SELECTED PORTFOLIO ABBREVIATIONS

FNMA - Federal National Mortgage Association
FRN - Floating Rate Note
a The principal amount is stated in U.S. dollars unless otherwise indicated.
b The coupon rate shown represents the rate at period end.
c The principal amount is stated in original face, and scheduled paydowns are reflected in the market price on ex-date.
d Principal amount is stated in 1,000 Brazilian Real Units.
e Redemption price at maturity is adjusted for inflation.
f Security was purchased pursuant to Regulation \(S\) under the Securities Act of 1933, which exempts from registration securities offered and sold outside of the United States. Such a security cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. These securities have been deemed liquid under guidelines approved by the Fund's Board of Trustees. At November 30,2007 , the aggregate value of these securities was \(\$ 14,061,225\), representing \(1.14 \%\) of net assets.
g Principal amount is stated in 100 Mexican Peso Units.
h A portion or all of the security purchased on a when-issued or delayed delivery basis.
i A supranational organization is an entity formed by two or more central governments through international treaties.
j The security is traded on a discount basis with no stated coupon rate.
k The Franklin Institutional Fiduciary Trust Money Market Portfolio is managed by the Fund's investment manager. The rate shown is the annualized seven-day yield at period end.

Templeton Global Income Fund
NOTES TO STATEMENT OF INVESTMENTS (UNAUDITED)

\section*{1. ORGANIZATION}

Templeton Global Income Fund (Fund) is registered under the Investment Company Act of 1940, as amended, as a non-diversified, closed-end investment company.

\section*{2. SECURITY VALUATION}

Securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Investments in open-end mutual funds are valued at the closing net asset value.

Corporate debt securities and government securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund may utilize independent pricing services, quotations from bond dealers, and information with respect to bond and note transactions, to assist in determining a current market value for each security. The Fund's pricing services may use valuation models or matrix pricing which considers information with respect to comparable bond and note transactions, quotations from bond dealers, or by reference to other securities that are considered comparable in such characteristics as rating, interest rate and maturity date, option adjusted spread models, prepayment projections, interest rate spreads and yield curves, to determine current value.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Methods for valuing these securities may include: fundamental analysis, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Due to the inherent uncertainty of valuations of such securities, the fair values may differ significantly from the values that would have been used had a ready market for such investments existed. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. The investment manager monitors price movements following the close of trading in foreign stock markets through a series of country specific market proxies (such as baskets of American Depository Receipts, futures contracts and exchange traded funds). These price movements are measured against established trigger thresholds for each specific market proxy to assist in determining if an event has occurred. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Trustees.

Templeton Global Income Fund
NOTES TO STATEMENT OF INVESTMENTS (UNAUDITED) (CONTINUED)

\section*{5. NEW ACCOUNTING PRONOUNCEMENT}

In September 2006, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 157, "Fair Value Measurement" (SFAS 157), which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Fund believes the adoption of SFAS 157 will have no material impact on its financial statements.

For information on the Fund's policy regarding other significant accounting policies, please refer to the Fund's most recent semiannual or annual shareholder report.

10 | Quarterly Statement of Investments

Item 2. Controls and Procedures.
(a) Evaluation of Disclosure Controls and Procedures. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Quarterly Schedule of Portfolio Holdings on Form \(N-Q\), the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the

\section*{Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-Q}

Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.
(b) Changes in Internal Controls. There have been no significant changes in the Registrant's internal controls or in other factors that could significantly affect the internal controls subsequent to the date of their evaluation in connection with the preparation of this Quarterly Schedule of Portfolio Holdings on Form \(\mathrm{N}-\mathrm{Q}\).

Item 3. Exhibits.
(a) Certification pursuant to Section \(30 a-2\) under the Investment Company Act of 1940 of Jimmy D. Gambill, Chief Executive Officer - Finance and Administration, and Galen G. Vetter, Chief Financial Officer.

\section*{SIGNATURES}

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
