FORWARD-LOOKING STATEMENTS

Statements made by us in this report and in other reports and statements released by us that are not historical facts constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These forward-looking statements are necessarily estimates reflecting the judgment of our senior management based on our current estimates, expectations, forecasts and projections and include comments that express our current opinions about trends and factors that may impact future operating results. Disclosures that use words such as “believe,” “anticipate,” “estimate,” “intend,” “could,” “plan,” “expect,” “project” or the negative of these, as well as similar expressions, are intended to identify forward-looking statements. These statements are not guarantees of future performance, rely on a number of assumptions concerning future events, many of which are outside of our control, and involve known and unknown risks and uncertainties that could cause our actual results, performance or achievement, or industry results to differ materially from any future results, performance or achievements, expressed or implied by such forward-looking statements. These risks and uncertainties may include the risks and uncertainties described elsewhere in this report and other filings with the Securities and Exchange Commission (the “SEC”), including the Item 1A. “Risk Factors” section of our annual report on Form 10-K for the year ended December 31, 2013. Any such forward-looking statements, whether made in this report or elsewhere, should be considered in the context of the various disclosures made by us about our businesses including, without limitation, the risk factors discussed in our filings with the SEC. Except as required under the federal securities laws and the rules and regulations of the SEC, we do not have any intention or obligation to update publicly any forward-looking statements, whether as a result of new information, future events, changes in assumptions, or otherwise.

Assets Under Management or "AUM"

AUM generally refers to the properties and other assets with respect to which we provide (or participate in) oversight, investment management services and other advice, and which generally consist of real estate properties or loans, and investments in joint ventures. Our AUM is principally intended to reflect the extent of our presence in the real estate market, not the basis for determining our management fees. Our AUM consist of the total estimated fair value of the real estate properties and other real estate related assets either owned by third parties, wholly owned by us or held by joint ventures and other entities in which our sponsored funds or investment vehicles and client accounts have invested. Committed (but unfunded) capital from investors in our sponsored funds is not included in our AUM. The estimated value of development properties is included at estimated completion cost.

Operating Associates

Operating associates generally refer to individuals that are employed by or affiliated with third-party consultants, contractors, property managers or other service providers that we manage and oversee on a day-to-day basis with respect to our investments and services businesses.

During the three months ended March 31, 2014, the Company foreclosed on a 133,000 square foot retail center and an adjacent 2.4 acre vacant lot in Van Nuys, CA. On March 28, 2013, the Company acquired the interest of some of its existing partners in a 615-unit apartment building in Northern California, increasing its ownership from 15% to 94%. NOTE 1—BASIS OF PRESENTATION

Kennedy-Wilson Holdings, Inc.'s (together with its wholly owned and controlled subsidiaries, "we," "us," "our," "the Company" or "Kennedy Wilson") unaudited interim consolidated financial statements have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States ("GAAP") may have been condensed or omitted pursuant to SEC rules and regulations, although we believe that the disclosures are adequate to make their presentation not misleading. In the opinion of Kennedy Wilson, all adjustments, consisting of only normal and recurring items, necessary for a fair presentation of the results of operations for the three months ended March 31, 2014 and 2013 have been included. The results of operations for these periods are not necessarily indicative of results that might be expected for the full year ending December 31, 2014. For further information, your attention is directed to the footnote disclosures found in Kennedy Wilson's Annual Report on Form 10-K for the year ended December 31, 2013.

The consolidated financial statements include the accounts of Kennedy Wilson and its wholly owned or controlled subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. Kennedy Wilson Europe Real Estate Plc ("KWE," LSE: KWE), a Jersey investment company formed to invest in real estate and real estate-related assets in Europe, closed its initial public offering on the London Stock Exchange during the quarter ended March 31, 2014, raising approximately \$1.7 billion in gross proceeds. KWE is externally managed by a wholly-owned subsidiary of the Company incorporated in Jersey pursuant to an investment management agreement. Due to the terms provided in the investment management agreement, pursuant to the guidance set forth in FASB Accounting Standards Codification Subtopic 810 - Consolidation ("Subtopic 810"), the Company is required to consolidate KWE's results in its consolidated financial statements. Additionally, the Company invested \$145.2 million of cash and contributed \$58.3 million of assets acquired by the Company and owns approximately 12.2% of KWE's total issued share capital as of March 31, 2014. The Company also consolidates the results of certain joint ventures in its consolidated financial statements that it controls as defined by Subtopic 810.

In addition, Kennedy Wilson evaluates its relationships with other entities to identify whether they are variable interest entities ("VIEs") as defined in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Subtopic 810-10 and to assess whether it is the primary beneficiary of such entities. If the determination is made that Kennedy Wilson is the primary beneficiary, then that entity is included in the consolidated financial statements in accordance with the ASC Subtopic 810-10. The ownership of the other interest holders in consolidated subsidiaries is reflected as noncontrolling interests.

The preparation of the accompanying consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosure about contingent assets and liabilities, and reported amounts of revenues and expenses. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ADOPTION OF NEW ACCOUNTING PRONOUNCEMENTS

REVENUE RECOGNITION—Performance fees or carried interests are allocated to the general partner, special limited partner or asset manager of Kennedy Wilson's real estate funds and loan pool participations based on the cumulative performance of the funds and loan pools and are subject to preferred return thresholds of the limited partners and participants. At the end of each reporting period, Kennedy Wilson calculates the performance fee that would be due to the general partner, special limited partner or asset manager's interests for a fund or loan pool, pursuant to the fund agreement or participation agreements, as if the fair value of the underlying investments were realized as of such date, irrespective of whether such amounts have been realized. As the fair value of underlying investments varies between reporting periods, it is necessary to make adjustments to amounts recorded as performance fees to reflect either (a) positive performance resulting in an increase in the performance fee allocated to the general partner or asset

manager or (b) negative performance that would cause the amount due to Kennedy Wilson to be less than the amount previously recognized as revenue, resulting in a negative adjustment to performance fees allocated to the general partner or asset manager. A majority of the performance fees are recognized in investment management revenue, and substantially all of the carried interest is recognized in income from unconsolidated investments in our consolidated statements of operations. Total performance fees recognized from inception through March 31, 2014 that may be reversed in future periods if there is negative fund or loan pool performance totaled \$9.8 million. Performance fees accrued as of March 31, 2014 and December 31, 2013 were \$9.8 million and \$6.1 million, respectively, and are included in accounts receivable in the accompanying consolidated balance sheet.

REAL ESTATE ACQUISITIONS—The purchase price of acquired properties is recorded to land, buildings and building improvements and intangible lease value (value of above-market and below-market leases, acquired in-place lease values, and tenant relationships, if any) based on their respective estimated fair values in accordance with Business Combinations ASC Subtopics 805-10. Acquisition-related costs are expensed as incurred.

The valuations of real estate are based on management estimates of the real estate assets using income and market approaches. The indebtedness securing the real estate are valued, in part, based on third party valuations and management estimates also using an income approach.

NONCONTROLLING INTERESTS—Noncontrolling interests are reported within equity as a separate component of Kennedy Wilson's equity in accordance with Noncontrolling Interests in Consolidated Financial Statements ASC Subtopic 810-10. Revenues, expenses, gains, losses, net income or loss, and other comprehensive income are reported in the consolidated statements of operations at the consolidated amounts and net income and comprehensive income attributable to noncontrolling interests are separately stated.

FOREIGN CURRENCIES—The financial statements of subsidiaries located outside the United States are measured using the local currency as the functional currency. The assets and liabilities of these subsidiaries are translated at the rates of exchange at the balance sheet date, and income and expenses are translated at the average monthly rate. The foreign currencies include the euro, the British pound sterling, and the Japanese yen. Cumulative translation adjustments, to the extent not included in cumulative net income, are included in the consolidated statement of equity as a component of accumulated other comprehensive income.

DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES—All derivative instruments are recognized as either assets or liabilities in the balance sheet at their respective fair values. For derivatives designated in hedging relationships, changes in fair value of cash flow hedges or net investment hedges are recognized in accumulated other comprehensive income, to the extent the derivative is effective at offsetting the changes in the item being hedged until the hedged item affects earnings. Changes in fair value for fair value hedges are recognized in earnings.

RECENT ACCOUNTING PRONOUNCEMENTS—On April 10, 2014, the Financial Accounting Standards Board issued ASU 2014-08, which amends the definition of discontinued operations and requires additional disclosures for disposal transactions that do not meet the revised discontinued operations criteria. ASU 2014-08 is required to be adopted for fiscal years beginning after December 15, 2014, with early adoption permitted. The Company's early adoption of this pronouncement on January 1, 2014 did not have a material impact on the Company's consolidated financial statements.

The FASB did not issue any other ASCs during the first three months of 2014 that we expect to be applicable and have a material impact on our financial position or results of operations.

RECLASSIFICATIONS—Certain balances included in prior year's financial statements have been reclassified to conform with the current year's presentation.

NOTE 3—LOANS

NOTE 4—REAL ESTATE AND IN-PLACE LEASE VALUE

The following table summarizes the Company's investment in consolidated real estate properties at March 31, 2014 and December 31, 2013:

(Dollars in millions)	March 31, 2014	December 31, 2013

Real estate, net	\$1,878.9	\$688.1

Real property, including land, buildings, and building improvement, are included in real estate and are generally stated at cost. Buildings and building improvements are depreciated on a straight-line method over their estimated lives not to exceed 40 years. Acquired in-place lease values are recorded at their estimated fair value and depreciated over their respective weighted-average lease term.

Consolidated Acquisitions

The purchase of property is recorded to land, buildings, building improvements, and intangible lease value (including the value of above-market and below-market leases, acquired in-place lease values, and tenant relationships, if any) based on their respective estimated fair values. The purchase price approximates the fair value of the properties as these acquisitions were transacted with third-party willing sellers. Acquisition-related costs are expensed as incurred. During the quarter ended March 31, 2014, the Company acquired the following properties:

Consolidation of previously unconsolidated investments

On March 31, 2014, the Company and one of its equity partners amended existing operating agreements governing six separate joint ventures that hold real estate-related investments located in the U.K. and Ireland. The Company has an approximate 50% ownership interest in these investments. These joint ventures were previously accounted for by the Company on an equity method basis. The amendments to the operating agreements provided control to the Company of these investments. As a result of gaining control, the Company was required to consolidate the assets and liabilities of these properties at fair value in accordance with FASB Accounting Standards Codification 805 - Business Combinations. As the fair value of our interests in these properties were in excess of their carrying value of their ownership interest, we recorded acquisition-related gains in the accompanying consolidated statement of operations for the quarter ended March 31, 2014 as further detailed below. See Note 6 - Fair Value Measurements for further detail of the methodology used to determine the fair value of the assets and liabilities acquired in these transactions. The following table summarizes the assets and liabilities assumed as a result of gaining control of these properties and the acquisition related gains recognized:

(Dollars in millions)

Property	Type	Location	Cash	Real estate and acquired in-place lease values, net	Accounts receivable and other assets	Accounts payable, accrued expenses, and other liabilities	Mortgage loans	Noncontrolling interests	Acquisition related gain
Three multifamily properties	Multifamily	Ireland	\$3.6	\$248.5	\$0.9	\$5.4	\$114.3	\$66.6	\$37.8
Two office properties	Commercial	Ireland	4.3	223.9	7.6	4.9	75.2	77.9	32.2

			\$17.5	\$667.4	\$14.1	\$18.4	\$290.3	\$206.5	\$80.5

In addition, during the quarter ended March 31, 2014, the Company foreclosed on a 133,000 square foot retail center and an adjacent 2.4 acre vacant lot in Van Nuys, CA. As a result of the foreclosure, the Company was required to consolidate the assets and liabilities of the retail center at fair value under ASC 805 - Business Combinations and recorded the vacant lot at fair market value. As the fair value of the assets was in excess of the basis in the previously held mortgage notes, the Company recognized a \$3.7 million acquisition related gain.

Pro forma results of operations

The results of operations of the assets acquired have been included in our consolidated financial statements since the date of their acquisition. The Company's unaudited pro forma results have been prepared for comparative purposes only and do not purport to be indicative of the results of operations that would have occurred had this acquisition been consummated at the beginning of the periods presented.

The unaudited pro forma data presented below assumes that the acquisitions during the quarter ended March 31, 2014 occurred as of January 1, 2013.

Joint Venture Consolidation

On March 31, 2014, the Company and one of its equity partners amended existing operating agreements governing investments for six investments in Europe which were accounted for using the equity method. Variable Interest Entities

Kennedy Wilson has determined that it has investments in five variable interest entities ("VIEs") as of March 31, 2014 and has concluded that Kennedy Wilson is not the primary beneficiary of any of the investments. As of March 31, 2014, the five VIEs had assets totaling \$184.9 million with Kennedy Wilson's exposure to loss as a result of its interests in these VIEs totaling \$71.1 million related to its equity contributions.

The Company determines the appropriate accounting method with respect to all investments that are not VIEs based on the control-based framework (controlled entities are consolidated) provided by the consolidations guidance in ASC Topic 810. The Company's determination considers specific factors cited under ASC 810-20 "Control of Partnerships and Similar Entities" which presumes that control is held by the general partner (and managing member equivalents in limited liability companies). Limited partners' substantive participation rights may overcome this presumption of control. The Company accounts for joint ventures it is deemed not to control using the equity method of accounting while controlled entities are consolidated.

Capital Commitments

As of March 31, 2014, Kennedy Wilson has unfulfilled capital commitments totaling \$12.5 million to four of its joint ventures. We may be called upon to contribute additional capital to joint ventures in satisfaction of Kennedy Wilson capital commitment obligations.

Guarantees

Kennedy Wilson has certain guarantees associated with loans secured by consolidated assets or assets held directly or in various joint ventures. As of March 31, 2014, the maximum potential amount of future payments (undiscounted) Kennedy Wilson could be required to make under the guarantees was approximately \$62.6 million which is approximately 1% of investment level debt of the Company. The guarantees expire through 2021, and Kennedy Wilson's performance under the guarantees would be required to the extent there is a shortfall upon liquidation between the principal amount of the loan and the net sale proceeds from the property. Based upon Kennedy Wilson's evaluation of guarantees under ASC Subtopic 460-10 "Estimated Fair Value of Guarantees," the estimated fair value of guarantees made as of March 31, 2014 and December 31, 2013 is immaterial.

Investments in loan pool participation

As of March 31, 2014 and December 31, 2013, the Company's investment in loan pool participations totaled \$35.2 million and \$34.7 million, respectively.

Investments in joint ventures

Kennedy Wilson records its investments in KW Property Fund III, L.P., Kennedy Wilson Real Estate Fund IV, L.P., and SG KW Venture I, LLC (the "Funds") based upon the net assets that would be allocated to its interests in the Funds assuming the Funds were to liquidate their investments at fair value as of the reporting date. Kennedy Wilson's investment balance in the Funds was \$34.5 million and \$33.5 million at March 31, 2014 and December 31, 2013, respectively, which is included in unconsolidated investments in the accompanying consolidated balance sheets. As of March 31, 2014, Kennedy Wilson had unfunded capital commitments to the Funds in the amount of \$5.4 million. Kennedy Wilson elected to use the fair value option ("FV Option") for two unconsolidated investment entities to more accurately reflect the timing of the value created in the underlying investments and report those results in current operations. Kennedy Wilson's investment balance in the FV Option investments was \$47.5 million and \$47.6 million at March 31, 2014 and December 31, 2013, respectively, which are included in unconsolidated investments in the accompanying balance sheets.

The following table summarizes our investments in unconsolidated investments held at fair value by type:

(Dollars in millions)	March 31, 2014	December 31, 2013

FV Option	47.5	47.6
Total	\$82.0	\$81.1

The following table presents changes in Level 3 investments for the three months ended March 31, 2014 and 2013:

Beginning balance	\$81.1	\$68.4
Unrealized and realized gains	—	—
Unrealized and realized losses	—	—
Contributions	1.3	0.2
Distributions	(0.4)	(0.2)
Ending balance	\$82.0	\$68.4

The change in unrealized and realized gains and losses is included in income from unconsolidated investments in the accompanying statements of operations.

There was no material change in unrealized gains and losses on Level 3 investments during the three months ended March 31, 2014 and 2013 for investments still held as of March 31, 2014.

In estimating fair value of real estate held by the Funds and the two FV Option investments, Kennedy Wilson considers significant unobservable inputs such as capitalization and discount rates. The table below describes the range of unobservable inputs for real estate assets:

	Estimated Rates Used for	
	Capitalization Rates	Discount Rates
Office	6.00% - 7.50%	7.00% - 9.75%
Retail	6.00% - 10.00%	9.00% - 12.00%
Hotel	6.50%	8.00%
Multifamily	5.75% - 6.75%	7.50% - 9.00%
Loan	n/a	1.75% - 12.00%
Land and condominium units	n/a	8.00% - 12.00%

Table of Contents

Kennedy-Wilson Holdings, Inc.
Notes to Consolidated Financial Statements
(Unaudited)

In valuing real estate, related assets and indebtedness, Kennedy Wilson considers significant inputs such as the term of the debt, value of collateral, market loan-to-value ratios, market interest rates and spreads, and credit quality of investment entities. The credit spreads used by Kennedy Wilson for these types of investments range from 1.75% to 12.00%.

The accuracy of estimating fair value for investments utilizing unobservable inputs cannot be determined with precision and cannot be substantiated by comparison to quoted prices in active markets. As such, estimated fair value may not be realized in a current sale or immediate settlement of the asset or liability. Additionally, there are inherent uncertainties in any fair value measurement technique, and changes in the underlying assumptions used, including cap rates, discount rates, liquidity risks, and estimates of future cash flows, could significantly affect the fair value measurement amounts.

Currency forward contracts

Kennedy Wilson has currency forward contracts to manage its exposure to currency fluctuations between its functional currency (U.S. dollars) and the functional currency (euros and GBP) of certain of its wholly-owned subsidiaries. To accomplish this objective, Kennedy Wilson hedged these exposures by entering into currency forward contracts to partially hedge Kennedy Wilson's exposure to its net investment in certain foreign operations caused by currency fluctuations. The currency forward contracts are valued based on the difference between the contract rate and the forward rate at maturity of the foreign currency applied to the notional value in that foreign currency discounted at a market rate for similar risks. Although Kennedy Wilson has determined that the majority of the inputs used to value its derivative fall within Level 2 of the fair value hierarchy, the counterparty risk adjustments associated with the derivative utilize Level 3 inputs. However, as of March 31, 2014, Kennedy Wilson assessed the significance of the impact of the counterparty valuation adjustments on the overall valuation of its derivative positions and determined that the counterparty valuation adjustments are not significant to the overall valuation of its derivative. As a result, Kennedy Wilson has determined that its derivative valuation in its entirety be classified in Level 2 of the fair value hierarchy.

Changes in fair value are recorded in other comprehensive income in the accompanying consolidated statements of comprehensive income (loss) as the portion of the currency forward contract used to hedge currency exposure of its certain wholly owned subsidiaries qualifies as a net investment hedge under ASC Topic 815. The fair value of the derivative instruments held as of March 31, 2014 are included in accrued expenses and other liabilities on the balance sheet. See note 12 for a complete discussion on other comprehensive income including currency forward contracts and foreign currency translations.

The table below details the currency forward contracts Kennedy Wilson had as of March 31, 2014:

(Dollars in millions)						Change in Unrealized Gains (Losses) Three Months Ended March 31, 2014
Currency	Notional Amount	Trade Date	Settlement Date	Exchange Rate	Fair Value	
Euro	€129.3	5/31/2012 - 3/18/2014	8/12/2014 - 12/19/2016	1.2400 - 1.3925	\$(6.9) \$0.1

Total					\$(11.2) \$(1.6)

In order to manage currency fluctuations between the Company's functional currency (U.S. dollar) and the functional currency of KWR's functional currency (Japanese yen), the Company entered into forward foreign currency contracts to hedge a portion of its net investment in KWR. During the three months ended March 31, 2014, the Company recognized \$0.8 million gross unrealized losses related to these hedges.

Fair value of financial instruments

The carrying amounts of cash and cash equivalents, accounts receivable including related party receivables, accounts payable, accrued expenses and other liabilities, accrued salaries and benefits, and deferred and accrued income taxes approximate fair value due to their short-term maturities. The carrying value of notes receivable (excluding related party notes receivable as they are presumed not to be an arm's length transaction) approximates fair value as the terms are similar to loans with similar characteristics available in the market.

The Company accounts for its debt liabilities at face value plus net unamortized debt premiums and any fair value adjustments as part of business combinations. The fair value as of March 31, 2014 and December 31, 2013 for the senior notes payable, borrowings under lines of credit, investment debt and junior subordinated debentures were estimated to be approximately \$1,662.8 million and \$878.2 million, respectively, based on a comparison of the yield that would be required in a current transaction,

taking into consideration the risk of the underlying collateral and our credit risk to the current yield of a similar security, compared to their carrying value of \$1,628.3 million and \$850.8 million at March 31, 2014 and December 31, 2013, respectively.

Multifamily properties ⁽¹⁾	Western U.S.	\$260.2	\$261.0

The unamortized loan premium as of March 31, 2014 and December 31, 2013 was \$12.9 million and \$5.3 million, respectively.

⁽²⁾ The investment debt had a weighted average interest rate of 4.35% and 4.13% at March 31, 2014 and December 31, 2013.

During the three months ended March 31, 2014, seven mortgage loans secured by three apartment buildings and an office building in Ireland, and a retail center, office building, and loans in the United Kingdom were consolidated. In March 2014, Kennedy Wilson completed a public offering of \$300.0 million aggregate principal amount of 5.875% Senior Notes, due 2024. The 2024 notes were issued and sold at a public offering price of 99.068% of their principal amount by Kennedy-Wilson, Inc. (the “Issuer”), a wholly owned subsidiary of Kennedy Wilson.

The indentures governing the 2019 Notes, 2024 Notes, and 2042 Notes contain various restrictive covenants, including, among others, limitations on our ability and the ability of certain of our subsidiaries to incur or guarantee additional indebtedness, to make restricted payments, pay dividends or make any other distributions from restricted subsidiaries, redeem or repurchase capital stock, sell assets or subsidiary stock, engage in transactions with affiliates, create or permit liens on assets, enter into sale/leaseback transactions, and enter into consolidations or mergers. The indentures limit Kennedy-Wilson, Inc.'s ability and the ability of its restricted subsidiaries to incur additional indebtedness if, on the date of such incurrence and after giving effect to the new indebtedness, the maximum balance sheet leverage ratio (as defined in the indenture) is greater than 1.50 to 1.00. This ratio is measured at the time of incurrence of additional indebtedness. As of March 31, 2014, the balance sheet leverage ratio was 0.78 to 1.00. See Note 18 for the guarantor and non-guarantor financial statements.

NOTE 10—LINE OF CREDIT

In September 2013, Kennedy-Wilson, Inc. amended its existing unsecured revolving credit facility with U.S. Bank and East-West Bank and added Bank of Ireland which increased the total principal amount available to be borrowed by an additional \$40.0 million, for an aggregate availability of \$140.0 million. The loan bears interest at a rate equal to LIBOR plus 2.75% and the maturity date was extended to October 1, 2016. The revolving loan agreement that governs the unsecured credit facility requires Kennedy-Wilson, Inc. to maintain (i) a minimum rent, adjusted fixed charge coverage ratio (as defined in the revolving loan agreement) of not less than 1.50 to 1.00, measured on a four quarter rolling average basis and (ii) maximum balance sheet leverage (as defined in the revolving loan agreement) of not greater than 1.50 to 1.00, measured at the end of each calendar quarter; (iii) an effective tangible net worth (as defined in the revolving loan agreement) equal to or greater than \$250.0 million, measured at the end of each calendar

quarter; and (iv) unrestricted cash, cash equivalents and publicly traded marketable securities in the aggregate amount of at least \$40.0 million.

NOTE 11—JUNIOR SUBORDINATED DEBENTURES

The debentures were issued to a trust established by Kennedy Wilson, which contemporaneously issued \$40.0 million of trust-preferred securities to Merrill Lynch International. The interest rate on the debentures is fixed for the first ten years at 9.06%, and variable thereafter at LIBOR plus 3.70%. Interest is payable quarterly, with the principal due in 2037. Kennedy Wilson may redeem the debentures, in whole or in part, on any interest payment date at par.

The junior subordinated debentures require Kennedy-Wilson, Inc. to maintain (i) a fixed charge coverage ratio (as defined in the indenture governing the junior subordinated debentures) of not less than 1.75 to 1.00, measured on a four-quarter rolling basis; (ii) a ratio of total debt to net worth (as defined in the indenture) of not greater than 3.00 to 1.00 at any time; (iii) a tangible net worth (as defined in the indenture) not less than the sum of (x) \$15.0 million, plus (y) 60% of any net income (but only if a positive number) for each completed fiscal quarter beginning with the fiscal quarter ended March 31, 2007 until such time as our net worth equals or exceeds \$75.0 million and then 50% of any net income for each completed fiscal quarter thereafter, plus (z) 50% of all proceeds of equity interests issued by us or our subsidiaries after the date the debentures were issued; and (iv) a net worth (as defined in the indenture) not less than the sum of (x) \$40.0 million, plus (y) 60% of any net income (but only if a positive number) for each completed fiscal quarter beginning with the fiscal quarter ended March 31, 2007 until such time as our net worth equals or exceeds \$75.0 million and then 50% of any net income for each completed fiscal quarter thereafter, plus (z) 50% of all proceeds of equity interests issued by us or our subsidiaries after the date the debentures were issued. Accumulated Other Comprehensive Income

The following table summarizes the changes in each component of accumulated other comprehensive income (loss), net of 40% estimated tax:

	Foreign Currency Translation	Forward Contract Foreign Currency	Total Accumulated Other Comprehensive Income
(Dollars in millions)			
Balance at December 31, 2013	\$4.3	\$4.9	\$9.2
Unrealized losses, arising during the period	(1.2) (2.4) (3.6
Amounts reclassified out of AOCI during the period	1.2	—	1.2
Taxes on unrealized losses, arising during the period	—	0.9	0.9
Balance at March 31, 2014	\$4.3	\$3.4	\$7.7

The local currencies for our interests in foreign operations include the euro, the British pound sterling, and the Japanese yen. The related amounts on our balance sheets are translated into U.S. dollars at the exchange rates at the respective financial statement date, while amounts on our statements of operations are translated at the average exchange rates during the respective period. The increase in the unrealized losses on foreign currency translation is a result of the weakening of the U.S. dollar against the euro, the British pound and the Japanese yen during the quarter ended March 31, 2014.

In order to manage currency fluctuations, the Company entered into forward foreign currency contracts to hedge a portion of its Japanese yen-based investments. During the three months ended March 31, 2014, the Company recognized a gross unrealized loss of \$0.8 million related to these hedges. Kennedy Wilson also has a currency forward contract to manage its exposure to currency fluctuations between its functional currency (U.S. dollars) and the functional currency (euros and GBP) of certain of its wholly-owned subsidiaries (see note 7 for more detail). During the three months ended March 31, 2014, the Company recognized a gross unrealized gain of \$0.1 million related to its hedges on the euro and a gross unrealized loss of \$1.7 million related to its hedges on the Great Britain pound.

Noncontrolling Interests

Noncontrolling interests consist of the ownership interests of noncontrolling shareholders in consolidated subsidiaries, and are presented separately on the balance sheet. As of March 31, 2014 and December 31, 2013 the Company has noncontrolling interest of \$1.7 billion and \$50.6 million, respectively.

The Company currently owns approximately 12.2% of KWE's total issued share capital as of March 31, 2014. Due to the terms provided in the investment management agreement between KWE and a wholly-owned subsidiary of the Company, the Company consolidates KWE's results in its consolidated financial statements. See Note 1 for additional details. During the quarter ended March 31, 2014, the Company recorded a \$1.4 billion increase to non-controlling interest, net of issuance costs, relating to the equity of the noncontrolling shareholders of KWE. The Company's share of the issuance costs was \$6.5 million.

As further discussed in Note 4, the Company was required to consolidate the assets and liabilities of six operating properties and recorded an increase of \$167.9 million to noncontrolling interest relating to the equity of the noncontrolling shareholders of these properties. See note 4.

NOTE 13—EARNINGS PER SHARE

Under FASB ASC 260-10-45, Earnings Per Share, the Company uses the two-class method to calculate earnings per share. Basic earnings per share is calculated based on dividends declared (“distributed earnings”) and the rights of common shares and participating securities in any undistributed earnings, which represents net income remaining after deduction of dividends declared during the period. Participating securities, which include unvested restricted stock, are included in the computation of earnings per share pursuant to the two-class method. The undistributed earnings are allocated to all outstanding common shares and participating securities based on the relative percentage of each security to the total number of outstanding securities. Basic earnings per common share and participating securities represent the summation of the distributed and undistributed earnings per common share and participating security divided by the total weighted average number of common shares outstanding and the total weighted average number of participating securities outstanding during the respective periods. Kennedy Wilson only presents the earnings per share attributable to the common shareholders.

Net losses, after deducting the dividends to participating securities, are allocated in full to the common shares since the participating security holders do not have an obligation to share in the losses, based on the contractual rights and obligations of the participating securities. Because we incurred losses for the three months ended March 31, 2013, all potentially dilutive instruments are anti-dilutive and have been excluded from our computation of weighted average dilutive shares outstanding for that period. Kennedy Wilson declared quarterly dividends to common stockholders in the three months ended March 31, 2014 and 2013 of \$0.09 and \$0.07 per common share, respectively. The following is a summary of the elements used in calculating basic and diluted income (loss) per share for the three months ended March 31, 2014 and 2013:

⁽¹⁾ For the three and three months ended March 31, 2014 and 2013, a total of 11,100,074 and 20,042,192 potentially dilutive securities have not been included in the diluted weighted average shares as they are anti-dilutive. Potentially

anti-dilutive securities include preferred stock, warrants, and unvested restricted stock grants.

segment disclosure with respect to the determination of segment profit or loss and segment assets is based on these services and investments.

There have been no changes in the basis of segmentation or in the basis of measurement of segment profit or loss since the December 31, 2013 financial statements.

KW INVESTMENTS—Kennedy Wilson invests its capital in real estate assets and loans secured by real estate either on its own or with strategic partners through joint ventures, separate accounts, and commingled funds. We are typically the general partner in these joint ventures with a promoted interest in the profits of our investments beyond our ownership percentage. The Company has an average ownership interest across all investments of approximately 34%. Our equity partners include financial institutions, foundations, endowments, high net worth individuals and other institutional investors.

KW SERVICES—KW Services offers a comprehensive line of real estate services for the full lifecycle of real estate ownership to clients that include financial institutions, institutional investors, insurance companies, developers, builders and government agencies. KW Services has four main lines of business: investment management, property services, research and auction and conventional sales. These four business lines generate revenue for us through fees and commissions. Related party fee revenue primarily consists of fees earned on investments in which Kennedy Wilson also has an ownership interest.

We manage over 68 million square feet of properties for institutional clients and individual investors in the United States, Europe, and Japan, which includes assets we have ownership in and third party assets. With 24 offices throughout the United States, the United Kingdom, Ireland, Spain and Japan, we have the capabilities and resources to provide property services to real estate owners as well as the experience, as a real estate investor, to understand client concerns. The managers of KW Services have an extensive track record in their respective lines of business and the real estate community as a whole. Their knowledge and relationships is an excellent driver of business through the services business as well as on the investment front.

Additionally, KW Services plays a critical role in supporting the company's investment strategy by providing local market intelligence and real-time data for evaluating investments, generating proprietary transaction flow and creating value through efficient implementation of asset management or repositioning strategies.

NOTE 15—INCOME TAXES

In determining quarterly provisions for income taxes, Kennedy Wilson uses an effective tax rate based on actual year-to-date income and statutory tax rates. The effective tax rate also reflects Kennedy Wilson's assessment of its potential exposure for uncertain tax positions.

The fluctuations between periods in the Company's effective tax rate are mainly due to varying levels of income and amounts attributable to foreign sourced income and noncontrolling interests. Permanent differences that impact the Company's effective rate as compared to the U.S. federal statutory rate of 34% were not materially different in amount for all periods. The difference between the U.S. federal rate of 34% and the Company's effective rate is attributable to the taxation of foreign sourced income being taxed at rates lower than the U.S. domestic rate and income attributable to noncontrolling interests. The Company's subsidiaries in Ireland and the United Kingdom are subject to corporate tax rates of 12.5% and 21.0%, respectively.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations contains forward-looking statements within the meaning of the federal securities laws. See the discussion under the heading "Forward-looking Statements" elsewhere in this report. Unless specifically noted otherwise, as used throughout this Management's Discussion and Analysis section, "we," "our," "us," "the Company" or "Kennedy Wilson" refers to Kennedy-Wilson Holdings, Inc. and its subsidiaries.

Overview

Kennedy Wilson is a vertically integrated global real estate investment and services company with over \$17.3 billion in assets under management. Founded in 1977, we have owned and operated real estate related investments for over 35 years on behalf of our shareholders and our clients. We have approximately 400 employees in 24 offices throughout the United States, the United Kingdom, Ireland, Spain and Japan and manage and work with over 2,000 operating associates. We focus on adding value for our shareholders through opportunistic investing and strategic asset management. Also, our services business creates additional value through fee generation.

The following is our business model:

Identify countries and markets with an attractive investment landscape

- Establish operating platforms and service businesses in our target markets

Develop local intelligence and create long-lasting relationships; primarily with financial institutions

Leverage relationships and local knowledge to drive proprietary investment opportunities with a focus on off-market transactions

Acquire high quality assets, either on our own or with strategic partners, utilizing cash from our balance sheet and typically financing them on a long-term basis

Reposition assets and enhance cash flows post-acquisition

Continuously evaluate and selectively harvest asset and entity value through strategic realizations utilizing both the public and private markets

Utilize our services businesses to meet client needs, strengthen relationships with financial institutions, and position the Company as a valuable resource and partner to these institutions for any future real estate opportunities

Our strategy has resulted in a strong track record of creating both asset and entity value for the benefit of our shareholders and partners over various real estate cycles.

On February 28, 2014, Kennedy Wilson Europe Real Estate Plc ("KWE," LSE: KWE), a Jersey investment company, closed its initial public offering, raising approximately \$1.7 billion in gross proceeds. KWE, whose ordinary shares are listed on the London Stock Exchange's main market, acquires real estate and real estate-related assets in Europe. In connection with KWE's initial public offering, the Company invested \$145.2 million of cash and \$58.3 million of assets. As of March 31, 2014, the Company owns approximately 12.2% of KWE's total issued share capital, making Kennedy Wilson the largest shareholder of KWE. KWE is externally managed by one of our wholly-owned subsidiaries ("KWE Manager") pursuant to an investment management agreement in which capacity Kennedy Wilson will be entitled to receive certain management and performance fees. KWE Manager is paid an annual management fee (payable quarterly in arrears) equal to 1% of KWE's adjusted net asset value once 75% of the proceeds from KWE's initial public offering have been invested or committed for investment. Before such amount of the proceeds have been invested, KWE Manager will receive 1% of the invested and committed portion of the cash proceeds. The management fee payable to KWE Manager will be paid half in cash and half in shares of KWE. A wholly-owned subsidiary of the Company is also entitled to receive an annual performance fee equal to 20% of the lesser of the excess of the shareholder return for the relevant year (change in KWE's adjusted net asset value per ordinary share) over a 10% annual return hurdle, and the excess of year-end adjusted net asset value per ordinary share over a "high water mark". The performance fee is payable in shares of KWE and vest equally over a three-year period.

Due to the terms provided in the investment management agreement, pursuant to the guidance set forth in FASB Accounting Standards Codification Subtopic 810 - Consolidation ("Subtopic 810"), the Company is required to consolidate KWE's results in its consolidated financial statements. As of March 31, 2014, KWE owned two portfolios of real estate assets: (i) a portfolio of 14 real estate assets comprised of commercial, retail and industrial properties

located across the United Kingdom; and (ii) a high quality mixed use portfolio of 26 properties located in England and Scotland. Pursuant to the investment management agreement, subject to certain exceptions, KWE will be provided priority access to all real estate or real estate loan opportunities sourced by the Company in Europe that are within the parameters of KWE's investment policy.

Our operations are defined by two core business segments, KW investments and KW services, which work closely together to identify attractive investment markets and opportunities across the world:

Non-GAAP Measures

Consolidated EBITDA and Adjusted EBTIDA

Consolidated EBITDA⁽¹⁾ - Consolidated EBITDA represents net income before noncontrolling interest income, interest expense, our share of interest expense included in income from investments in unconsolidated investments, depreciation and

Table of Contents

amortization, our share of depreciation and amortization included in income from unconsolidated investments, loss on early extinguishment of corporate debt and income taxes. We do not adjust Consolidated EBITDA for gains or losses on the extinguishment of investment debt as we are in the business of purchasing discounted notes secured by real estate and, in connection with these note purchases, we may resolve these loans through discounted payoffs with the borrowers. Our management believes Consolidated EBITDA is useful in evaluating our operating performance compared to that of other companies in our industry because the calculation of Consolidated EBITDA generally eliminates the effects of financing and income taxes and the accounting effects of capital spending and acquisitions. Adjusted EBITDA⁽¹⁾ - represents Consolidated EBITDA, as defined above, adjusted to exclude acquisition and merger related expenses, stock based compensation expense and EBITDA attributable to noncontrolling interests. Our management uses Adjusted EBITDA to analyze our business because it adjusts Consolidated EBITDA for items we believe do not have an accurate reflection of the nature of our business going forward. Additionally, we believe Adjusted EBITDA is useful to investors to assist them in getting a more accurate picture of our results from operations. Such items may vary for different companies for reasons unrelated to overall operating performance.

(1) - Consolidated EBITDA, as defined above, is not a recognized term under GAAP and does not purport to be an alternative to net earnings as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. Additionally, Consolidated EBITDA is not intended to be a measure of free cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. Our presentation of Consolidated EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Consolidated EBITDA is not calculated under GAAP and should not be considered in isolation or as a substitute for net income, cash flows or other financial data prepared in accordance with GAAP or as a measure of our overall profitability or liquidity. Such items may vary for different companies for reasons unrelated to overall operating performance.

Adjusted EBITDA represents Consolidated EBITDA, as defined above, adjusted to exclude corporate merger and acquisition related expenses, share based compensation expense and EBITDA attributable to noncontrolling interests for the Company. Such items may vary for different companies for reasons unrelated to overall operating performance. However, Consolidated EBITDA and Adjusted EBITDA are not recognized measurements under GAAP and when analyzing our operating performance, readers should use Consolidated EBITDA and Adjusted EBITDA in addition to, and not as an alternative for, net income as determined in accordance with GAAP. Because not all companies use identical calculations, our presentation of Consolidated EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies. Furthermore, Consolidated EBITDA and Adjusted EBITDA are not intended to be a measure of free cash flow for our management's discretionary use, as it does not consider certain cash requirements such as tax and debt service payments. The amounts shown for Consolidated EBITDA and Adjusted EBITDA also differ from the amounts calculated under similarly titled definitions in our debt instruments, which are further adjusted to reflect certain other cash and non-cash charges and are used to determine compliance with financial covenants and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments.

As a result of gaining control of these investments, the Company was required to consolidate the assets and liabilities at fair value and recognized an acquisition-related gain of \$80.5 million of which \$40.3 million was allocated to noncontrolling equity partners.

Shareholder equity increased \$184.3 million or 24% to \$952.6 million at March 31, 2014 from \$768.3 million at December 31, 2013.

- investment management, including acquisition, asset management and disposition services;
- property services, including management of commercial real estate for third-party clients, fund investors, and investments held by the Company;

Third Party Services - These are fees earned from third parties and relate to assets in which we do not have an ownership interest.

Our third party fees increased to \$5.9 million during the three months ended March 31, 2014 as compared to approximately \$5.3 million for the same period in 2013. The \$0.6 million increase or 11% increase primarily relates to the positive performance in our real estate consultancy division which specializes in real estate research and capital sourcing for the single-family homebuilding and multifamily apartment industries.

Related Party Services

Our related party fees generated revenues of \$7.3 million during the three months ended March 31, 2014 as compared to \$8.3 million for the same period in 2013. The decrease in related party revenue primarily relates to acquisition fees earned in 2013 that we did not earn in 2014. Additionally, asset management fees from KWE in the first quarter of 2014 were negligible and there were no performance fees as KWE was formed in February 2014.

Operating Expenses

Investments Segment Operating Expenses

Operating expenses for the three months ended March 31, 2014 increased to \$43.4 million compared to \$15.4 million for the same period in 2013. The increase is primarily attributable to the following:

Rental operating expenses increased by \$11.0 million, and depreciation and amortization increased by \$4.2 million due to the acquisitions and consolidations in the later half of 2013 and in the first quarter of 2014.

During the three months ended March 31, 2014, we sold five condominium units and a parcel of land resulting in \$9.7 million of sale-related costs compared to 15 condominium units which sold during the same period in 2013, resulting in \$1.9 million of sale-related costs.

Compensation and related expenses increased by \$3.4 million primarily due to an increase in personnel as a result of our growth of in the United Kingdom and Ireland and the launch of KWE. This increase included accrued discretionary compensation. General and administrative expenses increased by \$1.3 million primarily due to our growing operations in the United Kingdom and Ireland as well as the launch of KWE.

Services Segment Operating Expenses

Corporate Operating Expenses

Table of Contents

Operating expenses for the three months ended March 31, 2014 were approximately \$6.2 million as compared to \$3.7 million for the same period in 2013. Compensation and related expenses increased by \$2.4 million primarily due to an increase in personnel as a result of our growth of in the United Kingdom and Ireland and the launch of KWE. This increase included accrued discretionary compensation.

Income from Unconsolidated Investments

Investments Segment Income from Unconsolidated Investments

During the three months ended March 31, 2014, income from unconsolidated investments was \$1.8 million as compared to \$2.2 million for the same period in 2013. The decrease is related to a reduction in income from loan pool participations of \$0.4 million during the first quarter of 2014 as compared to the same period for 2013. During the three months ended March 31, 2014, we accreted \$1.0 million of interest income on our UK Loan Pool as compared to \$2.0 million for the same period in 2013. The unpaid principal balance on the UK Loan Pool decreased from \$417.4 million as of March 31, 2013 to \$31.8 million as of March 31, 2014 resulting in the decrease in the interest income. Offsetting this decline was additional interest income accreted from two additional loan pools acquired after the quarter ended March 31, 2013, which together provided \$0.6 million of accretion income during the three months ended March 31, 2014.

During the three months ended March 31, 2014 and 2013, we recorded \$0.3 million of equity in joint venture loss in each period. Our share of depreciation generated at the joint venture level was \$14.8 million and \$9.3 million for the quarter ended March 31, 2014 and 2013. We look at equity in joint venture income plus our share of the joint ventures depreciation to get a better sense of earnings before depreciation and amortization. The amounts were \$14.5 million and \$9.0 million for the quarter ended March 31, 2014 and 2013 representing a 61% increase.

Services Segment Income from Unconsolidated Investments

During the three months ended March 31, 2014, income from unconsolidated investments was \$1.0 million with no comparable activity in 2013. During the fourth quarter of 2013, the Company along with an equity partner acquired an interest in a loan servicing platform in Spain with approximately €23.0 billion of assets under management. The income recognized during the first quarter of 2014 relates to this acquisition.

Non-operating Items

Acquisition-related gains were \$84.2 million for the three months ended March 31, 2014 compared to \$9.5 million during the same period in 2013. On March 31, 2014, the Company and one of its equity partners amended existing operating agreements governing six separate joint ventures that hold real estate-related investments located in the U.K. and Ireland. The Company has an approximate 50% ownership interest in these investments. These joint ventures were previously accounted for by the Company on an equity method basis. The amendments to the operating agreements provided control to the Company of these investments, as control is defined by FASB Accounting Standards Codification Subtopic 810 - Consolidation. As a result of gaining control, the Company was required to consolidate the assets and liabilities of these properties at fair value in accordance with FASB Accounting Standards Codification 80 - Business Combinations. As the fair value of our interests in these properties were in excess of the carrying value, we recorded acquisition-related gains of \$80.5 million in the accompanying consolidated statement of operations for the quarter ended March 31, 2014. See Note 6 - Fair Value Measurements for further detail of the methodology used to determine the fair value of the assets and liabilities acquired in these transactions.

In addition, during the quarter ended March 31, 2014, we foreclosed on a 133,000 square foot retail center and an adjacent 2.4 acre vacant lot in Van Nuys, CA. As a result of the foreclosure, the Company was required to consolidate the assets and liabilities at fair value. As the fair value of the assets was in excess of the basis in the previously held mortgage notes, we recognized a \$3.7 million acquisition related gain.

Interest expense associated with corporate debt was \$10.5 million for the three months ended March 31, 2014 as compared to \$9.7 million for the same period in 2013. The increase in corporate interest expense is attributable to the issuance of \$300.0 million aggregate principal of the 2024 Notes which occurred in March 2014 and interest expense paid on the revolving line of credit.

Interest expense associated with investment debt was \$5.3 million for the three months ended March 31, 2014 as compared to \$1.7 million for the same period in 2013. The increase is due to the acquisitions and consolidations in the later half of 2013 and during 2014.

Provision for income taxes was \$8.8 million during the three months ended March 31, 2014 as compared to a \$1.7 million benefit from income taxes for the same period in 2013. During the three months ended March 31, 2014, we had domestic gains of \$62.8 million which incurs a tax expense at the federal tax rate of approximately 34% offset by foreign losses of \$4.1 million by our subsidiaries in the United Kingdom and Ireland which are subject to corporate tax rates of 21.0% and 12.5%, respectively, resulting in a net expense from income taxes. The provision for income taxes does not include non-controlling interest.

Table of Contents

We had net income of \$37.4 million attributable to noncontrolling interest during the three months ended March 31, 2014 compared to a net loss attributable to noncontrolling interest of \$1.0 million during the three months ended March 31, 2013. The increase is mainly due to the acquisition-related gain described above being allocated to noncontrolling interest holders.

Liquidity and Capital Resources

Our liquidity and capital resources requirements include acquisitions of real estate and real estate related assets, capital expenditures for consolidated real estate and unconsolidated investments and working capital needs. We finance these operations with internally generated funds, borrowings under our revolving line of credit and sales of equity and debt securities. Our investments in real estate are typically financed with equity from our balance sheet and mortgage loans secured primarily by that real estate. These mortgage loans are generally nonrecourse in that, in the event of default, recourse will be limited to the mortgaged property serving as collateral, subject to limited customary exceptions. In some cases, we guarantee a portion of the loan related to a consolidated property or an unconsolidated investment, usually until some condition, such as completion of construction or leasing or certain net operating income criteria, has been met. We do not expect these guarantees to materially affect liquidity or capital resources. Please refer to the "Off Balance Sheet Arrangements" section for further information. Historically, we have not required significant capital resources to support our brokerage and property management operations.

We believe that our existing cash and cash equivalents plus capital generated from investment management, property services, and research fees, sales of real estate owned, collections from loans and loan pools, as well as our current revolving line of credit, will provide us with sufficient capital requirements to maintain our current portfolio for at least the next twelve months.

To the extent that we engage in additional strategic investments, including real estate, note portfolios, or acquisitions of other real estate related companies, we may need to obtain third party financing which could include bank financing or the public sale or private placement of debt or equity securities. At March 31, 2014, we have approximately \$1.3 billion of cash held by one of our consolidated subsidiaries, KWE, of which the majority of it will be used to engage in strategic investments.

Under our current investment strategy, we generally contribute property expertise and a fully funded initial cash contribution, with commitments to provide additional funding. Capital required for additional improvements and supporting operations during leasing and stabilization periods is generally obtained at the time of acquisition via debt financing or third party investors. Accordingly, we generally do not have significant capital commitments with unconsolidated entities. However, there may be certain circumstances when we, usually with the other members of the unconsolidated investment entity, may be required to contribute additional capital for a period of time.

Our need to raise funds from time to time to meet our capital requirements will depend on many factors, including the success and pace of the implementation of our strategy for strategic and accretive growth. We regularly monitor capital-raising alternatives to be able to take advantage of other available avenues to support our working capital and investment needs, including strategic partnerships and other alliances, bank borrowings, and the sale of equity or debt securities. Additionally, we expect to meet the repayment obligations of our corporate borrowings from cash generated by our business or the public sale or private placement of debt or equity securities.

During the quarter ended March 31, 2014, the Company generated a book loss of \$4.1 million related to operations in the United Kingdom and Ireland. A foreign tax benefit of \$0.3 million attributable to Kennedy-Wilson Holdings, Inc is included in the consolidated tax provision for income taxes related to the portion of income earned directly by subsidiaries in the United Kingdom and Ireland for the quarter ended March 31, 2014. U.S. domestic taxes have not been provided for in the consolidated tax provision on amounts earned directly by these subsidiaries since it is the Company's plan to indefinitely invest amounts earned by these subsidiaries in the United Kingdom and Ireland operations. If these subsidiaries' cumulative earnings were repatriated to the United States additional U.S. domestic taxes of \$3.1 million attributable to Kennedy-Wilson Holdings, Inc would be incurred. Additionally, approximately \$1.3 billion of our consolidated cash and cash equivalents is held by our subsidiaries in the United Kingdom and Ireland.

Currency Derivative Instruments

Fluctuations in currency exchange rates may affect our financial position and results of operations. We enter into currency forward contracts to manage our exposure to currency fluctuations between our functional currency (the U.S. dollar) and the functional currency (Euros, British Pound Sterling, and Japanese Yen) of certain of our wholly owned subsidiaries and joint venture investments.

For the quarter ended March 31, 2014 and 2013, we recorded a loss, net of taxes, of \$1.5 million and a gain of \$3.6 million, respectively, in other comprehensive income as the portion of the currency forward contract used to hedge the currency exposure of certain of our wholly owned subsidiaries qualifies as a net investment hedge under ASC Topic 815.

Cash Flows

Operating

Our cash flows from operating activities are primarily dependent upon the operating distributions from our unconsolidated investments, revenues from our services business net of operating expenses and other general and administrative costs. Net cash used in operating activities totaled \$36.9 million for the three months ended March 31, 2014. This was primarily related to the payment of interest expense to fund our investment business, accrued expenses and other liabilities, accrued salaries and benefits and prepayment of expenses. These decreases were offset by operating distributions from our unconsolidated investments of \$10.4 million. Net cash used in operating activities totaled \$27.6 million for the three months ended March 31, 2013. This was primarily related to operating distributions from our unconsolidated investments of \$8.4 million offset by payments of accrued expenses and other liabilities and accrued salaries and benefits.

Investing

Our cash flows from investing activities are generally comprised of cash used to fund investments in unconsolidated investments, property acquisitions, capital expenditures, and loans secured by real estate, as well as return of capital investments from dispositions or refinances on our hard assets and resolutions in our loan participations and loan pools. Net cash used in investing activities totaled \$576.7 million for the three months ended March 31, 2014. This was primarily due to \$67.1 million of equity invested in unconsolidated investments of which \$57.2 million related to the acquisition of a portfolio of 14 assets comprised of commercial, retail and industrial assets which was subsequently contributed into KWE as part of its initial public offering. We invested \$367.7 million for the purchase and addition to real estate which mainly included 26 commercial properties located in the United Kingdom and 272 residential units and 31,000 commercial spaces in Dublin. In addition, we invested \$158.6 million to fund our equity in loans mainly for the acquisition of notes secured by the Shelbourne Hotel in Dublin, Ireland. The cash used in the aforementioned investing activities was offset by receipt of \$11.0 million in distributions from our unconsolidated investments primarily due to refinancing of property level debt and the sale of underlying properties.

Net cash used in investing activities totaled \$17.0 million for the three months ended March 31, 2013. This was primarily due to \$45.9 million of equity invested in unconsolidated investments of which \$20.2 million was invested in the acquisition of a portfolio of 29 income-producing commercial properties located in the United Kingdom, \$15.8 million was contributed to an unconsolidated investment for the acquisition of three loans collateralized by four properties that closed in April 2013. In addition, we invested \$14.4 million to fund our equity in new and existing loans. The cash used in the aforementioned investing activities was offset by receipt of \$15.0 million in distributions from our unconsolidated investments primarily due to the settlement of several Japanese yen-related hedges resulting in a distribution of \$11.1 million to us. In addition, we received \$13.8 million in distributions from our loan pools primarily due to loan resolutions.

Financing

Our net cash related to financing activities is generally impacted by capital-raising activities net of dividends and distributions paid to common and preferred shareholders and noncontrolling interests as well as financing activities for consolidated real estate investments. Net cash provided by financing activities totaled \$2.0 billion for the three months ended March 31, 2014. This was primarily due to proceeds, net of issuance costs, of \$1.4 billion from non controlling interest holders for the initial public offering of Kennedy Wilson Europe, net proceeds of \$190.8 million received from the issuance of 9.2 million shares of common stock primarily to institutional investors, the issuance of \$300.0 million of senior notes which generated \$297.2 million in proceeds, and \$195.8 million of proceeds from mortgage loans to finance and refinance consolidated property acquisitions offset by \$9.6 million of debt issuance costs. These were offset by repayment of \$5.5 million of investment debt and payments of cash dividends of \$7.8 million to our common and preferred shareholders.

Net cash provided by financing activities totaled \$126.2 million for the three months ended March 31, 2013. This was primarily due to net proceeds of \$133.8 million received from the issuance of 9.0 million shares of common stock primarily to institutional investors, offset by payments of cash dividends of \$7.1 million to our common and preferred shareholders.

Junior Subordinated Debentures

In 2007, Kennedy Wilson issued junior subordinated debentures in the amount of \$40.0 million. The debentures were issued to a trust established by Kennedy Wilson, which contemporaneously issued \$40.0 million of trust preferred securities to Merrill Lynch International. The interest rate on the debentures is fixed for the first ten years at 9.06% and variable thereafter at LIBOR plus 3.70%. Interest is payable quarterly, with the principal due in 2037. Kennedy Wilson may redeem the debentures, in whole or in part, on any interest payment date at par.

Borrowings Under Line of Credit

In September 2013, Kennedy-Wilson, Inc., a wholly owned subsidiary of Kennedy Wilson, amended its existing unsecured revolving credit facility with U.S. Bank and East-West Bank which increased the total principal amount available to be borrowed by an additional \$40.0 million, for an aggregate availability of \$140.0 million. The loan bears interest at a rate equal to LIBOR plus 2.75% and the maturity date was extended to October 1, 2016. As of March 31, 2014, the unsecured credit facility was undrawn and \$140.0 million was still available.

Debt Covenants

The junior subordinated debentures, the unsecured credit facility with U.S. Bank and East West Bank, and the indentures governing the 2019 Notes, 2024 Notes, and 2042 Notes contain numerous restrictive covenants that, among other things, limit Kennedy Wilson's and certain of its subsidiaries' ability to incur additional indebtedness, pay dividends or make distributions to stockholders, repurchase capital stock or debt, make investments, sell assets or subsidiary stock, create or permit liens on assets, engage in transactions with affiliates, enter into sale/leaseback transactions, issue subsidiary equity and enter into consolidations or mergers. The unsecured credit facility and junior subordinated debentures also require Kennedy Wilson to maintain a minimum tangible net worth and a specified amount of cash and cash equivalents.

The junior subordinated debentures require Kennedy-Wilson, Inc. to maintain (i) a fixed charge coverage ratio (as defined in the indenture governing the junior subordinated debentures) of not less than 1.75 to 1.00, measured on a four-quarter rolling basis; (ii) a ratio of total debt to net worth (as defined in the indenture) of not greater than 3.00 to 1.00 at any time; (iii) a tangible net worth (as defined in the indenture) not less than the sum of (x) \$15.0 million, plus (y) 60% of any net income (but only if a positive number) for each completed fiscal quarter beginning with the fiscal quarter ended March 31, 2007 until such time as our net worth equals or exceeds \$75.0 million and then 50% of any net income for each completed fiscal quarter thereafter, plus (z) 50% of all proceeds of equity interests issued by us or our subsidiaries after the date the debentures were issued; and (iv) a net worth (as defined in the indenture) not less than the sum of (x) \$40.0 million, plus (y) 60% of any net income (but only if a positive number) for each completed fiscal quarter beginning with the fiscal quarter ended March 31, 2007 until such time as our net worth equals or exceeds \$75.0 million and then 50% of any net income for each completed fiscal quarter thereafter, plus (z) 50% of all proceeds of equity interests issued by us or our subsidiaries after the date the debentures were issued. As of March 31, 2014, Kennedy Wilson's fixed charge coverage ratio was 3.64 to 1.00, its ratio of total debt to net worth was 1.71 to

1.00 and its tangible net worth and net worth were \$901.9 million and \$952.5 million, respectively, and Kennedy Wilson was in compliance with these covenants.

The revolving loan agreement that governs the unsecured credit facility requires Kennedy Wilson to maintain (i) a minimum rent adjusted fixed charge coverage ratio (as defined in the revolving loan agreement) of not less than 1.50 to 1.00, measured on a four-quarter rolling average basis; (ii) maximum balance sheet leverage (as defined in the revolving loan agreement) of not greater than 1.50 to 1.00, measured at the end of each calendar quarter; (iii) an effective tangible net worth (as defined in the revolving loan agreement) equal to or greater than \$250.0 million, measured at the end of each calendar quarter; and (iv) unrestricted cash, cash equivalents and publicly traded marketable securities in the aggregate amount of at least \$40.0 million.

Table of Contents

As of March 31, 2014, Kennedy Wilson's rent adjusted fixed charge coverage ratio was 3.01 to 1.00, its balance sheet leverage ratio was 0.82 to 1.00, and its effective tangible net worth and its unrestricted cash, cash equivalents and publicly traded marketable securities were \$905.7 million and \$1.6 billion, respectively, and Kennedy-Wilson, Inc. was in compliance with these covenants.

The indentures governing the 2019 Notes, 2024 Notes, and 2042 Notes limit Kennedy-Wilson, Inc.'s ability to incur additional indebtedness if, on the date of such incurrence and after giving effect to the new indebtedness, Kennedy-Wilson, Inc.'s maximum balance sheet leverage ratio (as defined in the indenture) is greater than 1.50 to 1.00. This ratio is measured at the time of incurrence of additional indebtedness. As of March 31, 2014, the balance sheet leverage ratio was 0.78 to 1.00.

Off-Balance Sheet Arrangements

We have provided guarantees associated with loans secured by consolidated assets or assets held in various unconsolidated investments. At March 31, 2014, the maximum potential amount of future payments (undiscounted) we could be required to make under the guarantees was approximately \$62.6 million. The guarantees expire through 2021, and our performance under the guarantees would be required to the extent there is a shortfall upon liquidation between the principal amount of the loan and the net sale proceeds of the applicable properties. If we were to become obligated to perform on these guarantees, it could have an adverse effect on our financial condition.

As of March 31, 2014, we have unfulfilled capital commitments totaling \$12.5 million to our unconsolidated investments. As we identify investment opportunities in the future, we may be called upon to contribute additional capital to unconsolidated investments in satisfaction of our capital commitment obligations.

Please refer to our Annual Report on Form 10-K for the year ended December 31, 2013 for discussion of our non-recourse carve-out guarantees arrangements, as there have been no material changes to that disclosure.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The primary market risk exposure of our Company relates to changes in interest rates in connection with our short-term borrowings, some of which bear interest at variable rates based on the lender's base rate, prime rate, EURIBOR, GBP LIBOR, or LIBOR plus an applicable borrowing margin. These borrowings do not give rise to a significant interest rate risk because they have short maturities. However, the amount of income or loss we recognize for unconsolidated joint ventures or consolidated interest expense from property level debt may be impacted by changes in interest rates. Historically, the impact from the changes in rates has not been significant. Our exposure to market risk also consists of foreign currency exchange rate fluctuations related to our international operations.

Interest Rate Risk

We have established an interest rate management policy, which attempts to minimize our overall cost of debt while taking into consideration the earnings implications associated with the volatility of short-term interest rates. As part of this policy, we have elected to maintain a combination of variable and fixed rate debt. As of March 31, 2014, 67% of our property level debt is fixed rate, 21% is floating rate with interest caps and 12% is floating rate without interest caps.

The table below represents contractual balances of our financial instruments at the expected maturity dates as well as the fair value as of March 31, 2014. The expected maturity categories take into consideration actual amortization of principal and do not take into consideration reinvestment of cash. The weighted average interest rate for the various assets and liabilities presented are actual as of March 31, 2014. We closely monitor the fluctuation in interest rates, and if rates were to increase significantly, we believe that we would be able to either hedge the change in the interest rate or refinance the loans with fixed interest rate debt. All instruments included in this analysis are non-trading.

Currency Risk

We have established a foreign currency exposure policy, which attempts to minimize our overall exposure to foreign currency fluctuations. We enter into currency forward contracts to manage our exposure to currency fluctuations between our functional currency (the U.S. dollar) and the functional currency (Euros, British Pound Sterling, and Japanese Yen) of certain of our wholly owned subsidiaries and joint venture investments.

We may be involved in various legal proceedings arising in the ordinary course of business, none of which are currently material to our business and our financial statements taken as a whole. From time to time, our real estate management division is named in “slip and fall” type litigation relating to buildings we manage. Our standard management agreement contains an indemnity provision whereby the building owner indemnifies and agrees to defend our real estate management division against such claims. In such cases, we are defended by the building owner’s liability insurer.
