Item 1.01 Entry into a Material Definitive Agreement.

On December 2, 2010, the Company entered into a commercial lease agreement with BMR-Gateway Boulevard LLC ("BMR"), as landlord, for approximately 38,000 square feet of office and research space at BMR's Pacific Research Center in Newark, California. The initial term of the lease is approximately eleven and one-half years, ending on or about September 2022. The Company anticipates that it will be constructing laboratories, offices and related infrastructure within the leased space during the first several months of the lease. As part of the lease, BMR has agreed to provide various financial allowances so that the Company can build to suit initial and future laboratories, offices and other tenant improvements, subject to customary terms and conditions relating to landlord-funded tenant improvements. Base rent over the lease term is expected to start at approximately \$2.20 per month per rentable square foot, with yearly increases throughout the term, up to \$3.02 per month per rentable square foot by lease end, although actual rent will be subject to certain adjustments for draws upon the tenant allowances among other things. As part of the lease, the Company has, until January 2013, an option to lease up to an additional 30,000 square feet in the building.

The Company expects to relocate its corporate headquarters and core research activities to its facility at the Pacific Research Center in the Summer of 2011.
