On April 18, 2005, we announced our financial results for the

Item 2.02. Results of Operations and Financial Condition.

fiscal quarter ended March 27, 2005, and certain other information. The press release, which has been attached as Exhibit 99, discloses a financial measure, Earnings before Interest, Taxes, Depreciation and Amortization ("EBITDA"), that is considered a non-GAAP financial measure as defined under SEC rules. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles. Management believes that EBITDA is one of the appropriate measures for evaluating our operating performance, because it reflects the resources available for strategic opportunities including, among others, to invest in the business, strengthen the balance sheet and make strategic acquisitions. However, this measure should be considered in addition to, and not as a substitute for, or superior to, net earnings or other measures of financial

performance prepared in accordance with generally accepted

accounting principles as more fully discussed in our financial

statements and filings with the SEC. The EBITDA measures

included in our press release have been reconciled to the

most directly comparable GAAP measures as is required under SEC

rules regarding the use of non-GAAP financial measures.

This press release also includes the Company s International

segment net revenues excluding the impact of exchange rates.

Management believes that the presentation of International

segment net revenues minus the impact of exchange rate changes

provides information that is helpful to an investor s

understanding of the segment s underlying business performance

absent exchange rate fluctuations which are beyond the Company s

control.

As used herein, "GAAP" refers to accounting principles generally

accepted in the United States of America.

Item 9.01. Financial Statements and Exhibits.
