This information is not intended to be a forecast of future events, a guarantee of future results or investment advice. The information contained herein regarding each index has been provided by the relevant index provider. Also, unless otherwise specifically noted, any discussion of the Funds' holdings and the Funds' performance, and the views of Market Vectors ETFs are as of September 30, 2012, and are subject to change.

MARKET VECTORS INDUSTRY AND BROAD BASED U.S. ETFs

Dear Shareholder:

We are pleased to present this annual report for the industry exchange-traded funds (ETFs) and one broad-based U.S. equity ETF of the Market Vectors ETF Trust for the period ended September 30, 2012.

Market Vectors Equity ETF Family Expands

On April 24, 2012, we launched Market Vectors Morningstar Wide Moat Research ETF (MOAT), which seeks to track (before fees and expenses) the Morningstar® Wide Moat Focus IndexSM.

Since 2002, Morningstar has made the moat concept a cornerstone of its equity research and ratings. The concept was adapted from a term coined by Warren Buffett to describe his investment strategy of identifying economic castles protected by unbreachable moats such as unique pricing power, recognizable brands, and valuable patents.

By tracking the index, MOAT provides investors access to Morningstar equity research in a highly liquid ETF format. The index approach selects the 20 wide moat stocks that trade at the largest discount to fair value, according to Morningstar, at each quarterly rebalance.

According to Morningstar, for the five-year period ending September 30, 2012, the index returned an annualized 8.57%, compared to 1.05% for the S&P® 500 Index¹ over the same period. This concept clearly has caught the eye of investors, as the Fund has raised over \$60 million since its inception. Since its launch, the Fund has outpaced the broad market. Positions in information technology, financials and materials were primary drivers of performance while positions in utilities and industrials lagged the broad market. For more information, visit Morningstar's website at www.morningstar.com.

Industry Sectors

Bank and Brokerage

Over the last six months, the good news for bank and brokerage stocks included the continuation of low interest rates and Fed stimulus, as announced under QE3. These positive catalysts helped to make Financials the third-best performing sector of the U.S. stock market for 2012 year-to-date through September 30, behind only Telecom Services and Information Technology.

Biotechnology

The biotech industry has continued to outpace the broad U.S. market due to mergers and acquisitions, breakthroughs in medical science, and faster approvals by the Food and Drug Administration. Also, the industry has been attractive to institutions due to its defensive characteristics and relatively low sensitivity to economic cycles.

Environmental Services

Environmental services experienced a disappointing six months. One short-term drag on the industry has been a global slowdown in construction, which has negatively impacted earnings forecasts in the waste-removal segment.

MARKET VECTORS AND BROAD BASED U.S. INDUSTRY ETFs

Gaming

In times past, the gaming industry might have responded positively to improving U.S. economic data. But the industry's largest companies now depend on Asia's huge gaming market for growth and profits. During this period, news from China pointed to a slowing economy, which negatively affected many companies with exposure to the region.

Pharmaceutical

On June 28, the U.S. Supreme Court upheld the legality of the Affordable Care Act by a 5-4 vote. Obamacare is viewed as a positive for the pharma industry because it is expected to expand the number of privately insured people and Medicaid recipients, thus increasing consumer markets for prescription drugs. As such, the pharmaceutical industry outperformed the broad market during this period.

Retail

During this period, the retail industry most directly participated in the U.S. economic improvement trend, however performance varied with the segment. Large retailers have continued to grow through innovation in categories such as developing new entertainment media and increasing access to health care. Lagging retailers are suffering from weak margins, too much brick-and-mortar expansion, and vulnerability to Internet business models.

Semiconductor

The industry's weak performance was a carryover from an unusually slow first quarter. Year-to-date through August, global industry sales were down 4.6% from the same period of 2011, according to the Semiconductor Industry Association.² Recently, sales have been sluggish in Europe while showing signs of reviving in the Americas and Japan.

Summary

The combination of natural economic recovery and government policies are gaining traction in some geographic regions and industries faster than others. Given these conditions, momentum could turn quickly, for or against any group of stocks, over the next few quarters. This is perhaps the best reason for investors to diversify among several industry ETFs and stay focused on long-term goals, rather than short-term fluctuations.

Our new Morningstar Wide Moat Research ETF is designed for investors wishing to participate in the sustainable long-term competitive advantages a few high-quality companies enjoy. We wish to thank the advisors and shareholders who helped to make its launch successful.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

I also want to thank you for your participation in the Market Vectors ETF Trust. If you have any questions, please contact us at 1.888.MKT.VCTR or visit marketvectorsetfs.com

We value your ongoing confidence in us and look forward to helping you meet your investment goals in the future.

Jan F. van Eck
Trustee and President
Market Vectors ETF Trust

September 30, 2012

Represents the opinions of the investment adviser. Past performance is no guarantee of future results. Not intended to be a forecast of future events, a guarantee of future results or investment advice. Current market conditions may not continue.

All indices listed are unmanaged indices and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the Fund. An index's performance is not illustrative of the Fund's performance. Indices are not securities in which investments can be made.

¹ Standard & Poor's (S&P) 500 Index, calculated with dividends reinvested, consist of 500 widely held common stocks covering industrial, utility, financial and transportation sectors.

² Global Semiconductor Sales Remain Flat in August, 10/2/12:

BANK AND BROKERAGE ETF (RKH)

PERFORMANCE COMPARISON

September 30, 2012 (unaudited)

Total Return	Share Price ¹	NAV	MVRKHTR ²
Life* (cumulative)	21.19%	20.14%	19.91%

*since 12/20/11

Hypothetical Growth of \$10,000 (Since Inception)**Commencement date for the Market Vectors Bank and Brokerage ETF was 12/20/11.**

¹ The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (12/20/11) to the first day of secondary market trading in shares of the Fund (12/21/11), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results.

Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.71% / Net Expense Ratio 0.35%

Van Eck Associates Corporation (the Adviser) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.35% of the Fund's average daily net assets per year until at least May 1, 2013. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called creation units and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The Net Asset Value (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Market Vectors US Listed Bank and Brokerage 25 Index (MVRKHTR) (the Index) is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Structured Solutions AG to maintain and calculate the Index. Structured Solutions AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Structured Solutions AG has no obligation to point out errors in the Index to third parties. Market Vectors Bank and Brokerage ETF (the Fund) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

² Market Vectors US Listed Bank and Brokerage 25 Index (MVRKHTR) is a rules based, modified capitalization weighted, float adjusted index intended to give investors a means of tracking the overall performance of the largest and the most liquid common stocks and depository receipts of U.S. exchange-listed companies engaged primarily on a global basis that derive the majority of their revenues from banking, which includes a broad range of financial services such as investment banking, brokerage services and corporate lending to large institutions.

MORNINGSTAR WIDE MOAT RESEARCH ETF (MOAT)

PERFORMANCE COMPARISON

September 30, 2012 (unaudited)

Total Return	Share Price ¹	NAV	MWMFTR ²
Life* (cumulative)	7.10%	6.90%	7.12%

*since 4/24/12

Hypothetical Growth of \$10,000 (Since Inception)**Commencement date for the Market Vectors Morningstar Wide Moat Research ETF was 4/24/12.**

¹ The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (4/24/12) to the first day of secondary market trading in shares of the Fund (4/25/12), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results.

Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 1.04% / Net Expense Ratio 0.49%

Van Eck Associates Corporation (the Adviser) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.49% of the Fund's average daily net assets per year until at least May 1, 2013. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called creation units and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The Net Asset Value (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

The Morningstar® Wide Moat Focus IndexSM (MWMFTR) was created and is maintained by Morningstar, Inc. Morningstar, Inc. does not sponsor, endorse, issue, sell, or promote the Market Vectors Morningstar Wide Moat Research ETF and bears no liability with respect to that ETF or any security. Morningstar® is a registered trademark of Morningstar, Inc. Morningstar® Wide Moat Focus IndexSM is a service mark of Morningstar, Inc.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

² Morningstar® Wide Moat Focus IndexSM (MWMFTR) is a rules-based, equal-weighted index intended to offer exposure to companies that the Index Provider determines have sustainable competitive advantages based on a proprietary methodology that considers quantitative and qualitative factors (wide moat companies).

MARKET VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

Hypothetical \$1,000 investment at beginning of period

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, April 1, 2012 to September 30, 2012.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled Expenses Paid During the Period.

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on your Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

During the period January 1, 2012 through September 30, 2012, transfers of securities from Level 2 to Level 1 were \$374,407. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

Net asset value, end of period	\$ 31.66
Total return (b)	5.71%(c)

Ratios/Supplemental Data

Net assets, end of period (000 s)	\$ 282,397
Ratio of gross expenses to average net assets	0.40%(d)
Ratio of net expenses to average net assets	0.35%(d)
Ratio of net expenses, excluding interest expense, to average net assets	0.35%(d)
Ratio of net investment income to average net assets	1.87%(d)
Portfolio turnover rate	2%(c)

- (a) Commencement of operations
- (b) Total return is calculated assuming an initial investment made at the net asset value at the beginning of period, reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.
- (c) Not annualized
- (d) Annualized
- # On February 14, 2012, the Fund effected a share split as described in the Notes to Financial Statements. Per share data has been adjusted to give effect to the share split (see Note 10).

See Notes to Financial Statements

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

Note 1 Fund Organization Market Vectors ETF Trust (the Trust), is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of September 30, 2012, offers fifty investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: Bank and Brokerage ETF, Biotech ETF, Environmental Services ETF, Gaming ETF, Morningstar Wide Moat Research ETF, Pharmaceutical ETF, Retail ETF and Semiconductor ETF (each a Fund and, together, the Funds). Each Fund was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the common stocks in substantially the same weighting, in an index published by NYSE Euronext, Morningstar, or Market Vectors Index Solutions GmbH, a wholly-owned subsidiary of the Adviser.

The following Funds were organized through an exchange offer on December 20, 2011 on a 1 for 1 share basis for outstanding receipts of the Merrill Lynch sponsored Trusts:

Fund	Index
Bank and Brokerage ETF	Merrill Lynch-sponsored Regional Bank HOLDERS Trust
Biotech ETF	Merrill Lynch-sponsored Biotech HOLDERS Trust
Pharmaceutical ETF	Merrill Lynch-sponsored Pharmaceutical HOLDERS Trust
Retail ETF	Merrill Lynch-sponsored Retail HOLDERS Trust
Semiconductor ETF	Merrill Lynch-sponsored Semiconductor HOLDERS Trust

The Funds' commencement of operations dates and their respective indices are presented below:

Fund	Commencement of Operations	Index
Bank and Brokerage ETF	December 20, 2011	Market Vectors US Listed Bank and Brokerage 25 Index*
Biotech ETF	December 20, 2011	Market Vectors US Listed Biotech 25 Index*
Environmental Services ETF**	October 10, 2006	NYSE Arca Environmental Services Index
Gaming ETF**	January 22, 2008	Market Vectors Global Gaming Index*
Morningstar Wide Moat Research ETF	April 24, 2012	Morningstar® Wide Moat Focus Index SM
Pharmaceutical ETF	December 20, 2011	Market Vectors US Listed Pharmaceutical 25 Index*
Retail ETF	December 20, 2011	Market Vectors US Listed Retail 25 Index*
Semiconductor ETF	December 20, 2011	Market Vectors US Listed Semiconductor 25 Index*

* Published by Market Vectors Index Solutions GmbH

** Effective January 1, 2012, the Fund changed its fiscal year end from December 31 to September 30.

Note 2 Significant Accounting Policies The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The following is a summary of significant accounting policies followed by the Funds.

- A. Security Valuation** The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Under procedures approved by the Funds' Board of Trustees, the Funds may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Certain foreign securities, whose values may be affected by market direction or events occurring before the Funds' pricing time (4:00 p.m. Eastern Standard Time) but after the last close of the securities' primary market, are fair valued using a pricing service and are categorized as Level 2 in the fair value hierarchy.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

The pricing service, using methods approved by the Board of Trustees, considers the correlation of the trading patterns of the foreign security to intraday trading in the U.S. markets, based on indices of domestic securities and other appropriate indicators such as prices of relevant ADRs and futures contracts. The Funds may also fair value securities in other situations, such as, when a particular foreign market is closed but the Fund is open. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Money market fund investments are valued at net asset value and are considered to be Level 1 in the fair value hierarchy. Forward foreign currency contracts are valued at the spot currency rate plus an amount (points), which reflects the differences in the interest rates between the U.S. and foreign markets. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of Van Eck Associates Corporation (the Adviser) appointed by the Board of Trustees. Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented on the Schedules of Investments.

The Funds utilize various methods to measure the fair value of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 - Quoted prices in active markets for identical securities.

Level 2 - Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 - Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Fund's investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Fund's Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

- B. Federal Income Taxes** It is each Fund's policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.
- C. Dividends and Distributions to Shareholders** Dividends to shareholders from net investment income and distributions from net realized capital gains, if any, are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with U.S. income tax regulations, which may differ from such amounts determined in accordance with GAAP.
- D. Currency Translation** Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gains and losses from foreign currency transactions.

E. Restricted Securities The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are

42

registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities is included at the end of each Fund's Schedule of Investments.

- F. Use of Derivative Instruments** The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter (OTC) derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the Adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. The Funds held no derivative instruments during the period ended September 30, 2012.

Forward Foreign Currency Contracts The Funds are subject to foreign currency risk in the normal course of pursuing its investment objectives. The Funds may buy and sell forward foreign currency contracts to settle purchases and sales of foreign denominated securities or to hedge foreign denominated assets. Realized gains and losses from forward foreign currency contracts are included in net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities. The Funds may incur additional risk from investments in forward foreign currency contracts if the counterparty is unable to fulfill its obligation or there are unanticipated movements of the foreign currency relative to the U.S. dollar. The Funds held no forward foreign currency contracts during the period ended September 30, 2012.

- G. Other** Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized as soon as the Fund is notified of the ex-dividend date. Realized gains and losses are calculated on the identified cost basis. Interest income, including amortization of premiums and discounts, is accrued as earned.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

Note 3 Investment Management and Other Agreements The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of 0.35% of each Fund's average daily net assets (0.45% for Morningstar Wide Moat Research ETF, 0.50% for Environmental Services ETF and Gaming ETF). The Adviser has agreed, at least until May 1, 2013 (September 21, 2013 for Gaming ETF), to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Funds so that each Fund's total annual operating expenses does not exceed the expense caps, excluding interest expense, listed in the table below.

The expense caps and the amounts waived/assumed by the Adviser for the period ended September 30, 2012, are as follows:

Fund	Expense Cap	Waiver of Management Fees	Expenses Assumed by the Adviser
Bank and Brokerage ETF	0.35%	\$ 62,324	\$ 2,207
Biotech ETF	0.35	74,445	
Environmental Services ETF	0.55	74,409	
Gaming ETF	0.65	66,395	
Morningstar Wide Moat Research ETF	0.49	68,372	15,393
Pharmaceutical ETF	0.35	104,720	

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

Retail ETF	0.35	70,982
Semiconductor ETF	0.35	134,653
	43	

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' Distributor. Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

Note 4 Investments For the period ended September 30, 2012, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

Fund	Cost of Investments Purchased	Proceeds from Investments Sold
Bank and Brokerage ETF	\$ 1,521,365	\$ 1,929,801
Biotech ETF	19,682,767	12,749,884
Environmental Services ETF	1,103,502	961,843
Gaming ETF	13,230,110	18,009,169
Morningstar Wide Moat Research ETF	162,792	
Pharmaceutical ETF	5,294,330	1,481,354
Retail ETF	1,469,250	793,153
Semiconductor ETF	13,094,784	7,341,685

Note 5 Income Taxes As of September 30, 2012, for Federal income tax purposes, the identified cost of investments owned, net unrealized appreciation (depreciation), gross unrealized appreciation, and gross unrealized depreciation of investments were as follows:

Fund	Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
Bank and Brokerage ETF	\$ 26,803,652	\$ 1,054,552	\$ (29,947)	\$ 1,024,605
Biotech ETF	123,387,374	23,965,122	(867,329)	23,097,793
Environmental Services ETF	25,630,729	1,448,574	(6,258,078)	(4,809,504)
Gaming ETF	52,273,146	13,268,624	(4,058,607)	9,210,017
Morningstar Wide Moat Research ETF	66,092,722	1,634,491	(904,261)	730,230
Pharmaceutical ETF	166,031,988	11,031,633	(2,404,498)	8,627,135
Retail ETF	21,530,464	290,763	(311,208)	(20,445)
Semiconductor ETF	304,440,401	4,064,487	(21,421,608)	(17,357,121)

At September 30, 2012, the components of accumulated earnings (deficit) on a tax basis, for each Fund, were as follows:

Fund	Undistributed Ordinary Income	Accumulated Capital Losses	Other Temporary Difference	Unrealized Appreciation (Depreciation)	Total
Bank and Brokerage ETF	\$ 489,489	\$	\$ (232)	\$ 1,024,605	\$ 1,513,862
Biotech ETF	465,387		(845)	23,097,793	23,562,335
Environmental Services ETF	200,581	(9,602,906)	(3,054)	(4,809,504)	(14,214,883)
Gaming ETF	1,713,796		(4,915)	9,210,840	10,919,721
Morningstar Wide Moat Research ETF	248,279		(90)	730,230	978,419
Pharmaceutical ETF	4,765,702		(2,058)	8,627,135	13,390,779
Retail ETF	440,493	(1,846)	(625)	(20,445)	417,577
Semiconductor ETF	4,989,238		(3,320)	(17,357,121)	(12,371,203)

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

The tax character of dividends paid to shareholders during the year ended December 31, 2011 was as follows:

Fund	Ordinary Income	Long-Term Capital Gains
Environmental Services ETF*	\$ 310,000	\$
Gaming ETF*	2,046,144	105,356

* Effective January 1, 2012, the Fund changed its fiscal year end to September 30.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

The tax character of dividends paid to shareholders during the period ended September 30, 2012 was as follows:

Fund	Ordinary Income
Bank and Brokerage ETF	\$41,303
Retail ETF	59,942

On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 (the Act) was enacted, which changed various technical rules governing the tax treatment of regulated investment companies. The changes are generally effective for taxable years beginning after the date of enactment. One of the more prominent changes addresses capital loss carryforwards. Under the Act, each Fund will be permitted to carry forward capital losses incurred in taxable years beginning after the date of enactment for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years, which carry an expiration date. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital loss carryforwards will retain their character as either short-term or long-term capital losses rather than being considered all short-term as permitted under previous regulation.

At September 30, 2012, the Funds had capital loss carryforwards available to offset future capital gains, as follows:

Fund	Post-Effective- No Expiration Long-Term Capital Losses	Post-Effective No Expiration Short-Term Capital Losses	Amount Expiring in the Year Ended September 30,		
			2018	2017	2016
Environmental Services ETF	\$ 567,693	\$	\$479,375	\$6,445,705	\$2,110,133
Retail ETF		1,846			

During the period ended September 30, 2012, Gaming ETF utilized \$1,243,329 of prior year capital loss carryforwards.

During the period ended September 30, 2012, as a result of permanent book to tax differences, primarily due to investments in Passive Foreign Investment Companies, foreign currency gains and losses and tax treatment of in-kind redemptions, the Funds incurred differences that affected undistributed net investment income, accumulated net realized gain/loss on investments and aggregate paid in capital by the amounts in the table below. Net assets were not affected by these reclassifications.

Fund	Increase in Undistributed Net Investment Income	Increase/Decrease in Accumulated Net Realized Gain/Loss	Increase in Aggregate Paid in Capital
Bank and Brokerage ETF	\$	\$ (2,144,473)	\$ 2,144,473
Biotech ETF		(20,638,542)	20,638,542
Environmental Services ETF		(1,701,002)	1,701,002
Gaming ETF	182,134	(17,579,028)	17,396,894
Morningstar Wide Moat Research ETF		(2,648,070)	2,648,070
Pharmaceutical ETF		(11,880,400)	11,880,400
Retail ETF		(8,244,015)	8,244,015
Semiconductor ETF		(28,786,898)	28,786,898

The Funds recognize the tax benefits of uncertain tax positions only where the position is more-likely-than-not to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds' tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for open tax years (tax years ended December 31, 2009-2011), or expected to be taken in the Funds' current tax year. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds' financial statements.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the period, the Funds did not incur any interest or penalties.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

Note 6 Capital Share Transactions As of September 30, 2012, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, consisting of at least 25,000 shares (50,000 shares, or multiples thereof for Environmental Services ETF and Gaming ETF). The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the period ended September 30, 2012, the Funds had in-kind contributions and redemptions as follows:

Fund	In-Kind Contributions	In-Kind Redemptions
Bank and Brokerage ETF	\$ 168,845,767	\$ 145,379,711
Biotech ETF	257,100,807	175,903,311
Environmental Services ETF	3,770,737	8,848,326
Gaming ETF		42,797,567
Morningstar Wide Moat Research ETF	97,464,948	34,183,089
Pharmaceutical ETF	709,679,118	560,360,751
Retail ETF	397,889,753	385,618,036
Semiconductor ETF	1,929,593,469	1,664,387,718

Note 7 Concentration of Risk The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the name of each Fund. The Adviser uses a passive or index approach to achieve each Fund's investment objective by investing in a portfolio of securities that generally replicates the Funds' index. Each of the Funds is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. The Funds may purchase securities on foreign exchanges. Securities of foreign issuers involve special risks and considerations not typically associated with investing in U.S. issuers. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and future adverse political and economic developments. These risks are heightened for investments in emerging market countries. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of comparable U.S. issuers.

Note 8 Trustee Deferred Compensation Plan The Trust has a Deferred Compensation Plan (the Plan) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

The expense for the Plan is included in Trustees' fees and expenses in the Statements of Operations. The liability for the Plan is shown as Deferred Trustee fees in the Statements of Assets and Liabilities.

Note 9 Securities Lending To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Fund's custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. During the term of the loan, the Funds will continue to receive any dividends or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower or earning interest on the investment of the cash collateral. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on each Fund's behalf by the lending agent and is invested in the Bank of New York Overnight Government Fund and/or the Bank of New York Institutional Cash Reserve. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds may pay reasonable finders', administrative and custodial fees in connection with a loan of its securities and may share the interest earned on the collateral with the securities lending agent. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. As of

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

September 30, 2012, the loans outstanding and the collateral received are included in value of securities on loan and collateral for securities loaned, respectively, in the Statements of Assets and Liabilities.

Note 10 Share Split On January 27, 2012, the Board of Trustees of the Market Vectors ETF Trust approved a split of the shares for Bank and Brokerage ETF, Biotech ETF, Pharmaceutical ETF, and Retail ETF. The share splits took place for shareholders of record as of the close of business on February 10, 2012, and were paid on February 13, 2012. Each Fund's shares began trading on a split-adjusted basis on February 14, 2012. Biotech ETF and Retail ETF split its shares three-for-one. Bank and Brokerage ETF and Pharmaceutical ETF split its shares two-for-one. The Statements of Assets and Liabilities, Statements of Changes in Net Assets and the Financial Highlights have been adjusted to reflect these share splits.

Note 11 Bank Line of Credit Certain Funds may participate in a \$130 million committed credit facility (the Facility) to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the period ended September 30, 2012, the following Funds borrowed under this Facility:

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate	Outstanding Loan Balance as of September 30, 2012
Bank and Brokerage ETF	32	\$ 76,532	1.91%	\$ 114,000
Gaming ETF	73	178,918	1.91	665,001
Pharmaceutical ETF	153	406,627	1.90	200,634
Semiconductor ETF	91	868,736	1.90	

Note 12 Custodian Fees The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the period ended September 30, 2012, there were no offsets to custodial fees.

Note 13 Recent Accounting Pronouncements The Funds have adopted ASU No. 2011-04 *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards*. ASU No. 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRS. ASU No. 2011-04 will require reporting entities to disclose the following information for fair value measurements categorized within Level 3 of the fair value hierarchy: quantitative information about the unobservable inputs used in the fair value measurement, the valuation processes used by the reporting entity and a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs and the interrelationships between those unobservable inputs. In addition, ASU No. 2011-04 will require reporting entities to make disclosures about amounts and reasons for all transfers in and out of Level 1 and Level 2 fair value measurements. The new disclosures have been implemented for annual and interim periods beginning after December 15, 2011 and can be found in Note 2 to the financial statements.

In December 2011, the Financial Accounting Standards Board issued Accounting Standards Update No. 2011-11, *Balance Sheet (Topic 210) Disclosures about Offsetting Assets and Liabilities (ASU 2011-11)*, which requires an entity to make additional disclosures about offsetting assets and liabilities and related arrangements. The new guidance seeks to enhance disclosures by requiring improved information about financial instruments and derivatives instruments that are either: (1) offset in accordance with GAAP, or (2) subject to enforceable master netting arrangement or similar agreement, irrespective of whether they are offset in accordance with GAAP. The new guidance is effective for periods beginning on or after January 1, 2013. Management is currently evaluating the implications of ASU 2011-11 and its impact on the Funds' financial statements.

Note 14 Subsequent Event Review The Funds have evaluated subsequent events and transactions for potential recognition or disclosure through the date the financial statements were issued.

MARKET VECTORS ETF TRUST

TAX INFORMATION

(unaudited)

The Fund listed below intends to pass through foreign tax credits in the maximum amounts shown. The gross foreign source income earned during the period ended September 30, 2012 by the Fund was as shown below.

Fund	Foreign Tax Credits	Gross Foreign Source Income
Gaming ETF	\$ 71,811	\$ 1,467,481
Corporate Dividends Received Deduction		

No Funds had ordinary income dividends paid which qualified for the Corporate Dividends Received Deduction during the period ended September 30, 2012.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Trustees and Shareholders of Market Vectors ETF Trust:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of Bank and Brokerage ETF, Biotech ETF, Environmental Services ETF, Gaming ETF, Pharmaceutical ETF, Retail ETF, Semiconductor ETF, and Morningstar Wide Moat Research ETF (eight of the series constituting Market Vectors ETF Trust) (the Funds) as of September 30, 2012, and the related statements of operations, the changes in net assets and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of September 30, 2012, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Funds at September 30, 2012, the results of their operations, the changes in their net assets and the financial highlights for the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

New York, New York

2 Officers are elected yearly by the Trustees.

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

(unaudited)

At a meeting held on February 27, 2012 (the February Meeting), the Board, including all of the Independent Trustees, approved an investment management agreement between the Trust and the Adviser (the February Investment Management Agreement) with respect to the Market Vectors Morningstar Wide Moat Research ETF (the Morningstar Wide Moat Research ETF). In addition, at a meeting held on June 7, 2012 (the June Meeting), the Board, including all of the Independent Trustees, approved an investment management agreement between the Trust and the Adviser (the June Investment Management Agreement) with respect to the Market Vectors Global Chemicals ETF (and, collectively with the Morningstar Wide Moat Research ETF, the Funds). The February Investment Management Agreement and June Investment Management Agreement are collectively referred to as the Investment Management Agreements.

The Board's approval of each Investment Management Agreement was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In advance of each of the February Meeting and the June Meeting, the Trustees received materials from the Adviser, including expense information for other funds. The Adviser provided the Trustees with information regarding, among other things, the various aspects of each Fund's proposed investment program, fee arrangements and service provider arrangements. The Independent Trustees' consideration of each Investment Management Agreement was based, in part, on information obtained through discussions with management of the Funds and the Adviser at the February Meeting and the June Meeting (as applicable), information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others involved or proposed to be involved in the management and administration of the Funds. The Trustees also considered the terms of, and scope of services that the Adviser would provide under, each Investment Management Agreement, including the Adviser's commitment to waive certain fees and/or pay expenses of each of the Funds to the extent necessary to prevent the operating expenses of each of the Funds from exceeding agreed upon limits for a period of at least one year following the effective date of each Fund's respective registration statement. The Trustees also considered information with respect to the financial condition of the Adviser, the current status, as they understood it, of the Adviser's compliance environment and the Adviser's views of the proposed service providers.

In addition, the Trustees were given data on the exchange-traded fund market and expense ratios of other funds. The Trustees considered the benefits, other than the fees under the Investment Management Agreements, that the Adviser would receive from serving as adviser to each Fund, including any it may receive from providing administrative services to each of the Funds and from an affiliate of the Adviser serving as distributor to each Fund. The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability of each of the Funds to the Adviser because the Funds had not yet commenced operations. However, the Adviser agreed to provide the Trustees with profitability information in connection with future proposed continuances of each Investment Management Agreement, which will permit the Trustees to consider in the future the extent to which economies of scale may exist and whether the fees paid to the Adviser reflect these economies of scale for the benefit of shareholders. In addition, because the Funds had not yet commenced operations, the Trustees could not consider the historical performance or the quality of services previously provided to each of the Funds, although they concluded that the nature, quality, and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at each of the February Meeting and the June Meeting as part of their consideration of the Investment Management Agreements.

In voting to approve the Investment Management Agreements, the Trustees, including the Independent Trustees, concluded that the terms of the Investment Management Agreements are reasonable and fair in light of the services to be performed, the fees paid by certain other funds, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Investment Management Agreement is in the interest of the relevant Fund and such Fund's shareholders.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

At a meeting held on June 7, 2012 (the Renewal Meeting), the Board, including all of the Independent Trustees, approved the continuation of an investment management agreement between the Trust and the Adviser (the Investment

Management Agreements) with respect to the Market Vectors Environmental Services ETF and Gaming ETF (collectively, the Existing ETFs) and the Market Vectors Bank and Brokerage ETF, Biotech ETF, Pharmaceutical ETF, Retail ETF and Semiconductor ETF (collectively, the Former HOLDERS). The Existing ETFs and the Former HOLDERS are collectively referred to as the Funds).

The Board's approval of the Investment Management Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on May 8, 2012. At that meeting, the Trustees discussed the information the Adviser and Lipper Inc. (Lipper), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance and expenses of the Funds and the Funds' peer funds, information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser's relationship with the Funds. In reviewing performance and expense information for certain of the Funds against their peer groups, the Trustees considered that some of the Funds generally invest in a different group of issuers than some or all of the other funds in a Fund's designated peer group. They also considered the fact that the Former HOLDERS had only recently commenced operations and therefore had no meaningful operational history that could be used for comparative purposes, since the expense information prepared by Lipper was based on estimated amounts and the performance comparisons provided by Lipper covered approximately a three-month period (December 21, 2011 (the date operations commenced) through March 31, 2012). For these and other reasons, the Trustees noted that the peer group information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees' consideration of the Investment Management Agreements was also based on their review of information obtained through discussions with management of the Funds and the Adviser at the Renewal Meeting and the May 8, 2012 meeting and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others involved in the management and administration of the Funds. The Trustees also considered the terms of, and scope of services that the Adviser provides under, the Investment Management Agreements, including, where applicable, the Adviser's commitment to waive certain fees and/or pay expenses of each of the Funds to the extent necessary to prevent the operating expenses of each of the Funds from exceeding agreed upon limits for a period of time.

The Trustees concluded that the Adviser and its personnel have the requisite expertise and skill to manage the Funds' portfolios, especially in light of the performance of the Funds. In evaluating each Fund's performance, the Trustees assessed the Funds' performance based on how well the performance of a Fund tracked the performance of its benchmark index, using a variety of measurements in this regard, and concluded that the investment performance of the Funds was satisfactory.

The Trustees also considered information relating to the financial condition of the Adviser, the current status, as they understood it, of the Adviser's compliance environment and the Adviser's analysis of the Trust's other service providers.

As noted above, the Trustees were also provided various data from Lipper comparing the Funds' expenses and performance to that of other exchange-traded funds (ETFs). In reviewing the information, the Trustees considered the Adviser's analysis of any tracking error between each Fund and its relevant benchmark index and concluded that each Fund's tracking error was within an acceptable range. The Trustees noted that the information provided showed that the Market Vectors Gaming ETF had a total expense ratio (after the effect of any applicable expense limitation) greater than the average of its peer group of funds. The Trustees concluded, however, in light of this information and the other information available to them, that the fees paid by the Funds were reasonable in light of the performance of the Fund and the quality of services received. The Trustees noted that this comparative data, while generally helpful, was limited in its usefulness due to the lack of a large number of directly comparable ETFs and, as noted above, the very limited operating history of the Former HOLDERS.

The Trustees also considered any other benefits received by the Adviser from serving as adviser to the Funds and from providing administrative services to the Funds, and from an affiliate of the Adviser serving as distributor for the Funds.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Fund. The Trustees reviewed each Fund's asset size, expense ratio and expense cap

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

(continued)

and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees noted that the Funds were still relatively new products, which therefore made it difficult to quantify the potential variability in net assets and thus determine the sustainability of any potential economies of scale which may exist. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Fund is reasonable and appropriate in relation to the current asset size of each Fund and the other factors discussed above and currently reflects an appropriate sharing of any economies of scale which may exist with shareholders. The Trustees also determined that the profits earned by the Adviser in respect of the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their May 8, 2012 meeting, as part of their consideration of the Investment Management Agreements.

In voting to approve the continuation of the Investment Management Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Investment Management Agreement are reasonable and fair in light of the services to be performed, the fees paid by certain other funds, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Investment Management Agreement is in the interest of the Funds and each Fund's shareholders.

Item 2. CODE OF ETHICS.

- (a) The Registrant has adopted a code of ethics (the "Code of Ethics") that applies to the principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.
- (b) Not applicable.
- (c) The Registrant has not amended its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (d) The Registrant has not granted a waiver or an implicit waiver from a provision of its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (e) Not applicable.
- (f) The Registrant's Code of Ethics is attached as an Exhibit hereto.

Item 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Registrant's Board of Trustees has determined that David Chow, R. Alastair Short and Richard Stamberger, members of the Audit and Governance Committees, are "audit committee financial experts" and "independent" as such terms are defined in the instructions to Form N-CSR Item 3(a)(2).

Item 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Effective January 1, 2012, Environmental Services ETF and Gaming ETF changed its fiscal year end from December 31 to September 30.

- (a) Audit Fees. The aggregate Audit Fees of Ernst & Young for professional services billed for the audits of the financial statements, or services that are normally provided in connection with statutory and regulatory filings or engagements for the fiscal years ended September 30, 2012, December 31, 2011 and September 30, 2011, were \$120,000 , \$46,820 and \$0, respectively.
- (b) Audit-Related Fees. Not applicable.
- (c) Tax Fees. The aggregate Tax Fees of Ernst & Young for professional services billed for the review of Federal, state and excise tax returns and other tax compliance consultations for the fiscal years ended September 30, 2012, December 31, 2011 and September 30, 2011, respectively, were \$0, \$19,790 and \$0.
- (d) All Other Fees

None.
- (e) The Audit Committee will pre-approve all audit and non-audit services, to be provided to the Fund, by the independent accountants as required by Section 10A of the Securities Exchange Act of 1934. The Audit Committee has authorized the Chairman of the Audit Committee to approve, between meeting dates, appropriate non-audit services.

The Audit Committee after considering all factors, including a review of

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

independence issues, will recommend to the Board of Trustees the independent auditors to be selected to audit the financial statements of the Funds.

(f) Not applicable. (g) Not applicable. (h) Not applicable. Item 5. AUDIT COMMITTEE OF LISTED REGISTRANTS. Not applicable. Item 6. SCHEDULE OF INVESTMENTS. Information included in Item 1. Item 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES. Not applicable. Item 8. PORTFOLIO MANAGER OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES. Not applicable. Item 9. PURCHASE OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS. Not applicable. Item 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS. None. Item 11. CONTROLS AND PROCEDURES. (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3 (c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a15(b) or 240.15d-15 (b)). (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting. Item 12. EXHIBITS. (a)(1) The code of ethics is attached as EX-99.CODE ETH (a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2 under the Act (17 CFR 270.30a-2) is attached as Exhibit 99.CERT. (b) Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 is furnished as Exhibit 99.906CERT.

SIGNATURES Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
