merrill Lynch & Co., including Senior Vice President Chief Control Officer for Merrill Lynch's capital markets businesses, Chairman of Merrill Lynch International Bank and Senior Vice President Corporate Controller. Prior to joining Merrill Lynch & Co., Mr. Castellano was a partner with Deloitte & Touche where he served a number of investment banking clients over the course of his 24 years with the firm. Mr. Castellano currently serves as a director for CircleBlack Inc. Mr. Castellano's knowledge of financial and accounting matters qualifies him to serve as a member of each Fund's Audit Committee. Mr. Castellano's independence from the Funds and the Investment Advisor enhances his service as a member of the Governance Committee and Performance Oversight Committee.

Cynthia L. Egan

Ms. Egan brings to the Boards a broad and diverse knowledge of investment companies and the retirement industry as a result of her many years of experience as President, Retirement Plan Services, for T. Rowe Price Group, Inc. and her various senior operating officer positions at Fidelity Investments, including her service as Executive Vice President of FMR Co., President of Fidelity Institutional Services Company and President of the Fidelity Charitable Gift Fund. Ms. Egan has also served as an advisor to the U.S. Department of Treasury as an expert in domestic retirement security. Ms. Egan began her professional career at the Board of Governors of the Federal Reserve and the Federal Reserve Bank of New York. Ms. Egan is also a director of UNUM Corporation, a publicly traded insurance company providing personal risk reinsurance, and of The

Table of Contents**Board Members****Experience, Qualifications and Skills**

Hanover Group, a public property casualty insurance company. Ms. Egan's independence from the Funds and the Investment Advisor enhances her service as a member of the Funds' Compliance Committee, Performance Oversight Committee and Governance Committee.

Frank J. Fabozzi

Dr. Fabozzi has served for over 25 years on the boards of registered investment companies. Dr. Fabozzi holds the designations of Chartered Financial Analyst and Certified Public Accountant. Dr. Fabozzi was inducted into the Fixed Income Analysts Society's Hall of Fame and is the 2007 recipient of the C. Stewart Sheppard Award and the 2015 recipient of the James R. Vertin Award, both given by the CFA Institute. The Boards benefit from Dr. Fabozzi's experiences as a professor and author in the field of finance. Dr. Fabozzi's experience as a professor at various institutions, including EDHEC Business School, Yale, MIT, and Princeton, as well as Dr. Fabozzi's experience as a Professor in the Practice of Finance and Becton Fellow at the Yale University School of Management and as editor of the Journal of Portfolio Management demonstrates his wealth of expertise in the investment management and structured finance areas. Dr. Fabozzi has authored and edited numerous books and research papers on topics in investment management and financial econometrics, and his writings have focused on fixed income securities and portfolio management, many of which are considered standard references in the investment management industry. Dr. Fabozzi's long-standing service on the boards of the Closed-End Complex also provides him with a specific understanding of the Funds, their operations and the business and regulatory issues facing the Funds. Moreover, Dr. Fabozzi's knowledge of financial and accounting matters qualifies him to serve as a member of each Fund's Audit Committee. Dr. Fabozzi's independence from the Funds and the Investment Advisor enhances his service as Chair of the Performance Oversight Committee and as a member of the Governance Committee.

Jerrold B. Harris

Mr. Harris's time as President and Chief Executive Officer of VWR Scientific Products Corporation brings to the Boards business leadership and experience and knowledge of the chemicals industry and national and international product distribution. Mr. Harris's position as a director of BlackRock Capital Investment Corporation brings to the Boards the benefit of his experience as a director of a business development company governed by the 1940 Act and allows him to provide the Boards with added insight into the management practices of other financial companies. Mr. Harris's long-standing service on the boards of the Closed-End Complex also provides him with a specific understanding of the Funds, their operations and the business and regulatory issues facing the Funds. Mr. Harris's independence from the Funds and the Investment Advisor enhances his service as Chair of the Compliance Committee and as a member of the Governance Committee and Performance Oversight Committee.

R. Glenn Hubbard

Dr. Hubbard has served in numerous roles in the field of economics, including as the Chairman of the U.S. Council of Economic Advisers of the President of the United States. Dr. Hubbard serves as the Dean of Columbia Business School, has served as a member of the Columbia Faculty and as a Visiting Professor at the John F. Kennedy School of Government at Harvard University, the Harvard Business School and the University of Chicago. Dr. Hubbard's experience as an adviser to the President of the United States adds a dimension of balance to the Funds' governance and provides perspective on economic issues. Dr. Hubbard's service on the boards of ADP and Metropolitan Life Insurance Company provides the Boards with the benefit of his experience with the management practices of other financial companies. Dr. Hubbard's long-standing service on the boards of the Closed-End Complex also provides him with a specific understanding of the Funds, their operations, and the business and regulatory issues facing the Funds. Dr. Hubbard's independence from the Funds and the Investment Advisor enhances his service as Chair of the Governance Committee and a member of the Compliance Committee and Performance Oversight Committee.

Table of Contents**Board Members****Experience, Qualifications and Skills**

W. Carl Kester

The Boards benefit from Dr. Kester's experiences as a professor and author in finance, and his experience as the George Fisher Baker Jr. Professor of Business Administration at Harvard Business School and as Deputy Dean of Academic Affairs at Harvard Business School from 2006 through 2010 adds to the Boards a wealth of expertise in corporate finance and corporate governance. Dr. Kester has authored and edited numerous books and research papers on both subject matters, including co-editing a leading volume of finance case studies used worldwide. Dr. Kester's long-standing service on the boards of the Closed-End Complex also provides him with a specific understanding of the Funds, their operations, and the business and regulatory issues facing the Funds. Dr. Kester's knowledge of financial and accounting matters qualifies him to serve as a member of each Fund's Audit Committee. Dr. Kester's independence from the Funds and the Investment Advisor enhances his service as a member of the Governance Committee and Performance Oversight Committee.

Catherine A. Lynch

Ms. Lynch, who served as the Chief Executive Officer and Chief Investment Officer of the National Railroad Retirement Investment Trust, benefits the Boards by providing business leadership and experience and a diverse knowledge of pensions and endowments. Ms. Lynch also holds the designation of Chartered Financial Analyst. Ms. Lynch's knowledge of financial and accounting matters qualifies her to serve as a member of each Fund's Audit Committee. Ms. Lynch's independence from the Funds and the Investment Advisor enhances her service as a member of the Performance Oversight Committee and Governance Committee.

Barbara G. Novick

Ms. Novick has extensive experience in the financial services industry, including more than 27 years with BlackRock. Ms. Novick currently is a member of BlackRock's Global Executive, Global Operating and Corporate Risk Management Committees and chairs BlackRock's Government Relations Steering Committee. For the first twenty years at BlackRock, Ms. Novick oversaw global business development, marketing and client service across equity, fixed income, liquidity, alternative investment and real estate products, and in her current role, heads BlackRock's efforts globally on government relations and public policy. Prior to joining BlackRock, Ms. Novick was Vice President of the Mortgage Products Group at the First Boston Corporation and, prior to that, was with Morgan Stanley. The Boards benefit from Ms. Novick's wealth of experience and long history with BlackRock and BlackRock's management practices, investment strategies and products, which stretches back to BlackRock's founding in 1988.

John M. Perlowski

Mr. Perlowski's experience as Managing Director of BlackRock, Inc. since 2009, as the Head of BlackRock Global Fund & Accounting Services since 2009, and as President and Chief Executive Officer of the Funds since 2011 provides him with a strong understanding of the Funds, their operations, and the business and regulatory issues facing the Funds. Mr. Perlowski's prior position as Managing Director and Chief Operating Officer of the Global Product Group at Goldman Sachs Asset Management, and his former service as Treasurer and Senior Vice President of the Goldman Sachs Mutual Funds and as Director of the Goldman Sachs Offshore Funds provides the Boards with the benefit of his experience with the management practices of other financial companies. Mr. Perlowski's experience with BlackRock enhances his service as a member of the Funds' Executive Committee.

Board Leadership Structure and Oversight

The Boards consist of eleven Board Members, nine of whom are Independent Board Members. The investment companies registered under the 1940 Act that are advised by the Investment Advisor are composed of

Table of Contents

the Closed-End Complex, two complexes of open-end funds and one complex of exchange-traded funds. The Funds are included in the Closed-End Complex. The Board Members also oversee the operations of other closed-end investment companies registered under the 1940 Act that are included in the Closed-End Complex as directors or trustees.

The Boards have overall responsibility for the oversight of the Funds. The Chair of the Boards and the Chief Executive Officer are two different people. Not only is the Chair of the Boards an Independent Board Member, but the Chair of each Board committee (each, a Committee) is also an Independent Board Member. The Boards have five standing Committees: an Audit Committee, a Governance Committee, a Compliance Committee, a Performance Oversight Committee and an Executive Committee.

Until March 1, 2016, the Board also had a Leverage Committee. The Leverage Committee was originally formed in March 2008 for the purpose of monitoring issues arising from credit market turmoil and overseeing efforts to address the effects of reduced auction market preferred shares or auction preferred shares (AMPS) liquidity on each fund in the Closed-End Complex using AMPS for leverage at the time. Since the Leverage Committee was established, the BlackRock-Advised Funds have redeemed all of the AMPS outstanding for the Closed-End Complex as of February 2008.

As a result of the reduction of AMPS across the Closed-End Complex, the Boards determined to suspend the Leverage Committee effective March 1, 2016. The Boards currently oversee the Funds' usage of leverage, including the Funds' incurrence, refinancing and maintenance of leverage and, to the extent necessary or appropriate, authorize or approve the execution of documentation in respect thereto. The Executive Committee of each Fund has authority to make any such authorizations or approvals that are required between regular meetings of the Boards.

The Funds do not have a compensation committee because their executive officers, other than the Funds' Chief Compliance Officer (CCO), do not receive any direct compensation from the Funds and the CCO's compensation is comprehensively reviewed by the Boards. The role of the Chair of the Boards is to preside over all meetings of the Boards and to act as a liaison with service providers, officers, attorneys, and other Board Members between meetings. The Chair of each Committee performs a similar role with respect to such Committee. The Chair of the Boards or Committees may also perform such other functions as may be delegated by the Boards or the Committees from time to time. The Independent Board Members meet regularly outside the presence of the Funds' management, in executive sessions or with other service providers to the Funds. The Boards have regular in-person meetings five times a year, including a meeting to consider the approval of the Funds' investment management agreements and, if necessary, may hold special meetings before their next regular meeting. Each Committee meets regularly to conduct the oversight functions delegated to that Committee by the Boards and reports its findings to the Boards. The Boards and each standing Committee conduct annual assessments of their oversight function and structure. The Boards have determined that the Boards' leadership structure is appropriate because it allows the Boards to exercise independent judgment over management and to allocate areas of responsibility among Committees and the Boards to enhance oversight.

The Boards decided to separate the roles of Chair and Chief Executive Officer because they believe that an independent Chair:

increases the independent oversight of the Funds and enhances the Boards' objective evaluation of the Chief Executive Officer;

allows the Chief Executive Officer to focus on the Funds' operations instead of Board administration;

provides greater opportunities for direct and independent communication between shareholders and the Boards; and

provides an independent spokesman for the Funds.

Table of Contents

The Boards have engaged the Investment Advisor to manage the Funds on a day-to-day basis. Each Board is responsible for overseeing the Investment Advisor, other service providers, the operations of each Fund and associated risks in accordance with the provisions of the 1940 Act, state law, other applicable laws, each Fund's charter, and each Fund's investment objective(s) and strategies. The Boards review, on an ongoing basis, the Funds' performance, operations, and investment strategies and techniques. The Boards also conduct reviews of the Investment Advisor and its role in running the operations of the Funds.

Day-to-day risk management with respect to the Funds is the responsibility of the Investment Advisor or other service providers (depending on the nature of the risk), subject to the supervision by the Investment Advisor. The Funds are subject to a number of risks, including investment, compliance, operational and valuation risks, among others. While there are a number of risk management functions performed by the Investment Advisor or other service providers, as applicable, it is not possible to eliminate all of the risks applicable to the Funds. Risk oversight is part of the Boards' general oversight of the Funds and is addressed as part of various Board and Committee activities. The Boards, directly or through Committees, also review reports from, among others, management, the independent registered public accounting firm for the Funds, the Investment Advisor, and internal auditors for the Investment Advisor or its affiliates, as appropriate, regarding risks faced by the Funds and management's or the service providers' risk functions. The Committee system facilitates the timely and efficient consideration of matters by the Board Members and facilitates effective oversight of compliance with legal and regulatory requirements and of the Funds' activities and associated risks. The Boards have appointed a Chief Compliance Officer, who oversees the implementation and testing of the Funds' compliance program and reports regularly to the Boards regarding compliance matters for the Funds and their service providers. The Independent Board Members have engaged independent legal counsel to assist them in performing their oversight responsibilities.

During the calendar year 2017, the Board of each Fund met 7 times. During the most recent full fiscal year for each Fund, the Board met the following number of times:

Fund Name	Ticker	Fiscal Year End	Number of Board Meetings
BlackRock New Jersey Municipal Bond Trust	BLJ	31-August	8
BlackRock New Jersey Municipal Income Trust	BNJ	31-July	8
BlackRock MuniYield New Jersey Fund, Inc.	MYJ	31-July	8

No incumbent Board Member attended less than 75% of the aggregate number of meetings of each Board and of each Committee on which the Board Member served during each Fund's most recently completed fiscal year.

Audit Committee. Each Board has a standing Audit Committee composed of Karen P. Robards (Chair), Michael J. Castellano, Frank J. Fabozzi, W. Carl Kester and Catherine A. Lynch, all of whom are Independent Board Members and all of whom have been determined by the Audit Committee and the Board to be Audit Committee Financial Experts. The principal responsibilities of the Audit Committee are to assist the Board in fulfilling its oversight responsibilities relating to the accounting and financial reporting policies and practices of the Fund. The Audit Committee's responsibilities include, without limitation: (i) approving and recommending to the full Board for approval the selection, retention, termination and compensation of the Fund's independent registered public accounting firm (the Independent Registered Public Accounting Firm) and evaluating the independence and objectivity of the Independent Registered Public Accounting Firm; (ii) approving all audit engagement terms and fees for the Fund; (iii) reviewing the conduct and results of each audit; (iv) reviewing any issues raised by the Fund's Independent Registered Public Accounting Firm or management regarding the accounting or financial reporting policies and practices of the Fund, its internal controls, and, as appropriate, the internal controls of certain service providers and management's response to any such issues; (v) reviewing and discussing the Fund's audited and unaudited financial statements and disclosure in the Fund's shareholder reports relating to the Fund's performance; (vi) assisting the Board's responsibilities with respect to the internal controls

Table of Contents

of the Fund and its service providers with respect to accounting and financial matters; and (vii) resolving any disagreements between the Fund's management and the Fund's Independent Registered Public Accounting Firm regarding financial reporting.

A copy of the Audit Committee Charter for each Fund can be found in the Corporate Governance section of the BlackRock Closed-End Fund website at www.blackrock.com.

Governance Committee. Each Board has a standing Governance Committee composed of R. Glenn Hubbard (Chair), Richard E. Cavanagh, Michael J. Castellano, Cynthia L. Egan, Frank J. Fabozzi, Jerrold B. Harris, W. Carl Kester, Catherine A. Lynch and Karen P. Robards, all of whom are Independent Board Members.

The principal responsibilities of the Governance Committee are: (i) identifying individuals qualified to serve as Independent Board Members and recommending Board Nominees that are not interested persons of the Funds (as defined in the 1940 Act) for election by shareholders or appointment by the Board; (ii) advising the Board with respect to Board composition, procedures and committees of the Board (other than the Audit Committee); (iii) overseeing periodic self-assessments of the Board and committees of the Board (other than the Audit Committee); (iv) reviewing and making recommendations with respect to Independent Board Member compensation; (v) monitoring corporate governance matters and making recommendations in respect thereof to the Board; (vi) acting as the administrative committee with respect to Board policies and procedures, committee policies and procedures (other than the Audit Committee) and codes of ethics as they relate to the Independent Board Members; and (vii) reviewing and making recommendations to the Board in respect of Fund share ownership by the Independent Board Members.

The Governance Committee of each Board seeks to identify individuals to serve on the Board who have a diverse range of viewpoints, qualifications, experiences, backgrounds and skill sets so that the Board will be better suited to fulfill its responsibility of overseeing the Fund's activities. In so doing, the Governance Committee reviews the size of the Board, the ages of the current Board Members and their tenure on the Board, and the skills, background and experiences of the Board Members in light of the issues facing the Fund in determining whether one or more new Board Members should be added to the Board. The Board as a group strives to achieve diversity in terms of gender, race and geographic location. The Governance Committee believes that the Board Members as a group possess the array of skills, experiences and backgrounds necessary to guide the Fund. The Board Members' biographies included in the Proxy Statement highlight the diversity and breadth of skills, qualifications and expertise that the Board Members bring to the Fund.

Each Governance Committee may consider nominations for Board Members made by the Fund's shareholders as it deems appropriate. Under each Fund's By-laws, shareholders must follow certain procedures to nominate a person for election as a Board Member at an annual or special meeting, or to introduce an item of business at an annual meeting. Under these advance notice procedures, shareholders must submit the proposed nominee or item of business by delivering a notice to the Secretary of the Fund at its principal executive offices. Each Fund must receive notice of a shareholder's intention to introduce a nomination or proposed item of business for an annual shareholder meeting not less than 120 days nor more than 150 days before the anniversary of the prior year's annual shareholder meeting. Assuming that the 2018 annual shareholder meeting of a Fund is held within 25 days of July 25, 2018, the Fund must receive notice pertaining to the 2018 annual meeting of shareholders no earlier than Sunday, February 25, 2018 and no later than Tuesday, March 27, 2018. However, if a Fund holds its 2018 annual shareholder meeting on a date that is not within 25 days before or after July 25, 2018, such Fund must receive the notice of a shareholder's intention to introduce a nomination or proposed item of business not later than the close of business on the tenth day following the day on which the notice of the date of the shareholder meeting was mailed or the public disclosure of the date of the shareholder meeting was made, whichever comes first.

Each Fund's By-laws provide that notice of a proposed nomination must include certain information about the shareholder and the nominee, as well as a written consent of the proposed nominee to serve if elected. A

Table of Contents

notice of a proposed item of business must include a description of and the reasons for bringing the proposed business to the meeting, any material interest of the shareholder in the business, and certain other information about the shareholder.

Further, each Fund has adopted Board Member qualification requirements which can be found in each Fund's By-laws and are applicable to all Board Members that may be nominated, elected, appointed, qualified or seated to serve as Board Members. The qualification requirements may include: (i) age limits; (ii) limits on service on other boards; (iii) restrictions on relationships with investment advisers other than BlackRock; and (iv) character and fitness requirements. In addition to not being an interested person of the Fund as defined under Section 2(a)(19) of the 1940 Act, each Independent Board Member may not be or have certain relationships with a shareholder owning five percent or more of the Fund's voting securities or owning other percentage ownership interests in investment companies registered under the 1940 Act. Reference is made to each Fund's By-laws for more details.

A copy of the Governance Committee Charter for each Fund can be found in the Corporate Governance section of the BlackRock Closed-End Fund website at www.blackrock.com.

Compliance Committee. Each Fund has a Compliance Committee composed of Jerrold B. Harris (Chair), Richard E. Cavanagh, Cynthia L. Egan and R. Glenn Hubbard, all of whom are Independent Board Members. The Compliance Committee's purpose is to assist the Board in fulfilling its responsibility with respect to the oversight of regulatory and fiduciary compliance matters involving the Fund, the fund-related activities of BlackRock, and any sub-advisor and the Fund's other third party service providers. The Compliance Committee's responsibilities include, without limitation: (i) overseeing the compliance policies and procedures of the Fund and its service providers and recommending changes or additions to such policies and procedures; (ii) reviewing information on and, where appropriate, recommending policies concerning the Fund's compliance with applicable law; (iii) reviewing information on any significant correspondence with or other actions by regulators or governmental agencies with respect to the Fund and any employee complaints or published reports that raise concerns regarding compliance matters; and (iv) reviewing reports from, overseeing the annual performance review of, and making certain recommendations in respect of the CCO, including, without limitation, determining the amount and structure of the CCO's compensation. Each Board has adopted a written charter for the Board's Compliance Committee.

Performance Oversight Committee. Each Fund has a Performance Oversight Committee composed of Frank J. Fabozzi (Chair), Michael J. Castellano, Richard E. Cavanagh, Cynthia L. Egan, Jerrold B. Harris, R. Glenn Hubbard, W. Carl Kester, Catherine A. Lynch and Karen P. Robards, all of whom are Independent Board Members. The Performance Oversight Committee's purpose is to assist the Board in fulfilling its responsibility to oversee the Fund's investment performance relative to the Fund's investment objective(s), policies and practices. The Performance Oversight Committee's responsibilities include, without limitation: (i) reviewing the Fund's investment objective(s), policies and practices; (ii) recommending to the Board any required action in respect of changes in fundamental and non-fundamental investment restrictions; (iii) reviewing information on appropriate benchmarks and competitive universes; (iv) reviewing the Fund's investment performance relative to such benchmarks; (v) reviewing information on unusual or exceptional investment matters; (vi) reviewing whether the Fund has complied with its investment policies and restrictions; and (vii) overseeing policies, procedures and controls regarding valuation of the Fund's investments. Each Board has adopted a written charter for the Board's Performance Oversight Committee.

Executive Committee. Each Fund has an Executive Committee composed of Richard E. Cavanagh (Chair) and Karen P. Robards, both of whom are Independent Board Members, and John M. Perlowski, who serves as an interested Board Member. The principal responsibilities of the Executive Committee include, without limitation: (i) acting on routine matters between meetings of the Board; (ii) acting on such matters as may require urgent action between meetings of the Board; and (iii) exercising such other authority as may from time to time be delegated to the Executive Committee by the Board. Each Board has adopted a written charter for the Board's Executive Committee.

Table of Contents

Each Audit Committee, Governance Committee, Compliance Committee, Performance Oversight Committee and Executive Committee met the following number of times for each Fund's most recent fiscal year:

Ticker	Fiscal Year End	Number of Audit Committee Meetings	Number of Governance Committee Meetings	Number of Compliance Committee Meetings	Number of Performance Oversight Committee Meetings	Number of Executive Committee Meetings
BLJ	31-August	13	4	4	4	0
BNJ	31-July	13	4	4	4	0
Acquiring Fund (MYJ)	31-July	13	4	4	4	0

Compensation of the Board Members

Each Independent Board Member is paid an annual retainer of \$280,000 per year for his or her services as a Board Member of all funds in the Closed-End Complex that are overseen by the respective director/trustee and each Board Member may also receive a \$10,000 board meeting fee for special unscheduled meetings or meetings in excess of six Board meetings held in a calendar year, together with out-of-pocket expenses in accordance with a Board policy on travel and other business expenses relating to attendance at meetings. In addition, the Chair and Vice-Chair of the Board are paid an additional annual retainer of \$120,000 and \$60,000, respectively. The Chairs of the Audit Committee, Performance Oversight Committee, Compliance Committee, and Governance Committee are paid an additional annual retainer of \$45,000, \$30,000, \$45,000 and \$20,000, respectively. Each member of the Audit Committee and Compliance Committee is paid an additional annual retainer of \$30,000 and \$12,500, respectively, for his or her service on such committee. For the year ended December 31, 2016, the Closed-End Complex reimbursed Independent Board Member expenses in an aggregate amount of approximately \$58,887. Each Fund pays a pro rata portion quarterly (based on relative net assets) of the foregoing Board Member fees paid by the funds in the Closed-End Complex.

The Independent Board Members have agreed that a maximum of 50% of each Independent Board Member's total compensation paid by funds in the Closed-End Complex may be deferred pursuant to the Closed-End Complex's deferred compensation plan. Under the deferred compensation plan, deferred amounts earn a return for the Independent Board Members as though equivalent dollar amounts had been invested in common shares of certain funds in the Closed-End Complex selected by the Independent Board Members. This has approximately the same economic effect for the Independent Board Members as if they had invested the deferred amounts in such other funds in the Closed-End Complex. The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of a fund and are recorded as a liability for accounting purposes.

The following table sets forth the aggregate compensation, including deferred compensation amounts, paid to each Independent Board Member by each Fund during its most recently completed fiscal year and by the Closed-End Complex for the most recently completed calendar year. Mr. Perlowski and Ms. Novick serve without compensation from the Funds because of their affiliation with BlackRock, Inc. and the Investment Advisor.
