In the Company's Corporate Presentation, the Company is updating the number of patents issued from 61 to 62, noting that the Company was notified of the issuance of a Canadian patent. Canadian Patent No. 2,251,564 covers the use of a pharmacologically active compound selected from the group consisting of non-steroidal anti-inflammatories, anti-histamines, steroid hormones, benzo-diazepams, and anti-depressants for the preparation of a buccal aerosol pump spray composition that would be absorbed through the oral mucosa in a polar solvent.
