LIBOR London Interbank Offered Rate

- (I) Non-income producing security.
- (L) All or a portion of this security is on loan as of 10-31-10. Total value of loaned securities at 10-31-10 was \$229,052,925.
- (S) These securities are exempt from registration under Rule 144A of the Securities Act of 1933. Such securities may be resold, normally to qualified institutional buyers, in transactions exempt from registration.
- (Z) All or a portion of this security is segregated as collateral pursuant to the Committed Facility Agreement. Total collateral value at 10-31-10 was \$572,838,796.
- \* Yield represents either the annualized yield at the date of purchase, the stated coupon rate or, for floating rate securities, the rate at period end.

☐ At 10-31-10, the aggregate cost of investment securities for federal income tax purposes was \$800,907,947. Net unrealized depreciation aggregated \$4,089,018, of which \$32,080,635 related to appreciated investment securities and \$36,169,653 related to depreciated investment securities.

The portfolio had the following country concentration as a percentage of total investments on 10-31-10:

United States	85%
United Kingdom	5%
Netherlands	4%
Canada	4%

### Notes to the Schedule of Investments (Unaudited)

**Security valuation.** Investments are stated at value as of the close of regular trading on the New York Stock Exchange (NYSE), normally at 4:00 P.M., Eastern Time. The Fund uses a three-tier hierarchy to prioritize the pricing assumptions, referred to as inputs, used in valuation techniques to measure fair value. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes significant observable inputs. Observable inputs may include quoted prices for similar securities, interest rates, prepayment speeds and credit risk. Prices for securities valued using these techniques are received from independent pricing vendors and brokers and are based on an evaluation of the inputs described. Level 3 includes significant unobservable inputs when market prices are not readily available or reliable, including the Fund sown assumptions in determining the fair value of investments. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

			Level 2	Level 3
	Total Market	Level 1	Significant	Significant
	Value at	Quoted	Observable	Unobservable
	10-31-10	Price	Inputs	Inputs

Other Financial Instruments				

Interest Rate Swaps (2,748,856)

During the three month period ended October 31, 2010, there were no significant transfers in or out of Level 1 or Level 2 assets.

In order to value the securities, the Fund uses the following valuation techniques. Equity securities held by the Fund are valued at the last sale price or official closing price on the principal securities exchange on which they trade. In the event there were no sales during the day or closing prices are not available, then securities are valued using the last quoted bid or evaluated price. Debt obligations are valued based on the evaluated prices provided by an independent pricing service, which utilizes both dealer-supplied and electronic data processing techniques, taking into account factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics and other market data. Foreign securities and currencies are valued in U.S. dollars, based on foreign currency exchange rates supplied by an independent pricing service. Certain securities traded only in the over-the-counter market are valued at the last bid price quoted by brokers making markets in the securities at the close of trading. Certain short-term securities are valued at amortized cost.

Other portfolio securities and assets, where market quotations are not readily available, are valued at fair value, as determined in good faith by the Fund\[ \] s Pricing Committee, following procedures established by the Board of Trustees. Generally, trading in non-U.S. securities is substantially completed each day at various times prior to the close of trading on the NYSE. Significant market events that affect the values of non-U.S. securities may occur between the time when the valuation of the securities is generally determined and the

Page 5

### John Hancock Preferred Income Fund

**As of 10-31-10 (Unaudited)** 

close of the NYSE. During significant market events, these securities will be valued at fair value, as determined in good faith, following procedures established by the Board of Trustees. The Fund may use a fair valuation model to value non-U.S. securities in order to adjust for events which may occur between the close of foreign exchanges and the close of the NYSE.

**Interest rate swaps.** Interest rate swaps represent an agreement between a Fund and counterparty to exchange cash flows based on the difference between two interest rates applied to a notional amount. The payment flows are usually netted against each other, with the difference being paid by one party to the other. The Fund settles accrued net interest receivable or payable under the swap contracts on a periodic basis. Swaps are marked-to-market daily based upon values from third party vendors or broker quotations, and the change in value is recorded as unrealized appreciation/depreciation of swap contracts.

Entering into swap agreements involves, to varying degrees, elements of credit, market and documentation risk that may amount to values that are in excess of the amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for the swap, that a counterparty may default on its obligation or delay payment under the swap terms. The counterparty may disagree or contest the terms of the swap. Market risks may also accompany the swap, including interest rate risk. The Fund may also suffer losses if it is unable to terminate or assign outstanding swaps or reduce its exposure through offsetting transactions.

During the three month period ended October 31, 2010, the Fund used interest rate swaps in anticipation of rising interest rates. The following table summarizes the interest rate swap contracts held as of October 31, 2010, which are generally representative of the interest rate swap activity:

PAYMENTS PAYMENTS

П

COUNTER-	NOTIONAL	MADE BY	RECEIVED	EFFECTIVE	TERMINATION	UNREALIZED	
PARTY	AMOUNT	FUND	BY FUND	DATE	DATE	DEPRECIATION	VALUE
Bank of			3 Month				
America	\$70,000,000	4.37%	LIBOR (a)	11-15-07	11-15-10	(\$1,461,866)	(\$1,461,866)
Morgan			3 Month				
Stanley	70,000,000	3.79%	LIBOR (a)	01-07-08	01-07-11	(1,286,990)	(1,286,990)
	\$140,000,000					(\$2,748,856)	(\$2,748,856)

(a) At 10-31-10, the 3-month LIBOR rate was 0.28594%

#### Fair value of derivative instruments by risk category

The table below summarizes the fair value of derivatives held by the Fund at October 31, 2010, by risk category:

	FINANCIAL	ASSET	LIABILITY
	INSTRUMENTS	DERIVATIVES	DERIVATIVES
RISK	LOCATION	FAIR VALUE	FAIR VALUE
Interest rate contracts	Interest rate swaps	-	(\$2,748,856)
Total		-	(\$2,748,856)

#### ITEM 2. CONTROLS AND PROCEDURES.

- (a) Based upon their evaluation of the registrant's disclosure controls and procedures as conducted within 90 days of the filing date of this Form N-Q, the registrant's principal executive officer and principal accounting officer have concluded that those disclosure controls and procedures provide reasonable assurance that the material information required to be disclosed by the registrant on this report is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.
- (b) There were no changes in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

#### ITEM 3. EXHIBITS.

Separate certifications for the registrant's principal executive officer and principal accounting officer, as required by Rule 30a-2(a) under the Investment Company Act of 1940, are attached.

#### **SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
