UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended: September 30, 2016

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OF 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the transition period from: _____ to _____

Commission file number: 51018

THE BANCORP, INC.

Edgar Filing: Bancorp, Inc. - Form 10-Q

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

23-3016517
(IRS Employer
Identification No.)

409 Silverside Road
Wilmington, DE 19809
(Address of principal
executive offices) (Zip code)

Registrant's telephone number, including area code: (302) 385-5000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Edgar Filing: Bancorp, Inc. - Form 10-Q

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

(Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

As of November 4, 2016 there were 55,319,204 outstanding shares of common stock, \$1.00 par value.

THE BANCORP, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Structure of Company

The Bancorp, Inc. (the Company) is a Delaware corporation and a registered financial holding company. Its primary subsidiary is The Bancorp Bank (the Bank) which is wholly owned by the Company. The Bank is a Delaware chartered commercial bank located in Wilmington, Delaware and is a Federal Deposit Insurance Corporation (FDIC) insured institution. In its continuing operations, the Bank has four primary lines of specialty lending: securities-backed lines of credit (SBLOC), leasing, Small Business Administration (SBA) loans and loans generated for sale into capital markets primarily through commercial mortgage backed securities (CMBS). Through the Bank, the Company also provides banking services nationally, which include prepaid cards, private label banking, institutional banking, card payment and other payment processing. European operations are comprised of three operational service subsidiaries, Transact Payment Services Group Limited, Transact Payment Services Limited and Transact Payment Services Group-Bulgaria EOOD and its subsidiary, Transact Payments Limited, which offer prepaid card and electronic money issuing services.

The Company and the Bank are subject to regulation by certain state and federal agencies and, accordingly, they are examined periodically by those regulatory authorities. As a consequence of the extensive regulation of commercial banking activities, the Company's and the Bank's businesses may be affected by state and federal legislation and regulations.

Note 2. Significant Accounting Policies

Basis of Presentation

The financial statements of the Company, as of September 30, 2016 and for the three and nine month periods ended September 30, 2016 and 2015, are unaudited. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. However, in the opinion of management, these interim financial statements include all necessary adjustments to fairly present the results of the interim periods presented. The unaudited interim consolidated financial statements should be read in conjunction with the audited financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 (2015 Form 10-K Report). Note T in those financial statements presents restated interim financial statements as described therein. The results of operations for the nine month period ended September 30, 2016 may not necessarily be indicative of the results of operations for the full year ending December 31, 2016.

Note 3. Share-based Compensation

The Company recognizes compensation expense for stock options in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 718, "Stock Based Compensation". The expense of the option is generally measured at fair value at the grant date with compensation expense recognized over the service period, which is typically the vesting period. For grants subject to a service condition, the Company utilizes the Black-Scholes

option-pricing model to estimate the fair value of each option on the date of grant. The Black-Scholes model takes into consideration the exercise price and expected life of the options, the current price of the underlying stock and its expected volatility, the expected dividends on the stock and the current risk-free interest rate for the expected life of the option. The Company's estimate of the fair value of a stock option is based on expectations derived from historical experience and may not necessarily equate to its market value when fully vested. In accordance with ASC 718, the Company estimates the number of options for which the requisite service is expected to be rendered. At September 30, 2016, the Company had three stock-based compensation plans, which are more fully described in its 2015 Form 10-K Report.

The Company granted 300,000 stock options with a vesting period of four years in the first nine months of 2016. The weighted average grant-date fair value was \$2.89. The Company did not grant stock options in the first nine months of 2015. There were no stock options exercised in the nine month periods ended September 30, 2016 or September 30, 2015.

Edgar Filing: Bancorp, Inc. - Form 10-Q

A summary of the status of the Company's equity compensation plans is presented below.

	Shares	Weighted average exercise price		Weighted- average remaining contractual term (years)	Aggregate intrinsic value	
Outstanding at January 1, 2016	1,977,500	\$	8.58	5.47	\$	-
Granted	300,000	6.75		3.67	-	
Exercised	-	-		-	-	
Expired	(1,000)	20.98		-	-	
Forfeited	(240,000)	8.28		-	-	
Outstanding at September 30, 2016	2,036,500	\$	8.34	5.49	\$	-
Exercisable at September 30, 2016	1,661,500	\$	8.55	4.66	\$	-

The Company granted 789,000 restricted stock units (RSUs) in the first nine months of 2016 of which 620,000 have a vesting period of three years and 169,000 have a vesting period of one year. 489,000 RSUs have a fair value of \$4.50 and 300,000 RSUs have a fair value of \$6.75. The Company granted 86,992 RSUs with a vesting period of two years at a fair value of \$9.11 in the first nine months of 2015. The total fair value of RSUs vested for the nine months ended September 30, 2016 and 2015 was \$830,000 and \$517,000, respectively.

A summary of the status of the Company's RSUs is presented below.

	Shares	Weighted- average grant date fair value		Average remaining contractual term (years)
Outstanding at January 1, 2016	168,045	\$	9.88	1.12
Granted	789,000	5.36		-
Vested	(84,020)	9.88		-
Forfeited	(41,250)	6.12		-
Outstanding at September 30, 2016	831,775	\$	5.77	1.88

As of September 30, 2016, there was a total of \$4.3 million of unrecognized compensation cost related to unvested awards under share-based plans. This cost is expected to be recognized over a weighted average period of approximately two years. Related compensation expense for the nine months ended September 30, 2016 and 2015 was \$2.0 million and \$1.5 million, respectively.

Note 4. Earnings Per Share

The Company calculates earnings per share under ASC 260, "Earnings Per Share". Basic earnings per share exclude dilution and are computed by dividing income available to common shareholders by the weighted average common shares outstanding during the period. Diluted earnings per share takes into account the potential dilution that could occur if securities or other contracts to issue common stock were exercised and converted into common stock.

Edgar Filing: Bancorp, Inc. - Form 10-Q

The following tables show the Company's earnings per share for the periods presented:

	For the three months ended September 30, 2016

	\$ 1,320,359	\$ 1,334,927	\$ 93,495	\$ 91,787

At September 30, 2016 and December 31, 2015, investment securities with a carrying value of approximately \$614.0 million and \$472.3 million, respectively, were pledged as collateral to secure Federal Home Loan Bank advances, letters of credit and securities sold under repurchase agreements as required or permitted by law.

Fair value of available-for-sale securities are based on the fair market value supplied by a third-party market data provider, while the fair value of held-to-maturity securities are based on the present value of cash flows, which discounts expected cash flows from principal and interest using yield to maturity at the measurement date. The Company periodically reviews its investment portfolio to determine whether unrealized losses are other than temporary, based on an evaluation of the creditworthiness of the issuers/guarantors as well as the underlying collateral, if applicable, in addition to the continuing performance of the securities. The amount of the credit impairment is calculated by estimating the discounted cash flows for those securities. The Company did not recognize any other-than-temporary impairment charges in the first nine months of 2016.

Edgar Filing: Bancorp, Inc. - Form 10-Q

The table below indicates the length of time individual securities had been in a continuous unrealized loss position at September 30, 2016 (dollars in thousands):

Held-to-maturity Description of Securities	Number of securities	Less than 12 months		12 months or longer		Total	
		Fair Value	Unrealized losses	Fair Value	Unrealized losses	Fair Value	Fair Value
Corporate and other debt securities:							
Single issuers	1	\$ -	\$ -	\$ 5,558	\$ (3,456)	\$ 5,558	\$ 5,558
Pooled	1	25,563	(42)	-	-	25,563	25,563
Total temporarily impaired investment securities	2	\$ 25,563	\$ (42)	\$ 5,558	\$ (3,456)	\$ 31,121	\$ 31,121

Other securities included in the held-to-maturity classification at September 30, 2016 consisted of three securities secured by diversified portfolios of corporate securities, one bank senior note, two single-issuer trust preferred securities and one pooled trust preferred security.

A total of \$18.0 million of other debt securities - single issuers is comprised of the following: (i) amortized cost of the two single-issuer trust preferred securities of \$10.9 million, of which one security for \$1.9 million was issued by a bank and one security for \$9.0 million was issued by an insurance company; and (ii) the book value of a bank senior note of \$7.0 million.

A total of \$75.5 million of other debt securities – pooled is comprised of three securities consisting of diversified portfolios of corporate securities.

The following table provides additional information related to the Company's single issuer trust preferred securities as of September 30, 2016 (in thousands):

Single issuer	Book value	Fair value	Unrealized gain/(loss)	Credit rating
Security A	\$ 1,909	\$ 2,025	\$ 116	Not rated
Security B	9,052	5,871	(3,181)	Not rated

Class: All of the above are trust preferred securities.

The Company has evaluated the securities in the above tables and has concluded that none of these securities has impairment that is other-than-temporary. The Company evaluates whether a credit impairment exists by considering primarily the following factors: (a) the length of time and extent to which the fair value has been less than the amortized cost of the security, (b) changes in the financial condition, credit rating and near-term prospects of the issuer, (c) whether the issuer is current on contractually obligated interest and principal payments, (d) changes in the financial condition of the security's underlying collateral and (e) the payment structure of the security. The Company's best estimate of expected future cash flows, which is used to determine the credit loss amount, is a quantitative and qualitative process that incorporates information received from third-party sources along with internal assumptions and judgments regarding the future performance of the security. The Company concluded that most of the securities that are in an unrealized loss position are in a loss position because of changes in market interest rates after the securities were purchased. Securities that have been in an unrealized loss position for 12 months or longer include other securities whose market values are sensitive to market interest rates and changes in credit quality. The Company's unrealized loss for other of the debt securities, which include three single issuer trust preferred securities and one pooled trust preferred security, is primarily related to general market conditions, including a lack of liquidity in the market. The severity of the temporary impairments in relation to the carrying amounts of the individual investments is consistent with market developments. The Company's analysis for each investment is performed at the security level. As a result of its review, the Company concluded that other-than-temporary impairment did not exist due to the Company's ability and intention to hold these securities to recover their amortized cost basis.

Note 6. Loans

The Company has several lending lines of business including SBA loans, direct lease financing, SBLOC and other specialty and consumer lending. The Company also originates loans for sale to other financial institutions which issue commercial mortgage backed securities or to secondary government guaranteed loan markets. These sales are accounted for as true sales and there is no continuing involvement in these loans after the sale. Servicing rights on these loans are not retained. The Company has elected fair value treatment for these loans to better reflect the economics of the transactions. At September 30, 2016, the fair value of the loans held for sale was \$563.0 million and the unpaid principal balance was \$550.6 million. Included in the gain on sale of loans in the Statements of Operations were gains recognized from changes in fair value of \$6.3 million for the nine months ended September 30, 2016. There were no changes in fair value related to credit risk. Interest earned on loans held for sale during the period held are recorded in Interest Income-Loans, including fees on the Statements of Operations.

Edgar Filing: Bancorp, Inc. - Form 10-Q

In the second quarter of 2016, the Company purchased approximately \$60 million in fleet vehicle leases which resulted in a customer list intangible of \$1.8 million.. The balance of the \$8.9 million purchase price was allocated to premium which is being amortized over the estimated average lives of the leases. The Company expects to complete its accounting for this purchase by the end of the fourth quarter of 2016.

The Company analyzes credit risk prior to making loans on an individual loan basis. The Company considers relevant aspects of the borrowers' financial position and cash flow, past borrower performance, management's knowledge of market conditions, collateral and the ratio of loan amounts to estimated collateral value in making its credit determinations.

Major classifications of loans, excluding loans held for sale, are as follows (in thousands):

	September 30, 2016	December 31, 2015
SBA non real estate	\$ 74,262	\$ 68,887
SBA commercial mortgage	117,053	114,029
SBA construction	6,317	6,977
SBA loans *	197,632	189,893
Direct lease financing	332,632	231,514
SBLOC	621,456	575,948
Other specialty lending	20,076	48,315
Other consumer loans	19,375	23,180
	1,191,171	1,068,850
Unamortized loan fees and costs	7,066	9,227
Total loans, net of deferred loan costs	\$ 1,198,237	\$ 1,078,077

Included in the table above are demand deposit overdrafts reclassified as loan balances totaling \$1.8 million and \$2.8 million at September 30, 2016 and December 31, 2015, respectively. Overdraft charge-offs and recoveries are reflected in the allowance for loan and lease losses.

Note 7. Transactions with Affiliates

The Company entered into a space sharing agreement for office space in New York, New York with Resource America, Inc. commencing in September 2011, which terminated January 31, 2015. The Company paid only its proportionate share of the lease rate to a lessor which was an unrelated third party. The former Chairman of the Board of Resource America, Inc. is the father of the Chairman of the Board and the spouse of the former Chief Executive Officer of the Company. The former Chief Executive Officer of Resource America, Inc. is the brother of the Chairman of the Board and the son of the former Chief Executive Officer of the Company. Rent expense was 50% of the fixed rent, real estate tax and the base expense charges. Rent expense was \$0 for the nine months ended September 30, 2016 and \$9,000 for the nine months ended September 30, 2015.

The Company entered into a space sharing agreement for office space in New York, New York with Atlas Energy, L.P. commencing in May 2012. This agreement expired and was terminated in May 2015. The Company paid only its proportionate share of the lease rate to a lessor which was an unrelated third party. The Chairman of the Board of the general partner of Atlas Energy, L.P. is the brother of the Chairman of the Board and the son of the former Chief Executive Officer of the Company. The Chief Executive Officer and President of Atlas Energy, L.P. is the father of the Chairman of the Board and the spouse of the former Chief Executive Officer of the Company. Rent expense was 50% of the fixed rent, real estate tax payment and the base expense charges. Rent expense was \$0 and \$35,000 for the nine months ended September 30, 2016 and 2015, respectively.

The Bank maintains deposits for various affiliated companies totaling approximately \$14.6 million and \$33.4 million as of September 30, 2016 and December 31, 2015, respectively.

The Bank has entered into lending transactions in the ordinary course of business with directors, executive officers, principal stockholders and affiliates of such persons. All loans were made on substantially the same terms, including interest rate and collateral, as those prevailing at the time for comparable loans with persons not related to the Bank. At September 30, 2016, these loans were current as to principal and interest payments and did not involve more than normal risk of collectability. Loans to these related parties included in Loans, net of deferred loan fees and costs, amounted to \$947,000 at September 30, 2016 and \$1.8 million at December 31, 2015.

The Bank periodically purchases securities under agreements to resell and engages in other securities transactions as follows. The Company executed transactions through J.V.B. Financial Group, LLC, (JVB), a broker dealer in which the Company’s Chairman has a minority interest. The Company’s Chairman also serves as Vice Chairman of Institutional Financial Markets Inc., the parent company

of JVB. The Company purchased securities under agreements to resell through JVB primarily consisting of G.N.M.A. certificates which are full faith and credit obligations of the United States government issued at competitive rates. JVB was in compliance with all of the terms of the agreements at September 30, 2016 and had complied with all terms for all prior repurchase agreements. There were \$39.4 million of repurchase agreements outstanding at September 30, 2016 and none outstanding at December 31, 2015.

The Company entered into a consulting agreement with Betsy Z. Cohen, its former Chief Executive Officer, which was effective January 1, 2015 and expires on December 31, 2016. Under the agreement, Mrs. Cohen acts as an advisor to the Board of Directors and executive management with respect to business strategies, the performance of various lines of business, and other corporate and regulatory matters. The agreement is intended to preserve for the Company Mrs. Cohen's insight and experience with respect to the Company, the Bank and the financial services industry generally. The agreement provides for a monthly consulting fee of \$30,000, and the provision of office space and administrative support. We have not paid any monthly fees under this agreement pending continuing regulatory review.

Note 8. Fair Value Measurements

ASC 825, "Financial Instruments Available for Sale", requires disclosure of the estimated fair value of an entity's assets and liabilities considered to be financial instruments. For the Company, as for most financial institutions, the majority of its assets and liabilities are considered to be financial instruments. However, many of such instruments lack an available trading market as characterized by a willing buyer and willing seller engaging in an exchange transaction. Accordingly, estimated fair values are determined by the Company using the best available data and an estimation methodology it believes to be suitable for each category of financial instruments. Also, it is the Company's general practice and intent to hold its financial instruments to maturity whether or not categorized as "available-for-sale" and not to engage in trading or sales activities, except for the sale of commercial loans to secondary markets. For fair value disclosure purposes, the Company utilized certain value measurement criteria required under the ASC 820, "Fair Value Measurements and Disclosures", and discussed below.

Estimated fair values have been determined by the Company using the best available data and an estimation methodology it believes to be suitable for each category of financial instruments. Changes in the assumptions or methodologies used to estimate fair values may materially affect the estimated amounts. Also, there may not be reasonable comparability between institutions due to the wide range of permitted assumptions and methodologies in the absence of active markets. This lack of uniformity gives rise to a high degree of subjectivity in estimating financial instrument fair values.

Cash and cash equivalents, which are comprised of cash and due from banks, the Company's balance at the Federal Reserve Bank and securities purchased under agreements to resell, had recorded values of \$356.1 million and \$1.16 billion as of September 30, 2016 and December 31, 2015, respectively, which approximated fair values.

The estimated fair values of investment securities are based on quoted market prices, if available, or estimated using a methodology based on management's inputs. The fair values of the Company's investment securities held-to-maturity and loans held for sale are based on using "unobservable inputs" that are the best information available in the circumstances. Level 3 investment securities fair values are based on the present value of cash flows, which discounts expected cash flows from principal and interest using yield to maturity at the measurement date.

FHLB and Atlantic Central Bankers Bank stock is held as required by those respective institutions and is carried at cost. Federal law requires a member institution of the FHLB to hold stock according to predetermined formulas. Atlantic Central Bankers Bank requires its correspondent banking institutions to hold stock as a condition of membership.

Commercial loans held for sale have estimated fair values based upon market indications of the sales price of such loans from recent sales transactions.

The net loan portfolio at September 30, 2016 and December 31, 2015 has been valued using the present value of discounted cash flow where market prices were not available. The discount rate used in these calculations is the estimated current market rate adjusted for credit risk. Accrued interest receivable has a carrying value that approximates fair value

On December 30, 2014, the Bank entered into an agreement for, and closed on, the sale of a portion of its discontinued commercial loan portfolio. The purchaser of the loan portfolio was a newly formed entity, 2014-1 LLC (Walnut Street). The price paid to the Bank for the loan portfolio which had a face value of approximately \$267.6 million, was approximately \$209.6 million, of which approximately \$193.6 million was in the form of two notes issued by Walnut Street to the Bank; a senior note in the principal amount of approximately \$178.2 million bearing interest at 1.5% per year and maturing in December 2024 and a subordinate note in the principal amount of approximately \$15.4 million, bearing interest at 10.0% per year and maturing in December 2024. The balance of these notes comprises the balance of the investment in unconsolidated entity. The fair value was established by the sales price and subsequently subjected to

cash flow analysis. The change in value of investment in unconsolidated entity in the income statement includes interest paid and changes in estimated fair value.

Assets held for sale as of September 30, 2016 are held at the lower of cost basis or market value. For loans, market value was determined using the income approach which converts expected cash flows from the loan portfolio by unit of measurement to a present value estimate. Unit of measurement was determined by loan type and for significant loans on an individual loan basis. The fair values of the Company's loans classified as assets held for sale are based on "unobservable inputs" that are the best information available in the circumstances. Level 3 fair values are based on the present value of cash flows by unit of measurement. For commercial loans, a market adjusted rate to discount expected cash flows from outstanding principal and interest to expected maturity at the measurement date, was utilized. For other real estate owned, market value was based upon appraisals of the underlying collateral by third party appraisers, reduced by 7% to 10% for estimated selling costs.

The estimated fair values of demand deposits (comprising interest and non-interest bearing checking accounts, savings, and certain types of money market accounts) are equal to the amount payable on demand at the reporting date (generally, their carrying amounts). The fair values of securities sold under agreements to repurchase and short term borrowings are equal to their carrying amounts as they are overnight borrowings.

Time deposits and subordinated debentures have a fair value estimated using a discounted cash flow calculation that applies current interest rates to discount expected cash flows. Based upon time deposit maturities at September 30, 2016, the carrying values approximate their fair values. The carrying amount of accrued interest payable approximates its fair value.

The fair values of interest rate swaps are determined using models that use readily observable market inputs and a market standard methodology applied to the contractual terms of the derivatives, including the period to maturity and interest rate indices.

The fair value of commitments to extend credit is estimated based on the amount of unamortized deferred loan commitment fees. The fair value of letters of credit is based on the amount of unearned fees plus the estimated cost to terminate the letters of credit. Fair values of unrecognized financial instruments, including commitments to extend credit, and the fair value of letters of credit are considered immaterial.

The following tables provide information regarding carrying amounts and estimated fair values (in thousands):

In addition, ASC 820, “Fair Value Measurements and Disclosures”, establishes a common definition for fair value to be applied to assets and liabilities. It clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It also establishes a framework for measuring fair value and expands disclosures concerning fair value measurements. ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Level 1 valuation is based on quoted market prices for identical assets or liabilities to which the Company has access at the measurement date. Level 2 valuation is based on other observable inputs for the asset or liability, either directly or indirectly. This includes quoted prices for similar assets in active or inactive markets, inputs other than quoted prices that are observable for the asset or liability such as yield curves, volatilities, prepayment speeds, credit risks, default rates, or inputs that are derived principally from, or corroborated through, observable market data by market-corroborated reports. Level 3 valuation is based on “unobservable inputs” which the Company believes is the best information available in the circumstances. A financial instrument’s level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The changes in the Company’s Level 3 assets measured at fair value on a recurring basis, segregated by fair value hierarchy level, are summarized below (in thousands):

Fair Value Measurements Using

Assets measured at fair value on a nonrecurring basis, segregated by fair value hierarchy, during the periods shown are summarized below (in thousands):

Description	Fair value September 30, 2016	Fair Value Measurements at Reporting Date Using		
		Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs * (Level 3)
Impaired loans - collateral dependent	\$ 5,481	\$ -	\$ -	\$ 5,481
Intangible assets	5,682	-	-	5,682
	\$ 11,163	\$ -	\$ -	\$ 11,163

Description	Fair value December 31, 2015	Fair Value Measurements at Reporting Date Using		
		Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs * (Level 3)
Impaired loans - collateral dependent	\$ 2,428	\$ -	\$ -	\$ 2,428
Intangible assets	4,929	-	-	4,929
	\$ 7,357	\$ -	\$ -	\$ 7,357

(1) The method of valuation approach for the impaired loans was the market value approach based upon appraisals of the underlying collateral by external appraisers, reduced by 7-10% for estimated selling costs. Intangible assets are valued based upon internal analyses.

At September 30, 2016, impaired loans and troubled debt restructuring that are measured based on the value of underlying collateral have been presented at their fair value, less costs to sell, of \$5.5 million through specific reserves and other write downs of \$1.4 million or by recording charge-offs when the carrying value exceeds the fair value. Included in the impaired balance at September 30, 2016 were six troubled debt restructured loans with a balance of \$1.6 million which had specific reserves of \$565,000. Valuation techniques consistent with the market and/or cost approach were used to measure fair value and primarily included observable inputs for the individual impaired loans being evaluated such as recent sales of similar assets or observable market data for operational or

carrying costs. In cases where such inputs were unobservable, the loan balance is reflected within the Level 3 hierarchy. The fair value of other real estate owned is based on an appraisal of the property using the market approach for valuation.

Note 9. Derivatives

The Company utilizes derivative instruments to assist in the management of interest rate sensitivity by modifying the repricing, maturity and option characteristics on commercial real estate loans held for sale. These instruments are not accounted for as hedges. As of September 30, 2016, the Company had entered into twenty-two interest rate swap agreements with an aggregate notional amount of \$142.8 million. These swap agreements provide for the Company to receive an adjustable rate of interest based upon the three-month London Interbank Offering Rate (LIBOR). The Company recorded a loss of \$5.4 million for the nine months ended September 30, 2016 to recognize the fair value of the derivative instruments which is reported in gain (loss) on sale of loans. The amount payable by the Company under these swap agreements was \$5.3 million at September 30, 2016 which is reported in other liabilities. The Company had minimum collateral posting thresholds with certain of its derivative counterparties and had posted cash collateral of \$7.0 million as of September 30, 2016.

The maturity dates, notional amounts, interest rates paid and received and fair value of the Company's remaining interest rate swap agreements as of September 30, 2016 are summarized below (in thousands):

Maturity date	September 30, 2016			
	Notional amount	Interest rate paid	Interest rate received	Fair value

Total	\$ 142,800			\$ (5,321)

Note 10. Other Identifiable Intangible Assets

On November 29, 2012, the Company acquired certain software rights and personnel of a prepaid card program manager in Europe for approximately \$1.8 million. The Company allocated the majority of the \$1.8 million acquisition cost to software used for its prepaid card business, with related services provided by its European data processing subsidiary. The software is being amortized over eight years. Amortization expense is \$217,000 per year (\$800,000 over the next five years). The gross carrying amount of the software is \$1.8 million and as of September 30, 2016 the accumulated amortization was \$1.0 million.

The Company accounts for its customer list in accordance with ASC 350, "Intangibles-Goodwill and Other". The acquisition of the Stored Value Solutions division of Marshall Bank First in 2007 resulted in a customer list intangible of \$12.0 million which is being amortized over a 12 year period. Amortization expense is \$1.0 million per year (\$3.9 million over the next five years). The gross carrying amount of the customer list intangible is \$12.0 million and as of September 30, 2016 the accumulated amortization was \$8.8 million. For both 2016 and 2015, amortization expense for the third quarter was \$250,000 and for the nine months was \$750,000. In the second quarter of 2016, the Company purchased approximately \$60 million in fleet vehicle leases which resulted in a customer list intangible of \$1.8 million which is being amortized over a 12 year period. Amortization expense is \$176,000 per year (\$880,000 over the next five years). The Company preliminarily allocated the \$1.8 million to the customer list and expects to complete its accounting for this purchase by the fourth quarter of 2016. Until completion, the above allocation of purchase price is considered preliminary. As of September 30, 2016 the gross carrying amount of the customer list intangible is \$1.8 million and the accumulated amortization was \$149,000. For 2016, estimated amortization expense for the third quarter was \$100,000 and for the nine months was \$149,000.

Note 11. Recent Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update (ASU) 2014-09, “Revenue from Contracts with Customers”. This ASU establishes a comprehensive revenue recognition standard for virtually all industries in U.S. GAAP, including those that previously followed industry-specific guidance such as the real estate and construction industries. The revenue standard’s core principle is built on the contract between a vendor and a customer for the provision of goods and services. It attempts to depict the exchange of rights and obligations between the parties in the pattern of revenue recognition based on the consideration to which the vendor is entitled. To accomplish this, the standard requires five basic steps: (i) identify the contract with the customer, (ii) identify the performance obligations in the contract, (iii) identify the transaction price, (iv) allocate the transaction price to the performance obligations in the contract, (v) recognize revenue when (or as) the entity satisfies the performance obligation. Three basic transition methods are available - full retrospective, retrospective with certain practical expedients, and a cumulative effect approach. Under the cumulative effect alternative, an entity would apply the new revenue standard only to contracts that are incomplete under legacy U.S. GAAP at the date of initial application and recognize the cumulative effect of the new standard as an adjustment to the opening balance of retained earnings. The guidance in this ASU is effective for annual periods and interim reporting periods within those annual periods, beginning after December 15, 2017. The Company does not expect this ASU to have a significant impact on its financial condition or results of operations.

In January 2016, the FASB issued ASU 2016-11, “Financial Instruments-Overall (Subtopic 825-10) Recognition and Measurement of Financial Assets and Financial Liabilities”. This ASU revises an entity’s accounting related to the classification and measurement of investments in equity securities and the presentation of certain fair value changes for financial liabilities measured at fair value. It also amends certain disclosure requirements associated with the fair value of financial instruments. For public business entities, the amendments in this update are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company is currently assessing the impact that the adoption of this standard will have on the financial condition and results of operations of the Company.

In February 2016, the FASB issued ASU 2016-02, “Leases”. The FASB issued this ASU to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet by lessees for those leases classified as operating leases under current U.S. GAAP and disclosing key information about leasing arrangements. The amendments in this ASU are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2018. Early application of this ASU is permitted for all entities. The Company is currently assessing the impact that the adoption of this standard will have on the financial condition and results of operations of the Company.

In March 2016, the FASB issued ASU 2016-09, “Compensation-Stock Compensation: Improvements to Employee Share-Based Payment Accounting”. This ASU simplifies several areas of accounting for share based payment award transactions, including the income tax consequences, classification of awards as either equity or liabilities, and the classification on the statement of cash flows. For public companies, this is effective for annual periods beginning after December 15, 2016, and the interim periods within those annual periods. The Company is currently assessing the impact that the adoption of this standard will have on the financial condition and results of operations of the

Company.

In June 2016 the FASB issued ASU 2016-13, “Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments-Update”. The Update changes the accounting for credit losses on loans and debt securities. For loans and held-to-maturity debt securities, the Update requires an expected credit loss model to determine the allowance for credit losses. The expected credit loss model estimates losses for the estimated life of the financial asset. Expected credit losses reflect losses over the remaining contractual life of an asset, considering the effect of voluntary prepayments and considering available information about the collectability of cash flows, including information about past events, current conditions, and reasonable and supportable forecasts. The resulting allowance for credit losses reflects the portion of the amortized cost basis that the entity does not expect to collect. Additional quantitative and qualitative disclosures are required upon adoption. In addition, the Update modifies the other-than-temporary impairment model for available-for-sale debt securities to require an allowance for credit impairment instead of a direct write-down, which allows for reversal of credit impairments in future periods. The guidance is effective in first quarter 2020 with a cumulative-effect adjustment to retained earnings as of the beginning of the year of adoption. Early adoption is permitted beginning in first quarter 2019. The Company is evaluating the impact the Update will have on the consolidated financial statements.

Note 12. Regulatory Matters

It is the policy of the Federal Reserve that financial holding companies should pay cash dividends on common stock only out of income available over the past year and only if prospective earnings retention is consistent with the organization’s expected future needs and

31

financial condition. The policy provides that a financial holding company should not maintain a level of cash dividends that undermines the financial holding company's ability to serve as a source of strength to its banking subsidiaries.

Various federal and state statutory provisions limit the amount of dividends that subsidiary banks can pay to their holding companies without regulatory approval. Under Delaware banking law, the Bank's directors may declare dividends on common or preferred stock of so much of its net profits as they judge expedient, but the Bank must, before the declaration of a dividend on common stock from net profits, carry 50% of its net profits from the preceding period for which the dividend is paid to its surplus fund until its surplus fund amounts to 50% of its capital stock and thereafter must carry 25% of its net profits for the preceding period for which the dividend is paid to its surplus fund until its surplus fund amounts to 100% of its capital stock.

In addition to these explicit limitations, federal and state regulatory agencies are authorized to prohibit a banking subsidiary or financial holding company from engaging in an unsafe or unsound practice. Depending upon the circumstances, the agencies could take the position that paying a dividend would constitute an unsafe or unsound banking practice. In August 2015, the Bank entered into an Amendment to a 2014 Consent Order with the FDIC pursuant to which the Bank may not pay dividends without prior FDIC approval. On May 11, 2015, the Company had received a Supervisory Letter pursuant to which the Company may not pay dividends without prior Federal Reserve approval. The Federal Reserve approved the payment of the interest on the Company's trust preferred securities due September 15, 2016. Future payments are subject to future approval by the Federal Reserve.

The Company and the Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possible additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's consolidated financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and the Bank must meet specific capital guidelines that involve quantitative measures of their assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices. The capital amounts and classification of the Company and the Bank are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Note 13. Legal

On July 17, 2014, a class action securities complaint captioned *Fletcher v. The Bancorp Inc., et al.*, was filed in the United States District Court for the District of Delaware. A consolidated version of that class action complaint was filed before the same court on January 23, 2015 on behalf of Lead Plaintiffs Arkansas Public Employees Retirement System and Arkansas Teacher Retirement System under the caption of *In Re The Bancorp, Inc. Securities Litigation*, Case No. 14-cv-0952 (SLR). On October 26, 2015, Lead Plaintiffs filed an amended consolidated complaint against Bancorp, Betsy Z. Cohen, Paul Frenkiel, Frank M. Mastrangelo and Jeremy Kuiper, which alleges that during a class period beginning January 26, 2011 through June 26, 2015, the defendants made materially false and/or misleading statements and/or failed to disclose that (i) Bancorp had wrongfully extended and modified problem loans and under-reserved for loan losses due to adverse loans, (ii) Bancorp's operations and credit practices were in violation of the Bank Secrecy Act (BSA), and (iii) as a result, Bancorp's financial statements, press releases and public statements were materially false and misleading during the relevant period. The amended consolidated complaint further alleges that, as a result, the price of Bancorp's common stock was artificially inflated and fell once the defendants' misstatements and omissions were revealed, causing damage to the plaintiffs and the other members of the class. The

complaint asks for an unspecified amount of damages, prejudgment and post-judgment interest and attorneys' fees. This litigation is in its preliminary stages. The defendants filed a motion to dismiss the amended consolidated complaint on November 23, 2015. Oral argument on the defendants' motion was held on January 29, 2016 and a court ruling on the motion has been pending. On July 27, 2016, we and all other individually-named defendants entered into a Stipulation and Agreement of Settlement (Settlement Agreement) with respect to the consolidated class action. Under the terms of the Settlement Agreement, we will pay \$17.5 million to the plaintiffs as full and complete settlement of the litigation. All amounts paid by us will be fully funded by the Company's insurance carriers. All terms of the Settlement Agreement are subject to court approval which is pending.

The Company received a subpoena from the SEC, dated March 22, 2016, relating to an investigation by the SEC of the Company's restatement of its financial statements for the years ended December 31, 2010 through December 31, 2013 and the interim periods ended March 31, 2014, June 30, 2014 and September 30, 2014, which restatement was filed with the SEC on September 28, 2015, and the facts and circumstances underlying the restatement. The Company is cooperating fully with the SEC's investigation. The costs to respond to the subpoena and cooperate with the SEC's investigation could be material.

On June 30, 2016, the Company received written notice from the Internal Revenue Service that it will be conducting an audit of the Company's tax returns for the tax years 2012, 2013 and 2014. The audit is in process.

The Company received a letter, dated August 1, 2016, demanding inspection of its books and records pursuant to Section 220 of the Delaware General Corporation Law from legal counsel representing a shareholder (the "Demand Letter"). In addition to demanding access to certain of the Company's books and records, the Demand Letter states that the shareholder intends to investigate the actions of the Company's officers and directors, and that the shareholder contemplates the commencement of a shareholder's derivative suit against

certain officers and directors of the Company seeking the recovery of the Company's damages and other remedies. The Company has engaged outside counsel to represent it in this matter and is in the process of responding to the Demand Letter and analyzing its rights and obligations. We have been advised by our counsel in the matter that reasonably possible losses cannot be estimated.

In addition, we are a party to various routine legal proceedings arising out of the ordinary course of our business. Management believes that none of these actions, individually or in the aggregate, will have a material adverse effect on our financial condition or operations.

Note 14. Segment Financials

The Company performed a strategic evaluation of its businesses in the third quarter of 2014. As a result of the evaluation, the Company decided to discontinue its commercial lending operations, as described in Note 15, Discontinued Operations. The shift from a traditional bank balance sheet led the Company to evaluate its continuing operations. Based on the continuing operations of the Company, it was determined that there would be four segments of the business: specialty finance, payments, corporate and discontinued operations. Specialty finance includes commercial loan sales, SBA loans, leasing and SBLOCs and any deposits generated by those business lines. Payments include prepaid cards, merchant payments and healthcare accounts. Corporate includes the investment portfolio, corporate overhead and other non-allocated expenses. Investment income is allocated to the payments segment. These operating segments reflect the way the Company views its current operations.

Note 15. Discontinued Operations

The Company performed a strategic evaluation of its businesses in the third quarter of 2014 and decided to discontinue its commercial lending operations to focus on its specialty finance lending. The loans which constitute the commercial loan portfolio are in the process of disposition. As such, financial results of the commercial lending operations are presented as separate from continuing operations on the consolidated statements of operations and assets of the commercial lending operations to be disposed are presented as assets held for sale on the consolidated balance sheets.

The results of the third quarter of 2016 reflected a fair value charge in connection with a secured commercial real estate lending relationship held in discontinued operations. Related loans, in the principal amount of \$41.9 million, became 90 days delinquent after the quarter ended September 30, 2016 due to the failure to make required principal payments. The loans are secured by a Florida shopping mall with multiple major department store anchors and over 70 various retail tenants. Based on an appraisal of the collateral value by an independent certified appraiser, the fair value was reduced by \$23.9 million, and that amount was recorded as a charge to earnings. The reduction in the carrying value of the loan does not reflect any recovery on a personal guarantee that the Bank also has as additional security. There can be no assurance that any recovery will be made on the personal guarantee. Valuation allowances against resulting cumulative deferred tax assets offset tax benefits related to the loss and no benefit was recognized. Accordingly, the after tax loss was not reduced by the statutory 34% tax rate.

Edgar Filing: Bancorp, Inc. - Form 10-Q

The following table presents financial results of the commercial lending business included in net income (loss) from discontinued operations for the three months and nine months ended September 30, 2016 and 2015.

	For the three months ended September 30, 2016		2015		For the nine months ended September 30, 2016		2015	
	(in thousands)

Edgar Filing: Bancorp, Inc. - Form 10-Q

Loans, net	\$	365,215	\$	568,748
Other assets	20,940		15,161	
Total assets	\$	386,155	\$	583,909

The Company utilizes lower of cost or market valuations for discontinued operations loans which are updated based on internal loan officers' information, third party consultant information, internal loan review analysis and third party review of impairments. Based on that review, weighted average fair values were applied to the loans not specifically reviewed. The results of discontinued operations do not include any future severance payments. Of the approximately \$1.1 billion in book value of loans in that portfolio as of the September 30, 2014 date of discontinuance of operations, \$365.2 million of loans remain in assets held for sale on the balance sheet as a result of loan sales, principal paydowns and fair value charges. The Company is attempting to sell those remaining loans. Additionally, the balance sheet reflects \$157.4 million in investment in unconsolidated entity, which is comprised of notes owned by the Company as a result of the sale of certain discontinued loans to Walnut Street, see Note 8, Fair Value Measurements.

Various elements of the lower of cost or market valuation are as follows:

Measured on a recurring basis	Valuation techniques	Significant unobservable inputs	Range
Large balance commercial loans	Discounted cash flows	Discount rate	3.53% - 9.15%
Small balance commercial loans	Discounted cash flows	Discount rate	3.59% - 8.94%

Note 16. Subsequent Events

The Company evaluated its September 30, 2016 financial statements for subsequent events through the date the financial statements were issued. The Company is not aware of any subsequent events which would require recognition or disclosure in the financial statements, not otherwise disclosed herein.

Final Prepaid Card Rule Released by the Consumer Financial Protection Bureau

On October 5, 2016, the Consumer Financial Protection Bureau (CFPB) released its final Prepaid Card Rule (Final Prepaid Rule), which it first proposed by publication on December 23, 2014. The effective date of the Final Prepaid Rule is October 1, 2017, but applicability

of certain requirements of the Final Prepaid Rule are delayed until October 1, 2018. The Final Prepaid Rule regulates certain prepaid products, including physical cards as well as codes and other access devices. The Final Prepaid Rule did not materially deviate from the terms of the proposed rule that we have disclosed in previous filing. The Final Prepaid Rule among other things, causes prepaid products to be fully-covered by Regulation E, which implements the Electronic Fund Transfer Act, and to be covered by Regulation Z, which implements the Truth in Lending Act, to the extent the prepaid product accesses a “credit” feature.

The Final Prepaid Rule and related commentary is over 1,600 pages in length and provides significant discussion, materials and commentary that we are currently assessing. The Final Prepaid Rule includes a significant number of changes to the regulatory framework for prepaid products, some of which include: (a) establishing a definition of “prepaid account” within Regulation E that includes reloadable and non-reloadable physical cards, as well as codes or other devices, and focuses on how the product is issued and used; (b) modifying Regulation E to require that short form and long form disclosures be provided to a consumer prior to a consumer agreeing to acquire a prepaid account with certain exceptions and with specified forms that, if used, would provide a safe harbor for financial institutions; (c) extending to prepaid accounts the periodic transaction history and statement requirements of Regulation E, with certain specified permissible alternatives to the provision of periodic statements; (d) extending the error resolution and limited liability provisions of Regulation E to prepaid cards, with some modifications specific to prepaid cards; (e) requiring financial institutions to provide prepaid account agreements to the CFPB and to either post them to the issuer’s website or provide them upon request of the consumer in specified manner and timeframes; (f) extending Regulation Z’s credit card rules and disclosure requirements to prepaid accounts that provide overdraft protection and other credit features and incorporating into Regulation Z a new definition of “hybrid prepaid-credit card”; (g) requiring an issuer to obtain a prepaid account holder’s consent prior to adding overdraft services or other credit features and prohibiting the issuer from adding overdraft services or other credit features for at least 30 calendar days after a consumer registers the prepaid account; (h) prohibiting the application of different terms and conditions, such as charging different fees, to a prepaid account depending on whether the consumer elects to link the prepaid account to overdraft services or other credit features.

The Final Prepaid Rule represents a material change in the rules and regulations governing prepaid cards. We rely on prepaid cards as the largest single component of our deposits and the largest single component of our noninterest income. We are continuing to evaluate the Prepaid Card Rule and the impact it may have on our business and our results of operations. We are in the preliminary stages of evaluating and building implementation plans for the Prepaid Card Rule and, as such, we cannot reasonably quantify the financial impact, if any, that implementation of the Prepaid Card Rule may have on the Bank’s business, financial condition, or results of operations.

Part I - Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

When used in this Form 10-Q, the words "believes", "anticipates", "expects" and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks and uncertainties more particularly described in Item 1A, under the caption "Risk Factors," in our Annual Report on Form 10-K for the year ended December 31, 2015 and in other of our public filings with the Securities and Exchange Commission. These risks and uncertainties could cause actual results to differ materially from those expressed or implied in this Form 10-Q. We caution readers not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly revise or update these forward-looking statements to reflect events or circumstances after the date of this report except as required by applicable law.

In the following discussion we provide information about our results of operations, financial condition, liquidity and asset quality. We intend that this information facilitate your understanding and assessment of significant changes and trends related to our financial condition and results of operations. You should read this section in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Annual Report on Form 10-K for the year ended December 31, 2015.

Overview

We are a Delaware financial holding company and our primary subsidiary, wholly owned, is The Bancorp Bank, which we refer to as the Bank. The vast majority of our revenue and income is currently generated through the Bank. In our continuing lending operations we have four primary lines of specialty lending: securities-backed lines of credit, or SBLOC, automobile fleet and other equipment leasing, Small Business Administration, or SBA, loans and loans generated for sale into capital markets primarily through commercial mortgage backed securities, or CMBS. SBLOCs are loans which are generated through institutional banking affinity groups and are collateralized by marketable securities. SBLOCs are typically offered in conjunction with brokerage accounts and are offered nationally. Automobile fleet and other equipment leases are generated in a number of Atlantic Coast and other states. SBA loans and loans generated for sale into CMBS capital markets are made nationally.

In our banking operations, we focus on providing our services on a national basis to organizations with a pre-existing customer base who can use one or more selected banking services tailored to support or complement the services provided by these organizations to their customers. These services include private label banking; credit and debit card processing for merchants affiliated with independent service organizations; and prepaid cards, also known as stored value cards, for insurers, incentive plans, large retail chains and consumer service organizations. We typically provide these services under the name and through the facilities of each organization with whom we develop a relationship. We refer to this, generally, as affinity group banking. Our private label banking, merchant processing and prepaid card programs are a source of fee income and low-cost deposits. In Europe, we maintain three operational

service subsidiaries and one subsidiary through which we offer prepaid card issuing services.

In the third quarter of 2014, we decided to discontinue our Philadelphia-based commercial lending operations. The loans which constitute that portfolio are in the process of disposition. This represents a strategic shift to a focus on our national specialty lending programs including small fleet leasing, SBLOC, CMBS origination and SBA lending. We anticipate using the proceeds from disposition to acquire investment securities and to provide liquidity to fund growth in our continuing specialty lending lines. Yields we obtain from reinvestment of the proceeds will be subject to economic and other conditions at the time of reinvestment, including market interest rates, many of which will be beyond our control. We cannot predict whether income resulting from the reinvestment of loans we hold for sale resulting from discontinued operations will match or exceed the amount from the sold loans. Of the approximately \$1.1 billion in book value of loans in that commercial and residential portfolio as of the September 30, 2014 date of discontinuance of operations, \$365.2 million of loans remain in assets held for sale on the balance sheet, which reflects related sales, paydowns and fair value charges. Additionally, the balance sheet reflects \$157.4 million in investment in unconsolidated entity, which is comprised of notes owned by the Company as a result of the sale of certain discontinued loans. We have been exiting certain deposit accounts to reduce excess balances at the Federal Reserve Bank.

The results of the third quarter of 2016 reflected a fair value charge in connection with a secured commercial real estate lending relationship held in discontinued operations. Related loans, in the principal amount of \$41.9 million, became 90 days delinquent after the quarter ended September 30, 2016 due to the failure to make required principal payments. The loans are secured by a Florida shopping mall with multiple major department store anchors and over 70 various retail tenants. Based on an appraisal of the collateral value by an independent certified appraiser, the fair value was reduced by \$23.9 million, and that amount was recorded as a charge to earnings. The reduction in the carrying value of the loan does not reflect any recovery on a personal guarantee that the Bank also has as additional security. There can be no assurance that any recovery will be made on the personal guarantee.

At the end of the third quarter of 2016, we eliminated approximately 20% of the Bank's staff positions resulting in approximately \$1.3 million in related severance expense recognized in that quarter. In addition to the elimination of the staff positions, we have developed

a plan targeting other reductions in various non-interest expense categories including occupancy, data processing, legal, consulting, software and others. We expect to begin implementing the plan in the fourth quarter of 2016 with principal impact in 2017. BSA lookback expense for third quarter 2016 was \$1.3 million, significantly less than in prior periods. Additionally, the third party performing the lookback completed its work during the quarter and no additional related third party fees are expected to be incurred. Interest income continued to increase, reflecting growth in SBLOC, SBA, leasing and loans held for sale into secondary markets. Reflecting those increases, net interest income increased 32% in the third quarter of 2016 compared to third quarter 2015. The net interest income increase also reflected continued historically low interest rates. Rates on the largest component of funding, prepaid deposits, will only partially adjust to increases in market rates while variable rate loans and securities should fully adjust. Non-interest income reflected a 7% increase in quarter over prior year quarter prepaid card fees, which is the largest driver of non-interest income. Non-interest expense reflected the aforementioned reduced BSA lookback expenses which should no longer be incurred. While the quarter reflected the aforementioned \$1.3 million of severance expense, future quarters should reflect related salary expense reductions. During the quarter, we completed a stock offering which netted approximately \$74.8 million of capital, with 17.4 million common shares issued.

On August 5, 2016, we sold in a private placement to institutional and accredited investors an aggregate of 7,560,000 shares of our common stock at a purchase price of \$4.50 per share, and 40,000 shares of a new series of preferred stock, Series C mandatorily convertible cumulative non-voting perpetual preferred stock, or the Series C Preferred Stock, at a purchase price of \$1,000 per share, for total consideration of approximately \$74 million. The Series C Preferred Stock was mandatorily convertible into shares of common stock upon obtaining the approval of the holders of our common stock. Also on August 5, 2016, we entered into an agreement with certain of our directors and executive officers to sell an aggregate of 1,025,000 shares of our common stock at \$4.50 per share, contingent upon the receipt of stockholder approval to convert the Series C Preferred Stock to shares of common stock, and satisfaction of stock exchange rules.

On September 29, 2016, upon receiving the affirmative vote of a majority of the shares of common stock eligible to vote at our special meeting held on September 29, 2016, we sold 1,025,000 shares of common stock to certain of our directors and executive officers at \$4.50 per share, for total consideration of approximately \$4.6 million. Also on September 29, 2016, upon receiving the affirmative vote of a majority of the shares of common stock eligible to vote at our special meeting, all shares of Series C Preferred Stock were converted into approximately 8,888,888 shares of common stock.

In connection with the private placement discussed above, two investors, Pilgrims & Indians Capital LLC, or P&I, and Castle Creek Capital, or CC, entered into side letter agreements with us. Under the terms of the side letter agreements, each of P&I and CC are each entitled to have one representative appointed to our board of directors for so long as each entity, together with its respective affiliates, owns, in the aggregate, 4% or more of all of our outstanding common stock. If P&I or CC hold less than 4% of all of the outstanding common shares, but 50% or more of their shares purchased in the private placement, then such investor will be entitled to have one representative attend all meetings of our board of directors as a nonvoting observer for so long as such entity, together with its respective affiliates, owns, in the aggregate, 50% or more of the shares it purchased in the private placement. On August 17, 2016, our board of directors resolved to appoint John Eggemeyer as a director in satisfaction of the side letter agreement with CC. Mr. Eggemeyer's appointment will be effective upon completion of regulatory review, non-objection or approval as required by applicable law. During the pendency of the regulatory review period, Mr. Eggemeyer will be a non-voting observer to our board of directors. On August 17, 2016, our board of directors resolved to appoint Shivan Govindan as director in satisfaction of the side letter agreement with P&I, subject to effective completion of

regulatory review, non-objection or approval as required by applicable law. At the request of P&I and Mr. Govindan, his name has been withdrawn from consideration, and we are awaiting additional instructions from P&I as to their proposed nominee to fill P&I's seat on the board. In the meantime, Mr. Govindan remains a non-voting observer to our board of directors.

Critical Accounting Policies and Estimates

Our accounting and reporting policies conform with accounting principles generally accepted in the United States and general practices within the financial services industry. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates. We believe that the determination of our allowance for loan and lease losses, our determination of the fair value of financial instruments and the level in which an instrument is placed within the valuation hierarchy, our determination of other than temporary impairment, and income taxes involve a higher degree of judgment and complexity than our other significant accounting policies.

We determine our allowance for loan and lease losses with the objective of maintaining a reserve level we believe to be sufficient to absorb our estimated probable credit losses. We base our determination of the adequacy of the allowance on periodic evaluations of our loan portfolio and other relevant factors. However, this evaluation is inherently subjective as it requires material estimates, including, among others, expected default probabilities, the amount of loss we may incur on a defaulted loan, expected commitment usage, the amounts and timing of expected future cash flows on impaired loans, value of collateral, estimated losses on consumer loans and residential mortgages, and general amounts for historical loss experience. We also evaluate economic conditions and uncertainties in estimating losses and inherent risks in our loan portfolio. To the extent actual outcomes differ from our estimates, we may need

additional provisions for loan losses. Any such additional provisions for loan losses will be a direct charge to our earnings. See "Allowance for Loan and Lease Losses".

The fair value of a financial instrument is defined as the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. We estimate the fair value of a financial instrument using a variety of valuation methods. Where financial instruments are actively traded and have quoted market prices, quoted market prices are used for fair value. When the financial instruments are not actively traded, other observable market inputs, such as quoted prices of securities with similar characteristics, may be used, if available, to determine fair value. When observable market prices do not exist, we estimate fair value. Our valuation methods and inputs consider factors such as types of underlying assets or liabilities, rates of estimated credit losses, interest rate or discount rate and collateral. Our best estimate of fair value involves assumptions including, but not limited to, various performance indicators, such as historical and projected default and recovery rates, credit ratings, current delinquency rates, loan-to-value ratios and the possibility of obligor refinancing.

At the end of each quarter, we assess the valuation hierarchy for each asset or liability measured. From time to time, assets or liabilities may be transferred within hierarchy levels due to changes in availability of observable market inputs to measure fair value at the measurement date. Transfers into or out of hierarchy levels are based upon the fair value at the beginning of the reporting period.

We periodically review our investment portfolio to determine whether unrealized losses on securities are temporary, based on evaluations of the creditworthiness of the issuers or guarantors, and underlying collateral, as applicable. In addition, we consider the continuing performance of the securities. We recognize credit losses through the income statement. If management believes market value losses are temporary and that we have the ability and intention to hold those securities to maturity, we recognize the reduction in other comprehensive income, through equity.

We account for income taxes under the liability method whereby we determine deferred tax assets and liabilities based on the difference between the carrying values on our financial statements and the tax basis of assets and liabilities as measured by the enacted tax rates which will be in effect when these differences reverse. Deferred tax expense (benefit) is the result of changes in deferred tax assets and liabilities. We currently use the tax expenses as calculated on year-to-date numbers, since small changes in annual estimates would have a significant change in the annual effective rate.

Financial Statement Restatement; Regulatory Actions

We have adjusted our financial statement presentation for items related to discontinued operations. Separately, we have restated our financial statements for periods from 2010 through September 30, 2014, the last date through which financial statements previously had been filed prior to our 2015 filing of our Annual Report on Form 10-K for the year ended December 31, 2014. The restatement reflected the recognition of provisions for loan losses and loan charge-offs for discontinued operations in periods earlier than those in which those charges were initially recognized. The majority of these loan charges were originally recognized in 2014, primarily in the third quarter, when commercial lending operations were discontinued. An additional \$28.5 million of discontinued operations losses that were not previously reported were included within these periods. Also, \$12.7 million of losses incurred in 2015 related to loans that were resolved before the issuance date of our financial statements and were reflected in our 2014 financial statements. Substantially all of the losses and corresponding restatement adjustments resulted from the discontinued commercial loan operations.

The Bank has entered into a Stipulation and Consent to the Issuance of a Consent Order, or the 2014 Consent Order, with the Federal Deposit Insurance Corporation, or FDIC, which became effective on June 5, 2014. The Bank took this action without admitting or denying any charges of unsafe or unsound banking practices or violations of law or regulation relating to the Bank's BSA compliance program.

The 2014 Consent Order requires the Bank to take certain affirmative actions to comply with its BSA obligations, among them: appoint a qualified BSA/OFAC (Office of Foreign Assets Control) officer; revise the written BSA Compliance Program; develop and implement additional policies and procedures for suspicious activity monitoring and reporting; review and enhance customer due diligence and risk assessment processes; review past account activity to determine whether suspicious activity was properly identified and reported; strengthen internal controls, including augmenting oversight by the Bank's Board of Directors of BSA activities; establish an independent testing program; and develop policies and procedures to govern staffing and training for BSA compliance.

To date, the Bank has implemented multiple upgrades that address the requirements of the 2014 Consent Order, such as appointing a qualified BSA/OFAC officer, increasing oversight and staffing of the BSA compliance function, improving practices and procedures to monitor and report transactions, and increasing training, as well as adopting an independent testing program to ensure adherence to more effective BSA standards.

40

Until the Bank submits to the FDIC (and the FDIC approves) a BSA report summarizing the completion of its corrective actions, the 2014 Consent Order places some restrictions on certain activities: the Bank is restricted from signing and boarding new independent sales organizations, issuing new non-benefit related reloadable prepaid card programs, establishing new distribution channels for existing non-benefit reloadable prepaid card programs and originating Automated Clearing House transactions for new merchant-related payments. Until we receive the FDIC's approval, restrictions in these specific areas may potentially impact their growth. We do not believe that these restrictions will have a material impact on current revenue levels. The Bank utilized one primary consultant related to its BSA-AML (Anti-Money Laundering) program refinement and one primary consultant related to conducting a lookback review of historical transactions to confirm that suspicious activity was properly identified and reported in accordance with applicable law. The consultant assisting with BSA-AML program refinement completed its work in 2014. The consultant performing the BSA lookback completed its work in July 2016 and no additional related fees are expected to be incurred. Suspicious activity reports resulting from the lookback have been filed.

On August 27, 2015, the Bank entered into an Amendment to Consent Order, or the Amendment, with the FDIC, amending the 2014 Consent Order. The Bank took this action without admitting or denying any additional charges of unsafe or unsound banking practices or violations of law or regulation relating to continued weaknesses in the Bank's BSA compliance program. The Amendment provides that the Bank may not declare or pay any dividend without the prior written consent of the FDIC and for certain assurances regarding management.

On May 11, 2015, the Federal Reserve issued a letter, or the Supervisory Letter, to the Bank as a result of the 2014 Consent Order and the Amendment, (which, at the time of the Supervisory Letter, was in proposed form), which provides that we may not pay any dividends on our common stock, make any distributions to our European entities or make any interest payments on our trust preferred securities, without the prior written approval of the Federal Reserve. It further provides that we may not incur any debt (excluding payables in the ordinary course of business) or redeem any shares of our stock, without the prior written approval of the Federal Reserve. The Federal Reserve approved the payment of the interest on our trust preferred securities which was due June 15, 2016. Future payments are subject to future approval by the Federal Reserve.

On December 23, 2015 the Bank entered into a Stipulation and Consent to the Issuance of an Amended Consent Order, Order for Restitution, and Order to Pay Civil Money Penalty with the FDIC, which we refer to as the 2015 Consent Order. The Bank took this action without admitting or denying any charges of violations of law or regulation. The 2015 Consent Order supercedes in its entirety the terms of a previous consent order entered into in 2012.

The 2015 Consent Order was based on FDIC allegations regarding electronic fund transfer, or EFT, error resolution practices, account termination practices and fee practices of various third parties with whom the Bank had previously provided, or currently provides, deposit-related products which we refer to as Third Parties. The specific operational practices of the third parties identified by the FDIC were the following: practices related to the termination of a third-party rewards program tied to deposit accounts, including the timing of the notice of termination, and the disclosure of the effects of such termination on the consumer's ability to obtain unredeemed rewards; practices performed by third parties related to the time frames within which we must respond to a consumer's notice of error related to electronic transactions related to various types of deposit accounts; and, practices related to the timing and frequency of disclosed account fees and the manner by which the accountholder is notified of these fees in periodic statements which are generated by third parties. The 2015 Consent Order continues the Bank's obligations originally set forth in the 2012 Consent Order, including its obligations to increase board oversight of the Bank's compliance management system, or CMS, improve the Bank's CMS, enhance its internal audit program, increase its management and oversight of Third Parties, and correct any apparent violations of law. The 2015 Consent Order also directs the Bank's Board to establish a Complaint and Error Claim Oversight and Review Committee, which we refer to as the Complaint and Error Claim Committee, to review and oversee the Bank's processes and practices for handling,

monitoring and resolving consumer complaints and EFT error claims (whether received directly or through Third Parties) and to review management's plans for correcting any weaknesses that may be found in such processes and practices; and implement a corrective action plan regarding those prepaid cardholders who asserted or attempted to assert EFT error claims and to provide restitution to cardholders harmed by EFT error resolution practices. The Bank's Board of Directors appointed the required Complaint and Error Claim Committee on January 29, 2016. The Bank corrective action plan is in process.

We received a subpoena from the SEC, dated March 22, 2016, relating to an investigation by the SEC of the restatement of our financial statements for the years ended December 31, 2010 through December 31, 2013 and the interim periods ended March 31, 2014, June 30, 2014 and September 30, 2014, which restatement was filed with the SEC on September 28, 2015, and the facts and circumstances underlying the restatement. We are cooperating fully with the SEC's investigation. The costs to respond to the subpoena and cooperate with the SEC's investigation could be material.

On October 5, 2016, the Consumer Financial Protection Bureau (CFPB) released its final Prepaid Card Rule (Final Prepaid Rule), which it first proposed by publication on December 23, 2014. The effective date of the Final Prepaid Rule is October 1, 2017, but applicability of certain requirements of the Final Prepaid Rule are delayed until October 1, 2018. The Final Prepaid Rule regulates certain prepaid products, including physical cards as well as codes and other access devices. The Final Prepaid Rule did not materially deviate from the

terms of the proposed rule that we have disclosed in previous filing. The Final Prepaid Rule among other things, causes prepaid products to be fully-covered by Regulation E, which implements the Electronic Fund Transfer Act, and to be covered by Regulation Z, which implements the Truth in Lending Act, to the extent the prepaid product accesses a “credit” feature.

The Final Prepaid Rule and related commentary is over 1,600 pages in length and provides significant discussion, materials and commentary that we are currently assessing. The Final Prepaid Rule includes a significant number of changes to the regulatory framework for prepaid products, some of which include: (a) establishing a definition of “prepaid account” within Regulation E that includes reloadable and non-reloadable physical cards, as well as codes or other devices, and focuses on how the product is issued and used; (b) modifying Regulation E to require that short form and long form disclosures be provided to a consumer prior to a consumer agreeing to acquire a prepaid account with certain exceptions and with specified forms that, if used, would provide a safe harbor for financial institutions; (c) extending to prepaid accounts the periodic transaction history and statement requirements of Regulation E, with certain specified permissible alternatives to the provision of periodic statements; (d) extending the error resolution and limited liability provisions of Regulation E to prepaid cards, with some modifications specific to prepaid cards; (e) requiring financial institutions to provide prepaid account agreements to the CFPB and to either post them to the issuer’s website or provide them upon request of the consumer in specified manner and timeframes; (f) extending Regulation Z’s credit card rules and disclosure requirements to prepaid accounts that provide overdraft protection and other credit features and incorporating into Regulation Z a new definition of “hybrid prepaid-credit card”; (g) requiring an issuer to obtain a prepaid account holder’s consent prior to adding overdraft services or other credit features and prohibiting the issuer from adding overdraft services or other credit features for at least 30 calendar days after a consumer registers the prepaid account; (h) prohibiting the application of different terms and conditions, such as charging different fees, to a prepaid account depending on whether the consumer elects to link the prepaid account to overdraft services or other credit features.

The Final Prepaid Rule represents a material change in the rules and regulations governing prepaid cards. We rely on prepaid cards as the largest single component of our deposits and the largest single component of our non-interest income. We are continuing to evaluate the Prepaid Card Rule and the impact it may have on our business and our results of operations. We are in the preliminary stages of evaluating and building implementation plans for the Prepaid Card Rule and, as such, we cannot reasonably quantify the financial impact, if any, that implementation of the Prepaid Card Rule may have on the Bank’s business, financial condition, or results of operations.

Results of Operations

Third quarter 2016 to third quarter 2015

Net Income: Net loss from continuing operations for the third quarter of 2016 was \$1.5 million, or \$.03 per diluted share, compared to net loss of \$7.6 million, or \$.20 per diluted share for the third quarter of 2015. After discontinued operations, net loss for the third quarter of 2016 was \$25.6 million compared to \$5.6 million for the third quarter of 2015. The results of the third quarter of 2016 reflected a fair value charge in connection with a secured commercial real estate lending relationship held in discontinued operations. Related loans, in the principal amount of \$41.9 million, became 90 days delinquent after the quarter ended September 30, 2016 due to the failure to make required principal payments. The loans are secured by a Florida shopping mall with multiple major department store anchors

and over 70 various retail tenants. Based on an appraisal of the collateral value by an independent certified appraiser, the fair value was reduced by \$23.9 million, and that amount was recorded as a charge to earnings. The reduction in the carrying value of the loan does not reflect any recovery on a personal guarantee that the Bank also has as additional security. There can be no assurance that any recovery will be made on the personal guarantee.

Valuation allowances against resulting cumulative deferred tax assets offset tax benefits related to the loss and no benefit was recognized. Accordingly, the after tax loss was not reduced by the statutory 34% tax rate. Valuation allowances are expected to begin to be reversed and increase after tax income in 2017 based on our financial projections, but there can be no assurance that those projections will be realized. Primarily as a result of the loan charge and deferred tax valuation allowance, net loss from discontinued operations was \$24.0 million in the third quarter of 2016 compared to net income of \$2.0 million for the third quarter of 2015.

Results for continuing operations for the third quarter of 2016 reflected higher net interest income and non-interest income, the completion of the consultants' BSA lookback, severance expense for end of quarter staff position reductions and planning and implementation of other non-interest expense reductions. Net interest income for the third quarter of 2016 compared to the third quarter of 2015 increased to \$23.5 million from \$17.8 million primarily as a result of higher loan balances and yields. Non-interest income (excluding security gains) increased \$1.3 million, which reflected a \$1.7 million increase in gain on sale of loans and continuing increases in prepaid fees, the largest driver of non-interest income. Non-interest expense reflected a \$10.3 million decrease in BSA lookback consulting expense, an increase of \$6.7 million of other non-interest expense and a \$125,000 increase in the provision for loan and lease losses. The consultant performing the lookback completed their work in July 2016 and future related fees are not expected to be incurred. The \$6.7 million increase in other non-interest expenses (excluding BSA lookback) was primarily driven by a \$4.7 million increase in salaries and employee benefits. At the end of the third quarter of 2016, we eliminated approximately 20% of the Bank's

staff positions resulting in approximately \$1.3 million in related severance expense recognized in that quarter. In addition to the elimination of the staff positions, we have developed a plan targeting other reductions in various non-interest expense categories including occupancy, data processing, legal, consulting, software and others. We expect to begin implementing the plan in the fourth quarter of 2016 with principal impact in 2017. Diluted loss per share was \$0.54 in the third quarter of 2016 compared to \$0.15 diluted loss per share in the third quarter of 2015 primarily reflecting the factors noted above.

Net Interest Income: Our net interest income for the third quarter of 2016 increased to \$23.5 million, an increase of \$5.7 million or 32.3% from \$17.8 million in the third quarter of 2015. Our interest income for the third quarter of 2016 increased to \$26.7 million, an increase of \$5.5 million or 26.1% from \$21.2 million for the third quarter of 2015. The increase in interest income resulted primarily from higher loan balances and higher yields. Our average loans and leases increased to \$1.68 billion for third quarter 2016 from \$1.32 billion for third quarter 2015, while related interest income increased \$4.8 million on a tax equivalent basis. The increase in average loans reflected the second quarter 2016 purchase of approximately \$60 million of lease contracts in addition to organic growth in leasing, SBA and SBLOC lending. Our average investment securities decreased to \$1.42 billion for third quarter 2016 from \$1.46 billion for third quarter 2015, and related tax equivalent interest income decreased \$759,000 on a tax equivalent basis. The decrease in the securities portfolio reflected maturities which were reinvested in loans which carry higher yields.

Our net interest margin (calculated by dividing net interest income by average interest earning assets) for the third quarter of 2016 increased to 2.69% from 2.34% in the third quarter of 2015, an increase of 35 basis points. The increase in the net interest margin reflected higher yields on loans and reduced balances of lower yielding deposits at the Federal Reserve Bank. In the first quarter of 2016, we exited certain higher cost deposit relationships which reduced excess balances at the Federal Reserve Bank which lowered third quarter 2016 averages.

In the third quarter of 2016, the average yield on our loans increased to 4.19% from 3.86% for the third quarter of 2015, an increase of 33 basis points. The increase in loan yields reflected a greater proportion of higher yielding loans including leases and SBA loans and the impact of the December 2015 25 basis point Federal Reserve Bank increase in overnight rates. Yields on taxable investment securities in the third quarter of 2016 increased to 2.43% compared to 1.94% for the third quarter of 2015, an increase of 49 basis points. The increase reflected the impact of the aforementioned 25 basis point Federal Reserve Bank rate increase. Yields on non-taxable investments were lower at 1.79% compared to 3.67%, respectively, a decrease of 188 basis points. The reduction reflected the sale of the vast majority of our tax exempt portfolio in the fourth quarter of 2015 for tax planning purposes to expedite the utilization of deferred tax assets. Average interest earning deposits at the Federal Reserve Bank decreased \$632.9 million, or 66.1% to \$324.2 million in the third quarter of 2016 from \$957.1 million in the third quarter of 2015. The decrease reflected the impact of the first quarter 2016 exit of certain non-strategic deposits to reduce excess Federal Reserve Bank balances which earn nominal rates. The interest cost of total deposits and interest bearing liabilities was relatively stable at 0.33% for the third quarter of 2016 compared to 0.31% in the third quarter of 2015.

Edgar Filing: Bancorp, Inc. - Form 10-Q

Average Daily Balances. The following table presents the average daily balances of assets, liabilities and stockholders' equity and the respective interest earned or paid on interest-earning assets and interest-bearing liabilities, as well as average annualized rates, for the periods indicated:

	Three months ended September 30, 2016			2015				
	Average Balance (dollars in thousands)	Interest	Average Rate	Average Balance	Interest	Interest	Average Rate

** Includes loans held for sale.

For the third quarter of 2016, average interest earning assets decreased to \$3.47 billion, a decrease of \$310.8 million, or 8.2% from the third quarter of 2015. The decrease reflected a \$36.8 million, or 2.5%, decrease of average investment securities and a \$632.9 million, or 66.1% decrease, of average interest earning deposits at the Federal Reserve Bank, net of increases in average balances of loans and

leases of \$360.2 million, or 27.2%. Average demand and interest checking deposits decreased \$749.0 million, or 18.7%, which resulted from planned deposit exits to decrease such excess balances. Those exits also resulted in lower balances at the Federal Reserve Bank, which earn a nominal rate of interest.

Provision for Loan and Lease Losses. Our provision for loan and lease losses was \$750,000 for the third quarter of 2016 compared to \$625,000 for the third quarter of 2015. The allowance for loan losses increased to \$6.1 million or 0.51% of total loans at September 30, 2016, from \$4.4 million or 0.41% of total loans at December 31, 2015. We believe that our allowance is adequate to cover expected losses. For more information about our provision and allowance for loan and lease losses and our loss experience, see “Financial Condition-Allowance for loan and lease losses”, “-Net charge-offs,” and “-Non-performing loans, loans 90 days delinquent and still accruing, and troubled debt restructurings,” below and Note 6 to the financial statements.

Non-Interest Income. Non-interest income was \$18.9 million in the third quarter of 2016 compared to \$17.6 million in the third quarter of 2015 before gains on sale of investment securities of \$981,000 in the third quarter of 2016 and a loss on sale of investment securities of \$335,000 in the third quarter of 2015. The \$1.3 million, or 7.3% increase, between those respective periods reflected a \$1.7 million increase in gain on sale of loans to \$903,000 in the third quarter of 2016. The increase in the third quarter of 2016 compared to the third quarter of 2015 reflected a higher volume of loans held for sale which are fair valued at quarter end. Prepaid card fees increased by \$757,000, or 6.6%, to \$12.2 million for third quarter 2016. The increase reflected increased volumes and associated revenues attributable to that volume. Debit card income decreased \$472,000, or 110.5%, to a loss of \$45,000 for the third quarter of 2016 from income of \$427,000 for the third quarter of 2015 which reflected a decrease in income due to the sale of the majority of our health savings accounts in the fourth quarter of 2015. That sale also resulted in a reduction in service fees on deposit accounts which decreased \$409,000, or 21.3%, to \$1.5 million between those respective periods. Affinity fees increased slightly by \$8,000, or 0.7%, to \$1.1 million for the third quarter of 2016 from \$1.1 million for the third quarter of 2015. The increase resulted from the growth in one affinity relationship. Other non-interest income decreased \$101,000, or 22.1%, to \$357,000 for the third quarter of 2016 from \$458,000 in the third quarter of 2015. A \$981,000 gain on sale of investment securities resulted primarily from securities sales of municipal bonds for credit reasons, based on the recommendation of a third party specialist.

Non-Interest Expense. Total non-interest expense was \$44.2 million for the third quarter of 2016, a decrease of \$3.6 million, or 7.6%, over \$47.8 million for the third quarter of 2015. The decrease included a decline of \$10.3 million for BSA lookback consulting expenses, discussed previously. Salaries and employee benefits amounted to \$21.5 million, an increase of \$4.7 million, or 28.3%, over \$16.8 million for the third quarter of 2015. The increase in salaries and employee benefits reflected staff additions and related expense for increased BSA and other regulatory compliance functions and included temporary staff expense for the BSA lookback. Other increases reflected new staff positions in operations and infrastructure and leasing, including expense resulting from the purchase of lease receivables in the second quarter of 2016. Third quarter 2016 salary expense also reflected \$1.3 million of severance for the elimination of approximately 20% of staff positions throughout the Bank. The reductions occurred at the end of the quarter and related reductions in ongoing salary expense and other expense categories will be reflected in future quarters. Depreciation and amortization increased \$70,000, or 6.0%, to \$1.2 million in the third quarter of 2016 from \$1.2 million in the third quarter of 2015, which reflected increased depreciation costs related to leasehold improvements and equipment for staff additions and information technology upgrades. Rent and occupancy increased \$80,000, or 5.1%, to \$1.6 million in the third quarter of 2016 from \$1.6 million in the third quarter of 2015. The increase reflected a new sales office in San Francisco, leasing sales offices in Washington state and New Jersey and an SBA office in North Carolina. Data processing increased modestly by \$22,000, or 0.6%, to \$3.8 million in the third

quarter of 2016 from \$3.7 million in the third quarter of 2015. Printing and supplies increased \$203,000, or 32.6%, to \$825,000 in the third quarter of 2016 from \$622,000 in the third quarter of 2015, which reflected mailings related to service charge increases and other periodic communications with customers. Audit expense decreased \$151,000, or 38.0%, to \$246,000 in the third quarter of 2016 from \$397,000 in the third quarter of 2015 which reflected the transfer of certain audit functions in house. Legal expense increased \$387,000, or 90.6%, to \$814,000 in the third quarter of 2016 from \$427,000 in the third quarter of 2015 primarily as a result of regulatory costs including fees associated with an SEC subpoena related to the restatement of the financial statements (see “Financial Statements; Regulatory Actions”). Amortization of intangible assets increased \$96,000, or 32.2%, to \$394,000 for the third quarter of 2016 from \$298,000 for the third quarter of 2015. The increase resulted primarily from the amortization of the intangible asset resulting from the second quarter 2016 purchase of \$60 million of lease receivables. FDIC insurance expense decreased \$264,000, or 9.8%, to \$2.4 million for the third quarter of 2016 from \$2.7 million in the third quarter of 2015 reflecting the impact of decreased average deposits. Software expense increased \$850,000, or 44.3%, to \$2.8 million in the third quarter of 2016 from \$1.9 million in the third quarter of 2015 as a result of additional information technology infrastructure to improve efficiency and scalability, including BSA software required to satisfy regulatory requirements. Insurance expense increased \$149,000, or 30.9%, to \$631,000 in the third quarter 2016 compared to \$482,000 in the third quarter of 2015. The increase reflected higher cyber and director and officer coverages. Telecom and IT network communications increased \$124,000, or 27.1%, to \$582,000 in the third quarter of 2016 from \$458,000 in the third quarter of 2015. Securitization and servicing expense decreased \$398,000, or 100.0%, to \$0 for the third quarter of 2016 from \$398,000 for the third quarter of 2015 as there were no sales in the third quarter of 2016. Consulting increased \$576,000, or 51.2%, to \$1.7 million in the third quarter of 2016 from \$1.1 million in the third quarter of 2015. The increased expense reflected consulting related to reducing European prepaid operations expense, a more scalable SBLOC loan processing system and consulting for internal information systems report development. Other non-interest expense increased \$239,000, or 5.9%, to \$4.3 million in the third quarter of 2016 from \$4.0 million in the third quarter of 2015. The increase reflected an increase in credit bureau expense of approximately \$150,000.

Loss on Discontinued Operations and Change in Value of Unconsolidated Entity. The results of the third quarter of 2016 reflected a fair value charge in connection with a secured commercial real estate lending relationship held in discontinued operations. Related loans, in the principal amount of \$41.9 million, became 90 days delinquent after the quarter ended September 30, 2016 due to the failure to make required principal payments. The loans are secured by a Florida shopping mall with multiple major department store anchors and over 70 various retail tenants. Based on an appraisal of the collateral value by an independent certified appraiser, the fair value was reduced by \$23.9 million, and that amount was recorded as a charge to earnings. The reduction in the carrying value of the loan does not reflect any recovery on a personal guarantee that the Bank also has as additional security. There can be no assurance that any recovery will be made on the personal guarantee. Valuation allowances against resulting cumulative deferred tax assets offset tax benefits related to the loss and no benefit was recognized. Valuation allowances are expected to be reversed and increase after tax income in future periods based on our financial projections but there can be no assurance those projections will be realized.

Income Taxes. Income tax expense for continuing operations was \$55,000 for the third quarter of 2016 compared to a benefit of \$5.7 million in the third quarter of 2015. The 34% statutory rate tax benefit relating to the continuing and discontinued losses which would normally reduce the after tax losses, were offset by valuation allowances against cumulative deferred tax assets. As noted in the previous paragraph, these valuation allowances are expected to reverse in future periods.

First nine months 2016 to first nine months 2015

Net Income: Net loss from continuing operations for the first nine months of 2016 was \$29.8 million, or \$.73 per diluted share, compared to net loss of \$11.9 million, or \$.32 per diluted share for the first nine months of 2015. After discontinued operations, net loss for the first nine months of 2016 was \$67.7 million compared to net loss of \$5.2 million for the first nine months of 2015. A \$13.6 million increase in net interest income was offset by a \$17.9 million decrease in non-interest income (excluding security gains), a \$2.4 million increase in BSA lookback-related consulting expenses and a \$12.7 million increase in salaries and employee benefits. Non-interest income (excluding security gains) decreased to \$45.0 million in the first nine months of 2016 from \$62.9 million in the first nine months of 2015, which reflected a \$15.5 million decrease in change in value of investment in an unconsolidated entity and a \$5.9 million decrease in gain on sale of loans. The \$15.5 million decrease between those respective periods reflected a \$14.7 million second quarter 2016 charge against change in value of investment in unconsolidated entity (see "Loss on Discontinued Operations and Change in Value of Unconsolidated Entity") in Form 10-Q for the quarter ended June 30, 2016. The decrease in gain on sale of loans reflected lower margins resulting from increased credit spreads. As credit spreads increase, loan sale prices and related margins decrease. Net interest income increased to \$65.0 million from \$51.3 million primarily as a result of higher loan balances and yields. The provision for loan and lease losses increased \$10,000 to \$1.8 million in the first nine months of 2016 compared to \$1.8 million in the first nine months of 2015. Net loss from discontinued operations was \$37.9 million for the first nine months of 2016, compared to net income of \$6.7 million from discontinued operations for the first nine months of 2015. Diluted loss per share was \$1.65 for the first nine months of 2016 compared to diluted loss per share of \$0.14 for the first nine months of 2015.

Net Interest Income: Our net interest income for the first nine months of 2016 increased to \$65.0 million, an increase of \$13.6 million, or 26.6%, from \$51.3 million in the first nine months of 2015. Our interest income for the first nine months of 2016 increased to \$74.3 million, an increase of \$13.0 million, or 21.3%, from \$61.3 million for the first nine months of 2015. The increase in interest income resulted primarily from higher balances of loans and higher yields. Our average loans and leases increased to \$1.56 billion for the first nine months of 2016 from \$1.22 billion for the first nine months of 2015, while related interest income increased \$13.9 million on a tax equivalent basis. Our average investment securities decreased to \$1.34 billion for the first nine months of 2016 from \$1.51 billion for the first nine months of 2015, while related interest income decreased \$5.3 million on a tax equivalent basis. The decrease reflected the time required to reinvest the proceeds from the fourth quarter 2015 sale of our municipal portfolio and continuing loan demand which resulted in fewer investment purchases.

Our net interest margin (calculated by dividing net interest income by average interest earning assets) for the first nine months of 2016 increased to 2.57% from 2.32% in the first nine months of 2015, an increase of 25 basis points. The increase in the net interest margin reflected higher yields on loans and reduced balances of lower yielding deposits at the Federal Reserve Bank. In the first nine months of 2016, the average yield on our loans increased to 4.15% from 3.83% for the first nine months of 2015, an increase of 32 basis points. The increase in loan yields reflected a greater proportion of higher yielding loans including leases and SBA loans. The increase in loan yields also reflected a greater proportion of higher yielding loans originated for sale in secondary markets, and the impact of the December 2015, 25 basis point Federal Reserve Bank increase. Yields on taxable investment securities were higher at 2.37% compared to 1.98% an increase of 39 basis points. The increase reflected the impact of the aforementioned 25 basis point Federal Reserve Bank rate increase. Additionally, yields on non-taxable investments were lower at 2.19% compared to 3.67%. The reduction reflected the sale of the vast majority of our tax exempt portfolio in the fourth quarter of 2015 for tax planning purposes to expedite the utilization of deferred tax assets. Average interest earning deposits at the Federal Reserve Bank decreased \$511.0 million, or 51.0%, to \$490.0 million in the first nine months of 2016 from \$1.0 billion in the first nine months of 2015. The decrease reflected the impact of the first quarter 2016 exit of certain non-strategic deposits to reduce excess Federal Reserve Bank balances which earn a nominal rate. The interest cost

of total deposits and interest bearing liabilities was relatively stable at 0.32% for the first nine months of 2016 compared to 0.30% in the first nine months of 2015.

Average Daily Balances. The following table presents the average daily balances of assets, liabilities and stockholders' equity and the respective interest earned or paid on interest-earning assets and interest-bearing liabilities, as well as average annualized rates, for the periods indicated:

** Includes loans held for sale.

For the first nine months of 2016, average interest earning assets decreased to \$3.42 billion, a decrease of \$348.0 million, or 9.2%, from the first nine months of 2015. The decrease reflected decreased average balances of investment securities of \$167.9 million, or 11.1%, net of increased average balances of loans and leases of \$347.2 million or 28.5%. Average demand and interest checking deposits decreased \$797.4 million or 19.3%.

Provision for Loan and Lease Losses. Our provision for loan and lease losses increased \$10,000, to \$1.8 million for the first nine months of 2016 compared to \$1.8 million for the first nine months of 2015. The increase in the provision is based on our evaluation of the adequacy of our allowance for loan and leases losses, particularly in light of current economic conditions. At September 30, 2016, our

allowance for loan and lease losses amounted to \$6.1 million, or 0.51%, of total loans compared to \$4.4 million, or 0.41%, of total loans at December 31, 2015. For more information about our provision and allowance for loan and lease losses and our loss experience, see “Financial Condition-Allowance for loan and lease losses”, “-Net charge-offs,” and “-Non-performing loans, loans 90 days delinquent and still accruing, and troubled debt restructurings,” below and Note 6 to the financial statements.

Non-Interest Income. Non-interest income was \$45.0 million in the first nine months of 2016 compared to \$62.9 million in the first nine months of 2015, before gains on securities of \$3.1 million in the first nine months of 2016 and loss on securities of \$62,000 in the first nine months of 2015. The \$17.9 million, or 28.4%, decrease between those respective periods reflected a net of \$12.3 million of charges to value of investment in an unconsolidated entity (see “Loss on Discontinued Operations and Change in Value of Unconsolidated Entity in Form 10-Q for the quarter ended June 30, 2016”). Gain (loss) on sale of loans decreased \$5.9 million, or 88.0%, to \$809,000 for the first nine months of 2016, reflecting lower margins resulting from increased credit spreads. Gain (loss) on sale of loans and related expense result from the sale of commercial real estate and other commercial loans to institutions which package such loans in secondary securities markets. Service fees on deposit accounts decreased \$2.2 million, or 40.2%, to \$3.3 million for the first nine months of 2016 from \$5.6 million for the first nine months of 2015 due to the sale of the majority of our health savings accounts in the fourth quarter of 2015. Debit card income decreased \$1.6 million, or 114.9%, to a loss of \$202,000 for the first nine months of 2016 from income of \$1.4 million for the first nine months of 2015 also due to that sale. Prepaid card fees increased \$3.6 million, or 10.0%, to \$39.3 million for the first nine months of 2016 from \$35.8 for the first nine months of 2015 which reflected increased volumes and associated revenues attributable to that volume. Leasing income decreased \$271,000, or 15.7%, to \$1.5 million for the first nine months of 2016 from \$1.7 million for the first nine months of 2015, which reflected lower gains on disposition of leased vehicles in 2016 due to lower volume. Affinity fees increased \$1.1 million, or 46.7%, to \$3.5 million for the first nine months of 2016 from \$2.4 million for the first nine months of 2015. This increase resulted primarily from growth in one affinity relationship. Other non-interest income increased \$3.0 million, or 154.2%, to \$4.9 million for the first nine months of 2016 from \$1.9 million in the first nine months of 2015. The increase resulted primarily from a gain on the sale of Visa Europe to Visa U.S.A., in which members of Visa Europe shared in the sales proceeds.

Non-Interest Expense. Total non-interest expense was \$156.4 million for the first nine months of 2016, an increase of \$21.4 million, or 15.8%, over \$135.1 million for the first nine months of 2015. Salaries and employee benefits expense amounted to \$62.4 million, an increase of \$12.7 million, or 25.6%, over \$49.7 million for the first nine months of 2015. The increase in salaries and employee benefits expense reflected staff additions and related expenses for increased BSA and other regulatory compliance, information technology, institutional banking and SBA loan production and included temporary staff expense for the BSA lookback. Other increases reflected new staff positions in operations, infrastructure and leasing, including expense resulting from the purchase of lease receivables in the second quarter of 2016. Third quarter 2016 salary expense also reflected \$1.3 million of severance expense for the elimination of approximately 20% of staff positions throughout the Bank. The reductions occurred at the end of the quarter and related reductions in ongoing salary expense and other expense categories will be reflected in future quarters. Depreciation and amortization increased \$183,000, or 5.1%, to \$3.8 million in the first nine months of 2016 from \$3.6 million in the first nine months of 2015 which reflected increased depreciation costs related to leasehold improvements and equipment for staff additions and information technology upgrades. Rent and occupancy increased \$326,000, or 7.3%, to \$4.8 million in the first nine months of 2016 from \$4.5 million in the first nine months of 2015. The increase reflected a new sales office in San Francisco, leasing sales offices in Washington state and New Jersey and an SBA office in North Carolina. Data processing expense increased \$724,000, or 6.7%, to \$11.5 million in the first nine months of 2016 from \$10.7 million in the first nine months of 2015. The increase reflected increased account and transaction volume. Printing and supplies increased \$389,000, or 21.6%, to \$2.2 million in the first nine months of 2016 from \$1.8 million in the first nine months of 2015, reflecting mailings related to service charge

increases and other periodic communications with customers. Audit expense decreased \$850,000, or 53.3%, to \$746,000 in the first nine months of 2016 from \$1.6 million in the first nine months of 2015 which reflected lower compliance audit expense and the transfer of certain audit functions in house. Legal expense increased \$1.3 million, or 52.7%, to \$3.8 million for the first nine months of 2016 from \$2.5 million in the first nine months of 2015 which reflected higher regulatory legal costs including fees associated with an SEC subpoena related to the restatement of the financial statements (see “Financial Statements; Regulatory Actions”) and fees associated with the purchase of \$60 million of lease contracts. Amortization of intangible assets increased \$139,000, or 15.6%, to \$1.0 million for the first nine months of 2016 from \$893,000 for the nine months of 2015. The increase resulted primarily from the amortization of the intangible asset resulting from the second quarter 2016 purchase of the \$60 million of lease receivables. FDIC insurance expense decreased \$1.2 million, or 14.3%, to \$7.1 million for the first nine months of 2016 from \$8.3 million in the first nine months of 2015, which reflected the impact of decreased average deposits. Software expense increased \$3.0 million, or 61.8%, to \$7.8 million in the first nine months of 2016 from \$4.8 million in the first nine months of 2015 which reflected additional information technology infrastructure to improve efficiency and scalability, including BSA software required to satisfy regulatory requirements. Insurance expense increased \$254,000, or 17.6%, to \$1.7 million in the first nine months of 2016 from \$1.4 million in the first nine months of 2015. The increase reflected higher cyber and director and officer coverages. Telecom and IT network communications expense increased \$127,000, or 8.9%, to \$1.5 million in the first nine months of 2016 from \$1.4 million in the first nine months of 2015. Securitization and servicing expense decreased \$503,000, or 40.2%, to \$747,000 in the first nine months of 2016 from \$1.3 million in the first nine months of 2015 which reflected a decreased volume of sales. Consulting expense increased \$869,000, or 26.0%, to \$4.2 million in the first nine months of 2016 from \$3.3 million in the first nine months of 2015. The increased expense reflected consulting related to reducing European prepaid operations expense, a more scalable SBLOC loan processing system, consulting for internal information systems report development and investor relations consulting. Other non-interest

expense increased \$1.5 million, or 11.5%, to \$14.1 million in the first nine months of 2016 from \$12.7 million in the first nine months of 2015. The \$1.5 million increase reflected increases of \$488,000 in credit bureau expense, \$346,000 in small business lending loan expense, \$307,000 in customer identification expense, \$187,000 in travel and \$161,000 in directors' fees.

Income Taxes. Income tax benefit for continuing operations was \$15.3 million for the first nine months of 2016 compared to \$10.8 million in the first nine months of 2015. The increased tax benefit reflected the higher loss in 2016.

Liquidity and Capital Resources

Liquidity defines our ability to generate funds to support asset growth, meet deposit withdrawals, satisfy borrowing needs and otherwise operate on an ongoing basis. We invest the funds we do not need for daily operations primarily in overnight federal funds or in our interest-bearing account at the Federal Reserve.

Our primary source of funding has been deposits. We have been exiting deposit relationships to reduce excess balances at the Federal Reserve which earn nominal rates of interest. Significant progress in reducing such balances was made during 2016. Investment securities available-for-sale also provide a significant source of liquidity. Loan repayments, also a source of funds, were exceeded by new loan disbursements during the first nine months of 2016. While we do not have a traditional branch system, we believe that our core deposits, which include our demand, interest checking, savings and money market accounts, have similar characteristics to those of a bank with a branch system. We believe that the rate on our deposits is at or below competitors' rates. However, the focus of our business model is to identify affinity groups that control significant deposits as part of their business. A key component to the model is that the affinity group deposits are both stable and "sticky," in the sense that they do not react to fluctuations in the market. Nonetheless, certain components of the deposits do experience seasonality, creating greater excess liquidity at certain times during the year, especially the first quarter as a result of tax refund prepaid card balances. We plan to exit additional deposit relationships to continue to manage excess liquidity.

Historically, we have also used sources outside of our deposit products to fund our loan growth, including Federal Home Loan Bank advances, repurchase agreements, and institutional (brokered) certificates of deposit. In the first nine months of 2016, the vast majority of our funding was derived from prepaid cards and transaction accounts. While the FDIC now classifies prepaid and most of our other deposits obtained with the cooperation of third parties as brokered, they continue to acknowledge that such deposits are stable and low cost. We maintain secured borrowing lines with the Federal Home Loan Bank of Pittsburgh and the Federal Reserve Bank. As of September 30, 2016, we had a \$491.9 million line of credit with the Federal Home Loan Bank and \$172.5 million line of credit with the Federal Reserve Bank. These lines may be collateralized by specified types of loans or securities. We expect to continue to maintain our facility with the Federal Home Loan Bank and Federal Reserve Bank. We actively monitor our positions and contingent funding sources on a daily basis. As of September 30, 2016, we had \$70.0 million of a daily advance outstanding on our FHLB line. We currently utilize the FHLB line to manage our reserve requirements at the Federal Reserve Bank as a result of normal daily fluctuations in our deposit balances.

As a holding company conducting substantially all of our business through our subsidiaries, our need for liquidity consists principally of cash needed to make required interest payments on our trust preferred securities. As of September 30, 2016, we had approximate cash reserves of \$10.0 million at the holding company. Current quarterly interest payments on the \$13.4 million of trust preferred securities are approximately \$130,000 based on a floating rate of 3.25% over LIBOR. We expect that the conditions under which the amendment to the 2014 Consent Order was issued will have been remediated and the FDIC will permit the Bank to resume paying dividends to us to fund holding company operations. There can, however, be no assurance that the FDIC will, in fact, allow the resumption of Bank dividends to us at the end of that period or at all and, accordingly, there is risk that we will need to obtain alternate sources of funding. There can be no assurance that such sources would be available to us on acceptable terms or at all.

Included in our cash and cash-equivalents at September 30, 2016 were \$312.6 million of interest earning deposits which primarily consisted of deposits with the Federal Reserve and included deposits for reserve requirements. Traditionally, we sell our excess funds overnight to other financial institutions, with which we have correspondent relationships, to obtain better returns. As the federal funds rates decreased to the same 50 basis point level offered by the Federal Reserve, we have adjusted our strategy to retain our excess funds at the Federal Reserve, which also offers the full guarantee of the federal government.

Funding was directed primarily at cash outflows required for net loan growth of \$120.3 million for the nine months ended September 30, 2016, and \$121.2 million for the nine months ended September 30, 2015. Net purchases of investment securities for the nine months ended September 30, 2016, were \$251.1 million compared to net repayments of \$165.3 million for the prior year. Deposit outflows resulted from exiting higher cost deposit relationships without adequate offsetting fee income or loan production potential in the nine months ended September 30, 2016. We had outstanding commitments to fund loans, including unused lines of credit, of \$1.02 billion and \$831.5 million as of September 30, 2016 and December 31, 2015, respectively. The majority of our commitments originate with security backed lines of credit. Such commitments are normally based on the full amount of collateral in a customers investment account. However, such commitments have historically been drawn at only a fraction of the total commitment. The funding requirements for such commitments occur on a measured basis over time and would be funded by normal deposit growth. Of the approximately \$1.1

Edgar Filing: Bancorp, Inc. - Form 10-Q

billion in book value of loans in that portfolio as of the September 30, 2014 date of discontinuance of operations, \$365.2 million of loans remain as assets held for sale on the balance sheet, which reflected related sales and paydowns. We are attempting to sell those remaining loans. Additionally, the balance sheet reflects \$157.4 million in investment in an unconsolidated entity, which is comprised of notes owned by us as a result of the sale of certain discontinued loans.

Liquidity and capital ratios were enhanced during the quarter as a result of the completion of a common stock offering for 17.5 million common shares which generated approximately \$74.8 million in funding and Tier 1 capital.

We must comply with capital adequacy guidelines issued by the FDIC. A bank must, in general, have a Tier 1 leverage ratio of 5.00%, a ratio of Tier I capital to risk-weighted assets of 8.0%, a ratio of total capital to risk-weighted assets of 10.0% and a ratio of common equity tier 1 to risk weighted assets of 6.5% to be considered "well capitalized." The Tier I leverage ratio is the ratio of Tier 1 capital to average assets for the period. "Tier I capital" includes common shareholders' equity, certain qualifying perpetual preferred stock and minority interests in equity accounts of consolidated subsidiaries, less intangibles. At September 30, 2016 we were "well capitalized" under banking regulations.

The following table sets forth our regulatory capital amounts and ratios for the periods indicated:

	Tier 1 capital to average assets ratio	Tier 1 capital to risk-weighted assets ratio	Total capital to risk-weighted assets ratio	Common equity tier 1 to risk weighted assets
As of September 30, 2016				
The Bancorp, Inc.	7.81%	15.14%	15.42%	15.14%
The Bancorp Bank	7.41%	14.56%	14.84%	14.56%
"Well capitalized" institution (under FDIC regulations-Basel III)	5.00%	8.00%	10.00%	6.50%
As of December 31, 2015				
The Bancorp, Inc.	7.17%	14.67%	14.88%	14.67%
The Bancorp Bank	6.90%	13.98%	14.18%	13.98%
"Well capitalized" institution (under FDIC regulations)	5.00%	8.00%	10.00%	6.50%

Asset and Liability Management

The management of rate sensitive assets and liabilities is essential to controlling interest rate risk and optimizing interest margins. An interest rate sensitive asset or liability is one that, within a defined time period, either matures or experiences an interest rate change in line with general market rates. Interest rate sensitivity measures the relative volatility of an institution's interest margin resulting from changes in market interest rates.

We monitor, manage and control interest rate risk through a variety of techniques, including use of traditional interest rate sensitivity analysis (also known as "gap analysis") and an interest rate risk management model. With the interest rate risk management model, we project future net interest income and then estimate the effect of various changes in interest rates and balance sheet growth rates on that projected net interest income. We also use the interest rate risk management model to calculate the change in net portfolio value over a range of interest rate change scenarios. Traditional gap analysis involves arranging our interest earning assets and interest bearing liabilities by repricing periods and then computing the difference (or "interest rate sensitivity gap") between the assets and liabilities that we estimate will reprice during each time period and cumulatively through the end of each time period.

Both interest rate sensitivity modeling and gap analysis are done at a specific point in time and involve a variety of significant estimates and assumptions. Interest rate sensitivity modeling requires, among other things, estimates of how much and when yields and costs on individual categories of interest earning assets and interest bearing liabilities will respond to general changes in market rates, future cash flows and discount rates. Gap analysis requires estimates as to when individual categories of interest-sensitive assets and liabilities will reprice, and assumes that assets and liabilities assigned to the same repricing period will reprice at the same time and in the same amount. Gap analysis does not account for the fact that repricing of assets and liabilities is discretionary and subject to competitive and other pressures. A gap is considered positive when the amount of interest rate sensitive assets exceeds the amount of interest rate sensitive liabilities. A gap is considered negative when the amount of interest rate sensitive liabilities exceeds interest rate sensitive assets. During a period of falling interest rates, a positive gap would tend to adversely affect net interest income, while a negative gap would tend to result in an increase in net interest income. During a period of rising interest rates, a positive gap would tend to result in an increase in net interest income while a negative gap would tend to affect net interest income adversely.

Edgar Filing: Bancorp, Inc. - Form 10-Q

The following table sets forth the estimated maturity or repricing structure of our interest earning assets and interest bearing liabilities at September 30, 2016. We estimate the repricing characteristics of deposits based on historical performance, past experience at other institutions and other deposit behavior assumptions. However, we may choose not to reprice liabilities proportionally to changes in market interest rates for competitive or other reasons. The table does not assume any prepayment of fixed-rate loans and mortgage-backed securities, which are scheduled based on their anticipated cash flow, including prepayments based on historical data and current market trends. The table does not necessarily indicate the impact of general interest rate movements on our net interest income because the repricing of certain categories of assets and liabilities is beyond our control as, for example, prepayments of loans and withdrawal of deposits. As a result, certain assets and liabilities indicated as repricing within a stated period may in fact reprice at different times and at different rate levels.

	1-90 Days (dollars in thousands)	91-364 Days	1-3 Years	3-5 Years	Over 5 Years
Interest earning assets:					
Commercial loans held for sale	\$ 271,992	\$ 15,222	\$ 54,015	\$ 38,254	\$ 183,474

Cumulative gap	\$ (340,396)	\$ (406,801)	\$ (212,046)	\$ 148,486	\$ 712,134		
Gap to assets ratio	-8%	-2%	5%	9%	13%		
Cumulative gap to assets ratio	-8%	-10%	-5%	4%	17%		

* While demand deposits are non-interest bearing, related fees paid to affinity groups may reprice according to specified indices.

The methods used to analyze interest rate sensitivity in this table have a number of limitations. Certain assets and liabilities may react differently to changes in interest rates even though they reprice or mature in the same or similar time periods. The interest rates on certain assets and liabilities may change at different times than changes in market interest rates, with some changing in advance of changes in market rates and some lagging behind changes in market rates. Additionally, the actual prepayments and withdrawals we experience when interest rates change may deviate significantly from those assumed in calculating the data shown in the table. Accordingly actual results can and often do differ from projections.

Financial Condition

General. Our total assets at September 30, 2016 were \$4.22 billion, of which our total loans were \$1.20 billion. At December 31, 2015, our total assets were \$4.77 billion, of which our total loans were \$1.08 billion.

Interest earning deposits and federal funds sold. At September 30, 2016, we had a total of \$312.6 million of interest earning deposits compared to \$1.15 billion at December 31, 2015, a decrease of \$834.9 million or 72.8%. These deposits were comprised primarily of balances at the Federal Reserve, which pays interest on such balances. Reductions in such balances reflected deployment of such funds into higher yielding loans and securities and the exit of less profitable deposit relationships.

Investment portfolio. For detailed information on the composition and maturity distribution of our investment portfolio, see Note 5 to the Financial Statements. Total investment securities increased to \$1.43 billion at September 30, 2016, an increase of \$264.7 million, or 22.7%, from year-end 2015. The increase in investment securities was primarily a result of purchases of residential mortgage-backed securities and collateralized loan obligation securities. Other securities, included in the held-to-maturity classification at September 30,

2016, consisted of three securities secured by diversified portfolios of corporate securities, one bank senior note and two single-issuer trust preferred securities.

A total of \$18.0 million of other debt securities - single issuers is comprised of the following: (i) amortized cost of two single-issuer trust preferred securities of \$10.9 million, of which one security for \$1.9 million was issued by a bank and one security for \$9.0 million was issued by an insurance company; and (ii) the book value of a bank senior note of \$7.0 million.

A total of \$75.5 million of other debt securities – pooled is comprised of three securities consisting of diversified portfolios of corporate securities.

The following table provides additional information related to our single issuer trust preferred securities as of September 30, 2016 (in thousands):

Single issuer	Book value	Fair value	Unrealized gain/(loss)	Credit rating
Security A	\$ 1,909	\$ 2,025	\$ 116	Not rated
Security B	9,052	5,871	(3,181)	Not rated

Class: All of the above are trust preferred securities.

Under the accounting guidance related to the recognition of other-than-temporary impairment charges on debt securities, an impairment on a debt security is deemed to be other-than-temporary if it meets the following conditions: (i) we intend to sell or it is more likely than not we will be required to sell the security before a recovery in value, or (ii) we do not expect to recover the entire amortized cost basis of the security. If we intend to sell or it is more likely than not we will be required to sell the security before a recovery in value, a charge is recorded in net realized capital losses equal to the difference between the fair value and amortized cost basis of the security. For those other-than-temporarily impaired debt securities which do not meet the first condition and for which we do not expect to recover the entire amortized cost basis, the difference between the security's amortized cost basis and the fair value is separated into the portion representing a credit impairment, which is recorded in net realized capital losses, and the remaining impairment, which is recorded in other comprehensive income. Generally, a security's credit impairment is the difference between its amortized cost basis and the best estimate of its expected future cash flows discounted at the security's effective yield prior to impairment. The previous amortized cost basis less the impairment recognized in net realized capital losses becomes the security's new cost basis. For the nine months ended September 30, 2016 and September 30, 2015, we recognized no other-than-temporary impairment charges related to trust preferred securities classified in our held-to-maturity portfolio.

Investments in Federal Home Loan and Atlantic Central Bankers Bank stock are recorded at cost and amounted to \$11.0 million at September 30, 2016, compared to \$1.1 million at December 31, 2015. The increase resulted from additional Federal Home Loan Bank stock required for larger daily advances to enhance liquidity management.

Investment securities with a carrying value of \$614.0 million at September 30, 2016 and \$472.3 million at December 31, 2015, were pledged as collateral for Federal Home Loan Bank advances and letters of credit as required or permitted by law.

Loans held for sale. Loans held for sale are comprised of commercial mortgage loans, SBA loans and residential mortgage loans originated for sale in the secondary market. The fair value of commercial mortgage loans and the SBA loans originated for sale is based on purchase commitments or quoted prices for the same or similar loans. Commercial loans held for sale increased to \$563.0 million at September 30, 2016 from \$489.9 million at December 31, 2015.

Loan portfolio. Total loans increased to \$1.20 billion at September 30, 2016 from \$1.08 billion at December 31, 2015.

Edgar Filing: Bancorp, Inc. - Form 10-Q

The following table summarizes our loan portfolio, not including loans held for sale, by loan category for the periods indicated (in thousands):

	September 30, 2016	December 31, 2015
SBA non real estate	\$ 74,262	\$ 68,887
SBA commercial mortgage	117,053	114,029
SBA construction	6,317	6,977
SBA loans *	197,632	189,893

Total loans, net of deferred loan costs	\$ 1,198,237	\$ 1,078,077

Allowance for loan and lease losses. We review the adequacy of our allowance for loan and lease losses on at least a quarterly basis to determine that the provision for loan losses is made in an amount necessary to maintain our allowance at a level that is appropriate, based on management's estimate of inherent losses. Our estimates of loan and lease losses are intended to, and, in management's opinion, do, meet the criteria for accrual of loss contingencies in accordance with ASC 450, "Contingencies", and ASC 310, "Receivables". The process of evaluating this adequacy has two basic elements: first, the identification of problem loans or leases based on current financial information and the fair value of the underlying collateral; and second, a methodology for estimating general loss reserves. For loans or leases classified as "special mention," "substandard" or "doubtful," we reserve all losses inherent in the portfolio at the time we classify the loan or lease. This "specific" portion of the allowance is the total of potential, although unconfirmed, losses for individually classified loans. In this process, we establish specific reserves based on an analysis of the most probable sources of repayment and liquidation of collateral. While each impaired loan is individually evaluated, not every loan requires a reserve when the collateral value and estimated cash flows exceed the current balance.

The second phase of our analysis represents an allocation of the allowance. This methodology analyzes pools of loans that have similar characteristics and applies historical loss experience and other factors for each pool including management's experience with similar loan and lease portfolios at other institutions, the historic loss experience of our peers and a review of statistical information from various industry reports to determine the allocable portion of the allowance. This estimate is intended to represent the potential unconfirmed and inherent losses within the portfolio. Individual loan pools are created for major loan categories: SBLOCs, SBA loans, direct lease financing and other specialty lending and consumer loans. We augment historical experience for each loan pool by accounting for such items as current economic conditions, current loan portfolio performance, loan policy or management changes, loan concentrations, increases in our lending limit, average loan size and other factors as appropriate. Our Chief Credit Officer oversees the loan review department processes and measures the adequacy of the allowance for loan

and lease losses independently of loan production officers. A description of loan review coverage targets as set forth below.

At September 30, 2016, approximately 50% of the total continuing loan portfolio had been reviewed as a result of the coverage of each loan portfolio type. The loan review policy guidelines were revised in December 2015 to establish minimum coverages for each loan portfolio. The targeted coverages and scope of the reviews are risk-based and vary according to each portfolio. These thresholds are planned to be achieved by December 31, 2016 and maintained as follows:

Securities Backed Lines of Credit – The targeted review threshold for 2016 is 40%, with the largest 25% of SBLOCs by commitment to be reviewed annually. A random sampling of a minimum of 20 of the remaining loans will be reviewed each quarter. At September 30, 2016, approximately 44% of the SBLOC portfolio had been reviewed.

SBA Loans – The targeted review threshold for 2016 is 100%, less guaranteed portions of any purchased loans and loans funded within 90 days of quarter end. The 100% coverage includes loan review work performed by designated SBA department personnel. Although loans are not typically purchased, loans for Community Reinvestment Act, or CRA, purposes are periodically purchased. At September 30, 2016, approximately 83% of the government guaranteed loan portfolio had been reviewed. The review threshold for the independent loan review department is \$1,000,000. The portion not reviewed includes \$30 million in purchased loans which are subject to government guarantees and not subject to review and \$3 million in newly funded loans which will be subject to review.

Edgar Filing: Bancorp, Inc. - Form 10-Q

Leasing – The targeted review threshold for 2016 is 50%. At September 30, 2016, approximately 37% of the leasing portfolio had been reviewed. The review threshold is \$1,000,000.

CMBS (Floating Rate) – The targeted review threshold for 2016 is 100%. Floating rate loans will be reviewed initially within 90 days of funding and will be monitored on an ongoing basis as to payment status. Subsequent reviews will be performed based on a sampling each quarter. Each floating rate loan will be reviewed if any available extension options are exercised. At September 30, 2016, approximately 85% of the CMBS floating rate portfolio had been reviewed.

CMBS (Fixed Rate) – CMBS fixed rate loans will generally not be reviewed as they are sold on the secondary market in a relatively short period of time. 100% of fixed rate loans that are unable to be readily sold on the secondary market and remain on the Bank's books after nine months will be reviewed at least annually. At September 30, 2016, 10% of the CMBS fixed rate portfolio had been reviewed.

Specialty Lending – Specialty Lending, defined as commercial loans unique in nature that do not fit into other established categories, will have a review coverage threshold of 100% for non CRA loans. At September 30, 2016, approximately 91% of the non CRA loans had been reviewed.

Home Equity Lines of Credit (HELOC) – The targeted review threshold for 2016 is 50%. The largest 25% of HELOCs by commitment will be reviewed annually. A random sampling of a minimum of ten of the remaining loans will be reviewed each quarter. At September 30, 2016, approximately 84% of the HELOC portfolio had been reviewed.

The following table presents delinquencies by type of loan as follows (in thousands):

	30-59 Days past due	60-89 Days past due	Greater than 90 days	Non-accrual	Total past due	Current

	\$ 3,957	\$ 4,507	\$ 403	\$ 1,927	\$ 10,794	\$ 1,067,2

Although we consider our allowance for loan and lease losses to be adequate based on information currently available, future additions to the allowance may be necessary due to changes in economic conditions, our ongoing loss experience and that of our peers, changes in management's assumptions as to future delinquencies, recoveries and losses, deterioration of specific credits and management's intent with regard to the disposition of loans and leases.

The following table summarizes select asset quality ratios for each of the periods indicated:

	As of or for the nine months ended September 30, 2016 2015	
Ratio of the allowance for loan losses to total loans	0.51%	0.42%
Ratio of the allowance for loan losses to nonperforming loans *	87.12%	171.11%
Ratio of nonperforming assets to total assets *	0.16%	0.05%
Ratio of net charge-offs to average loans	0.01%	0.10%
Ratio of net charge-offs to average loans annualized	0.01%	0.14%

* Includes loans 90 days past due still accruing interest

The ratio of the allowance for loan and lease losses to total loans was 0.51% at September 30, 2016, compared to 0.42% at September 30, 2015. The higher current period ratio reflected an increase in the allowance which exceeded proportional loan growth during the period. The ratio of the allowance for loan losses to non-performing loans decreased to 87.12% at September 30, 2016, from 171.11% at September 30, 2015, primarily as a result of an increase in non-performing loans. The ratio of non-performing assets to total assets also increased as a result of that increase in non-performing loans. Net charge-offs to average loans decreased to 0.01% for the nine months ended September 30, 2016, from 0.10% for the nine months ended September 30, 2015, primarily as a result of lower charge offs.

Net charge-offs. Net charge-offs were \$152,000 for the nine months ended September 30, 2016, a decrease of \$1.1 million from net charge-offs for the same period of 2015. The majority of the charge-offs in the first nine months of 2016 were associated with SBA commercial mortgage and leasing relationships. The majority of the charge-offs in the first nine months of 2015 were associated with consumer loan relationships.

Non-performing loans, loans 90 days delinquent and still accruing, and troubled debt restructurings. Loans are considered to be non-performing if they are on a non-accrual basis or they are past due 90 days or more and still accruing interest. A loan which is past due 90 days or more and still accruing interest remains on accrual status only when it is both adequately secured as to principal and interest, and is in the process of collection. Troubled debt restructurings are loans with terms that have been renegotiated to provide a reduction or deferral of interest or principal because of a weakening in the financial positions of the borrowers. The following tables summarize our non-performing loans, other real estate owned and loans past due 90 days or more still accruing interest (in thousands).

September 30, 2016	December 31, 2015
-----------------------	----------------------

Non-accrual loans				
SBA non real estate	\$	1,921	\$	733
Consumer		2,100		1,194
Total non-accrual loans		4,021		1,927
Loans past due 90 days or more		2,933		403
Total non-performing loans		6,954		2,330
Other real estate owned		-		-
Total non-performing assets	\$	6,954	\$	2,330

Edgar Filing: Bancorp, Inc. - Form 10-Q

Loans that were modified as of September 30, 2016 and December 31, 2015 and considered troubled debt restructurings are as follows (dollars in thousands):

	September 30, 2016			December 31, 2015		
	Number	Pre-modification recorded investment	Post-modification recorded investment	Number	Pre-modification recorded investment	Post-modification recorded investment
SBA non real estate	3	\$ 917	\$ 917	1	\$ 171	\$ 171
Consumer	3	711	711	2	434	434
Total	6	\$ 1,628	\$ 1,628	3	\$ 605	\$ 605

The balances below provide information as to how the loans were modified as troubled debt restructurings loans at September 30, 2016 and December 31, 2015 (in thousands).

	September 30, 2016			December 31, 2015		
	Adjusted interest rate	Extended maturity	Combined rate and maturity	Adjusted interest rate	Extended maturity	Combined rate and maturity
SBA non real estate	\$ -	\$ 151	\$ 766	\$ -	\$ 171	\$ -
Consumer	-	317	394	-	330	104
Total	\$ -	\$ 468	\$ 1,160	\$ -	\$ 501	\$ 104

There were no loans that had been restructured within the last 12 months that have subsequently defaulted as of September 30, 2016.

As of September 30, 2016 and December 31, 2015, we had no commitments to lend additional funds to loan customers whose terms have been modified in troubled debt restructurings.

Edgar Filing: Bancorp, Inc. - Form 10-Q

The following table provides information about impaired loans at September 30, 2016 and December 31, 2015:

	Recorded investment	Unpaid principal balance	Related allowance	Average recorded investment	Interest income recognized
September 30, 2016					
Without an allowance recorded

Consumer - home equity	1,195	1,295	26	1,766	-

We had \$4.0 million of non-accrual loans at September 30, 2016 compared to \$1.9 million of non-accrual loans at December 31, 2015. The \$2.1 million increase in non-accrual loans was primarily due to \$3.6 million of loans placed on non-accrual status partially offset by \$837,000 of loan payments, \$556,000 of participations sold and \$76,000 of charge-offs. Loans past due 90 days or more still accruing interest amounted to \$2.9 million at September 30, 2016 and \$403,000 at December 31, 2015. The \$2.5 million increase reflected \$4.5 million of additions and \$16,000 of advances on existing loans partially offset by \$2.0 million of loan payments, \$10,000 of charge-offs and \$32,000 of loans moved to repossessed assets.

We had no other real estate owned at September 30, 2016 and December 31, 2015.

Edgar Filing: Bancorp, Inc. - Form 10-Q

The following table classifies our loans (not including loans held for sale) by categories which are used throughout the industry as of September 30, 2016 and December 31, 2015:

September 30, 2016	Pass	Special mention	Substandard	Doubtful	Loss	Unrated subject to review *	Unrated
SBA non real estate	\$ 56,403	\$ 139	\$ 3,401	\$ -	\$ -	\$ 1,030	\$ -

* For information on targeted loan review thresholds see “Allowance for Loan Losses”

Premises and equipment, net. Premises and equipment amounted to \$21.8 million at September 30, 2016 compared to \$21.6 million at December 31, 2015. The increase reflected additional information technology upgrades.

Investment in Unconsolidated Entity. On December 30, 2014, the Bank entered into an agreement for, and closed on, the sale of a portion of its commercial loan portfolio. The purchaser of the loan portfolio was a newly formed entity, Walnut Street 2014-1 Issuer, LLC (“Walnut Street”). The price paid to the Bank for the loan portfolio, which had a face value of approximately \$267.6 million, was approximately \$209.6 million, of which approximately \$193.6 million was in the form of two notes issued by Walnut Street to the Bank; a senior note in the principal amount of approximately \$178.2 million bearing interest at 1.5% per year and maturing in December 2024 and a subordinate note in the principal amount of approximately \$15.4 million, bearing interest at 10.0% per year and maturing in December 2024. The balance of these notes comprise the \$157.4 million investment in unconsolidated entity at September 30, 2016.

Assets held for sale. Assets held for sale as a result of discontinued operations, primarily commercial, commercial mortgage and construction loans, amounted to \$386.2 million at September 30, 2016 compared to \$583.9 million at December 31, 2015. Substantially all of the decrease resulted from approximately \$150.4 in loan principal paydowns, which included a \$63.7 million loan sale in the third quarter of 2016 and fair value loan charges of approximately \$43.4 million.

Deposits. Our primary source of funding is deposit acquisition. We offer a variety of deposit accounts with a range of interest rates and terms, including demand, checking and money market accounts. One strategic focus is growing these accounts through affinity groups. At September 30, 2016, we had total deposits of \$3.77 billion compared to \$4.41 billion at December 31, 2015, a decrease of \$647.8 million or 14.7%. The decrease reflected the planned exit of higher cost deposit relationships which did not have adequate income components. The following table presents the average balance and rates paid on deposits for the periods indicated (in thousands):

Edgar Filing: Bancorp, Inc. - Form 10-Q

	For the nine months ended September 30, 2016		For the year ended December 31, 2015	
	Average balance	Average rate	Average balance	Average rate
Demand and interest checking *	\$ 3,325,047	0.29%	\$ 3,975,475	0.28%
Savings and money market	390,202	0.35%	337,168	0.55%
Time	103,624	0.58%	44,789	0.61%
Total deposits	\$ 3,818,873	0.30%	\$ 4,357,432	0.30%

* Non-interest bearing demand accounts are not paid interest. The amount shown as interest reflects the fees paid to affinity groups, which are based upon a rate index, and therefore classified as interest expense.

Borrowings. We had \$70.0 million of outstanding advances from the Federal Home Loan Bank as of September 30, 2016 and \$0 as of December 31, 2015. We do not have any policy prohibiting us from incurring debt.

Other liabilities. Other liabilities amounted to \$27.7 million at September 30, 2016 compared to \$16.7 million at December 31, 2015, representing an increase of \$11.0 million. Other liabilities consist primarily of investment security purchases in process and amounts payable for BSA lookback expenses.

Other- During the quarter, we completed a stock offering which netted approximately \$74.8 million of capital, with 17.4 million common shares issued.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Except as discussed in Item 2, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” there has been no material change in our assessment of our sensitivity to market risk since our presentation in our Annual Report on Form 10-K for the year ended December 31, 2015.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, or the Exchange Act, is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Members of our operational management and internal audit meet regularly to provide an established structure to report any weaknesses or other issues with controls, or any matter that has not been reported previously, to our Chief Executive Officer and Chief Financial Officer, and, in turn to the Audit Committee of our Board of Directors. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Under the supervision of our Chief Executive Officer and Chief Financial Officer, we have carried out an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at the reasonable assurance level.

There has been no change in our internal control over financial reporting that occurred during the three months ended September 30, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

For a discussion of certain regulatory proceedings involving the FDIC and FRB, see Part I, Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations-Financial Statement Restatement; Regulatory Actions”.

On July 17, 2014, a class action securities complaint captioned Fletcher v. The Bancorp Inc., et al., was filed in the United States District Court for the District of Delaware. A consolidated version of that class action complaint was filed before the same court on January 23, 2015 on behalf of Lead Plaintiffs Arkansas Public Employees Retirement System and Arkansas Teacher Retirement System under the caption of In Re The Bancorp, Inc. Securities Litigation. Case No. 14-cv-0952(SLR). On October 26, 2015, Lead Plaintiffs filed an amended consolidated complaint against Bancorp, Betsy Z. Cohen, Paul Frenkiel, Frank M. Mastrangelo and Jeremy Kuiper, which alleges that during a class period beginning January 26, 2011 through June 26, 2015, the defendants made materially false and/or misleading statements and/or failed to disclose that (i) Bancorp had wrongfully extended and modified problem loans and under-reserved for loan losses due to adverse loans, (ii) Bancorp’s operations and credit practices were in violation of the Bank Secrecy Act (BSA), and (iii) as a result, Bancorp’s financial statements, press releases and public statements were materially false and misleading during the relevant period. The amended consolidated complaint further alleges that, as a result, the price of Bancorp’s common stock was artificially inflated and fell once the defendants’ misstatements and omissions were revealed, causing damage to the plaintiffs and the other members of the class. The complaint asks for an unspecified amount of damages, prejudgment and post-judgment interest and attorneys’ fees. This litigation is in its preliminary stages. The defendants filed a motion to dismiss the amended consolidated complaint on November 23, 2015. Oral argument on the defendants’ motion was held on January 29, 2016 and a court ruling on the motion has been pending. On July 27, 2016, we and all other individually-named defendants entered into a Stipulation and Agreement of Settlement (Settlement Agreement) with respect to the consolidated class action. Under the terms of the Settlement Agreement, we will pay \$17.5 million to the plaintiffs as full and complete settlement of the litigation. All amounts paid by us will be fully funded by our insurance carriers. All terms of the Settlement Agreement are subject to court approval which is pending.

We received a subpoena from the SEC, dated March 22, 2016, relating to an investigation by the SEC of our restatement of our financial statements for the years ended December 31, 2010 through December 31, 2013 and the interim periods ended March 31, 2014, June 30, 2014 and September 30, 2014, which restatement was filed with the SEC on September 28, 2015, and the facts and circumstances underlying the restatement. We are cooperating fully with the SEC's investigation. Our costs to respond to the subpoena and cooperate with the SEC's investigation could be material.

In addition, we are a party to various routine legal proceedings arising out of the ordinary course of our business. Management believes that none of these actions, individually or in the aggregate, will have a material adverse effect on our financial condition or operations.

Item 6. Exhibits

The Exhibits furnished as part of this Quarterly Report on Form 10-Q are identified in the Exhibit Index immediately following the signature page of this Report. Such Exhibit Index is incorporated herein by reference.
