SPECIAL NOTE REGARDING FORWARD—LOOKING STATEMENTS

On one or more occasions, we may make forward-looking statements in this Quarterly Report on Form 10-Q regarding our assumptions, projections, expectations, targets, intentions or beliefs about future events. Words or phrases such as “anticipates,” “may,” “will,” “should,” “believes,” “estimates,” “expects,” “intends,” “plans,” “predicts,” “projects,” “will likely result,” “will continue” or similar expressions identify forward-looking statements. These forward-looking statements are only our predictions and involve numerous assumptions, risks and uncertainties, including, but not limited to those listed below and those business risks and factors described elsewhere in this report and our other Securities and Exchange Commission filings.

Forward-looking statements involve risks and uncertainties which could cause actual results or outcomes to differ materially from those expressed. We caution that while we make such statements in good faith and believe such statements are based on reasonable assumptions, including without limitation, management’s examination of historical operating trends, data contained in records and other data available from third parties, we cannot assure you that our projections will be achieved. Factors that may cause such differences include but are not limited to:

- Our expectation of continued growth in the demand for our oil;
- Our expectation that we will have adequate liquidity from cash flows from operations;
- A variety of market, operational, geologic, permitting, labor and weather related factors; and
- The other risks and uncertainties which are described below under “RISK FACTORS”, including, but not limited to, the following:
 - Unanticipated conditions may cause profitability to fluctuate.
 - Decreases in purchases of oil by our customer will adversely affect our revenues.

We have attempted to identify, in context, certain of the factors that we believe may cause actual future experience and results to differ materially from our current expectation regarding the relevant matter or subject area. In addition to the items specifically discussed above, our business and results of operations are subject to the uncertainties described under the caption “Risk Factors” which is a part of the disclosure included in Item 2 of this Report entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

From time to time, oral or written forward-looking statements are also included in our reports on Forms 10-K, 10-Q and 8-K, Proxy Statements on Schedule 14A, press releases, analyst and investor conference calls, and other communications released to the public. Although we believe that at the time made, the expectations reflected in all of these forward looking statements are and will be reasonable, any or all of the forward-looking statements in this quarterly report on Form 10-Q, our reports on Forms 10-K and 8-K, our Proxy Statements on Schedule 14A and any other public statements that are made by us may prove to be incorrect. This may occur as a result of inaccurate assumptions or as a consequence of known or unknown risks and uncertainties. Many factors discussed in this Quarterly Report on Form 10-Q, certain of which are beyond our control, will be important in determining our future performance. Consequently, actual results may differ materially from those that might be anticipated from forward-looking statements. In light of these and other uncertainties, you should not regard the inclusion of a forward-looking statement in this Quarterly Report on Form 10-Q or other public communications that we might make as a representation by us that our plans and objectives will be achieved, and you should not place undue reliance on such forward-looking statements.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. However, your attention is directed to any further disclosures made on related subjects in our subsequent annual and periodic reports filed with the SEC on Forms 10-K, 10-Q and 8-K and Proxy Statements on Schedule 14A.

Unless the context requires otherwise, references to “we,” “us,” “our,” the “Company” and “CNEH” refer specifically to China North East Petroleum Holdings Limited and its subsidiaries.

The accompanying notes are an integral part of these condensed consolidated financial statements

CHINA NORTH EAST PETROLEUM HOLDINGS LIMITED
AND SUBSIDIARIES
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS AS OF MARCH 31, 2009
(UNAUDITED)

NOTE 1 BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, the unaudited condensed consolidated financial statements contain all adjustments consisting only of normal recurring accruals considered necessary to present fairly the Company's financial position at March 31, 2009, the results of operations and cash flows for the three months ended March 31, 2009 and 2008. The results for the three months ended March 31, 2009 are not necessarily indicative of the results to be expected for the entire fiscal year ending December 31, 2009.

These financial statements should be read in conjunction with the Company's annual report on Form 10-K as filed with the Securities and Exchange Commission.

NOTE 2 ORGANIZATION

China North East Petroleum Holdings Limited ("North East Petroleum") was incorporated in Nevada on August 20, 1999 under the name of Draco Holding Corporation ("Draco").

Hong Xiang Petroleum Group Limited ("Hong Xiang Petroleum Group") was incorporated in the British Virgin Islands ("BVI") on August 28, 2003 as an investment holding company.

Song Yuan City Hong Xiang Petroleum Technical Services Co., Ltd. ("Hong Xiang Technical") was incorporated in the People's Republic of China ("PRC") on December 5, 2003 to provide technical advisory services to oil and gas exploration companies in the PRC.

During 2004, Hong Xiang Petroleum Group acquired a 100% ownership of Hong Xiang Technical.

During 2004, Hong Xiang Technical acquired a 100% interest in Song Yuan City Yu Qiao Qianan Hong Xiang Oil and Gas Development Co., Ltd. ("Hong Xiang Oil Development") which is engaged in the exploration and production of crude oil in the Jilin Oil Region, of the PRC. In December 2002, Hong Xiang Oil Development entered into an oil lease agreement with Song Yuan City Yu Qiao Oil and Gas Development Limited Corporation ("Yu Qiao") to develop the proven reserves in the Qian'an Oil Field Zone 112 (Qian'an 112) in Jilin Oil Region for 20 years.

During 2004, Draco executed a Plan of Exchange to acquire 100% of Hong Xiang Petroleum Group.

On July 26, 2006, the Company entered into a Joint Venture Agreement (the "JV Agreement") with a principal stockholder and a related party, hereafter referred to as the "Related Parties," to acquire oil and gas properties for the exploration of crude oil in the PRC. Pursuant to the JV Agreement, the Company and the Related Parties are obligated to contribute \$1 million and \$121,000, respectively, to the registered capital of Song Yuan North East Petroleum Technical Service Co., Ltd. ("Song Yuan Technical"), and the Company and the Related Parties will each

share 90% and 10% respectively of the equity and profit interests of Song Yuan Technical.

On June 1, 2005, Song Yuan Technical acquired from third parties 100% equity interest of LongDe Oil & Gas Development Co. Ltd. ("LongDe") at a consideration of \$120,773 in cash. LongDe is engaged in the exploration and production of crude oil in the Jilin Oil Region of the PRC.

CHINA NORTH EAST PETROLEUM HOLDINGS LIMITED
AND SUBSIDIARIES
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS AS OF MARCH 31, 2009
(UNAUDITED)

NOTE 2 ORGANIZATION (CONTINUED)

On January 26, 2007, Song Yuan Technical acquired 100% of the equity interest of Yu Qiao for 10,000,000 shares of the Company's common stock having a fair value of \$3,100,000. Yu Qiao is engaged in the extraction and production of crude oil in Jilin Province, PRC and operates 3 oilfields with a total exploration area of 39.2 square kilometers. Pursuant to a 20-year exclusive Cooperative Exploration Contract (the "Oil Lease") which was entered into on May 28, 2002 with PetroChina Group, a corporation organized and existing under the laws of PRC ("PetroChina"), the Company has the right to explore, develop and extract oil at Qian'an 112, Da 34 and Gu 31 area.

After the acquisition of Yu Qiao, the oil lease agreement between Yu Qiao and Hong Xiang Oil Development was rescinded and Hong Xiang Technical and Hong Xiang Oil Development were dissolved in March 2007.

North East Petroleum, Hong Xiang Petroleum Group, Song Yuan Technical, LongDe and Yu Qiao are hereinafter referred to as ("the Company").

NOTE 3 PRINCIPLES OF CONSOLIDATION

The accompanying unaudited condensed consolidated financial statements include the unaudited financial statements of North East Petroleum and its wholly owned subsidiary, Hong Xiang Petroleum Group and 90% equity interest owned subsidiaries, Song Yuan Technical, LongDe and Yu Qiao (collectively, "the Company"). The noncontrolling interests represent the minority shareholders' 10% share of the results of Song Yuan Technical, LongDe and Yu Qiao.

All significant inter-company accounts and transactions have been eliminated in consolidation.

AND SUBSIDIARIES
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS AS OF MARCH 31, 2009
(UNAUDITED)

NOTE 4 SECURED DEBENTURE

The following is a summary of secured debenture at March 31, 2009 and December 31, 2008:

	March 31, 2009 (Unaudited)	December 31, 2008 (Audited)
8% Secured Debenture, net of unamortized discount of \$5,885,883 as of March 31, 2009 at 8% interest per annum, secured by 66% of the Company's equity interest in Song Yuan Technical and certain properties of the Company and 6,732,000 shares of common stock of the Company owned by a stockholder, due on February 28, 2012	\$ 8,214,117	\$ 8,083,826
	8,214,117	8,083,826
Less: current maturities	(3,917,726)	(1,489,126)
Long-term portion	\$ 4,296,391	\$ 6,594,700

On February 28, 2008, the Company entered into a Securities Purchase Agreement (the "Purchase Agreement") with Lotusbox Investments Limited (the "Investor"). Pursuant to the Purchase Agreement, the Company issued to the Investor an 8% Secured Debenture due 2012 (the "Debenture") in the aggregate principal amount of \$15,000,000, and issued to the Investor five-year warrants exercisable for up to (i) 1,200,000 shares of the Company's common stock at an initial exercise price equal to \$0.01 per share ("Class A Warrants"), (ii) 1,500,000 shares of the Company's common stock at an initial exercise price equal to \$3.20 per share ("Class B Warrants") and (iii) 2,100,000 shares of the Company's common stock at an initial exercise price equal to \$3.45 per share ("Class C Warrants"), with all warrant exercise prices being subject to certain adjustments. The Class B Warrants are subject to certain call rights by the Company. The Company also granted the Investor an option to purchase up to 24% of the registered capital of Song Yuan Technical at a fair market value which option shall vest immediately on the date following the occurrence of an event of default.

On March 5, 2009, the Company and the Investor entered into Agreement No.1 to 8% Secured Debenture (the "Amendment") which amended the Debenture issued to the Investor on February 28, 2008 for the principal amount of \$15,000,000. Pursuant to the Amendment, the Investor agreed to extend the Company's requirement to effect a listing of its common stock on either the NYSE Alternext US LLC or NASDAQ until August 30, 2010, and the Company issued four-year warrants to the Investor to purchase up to (i) 250,000 shares of common stock at an exercise price of \$2 per share and (ii) 250,000 shares of common stock at an exercise price of \$2.35 per share. Also pursuant to the Amendment, the parties have agreed to amend the monthly principal repayment schedule of the Debenture.

The Company accounts for warrants as liability instruments in accordance with paragraph 8 of EITF 00-19, Accounting for Derivative Financial Instruments Indexed to, and Potentially settled in, a Company's Own Stock. The beneficial conversion feature associated with the secured debenture is measured at its intrinsic value after allocation between the warrant and the debenture and before transaction costs in accordance with EITF 00-27, Application of Issue 98-5 to Certain Convertible Instruments. Debt proceeds are first allocated to the warrant (as it is mark-to-market,

fair-value liability instrument) and the remaining proceeds are allocated to the debt. The debenture will be accreted to liquidation value over two years, using the effective interest rate method.

The Company has recorded a cost of \$8,001,264 for the beneficial conversion feature granted to the Investor. The beneficial conversion feature is reflected as a discount on the carrying value of the debenture and is being amortized as an interest expense over the term of the debenture.

Interest expense and discount amortized on the debenture for the three months ended March 31, 2009 were \$280,000 and \$492,703 respectively.

CHINA NORTH EAST PETROLEUM HOLDINGS LIMITED
AND SUBSIDIARIES
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS AS OF MARCH 31, 2009
(UNAUDITED)

NOTE 5 NET INCOME PER SHARE

The following is a reconciliation of the numerators and denominators used in computing basic and diluted net income per share (in thousands, except per share amounts):

	Three months ended Mar 31,	
	2009	2008
Numerator:		
Net income attributable to CNEH common stockholders		
used in computing basis net income per share	\$ 2,271	\$ 3,375
Net income attributable to CNEH common stockholders		
used in computing diluted net income per share	\$ 2,271	\$ 3,375
Denominator:		
Shares used in the computation of basic net income per share (weighted average common stock outstanding)	20,784	19,224
Dilutive potential common stock:		
Options and warrants	119	1,314
Shares used in the computation of diluted net income per share	20,903	20,538
Basic net income per share	\$ 0.11	\$ 0.18
Diluted net income per share	\$ 0.11	\$ 0.16

For the three months ended March 31, 2009, options to purchase 410,000 shares of common stock and warrants to purchase 4,460,000 shares of common stock with exercise prices greater than the average fair market value of the Company's stock of \$1.66 were not included in the calculation because the effect is anti-dilutive.

NOTE 6 COMMITMENTS AND CONTINGENCIES

(A) Lease commitment

The Company leases office spaces from a stockholder, land and office spaces from third parties under four operating leases which expire on September 20, 2023, June 30, 2015, January 20, 2011 and September 14, 2009 at annual rental of \$183, \$14,024, \$18,990 and \$37,200 respectively.

As of March 31, 2009, the Company had outstanding commitments with respect to the above operating leases, which are due as follows:

2009	\$ 41,948
2010	33,197
2011	15,789

2012	14,207
Thereafter	37,028
	\$ 142,169

(B) Capital commitments

As of March 31, 2009, the Company had commitments for capital expenditure of \$784,000 with a contractor to complete the drilling of 7 oil wells under construction.

AND SUBSIDIARIES
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS AS OF MARCH 31, 2009
(UNAUDITED)

NOTE 7 STOCK-BASED COMPENSATION

During 2008, the Company granted to its employees, stock options qualified under the Company's 2006 Stock Option/Stock Issuance Plan to purchase Common Stock. As of March 31, 2009, stock options granted under the Company's 2006 Stock Option/Stock Issuance Plan to purchase 410,000 shares of its Common Stock (the "Options") at an exercise price from \$4.05 to \$4.50 per share were outstanding. 25% of the 100,000 stock options shall vest upon grant and 25% shall vest every three months thereafter, these stock options granted shall expire one year after the grant date. 50% of the 310,000 stock options shall vest upon grant and 50% shall vest on the first anniversary of the grant date.

The fair value of stock options granted was estimated at the date of grant using the Black-Scholes option-pricing model with the following assumptions:

Expected Life	Expected Volatility	Dividend Yield	Risk Free Interest Rate	Grant Date Fair Value
1 to 2 years	131 to 173%	0	% 2.15% to 2.66%	\$ 4.05 to \$4.50

-Dividend Yield: The expected dividend yield is zero. The Company has not paid a dividend and does not anticipate paying dividends in the foreseeable future.

-Risk Free Rate: Risk-free interest rate of 2.15% to 2.66% was used. The risk-free interest rate was based on U.S. Treasury yields with a remaining term that corresponded to the expected term of the option calculated on the granted date.

-Expected Life: Because the Company has no historical share option exercise experience to estimate future exercise patterns, the expected life was determined using the simplified method as these awards meet the definition of "plain-vanilla" options under the rules prescribed by Staff Accounting Bulletin No. 107.

Stock compensation expense is recognized based on awards expected to vest. There was no estimated forfeiture as the Company has a short history of issuing options. SFAS No. 123R requires forfeiture to be estimated at the time of grant and revised in subsequent periods, if necessary, if actual forfeitures differ from those estimates.

As of March 31, 2009, 410,000 stock options with a fair value of approximately \$1,150,031 were issued to staff, of which the Company recognized \$173,576 as staff compensation expenses included in selling, general and administrative expenses for the three months ended March 31, 2009.

As of March 31, 2009, the total compensation cost related to stock options not yet recognized was \$639,477 and these will be recognized over the next 2 years.

The following is a summary of the stock options activity:

Number of Weighted-

	Options Outstanding	Average Exercise Price
Balance, December 31, 2008	-	-
Granted	410,000	\$ 4.43
Forfeited	-	-
Exercised	-	-
Balance, March 31, 2009	410,000	\$ 4.43

NOTE 7 STOCK-BASED COMPENSATION (CONTINUED)

The following is a summary of the status of options outstanding at March 31, 2009:

Exercise Price	Outstanding Options Number	Average Remaining Contractual Life	Average Exercise Price	Exercisable Options Number	Weighted Average Exercise Price
\$4.05	60,000	0.15 year	\$4.05	60,000	\$4.05
\$4.50	310,000	1.30 year	\$4.50	155,000	\$4.50
\$4.50	40,000	0.30 year	\$4.50	30,000	\$4.50

NOTE 8 STOCKHOLDERS' EQUITY

Changes in Equity

The following table summarizes the changes in equity for the three months ended March 31, 2009 (in thousands):

	CNEH		
	Common Stockholders	Noncontrolling Interests	Total
Total equity as of December 31, 2008	\$ 49,319	\$ 4,513	\$ 53,832
Common stock	-	-	-
Additional paid-in capital	447	-	447
Deferred stock compensation	203	-	203
Net income	2,271	413	2,684
Other comprehensive income	71	8	79
Total equity as of March 31, 2009	\$ 52,311	\$ 4,934	\$ 57,245

NOTE 9 RELATED PARTY TRANSACTIONS

- a) As of March 31, 2009, the Company owed a stockholder of \$965,162 which is repayable on demand. Imputed interest is computed at 5% per annum on the amount due.
- b) As of March 31, 2009, the Company owed a related party of \$14,608 which is repayable on demand. Imputed interest is computed at 5% per annum on the amount due.
- c) Total imputed interest expenses recorded as additional paid-in capital amounted to \$12,248 for the three months ended March 31, 2009.

- d) The Company paid a stockholder \$3,505 for leased office spaces for the three months ended March 31, 2009.

NOTE 10 CONCENTRATIONS AND RISKS

During 2009, 98% and 2% of the Company's assets were located in the PRC and the United States respectively.

During 2009, 100% of the Company's revenues were derived from one customer located in the PRC. The Oil Lease requires the Company to sell crude oil to PetroChina only.

The accounts receivable from PetroChina as of March 31, 2009 was \$4,068,879.

STATEMENTS AS OF MARCH 31, 2009
(UNAUDITED)

NOTE 11 RECLASSIFICATIONS

Certain reclassifications have been made in the consolidated financial statements for the three months ended March 31, 2008 to conform to the current period's presentation.

NOTE 12 THE EFFECT OF RECENTLY ISSUED ACCOUNTING STANDARDS

On December 31, 2008, the SEC published the revised rules and interpretations updating its oil and gas reporting requirements. Many of the revisions are updates to definitions in existing oil and gas rules to make them consistent with the petroleum resources management system, which is a widely accepted standard for the management of petroleum resources that was developed by several industry organizations. Key revisions include the ability to include nontraditional resources in reserves, the use of new technology for determining reserves, permitting disclosure of probable and possible reserves, and changes to the pricing used in determining reserves. To determine reserves companies must use a 12-month average price. The Company is required to comply with the amended disclosure requirement for registration statements filed after January 1, 2010, and for annual reports for fiscal years ending on or after December 15, 2009. Early adoption is not permitted. The Company is currently assessing the impact that the adoption will have on the Company's disclosures, operating results, financial position and cash flows.

In December 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 141 (revised 2007), "Business Combinations" ("SFAS 141R"). SFAS 141R establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any noncontrolling interest in the acquiree and the goodwill acquired. SFAS 141R also establishes disclosure requirements to enable the evaluation of the nature and financial effects of the business combination. This statement is effective beginning January 1, 2009. The adoption of this statement did not have a material impact on the Company's financial position and results of operations.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements – an amendment of Accounting Research Bulletin No. 51." SFAS No. 160 establishes accounting and reporting standards for noncontrolling interests (previously referred to as minority interests) in subsidiaries. SFAS No. 160 requires that a noncontrolling interest in a subsidiary should be accounted for as a component of equity separate from the parent's equity, rather than as a liability. SFAS No. 160 was effective for the Company on January 1, 2009, and is being applied prospectively, except for the presentation and disclosure requirements, which have been applied retrospectively. The adoption of this statement did not have a material impact on the Company's financial position and results of operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis of financial condition and results of operations should be read in conjunction with our financial statements and related notes included elsewhere in this report. This discussion contains forward-looking statements that involve risks, uncertainties and assumptions. Forward-looking statements can be identified by the fact that they do not relate strictly to historic or current facts. They use words such as “anticipate,” “estimate,” “project,” “intend,” “plan,” “believe” and other words and terms of similar meaning in connection with any discussion of future operating or financial performance. In particular, these include statements relating to:

- Deviations in and volatility of the market price of crude oil produced by us;
- Uncertainties in the estimation of proved reserves and in the projection of future rates of production;
- Timing and amount of production;
- The availability of, and our ability to raise additional capital resources and provide liquidity to meet cash flow needs;
- Fluctuations in foreign currency exchange rates and interest rates;
- Our ability to find, acquire, lease, develop, and produce from new properties; and
- The other risks and uncertainties which are described below under “RISK FACTORS.”

Overview

We are engaged in the exploration and production of crude oil in Northern China. We have an arrangement with the Jilin Refinery of PetroChina Group to sell our crude oil production for use in the China marketplace. We currently operate 247 producing wells located in four oilfields in Northern China and have plans for additional drilling projects.

In particular, through two of our subsidiaries, Song Yuan City Yu Qiao Oil and Gas Development Co. Ltd. (“Yu Qiao”) and Chang Ling Longde Oil and Gas Development Co. Ltd. (“LongDe”), we have entered into binding sales agreements with the PetroChina Group, whereby we sell our crude oil production for use in the China marketplace.

We currently operate 4 oilfields located in Northern China, which include:

Field	Details of Oil and Gas Properties and Activities		
	Acreage	Producing wells #	Proven Reserves (bbls)
Qian112	5,115	219	5,292,591
Da34	2,298	7	13,240
Gu31	1,779	7	95,729
He301	2,471	14	52,232
Total	11,663	247	5,453,792

Organizational History

We were incorporated in the State of Nevada on August 20, 1999 under the name Draco Holding Corporation. On March 29, 2004, we executed an Agreement for Share Exchange with Hong Xiang Petroleum Group Limited, a corporation organized and existing under the laws of the British Virgin Islands (“Hong Xiang”), and the individual shareholders owning 100% of the outstanding common shares of Hong Xiang (the “Hong Xiang Shareholders”).

Pursuant to the Agreement for Share Exchange, we issued 18,700,000 shares of our common stock to the Hong Xiang Shareholders in exchange for all of the shares of capital stock of Hong Xiang owned by the Hong Xiang Shareholders at closing, and Hong Xiang became our wholly-owned subsidiary. On June 28, 2004, we changed our name to China

North East Petroleum Holdings Ltd.

During 2004, we acquired a 100% ownership in Song Yuan City Hong Xiang Petroleum Technical Services Co., Ltd. (“Hong Xiang Technical”), and Hong Xiang Technical in turn acquired a 100% interest in Song Yuan City Yu Qiao Qianan Hong Xiang Oil and Gas Development Co., Ltd. (“Hong Xiang Oil Development”), which was engaged in the exploration and production of crude oil in the Jilin region of the PRC.

12

As a result of the Yu Qiao acquisition discussed below, all operations, assets and liabilities of the Company's subsidiary Hong Xiang Oil Development were transferred to Yu Qiao on March 19, 2007. Since Hong Xiang Oil Development and Hong Xiang Technical were no longer necessary elements of the Company's corporate structure, and they were liquidated and dissolved.

PetroChina Oil Leases

Pursuant to a 20-year exclusive Cooperative Oil Lease (the "Oil Lease"), among PetroChina Group, Yu Qiao and the Company, entered into in May 2002, the Company has the right to explore, develop and produce oil at Qian'an 112 Oilfield. Pursuant to the Oil Lease, (i) PetroChina is entitled to 20% of the Company's oil production for the first ten years of the Oil Lease term and 40% of the Company's oil production for the remaining ten years of the Oil Lease term; and (ii) Yu Qiao is entitled to 2% of the Company's oil production as a management fee. The payment of management fee was stopped following the acquisition of Yu Qiao by the Company.

LongDe is a party to a 20-year contract with PetroChina Group entered into in May 2003, pursuant to which LongDe has the right to explore, develop and produce oil at the Hetingbao 301 oilfield in the PRC. Pursuant to such between PetroChina and LongDe, PetroChina is entitled to 20% of LongDe's output in the first ten years and 40% of LongDe's output thereafter until the end of the contract.

As the controlling shareholder of Yu Qiao, the Company has the rights to extract and develop Qian'an 112 and other oil fields under contracts that Yu Qiao has entered into with PetroChina. These oilfields include the Daan 34 oilfield and Gudian 31 oilfield in Jilin Province.

Song Yuan Technical Joint Venture

On July 26, 2006, the Company entered into a joint venture agreement with Wang Hong Jun ("Mr. Wang"), the president and a stockholder of the Company and Ju Guizhi ("Ms. Ju"), mother of Mr. Wang, to contribute to the increased registered capital of Song Yuan North East Petroleum Technical Service Co. Ltd. ("Song Yuan Technical"). The purpose of Song Yuan Technical is to acquire oil and gas properties and to engage in the exploration of crude oil in the PRC. The Company owns a 90% equity interest in Song Yuan Technical, and Ms. Ju owns the remaining 10% equity interest in Song Yuan Technical.

Acquisition of LongDe

In order to comply with certain PRC laws relating to foreign entities' ownership of oil and gas company in the PRC, prior to March 17, 2008, Song Yuan Technical directly owned a 70% equity interest in LongDe, while Sun Peng and Ai Chang Shan, respectively, owned 10% and 20% of the equity interests in Long De in trust for Song Yuan Technical. On March 17, 2008, Song Yuan Technical additionally acquired an additional 20% equity interest in LongDe, of which it acquired a 10% of the equity interest in LongDe from Sun Peng, and 10% of the equity interest in LongDe from Ai Chang Shan. Accordingly, Song Yuan Technical now owns directly 90% of the equity interests in LongDe, with Ai ChangShan holding the remaining 10% in trust for Song Yuan Technical. The acquisition of LongDe was made pursuant to the laws of the PRC. As a 90% owner of Song Yuan Technical, the Company effectively controls LongDe.

Acquisition of Yu Qiao

On January 26, 2007, the Company, through its 90% owned subsidiary Song Yuan Technical, acquired beneficial ownership of all of the interests in Yu Qiao from Ms. Ju. In consideration for such acquisition, the Company issued to Ms. Ju an aggregate of 10 million shares of its common stock (the "Acquisition Shares"), having a market value of approximately U.S.\$3.1 million. However, on June 29, 2007, the Company, Mr. Wang and Ms. Ju entered into an

agreement pursuant to which, among other things, all of the Acquisition Shares were contributed to the Company.

In order to comply with certain PRC laws relating to foreign entities' ownership of oil and gas company in the PRC, the former owners of Yu Qiao, Wang Pingwu and Meng Xiangyun, held 10%, and 20% of the equity interests, respectively, in Yu Qiao in trust for the benefit of Song Yuan Technical. The laws of the PRC govern the agreements by which the Company acquired Yu Qiao and by which the former owners of Yu Qiao hold equity interests in trust. See "Regulations Affecting Our Business" under "Risk Factors." Subsequently, on March 17, 2008, Song Yuan Technical acquired from Meng Xiangyun the 20% equity interest which he had held in Yu Qiao. Accordingly, Song Yuan Technical currently directly holds a 90% equity interest in Yu Qiao, while Wang Hongjun holds a 10% equity interest in Yu Qiao in trust for the benefit of Song Yuan Technical. Thus the Company, through Song Yuan Technical, currently effectively controls 90% of the equity interests in Yu Qiao, while the remaining 10% equity interests in Yu Qiao is effectively controlled by Ms. Ju.

Oil and Gas Properties and Activities

As of March 31, 2009, the Company had a total of 247 producing wells, including 219 producing wells at the Qian'an 112 oilfield, 14 producing wells at the Hetingbao 301 oilfield, 7 producing wells at the Daan 34 oilfield and 7 producing wells at the Gudian 31 oilfield. Additionally, at that time the company had 7 wells under construction and not yet been placed into service.

All of the Company's crude oil production is sold to the Jilin Refinery of PetroChina Group. The approximate distance of each of the Company's oil fields from the Jilin Refinery is as follows: the Qian'an 112 oilfield is four kilometers away, the Hetingbao 301 oilfield is three kilometers away, the Daan 34 oilfield is fifteen kilometers away and the Gudian Oilfield 31 is thirty kilometers away.

PetroChina pays the Company a price per barrel equal to the monthly mean price calculated from the Mean of Platts Singapore ("MOPS") daily price for sour, heavy Indonesian crude, as measured during the previous month. Platts is an international commodity and trading company that collects and publishes pricing data on a wide range of petroleum and non-petroleum commodity types. The price paid to the Company is FOB at the local Jilin Province PetroChina oil storage depot.

PetroChina pays the Company monthly in arrears, on approximately the 15th day after the end of each month. The amount paid to the Company in the first two months of each calendar quarter is decreased by the amount of oil surcharge tax the Company will owe to the PRC government at the end of that calendar quarter. PetroChina holds those amounts back from the Company until the end of each calendar quarter, and then pays those amounts to the Company with the balance due for oil deliveries in the final month of the quarter. For this reason, the Accounts Receivable balance at the end of each quarter is larger than the prior month's oil sales revenue, because it includes the oil surcharge tax amounts the Company owes for the first two months of the quarter.

Operating Performance

Our operating performance is influenced by several factors, the most significant of which are the price we receive for our oil and the quantities of oil that we are able to produce. Global oil prices are the most important factor affecting the price that we receive for our oil production. The prices received for different grades of oil are based upon the world price of oil, which is then adjusted based upon the particular grade. Typically light oil is sold at a premium, while heavy grades of crude (such as the type we produce from the four fields we operate) are discounted.

Our oil development and acquisition activities require substantial and continuing capital expenditures. Historically, the sources of financing to fund our capital expenditures have included:

- Cash flow from operations;
- Sales of equity securities;
- Loans from shareholders and third parties; and
- Extension of credit from our suppliers, including particularly our suppliers of well drilling and completion services.

For the three months ended March 31, 2009 (the "Current Quarter"), the sale price we received for our crude oil production averaged \$40.04 per barrel, compared with \$94.27 per barrel for the three months ended March 31, 2008 (the "Comparable Quarter").

Our oil producing activities are accounted for using the full cost method of accounting. Under this accounting method, we capitalize all costs incurred in connection with the acquisition of oil properties and the exploration for and development of oil reserves. These costs include lease acquisition costs, geological and geophysical expenditures,

costs of drilling productive and non-productive wells (to date, all of the wells we have drilled have been productive wells), conversion of productive wells into production support infrastructure such as water-injection wells, and overhead expenses directly related to land and property acquisition and exploration and development activities. Proceeds from the disposition of oil properties are accounted for as a reduction in capitalized costs, with no gain or loss recognized unless a disposition involves a material change in the relationship between capitalized costs and reserves, in which case the gain or loss is recognized.

Depreciation of the capitalized costs of oil properties, including estimated future development costs, is based upon estimates of proved oil reserves and production. Unproved oil properties are not amortized, but are individually assessed for impairment. The cost of any impaired property is transferred to the balance of oil properties being depleted. Reserve values are calculated annually, at our fiscal year-end, by a third-party geological consulting company, and are estimated in accordance with Statement of Financial Accounting Standards No. 19 (“FAS 19”) – Financial Accounting and Reporting by Oil and Gas Producing Companies (as amended), SEC Regulation S-K and Regulation S-X under the Securities Act of 1933 and the Securities Exchange Act of 1934, and the SEC’s Industry Guide 2.

Production, Average Sales Prices, and Production Costs

Our business operations are characterized by frequent, and sometimes significant, changes in the price we receive for the crude oil we produce and in the volumes of crude oil we produce. The following table shows selected operating data for the three months ended March 31, 2009 and March 31, 2008.

	Three months ended March 31,	
	2009	2008
Oil Output (Bbl)	222,091	114,862
Avg. Sale Price (\$/bbl)	\$ 40.04	\$ 94.27
Operating Revenue	\$ 8,899,223	\$ 10,823,974
Cost of Sales		
Production Costs	514,400	712,305
Depreciation	2,624,254	1,874,692
Amortization	2,979	2,842
Oil Surcharge	37,792	2,211,320
Gross Profit	\$ 5,719,798	\$ 6,022,815

RESULTS OF OPERATIONS

Three Months Ended March 31, 2009 Compared To Three Months Ended March 31, 2008

Revenues. Revenues for the Current Quarter were \$8,899,223 compared to \$10,823,974 for the Comparable Quarter, a decrease of \$1,924,751, or 17.8%. This decrease was due to a decrease in the average price we received for our crude oil. The average oil price for the Current Quarter was \$40.04, a 57.5% decrease from \$94.27 for the Comparable Quarter. Our output of crude oil for the Current Quarter was 222,091 barrels compared to 114,862 barrels for the Comparable Quarter, an increase of 93.4%, which substantially offset the impact of lower oil prices. This increase in production was mainly due to: (i) an increase in the number of producing wells from 165 in the Comparable Quarter to 247 in the Current Quarter; (ii) refracturing and other technical improvements made to the existing wells; and (iii) implementation of a water injection network, which helped to maintain production levels at certain of our existing wells.

Cost of sales. Cost of sales decreased by 33.8%, from \$4,801,159 for the three months ended March 31, 2008 to \$3,179,425 for the three months ended March 31, 2009. The decrease in cost of sales resulted primarily from a decrease in the oil surcharge paid to the PRC government, due to the decline in oil prices generally. For the Current Quarter, the Company paid an oil surcharge of \$37,792 to the PRC government as compared to \$2,211,320 paid for the Comparable Quarter. Under a regulation introduced in June 2006, a surcharge of 20% is imposed on the portion of

the selling price of crude oil which exceeds \$40 per barrel and a surcharge of 40% is imposed on the portion of the selling price of crude oil which exceeds \$60 per barrel. This government oil surcharge tax is paid by the Company on a quarterly basis, following the end of each quarter. The significant decrease in the oil surcharge paid to the government was partially offset by an increase in depreciation of oil and gas properties. Depreciation increased from \$1,874,692 in the Comparable Quarter to \$2,624,254 in the Current Quarter, an increase of 40%. The increase in the depreciation of oil and gas properties was mainly attributable to the increase in proven oil reserves as of December 31, 2008, the higher volumes of oil produced and the increased depreciable production equipment base during the first quarter of 2009.

Operating Expenses. Operating expenses totaled \$1,337,986 for the Current Quarter, compared to \$635,949 for the Comparable Quarter, an increase of 110%. This increase is primarily a result of an increase of approximately \$320,000 in selling, general and administrative costs, an increase of approximately \$50,000 in amortization of deferred financing costs and approximately \$330,000 in amortization of the discount on debenture from the Lotusbox secured debenture financing transaction consummated in late February 2008. Selling, general and administrative costs increased largely due to non-cash charges associated with stock and option grants made to Directors and certain key employees in the second and third quarters of 2008. Amortization of the discount on the debenture was recognized for only one month of the Comparable Quarter, versus the full three months of the Current Quarter, which accounts for the increase.

Other Income (Expense). Other expenses increased from \$144,862 for the Comparable Quarter to \$277,945 for the Current Quarter. This increase is primarily the result of increases in interest expense which increased from \$119,697 in the Comparable Quarter to \$280,000 in the Current Quarter.

Net Income. Net income decreased by 32.7%, from \$3,375,015 for the three months ended March 31, 2008 to \$2,271,353 for the three months ended March 31, 2009, primarily as a result of the decrease in average selling price and increased non-cash expenses as described above.

LIQUIDITY AND CAPITAL RESOURCES

Our capital resources consist primarily of cash flows from our oil producing properties. Our level of earnings and cash flows depend upon many factors, including the price we receive for crude oil we produce.

As of March 31, 2009, the Company had cash and cash equivalents of \$19,609,128, other current assets of \$4,816,323 and current liabilities of \$19,302,262. For the three months ended March 31, 2009, our primary sources of liquidity were \$5,790,716 provided by operating activities and \$762,770 in cash provided by financing activities. This cash balance of \$19,609,128 represents an increase of \$6,369,915 over our cash balance as of December 31, 2008 and an increase of \$6,874,783 over our cash balance as of March 31, 2008.

Net cash provided by operating activities was \$5,790,716 for the Current Quarter compared to net cash provided by operating activities of \$1,099,394 for the Comparable Quarter. The increase in net cash provided by operating activities was the result of a number of significant changes in our operating accounts. Cash from operating activities decreased due to a reduction in net income and higher cash payments of income and other taxes. However, this was more than offset by increased operating cash flows resulting from an increase in the non-cash benefit arising from Depreciation of oil and gas properties in the Current Quarter, and from a slight increase in the level of our accounts payable during the Current Quarter compared to a large reduction in accounts payable in the Comparable Quarter.

Net cash used in investing activities was \$171,649 for the three months ended March 31, 2009 compared to \$1,134,534 for the same period in 2008. This decrease is primarily due to the significant decrease in purchase of oil and gas properties of \$734,940 during the three months ended March 31, 2009.

Net cash provided by financing activities was \$762,770 for the three months ended March 31, 2009 compared to \$13,455,974 for the same period in 2008, which was primarily a result of the financing by Lotusbox Investments Limited, which was completed in the first quarter of 2008.

The Company has paid for the development of its producing oil wells and oil wells under construction with cash from operations as well as by funds raised as a result of the financing by Lotusbox Investments Limited. To fully implement the Company's business plan and growth strategy the Company may require additional resources. The Company is continually evaluating opportunities to expand production and grow the Company's operations, including via acquisition of additional leased oil fields or expansion into related businesses such as the provision of oil field

services. The Company's ability to obtain additional capital to achieve certain of these expansion goals will depend on market conditions, national and global economies and other factors beyond its control. We cannot assure you that the Company will be able to implement or capitalize on various financing alternatives or otherwise obtain required capital, the need for which could be substantial given the Company's business and development goals. However, the Company anticipates that cash flows from operations will be sufficient to fund continued development at the four oil fields it currently operates.

Capital Commitments

As of March 31, 2009, the Company had commitments for capital expenditure of \$784,000 with a contractor to complete the drilling of 7 oil wells under construction.

Crude Oil Price Trends

Changes in crude oil prices significantly affect our revenues, financial condition and cash flows. Markets for crude oil have historically been volatile and we expect this trend to continue. Prices for crude oil typically fluctuate in response to relatively minor changes in supply and demand, market uncertainty, seasonal, economic, political and other factors beyond our control. Although we are unable to accurately predict the prices we receive for our oil, any significant or sustained decline in oil prices may materially adversely affect our financial condition, liquidity, ability to obtain future debt or equity financing and operating results.

Production Trends

Like all other oil exploration and production companies, we experience natural production declines at existing wells. We recognize that oil production from a given well naturally decreases over time and that a downward trend in our overall production could occur unless the natural declines are offset by additional production from new wells, investment in measures to increase the production from existing wells (such as CO₂ and water injection), or acquisitions of producing properties. If any production declines we experience are other than a temporary trend, and if we cannot economically replace our reserves, our results may be materially adversely affected and our stock price may decline. Our future growth will depend upon our ability to continue to add oil reserves in excess of our production at a reasonable cost.

We have achieved increased production and revenue from our four oilfields as a result of our significant investments in these areas. As of March 31, 2009, we have drilled 254 wells out of the 675 wells that we believe can be drilled in our four oilfields. Of these, 247 are produced oil in the Current Quarter. The remaining 7 have been drilled but not placed into production due to the relatively low oil price. We anticipate that we will continue to increase production in these areas. We are also actively seeking additional oil fields that we can lease and operate.

Operating Expense Trends

Costs associated with oil well drilling, improvement (e.g. fracturing and water injection), and maintenance in the northeastern Chinese oil fields where we operate have remained relatively constant over the past year. Similarly, service rates charged by oil field service companies have remained relatively constant over the past year. We are also generally somewhat buffered from changes in world oil prices due to the impact of the government oil surcharge tax. When prices rise, the amount of oil surcharge tax that we are required to pay increases; conversely price declines reduce the amount of oil surcharge tax. In the Current Quarter, the approximate amount of oil surcharge tax we paid was \$0.17 per barrel, as compared to \$19.25 per barrel in the Comparable Quarter.

CRITICAL ACCOUNTING POLICIES

Proved Reserves. Proved oil and gas reserves, as defined by SEC Regulation S-X Rule 4-10(a) (2i), (2ii), (2iii), (3) and (4), are the estimated quantities of crude oil that geological and engineering data demonstrate with reasonable certainty to be recoverable in future years from known reservoirs under existing economic and operating conditions, i.e., prices and costs as of the date the estimate is made. Prices include consideration of changes in existing prices provided only by contractual arrangements, but not on escalations based upon future conditions.

The Company's estimates of proved reserves are made using available geological and reservoir data as well as production performance data. These estimates, made by the Company's engineers, are reviewed annually and revised, either upward or downward, as warranted by additional data. Revisions are necessary due to changes in, among other things, reservoir performance, prices, economic conditions and governmental restrictions. Decreases in prices, for example, may cause a reduction in some proved reserves due to reaching economic limits sooner.

Properties and Equipment. The Company uses the full cost method of accounting for exploration and development activities as defined by the SEC. Under this method of accounting, the costs of unsuccessful, as well as successful, exploration and development activities are capitalized as properties and equipment. This includes any internal costs that are directly related to exploration and development activities but does not include any costs related to production, general corporate overhead or similar activities. Gain or loss on the sale or other disposition of oil and gas properties is not recognized, unless the gain or loss would significantly alter the relationship between capitalized costs and proved reserves of oil and natural gas attributable to a country. The application of the full cost method of accounting for oil and gas properties generally results in higher capitalized costs and higher DD&A rates compared to the successful efforts method of accounting for oil and gas properties.

RECENT ACCOUNTING PRONOUNCEMENTS

On December 31, 2008, the SEC published the revised rules and interpretations updating its oil and gas reporting requirements. Many of the revisions are updates to definitions in existing oil and gas rules to make them consistent with the petroleum resources management system, which is a widely accepted standard for the management of petroleum resources that was developed by several industry organizations. Key revisions include the ability to include nontraditional resources in reserves, the use of new technology for determining reserves, permitting disclosure of probable and possible reserves, and changes to the pricing used in determining reserves. To determine reserves companies must use a 12-month average price. The Company is required to comply with the amended disclosure requirement for registration statements filed after January 1, 2010, and for annual reports for fiscal years ending on or after December 15, 2009. Early adoption is not permitted. The Company is currently assessing the impact that the adoption will have on the Company's disclosures, operating results, financial position and cash flows.

In December 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 141 (revised 2007), "Business Combinations" ("SFAS 141R"). SFAS 141R establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any noncontrolling interest in the acquiree and the goodwill acquired. SFAS 141R also establishes disclosure requirements to enable the evaluation of the nature and financial effects of the business combination. This statement is effective beginning January 1, 2009. The adoption of this statement did not have a material impact on the Company's financial position and results of operations.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements – an amendment of Accounting Research Bulletin No. 51." SFAS No. 160 establishes accounting and reporting standards for noncontrolling interests (previously referred to as minority interests) in subsidiaries. SFAS No. 160 requires that a noncontrolling interest in a subsidiary should be accounted for as a component of equity separate from the parent's equity, rather than as a liability. SFAS No. 160 was effective for the Company on January 1, 2009, and is being applied prospectively, except for the presentation and disclosure requirements, which have been applied retrospectively. The adoption of this statement did not have a material impact on the Company's financial position and results of operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Not required.

ITEM 4T. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this Quarterly Report on Form 10-Q (the "Evaluation Date"). The purpose of this evaluation is to determine if, as of the Evaluation Date, our disclosure controls and procedures were operating effectively such that the information, required to be disclosed in our Securities and Exchange Commission ("SEC") reports (i) was recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) was accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, our disclosure controls and procedures were operating effectively.

Changes in Internal Control over Financial Reporting

There have been no significant changes in our internal controls over financial reporting that occurred during the second quarter of fiscal year 2008 that have materially affected, or are reasonably likely to materially affect our internal controls over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On August 17, 2007, the Company filed a complaint in the Third Judicial District Court in and for Salt Lake County, State of Utah, naming Topworth Assets Limited ("Topworth") as the principal defendant. The Company asserted conversion, unjust enrichment, breach of warranty, fraud, and for declaratory relief causes of action. The actions arise out of the issuance of 3,715,000 shares of the Company's stock to Topworth in or about early 2004. The Company was able to recover from Topworth 2,715,000 of these shares shortly after their issuance, and now contends it is entitled to recover the remaining 1,000,000 shares because Topworth received all the stock by fraud. The Company sought and obtained an injunction preventing Topworth's transfer of this disputed stock.

In response to the Company's complaint and the issuance of the injunction against it, Topworth filed an answer to the complaint and a counterclaim against the Company, Wei Guo Ping, and Wang Hong Jun on December 11, 2007. Topworth asserts various legal theories that contend it performed consulting services to the Company; was entitled to all of the disputed stock as compensation for services; and was improperly required to return some of the disputed stock to the Company.

On March 5, 2009, the Company and Topworth entered into a Settlement and Release Agreement (the "Settlement") whereby the Company and Topworth agreed to mutually release each other from any and all claims they have against each other, including any and all claims and counterclaims pending in the action brought by the Company in the Third District Court, State of Utah, Civil Case Number 070911868 (the "Action"). Under the Settlement, the parties' shall dismiss the Company's complaint and Topworth's counterclaim. The 627,360 shares of common stock in the Company held in the name of Topworth (the "Shares") that were a subject of dispute in the Action shall be disposed of on the following material terms: Topworth shall deliver all certificates representing the Shares to a designated custodian; the custodian shall hold the certificates until at least June 26, 2009; and, thereafter, the custodian shall release 100,000 of the Shares to Topworth each month until November 30, 2009, when Topworth will be entitled to receive all of the remaining Shares. The custodian shall release the Shares without any restriction on Topworth's ability transfer or sell the Shares imposed by the Company subject to restrictions under the Securities Act of 1933, as amended. The Shares have been held in Topworth's name and have been included in the Company's outstanding shares; as such the Shares will not have an additional dilutive effect on the Company's shareholders. Subsequently, Topworth, through its counsel, filed a stipulation and motion for order to dismiss with prejudice the Action in March 2009.

We know of no other material, active or pending legal proceedings against our Company, and, other than as disclosed above, we are not involved as a plaintiff in any other material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

ITEM 1A. RISK FACTORS

There has been no material change in the Company's risk factors as previously disclosed in the Company's Annual Report on Form 10-K filed with the SEC on March 30, 2009.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

19

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

Exhibit No.	Description of Exhibit
31.1	Certifications pursuant to Rule 13a-14(a) or 15d-14(a) under the Securities Exchange Act of 1934, as amended, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certifications pursuant to Rule 13a-14(a) or 15d-14(a) under the Securities Exchange Act of 1934, as amended, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.1	Certifications pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
32.2	Certifications pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
