sidebar: "I also urge you to consider receiving future Fund reports and other information electronically ...see the inside front cover of this report for details."

In the aftermath of September 11, the financial markets have reacted with volatility and uncertainty as investors attempt to better understand how the U.S. and world economies are likely to perform in the months ahead. It's too soon to tell what the long-term impact will be on the markets or your Fund, but one thing that is increasingly clear to us is that a diversified portfolio that includes high quality municipal bonds can leave you well positioned to reduce overall investment volatility.

For example, during the period covered by this report, all of these Nuveen Funds continued to meet their primary objectives of providing attractive monthly income from a portfolio of high quality municipal bonds. Detailed information on your Fund's performance can be found in the Portfolio Managers' Comments and Performance Overview sections of this report. I urge you to take the time to read them.

I also urge you to consider receiving future Fund reports and other information electronically via the Internet and e-mail rather than in hard copy. Not only will you be able to receive the information faster, but this may also help lower Fund expenses. Sign up is quick and easy - see the inside front cover of this report for detailed instructions.

In addition to providing you with steady tax-free income, your Nuveen Fund also features several characteristics that can help make it an essential part of your overall investment strategy.

1

These include careful research, constant surveillance and judicious trading by Nuveen's seasoned portfolio management team, with every action designed to supplement income, improve Fund structure, better adapt to current market conditions or increase diversification. In turbulent times like these, prudent investors understand the importance of diversification, balance, and risk management, all attributes your Nuveen Fund can bring to your portfolio.

For more than 100 years, Nuveen has specialized in offering quality investments such as these Nuveen Funds to those seeking to accumulate and preserve wealth and establish a lasting legacy. Our mission continues to be to assist you and your financial advisor by offering the investment services and products that can help you invest well and leave your mark for future generations. We thank you for continuing to choose Nuveen Investments as your partner as you work toward that goal.

Sincerely,

Edgar Filing: NUVEEN MICHIGAN QUALITY INCOME MUNICIPAL FUND INC - Form N-30D

Nuveen Arizona, Michigan, Ohio, and Texas Closed-End Exchange-Traded Funds
(NAZ, NFZ, NUM, NMP, NZW, NUO, NXI, NBJ, NTX)

Portfolio Manager's
Comments

Portfolio managers Mike Davern and Rick Huber review economic and market conditions, key strategies, and recent Fund performance. With 17 years of investment management experience, Mike has managed NAZ, NUM, NMP, and NTX since 1998. He added NFZ and NZW at their inceptions in January and September 2001, respectively. Rick, who has 17 years of investment experience, assumed portfolio management responsibility for NUO and NXI in March 2001, and added NBJ in September 2001.

WHAT FACTORS HAD THE GREATEST INFLUENCE ON THE U.S. ECONOMY AND THE MUNICIPAL MARKET DURING THIS REPORTING PERIOD?

The two major forces at work during the twelve months ended January 31, 2002, were the general slowdown in economic growth and the Federal Reserve's easing of short-term interest rates. While these two factors had a great impact over the entire period covered in this report, the events of September 11, 2001, and the uncertain climate that followed also had a profound effect on the economy and the markets.

In the fixed-income markets, the general environment of the past twelve months helped many municipal securities perform well, while the Fed's easing created favorable conditions for both new issuance and refundings. During 2001, national new municipal supply reached its highest level - \$286.3 billion - since 1993, an increase of 43% over 2000. On the demand side, municipal bonds continued to be highly sought after by individual investors looking for diversification, tax-free income, quality, and an alternative to a volatile stock market.

MIKE, HOW WAS THE ECONOMIC AND MARKET ENVIRONMENT IN ARIZONA, MICHIGAN, AND TEXAS?

All three of these states saw substantial increases in municipal issuance during 2001, with Arizona's \$4.9 billion in new supply representing a 216% increase over 2000 totals. Michigan issued \$9.9 billion in municipal bonds during 2001, for an increase of 87%, while Texas supply was up 67%, with \$25.0 billion in new bonds.

Over the past year, the Arizona economy was impacted by both the national slowdown and the September 11th attacks. Major layoffs by some of Arizona's top technology employers signaled weakness in that sector, while losses in the state tourism industry in the aftermath of September 11 have been estimated at more than \$200 million. However, some observers think that the downturn in some sectors of the state economy may be offset to a degree by the strong presence of military services, which provide 50,000 jobs and nearly \$6 billion for the Arizona economy.

Michigan also saw unemployment rise over the past twelve months. In addition to the weak automaking sector, other areas of manufacturing, including Michigan's office furniture industry, have been forced to eliminate thousands of jobs in recent months. A potential budget imbalance, declining tax revenues, and rising costs have put pressure on Michigan's credit ratings. In December 2001, Moody's revised its outlook for the state to negative, although both Moody's and Standard & Poor's maintained their Aaa/AAA credit ratings.

Over the past ten years, the Texas economy has continued to diversify away from a reliance on energy-related industries. Following September 11, this helped to shelter the state somewhat from the effects of the weaker demand for oil, especially jet fuel. During 2001, Texas trade was negatively impacted by the slowdown in the U.S. manufacturing sector, which had a ripple effect in Mexico. However, Texas remained the number-two state in exports, just behind California, with approximately \$95 billion in sales to foreign countries.

RICK, WHAT ABOUT OHIO?

Like Michigan, the Ohio economy remains heavily reliant on manufacturing, and the state is facing many of the same problems, including rising unemployment, weakness in auto production, and budgetary concerns. Ohio's auto industry continued to decline, and the state's steelmakers struggled to compete with global suppliers, with a number of bankruptcy filings in 2001. The state also continues to face a final court determination in its decade-old public school funding dispute, which could force it to further increase education spending. In January 2002, these concerns caused Moody's to place Ohio on its negative outlook list, although the state's general obligation debt retained its Aa1/AA+ credit ratings. Over the near term, Ohio's economy is projected to lag national growth levels, compounded by labor shortages resulting from continued population losses.

HOW DID THE NUVEEN FUNDS FOR THESE STATES PERFORM OVER THE PAST TWELVE MONTHS? The total annual returns on net asset value (NAV) for the year ended January 31, 2002, for the five older Nuveen Closed-End Exchange-Traded Funds as well as for NFZ, which just completed its first year of performance, are shown in the accompanying table. The annual returns for the Lehman Brothers Municipal Bond Index¹ and relevant Lipper Peer Groups² are also presented.

3

sidebar:

- 1 The Funds' performances are compared with that of the Lehman Brothers Municipal Bond Index, a national unleveraged index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.
- 2 The total returns of NUM and NMP are compared with the average annualized return of the six funds in the Lipper Michigan Municipal Debt Funds category, while the total returns of the Arizona, Ohio, and Texas Funds are compared with the average annualized return of the 25 funds in the Lipper Other States Municipal Debt Funds category. Fund and Lipper returns assume reinvestment of dividends.
- 3 The taxable-equivalent yield represents the yield that must be earned on a taxable investment in order to equal the yield of the Nuveen Fund on an after-tax basis. The taxable-equivalent yield is based on the Fund's market yield on the indicated date and a federal income tax rate of 30% plus the applicable state income tax rate. The combined federal and state tax rates

Edgar Filing: NUVEEN MICHIGAN QUALITY INCOME MUNICIPAL FUND INC - Form N-30D

used in this report are as follows: Arizona 33.5%, Michigan 33%, and Ohio 35%. Because Texas has no state income tax, NTX's taxable-equivalent yield is based on the federal income tax rate of 30%.

4 Duration is a measure of a Fund's NAV volatility in reaction to interest rate movements. Fund duration, also known as leverage-adjusted duration, takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund. Unless otherwise noted, references to duration in this commentary are intended to indicate Fund duration.

	MARKET YIELD	TOTAL RETURN ON NAV	LEHMAN		
			TOTAL RETURN1	LIPPER AVERAGE2	
	TAXABLE- EQUIVALENT3	1 YEAR ENDED 1/31/02	1 YEAR ENDED 1/31/02	1 YEAR ENDED 1/31/02

NTX	6.19%	8.84%	6.71%	5.90%	6.47%

Past performance is not predictive of future results.

For additional information, see the individual Performance Overview for your Fund in this report.

Over the past twelve months, the Fed's interest rate easing, combined with favorable market technicals, created a generally positive total return environment for municipal bonds. While concerns about the potential strength of an economic recovery sparked some increased volatility in the bond market during the last two months of 2001, municipal bond performance made a strong comeback in January 2002. Overall, the market environment of the past twelve months favored funds with longer durations. As of January 31, 2002, the durations⁴ of the five older Funds ranged from 8.24 for NAZ to 11.51 for NUM, compared with 7.66 for the unleveraged Lehman Brothers Municipal Bond Index. The durations of the remaining four Funds, which were established in 2001, ranged from 12.05 to 18.98, which is typical of newer Funds. Over time, we plan to bring these durations more closely in line with the other Nuveen Exchange-Traded Funds. Since our last report in July 2001, in fact, the durations of NFZ and NXI have both shortened. In addition to duration, the performance of these Nuveen Funds over the past year was influenced by market activity, portfolio structure, including call exposure, and individual holdings.

HOW DID THE MARKET ENVIRONMENT AFFECT THE FUNDS' DIVIDENDS AND SHARE PRICES? With the Fed's move to a policy of interest rate easing in January 2001, the

Edgar Filing: NUVEEN MICHIGAN QUALITY INCOME MUNICIPAL FUND INC - Form N-30D

dividend-payment capabilities of these Funds benefited from the use of leverage, a strategy that can potentially enhance the dividends paid to common shareholders. This benefit is tied in part to the short-term rates these leveraged Funds pay their MuniPreferred, shareholders. For example, declining short-term rates can enable the Funds to reduce the amount of income they pay preferred shareholders, which can leave more earnings to support common share dividends.

During the year ended January 31, 2002, steady or falling short-term interest rates enabled us to implement three dividend increases in NAZ and NTX, two increases in NMP and NUO, and one increase in NUM. NFZ, NZW, NXI, and NBJ, all of which were introduced during 2001, began paying regular monthly dividends on schedule and are currently providing very attractive levels of tax-free income to shareholders. In coming months, the lower rates currently offered by municipal securities with shorter maturities may continue to benefit these Funds by further reducing the amount paid to MuniPreferred shareholders. However, this could be offset to some degree by the effect of bond calls on higher-yielding securities, especially in the five older Funds. The level of short-term rates, the number of bond calls, and the interest rates at which we can reinvest the proceeds of any calls will all influence the dividends of these Nuveen Funds over the next twelve months.

Over the past year, the continued volatility of the stock market and the strong performance of the bond market prompted many investors to turn to tax-free fixed-income investments as a way to add balance to their portfolios and reduce overall risk. As a result, the share prices of the five older Funds improved (see the charts on the individual Performance Overview pages). As investors recognized the opportunity offered by these Funds, increased demand caused the discount (share price below NAV) on NUM to move to a premium (share price above NAV), while the premiums on NAZ and NUO widened and the discounts on NMP and NTX narrowed over the past twelve months. The four Funds established in 2001 have also benefited from strong demand since their introductions, and each Fund finished January 2002 at a premium.

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE NUVEEN FUNDS DURING THE YEAR ENDED JANUARY 31, 2002?

In investing new cash and bond call proceeds over the past twelve months, we focused on finding attractive bonds with the potential to support the Funds' long-term dividend-payment capabilities, enhance total return potential, and add value and diversification. Among the sectors where we found value were those regarded as providers of essential services, including healthcare, education, and water and sewer bonds.

Looking specifically at the Arizona Funds, we were able to take advantage of excellent supply in what is typically a lower issuance state to purchase several attractive issues in the education sector. Arizona is one of the most progressive states in the operation of charter schools, and we added \$1.5 million in bonds issued for charter school projects in Maricopa County to NAZ and \$2.1 million in Maricopa County Horizon Community Charter School bonds to NFZ. In addition to the attractive yield spreads offered by these bonds, we believe Arizona's leadership and experience in this area make these credits an excellent ongoing investment.

In Michigan, where municipal supply was also strong, our strategy was to look for bonds in areas of scarcity, such as the water and sewer sector, that would further enhance the diversification of NUM and NMP. During the past six months,

we also focused on bonds issued by building authorities, tax increment districts, and university revenue bonds, including those issued for Kettering University in Flint and Wayne State University in Detroit.

The Ohio municipal market continued to be very competitive, with robust demand, especially on the retail side, at times outpacing the strong supply. Our major focus over the past year was on strategies that would enhance yield and structure, as we added issues such as Parma Community Hospital Association, Kettering Medical Center in Dayton, and the Ohio Water Development Authority for the Bay Shore power project. We also took advantage of increased issuance to get ahead of some of the bond calls in NUO, selling selected callable bonds and reinvesting the proceeds in longer-term credits that would enhance the yield of this Fund.

In Texas, we looked for opportunities to add yield in the essential services area, making numerous purchases in the education sector, which offered ample supply, strong credit quality, and attractive yields at good prices. The healthcare sector also provided some attractive yield situations, and one of our purchases in this sector was \$1 million of BBB bonds issued by Tyler Health for Mother Frances Hospital.

In September 2001, we introduced the Nuveen Michigan Dividend Advantage Municipal Fund (NZW) and the Nuveen Ohio Dividend Advantage Municipal Fund 2 (NBJ). Both of these Funds are now fully invested and, in our opinion, performing well for shareholders. As of January 31, 2002, both Funds had their heaviest sector weightings in general and limited tax obligations and healthcare bonds. The Funds paid their first dividends in December 2001, and their holdings place them in an excellent position to pay attractive dividends on a monthly basis going forward.

In view of recent world events, maintaining strong credit quality remained a primary area of emphasis. All of these Funds continued to offer excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 64% in NFZ to 90% in NUO as of January 31, 2002. All of the Funds also had a portion of their assets invested in BBB and non-rated bonds, which serve to enhance the Funds' income streams. The allocations to these credit sectors ranged from 3% in NZW to 22% in NXI.

In terms of bond calls, the four newer Funds--NFZ, NZW, NXI, and NBJ--offer excellent levels of call protection in 2002 and 2003, with call exposure ranging from none in NZW to 9% in NXI over the next 23 months. NUM, NUO, and NTX, all of which were introduced in 1991, still face a slightly elevated level of potential calls (18%-22% in 2002 and 2003) as they continue to work their way past their ten-year anniversaries. Both NAZ and NMP, which mark the ten-year anniversary of their inceptions in 2002, are headed into this period and could potentially see as much as 31%-36% of their portfolios called over the next two years. The number of actual calls experienced by the Funds will depend largely on market interest rates over this time.

We believe the overall call exposure of these Funds is very manageable, and we foresee no problems in working through the call risk. Our general approach has been to watch for opportunities to sell callable holdings when we find attractive replacement bonds in either the primary or secondary markets, especially in areas of scarcity and among issues with structures that can benefit the Funds' diversification and income flow. This approach enables us to trade when we find interesting replacement opportunities rather than being locked into market offerings on a specific date. Over the past twelve months, increased levels of municipal supply have helped us to implement this strategy.

WHAT IS YOUR OUTLOOK FOR THE MUNICIPAL MARKET IN GENERAL AND THESE FUNDS IN

Edgar Filing: NUVEEN MICHIGAN QUALITY INCOME MUNICIPAL FUND INC - Form N-30D

PARTICULAR?

In general, our outlook for the fixed-income markets over the next twelve months remains positive. While the long-term economic effects of September 11 are still being determined, the U.S. economy appears headed for a recovery, but one characterized by a slower pace of growth, with inflation and interest rates remaining low over the near term. Nationally, new municipal issuance should continue to be strong, and we expect issuance in Arizona, Michigan, Ohio, and Texas to remain steady. At the same time, demand for tax-exempt municipal bonds should continue to be robust, as investors look for ways to rebalance their portfolios and reduce risk.

We are also continuing to watch the consequences of the federal government's decision to discontinue the 30-year Treasury bond. This action removed one of the pricing benchmarks for the municipal market, which could result in some pricing uncertainty and create more opportunities to add value for shareholders. Overall, we continue to carefully monitor the fixed-income markets, especially those sectors that were directly impacted by the events of September 11 or that experience any further deceleration. We believe the Nuveen Funds covered in this report are currently well diversified and well positioned for the market environment ahead, and we will continue to respond to events as appropriate.

1 Taxable-equivalent yield represents the yield on a taxable investment necessary to equal the yield of the Nuveen Fund on an after-tax basis. It is calculated using the current market yield and a federal income tax rate of 30%. The rate shown for federal and state highlights the added value of owning shares that are also exempt from state income taxes. It is based on a combined federal and state income tax rate of 33%.

2 The Fund also paid shareholders a capital gains distribution in December 2001 of \$0.0748 per share.

* Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates.

** Ratings: Using the higher of Standard & Poor's or

Moody's rating.
 *** Securities are backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensures the timely payment of principal and interest. Securities are normally considered to be equivalent to AAA rated securities.
 N/R Investment is not rated.
 + Security has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term security. The rate disclosed is that currently in effect. This rate changes periodically based on market conditions or a specified market index.

See accompanying notes to financial statements.

Notes to
Financial Statements (Unaudited)

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The state funds (the "Funds") covered in this report and their corresponding exchange symbols are Nuveen Arizona Premium Income Municipal Fund, Inc. (NAZ), Nuveen Arizona Dividend Advantage Municipal Fund (NFZ), Nuveen Michigan Quality Income Municipal Fund, Inc. (NUM), Nuveen Michigan Premium Income Municipal Fund, Inc. (NMP), Nuveen Michigan Dividend Advantage Municipal Fund (NZW), Nuveen Ohio Quality Income Municipal Fund, Inc. (NUO), Nuveen Ohio Dividend Advantage Municipal Fund (NXI), Nuveen Ohio Dividend Advantage Municipal Fund 2 (NBJ) and Nuveen Texas Quality Income Municipal Fund (NTX). Arizona Premium Income (NAZ), Michigan Quality Income (NUM), Michigan Premium Income (NMP), Ohio Quality Income (NUO) and Texas Quality Income (NTX) are traded on the New York Stock Exchange while Arizona Dividend Advantage (NFZ), Michigan Dividend Advantage (NZW), Ohio Dividend Advantage (NXI) and Ohio Dividend Advantage 2 (NBJ) are traded on the American Stock Exchange. Prior to the commencement of operations of Arizona Dividend Advantage (NFZ), Michigan Dividend Advantage (NZW), Ohio Dividend Advantage (NXI) and Ohio Dividend Advantage 2 (NBJ), each Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of The John Nuveen Company, and the recording of the organizational expenses (\$15,000, \$11,500, \$15,000 and \$11,500, respectively) and their reimbursement by Nuveen Investments, also a wholly owned subsidiary of The John Nuveen Company.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes, where applicable, by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within a single state. The Funds are registered under the Investment Company Act of 1940 as closed-end management investment companies.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Directors/Trustees of the Funds may establish a fair value for the security. Temporary investments in securities

that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets in a separate account with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At January 31, 2002, Arizona Dividend Advantage (NFZ), Michigan Quality Income (NUM), Ohio Quality Income (NUO), Ohio Dividend Advantage 2 (NBJ) and Texas Quality Income (NTX) had outstanding when-issued purchase commitments of \$1,056,115, \$974,440, \$1,153,768, \$1,047,790 and \$1,497,358, respectively. There were no such outstanding purchase commitments in any of the other Funds.

Investment Income

Interest income is determined on the basis of interest accrued, adjusted for amortization of premiums and accretion of discounts on long-term debt securities for financial reporting purposes.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its net investment income to its share holders. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, where applicable, to retain such tax-exempt status when distributed to shareholders of the Funds.

56

Dividends and Distributions to Shareholders

Tax-exempt net investment income is declared monthly as a dividend and payment is made or reinvestment is credited to shareholder accounts after month-end. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to shareholders of tax-exempt net investment income, net realized capital gains and/or market discount are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States. Accordingly, temporary over-distributions as a result of these differences may occur and will be classified as either distributions in excess of net investment income, distributions in excess of net realized gains and/or distributions in excess of net ordinary taxable income from investment transactions, where applicable.

Preferred Shares

The Funds have issued and outstanding \$25,000 stated value Preferred shares. Each Fund's Preferred shares are issued in one or more Series. The dividend rate on each Series may change every seven days, as set by the auction agent. The number of shares outstanding, by Series and in total, for each Fund is as

Total	3,080	1,240	960
=====			

Effective November 16, 2001, Michigan Dividend Advantage (NZW) issued 640 Series W, \$25,000 stated value Preferred shares.

Effective November 16, 2001, Ohio Dividend Advantage 2 (NBJ) issued 960 Series F, \$25,000 stated value Preferred shares.

Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap, and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the period ended January 31, 2002.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Offering Costs

Edgar Filing: NUVEEN MICHIGAN QUALITY INCOME MUNICIPAL FUND INC - Form N-30D

Nuveen Investments has agreed to pay all offering costs (other than the sales load) that exceed \$.03 per Common share for Arizona Dividend Advantage (NFZ), Michigan Dividend Advantage (NZW), Ohio Dividend Advantage (NXI) and Ohio Dividend Advantage 2 (NBJ). Arizona Dividend Advantage's (NFZ), Michigan Dividend Advantage's (NZW), Ohio Dividend Advantage's (NXI) and Ohio Dividend Advantage 2's (NBJ) share of offering costs (\$45,873, \$61,530, \$126,237 and \$93,150, respectively) were recorded as a reduction of the proceeds from the sale of the common shares.

57

Notes to
Financial Statements (Unaudited) (continued)

Costs incurred by Arizona Dividend Advantage (NFZ), Michigan Dividend Advantage (NZW), Ohio Dividend Advantage (NXI) and Ohio Dividend Advantage 2 (NBJ) in connection with their offering of Preferred shares (\$262,500, \$326,000, \$452,250 and \$408,000, respectively) were recorded as a reduction of the proceeds from the sale of the Preferred shares.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results may differ from those estimates.

Change in Accounting Policy

As required, effective August 1, 2001, the Funds have adopted the provisions of the new AICPA Audit and Accounting Guide for Investment Companies and began accreting taxable market discount on debt securities. Prior to August 1, 2001, the Funds did not accrete taxable market discount on debt securities until they were sold. The cumulative effect of this accounting change had no impact on the total net assets or the net assets values of the Funds, but resulted in an increase in the cost of securities and a corresponding decrease in unrealized appreciation or increase in unrealized depreciation based on securities held by the Funds on August 1, 2001, as follows:

	ARIZONA PREMIUM INCOME (NAZ)	ARIZONA DIVIDEND ADVANTAGE (NFZ)	MICHIGAN QUALITY INCOME (NUM)	MICHIGAN PREMIUM INCOME (NMP)
	\$--	\$2,248	\$158,627	\$269,926

OHIO QUALITY INCOME (NUO)	OHIO DIVIDEND ADVANTAGE (NXI)	OHIO DIVIDEND ADVANTAGE 2 (NBJ)
------------------------------------	----------------------------------------	------------------------------------------

\$36,378	\$12,758	\$--
----------	----------	------

The effect of this change for the period ended January 31, 2002, was to increase net investment income with a corresponding decrease in net unrealized appreciation or increase in unrealized depreciation as follows:

ARIZONA PREMIUM INCOME (NAZ)	ARIZONA DIVIDEND ADVANTAGE (NFZ)	MICHIGAN QUALITY INCOME (NUM)	MICHIGAN PREMIUM INCOME (NMP)

6. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Under Arizona Premium Income's (NAZ), Michigan Quality Income's (NUM), Michigan Premium Income's (NMP), Ohio Quality Income's (NUO) and Texas Quality Income's (NTX) investment management agreements with the Adviser, each Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets of each Fund as follows:

AVERAGE DAILY NET ASSETS	MANAGEMENT FEE
For the first \$125 million	.6500 of 1%
For the next \$125 million	.6375 of 1
For the next \$250 million	.6250 of 1
For the next \$500 million	.6125 of 1
For the next \$1 billion	.6000 of 1
For the next \$3 billion	.5875 of 1
For net assets over \$5 billion	.5750 of 1

62

Under Arizona Dividend Advantage's (NFZ), Michigan Dividend Advantage's (NZW), Ohio Dividend Advantage's (NXI) and Ohio Dividend Advantage 2's (NBJ) investment management agreements with the Adviser, each Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets of each Fund as follows:

AVERAGE DAILY NET ASSETS	MANAGEMENT FEE
For the first \$125 million	.6500 of 1%
For the next \$125 million	.6375 of 1
For the next \$250 million	.6250 of 1
For the next \$500 million	.6125 of 1
For the next \$1 billion	.6000 of 1
For net assets over \$2 billion	.5750 of 1

The Adviser has agreed to waive part of its management fees or reimburse certain expenses of Arizona Dividend Advantage (NFZ) in an amount equal to .30% of the average daily net assets for the period from the Fund's commencement of

Edgar Filing: NUVEEN MICHIGAN QUALITY INCOME MUNICIPAL FUND INC - Form N-30D

operations through January 31, 2006, .25% of the average daily net assets for the year ended January 31, 2007, .20% of the average daily net assets for the year ended January 31, 2008, .15% of the average daily net assets for the year ended January 31, 2009, .10% of the average daily net assets for the year ended January 31, 2010, and .05% of the average daily net assets for the year ended January 31, 2011. The Adviser has not agreed to reimburse Arizona Dividend Advantage (NFZ) for any portion of its fees and expenses beyond January 31, 2011.

The Adviser has agreed to waive part of its management fees or reimburse certain expenses of Ohio Dividend Advantage (NXI) in an amount equal to .30% of the average daily net assets for the period from the Fund's commencement of operations through March 31, 2006, .25% of the average daily net assets for the year ended March 31, 2007, .20% of the average daily net assets for the year ended March 31, 2008, .15% of the average daily net assets for the year ended March 31, 2009, .10% of the average daily net assets for the year ended March 31, 2010, and .05% of the average daily net assets for the year ended March 31, 2011. The Adviser has not agreed to reimburse Ohio Dividend Advantage (NXI) for any portion of its fees and expenses beyond March 31, 2011.

The adviser has agreed to waive part of its management fee or reimburse certain expenses of Michigan Dividend Advantage (NZW) and Ohio Dividend Advantage 2 (NBJ) in an amount equal to .30% of the average daily net assets for the period from the Funds' commencement of operations through September 30, 2006, .25% of the average daily net assets for the year ended September 30, 2007, .20% of the average daily net assets for the year ended September 30, 2008, .15% of the average daily net assets for the year ended September 30, 2009, .10% of the average daily net assets for the year ended September 30, 2010, and .05% of the average daily net assets for the year ended September 30, 2011. The adviser has not agreed to reimburse Michigan Dividend Advantage (NZW) or Ohio Dividend Advantage 2 (NBJ) for any portion of its fees and expenses beyond September 30, 2011.

The fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser.

Build Your Wealth
Automatically

sidebar: Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

NUVEEN EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on

Edgar Filing: NUVEEN MICHIGAN QUALITY INCOME MUNICIPAL FUND INC - Form N-30D

dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.
