**UMH PROPERTIES, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**JUNE 30, 2018 (UNAUDITED)**

**NOTE 1 – ORGANIZATION AND ACCOUNTING POLICIES**

UMH Properties, Inc., a Maryland corporation, together with its subsidiaries (“we”, “our”, “us” or “the Company”) operates as a real estate investment trust (“REIT”) deriving its income primarily from real estate rental operations. The Company owns and operates 114 manufactured home communities containing approximately 20,600 developed home sites as of June 30, 2018. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana, Michigan and Maryland. The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (“S&F”), conducts manufactured home sales to residents and prospective residents in its communities. Inherent in the operations of manufactured home communities are site vacancies. S&F was established to fill these vacancies and enhance the value of the communities. The Company also owns a portfolio of REIT securities which the Company generally limits to no more than approximately 20% of its undepreciated assets. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the “Code”), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six months ended June 30, 2018 are not necessarily indicative of the results that may be expected for the year ending December 31, 2018. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company’s annual report on Form 10-K for the year ended December 31, 2017.

*Use of Estimates*

In preparing the consolidated financial statements in accordance with U.S. GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated balance sheets and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ significantly from these estimates and assumptions.

Reclassifications

Certain amounts in the financial statements for the prior periods have been reclassified to conform to the statement presentation for the current periods.

Derivative Instruments and Hedging Activities

In the normal course of business, the Company is exposed to financial market risks, including interest rate risk on its variable rate debt. The Company attempts to limit these risks by following established risk management policies, procedures and strategies, including the use of derivative financial instruments. The Company's primary strategy in entering into derivative contracts is to minimize the variability that changes in interest rates could have on its future cash flows. The Company generally employs derivative instruments that effectively convert a portion of its variable rate debt to fixed rate debt. The Company does not enter into derivative instruments for speculative purposes. The Company entered into various interest rate swap agreements that have had the effect of fixing interest rates relative to specific mortgage loans. As of June 30, 2018, these agreements have expired and the Company does not have any interest rate swap agreements in effect.

Recently Adopted Accounting Pronouncements

In May 2017, the FASB issued ASU No. 2017-09, "Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting." ASU 2017-09 clarifies which changes to the terms or conditions of a share based payment award are subject to the guidance on modification accounting under FASB Accounting Standards Codification Topic 718. Entities would apply the modification accounting guidance unless the value, vesting requirements and classification of a share based payment award are the same immediately before and after a change to the terms or conditions of the award. ASU No. 2017-09 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company adopted this standard effective January 1, 2018, and it did not have a material impact on our financial position, results of operations or cash flows.

In February 2017, the FASB issued ASU No. 2017-05, "Other Income-Gains and Losses from the Derecognition of Nonfinancial Assets." ASU 2017-05 provides guidance for recognizing gains and losses from the transfer of nonfinancial assets and in-substance non-financial assets in contracts with non-customers, unless other specific guidance applies. The standard requires a company to derecognize nonfinancial assets once it transfers control of a distinct nonfinancial asset or distinct in substance nonfinancial asset. Additionally, when a company transfers its controlling interest in a nonfinancial asset, but retains a noncontrolling ownership interest, the company is required to measure any non-controlling interest it receives or retains at fair value. The guidance requires companies to recognize a full gain or loss on the transaction. As a result of the new guidance, the guidance specific to real estate sales in ASC

360-20 will be eliminated. As such, sales and partial sales of real estate assets will now be subject to the same derecognition model as all other nonfinancial assets. The guidance is effective for annual periods beginning after December 15, 2017, including interim periods within that reporting period. The Company adopted this standard effective January 1, 2018, and it did not have a material impact on our financial position, results of operations or cash flows.

In November 2016, the FASB issued ASU 2016-18 “Statement of Cash Flows (Topic 230): Restricted Cash.” ASU 2016-18 requires inclusion of restricted cash and restricted cash equivalents with cash and cash equivalents when reconciling the beginning of period and end of period total amounts shown on the statement of cash flows. The guidance is effective for annual periods beginning after December 15, 2017, including interim periods within that reporting period. The Company adopted this standard effective January 1, 2018. The Company’s restricted cash consists of amounts primarily held in deposit for tax, insurance and repair escrows held by lenders in accordance with certain debt agreements. Restricted cash is included in Prepaid Expenses and Other Assets on the Consolidated Balance Sheets. Changes in restricted cash are reported on the Consolidated Statements of Cash Flows as operating, investing or financing activities based on the nature of the underlying activity.

The following table reconciles beginning of period and end of period balances of cash, cash equivalents and restricted cash for the periods shown:

	6/30/18	12/31/17	6/30/17	12/31/16
Cash and Cash Equivalents	\$ 15,227,599	\$ 23,242,090	\$ 8,166,402	\$ 4,216,592
Restricted Cash	4,738,726	4,649,159	5,125,433	5,132,897
Cash, Cash Equivalents And Restricted Cash	\$ 19,966,325	\$ 27,891,249	\$ 13,291,835	\$ 9,349,489

In August 2016, the FASB issued ASU No. 2016-15, “Statement of Cash Flows (Topic 230), Classification of Certain Cash Receipts and Cash Payments.” ASU 2016-15 will make eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2017. Early adoption is permitted. The Company adopted this standard effective January 1, 2018, and it did not have a material impact on our financial position, results of operations or cash flows.

In January 2016, the FASB issued ASU 2016-01, “Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities.” ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income, requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes, requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset, and eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost. ASU 2016-01 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2017, and early adoption is permitted. The Company adopted this standard effective January 1, 2018. The Company previously classified its marketable securities as available-for-sale and carried at fair value with unrealized holding gains and losses excluded from earnings and reported as a separate component of Shareholders’ Equity until realized. The change in the unrealized net holding gains (losses) was reflected in the Company’s Comprehensive Income (Loss). Upon adoption, these securities will continue to be measured at fair value; however, the change in the unrealized net holding gains and losses is now recognized through net income. As of January 1, 2018, unrealized net holding gains of

\$11,519,582 were reclassified to beginning retained earnings to recognize the unrealized gains previously recorded in “accumulated other comprehensive income” on our consolidated balance sheets. For the three and six months ended June 30, 2018, the Company recorded a \$16,623,670 increase and a \$9,275,149 decrease, respectively, in the fair value of these marketable securities, which are included in “Other Investment Income (Loss), net” on our Consolidated Statements of Income (Loss).

In May 2014, the FASB issued ASU 2014-09 “Revenue from Contracts with Customers (Topic 606)” (ASC 606). The objective of this amendment is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying this amendment, companies will perform a five-step analysis of transactions to determine when and how revenue is recognized. This amendment applies to all contracts with customers except those that are within the scope of other topics in the FASB ASC. An entity should apply the amendments using either the full retrospective approach or retrospectively with a cumulative effect of initially applying the amendments recognized at the date of initial application. In July 2015, the FASB issued ASU 2015-14 which deferred the effective date of ASU 2014-09 by one year to annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. The Company adopted this standard effective January 1, 2018. For transactions in the scope of ASU 2014-09, we recognize revenue when control of goods or services transfers to the customer, in the amount that we expect to receive for the transfer of goods or provision of services. The adoption of ASU 2014-09 did not result in any change to our accounting policies for revenue recognition. Accordingly, retrospective application to prior periods or a cumulative catch-up adjustment was unnecessary.

Our primary source of revenue is generated from lease agreements for our sites and homes. Resident leases are generally for one-year or month-to-month terms, and are renewable by mutual agreement from us and the resident, or in some cases, as provided by jurisdictional statute. The lease component of these agreements is accounted for under ASC 840 “Leases.” The non-lease components of our lease agreements consist primarily of utility reimbursements, which are accounted for with the site lease as a single lease under ASC 840.

Sales of manufactured homes is recognized under ASC 605 “Revenue Recognition” since these homes are not permanent fixtures or improvements to the underlying real estate. In accordance with the core principle of ASC 606, we recognize revenue from home sales at the time of closing when control of the home transfers to the customer. After closing of the sale transaction, we have no remaining performance obligation.

Interest income is primarily from notes receivables for the previous sales of manufactured homes and is not in the scope of ASU 2014-09. These sales were recorded upon completion of our performance obligations.

Dividend and other investment income are from our investments in marketable securities and are presented separately but are not in the scope of ASU 2014-09.

Other income is recognized under ASC 605 “Revenue Recognition” and primarily consists of brokerage commissions for arranging for the sale of a home by a third party, service and marketing agreements with cable providers, and in 2017 included an upfront oil and gas bonus payment. This income is recognized when the transactions are completed and our performance obligations have been fulfilled.

As of June 30, 2018 and December 31, 2017, the Company had notes receivable of \$26,621,809 and \$24,066,567, respectively. Notes receivables are presented as a component of Notes and Other Receivables, net on our Consolidated Balance Sheets. These receivables represent balances owed to us for previously completed performance obligations for sales of manufactured homes. Due to the nature of our revenue from contacts with customers, we do not have material contract assets or liabilities that fall under the scope of ASC 606.

#### Other Recent Accounting Pronouncements

In June 2016, the FASB issued ASU No. 2016-13, “Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments.” ASU 2016-13 requires that entities use a new forward looking “expected loss” model that generally will result in the earlier recognition of allowance for credit losses. The measurement of expected credit losses is based upon historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. ASU No. 2016-13 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2019. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, “Leases.” ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. The standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 will be effective for annual reporting periods beginning after December 15, 2018. Early adoption is permitted. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the timing of adoption.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements.

NOTE 2 – NET INCOME (LOSS) PER SHARE

Basic Net Income (Loss) per Share is calculated by dividing Net Income (Loss) by the weighted average shares outstanding for the period. Diluted Net Income (Loss) per Share is calculated by dividing Net Income (Loss) by the weighted average number of common shares outstanding plus the weighted average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method. For the three months ended June 30, 2018, common stock equivalents resulting from employee stock options to purchase 2,239,100 shares amounted to 370,702 shares, which were included in the computation of Diluted Net Income (Loss) per Share. For the six months ended June 30, 2018, employee stock options to purchase 2,239,100 shares of common stock were excluded from the computation of Diluted Net Income (Loss) per Share as their effect would be anti-dilutive. For the three and six months ended June 30, 2017, employee stock options to purchase 1,778,100 shares of common stock were excluded from the computation of Diluted Net Income (Loss) per Share as their effect would be anti-dilutive.

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. Compensation costs of \$571,492 and \$853,554 have been recognized for the three and six months ended June 30, 2018, respectively, and \$500,680 and \$670,057 for the three and six months ended June 30, 2017, respectively.

	2018	2017
Dividend yield	4.77 %	5.80 %
Expected volatility	25.83 %	26.30 %
Risk-free interest rate	2.73 %	2.37 %
Expected lives	10	10
Estimated forfeitures	-0-	-0-

The fair value of these financial assets and liabilities was determined using the following inputs at June 30, 2018 and December 31, 2017:

In addition to the Company's investments in marketable securities, the Company is required to disclose certain information about the fair values of its other financial instruments, as defined in ASC 825-10, Financial Instruments. Estimates of fair value are made at a specific point in time, based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. All of the Company's Marketable Securities have quoted market prices and traded in active markets and are therefore classified in Level 1 of the fair value hierarchy.

The fair value of Cash and Cash Equivalents and Notes Receivable approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate Mortgages Payable and Loans Payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. As of June 30, 2018, the fair value of Fixed Rate Mortgages Payable amounted to \$304,183,330 and the carrying value of Fixed Rate Mortgages Payable amounted to \$305,066,819.

#### NOTE 9 – CONTINGENCIES, COMMITMENTS AND OTHER MATTERS

From time to time, the Company may be subject to claims and litigation in the ordinary course of business. Management does not believe that any such claims or litigation will have a material adverse effect on the financial position or results of operations.

The Company has an agreement with 21st Mortgage Corporation ("21st Mortgage") under which 21st Mortgage can provide financing for home purchasers in the Company's communities. The Company does not receive referral fees or other cash compensation under the agreement. If 21st Mortgage makes loans to purchasers and those purchasers default on their loans and 21st Mortgage repossesses the homes securing such loans, the Company has agreed to purchase from 21st Mortgage each such repossessed home for a price equal to 80% to 95% of the amount under each such loan, subject to certain adjustments. This agreement may be terminated by either party with 30 days written notice. As of June 30, 2018, the total loan balance under this agreement was approximately \$3.1 million. Additionally, 21st Mortgage previously made loans to purchasers in certain communities we acquired. In conjunction with these acquisitions, the Company has agreed to purchase from 21st Mortgage each repossessed home, if those purchasers default on their loans. The purchase price ranges from 55% to 100% of the amount under each such loan, subject to certain adjustments. As of June 30, 2018, the total loan balance owed to 21st Mortgage with respect to homes in these acquired communities was approximately \$3.5 million. Although this agreement is still active, this program is not being utilized by the Company's new customers as a source of financing.

S&F entered into a Chattel Loan Origination, Sale and Servicing Agreement ("COP Program") with Triad Financial Services, effective January 1, 2016. Neither the Company, nor S&F, receive referral fees or other cash compensation under the agreement. Customer loan applications are initially submitted to Triad for consideration by Triad's portfolio of outside lenders. If a loan application does not meet the criteria for outside financing, the application is then

considered for financing under the COP Program. If the loan is approved under the COP Program, then it is originated by Triad, assigned to S&F and then assigned by S&F to the Company. Included in Notes and Other Receivables is approximately \$11,844,000 of loans that the Company acquired under the COP Program as of June 30, 2018.

## **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

### **Overview**

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and footnotes thereto included elsewhere herein and in the Company's annual report on Form 10-K for the year ended December 31, 2017.

The Company is a self-administered, self-managed Real Estate Investment Trust ("REIT") with headquarters in Freehold, New Jersey. The Company's primary business is the ownership and operation of manufactured home communities which includes leasing manufactured home spaces on an annual or month-to-month basis to residential manufactured home owners. The Company also leases homes to residents and, through its taxable REIT subsidiary, UMH Sales and Finance, Inc. ("S&F"), sells and finances the sale of manufactured homes to qualified residents and prospective residents of our communities.

As of June 30, 2018, the Company owned and operated 114 manufactured home communities containing approximately 20,600 developed home sites. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana, Michigan and Maryland.

The Company earns income from the operation of its manufactured home communities, leasing of manufactured homesites, the rental of manufactured homes, the sale and finance of manufactured homes, the brokering of home sales, and from appreciation in the values of the manufactured home communities and vacant land owned by the Company. The Company also invests in marketable securities of other REITs which the Company generally limits to no more than approximately 20% of its undepreciated assets.

The Company believes that its capital structure, which allows for the ownership of assets using a balanced combination of equity obtained through the issuance of common stock, preferred stock and debt, will enhance shareholder returns as the properties appreciate over time.

The Company intends to continue to increase its real estate investments. Our business plan includes acquiring communities that yield in excess of our cost of funds and then investing in physical improvements, including adding rental homes onto otherwise vacant sites. This has resulted in increased occupancy rates and improved operating results. For the six months ended June 30, 2018, total income increased 12% from the prior year period and Community Net Operating Income (“NOI”), as defined below, increased 13%. Same property occupancy, which includes communities owned and operated as of January 1, 2017, increased by 100 basis points to 83.3% over the prior year period. Year to date, same property NOI increased 7.3% over the prior year period. We have been positioning ourselves for future growth and will continue to seek opportunistic investments. There is no assurance that the Company can continue to buy existing manufactured home communities that meet the requirements of the business plan or that the demand for rental homes will continue in the future.

Sales of manufactured homes are getting stronger and have increased by approximately 17%. Our sales operations have been impacted by limited chattel financing options available in our industry. This has affected the ability of homebuyers to qualify for manufactured home loans. We are optimistic that future regulatory changes may increase our consumers ability to qualify for loans to purchase homes which should result in increased demand. Demand for housing remains healthy, due to improvements in the economy, sustained wage and job growth and still favorable interest rates. Conventional single-family home prices continue their rise supported by low inventories and increasing sales. As household formation strengthens and for-sale inventory remains limited, a large share of housing demand will be looking at alternative forms of housing. Our property type offers substantial comparative value that should result in increased demand.

The macro-economic environment and current housing fundamentals continue to favor home rentals. Rental homes in a manufactured home community allow the resident to obtain the efficiencies of factory-built housing and the amenities of community living for less than the cost of other forms of affordable housing. We continue to see strong demand for rental homes. We have added an additional 389 rental homes during the first six months of 2018. This brings the total number of rental homes to approximately 6,000 rental homes, or 29.1% of total sites. Occupied rental homes represent approximately 33.2% of total occupied sites at quarter end. Occupancy in rental homes continues to be strong and is at 94.0% as of June 30, 2018. We compare favorably with other types of rental housing, including apartments, and we will continue to allocate capital to rental home purchases, as demand dictates. We anticipate adding a total of approximately 800 rental homes in 2018.

During the six months ended June 30, 2018, the Company acquired two all-age communities in Indiana containing a total of 669 homesites on 231 acres for an aggregate purchase price of approximately \$20,500,000. At the date of acquisition, the average occupancy for these communities was approximately 91%.

See PART I, Item 1 – Business in the Company’s annual report on Form 10-K for the year ended December 31, 2017 for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities, challenges, and risks on which the Company is focused.

### **Significant Accounting Policies and Estimates**

The discussion and analysis of the Company's financial condition and results of operations are based upon the Company's Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The preparation of these Consolidated Financial Statements requires management to make estimates and judgments that affect the reported amounts of Assets and Liabilities, Revenues and Expenses, and related disclosure of contingent Assets and Liabilities at the date of the Company's Consolidated Financial Statements. Actual results may differ from these estimates under different assumptions or conditions.

On a regular basis, management evaluates our assumptions, judgments and estimates. Management believes there have been no material changes to the items that we disclosed as our significant accounting policies and estimates under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," in our Annual Report on Form 10-K for the year ended December 31, 2017.

### **Supplemental Measures**

In addition to the results reported in accordance with GAAP, management's discussion and analysis of financial condition and results of operations include certain non-GAAP financial measures that in management's view of the business we believe are meaningful as they allow the investor the ability to understand key operating details of our business both with and without regard to certain accounting conventions or items that may not always be indicative of recurring annual cash flow of the portfolio. These non-GAAP financial measures as determined and presented by us may not be comparable to related or similarly titled measures reported by other companies, and include Community NOI, Funds from Operations ("FFO"), Core Funds from Operations ("Core FFO") and Normalized Funds from Operations ("Normalized FFO").

We define Community NOI as rental and related income less community operating expenses such as real estate taxes, repairs and maintenance, community salaries, utilities, insurance and other expenses. We believe that Community NOI is helpful to investors and analysts as a direct measure of the actual operating results of our manufactured home communities, rather than our Company overall. Community NOI should not be considered a substitute for the reported results prepared in accordance with GAAP. Community NOI should not be considered as an alternative to net income (loss) as an indicator of our financial performance, or to cash flows as a measure of liquidity; nor is it indicative of funds available for our cash needs, including our ability to make cash distributions.

The Company's Community NOI for the three and six months ended June 30, 2018 and 2017 is calculated as follows:

	Three Months Ended		Six Months Ended	
	6/30/18	6/30/17	6/30/18	6/30/17
Rental and Related Income	\$28,237,771	\$25,293,961	\$55,508,248	\$49,824,316
Less: Community Operating Expenses	12,715,180	11,871,578	25,469,996	23,351,937
Community NOI	\$15,522,591	\$13,422,383	\$30,038,252	\$26,472,379

We also assess and measure our overall operating results based upon an industry performance measure referred to as Funds from Operations ("FFO"), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by The National Association of Real Estate Investment Trusts ("NAREIT"), represents net income (loss) attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America ("U.S. GAAP"), excluding extraordinary items, as defined under U.S. GAAP, gains or losses from sales of previously depreciated real estate assets, and impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-U.S. GAAP supplemental measure of REIT operating performance. We define Core Funds from Operations ("Core FFO"), as FFO, excluding acquisition costs, costs of early extinguishment of debt, change in the fair value of marketable securities and costs associated with the Redemption of Preferred Stock. We define Normalized Funds from Operations ("Normalized FFO"), as Core FFO, excluding gains and losses realized on marketable securities investments and certain one-time charges. FFO, Core FFO and Normalized FFO should be considered as supplemental measures of operating performance used by REITs. FFO, Core FFO and Normalized FFO exclude historical cost depreciation as an expense and may facilitate the comparison of REITs which have a different cost basis. However, other REITs may use different methodologies to calculate FFO, Core FFO and Normalized FFO and, accordingly, our FFO, Core FFO and Normalized FFO may not be comparable to all other REITs. The items excluded from FFO, Core FFO and Normalized FFO are significant components in understanding the Company's financial performance.

FFO, Core FFO and Normalized FFO (i) do not represent Cash Flow from Operations as defined by U.S. GAAP; (ii) should not be considered as alternatives to net income (loss) as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) are not alternatives to cash flow as a measure of liquidity.

The reconciliation of the Company's U.S. GAAP Net Income (Loss) to the Company's FFO, Core FFO and Normalized FFO for the three and six months ended June 30, 2018 and 2017 are calculated as follows:

	Three Months Ended		Six Months Ended

### **Changes In Results Of Operations**

Rental and Related Income increased 12% from \$25,293,961 for the three months ended June 30, 2017 to \$28,237,771 for the three months ended June 30, 2018. Rental and Related Income increased 11% from \$49,824,316 for the six months ended June 30, 2017 to \$55,508,248 for the six months ended June 30, 2018. These increases were primarily

due to the acquisitions made during 2017 and 2018, as well as increases in rental rates and same property occupancy and additional rental homes. The Company has been raising rental rates by approximately 3% to 5% annually at most communities. Same property occupancy has increased 100 basis points from 82.3% as of June 30, 2017 to 83.3% at quarter-end. Occupied rental homes increased 18% from approximately 4,800 homes at June 30, 2017 to 5,600 homes at June 30, 2018.

Community Operating Expenses increased 7% from \$11,871,578 for the three months ended June 30, 2017 to \$12,715,180 for the three months ended June 30, 2018. Community Operating Expenses increased 9% from \$23,351,937 for the six months ended June 30, 2017 to \$25,469,996 for the six months ended June 30, 2018. These increases were primarily due to the acquisitions made during 2017 and 2018, and the harsh 2018 winter.

Community NOI increased 16% from \$13,422,383 for the three months ended June 30, 2017 to \$15,522,591 for the three months ended June 30, 2018. Community NOI increased 13% from \$26,472,379 for the six months ended June 30, 2017 to \$30,038,252 for the six months ended June 30, 2018. These increases were primarily due to the acquisitions during 2017 and 2018, and increases in rental rates, occupancy and rental homes. The Company's Operating Expense Ratio (defined as Community Operating Expenses divided by Rental and Related Income) was 46.9% and 45.0% for the three months ended June 30, 2017 and 2018, respectively. The Company's Operating Expense Ratio was 46.9% and 45.9% for the six months ended June 30, 2017 and 2018, respectively. Many recently acquired communities have deferred maintenance requiring higher than normal expenditures in the first few years of ownership. Because most of the community expenses consist of fixed costs, as occupancy rates increase, these expense ratios are expected to continue to improve. Since the Company has the ability to increase its rental rates annually, increasing costs due to inflation and changing prices have generally not had a material effect on revenues and income from continuing operations.

Sales of manufactured homes increased 10% from \$3,523,887 for the three months ended June 30, 2017 to \$3,860,779 for the three months ended June 30, 2018. Sales of manufactured homes increased 17% from \$5,442,081 for the six months ended June 30, 2017 to \$6,386,266 for the six months ended June 30, 2018. The Company has seen a 15% increase in the number of homes sold from 108 homes sold for the six months ended June 30, 2017 to 124 homes sold for the six months ended June 30, 2018. Cost of sales of manufactured homes amounted to \$2,913,825 and \$2,746,689 for the three months ended June 30, 2018 and 2017, respectively. Cost of sales of manufactured homes amounted to \$4,893,996 and \$4,249,898 for the six months ended June 30, 2018 and 2017, respectively. The gross profit percentage was 25% and 22% for the three months ended June 30, 2018 and 2017, respectively. The gross profit percentage was 23% and 22% for the six months ended June 30, 2018 and 2017, respectively. Selling expenses, which includes salaries, commissions, advertising and other miscellaneous expenses, amounted to \$1,085,244 and \$865,462 for the three months ended June 30, 2018 and 2017, respectively. Selling expenses amounted to \$1,889,316 and \$1,624,841 for the six months ended June 30, 2018 and 2017, respectively. Loss from the sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses less interest on the financing of inventory) amounted to \$287,951 or 7% of total sales and \$280,677 or 8% of total sales for the three months ended June 30, 2018 and 2017, respectively. Loss from the sales operations amounted to \$580,961 or 9% of total sales and \$726,989 or 13% of total sales for the six months ended June 30, 2018 and 2017, respectively. Many of the costs associated with sales, such as salaries, and to an extent, advertising and promotion, are fixed.

The U.S. homeownership rate was 64.3% in the second quarter of 2018, according to the U.S. Census. This is down from 69.2% at its peak at the end of 2004. The conventional single-family housing market has strengthened, and conventional home prices continue their rise. The inherent affordability of our property type becomes more and more apparent which should result in increased demand. The Company continues to be optimistic about future sales and rental prospects given the fundamental need for affordable housing. The Company believes that sales of new homes produces new rental revenue and is an investment in the upgrading of our communities.

General and Administrative Expenses increased 25% from \$2,634,309 for the three months ended June 30, 2017 to \$3,282,682 for the three months ended June 30, 2018. General and Administrative Expenses increased 17% from \$4,836,611 for the six months ended June 30, 2017 to \$5,641,238 for the six months ended June 30, 2018. These increases were primarily due to an increase in personnel and personnel costs. For the three and six months ended June 30, 2018, there was a one-time payroll expenditure of \$525,000 for two employees. General and Administrative expenses without this one-time payroll expenditure as a percentage of gross revenue (Total Income plus Interest, Dividend and Other Income) was 7.8% and 7.5% for the three and six months ended June 30, 2018, respectively, compared and 8.4% and 8.0% for the three and six months ended June 30, 2017, respectively. Personnel costs also increased due to an increase in our stock price which increased the fair value of stock options granted. The weighted-average fair value of options granted increased from \$1.81 per share for the six months ended June 30, 2017 to \$2.04 for the six months ended June 30, 2018. Additionally, for the three and six months ended June 30, 2018, the entire compensation cost of \$204,000 for an employee of retirement age was recognized at the time of grant.

Depreciation Expense increased 15% from \$6,740,205 for the three months ended June 30, 2017 to \$7,764,258 for the three months ended June 30, 2018. Depreciation Expense increased 16% from \$13,280,443 for the six months ended June 30, 2017 to \$15,358,892 for the six months ended June 30, 2018. This increase was primarily due to the acquisitions and the increase in rental homes during 2017 and 2018.

Interest Income increased 8% from \$495,778 for the three months ended June 30, 2017 to \$536,176 for the three months ended June 30, 2018. Interest Income increased 4% from \$969,137 for the six months ended June 30, 2017 to \$1,006,406 for the six months ended June 30, 2018. These increases were primarily due to an increase in the average balance of notes receivable. The average balance at June 30, 2018 and 2017 was approximately \$25.3 million and \$20.4 million, respectively.

Dividend Income increased 38% from \$1,795,600 for the three months ended June 30, 2017 to \$2,474,180 for the three months ended June 30, 2018. Dividend Income increased 34% from \$3,646,840 for the six months ended June 30, 2017 to \$4,899,320 for the six months ended June 30, 2018. These increases were primarily due to the increase in the average balance of marketable securities from \$108.9 million at June 30, 2017 to \$135.5 million at June 30, 2018. Dividends received from our marketable securities investments were at a weighted average yield of approximately 8.1% and 6.8% at June 30, 2018 and 2017, respectively, and continue to meet our expectations. It is the Company's intent to hold these marketable securities long-term.

Other Investment Income (Loss), net increased from \$1,019,877 for the three months ended June 30, 2017 to \$16,623,670 for the three months ended June 30, 2018. Other Investment Income (Loss), net decreased from income of \$1,051,768 for the six months ended June 30, 2017 to a loss of \$9,255,042 for the six months ended June 30, 2018. These changes were primarily due to the change in fair value of the marketable securities portfolio. On January 1, 2018, the Company adopted ASU 2016-01, which requires changes in the fair value of our marketable securities to be recorded in current period earnings. Previously, changes in the fair value of marketable securities were recognized in “Accumulated Other Comprehensive Income” on our Consolidated Balance Sheets. As a result, on January 1, 2018 the Company recorded an increase to beginning retained earnings of \$11,519,582 to recognize the unrealized gains previously recorded in “Accumulated Other Comprehensive Income” on our Consolidated Balance Sheets. As of June 30, 2018, the Company had total net unrealized gains of \$2,244,433 in its REIT securities portfolio. The total change in fair value of marketable securities for the three months ended June 30, 2018 was an increase of \$16,623,670. The total change in fair value of marketable securities for the six months ended June 30, 2018 was a decrease of \$9,275,149.

Interest Expense, including Amortization of Financing Costs, decreased 4% from \$4,112,214 for the three months ended June 30, 2017 to \$3,966,992 for the three months ended June 30, 2018. Interest Expense decreased 8% from \$8,169,944 for the six months ended June 30, 2017 to \$7,547,460 for the six months ended June 30, 2018. The weighted average interest rate on our mortgages payable decreased from 4.3% at June 30, 2017 to 4.2% at June 30, 2018, not including the effect of unamortized debt issuance costs. Additionally, the balance of financing on our inventory decreased from \$13.5 million at June 30, 2017 to \$11.9 million at June 30, 2018. The interest rate on this financing is approximately 7%.

### **Changes in Financial Condition**

Total Investment Property and Equipment increased 5% or \$42,938,051 during the six months ended June 30, 2018. The Company purchased two communities and added 389 rental homes to its communities. The Company’s occupancy rate on its rental homes portfolio increased 100 basis points and was 94.0% at June 30, 2018 as compared to 93.0% at December 31, 2017.

Marketable Securities increased 4% or \$5,098,741 during the six months ended June 30, 2018. This increase was due to purchases of \$14,622,458, offset by sales with a cost basis of \$248,568 and a net decrease in the fair value of \$9,275,149.

Mortgages Payable, net of unamortized debt issuance costs, decreased 1% or \$3,123,541 during the six months ended June 30, 2018. The decrease was primarily due to principal payments of \$3,393,435, offset by amortization expense of \$270,426.

Loans Payable, net of unamortized debt issuance costs, decreased \$55,693 during the six months ended June 30, 2018. This decrease was primarily due to a decrease of \$10 million on our margin loan offset by an increase of \$9.7 million on our revolving credit facilities for the purchase of inventory and other loans payable.

## **Liquidity and Capital Resources**

The Company's focus is on real estate investments, including investment in rental homes. Additionally, the Company invests in marketable debt and equity securities of other REITs. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real estate when more favorable risk adjusted returns are not available. The Company generally limits its marketable securities investments to no more than approximately 20% of its undepreciated assets.

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured home inventory and rental homes, investment in marketable securities of other REITs, financing of manufactured home sales and payments of expenses relating to real estate operations. We anticipate that the liquidity demands of the recent properties acquired will be met by the operations of these acquisitions. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and marketable securities portfolio, the sale of real estate investments and marketable securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, lines of credit, proceeds from the DRIP, and access to the capital markets.

In addition to cash generated through operations, the Company uses a variety of sources to fund its cash needs, including acquisitions. The Company may sell marketable securities from its investment portfolio, borrow on its unsecured credit facility or lines of credit, finance and refinance its properties, and/or raise capital through the DRIP and capital markets. The Company intends to continue to increase its real estate investments. Our business plan includes acquiring communities that yield in excess of our cost of funds and then investing in physical improvements, including adding rental homes onto otherwise vacant sites. There is no guarantee that any of these additional opportunities will materialize or that the Company will be able to take advantage of such opportunities. The growth of our real estate portfolio depends on the availability of suitable properties which meet the Company's investment criteria and appropriate financing. Competition in the market areas in which the Company operates is significant. To the extent that funds or appropriate communities are not available, fewer acquisitions will be made.

The Company continues to strengthen its capital and liquidity positions. On January 22, 2018, the Company issued 2,000,000 shares of its new 6.375% Series D Cumulative Redeemable Preferred Stock ("Series D Preferred Stock") at an offering price of \$25.00 per share in an underwritten registered public offering. The Company received net proceeds from the sale of these 2,000,000 shares, after deducting the underwriting discount and other estimated offering expenses, of approximately \$48.2 million and plans to use the net proceeds of the offering for general corporate purposes, which may include the purchase of manufactured homes for sale or lease to customers, expansion of its existing communities, potential acquisitions of additional properties and possible repayment of indebtedness on a short-term basis.

The Company also raised \$16,407,829 from the issuance of common stock in the DRIP during the six months ended June 30, 2018, which included Dividend Reinvestments of \$1,590,384. Dividends paid on the common stock for the six months ended June 30, 2018 were \$13,093,280, of which \$1,590,384 were reinvested. Dividends paid on the Series B Preferred shares, the Series C Preferred shares and the Series D Preferred shares for the six months ended June 30, 2018 totaled \$9,803,805.

Net Cash provided by Operating Activities amounted to \$14,444,849 and \$16,638,440 for the six months ended June 30, 2018 and 2017, respectively. As of June 30, 2018, the Company had Cash and Cash Equivalents of \$15.2 million, Marketable Securities of \$138.1 million, encumbered by \$27.2 million in margin loans, \$6.0 million available on its revolving line of credit for the financing of home sales, approximately \$16.6 million available on its revolving credit facilities for the financing of inventory purchases, and \$15 million available on its unsecured revolving credit facility, with an additional \$75 million potentially available pursuant to an accordion feature.

The Company owns 114 communities, of which 46 are unencumbered. These marketable securities, non-mortgaged properties, and lines of credit provide the Company with additional liquidity. The Company has been raising capital through its DRIP and through public offerings and registered direct placements of its preferred stock.

As of June 30, 2018, the Company had total assets of \$862,752,684 and total liabilities of \$400,226,875. The Company's net debt (net of unamortized debt issuance costs and cash and cash equivalents) to total market capitalization as of June 30, 2018 was approximately 30% and the Company's net debt, less securities to total market capitalization as of June 30, 2018 was approximately 19%. The Company believes that it has the ability to meet its obligations and to generate funds for new investments.
