Top of the Form

Item 2.05 Costs Associated with Exit or Disposal Activities.

General Mills, Inc. previously announced Project Century, a review of our North American manufacturing and distribution network to streamline operations and identify potential capacity reductions. As part of this project, in the first quarter of fiscal 2016, we notified the union member employees and union representatives at our West Chicago, Illinois facility of our tentative decision, pending negotiations and consultation with the union, to close this plant to eliminate excess cereal and dry dinner capacity in our U.S. Retail supply chain. If implemented, this action could affect approximately 500 positions. We expect to incur charges of approximately \$70 million in fiscal 2016, including approximately \$44 million of severance expense and \$26 million of additional expense, primarily fixed asset write-offs. We expect this action to be completed by the end of fiscal 2019 with a total cost of approximately \$120 million, of which approximately \$52 million will be cash.

Also as part of Project Century, we notified the employees at our snacks manufacturing facility in Joplin, Missouri of our decision to close this plant in our U.S. Retail supply chain. This action will affect approximately 120 positions. We expect to incur charges of approximately \$11 million in fiscal 2016, including approximately \$2 million of severance expense and \$9 million of additional expense, primarily fixed asset write-offs. We expect this action to be completed by the end of fiscal 2018 with a total cost of approximately \$12 million, of which approximately \$5 million will be cash.
