Item 2.02. Results of Operations and Financial Condition

On November 1, 2004, the Company issued a press release (the "Press Release") announcing the Company's financial results for the fiscal quarter ended September 30, 2004 (the "Results"). The Press Release is attached as Exhibit 99.1 to this Current report on Form 8-K and is incorporated herein by reference.

Use of Non-GAAP Financial Information

To supplement the information that is presented in accordance with U.S. generally accepted accounting principles ("GAAP"), in our historical information for the period presented as well as our forward-looking guidance in the press release and conference call, we provide certain non-GAAP financial measures that exclude from the directly comparable GAAP measures certain non-cash charges, including charges related to acquisitions such as acquired in-process research and development and amortization of workforce as well as stock compensation expense. We believe that these non-GAAP measures enhance an investor's overall understanding of our financial performance and future prospects by reconciling more closely to the actual cash expenses of the Company in its operations as well as excluding expenses that in management's view are unrelated to our core operations, the inclusion of which may make it more difficult for investors and financial analysts reporting on the Company to compare our results from period to period. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with GAAP, and non-GAAP financial measures as reported by the Company may

not be comparable to similarly titled items reported by other companies.

Item 9.01 Financial Statements and Exhibits.
