Item 1 – Financial Statements

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
The First Bancorp, Inc.

We have reviewed the accompanying interim consolidated financial information of The First Bancorp, Inc. and Subsidiary as of September 30, 2016 and 2015 and for the three-month and nine-month periods then ended. These financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with standards of the Public Company Accounting Oversight Board (United States), the objective of which is to express an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

Notes to Consolidated Financial Statements

The First Bancorp, Inc. and Subsidiary

Note 1 – Basis of Presentation

The First Bancorp, Inc. ("the Company") is a financial holding company that owns all of the common stock of First National Bank ("the Bank"). The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of Management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. All significant intercompany transactions and balances are eliminated in consolidation. The income reported for the 2016 period is not necessarily indicative of the results that may be expected for the year ending December 31, 2016. For further information, refer to the consolidated financial statements and notes included in the Company's annual report on Form 10-K for the year ended December 31, 2015.

Subsequent Events

Events occurring subsequent to September 30, 2016, have been evaluated as to their potential impact to the financial statements.

Note 2 – Investment Securities

The following table summarizes the amortized cost and estimated fair value of investment securities at September 30, 2016:

	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value (Estimated)
Securities available for sale				
Mortgage-backed securities	\$258,179,000	\$3,848,000	\$(513,000)	\$261,514,000
State and political subdivisions	16,689,000	795,000	—	17,484,000
Other equity securities	3,258,000	55,000	(18,000)	3,295,000
	\$278,126,000	\$4,698,000	\$(531,000)	\$282,293,000
Securities to be held to maturity

	\$221,311,000	\$223,039,000	\$240,023,000	\$243,123,000

The following table summarizes the contractual maturities of investment securities at September 30, 2015:

	Securities available for sale		Securities to be held to maturity	
	Amortized	Fair Value	Amortized	Fair Value
	Cost	(Estimated)	Cost	(Estimated)
Due in 1 year or less	\$926,000	\$937,000	\$1,362,000	\$1,378,000
Due in 1 to 5 years	8,867,000	9,077,000	6,861,000	7,140,000
Due in 5 to 10 years	9,459,000	9,872,000	49,095,000	50,778,000
Due after 10 years	189,985,000	192,914,000	188,004,000	189,048,000
Equity securities	3,129,000	3,133,000	—	—
	\$212,366,000	\$215,933,000	\$245,322,000	\$248,344,000

At September 30, 2016, securities with a fair value of \$249,162,000 were pledged to secure public deposits, repurchase agreements, and for other purposes as required by law. This compares to securities with a fair value of \$201,879,000 as of December 31, 2015 and \$221,072,000 at September 30, 2015, pledged for the same purposes. Gains and losses on the sale of securities available for sale are computed by subtracting the amortized cost at the time of sale from the security's selling price, net of accrued interest to be received. The following table shows securities gains and losses for the nine months and quarters ended September 30, 2016 and 2015:

	For the nine months ended		For the quarter	
	September 30,		ended September	
	2016	2015	2016	2015
Proceeds from sales of securities	\$10,305,000	\$35,466,000	\$1,351,000	\$1,000
Gross realized gains	668,000	1,396,000	137,000	1,000
Gross realized losses	—	—	—	—
Net gain	\$668,000	\$1,396,000	\$137,000	\$1,000

Related income taxes	\$234,000	\$489,000	\$48,000	\$—
----------------------	-----------	-----------	----------	-----

Management reviews securities with unrealized losses for other than temporary impairment. As of September 30, 2016, there were 71 securities with unrealized losses held in the Company's portfolio. These securities were temporarily impaired as a result of changes in interest rates reducing their fair value, of which 13 had been temporarily impaired for 12 months or more. At the present time, there have been no material changes in the credit quality of these securities resulting in other than temporary impairment, and in Management's opinion, no additional write-down for other-than-temporary impairment is warranted. Information regarding securities temporarily impaired as of September 30, 2016 is summarized below:

	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized	Fair Value	Unrealized	Fair Value	Unrealized
	(Estimated)	Losses	(Estimated)	Losses	(Estimated)	Losses
Mortgage-backed securities	\$79,118,000	\$(468,000)	\$2,407,000	\$(79,000)	\$81,525,000	\$(547,000)
State and political subdivisions	13,666,000	(170,000)	—	—	13,666,000	(170,000)
Other equity securities	10,000	(2,000)	107,000	(16,000)	117,000	(18,000)
	\$92,794,000	\$(640,000)	\$2,514,000	\$(95,000)	\$95,308,000	\$(735,000)

As of December 31, 2015, there were 78 securities with unrealized losses held in the Company's portfolio. These securities were temporarily impaired as a result of changes in interest rates reducing their fair value, of which 15 had been temporarily impaired for 12 months or more. Information regarding securities temporarily impaired as of December 31, 2015 is summarized below:

	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized	Fair Value	Unrealized	Fair Value	Unrealized
	(Estimated)	Losses	(Estimated)	Losses	(Estimated)	Losses
U.S. Government-sponsored agencies	\$45,311,000	\$(1,469,000)	\$17,185,000	\$(815,000)	\$62,496,000	\$(2,284,000)
Mortgage-backed securities	120,915,000	(1,027,000)	910,000	(71,000)	121,825,000	(1,098,000)
State and political subdivisions	2,528,000	(24,000)	2,901,000	(63,000)	5,429,000	(87,000)
Other equity securities	64,000	(5,000)	52,000	(1,000)	116,000	(6,000)
	\$168,818,000	\$(2,525,000)	\$21,048,000	\$(950,000)	\$189,866,000	\$(3,475,000)

As of September 30, 2015, there were 88 securities with unrealized losses held in the Company's portfolio. These securities were temporarily impaired as a result of changes in interest rates reducing their fair value, of which 14 had been temporarily impaired for 12 months or more. Information regarding securities temporarily impaired as of September 30, 2015 is summarized below:

	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized	Fair Value	Unrealized	Fair Value	Unrealized
	(Estimated)	Losses	(Estimated)	Losses	(Estimated)	Losses
U.S. Government-sponsored agencies	\$46,621,000	\$(1,015,000)	\$17,444,000	\$(556,000)	\$64,065,000	\$(1,571,000)
Mortgage-backed securities	30,713,000	(266,000)	989,000	(63,000)	31,702,000	(329,000)
State and political subdivisions	14,417,000	(207,000)	2,374,000	(130,000)	16,791,000	(337,000)
Other equity securities	264,000	(34,000)	51,000	(2,000)	315,000	(36,000)
	\$92,015,000	\$(1,522,000)	\$20,858,000	\$(751,000)	\$112,873,000	\$(2,273,000)

During the third quarter of 2014, the Company transferred securities with a total amortized cost of \$89,780,000 with a corresponding fair value of \$89,757,000 from available for sale to held to maturity. The net unrealized loss, net of taxes, on these securities at the date of the transfer was \$15,000. The net unrealized holding loss at the time of transfer continues to be reported in accumulated other comprehensive income (loss), net of tax and is amortized over the remaining lives of the securities as an adjustment of the yield. The amortization of the net unrealized loss reported in accumulated other comprehensive income (loss) will offset the effect on interest income of the discount for the transferred securities. The

remaining unamortized balance of the net unrealized losses for the securities transferred from available for sale to held to maturity was \$124,000 at September 30, 2016. These securities were transferred as a part of the Company's overall investment and balance sheet strategies.

The Bank is a member of the Federal Home Loan Bank ("FHLB") of Boston, a cooperatively owned wholesale bank for housing and finance in the six New England States. As a requirement of membership in the FHLB, the Bank must own a minimum required amount of FHLB stock, calculated periodically based primarily on its level of borrowings from the FHLB. The Bank uses the FHLB for much of its wholesale funding needs. As of September 30, 2016 and 2015, and December 31, 2015, the Bank's investment in FHLB stock totaled \$13,011,000, \$12,875,000 and \$13,220,000, respectively. FHLB stock is a non-marketable equity security and therefore is reported at cost, which equals par value. The Company periodically evaluates its investment in FHLB stock for impairment based on, among other factors, the capital adequacy of the FHLB and its overall financial condition. No impairment losses have been recorded through September 30, 2016. The Bank will continue to monitor its investment in FHLB stock.

Note 3 – Loans

The following table shows the composition of the Company's loan portfolio as of September 30, 2016 and 2015 and at December 31, 2015:

	September 30, 2016		December 31, 2015		September 30, 2015	
Commercial						
Real estate	\$297,808,000	28.9 %	\$269,462,000	27.3 %	\$268,741,000	27.9 %
Construction	18,828,000	1.8 %	24,881,000	2.5 %	23,624,000	2.5 %
Other	131,198,000	12.8 %	128,341,000	13.0 %	119,097,000	12.4 %
Municipal	26,153,000	2.5 %	19,751,000	2.0 %	21,377,000	2.2 %
Residential						
Term	403,159,000	39.2 %	403,030,000	40.7 %	385,145,000	39.9 %
Construction	14,269,000	1.4 %	8,451,000	0.9 %	12,029,000	1.2 %
Home equity line of credit	111,994,000	10.9 %	110,202,000	11.1 %	109,390,000	11.4 %
Consumer	25,583,000	2.5 %	24,520,000	2.5 %	23,748,000	2.5 %
Total	\$1,028,992,000	100.0 %	\$988,638,000	100.0 %	\$963,151,000	100.0 %

Loan balances include net deferred loan costs of \$4,648,000 as of September 30, 2016, \$3,686,000 as of December 31, 2015, and \$3,452,000 as of September 30, 2015. Pursuant to collateral agreements, qualifying first mortgage loans, which totaled \$262,001,000 at September 30, 2016, \$279,463,000 at December 31, 2015, and \$281,925,000 at September 30, 2015, were used to collateralize borrowings from the FHLB. In addition, commercial, construction and home equity loans totaling \$261,416,000 at September 30, 2016, \$243,578,000 at December 31, 2015, and \$251,937,000 at September 30, 2015, were used to collateralize a standby line of credit at the Federal Reserve Bank of Boston that is currently unused.

For all loan classes, loans over 30 days past due are considered delinquent. Information on the past-due status of loans by class of financing receivable as of September 30, 2016, is presented in the following table:

	30-59 Days Past Due	60-89 Days Past Due	90+ Days Past Due	All Past Due	Current	Total	90+ Days & Accruing

For all classes, loans are placed on non-accrual status when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement or when principal and interest is 90 days or more past due unless the loan is both well secured and in the process of collection (in which case the loan may continue to accrue interest in spite of its past due status). A loan is "well secured" if it is secured (1) by collateral in the form of liens on or pledges of real or personal property, including securities, that have a realizable value sufficient to discharge the debt (including accrued interest) in full, or (2) by the guarantee of a financially responsible party. A loan is "in the process of collection" if collection of the loan is proceeding in due course either (1) through legal action, including judgment enforcement procedures, or, (2) in appropriate circumstances, through collection efforts not involving legal action which are reasonably expected to result in repayment of the debt or in its restoration to a current status in the near future.

Cash payments received on non-accrual loans, which are included in impaired loans, are applied to reduce the loan's principal balance until the remaining principal balance is deemed collectible, after which interest is recognized when collected. As a general rule, a loan may be restored to accrual status when payments are current for a substantial period of time, generally six months, and repayment of the remaining contractual amounts is expected or when it otherwise becomes well secured and in the process of collection. Information on nonaccrual loans as of September 30, 2016 and 2015 and at December 31, 2015 is presented in the following table:

	September 30, 2016	December 31, 2015	September 30, 2015

Total	\$ 7,130,000	\$ 7,372,000	\$ 7,981,000

Impaired loans include troubled debt restructured and loans placed on non-accrual. These loans are measured at the present value of expected future cash flows discounted at the loan's effective interest rate or at the fair value of the collateral if the loan is collateral dependent. If the measure of an impaired loan is lower than the recorded investment in the loan and estimated selling costs, a specific reserve is established for the difference, or, in certain situations, if the measure of an impaired loan is lower than the recorded investment in the loan and estimated selling costs, the difference is written off.

A breakdown of impaired loans by class of financing receivable as of and for the period ended September 30, 2016 is presented in the following table:

Troubled Debt Restructured

A troubled debt restructured ("TDR") constitutes a restructuring of debt if the Company, for economic or legal reasons related to the borrower's financial difficulties, grants a concession to the borrower that it would not otherwise consider. To determine whether or not a loan should be classified as a TDR, Management evaluates a loan based upon the following criteria:

- The borrower demonstrates financial difficulty; common indicators include past due status with bank obligations, substandard credit bureau reports, or an inability to refinance with another lender, and
- The Company has granted a concession; common concession types include maturity date extension, interest rate adjustments to below market pricing, and deferment of payments.

As of September 30, 2016, the Company had 75 loans with a value of \$22,025,000 that have been classified as TDRs. This compares to 84 loans with a value of \$23,923,000 and 88 loans with a value of \$24,715,000 classified as TDRs as of December 31, 2015 and September 30, 2015, respectively. The impairment carried as a specific reserve in the allowance for loan losses is calculated by present valuing the expected cash flows on the loan at the original interest rate, or, for collateral-dependent loans, using the fair value of the collateral less costs to sell.

The following table shows TDRs by class and the specific reserve as of September 30, 2016:

	Number of Loans	Balance	Specific Reserves
Commercial			
Real estate	11	\$9,221,000	\$116,000
Construction	1	788,000	99,000

Construction	—	—	—
Home equity line of credit	—	—	—
Consumer	—	—	—
	10	\$1,593,000	\$96,000

For the nine months ended September 30, 2016, no loans were placed on TDR status. This compares to one loan placed on TDR status with a post-modification outstanding balance of \$108,000 for the nine months ended September 30, 2015. This was considered a TDR because concessions had been granted to borrowers experiencing financial difficulties. Concessions include reductions in interest rates, principal and/or interest forbearance, payment extensions, or combinations thereof.

The following table shows loans placed on TDR status in the nine months ended September 30, 2015, by class of loan and the associated specific reserve included in the allowance for loan losses as of September 30, 2015:

	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment	Specific Reserves

Home equity line of credit	—	—	—	—
Consumer	—	—	—	—
	1	\$ 111,000	\$ 108,000	\$ —

For the quarter ended September 30, 2016 no loans were placed on TDR status. This compares to one loan placed on TDR status with a post-modification outstanding balance of \$108,000 for the quarter ended September 30, 2015. This was considered a TDRs because concessions had been granted to borrowers experiencing financial difficulties. Concessions include reductions in interest rates, principal and/or interest forbearance, payment extensions, or combinations thereof.

The following table shows loans placed on TDR status in the three months ended September 30, 2015, by class of loan and the associated specific reserve included in the allowance for loan losses as of September 30, 2015:

	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment	Specific Reserves
Commercial				
Real estate	—	\$ —	\$ —	\$ —
Construction	—	—	—	—
Other	—	—	—	—
Municipal	—	—	—	—
Residential				
Term	1	111,000	108,000	—
Construction	—	—	—	—
Home equity line of credit	—	—	—	—
Consumer	—	—	—	—
	1	\$ 111,000	\$ 108,000	\$ —

As of September 30, 2016, Management is aware of six loans classified as TDRs that are involved in bankruptcy with an outstanding balance of \$1,062,000. There were also nine loans with an outstanding balance of \$971,000 that were classified as TDRs and on non-accrual status. Three loans with an outstanding balance of \$222,000, that were classified as TDRs, were in the process of foreclosure.

Residential Mortgage Loans in Process of Foreclosure

As of September 30, 2016, there were 13 mortgage loans collateralized by residential real estate in the process of foreclosure with a total balance of \$1,508,000; this compares to 18 mortgage loans collateralized by residential real estate in the process of foreclosure with a total balance of \$2,038,000 as of September 30, 2015.

Note 4. Allowance for Loan Losses

The Company provides for loan losses through the establishment of an allowance for loan losses which represents an estimated reserve for existing losses in the loan portfolio. A systematic methodology is used for determining the allowance that includes a quarterly review process, risk rating changes, and adjustments to the allowance. The loan portfolio is classified in eight classes and credit risk is evaluated separately in each class. The appropriate level of the allowance is evaluated continually based on a review of significant loans, with a particular emphasis on nonaccruing, past due, and other loans that may require special attention. Other factors include general conditions in local and national economies; loan portfolio composition and asset quality indicators; and internal factors such as changes in underwriting policies, credit administration practices, experience, ability and depth of lending management, among others. The allowance consists of four elements: (1) specific reserves for loans evaluated individually for impairment; (2) general reserves for each portfolio segment based on historical loan loss experience, (3) qualitative reserves judgmentally adjusted for local and national economic conditions, concentrations, portfolio composition, volume and severity of delinquencies and nonaccrual loans, trends of criticized and classified loans, changes in credit policies and underwriting standards, credit administration practices, and other factors as applicable for each portfolio segment; and (4) unallocated reserves. All outstanding loans are considered in evaluating the appropriateness of the allowance.

Edgar Filing: First Bancorp, Inc /ME/ - Form 10-Q

A breakdown of the allowance for loan losses as of September 30, 2016, December 31, 2015, and September 30, 2015, by class of financing receivable and allowance element, is presented in the following tables:

As of September 30, 2016	Specific Reserves on Loans Evaluated Individually for Impairment	General Reserves on Loans Based on Historical Loss Experience	Reserves for Qualitative Factors	Unallocated Reserves	Total Reserves
Commercial					
Real estate	\$ 381,000	\$ 1,303,000	\$ 2,355,000	\$—	\$ 4,039,000

Construction	—	9,000	13,000	—	22,000
Home equity line of credit	30,000	530,000	341,000	—	901,000
Consumer	—	346,000	216,000	—	562,000
Unallocated	—	—	—	1,926,000	1,926,000
	\$ 826,000	\$ 2,863,000	\$ 4,062,000	\$ 1,926,000	\$ 9,677,000

Qualitative adjustment factors are taken into consideration when determining reserve estimates. These adjustment factors are based upon Management's evaluation of various current conditions, including those listed below.

General economic conditions.

- Credit quality trends with emphasis on loan delinquencies, nonaccrual levels and classified loans.

Recent loss experience in particular segments of the portfolio.

Loan volumes and concentrations, including changes in mix.

Other factors, including changes in quality of the loan origination; loan policy changes; changes in credit risk management processes; Bank regulatory and external loan review examination results.

The qualitative portion of the allowance for loan losses was 0.46% of related loans as of September 30, 2016 and 0.45% as of December 31, 2015. The qualitative portion increased \$253,000 between December 31, 2015 and September 30, 2016 due to an increase in loans outstanding. Due to the increased commercial loan volume this year and potential weaknesses in a small number of credits which are currently performing, the Company is carrying a \$1,000,000 overlay in pooled reserves.

The unallocated component of the allowance totaled \$1,338,000 at September 30, 2016, or 13.0% of the total reserve, up slightly from the second quarter 2016. This compares to \$1,873,000 or 18.9% as of December 31, 2015.

Management feels the change in the unallocated is consistent with improvement in credit quality.

The allowance for loan losses as a percent of total loans stood at 1.00% as of September 30, 2016. This compares to 1.00% of total loans as of December 31, 2015 and September 30, 2015.

Commercial loans are comprised of three major classes, commercial real estate loans, commercial construction loans and other commercial loans. Commercial real estate is primarily comprised of loans to small businesses collateralized by owner-occupied real estate, while other commercial is primarily comprised of loans to small businesses collateralized by plant and equipment, commercial fishing vessels and gear, and limited inventory-based lending. Commercial real estate loans typically have a maximum loan-to-value of 80% based upon current appraisal information at the time the loan is made. Municipal loans are comprised of loans to municipalities in Maine for capitalized expenditures, construction projects or tax-anticipation notes. All municipal loans are considered general obligations of the municipality and as such are collateralized by the taxing ability of the municipality for repayment of debt.

Construction, land and land development loans, both commercial and residential, comprise a small portion of the portfolio, and at 21.9% of capital are below the regulatory limit of 100.0% of capital at September 30, 2016.

Construction loans and non-owner-occupied commercial real estate loans are at 102.9% of total capital, below the regulatory limit of 300.0% of capital at September 30, 2016.

The process of establishing the allowance with respect to the commercial loan portfolio begins when a loan officer initially assigns each loan a risk rating, using established credit criteria. Approximately 50% of the outstanding loans and commitments are subject to review and validation annually by an independent consulting firm, as well as periodically by the Company's internal credit review function. The methodology employs Management's judgment as to the level of losses on existing loans based on internal review of the loan portfolio, including an analysis of a borrower's current financial position, and the consideration of current and anticipated economic conditions and their potential effects on specific borrowers and or lines of business.

In determining the Company's ability to collect certain loans, Management also considers the fair value of underlying collateral. The risk rating system has eight levels, defined as follows:

1 Strong

Credits rated "1" are characterized by borrowers fully responsible for the credit with excellent capacity to pay principal and interest. Loans rated "1" may be secured with acceptable forms of liquid collateral.

2 Above Average

Credits rated "2" are characterized by borrowers that have better than average liquidity, capitalization, earnings and/or cash flow with a consistent record of solid financial performance.

3 Satisfactory

Credits rated "3" are characterized by borrowers with favorable liquidity, profitability and financial condition with adequate cash flow to pay debt service.

4 Average

Credits rated "4" are characterized by borrowers that present risk more than 1, 2 and 3 rated loans and merit an ordinary level of ongoing monitoring. Financial condition is on par or somewhat below industry averages while cash flow is generally adequate to meet debt service requirements.

5 Watch

Credits rated "5" are characterized by borrowers that warrant greater monitoring due to financial condition or unresolved and identified risk factors.

6 Other Assets Especially Mentioned (OAEM)

Loans in this category are currently protected but are potentially weak and constitute an undue and unwarranted credit risk, but not to the point of justifying a classification of substandard. OAEM have potential weaknesses which may, if not checked or corrected, weaken the asset or inadequately protect the Company's credit position at some future date.

7 Substandard

Loans in this category are inadequately protected by the paying capacity of the borrower or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. Substandard loans are characterized by the distinct possibility that the Company may sustain some loss if the deficiencies are not corrected.

8 Doubtful

Loans classified "Doubtful" have the same weaknesses as those classified substandard with the added characteristic that the weaknesses make collection or liquidation in full, based on currently existing facts, conditions, and values, highly questionable and improbable. The possibility of loss is high, but because of certain important and reasonably specific pending factors which may work to the advantage and strengthening of the asset, its classification as an estimated loss is deferred until its more exact status may be determined.

The following table summarizes the risk ratings for the Company's commercial real estate, commercial construction, commercial other, and municipal loans as of September 30, 2016:

	Commercial Real Estate	Commercial Construction	Commercial Other	Municipal Loans	All Risk- Rated Loans
1 Strong	\$2,000	\$—	\$721,000	\$—	\$723,000
2 Above Average	24,225,000	53,000	9,546,000	24,592,000	58,416,000
3 Satisfactory	72,082,000	824,000	24,032,000	1,561,000	98,499,000
4 Average	133,835,000	12,764,000	67,811,000	—	214,410,000

Total	\$268,741,000	\$23,624,000	\$119,097,000	\$21,377,000	\$432,839,000

Commercial loans are generally charged off when all or a portion of the principal amount is determined to be uncollectible. This determination is based on circumstances specific to a borrower including repayment ability, analysis of collateral and other factors as applicable.

Residential loans are comprised of two classes: term loans, which include traditional amortizing home mortgages, and construction loans, which include loans for owner-occupied residential construction. Residential loans typically have a 75% to 80% loan to value based upon current appraisal information at the time the loan is made. Home equity loans and lines of credit are typically written to the same underwriting standards. Consumer loans are primarily amortizing loans to individuals collateralized by automobiles, pleasure craft and recreation vehicles, typically with a maximum loan to value of 80% to 90% of the purchase price of the collateral. Consumer loans also include a small amount of unsecured short-term time notes to individuals.

Residential loans, consumer loans and home equity lines of credit are segregated into homogeneous pools with similar risk characteristics. Trends and current conditions are analyzed and historical loss experience is adjusted accordingly. Quantitative and qualitative adjustment factors for these segments are consistent with those for the commercial and municipal classes. Certain loans in the residential, home equity lines of credit and consumer classes identified as having the potential for further deterioration are analyzed individually to confirm impairment status, and to determine the need for a specific reserve; however there is no formal rating system used for these classes. Consumer loans greater than 120 days past due are generally charged off. Residential loans 90 days or more past due are placed on non-accrual status unless the loans are both well secured and in the process of collection. One- to four-family residential real estate loans and home equity loans are written down or charged-off no later than 180 days past due, or for residential real estate secured loans having a borrower in bankruptcy, within 60 days of receipt of notification of filing from the bankruptcy court, whichever is sooner. This is subject to completion of a current assessment of the value of the collateral with any outstanding loan balance in excess of the fair value of the property, less costs to sell,

written down or charged-off.

There were no changes to the Company's accounting policies or methodology used to estimate the allowance for loan losses during the nine months ended September 30, 2016.

Note 5 – Stock Options and Stock-Based Compensation

At the 2010 Annual Meeting, shareholders approved the 2010 Equity Incentive Plan (the "2010 Plan"). This reserves 400,000 shares of common stock for issuance in connection with stock options, restricted stock awards and other equity based awards to attract and retain the best available personnel, provide additional incentive to officers, employees and non-employee Directors and promote the success of our business. Such grants and awards will be structured in a manner that does not encourage the recipients to expose the Company to undue or inappropriate risk. Options issued under the 2010 Plan will qualify for treatment as incentive stock options for purposes of Section 422 of the Internal Revenue Code. Other compensation under the 2010 Plan will qualify as performance-based for purposes of Section 162(m) of the Internal Revenue Code, and will satisfy NASDAQ guidelines relating to equity compensation.

As of September 30, 2016, 108,710 shares of restricted stock had been granted under the 2010 Plan, of which 67,064 shares remain restricted as of September 30, 2016 as detailed in the following table:

Year	Vesting Term	Shares	Remaining Term
Granted(In Years)			(In Years)
2012	5.0	7,996	0.2
2013	5.0	14,776	1.2
2014	5.0	10,422	2.2
2015	5.0	12,023	3.2
2016	1.0	6,832	0.2
2016	5.0	15,015	4.2
		67,064	2.2

The compensation cost related to these restricted stock grants is \$1,140,000 and will be recognized over the vesting terms of each grant. In the nine months ended September 30, 2016, \$215,000 of expense was recognized for these restricted shares, leaving \$540,000 in unrecognized expense as of September 30, 2016. In the nine months ended September 30, 2015, \$222,000 of expense was recognized for restricted shares, leaving \$419,000 in unrecognized expense as of September 30, 2015.

The Company established a shareholder-approved stock option plan in 1995 (the "1995 Plan"), under which the Company granted options to employees for 600,000 shares of common stock. Only incentive stock options were granted under the 1995 Plan. The option price of each option grant was determined by the Options Committee of the Board of Directors, and in no instance was less than the fair market value on the date of the grant. An option's maximum term was ten years from the date of grant, with 50% of the options granted vesting two years from the date of grant and the remaining 50% vesting five years from the date of grant. As of January 16, 2005, all options under the 1995 Plan had been granted, and as of January 16, 2015, all options granted under the 1995 plan had been exercised or expired.

Note 6 – Preferred and Common Stock

Preferred Stock

On January 9, 2009, the Company issued \$25,000,000 in Fixed Rate Cumulative Perpetual Preferred Stock, Series A, to the U.S. Treasury ("Treasury") under the Capital Purchase Program ("the CPP Shares"). The CPP Shares qualified as Tier 1 capital on the Company's books for regulatory purposes and ranked senior to the Company's common stock and senior or at an equal level in the Company's capital structure to any other shares of preferred stock the Company may issue in the future. In three separate transactions in 2012 and 2013, the Company repurchased all of the CPP shares from the Treasury.

Incident to such issuance of the CPP shares, the Company issued to the Treasury warrants (the "Warrants") to purchase up to 225,904 shares of the Company's common stock at a price per share of \$16.60 (subject to adjustment). The Warrants (and any shares of common stock issuable pursuant to the Warrants) are freely transferable by the Treasury to third parties. The Warrants have a term of ten years and could be exercised by the Treasury or a subsequent holder at any time or from time to time during their term. To the extent they had not previously been exercised, the Warrants will expire after ten years. The Warrants were unchanged as a result of the CPP Shares repurchase transactions.

In May 2015, the Treasury sold all of the Warrants to private parties. In accordance with the contractual terms of the Warrants, the number of shares issuable upon exercise of the warrants and strike price were adjusted at the time of the sale. As a result of this transaction, the number of issuable shares under the Warrants now stands at 226,819 shares with a strike price of \$16.53 per share.

Common Stock

Proceeds from sale of common stock totaled \$391,000 and \$343,000 for the nine months ended September 30, 2016 and 2015, respectively.

Note 7 – Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share (EPS) for the nine months ended September 30, 2016 and 2015:

	Income (Numerator)	Shares (Denominator)	Per-Share Amount
For the nine months ended September 30, 2016			
Net income as reported	\$ 13,689,000		
Basic EPS: Income available to common shareholders	13,689,000	10,709,901	\$ 1.28
Effect of dilutive securities: restricted stock and warrants		110,492	
Diluted EPS: Income available to common shareholders plus assumed conversions	\$ 13,689,000	10,820,393	\$ 1.27
For the nine months ended September 30, 2015			
Net income as reported	\$ 12,437,000		
Basic EPS: Income available to common shareholders	12,437,000	10,671,573	\$ 1.17
Effect of dilutive securities: restricted stock and warrants		80,706	
Diluted EPS: Income available to common shareholders plus assumed conversions	\$ 12,437,000	10,752,279	\$ 1.16

The following table sets forth the computation of basic and diluted EPS for the quarters ended September 30, 2016 and 2015.

	Income (Numerator)	Shares (Denominator)	Per-Share Amount
For the quarter ended September 30, 2016			
Net income as reported	\$ 4,562,000		
Basic EPS: Income available to common shareholders	4,562,000	10,718,873	\$ 0.43
Effect of dilutive securities: restricted stock and warrants		125,495	
Diluted EPS: Income available to common shareholders plus assumed conversions	\$ 4,562,000	10,844,368	\$ 0.42
For the quarter ended September 30, 2015			
Net income as reported	\$ 4,188,000		
Basic EPS: Income available to common shareholders	4,188,000	10,677,922	\$ 0.39
Effect of dilutive securities: restricted stock and warrants		95,278	
Diluted EPS: Income available to common shareholders plus assumed conversions	\$ 4,188,000	10,773,200	\$ 0.39

All earnings per share calculations have been made using the weighted average number of shares outstanding during the period. The potentially dilutive securities are unvested shares of restricted stock granted to certain key members of Management and the warrants. The number of dilutive shares is calculated using the treasury method, assuming that all warrants were exercisable at the end of each period. Warrants that are out-of-the-money are not considered in the calculation of dilutive earnings per share as the effect would be anti-dilutive.

The following table presents the number of warrants outstanding as of September 30, 2016 and 2015 and the amount for which the average market price at period end is above or below the strike price:

	Outstanding		
	In-the-Money	Out-of-the-Money	
For the three and nine months ended September 30, 2016			
Warrants to private parties	226,819	226,819	—
Total	226,819	226,819	—
For the three and nine months ended September 30, 2015			
Warrants issued to Treasury	226,819	226,819	—
Total	226,819	226,819	—

Note 8 – Employee Benefit Plans

401(k) Plan

The Bank has a defined contribution plan available to substantially all employees who have completed 3 months of service. Employees may contribute up to Internal Revenue Service ("IRS") determined limits and the Bank may match employee contributions not to exceed 3.0% of compensation depending on contribution level. Subject to a vote of the Board of Directors, the Bank may also make a profit-sharing contribution to the Plan. Such contribution equaled 2.0% of each eligible employee's compensation in 2015. The amount for 2016 has not been established. The expense related to the 401(k) plan was \$338,000 and \$333,000 for the nine months ended September 30, 2016 and 2015, respectively.

Deferred Compensation and Supplemental Retirement Benefits

The Bank also provides unfunded, non-qualified deferred compensation payable over two years, as well as unfunded supplemental retirement benefits for certain officers, payable in installments over 20 years upon retirement or death. The agreements consist of individual contracts with differing characteristics that, when taken together, do not constitute a postretirement plan. The costs for these benefits are recognized over the service periods of the participating officers in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 712 "Compensation – Nonretirement Postemployment Benefits". The expense of these supplemental retirement benefits was \$161,000 for the nine months ended September 30, 2016 and \$234,000 for the same period in 2015. As of September 30, 2016, the associated accrued liability included in other liabilities in the balance sheet was \$3,072,000 compared to \$3,088,000 and \$3,074,000 at December 31, 2015 and September 30, 2015, respectively.

Post-Retirement Benefit Plans

The Bank sponsors two post-retirement benefit plans. One plan currently provides a subsidy for health insurance premiums to certain retired employees and a future subsidy for seven active employees who were age 50 and over in 1996. These subsidies are based on years of service and range between \$40 and \$1,200 per month per person. The other plan provides life insurance coverage to certain retired employees and health insurance for retired directors. None of these plans are pre-funded. The Company utilizes FASB ASC Topic 712 to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in its balance sheet and to recognize changes in the funded status in the year in which the changes occur through comprehensive income. The following table sets forth the accumulated postretirement benefit obligation and funded status:

	At or for the nine months ended September 30,	
	2016	2015
Change in benefit obligation		
Benefit obligation at beginning of year	\$1,967,000	\$1,928,000
Service cost	—	—
Interest cost	63,000	54,000
Benefits paid	(90,000)	(78,000)
Benefit obligation at end of period	\$1,940,000	\$1,904,000
Funded status		
Benefit obligation at end of period	\$(1,940,000)	\$(1,904,000)
Unamortized loss	240,000	192,000
Accrued benefit cost at end of period	\$(1,700,000)	\$(1,712,000)

The following table sets forth the net periodic pension cost:

	For the nine months ended September 30,		For the quarter ended September 30,	
	2016	2015	2016	2015

Components of net periodic benefit cost

Edgar Filing: First Bancorp, Inc /ME/ - Form 10-Q

Service cost	\$—	\$—	\$—	\$—
Interest cost	63,000	54,000	21,000	18,000
Net periodic benefit cost	\$63,000	\$54,000	\$21,000	\$18,000

Page 30

Amounts not yet reflected in net periodic benefit cost and included in accumulated other comprehensive income (loss) are as follows:

	September 30, 2016	December 31, 2015	September 30, 2015
Unamortized net actuarial loss	\$ (240,000)	\$(240,000)	\$ (192,000)
Deferred tax benefit at 35%	84,000	84,000	67,000
Net unrecognized postretirement benefits included in accumulated other comprehensive income (loss)	\$ (156,000)	\$(156,000)	\$ (125,000)

A weighted average discount rate of 4.25% was used in determining the accumulated benefit obligation and the net periodic benefit cost. The assumed health care cost trend rate is 7.0%. The measurement date for benefit obligations was as of year-end for prior years presented. The expected benefit payments for all of 2016 are \$121,000. Plan expense for 2016 is estimated to be \$85,000. A 1% change in trend assumptions would create an approximate change in the same direction of \$100,000 in the accumulated benefit obligation, \$7,000 in the interest cost and \$1,000 in the service cost.

Note 9 - Other Comprehensive Income (Loss)

The following table summarizes activity in the unrealized gain or loss on available for sale securities included in other comprehensive income (loss) for the nine months and quarters ended September 30, 2016 and 2015.

	For the nine months ended September 30,		For the quarter ended September 30,	
	2016	2015	2016	2015
Balance at beginning of period	\$1,123,000	\$2,522,000	\$4,000,000	\$988,000
Unrealized gains (losses) arising during the period	3,106,000	1,082,000	(1,851,000)	2,047,000
Reclassification of realized gains during the period	(668,000)	(1,396,000)	(137,000)	(1,000)
Related deferred taxes	(853,000)	110,000	696,000	(716,000)
Net change	1,585,000	(204,000)	(1,292,000)	1,330,000
Balance at end of period	\$2,708,000	\$2,318,000	\$2,708,000	\$2,318,000

The reclassification of realized gains is included in the net securities gains line of the consolidated statements of income and comprehensive income and the tax effect is included in the income tax expense line of the same statement. The following table summarizes activity in the unrealized loss on securities transferred from available for sale to held to maturity included in other comprehensive income (loss) for the nine months and quarters ended September 30, 2016 and 2015.

	For the nine months ended September 30,		For the quarter ended September 30,	
	2016	2015	2016	2015
Balance at beginning of period	\$(112,000)	\$(48,000)	\$(133,000)	\$(84,000)
Amortization of net unrealized gains (losses)	(18,000)	(78,000)	14,000	(51,000)
Related deferred taxes	6,000	27,000	(5,000)	36,000
Net change	(12,000)	(51,000)	9,000	(15,000)
Balance at end of period	\$(124,000)	\$(99,000)	\$(124,000)	\$(99,000)

The following table presents the effect of the Company's derivative financial instruments included in other comprehensive income (loss) for the nine months and quarters ended September 30, 2016 and 2015.

	For the nine months ended		For the quarter ended	
	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
Balance at beginning of period	\$—	\$—	\$(135,000)	\$—
Unrealized gains on cash flow hedging derivatives arising during the period	90,000	—	298,000	—
Related deferred taxes	(32,000)	—	(105,000)	—
Net change	58,000	—	193,000	—
Balance at end of period	\$58,000	\$—	-\$58,000	\$—

The following table summarizes activity in the unrealized gain or loss on postretirement benefits included in other comprehensive income (loss) for the nine months and quarters ended September 30, 2016 and 2015.

	For the nine months ended September 30,		For the quarter ended September 30,	
	2016	2015	2016	2015
Unrecognized postretirement benefits at beginning of period	\$(156,000)	\$(125,000)	\$(156,000)	\$(125,000)
Amortization of unrecognized transition obligation	—	—	—	—
Change in unamortized net actuarial gain (loss)	—	—	—	—
Related deferred taxes	—	—	—	—
Unrecognized postretirement benefits at end of period	\$(156,000)	\$(125,000)	\$(156,000)	\$(125,000)

Note 10 - Financial Derivative Instruments

As part of its overall asset and liability management strategy, the Company periodically uses derivative instruments to minimize significant unplanned fluctuations in earnings and cash flows caused by interest rate volatility. The Company's interest rate risk management strategy involves modifying the re-pricing characteristics of certain assets or liabilities so that changes in interest rates do not have a significant effect on net interest income.

The Company recognizes its derivative instruments in the consolidated balance sheet at fair value. On the date the derivative instrument is entered into, the Company designates whether the derivative is part of a hedging relationship (i.e., cash flow or fair value hedge). The Company formally documents relationships between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking hedge transactions. The Company also assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives used in hedging transactions are highly effective in offsetting the changes in cash flows or fair values of hedged items. Changes in fair value of derivative instruments that are highly effective and qualify as cash flow hedges are recorded in other comprehensive income or loss. Any ineffective portion is recorded in earnings. The Company discontinues hedge accounting when it is determined that the derivative is no longer highly effective in offsetting changes of the hedged risk on the hedged item, or management determines that the designation of the derivative as a hedging instrument is no longer appropriate.

In 2016, interest rate swaps were contracted to limit the Company's exposure to rising interest rates on short-term liabilities indexed to one-month London Inter-bank Offered Rates (LIBOR). The interest rate swaps were designated as cash flow hedges.

The details of the interest rate swap agreements are as follows:

Notional Amount	Effective Date	Maturity Date	Variable Index	Received	Fixed Rate Paid	As of September 30	
						2016	2015
						Fair Value ⁽¹⁾	Fair Value ⁽¹⁾
\$30,000,000	June 28, 2016	June 28, 2021	1-Month USD LIBOR		0.940%	\$ 28,000	\$ —
\$20,000,000	June 27, 2016	June 27, 2021	1-Month USD LIBOR		0.893%	\$ 62,000	—
\$50,000,000						\$ 90,000	\$ —

⁽¹⁾ Presented within other assets in the consolidated balance sheet.

The Company would reclassify unrealized gains or losses accounted for within accumulated other comprehensive income (loss) into earnings if the interest rate swaps were to become ineffective or the swaps were to terminate. In the next 12 months, the Company does not believe it will be required to reclassify any unrealized gains or losses accounted for within accumulated other comprehensive income (loss) into earnings as a result of ineffectiveness or swap termination. Amounts paid or received under the swaps are reported in interest expense in the statement of income, and in interest paid in the statement of cash flows.

Note 11 – Mortgage Servicing Rights

FASB ASC Topic 860 "Transfers and Servicing" requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair value, if practicable. The Company's servicing assets and servicing liabilities are reported using the amortization method and carried at the lower of amortized cost or fair value by strata. In evaluating the carrying values of mortgage servicing rights, the Company obtains third party valuations based on loan level data including note rate, type and term of the underlying loans. The model utilizes several assumptions, the most significant of which is loan prepayments, calculated using a three-months moving average of weekly prepayment data published by the Public Securities Association (PSA) and modeled against the serviced loan portfolio, and the discount rate to discount future cash flows. As of September 30, 2016, the prepayment assumption using the PSA

model was 271, which translates into an anticipated prepayment rate of 16.24%. The discount rate is the quarterly average 10 year U.S. Treasury plus 3.79%. Other assumptions include delinquency rates, foreclosure rates, servicing cost inflation, and annual unit loan cost. All assumptions are adjusted periodically to reflect current circumstances. Amortization of mortgage servicing rights, as well as write-offs due to prepayments of the related mortgage loans, are recorded as a charge against mortgage servicing fee income.

For the nine months ended September 30, 2016 and 2015, servicing rights capitalized totaled \$370,000 and \$358,000, respectively. Servicing rights capitalized for the three-month periods ended September 30, 2016 and 2015, were \$197,000 and \$131,000 respectively. Servicing rights amortized for the nine months ended September 30, 2016 and 2015, were \$339,000 and \$337,000, respectively. The fair value of servicing rights was \$1,683,000, \$1,915,000 and \$2,014,000 at September 30, 2016,

December 31, 2015 and September 30, 2015, respectively. The Bank serviced loans for others totaling \$241,028,000, \$223,610,000 and \$218,624,000 at September 30, 2016, December 31, 2015, and September 30, 2015, respectively. Mortgage servicing rights are included in other assets and detailed in the following table:

	September 30, 2016	December 31, 2015	September 30, 2015
Mortgage servicing rights	\$ 5,718,000	\$ 5,747,000	\$ 6,398,000
Accumulated amortization	(4,560,000)	(4,619,000)	(5,287,000)
Impairment reserve	(87,000)	(35,000)	(16,000)
	\$ 1,071,000	\$ 1,093,000	\$ 1,095,000

Note 12 – Income Taxes

FASB ASC Topic 740 "Income Taxes" defines the criteria that an individual tax position must satisfy for some or all of the benefits of that position to be recognized in a company's financial statements. Topic 740 prescribes a recognition threshold of more-likely-than-not, and a measurement attribute for all tax positions taken or expected to be taken on a tax return, in order for those tax positions to be recognized in the financial statements. The Company is currently open to audit under the statute of limitations by the IRS for the years ended December 31, 2013 through 2015.

Note 13 - Certificates of Deposit

The following table represents the breakdown of certificates of deposit at September 30, 2016 and 2015, and at December 31, 2015:

	September 30, 2016	December 31, 2015	September 30, 2015
Certificates of deposit < \$100,000	\$ 192,424,000	\$ 158,529,000	\$ 141,946,000
Certificates \$100,000 to \$250,000	183,991,000	175,077,000	204,707,000
Certificates \$250,000 and over	48,040,000	37,376,000	42,654,000
	\$ 424,455,000	\$ 370,982,000	\$ 389,307,000

Note 14 – Reclassifications

Certain items from the prior year were reclassified in the financial statements to conform with the current year presentation. These do not have a material impact on the consolidated balance sheet or statement of income and comprehensive income presentations.

Note 15 – Fair Value

Certain assets and liabilities are recorded at fair value to provide additional insight into the Company's quality of earnings. Some of these assets and liabilities are measured on a recurring basis while others are measured on a nonrecurring basis, with the determination based upon applicable existing accounting pronouncements. For example, securities available for sale are recorded at fair value on a recurring basis. Other assets, such as, other real estate owned and impaired loans, are recorded at fair value on a nonrecurring basis using the lower of cost or market methodology to determine impairment of individual assets. The Company groups assets and liabilities which are recorded at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement (with level 1 considered highest and level 3 considered lowest). A brief description of each level follows.

Level 1 - Valuation is based upon quoted prices for identical instruments in active markets.

Level 2 - Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 - Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates that market participants would use in pricing the asset or liability. Valuation includes use of discounted cash flow models and similar techniques.

The fair value methods and assumptions for the Company's financial instruments and other assets measured at fair value are set forth below.

Cash, Cash Equivalents and Interest-Bearing Deposits in Other Banks

The carrying values of cash equivalents, due from banks and federal funds sold approximate their relative fair values. As such, the Company classifies these financial instruments as Level 1.

Investment Securities

The fair values of investment securities are estimated by independent providers using a market approach with observable inputs, including matrix pricing and recent transactions. In obtaining such valuation information from third parties, the Company has evaluated their valuation methodologies used to develop the fair values in order to determine whether the valuations are representative of an exit price in the Company's principal markets. The Company's principal markets for its securities portfolios are the secondary institutional markets, with an exit price that is predominantly reflective of bid level pricing in those markets. Fair values are calculated based on the value of one unit without regard to any premium or discount that may result from concentrations of ownership of a financial instrument, possible tax ramifications, or estimated transaction costs. If these considerations had been incorporated into the fair value estimates, the aggregate fair value could have been changed. The carrying values of restricted equity securities approximate fair values. As such, the Company classifies investment securities as Level 2.

Loans Held for Sale

Loans held for sale are recorded at the lower of aggregate carrying value or fair value. The fair value of mortgage loans held for sale is based on what secondary markets are currently offering for portfolios with similar characteristics. As such, the Company classifies mortgage loans held for sale as Level 2.

Loans

Fair values are estimated for portfolios of loans with similar financial characteristics. The fair values of performing loans are calculated by discounting scheduled cash flows through the estimated maturity using estimated market discount rates that reflect the credit and interest risk inherent in the loan. The estimates of maturity are based on the Company's historical experience with repayments for each loan classification, modified, as required, by an estimate of the effect of current economic and lending conditions, and the effects of estimated prepayments. Assumptions regarding credit risk, cash flows, and discount rates are judgmentally determined using available market information and specific borrower information. Management has made estimates of fair value using discount rates that it believes to be reasonable. However, because there is no market for many of these financial instruments, Management has no basis to determine whether the fair value presented above would be indicative of the value negotiated in an actual sale. As such, the Company classifies loans as Level 3, except for certain collateral-dependent impaired loans. Fair values of impaired loans are based on estimated cash flows and are discounted using a rate commensurate with the risk associated with the estimated cash flows, or if collateral dependent, discounted to the appraised value of the collateral as determined by reference to sale prices of similar properties, less costs to sell. As such, the Company classifies collateral dependent impaired loans for which a specific reserve results in a fair value measure as Level 2. All other impaired loans are classified as Level 3.

Other Real Estate Owned

Real estate acquired through foreclosure is initially recorded at fair value. The fair value of other real estate owned is based on property appraisals and an analysis of similar properties currently available. As such, the Company records other real estate owned as nonrecurring Level 2.

Mortgage Servicing Rights

Mortgage servicing rights represent the value associated with servicing residential mortgage loans. Servicing assets and servicing liabilities are reported using the amortization method and compared to fair value for impairment. In

evaluating the fair values of mortgage servicing rights, the Company obtains third party valuations based on loan level data including note rate, type and term of the underlying loans. As such, the Company classifies mortgage servicing rights as Level 2.

Accrued Interest Receivable

The fair value estimate of this financial instrument approximates the carrying value as this financial instrument has a short maturity. It is the Company's policy to stop accruing interest on loans for which it is probable that the interest is not collectible. Therefore, this financial instrument has been adjusted for estimated credit loss. As such, the Company classifies accrued interest receivable as Level 2.

Deposits

The fair value of deposits is based on the discounted value of contractual cash flows. The discount rate is estimated using the rates currently offered for deposits of similar remaining maturities. As such, the Company classifies deposits as Level 2.

The fair value estimates do not include the benefit that results from the low-cost funding provided by the deposits compared to the cost of borrowing funds in the market. If that value were considered, the fair value of the Company's net assets could increase.

Borrowed Funds

The fair value of borrowed funds is based on the discounted value of contractual cash flows. The discount rate is estimated using the rates currently available for borrowings of similar remaining maturities. As such, the Company classifies borrowed funds as Level 2.

Derivatives

The fair value of interest rate swaps is determined using inputs that are observable in the market place obtained from third parties including yield curves, publicly available volatilities, and floating indexes and, accordingly, are classified as Level 2 inputs. The credit value adjustments associated with derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by the Company and its counterparties. As of September 30, 2016, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives due to collateral postings.

Accrued Interest Payable

The fair value estimate approximates the carrying amount as this financial instrument has a short maturity. The Company classifies accrued interest payable as Level 2.

Off-Balance-Sheet Instruments

Off-balance-sheet instruments include loan commitments. Fair values for loan commitments have not been presented as the future revenue derived from such financial instruments is not significant.

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These values do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because no market exists for a significant portion of the Company's financial instruments, fair value estimates are based on Management's judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates. Fair value estimates are based on existing on- and off-balance-sheet financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Other significant assets and liabilities that are not considered financial instruments include the deferred tax asset, premises and equipment, and other real estate owned. In addition, tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on fair value estimates and have not been considered in any of the estimates.

Assets and Liabilities Recorded at Fair Value on a Recurring Basis

The following tables present the balances of assets and that were measured at fair value on a recurring basis as of September 30, 2016, December 31, 2015 and September 30, 2015.

At September 30, 2016
