PROXY STATEMENT

INTRODUCTION

The Capitol Federal Financial Board of Directors is using this proxy statement to solicit proxies from the holders of common stock of Capitol Federal Financial for use at Capitol Federal Financial's upcoming annual meeting of stockholders. The annual meeting of stockholders will be held at 10:00 a.m. local time on Tuesday, January 26, 2010 at the Bradbury Thompson Center, 1700 S.W. Jewell, located on the Washburn University Campus, in Topeka, Kansas. At the meeting, stockholders will be asked to vote on two proposals. The proposals are set forth in the accompanying Notice of Annual Meeting of Stockholders and are described in more detail below. Stockholders also will consider any other matters that may properly come before the meeting, although the Board of Directors knows of no other business to be presented. Capitol Federal Financial is referred to in this proxy statement from time to time as "Capitol Federal Financial" or the "Company." Certain of the information in this proxy statement relates to Capitol Federal Savings Bank ("Capitol Federal Savings" or the "Bank"), a wholly owned subsidiary of the Company.

By submitting your proxy, either by executing and returning the enclosed proxy card or by voting electronically via the Internet or by telephone, you authorize the Company's Board of Directors to represent you and vote your shares at the meeting in accordance with your instructions. The Board of Directors also may vote your shares to adjourn the meeting from time to time and will be authorized to vote your shares at any adjournments or postponements of the meeting.

This proxy statement and the accompanying materials are being mailed to stockholders on or about December 21, 2009.

Your proxy vote is important. Whether or not you plan to attend the meeting, please submit your proxy promptly either in the enclosed envelope, via the Internet or by telephone.

INFORMATION ABOUT THE ANNUAL MEETING

What is the purpose of the annual meeting?

At the annual meeting, stockholders will be asked to vote on the following proposals:

- Proposal 1. The election of two directors of Capitol Federal Financial.
- Proposal 2. The ratification of the appointment of Deloitte & Touche LLP as Capitol Federal Financial's independent auditors for the fiscal year ending September 30, 2010.

The stockholders also will transact any other business that may properly come before the meeting. Members of our management team will be present at the meeting to respond to appropriate questions from stockholders.

Who is entitled to vote?

Edgar Filing: CAPITOL FEDERAL FINANCIAL - Form DEF 14A

The record date for the meeting is December 4, 2009. Only stockholders of record at the close of business on that date are entitled to notice of and to vote at the meeting. The only class of stock entitled to be voted at the meeting is Capitol Federal Financial common stock. Each outstanding share of common stock is entitled to one vote for all matters before the meeting. At the close of business on the record date there were 74,099,355 shares of common stock outstanding.

What if my shares are held in "street name" by a broker?

If you are the beneficial owner of shares held in "street name" by a broker, your broker, as the record holder of the shares, is required to vote those shares in accordance with your instructions. If you do not give instructions to your broker, your broker nevertheless will be entitled to vote the shares with respect to "discretionary" items, but will not be permitted to vote your shares with respect to any "non-discretionary" items. In the case of non-discretionary items, the shares will be treated as "broker non-votes." Whether an item is discretionary is determined by the exchange rules governing your broker. The election of directors will be a non-discretionary item and the ratification of the appointment of Deloitte & Touche LLP is expected to be considered a discretionary item.

What if my shares are held in Capitol Federal Financial's employee stock ownership plan?

We maintain an employee stock ownership plan which beneficially owns approximately 3.5% of Capitol Federal Financial's common stock. Employees of Capitol Federal Financial and Capitol Federal Savings participate in the employee stock ownership plan. Each participant instructs the trustee of the plan how to vote the shares of common stock allocated to his or her account under the employee stock ownership plan. If a participant properly executes the voting instruction card distributed by the trustee, the trustee will vote the participant's shares in accordance with the instructions. Where properly executed voting instruction cards are returned to the trustee with no specific instruction as to how to vote at the annual meeting, the trustee will vote the shares "FOR" each of the proposals set forth in this proxy statement. In the event the participant fails to give timely voting instructions to the trustee with respect to the voting of the common stock that is allocated to his or her employee stock ownership plan account, the trustee will vote such shares "FOR" each of the proposals set forth in this proxy statement. The trustee will vote the shares of Capitol Federal Financial common stock held in the employee stock ownership plan but not allocated to any participant's account in the same proportion as directed by the participants who directed the trustee as to the manner of voting their allocated shares in the employee stock ownership plan with respect to each proposal.

How many shares must be present to hold the meeting?

A quorum must be present at the meeting for any business to be conducted. The presence at the meeting, in person or by proxy, of the holders of a majority of the shares of common stock outstanding on the record date will constitute a quorum. Proxies received but marked as abstentions or broker non-votes will be included in the calculation of the number of shares considered to be present at the meeting.

What if a quorum is not present at the meeting?

If a quorum is not present at the scheduled time of the meeting, the stockholders who are represented may adjourn the meeting until a quorum is present. The time and place of the adjourned meeting will be announced at the time the adjournment is taken, and no other notice will be given. An adjournment will have no effect on the business that may be conducted at the meeting.

How do I vote?

1. You may vote by mail. If you properly complete and sign the accompanying proxy card and return it in the enclosed envelope, it will be voted in accordance with your instructions.
2. You may vote by telephone. If you are a registered stockholder, that is, if you hold your stock in your own name, you may vote by telephone by following the instructions included on the proxy card. If you vote by telephone, you do not have to mail in your proxy card.

3. You may vote on the internet. If you are a registered stockholder, that is, if you hold your stock in your own name, you may vote on the Internet by following the instructions included on the proxy card. If you vote on the Internet, you do not have to mail in your proxy card.

4. You may vote in person at the meeting. If you plan to attend the annual meeting and wish to vote in person, we will give you a ballot at the annual meeting. However, if your shares are held in the name of your broker, bank or other nominee, you will need to obtain a proxy form from the institution that holds your shares indicating that you were the beneficial owner of Capitol Federal Financial common stock on December 4, 2009, the record date for voting at the annual meeting.

Can I vote by telephone or on the Internet if I am not a registered stockholder?

If your shares are held in "street name" by a broker or other nominee, you should check the voting form used by that firm to determine whether you will be able to vote by telephone or on the Internet.

Can I change my vote after I submit my proxy?

If you are a registered stockholder, you may revoke your proxy and change your vote at any time before the polls close at the meeting by:

\$ signing another proxy with a later date;

\$ voting by telephone or on the Internet -- your latest telephone or Internet vote will be counted;

\$ giving written notice of the revocation of your proxy to the Secretary of Capitol Federal Financial prior to the annual meeting; or

\$ voting in person at the annual meeting.

If you have instructed a broker, bank or other nominee to vote your shares, you must follow directions received from your nominee to change those instructions.

What if I do not specify how my shares are to be voted?

If you are a registered stockholder and you submit an executed proxy but do not indicate any voting instructions, your shares will be voted:

\$ FOR the election of the two director nominees to Capitol Federal Financial's Board of Directors; and
\$FOR ratification of the appointment of Deloitte & Touche LLP as Capitol Federal Financial's independent auditors for the fiscal year ending September 30, 2010.

Will any other business be conducted at the annual meeting?

The Board of Directors knows of no other business that will be conducted at the meeting. If any other proposal properly comes before the stockholders for a vote at the meeting, however, the proxy holders will vote your shares in accordance with their best judgment.

How many votes are required to approve the proposals?

Director nominees who receive the highest number of votes for the positions to be filled will be elected. Ratification of the appointment of Deloitte & Touche LLP as Capitol Federal Financial's independent auditors requires the affirmative vote of the majority of votes cast on the matter, in person or by proxy, at the annual meeting. Capitol Federal Savings Bank MHC, which owns 70.4% of Capitol Federal Financial's outstanding common stock, intends to vote its shares in favor of each of the director nominees and in favor of the ratification of the appointment of Deloitte & Touche LLP as Capitol Federal Financial's independent auditors for the fiscal year ending September 30, 2010.

How will withheld votes and abstentions be treated?

If you withhold authority to vote for one or more director nominees or if you abstain from voting on the proposal to ratify the appointment of the independent auditors, your shares will still be included for purposes of determining whether a quorum is present. In addition, if you abstain from voting on the ratification of the appointment of the independent auditors, your shares will be included in the number of shares voting on that proposal and, consequently,

your abstention will have the same practical effect as a vote against that proposal.

How will broker non-votes be treated?

Shares treated as broker non-votes on one or more proposals will be included for purposes of calculating the presence of a quorum. Otherwise, shares represented by broker non-votes will be treated as shares not entitled to vote on a proposal. Consequently, any broker non-votes will have the following effects:

3

- Proposal 1. Broker non-votes will have no effect on the election of directors.
- Proposal 2. Broker non-votes will not be counted in determining the number of shares necessary for ratification of the appointment of the Company's independent auditors and will, therefore, reduce the absolute number, but not the percentage, of the affirmative votes required for the approval of this proposal.

STOCK OWNERSHIP

The following table presents information regarding the beneficial ownership of Capitol Federal Financial common stock, as of December 4, 2009, by:

- Capitol Federal Savings Bank MHC, which is the only stockholder known by management to beneficially own more than five percent of the outstanding common stock of Capitol Federal Financial;

PROPOSAL I

ELECTION OF DIRECTORS

Capitol Federal Financial's Board of Directors is composed of seven members, each of whom is also a director of Capitol Federal Savings. Approximately one-third of the directors are elected annually. Directors of Capitol Federal Financial are elected to serve for a three-year term or until their respective successors are elected and qualified.

The following table sets forth certain information regarding the composition of Capitol Federal Financial's Board of Directors, including each director's term of office. The Board of Directors, acting on the recommendation of the Nominating Committee, has recommended and approved the nominations of John B. Dicus and Jeffrey R. Thompson to serve as directors, each for a term of three years to expire at the annual meeting of stockholders to be held in 2013. It is intended that the proxies solicited on behalf of the Board of Directors (other than proxies in which the authority to vote for a nominee is withheld) will be voted at the annual meeting "FOR" the election of these director nominees. If any nominee is unable to serve, the shares represented by all valid proxies will be voted for the election of such substitute nominee as the Board of Directors, acting on the recommendations of the Nominating Committee, may recommend. At this time, the Board of Directors knows of no reason why any nominee might be unable to serve if elected. Except as disclosed in this proxy statement, there are no arrangements or understandings between any nominee and any other person pursuant to which the nominee was selected.

Board Meetings and Committees

Meetings of Capitol Federal Financial's Board of Directors are generally held on a quarterly basis. Meetings of Capitol Federal Savings Board of Directors, the membership of which is identical to Capitol Federal Financial's Board of Directors, are generally held on a monthly basis. For the fiscal year ended September 30, 2009, the Board of Directors of Capitol Federal Financial held eight meetings and the Board of Directors of Capitol Federal Savings held 13 meetings. During fiscal year 2009, no incumbent director attended fewer than 75% of the aggregate of the total number of meetings of each Board and the total number of meetings held by the committees of each Board on which committees he or she served.

Capitol Federal Financial's Board of Directors has standing Executive, Compensation, Stock Benefit, Audit and Nominating Committees. The following is a summary of these committees.

The Executive Committee is currently comprised of Directors John B. Dicus (Chairperson), Andersen and Ward. The Executive Committee meets on an as needed basis and exercises the power of the Board of Directors between Board meetings, to the extent permitted by applicable law. This committee is responsible for formulating and implementing policy decisions, subject to review by the entire Board of Directors. The Executive Committee did not meet during fiscal year 2009.

The Compensation Committee is currently comprised of Directors Andersen (Chairperson), Johnson, McCoy, Thompson and Ward, each of whom is an independent director, as that term is defined in the NASDAQ Marketplace Rules. The Compensation Committee is responsible for reviewing and evaluating executive compensation and administering the Company's compensation and benefit programs. The Compensation Committee also is responsible for:

- reviewing from time to time the Company's compensation plans and, if the Committee believes it to be appropriate, recommending that the Board amend these plans or adopt new plans;
- annually reviewing and approving corporate goals and objectives relevant to the Chief Executive Officer's compensation, evaluating the Chief Executive Officer's performance in light of these goals and objectives and recommending to the Board the Chief Executive Officer's compensation level based on this evaluation;
- overseeing the evaluation of management, and recommending to the Board the compensation for executive officers and other key members of management. This includes evaluating performance following the end of incentive periods and recommending to the Board specific awards for executive officers;
 - recommending to the Board the appropriate level of compensation for directors;
- administering any benefit plan which the Board has determined should be administered by the Committee; and
- reviewing, monitoring and reporting to the Board, at least annually, on management development efforts to ensure a pool of candidates for adequate and orderly management succession.

The Compensation Committee operates under a formal written charter, a copy of which is available on the Company's website, at www.capfed.com, by clicking "Investor Relations" and then "Corporate Governance." In fiscal year 2009, this committee met four times at the Company level; the Compensation Committee for Capitol Federal Savings, which serves the same function and has the identical makeup, also met four times during fiscal year 2009.

The charter of the Compensation Committee does not specifically provide for delegation of any of the authorities or responsibilities of the committee. For a discussion of the role of executive officers in setting executive pay, see "Compensation Discussion and Analysis—Role of Management."

The Stock Benefit Committee is currently comprised of Directors Andersen (Chairperson) and Ward. The Stock Benefit Committee is principally responsible for administering Capitol Federal Financial's Stock Option and Incentive Plan and its Recognition and Retention Plan. This committee met twice during fiscal year 2009.

The Audit Committee is currently comprised of Directors Ward (Chairperson), Andersen, Johnson, McCoy and Thompson, each of whom is "independent," as independence for audit committee members is defined in the NASDAQ Marketplace Rules. The Board of Directors of Capitol Federal Financial has determined that Mr. Thompson is an Audit committee financial expert, as defined in the SEC's rules.

The Audit Committee of Capitol Federal Financial operates under a written charter adopted by the full Board of Directors, a copy of which is available on the Company's website, www.capfed.com, by clicking "Investor Relations" and then "Corporate Governance." The Audit Committee is appointed by the Company's Board of Directors to provide assistance to the Board in fulfilling its oversight responsibility relating to the integrity of the Company's consolidated financial statements and the financial reporting processes, the systems of internal accounting and financial controls, compliance with legal and regulatory requirements, the annual independent audit of the Company's consolidated financial statements, the independent auditors' qualifications and independence, the performance of the Company's

internal audit function and independent auditors and any other areas of potential financial risk to the Company specified by its Board of Directors. The Audit Committee also is responsible for hiring, retaining and terminating the Company=s independent auditors. The Audit Committee met five times in fiscal 2009.

The Nominating Committee is comprised of Directors Thompson (Chairperson), Andersen, Johnson, McCoy and Ward, each of whom is an independent director, as that term is defined in the NASDAQ Marketplace Rules. The Nominating Committee is responsible for identifying and recommending director candidates to serve on the Board of Directors. Final approval of director nominees is determined by the full Board, based on the recommendations of the Nominating Committee. The nominees for election at the meeting identified in this proxy statement were recommended to the Board by the Nominating Committee. The Nominating Committee met three times during fiscal year 2009.

The Nominating Committee operates under a formal written charter adopted by the Board, a copy of which is available on the Company's website, www.capfed.com, by clicking "Investor Relations" and then "Corporate Governance." The Nominating Committee has the following responsibilities under its charter:

- (i) recommend to the Board the appropriate size of the Board and assist in identifying, interviewing and recruiting candidates for the Board;

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This section discusses the Company's compensation program, including how it relates to the executive officers named in the compensation tables which follow this section (who we sometimes refer to below and elsewhere in this proxy statement as the "named executive officers," or "NEOs"), consisting of:

- John B. Dicus, our Chairman, President and Chief Executive Officer,
- Morris J. Huey II, our Executive Vice President and Chief Lending Officer,
- Kent G. Townsend, our Executive Vice President and Chief Financial Officer,
- Richard J. Aleshire, our Executive Vice President for Retail Operations,
- Larry K. Brubaker, our Executive Vice President for Corporate Services and
- John C. Dicus, our former Chairman of our Board of Directors.

In January 2009, Mr. John B. Dicus became Chairman of the Board as Mr. John C. Dicus was required to retire from the Board of Directors due to age limitations in the Company's by-laws. Mr. John C. Dicus continues to work with the Company as a non-executive employee on matters related to the Board, the asset and liability committee and benefit plans.

Set forth below is an analysis of the objectives of our compensation program, the material compensation policy decisions we have made under this program and the material factors that we considered in making those decisions.

Overview of Compensation Program

The Compensation Committee of our Board of Directors (the "Committee"), which consists solely of our independent directors, has responsibility for developing, implementing and monitoring adherence to the Company's compensation philosophies and program. The Stock Benefit Committee (the "Sub-Committee"), also comprised entirely of independent directors, administers and makes stock-based compensation awards from time to time under our 2000 Stock Option and Incentive Plan and our 2000 Recognition and Retention Plan, both of which were approved by our stockholders in 2000. See "-Stock Incentive Plans" below. The Committee is mindful of the Company's unique corporate structure and business strategies, and strives to provide a complete compensation program that provides an incentive to executive officers to maximize the Company's performance with the goal of enhancing shareholder value. The Company's compensation program is based upon the following philosophies:

- preserve the financial strength, safety and soundness of the Company and the Bank;
- reward and retain key personnel by compensating them in the midpoint of salary ranges at comparable financial institutions and making them eligible for annual cash bonuses based on the Company's performance and the individual officer's performance;
- focus management on maximizing earnings while managing risk by maintaining high asset quality, managing interest rate risk within Board guidelines, emphasizing cost control, and maintaining appropriate levels of capital and
- provide an opportunity to earn additional compensation if the Company's shareholders experience increases in returns through stock price appreciation and/or dividends.

The Company's primary forms of current compensation for executive officers include base salary, short-term incentive compensation and long-term incentive compensation. The Company provides long-term compensation in the form of stock option and restricted stock awards and an employee stock ownership plan ("ESOP"). The Company also has a tax-qualified defined contribution retirement plan, health and life insurance benefits and vacation benefits. The Company does not have an employment agreement with any officer or employee. The Company currently believes that its named executive officers receive sufficient incentives from the existing compensation program that employment agreements are not necessary to induce them to remain with the Company.

The Committee meets as needed during the year to consider all aspects of the Company's compensation program, including a review at least once per year of a tally sheet for each NEO quantifying each component of the NEO's compensation package, in order to satisfy itself that the total compensation paid to the NEO is reasonable and appropriate. As discussed in greater detail below under "Role of Management," the Committee meets with management to receive their analyses and recommendations, as requested by the Committee, considers the information provided to the Committee and makes decisions accordingly.

Base Salary

The Committee sets the base salary for all executive officers of the Company. The Committee seeks to set fair and reasonable compensation levels throughout the Company by taking into account the influences of market conditions on each operational area of the Company and the relative compensation at different management levels in the Company within each operational area. The Committee recognizes that base salary is the only element of the compensation package provided by the Company that is fixed in amount before the fiscal year begins and is paid during the year without regard to the Company's performance. The base salary for each NEO reflects the Committee's consideration of a combination of factors, including: competitive market salary, the officer's experience and tenure, overall operational and managerial effectiveness and breadth of responsibility for each officer. Each named executive officer's base salary and performance is reviewed annually. Base salary is not targeted to be a percentage of total compensation, although the Committee does give consideration to the total amount of compensation being paid to each NEO when setting NEO base salaries.

The Committee has not used third party consultants or other service providers to present compensation plan suggestions or market data. Instead, the Committee has directed the Chairman, President and CEO to provide comparable market salary data for executive officers based upon a selected population of comparable financial institutions at both the regional and national levels. The Committee uses three different comparisons for the establishment of base salary.

For fiscal year 2009, the comparison information was compiled from information reported in the most recent proxy statements of the financial institutions listed below. The financial institutions selected for comparison purposes were based upon the Chairman and President and CEO's knowledge of the selected financial institutions, the comparability of their operations, corporate structure and/or size as appropriate comparisons to the Company. Financial institutions selected for comparison purposes may be added or removed from the list each year as a result of acquisitions, closings, operating in a distressed mode or because another financial institution more appropriately compares to the operations of the Company than a previously listed financial institution.

These comparisons include:

- (1) our executive officer salaries and annual compensation compared with other public thrift institutions with total assets between \$4 billion and \$12 billion in asset size, consisting of the following: TFS Financial (MHC), BankAtlantic Bancorp, FirstFed Financial, Washington Federal, First Niagara Financial, New Alliance Bancshares, Northwest Bancorp (MHC), Investors Bancorp (MHC), Provident Financial, and Dime Community Bancshares;
- (2) our executive officer salaries and annual compensation compared with the mutual holding companies with assets greater than \$4 billion, consisting of TFS Financial, Investors Bancorp, Beneficial Mutual and Northwest Bancorp; and
- (3) our executive officer salaries and annual compensation compared with a group of other public thrifts and banks that are in the same region as the Company, ranging in size from \$1 billion to \$17 billion, consisting

Edgar Filing: CAPITOL FEDERAL FINANCIAL - Form DEF 14A

of: Commerce Bancshares, UMB Financial Corporation, BancFirst, TierOne Corporation, Great Southern Bancorp, NASB Financial and Pulaski Financial.

The first two comparisons show how our executive officer salaries and annual compensation compare on a national scale and the third provides a comparison of the level of executive base salaries in the region within which we most likely compete for executive talent. The Committee used information from the most recent proxy statement filed by each company listed above. The Committee received information showing the base compensation of each CEO, CFO and other three NEOs in each company's report. The level of compensation paid to our CEO and CFO are compared directly to the equivalent positions in the listed companies. The compensation paid the first highest

NEO within each of the listed companies above, not including the CEO or CFO, is compared to compensation paid to our first most highly compensated NEO, not including the CEO, the CFO or our former Chairman. The compensation paid the second highest NEO within each of the listed companies above, not including the CEO or CFO, is compared to compensation paid to our second most highly compensated NEO, not including the CEO, the CFO or our former Chairman. The compensation paid the third highest NEO within each of the listed companies above, not including the CEO or CFO, is compared to compensation paid to our third most highly compensated NEO, not including the CEO, the CFO or our former Chairman.

The Committee reviews the market data provided and does not attempt to set the base salaries of our NEOs at specific target percentiles of the market data provided. The Committee uses this data to set the base salary of each NEO, other than our former Chairman, whose salary is discussed below, in light of the range of base salaries paid among the comparable financial institutions with the objective to be in the middle of the salary ranges for each position. From this, the Committee considers the level of base salary for each executive officer of the Company. In general, the range of salaries for the named executive officers other than the CEO is narrow because the comparison in range of salaries among non-CEO executive officer positions in the various market comparisons reviewed is not considered significantly different by the Committee to warrant a wider spread in base salary. The salary of the CEO is established to reflect his hands-on approach to leadership and the involvement he provides the Company on a daily basis, the leadership roles he fills in local, regional and national industry related activities and his direct involvement in addressing shareholder value and shareholder relations.

The Committee does not put as much emphasis on the market comparison information when considering bonus or other incentive compensation as it does on base salary for the Company's executive officers. This is primarily because of the divergence in practice regarding the structure of bonus plans and the types of incentives offered executive officers.

The salary of our former Chairman is established by considering his day-to-day involvement at the Company and his years of experience. His salary level was established to lie generally between that of senior officers and executive officers of the Company.

Bonus Incentive Plans

All officers of the Company are eligible to receive cash bonuses on an annual basis under the Short Term Performance Plan ("STPP"), based upon the Company's financial performance and the individual officer's performance during the fiscal year. The cash awards are made in January of the year following the fiscal year end of September 30 (i.e., in January 2010, in the case of the STPP award for the fiscal year ended September 30, 2009). A participant's STPP award may not exceed the percentage of salary specified in the plan for his or her position level. For the Chairman, President and CEO, the maximum percentage is 60%, and for each of the other NEOs, the maximum percentage is 40%. The STPP is intended to:

- promote stability of operations and the achievement of earnings targets and business goals;
- link executive compensation to specific corporate objectives and individual results; and
 - provide a competitive reward structure for officers.

In November of each fiscal year, after considering management's recommendations (see "Role of Management" below), the Committee sets target, maximum and minimum performance levels for that year. The targeted performance level is the most likely performance level forecasted for the Company in the ensuing fiscal year given the operational considerations described below. The Committee considers three targets in order to focus management on the

performance of the Company as a whole. By focusing on the overall performance of the Company, over time the Committee believes the value to the shareholder from management's performance will be maximized. In seeking to maximize the long-term performance of the Company, management focuses on all critical risks and objectives of the Company. By not taking excessive credit risk and keeping interest rate risk below levels established by the Board it is likely that the earnings of the Company will remain strong over time. By managing the amount of capital of the Bank, the Company benefits by having a proper amount of leverage which improves the opportunities to enhance earnings. Focusing on cost control helps to mitigate risks that operating expenses will rise beyond the level at which they are supportable by the Bank's operating income.

The areas of Company performance targeted consist of the efficiency ratio, basic earnings per share and return on average equity. The efficiency ratio is computed by dividing total non-interest expense by the sum of net interest and dividend income and total other income. Basic earnings per share is calculated in accordance with accounting principles generally accepted in the United States. Return on average equity is computed by dividing net income for the fiscal year by the average month end balance of total stockholders' equity for the thirteen monthly time periods from the prior fiscal year end through the current fiscal year end, ending September 30th. The efficiency ratio, basic earnings per share and return on average equity are equally weighted.

In general, the Company performance targets for the STPP are based upon the ensuing year's forecast of business activity, interest rates, pricing assumptions, operating assumptions and forecasted net income. The Committee requires that the target efficiency ratio for each fiscal year be no worse than the actual efficiency ratio of the just completed fiscal year. The purpose of the efficiency ratio performance target is to focus the officers on keeping operating expenses under control and at the lowest level possible, regardless of the impact of interest rates on the operations of the Company. The targets for earnings per share and return on average equity are established based upon the forecasted performance of the Company and anticipated capital management plans for the Company. Except as noted above with regard to the target efficiency ratio, the targets for each of the performance goals are independent of the prior year's results. There are two "scales" for each performance target: (i) a "target" scale, which includes increments between the target level of performance and a maximum level of performance, and decrements between the target level of performance and a minimum level of performance; and (ii) an "award scale," which proceeds at one percent increments beginning at 20% in correspondence to the minimum performance level on the target scale, through 60% in correspondence to the target level of performance on the target scale, and up to 100% in correspondence to the maximum level of performance on the target scale. Plan participants will earn a percentage on the award scale for a particular performance target of between 20% (if performance is at the minimum level of performance on the target scale) and 100% (if performance is at or above the maximum level of performance on the target scale). The percentage earned on the award scale for a particular performance target will be zero if performance is below the minimum level of performance on the target scale. The average of the percentages earned on the award scales for the three performance targets represents the total percentage of the maximum possible STPP award each participant has earned for the Company performance component of the STPP award. In order to pay any award under the STPP for the Company performance component based on performance above the target level, however, the Committee must determine that Company has net income for the fiscal year equal to at least five times the aggregate dollar amount of total STPP awards for that year that would otherwise be made above the target level.

Below is a table showing the targets established and the performance achieved for fiscal years 2009, 2008 and 2007. The percent of total columns represent, for each performance target (efficiency ratio, basic earnings per share and return on average equity), the percentage earned on the award scale for that target, based on the level of achievement on the target scale. The total column represents the average of the award scale percentages earned for the three performance targets, which, as noted above, represents the total percentage of the maximum possible STPP award that has been earned for the Company performance component of the STPP award. For fiscal year 2009, the level of achievement for each performance target was above the minimum level of performance on the target scale, but below the target level of performance on the target scale. For fiscal year 2008, the level of achievement for each performance target was at or above the maximum level of performance on the target scale. For fiscal year 2007, the level of achievement for efficiency ratio was below the minimum level of performance on the target scale, and the level of achievement for each of the other two performance targets was above the minimum level of performance on the target scale but below the target level of performance on the target scale.

The Company did not achieve the target level of performance in any of its performance objective criteria during fiscal year 2009 primarily as a result of two events; the FDIC special assessment in the third quarter of fiscal year 2009 and loan loss provision expense in excess of the amount forecasted. The Company paid \$3.8 million to the FDIC as a special assessment imposed on all insured depository institutions which was a result of the FDIC insurance fund not being adequately funded due to bank closures and the resulting losses being paid by the FDIC.

The loan loss provision expense for fiscal year 2009, totaling \$6.4 million, was in excess of the amount estimated in the preparation of our forecast of operations for fiscal year 2009.

Each NEO receives ninety percent of his STPP award based upon the achievement of the three pre-established financial performance targets of the Company discussed above. This is intended to focus each named executive officer on maximizing the overall performance of the Company and not on achievement of goals in a particular operational area. Because of the predominance of the focus of the NEO bonuses on the overall performance of the Company, specific individual performance goals are not usually set for named executive officers. Instead, each NEO's individual contribution to the Company's performance is a subjective determination by the Committee following discussion with the Chairman, President and CEO, giving consideration to each NEO's response to the Company's changing operational needs during the year.

The Committee has the authority under the STPP to reduce bonus awards to executive officers that would otherwise be earned, for any reason the Committee believes appropriate. This may be done for all executive officers or for individual executive officers. The Committee did not exercise any such negative discretion with respect to STPP awards for fiscal years 2009, 2008 or 2007.

The Company also maintains a deferred incentive bonus plan ("DIBP") for executive officers in conjunction with the STPP. The DIBP is administered as an unfunded plan of deferred compensation with all benefits expensed and recorded as liabilities as they are accrued. The purpose of the two plans working together is to provide incentives and awards to executive officers to enhance the Company's performance and shareholder value over a four year time horizon. Each executive officer has the opportunity to defer a minimum of \$2,000 and up to fifty percent (up to a maximum of \$100,000) of their cash award under the STPP. The amount deferred receives a fifty percent match that is accrued over a three year mandatory deferral period. The amount deferred plus the fifty percent match is deemed to have been invested in Company stock on the last business day of the calendar year preceding the receipt of the STPP award (e.g., on December 31, 2009, in the case of the STPP award for fiscal year 2009 paid in January 2010), in the form of phantom stock. The number of shares deemed purchased in phantom stock receives dividend equivalents as if the stock were owned by the executive officer. At the end of the mandatory deferral period, the DIBP is paid out in cash and is comprised of the initial amount deferred, the fifty percent match, dividend equivalents on the phantom shares over the deferral period and the increase in the market value of the Company's stock over the deferral period, if any on the phantom shares. There is no provision for the reduction of the DIBP award at the end of the mandatory deferral period if the market value of the Company's stock at that time is lower than the market value at the time of the deemed investment.

For all participants in both the STPP and the DIBP, it is generally required that the recipient be employed by the Bank on the date the award is paid.

Stock Incentive Plans

The Company's Stock Incentive Plans are designed to provide incentives for long-term positive performance of the executive officers by aligning their interests with those of our shareholders by providing the executive officer the opportunity to participate in the appreciation, if any, in the Company's stock price which may occur after the date options or restricted stock awards are granted. The Company maintains two stock incentive plans: The 2000 Stock Option and Incentive Plan and the 2000 Recognition and Retention Plan. The Sub-Committee administers these two plans, determines eligibility and grants awards. Both of these stock incentive plans were approved by shareholders in April 2000. There were no grants of either options or restricted stock to any NEO during our fiscal years 2009, 2008 or 2007.

As required by the Stock Option and Incentive Plan, stock options have an exercise price that is equal to the average of the bid and ask prices of the last transaction as of the date of the grant approved by the Sub-Committee. The Committee has not set minimum stock ownership levels for any NEO. We do not coordinate the timing of options and stock awards with the release of material non-public information.

Role of Management

The Committee makes all decisions regarding the compensation of our executive officers. The Committee has asked the CEO to provide, in addition to the comparable market salary data based upon a selected population of comparable financial institutions at both the regional and national levels, reviews of the performance of each NEO

except for himself and recommendations for the salaries of each NEO except for himself and any recommendations for stock awards. Management recommends the target, minimum and maximum performance goals for the Company and the related bonus targets under the STPP to be approved by the Committee. In addition, management may from time to time recommend changes to the compensation program in response to changes in the marketplace in which the Company competes for executive talent and in light of the absolute performance level of the Company. The compensation of the CEO is determined by the Committee without prior recommendations from him. The Committee makes all decisions in light of the information provided and the Committee members' experience and expectations for all NEOs.

Perquisites and Other Personal Benefits

The Company does not provide any perquisites or other personal benefits for any NEO in excess of \$10,000 in the aggregate.

Retirement and Other Benefits

The Company provides an ESOP and a defined contribution plan to all employees who qualify for participation under each plan. The ESOP provides for the allocation of 201,638 shares annually among all participants based upon each employee's qualifying compensation as a percentage of the total of all qualifying compensation for all participants. Each NEO participates in the ESOP and the defined contribution plan.

The defined contribution plan provides for a match from the Company of \$2 for every \$1 dollar contributed by each participant based upon the required percentage of base salary as determined by the board. If the participant does not make his or her required contribution, the Company does not make a contribution to the plan. For our 2009, 2008 and 2007 fiscal years, this was 0.5% of each participant's base salary. Participants in the plan, including NEOs, may make additional contributions to the plan of up to 10.0% of their qualifying compensation.

The Company does not offer any defined benefit plan or post-retirement benefit plan that requires expense to the Company following the termination of employment of any NEO.

The Company provides a life insurance benefit for every employee who works on average more than 20 hours per week. The benefit is 1.5 times the base salary with a cap of \$300,000 in total death benefit. Benefits for all employees in excess of \$50,000 result in taxable income. Each of the NEOs participates in this benefit program.

The Company has provided for the purchase of a life insurance annuity for the CEO. The salary of the CEO has been grossed up for the cost of the annuity and the income tax associated with the resulting imputed taxable income. The Company has provided this gross up because the Company wished to provide the life insurance annuity benefit to the CEO without him having to bear the associated tax obligation. The gross up for this benefit is not included in the base salary of the CEO, but is included in the "All Other Compensation" column of the Summary Compensation Table.

In September 2007 the Bank purchased Bank Owned Life Insurance. Under the terms of the Bank Owned Life Insurance, each insured employee was provided the opportunity to designate a beneficiary to receive a death benefit equal to the insured employee's base salary as of August 27, 2007 if the insured dies while employed by the Bank. All NEOs except Mr. John C. Dicus (due to his age), are insured under the Bank Owned Life Insurance and have designated beneficiaries. Once the NEO's employment with the Bank terminates, the death benefit to the beneficiary of the NEO terminates as well.

Payments Upon Termination or Change in Control

As noted above under “Overview of Compensation Program,” the Bank does not currently have an employment agreement with any of its NEOs. As such, other than death benefits described above under “Retirement and Other Benefits,” there are currently no guaranteed payments to any NEO in the event of termination of employment or a change in control. The terms of our stock options and restricted stock awards provide for accelerated vesting only in the case of a change in control. As of September 30, 2009, our Chief Financial Officer was the only NEO who had unvested stock options or restricted stock.

Other Tax and Accounting Considerations

Section 162(m) of the Internal Revenue Code limits the corporate federal income tax deduction for compensation paid to a publicly held corporation's "covered employees" (defined, per the guidance of the Internal Revenue Service, as the principal executive officer and the three other most highly compensated executive officers named in the summary compensation table) to \$1.0 million per year, to the extent such compensation is not "performance-based compensation" under a plan approved by stockholders. Income recognized by executives upon the exercise of stock options granted by the Sub-Committee under the 2000 Stock Option and Incentive Plan constitutes "performance-based compensation" that is exempt from the 162(m) limitation. However, we have in the past awarded, and may in the future award, compensation that causes a portion of one or more of our executive's total compensation for a particular year to not be tax deductible. The Committee has reviewed and will continue to review on an ongoing basis our executive compensation programs, and propose appropriate modifications to these programs, if the Committee deems them necessary to implement our compensation programs in a manner that avoids or minimizes any disallowance of tax deductions under Section 162(m). The Committee will balance these considerations against the need to be able to compensate executives in a manner commensurate with performance and the competitive environment for executive talent.

With our adoption of ASC 718-10 on October 1, 2005, which requires the recognition of compensation expense for stock options, we do not expect that the accounting treatment of differing forms of equity awards to vary significantly. Accordingly, accounting treatment is not expected to have a material effect on the selection of forms of equity compensation in the foreseeable future.

The assumptions used in the calculation of this amount are included in Note 10 of the Notes to Consolidated Financial Statements contained in Capitol Federal Financial's Annual Report on Form 10-K for the fiscal year ended September 30, 2009 filed with the Securities and Exchange Commission. The restricted stock grant for which expense is shown in the table consists of a grant of 3,000 shares to Mr. Townsend in fiscal 2005.

The assumptions used in the calculation of these amounts are included in Note 10 of the Notes to Consolidated Financial Statements contained in Capitol Federal Financial's Annual Report on Form 10-K for the fiscal year ended September 30, 2009 filed with the Securities and Exchange Commission. The stock option grant for which expense is shown in the table consists of an option to purchase 30,000 shares granted to Mr. Townsend in fiscal 2005.

The bonuses for fiscal 2009 have been approved by the Compensation Committee of the Company's Board of Directors but will not be paid until January 2010. The bonus amounts include Capitol Federal Savings' matching contributions under Capitol Federal Financial's DIBP to those named executive officers who elected to defer receipt of a portion of their bonus for fiscal years 2009, 2008 and 2007, as follows:

	2009	2008	2007
John B. Dicus	\$30,062	\$50,000	\$18,388

J o h n C.\$	---	\$	---	\$	---

The amount deferred, if any, plus the matching contribution on the deferred amount is deemed to be invested in Capitol Federal Financial's common stock through the purchase of phantom stock units. There will not be any reduction to the payout amount of the phantom stock units if the stock price has depreciated from the beginning of the deemed investment period of the phantom stock units to the end of such period. Receipt of the matching contribution is contingent on the executive officer remaining employed with the Company for a period of three years following the award of the phantom stock units. For additional information regarding this plan, see "Non-Qualified Deferred Compensation" below.

- (8) Amounts represent matching contributions under Capitol Federal Savings' profit sharing plan, allocations under Capitol Federal Savings' ESOP, premiums on universal life insurance policies, term life insurance premiums and earnings (in the form of Company stock price appreciation (depreciation) and dividend equivalents during the last fiscal year) accrued by the Company on outstanding phantom stock units awarded under the DIBP. For 2009, these include \$1,150, \$66,561, \$66,376, \$775 and \$(11,839) for Mr. John B. Dicus; \$1,098, \$63,556, \$0, \$775 and \$90 for Mr. Huey; \$1,112, \$64,335, \$0, \$775 and \$(3,402) for Mr. Townsend; \$1,105, \$63,967, \$0, \$775 and \$83 for Mr. Aleshire; \$1,105, \$63,967, \$0, \$775 and \$(4,559) for Mr. Brubaker; and \$1,150, \$66,561, \$0, \$727 and \$7,997 for Mr. John C. Dicus. Also includes, for Mr. John B. Dicus, the amount reimbursed for all or part of the tax liability resulting from the payment of premiums on a universal life insurance policy of \$18,721, and for Mr. Townsend, dividends paid on unvested shares of restricted stock totaling \$2,532.

The payout value shown in the far right column represents the stock price appreciation from December 31, 2006 through September 30, 2009, plus the amount of dividend equivalents credited during that period. See "Non-Qualified Deferred Compensation" below.
- (5) Represents phantom stock award under Company's DIBP as a result of deferring the named executive officer's annual bonus for fiscal 2007 under the Company's STPP. The number of phantom stock units was determined by the portion of the bonus deferred plus the Company's 50% match thereon, divided by the Company's stock price on December 31, 2007. The phantom stock award will be paid in cash on January 25, 2011, in an amount equal to the appreciation, if any, in the Company's stock price from December 31, 2007 to December 31, 2010, plus the amount of dividend equivalents credited during that period. Non-Qualified Deferred Compensation

The following table sets forth information about compensation payable to each named executive officer under Capitol Federal Financial's DIBP.

(1)

Represents portion of bonus for fiscal 2008 (otherwise payable in fiscal 2009) under the STPP deferred by the named executive officer. This amount was previously reported as compensation for fiscal 2008.

- (2) Represents fifty percent match by Capitol Federal Savings on portion of bonus for fiscal 2008 (otherwise payable in fiscal 2009) under the STPP deferred by the named executive officer. This amount was previously reported as compensation for fiscal 2008. The named executive officer was awarded phantom stock units under the DIBP in an amount equal to the bonus amount deferred plus the fifty percent match, divided by the closing price of the Company's common stock on December 31, 2008.
- (3) Represents stock price appreciation (depreciation) and dividend equivalents on phantom stock units from deferrals (and fifty percent matches thereon) of STPP bonuses for fiscal 2008 and prior years. This amount is reported as compensation for fiscal 2009 under the "All Other Compensation" column of the Summary Compensation Table. As noted below, there will not be any reduction to the payout amount of the phantom stock units if the stock price has depreciated from the beginning of the deemed investment period of the phantom stock units to the end of such period.
- (4) Represents cash payout during fiscal 2009 of phantom stock units for deferral (and fifty percent match thereon) of the STPP bonus for fiscal 2005. The payout was comprised of appreciation in the Company's stock price from December 31, 2005 through December 31, 2008 plus dividend equivalents credited during that period.

Under the DIBP, a participant may defer from \$2,000 to as much as fifty percent (up to a maximum of \$100,000) of their award under the STPP, which is typically made in the January following the end of the fiscal year for which the STPP award is earned. The total amount deferred plus a fifty percent match by Capitol Federal Savings is deemed to be invested, in the form of phantom stock units, in Capitol Federal Financial common stock as of December 31st in the year prior to the STPP award (e.g., December 31, 2009, in the case of the STPP award for fiscal year 2009 paid in January 2010). On the third anniversary date (e.g., December 31, 2012, in the case of the award for fiscal year 2009), the phantom stock units are deemed sold and each participant will receive shortly thereafter a cash payment equal to the amount deferred, the company match, the dividend equivalents paid on

Capitol Federal Financial common stock during the three-year period, plus the appreciation, if any, of Capitol Federal Financial common stock. There will not be any reduction to the amount of the cash payment if the deemed investment in Capitol Federal Financial common stock has depreciated in value from the beginning of the deemed investment period to the end of such period. The payment of these benefits (except for the amount deferred) is subject to the participant's continued employment through the end of the deferral period.

Payments Upon Termination or Change in Control

As noted above, the Company does not currently have employment or change in control severance agreements with any of the named executive officers or any other employees.

Under the general terms of stock options granted under the Company's 2000 Stock Option and Incentive Plan and restricted stock granted under the Company's 2000 Recognition and Retention Plan, upon the occurrence of a change in control of the Company, all unvested stock options and unvested shares of restricted stock will vest. Mr. Townsend is the only named executive officer who held unvested stock options or restricted stock as of September 30, 2009, holding unvested options to purchase 6,000 shares at an exercise price of \$33.88 and 600 unvested shares of restricted stock. If a change in control of the Company had occurred on that date, the aggregate value that would have been realized by Mr. Townsend as a result of the acceleration of the vesting of his 6,000 unvested stock options and 600 shares of restricted stock, based on the closing price of the Company's common stock on that date of \$32.92 and the exercise price of his unvested stock options, would have been \$0 and \$19,752, respectively.

The Company's STPP provides that if, within two years following a change in control of the Company, a participant's employment is terminated other than due to death, disability, retirement, cause or resignation by the participant (other than resignation due to reassignment to a job that is not reasonably equivalent in responsibility or compensation, or that is not in the same geographic area, or resignation within 30 days following a reduction in pay), then the participant will be paid a pro rata award for the performance year in which his or her termination of employment occurs, with the award amount determined assuming all individual and corporate performance targets have been met. Had any of Messrs. John B. Dicus, Huey, Townsend, Aleshire, Brubaker or John C. Dicus experienced such a termination of employment on September 30, 2009, they would have been entitled to the regular bonus earned for the year, rather than a pro rata award with assumed maximum achievement of performance targets, since the performance period for the year actually ended on that date. The bonus amounts for fiscal 2009 are set forth in the Summary Compensation Table under the "Non-Equity Incentive Plan Compensation" column.

The Company's DIBP provides that if, within two years following a change in control of the Company, a participant's employment is terminated other than due to death, disability, retirement, cause or resignation by the participant (other than resignation due to reassignment to a job that is not reasonably equivalent in responsibility or compensation, or that is not in the same geographic area, or resignation within 30 days following a reduction in pay), then the participant will become fully vested in his or her plan account, which shall be paid to him or her within 90 days after the termination date. If Messrs. John B. Dicus, Huey, Townsend, Aleshire, Brubaker or John C. Dicus had experienced such a termination of employment on September 30, 2009, the amounts of their DIBP accounts that would have vested and been payable within 90 days would have been \$258,003, \$23,059, \$89,057, \$24,516, \$40,654 and \$0, respectively.

As discussed under "Compensation Discussion and Analysis—Retirement and Other Benefits," in September 2007 the Bank purchased Bank Owned Life Insurance. Under the terms of the Bank Owned Life Insurance, each insured employee was provided the opportunity to designate a beneficiary to receive a death benefit equal to the insured employee's base salary as of August 27, 2007 if the insured dies while employed by the Bank. All NEOs, except the former Chairman (due to his age), are insured under the Bank Owned Life Insurance and have designated beneficiaries. Had Messrs. John B. Dicus, Huey, Townsend, Aleshire or Brubaker died on September 30, 2009, the

death benefit payable would have been \$489,000, \$208,000, \$210,000, \$214,000 or \$214,000, respectively.

PROPOSAL II

RATIFICATION OF THE APPOINTMENT OF INDEPENDENT AUDITORS

The Audit Committee of Capitol Federal Financial's Board of Directors has renewed Capitol Federal Financial's arrangement for Deloitte & Touche LLP to be the Company's independent auditors for the fiscal year ending September 30, 2010, subject to the ratification of that appointment by Capitol Federal Financial's stockholders at the annual meeting. A representative of Deloitte & Touche LLP is expected to attend the annual meeting to respond to appropriate questions and will have an opportunity to make a statement if he or she so desires.

For the fiscal years ended September 30, 2009 and 2008, Deloitte & Touche LLP provided various audit and non-audit services to the Company. Set forth below are the aggregate fees billed for these services:

- (a) Audit Fees: Aggregate fees billed for professional services rendered for the audit of the Company's annual financial statements, for the audit pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, for the review of financial statements included in the Company's Quarterly Reports on Form 10-Q, for statutory and regulatory audits and for consents: \$768,000 - 2009; \$852,300 - 2008.
- (b) Audit Related Fees: Aggregate fees billed for professional services rendered related to audits of employee benefit plans, stand-alone audit of subsidiary and mutual holding company and agreed-upon procedures engagements:

Edgar Filing: CAPITOL FEDERAL FINANCIAL - Form DEF 14A

\$69,800 - 2009; \$106,200 - 2008.

(c) Tax Fees: Aggregate fees billed for professional services rendered related to tax return preparation and tax consultations: \$91,958 - 2009; \$119,236 - 2008.

(d) All other fees: Aggregate fees billed for all other professional services, consisting of: \$47,000 - 2009; \$20,137 - 2008.

The Audit Committee generally pre-approves all audit and permissible non-audit services to be provided by the independent auditors. The Audit Committee has, however, delegated authority to the chairperson of the Audit Committee to pre-approve services not pre-approved by the Audit Committee, provided such action is reported to the Audit Committee at its next meeting. None of the services provided by Deloitte & Touche LLP described in items (a)-(d) above was approved by the Audit Committee pursuant to a waiver of the pre-approval requirements of the SEC's rules and regulations.

The Board of Directors recommends that stockholders vote "FOR" the ratification of the appointment of Deloitte & Touche LLP as Capitol Federal Financial's independent auditors for the fiscal year ending September 30, 2010.
