Item 1.01 Entry Into a Material Definitive Agreement

On October 30, 2012, Dais Analytic Corporation (the “Company”) and MG Energy LLC, a Delaware limited liability company (“MG Energy”), entered into the License and Supply Agreement (the “Agreement”), effective October 26, 2012, pursuant to which the Company licensed certain intellectual property and improvements thereto to MG Energy, for use in the manufacture and sale of energy recovery ventilators (“ERV”) and certain other HVAC systems for installation in commercial, residential or industrial buildings in North America and South America. MG Energy also agreed to purchase its requirements of the Company’s moisture transfer material from the Company for MG Energy’s use, pursuant to the terms and conditions of the Agreement. Energy recovery ventilators are mechanical equipment, of which an energy recovery ventilator air to air exchanger core is a component, that assists in the recovery of energy from the exhaust air expelled by an HVAC system for the purpose of pre-conditioning the incoming outdoor air’s components prior to supplying the conditioned air to a residential or commercial building, either directly or as part of an air-conditioning system.

Under the Agreement, MG Energy has agreed to retire the US \$2,000,000 Secured Promissory Note, dated July 13, 2012, including all interest accrued thereon, issued by the Company to Michael Gostomski (the “Investor”), who assigned the Secured Promissory Note. This retirement is nonrefundable and noncreditable. MG Energy has also agreed to pay a royalty on the net sales price on products sold using the Company’s intellectual property.

The foregoing description of the Agreement is qualified in its entirety by reference to the Agreement. A redacted copy of the Agreement is attached as Exhibit 10.1 to this Current Report on Form 8-K.

The Company is also submitting, with the filing of this Form 8-K, a FOIA Confidential Treatment Request to the Securities and Exchange Commission pursuant to Rule 24b-2 under the Securities Exchange Act of 1934, as amended, requesting that it be permitted to redact certain portions of the Agreement. The omitted material will be included in the request for confidential treatment.

Item 1.02 Termination of a Material Definitive Agreement.

On July 13, 2012, the Company issued a Secured Convertible Promissory Note and Patent Security Agreement (collectively, the “Financing Agreements”) to the investor. Pursuant to the terms and subject to the conditions set forth in the Financing Agreements, the Investor provided a loan in the amount of \$2,000,000 (“Loan”) to the Company, which was secured by all current and future patents, patent applications and similar protections of the Company and all rents, royalties, license fees and “accounts” with respect to such intellectual property assets (“Collateral”). Pursuant to the Loan, interest in the amount of 6% per annum, calculated on a 365 day year, and the principal amount of \$2,000,000 and accrued interest was to be paid on or before October 15, 2012, which was subsequently extended to October 26, 2012. Each of the Financing Agreements has been terminated upon the execution of the Agreement.
