On December 8, 2003, the President signed into law the Medicare Prescription Drug Improvement and Modernization Act of 2003 (the Act). The Act introduces a prescription drug benefit under Medicare as well as a federal subsidy to sponsors of retiree health care benefit plans that override a benefit that is at least actuarially equivalent to Medicare.

In June 2004, the FASB issued FSP 106-2, Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003. The FSP provides guidance on the accounting for the effects of the Act for employers that sponsor postretirement health care plans that provide prescription drug benefits. The FSP also requires those employers to provide

7

certain disclosures regarding the effect of the federal subsidy provided by the Act. The Company adopted the provisions of the FSP on July 1, 2004. The impact of the adoption of the FSP resulted in a reduction in the accumulated post-retirement benefit obligation of \$5.9 million and a reduction in the net periodic benefit cost for the three-months ended September 30, 2004, of \$250,000.

The company previously disclosed in its consolidated financial statements for the year ended December 31, 2003, that it expected to contribute \$21.2 million to its pension plans in 2004. As of September 30, 2004, the Company expects to contribute \$20.1 million to its pension plans in 2004. Of this total, \$16.8 million of contributions have been made as of September 30, 2004. The Company expects to contribute an additional \$3.3 million by December 31, 2004.
