As previously announced, the Board of Directors (the Board) of F5 Networks, Inc. (the Company) has formed a special committee of the Board (the Special Committee) to conduct a review of the Company's practices relating to the granting of stock options since 1997. This review by the Special Committee, which is being assisted by independent legal counsel and forensic accountants, has not yet been completed, and the Special Committee has not communicated any final findings to the Company.

Although this review is ongoing, in the course of furnishing information to the Special Committee, the Company identified at least one occasion on which the accounting measurement date used in the Company's financial statements for option awards granted to certain employees, officers and directors of the Company was different from the accounting measurement date called for under the requirements of Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees. In order to correct this accounting measurement date error, the Company expects to record an additional non-cash, stock-based compensation expense and other adjustments related to these options. In addition, because the Company believes that such adjustments are material, the Company will restate its financial statements for fiscal years 2001 through 2005 and the first two quarters of fiscal 2006. The Company has not completed its assessment of the amount or effect of any such adjustments.

Because the Special Committee's review of the Company's stock option grant practices has not been completed, it is possible that additional issues may be identified for one or more of the periods under review, including possible findings that the amounts recorded as compensation expense for other options granted in the periods under review should be adjusted. Moreover, the Audit Committee of the Board may determine, prior to the completion of the Special Committee's review, that the accounting for other historical stock option grants was incorrect.

Additionally, the Company is evaluating Management's Report on Internal Controls Over Financial Reporting set forth in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2005. The Company has not yet completed its analysis of the impact of this situation on its internal controls over financial reporting.

As a result, the Company is unable to file its quarterly report on Form 10-Q for the quarter ended June 30, 2006 by the prescribed filing date of August 9, 2006, and does not currently expect that it will be filed on or before the fifth calendar day following the required filing date as prescribed in Rule 12b-25. The Company plans to file its Quarterly Report on Form 10-Q for the quarter ended June 30, 2006 as soon as practicable.
