SCANA CORP Form U-13-60 April 27, 2001

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, DC 20549

Form U-13-60

ANNUAL REPORT

For the Period

Beginning April 1, 2000 and Ending December 31, 2000

TO THE

U. S. SECURITIES AND EXCHANGE COMMISSION

OF

SCANA Services, Inc.

._____

(Exact Name of Reporting Company)

A Subsidiary Service Company

Date of Incorporation: December 15, 1999

State or Sovereign Power under which Incorporated or Organized: South Carolina $\$

Location of Principal Executive Offices of Reporting Company:

1426 Main Street Columbia, South Carolina 29201

Name, title and address of officer to whom correspondence concerning this report should be addressed:

Mark R. Cannon Controller 1426 Main Street Columbia, SC 29201

Name of Principal Holding Company Whose Subsidiaries are served by Reporting Company:

SCANA Corporation

INSTRUCTIONS FOR USE OF FORM U-13-60

- 1. TIME OF FILING. Rule 94 provides that on or before the first day of May in each calendar year, each mutual service company and each subsidiary service company as to which the Commission shall have made a favorable finding pursuant to Rule 88, and every service company whose application for approval or declaration pursuant to Rule 88 is pending shall file with the Commission an annual report on Form U-13-60 and in accordance with the Instructions for that form.
- 2. NUMBER OF COPIES. Each annual report shall be filed in duplicate. The company should prepare and retain at least one extra copy for itself in case correspondence with reference to the report become necessary.
- 3. PERIOD COVERED BY REPORT. The first report filed by any company shall cover the period from the date of Uniform System of Accounts was required to be made effective as to that company under Rules 82 and 93 to the end of that calendar year. Subsequent reports should cover a calendar year.
- 4. REPORT FORMAT. Reports shall be submitted on the forms prepared by the Commission. If the space provided on any sheet of such form is inadequate, additional sheets may be inserted of the same size as a sheet of the form or folded to each size.
- 5. MONEY AMOUNTS DISPLAYED. All money amounts required to be shown in financial statements may be expressed in whole dollars, in thousands of dollars or in hundred thousands of dollars, as appropriate and subject to provisions of Regulation S-X (Section 210.3-01(b)).
- 6. DEFICITS DISPLAYED. Deficits and other like entries shall be indicated by the use of either brackets or a parenthesis with corresponding reference in footnotes. (Regulation S-X, Section 210.3-01(c)).
- 7. MAJOR AMENDMENTS OR CORRECTIONS. Any company desiring to amend or correct a major omission or error in a report after it has been filed with the Commission shall submit an amended report including only those pages, schedules, and entries that are to be amended or corrected. A cover letter shall be submitted requesting the Commission to incorporate the amended report changes and shall be signed by a duly authorized officer of the company.
- 8. DEFINITIONS. Definitions contained in Instruction 01-8 to the Uniform System of Accounts for Mutual Service Companies and Subsidiary Service Companies, Public Utility Holding Company Act of 1935, as amended February 2, 1979 shall be applicable to words or terms used specifically within this Form U-13-60.
- 9. ORGANIZATION CHART. The service company shall submit with each annual report a copy of its current organization chart.
- 10. METHODS OF ALLOCATION. The service company shall submit with each annual report a listing of the currently effective methods of allocation being used by the service company and on file with the

Securities and Exchange Commission pursuant to the Public Utility Holding Company Act of 1935.

- 11. ANNUAL STATEMENT OF COMPENSATION FOR USE OF CAPITAL BILLED. The service company shall submit with each annual report a copy of the annual statement supplied to each associate company in support of the amount of compensation for use of capital billed during the calendar
- 12. ELECTRONIC FILERS. Electronic filers are subject to Regulation S-T and the EDGAR Filer Manual. Any rule or instruction therein shall be controlling unless otherwise specifically provided in rules or instructions pertaining to the submission format documents.

Data that appears in tabular or columnar format shall be marked as prescribed in the EDGAR Filer Manual.

Signatures shall be in typed form rather than manual format. See rule 13 of Regulation S-T.

- 2. The financial statements are presented using the accrual method of accounting.
- 3. Provisions for depreciation and amortization are recorded using the straight-line method and are based on the estimated service lives of the various classes of property.
- 4. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

ANNUAL REPORT OF SCANA Services, Inc.

Methods of Allocation

Form of Service Agreement

This Service Agreement (this "Agreement") is entered into as of the _____ day of _____, by and between [insert name of subsidiary], a _____ corporation (the "Company") and SCANA Service Company, a South Carolina corporation ("SCANA Service").

WHEREAS, SCANA Service is a direct or indirect wholly owned subsidiary of SCANA Corporation;

WHEREAS, SCANA Service has been formed for the purpose of providing administrative, management and other services to subsidiaries of SCANA Corporation; and

WHEREAS, the Company believes that it is in the interest of the Company to provide for an arrangement whereby the Company may, from time to time and at the option of the Company, agree to purchase such administrative, management and other services from SCANA Service;

NOW, THEREFORE, in consideration of the mutual covenants contained herein and other valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto, intending to be legally bound, hereby agree as follows:

- I. SERVICES. SCANA Service supplies, or will supply, certain administrative, management or other services to Company similar to those supplied to other subsidiaries of SCANA Corporation. Such services are and will be provided to the Company only at the request of the Company. Exhibit I hereto lists and describes all of the services that are available from SCANA Service.
- II. PERSONNEL. SCANA Service provides and will provide such services by utilizing the services of their executives, accountants, financial advisers, technical advisers, attorneys and other persons with the necessary qualifications.

If necessary, SCANA Service, after consultation with the Company, may also arrange for the services of nonaffiliated experts, consultants and attorneys in connection with the performance of any of the services supplied under this Agreement.

III. COMPENSATION AND ALLOCATION. As and to the extent required by law, SCANA Service provides and will provide such services at cost. Exhibit I hereof contains rules for determining and allocating such costs.

- IV. [TO BE INCLUDED IN CONTRACT WITH PSNC ONLY] NORTH CAROLINA PROVISIONS.
 - (A) PSNC hereby agrees that:
- (1) it will not incur a charge hereunder except in accordance with North Carolina law and the rules, regulations and orders of the North Carolina Utilities Commission (the "NCUC") promulgated thereunder;
- (2) it will not seek to reflect in rates any cost incurred hereunder to the extent disallowed by the NCUC; and
- (3) it will not incur a charge hereunder except for charges determined in accordance with Rules 90 and 91 of the Act.
- (B) PSNC and SCANA Service acknowledge that as a result of the agreements contained in Sections IV(A)(1) and (A)(3), PSNC will not accept services from SCANA Service if the cost to be charged for such service, as calculated pursuant to Rules 90 and 91 of the Act, differs from the amount of charges PSNC is permitted to incur under North Carolina law and the rules, regulations and orders of the NCUC promulgated thereunder.
- V. TERMINATION AND MODIFICATION. The Company may terminate this Agreement by providing 60 days written notice of such termination to SCANA Service. SCANA Service may terminate this Agreement by providing 60 days written notice of such termination to the Company.

This Agreement is subject to termination or modification at any time to the extent its performance may conflict with the provisions of the Public Utility Holding Company Act of 1935, as amended, or with any rule, regulation or order of the Securities and Exchange Commission adopted before or after the making of this Agreement. This Agreement shall be subject to the approval of any state commission or other state regulatory body whose approval is, by the laws of said state, a legal prerequisite to the execution and delivery or the performance of this Agreement [For contract with PSNC only: and any subsequent modifications thereof].

VI. SERVICE REQUESTS. The Company and SCANA Service will prepare a Service Request on or before ______ of each year listing services to be provided to the Company by SCANA Service and any special arrangements related to the provision of such services for the coming year, based on services provided during the past year. The Company and SCANA Service may supplement the Service Request during the year to reflect any additional or special services that the Company wishes to obtain from SCANA Service, and the arrangements relating thereto.

VII. BILLING AND PAYMENT. Unless otherwise set forth in a Service Request, payment for services provided by SCANA Service shall be by making remittance of the amount billed or by making appropriate accounting entries on the books of the Company and SCANA Service. Billing will be made on a monthly basis, with the bill to be rendered by the 25th of the month, and remittance or accounting entries completed within 30 days of billing.

VIII. NOTICE. Where written notice is required by this Agreement, all notices, consents, certificates, or other communications hereunder shall be in writing and shall be deemed given when mailed by United States registered or certified mail, postage prepaid, return receipt requested, addressed as follows:

EXHIBIT I

Description of Services, Cost Accumulation, Assignment and Allocation Methodologies for

SCANA Service Company

This document sets forth the methodologies used to accumulate the costs of services performed by SCANA Service Company ("SCANA Service") and to assign or allocate such costs to other subsidiaries and business units within SCANA Corporation ("Client Entities").

Cost of Services Performed

SCANA Service maintains an accounting system that enables costs to be identified by Cost Center, Account Number or Project, Activity, Resource, and Event ("Account Codes"). The primary inputs to the accounting system are time records of hours worked by SCANA Service employees, accounts payable transactions and journal entries. Charges for labor are made at the employees' effective hourly rate, including the cost of pensions, other employee benefits and payroll taxes. To the extent practicable, costs of services are directly assigned to the applicable Account Codes. The full cost of providing services also includes certain indirect costs, e.g., departmental overheads, administrative and general costs, and taxes. Indirect costs are associated with the services performed in proportion to the directly assigned costs of the services or other relevant cost allocators.

Cost Assignment and Allocation

SCANA Service costs will be directly assigned, distributed or allocated to Client Entities in the manner prescribed below.

- $\,$ 1. Costs accumulated in Account Codes for services specifically performed for a single Client Entity will be directly assigned or charged to such Client Entity.
- 2. Costs accumulated in Account Codes for services specifically performed for two or more Client Entities will be distributed among and charged to such Client Entities using methods determined on a case-by-case basis consistent with the nature of the work performed and based on one of the allocation methods described below.
- 3. Costs accumulated in Account Codes for services of a general nature which are applicable to all Client Entities or to a class or classes of Client Entities will be allocated among and charged to such Client Entities by application of one or more of the allocation methods described below.

Allocation Methods

The following methods will be applied, as indicated in the Description of Services section that follows, to allocate costs for services of a general nature.

- 1. Information Systems Chargeback Rates Rates for services, including but not limited to Software, Consulting, Mainframe, Midtier and Network Connectivity Services, are based on the costs of labor, materials and Information Services overheads related to the provision of each service. Such rates are applied based on the specific equipment employed and the measured usage of services by Client Entities. These rates will be determined annually based on actual experience and may be adjusted for any known and reasonably quantifiable events, or at such time as may be required due to significant changes.
- 2. Margin Revenue Ratio "Margin" is equal to the excess of sales revenues over the applicable cost of sales, i.e., cost of fuel for generation and gas for resale. The numerator is equal to margin revenues for a specific Client Entity and the denominator is equal to the combined margin revenues of all the applicable Client Entities. This ratio will be evaluated annually based on actual results of operations for the previous calendar year and may be adjusted for any known and reasonably quantifiable events, or at such time, based on results of operations for a subsequent twelve-month period, as may be required due to significant changes.
- 3. Number of Customers Ratio A ratio based on the number of retail electric and/or gas customers. This ratio will be determined annually based on the actual number of customers at the end of the previous calendar year and may be adjusted for any known and reasonably quantifiable events, or at such time as may be required due to significant changes.
- 4. Number of Employees Ratio A ratio based on the number of employees benefiting from the performance of a service. This ratio will be determined annually based on actual counts of applicable employees at the end of the previous calendar year and may be adjusted for any known and reasonably quantifiable events, or at such time as may be required due to significant changes.
- 5. Three-Factor Formula This formula will be determined annually based on the average of gross property (original cost of plant in service, excluding depreciation), payroll charges (salaries and wages, including overtime, shift premium and holiday pay, but not including pension, benefit and company-paid payroll taxes) and gross revenues during the previous calendar year and may be adjusted for any known and reasonably quantifiable events, or at such time as may be required due to significant changes.
- 6. Telecommunications Chargeback Rates Rates for use of telecommunications services other than those encompassed by Information Systems Chargeback Rates are based on the costs of labor, materials, outside services and Telecommunications overheads. Such rates are applied based on the specific equipment employment and the measured usage of services by Client Entities. These rates will be determined annually based on actual experience and may be adjusted for any known and reasonably quantifiable events, or at such time as may be required due to significant changes.
- 7. Gas Sales Ratio A ratio based on the actual number of dekatherms of natural gas sold by the applicable gas distribution or marketing operations. This ratio will be determined annually based on actual results of operations for the previous calendar year and may be adjusted for any known and reasonably quantifiable events, or at such time, based on results of operations for a subsequent twelve-month period, as may be required due to significant changes.

Description of Services

A description of each of the services performed by SCANA Service, which may be modified from time to time, is presented below. As discussed above, where identifiable, costs will be directly assigned or distributed to Client Entities. For costs accumulated in Account Codes which are for services of a general nature that cannot be directly assigned or distributed, the method or methods of allocation are also set forth. Substitution or changes may be made in the methods of allocation hereinafter specified, as may be appropriate, and will be provided to state regulatory agencies and to each affected Client Entity.

- 1. Information Systems Services Provides electronic data processing services. Costs of a general nature are allocated using the Information Systems Chargeback Rates.
- 2. Customer Services Provides billing, mailing, remittance processing, call center and customer communication services for electric and gas customers. Costs of a general nature are allocated using the Margin Revenue Ratio.
- 3. Marketing and Sales Establishing strategies, provides oversight for marketing, sales and branding of utility and related services and conducts marketing and sales programs. Costs of a general nature are allocated using the Number of Customers Ratio.
- 4. Employee Services Includes Human Resources which establishes and administers policies and oversees compliance with regulations in the areas of employment, compensation and benefits, processes payroll and administers corporate training. Also includes employee communications, facilities management and mail services. Costs of a general nature are allocated using the Number of Employees Ratio.
- 5. Corporate Compliance Oversees compliance with all laws, regulations and policies applicable to all of SCANA Corporation's businesses and directs compliance training. Costs of general nature are allocated using the Number of Employees Ratio.
- 6. Purchasing Provides procurement services. Costs of a general nature are allocated using the Three-Factor Formula.
- 7. Financial Services Provides treasury, accounting, tax, financial planning, rate and auditing services services. Costs of a general nature are allocated using the Three-Factor Formula.
- 8. Risk Management Provides insurance, claims, security, environmental and safety services. Costs of a general nature are allocated using the Three-Factor Formula.
- 9. Public Affairs Maintains relationships with government policy makers, conducts lobbying activities and provides community relations functions. Costs of a general nature are allocated using the Three-Factor Formula.
- 10. Legal Services Provides various legal services and general legal oversight; handles claims. Costs of a general nature are allocated using the Three-Factor Formula.
- 11. Investor Relations Maintains relationships with the financial community and provides shareholder services. Costs of a general nature are allocated using the Three-Factor Formula.
- 12. Telecommunications Provides telecommunications services, primarily the use of telephone equipment. Costs are allocated using the Telecommunications Chargeback Rates.

- $13.\ \mathrm{Gas}\ \mathrm{Supply}\ \mathrm{and}\ \mathrm{Capacity}\ \mathrm{Management}$ Provides gas supply and capacity management services. Costs of a general nature are allocated using the Gas Sales Ratio.
- 14. Strategic Planning Develops corporate strategies and business plans. Costs of a general nature are allocated using the Three- Factor Formula.
- 15. Executive Provides executive and general administrative services. Costs of a general nature are allocated using the Three-Factor Formula.

EXHIBIT C-2

SCANA Service Company Policies and Procedures

SCANA Service Company ("SCANA Service") will provide administrative, management and other services to the subsidiaries and business units within SCANA Corporation ("Client Entities") in accordance with the terms of Service Agreements. SCANA Service will provide the necessary accounting and procedural infrastructure to support the administration of the Service Agreements in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC") as promulgated in the Public Utility Holding Company Act of 1935 (the "1935 Act").

Service Requests and Agreements

SCANA Service and each Client Entity will enter into a Service Agreement that will set forth, in general terms, the services to be performed by each organization in SCANA Service directly for or on behalf of each Client Entity. Pursuant to the Service Agreement, SCANA Service and each Client Entity will prepare Service Request forms designed to provide guidance as to the service expectations of the parties thereto. The Service Request forms will be reviewed annually, or more often if necessary. The Service Agreements will be approved by authorized representatives of SCANA Service and the management of each Client Entity.

Service Requests will typically contain the following information:

1. Type and Scope of Services

- 2. Any Cost Parameters
- 3. Payment Terms
- 4. Applicable Contingencies

Accounting System

SCANA Service will maintain an accounting system that provides the ability to assign costs to the category of service to which they relate. The system also enables the costs of services to be charged directly to the Client Entity for which they were performed or, when appropriate, accumulated in such a manner that they can be distributed or allocated to two or more Client Entities using an approved methodology. The system will also generate all necessary Client Entity billing information.

The system is based on the use of codes to assign charges to the applicable Cost Center, Account Number or Project, Activity, Resource, and Event ("Account Codes"). The Account Numbers conform to the System of Accounts for Mutual Service Companies prescribed by the 1935 Act, as modified to include additional account numbers from the Federal Energy Regulatory Commission's Uniform System of Accounts to provide for the accumulation of costs of certain utility operating activities. The Account Codes facilitate the tracking of the cost of each service by its component costs, such as labor, materials and outside services, and provide the ability to break the costs of services down by amounts directly charged to specific Client Entities and amounts allocated.

Labor and labor-related costs will likely be the most significant costs that the SCANA Service incurs. Accordingly, SCANA Service will maintain a time-entry subsystem that enables SCANA Service employees to accurately assign hours worked to the appropriate Account Codes. All SCANA Service employees will prepare standard timesheets or similar records that indicate the purpose of each hour worked. The employee's supervisor will approve timesheets. Information from the timesheets will be entered into the time-entry subsystem no later than the last pay period to which it relates. Charges for labor will be made at each employee's effective hourly rate and will include the cost of pensions, other employee benefits and payroll taxes.

An initial training session for employees will occur in the beginning of March and will be conducted by accounting professionals to ensure understanding of the new coding procedures. All employees (both from SCANA Service and Client Entities) who code time and expenses will be included in this training. Ongoing support and follow-up will be provided through the same accounting professionals conducting the initial training. Moreover, additional training will be provided during the May time frame to ensure understanding of coding impact upon the system's financial statements as well as to provide instruction regarding the proper analysis of charges.

All other accounting subsystems, including accounts payable processing, will be designed to support the use of the necessary Account Codes. In all cases, the SCANA Service will retain the applicable underlying source documents that indicate the nature and purpose of the costs incurred.

To the extent practicable, SCANA Service employees will assign costs directly to the Account Codes associated with the services rendered. However, the full cost of providing services also includes certain indirect costs, e.g., departmental overheads, administrative and general costs, and taxes, which cannot be associated with specific services. Indirect costs will be associated with the services performed in proportion to the directly assigned costs of the services or other relevant cost allocators.

SCANA Service costs will be directly charged, distributed or allocated to Client Entities in the manner prescribed below.

- 1. Costs accumulated in Account Codes for services specifically performed for a single Client Entity will be directly charged to such Client Entity.
- 2. Costs accumulated in Account Codes for services specifically performed for two or more Client Entities will be distributed to such Client Entities using methods determined on a case-by-case basis consistent with the nature of the work performed and based on one of the approved allocation methods.
- 3. Costs accumulated in Account Codes for services of a general nature which are applicable to all Client Entities or to a class or classes of Client Entities will be allocated to such Client Entities by application of one or more approved allocation methods.

Billing

Monthly, SCANA Service will prepare and submit a bill to each Client Entity for services rendered. At a minimum, the bill will itemize the cost of each service charged to the Client Entity. The bill will be rendered by the 25th of the following month with payment due 30 days thereafter.

The management of each Client Entity is responsible for reviewing the bill from SCANA Service to determine the accuracy and appropriateness of the charges.

The accounting system contains the detailed transactions supporting the services billed. Using the system, SCANA Service will assist the Client Entities, as necessary, with the review and validation of charges. Any adjustments required will be made in the subsequent month. SCANA Service will put in place processes and applicable systems designed to provide information to Client Entities regarding services provided and related costs. The information should enable the Client Entities to determine if they have been billed consistent with the terms of the Service Agreements.

Accounting Department Responsibilities

The SCANA Service Accounting Department will be responsible for administering, monitoring and maintaining the processes by which SCANA Service costs are accumulated and billed to client entities. In connection with this responsibility, the Accounting Department will:

- 1. Coordinate the preparation of Service Requests
- 2. Control the establishment and use of SCANA Service Account Codes
- 3. Review and evaluate the reasonableness of monthly bills to each Client Entity $\ensuremath{\mathsf{E}}$
- 4. Assist Client Entities with the review and validation of charges

The Accounting Department will update all allocations used by the SCANA Service annually, or more often as conditions warrant, and maintain all documentation supporting the calculations. The Accounting Department will ensure the allocation methods are appropriate for the type of cost incurred, have been approved by the SEC and are consistent with applicable orders of state utility commissions.

Dispute Resolution

In the event disputes arise between the SCANA Service and the Client Entity over amounts billed, the Accounting Department and representatives of the Client Entity will attempt to resolve the issues. If necessary, the Chief Financial Officer will mediate. Unresolved disputes will be referred to Senior Management for final disposition.

Internal Review

The Audit Services Department will conduct periodic audits of the SCANA Service administration and accounting processes. The audits will include examinations of Service Agreements, accounting systems, source documents, allocation methods and billings to determine if services are authorized and properly accounted for. In addition, Service Request and Agreement policies, operating procedures and controls will be evaluated annually.

Evaluation and Measurement

Date: April 27, 2001

In order to encourage the efficient and cost competitive provision of services, SCANA Service will establish appropriate benchmarking measures and a customer review process. The customer review process will allow for input from the Client Entities as to the volume and value of the products and services provided by SCANA Service. This review will be part of the annual budget development process and the completion of the Service Requests and Agreements.
