MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
DECEMBER 31, 2010

NOTE 1 ORGANIZATION AND ACCOUNTING POLICIES

Monmouth Real Estate Investment Corporation and its subsidiaries (MREIC, the Company or we) operate as a real estate investment trust (REIT) deriving its income primarily from real estate rental operations. In addition, the Company currently owns a majority interest in a limited liability company of which the Company consolidates their results of operations and financial condition. The Company also owns a portfolio of investment securities.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim consolidated financial statements furnished herein have been prepared in accordance with generally accepted accounting principles for interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended December 31, 2010 are not necessarily indicative of the results that may be expected for the year ending September 30, 2011. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended September 30, 2010.

Certain amounts in the consolidated financial statements for the prior periods presented have been reclassified to conform to the financial statement presentation for the current year. As of December 2010, the Quakertown, PA property has been reclassified from held for sale to held and used, which resulted in \$32,838 of income from discontinued operations in the prior year being reclassified into normal operations.

Use of Estimates

In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the

consolidated balance sheets and revenue and expenses for the periods then ended. Actual results could differ significantly from these estimates and assumptions.

Stock Based Compensation

The Company accounts for stock options and restricted stock in accordance with ASC 718-10 which requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). This compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value for restricted stock awards is equal to the fair value of the Company's common stock on the grant date. Compensation costs of \$30,026 and \$-0- have been recognized in the three months ended December 31, 2010 and 2009, respectively.

During the three months ended December 31, 2010, no options or restricted stock was granted and no options to purchase shares of common stock were exercised. During the three months ended December 31, 2010, 7,600 shares of restricted stock were forfeited. The amount of shares available to grant as stock options or as restricted stock under the amended and restated plan were 1,024,485 shares as of December

31, 2010. As of December 31, 2010, there were options to purchase 1,378,600 shares outstanding under the 2007 amended and restated plan.

Recent Accounting Pronouncements

In January 2010, the FASB issued updated guidance on fair value measurements and disclosures, which requires disclosure of details of significant asset or liability transfers in and out of Level 1 and Level 2 measurements within the fair value hierarchy and inclusion of gross purchases, sales, issuances, and settlements in the rollforward of assets and liabilities valued using Level 3 inputs within the fair value hierarchy. The guidance also clarifies and expands existing disclosure requirements related to the disaggregation of fair value disclosures and inputs used in arriving at fair values for assets and liabilities using Level 2 and Level 3 inputs within the fair value hierarchy. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the gross presentation of the Level 3 rollforward, which is required for annual reporting periods beginning after December 15, 2010, and for the respective interim periods within those years. The adoption of that portion of the guidance that became effective on January 1, 2010 did not have a material effect on the consolidated financial statements; the Company does not expect the adoption of that portion of the guidance which becomes effective on January 1, 2011 to have a material effect on the consolidated financial statements.

NOTE 2 NET INCOME ATTRIBUTABLE TO MREIC S COMMON SHAREHOLDERS PER SHARE

Basic net income attributable to MREIC s common shareholders per share is calculated by dividing net income attributable to MREIC s common shareholders by the weighted-average number of common shares outstanding during the period. Diluted net income per common share is calculated by dividing net income attributable to MREIC s common shareholders plus interest expense related to the Convertible Subordinated Debentures (Debentures) by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method, plus the number of shares resulting from the possible conversion of the Debentures during the period.

The following amounts related to the potential conversion of the Debentures are excluded from the calculation due to their antidilutive effect:

	Three Months Ended	
	<u>12/31/10</u>	<u>12/31/09</u>
Interest expense	\$260,499	\$279,800

Common shares to be issued

upon conversion	863,100	1,304,148
-----------------	---------	-----------

Options to purchase common shares in the amount of 71,085 and 1,202 are included in the diluted weighted average shares outstanding for the three months ended December 31, 2010 and 2009, respectively. As of December 31, 2010 and 2009, common stock equivalents to purchase 4,451 and 154,987 shares, respectively, were antidilutive.

The Company paid for the noncontrolling interest using proceeds from the registered direct placement of preferred stock completed in October 2010. The excess of purchase price over the carrying amount of the noncontrolling interest acquired is approximately \$1,765,000 and has been reflected as a change to additional paid-in capital.

Tenant Concentration

The Company has a concentration of Federal Express Corporation (FDX) and FDX subsidiary-leased properties. The percentage of FDX leased square footage to the total of the Company's rental space was 46% as of December 31, 2010.

In addition, the Company leases 5% of its square footage to Mead Corporation. No other tenants leased more than 5% of our total square footage. The following is a summary of temporarily impaired securities at December 31, 2010:

<u>Less than 12 Months</u>			<u>12 Months or Longer</u>	
<u>Description of Securities</u>	<u>Fair Value</u>	<u>Unrealized Losses</u>	<u>Fair Value</u>	<u>Unrealized Losses</u>

NOTE 8 - FAIR VALUE MEASUREMENTS

The Company measures certain financial assets and liabilities at fair value on a recurring basis, including securities available for sale. The fair value of these financial assets was determined using the following inputs at December 31, 2010:

Fair Value Measurements at Reporting Date Using				
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	Total			
Securities available for sale	\$45,486,923	\$45,486,923	\$-0-	\$-0-

The Company is also required to disclose certain information about fair values of financial instruments. Estimates of fair value are made at a specific point in time based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. For a portion of the Company's financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only and, therefore, cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of cash and cash equivalents approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate loans payable and Subordinated Convertible Debentures approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. At December 31, 2010, the fair value (estimated based upon expected cash outflows discounted at current market rates) and carrying value of fixed rate mortgage notes payable amounted to approximately \$220,490,470 and \$215,197,188, respectively.

NOTE 9 - SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest during the three months ended December 31, 2010 and 2009 was \$4,169,862 and \$4,020,922, respectively.

During the three months ended December 31, 2010 and 2009, the Company had dividend reinvestments of \$1,352,589 and \$1,162,416, respectively, which required no cash transfers.

The Company assumed mortgages in connection with the acquisitions of the two industrial properties in Lebanon, Tennessee and Rockford, Illinois as described in Note No. 6 with a balance of \$10,577,987 upon assumption.

NOTE 10 CONTINGENCIES AND COMMITMENTS

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto provided elsewhere herein and the Company's September 30, 2010 Annual Report on Form 10-K.

The Company is a REIT. The Company's primary business is the ownership and management of industrial buildings subject to long-term leases primarily to investment-grade tenants. During the three months ended December 31, 2010, the Company purchased two net-leased industrial properties, located in Lebanon, Tennessee and Rockford, Illinois, totaling approximately 448,000 square feet, for approximately \$20,300,000. In addition, the Company purchased the remaining noncontrolling interest in the entity which holds the Wheeling, Illinois property for approximately \$4,100,000. As of December 31, 2010, the Company owned sixty-four industrial properties and one shopping center with total square footage of approximately 7,418,000. Total real estate investments were approximately \$409,673,000 as of December 31, 2010. These properties are located in twenty-five states. As of December 31, 2010, the Company's weighted average lease expiration term was approximately 5.2 years and its occupancy rate was 97%. As of December 31, 2010, the Company's average rent per occupied square foot for fiscal 2011 was estimated at approximately \$5.77.

The Company's revenue primarily consists of rental and reimbursement revenue from the ownership of industrial rental property. Income from property operations defined as rental and reimbursement revenue less real estate taxes and operating expenses increased \$933,292 or 11% for the three months ended December 31, 2010 as compared to the three months ended December 31, 2009. The increase is due to the acquisition of the four industrial properties purchased during fiscal 2010 and the two purchased during the first quarter of fiscal 2011. The income from the Company's property operations continues to meet management's expectations.

The Company has a concentration of FDX-leased properties. As of December 31, 2010, no tenant leased more than 5% of the Company's total leased square footage with the exception of FDX and its subsidiaries, which leased 46% of our total leased square footage, and the Mead Corporation, which leased 5% of our total leased square footage. The only tenant that accounted for more than 5% of our total rental and reimbursement revenue for the three months ended December 31, 2010 was FDX and its subsidiaries. Annualized rental and reimbursement revenue from FDX and FDX subsidiaries are estimated at approximately 56% of total rental and reimbursement revenue for fiscal 2011. This is a risk shareholders should consider.

The Company also holds a portfolio of securities of other REITs with a fair value of \$45,486,923 as of December 31, 2010, which earns dividend and interest income. The dividends received from our securities investments were at a weighted average yield of approximately 6.5% as of December 31, 2010. During the three months ended December 31, 2010, the Company recognized gains on sale of securities of \$2,808,022. As of December 31, 2010, the Company had net unrealized gains on securities available for sale of \$10,696,250. The Company invests in REIT securities on margin from time to time when the Company can achieve an adequate yield spread. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real property investments.

On October 14, 2010, the Company issued 817,250 shares of its 7.625% Series A Cumulative Redeemable Preferred Stock in a registered direct placement at \$24.00 per share. The Company received net proceeds of approximately \$19,000,000 and used some of the net proceeds to purchase additional properties in the ordinary course of business, repurchase of \$5,050,000 in 8% Debentures and for general corporate purposes. The Company intends to make additional acquisitions of industrial properties when investments meeting our investment criteria can be found.

See PART I, Item 1 Business in the Company's September 30, 2010 Annual Report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities, challenges, and risks on which the Company is focused.

Changes in Results of Operations

As of December 31, 2010, the Company owned sixty-five properties with total square footage of approximately 7,418,000 as compared to sixty-one properties with total square footage of approximately 6,674,000 as of December 31, 2009. As of December 31, 2010, the Company's weighted average lease expiration term was approximately 5.2 years. The Company's occupancy rate was 97% and 94% as of December 31, 2010 and 2009, respectively.

The Company extended the following leases which were scheduled to expire in fiscal 2011:

Rental and reimbursement revenue increased \$1,360,558 or 13% for the three months ended December 31, 2010 as compared to the three months ended December 31, 2009. The net increase is due mainly to the following:

Increases in rent and reimbursements from the new properties acquired in fiscal 2010 in Memphis, TN, Houston, TX, Dallas, TX and Ft. Mill, SC totaling approximately \$1,026,000 for the three months ended December 31, 2010 as compared to the three months ended December 31, 2009

Increases in rent and reimbursements from the new properties acquired in fiscal 2011 in Lebanon, Tennessee and Rockford, Illinois totaling approximately \$316,000.

Decrease in rent and reimbursements from our vacant properties in Liberty, Missouri and Greensboro, North Carolina of approximately \$70,000 for the three months ended December 31, 2010 as compared to the three months ended December 31, 2009.

Real estate taxes increased \$198,595 or 12% for the three months ended December 31, 2010 as compared to the three months ended December 31, 2009. The net increase for the three months is due mainly to the real estate taxes related to the four industrial properties acquired in fiscal 2010. Since the majority of our properties are net-leased, the increase in real estate taxes is recovered from the tenants.

Operating expenses increased \$228,671 or 54% for the three months ended December 31, 2010 as compared to the three months ended December 31, 2009. The increase is due mainly to an increase in operating expenses related to the acquisition of the four properties in fiscal 2010 noted above. In addition the Company had an increase in repairs and maintenance of approximately \$100,000 related to vacant properties.

General and administrative expense increased \$432,533 for the three months ended December 31, 2010 as compared to the three months ended December 31, 2009. The increase is due mainly to accruals of \$350,000 in executive compensation and benefits, including severance costs of \$275,000 for a former executive.

Acquisition costs increased \$197,710 for the three months ended December 31, 2010 as compared to the three months ended December 31, 2009. These costs relate to the transaction and due diligence costs associated with the acquisition of the industrial properties in fiscal 2011 and 2010. The Company adopted ASC 805-10, Business Combinations on October 1, 2009, which requires purchases of operating properties to be recorded at full fair value and transaction costs to be expensed.

During the three months ended December 31, 2010 and 2009, the Company recognized a gain on sale of securities of \$2,808,022 and \$329,238, respectively. In addition, the Company had net unrealized gains on its securities held for sale of \$10,696,250 as of December 31, 2010.

Interest and dividend income increased \$94,186 for the three months ended December 31, 2010 as compared to the three months ended December 31, 2009. The increase for the three months was due mainly to an increase in the average balance of securities available for sale, partially offset by a decrease in the weighted average yield on the portfolio. The average balance of the securities was \$44,002,000 and \$27,282,000 for the three months ended December 31, 2010 and 2009, respectively. The weighted average yield for the three months ended December 31, 2010 and 2009 was 6.5% and 8.3%, respectively.

Changes in Financial Condition

The Company generated net cash from operating activities of \$4,218,409 and \$4,229,079 for the three months ended December 31, 2010 and 2009, respectively.

Real estate investments increased \$17,484,274 from September 30, 2010 to December 31, 2010. This increase is due mainly to the purchase of the industrial properties in Lebanon, Tennessee and Rockford, Illinois, totaling 19,805,000 partially offset by depreciation expense for the three month period of \$2,535,044.

Edgar Filing: MONMOUTH REAL ESTATE INVESTMENT CORP - Form 10-Q

Securities available for sale increased \$2,969,198 from September 30, 2010 to December 31, 2010. The increase is due mainly to the purchases of securities of \$5,571,493 and an increase in the unrealized gain on securities of \$580,193 partially offset by sales and redemptions of securities with an adjusted cost of \$3,182,488.

Mortgage notes payable increased \$4,619,327 from September 30, 2010 to December 31, 2010. This increase is due to the mortgages assumed of \$10,577,988 related to the acquisitions of the two industrial properties completed during the three months ended December 31, 2010.

Location	Mortgage	Maturity	Interest
	Assumed	Date	Rate
Lebanon, TN	\$8,645,181	7/1/19	7.6%
Rockford, IL	1,932,807	12/10/13	5.5%

This increase was offset by principal repayments of \$5,958,660 for the three months ended December 31, 2010, which includes the repayment of the loan on the Quakertown, PA property of \$2,437,500. The Company is scheduled to repay a total of approximately \$16,626,000 in mortgage principal in fiscal 2011 and intends to repay these mortgages from funds raised in the DRIP and from cash from operations.

Loans payable increased \$5,756,140 from September 30, 2010 to December 31, 2010. The increase was due to purchases of securities available for sale. As of December 31, 2010, the Company had an outstanding balance of \$10,030,053 on its margin loans and \$10,000,000 available on its line of credit.

Liquidity and Capital Resources

Net cash provided by operating activities was \$4,218,409 and \$4,229,079 for the three months ended December 31, 2010 and 2009, respectively. Distributions paid on common stock for the three months ended December 31, 2010 and 2009 were \$5,114,841 and \$4,173,191, respectively (of which \$1,352,589 and \$1,162,416, respectively, were reinvested). The Company pays distributions from cash provided by operating activities.

As of December 31, 2010, the Company owned securities available for sale of \$45,486,923 subject to margin loans of \$10,030,054. These marketable securities provide the Company with additional liquidity as well as dividend income.

As of December 31, 2010, the Company had a net unrealized gain on its portfolio of \$10,696,250. The dividends received from our investments, continue to meet our expectations.

As of December 31, 2010, the Company owned sixty-five properties (sixty-four industrial properties and one shopping center), of which fifty-five carried mortgage loans totaling \$215,197,188. The unencumbered properties could be refinanced to raise additional funds, although covenants in the Company's line of credit limit the amount of unencumbered properties which can be mortgaged. The Company had \$10,000,000 available on its \$15,000,000 line of credit as of December 31, 2010. The Company's total net debt plus preferred equity to total market capitalization was 49% as of December 31, 2010.

On October 14, 2010, the Company issued 817,250 shares of its 7.625% Series A Cumulative Redeemable Preferred Stock in a registered direct placement at \$24.00 per share. The Company received net proceeds of approximately \$19,000,000 and used some of the net proceeds to purchase additional properties in the ordinary course of business and to repurchase \$5,050,000 in 8% Debentures and for general corporate purposes. The Company intends to make additional acquisitions of industrial properties when investments meeting our investment criteria can be found. The Company now has a total of 2,139,750 shares of 7.625% Series A Cumulative Redeemable Preferred Stock outstanding representing an aggregate liquidation preference of approximately \$53,500,000.

During the three months ended December 31, 2010, the Company paid \$1,019,805 in preferred dividends. On January 13, 2011, the Board of Directors declared a dividend of \$.4766 per share of the

Company's 7.625% Series A Cumulative Redeemable Preferred Stock payable March 15, 2011, to preferred shareholders of record as of February 15, 2011.

The Company raised \$3,080,313 (including reinvestments of \$1,352,589) from the issuance of 389,685 common shares in the DRIP during the three months ended December 31, 2010. During the three months ended December 31, 2010, the Company paid \$5,114,841 in total cash dividends or \$0.15 per common share to common shareholders, of which \$1,352,589 was reinvested in the DRIP. On January 13, 2011, the Board of Directors declared a dividend of \$0.15 per common share to be paid on March 15, 2011 to common shareholders of record as of February 15, 2011.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities, borrow on its margin loans, refinance debt, or raise capital through the DRIP or capital markets.

As described above, the Company has been raising capital through its DRIP, private placements and public offerings of common and preferred stock and investing in net leased industrial properties. The Company believes that funds generated from operations and the DRIP, together with the ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next year.

The Company seeks to invest in well-located, modern buildings leased primarily to investment grade tenants on long-term leases. In management's opinion, newly built facilities leased to FDX and its subsidiaries meet these criteria. The Company has a concentration of FDX and FDX subsidiary leased properties. As of December 31, 2010, no tenant leased more than 5% of the Company's total leased square footage with the exception of FDX and its subsidiaries, which leased 46% of our total leased square footage, and the Mead Corporation, which leased 5% of our total leased square footage. The only tenant that accounted for more than 5% of our total rental and reimbursement revenue for the three months ended December 31, 2010 was FDX and its subsidiaries. Annualized rent and reimbursement revenue from FDX and FDX subsidiaries is estimated at approximately 56% of total rental and reimbursement revenue for fiscal year 2011. FDX is a publicly-owned corporation and information on its financial business operations is readily available to the Company's shareholders.

The Company intends to acquire additional net-leased industrial properties on long-term leases, primarily to investment grade tenants and expand its current properties when needed. The Company has historically financed purchases of real estate and expansions primarily through mortgages. To the extent that funds or appropriate properties are not available, fewer acquisitions and expansions will be made.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations

Funds from operations (FFO) is defined as net income, excluding gains or losses from sales of depreciable assets, plus real estate-related depreciation and amortization. FFO should be considered as a supplemental measure of operating performance used by REITs. FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO are significant components in understanding the Company's financial performance.

FFO (i) does not represent cash flow from operations as defined by generally accepted accounting principles; (ii) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO for the three months ended December 31, 2010 and 2009 is calculated as follows:

Three Months Ended
