**Item 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION**

On February 9, 2007, SCANA Corporation (together with its subsidiaries, the “Company”) issued the press release attached hereto as Exhibit 99.1. The press release discloses a non-GAAP measure, GAAP-adjusted net earnings from operations, which in 2006 excludes from net income (i) the cumulative effect of the Company’s adoption of Statement of Financial Accounting Standards 123(R), “Share-Based Payment,” and (ii) the favorable settlement of certain litigation and in 2005 excludes from net income the effects of sales of certain investments. The Company’s management believes that GAAP-adjusted net earnings from operations provides a meaningful representation of the Company’s fundamental earnings power and can aid in performing period-over-period financial analysis and comparison with peer group data. In management’s opinion, GAAP-adjusted net earnings from operations is a useful indicator of the financial results of the Company’s primary businesses. This measure is also a basis for management’s provision of earnings guidance and growth projections, and it is used by management in making resource allocation and other budgetary and operational decisions. This non-GAAP performance measure is not intended to replace the GAAP measure of net earnings, but is offered as a supplement to it.
