ExxonMobil Fuels Marketing Savings Plan

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF THE PLAN:

General

The following description provides general information for the ExxonMobil Fuels Marketing Savings Plan (the Plan). Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is a defined contribution plan established to provide savings and retirement benefits for certain qualified employees of ExxonMobil Fuels Marketing Company, a division of Exxon Mobil Corporation (the Company), employed in its company operated retail store operations and for certain qualified employees at the Olathe, KS and Bakerstown, PA grease plants.

Contributions

Contributions to the Plan are made by both the participant and the Company. Effective January 1, 2002, participants may contribute any whole percentage, up to 20% of their eligible pay. Prior to January 1, 2002, the contribution limit was 18%. Participants may also make a rollover contribution from other qualified plans or rollover IRA. Generally, for eligible participants, the Company matches contributions at 50 cents for each pretax dollar contributed up to the first 3% of

Edgar Filing: EXXON MOBIL CORP - Form 11-K

eligible pay and/or makes contributions equal to 3% of eligible pay. For eligible participants covered by a collective bargaining agreement, the Company provides a 100% match, up to 4% of eligible pay. Effective September 1, 2002, employees who are at least age 50 at the end of 2002, may elect to make additional pretax contributions up to \$1,000.

Vesting

Participants are immediately vested in their contributions. Effective January 1, 2002, Company contributions vest at 100% after 3 years of qualifying service or, if the participant is employed by the Company, on or after age 65 or upon death while an employee. Employees covered by a collective bargaining agreement at the Bakerstown, PA grease plant are immediately vested in all contributions.

Investment Options

Participants may make their own investment decisions. The Company has selected a variety of daily valued investment funds with different risk and return characteristics. Investments are managed by Barclays Global Investors, N.A. (BGI). Merrill Lynch Trust Company, FSB (Merrill Lynch), trustee of the Plan, is the investment manager of the short-term money market fund. Plan assets are invested in a variety of preselected funds based on participants' investment elections. Investment options include the following types of funds: Standard & Poors 500 index, long-term treasury bond index, short-term money market fund, international equity, extended market and five bond and equity funds. The Plan is subject to the normal risks associated with debt and equity markets.

NOTES TO FINANCIAL STATEMENTS

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES:

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting except benefit payments which are reported on a cash basis to conform with generally accepted accounting principles.

Investments

Investment income is recorded when earned. Investments are stated at fair value based upon market quotations as determined by the trustee. Interest earned on the money market deposits and the change in the value of the investments are allocated daily to the individual employee accounts on the basis of the participant's account balance. Investments are subject to normal risks associated with the debt and equity markets.

Net appreciation and net depreciation in the current value of investments includes realized gains and losses on investments sold or disposed of during the year and unrealized gains and losses on investments held at year end. Purchases and sales of securities are recorded on the trade date. Dividends are recorded on the ex-dividend date.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting period. Actual results could differ from those estimates.

Expenses

Administrative expenses incurred in the administration of the Plan, to the extent not paid by the Company, are charged to and paid from the Plan's assets. Administrative expenses are recorded when incurred.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) and schedule of nonexempt transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.
