TF FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 — PRINCIPLES OF CONSOLIDATION

The consolidated financial statements as of September 30, 2013 (unaudited) and December 31, 2012 and for the three and nine-month periods ended September 30, 2013 and 2012 (unaudited) include the accounts of TF Financial Corporation (the “Company”) and its wholly owned subsidiaries: 3rd Fed Bank (the “Bank”) and Penns Trail Development Corporation. The accompanying consolidated balance sheet at December 31, 2012, has been derived from the audited consolidated balance sheet but does not include all of the information and notes required by accounting principles generally accepted in the United States of America (“US GAAP”) for complete financial statements. The Company’s business is conducted principally through the Bank. All significant intercompany accounts and transactions have been eliminated in consolidation.

NOTE 2 — BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements were prepared in accordance with the instructions for Form 10-Q and, therefore, do not include all of the disclosures or footnotes required by US GAAP. In the opinion of management, all adjustments, consisting of normal recurring accruals, necessary for fair presentation of the consolidated financial statements have been included. The results of operations for the period ended September 30, 2013 are not necessarily indicative of the results which may be expected for the entire fiscal year or any other period. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2012.

NOTE 3 — RECENT ACCOUNTING PRONOUNCEMENTS

In February 2013, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. The amendments in this update require an entity to report the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items in net income if the amount being reclassified is required under US GAAP to be reclassified in its entirety to net income. For other amounts that are not required under US GAAP to be reclassified in their entirety to net income in the same reporting period, an entity is required to cross-reference other disclosures required under US GAAP that provide additional detail about those amounts. For public entities, the amendments are effective prospectively for reporting periods beginning after December 15, 2012. The Company has provided the necessary disclosures in Note 6 – Accumulated Other Comprehensive (Loss) Income.

In February 2013, FASB issued ASU 2013-04, Liabilities (Topic 405): Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date. The objective of the amendments in this update is to provide guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date, except for obligations addressed within existing guidance in US GAAP. Examples of obligations within the scope of this update include debt arrangements, other contractual obligations, and settled litigation and judicial rulings. US GAAP does not include specific guidance on accounting for such obligations with joint and several liability, which has resulted in diversity in practice. Some entities record the entire amount under the joint and several liability arrangement on the basis of the concept of a liability and the guidance that must be met to extinguish a liability. Other entities record less than the total amount of the obligation, such as an amount allocated, an amount corresponding to the proceeds received, or the portion of the amount the entity agreed to pay

among its co-obligors, on the basis of the guidance for contingent liabilities. The amendments in this update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. This ASU is not expected to have a significant impact on the Company's financial statements.

In July 2013, the FASB issued ASU 2013-10, Derivatives and Hedging (Topic 815): Inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes. The amendments in this update permit the Fed Funds Effective Swap Rate (OIS) to be used as a U.S. benchmark interest rate for hedge accounting purposes under Topic 815, in addition to UST and LIBOR. The amendments also remove the restriction on using different benchmark rates for similar hedges. The amendments are effective prospectively for qualifying new or redesignated hedging relationships entered into on or after July 17, 2013. This ASU is not expected to have a significant impact on the Company's financial statements.

In July 2013, the FASB issued ASU 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. This update applies to all entities that have unrecognized tax benefits when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists at the

Table of Contents

reporting date. An unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows. To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. The assessment of whether a deferred tax asset is available is based on the unrecognized tax benefit and deferred tax asset that exist at the reporting date and should be made presuming disallowance of the tax position at the reporting date. The amendments in this update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. For nonpublic entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2014. Early adoption is permitted. The amendments should be applied prospectively to all unrecognized tax benefits that exist at the effective date. Retrospective application is permitted. The Company is currently evaluating the impact the adoption of the standard will have on the Company's financial position or results of operations.

NOTE 4 — ACQUISITION OF ROEBLING FINANCIAL CORP, INC.

On July 2, 2013, the Company closed on a merger transaction pursuant to which the Company acquired Roebling Financial Corp, Inc. ("Roebling"), the parent company of Roebling Bank, in a stock and cash transaction.

Under the terms of the merger agreement, the Company acquired all of the outstanding shares of Roebling for a total purchase price of approximately \$14.9 million. As a result of the acquisition, the Company issued 306,873 common shares, or 20.31% of the total shares outstanding as of September 30, 2013, to former shareholders of Roebling. As a result of the merger, Roebling was merged with and into the Company, and Roebling Bank was merged with and into 3rd Fed Bank.

Table of Contents

The following table summarizes the purchase of Roebling as of July 2, 2013:

| | At July 2, 2013 (in thousands, except per share data) |
|--|---|
| Purchase Price Consideration in Common Stock | |

| Deferred tax assets | (276) |
| Other assets | 280 |
| Adjustments to reflect liabilities acquired at fair value: | |
| Time deposits | (440) |
| FHLB advances | (51) |
| | 16,140 |
| Purchase gain resulting from acquisition | \$1,214 |

Table of Contents

The following condensed statement reflects the values assigned to Roebbling's net assets as of the acquisition date:

| | At July 2, 2013 (in thousands) |
|-----------------------------------|-----------------------------------|
| Total purchase price | \$14,926 |
| Net assets acquired: | |
| Cash | \$4,081 |
| Investment securities | 37,339 |
| Loans | 102,026 |
| Premises and equipment, net | 2,154 |
| Core deposit intangible | 553 |
| Other assets | 2,625 |
| Time deposits | (49,061) |
| Deposits other than time deposits | (78,689) |
| Other liabilities | (4,888) |
| | 16,140 |
| Purchase gain on acquisition | \$1,214 |

The acquired assets and assumed liabilities were measured at preliminary estimated fair values. Management made certain estimates and exercised judgment in accounting for the acquisition. The following is a description of the methods used to determine fair value of significant assets and liabilities at the acquisition date:

Cash and cash equivalents — The Company acquired \$4.1 million in cash and cash equivalents, which management deemed to reflect fair value based on the short term nature of the asset.

Investment Securities — The Company acquired \$37.3 million in U.S. Government and federal agency and mortgage-backed securities that were recorded at fair value. Please refer to Note 9 - Fair Value Measurements and Fair Value of Financial Instruments for a discussion of methodologies used to determine fair value.

Loans — The Company acquired \$102.0 million in loans with and without evidence of credit quality deterioration. The loans consisted of residential mortgage loans, consumer loans which include second mortgage loans and home equity secured lines of credit, commercial real estate loans and other commercial loans.

Table of Contents

At the acquisition date, the Company recorded \$101.2 million of loans without evidence of credit quality deterioration and \$797,000 of loans acquired with evidence of credit quality deterioration. The following table reflects the composition of the loans acquired as well as the fair value adjustments made:

| | At July 2, 2013 | | Total (in thousands) |
|---------------------------------|--|--|-------------------------|
| | Loans acquired with no credit quality deterioration | Loans acquired loans with credit quality deterioration | |
| Residential | | | |
| Residential mortgages | \$54,965 | \$ 21 | \$54,986 |
| Commercial | | | |
| Real estate-commercial | 13,262 | — | 13,262 |
| Real estate-residential | 5,143 | 356 | 5,499 |
| Real estate-multi-family | 1,595 | 331 | 1,926 |
| Commercial and industrial loans | 308 | — | 308 |
| Consumer | | | |
| Home equity and second mortgage | 25,847 | 89 | 25,936 |
| Other consumer | 109 | — | 109 |
| Total | \$101,229 | \$ 797 | \$102,026 |

The Company estimated the general credit risk fair value adjustment based on guidance from ASC 820-10, Fair Value Measurements which defines fair value as the price which would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There is no active observable market for sale information on community bank loans and thus Level 3 fair value procedures were utilized, primarily the use of present value techniques incorporating assumptions which market participants would use in estimating fair values. In lieu of reliable market information, the Company used its own assumptions in an effort to determine a reasonable estimate of fair value. Loans acquired without credit quality deterioration were evaluated using a two-part general credit fair value analysis for all loan groups: 1) expected lifetime credit migration losses and 2) estimated fair value adjustment for qualitative factors. An adjustment of \$932,000 was made to reflect a general credit risk fair value. Additionally, the Company recorded an increase of \$1.1 million to reflect the fair value of loans based on current interest rates on loans similar to those acquired.

A specific credit fair value adjustment was made as prescribed by ASC 310-30, Loans and Debt Securities Acquired with Deteriorated Credit Quality. Accordingly, the Company reviewed the Roebing loan portfolio on a loan by loan basis to determine whether loans met the definition of credit impaired as set forth in ASC 310-30. Specifically: 1) Had there been credit deterioration from the loan's inception until the acquisition date and 2) Is it probable that not all of the contractual cash flows will be collected on the loan. Based on this analysis, loans with a principal balance of \$1.3 million were identified as being within the scope of ASC 310-30. The Company estimated the cash flows on each loan whether from expected monthly payments or from the liquidation of the underlying collateral on collateral dependent loans. The contractual cash flows in excess of the aggregate expected cash flows resulted in a credit-related non-accretable yield in the amount of \$325,000. Additionally, the aggregate expected cash flows less the acquisition date fair value resulted in an accretable yield amount of \$198,000.

The following table contains the fair value adjustments on loans acquired without significant credit deterioration:

| Fair value of loans acquired not accounted for under ASC 310-30 | At July 2, 2013 (in thousands) |
|--|---|
| Contractual amount of acquired loans at acquisition | \$ 101,365 |
| Contractual cash flows not expected to be collected (general credit valuation) | (1,068) |
| Expected cash flows at acquisition | 100,297 |
| Interest rate fair value adjustment | 932 |
| Total | \$ 101,229 |

12

Table of Contents

The following table contains the adjustments on loans acquired with credit deterioration:

| | At July 2, 2013 (in thousands) |
|--|---|
| Fair value of loans acquired accounted for under ASC 310-30 | |
| Contractual amount of acquired loans at acquisition | \$ 1,320 |
| Contractual cash flows not expected to be collected (non-accretable yield) | (325) |
| Expected cash flows at acquisition | 995 |
| Interest component of expected cash flows (accretable yield) | (198) |
| Total | \$797 |

Premises and equipment, net — The Company acquired \$2.2 million in land and buildings because of the Roebing merger, which reflects fair value. The fair value as of the acquisition date was determined by an appraisal conducted by an independent qualified appraiser.

Core deposit intangible — The Company recorded a core deposit intangible of \$553,000. A core deposit intangible arises from a financial institution having a deposit base comprised of stable customer relationships. These deposits are generally at interest rates or on terms that are favorable to the financial institution. Fair value of the core deposit intangible was estimated based on guidance from ASC 820-10. There is no active observable market for sale information on community bank core deposits and thus Level 3 fair value procedures were utilized, primarily the use of the income approach which is based on an analysis of the expected after tax cash flow benefits of the acquired core deposits versus the cost of utilizing an alternative source (brokered deposits) for its funding. Core deposits exclude certificates of deposit and other accounts, which the Company judged to be non-core deposits. The cost of core deposits incorporated estimates of the costs of maintaining and supporting the deposits such as interest, branch expenses, personnel, and data processing. This cost was compared to the alternative funding source and the resulting economic benefit was discounted over the expected life of the acquired core deposits using a long-term market-based after tax rate of return.

Core deposit intangible is amortized over the expected useful life. The life is periodically reassessed to determine if any amortization period adjustments are required. During the three and nine months ended September 30, 2013, no such adjustments were recorded. The gross carrying amount of the core deposit intangible at September 30, 2013 was \$528,000 with \$25,000 accumulated amortization as of that date.

As of September 30, 2013, the current year and estimated future amortization expense for the core deposit intangible was as follows:

| | At September 30, 2013 (in thousands) |
|------|---|
| 2013 | \$ 76 |
| 2014 | 91 |
| 2015 | 80 |
| 2016 | 70 |
| 2017 | 60 |
| 2018 | 50 |
| 2019 | 40 |
| 2020 | 30 |
| 2021 | 21 |

| | |
|------|--------|
| 2022 | 10 |
| | \$ 528 |

Deposits — The Company assumed \$127.8 million in deposits which included \$49.1 million of interest-bearing time deposits ("CDs"). An increase of \$440,000 was made to reflect the fair value of the CDs. This fair value adjustment is based on guidance derived from ASC 820-10 and is based on current market interest rates on CDs of the same remaining maturity as Roebbling's CDs. Market rates were obtained from independent third party sources for CDs offered in New Jersey on or about the acquisition date.

Table of Contents

Results of operations for Roebling prior to the acquisition date are not included in the Consolidated Statement of Income for the three and nine-month periods ended September 30, 2013. The following table presents financial information regarding the former Roebling operations included in the Consolidated Statement of Income from the date of acquisition through September 30, 2013 under the column “Actual from acquisition date through September 30, 2013”. In addition, the following table presents unaudited pro forma information as if the acquisition of Roebling had occurred on January 1, 2012 under the “Pro Forma” columns. The table below has been prepared for comparative purposes only and is not necessarily indicative of the actual results that would have been attained had the acquisition occurred as of the beginning of the periods presented, nor is it indicative of future results. Furthermore, the unaudited pro forma information does not reflect management’s estimate of any revenue-enhancing opportunities nor anticipated cost savings as a result of the integration and consolidation of the acquisition. Merger and acquisition integration costs and amortization of fair value adjustments net of the related income tax effects are included in the amounts below, but any purchase gain has been excluded.

| | Actual from Acquisition Date Through September 30, 2013 (in thousands) | | | |
|---------------------|--|--|--|--|
| Net interest income | \$ 1,119 | | | |
| Noninterest income | 123 | | | |
| Net loss | (840) | | | |

| | Pro Formas | | | |

| Diluted | \$0.22 | \$0.46 | \$1.26 | \$1.33 |

Table of Contents

NOTE 5 — EARNINGS PER SHARE

The following tables illustrate the reconciliation of the numerators and denominators of the basic and diluted earnings per share computations (dollars in thousands, except share and per share data):

| | For the three months ended September 30, 2013 | | |
|--|--|--|---------------------|
| | Income (numerator) | Weighted average shares (denominator) | Per share Amount |
| Basic earnings per share | | | |
| Income available to common stockholders | \$1,966 | 3,051,581 | \$0.64 |
| Effect of dilutive securities | | | |
| Stock options and grants | — | 3,903 | — |
| Diluted earnings per share | | | |
| Income available to common stockholders plus effect of dilutive securities | \$1,966 | 3,055,484 | \$0.64 |
| | For the nine months ended September 30, 2013 | | |
| | Income (numerator) | Weighted average shares (denominator) | Per share Amount |
| Basic earnings per share | | | |
| Income available to common stockholders | \$4,989 | 2,845,608 | \$1.75 |
| Effect of dilutive securities | | | |
| Stock options and grants | — | 1,316 | — |
| Diluted earnings per share | | | |
| Income available to common stockholders plus effect of dilutive securities | \$4,989 | 2,846,924 | \$1.75 |

There were 31,963 options to purchase shares of common stock with exercise prices ranging from \$25.71 to \$32.51 per share which were outstanding during the three and nine months ended September 30, 2013 that were not included in the computation of diluted earnings per share because the options' exercise prices were greater than the average market price of the common stock.

Table of Contents

| | For the three months ended September 30, 2012 | | |
|--|--|--|---------------------|
| | Income (numerator) | Weighted average shares (denominator) | Per share Amount |
| Basic earnings per share | | | |
| Income available to common stockholders | \$1,473 | 2,728,534 | \$0.54 |
| Effect of dilutive securities | | | |
| Stock options and grants | — | 3,119 | — |
| Diluted earnings per share | | | |
| Income available to common stockholders plus effect of dilutive securities | \$1,473 | 2,731,653 | \$0.54 |
| | For the nine months ended September 30, 2012 | | |
| | Income (numerator) | Weighted average shares (denominator) | Per share Amount |
| Basic earnings per share | | | |
| Income available to common stockholders | \$3,877 | 2,723,703 | \$1.42 |
| Effect of dilutive securities | | | |
| Stock options and grants | — | 3,668 | — |
| Diluted earnings per share | | | |
| Income available to common stockholders plus effect of dilutive securities | \$3,877 | 2,727,371 | \$1.42 |

There were 65,337 options to purchase shares of common stock with exercise prices ranging from \$23.53 to \$32.51 per share which were outstanding during the three and nine months ended September 30, 2012 that were not included in the computation of diluted earnings per share because the options' exercise prices were greater than the average market price of the common stock.

Table of Contents

NOTE 6 — ACCUMULATED OTHER COMPREHENSIVE (LOSS) INCOME

The activity in accumulated other comprehensive (loss) income for the three months ended September 30, 2013 and 2012 is as follows:

| | Accumulated Other Comprehensive (Loss) Income (1), (2) | | |
|--|---|---|-------------|
| | Unrealized gains (losses) on securities available for sale | Defined benefit pension plan (in thousands) | Total |
| Balance at June 30, 2013 | \$ 1,087 | \$ (2,748) | \$ (1,661) |
| Other comprehensive loss before reclassifications | (160) | — | (160) |
| Amounts reclassified from accumulated other comprehensive income (loss) | — | 44 | 44 |
| Period change | (160) | 44 | (116) |
| Balance at September 30, 2013 | \$ 927 | \$ (2,704) | \$ (1,777) |
| Balance at June 30, 2012 | \$ 3,864 | \$ (2,809) | \$ 1,055 |
| Other comprehensive income before reclassifications | 359 | — | 359 |
| Amounts reclassified from accumulated other comprehensive income (loss) | — | 47 | 47 |
| Period change | 359 | 47 | 406 |
| Balance at September 30, 2012 | \$ 4,223 | \$ (2,762) | \$ 1,461 |

(1) All amounts are net of tax. Related income tax expense or benefit is calculated using a Federal income tax rate of 34%.

(2) Amounts in parentheses indicate debits.

| | Amount reclassified from accumulated other comprehensive income (loss) For the three months ended September 30, (2) | | Affected line item in the consolidated statements of income |
|---|---|-------|---|
| | 2013 | 2012 | |
| | (in thousands) | | |
| Defined benefit pension plan (1) | | | |
| Amortization of net actuarial loss | \$ 66 | \$ 71 | Compensation and benefits |
| Related income tax expense | (22) | (24) | Income tax expense |
| Net effect on accumulated other comprehensive income for the period | \$ 44 | \$ 47 | Net income |

(1) Included in the computation of net periodic pension cost. See Note 11 – Employee Benefit Plans for additional detail.

(2) Amounts in parentheses indicate debits.

Table of Contents

NOTE 7 — INVESTMENT SECURITIES

The amortized cost, gross unrealized gains and losses, and fair value of the Company's investment securities are summarized as follows:

| | Amortized cost | At September 30, 2013 Gross unrealized gains Gross unrealized losses (in thousands) | | Fair value |
|---|-------------------|--|------------|---------------|
| Available for sale | | | | |
| U.S. Government and federal agencies | \$22,576 | \$34 | \$(311) | \$22,299 |
| State and political subdivisions | 58,571 | 1,721 | (687) | 59,605 |
| Residential mortgage-backed securities issued by quasi-governmental agencies | 46,522 | 749 | (101) | 47,170 |
| Total investment securities available for sale | 127,669 | 2,504 | (1,099) | 129,074 |
| Held to maturity | | | | |
| Residential mortgage-backed securities issued by quasi-governmental agencies | 1,540 | 179 | — | 1,719 |
| Total investment securities | \$129,209 | \$2,683 | \$(1,099) | \$130,793 |
| | | At December 31, 2012 Gross unrealized gains Gross unrealized losses (in thousands) | | Fair value |
| Available for sale | | | | |
| State and political subdivisions | \$55,254 | \$4,360 | \$(4) | \$59,610 |
| Residential mortgage-backed securities issued by quasi-governmental agencies | 41,265 | 1,409 | — | 42,674 |
| Total investment securities available for sale | 96,519 | 5,769 | (4) | 102,284 |
| Held to maturity | | | | |
| Residential mortgage-backed securities issued by quasi-governmental agencies | 1,965 | 306 | — | 2,271 |
| Total investment securities | \$98,484 | \$6,075 | \$(4) | \$104,555 |

There were no sales of investment securities during the three and nine months ended September 30, 2013 or 2012.

Table of Contents

The amortized cost and fair value of investment and mortgage-backed securities, by contractual maturity, are shown below.

| | At September 30, 2013 | | | |
|---|---|------------|---------------------------------------|------------|
| | Available for sale Amortized cost | Fair value | Held to maturity Amortized cost | Fair value |
| | (in thousands) | | | |
| Investment securities | | | | |
| Due in one year or less | \$1,649 | \$1,681 | \$— | \$— |
| Due after one year through five years | 19,218 | 19,564 | — | — |
| Due after five years through ten years | 39,321 | 39,373 | — | — |
| Due after ten years | 20,959 | 21,286 | — | — |
| | 81,147 | 81,904 | — | — |
| Mortgage-backed securities | 46,522 | 47,170 | 1,540 | 1,719 |
| Total investment and mortgage-backed securities | \$127,669 | \$129,074 | \$1,540 | \$1,719 |

The table below indicates the length of time individual securities have been in a continuous unrealized loss position at September 30, 2013:

| Description of Securities | Number of Securities | Less than 12 months | | 12 months or longer | | Total | |
|--|----------------------------|------------------------|--------------------|------------------------|--------------------|---------------|--------------------|
| | | Fair Value | Unrealized Loss | Fair Value | Unrealized Loss | Fair Value | Unrealized Loss |
| (dollars in thousands) | | | | | | | |
| U.S. Government and federal agencies | 10 | \$ 14,325 | \$ (311) | \$ — | \$ — | \$ 14,325 | \$ (311) |
| State and political subdivisions | 17 | 15,751 | (687) | — | — | 15,751 | (687) |
| Residential mortgage-backed securities | | | | | | | |
| issued by quasi-governmental agencies | 37 | 16,100 | (101) | — | — | 16,100 | (101) |
| Total temporarily impaired securities | 64 | \$ 46,176 | \$ (1,099) | \$ — | \$ — | \$ 46,176 | \$ (1,099) |

The table below indicates the length of time individual securities have been in a continuous unrealized loss position at December 31, 2012:

| Description of Securities | Number of Securities | Less than 12 months | | 12 months or longer | | Total | |
|--|----------------------------|------------------------|--------------------|------------------------|--------------------|---------------|--------------------|
| | | Fair Value | Unrealized Loss | Fair Value | Unrealized Loss | Fair Value | Unrealized Loss |
| (dollars in thousands) | | | | | | | |
| State and political subdivisions | 1 | \$ 617 | \$ (4) | \$ — | \$ — | \$ 617 | \$ (4) |
| Total temporarily impaired securities | 1 | \$ 617 | \$ (4) | \$ — | \$ — | \$ 617 | \$ (4) |

On a quarterly basis, temporarily impaired securities are evaluated to determine whether such impairment is an other-than-temporary impairment (“OTTI”). The Company has performed this evaluation and has determined that the

unrealized losses at September 30, 2013 and December 31, 2012, respectively, are not considered other-than-temporary but are the result of changes in interest rates, and are therefore reflected in other comprehensive (loss) income.

Table of Contents

NOTE 8 — LOANS RECEIVABLE

Loans receivable are summarized as follows:

| | September 30, 2013 | At | December 31, 2012 |
|--|--------------------|----|-------------------|
| | (in thousands) | | |
| Held for investment: | | | |
| Residential | | | |
| Residential mortgages | \$ 379,358 | | \$ 323,665 |
| Commercial | | | |
| Real estate-commercial | 122,635 | | 104,766 |

| Total | \$ 138,403 | \$ 9,388 | \$ 18,597 | \$ — | \$ 166,388 |

In order to assess and monitor the credit risk associated with commercial loans, the Company employs a risk rating methodology whereby each commercial loan is initially assigned a risk grade. At least annually, all risk ratings are reviewed in light of information received such as tax returns, rent rolls, cash flow statements, appraisals, and any other information which may affect the then current risk rating, which is adjusted upward or downward as needed. At the end of each quarter, the risk ratings are summarized and become a component of the evaluation of the allowance for loan losses. The Company's risk rating definitions mirror those promulgated by banking regulators and are as follows:

Pass: A good quality loan characterized by satisfactory liquidity; reasonable debt capacity and coverage; acceptable management in all critical positions and normal operating results for its peer group. The Company has grades 1 through 6 within the Pass category which reflect the increasing amount of attention paid to the individual loan because of, among other things, trends in debt service coverage, management weaknesses, or collateral values.

Special mention: A loan that has potential weaknesses that deserves management's close attention. Although the loan is currently protected, if left uncorrected, potential weaknesses may result in the deterioration of the loan's repayment prospects or in the borrower's future credit position. Potential weaknesses include: weakening financial condition; an unrealistic repayment program; inadequate sources of funds; lack of adequate collateral; credit information; or documentation. There is currently the capacity to meet interest and principal payments, but further adverse business, financial, or economic conditions may impair the borrower's capacity or willingness to pay interest and repay principal.

Substandard: A loan that is inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged. Although no loss of principal or interest is presently apparent, there is the distinct possibility that a partial loss of interest and/or principal will be sustained if the deficiencies are not corrected. There is a current identifiable vulnerability to default and the dependence upon favorable business, financial, or economic conditions to

meet timely payment of interest and repayment of principal.

Doubtful: A loan which has all the weaknesses inherent in a substandard asset with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable

Table of Contents

and improbable. The possibility of loss is extremely high, but because of certain important and reasonable specific pending factors which may work to strengthen the asset, classification as an estimated loss is deferred until a more exact status is determined. Pending factors include: proposed merger, acquisition, liquidation, capital injection, perfecting liens on additional collateral, and refinancing plans.

Loss: Loans which are considered uncollectible and have been charged off. The Company has charged-off all loans classified as loss.

Loans classified as special mention, substandard or doubtful are evaluated for potential impairment. All impaired loans are placed on nonaccrual status and are classified as substandard or doubtful.

The following tables present by credit quality indicator the composition of the residential mortgage and consumer loan portfolios:

| | At September 30, 2013 | | |
|---------------------------------|-----------------------|---------------|-----------|
| | Performing | Nonperforming | Total |
| | (in thousands) | | |
| Residential mortgages | \$377,257 | \$ 2,101 | \$379,358 |
| Home equity and second mortgage | 64,160 | 217 | 64,377 |
| Other consumer | 1,812 | 1 | 1,813 |
| Total | \$443,229 | \$ 2,319 | \$445,548 |

| | At December 31, 2012 | | |
|---------------------------------|----------------------|---------------|-----------|
| | Performing | Nonperforming | Total |
| | (in thousands) | | |
| Residential mortgages | \$321,400 | \$ 2,265 | \$323,665 |
| Home equity and second mortgage | 40,000 | 143 | 40,143 |
| Other consumer | 1,827 | 8 | 1,835 |
| Total | \$363,227 | \$ 2,416 | \$365,643 |

In order to assess and monitor the credit risk associated with residential mortgage loans and consumer loans which include second mortgage loans and home equity secured lines of credit, the Company relies upon the payment status of the loan. Residential mortgage and other consumer loans 90 days or more past due are placed on nonaccrual status, classified as nonperforming, and evaluated for impairment.

Table of Contents

The following table presents by class nonperforming loans including impaired loans and loan balances 90 days or more past due for which the accrual of interest has been discontinued:

| | September 30, 2013 | At December 31, 2012 |

| Total | \$8,100 | \$1,750 | \$(3,154) | \$76 | \$6,772 |

Despite the above allocation, the allowance for credit losses is general in nature and is available to absorb losses from any portfolio segment.

Loans receivable include certain loans that have been modified as Troubled Debt Restructurings (“TDRs”), where economic concessions have been granted to borrowers experiencing financial difficulties. The objective for granting the concessions is to maximize the recovery of the investment in the loan and may include reductions in the interest rate, payment extensions, forgiveness of interest or principal, forbearance or other actions. TDRs are classified as

nonperforming at the time of restructuring and typically

28

Table of Contents

return to performing status after considering the borrower's positive repayment performance for a reasonable period of time, at least six months.

Loans modified in a TDR are evaluated individually for impairment based on the present value of expected cash flows or the fair value of the underlying collateral less selling costs for collateral dependent loans. If the value of the modified loan is less than the recorded investment in the loan, impairment is recognized through an increase by an additional provision to the allowance for loan losses. In periods subsequent to modification, TDRs are evaluated for possible additional impairment.

There were no loans classified as TDRs for the three and nine months ended September 30, 2013. The following tables present by class loans classified as TDRs for the three and nine months ended September 30, 2012:

| | For the three months ended September 30, 2012 | | | For the nine months ended September 30, 2012 | | |
|----------------------|--|---|---|---|---|---|
| | Number of Contracts | Pre-Modification | Post Modification | Number of Contracts | Pre-Modification | Post Modification |
| | | Outstanding Recorded Investment (in thousands) | Outstanding Recorded Investment (in thousands) | | Outstanding Recorded Investment (in thousands) | Outstanding Recorded Investment (in thousands) |
| Residential | | | | | | |
| Residential mortgage | — | \$— | \$— | 1 | \$852 | \$ 852 |
| Total | — | \$— | \$— | 1 | \$852 | \$ 852 |

The following table presents loans classified as TDRs that subsequently defaulted:

| | For the three months ended September 30, 2013 | | For the nine months ended September 30, 2013 | |
|----------------------|---|--|--|--|
| | Number of Contracts (in thousands) | Recorded Investment (in thousands) | Number of Contracts (in thousands) | Recorded Investment (in thousands) |
| Residential | | | | |
| Residential mortgage | 1 | \$337 | 1 | \$337 |
| Total | 1 | \$337 | 1 | \$337 |

During the first quarter of 2012, a TDR totaling \$167,000 which had been previously identified as in default of its modified terms was repaid and a \$40,000 loss was charged to the allowance for loan losses.

Acquired loans are recorded at fair value on their purchase date without a carryover of the related allowance for loan losses.

The carrying value of the loans acquired and accounted for in accordance with ASC 310-30 was determined by projecting discounted contractual cash flows. The table below presents the components of the purchase accounting adjustments related to the purchased impaired loans acquired in the Roebling acquisition as of July 2, 2013:

At July 2,
2013
(in
thousands)

| | |
|--------------------------|----------|
| Unpaid principal balance | \$ 1,320 |
| Interest | 638 |
| Contractual cash flows | 1,958 |
| Non-accretable discount | (963) |
| Expected cash flows | 995 |
| Accretable discount | (198) |
| Estimated fair value | \$ 797 |

Table of Contents

Changes in the amortizable yield for purchased credit-impaired loans were as follows for the three months ended September 30, 2013:

| | At September 30, 2013 (in thousands) | |
|--------------------------------|---|------|
| Balance at beginning of period | \$ | — |
| Acquisition of impaired loans | | 198 |
| Accretion | | (16) |
| Balance at end of period | \$ | 182 |

The following table presents additional information regarding loans acquired and accounted for in accordance with ASC 310-30:

| | July 2, 2013 Acquired Loans with Specific Evidence of Deterioration in Credit Quality (ASC 310-30) | | September 30, 2013 Acquired Loans with Specific Evidence of Deterioration in Credit Quality (ASC 310-30) | |
|---------------------|--|-------|--|-------|
| | (in thousands) | | | |
| Outstanding balance | \$ | 1,958 | \$ | 1,958 |
| Carrying amount | | 797 | | 813 |

There were no material increases or decreases in the expected cash flows of these loans between July 2, 2013 the acquisition date and September 30, 2013. There has been no allowance for loan losses recorded for acquired loans with or without specific evidence of deterioration in credit quality as of the acquisition date as well as those acquired without specific evidence of deterioration in credit quality as of September 30, 2013.

Table of Contents

NOTE 9 — FAIR VALUE MEASUREMENTS AND FAIR VALUE OF FINANCIAL INSTRUMENTS

The following tables present information about the Company's financial instruments measured at fair value as of September 30, 2013 and December 31, 2012. Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. A fair value measurement hierarchy has been established for inputs in valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Determination of the appropriate level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement for the instrument or security.

The fair value hierarchy levels are summarized below:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs are inputs that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable and contain assumptions of the party assessing the fair value of the asset or liability.

Assets measured at fair value on a recurring basis segregated by fair value hierarchy level are summarized below:

| | Fair value hierarchy levels | | | Balance as of |
|--|-----------------------------|-----------|---------|--------------------|
| | Level 1 | Level 2 | Level 3 | September 30, 2013 |
| | (in thousands) | | | |

Table of Contents

Investment securities available for sale and mortgage-backed securities available for sale are valued primarily by a third party pricing agent. U.S. Government and federal agency securities are primarily priced through a multi-dimensional relational model, a Level 2 hierarchy, which incorporates dealer quotes and other market information including, defined sector breakdown, benchmark yields, base spread, yield to maturity and corporate actions. State and political subdivision securities are valued within the Level 2 hierarchy using inputs with a series of matrices that reflect benchmark yields, ratings updates, and spread adjustments. Mortgage-backed securities include Government National Mortgage Association (“GNMA”), Federal Home Loan Mortgage Corporation (“FHLMC”) and Federal National Mortgage Association (“FNMA”) certificates which are valued under a Level 2 hierarchy using a matrix correlation to benchmark yields, spread analysis, and prepayment speeds.

Values for loans held for sale utilize active pricing quotes which exist in the secondary market and are therefore deemed a Level 2 hierarchy.

Assets measured at fair value on a nonrecurring basis segregated by fair value hierarchy level at September 30, 2013 are summarized below:

| | Fair value hierarchy levels | | | Balance as of September 30, 2013 |
|--|-----------------------------|---------|---------|----------------------------------|
| | Level 1 | Level 2 | Level 3 | |
| | (in thousands) | | | |
| Impaired loans | \$— | \$— | \$3,728 | \$3,728 |
| Real estate acquired through foreclosure | — | — | 5,786 | 5,786 |
| Mortgage servicing rights | — | 1,471 | — | 1,471 |

The following table presents additional quantitative information about assets measured at fair value on a nonrecurring basis and for which the Bank has utilized Level 3 inputs to determine fair value at September 30, 2013:

| Description | Fair value estimate (in thousands) | Valuation technique | Unobservable Input | Range of inputs |
|--|------------------------------------|-----------------------------|--|-----------------|
| Impaired loans | \$3,728 | Appraisal of collateral (1) | Discount rate to reflect current market conditions and ultimate recoverability | 5%-15 % |
| Real estate acquired through foreclosure | 5,786 | Appraisal of collateral (1) | Discount rate to reflect current market conditions and liquidation expenses | 5%-20 % |

(1) Appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated liquidation expenses.

Table of Contents

The fair value of impaired loans and real estate acquired through foreclosure is generally determined through independent appraisals of the underlying collateral, which generally include level 3 inputs which are not identifiable. Appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated liquidation expenses. The range and weighted average of liquidation expenses are presented as a percent of the appraised value.

Assets measured at fair value on a nonrecurring basis segregated by fair value hierarchy level at December 31, 2012 are summarized below:

| | Fair value hierarchy levels | | | Balance as of December 31, 2012 |
|--|-----------------------------|---------|---------|---------------------------------|
| | Level 1 | Level 2 | Level 3 | |
| | (in thousands) | | | |
| Impaired loans | \$— | \$— | \$6,533 | \$6,533 |
| Real estate acquired through foreclosure | — | — | 7,282 | 7,282 |
| Mortgage servicing rights | — | 956 | — | 956 |

The following table presents additional quantitative information about assets measured at fair value on a nonrecurring basis and for which the Bank has utilized Level 3 inputs to determine fair value at December 31, 2012:

| Description | Fair value estimate (in thousands) | Valuation technique | Unobservable Input | Range of inputs |
|--|------------------------------------|-----------------------------|--|-----------------|
| Impaired loans | \$6,533 | Appraisal of collateral (1) | Discount rate to reflect current market conditions and ultimate recoverability | 5%-15 % |
| Real estate acquired through foreclosure | 7,282 | Appraisal of collateral (1) | Discount rate to reflect current market conditions and liquidation expenses | 5%-20 % |

(1) Appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated liquidation expenses.

The Company retains a qualified valuation service to calculate the amortized cost and to determine the fair value of the mortgage servicing rights. The valuation service utilizes discounted cash flow analyses adjusted for prepayment speeds, market discount rates and conditions existing in the secondary servicing market. Hence, the fair value of mortgage servicing rights is deemed a Level 2 hierarchy. The amortized cost basis of the Company's mortgage servicing rights was \$1.3 million and \$1.1 million at September 30, 2013 and December 31, 2012, respectively. The fair value of the mortgage servicing rights was \$1.5 million and \$956,000 at September 30, 2013 and December 31, 2012, respectively, and was included in other assets in the consolidated balance sheets.

In addition to financial instruments recorded at fair value in the Company's financial statements, disclosure of the estimated fair value of all of an entity's assets and liabilities considered to be financial instruments is also required. For the Bank, as for most financial institutions, the majority of its assets and liabilities are considered financial instruments. However, many such instruments lack an available trading market as characterized by a willing buyer

and willing seller engaging in an exchange transaction. Also, it is the Company's general practice and intent to hold its financial instruments to maturity or available for sale and to not engage in trading or significant sales activities. For fair value disclosure purposes, the Company substantially utilized the established fair value measurement hierarchy.

Changes in the assumptions or methodologies used to estimate fair values may materially affect the estimated amounts. In addition, there may not be reasonable comparability between entities due to the wide range of permitted assumptions and methodologies in the absence of active markets. This lack of uniformity gives rise to a high degree of subjectivity in estimating financial instrument fair values.

Table of Contents

Fair values have been estimated using data which management considered the best available, as generally provided by estimation methodologies deemed suitable for the pertinent category of financial instrument. The recorded carrying amounts and fair values segregated by fair value hierarchy level at September 30, 2013 are summarized below:

| | Carrying value | Fair value | Fair value hierarchy levels | | |
|--|-------------------|---------------|-----------------------------|---------|-----------|
| | | | Level 1 | Level 2 | Level 3 |
| (in thousands) | | | | | |
| Assets | | | | | |
| Cash and cash equivalents | \$31,004 | \$31,004 | \$31,004 | \$— | \$— |
| Investment securities | 81,904 | 81,904 | — | 81,904 | — |
| Mortgage-backed securities | 48,710 | 48,889 | — | 48,889 | — |
| Loans receivable, including loans held for sale | 623,021 | 627,032 | — | 691 | 626,341 |
| Liabilities | | | | | |
| Deposits with stated maturities | \$193,283 | \$196,311 | \$— | \$— | \$196,311 |
| Deposits with no stated maturities | 488,542 | 488,542 | 488,542 | — | — |
| Borrowings with stated maturities | 50,990 | 49,935 | — | — | 49,935 |

The recorded carrying amounts and fair values segregated by fair value hierarchy level at December 31, 2012 are summarized below:

| | Carrying value | Fair value | Fair value hierarchy levels | | |
|--|-------------------|---------------|-----------------------------|---------|-----------|
| | | | Level 1 | Level 2 | Level 3 |
| (in thousands) | | | | | |
| Assets | | | | | |
| Cash and cash equivalents | \$31,137 | \$31,137 | \$31,137 | \$— | \$— |
| Investment securities | 59,610 | 59,610 | — | 59,610 | — |
| Mortgage-backed securities | 44,639 | 44,945 | — | 44,945 | — |
| Loans receivable, including loans held for sale | 527,426 | 539,665 | — | 706 | 538,959 |
| Liabilities | | | | | |
| Deposits with stated maturities | \$171,417 | \$175,025 | \$— | \$— | \$175,025 |
| Deposits with no stated maturities | 388,898 | 388,898 | 388,898 | — | — |
| Borrowings with stated maturities | 60,656 | 60,939 | — | — | 60,939 |

The fair value of cash and cash equivalents equals the carrying amount. The fair value of investment and mortgage-backed securities is described and presented under fair value measurement guidelines as discussed earlier.

The fair value of loans receivable has been estimated using the present value of cash flows, discounted at the approximate current market rates, and giving consideration to estimated prepayment risk but not adjusted for credit risk. Loans receivable also includes loans receivable held for sale.

The fair value of deposits and borrowings with stated maturities has been estimated using the present value of cash flows, discounted at rates approximating current market rates for similar liabilities. Fair value of deposits and borrowings with floating interest rates is generally presumed to approximate the recorded carrying amounts.

The fair value of deposits with no stated maturities is generally presumed to approximate the carrying amount (the amount payable on demand). The fair value of deposits with floating interest rates is generally presumed to

approximate the recorded carrying amounts.

36

Table of Contents

The Bank's remaining assets and liabilities are not considered financial instruments. No disclosure of the relationship value of the Bank's depositors or customers is required.

NOTE 10 — STOCK-BASED COMPENSATION

The Company has stock benefit plans that allow the Company to grant options and restricted stock to employees and directors. The awards, which have a term of up to 10 years when issued, vest over a two to five year period. The exercise price of each award equals the market price of the Company's stock on the date of the grant. The fair value of each option grant during the first nine months of 2013 was estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions:

| Weighted average assumptions | | | |
|---|--|---------|---|
| Dividend yield | | 0.81 | % |
| Expected volatility | | 16.82 | % |
| Risk-free interest rate | | 0.65 | % |
| Fair value of options granted during the period | | \$ 3.12 | |
| Expected lives in years | | 5 | |

There were no stock options granted during the three or nine months ended September 30, 2012.

At September 30, 2013, there was \$421,000 of total unrecognized compensation cost, net of estimated forfeitures, related to non-vested awards under the Company's stock option plan. That cost is expected to be recognized over a weighted average period of 9.6 months. Option activity under the Company's stock option plan as of September 30, 2013 was as follows:

| | Number of shares | At September 30, 2013 | | |
|---|---------------------|---|---|--|
| | | Weighted average exercise price per share | Weighted average remaining contractual term (in years) | Aggregate intrinsic value (\$000) |
| Outstanding at January 1, 2013 | 89,279 | \$24.08 | | |
| Options granted | 205,000 | 24.28 | | |
| Options exercised | (8,547) | 25.24 | | |
| Options forfeited | (3,635) | 27.30 | | |
| Options expired | (14,279) | 24.26 | | |
| Outstanding at September 30, 2013 | 267,818 | \$24.14 | 2.93 | \$1,062 |
| Options exercisable at September 30, 2013 | 56,115 | \$24.25 | 1.58 | \$265 |

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the Company's closing stock price on the last trading day of the third quarter and the exercise price, multiplied by the number of in-the-money options).

The aggregate intrinsic value and cash receipts of options exercised are as follows:

| | |
|--|--------------------------------|
| | At September 30, |
| | 2013 2012 |

Edgar Filing: TF FINANCIAL CORP - Form 10-Q

(in thousands)

Options Exercised

| | | |
|--|------|------|
| Aggregate intrinsic value of options exercised | \$ 5 | \$ 6 |
| Cash receipts from options exercised | 216 | 7 |

Table of Contents

The Company issues stock of the Company as payment for director fees as permitted by the 2011 Director Stock Compensation Plan. The cost associated with these grants is included as a component of stock-based compensation. The following tables provide information regarding the Company's stock-based compensation expense:

| | For the three months ended September 30, 2013 2012 (in thousands) | |
|--|--|-------|
| Stock-based compensation expense | | |
| Director fees | \$38 | \$38 |
| Stock option expense | 86 | 6 |
| Employee Stock Ownership Plan ("ESOP") expense | 79 | 68 |
| Total stock-based compensation expense | \$203 | \$112 |

The Bank reports ESOP expense in an amount equal to the fair value of shares released from the ESOP to employees less dividends received on the allocated shares in the plan used for debt service. Dividends on allocated shares used to reduce ESOP expense totaled \$9,000 and \$8,000 for the three months ended September 30, 2013 and 2012, respectively.

Stock-based compensation expense related to stock options resulted in a tax benefit of \$31,000 and \$2,000 for the three months ended September 30, 2013 and 2012, respectively.

| | For the nine months ended September 30, 2013 2012 (in thousands) | |
|--|---|-------|
| Stock-based compensation expense | | |
| Director fees | \$108 | \$112 |
| Stock option expense | 229 | 20 |
| Employee Stock Ownership Plan ("ESOP") expense | 225 | 210 |
| Total stock-based compensation expense | \$562 | \$342 |

The Bank reports ESOP expense in an amount equal to the fair value of shares released from the ESOP to employees less dividends received on the allocated shares in the plan used for debt service. Dividends on allocated shares used to reduce ESOP expense totaled \$26,000 and \$24,000 for the nine months ended September 30, 2013 and 2012, respectively.

Stock-based compensation expense related to stock options resulted in a tax benefit of \$70,000 and \$7,000 for the nine months ended September 30, 2013 and 2012, respectively.

Table of Contents

NOTE 11 — EMPLOYEE BENEFIT PLANS

Net periodic defined benefit pension cost included the following:

| | For the three months ended September 30, 2013 2012 (in thousands) | |
|---|--|--------|
| Components of net periodic benefit cost | | |
| Service cost | \$206 | \$184 |
| Interest cost | 89 | 90 |
| Expected return on plan assets | (182) | (161) |
| Recognized net actuarial loss | 66 | 71 |
| Net periodic benefit cost | \$179 | \$184 |

| | For the nine months ended September 30, 2013 2012 (in thousands) | |
|---|---|--------|
| Components of net periodic benefit cost | | |
| Service cost | \$617 | \$552 |
| Interest cost | 266 | 270 |
| Expected return on plan assets | (546) | (483) |
| Amortization of prior service cost | 2 | 2 |
| Recognized net actuarial loss | 196 | 212 |
| Net periodic benefit cost | \$535 | \$553 |

Employer contributions of \$653,000 were made during the nine months ended September 30, 2013. There were no employer contributions for the nine months ended September 30, 2012.

NOTE 12 — CONTINGENCIES

The Company, from time to time, is a party to routine litigation that arises in the normal course of business. In the opinion of management, the resolution of this litigation, if any, would not have a material adverse effect on the Company's consolidated financial position or results of operations.

Table of Contents

TF FINANCIAL CORPORATION AND SUBSIDIARIES

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

The Company may from time to time make written or oral "forward-looking statements", including statements contained in the Company's filings with the Securities and Exchange Commission (including this Quarterly Report on Form 10-Q and the exhibits hereto), in its reports to stockholders and in other communications by the Company, which are made in good faith by the Company pursuant to the "Safe Harbor" Provisions of the Private Securities Litigation Reform Act of 1995.

These forward-looking statements involve risks and uncertainties, such as statements of the Company's plans, objectives, expectations, estimates and intentions that are subject to change based on various important factors (some of which are beyond the Company's control). The following factors, among others, could cause the Company's financial performance to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements: the strength of the United States economy in general and the strength of the local economies in which the Company conducts operations; the effects of, and changes in, trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System, inflation, interest rate, market and monetary fluctuations; the timely development of and acceptance of new products and services of the Company and the perceived overall value of these products and services by users, including the features, pricing and quality compared to competitors' products and services; the willingness of users to substitute competitors' products and services for the Company's products and services; the success of the Company in gaining regulatory approval of its products and services, when required; the impact of changes in financial services' laws and regulations (including laws concerning taxes, banking, securities and insurance); technological changes, acquisitions; changes in consumer spending and saving habits; failure to realize the anticipated benefits as a result of our acquisition of Roebing and Roebing Bank; the possibility that any remaining integration of Roebing's business and operation with the Company may be more difficult and/or take longer than anticipated and may have unanticipated adverse results; and the success of the Company at managing the risks involved in the foregoing.

The Company cautions that the foregoing list of important factors is not exclusive. The Company does not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by or on behalf of the Company.

Financial Condition

The Company's total assets at September 30, 2013 and December 31, 2012 were \$833.3 million and \$711.8 million, respectively, representing an increase of \$121.5 million during the nine-month period which was largely due to the acquisition of Roebing. Loans receivable, net increased by \$95.6 million during the first nine months of 2013. The acquisition of Roebing resulted in an increase in loans receivable of \$102.0 million in addition to originations of consumer and single-family residential mortgage loans totaling \$64.8 million and originations of commercial loans totaling \$21.9 million. Offsetting these increases were principal repayments totaling \$91.6 million on loans. The Company increased the allowance for loan losses by \$839,000 and transferred \$557,000 from loans to real estate acquired through foreclosure. Loans receivable held for sale was relatively unchanged as originations of loans for sale in the secondary market totaled \$28.5 million and proceeds from loan sales totaled \$28.8 million. Investment securities increased by \$26.4 million mainly the result of securities acquired from Roebing totaling \$37.3 million and purchases of \$15.0 million. Offsetting these increases were principal repayments and maturities totaling \$21.0 million,

a decrease in the fair value of available for sale securities of \$4.4 million and net premium amortization of \$545,000.

Total liabilities increased by \$111.6 million during the first nine months of 2013. Deposit balances increased \$121.5 million during the period. The branches acquired from the Roebing acquisition resulted in an addition of \$127.8 million of deposits. Checking, money market and savings accounts increased by \$21.0 million, and retail CDs decreased by \$26.8 million during the first nine months of 2013. Advances from the FHLB decreased by \$12.8 million, the result of scheduled amortization and maturities including repayment of \$3.1 million of advances acquired from Roebing.

Total consolidated stockholders' equity of the Company was \$92.8 million or 11.1% of total assets at September 30, 2013. During the first nine months of 2013, the Company issued 306,873 shares of its common stock in conjunction with the Roebing acquisition that increased stockholders equity by \$7.7 million. Additionally the Company issued 22,767 shares of its common stock associated with the ESOP, the 2011 Director Stock Compensation Plan and the exercise of stock options which combined with stock option expense resulted in an increase to stockholders equity of \$803,000. Stockholder's equity was also increased by net income for the nine-month period of \$5.0 million. Offsetting these increases were cash dividends paid of \$579,000 a decrease in accumulated other comprehensive income net of tax of \$2.7 million, and repurchases of 10,412 of common stock totaling \$274,000. At September 30, 2013, there were approximately 99,000 shares available for repurchase under the previously announced share repurchase plan.

Table of Contents

Asset Quality

Nonperforming assets include real estate owned, which is carried at estimated fair value less costs to sell and nonperforming loans. Nonperforming loans include loan balances 90 days or more past due and impaired loans for which the accrual of interest has been discontinued. The following table sets forth information regarding the Company's nonperforming assets:

| Nonperforming Assets | September | At | | September | | |
|--|------------------------|----------------------|------|-------------|------|---|
| | 30, 2013 | December 31, 2012 | | 30, 2012 | | |
| | (Dollars in thousands) | | | | | |
| Loans receivable, net: | | | | | | |
| Residential | | | | | | |
| Residential mortgages | \$2,101 | \$ 2,265 | | \$2,122 | | |
| Commercial | | | | | | |
| Real estate-commercial | 785 | 1,098 | | 1,116 | | |
| Real estate-residential | 684 | 51 | | 839 | | |
| Real estate-multi-family | 149 | — | | — | | |
| Construction loans | 2,944 | 4,794 | | 6,119 | | |
| Consumer | | | | | | |
| Home equity and second mortgage | 217 | 143 | | 204 | | |
| Other consumer | 1 | 8 | | — | | |
| Total nonperforming loans | 6,881 | 8,359 | | 10,400 | | |
| Real estate owned | 5,786 | 7,282 | | 7,619 | | |
| Total nonperforming assets | \$12,667 | \$ 15,641 | | \$18,019 | | |
| Total loans 90 days or more past due as to interest or principal and accruing interest | \$— | \$ — | | \$— | | |
| Ratio of nonperforming loans to gross loans | 1.07 | % | 1.56 | % | 1.92 | % |
| Ratio of nonperforming loans to total assets | 1.10 | % | 1.17 | % | 1.49 | % |
| Ratio of total nonperforming assets to total assets | 1.52 | % | 2.20 | % | 2.59 | % |

Nonperforming construction loans include a participation in a commercial construction project with a principal balance due of \$3.1 million. The Bank has recorded a partial charge-off of \$198,000 from the allowance for loan losses equal to the difference between the recorded investment and a recent appraisal. Additionally, \$2.0 million of the allowance for loan losses has been allocated to this loan for a potential shortfall related to the disposition of the loan.

Foreclosed property at September 30, 2013 consisted of eight parcels of real estate with a combined carrying value of \$5.9 million. During the first nine months of 2013, the Bank foreclosed on six mortgage loans secured by residential property valued at \$557,000 which resulted in a charge to the allowance of \$481,000. Also, the Bank sold two properties acquired through foreclosure with an aggregate book value of \$1.6 million. All foreclosed properties are listed or are in the process of being listed with real estate agents for sale in a timely manner. Foreclosed real estate is included in other assets in the Consolidated Balance Sheets.

Allowance for Loan Losses

The Bank provides valuation allowances for estimated losses from uncollectible loans. The allowance is increased by provisions charged to expense and reduced by net charge-offs. On a quarterly basis, the Company prepares an

allowance for loan losses (ALLL) analysis. In the analysis, the loan portfolio is segmented into groups of homogeneous loans that share similar risk characteristics: commercial loans secured by nonresidential or non-owner occupied residential real estate, construction, commercial and industrial loans, single-family residential and consumer which is predominately real estate secured by junior liens and home equity lines of credit. Each segment is assigned reserve factors based on quantitative and qualitative measurements. In addition, the Bank reviews its internally classified loans, its loans classified for regulatory purposes, delinquent loans, and other relevant information in order to isolate loans for further scrutiny as potentially impaired loans.

Table of Contents

Quantitative factors include an actual expected loss factor based on historical loss experience over a relevant look-back period. Quantitative factors also include the Bank's actual risk ratings for the commercial loan segments as determined in accordance with loan review and loan grading policies and procedures, and additional factors as determined by management to be representative of additional risk due to the loan's geographic location, type, and other attributes. These quantitative factors are adjusted if necessary, up or down, based on actual experience and an evaluation of the qualitative factors.

Qualitative factors are based upon: (1) changes in lending policies and procedures, including but not limited to changes in underwriting standards and collection, charge-off, and recovery practices not considered elsewhere in estimating credit losses; (2) changes in international, national, regional, and local economic and business conditions and developments that affect the collectability of the portfolio, including the condition of various market segments; (3) changes in the nature and volume of the portfolio and in the terms of loans; (4) changes in the experience, ability, and depth of lending management and other relevant staff; (5) changes in the volume and severity of past due loans, the volume of nonaccrual loans, and the volume and severity of adversely classified or graded loans; (6) changes in the quality of the loan review system; (7) changes in the value of underlying collateral for collateral dependent loans; (8) the existence and effect of any concentration of credit, and changes in the level of such concentrations; and (9) the effect of other external factors such as competition and legal and regulatory requirements on the level of estimated credit losses in the existing loan portfolio.

Potentially impaired loans selected for individual evaluation are reviewed in accordance with US GAAP which governs the accounting for impaired assets, as well as regulatory guidance regarding treatment of troubled, collateral-dependent loans. Each potentially impaired loan is evaluated using all available information such as recent appraisals, whether the loan is currently on accrual or nonaccrual status, discounted cash flow analyses, guarantor financial strength, the value of additional collateral, and the loan's and borrower's past performance to determine whether in management's best judgment it is probable that the Bank will be unable to collect all contractual interest and principal in accordance with the loan's terms. Loans deemed not to be impaired are assigned a reserve factor based upon the segment from which they were selected.

Loans deemed impaired are evaluated to determine the estimated fair value of the collateral, and a portion of the ALLL will be allocated to the deficiency. Troubled collateral-dependent real estate secured loans are valued using the appraised value of the collateral, and a portion of the ALLL will be allocated to these loans based on the difference between the loan amount and the appraised value. If such amounts are judged by management to be permanent, they will be charged-off. In addition, if foreclosure is probable, a portion of the ALLL will be allocated to the estimated additional costs to acquire and the estimated costs to sell. Upon completion of the foreclosure process, these amounts will be charged-off.

The ALLL needed as a result of the foregoing evaluation is compared with the unadjusted amount, and an adjustment is made by means of a provision to the allowance for loan losses. Recognizing the inherently imprecise nature of the loss estimates and the large number of assumptions needed in order to perform the analysis, the required reserve may be less than the actual level of reserves at the end of any evaluation period, and thus there may be an unallocated portion of the ALLL. Management adjusts the unallocated portion to an amount which management considers reasonable under the circumstances.

Table of Contents

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED SEPTEMBER 30, 2013 AND 2012

Net Income. The Company recorded net income of \$2.0 million, or \$0.64 per diluted share, for the three months ended September 30, 2013 as compared to net income of \$1.5 million, or \$0.54 per diluted share, for the three months ended September 30, 2012.

Average Balance Sheet

The following table sets forth information (dollars in thousands) relating to the Company's average balance sheet and reflects the average yield on assets and average cost of liabilities for the periods indicated. Yields and costs are computed by dividing income or expense by the average daily balance of interest-earning assets or interest-bearing liabilities, respectively, for the three-month periods indicated.

| | Three Months Ended September 30, | | | | | | Average yld/cost | |
|---|----------------------------------|------------------|---------------------|---|--------------------|------------------|---------------------|---|

- (1) Nonperforming loans have been included in the appropriate average loan balance category, but interest on nonperforming loans has not been included for purposes of determining interest income.
- (2) Tax equivalent adjustments to interest on investment securities were \$185,000 and \$193,000 for the quarters ended September 30, 2013 and 2012, respectively. Tax equivalent interest income is based upon a marginal effective tax rate of 34%.
- (3) Includes interest-bearing deposits in other banks.
- (4) Interest rate spread represents the difference between the average yield on interest-earning assets and the average cost of interest-bearing liabilities.
Net yield on interest-earning assets represents net interest income as a percentage of average
- (5) interest-earning assets.
- * Is less than \$500 for period indicated.

Table of Contents

Rate/Volume Analysis

The following table presents, for the periods indicated, the change in interest income and interest expense (dollars in thousands) attributed to (i) changes in volume (changes in the weighted average balance of the total interest earning asset and interest-bearing liability portfolios multiplied by the prior year rate), and (ii) changes in rate (changes in rate multiplied by prior year volume). Changes attributable to the combined impact of volume and rate have been allocated proportionately based on the absolute value of changes due to volume and changes due to rate.

| | For the three months ended September 30, 2013 vs 2012 | | |
|------------------------------------|---|-----------|-------|
| | Increase (decrease) due to | | |
| | Volume | Rate | Net |
| Interest income: | | | |
| Loans receivable, net | \$3,379 | \$(2,868) | \$511 |
| Mortgage-backed securities | (38) | (93) | (131) |
| Investment securities (1) | 642 | (527) | 115 |
| Other interest-earning assets | 1 | 4 | 5 |
| Total interest-earning assets | 3,984 | (3,484) | 500 |
| Interest expense: | | | |
| Deposits | 804 | (808) | (4) |
| Borrowings from the FHLB | (52) | (67) | (119) |
| Total interest-bearing liabilities | 752 | (875) | (123) |
| Net change in net interest income | \$3,232 | \$(2,609) | \$623 |

- (1) Tax equivalent adjustments to interest on investment securities were \$185,000 and \$193,000 for the quarters ended September 30, 2013 and 2012, respectively. Tax equivalent interest income is based upon a marginal effective tax rate of 34%.

Total Interest Income. Total interest income, on a taxable equivalent basis, increased by \$500,000, or 6.5%, to \$8.1 million for the quarter ended September 30, 2013 compared with the third quarter of 2012. Interest income from loans receivable increased by \$511,000, the result of a \$95.2 million increase in the average balance of loans outstanding netted against the effect of a decrease in the average yield on loans of 43 basis points. The merger with Roebing resulted in the increase in the average balance of loans outstanding whereas the decrease in the yield was caused by the combined effects of a large number of higher rate loans being prepaid, and new loans added to the portfolio with lower yields than the existing portfolio loans that had matured or refinanced. Interest income from mortgage-backed securities was lower in the quarter ended September 30, 2013 in comparison to the same period in 2012 mainly because the yield associated with principal repayments and sales which occurred during the intervening period was higher than the yield on the remaining mortgage-backed securities as well as the low yield on the mortgage-backed securities acquired from Roebing. Interest income from investment securities increased during the third quarter of 2013 as compared with the third quarter of 2012 due to the higher outstanding average balance of agency securities acquired from Roebing as well as purchases of municipal securities during the intervening period. Offsetting the increase in balance was the effect of lower yields on the securities acquired from Roebing.

Total Interest Expense. Total interest expense decreased by \$123,000 to \$1.0 million, during the three-month period ended September 30, 2013 as compared with the same period in 2012. Interest expense incurred on deposits was largely unchanged between the periods. The average balance outstanding on deposits increased \$153.0 million

between the third quarters of 2013 and 2012 mainly as a result of the Roebing acquisition. The average interest rate paid on the Bank's deposits was 13 basis points lower in 2013 due to the maturity of certificates of deposit with higher interest rates than current market rates offered on the products into which the maturing CDs were renewed or reinvested, and a favorable change in the deposit mix and pricing. Interest expense associated with borrowings from the FHLB decreased \$119,000 in the third quarter of 2013 as compared to the same quarter of 2012. During the intervening period, the Bank decreased its average outstanding borrowings by \$11.4 million and because the remaining advances had rates lower than the maturing advances, a decrease in the cost of borrowed funds of 53 basis points resulted.

Table of Contents

Noninterest Income. Total noninterest income was \$2.0 million for the third quarter of 2013 compared with \$914,000 for the same period in 2012. Purchase gain associated with the acquisition of Roebling totaled \$1.2 million. Fair value adjustments to mortgage servicing rights increased loan servicing income by \$85,000 during the third quarter of 2013 compared to the same quarter of 2012.

Noninterest Expense. Total noninterest expense increased by \$2.3 million to \$6.8 million for the three months ended September 30, 2013 compared to the same period in 2012. Acquisition costs attributable to Roebling totaled \$1.4 million during the third quarter of 2013 and included contract exit fees as well as technology related costs and consultant fees incurred for the system conversion of the data from Roebling to the Bank. Employee compensation increased by \$474,000 in 2013, mainly the result of employee costs associated with staffing the five additional branches acquired from Roebling. In addition, stock option expense for option grants increased \$80,000 in the third quarter of 2013 over the same period in 2012. Occupancy costs increased \$181,000 in the third quarter of 2013 is the result of operating and maintaining the five additional branch offices acquired from Roebling.

Income Tax Expense. The Company's effective tax rate was 8.5% for the quarter ended September 30, 2013 compared to 24.5% for the quarter ended September 30, 2012. These effective tax rates are lower than the Company's marginal tax rate of 34% largely due to the tax-exempt income associated with the Company's investments in tax-exempt municipal bonds, bank owned life insurance and purchase gain associated with the Roebling acquisition.

Table of Contents

RESULTS OF OPERATIONS FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2013 AND 2012

Net Income. The Company recorded net income of \$5.0 million, or \$1.75 per diluted share, for the nine months ended September 30, 2013 as compared to net income of \$3.9 million, or \$1.42 per diluted share, for the nine months ended September 30, 2012.

Average Balance Sheet

The following table sets forth information (dollars in thousands) relating to the Company's average balance sheet and reflects the average yield on assets and average cost of liabilities for the periods indicated. Yields and costs are computed by dividing income or expense by the average daily balance of interest-earning assets or interest-bearing liabilities, respectively, for the nine-month periods indicated.

| | Nine Months Ended September 30, | | | | | | Average yld/cost |

Rate/Volume Analysis

The following table presents, for the periods indicated, the change in interest income and interest expense (dollars in thousands) attributed to (i) changes in volume (changes in the weighted average balance of the total interest earning asset and interest bearing liability portfolios multiplied by the prior year rate), and (ii) changes in rate (changes in rate multiplied by prior year volume). Changes attributable to the combined impact of volume and rate have been allocated proportionately based on the absolute value of changes due to volume and changes due to rate.

| | For the nine months ended September 30, 2013 vs 2012 | | |
|------------------------------------|--|------------|--------|
| | Volume | Rate | Net |
| Interest income: | | | |
| Loans receivable, net | \$2,308 | \$(2,196) | \$112 |
| Mortgage-backed securities | (371) | (344) | (715) |
| Investment securities (1) | 268 | (193) | 75 |
| Other interest-earning assets | 18 | 3 | 21 |
| Total interest-earning assets | 2,223 | (2,730) | (507) |
| Interest expense: | | | |
| Deposits | 437 | (990) | (553) |
| Borrowings from the FHLB | 40 | (441) | (401) |
| Total interest-bearing liabilities | 477 | (1,431) | (954) |
| Net change in net interest income | \$1,746 | \$(1,299) | \$447 |

- (1) Tax equivalent adjustments to interest on investment securities were \$565,000 and \$590,000 for the nine months ended September 30, 2013 and 2012, respectively. Tax equivalent interest income is based upon a marginal effective tax rate of 34%.

Total Interest Income. Total interest income, on a taxable equivalent basis, decreased by \$507,000 or 2.2%, to \$22.1 million for the nine months ended September 30, 2013 compared with the same period of 2012. Interest income from loans receivable increased by \$112,000 as the result of a \$50.4 million increase in the average balance of loans outstanding netted against the effect of a decrease in the average yield on loans of 40 basis points. The merger with Roebing resulted in the increase in the average balance of loans outstanding whereas the decrease in the yield was caused by the combined effects of a large number of higher rate loans being prepaid, and new loans added to the portfolio with lower yields than the existing portfolio loans that had matured or refinanced. Interest income from mortgage-backed securities was lower in the nine months ended September 30, 2013 in comparison to the same period in 2012 mainly because the yield associated with principal repayments and sales which occurred during the intervening period was higher than the yield on the remaining mortgage-backed securities as well as the low yield on the mortgage-backed securities acquired from Roebing. Interest income from investment securities increased during the nine months ended September 30, 2013 as compared with the same period in 2012 due to the higher outstanding average balance of agency securities acquired from Roebing as well as purchases of municipal securities during the intervening period. Offsetting the increase in balance was the effect of lower yields on the securities acquired from Roebing.

Total Interest Expense. Total interest expense decreased by \$954,000 to \$2.9 million during the nine-month period ended September 30, 2013 as compared with the same period in 2012. The average outstanding balance of deposits

increased \$61.8 million during the first nine months of 2013 as compared to the same period in 2012 mainly as a result of the Roebing acquisition. The average interest rate paid on the Bank's deposits was 19 basis points lower in 2013 due to the maturity of certificates of deposit with higher interest rates than current market rates offered on the products into which the maturing CDs were renewed or reinvested, and a favorable change in the deposit mix and pricing. Interest expense associated with borrowings from the FHLB decreased \$401,000 in the first nine months of 2013 when compared to the same period of 2012. During the intervening period, the average outstanding borrowings increased only by \$1.2 million, however new advances had rates lower than the maturing advances, resulting in a decrease in the cost of borrowed funds of 103 basis points between the periods.

Noninterest Income. Total noninterest income was \$5.4 million for the first nine months of 2013 compared with \$2.9 million for the same period in 2012. Purchase gain associated with the acquisition of Roebing totaled \$1.2 million. In addition, income from the benefits paid on the bank owned life insurance policies was \$934,000 during the second quarter of 2013 due to the death of two insured individuals. Fair value adjustments to mortgage servicing rights increased loan servicing income by \$349,000 during the first nine months of 2013 compared to the same time period of 2012. Gain on disposition of premises and equipment

Table of Contents

included \$417,000 related to an eminent domain matter affecting a parcel of Company property, a \$143,000 increase over the amount recorded in 2012 related to the same matter, which is now finalized. Offsetting these increases was a decrease in the gain on sale of loans in the secondary market of \$285,000.

Noninterest Expense. Total noninterest expense increased by \$2.8 million to \$16.9 million for the nine months ended September 30, 2013 compared to the same period in 2012. Acquisition costs attributable to Roebbling totaled \$1.4 million during the third quarter of 2013 and included contract exit fees as well as technology related costs and consultant fees incurred for the system conversion of the data from Roebbling to the Bank. Professional merger-related costs attributable to the acquisition of Roebbling totaled \$617,000 during the first nine months of 2013. Employee compensation increased by \$562,000 in 2013, mainly the result of employee costs associated with staffing the five additional branches acquired from Roebbling. In addition, stock option expense for option grants increased \$209,000 for the nine months ended September 2013 over the same period in 2012. The occupancy costs increased \$205,000 in the third quarter of 2013 is largely the result of operating and maintaining the five additional branch offices acquired from Roebbling.

Income Tax Expense. The Company's effective tax rate was 19.2% for the nine months ended September 30, 2013 compared to 23.5% for the nine months ended September 30, 2012. These effective tax rates are lower than the Company's marginal tax rate of 34% largely due to the tax-exempt income associated with the Company's investments in tax-exempt municipal bonds, bank owned life insurance and purchase gain associated with the Roebbling acquisition offset by merger-related costs treated as nondeductible.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

The Bank's liquidity is a measure of its ability to fund loans, and pay withdrawals of deposits, and other cash outflows in an efficient, cost-effective manner. The Bank's short-term sources of liquidity include maturities, repayment and sales of assets, excess cash and cash equivalents, new deposits, brokered deposits, other borrowings, and new borrowings from the Federal Home Loan Bank and the Federal Reserve Bank. There has been no material adverse change during the nine-month period ended September 30, 2013 in the ability of the Bank and its subsidiaries to fund their operations.

At September 30, 2013, the Bank had commitments outstanding under letters of credit of \$856,000, commitments to originate loans of \$13.6 million, and commitments to fund undisbursed balances of closed loans and unused lines of credit of \$54.9 million. At September 30, 2013, the Bank had \$3.1 million in outstanding commitments to sell loans. There has been no material change during the nine months ended September 30, 2013 in any of the Bank's other contractual obligations or commitments to make future payments.

The Company's primary sources of liquidity are dividends from the Bank, principal and interest payments received from a loan made to the Bank's ESOP, and tax benefits arising from the use of the Company's tax deductions by other members of its consolidated group pursuant to a tax sharing agreement. The Company is dependent upon these sources and cash on hand which totaled approximately \$2.5 million at September 30, 2013 in order to fund its operations and pay the dividend to its shareholders. There has been no material adverse change in the ability of the Company to fund its operations during the nine-month period ended September 30, 2013.

Capital Requirements

The Bank was in compliance with all of its capital requirements as of September 30, 2013.

CRITICAL ACCOUNTING POLICIES

Certain critical accounting policies of the Company require the use of significant judgment and accounting estimates in the preparation of the consolidated financial statements and related data of the Company. These accounting estimates require management to make assumptions about matters that are highly uncertain at the time the accounting estimate is made. Management believes that the most critical accounting policy requiring the use of accounting estimates and judgment is the determination of the allowance for loan losses. If the financial position of a significant number of debtors or the value of the collateral securing the loans should deteriorate more than the Company has estimated, the present allowance for loan losses may be insufficient and additional provisions for loan losses may be required. The allowance for loan losses was approximately \$6.7 million at September 30, 2013.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a “smaller reporting company” as defined by Item 10 of Regulation S-K, the Company is not required to provide the information required by this item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Based on their evaluation of the Company’s disclosure controls and procedures (as defined in Rules 13a-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”)), the Company’s principal executive officer and principal financial officer have concluded that as of the end of the period covered by this Quarterly Report on Form 10-Q such disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports it files and submits pursuant to the rules and forms of the SEC is accumulated and communicated to the Company’s management including the principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosures.

Changes in Internal Controls over Financial Reporting

During the quarter under report, there was no change in the Company’s internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.
