Eni announces its 2011-2014 Strategic Plan

- **High production growth: > 3% CAGR to 2014**
- **Gas sales in Italy and key European markets: +5% CAGR to 2014**
- **R&M efficiency program: new target of euro 200 mln by 2014**
- **Sound financial position and sustainable dividend in a 70\$/bl scenario**

London, March 10, 2011 - Paolo Scaroni, CEO of Eni, today presents the company's 2011-2014 Strategic Plan to the financial community.

In the new plan, Eni confirms a high production growth, the consolidation of its leadership in the Italian and European gas markets, and an ambitious cost reduction program aimed at recovering profitability in R&M.

Exploration & Production

Eni confirms its strategy of production growth with an average annual increase of over 3% in the 2011- 2014 period, higher compared to the previous plan.

The suspension of some of our production in Libya, if it remains temporary, will not significantly impact on Eni's production growth target. Investments planned in the country over the coming period are limited, and no major projects are expected to start-up in the next four years.

Eni's growth strategy is based on organic development, also thanks to the significant contribution coming from key areas such as Iraq, Venezuela, Angola and Russia. In 2014, hydrocarbon production will be above the 2.05 million boe/d level.

Table of Contents

About 80% of the production due to come on-stream over the plan period will be from giant projects, in particular from those in Venezuela, Russia, the Arctic region and Angola.

Beyond the plan period, production growth will be supported by the ramp-up of giants such as Junin 5 and Perla in Venezuela, new project start-ups beyond 2014, the promising exploration prospects in countries such as Togo, Ghana, Democratic Republic of Congo and Mozambique as well as from the strategic position that Eni is building in non-conventional gas, also thanks to the Memorandum of Understanding signed with Petrochina.

Gas & Power

The gas market scenario over the plan period will be characterized by a growth in European consumption as well as by a rapid rise in demand from emerging markets: both factors will contribute to absorb the oversupply in Europe.

In this context, Eni's diversified portfolio of supply contracts will again become a competitive advantage.

Leveraging on the ongoing renegotiations of supply contracts, Eni will boost its competitiveness and will increase its 2011- 2014 gas sales by 5% each year on average in Italy and key European markets.

Ebitda proforma adjusted will reach euro 4.2 billion by 2014, in line with 2009 results, taking into consideration the planned sale of certain international pipelines. This result will also be achieved thanks to the realization of an integrated gas trading platform and a focus on high-value market segments.

Refining & Marketing

Eni's strategy in R&M is aimed at increasing operational efficiency, thereby reducing fixed and variable costs by euro 200 million by 2014.

In refining, Eni will increase the flexibility of the plants and the yield in middle distillates, exploiting its proprietary technologies.

Table of Contents

In marketing, Eni will improve results thanks to the re-branding of its distribution network, growth in key European markets and the expansion of non-oil activities.

All these actions will significantly boost R&M profitability, with the objective of reaching Ebit of euro 200 million by 2014, at constant 2010 scenario.

Capex plan and efficiency program

Eni plans euro 53.3 billion of investments over the 2011- 2014 period.

Over 70% of overall investments are related to upstream activities, in particular the development of projects such as Zubair, Junin 5, Perla, Goliat and Block 15/06 in Angola, that will sustain production growth over the plan period and beyond.

With respect to efficiency, Eni is planning a step-up of its cost reduction program, with euro 1.7 billion of savings planned over the next four years, bringing our total since 2006 to euro 4.1 billion. This objective will be achieved through procurement optimization, a further streamlining of logistics in R&M, as well as increased labour efficiencies.

APPOINTMENT OF THE DIRECTORS
(ITEM 5)

To the Shareholders:

pursuant to Article 17.3 of the By-laws, except for the Director appointed pursuant to L.D. No. 332/94, the Board of Directors is appointed by the Shareholders Meeting on the basis of lists presented by Shareholders (and, in case, by the Board of Directors); in which the candidates must be listed in numerical order.

Candidate lists presented by the Shareholders must be filed in the manners specified in the meeting notice, at least twenty-five days before the date set for the first call of the Shareholders Meeting.

Each Shareholder may submit severally or jointly a single list and vote one candidate list only. Controlling subjects, controlled companies by them and those under joint control cannot submit or participate in the submission of other lists, or vote on them, not even through proxies or fiduciary companies. Controlled companies are intended as those companies as defined by Article 93 of Legislative Decree No. 58 of February 24, 1998 ("TUF"). Each candidate may appear in one list only or will be ineligible. Only those Shareholders who, alone or together with other Shareholders, represent at least 0.5 per cent of the voting share capital at the ordinary Shareholders Meeting may present candidate lists.

Together with the deposit of each list, in order to assure its validity, the following documents shall be deposited:

- statement of each candidate to accept his/her nomination;
- the curriculum of each candidate containing adequate information on his/her personal and professional characteristics;
- statement of each candidate to attest that he/she possesses the requirement of independence set forth by Article 148, third Paragraph, of TUF requirements and of honour and that causes for his ineligibility and incompatibility are non existing;
- the identity of shareholders that have presented such list and the percentage of participation held by them in Eni share capital.

According to the Consob Communication No. DEM/9017893 of February 26, 2009, Shareholders who are other than those who severally or jointly hold a controlling or majority shareholding, should deposit, together with their list:

- a statement certifying the absence of direct or indirect relationships with Shareholders who individually or jointly hold a controlling or relative majority, pursuant to Article 147-ter, third Paragraph, of TUF and Article 144-quinquies of the Consob Resolution No. 11971 of May 14, 1999 and subsequent amendments ("Issuer Regulations");

or

- a statement specifying any relationships, if relevant and the reasons why these relationships are not considered decisive to the existence of the aforementioned relationships.

The lists, together with the above-mentioned information, will be made available at the Company's registered office, on the Company's internet website and at the Italian Stock Exchange at least twenty-one days before the date set for the first call of the Shareholders' Meeting.

Ownership of the minimum share required to submit lists is determined by taking into account the shares that are registered in the name of the Shareholder on the day in which the lists are filed with the company. The relative certification can also be provided subsequently to the deposit, within the term set for the filing of the lists.

At least one Board member, if the Board members are no more than five, or at least three Board members if the Board members are more than five, shall have the independence requirements set for the Board of Statutory Auditors members of listed companies by Article 148, third Paragraph, of TUF, that applies also to Directors pursuant to Article 147-ter, fourth Paragraph, of TUF.

Board members will be elected in the following manner:

- a) seven tenths of the members to be elected will be drawn out from the candidate list that receives the majority of votes expressed by the Shareholders in the numerical order in which they appear on the list, rounded off in the event of a fractional number to the next lower number;
- b) the remaining Board members will be drawn out from the other candidate lists; said lists shall not be linked in any way, neither indirectly, to the Shareholders who have presented or voted the list that has obtained the highest number of votes; to this purpose the votes obtained by each candidate list will be divided by one or two or three depending on the number of the members to be elected. The quotients thus obtained will be assigned progressively to candidates of each said lists in the order given in the lists themselves. Quotients thus assigned to the candidates of said lists will be set in one decreasing numerical order. Those who obtain the highest quotients will be elected. In the event that more than one candidate obtains the same quotient, the candidate elected will be the one of the list that has not hitherto had a Board member elected or that has elected the least number of Board members. In the event that none of the lists has yet elected a Board member or that all of them have elected the same number of Board members, the candidate from all such lists who has obtained the largest number of votes will be elected. In the event of equal list votes and equal quotient, a new vote will be taken by the entire Shareholders' Meeting and the candidate elected will be the one who obtains a simple majority of the votes;
- c) if through the procedure described above the minimum number of independent Directors set by these By-laws is not elected, the quotient is calculated according to

Table of Contents

letter b) above in order to be assigned to the candidates present in each list; the independent candidates not yet drawn from the lists pursuant to letters a) and b) above, who have got the highest quotients will be elected in order to meet the provisions of the By-Laws on the number of the independent Directors. The Directors so appointed will replace the non independent Directors to whom the lowest quotients have been assigned. If the number of independent candidates is lower than the minimum limit set by the By-laws, the Shareholders' Meeting will make a resolution with the majorities prescribed by the law to substitute the not independent candidates who have got the lowest quotients;

- d) to appoint Board members for any reason not covered by the terms of the aforementioned procedure, the Shareholders' Meeting will make a resolution with the majorities prescribed by the law in order, however, to assure that the Board composition complies with the current legislation and the By-laws.

In consideration of the Board proposal aforementioned, the Shareholders' Meeting, pursuant to Article 17.3 of the By-laws, shall appoint nine Directors on the basis of the lists presented by those entitled.
