### INFORMATION REGARDING FORWARD-LOOKING STATEMENTS

This annual report on Form 10-K includes forward-looking statements. Generally, the words “believe,” “expect,” “intend,” “estimate,” “anticipate,” “project,” “will,” “may,” “plan” and similar expressions or their negatives identify forward-looking statements, which generally are not historical in nature. These statements are based upon assumptions and projections that we believe are reasonable, but are by their nature inherently uncertain. Many possible events or factors could affect our future financial results and performance, and could cause actual results or performance to differ materially from those expressed, including those risks and uncertainties described in “Item 1A. - Risk Factors” and those described from time to time in our future reports filed with the Securities and Exchange Commission. Caution should be taken not to place undue reliance on these forward-looking statements, which speak only as of the date of this annual report.

### THIRD-PARTY INFORMATION

In this report, we rely on and refer to information regarding industry data obtained from market research, publicly available information, industry publications, U.S. government sources or other third parties. Although we believe that the third-party sources of information we use are materially complete, accurate and reliable, there is no assurance of the accuracy, completeness or reliability of third-party information.

## PART I

### Item 1. Business

#### Overview

Craft Brew Alliance, Inc. ("CBA") is the fifth largest craft brewing company in the U.S. and a leader in brewing, branding, and bringing to market some of the world's best-loved American craft beers.

Craft Brew Alliance was formed in 2008 through the merger of Redhook Brewery and Widmer Brothers Brewing, the two largest craft brewing pioneers in the Northwest at the time. Since then, the Alliance has continued to grow, welcoming Kona Brewing Co. in 2008, and expanding with innovative category leaders and strategic partners. Today, we are home to three of the earliest trail blazers in craft beer: Redhook Ale Brewery, Washington's largest craft brewery, founded in 1981; Widmer Brothers Brewing, Oregon's largest craft brewery, founded in 1984; and Kona Brewing Company, Hawaii's oldest and largest craft brewery, founded in 1994. As part of Craft Brew Alliance, these craft brewing legends have expanded their reach across the U.S. and approximately 30 international markets, while remaining deeply rooted to their local communities.

In addition to growing and nurturing distinctive brands steeped in local heritage, Craft Brew Alliance is committed to developing innovative new category leaders, such as Omission Beer, which is the #1 beer in the gluten-free beer segment, Square Mile Cider, the #1 local hard cider in the Pacific Northwest, and Resignation Brewery's line of KCCO beers in partnership with theChive.com, which represents the first-ever virtual brewery conceived by an online media platform.

As the craft beer market continues to grow and consumers increasingly demand local offerings, Craft Brew Alliance has expanded its portfolio of brands and maximized its brewing footprint through strategic partnerships with emerging craft beer brands in targeted markets. In 2015, we announced strategic partnerships with Appalachian Mountain Brewery, based in Boone, North Carolina; and Cisco Brewers, based in Nantucket, Massachusetts. Through this strategic partnership model, we gain local relevance in select beer geographies, while the partner breweries gain access to our world-class leadership and national infrastructure to grow their brands.

Edgar Filing: CRAFT BREW ALLIANCE, INC. - Form 10-K

Publicly traded on NASDAQ under the ticker symbol BREW, Craft Brew Alliance is headquartered in Portland, Oregon and operates five breweries and five pub restaurants across the U.S. For more information about CBA and its brands, see “Available Information” on page 11.

We proudly brew our craft beers in four company-owned breweries located in Portland, Oregon; the Seattle suburb of Woodinville, Washington; Portsmouth, New Hampshire; and Kailua-Kona, Hawaii; and one brewery in Memphis, Tennessee owned by our brewing partner. Additionally, we own and operate two small innovation breweries, primarily used for small batch production and innovative brews, in Portland, Oregon and Portsmouth, New Hampshire.

We distribute our beers to retailers through wholesalers that are aligned with the Anheuser-Busch, LLC (“A-B”) network. These sales are made pursuant to a Master Distributor Agreement (the “A-B Distributor Agreement”) with A-B. As a result of this distribution arrangement, we believe that, under alcohol beverage laws in a majority of states, these wholesalers would own the

## Index

exclusive right to distribute our beers in their respective markets if the A-B Distributor Agreement expires or is terminated. Kona, Redhook and Widmer Brothers beers are distributed in all 50 states. Omission Beer continues to expand into new markets in the U.S. and internationally, while Square Mile Cider is currently available in 12 states in the West. Separate from our A-B wholesalers, we maintain an internal independent sales and marketing organization with resources across the key functions of brand management, field marketing, field sales, and national retail sales.

We operate in two segments: Beer Related operations and Pubs operations. Beer Related operations include the brewing, and domestic and international sales, of craft beers and ciders from our breweries. Pubs operations primarily include our five pubs, four of which are located adjacent to our Beer Related operations, as well as other merchandise sales, and sales of our beers directly to customers.

## Industry Background

We are one of the top five brewers in the craft brewing segment of the U.S. brewing industry. The domestic beer market includes ales and lagers produced by large domestic brewers, international brewers and craft brewers. Shipments of craft beer in the U.S. are estimated by industry sources to have increased by approximately 13% in 2015 over 2014 and by 17% in 2014 over 2013. While the overall domestic market experienced a modest decrease in shipments of 0.3% in 2015, the craft beer segment continued its strong growth and captured market share from the rest of the domestic market. Craft beer shipments in 2015 and 2014 were approximately 12.8% and 11.3%, respectively, of total beer shipped in the U.S. Approximately 26.4 million barrels and 23.3 million barrels, respectively, were shipped in the U.S. by the craft beer segment during 2015 and 2014, while total beer sold in the U.S., including imported beer, was 206.0 million barrels and 206.7 million barrels, respectively. Compared with the other segments of the U.S. brewing industry, craft brewing is a relative newcomer. Twenty years ago, Redhook and Widmer Brothers Brewery were two of the approximately 200 craft breweries in operation. By the end of 2015, the number of craft breweries in operation had grown to more than 4,100. Industry sources estimate that craft beer produced by regional and national craft brewers, similar to us, accounts for approximately two-thirds of total craft beer sales, with one-third of the production brewed by smaller craft breweries.

Our comprehensive portfolio and national scale provide a competitive advantage in today's market environment, which includes craft brewers, domestic specialty beers, and imports. The company's distinctive brand portfolio is positioned to address significant changes in consumer trends, including increased demand for innovative flavors and styles, a growing interest in sustainability, and the increasing importance of local relevance. As an example, Kona Brewing is one of the most distinctive craft brewers, with a broad portfolio of beers that reflect a uniquely Hawaiian flavor profile, a recognized track record in sustainable business practices, and deep ties to its local community as Hawaii's oldest and largest craft brewery.

## Business Strategy

At Craft Brew Alliance, we believe that we have an advantaged strategy that differentiates us in the rapidly evolving craft beer segment.

The central elements of our business strategy include:

An innovative complementary portfolio of beers and ciders that reflects changing consumer trends in craft beer and is designed to satisfy a wide range of variety-seeking consumers' experiences and preferences. The breadth of our product offerings also provides consumers with the opportunity to match specific consumer occasions with a product in our brand families.

Distinct, authentic craft beer brands with rich stories that are rooted in their local communities such as Widmer Brothers, Redhook Brewery, and Kona Brewing Company, as well as bold new trailblazers such as Omission Beer

and Square Mile Cider Company, and emerging craft players such as Appalachian Mountain Brewery and Cisco Brewers.

A national brewing footprint that allows us to get our beers to market faster, fresher and more efficiently. We have significant flexibility to fully leverage the specific strengths of our distinct breweries and operations. Additionally, we guarantee the quality and consistency of all of our products through fine-tuned processes that ensure everything, from brewing to quality-assurance to warehousing and distribution, meets our high standards. We believe that maximizing production under our direct supervision and through accomplished and expert partners is critical to our success.

Further, we believe that our ability to engage in ongoing product innovation and to control product quality provides critical competitive advantages. Each of our breweries is modern, has flexible production capabilities, and is designed to produce beer in smaller batches relative to the national domestic brewers, thereby allowing us to brew a wide variety of brand offerings. We believe that our investment in brewing and logistics technologies enables us to minimize brewery operating costs and consistently produce innovative beer styles.

## Index

Nationwide sales activation through robust partnerships with leading retailers such as Buffalo Wild Wings, Safeway, and Costco. We leverage our national sales and marketing capabilities and complementary brand families to create a unique identity in the distribution channel and with the consumer. Our sales force calls on all retail channels nationally, including grocery, drug and convenience stores, something most other craft brewers are not able to do. National seamless distribution through the Anheuser-Busch wholesaler network alliance. This distribution footprint provides efficiencies in logistics and product delivery, state reporting and licensing, billing and collections. We have realized these efficiencies while maintaining full autonomy over the production, sale and marketing of our products as an independent craft beer company.

A diverse leadership team with extensive experience in the beer and beverage industries. The team has a proven ability to manage brand lifecycles, from development to turnaround, in both large and growth-company settings.

## Brand Overview

Our portfolio includes our owned brands, the Kona Brewing Company, Widmer Brothers Brewing, Redhook Brewery, Omission Beer and Square Mile Cider Company brand families, along with partner brands Appalachian Mountain Brewery, Cisco Brewers and Resignation Brewery.

We produce a variety of specialty craft beers and ciders using traditional brewing methods complemented by American innovation and invention. We brew our beers using high-quality hops, malted barley, wheat, rye and other natural traditional and nontraditional ingredients. To craft our ciders, we use three apple varieties from the Pacific Northwest and then use a lager beer yeast to make a unique and easy-to-drink hard cider.

Below is an overview of our five owned brands:

### Kona Brewing Company

Kona Brewing Company was started in the spring of 1994 in Kailua-Kona, Hawaii by father and son team Cameron Healy and Spoon Khalsa, who had a dream to create fresh, local island brews made with spirit, passion and quality. It is a Hawaii-born and Hawaii-based craft brewery that prides itself on brewing the freshest beer of exceptional quality, closest to market. This helps to minimize its carbon footprint by reducing shipping of raw materials, finished beer and wasteful packaging materials. The brewery is headquartered where it began, in Kailua-Kona on Hawaii's Big Island.

### Widmer Brothers Brewing

Widmer Brothers Brewing founders Kurt and Rob Widmer helped create the Pacific Northwest craft beer movement in 1984 when, in their 20s, they began brewing unique interpretations of traditional German beer styles. In 1986, Widmer Brothers Brewing introduced the original American-style Hefeweizen, which elevated the brewery to national acclaim and has long been Oregon's favorite craft beer. The brewery's iconic Hefe will celebrate its 30<sup>th</sup> anniversary in 2016. For more than three decades, Widmer Brothers has continued to push the boundaries of craft beer, developing a variety of beers with an unapologetic, uncompromising commitment to innovation. Based in Portland, Oregon, the brewery currently brews a variety of beers including Hefeweizen, Upheaval IPA, Steel Bridge Porter, Drop Top Amber Ale, and a full seasonal lineup. Additionally, the brewery continues to make a series of limited edition, small-batch beers available in Oregon and at the Widmer Brothers pub in North Portland.

### Redhook Brewery

Redhook was born out of the energy and spirit of the early 1980s in the heart of Seattle. While the term didn't exist at the time, Redhook became one of America's first craft breweries with its focus on creating "better beers." From a modest start in a former transmission shop in the Seattle neighborhood of Ballard to a Fremont trolley barn that housed The Trolleyman brewpub, to its current breweries in Woodinville, Washington, and Portsmouth, New Hampshire, Redhook has become one of America's most recognized craft breweries. Redhook will open a 10-barrel brewpub in the Capitol Hill neighborhood of Seattle in the fall of 2016.

While Redhook has “grown up” over the past 30 years, one thing has never changed - Redhook is still brewing great beers like ESB, Long Hammer IPA, Audible Pale Ale and a variety of seasonal beers. Most importantly, Redhook has fun doing it. Redhook beers are available on draft and in bottles and cans around the country.

#### Omission Beer

Omission Brewery is the first craft beer brand in the United States focused exclusively on brewing great-tasting craft beers with traditional ingredients-including malted barley-that are crafted to remove gluten. Brewed in Portland, Oregon, gluten levels in every batch of Omission beer are tested at independent labs using the R5Competitive Eliza test to ensure that gluten levels are less than 20 parts per million. Test results for every batch of Omission beer are available to consumers at: [www.omissiontests.com](http://www.omissiontests.com) Omission produces three craft beers specially crafted to remove gluten: Omission Lager, Omission Pale Ale and Omission IPA.

## Index

### Square Mile Cider Company

Launched in 2013, Square Mile Cider is the hard cider for the modern day pioneers celebrating the spirit of the Pacific Northwest. We set out to reinvigorate an enduringly classic American beverage with a blend of hand-selected apples combined with unique Northwest ingredients. Square Mile Cider produces two varieties of hard cider, The Original and Spur & Vine, our hopped version.

### New Brands and Packaging

Our recent brand and packaging announcements include:

#### Kona Brewing

Founded in 1994, Kona celebrated its 21<sup>st</sup> anniversary in 2015, with a Hawaii-inspired beer series dedicated to giving back to its home. Kona's Makana Series, available exclusively in Hawaii, featured four beers, each inspired by the four elements, with proceeds from each beer benefiting a local Hawaiian non-profit. 2015 represented the sixth consecutive year of double-digit growth for the Hawaiian brewery on the mainland, as Kona continued to expand Longboard Lager and Big Wave Golden Ale into new markets, increasing our U.S. distribution to all 50 states. We also added new countries to our ever-growing line-up, bringing us to nearly 30 countries.

#### Widmer Brothers Brewing

In May 2015, Widmer Brothers launched the first seasonal variation of its flagship beer Hefeweizen nationwide. Hefe Shandy, which is brewed with a new hop varietal, Lemon Drop, pays homage to the ritual of adding lemon to the rim of the glass, which dates back to Hefe's creation in 1986. The result is a bright and refreshing wheat beer with heightened citrus aroma and flavor. At 4.2% ABV, Hefe Shandy was crafted with summertime in mind. As part of the brewery's commitment to support its flagship at home, Widmer Brothers also announced the largest co-branded launch between a craft brewery and a Major League Soccer team with the launch of Widmer Brothers Hefeweizen as "The Official Craft Beer of the Portland Timbers" during the 2015 MLS season. The brand launch received notable attention as the Timbers went on to earn the MLS Cup Title, the first major sports championship for Portland in more than four decades. Additionally, Widmer Brothers launched a year-round offering, Replay, a session IPA, in Oregon and SW Washington, and brought back its popular 100 Days of Hefe summer event series in Portland. Also in 2015, the brewery partnered with Audi to give one lucky Hefe fan a new car.

#### Redhook Brewery

In 2015, Redhook paid homage to its roots as the first craft brewery in Seattle with an integrated marketing campaign proclaiming Redhook as "the granddaddy of craft." Radio ads, billboards and digital content reminded beer lovers of Redhook's important role in Seattle's brewing history. In April, Redhook released its iconic ESB, first launched in 1984, with a throwback design on its bottles, as well as new 16 oz cans in the Northwest. Redhook also continued to build on its partnerships, kicking off a distinctive collaboration with Hardee's and Carl's Jr. to create the Redhook Beer-Battered Cod Fish Sandwich, available nationwide. The brewery also continued its partnership with the University of Washington and its beloved football and basketball teams.

#### Omission Beer

In 2015, Omission Beer maintained its position as the market leader in the gluten-free beer category. Omission IPA continued to expand into new markets across the country, following in the footsteps of Omission Lager and Pale Ale. With a continued focus on the healthy and active lifestyle consumer, Omission Beer became the official beer sponsor of Wanderlust, a health driven event series, and partnered with lifestyle influencers to create branded informational content to support those looking to reduce or remove gluten from their diets.

### Square Mile Cider Company

In 2015, Square Mile Cider Company continued to expand distribution in select Western states, becoming the number one locally produced cider in the Northwest. The brand, which finds its inspiration from the pioneering spirit of the original Oregon pioneers, continues to offer two varieties: The Original, a classic American hard cider; and Spur & Vine, a hopped version of the classic American hard cider, with the addition of Galaxy hops.

#### Resignation Brewery

In 2015, Resignation Brewery expanded distribution of its KCCO Gold Lager, leveraging nationwide meetups of theCHIVE.com to introduce the beer in an offline setting. A clean and crisp lager with notes of honey and biscuit, KCCO Gold Lager proves pilsner-style lagers can be full-flavored. Resignation Brewery has continued to focus on, and support, Texas, where the Chive.com headquarters reside, with the launch of a Texas-only beer, KCCO White Wheat. Brewed with both lemon and orange zest yielding a unique citrus flavor, KCCO White Wheat creates a perfectly balanced mix of white wheat with sweet honey malt.

## Index

### Brewing Operations

#### Brewing Facilities

We use highly automated brewing equipment at our four owned production breweries and also operate two smaller, manual brewpub-style brewing systems. As of December 31, 2015, our total owned production capacity was 1,075,000 barrels. Our breweries consist of the following:

**Oregon Brewery.** Our Oregon Brewery is our largest capacity production brewery, consisting of a 230-barrel brewing system with an annual capacity of 630,000 barrels. Construction is currently underway to increase the annual capacity to 750,000 barrels.

**Washington Brewery.** Our Washington Brewery utilizes a 100-barrel brewing system and has an annual capacity of 220,000 barrels.

**New Hampshire Brewery.** Our New Hampshire Brewery utilizes a 100-barrel brewing system and has an annual capacity of 215,000 barrels. It uses an anaerobic waste-water treatment facility that completes the process cycle.

**Hawaiian Brewery.** Our Hawaiian Brewery utilizes a 25-barrel brewing system and has an annual capacity of 10,000 barrels. The Hawaiian Brewery utilizes a 229-kilowatt photovoltaic solar energy generating system to supply approximately 50 percent of its energy requirements through renewable energy. In 2016, we will break ground on a new 100,000 barrel brewery near our existing brewery and pub in Kona, which is expected to be fully operational by early 2018.

**Innovation Breweries.** Our Portland, Oregon innovation brewery maintains a 10-barrel pilot brewing system and is located in the Rose Quarter sports and entertainment district. In 2016, our Portland innovation brewery will move from the Rose Quarter to our Oregon Brewery location. Our New Hampshire innovation brewery maintains a 3-barrel pilot brewing system and is located on the same site as our New Hampshire production brewery.

In June 2014, we initiated full-scale brewing with our brewing partner in Memphis, Tennessee. This partnership provides us scalable capacity, and we anticipate producing up to 100,000 barrels at this location annually.

#### Packaging

We package our craft beers in cans, bottles and kegs. All of our production breweries, with the exception of the Hawaiian Brewery, have fully automated bottling and keg lines. The bottle fillers at all of the breweries utilize a carbon dioxide environment during bottling, ensuring that minimal oxygen is dissolved in the beer and extending the beer's shelf life. We offer an assortment of packages to highlight the unique characteristics of each of our beers and to provide greater opportunities for customers to drink our beers in more locations and at more events and occasions, matching the active lifestyles and preferences of our consumers.

#### Quality Control

We monitor production and quality control at all of our breweries, with central coordination at the Oregon Brewery. All of the breweries have an on-site laboratory where microbiologists and lab technicians supervise on-site yeast propagation, monitor product quality, test products, measure color and bitterness, and test for oxidation and unwanted bacteria. We also regularly utilize outside laboratories for independent product analysis. In addition, every batch of beer that we produce goes through an internal taste panel to ensure that it meets our taste and profile standards.

#### Ingredients and Raw Materials

We currently purchase a significant portion of our malted barley from two suppliers and our premium-quality select hops, mostly grown in the Pacific Northwest, from competitive sources. We also periodically purchase small lots of hops from international sources, such as New Zealand and Western Europe, which we use to achieve a special hop character in certain beers. In order to ensure the supply of the hop varieties used in our products, we enter into supply contracts for our hop requirements. We believe that comparable quality malted barley and hops are available from alternate sources at competitive prices, although there can be no assurance that pricing would be consistent with our

current arrangements. We currently cultivate our own yeast supply for certain strains and maintain a separate, secure supply in house. We have access to multiple competitive sources for packaging materials, such as labels, six pack carriers, crowns, cans and shipping cases.

#### Contract Brewing

In order to profitably use excess capacity, we enter into contract brewing arrangements under which we produce beer in volumes and per specifications as designated by the arrangements.

During 2015, we shipped 36,800 barrels under contract brewing arrangements compared to 39,700 barrels in 2014 and 30,300 in 2013.

## Index

### Pubs Operations

We own and operate five brew-pub restaurants and retail stores that support consumer awareness and research and development. Our five brew-pub restaurants allow us to interact directly with over 1.5 million consumers annually in our home markets, which creates a sense of brand loyalty. Our brewers are continually experimenting with new and different varieties of hops and malts in all styles of beer, and our brew pubs allow us to bring those beers to market in test-size batches in order to evaluate their strengths prior to releasing them on a wider basis.

### Distribution

With limited exceptions, all brewers in the United States are required to sell their beers to independent wholesalers, who then sell the beers to retailers. We are the only independent craft brewer in the U.S. to have established a wholly-aligned distribution network through our partnership with A-B. This partnership provides us national distribution, which results in both an effective distribution presence in each market and administrative efficiencies. Our beers are available for sale directly to consumers in draft, cans and bottles at restaurants, bars and liquor stores, as well as in cans and bottles at supermarkets, warehouse clubs, convenience stores and drug stores. We sell beer directly to consumers at our brew pubs and breweries.

Our products are distributed in all 50 states, pursuant to a master distributor agreement with A-B that allows us access to A-B's national distribution network. For additional information regarding our relationship with A-B, see "Relationship with Anheuser-Busch, LLC" below. Management believes that our competitors in the craft beer segment generally negotiate distribution relationships separately with wholesalers in each locality and, as a result, typically distribute through a variety of wholesalers representing differing national beer brands with uncoordinated territorial boundaries.

In 2015 and 2014, we sold approximately 753,400 barrels and 766,600 barrels, respectively, to the wholesalers in A-B's distribution network through the A-B Distributor Agreement, accounting for 91.4% and 92.3%, respectively, of our shipment volume for the corresponding periods.

### Sales and Marketing

In addition to leveraging our owned brew pubs and retail locations, we promote our products through a national sales and marketing network that includes, but is not limited to, i) creating and executing a range of advertising programs; ii) training and educating wholesalers and retailers about our products; and iii) promoting our name, product offerings, brands, and experimental beers at local festivals, venues and pubs.

We advertise and promote our products through an assortment of media, including television, radio, billboard, print and social media, including Facebook, Twitter and Instagram, in key markets and by participating in cooperative programs with our wholesalers whereby our spending is matched by the distributor. We believe that the financial commitment by the distributor helps align the distributor's interests with ours, and the distributor's knowledge of the local market results in an advertising and promotion program that is targeted in a manner that will best promote our products.

Our breweries also play a significant role in increasing consumer awareness of our products and enhancing our image as a craft brewer. Thousands of visitors per year take tours at our breweries and all of our production breweries have a retail restaurant or pub where our products are served. In addition, several of the breweries have meeting rooms that the public can rent for business meetings, parties and holiday events, and that we use to entertain and educate wholesalers, retailers and the media about our products. At our pubs, we sell various items of apparel and other merchandise bearing our trademarks, which creates further awareness of our beers and reinforces our brand image. To

further promote retail canned and bottled product sales, and in response to local competitive conditions, we regularly recommend that wholesalers offer discounts to retailers in most of our markets.

#### Relationship with Anheuser-Busch, LLC

##### Exchange Agreement

Under the Amended and Restated Exchange and Recapitalization Agreement (the “Exchange Agreement”) with A-B, we granted A-B certain contractual rights. The Exchange Agreement was entered into as part of a recapitalization in which we redeemed preferred shares held by A-B in exchange for cash and our common stock currently held by A-B. A-B owns 31.6% of our outstanding shares of common stock at December 31, 2015.

The Exchange Agreement entitles A-B to designate two members of our board of directors. A-B also generally has the right to have a designee on each committee of the board of directors, except where prohibited by law or stock exchange requirements, or with respect to a committee formed to evaluate transactions or proposed transactions between A-B and us. The Exchange Agreement

## Index

contains limitations on our ability to take certain actions without A-B's prior consent, including, but not limited to, our ability to issue equity securities or acquire or sell assets or stock, amend our Articles of Incorporation or Bylaws, grant board representation rights, enter into certain transactions with affiliates, distribute our products in the United States other than through A-B or as provided in the A-B Distributor Agreement, or voluntarily terminate our listing on the Nasdaq Stock Market.

### Distributor Agreement

The A-B Distributor Agreement provides for the distribution of Kona, Widmer Brothers, Redhook, Omission and Square Mile in all states, territories and possessions of the United States, including the District of Columbia and, except with respect to Kona beers, all U.S. military, diplomatic, and governmental installations in a U.S. territory or possession. Under the A-B Distributor Agreement, we granted A-B the right of first refusal to distribute our products, including any internally developed new products but excluding new products that we acquire. We are responsible for marketing our products to A-B's wholesalers, as well as to retailers and consumers.

The A-B Distributor Agreement has a term that expires on December 31, 2018, subject to automatic renewal for an additional ten-year period unless A-B provides written notice of non-renewal to us on or prior to June 30, 2018. The A-B Distributor Agreement is also subject to immediate termination, by either party, upon the occurrence of standard events of default as defined in the agreement.

Additionally, the A-B Distributor Agreement may be terminated by A-B, with six months' prior written notice to us, upon the occurrence of any of the following events:

- we engage in incompatible conduct that damages the reputation or image of A B or the brewing industry;
- any A-B competitor or affiliate thereof acquires 10% or more of our outstanding equity securities, and that entity designates one or more persons to our board of directors;
- our current chief executive officer ceases to function in that role or is terminated, and a satisfactory successor, in A B's opinion, is not appointed within six months;
- we are merged or consolidated into or with any other entity or any other entity merges or consolidates into or with us without A-B's prior approval; or
- A-B, its subsidiaries, affiliates, or parent, incur any obligation or expense as a result of a claim asserted against them by or in our name, or by our affiliates or shareholders, and we do not reimburse and indemnify A-B and its corporate affiliates on demand for the entire amount of the obligation or expense.

### Fees

We pay fees to A-B in connection with the sale of our products, including margin fees, invoicing, staging and coeprage handling fees, and inventory manager fees.

See Note 17 of Notes to Consolidated Financial Statements included in Part II, Item 8 of this Annual Report on Form 10-K for additional information.

### Relationship with Rainier Brewing Company

On January 8, 2016, we entered into brewing agreements with Pabst Northwest Brewing Company, dba Rainier Brewing Company ("Rainier"), a subsidiary of Pabst Brewing Company, under which Rainier will begin brewing selected Rainier brands at our brewery in Woodinville, Washington, in the spring of 2016 under an alternating proprietorship or services agreement. We will continue to operate the Woodinville brewery and the adjacent Redhook Forecaster's Pub under the agreements, which expire on December 31, 2018.

In conjunction with the brewing agreements, we granted Rainier an option to purchase the Woodinville brewery and adjacent pub, as well as related assets (together, the "Property"), at any time prior to termination of the brewing agreement. The purchase price of the Property will be \$25.0 million if Rainier exercises the option during the first year of the agreement, \$26.0 million if exercise occurs during the second year of the agreement, and \$28.0 million if Rainier exercises the option during the third year of the agreement and on or before the close of business on December 31, 2018. Under the option agreement, Rainier has the right to conduct an additional diligence review of environmental and title issues relating to the Property, and to terminate both the brewery agreements and the option agreement if it is not satisfied with its diligence investigation of those matters at the end of the review period, which is expected to expire by April 17, 2016. If Rainier does not exercise its option to purchase the Property, it may be required to pay us a termination fee.

## Index

### Seasonality

Our sales generally reflect a degree of seasonality, with the first and fourth quarters historically exhibiting low sales levels compared to the second and third quarters. Accordingly, our results for any particular quarter are not likely to be indicative of the results to be achieved for the full year.

### Competition

We compete in the craft brewing market as well as in the much larger alcoholic beverage market, which encompasses domestic and imported beers, flavored alcohol beverages, spirits, wine and ciders.

In 2015, the craft brewing industry witnessed unprecedented change and competition, characterized by three trends: 1) the growing number and popularity of small, local craft breweries that captured market share from established craft breweries, 2) increased acquisition and investment activity between craft brewers, large domestic and foreign brewers, and private equity firms, and 3) continued competitive pressure from international brewers, including Crown, which targets both domestic and craft beer drinkers. In 2015, according to industry sources, A B and MillerCoors accounted for more than 70% of total beer shipped in the U.S., excluding imports. In addition, A-B and MillerCoors have invested in existing smaller craft breweries and created separate craft-focused divisions in an effort to capitalize on the growing craft beer segment.

Competition varies by regional market. Depending on the local market preferences and distribution, we have encountered strong competition from microbreweries, regional specialty brewers and several national craft brewers that include MillerCoors' Tenth and Blake Beer Company division ("Tenth and Blake"), and A-B's High End division. A-B's High End division includes Goose Island, Blue Point Brewing, 10 Barrel Brewing Company, Elysian, Golden Road, Shock Top and others. Because of the large number of participants and offerings in this segment, along with the accelerating consumer preference for local offerings, the competition for packaged product placements and especially draft beer placements has intensified. Although certain of these competitors distribute their products nationally and may have greater financial and other resources than we have, we believe that we possess certain competitive advantages, including our broad array of brand offerings within our five owned brand families and two partner brand families, the scale of our production breweries, and a strategically distributed network of sales and marketing resources.

We also compete against imported brands, such as Heineken, Stella Artois, Corona Extra and Guinness, which typically have significantly greater financial resources than we have. Although imported beers currently account for a greater share of the U.S. beer market than craft beers, we believe that craft brewers possess certain competitive advantages over some importers, including lower transportation costs, no importation costs, proximity to and familiarity with local consumers, a higher degree of product freshness, eligibility for lower federal excise taxes and absence of exposure to currency fluctuations.

In response to the growth of the craft beer segment, the major domestic national brewers have introduced fuller-flavored beers, including well-funded significant product launches in the wheat category, to compete with craft brewers. More recently, these major domestic brewers have invested in purchasing small craft breweries. The major national brewers, including Tenth and Blake through MillerCoors, and A-B High End brands through A-B, have significantly greater financial resources than we do and have access to a greater array of advertising and marketing tools to create product awareness of these offerings. Although increased participation by the major national brewers increases competition for market share and can heighten price sensitivity within the craft beer segment, we believe that their participation tends to increase advertising, distribution and consumer education and awareness of craft beers, and thus may ultimately contribute to further growth of this industry segment.

In the past several years, several major distilled spirits producers and national brewers have introduced flavored alcohol beverages. Products such as the Bud Light Rita family, Smirnoff Ice, the hard soda category, and Mike's Hard Lemonade have captured sizable market share in the higher-priced end of the malt beverage industry. We believe sales of these products, along with strong growth in the imported and craft beer segments of the malt beverage industry, contributed to an increase in the overall U.S. alcohol market. These products are particularly popular in certain regions and markets in which we sell our products.

Competition for consumers of craft beers has also come from wine and spirits. Growth in this segment appears to be attributable to competitive pricing, television advertising, increased merchandising and increased consumer interest in wine and spirits. Recently, the wine industry has been aided, on a limited basis, by its ability to sell outside of the three-tier system, allowing sales to be made directly to the consumer. While the craft beer segment competes with wine and spirits, it also benefits from many of the same advantages enjoyed by wine and spirit producers. These include consumers who allow themselves affordable luxuries in the form of high quality alcoholic beverages.

## Index

A significant portion of our sales continues to be in the Pacific Northwest and in California, which we believe are among the most competitive craft beer markets in the United States, both in terms of number of participants and consumer awareness. We believe that these areas offer significant competition for our products, not only from other craft brewers but also from the growing wine market and from flavored alcohol beverages. Our recent marketing efforts have been focused on promoting the authenticity of our pioneering brands, the appeal of our newer brands and better segmenting our marketing strategies to communicate the attributes of our portfolio to our target consumers. We believe that our broad array of beers and brands enables us to offer an assortment of flavors and experiences that appeal to more people.

## Segment and Enterprise-Wide Information

See Note 11 of Notes to Consolidated Financial Statements included in Part II, Item 8 of this Annual Report on Form 10-K for the required segment and enterprise-wide information.

## Regulation

Our business is highly regulated at federal, state and local levels. Various permits, licenses and approvals necessary for our brewery and pub operations and the sale of alcoholic beverages are required from a number of agencies, including the U.S. Treasury Department, the Alcohol and Tobacco Tax and Trade Bureau (“TTB”), the U.S. Department of Agriculture, the U.S. Food and Drug Administration, state alcohol regulatory agencies, and state and local health, sanitation, safety, fire and environmental agencies. In addition, the beer industry is subject to substantial federal and state excise taxes.

The Food and Drug Administration (“FDA”) issued a proposed rule in November 2015 on the use of “gluten-free” labeling for fermented and hydrolyzed foods and beverages that may affect our ability to market our Omission Beer. See Item 1A. Risk Factors for additional information.

We operate our breweries under federal licensing requirements imposed by the TTB. The TTB requires the filing of a “Brewer’s Notice” upon the establishment of a commercial brewery and the filing of an amended Brewer’s Notice any time there is a material change in the brewing or warehousing locations, brewing or packaging equipment, brewery ownership, or officers or directors. Our operations are subject to audit and inspection by the TTB at any time.

Management believes that we currently have all of the licenses, permits and approvals required for our current operations. Existing permits or licenses could be revoked if we fail to comply with the terms of such permits or licenses and additional permits or licenses may be required in the future for our current operations or as a result of expanding our operations.

The U.S. federal government currently levies an excise tax of \$18 per barrel on beer sold for consumption in the United States; however, brewers, such as us, that produce less than two million barrels annually are taxed at \$7 per barrel on the first 60,000 barrels shipped, with shipments above this amount taxed at the normal rate. Certain states also levy excise taxes on alcoholic beverages. Excise taxes may be increased in the future by the federal government or any state government or both. In the past, increases in excise taxes on alcoholic beverages have been considered in connection with various governmental budget-balancing or funding proposals.

## Federal and State Environmental Regulation

Our brewing operations are subject to environmental regulations and local permitting requirements and agreements regarding, among other things, air emissions, water discharges and the handling and disposal of hazardous wastes. While we have no reason to believe the operation of our breweries violate any such regulation or requirement, if such a violation were to occur, or if environmental regulations were to become more stringent in the future, we could be

adversely affected.

#### Dram Shop Laws

The serving of alcoholic beverages to a person known to be intoxicated may, under certain circumstances, result in the server being held liable to third parties for injuries caused by the intoxicated customer. Our restaurants and pubs have addressed this issue by maintaining reasonable hours of operation and routinely performing training for personnel.

## Index

### Trademarks

We have obtained U.S. trademark registrations for our numerous products, including our proprietary bottle designs. Trademark registrations generally include specific product names, marks and label designs. The Kona Brewing, Widmer Brothers, Redhook, and Omission marks and certain other marks are also registered in various foreign countries. We regard our Kona Brewing, Widmer Brothers, Redhook, Omission, Square Mile and other trademarks as having substantial value and as being an important factor in the marketing of our products. We are not aware of any infringing uses that could materially affect our current business or any prior claim to the trademarks that would prevent us from using such trademarks in our business. Our policy is to pursue registration of our trademarks in our markets whenever possible and to oppose vigorously any infringement of our trademarks.

### Employees

At December 31, 2015, we employed approximately 820 people, including 395 employees in the pubs and retail stores, 210 employees in production, 150 employees in sales and marketing and 65 employees in corporate and administration. Included in the totals above are 224 part-time employees and 6 seasonal or temporary employees. None of our employees are represented by a union or employed under a collective bargaining agreement. We believe our relations with our employees to be good.

### Available Information

Our Internet address is [www.craftbrew.com](http://www.craftbrew.com). There we make available, free of charge, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and any amendments to those reports, as soon as reasonably practicable after we electronically file such material with the Securities and Exchange Commission ("SEC"). Our SEC reports can be accessed through the investor relations section of our website. The information found on our website is not part of this or any other report we file with or furnish to the SEC.

### Item 1A. Risk Factors

If we are unable to gauge trends and react to changing consumer preferences in a timely and cost-effective manner, our sales and market share may decrease and our gross margin may be adversely affected.

The costs and management attention involved in maintaining an innovative brand portfolio have been, and are expected to continue to be, significant. If we have not gauged consumer preferences correctly, or are unable to maintain consistently high quality beers as we develop new brands, our overall brand image may be damaged. If this were to occur, our future sales, results of operations and cash flows would be adversely affected. Also, increased costs associated with developing new products may have a negative effect on our gross margin.

Increased competition could adversely affect sales and results of operations.

We compete in the highly competitive craft beer market, as well as in the much larger specialty beer category, which includes the imported beer segment and fuller-flavored beers offered by major national brewers. We also face increasing competition from producers of wine, spirits and flavored alcohol beverages offered by the larger spirit producers and national brewers. Increased competition could adversely affect our future sales and results of operations. See "Competition" in Part I, Item 1 of this Annual Report on Form 10-K.

Our information systems may experience an interruption or breach in security.

We rely on computer information systems to conduct our business. We have policies and procedures in place to protect against and reduce the occurrence of failures, interruptions, or breaches of security of these systems. However, there can be no assurances that these policies and procedures will eliminate the occurrence of failures, interruptions or breaches of security or that they will adequately restore our systems or minimize any such events. The occurrence of a

failure, interruption or breach of security of our computer information systems could result in loss of intellectual property, delays in our production, loss of critical information, or other events, any of which could harm our future sales or operating results.

We manage and store various proprietary information and sensitive or confidential data relating to our business, including sensitive and personally identifiable information. Breaches of our security measures or the accidental loss, inadvertent disclosure or unapproved dissemination of proprietary information or sensitive or confidential data about us, our employees, or our customers, including the potential loss or disclosure of such information or data as a result of hacking, fraud, trickery or other forms of deception, could expose us, our customers or the individuals affected to a risk of loss or misuse of this information. Any such breach, loss, or disclosure could result in litigation and potential liability for us, damage our brand image and reputation, or otherwise harm our business. In addition, our current data protection measures might not protect us against increasingly sophisticated and aggressive threats and the cost and operational consequences of implementing further data protection measures could be significant.

Index

Our business is sensitive to reductions in discretionary consumer spending.

Consumer demand for luxury or perceived luxury goods, including craft beer, can be sensitive to downturns in the economy and the corresponding impact on discretionary spending. Changes in discretionary consumer spending or consumer preferences brought about by factors such as perceived or actual general economic conditions, job losses and unemployment or underemployment, perceived or actual declines in disposable consumer income and wealth, and changes in consumer confidence in the economy, could significantly reduce customer demand for craft beer in general, and the products we offer specifically. Furthermore, our consumers may choose to replace our products with the fuller-flavored national brands or other more affordable, although lower quality, alternatives available in the market. Any such decline in consumption of our products would likely have a significant negative impact on our operating results.

Changes in consumer preferences or public attitudes about alcohol could decrease demand for our products.

If consumers were unwilling to accept our products or if general consumer trends caused a decrease in the demand for beer, including craft beer, it would adversely impact our sales and results of operations. There is no assurance that the craft brewing segment will continue to experience growth in future periods. If the markets for wine, spirits or flavored alcohol beverages continue to grow, this could draw consumers away from the beer industry in general and our products specifically and have an adverse effect on our sales and results of operations. Further, the alcoholic beverage industry has become the subject of considerable societal and political attention in recent years due to increasing public concern over alcohol-related social problems, including drunk driving, underage drinking and health consequences from the misuse of alcohol. As an outgrowth of these concerns, the possibility exists that advertising by beer producers could be restricted, that additional cautionary labeling or packaging requirements may be imposed or that there may be renewed efforts to impose, at either the federal or state level, increased excise or other taxes on beer sold in the United States. If beer in general were to fall out of favor among domestic consumers, or if the domestic beer industry were subjected to significant additional governmental regulation, it would likely have a significant adverse impact on our financial condition, operating results and cash flows.

The Food and Drug Administration (“FDA”) issued a proposed rule in November 2015 on the use of “gluten-free” labeling for fermented and hydrolyzed foods and beverages that may affect our ability to market our Omission Beer.

CBA launched Omission beer in May 2012 as the first brand of craft beer to be brewed in the United States using conventional beer ingredients (including malted barley, a gluten-containing grain) and “crafted to remove gluten.” Omission beers are brewed similarly to other craft beers except that, at the point of fermentation, a brewing enzyme called Brewers Clarex™ is added which breaks apart the gluten protein chains. Samples from each batch are tested internally using the R5 Competitive ELISA method for gluten content before packaging. The beers are then packaged into bottles in a closed packaging environment to eliminate any chance of cross contamination. Packaged samples are also sent to an independent third party lab for testing before the lot is released from the brewery. We post all test results on our website for consumers to view before they decide to purchase the beer.

Omission beers are subject to regulation by the Department of Treasury’s Alcohol and Tobacco Tax and Trade Bureau (“TTB”), but as a result of overlapping jurisdictions of the FDA and TTB, the role each agency plays in the regulation of fermented alcohol beverages, and the commitments the two agencies have made to work together to establish consistent gluten labeling policies for comparable alcohol beverage products, the above referenced FDA notice of proposed rulemaking has far-reaching implications for fermented alcohol beverages, like Omission Beer, that are subject to regulation by both the FDA and TTB. In accordance with the TTB’s premarket approval requirements, the TTB previously approved Omission labeling, including its gluten-related claims, as per their policy concerning gluten content statements in the labeling and advertising of malt beverages.

If the FDA's proposed rule becomes final as written, the TTB’s policy may be superseded, which would have a significant impact on our ability to market and sell our Omission beers as “crafted to remove gluten” and negatively

impact our operating results. CBA remains fully engaged in the FDA rulemaking process and is planning to submit regulatory, legal and scientific comments to the docket in April 2016.

Product safety and quality concerns may have a material adverse effect on our business.

Our success depends in large part on our ability to maintain consumer confidence in the safety and quality of our products. We have rigorous product safety and quality standards which we expect our breweries and our brewing partner to meet. However, we cannot assure you that, despite our strong commitment to product safety and quality, we will always meet these standards. If we, or our brewing partner, fail to comply with applicable product safety and quality standards and our products on the market are, or become, contaminated or adulterated, we may be required to conduct costly product recalls and may become subject to product liability claims and negative publicity, which could cause our reputation and business to suffer.

## Index

We have a continuing relationship with Anheuser-Busch, LLC and the current distribution network that would be difficult to replace.

Substantially all of our products are sold and distributed through A-B's distribution network. If the A-B Distributor Agreement were terminated, we would be faced with a number of operational tasks, including establishing and maintaining direct contracts with the existing wholesaler network or negotiating agreements with replacement wholesalers on an individual basis, and enhancing our credit evaluation, billing and accounts receivable processes. Such an undertaking would require significant effort and substantial time to complete, during which the distribution of our products could be impaired.

We are dependent on our wholesalers for the sale of our products.

Although substantially all of our products are sold and distributed through A-B, we continue to rely heavily on wholesalers, many of which are independent, for the sale of our products to retailers. Independent wholesalers make their own business decisions that may not align with our interests and there is no assurance that the sales efforts of distributors will be effective in generating sales of our products.

Any disruption in the ability of the wholesalers, A-B, or us to distribute products efficiently due to any significant operational problems, such as wide-spread labor union strikes or the loss of a major wholesaler as a customer, could hinder our ability to get our products to retailers and could have a material adverse impact on our sales, results of operations and cash flows. A-B has been purchasing distributors in states where it is legally permissible, which could impact our distribution if the A-B relationship were to end. 35% of our shipments during 2015 were through A-B owned distributors.

Our agreements with A-B may limit our ability to engage in certain activities and investments.

The Exchange Agreement requires us to obtain A-B's consent prior to undertaking certain activities and investments. For example, we must obtain A-B's consent before acquiring another brewer if the purchase price exceeds \$30 million or to purchase a non-brewing entity if the purchase price exceeds \$2 million. If A-B opposes strategic or financial investments proposed by our management, A-B may decline to give its consent to activities or investments that our management believes are in the best interest of our shareholders.

A-B has an influential voice in decisions of the board of directors and shareholders.

A-B owns 31.6% of our outstanding common stock, making A-B our largest shareholder. In addition, under the Exchange Agreement, A-B may designate two nominees to the Board. These directors also participate on our audit, compensation, and nominating and governance committees as non-voting observers, and one of these directors participates on our strategic planning committee as a voting member. As a result, A-B has an influential voice in deliberations of the Board and shareholders.

Expansion projects at our Portland and Kona breweries may be subject to various risks, including cost overruns, construction delays, and inability to fully utilize additional production capacity, which may adversely affect our financial condition and results of operations.

During 2015, we announced plans to expand our annual brewing capacity at our Portland brewery to 750,000 barrels at a total estimated cost of \$10 million. We have also begun construction on a new, state-of-the-art brewing facility in Kailua-Kona, Hawaii, with an annual production capacity of 100,000 barrels at a total estimated cost of approximately \$20 million. As with all projects of this magnitude, there is the potential risk of significant cost overruns, which could require us to increase our borrowing under our revolving credit facility or to find additional financing. We may also experience unforeseen construction delays, which could result in our inability to bring one or both of these facilities into production as scheduled, adversely affecting our results of operations and financial condition. In addition, if we do not achieve sufficient growth in product sales to absorb the increased production capacity following completion of these projects, we will be unable to realize our goals for gross margin improvement, which would have a negative impact on our results of operations and return on investment.

## Index

Operating breweries at production levels substantially below their current designed capacities could negatively impact our financial results.

As of December 31, 2015, the annual working capacity of our breweries was approximately 1,075,000 barrels. Due to many factors, including seasonality and production schedules of various draft products and bottled products and packages, actual production capacity will rarely, if ever, approach full working capacity. We believe that capacity utilization of the breweries will fluctuate throughout the year, and even though we expect that capacity of our breweries will be efficiently utilized during periods when our sales are strongest, there likely will be periods when the capacity utilization will be lower. If we experience contraction in our sales volumes, the resulting excess capacity and unabsorbed overhead will have an adverse effect on our gross margins, operating cash flows and overall financial performance. We periodically evaluate whether we expect to recover the costs of our production breweries over the course of their useful lives. If facts and circumstances indicate that the carrying value of these long-lived assets may be impaired, an evaluation of recoverability will be performed by comparing the carrying value of the assets to projected future undiscounted cash flows along with other quantitative and qualitative analyses. If we determine that the carrying value of such assets does not appear to be recoverable, we will recognize an impairment loss by a charge against current operations, which could have a material adverse effect on our results of operations.

Our sales are concentrated in the Pacific Northwest, California and Hawaii.

Our sales in 2015 were concentrated in Washington, Oregon, California and Hawaii and, consequently, our future sales may be adversely affected by changes in economic and business conditions within these states. We also believe the Pacific Northwest and California are among the most competitive craft beer markets in the United States, both in terms of number of market participants and consumer awareness. The Pacific Northwest and California offer significant competition to our products, not only from other craft brewers, but also from the major domestic brewers, wine producers and flavored alcohol beverages.

We are dependent upon the continued service of our senior management and other key personnel.

Our future success is dependent on the continued service of our senior management and other key employees, particularly Andrew Thomas, our Chief Executive Officer. The loss of the services of our senior management and other key employees could have a material adverse effect on our operations. Additionally, the loss of Andrew Thomas as our Chief Executive Officer, and the failure to find a replacement satisfactory to A-B, would be a termination event under the A-B Distributor Agreement.

We also may be unable to retain existing management, sales, marketing, operational and other support personnel critical to our success, which could result in harm to significant customer relationships, loss of key information, expertise or know-how, and unanticipated recruiting and training costs.

Our gross margin may fluctuate.

Future gross margin may fluctuate and even decline as a result of many factors, including: product pricing levels; sales mix between draft and packaged product sales and within the various bottled product packages; level of fixed and semi-variable operating costs; level of production at our breweries in relation to current production capacity; availability and prices of raw materials, production inputs such as energy and packaging materials; rates charged for freight; and federal and state excise taxes. The high percentage of fixed and semi-variable operating costs causes our gross margin to be particularly sensitive to relatively small changes in sales volume.

Higher health care costs may have an adverse effect on our operating results.

We are self-insured with respect to health care expenses for our employees. During 2015 and 2014, we experienced higher than average medical expense claims, which increased our Selling, general and administrative expenses. If this trend continues, our operating results may be negatively affected.

A failure in any of our supply chain processes could harm our ability to effectively operate our business.

Our results are highly dependent on our ability to accurately forecast and execute throughout the entire supply chain, including sales forecasting, raw material ordering, brewing and distribution. The combination of our recent growth and increased brand complexity has increased the operating complexity of our business. We cannot guarantee that we will effectively manage such complexity without experiencing planning failures, operating inefficiencies, or other issues that could have an adverse effect on our business.

We engage in electronic communications between third parties, including A-B and our wholesalers, as part of our supply chain processes. Any interruptions or errors in our electronic interfaces may negatively affect our operating activities.

Index

Unavailability of production at our brewing partner may adversely affect our capacity and disrupt our ability to satisfy demand for our products.

During 2014, we entered into a contract brewing relationship with our brewing partner in Memphis, Tennessee, and anticipate producing up to 100,000 barrels of our beer at that facility annually. If production at that facility should be disrupted due to unforeseen circumstances, our ability to produce and ship sufficient quantities of our beer to meet demand in certain key geographic markets, particularly Texas and the southeastern United States, could be significantly impaired, resulting in decreased sales revenue and a negative impact on our wholesaler relationships in those markets.

An increase in excise taxes could adversely affect our financial condition and results of operations.

The U.S. federal government currently levies an excise tax of \$18 per barrel on beer sold for consumption in the United States; however, brewers, such as us, that produce less than two million barrels annually, are taxed at \$7 per barrel on the first 60,000 barrels shipped, with the remainder of the shipments taxed at the normal rate. The individual states in which we operate also impose excise taxes on beer and other alcohol beverages in varying amounts. Federal and state legislators routinely consider various proposals to impose additional excise taxes on the production of alcoholic beverages, including beer. Any such increases in excise taxes, if enacted, would adversely affect our financial condition, results of operations, and cash flows.

We are subject to governmental regulations affecting our breweries and pubs.

Our business is highly regulated by federal, state, and local laws and regulations. These laws and regulations govern all aspects of the production and distribution of beer, including permitting, licensing, trade practices, labeling, advertising and marketing, distributor relationships and various other matters. A variety of federal, state and local governmental authorities also levy various taxes, license fees and other similar charges and may require bonds to ensure compliance with applicable laws and regulations. Noncompliance with such laws and regulations may cause the Alcohol and Tobacco Tax and Trade Bureau or any particular state or jurisdiction to revoke its license or permit, restricting our ability to conduct business, or result in the imposition of significant fines or penalties. One or more regulatory authorities could determine that we have not complied with applicable licensing or permitting regulations or have not maintained the approvals necessary for us to conduct business within our jurisdiction. If licenses, permits or approvals necessary for our brewery or pub operations were unavailable or unduly delayed, or if any permits or licenses that we hold were to be revoked, or additional permits or licenses were required in the future, including as a result of expanding our operations, our ability to conduct business may be disrupted, which would have a material adverse effect on our financial condition, results of operations and cash flows.

The craft beer business is seasonal in nature, and we are likely to experience fluctuations in results of operations. Sales of craft beer products are somewhat seasonal, with the first and fourth quarters historically being lower and the rest of the year generating stronger sales. Our sales volume may also be affected by weather conditions and selling days within a particular period. Therefore, the results for any given quarter will likely not be indicative of the results that may be achieved for the full fiscal year. If an adverse event such as a regional economic downturn or poor weather conditions should occur during the second and third quarters, the adverse impact to our revenues would likely be greater as a result of the seasonality of our business.

We may be unable to access public or private debt markets to fund our operations and contractual commitments at competitive rates, on commercially reasonable terms, or in sufficient amounts, if at all.

We depend, in part, on our revolving line of credit with Bank of America, N.A. ("BoFA"), to fund our operations and commitments for capital expenditures. Our capital expenditures in 2016 are expected to range from \$19 million to \$23 million. A number of factors could cause us to incur increased borrowing costs and to have greater difficulty accessing public and private markets for debt. These factors include general economic conditions, disruptions or declines in the global capital markets, our financial performance or outlook, and credit. An adverse change in any or all of these factors may materially adversely affect our ability to fund our operations and contractual or financing commitments.

If our business does not perform as expected, including if we generate less revenue than anticipated from our operations or encounter significant unexpected costs, we may fail to comply with the financial covenants under our credit facilities. If we do not comply with our financial covenants and we do not obtain a waiver or amendment, BofA may elect to cause all amounts owed to become immediately due and payable. Any default may require us to seek additional capital or modifications to our credit facilities, which may not be available or which may be costly. Any of these risks and uncertainties could have a material adverse effect on our business, financial position, results of operations, and cash flows.

Failure to realize expected benefits from capital investments in our breweries and information technology may impact our operating results and cash flows.

Over the past several years, we have made, and expect to continue to make, significant investments in improvements aimed at increasing the efficiency, capabilities and capacity of our breweries, improving our ordering and logistics systems, and enhancing the customer experience at our restaurant facilities. Failure to realize the anticipated benefits and generate adequate returns on such capital improvement projects may have a material adverse effect on our results of operations and cash flows.

## Index

We have entered into strategic relationships with certain regional brewers that increase the complexity and execution risks of our operations.

We have entered into strategic relationships with certain regional brewers, including Appalachian Mountain Brewery in North Carolina and Cisco Brewers in Massachusetts. These new relationships have added to the complexity of our operations, including brewing, packaging, marketing and selling their brands, with increased demands on our management team. There can be no assurance that we will be able to take full advantage of these strategic opportunities without experiencing unexpected costs, operating challenges or control deficiencies.

Our option agreement with Pabst Northwest Brewing Company may not culminate in the sale of our Woodinville brewing facility, in which event we may need to determine an alternative long-term use for this facility.

On January 8, 2016, we entered into an Option and Agreement of Purchase and Sale with Pabst Northwest Brewing Company, dba Rainier Brewing Company ("Rainier"), a subsidiary of Pabst Brewing Company. Under the terms of the option agreement, Rainier was granted an option to acquire our Woodinville brewery and adjacent pub facility, and certain related assets, at any time during the next three years. The purchase price will be \$25.0 million if Rainier exercises the option during the first year of the agreement, \$26.0 million if exercise occurs during the second year, and \$28.0 million if exercise occurs during the third year. If Rainier does not ultimately exercise its option to purchase the Woodinville facility, it may be required to pay us a termination fee. There can be no assurance that Rainier will exercise its option or, if it fails to exercise the option, that it will be required to pay us a termination fee. The option agreement contains certain representations and warranties and certain covenants to be performed by us which, if breached prior to expiration of the option agreement, could give Rainier a right of termination without payment of a fee. If Rainier does not exercise the option, we will retain ownership and operation of the Woodinville brewery, which could have an adverse effect on our results of operations if our planned alternative uses for the facility's brewing capacity do not materialize. See "Relationship with Rainier Brewing Company" included in Part I, Item 1 of this Form 10-K for additional information.

Acquisitions subject us to various risks, including risks relating to selection and pricing of acquisition targets, integration of acquired companies into our business and assumption of unanticipated liabilities.

We have completed two acquisitions since 2008 and may pursue additional acquisitions or joint venture or investment opportunities. We cannot assure, however, that we will be able to identify or take advantage of such opportunities. If we do pursue such transactions, we may not realize the anticipated benefits. Acquisitions involve many risks, including risks relating to the assumption of unforeseen liabilities of an acquired business, adverse accounting charges resulting from the acquisition, and difficulties in integrating acquired companies into our business, both from a cultural perspective, as well as with respect to technological integration. Our inability to successfully integrate acquired businesses or manage joint ventures may lead to increased costs, failure to generate expected returns, or even a total loss of amounts invested, any of which could have a material adverse effect on our financial condition and results of operations.

Changes in state laws regarding distribution arrangements may adversely impact our operations.

States in which we have a significant sales presence may enact legislation that significantly alters the competitive environment for the beer distribution industry. Any change in the competitive environment in those states could have an adverse effect on our future sales and results of operations and may impact the financial stability of wholesalers on which we rely.

We may experience a shortage of kegs necessary to distribute draft beer.

We distribute our draft beer in kegs that are owned by us. During periods when we experience stronger sales, we may need to rely on kegs leased from A-B to address the additional demand. If shipments of draft beer increase, we may experience a shortage of available kegs to fill sales orders. If we cannot meet our keg requirements through either lease or purchase, we may be required to delay some draft shipments. Such delays could have an adverse impact on sales and relationships with wholesalers and A-B.

Reduced involvement by the founders of Widmer Brothers Brewing Company in promoting that brand family may adversely affect sales.

The founders of Widmer Brothers Brewing Company, Kurt R. Widmer (“Kurt”) and Robert P. Widmer (“Rob”), are integrated in our current Widmer Brothers brand family messaging and we rely on the positive public perception of their images, as founders. The role of Kurt, as founder, and Rob, as founder and vice president of corporate quality assurance and industry relations, are promoted as part of our Widmer Brothers brand communication and have appeal to some drinkers. Kurt retired as our chairman of the board and director at the end of 2015 and will have an evolving role in promoting the Widmer Brothers brand going forward. Reduced involvement of Kurt and Rob may have a negative effect on sales of Widmer Brothers beers.

## Index

We are dependent on certain suppliers for key raw materials, packaging materials and production inputs. Although we seek to maintain back-up and alternative suppliers for all key raw materials and production inputs, we are reliant on certain third parties for key raw materials, packaging materials and utilities. Any disruption in the willingness or ability of these third parties to supply these critical components could hinder our ability to continue production of our products, which could have a material adverse impact on our financial condition, results of operations and cash flows.

Any change in, or violation of, federal and state environmental regulations could adversely affect our operations. Our brewing operations are subject to environmental regulations and local permitting requirements and agreements regarding, among other things, air emissions, water discharges and the handling and disposal of hazardous wastes. While we have no reason to believe the operation of our breweries violates any such regulation or requirement, if such a violation were to occur, or if environmental regulations were to become more stringent in the future, we could be adversely affected.

A small number of shareholders hold a significant ownership percentage of our common stock and uncertainty over their continuing ownership plans could cause the market price of our common stock to decline.

As noted above, A B has a significant ownership stake in us. In addition, Kurt Widmer and Rob Widmer together beneficially own approximately 2.2 million shares, or 11.6%, of our common stock. Collectively, these two groups own 43.2% of our equity. All of these shares are available for sale in the public market, subject to volume, manner of sale and other requirements under the Securities Act of 1933. Such sales in the public market, or the perception that such sales may occur, could cause the market price of our common stock to decline.

We do not intend to pay and are limited in our ability to declare or pay dividends; accordingly, shareholders must rely on stock appreciation for any return on their investment in us.

We do not anticipate paying cash dividends. Further, under our loan agreement with BofA, we are not permitted to declare or pay a dividend unless we meet certain financial covenants. As a result, only appreciation of the price of our common stock will provide a return to shareholders. Investors seeking cash dividends should not invest in our common stock.

The fair value of our intangible assets, including goodwill, may become impaired.

As a result of the acquisition of Kona Brewing Company, we have recognized a significant increase in our total intangible assets, including goodwill. As of December 31, 2015, we had \$29.3 million in an assortment of intangible assets, on a net basis, which represented nearly 15.4% of our total assets. If any circumstances were to occur, such as economic recession or other factors causing a reduction in consumer demand, or for any other reason we were to experience a significant decrease in sales growth, which had a negative impact on our estimated cash flows associated with these assets, our analyses of these assets may conclude that a decrease in the fair value of these assets occurred. In that event, we would be required to recognize a potentially significant loss on impairment of these assets. Any such impairment loss would be charged against current operations in the period of change.

### Item 1B. Unresolved Staff Comments

None.

### Item 2. Properties

We own and operate four highly-automated, small-batch production breweries: the Oregon Brewery, the Washington Brewery, the New Hampshire Brewery, and the Hawaiian Brewery, as well as two small, innovation brewing systems in Portland, Oregon and Portsmouth, New Hampshire. We lease the sites upon which the Hawaiian Brewery and Pubs, the New Hampshire Breweries and Pub, the Portland Innovation Brewery, and Oregon Pub are located, in addition to

our office space and warehouse locations in Portland, Oregon for our corporate, administrative and sales functions. In 2014, we entered into a lease for space in Southern California for our national sales office. In 2015, we entered into a long-term land lease for the location of our new Kona brewery, which expires in 2064, and in 2016 we entered into a lease for our new Redhook pub in Seattle, which expires in 2026. Certain of these leases are with related parties. These operating leases expire at various times between 2016 and 2064. See Notes 16 and 17 of Notes to Consolidated Financial Statements included in Part II, Item 8 of this report for further discussion regarding these arrangements.

Index

Certain information regarding our production breweries is as follows (capacity in thousands of barrels):

Production Breweries	Square Footage	Current Annual Capacity	Maximum Annual Capacity
Oregon Brewery	185,000	630	650
Washington Brewery	128,000	220	280
New Hampshire Brewery	125,000	215	280
Hawaiian Brewery	11,000	10	10
		1,075	1,220

The total annual capacity of all our breweries was approximately 1,075,000 barrels as of December 31, 2015 and 2014. Combined, our breweries have the potential to reach 1,220,000 barrels in annual capacity when fully optimized based on the currently available space and current product mix. Construction is currently underway to increase the annual capacity of the Oregon brewery to 750,000 barrels and, in 2016, we will break ground on a new 100,000 barrel brewery near our existing brewery and pub in Kona, which is expected to be fully operational by early 2018.

In June 2014, we initiated full-scale brewing with our brewing partner in Memphis, Tennessee. This partnership provides us scalable capacity and we anticipate producing up to 100,000 barrels at this location in 2016.

Substantially all of our personal property and fixtures, as well as the real properties associated with the Oregon Brewery, secure our loan agreement with BofA. See Note 8 of Notes to Consolidated Financial Statements included in Part II, Item 8 of this report.

### Item 3. Legal Proceedings

We are involved, from time to time, in claims, proceedings and litigation arising in the normal course of business. We believe that, to the extent that any pending or threatened litigation involving us or our properties exists, such litigation is not likely to have a material adverse effect on our financial condition or results of operations.

### Item 4. Mine Safety Disclosures

Not applicable.

## PART II

## Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our common stock trades on the NASDAQ Stock Market (“NASDAQ”) under the trading symbol BREW. The table below sets forth, for the fiscal quarters indicated, the reported high and low closing sale prices of our common stock, as reported on NASDAQ:

2014	High	Low
Quarter 1	\$17.77	\$13.99
Quarter 2	15.60	10.14
Quarter 3	14.40	8.40
Quarter 4	17.47	13.00
2015	High	Low
Quarter 1	\$13.65	\$10.89
Quarter 2	14.17	10.15
Quarter 3	11.17	7.11
Quarter 4	9.72	6.83

We had 703 common shareholders of record as of February 16, 2016.

We have not declared or paid any dividends during our existence. Under the terms of our loan agreement with BofA, we are permitted to declare or pay dividends without BofA’s consent, subject to limitations. We anticipate that, for the foreseeable future, all earnings will be retained for the operation and expansion of our business and that we will not pay cash dividends. The payment of dividends, if any, in the future, will be at the discretion of our Board of Directors and will depend upon, among other things, future earnings, capital and operating requirements, restrictions in future financing agreements, our general financial condition, and general business conditions.

## Equity Compensation Plans

Information regarding securities authorized for issuance under equity compensation plans is included in Part III, Item 12 of this Form 10-K.

## Recent Sales of Unregistered Securities

None.

## Issuer Purchases of Equity Securities

We did not repurchase any of our common stock during the fourth quarter of 2015.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Craft Brew Alliance, Inc. ("CBA") is the fifth largest craft brewing company in the U.S. and a leader in brewing, branding, and bringing to market some of the world's best-loved American craft beers.

Craft Brew Alliance was formed in 2008 through the merger of Redhook Brewery and Widmer Brothers Brewing, the two largest craft brewing pioneers in the Northwest at the time. Since then, the Alliance has continued to grow, welcoming Kona Brewing Co. in 2008, and expanding with innovative category leaders and strategic partners. Today, we are home to three of the earliest trail blazers in craft beer: Redhook Ale Brewery, Washington's largest craft brewery, founded in 1981; Widmer Brothers Brewing, Oregon's largest craft brewery, founded in 1984; and Kona Brewing Company, Hawaii's oldest and largest craft brewery, founded in 1994. As part of Craft Brew Alliance, these craft brewing legends have expanded their reach across the U.S. and approximately 30 international markets, while remaining deeply rooted to their local communities.

In addition to growing and nurturing distinctive brands steeped in local heritage, Craft Brew Alliance is committed to developing innovative new category leaders, such as Omission Beer, which is the #1 beer in the gluten-free beer segment, Square Mile Cider, the #1 local hard cider in the Pacific Northwest, and Resignation Brewery's line of KCCO beers in partnership with theChive.com, which represents the first-ever virtual brewery conceived by an online media platform.

As the craft beer market continues to grow and consumers increasingly demand local offerings, Craft Brew Alliance has expanded its portfolio of brands and maximized its brewing footprint through strategic partnerships with emerging craft beer brands in targeted markets. In 2015, we announced strategic partnerships with Appalachian Mountain Brewery, based in Boone, North Carolina; and Cisco Brewers, based in Nantucket, Massachusetts. Through this strategic partnership model, we gain local relevance in select beer geographies, while the partner breweries gain access to our world-class leadership and national infrastructure to grow their brands.

Publicly traded on NASDAQ under the ticker symbol BREW, Craft Brew Alliance is headquartered in Portland, Oregon and operates five breweries and five pub restaurants across the U.S. For more information about CBA and its brands, see "Available Information" on page 11.

We proudly brew our craft beers in four company-owned breweries located in Portland, Oregon; the Seattle suburb of Woodinville, Washington; Portsmouth, New Hampshire; and Kailua-Kona, Hawaii; and one brewery in Memphis, Tennessee owned by our brewing partner. Additionally, we own and operate two small innovation breweries, primarily used for small batch production and innovative brews, in Portland, Oregon and Portsmouth, New Hampshire.

We distribute our beers to retailers through wholesalers that are aligned with the Anheuser-Busch, LLC ("A-B") network. These sales are made pursuant to a Master Distributor Agreement (the "A-B Distributor Agreement") with A-B. As a result of this distribution arrangement, we believe that, under alcohol beverage laws in a majority of states, these wholesalers would own the exclusive right to distribute our beers in their respective markets if the A-B Distributor Agreement expires or is terminated. Kona, Redhook and Widmer Brothers beers are distributed in all 50 states. Omission Beer continues to expand into new markets in the U.S. and internationally, while Square Mile Cider is currently available in 12 states in the West. Separate from our A-B wholesalers, we maintain an internal independent sales and marketing organization with resources across the key functions of brand management, field marketing, field sales, and national retail sales.

We operate in two segments: Beer Related operations and Pubs operations. Beer Related operations include the brewing, and domestic and international sales, of craft beers and ciders from our breweries. Pubs operations primarily include our five pubs, four of which are located adjacent to our Beer Related operations, as well as other merchandise sales, and sales of our beers directly to customers.

Following is a summary of our financial results:

	Net sales	Net income	Number of Barrels Sold
2015	\$204.2 million	\$2.2 million	824,400
2014	\$200.0 million	\$3.1 million	830,200
2013	\$179.2 million	\$2.0 million	756,600

Index

## Results of Operations

The following table sets forth, for the periods indicated, certain information from our Consolidated Statements of Income expressed as a percentage of Net sales<sup>(1)</sup>:

	Year Ended December 31,			
	2015	2014	2013	
Sales	107.1	% 107.3	% 107.4	%
Less excise tax	7.1	7.3	7.4

Gross margin	30.4	% 13.2	% 28.1	%

Index

## Net Sales by Category

The following tables set forth a comparison of Net sales by category (dollars in thousands):

Sales by Category	Year Ended December 31,		Dollar Change	%	
	2015	2014		Change	
A-B and A-B related	\$177,380	\$176,161	\$1,219	0.7	%
Contract brewing and beer related <sup>(1)</sup>	13,376	12,113	1,263	10.4	%
Excise taxes	(14,413	) (14,587	) 174	(1.2	)%
Net beer related sales	176,343	173,687	2,656	1.5	%
Pubs <sup>(2)</sup>	27,825	26,335	1,490	5.7	%
Net sales	\$204,168	\$200,022	\$4,146	2.1	%

Sales by Category	Year Ended December 31,		Dollar Change	%	
	2014	2013		Change	
A-B and A-B related	\$176,161	\$159,001	\$17,160	10.8	%
Contract brewing and beer related <sup>(1)</sup>	12,113	9,082	3,031	33.4	%
Excise taxes	(14,587	) (13,253	) (1,334	) 10.1	%
Net beer related sales	173,687	154,830	18,857	12.2	%
Pubs <sup>(2)</sup>	26,335	24,350	1,985	8.2	%
Net sales	\$200,022	\$179,180	\$20,842	11.6	%

(1) Beer related includes international beer sales.

(2) Pubs sales include sales of promotional merchandise and sales of beer directly to customers.

## Shipments by Category

Shipments by category were as follows (in barrels):

Year Ended December 31,	2015	2014	Increase (Decrease)	%	Change	Change in Depletions <sup>(1)</sup>
	Shipments	Shipments				
A-B and A-B related	753,400	766,600	(13,200	) (1.7	)%	0
Contract brewing and beer related <sup>(2)</sup>	60,600	52,700	7,900	15.0	%	
Pubs	10,400	10,900	(500	) (4.6	)%	
Total	824,400	830,200	(5,800	) (0.7	)%	

Year Ended December 31,	2014	2013	Increase (Decrease)	%	Change	Change in Depletions <sup>(1)</sup>
	Shipments	Shipments				
A-B and A-B related	766,600	708,100	58,500	8.3	%	7
Contract brewing and beer related <sup>(2)</sup>	52,700	37,100	15,600	42.0	%	
Pubs	10,900	11,400	(500	) (4.4	)%	
Total	830,200	756,600	73,600	9.7	%	

(1) Change in depletions reflects the year-over-year change in barrel volume sales of beer by wholesalers to retailers.

(2) Beer related includes international beer sales.

The increase in sales to A-B and A-B related in 2015 compared to 2014 was primarily due to a shift in package mix from draft to packaged, which has a higher selling price per barrel than draft, and price increases. These increases were partially offset by a decrease in shipments primarily due to reductions in our wholesaler inventory levels in the first quarter of 2015. During the same period of 2014, wholesalers were building inventory levels in response to low levels at the end of 2013.

The increase in sales to A-B and A-B related in 2014 compared to 2013 was primarily due to the increase in shipments, a shift in package mix from draft to packaged, which has a higher selling price per barrel than draft, and price increases.

Index

The average revenue per barrel on shipments of beer through the A-B distribution network increased by 2.4% in 2015 compared to 2014, and 1.8% in 2014 compared to 2013, primarily due to pricing increases and shifts in brand, package and geographic mix. Price changes implemented by us have generally followed craft beer market pricing trends. During 2015, 2014 and 2013, we sold 91.4%, 92.3% and 93.6%, respectively, of our beer through A B at wholesale pricing levels.

The increase in contract brewing and beer related sales in 2015 compared to 2014 was primarily due to an increase in international shipments of our beers, which sell at a higher rate per barrel than contract brewing sales, as we expanded into additional countries, as well as increased pricing on our contract brewing sales. The increase in contract brewing and beer related sales was partially offset by a decline in our contract brewing shipment volume.

The increase in contract brewing and beer related sales in 2014 compared to 2013 was primarily due to an increase in international shipments of our beers, which sell at a higher rate per barrel than contract brewing sales, as we expanded into additional countries. Contract brewing also saw an increase in shipments as we began brewing for a new contract brewing customer in 2014.

Excise taxes vary directly with the volume of beer shipped.

Pubs sales increased in 2015 compared to 2014, primarily as a result of higher guest counts at both of our pubs in Hawaii. The Hawaii pubs also have higher revenue per guest than the Redhook and Widmer Brothers pubs, which additionally experienced lower guest counts at the Portland and Woodinville locations. The increase in pub sales was partially offset by the closure of the Redhook Pub in Portsmouth, New Hampshire for seven days due to inclement weather, closure of our Kona Pub on the island of Oahu for three weeks for a full remodel in the first quarter of 2015, and a decrease in beer shipment volume through our Pubs.

Pubs sales increased in 2014 compared to 2013, primarily as a result of our Kona Pubs in Hawaii experiencing increased sales, and our Redhook Pub in Woodinville being open the full year in 2014 compared to the twelve-week closure for a full remodel of that location during 2013, as well an increase in average pricing. The increase in Pubs sales was partially offset by a decrease in beer shipment volume through our Pubs.

The overall decrease in volume in 2015 compared to 2014 reflected the decrease in our Widmer Brothers and Redhook Brewery brands as we continue to reposition them in the marketplace, partially offset by the strong growth in our Kona Brewing and Omission Beer brands.

The overall increase in volume in 2014 compared to 2013 reflected the continued strength of the Kona Brewing, Omission Beer and Redhook Brewery brands, partially offset by a decrease in the Widmer Brothers brand as we continued repositioning it in the marketplace.

Shipments by Brand

The following table sets forth a comparison of shipments by brand (in barrels):

Year Ended December 31,	2015 Shipments	2014 Shipments	Increase (Decrease)	% Change	Change in Depletions	
Kona	352,100	300,600	51,500	17.1	% 16	%
Widmer Brothers <sup>(1)</sup>	198,100	217,000	(18,900)	) (8.7	)% (8	)%
Redhook	185,900	223,100	(37,200)	) (16.7	)% (15	)%
Omission	51,500	49,800	1,700	3.4	% 10	%
Total <sup>(2)</sup>	787,600	790,500	(2,900)	) (0.4	)% 0	%

Edgar Filing: CRAFT BREW ALLIANCE, INC. - Form 10-K

Year Ended December 31,	2014 Shipments	2013 Shipments	Increase (Decrease)	% Change	Change in Depletions	
Kona	300,600	256,800	43,800	17.1	% 13	%
Widmer Brothers <sup>(1)</sup>	217,000	225,300	(8,300)	(3.7)	)% (6	)%
Redhook	223,100	216,900	6,200	2.9	% 3	%
Omission	49,800	27,300	22,500	82.4	% 78	%
Total <sup>(2)</sup>	790,500	726,300	64,200	8.8	% 7	%

(1) Widmer Brothers includes the shipments and depletions from our Square Mile brand family.

(2) Total shipments by brand include international shipments and exclude shipments produced under our contract brewing arrangements.

Index

The increase in our Kona brand shipments in 2015 compared to 2014 was primarily due to increases in shipments of Big Wave Golden Ale and variety packs, and the reintroduction of Pipeline Porter during the third quarter of 2015, partially offset by a decrease in Koko Brown.

The increase in our Kona brand shipments in 2014 compared to 2013 was primarily due to the release of Castaway IPA on the mainland and continued sales growth of our Big Wave Golden Ale and Longboard Lager.

The decrease in our Widmer Brothers brand shipments in 2015 compared to 2014 was primarily due to decreases in Hefeweizen draft, Upheaval IPA and Alchemy Ale, partially offset by the summer seasonal which switched to Hefe Shandy from Citra Blonde, as Widmer Brothers focuses on its home markets. Hefeweizen packaged beer has stabilized and benefited from the introduction of the new Hefeweizen packaging in collaboration with the Portland Timbers.

The decrease in our Widmer Brothers brand shipments in 2014 compared to 2013 was primarily due to a decrease in Hefeweizen draft, partially offset by the introduction of Upheaval IPA, which replaced our Rotator IPA series.

The decrease in our Redhook brand shipments in 2015 compared to 2014 was primarily due to decreases in our KCCO series, a craft beer brand developed in partnership with theChive, a photo entertainment website, Audible Ale and Longhammer IPA, as Redhook focuses on its home market.

The increase in our Redhook brand shipments in 2014 compared to 2013 was primarily the result of increased sales of KCCO Black Lager, as well as further penetration into existing markets, particularly by our Long Hammer IPA, partially offset by declines in sales of ESB and Audible Ale.

The increase in our Omission brand shipments in 2015 compared to 2014 were primarily due to the continued success of, and demand for, the IPA and Lager styles of our beer that is crafted to remove gluten. The increase in our Omission brand shipments in 2014 compared to 2013 was primarily due to the continued success of, and demand for, the IPA, Lager and Pale Ale styles.

## Shipments by Package

The following table sets forth a comparison of our shipments by package, excluding contract brewing shipments produced under our contract brewing arrangements (in barrels):

Year Ended	2015		2014		2013			
December 31,	Shipments	% of Total	Shipments	% of Total	Shipments	% of Total		
Draft	180,700	22.9	% 198,500	25.1	% 205,500	28.3	%	
Packaged	606,900	77.1	% 592,000	74.9	% 520,800	71.7	%	
Total	787,600	100.0	% 790,500	100.0	% 726,300	100.0	%	

The shift in mix from draft to packaged in 2015 compared to 2014 was primarily the result of our Kona brand family becoming a larger share of our overall shipments by brand family, which is more heavily weighted to packaged sales, and the growth of Omission, which is only available in packaged.

The shift in mix from draft to packaged in 2014 compared to 2013 was primarily the result of the increases in volumes on our Kona, Omission and Redhook packaged beers and lower volumes on our Widmer Brothers draft beer. Increased competition across the industry, as a result of both the entry of large, multi-national brewers into the craft beer segment and the significant increase in small, local breweries nationally, is making on-premise draft sales more challenging.

Cost of Sales

Cost of sales includes purchased raw materials, direct labor, overhead and shipping costs.

Information regarding Cost of sales was as follows (dollars in thousands):

	Year Ended December 31,		Dollar	% Change	
	2015	2014	Change		
Beer Related	\$117,733	\$118,513	\$(780)	) (0.7	)%
Pubs	24,239	22,799	1,440	6.3	%
Total	\$141,972	\$141,312	\$660	0.5	%

26

---

Index

	Year Ended December 31,		Dollar		
	2014	2013	Change	% Change	
Beer Related	\$118,513	\$107,775	\$10,738	10.0	%
Pubs	22,799	21,144	1,655	7.8	%
Total	\$141,312	\$128,919	\$12,393	9.6	%

The decrease in Beer Related Cost of sales in 2015 compared to 2014 was primarily due to more favorable distribution costs per barrel, decreases in our cost of component materials, and the decrease in shipments discussed above. The decrease in Cost of sales was partially offset by an increase in brewery costs per barrel at our owned breweries and the mix shift from draft to packaged beers, as the cost per barrel of packaged beer is higher than draft.

The increase in Beer Related Cost of sales in 2014 compared to 2013 was primarily due to the increases in shipments discussed above, as well as the mix shift from draft to packaged product as the per barrel equivalent cost of packaged product is higher than draft. These increases were partially offset by increased efficiencies, primarily through better capacity utilization of our breweries.

Also contributing to the increase in Beer Related Cost of sales in 2014 compared to 2013 were various one-time costs incurred as a result of initiating brewing operations in Memphis, Tennessee. We experienced incremental startup costs for initial shipments out of the Memphis brewery as a result of launching during the 2014 peak selling season. The impact of decreased production and higher shipment costs represented approximately \$0.7 million, or \$420,000 after tax, reflected in Beer Related Cost of sales.

Pubs Cost of sales increased in 2015 compared to 2014 primarily due to increases in Sales and employee-related costs. The increase is also due to additional labor costs relating to training and overhead following the closure of our Kona Pub on the island of Oahu for three weeks for a full remodel in the first quarter of 2015.

Pubs Cost of sales increased in 2014 compared to 2013 primarily due to increases in Sales and cost increases across various categories, including labor, merchandise and administrative costs.

## Capacity Utilization

Capacity utilization is calculated by dividing total shipments by approximate working capacity and was as follows:

	Year Ended December 31,			
	2015	2014	2013	
Capacity utilization	71	% 75	% 70	%

In June 2014, we initiated full-scale brewing with our brewing partner in Memphis, Tennessee. This partnership provides us scalable capacity and we anticipate producing up to 100,000 barrels at this location in 2016.

## Gross Profit

Information regarding Gross profit was as follows (dollars in thousands):

	Year Ended December 31,		Dollar		
	2015	2014	Change	% Change	
Beer Related	\$58,610	\$55,174	\$3,436	6.2	%
Pubs	3,586	3,536	50	1.4	%
Total	\$62,196	\$58,710	\$3,486	5.9	%

  

	Year Ended December 31,		Dollar		
	2014	2013	Change	% Change	

Edgar Filing: CRAFT BREW ALLIANCE, INC. - Form 10-K

Beer Related	\$55,174	\$47,055	\$8,119	17.3	%
Pubs	3,536	3,206	330	10.3	%
Total	\$58,710	\$50,261	\$8,449	16.8	%

27

---

Index

Gross profit as a percentage of Net sales, or gross margin rate, was as follows:

	Year Ended December 31,			
	2015	2014	2013	
Beer Related	33.2	% 31.8	% 30.4	%
Pubs	12.9	% 13.4	% 13.2	%
Total	30.5	% 29.4	% 28.1	%

The increase in the Beer Related Gross profit in 2015 compared to 2014 was primarily due to favorable pricing increases, lower distribution costs per barrel and decreases in our component materials costs, partially offset by the increase in brewery costs per barrel and decline in shipment volume.

The increase in the Beer Related gross margin rate in 2015 compared to 2014 was primarily due to increases in pricing, improved distribution costs per barrel and the decrease in component materials costs, partially offset by higher brewery costs per barrel, as well as the effect of changes in product mix. The decrease in the Pubs gross margin rate in 2015 over 2014 was primarily due to the closures of two of our pubs, as discussed above.

The increase in the Beer Related Gross profit in 2014 compared to 2013 was due to the increase in shipment volume, as well as increased pricing, improved operating efficiencies of our breweries and optimization of our supply chain, partially offset by the additional costs incurred related to initiating brewing in Memphis, Tennessee, as discussed above.

The increase in the Beer Related gross margin rate in 2014 compared to 2013 was primarily due to the improved operating efficiencies of our breweries, as discussed above, optimization of our supply chain, and increases in pricing, partially offset by the effect of changes in product mix and additional costs incurred related to initiating brewing in Memphis, Tennessee. The increase in the Pubs gross margin rate in 2014 over 2013 was primarily due to the 2013 temporary closure of our Woodinville, Washington Pub for remodeling as discussed above.

#### Selling, General and Administrative Expenses

Selling, general and administrative expenses (“SG&A”) include compensation and related expenses for our sales and marketing activities, management, legal and other professional and administrative support functions.

Information regarding SG&A was as follows (dollars in thousands):

	Year Ended December 31,		Dollar Change	% Change	
	2015	2014			
	\$57,932	\$53,000	\$4,932	9.3	%
As a % of Net sales	28.4	% 26.5	%		

  

	Year Ended December 31,		Dollar Change	% Change	
	2014	2013			
	\$53,000	\$46,461	\$6,539	14.1	%
As a % of Net sales	26.5	% 25.9	%		

The increase in SG&A in 2015 compared to 2014, both in dollars and as a percentage of Net sales, was primarily due to planned increases in sales and marketing spending, as well as an increase in employee-related costs.

The increase in SG&A in 2014 compared to 2013, both in dollars and as a percentage of Net sales, was primarily due to the planned increases in SG&A spending, primarily for Kona television advertising in select markets, as well as an increase in employee related benefit costs in 2014 compared to 2013.

Index

## Interest Expense

Information regarding Interest expense was as follows (dollars in thousands):

	Year Ended December 31,		Dollar	% Change	
	2015	2014	Change		
Interest expense	\$572	\$431	\$141	32.7	%
	Year Ended December 31,		Dollar	% Change	
	2014	2013	Change		
Interest expense	\$431	\$464	\$(33)	(7.1)	%)
	Year Ended December 31,				
	2015	2014	2013		
Average debt outstanding	\$18,530	\$12,311	\$12,615		
Average interest rate	1.96	% 1.83	% 2.92		%

The increase in Interest expense in 2015 compared to 2014 was primarily due to the increase in our average debt outstanding. Our average debt outstanding increased as we have borrowed on our line of credit facility to support our expansion and growth plans, and to fund our working capital needs.

The decrease in Interest expense in 2014 compared to 2013 was due to lower average outstanding borrowings, as well as lower average interest rates.

## Income Tax Provision

Our effective income tax rate was 40.3%, 39.7% and 40.0% in 2015, 2014 and 2013, respectively. The effective income tax rates reflect the impact of non-deductible expenses (primarily meals and entertainment expenses), state and local taxes, tax credits, and income excluded from taxation under the domestic production activities exclusion.

## Liquidity and Capital Resources

We have required capital primarily for the construction and development of our production breweries, to support our expansion and growth plans, and to fund our working capital needs. Historically, we have financed our capital requirements through cash flows from operations, bank borrowings and the sale of common and preferred stock. We anticipate meeting our obligations for the twelve months beginning January 1, 2016 primarily from cash flows generated from operations and borrowing under our line of credit facility as the need arises. Capital resources available to us at December 31, 2015 included \$0.9 million of Cash and cash equivalents and \$31.2 million available under our line of credit facility.

We had \$10.8 million of working capital and our debt as a percentage of total capitalization (total debt and common shareholders' equity) was 14.1% at December 31, 2015.

A summary of our cash flow information was as follows (dollars in thousands):

	Year Ended December 31,		
	2015	2014	2013
Net cash provided by operating activities	\$11,562	\$9,911	\$8,457
Net cash used in investing activities	(16,174)	) (15,529)	) (9,894)
Net cash provided by (used in) financing activities	4,542	3,873	(850)
Decrease in cash and cash equivalents	\$(70)	) \$(1,745)	) \$(2,287)

Cash provided by operating activities of \$11.6 million in 2015 resulted from our Net income of \$2.2 million, net non-cash expenses of \$11.8 million, and changes in our operating assets and liabilities as discussed in more detail

below.

Accounts receivable, net, increased \$7.2 million to \$18.9 million at December 31, 2015 compared to \$11.7 million at December 31, 2014. This increase was primarily due a \$4.7 million increase in our receivable from A-B to a total of \$12.6 million at December 31, 2015, due to the timing of shipments. Historically, we have not had collection problems related to our accounts receivable.

29

---

## Index

Inventories decreased \$0.7 million to \$18.3 million at December 31, 2015 compared to \$19.0 million at December 31, 2014, primarily due to the timing of shipments at the end of 2015.

Other current assets decreased \$2.0 million to \$2.4 million at December 31, 2015 compared to \$4.4 million at December 31, 2014, primarily due to a decrease in the deposit for kegs leased from a third-party, which was partially offset by increases in prepaid advertising.

Accounts payable increased \$4.1 million to \$17.1 million at December 31, 2015 compared to \$13.0 million at December 31, 2014, primarily due to the timing of payments for capital projects, and brewing and production activities. The portion of our payable to A-B that is included in our Accounts payable totaled \$1.6 million at December 31, 2015, which is consistent with the balance at December 31, 2014.

As of December 31, 2015 we had the following net operating loss carryforwards (“NOLs”) and federal credit carry forwards available to offset payment of future income taxes:

- state NOLs of \$30,000, tax-effected; and
- federal alternative minimum tax (“AMT”) credit carry forwards of \$343,000.

We anticipate that we will utilize the remaining NOLs and federal credit carry forwards in the near future and, accordingly, once utilized, we will be required to satisfy all of our income tax obligations with cash.

Capital expenditures of \$15.7 million in 2015 were primarily directed to beer production capacity and efficiency improvements and Pubs remodeling. As of December 31, 2015, we had an additional \$1.3 million of expenditures recorded in Accounts payable on our Consolidated Balance Sheets, compared to \$0.6 million at December 31, 2014. Beginning in 2015, we are investing approximately \$10 million in our Oregon Brewery to expand capacity to 750,000 barrels per year, with expected completion in the first half of 2017. Also beginning in 2015 through expected completion in early 2018, we will be investing approximately \$20 million in a new Hawaiian Brewery to expand capacity to 100,000 barrels per year. We anticipate capital expenditures of approximately \$19 million to \$23 million in 2016 primarily for capacity and efficiency improvements, quality initiatives and restaurant and retail, including spending for the expansion projects.

## Loan Agreement

We have a loan agreement (as amended, the “Loan Agreement”) with Bank of America, N.A., which consists of a \$40 million revolving line of credit (“Line of Credit”), including provisions for cash borrowings and up to \$2.5 million notional amount of letters of credit, and a \$10.0 million term loan (“Term Loan”). We may draw upon the Line of Credit for working capital and general corporate purposes until expiration on November 30, 2020. The maturity date of the Term Loan is September 30, 2023. At December 31, 2015, we had \$8.8 million of borrowings outstanding under the Line of Credit and \$10.0 million outstanding under the Term Loan.

Under the Loan Agreement, interest accrues at an annual rate based on the London Inter-Bank Offered Rate (“LIBOR”) Daily Floating Rate plus a marginal rate. The marginal rate varies from 0.75% to 1.75% for the Line of Credit and Term Loan based on our funded debt ratio. At December 31, 2015, our marginal rate was 0.75% resulting in an annual interest rate of 1.11%.

In connection with an amendment to the Loan Agreement on November 15, 2013, we paid down the Term Loan by \$0.6 million in order to bring the outstanding principal balance to \$10.8 million to achieve an 80% loan to value ratio on certain property securing the Loan Agreement. Accrued interest for the Term Loan is due and payable monthly. Principal payments on the Term Loan are due monthly in accordance with an agreed-upon schedule set forth in the

Loan Agreement, with any unpaid principal balance and unpaid accrued interest due and payable on September 30, 2023.

The Loan Agreement authorizes acquisitions within the same line of business as long as we remain in compliance with the financial covenants of the Loan Agreement and there is at least \$5.0 million of availability remaining on the Line of Credit following the acquisition.

Index

## Contractual Commitments and Obligations

The following is a summary of our contractual commitments and obligations as of December 31, 2015 (in thousands):

Contractual Obligations	Payments Due By Period				
	Total	2016	2017 and 2018	2019 and 2020	2021 and beyond
Term loan	\$ 10,044	\$ 391	\$ 830	\$ 901	\$ 7,922
Interest on term loan <sup>(1)</sup>	740	111	209	189	231
Line of credit	8,777	—	—	8,777	—
Interest on line of credit <sup>(1)</sup>	479	98	195	186	—
Operating leases	39,863	5,983	7,841	3,432	22,607
Capital leases	734	134	266	266	68
Purchase commitments	37,555	25,679	8,724	3,152	—
Sponsorship obligations	2,352	1,299	1,053	—	—
Interest rate swap <sup>(2)</sup>	1,754	284	542	499	429
	\$ 102,298	\$ 33,979	\$ 19,660	\$ 17,402	\$ 31,257

(1) The variable interest rate on our term loan and line of credit was 1.11% at December 31, 2015.

(2) The fixed rate on our interest rate swaps are 2.86% and 1.28%. We pay that fixed rate less the Benchmark Rate, which was 0.36% at December 31, 2015.

See Notes 8 and 16 of Notes to Consolidated Financial Statements included in Part II, Item 8 of this Form 10-K for additional information.

## Inflation

We believe that the impact of inflation was minimal on our business in 2015, 2014 and 2013.

## Critical Accounting Policies and Estimates

Our financial statements are based upon the selection and application of significant accounting policies that require management to make significant estimates and assumptions. Judgments and uncertainties affecting the application of these policies may result in materially different amounts being reported under different conditions or using different assumptions. Our estimates are based upon historical experience, market trends and financial forecasts and projections, and upon various other assumptions that management believes to be reasonable under the circumstances at various points in time. Actual results may differ, potentially significantly, from these estimates.

## Goodwill and Other Indefinite-Lived Intangible Assets

We test goodwill and other indefinite-lived intangible assets for impairment on an annual basis, or as indicators of impairment are present. We have an option to first assess certain qualitative factors for indications of impairment in order to determine whether it is necessary to perform the quantitative, two-step impairment test. If we choose not to first perform the qualitative test, or we determine that it is more likely than not that the fair value of the reporting unit is less than the carrying amount, we perform the quantitative two-step impairment test.

Our goodwill and other indefinite-lived intangible assets impairment loss calculations contain uncertainties because they require management to make assumptions in the qualitative assessment of relevant events and circumstances and to estimate the fair value of our reporting units and indefinite-lived intangible assets, including estimating future cash flows. These calculations contain uncertainties because they require management to make assumptions and apply judgment to estimate economic factors and the profitability of future business operations and, if necessary, the fair

value of a reporting unit's assets and liabilities. Further, our ability to realize the future cash flows used in our fair value calculations is affected by changes in such factors as economic conditions, our operating performance, our industry and our business strategies.

We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to test for impairment losses on goodwill. Based on the results of our annual impairment test for goodwill and other indefinite-lived intangible assets, no impairment was recorded. We believe, based on our assessment discussed above, that our goodwill and other indefinite-lived intangible assets are not at risk of impairment. However, if actual results are not consistent with our estimates

## Index

or assumptions or there are significant changes in any of these estimates, projections or assumptions, the fair value of these assets in future measurement periods could be materially affected resulting in an impairment that could materially affect our results of operations.

### Refundable Deposits on Kegs

We distribute our draft beer in kegs that are owned by us and are reflected as a component of Property, equipment and leasehold improvements in our Consolidated Balance Sheets at cost and are depreciated over the estimated useful life of the keg. When draft beer is shipped to the wholesaler, we collect a refundable deposit, reflected as a current liability in our Consolidated Balance Sheets. Upon return of the keg to us, the deposit is refunded to the wholesaler. When a wholesaler cannot account for some of our kegs for which it is responsible, it pays us a fixed fee and forfeits its deposit for each keg determined to be lost. We have experienced some loss of kegs and anticipate that some loss will occur in future periods due to the significant volume of kegs handled by each wholesaler and retailer, the similarities between kegs owned by most brewers, and the relatively low deposit collected on each keg when compared with the market value of the keg. We believe that this is an industry-wide issue and our loss experience is typical of the industry. In order to estimate forfeited deposits attributable to lost kegs, we periodically use internal records, A-B records, other third-party records, and historical information to estimate the physical count of kegs held by wholesalers and A-B.

These estimates affect the amount recorded as brewery equipment and refundable deposits as of the date of the consolidated financial statements. The actual liability for refundable deposits could differ from estimates.

### Revenue Recognition

We recognize revenue from product sales, net of excise taxes, discounts and certain fees we must pay in connection with sales to a member of the A-B wholesale distributor network, when the products are delivered to the member. A member of the A-B wholesale distributor network may be a branch of A B or an independent wholesale distributor.

We recognize revenue on contract brewing sales when the product is shipped to our contract brewing customer.

We recognize revenue on retail sales at the time of sale and we recognize revenue from events at the time of the event.

### Deferred Taxes

Deferred tax assets arise from the tax benefit of amounts expensed for financial reporting purposes but not yet deducted for tax purposes and from unutilized tax credits and net operating loss carry forwards. We evaluate our deferred tax assets on a regular basis to determine if a valuation allowance is required. To the extent it is determined the recoverability of the deferred tax assets is not more likely than not, we will record a valuation allowance against deferred tax assets. If we are unable to generate adequate taxable income in future periods or our assessment that it is more likely than not that certain deferred tax assets will be realized is otherwise not accurate, we may incur charges in future periods to record a valuation allowance on our gross deferred tax assets.

### Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a material current or future effect on our financial condition, changes in financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources.

### Recent Accounting Pronouncements

See Note 3 of Notes to Consolidated Financial Statements included in Part II, Item 8 of this Form 10-K.

Index

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

We have assessed our vulnerability to certain market risks, including interest rate risk associated with financial instruments included in Cash and cash equivalents and Long-term debt. To mitigate this risk, on January 23, 2014, we entered into an \$8.0 million notional amount interest rate swap agreement, which expires September 29, 2023, to hedge the variability of interest payments associated with our variable-rate borrowings on our term loan. On November 25, 2015, we entered into a \$9.1 million notional amount interest rate swap agreement effective January 4, 2016, which expires January 1, 2019, to hedge the variability of interest payments associated with our variable-rate borrowings on our line of credit. The notional amount fluctuates based on a predefined schedule based on our anticipated borrowings. Since the interest rate swaps hedge the variability of interest payments on variable rate debt with similar terms, they qualify for cash flow hedge accounting treatment. These interest rate swaps hedge 75% of our total term loan and line of credit outstanding, reducing our overall interest rate risk. As of December 31, 2015, we had unhedged variable-rate debt outstanding of \$2.5 million on our term loan and \$8.8 million on our line of credit as the interest rate swap agreement was not effective until January 4, 2016. A 10% increase or decrease in the interest rate on our variable-rate debt would not have a material effect on our financial position, results of operations or cash flows.

Due to the nature of our highly liquid Cash and cash equivalents, an increase or decrease in interest rates would not materially affect the fair value of our cash or the related interest income.

Index

## Item 8. Financial Statements and Supplementary Data

Unaudited quarterly financial data for each of the eight quarters in the two-year period ended December 31, 2015 is as follows:

2015 (In thousands, except per share data)	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter
Net sales	\$41,709	\$58,531	\$54,689	\$49,239
Cost of sales	30,547	39,841	37,830	33,754
Gross profit	11,162	18,690	16,859	15,485

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders  
Craft Brew Alliance, Inc.

We have audited the accompanying consolidated balance sheets of Craft Brew Alliance, Inc. (the “Company”) as of December 31, 2015 and 2014, and the related consolidated statements of operations, comprehensive income, shareholders’ equity, and cash flows for each of the three years in the period ended December 31, 2015. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Craft Brew Alliance, Inc. as of December 31, 2015 and 2014, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Craft Brew Alliance, Inc.’s internal control over financial reporting as of December 31, 2015, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 2, 2016 expressed an unqualified opinion thereon.

## Index

### Note 1. Nature of Operations

#### Overview

Craft Brew Alliance, Inc. was formed in 1981 to brew and sell craft beer. We produce, sell and market, on a national basis, innovative packaged and draft products for the Kona, Widmer Brothers, Redhook, Omission and Square Mile brands at our six company-owned breweries and operate five pubs that promote our products, offer dining and entertainment facilities and sell retail merchandise. Our common stock trades on the Nasdaq Stock Market under the trading symbol "BREW."

Our products are distributed domestically in all 50 states. This national footprint was established primarily through a series of distribution agreements with Anheuser-Busch, LLC ("A-B"), a significant shareholder. In 2004, we and A B entered into three agreements, an exchange and recapitalization agreement (as amended, the "Exchange Agreement"), a master distributor agreement (as amended, the "A-B Distributor Agreement") and a registration rights agreement that collectively constitute the framework of our existing relationship with A-B.

Under the present terms of the A B Distributor Agreement, we distribute our products in substantially all of our markets through A B's seamless national wholesale distributor network. As a result of this distribution arrangement, we believe that, under alcohol beverage laws in a majority of states, these wholesalers own the exclusive right to distribute our beers in their respective markets if the A-B Distributor Agreement expires or is terminated. A-B's domestic wholesaler network consists primarily of independent wholesalers, together with branches owned by A-B. The A-B Distributor Agreement is subject to early termination by either party upon the occurrence of certain events. The A B Distributor Agreement expires December 31, 2018, but may be renewed automatically for an additional ten-year period unless A B provides written notice to the contrary on or before June 30, 2018.

#### Basis of Presentation

The consolidated financial statements include the accounts of Craft Brew Alliance, Inc. and our wholly owned subsidiaries. All intercompany transactions and balances are eliminated in consolidation.

### Note 2. Significant Accounting Policies

#### Cash and Cash Equivalents

We maintain cash balances with financial institutions that may exceed federally insured limits. We consider all highly liquid investments with an original maturity of three months or less to be cash equivalents. As of December 31, 2015 and December 31, 2014, we did not have any cash equivalents.

Under our cash management system, we utilize a controlled disbursement account to fund cash distribution checks presented for payment by the holder. Checks issued but not yet presented to banks may result in overdraft balances for accounting purposes. As of December 31, 2015 bank overdrafts of \$2.2 million were included in Accounts payable on our Consolidated Balance Sheets. As of December 31, 2014 there were no bank overdrafts. Changes in bank overdrafts from period to period are reported in the Consolidated Statements of Cash Flows as a component of operating activities within Accounts payable and Other accrued expenses.

#### Accounts Receivable

Accounts receivable primarily consists of trade receivables due from wholesalers and A-B for beer and promotional product sales. Because of state liquor laws and each wholesaler's agreement with A-B, we do not have collectability issues related to the sale of our beer products. Accordingly, we do not regularly provide an allowance for doubtful accounts for beer sales. We have provided an allowance for promotional merchandise receivables that have been invoiced to the wholesaler, which reflects our best estimate of probable losses inherent in the accounts. We determine the allowance based on historical customer experience and other currently available evidence. When a specific

account is deemed uncollectible, the account is written off against the allowance. The allowance for doubtful accounts was \$25,000 at both December 31, 2015 and 2014.

Activity related to our allowance for doubtful accounts was immaterial in 2015, 2014 and 2013.

#### Inventories

Inventories, except for pub food, beverages and supplies, are stated at the lower of standard cost or market. Pub food, beverages and supplies are stated at the lower of cost or market.

We regularly review our inventories for the presence of obsolete product attributed to age, seasonality and quality. If our review indicates a reduction in utility below the product's carrying value, we reduce the product to a new cost basis. We record the cost of inventory for which we estimate we have more than a twelve-month supply as a component of Intangible and other assets on our Consolidated Balance Sheets.

Index

## Property, Equipment and Leasehold Improvements

Property, equipment and leasehold improvements are stated at cost, less accumulated depreciation and accumulated amortization. Expenditures for repairs and maintenance are expensed as incurred; renewals and betterments are capitalized. Upon disposal of equipment and leasehold improvements, the accounts are relieved of the costs and related accumulated depreciation or amortization, and resulting gains or losses are reflected in our Consolidated Statements of Income.

Depreciation and amortization of property, equipment and leasehold improvements is provided on the straight-line method over the following estimated useful lives:

Buildings	30 – 50 years
Brewery equipment	10 – 25 years
Furniture, fixtures and other equipment	2 – 10 years
Vehicles	5 years
Leasehold improvements	The lesser of useful life or term of the lease

## Valuation of Long-Lived Assets

We evaluate potential impairment of long-lived assets when facts and circumstances indicate that the carrying values of such assets may be impaired. An evaluation of recoverability is performed by comparing the carrying value of the assets to projected future undiscounted cash flows. Upon indication that the carrying value of such assets may not be recoverable, we recognize an impairment loss in the current period in our Consolidated Statements of Income. We did not identify indicators of impairment during 2015, 2014 or 2013.

Definite-lived intangible assets are amortized using a straight line basis of accounting. Definite-lived intangible assets and their respective estimated lives are as follows:

Distributor agreements	15 years
Non-compete agreements	5 years

## Goodwill

Goodwill is not amortized but rather is reviewed for impairment at least annually, or more frequently if an event occurs or circumstances change that indicate that the carrying value may not be recoverable. We first make a qualitative assessment of whether it is more likely than not that a reporting unit's fair value is less than its carrying amount before applying the two-step goodwill impairment test. If the conclusion is that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, we then perform a two-step goodwill impairment test. Under the first step, the fair value of the reporting unit is compared to its carrying value, and, if an indication of goodwill impairment exists in the reporting unit, the second step of the impairment test is performed to measure the amount of any impairment loss. Under step two, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill as determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation. The residual fair value after this allocation is the implied fair value of the reporting unit goodwill. If the fair value of the reporting unit exceeds its carrying value, step two does not need to be performed. We conduct our annual impairment test as of December 31 of each year and have determined there to be no impairment for any of the periods presented.

## Indefinite-Lived Intangible Assets

Indefinite-lived intangible assets consist primarily of trademarks, domain name and recipes. We evaluate the recoverability of indefinite-lived intangible assets annually, or more frequently if events or changes in circumstances indicate that the asset might be impaired, by comparing the carrying amount of the asset to its estimated fair value measured by using discounted cash flows that the asset is expected to generate. We have determined there to be no impairment for any of the periods presented.

#### Refundable Deposits on Kegs

We distribute our draft beer in kegs that are owned by us and are reflected in our Consolidated Balance Sheets at cost and are depreciated over the estimated useful life of the keg. When draft beer is shipped to the wholesaler, we collect a refundable deposit, presented as a current liability, Refundable deposits, in our Consolidated Balance Sheets. Upon return of the keg to us, the deposit is refunded to the wholesaler.

We have experienced some loss of kegs and anticipate that some loss will occur in future periods due to the significant volume of kegs handled by each wholesaler and retailer, the homogeneous nature of kegs owned by most brewers, and the relatively small deposit collected for each keg when compared with its market value. In order to estimate forfeited deposits attributable to lost kegs, we periodically use internal records, records maintained by A B, records maintained by other third party vendors and

## Index

historical information to estimate the physical count of kegs held by wholesalers and A-B. These estimates affect the amount recorded as equipment and refundable deposits as of the date of the consolidated financial statements. The actual liability for refundable deposits may differ from estimates. Our Consolidated Balance Sheets included \$6.4 million and \$8.0 million at December 31, 2015 and 2014, respectively, in Refundable deposits on kegs and \$11.0 million and \$10.1 million, respectively, in keg equipment, net of accumulated depreciation, included as a component of Property, equipment and leasehold improvements, net.

### Concentrations of Risk

Financial instruments that potentially subject us to credit risk consist principally of Accounts receivable. While wholesalers and A-B account for substantially all Accounts receivable, this concentration risk is limited due to the number of wholesalers, their geographic dispersion and state laws regulating the financial affairs of wholesalers of alcoholic beverages.

### Comprehensive Income

Comprehensive income includes changes in the fair value of interest rate derivatives that are designated as cash flow hedges.

### Revenue Recognition

We recognize revenue from product sales, net of excise taxes, discounts and certain fees we must pay in connection with sales to a member of the A-B wholesale distributor network, when the products are delivered to the member. A member of the A-B wholesale distributor network may be a branch of A B or an independent wholesale distributor.

We recognize revenue on contract brewing sales when the product is shipped to our contract brewing customer.

We recognize revenue on retail sales at the time of sale and we recognize revenue from events at the time of the event.

### Excise Taxes

The federal government levies excise taxes on the sale of alcoholic beverages, including beer. For brewers producing less than two million barrels of beer per calendar year, the federal excise tax is \$7 per barrel on the first 60,000 barrels of beer removed for consumption or sale during the calendar year, and \$18 per barrel for each barrel in excess of 60,000 barrels. Individual states also impose excise taxes on alcoholic beverages in varying amounts. As presented in our Consolidated Statements of Income, Sales reflects the amounts invoiced to A-B, wholesalers and other customers. Excise taxes due to federal and state agencies are not collected from our customers, but rather are our responsibility. Net sales, as presented in our Consolidated Statements of Income, are reduced by applicable federal and state excise taxes.

### Taxes Collected from Customers and Remitted to Governmental Authorities

We account for tax assessed by a governmental authority that is directly imposed on a revenue-producing transaction (i.e., sales, use, value added) on a net (reduction of revenue) basis.

### Shipping and Handling Costs

Costs incurred to ship our product are included in Cost of sales in our Consolidated Statements of Income.

### Advertising Expenses

Advertising costs, consisting of television, radio, print, outdoor advertising, on-line and social media, sponsorships, trade events, promotions and printed product information, as well as costs to produce these media, are expensed as incurred. The costs associated with point of sale display items and related promotional merchandise are inventoried and charged to expense when first used. For the years ended December 31, 2015, 2014 and 2013, we recognized costs for all of these activities totaling \$16.2 million, \$15.0 million and \$12.4 million, respectively, which are reflected as

Selling, general and administrative expenses in our Consolidated Statements of Income.

Advertising expenses frequently involve the local wholesaler sharing in the cost of the program. Reimbursements from wholesalers for advertising and promotion activities are recorded as a reduction to Selling, general and administrative expenses in our Consolidated Statements of Income. Pricing discounts to wholesalers are recorded as a reduction of Sales in our Consolidated Statements of Income.

#### Stock-Based Compensation

The fair value of restricted stock awards is determined based on the number of shares granted and the quoted price of our common stock on the date of grant. The fair value of stock option awards is estimated at the grant date as calculated by the Black-Scholes-Merton (“BSM”) option-pricing model. The BSM model requires various judgmental assumptions including expected volatility and option life.

## Index

The estimated fair value of stock-based awards is recognized as compensation expense over the vesting period of the award, net of estimated forfeitures. We estimate forfeitures of stock-based awards based on historical experience and expected future activity.

The estimated fair value of performance-based stock awards is recognized over the service period based on an assessment of the probability that performance goals will be met. We re-measure the probability of achieving the performance goals during each reporting period. In future reporting periods, if we determine that performance goals are not probable of occurrence, no additional compensation expense will be recognized and any previously recognized compensation expense would be reversed.

### Legal Costs

We are a party to legal proceedings arising in the normal course of business. We accrue for certain legal costs, including attorney fees, and potential settlement claims related to various legal proceedings that are estimable and probable. If not estimable and probable, legal costs are expensed as incurred as a component of Selling, general and administrative expenses.

### Income Taxes

Deferred income taxes are established for the difference between the financial reporting and income tax basis of assets and liabilities as well as operating loss and tax credit carryforwards. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of the deferred tax assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date.

We recognize the benefits of tax return positions when it is determined that the positions are “more-likely-than-not” to be sustained by the taxing authority. Interest and penalties accrued on unrecognized tax benefits are recorded as tax expense in the period incurred. At December 31, 2015 and 2014, we did not have any unrecognized tax benefits or any interest and penalties accrued on unrecognized tax benefits.

### Segment Information

Our chief operating decision maker monitors Net sales and gross margins of our Beer Related operations and our Pubs operations. Beer Related operations include the brewing operations and related domestic and international beer and cider sales of our Kona, Widmer Brothers, Redhook and Omission beer brands and Square Mile cider brand. Pubs operations primarily include our pubs, some of which are located adjacent to our Beer Related operations. We do not track operating results beyond the gross margin level or our assets on a segment level.

### Earnings per Share

Basic earnings per share is computed on the basis of the weighted average number of shares that were outstanding during the period. Diluted earnings per share include the dilutive effect of common share equivalents calculated under the treasury stock method. Performance-based restricted stock grants are included in basic and diluted earnings per share when the underlying performance metrics have been met.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We base our estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances at the time. Actual results could differ from those estimates under different assumptions or conditions.

Note 3. Recent Accounting Pronouncements

ASU 2016-01

In January 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-01, "Financial Instruments - Overall (Subtopic 825-10)." ASU 2016-01 enhances the reporting model for financial instruments to provide users of financial statements with more decision-useful information by addressing certain aspects of recognition, measurement, presentation and disclosure of financial instruments. The amendments simplify certain requirements and also reduce diversity in current practice for other requirements. ASU 2016-01 is effective for public companies for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Except for the early application guidance specifically allowed in ASU 2016-01, early adoption is not permitted. We do not expect the adoption of ASU 2016-01 to have a material effect on our financial position, results of operations or cash flows.

Index

ASU 2015-17

In November 2015, the FASB issued ASU 2015-17, "Income Taxes (Topic 740) - Balance Sheet Classification of Deferred Taxes." ASU 2015-17 simplifies the presentation of deferred income taxes, and requires that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. The amendments apply to all entities that present a classified statement of financial position and aligns the presentation of deferred income tax assets and liabilities with International Financial Reporting Standards. ASU 2015-17 is effective for public companies for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. Early application is permitted. We do not expect the adoption of ASU 2015-17 to have a material effect on our financial position, results of operations or cash flows.

ASU 2015-15

In August 2015, the FASB issued ASU 2015-15, "Interest - Imputation of Interest (Subtopic 835-30)." ASU 2015-15 provides guidance as to the presentation and subsequent measurement of debt issuance costs associated with line of credit arrangements. The amendments are effective for financial statements issued for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. The amendments are to be applied on a retrospective basis, wherein the balance sheet of each individual period presented is adjusted to reflect the period-specific effects of applying the new guidance. We do not expect the adoption of ASU 2015-15 to have a material effect on our financial position, results of operations or cash flows.

ASU 2015-14

In August 2015, the FASB issued ASU No. 2015-14, "Revenue From Contracts With Customers (Topic 606)." The amendments in this ASU defer the effective date of ASU 2014-09. Public business entities should apply the guidance in ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. We are still evaluating the effect of the adoption of ASU 2014-09.

ASU 2015-11

In July 2015, the FASB issued ASU No. 2015-11, "Simplifying the Measurement of Inventory (Topic 330)." ASU 2015-11 simplifies the accounting for the valuation of all inventory not accounted for using the last-in, first-out ("LIFO") method by prescribing that inventory be valued at the lower of cost and net realizable value. ASU 2015-11 is effective for financial statements issued for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016 on a prospective basis. We do not expect the adoption of ASU 2015-11 to have a material effect on our financial position, results of operations or cash flows.

ASU 2015-05

In April 2015, the FASB issued ASU 2015-05, "Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40)." ASU 2015-05 provides guidance regarding the accounting for a customer's fees paid in a cloud computing arrangement; specifically about whether a cloud computing arrangement includes a software license, and if so, how to account for the software license. ASU 2015-05 is effective for public companies' annual periods, including interim periods within those fiscal years, beginning after December 15, 2015 on either a prospective or retrospective basis. Early adoption is permitted. We do not expect the adoption of ASU 2015-05 to have a material effect on our financial position, results of operations or cash flows.

ASU 2015-03

In April 2015, the FASB issued ASU No. 2015-03, "Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs." The amendments in this ASU require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt

liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. The amendments are effective for financial statements issued for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. The amendments are to be applied on a retrospective basis, wherein the balance sheet of each individual period presented is adjusted to reflect the period-specific effects of applying the new guidance. We do not expect the adoption of ASU 2015-03 to have a material effect on our financial position, results of operations or cash flows.

#### ASU 2015-02

In February 2015, the FASB issued ASU No. 2015-02, "Consolidation (Topic 810): Amendments to the Consolidation Analysis," which is intended to improve targeted areas of consolidation guidance for legal entities such as limited partnerships, limited liability companies, and securitization structures (collateralized debt obligations, collateralized loan obligations, and mortgage-backed security transactions). The ASU focuses on the consolidation evaluation for reporting organizations that are required to evaluate whether they should consolidate certain legal entities. In addition to reducing the number of consolidation models from four to two, the new standard simplifies the FASB Accounting Standards Codification and improves current U.S. GAAP by placing more emphasis on risk of loss when determining a controlling financial interest, reducing the frequency of the application of related-

Index

party guidance when determining a controlling financial interest in a variable interest entity (“VIE”), and changing consolidation conclusions for companies in several industries that typically make use of limited partnerships or VIEs. The ASU will be effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted, including adoption in an interim period. We do not expect the adoption of ASU 2015-02 to have a material effect on our financial position, results of operations or cash flows.

## Note 4. Inventories

Inventories consisted of the following (in thousands):

	December 31,	
	2015	2014
Raw materials	\$5,468	\$4,414
Work in process	3,822	2,781
Finished goods	6,109	8,986
Packaging materials	727	627
Promotional merchandise	1,477	1,531
Pub food, beverages and supplies	697	632
	\$18,300	\$18,971

Work in process is beer held in fermentation tanks prior to the filtration and packaging process.

## Note 5. Other Current Assets

Other current assets consisted of the following (in thousands):

	December 31,	
	2015	2014
Deposits paid to keg lessor	\$—	\$2,336
Prepaid property taxes	393	367
Prepaid insurance	411	369
Income tax receivable	82	250
Other	1,553	1,091
	\$2,439	\$4,413

## Note 6. Property, Equipment and Leasehold Improvements

Property, equipment and leasehold improvements consisted of the following (in thousands):

	December 31,	
	2015	2014
Brewery equipment	\$104,284	\$101,258
Buildings	56,414	55,254
Land and improvements	7,606	7,621
Furniture, fixtures and other equipment	16,688	12,501
Leasehold improvements	8,477	7,058
Vehicles	125	72
Construction in progress	9,457	4,528
	203,051	188,292
Less accumulated depreciation and amortization	(86,184	) (77,942
	\$116,867	\$110,350

Index

## Note 7. Goodwill and Intangible and Other Assets

## Goodwill

Goodwill totaled \$12.9 million at both December 31, 2015 and 2014 and there were no changes to the goodwill balance during 2015, 2014 or 2013. There are no impairment losses netted against the goodwill balance.

## Intangible and Other Assets

Intangible and other assets and the related accumulated amortization are as follows (in thousands):

	December 31,		
	2015	2014	
Trademarks and domain name	\$14,429	\$14,429	
Recipes	700	700	
Distributor agreements	2,200	2,200	
Accumulated amortization	(1,100)	(953)	)
	1,100	1,247	
Non-compete agreements	440	440	
Accumulated amortization	(440)	(374)	)
	—	66	
Other	348	250	
Accumulated amortization	(202)	(208)	)
	146	42	
Intangible assets, net	16,375	16,484	
Promotional merchandise	761	1,074	
Deposits	933	—	
Intangible and other assets, net	\$18,069	\$17,558	

Amortization expense was as follows (in thousands):

	Year Ended December 31,		
	2015	2014	2013
Amortization expense	\$222	\$241	\$247

Estimated amortization expense to be recorded for the next five fiscal years and thereafter is as follows (in thousands):

2016	\$192
2017	172
2018	172
2019	172
2020	170
Thereafter	368
	\$1,246

Index

## Note 8. Debt and Capital Lease Obligations

Long-term debt and capital lease obligations consisted of the following (in thousands):

	December 31,	
	2015	2014
Term loan, due September 30, 2023	\$10,044	\$10,421
Line of credit, due November 30, 2020	8,777	3,000
Promissory notes payable to related parties, all due July 1, 2015	—	600
Premium on promissory notes	—	63
Capital lease obligations for equipment	677	793
	19,498	14,877
Less current portion	(507	) (1,157
	\$18,991	\$13,720

Required principal payments on outstanding debt obligations as of December 31, 2015 for the next five years and thereafter are as follows (in thousands):

	Term Loan	Line of Credit	Capital Lease Obligations
2016	\$391	\$—	\$134
2017	408	—	133
2018	422	—	133
2019	442	—	133
2020	459	8,777	133
Thereafter	7,922	—	68
	10,044	8,777	734
Amount representing interest	—	—	(57
	\$10,044	\$8,777	\$677

**Term Loan and Line of Credit**

We have a loan agreement (as amended, the “Loan Agreement”) with Bank of America, N.A., which presently comprises a \$40.0 million revolving line of credit (“Line of Credit”), including provisions for cash borrowings and up to \$2.5 million notional amount of letters of credit, and a \$10.0 million term loan (“Term Loan”). We may draw upon the Line of Credit for working capital and general corporate purposes until expiration on November 30, 2020. The maturity date of the Term Loan is September 30, 2023. At December 31, 2015, we had \$10.0 million outstanding on our Term Loan and \$8.8 million outstanding under the Line of Credit.

Under the Loan Agreement, interest accrues at an annual rate based on the London Inter-Bank Offered Rate (“LIBOR”) Daily Floating Rate plus a marginal rate. The marginal rate varies from 0.75% to 1.75% for the Line of Credit and Term Loan based on our funded debt ratio. At December 31, 2015, our marginal rate was 0.75% resulting in an annual interest rate of 1.11%.

In connection with an amendment to the Loan Agreement on November 15, 2013, we paid down the Term Loan by \$0.6 million in order to bring the outstanding principal balance to \$10.8 million to achieve an 80% loan to value ratio on certain property securing the Loan Agreement. Accrued interest for the Term Loan is due and payable monthly. Principal payments on the Term Loan are due monthly in accordance with an agreed-upon schedule set forth in the Loan Agreement, with any unpaid principal balance and unpaid accrued interest due and payable on September 30, 2023.

The Loan Agreement authorizes acquisitions within the same line of business as long as we remain in compliance with the financial covenants of the Loan Agreement and there is at least \$5.0 million of availability remaining on the Line of Credit following the acquisition.

Under the Loan Agreement, a quarterly fee on the unused portion of the Line of Credit, including the undrawn amount of the related standby letter of credit, varies from 0.15% to 0.30% based upon our funded debt ratio.

Index

At December 31, 2015, the quarterly fee was 0.15% and the fee totaled the following (in thousands):

	Year Ended December 31,		
	2015	2014	2013
Loan Agreement fee	\$24	\$33	\$33

An annual fee is payable in advance on the notional amount of each standby letter of credit issued and outstanding multiplied by an applicable rate ranging from 0.75% to 1.75%. We had no letters of credit outstanding during 2015, 2014 or 2013.

We were in compliance with all applicable contractual financial covenants of the Loan Agreement at December 31, 2015. These financial covenants under the Loan Agreement are measured on a trailing four-quarter basis. We are required to maintain a funded debt ratio of up to 4.0 to 1 and a fixed charge coverage ratio above 1.20 to 1. The funded debt ratio maximum is reduced to 3.5 to 1 on January 1, 2017 and 3.0 to 1 on January 1, 2018.

The Loan Agreement is secured by substantially all of our personal property and fixtures and by our Oregon brewery. In addition, we are permitted to declare or pay dividends, repurchase outstanding common stock or incur additional debt, subject to limitations. We are restricted from entering into any agreement that would result in a change in control.

#### Promissory Notes Payable to Individual Lenders

We assumed an obligation for three promissory notes signed in connection with the acquisition of commercial real estate related to our Portland, Oregon brewery. These notes were separately executed with three individuals, but with substantially the same terms and conditions. Each promissory note was secured by a deed of trust on the commercial real estate. The notes bore a fixed interest rate of 24% per annum through June 30, 2010, after which time the rate increased to 26.9% per annum as a result of a one-time adjustment reflecting the change in the consumer price index from the date of issue, July 1, 2005, to July 1, 2010. The promissory notes were carried at the total of stated value plus a premium reflecting the difference between our incremental borrowing rate and the stated note rate. The effective interest rate for each note was 6.31%. Each note matured on July 1, 2015 and, accordingly, no amounts were outstanding at December 31, 2015. As of December 31, 2014, \$200,000 was outstanding on each note.

#### Note with Affiliated Party

In connection with the acquisition of Kona Brewing Company (“KBC”), we assumed an obligation for a promissory note payable (“Related Party Note”) to a counterparty that was a significant KBC shareholder and remains a shareholder of Craft Brew Alliance, Inc. The Related Party Note was secured by the equipment comprising a photovoltaic cell generation system (“photovoltaic system”) installed at our brewery located in Kailua-Kona, Hawaii. Accrued interest on the Related Party Note was due and payable monthly at a fixed interest rate of 4.75%, with monthly loan payments of \$16,129. Any unpaid principal balance and unpaid accrued interest under the Related Party Note was due and payable on November 15, 2014. As of December 31, 2015 and 2014, no amounts remained due pursuant to the Related Party Note.

#### Note 9. Derivative Financial Instruments

##### Interest Rate Swap Contracts

Our risk management objectives are to ensure that business and financial exposures to risk that have been identified and measured are minimized using the most effective and efficient methods to reduce, transfer and, when possible, eliminate such exposures. Operating decisions contemplate associated risks and management strives to structure proposed transactions to avoid or reduce risk whenever possible.

We have assessed our vulnerability to certain business and financial risks, including interest rate risk associated with our variable-rate long-term debt. To mitigate this risk, effective January 23, 2014, we entered into an interest rate swap contract with Bank of America, N.A. (“BofA”) for 75% of the Term Loan balance, to hedge the variability of interest payments associated with our variable-rate borrowings under our Term Loan with BofA. The Term Loan contract terminates on September 30, 2023, and had a total notional value of \$7.5 million as of December 31, 2015. Through this swap agreement, we pay interest at a fixed rate of 2.86% and receive interest at a floating-rate of the one-month LIBOR, which was 0.36% at December 31, 2015.

On November 25, 2015, we entered into a \$9.1 million notional amount interest rate swap agreement effective January 4, 2016, which expires January 1, 2019, to hedge the variability of interest payments associated with our variable-rate borrowings on our line of credit. The notional amount fluctuates based on a predefined schedule based on our anticipated borrowings. Through this swap agreement, we pay interest at a fixed rate of 1.28% and receive interest at a floating-rate of the one-month LIBOR, which

Index

was 0.36% at December 31, 2015. Since the interest rate swap hedges the variability of interest payments on variable rate debt with similar terms, it qualifies for cash flow hedge accounting treatment.

As of December 31, 2015, unrealized net losses of \$569,000 were recorded in Accumulated other comprehensive loss as a result of these hedges. The effective portion of the gain or loss on the derivatives is reclassified into Interest expense in the same period during which we record Interest expense associated with the related debt. There was no hedge ineffectiveness during 2015, 2014 or 2013.

The fair value of our derivative instruments is as follows (in thousands):

	December 31,	
	2015	2014
Fair value of interest rate swaps	\$(569	) \$(503

The effect of our interest rate swap contracts that were accounted for as derivative instruments on our Consolidated Statements of Operations was as follows (in thousands):

Derivatives in Cash Flow Hedging Relationships Year Ended	Amount of Gain (Loss) Recognized in Accumulated OCI (Effective Portion)	Location of Loss Reclassified from Accumulated OCI into Income (Effective Portion)	Amount of Loss Reclassified from Accumulated OCI into Income (Effective Portion)
December 31, 2015	\$(66	) Interest expense	\$209
2014	\$(503	) Interest expense	\$205
2013	\$219	Interest expense	\$188

## Note 10. Fair Value Measurements

Factors used in determining the fair value of our financial assets and liabilities are summarized into three broad categories:

• Level 1 – quoted prices in active markets for identical securities as of the reporting date;

• Level 2 – other significant directly or indirectly observable inputs, including quoted prices for similar securities, interest rates, prepayment speeds and credit risk; and

• Level 3 – significant inputs that are generally less observable than objective sources, including our own assumptions in determining fair value.

The factors or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following tables summarize liabilities measured at fair value on a recurring basis (in thousands):

Fair Value at December 31, 2015	Level 1	Level 2	Level 3	Total
Interest rate swap	\$—	\$(569	) \$—	\$(569
Fair Value at December 31, 2014				
Interest rate swap	\$—	\$(503	) \$—	\$(503

We did not have any assets measured at fair value on a recurring basis at December 31, 2015 or December 31, 2014.

The fair value of our interest rate swap was based on quarterly statements from the issuing bank. There were no changes to our valuation techniques during 2015, 2014 or 2013.

We believe the carrying amounts of Cash and cash equivalents, Accounts receivable, Other current assets, Accounts payable, Accrued salaries, wages and payroll taxes, and Other accrued expenses are a reasonable approximation of the fair value of those financial instruments because of the nature of the underlying transactions and the short-term maturities involved.

Index

We had fixed-rate debt outstanding as follows (in thousands):

	December 31,	
	2015	2014
Fixed-rate debt on balance sheet	\$676	\$1,456
Estimated fair value of fixed-rate debt	\$706	\$1,513

We calculate the estimated fair value of our fixed-rate debt using a discounted cash flow methodology. Using estimated current interest rates based on a similar risk profile and duration (Level 2), the fixed cash flows are discounted and summed to compute the fair value of the debt.

## Note 11. Segment Results and Concentrations

Net sales, Gross profit and gross margin information by segment was as follows (dollars in thousands):

	Beer Related	Pubs	Total		
2015					
Net sales	\$176,343	\$27,825	\$204,168		
Gross profit	\$58,610	\$3,586	\$62,196		
Gross margin	33.2	% 12.9	% 30.5		%
2014					
Net sales	\$173,687	\$26,335	\$200,022		
Gross profit	\$55,174	\$3,536	\$58,710		
Gross margin	31.8	% 13.4	% 29.4		%
2013					
Net sales	\$154,830	\$24,350	\$179,180		
Gross profit	\$47,055	\$3,206	\$50,261		
Gross margin	30.4	% 13.2	% 28.1		%

The segments use many of the same assets. For internal reporting purposes, we do not allocate assets by segment and, therefore, no asset by segment information is provided to our chief operating decision maker.

In preparing this financial information, certain expenses were allocated between the segments based on management estimates, while others were based on specific factors such as headcount. These factors can have a significant impact on the amount of Gross profit for each segment. While we believe we have applied a reasonable methodology, assignment of other reasonable cost allocations to each segment could result in materially different segment Gross profit.

Sales to wholesalers through the A-B Distributor Agreement represented the following percentage of our Sales:

Year Ended December 31,		2014		2013	
2015					
81.2	%	82.1	%	82.6	%

Receivables from A-B represented the following percentage of our Accounts receivable balance:

December 31,		2014	
2015			
66.4	%	66.8	%

All of our long-term assets are located in the U.S. and Sales outside of the U.S. are insignificant.

51

---

Index

## Note 12. Stock-Based Plans and Stock-Based Compensation

We maintain several stock incentive plans under which stock-based awards are, or have been, granted to employees and non-employee directors. We issue new shares of common stock upon exercise or settlement of the stock-based awards. All of our stock plans are administered by the Compensation Committee of our Board of Directors, which determines the grantees, the number of shares of common stock for which awards may be exercised or settled and the exercise or grant prices of such shares, among other terms and conditions of stock-based awards under our stock-based plans.

With the approval of the 2014 Stock Incentive Plan (the “2014 Plan”) in May 2014, no further grants of stock-based awards may be made under our 2010 Stock Incentive Plan (the “2010 Plan”). However, the provisions of the 2010 Plan will remain in effect until all outstanding awards are exercised, settled or terminated. Shares subject to terminated awards under the 2010 Plan are not added to the pool of shares available for grant pursuant to the 2014 Plan.

**2014 Stock Incentive Plan**

The 2014 Plan provides for grants of stock options, restricted stock, restricted stock units, performance awards and stock appreciation rights, as well as other stock-based awards. While incentive stock options may only be granted to employees, awards other than incentive stock options may be granted to employees, non-employee directors and outside consultants. Options granted to our employees have generally been subject to a five-year vesting period. Vested options generally remain exercisable until ten years following the date of grant. The exercise price of stock options must be at least equal to the fair market value per share of our common stock on the date of grant. A maximum of 1,000,000 shares of common stock are authorized for issuance under the 2014 Plan. As of December 31, 2015, there were 763,121 shares available for future awards pursuant to the 2014 Plan.

Terms of awards granted pursuant to the 2002 Plan, the 2007 Plan and the 2010 Plan were similar to the terms of awards granted pursuant to the 2014 Plan.

**Stock-Based Compensation**

Certain information regarding our stock-based compensation was as follows (in thousands, except per share amounts):

	Year Ended December 31,		
	2015	2014	2013
Weighted average per share fair value of stock options granted	\$7.68	\$6.89	\$4.90
Intrinsic value of stock options exercised	92	932	554
Intrinsic value of fully-vested stock awards granted	42	288	1,039

Stock-based compensation expense was recognized in our Consolidated Statements of Operations as follows (in thousands):

	Year Ended December 31,		
	2015	2014	2013
Selling, general and administrative expense	\$1,074	\$666	\$464
Cost of sales	83	118	85
Total stock-based compensation expense	\$1,157	\$784	\$549

We amortize stock-based compensation on a straight-line basis over the vesting period of the individual awards, which is the requisite service period, with estimated forfeitures considered.

At December 31, 2015, we had total unrecognized stock-based compensation expense of \$2.0 million, which will be recognized over the weighted average remaining vesting period of 2.8 years.

Index

The following weighted average assumptions were utilized in determining fair value pursuant to the Black-Scholes option pricing model:

	Year Ended December 31,			
	2015	2014	2013	
Risk-free interest rate	1.87	% 2.11	% 1.61	%
Dividend yield	—	% —	% —	%
Expected life	6.72 years	7.34 years	7.85 years	
Volatility	61.50	% 60.20	% 58.91	%

The risk-free rate used is based on the U.S. Treasury yield curve over the estimated term of the options granted. Expected lives were estimated based on historical exercise data. The expected volatility is calculated based on the historical volatility of our common stock.

## Stock-Based Awards Plan Activity

## Stock Option Activity

Stock option activity for the year ended December 31, 2015 was as follows:

	Options Outstanding	Weighted Average Exercise Price
Outstanding at December 31, 2014	305,031	\$9.35
Granted	136,135	12.78
Exercised	(23,319)	) 6.38
Cancelled	(47,207)	) 10.23
Outstanding at December 31, 2015	370,640	10.68

Certain information regarding options outstanding as of December 31, 2015 was as follows:

	Options Outstanding	Options Exercisable
Number	370,640	86,826
Weighted average exercise price	\$10.68	\$8.94
Aggregate intrinsic value	\$87,000	\$42,000
Weighted average remaining contractual term	8.2 years	7.2 years

## Performance-Based Stock Grants

During the first quarter of 2015, we granted performance-based common stock awards to selected executives under the 2014 Plan, with vesting contingent upon meeting various company-wide performance goals. During the second quarter of each of 2014, 2013, 2012 and 2011, we granted performance-based common stock awards to selected executives under the 2010 Plan, with vesting contingent upon meeting various company-wide performance goals. The performance goals were tied to target amounts of adjusted EBITDA and Net sales for each of the three-year periods ending December 31, 2017, 2015, 2014 and 2013, respectively; for the awards granted in 2014, the measurement period is the 11 quarters ending December 31, 2016. The awards earned on the 2015, 2014, and 2013 grants will range from zero to 125% of the targeted number of performance shares for the performance periods ending March 31, 2018, 2017, and 2016, respectively. For the 2011 grant, 50% of the targeted number of performance shares were earned for the performance period ended March 31, 2014. For the 2012 grant, 46% of the targeted number of performance shares were earned for the performance period ended March 31, 2015. Awards, if earned, are paid in shares of common stock.

Index

Activity related to performance-based awards was as follows (in shares):

	2015 Awards	2014 Awards	2013 Awards	2012 Awards	Total
Granted (target amount)	67,200	64,882	33,348	42,450	207,880
Vested	—	—	—	(19,509)	(19,509)
Canceled due to termination of employee	—	—	(2,779)	—	(2,779)
Canceled due to failure to meet performance goals	—	—	—	(22,941)	(22,941)
Not expected to vest due to failure to meet performance goals	—	—	(18,869)	—	(18,869)
Expected to vest as of December 31, 2015	67,200	64,882	11,700	—	143,782

## Stock Grants

On the date of our Annual Meeting of Shareholders, each non-employee director received an annual grant of fully-vested shares of our common stock with a fair value of \$35,000 in 2015, \$30,000 in 2014 and \$25,000 in 2013. The 2015 amount included 3,238 fully-vested shares of common stock granted to each of our seven non-employee directors for a total of 22,666 shares. In May 2015, a total of 10,782 shares were issued to certain of our full-time non-executive employees.

## Note 13. Earnings Per Share

The following table reconciles shares used for basic and diluted earnings per share ("EPS") and provides other information (in thousands):

	Year Ended December 31,		
	2015	2014	2013
Weighted average common shares used for basic EPS	19,152	19,038	18,923
Dilutive effect of stock-based awards	23	88	119
Shares used for diluted EPS	19,175	19,126	19,042
Stock-based awards not included in diluted per share calculations as they would be antidilutive (in thousands)	241	85	1

## Note 14. Income Taxes

All of our income is generated in the U.S. The components of income tax expense were as follows (in thousands):

	Year Ended December 31,		
	2015	2014	2013
Current federal	\$491	\$1,079	\$746
Current state	133	234	184
	624	1,313	930
Deferred federal	728	595	305
Deferred state	148	114	69
	876	709	374
	\$1,500	\$2,022	\$1,304

Index

Income tax expense differs from the amount computed by applying the statutory federal income tax rate to income before income taxes as follows (in thousands):

	Year Ended December 31,			
	2015	2014	2013	
Provision at U.S. statutory rate	\$1,264	\$1,734	\$1,109	
State taxes, net of federal benefit	182	217	182	
Permanent differences, primarily meals and entertainment	250	304	198	
Domestic production activities deduction	(63	) (113	) (98	)
Tax credits	(133	) (120	) (87	)
	\$1,500	\$2,022	\$1,304	

Significant components of our deferred tax assets and liabilities were as follows (in thousands):

	December 31,		
	2015	2014	
Deferred tax assets			
Net operating losses and alternative minimum tax credit carryforwards	\$372	\$364	
Accrued salaries and severance	1,396	1,150	
Other	1,208	1,153	
	2,976	2,667	
Deferred tax liabilities			
Property, equipment and leasehold improvements	(14,351	) (13,139	)
Intangible assets	(6,153	) (6,240	)
Other	(236	) (188	)
	(20,740	) (19,567	)
	\$(17,764	) \$(16,900	)

As of December 31, 2015, included in our net operating losses and alternative minimum tax credit carryforwards were the following (in thousands):

State NOLs, tax effected	\$30
Federal alternative minimum tax credit carryforwards	\$343

In assessing the realizability of our deferred tax assets, we consider future taxable income expected to be generated by the projected differences between financial statement depreciation and tax depreciation, cumulative earnings generated to date and other evidence available to us. Based upon this consideration, we assessed that all of our deferred taxes are more likely than not to be realized, and, as such, we have not recorded a valuation allowance as of December 31, 2015 or 2014.

There were no unrecognized tax benefits as of December 31, 2015 or 2014 and we do not anticipate significant changes to our unrecognized tax benefits within the next twelve months.

Our major tax jurisdictions include U.S. federal and various U.S. states. Tax years that remain open for examination by the Internal Revenue Service ("IRS") include the years from 2012 through 2015. Tax years remaining open in states where we have a significant presence range from 2011 to 2015. In addition, tax years 2003 and 2008 are eligible for examination by the IRS and state tax jurisdictions due to our utilization of the NOLs generated in these tax years in our tax returns.

Index

## Note 15. Employee Benefit Plans

We sponsor a defined contribution 401(k) plan for all employees 18 years or older. Employee contributions may be made on a before-tax basis, limited by IRS regulations. For the years ended December 31, 2015, 2014 and 2013, we matched 50% of the employee's contributions up to 6% of eligible compensation. Eligibility for the matching contribution in all years began after the participant had worked a minimum of three months. Our matching contributions to the plan vest ratably over five years of service by the employee. During 2014, we used approximately \$165,000 of previously forfeited matching contributions to fund current matching contributions, which decreased our 2014 expense. We recognized expense associated with matching contributions as follows (in thousands):

	Year Ended December 31,		
	2015	2014	2013
401(k) expense	\$817	\$632	\$744

## Note 16. Commitments

## Operating Leases

We lease office space, restaurant and production facilities, warehouse and storage space, land and equipment under operating leases that expire at various dates through the year ending December 31, 2064. Certain leases contain renewal options for varying periods and escalation clauses for adjusting rent to reflect changes in price indices. Certain leases require us to pay for insurance, taxes and maintenance applicable to the leased property. Under the terms of the land lease for our New Hampshire Brewery, we hold a first right of refusal to purchase the property should the lessor decide to sell the property.

Minimum aggregate future lease payments under non-cancelable operating leases as of December 31, 2015 are as follows (in thousands):

2016	\$5,983
2017	5,791
2018	2,050
2019	1,934
2020	1,498
Thereafter	22,607
	\$39,863

Rent expense under all operating leases, including short-term rentals as well as cancelable and noncancelable operating leases, gross, was as follows (in thousands):

	Year Ended December 31,		
	2015	2014	2013
Rent expense	\$2,042	\$2,323	\$2,554

We sub-lease corporate office space to an unrelated party pursuant to a 5-year lease that began in February 2011. In December 2014, the lease agreement was amended to extend the lease through 2025, with an option to cancel in 2020 with 180 days' written notice and a fee of \$150,000. We recognized rental income related to the sublease, which was recorded as an offset to rent expense in our Consolidated Statements of Operations, as follows (in thousands):

	Year Ended December 31,		
	2015	2014	2013
Rental income	\$369	\$269	\$266

Index

Future minimum lease rentals pursuant to this agreement as of December 31, 2015 are as follows (in thousands):

2016	\$369
2017	369
2018	369
2019	369
2020	369
Thereafter	1,850
	\$3,695

We lease our headquarters office space, restaurant and storage facilities located in Portland, land and certain equipment from two limited liability companies, both of whose members include our former Board Chair, who is also a significant shareholder, and a nonexecutive officer. Lease payments to these lessors were as follows (in thousands) and are included in the Rent expense under all operating leases above:

Year Ended December 31,		
2015	2014	2013
\$120	\$125	\$127

The lease for the headquarters office space and restaurant facility expires in 2034, with an extension at our option for two 10-year periods, while the lease for the other facilities, land and equipment expires in 2017 with an extension at our option for two 5-year periods. We hold a right to purchase the headquarters office space and restaurant facility at the greater of \$2.0 million or the fair market value of the property as determined by a contractually established appraisal method. The right to purchase is not valid in the final year of the lease term or in each of the final years of the renewal terms, as applicable. All lease terms are considered to be arm's-length transactions.

We hold lease and sublease obligations for certain office space and the land underlying the brewery and pub location in Kona, Hawaii, with a company whose owners include a shareholder who owns more than 5% of our common stock and a former nonexecutive officer whose employment ended in 2015. The sublease contracts expire on various dates through 2020, with an extension at our option for two 5-year periods. Lease payments to this lessor were as follows (in thousands) and are included in the Rent expense under all operating leases above:

Year Ended December 31,		
2015	2014	2013
\$524	\$499	\$428

All lease terms are considered to be arm's-length transactions. In December 2015, related to the execution of the long-term land lease with an unrelated third party for our new Kona brewery, we also paid approximately \$100,000 to the lessor described above to acquire their right of first refusal on the land lease from the unrelated third party.

#### Purchase and Sponsorship Commitments

We periodically enter into commitments to purchase certain raw materials in the normal course of business. Furthermore, we have entered into purchase commitments and commodity contracts to ensure we have the necessary supply of malt and hops to meet future production requirements. Certain of the malt and hop commitments are for crop years through 2020. We believe that malt and hop commitments in excess of future requirements, if any, will not have a material impact on our financial condition or results of operations. We may take delivery of the commodities in excess of our requirements or make payments against the purchase commitments earlier than contractually obligated, which means our cash outlays in any particular year may exceed or be less than the commitment amount disclosed.

In certain cases, we have executed agreements with selected vendors to source our requirements for specific malt and hop varieties for the years ending December 31, 2016, 2017, 2018, 2019 and 2020; however, either the quantity to be delivered or the full price for the commodity has not been established at the present time. To the extent the

commitment is not measurable or has not been fixed, that portion of the commitment has been excluded from the table below.

We have entered into multi-year sponsorship and promotional commitments with certain professional sports teams and entertainment companies. Generally, in exchange for our sponsorship consideration, we post signage and provide other promotional materials at the site or the event. The terms of these sponsorship commitments expire at various dates through September 30, 2018.

57

---

Index

Aggregate future payments under purchase and sponsorship commitments as of December 31, 2015 are as follows (in thousands):

	Purchase Obligations	Sponsorship Obligations	Total
2016	\$25,679	\$1,299	\$26,978
2017	4,768	589	5,357
2018	3,956	464	4,420
2019	1,581	—	1,581
2020	1,571	—	1,571
Thereafter	—	—	—
	\$37,555	\$2,352	\$39,907

## Note 17. Related Party Transactions

For additional related party transactions, see Notes 8 and 16.

As of December 31, 2015 and 2014, A-B owned approximately 31.6% and 31.7%, respectively, of our outstanding common stock.

## A-B Distributor Agreement

The A-B Distributor Agreement requires a \$0.25 per case equivalent Margin Fee to be paid to A B for beer sold through A-B or the associated A B distribution network, except for beer sold in qualifying territories, through December 31, 2018. Beer sold through A-B or the associated A-B distribution network in qualifying territories, as defined, was exempt from Margin Fees until September 30, 2013, and thereafter are assessed Margin Fees at the \$0.25 per case equivalent through December 31, 2018. In the event the A-B Distributor Agreement is renewed beyond December 31, 2018, the A-B Distributor Agreement sets Margin Fees to be paid to A B for the period beginning January 1, 2019 and ending December 31, 2028, at \$0.75 per case equivalent.

If we purchase additional beer brands, we may distribute those brands outside of the A-B Distributor Agreement while still selling existing brands to A-B affiliated wholesalers. We would not be obligated to pay margin fees on sales of the new brand.

## Transactions with A-B

Transactions with A-B consisted of the following (in thousands):

	Year Ended December 31,		
	2015	2014	2013
Gross sales to A-B	\$179,974	\$178,805	\$161,010
Margin fee paid to A-B, classified as a reduction of Sales	2,594	2,644	2,009
Handling, inventory management, royalty and other fees paid to A-B, classified in Cost of sales	396	393	402

Amounts due to or from A-B were as follows (in thousands):

	December 31,	
	2015	2014
Amounts due from A-B related to beer sales pursuant to the A-B distributor agreement	\$12,576	\$7,846
Refundable deposits due to A-B	(2,291	) (2,629
Amounts due to A-B for services rendered	(1,645	) (1,821

Net amount due from A-B	\$8,640	\$3,396
-------------------------	---------	---------

Note 18. Subsequent Event

Agreement with Rainier Brewing Company

On January 8, 2016, we entered into brewing agreements with Pabst Northwest Brewing Company, dba Rainier Brewing Company ("Rainier"), a subsidiary of Pabst Brewing Company, under which Rainier will begin brewing selected Rainier brands at our brewery in Woodinville, Washington, in the spring of 2016 under an alternating proprietorship or services agreement. We will

58

---

Index

continue to operate the Woodinville brewery and the adjacent Redhook Forecaster's Pub under the agreements, which expire on December 31, 2018.

In conjunction with the brewing agreements, we granted Rainier an option to purchase the Woodinville brewery and adjacent pub, as well as related assets (together, the "Property"), at any time prior to termination of the brewing agreement. The purchase price of the Property will be \$25.0 million if Rainier exercises the option during the first year of the agreement, \$26.0 million if exercise occurs during the second year of the agreement, and \$28.0 million if Rainier exercises the option during the third year of the agreement and on or before the close of business on December 31, 2018. Under the option agreement, Rainier has the right to conduct an additional diligence review of environmental and title issues relating to the Property, and to terminate both the brewery agreements and the option agreement if it is not satisfied with its diligence investigation of those matters at the end of the review period, which is expected to expire by April 17, 2016. If Rainier does not exercise its option to purchase the Property, it may be required to pay us a termination fee.

Item 9. Changes In and Disagreements With Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Disclosure Controls and Procedures

Our management, including our Chief Executive Officer and our Principal Financial Officer, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e) or 15d-15(e)) under the Securities Exchange Act of 1934 (“Exchange Act”) as of the end of the period covered by this Report. Based upon that evaluation, our Chief Executive Officer and Principal Financial Officer concluded that, as of the end of the period covered by this report, disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission’s rules and forms and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. While reasonable assurance is a high level of assurance, it does not mean absolute assurance. Disclosure controls and internal control over financial reporting cannot prevent or detect all errors, misstatements or fraud. In addition, the design of a control system must recognize that there are resource constraints, and the benefits associated with controls must be proportionate to their costs.

Changes in Internal Control Over Financial Reporting

During the fourth quarter of 2015, no changes in our internal control over financial reporting were identified in connection with the evaluation required by Exchange Act Rule 13a-15 or 15d-15 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Report of Management on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting in accordance with Exchange Act Rule 13a-15(f). Our internal control system was designed to provide reasonable assurance to our management and Board of Directors regarding the preparation and fair presentation of published financial statements. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of our financial statements would be prevented or detected.

Our management assessed the effectiveness of our internal control over financial reporting based on the framework and criteria established in Internal Control — Integrated Framework, issued in 2013 by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that our internal control over financial reporting was effective as of December 31, 2015.

Moss Adams LLP, an independent registered public accounting firm, has audited the effectiveness of our internal control over financial reporting as of December 31, 2015, as stated in their report, which is included herein.

Index

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders  
Craft Brew Alliance, Inc.

We have audited Craft Brew Alliance, Inc.'s (the "Company") internal control over financial reporting as of December 31, 2015, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Craft Brew Alliance, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Craft Brew Alliance, Inc. as of December 31, 2015 and 2014, and the consolidated statements of income, comprehensive income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2015, and our report dated March 2, 2016 expressed an unqualified opinion on those consolidated financial statements.

None.

## PART III

## Item 10. Directors, Executive Officers and Corporate Governance

The information required by this Item is contained in part in our definitive proxy statement for our 2016 Annual Meeting of Shareholders to be held on May 11, 2016 (the “2016 Proxy Statement”) under the captions “Board of Directors – Nominees for Director,” “Board of Directors – Committees of the Board – Audit Committee,” “Executive Officers,” and “Section 16(a) Beneficial Ownership Reporting Compliance,” and the information contained therein is incorporated herein by reference.

## Code of Conduct

We adopted a Code of Conduct and Ethics (the “Code”) applicable to all employees, including our principal executive officer, principal financial officer, principal accounting officer and directors. The Code and the charters of each of the Board committees are posted on our website at [www.craftbrew.com](http://www.craftbrew.com) (select Investor Relations — Governance — Highlights). Copies of these documents are available to any shareholder who requests them. Such requests should be directed to Investor Relations, Craft Brew Alliance, Inc., 929 N. Russell Street, Portland, OR 97227. Any waivers of the Code for our directors or executive officers are required to be approved by our Board of Directors. We will disclose any such waivers on a current report on Form 8-K within four business days after the waiver is approved.

## Item 11. Executive Compensation

Information required by this Item is contained in our 2016 Proxy Statement under the captions “Compensation Committee Report,” “Compensation Discussion and Analysis,” “Executive Compensation,” “Employment Agreements and Potential Payments Upon Termination or Change-in-Control,” “Director Compensation” and “Board of Directors – Committees of the Board – Compensation Committee” and the information contained therein is incorporated herein by reference.

## Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

## Securities Authorized for Issuance Under Equity Compensation Plans

The following is a summary as of December 31, 2015 of all of our plans that provide for the issuance of equity securities as compensation. See Note 12 of Notes to Consolidated Financial Statements in Part II, Item 8 of this Annual Report on Form 10-K for additional information.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)		Weighted average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by shareholders	514,422	(1)	\$10.68	763,121
Equity compensation plans not approved by shareholders	—		—	—

Edgar Filing: CRAFT BREW ALLIANCE, INC. - Form 10-K

Total	514,422	\$ 10.68	763,121
-------	---------	----------	---------

Includes a total of 143,782 performance shares that may vest between March 31, 2016 and March 31, 2018, based (1) on the expected levels of achievement of financial targets over three separate performance periods. The shares are not included in the calculation of weighted average price in column (b).

The remaining information required by this Item is contained in our 2016 Proxy Statement under the caption "Security Ownership of Certain Beneficial Owners and Management," and the information contained therein is incorporated herein by reference.
