PART I

ITEM 1. BUSINESS.

General

American Mortgage Acceptance Company was formed on June 11, 1991 as a Massachusetts business trust. We elected to be treated as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986, as amended (the "Code"). We are an externally managed REIT, and all of our operations are conducted by CharterMac AMI Associates, Inc. (formerly Related AMI Associates, Inc., the "Advisor") pursuant to an Advisory Services Agreement. Throughout this report, the terms "we", "us", "the Company" and similar terms are meant to refer to American Mortgage Acceptance Company and its consolidated subsidiaries.

Business Strategy

Our business plan focuses on originating and acquiring mortgage loans secured by multifamily and commercial properties throughout the United States. Historically, many of the mortgages were government insured or agency guaranteed first mortgages, insured mortgage pass-through certificates or insured mortgage backed securities. We are increasingly investing in uninsured mezzanine loans, construction loans, first mortgage loans, subordinated interests in first

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

mortgage loans and bridge loans. These mortgages may have fixed or variable interest rates. Additionally, we have indirectly invested in subordinate commercial mortgage-backed securities and may invest in other real estate assets. In association with our investing activities, we may also issue guarantees of construction and permanent financing and make standby loan commitments.

During 2005, our board of trustees and shareholders approved an amendment to our declaration of trust that would allow our board of trustees to, among other things, broaden our investment strategy. This will enable us to increase the number of investments we will make in first mortgage loans, subordinated interests in first mortgage loans and bridge loans, in addition to the traditional mezzanine loans and government insured mortgage loans that we originated in the past. These changes will enable us to expand our business plan and grow focus on additional real estate asset classes, including diversifying outside of multifamily residential lending to include commercial opportunities.

In order to fund the expected growth of our investment portfolio, we are currently exploring utilizing Collateralized Debt Obligation ("CDO") securitizations. We intend to securitize our expanding investment portfolio through a CDO beginning in the second quarter of 2006; however, there are no assurances that such a transaction will occur. We expect that securities issued

4

in any such transaction will not be registered under the Securities Act of 1933 and will not be offered or sold in the United States absent registration or an applicable exemption from registration requirements.

Investing

We seek to leverage the expertise of our Advisor, and its affiliates in originating the loans and other assets in which we invest. In addition, our Advisor, through its affiliates, provides the expertise to perform both the initial underwriting of the properties which serve as direct or indirect collateral for our loans, as well as in the ongoing monitoring of those properties through construction, lease-up and stabilization.

We invest, or have invested in, the following types of assets:

MEZZANINE LOANS

We originate or acquire mezzanine loans that typically finance newly stabilized or transitional multifamily and commercial real estate properties. While we mainly focus on the multifamily sector, we may originate mezzanine loans for office, retail or industrial properties as well. The interest rates we offer are either fixed or floating rate. We seek assets secured by properties in real estate markets with strong fundamentals and transactions with well capitalized developers or guarantors. Our mezzanine transactions may involve us:

- 1) issuing mezzanine debt subordinated to an existing first mortgage loan;
- 2) jointly bidding with a senior lender and closing simultaneously (the process can be seamless to the client);
- 3) acquiring a mezzanine loan from a senior lender; or
- 4) originating the entire debt structure and selling the first mortgage to a senior lender.

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

Mezzanine loans are subordinate to senior mortgages and may include a participating component, such as a right to a portion of the cash flow and proceeds generated from the refinancing and sale of the underlying properties. Typically, they are secured by equity interests in the borrower and have limited recourse to the borrower.

BRIDGE LOANS

We have two bridge loan programs. In the first, loans are typically funded in connection with the development of multifamily properties which benefit from the Low-Income Housing Tax Credit program under Section 42 of the Internal Revenue Code ("LIHTC program"). Due to the typical equity payment schedule associated with the LIHTC program, there can be periods in a construction cycle where a developer needs short-term capital and we offer bridge loans to developers with typical terms of 12 months, which are collateralized by the equity interests in the property owner.

In the second program, we provide loans for properties undergoing rehabilitation when the rehabilitation process will add significant value to the property and reduce the effective loan-to-value ratio and risk of loss.

These bridge loans may include a participation component and in connection with our broadened investment focus, we may originate additional types of bridge loans secured by either multifamily or commercial properties.

FIRST MORTGAGE LOANS

We currently originate or invest in first mortgage loans secured by multifamily properties. The loans may be in the form of long-term fixed-rate financing obligations or revenue bonds that are secured by first mortgages on affordable multifamily housing properties throughout the country. The revenue bonds generally rank on par with tax-exempt first mortgage revenue bonds that are owned by CharterMac, the parent of our Advisor. The proceeds from these revenue bonds are generally used for the new construction or substantial rehabilitation of affordable multifamily properties.

First mortgage loans are an additional area of expansion for us. We expect that we will invest in first mortgage loans, secured by multifamily or commercial properties, that will be originated by CharterMac Mortgage Capital, an affiliate of our Advisor.

GOVERNMENT INSURED AND GUARANTEED INVESTMENTS

We invest in government insured or guaranteed investments, primarily through the acquisition of Government National Mortgage Association ("GNMA" or "Ginnie Mae") and Federal National Mortgage Association (FNMA or "Fannie Mae") mortgage-backed securities and pass-through certificates. We believe that government agency insured lending offers safety, liquidity and moderate yields, while also providing a strong asset base for collateralized borrowing on favorable terms.

COMMERCIAL MORTGAGE - BACKED SECURITIES ("CMBS")

We currently invest indirectly in CMBS through an equity investment in ARCap Investors, LLC ("ARCap"). ARCap specializes in, and is a recognized industry leader in managing funds that invest in CMBS. The CMBS under ARCap's management

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

are collateralized by a diverse range of underlying properties including multifamily, retail, office and hotel. We own both common and preferred stock in ARCap.

OTHER INVESTMENTS

From time to time, we may invest in assets outside of our normal investment strategy if we believe that making such an investment is advantageous in maximizing our return on equity.

Financing

We finance our investing activity primarily through borrowing from various facilities at short-term rates. We have four repurchase facilities and a line of credit with a related party that are used to finance our investments.

For further information about these facilities, see MANAGEMENT'S DISCUSSION AND ANALYSIS - LIQUIDITY AND CAPITAL RESOURCES and Notes 7, 8 and 9 to the consolidated financial statements.

In addition, we may also issue common shares to fund investing activity. We have the capacity to raise approximately \$170.0 million of additional funds by issuing either common or preferred shares pursuant to a shelf registration statement filed with the SEC.

From time to time, we may also issue other types of securities to raise additional capital. For example, during 2005, our subsidiary issued \$25.0 million of variable rate preferred securities, the proceeds of which were used to purchase FNMA certificates.

In 2006, we expect to grow our investment portfolio by utilizing CDO securitizations. In order to finance these investments prior to securitizing them, we expect to enter into a new warehouse facility with a major financial institution, although there are no assurances that this facility will close.

Competition

We compete with various financial institutions in each of our lines of business. We compete with investment banks, other REITs, mezzanine funds and pension fund advisors for investment opportunities.

Management and Governance

We have engaged our Advisor, to manage our day-to-day affairs. Our Advisor has subcontracted with CharterMac Capital LLC (formerly known as Related Capital Company LLC) ("CharterMac Capital"), a subsidiary of CharterMac, to provide the services necessary for our operations. Through our Advisor, CharterMac Capital offers us a core group of experienced staff and executive management personnel who provide us with services on both a full- and part-time basis. These services include, among other things, acquisition, underwriting, asset monitoring, portfolio management, finance, accounting, capital markets and investor relations.

We have no employees. Our Advisor receives compensation in connection for the services it provides to us as set forth in Item 8, FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA; Item 11, EXECUTIVE COMPENSATION; and Item 13, CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS. In addition, we reimburse our Advisor and certain of its

affiliates for expenses they incur in connection with their performance of services for us in accordance with our management agreement.

We are governed by a board of trustees comprised of three independent trustees and two non-independent trustees who are affiliated with our Advisor.

ITEM 1A. RISK FACTORS

An investment in our common shares involves a number of risks. Before making an investment decision, you should carefully consider all of the risks described in this document. If any of the risks discussed actually occur, our business, financial condition and results of operations, and the value of your investment, could be materially adversely affected.

For convenience, we have grouped these risk factors as follows:

1. Risks related to our investments
2. Risks related to our Advisor
3. Risks related to our debt obligations
4. Risks related to our classification as a REIT and not as an investment company
5. Risks related to our common shares and our shareholders

1. RISKS RELATED TO OUR INVESTMENTS

MORTGAGE INVESTMENTS THAT ARE NOT UNITED STATES GOVERNMENT INSURED AND NON-INVESTMENT GRADE MORTGAGE ASSETS INVOLVE RISK OF LOSS

GENERAL. We intend to continue to originate and acquire uninsured and non-investment grade mortgage loans and mortgage assets as part of our investment strategy. Such loans and assets may include first mortgage loans, mezzanine loans, construction loans, bridge loans, subordinated interests in first mortgage loans and CMBS. While holding such interests, we will be subject to risks of borrower defaults, bankruptcies, fraud and losses and special hazard losses that are not covered by standard hazard insurance. In the event of any default under mortgage loans we hold, we will bear the risk of loss of principal and non-payment of interest and fees to the extent of any deficiency between the value of the mortgage collateral and the principal amount of the mortgage loan.

LIMITED RECOURSE LOANS MAY LIMIT OUR RECOVERY TO THE VALUE OF THE MORTGAGED PROPERTY. Our loans are generally non-recourse, although some may have limited recourse provisions for a short period. In addition, limited recourse against the borrower may be further limited by applicable provisions of the laws of the jurisdictions in which the mortgaged properties are located or by the selection of remedies and the impact of those laws on that selection. With respect to our non-recourse mortgage loans, in the event of a borrower default, the value of the specific mortgaged property and other assets, if any, pledged to secure the relevant mortgage loan, may be less than the amount owed under the mortgage loan. As to those mortgage loans that provide for recourse against the borrower and its assets generally, there can be no assurance that such recourse will provide a recovery in respect of a defaulted mortgage loan greater than the liquidation value of the mortgaged property securing that mortgage loan.

In addition, investment in subordinated interests in mortgage loans do not provide us with foreclosure remedies upon default. Should an investment default, we may lose our entire investment in such loans.

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

COMPETITION IN ACQUIRING DESIRABLE INVESTMENTS MAY LIMIT THEIR AVAILABILITY WHICH COULD, IN TURN, NEGATIVELY AFFECT OUR ABILITY TO GENERATE NET INCOME

We compete for loan investments with numerous public and private real estate investment vehicles, such as mortgage banks, pension funds, REITs, institutional investors and individuals. Mortgages, mezzanine loans, subordinated interests in CMBS and other investments are often obtained through a competitive bidding process. In addition, competitors may seek to establish relationships with the financial institutions and other firms from which we intend to purchase such assets. Many of our competitors are larger than us, may have access to greater capital resources and other resources, and may have other advantages over us and our Advisor in conducting certain business and providing certain services. Competition may result in higher prices for mortgage assets, lower yields and a

7

narrower spread of yields over our borrowing costs. There can be no assurance that we will achieve investment results that will allow any specified level of cash distribution.

INTEREST RATE FLUCTUATIONS WILL AFFECT THE VALUE OF OUR ASSETS AND OUR ABILITY TO GENERATE NET INCOME

Interest rates are highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors beyond our control. Interest rate fluctuations can adversely affect our net income in many ways and present a variety of risks, including the risk of a mismatch between asset yields and borrowing rates.

Interest rate mismatch could occur between asset yields and borrowing rates resulting in decreased yield. Our operating results will depend in large part on differences between the income from our assets (net of credit losses) and our borrowing costs. We fund the origination and acquisition of a significant portion of our assets with borrowings which have interest rates that reset relatively rapidly, such as monthly or quarterly. We anticipate that, in most cases, the income from our fixed-rate assets will respond more slowly to interest rate fluctuations than the cost of our borrowings, creating a mismatch between asset yields and borrowing rates. In addition, in periods of declining market rates, income from our variable rate investments would decline. Consequently, changes in interest rates, particularly short-term interest rates, may influence our net income and could result in operating losses.

Our operating results depend to a significant degree on differences between the income from our assets and our borrowing costs. Due to the fixed returns generated by most of our assets, interest rate fluctuations may influence our net income. See also Item 7A, QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK.

PREPAYMENT RATES MAY NEGATIVELY AFFECT THE VALUE OF OUR INVESTMENTS.

The value of our investments may be affected by prepayment rates. Prepayment rates are influenced by changes in current interest rates and a variety of economic, geographic and other factors beyond our control, and consequently, such prepayment rates cannot be predicted with certainty. To the extent we originate mortgage loans, we expect that such mortgage loans will have a measure of protection from prepayment in the form of prepayment lock-out periods or prepayment penalties. However, such protection may not be available with respect

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

to investments which we acquire, but do not originate. In periods of declining mortgage interest rates, prepayments on mortgages generally increase. If general interest rates decline as well, the proceeds of such prepayments received during such periods are likely to be reinvested by us in assets yielding less than the yields on the investments that were prepaid. In addition, the market value of mortgage investments may, because of the risk of prepayment, benefit less from declining interest rates than from other fixed-income securities. Conversely, in periods of rising interest rates, prepayments on mortgages generally decrease, in which case we would not have the prepayment proceeds available to invest in assets with higher yields. Under certain interest rate and prepayment scenarios we may fail to recoup fully our cost of acquisition of certain investments.

WE MAY NOT ACCURATELY ASSESS INVESTMENT YIELDS, WHICH MAY NEGATIVELY AFFECT OUR EARNINGS

Before making any investment, our Advisor will consider the expected yield of the investment and the factors that may influence the yield actually obtained on such investment. These considerations will affect our or our Advisor's decision whether to purchase such an investment and the price offered for such an investment. No assurances can be given that we or our Advisor will make an accurate assessment of the yield to be produced by an investment. Many factors beyond our and our Advisor's control are likely to influence the yield on the investments, including, but not limited to, competitive conditions in the local real estate market, local and general economic conditions and the quality of management of the underlying property. Our Advisor's inability to accurately assess investment yields may result in our purchasing assets that do not perform as well as expected, which may negatively affect our earnings.

THERE ARE RISKS ASSOCIATED WITH INVESTMENTS SECURED BY REAL ESTATE, WHICH MAY NEGATIVELY AFFECT OUR EARNINGS

We derive most of our income by investing, directly and indirectly, in debt secured by residential or commercial properties. Such investments subject us to various types and degrees of risk that could adversely affect the value of our investments and our ability to generate revenue and net income.

8

Multifamily and commercial property values and net operating income derived from such properties are subject to volatility and may be affected adversely by a number of factors, including, but not limited to:

- o national, regional and local economic conditions (which may be adversely affected by industry slowdowns and other factors);
- o local real estate conditions (such as an oversupply of housing, retail, industrial, office or other commercial space);
- o stability of controlling entity of our borrower and managing agent of the borrower's property;
- o construction quality, age and design;
- o demographic factors;
- o retroactive changes to building or similar codes; and
- o increases in operating expenses (such as energy costs).

Other risks include, but are not limited to, the following:

- o If a mortgage loan is called due to construction not being completed as required in the mortgage loan documents, we may choose to expend additional capital in order to preserve our investment;

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

- o occupancy and rent levels may be affected by construction of additional housing units and national, regional and local politics, including current or future rent stabilization and rent control laws and agreements;
- o the federal LIHTC Program and city, state and federal housing subsidy or similar programs which apply to some of the properties impose rent limitations that could adversely affect the ability to increase rents to generate the funds necessary to maintain the properties securing our investments in proper condition, which is particularly important during periods of rapid inflation or declining market value of such properties;
- o if a loan defaults, the value of the property securing the loan (plus, for properties that are financed through the LIHTC Program, the value of the credits) may be less than the unamortized principal amount of the loan;
- o an owner or operator of real property may become liable for the costs of removal of certain hazardous substances released on its property without regard to whether the owner or operator knew of, or was responsible for, the release of such hazardous substances. The presence of hazardous substances may adversely affect an owner's ability to operate the property;
- o certain underlying properties may be required to comply with the Americans with Disabilities Act, and must comply with fire and safety regulations, building codes, and other land use regulations. Compliance with such requirements may require property operators to make substantial capital expenditures; and
- o loans to finance condominium conversions may be adversely impacted if interest rate increases or market forces diminish investor demand for condominium units.

These conditions and events may increase the possibility that a property operator may be unable to meet its obligations to us or otherwise expose us to losses, thereby affecting our net income. We manage these risks through diligent and comprehensive underwriting, asset management and ongoing monitoring of loan and property performance. We may also obtain construction completion guarantees, personal recourse agreements and/or operating deficit guarantees. In other cases, we may decide to forego certain types of available security if we determine that the security is not necessary or is too expensive to obtain in relation to the risks covered.

From time to time, through the foreclosure process, we may also take title to properties as a result of loan defaults by borrowers. Excluding properties that we have legally sold and for which we have recovered a large portion of the investment we made upon foreclosure, as of December 31, 2005, the aggregate carrying value was approximately \$18.4 million. While our Advisor is acting to improve the operating performance of these properties and actively marketing them for sale, the assets are illiquid and there is no assurance that we will realize the full carrying amounts when the properties are sold.

CHANGES IN MORTGAGE LOAN PROGRAMS COULD ADVERSELY AFFECT US

We could be hindered in making investments by adverse changes in the FHA insurance, Ginnie Mae or Fannie Mae guarantee programs or rules or regulations relating to them. Generally, once a mortgage has been endorsed for insurance or guaranteed, subsequent amendments to the rules or regulations would not apply

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

THERE ARE RISKS ASSOCIATED WITH OUR INVESTMENT IN ARCAP, WHICH MAY NEGATIVELY AFFECT OUR EARNINGS

We have invested indirectly in subordinated CMBS through our ownership of a membership interest in ARCap. ARCap manages funds that invest in subordinated CMBS that include "first loss" and non-investment grade subordinated interests. A first loss security is the most subordinate class in a structure and accordingly is the first to bear the loss upon a default, on restructuring or liquidation of the underlying collateral and the last to receive payment of interest and principal. Such classes are subject to special risks, including a greater risk of loss of principal and non-payment of interest than more senior, rated classes. The market values of subordinated interests in CMBS and other subordinated securities tend to be more sensitive to changes in economic conditions than more senior, rated classes. As a result of these and other factors, subordinated interests generally are not actively traded and may not provide holders with liquidity of investment. In addition, our ability to transfer our membership interest in ARCap is limited by the terms of ARCap's operating agreement.

PARTICIPATING INTERESTS IN MORTGAGES MAY NOT BE REALIZED

In connection with the acquisition and origination of mortgages, we have obtained and may continue to obtain participating interests that may entitle us to payments based upon a property's cash flow, profits or any increase in the value of the property that would be realized upon a refinancing or sale of the property. As the operation of a particular property is subject to numerous variables and risks, there can be no assurance that a participating interest will result in additional payments to us.

GEOGRAPHIC CONCENTRATION AND THE CREDIT QUALITY OF BORROWERS MAY RESULT IN LOSSES

We have not established any limit upon the geographic concentration of properties securing our investments or the credit quality of borrowers of uninsured investments. As a result, properties securing our investments may be overly concentrated in certain geographic areas and the underlying borrowers of our uninsured investments may have low credit quality. We may experience losses due to geographic concentration or low credit quality. As of December 31, 2005, 36.7% of our portfolio was comprised of investments in mortgage loans, notes receivable, revenue bonds and real estate owned. Of this group of assets, 62.4% were secured by properties in Texas. We had no borrowers exceeding 10% of our portfolio of investments in mortgage loans, notes receivable and revenue bonds other than John Loder and Richard Nathan who are the creditors of 11.4% and 10.5%, respectively, in these categories.

THERE ARE RISKS ASSOCIATED WITH OUR CONTEMPLATED CDO TRANSACTIONS

We would be exposed to additional risks if we finance a portion of our investment portfolio through a CDO transaction. Risks associated with financing investments through a CDO include the following:

WE MAY NOT BE ABLE TO ACQUIRE ELIGIBLE INVESTMENTS FOR A CDO ISSUANCE, OR MAY NOT BE ABLE TO ISSUE CDO SECURITIES ON ATTRACTIVE TERMS, WHICH MAY REQUIRE US TO UTILIZE MORE COSTLY FINANCING FOR OUR INVESTMENTS, OR TO LIQUIDATE THE INVESTMENTS.

We intend to capitalize on opportunities to finance certain of our investments on a non-recourse, long-term basis, such as through the issuance of CDOs. During the period that we are acquiring these investments, we intend to finance our purchases through a warehouse facility. We will use this facility to finance our acquisition of investments until we have accumulated a sufficient quantity of them,

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

at which time we may refinance these lines through a securitization, such as a CDO issuance, or other types of long-term financing. As a result, we are subject to the risk that we will not be able to acquire a sufficient amount of eligible investments to maximize the efficiency of a CDO issuance. In addition, conditions in the capital markets may make the issuance of CDOs less attractive to us when we do have a sufficient pool of collateral. If we are unable to issue a CDO to finance these investments, we may be required to utilize other forms of potentially less attractive financing, or otherwise to liquidate the collateral.

10

WE MAY NOT BE ABLE TO FIND SUITABLE REPLACEMENT INVESTMENTS IN COLLATERALIZED DEBT OBLIGATIONS WITH REINVESTMENT PERIODS.

Some CDOs have periods where principal proceeds received from assets securing the obligation can be reinvested for a defined period of time, commonly referred to as a reinvestment period. Our ability to find suitable investments during any reinvestment period that meet the criteria set forth in the CDO documentation and by rating agencies may determine the success of our CDO investments. Our potential inability to find suitable investments may, among other things:

- o cause interest deficiencies;
- o cause hyper-amortization of the senior CDO liabilities; and
- o cause us to reduce the life of our CDOs and accelerate the amortization of certain fees and expenses.

THE USE OF CDO FINANCINGS WITH OVER-COLLATERALIZATION AND INTEREST COVERAGE REQUIREMENTS MAY HAVE A NEGATIVE IMPACT ON OUR CASH FLOW.

The terms of CDOs will generally provide that the principal amount of investments must exceed the principal balance of the related bonds by a certain amount and that interest income exceed interest expense by a certain amount. We anticipate that the CDO terms will provide that, if certain delinquencies and/or losses or other factors cause a decline in collateral or cash flow levels, the cash flow otherwise payable on our investment may be redirected to repay classes of CDOs senior to ours until the issuer or the collateral is in compliance with the terms of the governing documents. Other tests (based on delinquency levels or other criteria) may restrict our ability to receive net income from assets pledged to secure CDOs. We cannot assure you that the performance tests will be satisfied. Nor can we assure you, in advance of completing negotiations with the rating agencies or other key transaction parties as to the actual terms of the delinquency tests, over-collateralization and interest coverage terms, cash flow release mechanisms or other significant factors upon which net income to us will be calculated. Failure to obtain favorable terms with regard to these matters may adversely affect the availability of net income to us. If our investments fail to perform as anticipated, our over-collateralization, interest coverage or other credit enhancement expense associated with our CDO financings will increase.

WE MAY BE REQUIRED TO REPURCHASE LOANS THAT WE HAVE SOLD OR TO INDEMNIFY HOLDERS OF OUR CDOS.

If any of the loans we originate or acquire and sell or securitize

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

through CDOs do not comply with representations and warranties that we make about certain characteristics of the loans, the borrowers and the underlying properties, we may be required to repurchase those loans or replace them with substitute loans. In addition, in the case of loans that we have sold instead of retained, we may be required to indemnify persons for losses or expenses incurred as a result of a breach of a representation or warranty. Repurchased loans typically require a significant allocation of working capital to carry on our books, and our ability to borrow against such assets is limited. Any significant repurchases or indemnification payments could adversely affect our financial condition and operating results.

2. RISKS RELATED TO OUR ADVISOR

WE ARE DEPENDENT ON OUR ADVISOR AND IF OUR ADVISOR TERMINATES THE ADVISORY AGREEMENT, WE MAY NOT BE ABLE TO FIND AN ADEQUATE REPLACEMENT ADVISOR

We have no employees, although we have officers. We have entered into an advisory agreement with our Advisor under which it provides us with all of the services necessary for our operations. We are dependent on our Advisor for the management and administration of our business and investments. The results of our operations will be dependent upon the availability of, and our Advisor's ability to identify and capitalize on, investment opportunities. The agreement may be terminated

(i) without cause by our Advisor or

11

(ii) with or without cause by a majority of our independent trustees.

The Advisor can terminate the agreement without penalty, but we are subject to a penalty, except in certain instances, for termination or non-renewal. Termination would be effective upon 60 days prior written notice to the non-terminating party. If our Advisor terminates our agreement, we may not be able to find an adequate replacement advisor.

CONFLICTS OF INTEREST COULD ARISE AMONG US AND OR RELATED PARTIES WITH RESPECT TO INVESTMENT OPPORTUNITIES

Our Advisor has subcontracted its obligation to provide services under the advisory agreement to CharterMac Capital, and there are risks involved with this arrangement. Under our advisory agreement, the Advisor and CharterMac Capital are permitted to act as advisor to other entities having investment policies similar to ours, including other REITs. Generally, in conflict situations with non-affiliated entities, our Advisor must present an investment opportunity to us if the opportunity is within our investment objectives and policies, the opportunity is of a character that could be taken by us, and we have the financial resources to take advantage of the opportunity.

Additionally, CharterMac, the parent of the Advisor and CharterMac Capital, has in the past, and may in the future, invest in first mortgage loans, including taxable first mortgage revenue bonds or other investments that are similar to those in which we invest.

To the extent that these existing entities, as well as affiliated entities which may be formed by affiliates of our Advisor in the future, have funds available for investment at the same time as we do and a potentially suitable investment

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

is offered to us or the affiliated entities, our Advisor will review the affiliated entities' and our investment portfolios and will determine whether or not the investment should be made by one of the affiliated entities or by us based upon factors such as the amount of funds available for investment, yield and portfolio diversification. If the making of a mortgage loan or other mortgage investment appears equally appropriate for us and these affiliated entities, the mortgage loan or other mortgage investment will either be made by a joint venture between two or more of such entities (which may include us), or will be allocated to one of such entities on a basis of rotation with the initial order of priority determined by the dates of formation of the entities.

In addition, Stephen M. Ross is the principal owner of The Related Companies, LP ("TRCLP"), as well as the Chairman and an indirect owner of a 15.9% economic interest in CharterMac. Jeff Blau, our Chief Executive Officer, is also employed by TRCLP and has an ownership interest in CharterMac. TRCLP may engage in businesses which compete with our Company. In connection with CharterMac's acquisition of CharterMac Capital in November 2003, CharterMac and TRCLP entered into an agreement which prohibited TRCLP and its affiliates from competing with any business currently engaged in by CharterMac Capital other than in specified areas, including originating mezzanine loans to multifamily housing properties similar to those which secure our loans. There can be no assurance that we and TRCLP and its affiliates would not directly compete for similar products and opportunities in these areas in the future.

CONFLICTS OF INTEREST COULD ARISE IN TRANSACTIONS WHERE WE LEND TO OR BORROW FROM AFFILIATES OF OUR ADVISOR

Every transaction entered into between us and an affiliate of our Advisor raises a potential conflict of interest. In addition to the initial determination to invest in mortgage investments secured by properties owned by an affiliate of our Advisor, such conflicts of interest with respect to these mortgage investments include, among others, decisions regarding:

- o whether to waive defaults of such affiliate;
- o whether to foreclose on a loan; and
- o whether to permit additional financing on the properties securing our investments other than financing provided by us.

We have invested in, and may in the future invest in, mortgage investments secured by properties in which either direct or indirect affiliates of our Advisor own equity interests in the borrower. Our declaration of trust requires that any transaction between our Advisor or any of its affiliates and us be approved by a majority of our trustees, including a majority of the independent trustees, not otherwise interested in the transaction, as being fair and reasonable and on terms not less favorable to us than those available from unaffiliated third parties. As of December 31, 2005, we had four notes

receivable with a total carrying value of approximately \$13.7 million, one first mortgage with a total carrying value of approximately \$771,000, and seven multifamily housing first mortgage bonds with a total carrying value of approximately \$6.6 million to borrowers that are affiliates of our Advisor, which represents 1.7% of our total assets.

In June 2004, we entered into a revolving credit facility with CharterMac, which provides up to \$20.0 million in borrowings and bears interest at LIBOR plus 300 basis points. This facility was extended through June 30, 2006 and contains

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

customary restrictions and covenants that are similar to our warehouse debt facility with an unaffiliated lender. As of December 31, 2005, there was no outstanding balance on this facility.

3. RISKS RELATED TO OUR DEBT OBLIGATIONS

SHORT-TERM REPURCHASE AGREEMENTS INVOLVE RISK OF LOSS

We finance, and expect to continue to finance, a portion of our investments through collateralized borrowing in the form of repurchase agreements, which involve us selling assets concurrently with our agreement to repurchase them at a later date and at a fixed price. During the repurchase agreement period, we continue to receive principal and interest payments on the assets. The use of borrowing, or "leverage," to finance our assets involves a number of risks, including the following:

IF WE ARE UNABLE TO RENEW OUR BORROWINGS AT FAVORABLE RATES, WE MAY BE FORCED TO SELL ASSETS, AND OUR PROFITABILITY MAY BE ADVERSELY AFFECTED. We rely on short-term repurchase agreements to finance a portion of our assets. Our ability to achieve our investment objectives depends on our ability to borrow money in sufficient amounts and on favorable terms and our ability to renew or replace these short-term borrowings on a continuous basis as they mature. If we are not able to renew or replace maturing borrowings, we would be forced to sell some of our assets under possibly adverse market conditions, which may adversely affect our profitability. As of December 31, 2005, we had borrowings of approximately \$209.1 million outstanding under the repurchase facilities, all of which typically have 30-day settlement terms.

A DECLINE IN THE MARKET VALUE OF OUR ASSETS MAY RESULT IN MARGIN CALLS THAT MAY FORCE US TO SELL ASSETS UNDER ADVERSE MARKET CONDITIONS. Repurchase agreements involve the risk that the market value of the securities sold by us may decline and that we will be required to post additional collateral, reduce the amount borrowed or suffer forced sales of the collateral. If forced sales were made at prices lower than the carrying value of the collateral, we would experience additional losses. If we are forced to liquidate our assets to repay borrowings, there can be no assurance that we will be able to maintain compliance with the REIT asset and source of income requirements.

OUR USE OF REPURCHASE AGREEMENTS TO BORROW MONEY MAY GIVE OUR LENDERS GREATER RIGHTS IN THE EVENT OF BANKRUPTCY. Our repurchase agreements require us to pledge certain of our assets to the lender to secure our obligations thereunder. Borrowings made under repurchase agreements may qualify for special treatment under the U.S. Bankruptcy Code, which may make it difficult for us to recover our pledged assets if a lender files for bankruptcy. In addition, if we were to file for bankruptcy, lenders under our repurchase agreements may be able to avoid the automatic stay provisions of the U.S. Bankruptcy Code and take possession of, and liquidate, the assets we pledged under these agreements without delay.

HEDGING TRANSACTIONS CAN LIMIT GAINS AND INCREASE EXPOSURE TO LOSSES

Hedging involves risk and hedging activities may not have the desired beneficial impact on our results of operations or financial condition. Moreover, no hedging activity can completely insulate us from the risks associated with changes in interest rates and prepayment rates.

We intend generally to hedge as much of the interest rate risk as our Advisor determines is in our best interests given the cost of such hedging transactions. REIT provisions of the Code may limit our ability to hedge our assets and related borrowings. Any limitation on our use of hedging techniques may result in greater interest rate risk.

4. RISKS RELATED TO OUR CLASSIFICATION AS A REIT AND NOT AS AN INVESTMENT COMPANY

POTENTIAL LOSS OF OUR REIT STATUS SUBJECTS US AND OUR SHAREHOLDERS TO RISKS

Potential loss of our REIT status subjects us and our shareholders to a number of risks including the following:

FAILURE TO QUALIFY AS A REIT WOULD HAVE ADVERSE TAX CONSEQUENCES FOR US. In order to maintain our REIT status we must meet a number of requirements. These requirements are highly technical and complex and often require an analysis of various factual matters and circumstances that may not be totally within our control. Even a technical or inadvertent mistake could jeopardize our REIT status. Furthermore, Congress and the IRS may make changes to the tax laws and regulations, and the courts may issue new rulings, that make it more difficult or impossible for us to remain qualified as a REIT. If we fail to qualify as a REIT, we would be subject to federal and state income taxes at regular corporate rates. Therefore, we would have less money available for investments and for distributions to our shareholders. This may also have an adverse effect on the market value of our common shares. In general, we would not be able to elect REIT status for four years after a year in which we lose our REIT status.

AS A REIT, OUR INCOME CAN ONLY COME FROM LIMITED TYPES OF SOURCES. To qualify as a REIT, at least 75% of our gross income must come from qualified real estate sources and at least 95% of our gross income must come from qualified real estate sources and certain other sources that are itemized in the REIT tax laws. Therefore, we may have to forego opportunities to invest in potentially profitable businesses or assets because they would produce income that could jeopardize our status as a REIT.

WE HAVE CERTAIN DISTRIBUTION REQUIREMENTS. As a REIT, we must distribute to shareholders at least 90% of our REIT taxable income (excluding capital gains). The required distribution limits the amount we have available for other business purposes, including amounts to fund our growth. Also, it is possible that because of the differences between the time we actually receive revenue or pay expenses and the period we report those items for distribution purposes, we may have to borrow funds on a short-term basis to meet the 90% distribution requirement.

WE ARE ALSO SUBJECT TO OTHER TAX LIABILITIES. As a REIT, we may be subject to certain federal, state and local taxes on our income and property. Any of these taxes would reduce our operating cash flow.

LIQUIDATION OF COLLATERAL MAY JEOPARDIZE OUR REIT STATUS. To continue to qualify as a REIT, we must comply with requirements regarding our assets and our sources of income. If we are compelled to liquidate our mortgage investments to satisfy our obligations to our lenders, we may be unable to comply with these requirements, ultimately jeopardizing our status as a REIT.

LOSS OF INVESTMENT COMPANY ACT EXEMPTION WOULD ADVERSELY AFFECT US

We intend to conduct our business so as not to become regulated as an investment company under the Investment Company Act of 1940, as amended (the "Investment Company Act"). If we fail to qualify for this exemption, we would be regulated as an investment company and our business would be materially adversely affected. Investment company regulations would prevent us from conducting our

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

business as described in this document by, among other restrictions, reducing our ability to borrow. The Investment Company Act exempts entities that are primarily engaged in the business of purchasing or otherwise acquiring mortgages and other liens on and interests in real estate. Under the current interpretation of SEC staff, in order to qualify for this exemption, we must maintain at least 55% of our assets directly in these qualifying real estate interests. Mortgage-backed securities that do not represent all the certificates issued with respect to an underlying pool of mortgages may be treated as securities separate from the underlying mortgage loans and, thus, may not qualify for purposes of the 55% requirement. Therefore, our ownership of these mortgage-backed securities is limited by the provisions of the Investment Company Act. In meeting the 55% requirement, we treat as qualifying interests, mortgage-backed securities issued with respect to an underlying pool as to which we hold all issued certificates. If the SEC or its staff adopts a contrary interpretation, we could be required to sell a substantial amount of our mortgage-backed securities under potentially adverse market conditions. Further, in order to insure that we at all times qualify for the exemption from the Investment Company Act, we may be precluded from acquiring mortgage-backed securities whose yield is somewhat higher than the yield on those that could be purchased in a manner consistent with the exemption. The net effect of these factors may be to lower our net income.

5. RISKS RELATED TO OUR COMMON SHARES AND OUR SHAREHOLDERS

RESTRICTIONS ON SHARE ACCUMULATION IN REITS COULD DISCOURAGE A CHANGE OF CONTROL OF OUR COMPANY

In order for us to qualify as a REIT, not more than 50% of the number or value of our outstanding shares may be owned, directly or indirectly, by five or fewer individuals during the last half of a taxable year or during a proportionate part of a shorter taxable year.

In order to prevent five or fewer individuals from acquiring more than 50% of our outstanding shares and a resulting failure to qualify as a REIT, our declaration of trust provides that, no person may own, or be deemed to own by virtue of the attribution provisions of the Code, more than 9.8% of the outstanding shares. The shares most recently acquired by a person that are in excess of the 9.8% limit will not have any voting rights and will be deemed to have been offered for sale to us for a period subsequent to the acquisition. Any person who acquires shares in excess of the 9.8% limit is obliged to immediately give written notice to us and provide us with any information we may request in order to determine the effect of the acquisition on our status as a REIT.

While these restrictions are designed to prevent any five individuals from owning more than 50% of our shares, preserving our status as a REIT, they also discourage a change in control of our company. These restrictions may also deter tender offers that may be attractive to shareholders or limit the opportunity for shareholders to receive a premium for their shares if an investor makes purchases of shares to acquire a block of shares.

SUPERMAJORITY VOTING REQUIREMENTS FOR ACQUISITIONS AND MERGERS COULD DISCOURAGE A CHANGE OF CONTROL OF OUR COMPANY

Our declaration of trust requires that 80% of our shareholders and all of our independent trustees approve exchange offers, mergers, consolidations or similar transactions involving us in which our shareholders receive securities in a

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

surviving entity having materially different investment objectives and policies, or that is anticipated to provide significantly greater compensation to management, except for transactions affected because of changes in applicable law, or to preserve tax advantages for a majority in interest of our shareholders. These restrictions may also deter tender offers that may be attractive to shareholders or limit the opportunity for shareholders to receive a premium for their shares if an investor makes purchases of shares to acquire a block of shares.

ISSUANCES OF LARGE AMOUNTS OF OUR COMMON SHARES COULD CAUSE OUR SHARE PRICE TO DECLINE

Our declaration of trust permits our trustees to issue an unlimited number of shares (subject to SEC registration requirements and the consent of shareholders if required pursuant to the rules of the American Stock Exchange). The issuance of common shares could cause dilution of our existing common shares and a decrease in the market price of our common shares.

OUR SHAREHOLDERS MAY HAVE PERSONAL LIABILITY FOR OUR ACTS AND OBLIGATIONS

It is possible that certain states may not recognize the limited liability of shareholders, although our declaration of trust provides that our shareholders shall not be subject to any personal liability for our acts or obligations. In certain states, our shareholders may be held personally liable for contract claims where the underlying agreement does not specifically exclude shareholder liability. Our shareholders may also be held personally liable for other claims against us, such as tort claims, claims for taxes and certain statutory liability. Upon payment of any such liability, however, the shareholder will, in the absence of willful misconduct on the shareholder's part, be entitled to reimbursement from our general assets, to the extent such assets are sufficient to satisfy the claim.

ITEM 2. PROPERTIES.

As a result of foreclosure, we own four properties held and used. See Note 6 to the consolidated financial statements for further discussion of these properties.

15

ITEM 3. LEGAL PROCEEDINGS.

On October 27, 2003, prior to taking possession of the real estate collateral supporting a loan investment, we were named in a lawsuit, Concord Gulfgate, Ltd. vs. Robert Parker, Sunrise Housing Ltd., and American Mortgage Acceptance Company, Cause No. 2003-59290 in the 133rd Judicial District Court of Harris County, Texas. The suit alleges that the loan transaction was not properly authorized by the partnership and was not for a legitimate partnership purpose. The suit claims, among other causes of action against the respective defendants, wrongful foreclosure of the real estate collateral, tortious interference with contract and civil conspiracy. The suit seeks, among other relief, actual, consequential, and exemplary damages, and a declaration that the loan documents are unenforceable and constitute a cloud on title.

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

The discovery phase of this suit has been completed. A summary judgment was filed by us, but was denied on July 25, 2005. It is not known when the case will be called to trial.

We filed a countersuit on November 25, 2003, against Concord Gulfgate, Ltd., as guarantor, seeking a deficiency on the loan, and recovery of unpaid taxes and certain property receipts. We are currently unable to determine the possible outcome of the litigation.

We are also subject to routine litigation and administrative proceedings arising in the ordinary course of business. We do not believe that such matters will have a material adverse impact on our financial position, results of operations or cash flows.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SHAREHOLDERS.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Factors Affecting Comparability

During 2005 and 2004, we owned several properties through foreclosure, classified as Real Estate Owned - Held and Used, - Subject to Sales Contracts and - Held for Sale. As a result of certain circumstances during 2004, we reclassified some of these assets from Held for Sale to Held and Used. Although prior period results have been reclassified as Held and Used, we have recorded greater depreciation expense and recognized property level mortgage interest in the current year (see "Real Estate Owned" below).

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

During March 2005, we issued \$25.0 million of Floating Rate Preferred Securities through a subsidiary. Due to the mandatory redemption feature of these securities, the payments or accruals of dividends and other amounts to be paid to the holders of these securities are reported as interest costs. As a result, these interest costs are classified as Interest - Distributions to Preferred Shareholders of Subsidiary (Subject to Mandatory Repurchase). There were no such interest costs in prior periods.

During September 2005, the GNMA certificate and mezzanine loan investments relating to one property were paid off prior to the maturity date. This pay off resulted in significantly higher levels of fees earned and gain on redemption.

Investment Activity

During the years ended December 31, we made the following investments:

(In thousands)

	2005		2004		2003	
	Amount	Weighted Average Interest Rate	Amount	Weighted Average Interest Rate	Amount	Weighted Average Interest Rate
Debt securities	\$ 61,691	6.04%	\$ 34,823	5.60%	\$ 39,960	5.49%
Mezzanine loans	40,000	15.78%	8,500	11.64%	3,293	16.50%
Bridge loans	--	--	4,517	12.96%	31,046	7.91%
First mortgage loans	7,500	10.82	--	--	8,683	8.96%
Total	\$109,191	9.94%	\$ 47,840	7.37%	\$ 82,982	7.20%

During 2005 and 2004, the composition of our investment portfolio shifted to include a larger proportion of debt securities and, especially in 2005, a larger number of variable-rate mezzanine loans (particularly related to condo conversion properties). The increase in our debt security investments allows us to increase our ability to obtain leverage on those assets to allow further investment and the timing of cash flows related to the liquidation of other assets in our portfolio. The change in our investment strategy to expand into asset classes beyond traditional multifamily housing has increased our variable-rate asset base and increased the weighted average yield on our portfolio.

Results of Operations

The following is a summary of our operations:

(In thousands)

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

	2005	2004	% Change 2005 vs 2004	2003	% Change 2004 vs 2003
	-----	-----	-----	-----	-----
Total revenues	\$36,143	\$22,011	64.2%	\$16,966	29.7%

Total other income	2,981	2,400	24.2	2,027	18.4

Net income	\$15,235	\$11,273	35.1%	\$11,884	(5.1%)
	=====	=====	=====	=====	=====

The substantial growth in our annual revenues and other income in both 2005 and 2004 resulted primarily from increases in investment activity, as well as fees received as a result of an early paydown of one GNMA certificate and mezzanine loan. Expenses also increased for these periods due to the increase in property operations, interest expenses and depreciation costs for Real Estate Owned, financing costs (particularly due to higher interest rates), and Advisory fees due to higher profits and an increased asset base.

REVENUES

Interest income from debt securities increased during both 2005 and 2004, primarily due to the continued advances on an existing GNMA certificate and the purchase of eight new FNMA certificates during the fourth quarter of 2004 and eleven new FNMA certificates during 2005, partially offset by the repayment of one GNMA certificate in 2004 and two in 2005. The decrease in the weighted average interest rate on debt securities during these periods was primarily due to the rising interest rates on mortgage loans; as mortgage interest rates rise, interest rates on debt securities tend to decrease.

Interest income from mortgage loans decreased in 2004, primarily due to the reduction of interest received from certain foreclosed properties due to the reclassification of these assets to Real Estate Owned. The balance increased significantly in 2005 primarily due to funding of three mezzanine loans during the second half of 2004 and the funding of seven mezzanine loans during 2005, many of which related to condominium conversions. The increase in the weighted average interest rates on mortgage loans during these periods was primarily due to the increase in market interest rates.

Interest income from notes receivable decreased during both 2005 and 2004, primarily due to the payoff of several notes during these periods, partially offset by the funding of one new note receivable. The balance also decreased during 2004 due to the default of required debt service payments from foreclosed properties.

Fees related to prepayment of assets increased during 2005 primarily due to the

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

recognition of fees relating to an early payoff of a GNMA certificate and a mezzanine loan during the third quarter of 2005.

Other revenues increased for 2005, primarily due to the recognition of a commitment fee and a non-refundable due diligence fee during 2005. No such fees were recorded in 2004.

Rental income increased during 2005 primarily due to the purchase of the first mortgage on one property in the Real Estate Owned portfolio in February 2005. Subsequent to the purchase, we recorded income from property operations. There was no income from operations during 2004. Rental income increased during 2004 primarily due to the foreclosure of the Concord properties during the later half of 2003. During 2004, there was a full year of income recorded for operations of these properties.

EXPENSES

Changes in components of our expenses in 2005, 2004 and 2003 were as follows:

	% Change 2005 vs 2004	% of Total 2005 Revenues	% Change 2004 vs 2003	% of Total 2004 Revenues

At December 31, 2005, excluding mortgages on real estate owned, we had total debt of approximately \$238.2 million with a weighted average interest rate of 4.63% per year, including the effect of our swap agreement. At December 31, 2004, we had a comparable balance of approximately \$166.1 million with a weighted average interest rate of 2.76% per year. The increase in the weighted average interest rate is due to steady increases in market interest rates during 2004 and 2005.

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

Interest expense increased for both 2005 and 2004, primarily due to the increased borrowings on the repurchase facilities stemming from an increased investment base and the increase in interest rates during 2004 and 2005.

Distributions to preferred shareholders were recorded following the issuance of the securities in March 2005. There were no such securities outstanding during 2004 or 2003.

General and administrative expenses increased for both 2005 and 2004, primarily due to an increase in legal fees related to foreclosed properties, an increase in accounting fees related to Sarbanes-Oxley compliance, and an increase in excise taxes due to undistributed taxable income.

Fees to Advisor increased for both 2005 and 2004, due to higher overhead costs and asset management fees because of expansion of our business and an increased asset base during 2004 and 2005. In addition, during 2005, we incurred incentive management fees based on the increase in 2005 earnings, which resulted primarily from fees related to the early payoff of a GNMA certificate and mezzanine loan.

Property operations represent all non-interest costs at the property level on all of our Real Estate Owned - Held and Used properties. Mortgage interest for Real Estate Owned - Held and Used increased during 2005, due to debt service costs associated with a \$40.5 million mortgage on the Concord Portfolio (see "Real Estate Owned" below).

Depreciation expense increased during both 2005 and 2004, due to a higher base of depreciable real estate owned in both 2005 and 2004. In 2004, we began depreciating the Concord Portfolio and in 2005, we began depreciating Autumn Creek. In both years, the initial amount of depreciation included retroactive amounts to capture depreciation from the respective foreclosure dates.

23

REAL ESTATE OWNED

During 2005, we reclassified some of our investments in foreclosed properties as Real Estate Owned - Held for Sale on our consolidated balance sheets and recognized income from the operations of these properties. As a result of these circumstances, we have reclassified certain prior year amounts relating to the income recognition of our real estate owned portfolio to conform to current year presentation.

During 2004, we had three properties classified as Real Estate Owned - Subject to Sales Contracts, as the sale of these properties did not constitute a sale in accordance with GAAP. After the properties were refinanced during December 2004, we reclassified these properties on our consolidated balance sheets as Real Estate Owned - Held and Used; we recorded depreciation on the properties in 2004, as well as retroactively for the period since foreclosure. We recognize income associated with a \$12.8 million mezzanine loan (our remaining economic interest in the properties) as rental income, property operations and mortgage interest on Real Estate Owned - Held and Used on our consolidated statements of income.

During 2005, we had one property classified as Real Estate Owned - Held for Sale. As a sale for this property could not be accomplished before December 2005, we also reclassified the property as Held and Used; we recorded depreciation on the property in 2005, as well as retroactively for the period

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

since foreclosure. We recognize income from the property as rental income and property operations on Real Estate Owned - Held and Used on our consolidated statements of income.

During 2005, we sold the Plaza at San Jacinto property to an unaffiliated third party for approximately its carrying value.

IMPACT OF HURRICANES DURING THE YEAR ENDED DECEMBER 31, 2005

During 2005, three major hurricanes struck the Southern United States. Six of our investments, secured by properties in Texas, were affected by Hurricane Rita. The damage to these properties was minor and therefore it is expected that we have no financial exposure in this matter. There were no properties affected by Hurricane Katrina or by Hurricane Wilma.

Funds from Operations

Funds from operations ("FFO"), represents net income or loss (computed in accordance with GAAP), excluding gains or losses from sales of property, excluding depreciation and amortization related to real property and including funds from operations for unconsolidated joint ventures calculated on the same basis. FFO is calculated in accordance with the National Association of Real Estate Investment Trusts ("NAREIT") definition. FFO does not represent cash generated from operating activities in accordance with GAAP and is not necessarily indicative of cash available to fund cash needs. FFO should not be considered as an alternative to net income as an indicator of the Company's operating performance or as an alternative to cash flows as a measure of liquidity. Our management considers FFO a supplemental measure of operating performance, and, along with cash flows from operating activities, financing activities, and investing activities, it provides investors with an indication of our ability to incur and service debt, make capital expenditures, and to fund other cash needs.

24

The following table reconciles net income to FFO for the years ended December 31, 2005, 2004 and 2003:

Since not all companies calculate FFO in a similar fashion, our calculation presented above may not be comparable to similarly titled measures reported by other companies.

Liquidity and Capital Resources

SOURCES OF FUNDS

We expect that cash generated from our investments, as well as our borrowing capacity, will meet our needs for short-term liquidity and will be sufficient to pay all expenses and distributions to our shareholders in amounts sufficient to retain our REIT status in the foreseeable future. In order to qualify as a REIT under the Internal Revenue Code, as amended, we must, among other things, distribute at least 90% of our taxable income. We believe that we are in compliance with the REIT-related provisions of the Code.

We finance our investing activity primarily through borrowing from various facilities at short-term rates. At December 31, 2005, we had approximately \$20.0 million available to borrow, contractually, under our debt facilities without exceeding limits imposed by debt covenants and our declaration of trust.

From time to time, we may also issue common shares or other equity to fund investing activity. During 2005, our subsidiary issued \$25.0 million of variable rate Preferred Securities. The proceeds received were used to purchase FNMA certificates.

We have capacity to raise approximately \$170.0 million of additional funds by issuing either common or preferred shares pursuant to an effective shelf registration statement filed with the SEC. If market conditions warrant, we may seek to raise additional funds for investment through further offerings, although the timing and amount of such offerings cannot be determined at this time.

We are currently exploring funding the further expansion of our investment platform through the use of Collateralized Debt Obligations ("CDOs"). A real estate CDO is a capital markets transaction in which the holder of various forms of real estate debt instruments finances those assets by selling bonds backed by the assets. The assets can be floating or fixed rate, and may include first mortgages, subordinate participations in first mortgages, bridge loans, mezzanine loans, CMBS, and trust preferred stock. The assets would be aggregated on our consolidated balance sheets and would later be securitized. The CDO execution would enable us to lower our cost of capital significantly, which in turn would make us more competitive in the lending marketplace. It is anticipated that our origination activity would begin to increase during the first quarter of 2006 and we would access the securitization market in the

second quarter of 2006, although there are no assurances that we will proceed with such a program or that such a program will be successful.

In order to finance this increased volume in investments before securitization occurs, we expect to enter into a warehouse facility with a major financial institution. The proposed terms of this facility contemplate a credit limit of up to \$250 million, priced at a spread to LIBOR. This facility will mature when the CDO is entered into, after which, new facilities will be negotiated to finance any investments to be placed in additional CDOs. As with our proposed investment strategy changes, there is no assurance that this facility will close in 2006.

SUMMARY OF CASH FLOWS

During the year ended December 31, 2005, as compared to the year ended December 31, 2004, the net change in cash and cash equivalents increased approximately \$7.9 million. Operating cash flows improved by approximately \$4.0 million primarily due to higher earnings. An increase in net cash used in investing activities (approximately \$41.9 million) and an increase in net cash provided by financing activities (approximately \$45.8 million) were due to an increase in proceeds received from repurchase and warehouse facilities used for purchases of mortgage loans and debt securities.

During the year ended December 31, 2004, as compared to the year ended December 31, 2003, the net change in cash and cash equivalents increased by approximately \$9.0 million. Operating cash flows improved by \$2.1 million primarily due to higher cash earnings and favorable variances in timing of receivables collected. A decrease in net cash used in investing activities (approximately \$101.3 million) and a corresponding decrease in net cash provided by financing activities (approximately \$94.3 million) were due to a higher level of investing activity in debt securities, mortgage loans, and mezzanine and bridge loans during the 2003 period. The lower level of investing in 2004 corresponded to the decrease in net borrowings.

LIQUIDITY REQUIREMENTS AFTER DECEMBER 31, 2005

During February 2006, dividends of approximately \$3.3 million (\$0.40 per share), which were declared in December 2005, have been paid to common shareholders.

We are not aware of any trends or events, commitments or uncertainties, which have not otherwise been disclosed that will or are likely to impact liquidity in a material way.

Application of Critical Accounting Policies

Our consolidated financial statements are based on the selection and application of GAAP, which requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. These estimates and assumptions sometimes involve future events which cannot be determined with absolute certainty. Therefore, our determination of estimates requires that we exercise our judgment. While we have used our best estimates based on the facts and circumstances available to us at the time, different results may actually occur and any such differences could be material to our financial statements.

26

We believe the following policies may involve a higher degree of judgment and complexity and represent the critical accounting policies used in the preparation of our financial statement:

- o valuation of investments in debt securities;
- o assessment of impairment of mortgage loans and notes;
- o classification of mezzanine loan investments; and
- o classification and valuation of real estate owned.

VALUATION OF INVESTMENTS IN DEBT SECURITIES

SFAS No. 115, ACCOUNTING FOR CERTAIN INVESTMENTS IN DEBT AND EQUITY SECURITIES, provides guidance on determining the valuation of investments owned. The initial classification of our investments in the "available for sale" category rather than as "held to maturity" is due to our intent to sell these securities if the terms of a particular offer are deemed favorable to us. We have sold these securities in the past and from time to time, we may look to sell these securities in the future if it is opportunistic for us to do so. Because of this classification, we must carry our investments at estimated fair value. GNMA and FNMA DUS Certificates are relatively liquid investments. We use third-party quoted market prices as our primary source of valuation information.

ASSESSMENT OF IMPAIRMENT OF MORTGAGE LOANS AND NOTES

SFAS No. 114, ACCOUNTING BY CREDITORS FOR IMPAIRMENT OF A LOAN, establishes standards regarding impairment issues related to our mortgage loans and notes receivable. Our portfolio of mortgage loans and notes is periodically evaluated for impairment to establish appropriate loan loss reserves, if necessary. Our Advisor has a credit review committee which meets monthly and reviews the status of each loan and note and maintains a "watch list" of loans (including loans for which we have issued guarantees) for which the underlying property may be experiencing construction cost overruns, delays in construction completion, occupancy shortfalls, lower than expected debt service coverage ratios, or other matters which might cause the borrower to be unable to make scheduled interest and principal payments. If a loan is experiencing difficulties, members of this credit committee work with the borrower to try to resolve the issues, which

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

could include extending the loan term, making additional advances, or reducing required payments. If, in the judgment of our management, it is determined that it is probable that we will not receive all contractually required payments when they are due, the loan or note would be deemed impaired, and a loan loss reserve established. As of December 31, 2005, our management had determined that no loan required a loss reserve.

CLASSIFICATION OF MEZZANINE LOAN INVESTMENTS

Our mezzanine loan investments bear interest at fixed or variable rates, and some also include provisions that allow us to participate in a percentage of the underlying property's cash flows from operations and proceeds from a sale or refinancing. At the inception of each such investment, our management must determine whether such investment should be accounted for as a loan, joint venture or as real estate, using the guidance contained in the Third Notice to Practitioners issued by the AICPA. Although the accounting methodology does not affect our cash flows from these investments, this determination affects the balance sheet classification of the investments as well as the classification, timing and amounts of reported earnings.

Accounting for the investment as real estate is required if we expect that the amount of profit, regardless of its nature, is over 50 percent of the property's total expected residual profit. If a mezzanine investment were accounted for as an investment in real estate, our consolidated balance sheets would show the underlying property and its related senior debt (if such debt were not also held by us), and our consolidated statements of income would include the property's rental revenues, operating expenses and depreciation.

If we expect to receive less than 50 percent of the property's residual profit, then loan or joint venture accounting is applied. Loan accounting is appropriate:

- o if the borrower has a substantial equity investment in the property;
- o if we have recourse to substantial assets of the borrower;
- o if the property is generating sufficient cash flow to service normal loan amortization; or
- o if certain other conditions are met.

27

Under loan accounting, we recognize interest income as earned and additional interest from participations as received. Joint venture accounting would require that we only record our share of the net income from the underlying property.

Our management must exercise judgment in making the required accounting determinations. For each mezzanine arrangement, we project total cash flows over the loan's term and our share in those cash flows, and consider the borrower's equity, the contractual cap, if any, on total yield to us over the term of the loan, market yields on comparable loans, borrower guarantees, and other factors in making an assessment of the proper accounting. To date, we have determined that all mezzanine investments should be accounted for as loans.

CLASSIFICATION AND VALUATION OF REAL ESTATE OWNED

The accounting for the foreclosure, ownership and subsequent sale of real estate is governed by:

- o SFAS No. 15, ACCOUNTING BY DEBTORS AND CREDITORS FOR TROUBLED DEBT

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

RESTRUCTURINGS;

- o SFAS No. 144, ACCOUNTING FOR THE SALE OR DISPOSAL OF LONG-LIVED ASSETS; and
- o SFAS No. 66, ACCOUNTING FOR SALES OF REAL ESTATE.

During 2003, we exercised our rights under subordinated promissory notes and other documents to take possession of certain real estate collateral. We have also purchased the first mortgage loans on all of the respective properties, except for Autumn Creek, and acquired the real estate at foreclosure auctions. Three of the properties were subsequently sold, although the transaction did not meet the sale criteria of SFAS No. 66, despite the fact that the purchaser later secured permanent first-mortgage financing.

When a loan is in the process of foreclosure, it is our policy to initially reclassify the balance of the loan into Real Estate Owned-Held for Sale at the lower of fair value of the real estate, less estimated disposal costs or the carrying amount of the loan, and to cease accrual of interest. We obtain independent appraisals of all foreclosed real estate to assist management in evaluating property values. To date, no losses have been recorded upon foreclosure.

It is our intent to sell foreclosed properties within a short time period. Due to the Held for Sale classification, we do not initially depreciate the properties. If we do not sell a property or do not meet sale criteria within the permissible timeframe for Held for Sale classification, we reclassify the property into Real Estate Owned-Held and Used or Subject to Sales Contract categories and account for it as an operating asset. Depreciation is recorded for the asset including a retroactive adjustment for the full period that the property was classified as Real Estate Owned-Held for Sale. Income from property operations is recorded provided realization and collectibility of the amounts are considered likely. Likewise, interest income on notes receivable for properties sold that do not meet the criteria for sale recognition is recorded to the extent that collectibility is considered likely.

This accounting for real estate owned requires substantial judgment as to the fair value of the assets, the likelihood of collecting income and our ability to sell the properties. As of December 31, 2005, we believe that the amounts reported are fairly stated and realizable.

Commitments, Contingencies and Off Balance Sheet Arrangements

We have no unconsolidated subsidiaries, special purpose off-balance sheet financing entities, or other off-balance sheet arrangements.

28

The following table reflects our maximum exposure and carrying amount as of December 31, 2005, for guarantees we have entered into:

(1) These indemnification agreements relate to a program we initiated and have since discontinued. We believe the risk of any cost associated with the indemnity agreement is minimal.

The maximum exposure amount is not indicative of any expected losses under the guarantees. For full description of these guarantees, see Note 16 to the consolidated financial statements.

Contractual Obligations

In conducting business, we enter into various contractual obligations. Details of these obligations, including expected settlement periods, are contained below.

(1) Represents a first mortgage on properties we report as Real Estate Owned - Held and Used (Concord Portfolio) as a sale of the properties did not meet the criteria for sale recognition in accordance with GAAP. The first mortgage loan is non-recourse with respect to us, the debt service is paid from the cash flows of the properties and we will not be required to satisfy the obligation. (See Note 6 to the consolidated financial statements).

Recently Issued Accounting Standards

In December 2004, the Financial Accounting Standards Board issued SFAS No. 123(R), SHARE-BASED PAYMENT. As we already follow the fair value provisions set

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

forth in SFAS No. 123, this statement is expected to have an immaterial impact on our financial statements.

There are no other new pending accounting pronouncements which we are required to adopt that would have a significant impact on our consolidated financial statements.

Inflation

Inflation did not have a material effect on our results for the periods presented.

29

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the exposure to loss resulting from changes in interest rates and equity prices. The primary market risk to which we are exposed is interest rate risk, which is highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors beyond the control of our company.

INTEREST RATE RISK

Interest rate fluctuations can adversely affect our income in many ways and present a variety of risks, including the risk of mismatch between asset yields and borrowing rates.

Our operating results depend in large part on differences between the income from our assets (net of credit losses) and our borrowing costs. Although we are increasing our origination of variable rate loans, most of our assets generate fixed returns and have terms in excess of five years. We fund the origination and acquisition of a significant portion of these assets with borrowings which have variable interest rates that reset relatively rapidly, such as weekly, monthly or quarterly. In most cases, the income from assets will respond more slowly to interest rate fluctuations than the cost of borrowings, creating a mismatch between asset yields and borrowing rates. Consequently, changes in interest rates, particularly short-term interest rates, may influence our net income. Our borrowings under repurchase and warehouse agreements bear interest at rates that fluctuate with LIBOR.

Various financial vehicles exist which would allow our management to mitigate the impact of interest rate fluctuations on our cash flows and earnings. During March 2003, upon our analysis of the interest rate environment and the costs and risks of such strategies, we entered into an interest rate swap in order to hedge against increases in the floating interest rate on our repurchase facilities. The swap is a five-year agreement with Bank of America ("BOA") whereby we pay BOA a fixed 3.48% on a notional amount of \$30.0 million. In return, BOA pays us a floating rate equivalent to the 30-day LIBOR rate on the same notional amount. A possible risk of such swap agreements is the possible inability of BOA to meet the terms of the contracts with us; however, there is no current indication of such an inability.

Based on the \$208.2 million unhedged portion of \$238.2 million of borrowings outstanding at December 31, 2005, a 1% change in LIBOR would impact our annual net income and cash flows by approximately \$2.1 million. However, as some of the interest income from our loans outstanding at December 31, 2005 is also based on

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

LIBOR, a 1% increase in LIBOR would increase our annual net income and cash flows from such loans by approximately \$379,000. The net effect of a 1% increase in LIBOR would therefore result in a reduction of our annual net income by approximately \$1.7 million. In addition, an increase in LIBOR could also impede the collections of interest on our variable rate loans, as there might not be sufficient cash flow at the properties to pay the increased debt service. Because the value of our debt securities fluctuates with changes in interest rates, rate fluctuations will also affect the market value of our net assets.

MANAGEMENT'S REPORT ON THE EFFECTIVENESS OF INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of American Mortgage Acceptance Company and its subsidiaries (the "Company") is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control system was designed to provide reasonable assurance to our management and Board of Trustees regarding the preparation and fair presentation of published financial statements.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

American Mortgage Acceptance Company management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2005. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in INTERNAL CONTROL - INTEGRATED FRAMEWORK. Based upon our assessment we believe that, as of December 31, 2005, our internal control over financial reporting is effective in accordance with those criteria.

Deloitte & Touche, LLP, our independent auditors, have issued an audit report on our assessment of the Company's internal control over financial reporting, which appears on page 32.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees
And Shareholders of
American Mortgage Acceptance Company

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

New York, New York

We have audited management's assessment, included in the accompanying "Management's Report on the Effectiveness Internal Controls over Financial Reporting", that American Mortgage Acceptance Company and subsidiaries (the "Company") maintained effective internal control over financial reporting as of December 31, 2005, based on the criteria established in "INTERNAL CONTROL--INTEGRATED FRAMEWORK" issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of trustees, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that the Company maintained effective internal control over financial reporting as of December 31, 2005, is fairly stated, in all material respects, based on the criteria established in "INTERNAL CONTROL--INTEGRATED FRAMEWORK" issued by the Committee of Sponsoring Organizations of the Treadway Commission. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2005, based on the criteria established in "INTERNAL CONTROL--INTEGRATED FRAMEWORK" issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets as of December 31, 2005 and 2004 and the related consolidated statements of income, shareholders' equity and cash flows for the years ended December 31, 2005 and 2004 of the Company and our report dated March 9, 2006 expressed an unqualified opinion on those financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees
And Shareholders of
American Mortgage Acceptance Company
New York, New York

We have audited the accompanying consolidated balance sheets of American Mortgage Acceptance Company and subsidiaries (the "Company") as of December 31, 2005 and 2004, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of American Mortgage Acceptance Company and subsidiaries as of December 31, 2005 and 2004, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2005, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company's internal control over financial reporting as of December 31, 2005, based on the criteria established in INTERNAL CONTROL--INTEGRATED FRAMEWORK issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 9, 2006 expressed an unqualified opinion on management's assessment of the effectiveness of the Company's internal control over financial reporting and an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

AMERICAN MORTGAGE ACCEPTANCE COMPANY AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Consolidation and Basis of Presentation

The condensed consolidated financial statements include the accounts of American Mortgage Acceptance Company and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. Unless otherwise indicated, we herein refer to American Mortgage Acceptance Company and its subsidiaries as "AMAC," "we", "us", "our", and "our Company". We are externally managed by Related AMI Associates, Inc., which acts as our Advisor. We operate in one business segment.

Effective October 2003, we dissolved one subsidiary due to the assignment of certain obligations under the Fannie Mae loan program to CharterMac Mortgage Capital Corp. ("CMC") (see Note 16). We had formed the subsidiary to manage this program.

Our consolidated financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Certain amounts from prior years have been reclassified to conform to the 2005 presentation, in particular, the reclassification of results of operations of our Real Estate Owned - Held and Used portfolio.

b) Revenue Recognition

We derive our revenues from a variety of sources as follows:

- o INTEREST INCOME ON DEBT SECURITIES - We recognize interest on GNMA and FNMA certificates on the accrual basis as it becomes due. Interest income also includes the amortization or accretion of premiums and discounts arising at the purchase date, using the effective yield method.
- o INTEREST INCOME FROM MORTGAGE LOANS AND NOTES RECEIVABLE - We recognize interest on mortgage loans and notes receivable on the accrual basis as it becomes due. We amortize deferred loan origination costs and fees on a straight line basis, which approximates the interest method, over the life of the applicable loan as an adjustment to interest income. Certain mortgage loans contain provisions that allow us to participate in a percentage of the underlying property's excess cash flows from operations and excess proceeds from a sale or refinancing. This income is recognized on the accrual basis as it becomes due.
- o INTEREST INCOME ON REVENUE BONDS - Interest income from revenue bonds is recognized on the accrual basis as it becomes due.
- o INTEREST INCOME ON TEMPORARY INVESTMENTS - Interest income from

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

temporary investments, such as cash in banks and short-term instruments, is recognized on the accrual basis as it becomes due.

- o INCOME FROM REAL ESTATE OWNED - We recognize rental income on properties classified as Held and Used as earned.
- o OTHER REVENUES
 - o STANDBY LOAN COMMITMENT FEES - We receive fees for issuing standby loan commitments. If we do not expect to fund the commitment, we recognize the fee ratably over the commitment period. If we determine that it is probable that a commitment will be exercised, we defer the fee and, if the commitment is

41

AMERICAN MORTGAGE ACCEPTANCE COMPANY AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

exercised, amortize it over the life of the loan as an adjustment to interest income; if the commitment expires unexercised, we recognize it upon expiration.

- o STABILIZATION GUARANTEE AND LOAN ADMINISTRATION FEES - We receive fees from borrowers for guaranteeing construction loans made by third-party lenders for the period between construction completion and funding of the permanent loan. We receive these fees in advance and amortize them over the guarantee periods. We also receive loan administration fees on these guaranteed loans, on a monthly basis during the guarantee period. We recognize these fees when due.
- o FNMA LOAN GUARANTEE FEES - We receive monthly loss sharing/guarantee fees related to the FNMA loan program (see Note 16) and recognize them when due.
- o PREPAYMENT FEES - We may receive fees from borrowers that repay loans earlier than their maturity dates. We recognize these fees as earned.

c) Investments in Debt and Debt Securities

We account for our investments in debt securities pursuant to SFAS No. 115, ACCOUNTING FOR CERTAIN INVESTMENTS IN DEBT AND EQUITY SECURITIES ("SFAS No. 115"). For investments classified as available for sale, we record changes in fair value in other comprehensive income unless we consider an investment impaired, or a decline in fair value to be other than temporary (see IMPAIRMENT below).

1. Debt Securities

We classify our investments in GNMA and FNMA certificates as available for sale debt securities and use third-party quoted market prices as our primary source of valuation.

2. Mortgage Loans and Notes Receivable

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

We classify these investments as held to maturity and, accordingly, carry them at cost, including unamortized loan origination costs and fees.

3. Revenue Bonds

We classify our investments in revenue bonds as available for sale debt securities. Because revenue bonds have a limited market, we estimate fair value for each bond as the present value of its expected cash flows using a discount rate for comparable investments.

4. Impairment

For investments in mortgage loans and notes receivable, we follow the provisions of Statement of Financial Accounting Standards No. 114, ACCOUNTING BY CREDITORS FOR IMPAIRMENT OF A LOAN ("SFAS No. 114"). Under SFAS No. 114, a loan is impaired when, based on current information and events, it is probable that a creditor will be unable to collect all amounts due according to the contractual terms of the loan agreement. SFAS No. 114 requires lenders to measure impaired loans based on:

- (i) the present value of expected future cash flows discounted at the loans' effective interest rate;
- (ii) the loan's observable market price; or
- (iii) the fair value of the collateral if the loan is collateral-dependent.

We periodically evaluate our portfolio of mortgage loans and notes receivable for possible impairment to establish appropriate loan loss reserves, if necessary. If, in the judgment of our Advisor, we determine that it is probable that we will not receive all contractually required payments when they are due, we deem the loan or note impaired and establish a loan loss reserve.

42

AMERICAN MORTGAGE ACCEPTANCE COMPANY AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For any investments classified as available for sale, a decline in market value below cost that we deem other than temporary is charged to earnings. If, in the judgment of our Advisor, it is determined probable that we will not receive all contractual payments required when due, the bond is deemed impaired and is written down to its then estimated fair value, with the amount of the write-down accounted for as a realized loss.

5. Gain or Loss on Sale

Realized gains and losses on securities are included in earnings and are recorded on the trade date and calculated as the difference between the amount of cash received and the carrying cost of the specific investment, including any unamortized

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

discounts, premiums, origination costs and fees.

6. Concentration

As of December 31, 2005, 36.7% of our portfolio was comprised of investments in mortgage loans, notes receivable, revenue bonds and real estate owned. Of this group of assets, 62.4% were secured by properties in Texas. We had no borrowers exceeding 10% of our portfolio of investments in mortgage loans, notes receivable and revenue bonds other than John Loder and Richard Nathan who are the creditors of 11.4% and 10.5%, respectively, in these categories.

d) Investment in ARCap

We account for our investment in ARCap Investors, LLC ("ARCap") using the equity method pursuant to Accounting Principles Board Opinion No. 18, THE EQUITY METHOD OF ACCOUNTING FOR INVESTMENTS IN COMMON STOCK ("APB No. 18") as interpreted by AICPA Statement of Position 78-9, ACCOUNTING FOR INVESTMENTS IN REAL ESTATE VENTURES, EITF Issue D-46, ACCOUNTING FOR LIMITED PARTNERSHIP INVESTMENTS and EITF 03-16, ACCOUNTING FOR INVESTMENTS IN LIMITED LIABILITY COMPANIES.

With respect to our preferred shares, our equity in the earnings of ARCap is accrued at the dividend rate earned for the applicable period, which equals the income allocated to us under ARCap's operating agreement, unless ARCap does not have earnings and cash flows adequate to meet this dividend requirement.

e) Real Estate Owned

Real estate owned consists of properties of which we took possession by exercising our rights under subordinated promissory notes and other documents. In some cases, we also purchased the first mortgage loans on the properties before foreclosing on the real estate collateral. We recorded these properties at the lower of fair value of the real estate, less estimated disposal costs, or the carrying amount of the foreclosed loan. The determination of fair value of the real estate is based on independent appraisals. These properties fall into three classifications:

- o Held for Sale - properties for which we are actively seeking a buyer
- o Held and Used - properties for which we are actively seeking a buyer, but have held for longer than one year.
- o Subject to Sales Contracts - properties for which the buyer has not contributed sufficient equity to qualify for sale treatment pursuant to Statement of Financial Accounting Standards No. 66, ACCOUNTING FOR SALES OF REAL ESTATE ("SFAS No. 66").

When the foreclosure process is complete and we own the property, it is classified as Held for Sale. As it is our intent to sell those properties in the near term, we do not initially depreciate the assets. We apply the same accounting for properties classified as Subject to Sales Contracts. For properties later reclassified as Held and Used, if full sale recognition is not achieved within one year, we record depreciation on the asset, including an initial retroactive adjustment for the entire period we owned the property.

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Our portfolio of real estate owned is periodically evaluated for possible impairment. If, in the judgment of our Advisor, we determine that the property's fair value is below its carrying value, we will deem the property impaired and it will be written down to its then estimated fair value, with the amount of the write-down accounted for as a realized loss.

See Note 6 for information regarding our real estate owned.

f) Cash and Cash Equivalents

Cash and cash equivalents include cash in banks and temporary investments in short-term instruments with original maturity dates equal to or less than three months.

g) Loan Origination Costs and Fees

Acquisition fees and other direct expenses incurred for activities performed to originate mortgage loans are capitalized and are included in Investment in Mortgage Loans, net of any fees received from borrowers for loan originations. They are amortized on a straight-line basis over the period of the loans.

h) Repurchase Facilities

We finance our investments in debt securities using repurchase facilities, under which we sell the certificates to four counterparties under an agreement requiring us to repurchase them for a fixed price on a fixed date, generally 30 days from the sale date. We account for these transactions as collateralized borrowings; accordingly, the securities remain on our consolidated balance sheets with the proceeds from the sales recorded as debt. The difference between the sale proceeds and the fixed repurchase price is recorded as interest expense ratably over the period between the sale and repurchase dates.

i) Subsidiary Equity

We account for our preferred securities under SFAS No. 150, ACCOUNTING FOR CERTAIN FINANCIAL INSTRUMENTS WITH CHARACTERISTICS OF BOTH LIABILITIES AND EQUITY, which requires that mandatorily redeemable financial instruments be classified as liabilities in the consolidated financial statements and the payments or accruals of dividends and other amounts to be paid to the holders of these securities be reported as interest costs. The fair value of the securities approximates the liquidation amount due to the variable rate nature of their dividends.

j) Stock Options

We account for stock options we issue under the fair value based method pursuant to Statement of Financial Accounting Standards No. 123, ACCOUNTING FOR STOCK-BASED COMPENSATION ("SFAS No. 123"). We estimate the fair value of each option grant using the Black-Scholes option-pricing model.

k) Interest Rate Derivative

We account for our interest rate swap agreements under SFAS No. 133, ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES ("SFAS No. 133"). We entered into one interest rate swap in 2003. At inception, we designated this swap as a cash flow hedge on the variable interest payments of our floating rate financing. Accordingly, we record the swap at fair market value, and record changes in market value in other comprehensive income to the extent the hedge is

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

effective. This hedge has been effective through December 31, 2005. We record the net amounts receivable or payable under the swap agreement as a component of interest expense.

In November 2005, we entered into a second swap intended to hedge the fair value of a mortgage loan to hedge our risk that interest rates do not affect the fair value of one of our investments as we hold it before securitization. We do not apply hedge accounting to this swap. Accordingly, we record any changes in the fair value of this swap on our consolidated statements of income.

l) Fair Value of Financial Instruments

As described above, our debt securities, revenue bonds, and interest rate derivatives are carried at estimated fair values. We have determined that the fair value of our remaining financial instruments, including mortgage loans and cash and cash equivalents, notes receivable, and secured borrowings approximate their carrying values at December 31, 2005 and 2004. The fair value of investments in mortgage loans, revenue bonds, notes receivable, and debt securities are based on actual market price quotes or by determining the present value of the projected future cash flows using appropriate discount rates, credit losses and prepayment assumptions. Other financial instruments carry interest rates which are deemed to approximate market rates.

m) Income Taxes

We have qualified as a REIT under the Internal Revenue Code (the "Code"). A REIT is generally not subject to federal income tax on that portion of its REIT taxable income ("Taxable Income") which is distributed to its shareholders provided that at least 90% of Taxable Income is distributed and provided that such income meets certain other conditions. Accordingly, no provision for federal income taxes is required. We may be subject to state taxes in certain jurisdictions.

n) New Accounting Pronouncements

In December 2004, the FASB issued Statement of Financial Accounting Standards No. 123(R), SHARE-BASED PAYMENT, which replaces SFAS No. 123 and which we are required to adopt by the first quarter of 2006. As we have been accounting for share-based payments following the fair value provisions of SFAS No. 123, we expect our adoption of this standard will not be significant.

In March 2005, the FASB issued Financial Interpretation No. 47, ACCOUNTING FOR CONDITIONAL ASSET RETIREMENT OBLIGATIONS--AN INTERPRETATION OF FASB STATEMENT NO. 143, which specifies the accounting treatment for obligations associated with the sale or disposal of an asset when there are legal requirements attendant to such a disposition.

We adopted this pronouncement in 2005, as required, but there was no impact as there are no legal obligations associated with the planned sale of any properties in our Real Estate Owned portfolio.

	=====	=====

The fair value and gross unrealized losses of our debt securities aggregated by length of time that these individual debt securities have been in a continuous unrealized loss position, at December 31, 2005 and 2004, is summarized in the table below:

(Dollars in thousands)

	December 31, 2005			December 31,	
	----- Less than 12 Months -----	----- 12 Months or More -----	----- Total -----	----- Less than 12 Months -----	----- 12 Month or More -----

Gross unrealized loss	\$ 197	\$ 1,678	\$ 1,875	\$ 515	\$ 844

These unrealized losses are as a result of increases in interest rates subsequent to the acquisition of the securities. All of the debt securities are performing according to their terms. Furthermore, we have the intent and ability to hold these securities to maturity, or at least until interest rates change such that the fair value is no longer less than book value. Accordingly, we have concluded that these impairments are temporary.

At December 31, 2005, all of our debt securities, were partially or wholly pledged as collateral under our repurchase facilities (see Note 7). At December 31, 2005, we had no availability to borrow against partially or unpledged debt securities.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

- (A) The matured loan was sold at par to an affiliate of our Advisor.
- (B) Loans are subject to mandatory prepayment at our option ten years after construction completion, with one year's notice, unless otherwise indicated. Loans with a call date of "TBD" are still under construction.
- (C) Interest on the mezzanine loan is based on a fixed percentage of the unpaid principal balance of the related first mortgage loan. The amount shown is the approximate effective rate earned on the balance of the mezzanine loan. The mezzanine loan also provides for payments of additional interest based on a percentage of cash flow remaining after debt service and participation in sale or refinancing proceeds and certain provisions that cap our total yield, including additional interest and participations, over the term of the loan.
- (D) Lifetime interest cap represents the maximum annual return, including interest, fees and participations, that we can earn over the life of the mezzanine loan, computed as a percentage of the balance of the first mortgage loan plus the mezzanine loan.
- (E) As of December 31, 2005, all interest payments on the mortgage loans are current, except as noted.
- (F) Carrying amounts of the loans are net of unamortized origination costs and fees and loan discounts.
- (G) Interest only payments are due monthly, with loan balance due at maturity.
- (H) Loan was purchased in connection with the performance under a guarantee we made.
- (I) The principal balance of the mezzanine loan is secured by the partnership interests of the entity that owns the underlying property and a third mortgage deed of trust. Interest payments on the mezzanine loan are secured by a second mortgage deed of trust and are guaranteed for the first 36 months after construction completion by an entity related to the general partner of the entity that owns the underlying property.

- (K) We have an interest in the first lien position relating to this mezzanine loan.

- (N) This mezzanine loan stopped making interest payments in May 2004. We are

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

currently in the process of determining the necessary steps we need to take to protect our investment. We have done an internal analysis for the property underlying the mortgage and the analysis indicates that the value of the property exceeds the carrying amount of our investment. Accordingly, we have not recorded an allowance for probable losses on this investment.

- (O) The funding of this mezzanine loan is based on property level operational achievements.
- (P) Interest cap on this loan is the maximum rate permitted by law.
- (Q) Interest only payments are due monthly until 1/1/08, followed by principal and interest payments until maturity.

NOTE 4 - INVESTMENT IN ARCAP

We own 485,000 units Series A Convertible Preferred Membership Interests in ARCap as well as 315,000 common units, which we acquired upon converting an equal number of preferred units in December 2005. The initial cost of all the units was \$25 each. The remaining preferred units are convertible, at our option, into common units. The preferred units carry a preferred return of 12% and the common units receive a specified annual distribution, currently set at \$4.00 per unit for 2006. In December 2005, we received a common distribution of \$2.14 per share following this conversion.

ARCap has met its distribution requirements to us to date. Yields on CMBS depend, among other things, on the rate and timing of principal payments, the pass-through rate, interest rate fluctuations and defaults on the underlying mortgages. Our interest in ARCap is illiquid and we would need to obtain the

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

consent of the board of managers of ARCap before we could transfer our interest in ARCap to any party other than a current member. The carrying amount of the investment in ARCap is not necessarily representative of the amount we would receive upon a sale of the interest.

ARCap is focused on commercial mortgage backed securities ("CMBS") fund management, whereby it manages CMBS investment funds raised from third-party investors. ARCap is generally a minority investor in these funds and thereby diversifies its revenue base by increasing its proportion of revenue derived from fees as opposed to interest income.

(1) The three properties underlying these notes receivable stopped paying interest in May 2003. We subsequently exercised our rights under the subordinated promissory notes and other documents and took possession of all three properties. We purchased the first mortgages and acquired the real estate at foreclosure auctions and sold all three properties to a qualified 501(c)(3) entity during 2003. Because we provided 100% financing to the purchaser, the transaction did not meet the criteria for sale recognition pursuant to SFAS No. 66, and we classified the properties as Real Estate Owned - Subject to Sales Contracts. Following the provisions of SFAS No. 66, we account for the properties under the deposit method.

During 2004, the properties were refinanced with UBS Real Estate Investments Inc., who provided first mortgages of \$41.0 million for these properties, and we reclassified the properties as Real Estate Owned - Held and Used. We recorded the \$41.0 million amortizing mortgage as a liability and began to record depreciation on the properties in 2004, as well as retroactively for the period since foreclosure. We recognize income associated with a 10-year \$12.8 million mezzanine loan, with a stated interest rate of 8.00% (our remaining economic interest in the properties), as rental income, property operations and mortgage

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

interest on Real Estate Owned - Held and Used on our consolidated statements of income.

(2) Certain required debt service payments were not paid, causing the mezzanine loan to be in default. In October 2003, we exercised our rights under the subordinated promissory note and other documents and took possession of the real estate collateral of the property, and purchased the first mortgage loan on the property in February 2005 for approximately \$17.2 million.

The property has been marketed for sale since the date of foreclosure, however, due to unsuccessful efforts, we reclassified the property as Real Estate Owned - Held and Used in December 2005. We recorded depreciation on the property in 2005, as well as retroactively for the period since foreclosure. We recognize

55

AMERICAN MORTGAGE ACCEPTANCE COMPANY AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

income from the property as rental income and property operations on Real Estate Owned - Held and Used on our consolidated statements of income.

(3) In March 2003, we exercised our rights under the subordinated promissory note and other documents to take possession of the real estate collateral of the Plaza at San Jacinto and, in May 2003, acquired the real estate at a foreclosure auction. We classified our investment in this property as Real Estate Owned - Held for Sale. We have focused on increasing the occupancy and the operating income generated from the property. We reclassified the property as Real Estate Owned - Held and Used in March 2004 and began to depreciate the property, including depreciation for the period the property had been classified as Held for Sale. During February 2005, this property was sold to an unaffiliated third party for approximately its carrying value.

NOTE 7 - REPURCHASE FACILITIES

During 2004 and 2005, we executed repurchase agreements with four counterparties, Greenwich Capital, Bear Stearns, RBC Capital Markets and UBS Financial Services, which provided us the capacity to repay a previous facility. Terms of the four newly executed agreements offer advance rates between 94% and 97% and borrowing rates between the LIBOR minus 3 basis points and LIBOR plus 10 basis points. The borrowings are subject to 30-day settlement terms. As of December 31, 2005 and 2004, the amounts outstanding under repurchase facilities were \$209.1 and \$157.6 million and weighted average interest rates were 4.30% and 2.64%, respectively.

Certain of our debt securities are pledged as collateral in connection with these repurchase facilities (see Note 2).

NOTE 8 - WAREHOUSE FACILITY

In August 2005, our mortgage warehouse line of credit with Bank of America (the "Warehouse Facility") matured. Although we could no longer originate new loans on this facility, the two existing loans that served as collateral under this program (see Notes 5 and 17) were extended and subsequently paid off in February 2006. As of December 31, 2005 and 2004, we had approximately \$4.1 and \$3.8 million, respectively, in borrowings outstanding under this program at a

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

weighted average interest rate of 6.06% and 4.42%, respectively.

NOTE 9 - LINE OF CREDIT - RELATED PARTY

In June 2004, we entered into a revolving credit facility (the "Revolving Facility") with CharterMac. The Revolving Facility, which is unsecured, will provide up to \$20.0 million in borrowings to be used to purchase new investments, and bears interest at 30-day LIBOR plus 300 basis points. The Revolving Facility expires in June 2006 with a one-year optional extension and contains customary restrictions/covenants that are similar to our Warehouse Facility. In the opinion of our management, the terms of this facility are consistent with those of transactions with independent third parties. As of December 31, 2004, we had approximately \$4.6 million, in borrowings outstanding on the Revolving Facility at a weighted average interest rate of 5.42%. At December 31, 2005, there were no outstanding borrowings under this facility.

NOTE 10 - SUBSIDIARY EQUITY

During March 2005, ACFI issued 25,000 Floating Rate Preferred Securities, having a stated liquidation amount of \$1,000 per security. We received approximately \$24.2 million in proceeds, net of closing costs, which are deferred and will be amortized ratably over a 30-year period to the redemption date. The securities are callable in March 2010 and bear interest, re-set quarterly, equal to 30-day LIBOR plus 3.75%. At December 31, 2005, the rate was 7.77%.

56

AMERICAN MORTGAGE ACCEPTANCE COMPANY AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 11 - SHAREHOLDERS' EQUITY

Common Shares -----

On April 23, 2003, we completed a public offering of approximately 2.0 million common shares at a price of \$15.00 per share, resulting in proceeds, net of underwriters' discount and expenses, of approximately \$27.5 million. The common shares were offered through JMP Securities and RBC Capital Markets. The net proceeds from this offering were used to fund investments.

During 2005 and 2004, we issued approximately 3,035 and 2,600 common shares, respectively, to our trustees as compensation. No such shares were issued in 2003.

Share Repurchase Program -----

In August 2003, our Board of Trustees approved a share repurchase plan. The plan enables us to repurchase, from time to time, up to 1,000,000 common shares. The repurchases will be made in the open market, and the timing will be dependent on the availability of shares and other market conditions. This program has no expiration date. During 2005 and 2004, we repurchased 36,000 and 4,000 shares, respectively, at a cost of approximately \$494,000 and \$53,000, respectively.

NOTE 12 - INCENTIVE SHARE OPTION PLAN

In accordance with our Amended and Restated Incentive Share Option Plan (the "Plan"), our board of trustees can award share options to trustees, officers and employees of AMAC and our Advisor and its affiliates. A maximum of 830,384 options can be granted, with annual limits based upon formulas specified in the Plan. Option terms and vesting requirements are determined at the time of grant, provided that the term is no longer than ten years.

In April 2003, our Compensation Committee granted 190,000 options to employees of an affiliate of our Advisor at an exercise price of \$15.03, the market price of our common shares on the grant date. These options vest equally, in thirds, in April 2004, 2005 and 2006 and expire in April 2013.

In January 2005, our Compensation Committee granted 65,052 options to one employee of an affiliate of our Advisor at an exercise price of \$17.20, the market price of our common shares on the grant date. These options vest equally, in thirds, in January 2006, 2007, and 2008 and expire in January 2015.

AMERICAN MORTGAGE ACCEPTANCE COMPANY AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In accordance with SFAS No. 123, we accrue compensation cost based on the estimated fair value of the options issued and amortize those costs over the vesting period. Because the grant recipients are not our employees and vesting of the options is contingent upon the recipient continuing to provide services to us, we estimate the fair value of the options at each period-end up to the

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

vesting date, and adjust recorded amounts accordingly.

The assumptions used for valuing these options and the results of the valuations were as follows:

Weighted Average Assumptions:	2005 -----	2004 -----	2003 -----
Dividend Yield	10.95%	9.30%	9.63%
Estimated Volatility	26.00%	16.00%	16.00%

There were 643,332 shares available for issuance as of December 31, 2005.

The following table summarizes share option activity in our share option plans for the years ended December 31:

NOTE 14 - RELATED PARTY TRANSACTIONS

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

Pursuant to the amended Advisory Agreement with our Advisor dated April 6, 1999 (the "Amended Advisory Agreement"), we pay certain fees, in addition to reimbursements of certain administrative and other costs our Advisor incurs on our behalf, for its ongoing management and operations of our Company:

Fees/Compensation	Annual Amount
I. Asset management management fees	0.355% for investments in mortgage loans 0.355% for certain investment grade investments 0.750% for certain non-investment grade investments 1.000% for unrated investments 0.625% for investments held prior to the adoption of the Amended Advisory Agreement.
II. Loan origination fees	With respect to new mortgage loans we acquire, any origination points paid by borrowers will first be paid to the Advisor for amounts up to 1.0% of the principal amount of each mortgage loan and we will receive any excess origination points paid by borrowers, if any, above the 1.0%.
III. Annual incentive management fees	Subject to (1) a minimum annual distributions being made to shareholders from management fees cash available for distribution ("CAD") of \$1.45 per share and (2) the Company achieving at least annual Adjusted Funds from Operations (defined below) per share of \$1.60 (net of this incentive fee), the Advisor shall be entitled to receive incentive compensation for each fiscal year in an amount equal to the product of: <ul style="list-style-type: none"> (A) 25% of the dollar amount by which <ul style="list-style-type: none"> (1) Adjusted Funds From Operations before this incentive management fee per share exceed (2) the greater of: <ul style="list-style-type: none"> (a) (i) the weighted average of (x) \$20 and (y) the prices per share of any secondary offerings by the Company multiplied by (ii) the Ten Year U.S. Treasury Rate plus 2% per annum; and (b) \$1.45 multiplied by (B) the weighted average number of shares outstanding during such year.

"Adjusted Funds From Operations" means net income (computed in accordance with GAAP) including realized gains (or losses) from debt restructuring and sales of assets, plus depreciation and amortization on real property, and after adjustments for unconsolidated partnerships and joint ventures.

AMERICAN MORTGAGE ACCEPTANCE COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

"CAD" means cash available for distributions, which shall consist of our net income (as determined pursuant to GAAP) adjusted for certain non-cash charges (as determined pursuant to GAAP).

Prior to 2004, the incentive management fee was calculated pursuant to the Company achieving at least annual GAAP net income of \$1.60 per share, net of the incentive management fee without the additional requirement that net income had to exceed CAD of \$1.45 per share.

The costs paid or payable to our Advisor were as follows:

(in thousands)	Years Ended December 31,		
	2005	2004	2003
Shared service expenses	\$ 947	\$ 682	\$ 725
Asset management fees	1,545	1,274	1,087
Incentive management fee	1,855	--	--
	-----	-----	-----
	\$4,347	\$1,956	\$1,812
	=====	=====	=====

During 2003, our Advisor waived approximately \$67,000 in asset management fees relating to additional services it performed with regard to real estate we now own (see Note 6), as we paid a fee at the time the loans were originated.

During December 2005, in connection with our new investment initiative, our Board of Trustees approved various amendments to our bylaws and Advisory agreement. The changes, which will be effective upon renewal of the existing agreement at its expiration in March 2006, include, but are not limited to, the following:

- o ASSET MANAGEMENT FEE - The current asset by asset based fees will be replaced with an asset management fee which is equal to 1.75% of shareholders equity.
- o LOAN ORIGINATION FEES - The revised agreement will provide that the Advisor receive all origination fees.
- o SHARE ISSUANCE - The current agreement provides that the Advisor will receive 1% of all common shares issued by us. This provision has been eliminated.
- o TERMINATION - The Advisory agreement will be subject to early termination for "cause", without payment of a termination fee. However, if the termination occurs without cause or is not renewed after its one year term, the Advisor will be entitled to receive a

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

termination fee.

In September 2003, we transferred certain of our obligations under the Fannie Mae loan program to CMC, a subsidiary of CharterMac. See Note 16 for more details on the transaction.

In October 2003, we purchased nine taxable revenue bonds from CharterMac. The carrying value of these bonds at December 31, 2005 and 2004 are \$6.6 million and \$6.7 million, respectively.

In December 2003, we borrowed approximately \$11.3 million from CharterMac in order to aid in the purchase of the Concord at Gulfgate first mortgage in the total amount of \$14.1 million (see Note 6). CharterMac charged us interest at an annual rate of 3.17% on the borrowings, which was based on LIBOR plus 2%, the same rate we paid on our Warehouse Facility. Shortly thereafter, we received a \$14.0 million loan through the Warehouse Facility, and used the proceeds to repay the loan to CharterMac.

See Note 9 for information regarding our Revolving Facility with CharterMac.

In September 2005, we sold a mortgage loan, at par, to CharterMac (see Note 3).

During November 2005, we and CharterMac entered into a Subordinated Participation Agreement, under which we have acquired a subordinated participation equal to \$5.0 million in a loan receivable that CharterMac holds. Upon the inception of our new warehouse facility (which we anticipate to occur in the first half of 2006), we will purchase the remaining loan receivable balance from CharterMac at its \$26.0 million par value.

NOTE 16 - COMMITMENTS AND CONTINGENCIES

a) Legal

On October 27, 2003, prior to taking possession of the real estate collateral supporting a loan investment, we were named in a lawsuit, Concord Gulfgate, Ltd. vs. Robert Parker, Sunrise Housing Ltd., and American Mortgage Acceptance Company, Cause No. 2003-59290 in the 133rd Judicial District Court of Harris County, Texas. The suit alleges that the loan transaction was not properly authorized by the partnership and was not for a legitimate partnership purpose. The suit claims, among other causes of action against the respective defendants, wrongful foreclosure of the real estate collateral, tortious interference with contract and civil conspiracy. The suit seeks, among other relief, actual, consequential, and exemplary damages, and a declaration that the loan documents are unenforceable and constitute a cloud on title. The discovery phase of this suit has been completed. A summary judgment was filed by us, but was denied on July 25, 2005. It is not known when the case will be called to trial.

We filed a countersuit on November 25, 2003, against Concord Gulfgate, Ltd., as guarantor, seeking a deficiency on the loan, and recovery of unpaid taxes and certain property receipts. We are currently unable to determine the possible outcome of the litigation.

b) Guarantees

In June and October of 2000, we originated two loans totaling \$3.3 million under an agreement with Fannie Mae. That agreement provided for our guaranteeing a first-loss position on the loans, which could potentially result in exposure of \$7.5 million. In September 2003, we transferred and assigned all of our obligations to the two loans we originated under this program to CharterMac Mortgage Capital ("CMC"), a subsidiary of CharterMac, both of which are affiliates of the Advisor. Pursuant to the agreement with CMC, CharterMac guaranteed CMC's obligations, and we agreed to indemnify both CMC and CharterMac for any losses incurred in exchange for retaining all fees which we were otherwise entitled to receive under the program. The maximum exposure at December 31, 2005, was \$3.2 million, although we expect that we will not be called upon to fund these guarantees.

In the first quarter of 2003, we discontinued our loan program with Fannie Mae and will issue no further guarantees pursuant to such program.

NOTE 17 - SUBSEQUENT EVENTS

We did not receive the January 2006 payments for two notes receivable (both of which have the same borrower), causing the notes to be in default. While we are exploring possible solutions involving repayment of these notes or recovery of the assets, we are unable to determine at this time if a loss exists with respect to the investments.

These notes were pledged as part of our warehouse facility (see Note 8). On February 28, 2006, we paid off the remaining outstanding balance of approximately \$4.1 million on the facility, but we believe we have sufficient liquidity to do so if required.

Section 2. THE CREDIT ACCOMMODATIONS

2.1 THE CREDIT ACCOMMODATIONS.

2.1.1 ADVANCES. Subject to the terms and conditions hereof, from and including the Closing Date and prior to the Maturity Date (the "REVOLVING COMMITMENT PERIOD"), the Lender agrees to make revolving loans ("ADVANCES") to Borrower from time to time in an aggregate principal amount at any one time outstanding which does not exceed the Loan Amount. During the Revolving Commitment Period, Borrower may use the Loan Amount by borrowing, prepaying the Advances in whole or in part, and reborrowing, all in accordance with the terms and conditions hereof. Borrower shall give the Lender written notice of each requested Advance in the form of a Borrowing Notice, signed by Borrower. On the Maturity Date, Borrower shall repay in full the outstanding principal balance of all Advances.

2.1.2 MAKING OF REVOLVING LOANS. Promptly after receipt of the Borrowing Notice, the Lender shall make the funds available to Borrower on the applicable Borrowing Date, utilizing reasonable efforts to initiate the transfer of such funds so received by not later than 2:00 p.m. (New York time) and shall disburse such proceeds in accordance with Borrower's instructions set forth in such Borrowing Notice.

2.1.3 TERMINATION OF REVOLVING COMMITMENT PERIOD. Without limiting any other rights or remedies available to the Lender hereunder or under any applicable law, and notwithstanding any other provision of this Agreement, the Revolving Commitment Period shall end immediately in the event that Borrower fails to perform or observe any covenant, term, provision, condition, agreement

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

or obligation under any of the Loan Documents or any other note, agreement or instrument in favor of the Lender, or in the event that any of Borrower's Subsidiaries fails to perform or observe any covenant, term, provision, condition, agreement or obligation under any of the Loan Documents.

2.1.4 APPLICATION OF PAYMENTS. All Obligations incurred with respect to any Loan made to Borrower shall be paid within the applicable repayment periods set forth in this Section 2.1. All payments shall be applied first to the payment of all Loan Fees, expenses and other amounts due to the Lender (excluding principal and interest), then to accrued interest, and the balance on account of outstanding principal of the Loan; provided, however, that after a Default or an Event of Default has occurred and is continuing, payments will be applied to the Obligations as the Lender determines in its unrestricted discretion. If the entire amount of any required principal and/or interest payment is not paid in full within fifteen (15) days after the same is due, Borrower shall pay to the Lender a late fee equal to five percent (5%) of the required payment.

2.2 TERM OF AGREEMENT. This Agreement shall continue in full force and effect so long as any Obligation remains outstanding and the Lender continues to have any commitment to make any Advance or other credit accommodation hereunder.

2.3 PREPAYMENT OF THE OBLIGATIONS; BORROWER'S REDUCTION OF LOAN AMOUNT. Borrower may prepay any Obligation in whole or part at any time or from time to time, with accrued interest to the date of such prepayment on the amount prepaid, but without premium or penalty. Any such partial prepayment shall be applied against the Advances under the Line of Credit as Borrower shall direct so long as there is not then outstanding any Default or Event of Default and, after the occurrence of such Default or Event of Default, as the Lender shall determine in its unrestricted discretion (provided that the Lender agrees not to prepay a LIBOR Rate Amount prior to the end of an Interest Period if there are any outstanding Advances accruing interest with reference to the LIBOR Rate at such time). Any prepayment of a LIBOR Rate Amount shall be accompanied by payment of any additional amounts required pursuant to SECTION 2.5.1 (F). Borrower may from time to time by written notice delivered to the Lender at least three (3) Business Days prior to the date of the requested reduction, reduce the Loan Amount by integral multiples of \$1,000,000 as to any unborrowed portion of the Loan Amount. No reduction of the Loan Amount shall be subject to reinstatement.

2.4 EVIDENCE OF INDEBTEDNESS, MATURITY. The Loan shall be evidenced by the Note in the aggregate principal amount of the Loan Amount. The outstanding principal balance of the Loan, together with accrued interest thereon, and all other amounts payable by Borrower under the terms of the Loan Documents, shall be due and payable on June 30, 2005 (the "MATURITY DATE").

2.5 INTEREST, LOAN FEES AND PAYMENT OF EXPENSES.

2.5.1 LIBOR Interest Rate.

(A) At the option of Borrower, so long as no Default or Event of Default has occurred and is then continuing, Borrower may elect from time to time prior to the Maturity Date to have all or a portion of the unpaid principal amount of the Loans bear interest at a per annum rate during any particular Interest Period with reference to the LIBOR Rate plus three percent (3%); provided, however, that any such portion of any Loan shall be in an amount not less than \$100,000 or some greater integral multiple of \$100,000 with respect to any single Interest Period. During the continuation of any Event of Default, interest on the Loans will be calculated based on the one month LIBOR Rate plus any default interest and other penalties provided for in this Agreement. Each Interest Period selected hereunder shall commence on

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

the first day of a calendar month. Any election by Borrower to have interest calculated at the LIBOR Rate shall be made by notice (which shall be irrevocable) to the Lender at least three (3) Business Days prior to the first day of the proposed Interest Period, specifying the LIBOR Rate Amount and the duration of the proposed Interest Period (which must be for one, two, three or six months). Any such election of a LIBOR Rate shall lapse at the end of the expiring Interest Period unless extended by a further election notice provided in accordance with this paragraph. Interest shall be payable in the last day of each

93

such Interest Period and if such Interest Period has a duration of more than three months, on each date during such Interest Period occurring every three months from the first day of such Interest Period. All computations of interest accruing on the unpaid balance of Loans from time to time shall be calculated on the basis of a 360-day year for the actual number of days elapsed. From and after the occurrence of an Event of Default and, when applicable, the expiration of the 15-day cure period for such Event of Default as provided in SECTION 8.1, and during the continuation of such Event of Default, the unpaid balance of the Loan shall bear interest, to the extent permitted by law, at the annual rate of interest equal to four percent (4%) above the interest rate applicable to such Loan pursuant to SECTION 2.5.1 in effect on the first Business Day prior to the occurrence of such Event of Default, which interest shall be compounded monthly and payable on demand. Notwithstanding the foregoing, Borrower may not select an Interest Period which extends beyond the Maturity Date.

- (B) Borrower shall pay to the Lender, the LIBOR Reserve Charge, if any, with respect to LIBOR Rate Amounts of the Loans outstanding from time to time on the dates interest is payable on such LIBOR Rate Amounts.
- (C) The Lender shall forthwith upon determining any LIBOR Rate provide notice thereof to Borrower. Each such notice shall be conclusive and binding upon Borrower.
- (D) If, with respect to any Interest Period, the Lender is unable to determine the LIBOR Rate relating thereto, or adverse or unusual conditions in or changes in applicable law relating to the applicable Eurodollar interbank market make it illegal or, in the reasonable judgment of the Lender, impracticable, to fund therein the LIBOR Rate Amount or make the projected LIBOR Rate unreflective of the actual costs of funds therefor to the Lender, or if it shall become unlawful for the Lender to charge interest on the Loans on a LIBOR Rate basis, then in any of the foregoing events the Lender shall so notify Borrower and interest will be calculated and payable in respect of such projected Interest Period (and thereafter for so long as the conditions referred to in this sentence shall continue) by reference to the "prime rate" published by Citibank, N.A. plus 1% per annum.
- (E) If any Interest Period would otherwise end on a day which is not a Business Day for LIBOR Rate purposes, that Interest Period shall end on the Business Day next preceding or next succeeding such day as determined by the Lender in accordance with its usual practice, of which the Lender shall notify Borrower at the beginning of such Interest Period.

Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 10-K

(F) Borrower may prepay a LIBOR Rate Amount only upon at least three (3) Business Days prior written notice to the Lender (which notice shall be irrevocable). Borrower shall pay to the Lender, upon request of the Lender, such amount or amounts as shall be sufficient (in the reasonable opinion of the Lender) to compensate the Lender for any loss, cost, or expense incurred as a result of: (i) any payment of a LIBOR Rate Amount on a date other than the last day of the Interest Period for such Loan; (ii) any failure by Borrower to borrow a LIBOR Rate Amount on the date specified by Borrower's written notice; or (iii) any failure by Borrower to pay a LIBOR Rate Amount on the date for payment specified in Borrower's written notice.

2.5.2 UPFRONT FEE. On the Closing Date, the Borrower agrees to pay the Lender a fee of \$30,000 (the "Upfront Fee").

2.5.3 PAYMENT OF FEES. Borrower hereby authorizes the Lender to disburse proceeds of the Loan to pay the Loan Fees and the reasonable fees and expenses of the Lender's legal counsel notwithstanding that Borrower may not have requested a disbursement of such amount. Such disbursements shall constitute a portion of the outstanding principal balance of the Loan and the Note and shall be deemed to be the first principal amounts repaid by Borrower in making principal payments, whether or not designated as such by Borrower. Invoices for all expenses charged to Borrower pursuant hereto will be provided to Borrower by the Lender prior to any such disbursement, and Borrower shall pay to the Lender all amounts due pursuant to any such invoices as repayment of such portion of the outstanding principal balance of the Loan and the Note represented by such invoices, with all interest accrued thereon, within twenty (20) Business Days following Borrower's receipt thereof.

94

2.5.4 CHANGE IN LAWS. Anything herein to the contrary notwithstanding, if any future applicable law (which expression, as used in this Agreement, includes statutes and rules and regulations thereunder and interpretations thereof by any competent court or by any governmental or other regulatory body or official charged with the administration or the interpretation thereof) shall (1) subject the Lender to any tax, levy, impost, duty, charge, fee, deduction or withholding of any nature with respect to this Agreement, the Loans or the payment to the Lender of any amounts due to it hereunder, or (2) materially change the basis of taxation of payments to the Lender of the principal or the interest on or any other amounts payable to the Lender hereunder, or (3) impose on the Lender any other conditions or requirements with respect to this Agreement, the Loan Amount or any Loan, and the result of any of the foregoing is (a) to increase the cost to making, funding or maintaining all or any part of the Loans, or (b) to reduce the amount of principal, interest or other amount payable to the Lender hereunder, or (c) to require the Lender to make any payment or to forego any interest or other sum payable hereunder, the amount of which payment or foregoing interest or other sum is calculated by reference to the gross amount of any sum receivable or deemed received by the Lender from Borrower hereunder, then, and in each such case not otherwise provided for hereunder, Borrower will, upon demand made by the Lender accompanied by calculations thereof in reasonable detail, pay to the Lender such additional amounts as will be sufficient to compensate the Lender for such additional cost, reduction, payment or foregoing interest or other sum, provided that the foregoing provisions of this sentence shall not apply in the case of any additional cost, reduction, payment or foregoing interest or other sum resulting from any taxes charged upon or by reference to the overall net income, profits or gains of the Lender.

Section 3. CONDITIONS TO CREDIT

The Lender's obligations to make any Advances hereunder are subject to the fulfillment of each of the following conditions to the Lender's satisfaction immediately prior to or contemporaneously with the making of any such Advances:

3.1 DOCUMENTS. Prior to or concurrently with the execution and delivery of this Agreement, the Lender shall receive each of the following documents in form and substance satisfactory to the Lender:

3.1.1 All of the documents listed on the Closing Checklist attached hereto as EXHIBIT 3.1; and

3.1.2 Such other instruments or documents as the Lender's counsel may reasonably request.

3.2 REPRESENTATIONS AND WARRANTIES. Upon execution and delivery of this Agreement and upon each request by Borrower for an Advance, the representations and warranties contained in Section 4 of this Agreement shall be accurate and complete (except to the extent such representations and warranties relate solely to an earlier specific date, in which case such representations and warranties shall have been accurate and complete as of such date).

3.3 EVENTS OF DEFAULT. Upon execution and delivery of this Agreement and upon each request by Borrower for an Advance, no Default or Event of Default hereunder shall have occurred and be continuing.

3.4 APPROVAL OF LENDER'S COUNSEL. Upon execution and delivery of this Agreement and upon each request by Borrower for an Advance, all legal matters incident to or in connection with the transactions hereby contemplated shall be reasonably satisfactory to counsel for the Lender.

3.5 PAYMENT OF FEES. At the Closing Date and prior to making any Advance hereunder, the Lender shall have received from Borrower an unconditional payment of the Loan Fees then due and payable, together with payment of all costs and expenses, including without limitation reasonable attorneys' fees and costs incurred by the Lender in connection with the preparation and execution of this Agreement and the Loan Documents. Notwithstanding the foregoing, and without in any way reducing Borrower's obligation to pay such fees, the Lender agrees not to refuse to make an Advance solely because attorneys fees incurred by the Lender, for which Borrower has been invoiced within 30 days of such Advance, remain outstanding.

95

Borrower and its Subsidiaries are also duly authorized, qualified and licensed under all applicable laws, regulations, ordinances or orders of public authorities to carry on its business in the places and in the manner presently conducted, except to the extent that the failure to do so could not reasonably be expected to have a material adverse effect on the business, results of operations or condition (financial or otherwise) of Borrower and its Subsidiaries, taken as a whole. Borrower has the organizational power to enter into any transaction and to make and perform any agreement or instrument which this Agreement or the Loan Documents require or contemplate.

Notwithstanding the foregoing sentence, Borrower and its Subsidiaries may enter into, incur or assume debt, mortgages, leases or oral or written commitments, commence significant projects and purchase or acquire property so long as such action is done in the ordinary course of business and is consistent with the description of Borrower's Business. Borrower and its Subsidiaries do not have any contingent liabilities of any substantial amount which are not reflected in the Financial Statements described above, except for liabilities incurred by Borrower and its Subsidiaries since the date of the Financial Statements in the ordinary course of its business consistent with past practices.

96

governmental department, commission, board, bureau, agency, or instrumentality, domestic or foreign, which if adversely determined would have a materially adverse effect on the business or condition of Borrower and its Subsidiaries, taken as a whole, other than those actions, suits, proceedings or investigations set forth on EXHIBIT 4.6. Borrower and its Subsidiaries are not in default or violation, in either case, beyond expiration of applicable grace, cure or notice periods of any order, writ, injunction or decree.

4.7 BURDENSOME PROVISIONS. Other than as reflected in the Financial Statements, Borrower and its Subsidiaries are not a party to any indenture, agreement, instrument or lease, or subject to any charter, bylaw, operating agreement or other restriction, or any law, rule, regulation, order, writ, judgment or injunction, which will, under current or reasonably anticipated conditions, materially and adversely affect its ability to fully perform all of the Obligations.

4.8 OTHER AGREEMENTS. Borrower and its Subsidiaries are not in default beyond applicable grace, cure or notice periods to any material extent in the performance, observance or fulfillment of any of the obligations, covenants or conditions contained in any debenture, note or other evidence of indebtedness of such entity or any indenture or agreement to which it is a party or is bound, which would have a material adverse effect on the financial condition of Borrower and its Subsidiaries, taken as a whole.

Borrower will duly and punctually pay any principal and interest when due on any Obligation requiring the payment of money.

4.11 CAPITALIZATION. 97

neither Borrower nor any ERISA Affiliate or any Plan has incurred any material "accumulated funding deficiency" (as defined in ERISA); the aggregate current value of all assets of the funded Plans of each of Borrower and any ERISA Affiliate is at least equal to the aggregate current value of all accrued benefits under such Plans calculated in accordance with actuarial assumptions current as of the date of this representation and warranty on a Plan termination basis; neither Borrower nor any ERISA Affiliate has incurred any material liability to the Pension Benefit Guaranty Corporation over and above premiums required by law and which have been paid or are not yet due; neither Borrower nor any ERISA Affiliate has terminated any Plan in a manner which could result in the imposition of a lien on the property of such entity; none of the Plans are multi-employer plans (as defined in ERISA). No inquiry, notice or threat to give notice by any governmental authority or third party has been received by Borrower or any of its Subsidiaries with respect to the generation, storage or disposal or release or threat of release on, under or from any real property either owned or leased by Borrower or any of its Subsidiaries, of any hazardous substance, hazardous material or oil, or with respect to any violation of any federal, state or local environmental, health or safety statute or regulation which could have a direct or material adverse effect, in the Lender's reasonable judgment, on the ability of Borrower to meet its Obligations under any of the Loan Documents.

4.16 CONTRACTS WITH AFFILIATES, ETC. 4.17 FEDERAL REGULATIONS. No part of the proceeds of any Advance, and no other extensions of credit hereunder, will be used for "buying" or "carrying" any "margin stock" within the respective meanings of each of the quoted terms under Regulation U as now and from time to time hereafter in effect. If requested by the Lender, Borrower will furnish to the Lender a statement to the foregoing effect in conformity with the requirements of FR Form G-3 or FR Form U 1, as applicable, referred to in Regulation U.

5.2.1 Remain in and continue to operate, and cause its Subsidiaries to remain in and continue to operate, substantially the same line of business presently engaged in or contemplated to be engaged in by the terms of this Agreement as described in the Registration Statement (except that Borrower and its Subsidiaries may, upon notice to the Lender, withdraw from any business activity which its trustee(s) or manager(s) reasonably deem unprofitable or unsound in the due exercise of their authority, provided, however, such withdrawal shall not impair in any way such entity's ability to fully pay and perform all of its Obligations), maintain and preserve, and cause Borrower to maintain and preserve, its existence and all rights, privileges and franchises necessary or desirable in the conduct of its business as contemplated by this Agreement; and conduct its business (and no other business) as contemplated by the terms of this Agreement in an orderly, efficient and customary manner. Pay and discharge promptly all taxes, assessments, governmental charges and levies imposed, respectively, upon it or upon its income or profits or upon any properties belonging to it, prior to the date on which penalties would be imposed, and pay all lawful claims for labor, materials and supplies that, if unpaid, might become a lien or charge upon its respective property, provided that Borrower and its Subsidiaries shall not be required to pay any such tax, assessment, charge, levy or claim if the amount, applicability or validity thereof is currently being contested in good faith and by proper proceedings and if such entity, respectively, has set aside on its books and shall maintain adequate reserves for the payment of the same in conformity with GAAP.

5.6 NOTICE OF DEFAULTS. Give prompt written notice to the Lender of any Default or Event of Default or of any default arising under any other agreement or indenture entered into by Borrower or any of its Subsidiaries, or of any

Borrower shall notify the Lender at least 90 days prior to either the Advisor or RCC no longer being bound by the Advisory Agreement or the Advisory Subcontract, including, without limitation, because of either the Advisor's or RCC's assignment or delegation of their respective obligations or duties thereunder; provided, however, that the transfer of all of the equity interests in RCC to an Affiliate of RCC or to a Person whose chief executive with senior-most responsibility for the business and operations of such Person is an Affiliate of RCC, shall not constitute an assignment or delegation of RCC's obligations or duties thereunder. In the event that either the Advisor or RCC provides notice of its intention to terminate the Advisory Agreement or the Advisory Subcontract, regardless of whether such termination is in accordance with the terms of the Advisory Agreement or the Advisory Subcontract, or fails to renew or extend the Advisory Agreement or the Advisory Subcontract for any reason or for no reason, Borrower shall provide to the Lender written notice at least 90 days prior to the effectiveness of such notice from the Advisor or from RCC or such failure to renew or extend. 9.4 INDEMNIFICATION. To the fullest extent permitted by law, Borrower agrees to protect, indemnify, defend and hold harmless the Lender, its trustees, officers, agents, employees and representatives from and against any and all liability, expense, loss or damage of any kind or nature and from any suits, claims or demands, including without limitation reasonable attorneys' fees and costs, on account of any matter or thing or action or failure to act by the Lender, or its trustees, officers, agents, employees or representatives, whether in suit or not, arising out of this Agreement or in connection herewith or with the transactions contemplated hereby, unless such suit, claim or demand is caused principally by any grossly negligent act or omission or willful malfeasance of, the Lender, its trustees, officers, agents and employees and representatives. Upon receiving knowledge of any suit, claim or demand asserted by a third party that the Lender believes is covered by this indemnity, such indemnified party shall give Borrower notice of the matter and an opportunity to defend it, at Borrower's sole cost and expense, with legal counsel satisfactory to such indemnified party. If such indemnified party is not satisfied with the defense being provided, such indemnified party may employ an attorney or attorneys selected by it to protect its rights hereunder, and Borrower shall pay to such indemnified party the reasonable attorneys' fees and costs incurred by such indemnified party. This obligation on the part of Borrower shall survive the closing of the Loan the repayment of all obligations hereunder and the termination or expiration of this Agreement.

9.5 INCONSISTENCIES WITH OTHER LOAN DOCUMENTS. In the event that it is impossible to simultaneously comply with the terms of this Agreement and any term of any of the other Loan Documents, the terms of this Agreement shall govern and prevail over the conflicting portion of the other Loan Document(s).

9.6 EXPENSES. Borrower shall pay on demand all reasonable costs and expenses, including, without limitation, reasonable attorneys' fees and costs, incurred (A) by the Lender in connection with the preparation of this Agreement, (B) by the Lender in connection with the administration of this Agreement, and (C) by the Lender in connection with the enforcement and protection of its rights under this Agreement, including the protection of the rights of the Lender in any bankruptcy, reorganization, liquidation or insolvency proceeding, whether or not litigation is commenced.

9.7 ASSIGNABILITY.

107

9.7.1 This Agreement shall bind and its benefits shall inure to Borrower, the Lender, and their respective successors and permitted assigns, as the case may be.

9.7.2 Borrower may not assign (voluntarily or by force of law) all or any portion of its interests, rights and obligations under this Agreement, the Note or any of the Loan Documents, without the prior written consent of the Lender, which consent may be withheld in the Lender's sole and unrestricted discretion.

9.7.3 The Lender may assign all or any portion of its interests, rights and obligations under this Agreement, the Note and the Loan Documents (for purposes of this SECTION 9.7 only, collectively, the "Assigned Commitment"); provided, however, that if there does not then exist a Default or Event of Default, the prior written consent of Borrower shall be required to any such proposed assignment; provided further, however, that such consent shall not be unreasonably withheld, conditioned or delayed.

9.8 TIME OF ESSENCE. Time is of the essence of this Agreement.

9.9 ENTIRE AGREEMENT. This Agreement and the Loan Documents and other materials furnished to the Lender by and on behalf of Borrower constitute the entire agreement and understanding of the Lender and Borrower with respect to the matters set forth herein and therein. No representation, warranty, covenant, promise, understanding or condition shall be enforceable against any party unless it is contained in this Agreement or the Loan Documents.

9.10 SEVERABILITY. The invalidity or unenforceability of any one or more provisions of this Agreement or any Loan Document under particular circumstances or in its entirety shall not affect the validity or enforceability of such provisions under different circumstances or the validity or enforceability of any other provision.

9.11 GOVERNING LAW. This Agreement, any Note and all other documents executed pursuant to this Agreement or any Note shall be deemed entered into, and shall be governed and construed according to the laws of the State of New York, notwithstanding choice of law rules to the contrary.

9.12 NO PARTNERSHIP OR JOINT VENTURE. The Lender and Borrower agree that the Lender is not a partner or joint venturer with Borrower, in any manner whatsoever.

9.13 REPLACEMENT DOCUMENTS. Upon receipt of an affidavit from the Lender (containing standard indemnification provisions or representations) as to the loss, theft, destruction or mutilation of any Loan Document or Note, Borrower shall issue or execute and deliver to the Lender in lieu thereof, an identical replacement therefor.

9.14 HEADINGS. The headings of this Agreement are solely for the purpose of identification and shall not be construed as a part of the paragraphs they head.

9.15 USURY LIMITATION. If, at any time, the rate of interest, together with all amounts which constitute interest and which are reserved, charged or taken by the Lender as compensation for fees, services or expenses incidental to the making, negotiating or collection of the Loan, shall be deemed by any competent court of law, governmental agency or tribunal to exceed the maximum rate of interest permitted to be charged by the Lender to Borrower under then applicable law, then, during such time as such rate of interest would be deemed excessive, that portion of each sum paid attributable to that portion of such interest rate that exceeds the maximum rate of interest so permitted shall be deemed a voluntary prepayment of principal of the Obligations; provided, however, that in the event there is a change in the law which results in a higher permissible rate of interest, then this Agreement shall be governed by such new law as of its effective date.

9.16 WAIVER OF JURY TRIAL. BORROWER SHALL NOT SEEK A JURY TRIAL IN ANY LAWSUIT, PROCEEDING, COUNTERCLAIM OR ANY OTHER LITIGATION ACTION INVOLVING THE LENDER (OR ANY OFFICER, TRUSTEE, EMPLOYEE OR AGENT THEREOF) BASED UPON OR ARISING OUT OF THIS AGREEMENT OR ANY OF THE OTHER LOAN DOCUMENTS, OR THE DEALINGS OR THE RELATIONSHIP BETWEEN OR AMONG SUCH PERSONS OR ENTITIES, OR ANY OF THEM. BORROWER WILL NOT SEEK TO CONSOLIDATE ANY ACTION IN WHICH A JURY TRIAL HAS BEEN WAIVED WITH ANY OTHER ACTION IN WHICH A JURY TRIAL CANNOT OR HAS NOT

BEEN WAIVED. ANY COURT PROCEEDINGS RELATING TO THIS AGREEMENT OR ANY OTHER OF

THE LOAN DOCUMENTS SHALL BE BROUGHT EXCLUSIVELY IN THE COURTS OF THE STATE OF NEW YORK SITTING IN NEW YORK CITY (OR THE FEDERAL COURTS LOCATED THEREIN). NOTWITHSTANDING THE FOREGOING FORUM DESIGNATION, BORROWER AGREES THAT THE LENDER SHALL HAVE THE RIGHT TO PROCEED AGAINST BORROWER OR ITS RESPECTIVE PROPERTY IN A COURT IN ANY LOCATION TO ENABLE THE LENDER TO (1) OBTAIN PERSONAL JURISDICTION OVER ANY OF THEM OR (2) IN ORDER TO ENFORCE A JUDGMENT OR OTHER COURT ORDER ENTERED IN FAVOR OF THE LENDER. BORROWER FURTHER AGREES THAT IT WILL NOT ASSERT ANY PERMISSIVE COUNTERCLAIMS IN ANY PROCEEDING BROUGHT BY THE LENDER TO REALIZE ON ANY SECURITY FOR THE OBLIGATIONS OR TO ENFORCE A JUDGMENT OR OTHER COURT ORDER IN FAVOR OF THE LENDER. BORROWER WAIVES ANY OBJECTION THAT IT MAY HAVE TO THE LOCATION OF THE COURT IN WHICH THE LENDER HAS COMMENCED ANY PROCEEDING. THE PROVISIONS OF THIS SECTION 9.16 HAVE BEEN FULLY DISCUSSED BY BORROWER AND THE LENDER, AND THE PROVISIONS HEREOF SHALL BE SUBJECT TO NO EXCEPTIONS. NO PARTY HAS IN ANY WAY AGREED WITH OR REPRESENTED TO ANY OTHER PARTY THAT THE PROVISIONS OF THIS SECTION 9.16 WILL NOT BE FULLY ENFORCED IN ALL INSTANCES.
