SOLICITATIONS

The cost of preparing, assembling and mailing this Proxy Statement, the Notice of Annual Meeting of Shareholders and the enclosed proxy is to be borne by the Company. In addition to the use of mail, employees of the Company may solicit personally and by telephone. The Company's employees will receive no compensation for soliciting proxies other than their regular salaries. The Company may request banks, brokers and other custodians, nominees and fiduciaries to forward copies of the proxy material to their principals and to request authority for the execution of proxies. The Company may reimburse such persons for their expenses in so doing.

VOTING

If a proxy in the accompanying form is duly executed and returned, the shares represented by the Proxy will be voted as directed. If no direction is given, the shares represented by the Proxy will be voted for the election of the seven nominees named herein as directors and to ratify the appointment of Amper, Politziner and Mattia, P.C. as the Company's independent auditors for 2007. Any proxy given may be revoked at any time prior to its exercise by notifying the Secretary of the Company in writing of such revocation, by duly executing and delivering another proxy bearing a later date, or by attending and voting in person at the meeting.

The Board does not know of any other matters that may be brought before the Annual Meeting nor does it foresee or have reason to believe that proxy holders will have to vote for substitute or alternate director nominees. In the event that any other matter should come before the Annual Meeting, the persons named in the enclosed proxy will have discretionary authority to vote all proxies not marked to the contrary with respect to such matters in accordance with their best judgment.

The record date with respect to this solicitation is the close of business on November 6, 2007 and only shareholders of record at that time will be entitled to vote at the meeting. The shares represented by all validly executed proxies received in time to be taken to the meeting and not previously revoked will be voted at the meeting. This proxy statement and the accompanying proxy were mailed to you on or about November 12, 2007.

Methods of voting:

If you are the record holder:

By Mail. If you choose to vote by mail, mark your proxy, date and sign it, and return it in the postage-paid envelope provided. Your vote by mail must be received by the close of voting at the Annual Meeting on December 12, 2007.

By Attending the Annual Meeting. If you attend the Annual Meeting, you can vote your shares in person.

Edgar Filing: Henry Bros. Electronics, Inc. - Form DEF 14A

If your stock is held by brokers, banks or other nominees:

If your common stock is held by a broker, bank or other nominee, you will receive instructions from such nominee that you must follow in order to have your shares voted.

If you plan to attend the Annual Meeting and vote in person, you will need to contact the broker, bank or other nominee to obtain evidence of your ownership of common stock on November 6, 2007.

If you hold your shares through a broker, your shares may be voted even if you do not vote or attend the Annual Meeting.

The method by which you vote will in no way limit your right to vote at the meeting if you later decide to attend in person.

PRINCIPAL OFFICE

The principal executive office of the Company is 17-01 Pollitt Drive, Fair Lawn, New Jersey 07410, and its telephone number is (201) 794-6500.

QUORUM AND REQUIRED VOTE

The number of outstanding shares entitled to vote at the meeting is 5,926,065 common shares, par value \$.01 per share. Each common share is entitled to one vote. The presence in person or by proxy at the Annual Meeting of the holders of a majority of the outstanding shares of the Company's common stock shall constitute a quorum. There is no cumulative voting. Assuming the presence of a quorum at the Annual Meeting:

Directors shall be elected by a plurality of the votes cast; and

The affirmative vote of a majority of the common shares present at the meeting and entitled to vote on each matter is required to ratify the selection of Amper, Politziner and Mattia, P.C., as the Company's independent auditors for 2007.

Prior to the Annual meeting, we will select one or more inspectors of election for the meeting. Such inspector will canvas the shareholders present in person at the meeting, count their votes and count the votes represented by proxies presented. Abstentions and broker non-votes are counted as present for purposes of determining the number of shares represented at the meeting, but are deemed not to have voted on the proposal. Broker non-votes occur when a broker holding a customer's securities in street name does not vote on one or more other matters at the meeting because it has not received voting instructions to so vote from the beneficial owner and does not have discretionary authority to so vote.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

The persons named in the accompanying proxy will vote for the election of the following seven persons as directors, all but Mr. Rockwell are currently members of the Board, to hold office until the next annual meeting of shareholders and until their respective successors have been elected and qualified. Unless directed otherwise, each proxy will be voted for the nominees named below. If a nominee becomes unable or declines to serve as a director at the date of the annual meeting, the persons named in the proxy card have the right to use their discretion to vote for a substitute. PROPOSAL NO. 2 PROPOSED 2007 STOCK OPTION PLAN

There is being submitted to the shareholders for approval at the Annual Meeting, the Henry Bros. Electronics, Inc. 2007 Stock Option Plan (the 2007 Plan) which authorizes the issuance of options to purchase up to 250,000 shares of the Company s common stock. The 2007 Plan was approved by the Company s Board, subject to shareholder approval, at a meeting held on November 8, 2007. If approved, the 2007 Plan will terminate on November 8, 2017.

Under the 2007 Stock Option Plan, the Company s employees, directors and consultants are eligible to be granted stock options. All options granted under the 2007 Plan shall be either Incentive Stock Options (ISOs), as such term is defined in Section 422 of the Internal Revenue Code of 1986, as amended, or non-qualified stock options (NQOs); provided, however, ISOs shall be granted only to employees of the Company. An option shall be identified as an ISO or NQO in writing in the document or documents evidencing the grant of the option. We believe that stock options play an important role in providing those eligible to participate with an incentive and inducement to contribute fully to the further growth and development of the Company because of the opportunity to acquire a proprietary interest in the Company on an attractive basis.

All stock options granted under the 2007 Plan will be exercisable at such time or times and in such installments, if any, as our compensation committee or the Board may determine and expire no more than ten years from the date of grant. The exercise price of the stock option will be the fair market value of the Company s common shares on the date immediately preceding the date on which the option is granted. Options are non-transferable except by will or by the laws of descent and distribution. Each option granted under the 2007 Plan will be evidenced by a written agreement.

Options granted under the 2007 Plan terminate three months after the optionee s relationship with the Company is terminated except if termination is for cause or by reason of death or disability, unless otherwise provided in the Stock Option Agreement between the optionee and the Company. In the case of death or disability, the option terminates six months after the optionee s death or termination of employment by reason of disability unless otherwise provided in the optionee s Stock Option Agreement. If an employee s employment is terminated for cause, then any unexercised options held by the employee are canceled upon termination of employment unless otherwise provided in the Optionee s Stock Option Agreement. In the case of a non-employee director who has served his or her full term, all vested options remain exercisable until the termination date set forth in the stock option agreement to which such options relate.

The Board has a limited right to modify or amend the 2007 Plan which does not include the right to increase the number of shares which is available for the grant of options. The 2007 Plan will be administered by the compensation committee appointed by the board of directors.

Edgar Filing: Henry Bros. Electronics, Inc. - Form DEF 14A

Those eligible to participate in the 2007 Plan, will receive, for no consideration prior to exercise, the opportunity to profit from any rise in the market value of the Company's common stock. This will dilute the equity interest of the Company's other shareholders. The grant and exercise of the options also may affect the Company's ability to obtain additional capital during the term of any options.

FEDERAL INCOME TAX CONSEQUENCES OF THE 2007 STOCK OPTION PLAN

The following is a summary of the Federal income tax consequences of transactions under the 2007 Stock Option Plan, based on Federal income tax laws in effect on January 1, 2007. This summary is not intended to be comprehensive and does not describe state or local income tax consequences.

Benefits which may be granted pursuant to the 2007 Stock Option Plan include incentive stock options and nonqualified stock options.

Incentive Stock Options. No income is realized by an optionee upon the grant or exercise of an incentive stock option. If shares of common stock are transferred to an optionee upon the exercise of an incentive stock option, and if no disqualifying disposition of such shares is made by such optionee within two years after the date of grant of the option or within one year after the transfer of such shares to such optionee, then (1) upon the sale or exchange of such shares, any amount realized in excess of the option exercise price will be taxed to such optionee as a long-term capital gain and any loss sustained will be treated as a long-term capital loss, and (2) no deduction will be allowed to the Company for Federal income tax purposes. The exercise of an incentive stock option will give rise to an item of tax preference that may result in alternative minimum tax liability for the optionee.

If common stock acquired upon the exercise of an incentive stock option is disposed of prior to two years after the grant date or one year after the exercise date, generally (1) the optionee will realize compensation (i.e., ordinary income) in the year of disposition in an amount equal to the excess (if any) of the fair market value of such shares at exercise (or if less, the amount realized on the disposition of such shares, if the shares are disposed of by sale or exchange) over the option exercise price paid for such shares, and (2) the Company will be entitled to deduct the amount of compensation income, which was taxed to the optionee for Federal income tax purposes, if it complies with applicable reporting requirements (the reporting requirements) and if the amount represents an ordinary and necessary business expense of the Company (the ordinary and necessary text). Any further gain (or loss) realized by the optionee will be taxed as short-term or long-term capital gain (or loss), as the case may be, and will not result in any deduction by the Company.

Options are eligible for favorable tax treatment as incentive options only to the extent that not more than \$100,000 in fair market value at the date of grant (generally measured by the exercise price) first becomes exercisable in any one calendar year. For purposes of this rule, option grants are aggregated and a series of option grants over several years may in the aggregate result in more than \$100,000 of options that first became exercisable in any one calendar year. Moreover, options that accelerate in the event of a change in control may also cause more than \$100,000 of options to become exercisable in the year of acceleration. If more than \$100,000 of options first become exercisable in any one year, the excess options are non-qualified options regardless of the characterization in the grant agreement.

Non-qualified Stock Options. Except as noted below, in the case of nonqualified stock options: (1) no income is realized by the optionee at the time the option is granted; (2) the optionee realizes ordinary income at exercise in an amount equal to the difference between the option exercise price paid for the shares and the fair market value of the shares on the date of exercise; (3) the Company is entitled to a Federal income tax deduction equal to the amount of income taxed to the optionee as ordinary income, subject to the Company's satisfaction of the reporting requirements and the ordinary and necessary test; and (4) upon disposition of the common stock acquired by exercise of the option, appreciation (or depreciation) occurring after the date of exercise is treated as either short-term or long-term capital gain (or loss), depending on the recipient's holding period of the shares.

Change of Control Event. The 2007 Stock Option Plan provides for the early exercisability of outstanding options in the event of a Change of Control Event as defined in the 2007 Stock Option Plan. The acceleration of these benefits may be deemed to constitute a parachute payment under the Code. Excess parachute payments, as defined in the Code, will subject the recipient thereof to an additional 20% excise tax and are not deductible by the Company.

**THE BOARD OF DIRECTORS IS RECOMMENDING THE ADOPTION OF THE 2007 PLAN.
THE DESCRIPTION OF THE PROPOSED 2007 PLAN SET FORTH ABOVE IS QUALIFIED IN ITS
ENTIRETY BY REFERENCE TO THE TEXT OF THE 2007 PLAN AS SET FORTH IN EXHIBIT A.**

PROPOSAL NO. 3

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Appointment of Auditors for 2007

The Audit Committee has appointed Amper, Politziner and Mattia, P.C. as our independent auditors for 2007. We are not required to have the shareholders ratify the selection of Amper, Politziner and Mattia, P.C. as our independent auditors. We are doing so because we believe it is a matter of good corporate practice. If the shareholders do not ratify the selection, the Audit Committee will reconsider whether or not to retain Amper, Politziner and Mattia, P.C. but may retain such independent auditors. Even if the selection is ratified, the Audit Committee, in its discretion, may change the appointment at any time during the year if it determines that such a change would be in the best interests of Henry Bros. Electronics, Inc. and its shareholders.

Changes in Our Independent Auditors

On November 5, 2007, the Company notified Demetrius & Company, L.L.C. of its decision to dismiss Demetrius & Company, L.L.C. as the Company's independent auditors.

Concurrently, the Audit Committee and the Board of Directors approved the engagement of Amper, Politziner and Mattia, P.C. as the Company's independent auditors, effective upon notification to Demetrius & Company, L.L.C. of dismissal, and execution of an engagement letter. Amper, Politziner and Mattia, P.C. served as the Company's independent auditors beginning with the quarter ended September 30, 2007.

During the period beginning January 1, 2005 through November 5, 2007 (the date Amper, Politziner and Mattia, P.C. was appointed), neither the Company nor anyone acting on the Company's behalf consulted with Amper, Politziner and Mattia, P.C. regarding (1) the application of accounting principles to a specified transaction or the type of audit opinion that might be rendered on the Company's financial statements or (2) any of the matters or events set forth in Item 304(a)(2)(ii) of Regulation S-K.

The reports of Demetrius & Company, L.L.C. on the Company's financial statements for the past two fiscal years did not contain an adverse opinion or a disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope, or accounting principles. During the Company's two most recent fiscal years and the period from the end of the most fiscal year and through November 5, 2007, the date of appointment of Amper, Politziner & Mattia, P.C., the period January 1, 2007 through November 7, 2007, there were no disagreements with Demetrius & Company, L.L.C. on any matters of accounting principles or practices, financial statement disclosure, or auditing scope and procedures which, if not resolved to the satisfaction of Demetrius & Company, L.L.C., would have caused Demetrius & Company, L.L.C. to make reference to the matter in its report.

Representatives of Demetrius & Company, L.L.C., the principal accountant for the year ended December 31, 2006, and representatives of Amper, Politziner and Mattia, P.C., the principal accountant for the year ended December 31, 2007, are expected to be present at the Annual Meeting of Shareholders with the opportunity to make a statement if they desire to do so and available to respond to appropriate questions.

**THE BOARD OF DIRECTORS IS RECOMMENDING A VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF
AMPER, POLITZINER AND MATTIA, P.C. AS OUR INDEPENDENT
AUDITORS FOR 2007.**

GOVERNANCE OF THE COMPANY

Pursuant to the Company's by-laws, the Company's business, property and affairs are managed by or under the direction of the Board of Directors. Members of the Board are kept informed of the Company's business through discussions with the Chief Executive Officer and other officers, by reviewing materials provided to them and by participating in meetings of the Board and its committees. We currently have six members on our Board. The Board has determined that four of its members, Joseph P. Ritorto, Robert L. De Lia Sr, David Sands, and James W. Power, are independent, as defined in the listing standards of American Stock Exchange. During 2006, the Board held 6 meetings and the committees held a total of 8 meetings. The Audit Committee has adopted an Audit Committee Charter. This charter is available to the shareholders on our website, www.hbe-inc.com, and is also available in print to any stockholder upon written request to: Henry Bros. The Compensation Committee met four times during 2006. Messrs. De Lia, Power and Ritorto are the members of our Compensation Committee. The Company has not yet adopted a charter for the Compensation Committee.

Edgar Filing: Henry Bros. Electronics, Inc. - Form DEF 14A

The principal functions of the nominating committee are to: (i) develop policies on the size and composition of the Board of Directors; (ii) identify individuals qualified to become members of the Board of Directors and review candidates for Board membership; (iii) perform board performance evaluations on an annual basis and (iv) recommend a slate of nominees to the Board of Directors annually. The Board has adopted a written charter setting forth the functions of the Nominating Committee and providing direction as to nominating policies and procedures. This charter is available to the shareholders on our website, www.hbe-inc.com. The Nominating Committee's charter is also available in print to any stockholder upon written request to: Henry Bros. Electronics, Inc., 17-01 Pollitt Drive, Fair Lawn, New Jersey 07410, Attention: Secretary.

The Nominating Committee utilizes a variety of methods for identifying and evaluating nominees for directors. Candidates may come to the attention of the Nominating Committee through current board members, stockholders or other persons. The Nominating Committee will consider all recommendations of director nominees in a like manner. The Company has no formal procedures pursuant to which stockholders may recommend nominees to our Board of Directors and the Board of Directors believes that the lack of a formal procedure will not hinder the consideration of qualified nominees. Any stockholder desiring to suggest a Board nominee should send the name of such nominee for consideration to the attention of: Henry Bros. Electronics, Inc., 17-01 Pollitt Drive, Fair Lawn, New Jersey 07410, Attention: Secretary. Any such nomination must include:

As to each person whom the stockholder proposes to nominate for election or re-election as a director, all information relating to such person that is required to be disclosed in solicitations of proxies for election of directors, or as otherwise required, in each case pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended, or any successor regulation thereto (including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected); and

The nominating stockholder's name and address as they appear on our books, and the class and number of our shares beneficially owned by such stockholder.

COMMUNICATING WITH OUR DIRECTORS

Shareholders who wish to communicate with the Board or with specified members of the Board should do so by sending any communication to Henry Bros. Electronics, Inc., 17-01 Pollitt Drive, Fair Lawn, New Jersey 07410, Attention: Secretary.

Any such communication should state the number of shares beneficially owned by the shareholder making the communication. Our Secretary will forward such communication to the full Board or to any individual member or members of the Board to whom the communication is directed, unless the communication is unduly hostile, threatening, illegal or similarly inappropriate, in which case the Secretary has the authority to discard the communication or take appropriate legal action regarding the communication.

COMPENSATION OF DIRECTORS

Mr. Henry and Mr. Reach are the only members of the Board of Directors who are also employees. REPORT OF THE AUDIT COMMITTEE

The Audit Committee is appointed by the Board to assist the Board in monitoring:

- the integrity of the financial statements of Henry Bros. Electronics, Inc.,
- the independent auditor's qualifications and independence,
- the performance of the independent auditors of Henry Bros. Electronics, Inc., and
- the compliance by Henry Bros. Electronics, Inc. with legal and regulatory requirements.

Edgar Filing: Henry Bros. Electronics, Inc. - Form DEF 14A

We meet with management periodically to consider the adequacy of the internal controls of Henry Bros. Electronics, Inc. and the objectivity of its financial reporting. We discuss these matters with the independent auditors of Henry Bros. Electronics, Inc. and with appropriate Company financial personnel.

Edgar Filing: Henry Bros. Electronics, Inc. - Form DEF 14A

We regularly meet privately with the independent auditors who have unrestricted access to the committee.

We select, evaluate and, where appropriate, replace the independent auditor, and review periodically their performance, fees and independence from management.

Each of the Directors who serves on the committee is independent for purposes of the AMEX listing standards. That is, the Board of Directors has determined that none of Messrs. Sands, Ritorto and Power has a relationship with Henry Bros. Electronics, Inc. that may interfere with his independence from Henry Bros. Electronics, Inc. and its management.

The Board has adopted a written charter setting out the audit related functions the committee is to perform. Upon recommendation by the Audit Committee, the Board amended and restated the charter effective November 8, 2007, a copy of which is attached to this Proxy Statement as **Exhibit B** hereto, to reflect changes in law and applicable SEC and stock exchange regulations. The Board reviews the charter on an ongoing basis to assure that the functions and duties of the Audit Committee will continue to conform to such applicable regulations as they may be amended or modified in the future. The charter is available to shareholders on our website, www.hbe-inc.com.

Management has primary responsibility for the Company's financial statements and the overall reporting process, including the Company's system of internal controls. The independent auditors audit the annual financial statements prepared by management, express an opinion as to whether those financial statements fairly present the financial position, results of operations and cash flows of the Company in conformity with accounting principles generally accepted in the United States and discuss with us any issues they believe should be raised with us. We monitor these processes, relying without independent verification on the information provided to us and on the representations made by management and the independent auditors.

This year, we reviewed Henry Bros. Electronics, Inc.'s audited financial statements as of and for the year ended December 31, 2006, and met with both management and Demetrius & Company, LLC, Henry Bros. Electronics, Inc.'s independent auditors, to discuss those financial statements. Management has represented to us that the financial statements were prepared in accordance with accounting principles generally accepted in the United States.

We have received from Demetrius & Company, LLC and discussed with them the written disclosure and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). These items relate to that firm's independence from the Company. We also discussed with Demetrius & Company, LLC any matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees).

Based on these reviews and discussions, we recommended to the Board that the Company's audited financial statements be included in Henry Bros. Electronics, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2006.

AUDIT COMMITTEE:

David Sands
Joseph P. Ritorto
James W. Power

COMPENSATION DISCUSSION AND ANALYSIS

Through the following questions and answers we explain all material elements of our executive compensation:

What are the objectives of our executive compensation programs?

Our corporate goal is to maximize our total return to our shareholders through share price appreciation. Towards this goal, we seek to compensate our executives at levels that are competitive with peer companies so that we may attract, retain and motivate highly capable executives. We also design our compensation programs to align our executives' interests with those of our shareholders.

Our 2006 executive compensation, including stock option grants awarded for and in 2006, reflects our effort to realize these objectives.

What are the principal components of our executive compensation programs?

Overview: Our executive compensation programs consist of three principal components: (i) a base salary; (ii) annual bonuses; and (iii) stock option grants. The Company's policy for compensating our executive officers is intended to provide significant annual long-term performance incentives. We describe each of these principal components below.

Relationship of the principal components: We have allocated the three principal components of our executive compensation programs in a manner that we believe optimizes each executive's contribution to us. We have not established specific formulae for making the allocation.

Base Salary: We do not have employment agreements with any of our executives. Base salaries for executive officers are determined by evaluating a variety of factors, including the experience of the individual, the competitive marketplace for managerial talent, the Company's performance, the executive's performance, and the responsibilities of the executive. Although our Compensation Committee annually reviews salaries of our executive officers, our Compensation Committee does not automatically adjust base salaries if it concludes that adjustments to other components of the executive's compensation would be more appropriate.

Annual Bonus: Cash bonus awards are based on a variety of factors, including the individual performance of the executive and the Company's performance.

Long-Term Incentive Compensation (Stock Options for Common Shares): The Compensation Committee believes that stock-based compensation arrangements are essential in aligning the interests of management and the stockholders. The Company's 2002 and 2006 Stock Plan provides for the issuance of stock options to its executive officers and other employees. Stock options to purchase shares of the Company's common stock are issued at an exercise price equal to the fair market value of such stock on the date immediately preceding the date on which the stock option is granted. These options typically vest over a three to five year period from the date of grant and are granted to the Company's executive officers and other employees as a reward for past individual and corporate performance and as an incentive for future performance. The size of awards is determined by the Committee based on factors such as the executive's position, individual performance and the Company's performance.

What do we seek to reward and accomplish through our executive compensation programs?

We believe that our compensation programs, collectively, enable us to attract, retain and motivate high quality executives. We provide annual bonus awards primarily to provide performance incentives to our key employees to meet corporate performance objectives. Our corporate objectives are measured by sales increases, operating margins, net income and other items of performance as determined on an annual basis. We design long-term incentive awards primarily to motivate and reward key employees over longer periods. Through vesting and forfeiture provisions that we include in awards of stock options we provide an additional incentive to executives to act in furtherance of our longer-term interests. An executive whose employment with us terminates before equity-based awards have vested, either because the executive has not performed in accordance with our expectations or because the executive chooses to leave, will generally forfeit the unvested portion of the award.

Why have we selected each principal component of our executive compensation programs?

We have selected programs that we believe are commonly used by public companies, both within and outside of our industry, because we believe commonly used programs are well understood by our shareholders, employees and analysts. Moreover, we selected each program only after we first confirmed, with the assistance of outside professional advisors, that the program comports with settled legal and tax rules.

How do we determine the amount of each principal component of compensation to our executives?

Our Compensation Committee exercises judgment and discretion in setting compensation for our senior executives. The Committee exercises its judgment and discretion only after it has first evaluated the recommendations of our Chief Executive Officer and evaluated our corporate performance.

What specific items of corporate performance do we take into account in setting compensation policies and making compensation decisions?

Our corporate performance primarily impacts the annual bonuses and long-term incentive compensation that we provide our executive officers. We use or weigh items of corporate performance differently in our annual bonus and long-term compensation awards and some items are more determinative than others.

Goals for executives in 2006 vary because the areas of responsibility of executives differ. Goals are generally developed around metrics tied to our growth and profitability, including increases in revenue and operating profit, decreases in expenses, completion of developments in accordance with budgets and timelines, execution of acquisitions in accordance with targets, enhanced operational efficiencies and development of additional opportunities for our long-term growth.

How do we determine when awards are granted, including awards of equity-based compensation?

Historically, our Compensation Committee has awarded annual bonuses in the quarter following the year end. The Compensation Committee makes awards of stock options on an ad hoc basis, but generally quarterly, following review of pertinent financial information and industry data. In addition, the Compensation Committee conducts a thorough review of stock option awards and grant procedures annually. The date on which the Committee has met has varied from year to year, primarily based on the schedules of Committee members and the timing of compilation of data requested by the Committee.

Over the past years our equity-based awards to executives have taken the form of stock options. The number of stock options subject to an award has been computed by taking into account the Company's performance, the particular executive's performance, our retention objectives, and other factors.

What factors do we consider in decisions to increase or decrease compensation materially?

Historically, we have generally not decreased the base salaries of our executive officers or reduced their incentive compensation targets due to individual performance. When an executive's performance falls short of our expectations then we believe our interests are best served by replacing the executive with an executive who performs at the level we expect. The factors that we consider in decisions to increase compensation include the individual performance of the executive, responsibility of the executive and our corporate performance, as discussed above.

To what extent does our Compensation Committee consider compensation or amounts realizable from prior compensation in setting other elements of compensation?

The primary focus of our Compensation Committee in setting executive compensation is the executive's current level of compensation, including recent awards of long-term incentives, taking into account the executive's performance and our corporate performance. The Committee has not adopted a formulaic approach for considering amounts realized by an executive from prior equity-based awards.

How do accounting considerations impact our compensation practices?

Accounting consequences are not a material consideration in designing our compensation practices. However, we design our equity awards so that its overall cost fell within a budgeted dollar amount and so that the awards would qualify for classification as equity awards under FAS 123R. Under FAS 123R the compensation cost recognized for an award classified as an equity award is fixed for the particular award and, absent modification, is not revised with subsequent changes in market prices of our common shares or other assumptions used for purposes of the valuation.

How do tax considerations impact our compensation practices?

Prior to implementation of a compensation program and awards under the program, we evaluate the federal income tax consequences, both to us and to our executives, of the program and awards. Before approving a program, our Compensation Committee receives an explanation from our outside professionals as to the tax treatment of the program and awards under the program and assurances from our outside professionals that the tax treatment should be respected by taxing authorities.

Section 162(m) of the Internal Revenue Code limits our tax deduction each year for compensation to each of our Chief Executive Officer and our four other highest paid executive officers to \$1 million unless, in general, the compensation is paid under a plan that is performance-related, non-discretionary and has been approved by our shareholders. Generally, Section 162(m) has not had a significant impact on our compensation programs.

What are our equity or other security ownership requirements for executives and our policies regarding hedging the economic risk of share ownership?

We do not maintain minimum share ownership requirements for our executives. We do not have a policy regarding hedging the economic risk of share ownership.

To what extent do we benchmark total compensation and material elements of compensation and what are the benchmarks that we use?

While the Compensation Committee does not perform formal benchmarks, they do compare the elements of total compensation to compensation provided by knowledge gained in the industry.

Do we have a policy regarding the recovery of awards or payments if corporate performance measures upon which awards or payments are based are restated or adjusted in a manner that would reduce the size of an award or payment?

For non-executive officers, we have a policy that provides for a case-by-case review to determine if a recovery of an award is necessary if a performance measure used to calculate the award is subsequently adjusted in a manner that would have reduced the size of the award. For executive officers, we have a policy that requires a recovery of an award if a performance measure used to calculate the award is subsequently adjusted in a manner that would have reduced the size of the award.

What is the role of our executive officers in the compensation process?

Our Compensation Committee meets periodically with our Chief Executive Officer to address executive compensation, including the rationale for our compensation programs and the efficacy of the programs in achieving our compensation objectives. The Compensation Committee also relies on executive management to evaluate compensation programs to assure that they are designed and implemented in compliance with laws and regulations, including SEC reporting requirements. The Compensation Committee relies on the recommendations of our Chief Executive Officer regarding the performance of individual executives. At meetings in 2006 the Compensation Committee received recommendations from our Chief Executive Officer regarding salary adjustments and annual bonus and stock option awards for our executive officers. Our Chief Executive Officer plays a significant role in determining the annual cash compensation of our executive officers. The Compensation Committee believes that it is important for it to receive the input of the Chief Executive Officer on compensation matters since he is knowledgeable about the activities of our executive officers and the performance of their duties and responsibilities, as well as their contributions to the growth of the Company and its business. The Compensation Committee accepted these recommen-

ations after concluding that the recommendations comported with the Committee's objectives and philosophy and the Committee's evaluation of our performance and industry data.
