CryptoLogic's Millionaires Club welcomes a wealthy new member

Player wins £1.5 million on CryptoLogic's popular progressive online casino game

August 12, 2009 (Dublin, IRELAND) **CryptoLogic Limited**, a global developer of branded online betting games and Internet casino software, has added a new member to its most exclusive club -- as a lucky winner hit a £1,547,338.68 jackpot playing Millionaires Club, one of the company's most popular games.

The winner earned the payout last week while playing Millionaires Club at Skyvegas.com (owned by the U.K.'s BSkyB Group), one of CryptoLogic's newest licensees. Just days later, another lucky player at Intercasino.com won US\$186,118 playing the same game -- showing that it is possible to hit the jackpot at any time.

Whether it's on land or online, big payouts attract big player action -- and CryptoLogic's games are designed to deliver both, said Justin Thouin, CryptoLogic's Vice President. That's why CryptoLogic games and Internet casino software are popular among players, and profitable for major online gaming brands such as Sky Vegas and Intercasino.

CryptoLogic launched a selection of its top casino games, including Millionaires Club, on SkyVegas.com earlier this year. Because CryptoLogic's shared progressive jackpot system pools funds from many of the world's largest e-gaming sites, the jackpots grow more quickly and attract more players.

Another lucky player has become a millionaire, and it's a payout we are happy to make, said Richard Flint, Managing Director of Sky Betting and Gaming. Every big win attracts more players to Skyvegas.com, where we are very pleased to deliver the excitement and the experience of CryptoLogic games.

Including these recent wins, Millionaires Club has paid out more than \$3.1 million in jackpot wins in the past year alone. In 2007, CryptoLogic awarded one of the largest jackpot wins in the history of online gaming -- more than \$8 million. Just two weeks later, a player won more than \$4 million, another one of the highest online casino jackpots of all time.

Boasting more than 280 games, CryptoLogic has one of the most comprehensive casino suites on the Internet today with games featuring some of the world's most famous action and entertainment characters. CryptoLogic has earned rave reviews from industry peers and players alike, and in 2009 earned *Gambling Online Magazine's* Top Casino Software award for the fourth consecutive year. Based on the votes of players around the world, it is widely considered the industry's top honour.
