Item 2.02 Results of Operations and Financial Condition

On October 26, 2017, SCANA Corporation (the Company) issued the press release attached hereto as Exhibit 99.1. The press release discloses guidance for 2017 GAAP-adjusted weather-normalized earnings per share, which is a non-GAAP measure. This non-GAAP measure excludes the effects of abnormal weather in the electric business and the impairment loss associated with the abandoned new nuclear project.

The Company's management believes that this non-GAAP earnings measure provides a meaningful representation of the Company's fundamental earnings power and can aid in performing period-over-period financial analysis and comparison with peer group data. In management's opinion, this non-GAAP measure serves as a useful indicator of the financial results of the Company's primary businesses and as a basis for management's provision of earnings guidance. In addition, management uses this non-GAAP measure in part in making budgetary and operational decisions including determining eligibility for certain incentive compensation payments. This non-GAAP measure is not intended to replace the GAAP measure of earnings per share, but is offered as a supplement to that GAAP measure.
