## Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

As of May 12, 2008 there were 1,785,000 shares of the Registrant's common stock, par value \$0.10 per share, outstanding, 946,050 of which were held by FSB Community Bankshares, MHC, the Registrant's mutual holding company.

### Purpose of Filing 10-Q/A

The reason for filing this Form 10-Q/A is to correct a typographical error in the amount of the Registrant's Total Assets as of March 31, 2008 disclosed on the balance sheet in "Part I. Financial Information, Consolidated Balance Sheets as of March 31, 2008 and December 31, 2007." All other information in the Form 10-Q/A remains unchanged from the initial filing.

## Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

### Notes to Consolidated Financial Statements

#### Note 1-Basis of Presentation

The accompanying unaudited consolidated financial statements of FSB Community Bankshares, Inc., and its wholly owned subsidiary (the "Company") have been prepared in accordance with generally accepted accounting principles in the United States of America for interim financial information and the instructions of Form 10-Q. Accordingly, they do not include all of the information and footnotes necessary for a complete presentation of consolidated financial position, results of operations, and cash flows in conformity with generally accepted accounting principles. In the opinion of management, all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation have been included.

The unaudited consolidated financial statements and "Management's Discussion and Analysis of Financial Condition and Results of Operations" should be read in conjunction with the Company's audited financial statements for the years ended December 31, 2007 and 2006, included in the Annual Report filed on Form 10-KSB with the Securities and Exchange Commission ("SEC") on March 31, 2008.

Operating results for the three months ended March 31, 2008 are not necessarily indicative of the results that may be expected for the year ending December 31, 2008.

The consolidated financial statements at March 31, 2008 and December 31, 2007 and for the three months ended March 31, 2008 and 2007 include the accounts of the Company, Fairport Savings Bank (the "Bank") and the Bank's wholly-owned subsidiary, Oakleaf Services Corporation ("Oakleaf"). All inter-company balances and transactions have been eliminated in consolidation. Certain amounts from prior periods have been reclassified, when necessary, to conform to current period presentation.

#### Note 2-Fair Value Accounting

In September 2006, the FASB issued FASB Statement No. 157, "Fair Value Measurements" ("SFAS 157"), which defines fair value, establishes a framework for measuring fair value under GAAP, and expands disclosures about fair value measurements. SFAS 157 applies to other accounting pronouncements that require or permit fair value measurements. The new guidance is effective for financial statements issued for fiscal years beginning after November 15, 2007, and for interim periods within those fiscal years. The Company adopted SFAS 157 on January 1, 2008.

SFAS 157 establishes a fair value hierarchy that prioritizes the inputs to valuation methods used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under SFAS 157 are as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities.

Level 2: Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability.

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e. supported with little or no market activity).

## Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

6

An asset or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

For assets measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy used are as follows at March 31, 2008:

(Dollars in Thousands)	Total	Level 1	Level 2
	-----	-----	-----
Securities available for sale	\$ 38,681	\$ --	\$ 38,681
	=====	=====	=====

The fair values for available-for-sale securities in the table above were based upon a market approach. Securities that are fixed income instruments that are not quoted on an exchange, but are traded in active markets, are obtained through third party data service providers or dealer market participants which the Company has historically transacted both purchases and sales of investment securities. Prices obtained from these sources include market quotations.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115" ("SFAS 159"). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be recognized in earnings at each subsequent reporting date. SFAS 159 was effective as of January 1, 2008. The Company chose not to elect the fair value option for any of its financial instruments.

### Note 3-Recent Accounting Pronouncements

FASB Statement No. 141 (R) "Business Combinations" was issued in December of 2007. This Statement establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree. The Statement also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The guidance will become effective as of the beginning of a company's fiscal year beginning after December 15, 2008. This new pronouncement will impact our accounting for business combinations after January 1, 2009.

Staff Accounting Bulletin No. 109 (SAB 109), "Written Loan Commitments Recorded at Fair Value through Earnings" expresses the views of the staff regarding written loan commitments that are accounted for at fair value through earnings under generally accepted accounting principles. To make the staff's views consistent with current authoritative accounting guidance, the SAB revises and rescinds portions of SAB No. 105, "Application of Accounting Principles to Loan Commitments." Specifically, the SAB revises the SEC staff's views on incorporating expected net future cash flows related to loan servicing activities in the fair value measurement of a written loan commitment. The SAB retains the staff's views on incorporating expected net future cash flows related to internally-developed intangible assets in the fair value measurement of a written loan commitment. The staff expects registrants to apply the views

## Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

in Question 1 of SAB 109 on a prospective basis to derivative loan commitments issued or modified in fiscal quarters beginning after December 15, 2007. SAB 109 did not have an impact on our consolidated financial statements.

7

In March 2008, the FASB issued Statement No. 161, "Disclosures about Derivative Instruments and Hedging Activities--an amendment of FASB Statement No. 133" ("SFAS 161"). SFAS 161 requires entities that utilize derivative instruments to provide qualitative disclosures about their objectives and strategies for using such instruments, as well as any details of credit-risk-related contingent features contained within derivatives. SFAS 161 also requires entities to disclose additional information about the amounts and location of derivatives located within the financial statements, how the provisions of SFAS 133 have been applied, and the impact that hedges have on an entity's financial position, financial performance, and cash flows. SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. We do not utilize derivative instruments; therefore SFAS 161 will have no impact on our consolidated financial statements.

In February 2008, the FASB issued a FASB Staff Position (FSP) FAS 140-3, "Accounting for Transfers of Financial Assets and Repurchase Financing Transactions." This FSP addresses the issue of whether or not these transactions should be viewed as two separate transactions or as one "linked" transaction. The FSP includes a "rebuttable presumption" that presumes linkage of the two transactions unless the presumption can be overcome by meeting certain criteria. The FSP will be effective for fiscal years beginning after November 15, 2008 and will apply only to original transfers made after that date; early adoption will not be allowed. We are currently evaluating the potential impact the new pronouncement will have on our consolidated financial statements.

FASB Statement No. 160 "Non-controlling Interests in Consolidated Financials Statements--an amendment of ARB No. 51" was issued in December of 2007. This Statement establishes accounting and reporting standards for the Noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. The guidance will become effective as of the beginning of a Company's fiscal year beginning after December 15, 2008. The Company is currently evaluating the potential impact the new pronouncement will have on its consolidated financial statements.

### Note 4-Comprehensive Income (Loss)

Accounting principles generally require that recognized revenue, expenses, gains, and losses be included in net income. Although certain changes in assets and liabilities, such as unrealized gains and losses on available for sale securities, are reported as a separate component of the stockholders' equity section of the consolidated balance sheets, such items, along with net income, are components of comprehensive income (loss).

The components of other comprehensive income (loss) and related tax effects for the three months ended March 31, 2008 and 2007 are as follows:

	March 31, 2008	
	-----	(In Tho
Unrealized holding loss on available for sale securities	\$ (6)	

Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

Tax effect	(2)
	-----
Net of tax amount	\$ (4)
	=====

Note 5- Loss Per Common Share

Basic loss per common share is calculated by dividing the net loss by the weighted-average number of common shares outstanding during the period. The common shares issued to FSB Community Bankshares, MHC of 946,050 are assumed to be outstanding for all periods presented, consistent with the provisions of SFAS No. 128, Earnings per Share, pertaining to changes in capital structure. The 838,950 shares issued to the public are included in the weighted average common shares outstanding calculation only from the date such shares were issued. The Company has not granted any restricted stock awards or stock options and, during the three months ended March 31, 2008 and 2007, had no potentially dilutive common stock equivalents. Unallocated common shares held by the ESOP are not included in the weighted-average number of common shares outstanding for purposes of calculating basic loss per common share until they are committed to be released. The basic average common shares outstanding were 1,718,526 and 946,050 for the three months ended March 31, 2008 and March 31, 2007.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

General

Throughout the Management's Discussion and Analysis ("MD&A") the term, "the Company", refers to the consolidated entity of FSB Community Bankshares, Inc., Fairport Savings Bank, and Oakleaf Services Corporation, a wholly owned subsidiary of Fairport Savings Bank. At March 31, 2008, FSB Community Bankshares, MHC the Company's mutual holding company parent, held 946,050 shares, or 53.0%, of the Company's common stock, engaged in no significant activities and was not included in the MD&A.

Forward Looking Statements

This Quarterly Report contains forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks and uncertainties, including, among other things, changes in economic conditions including real estate values in the Company's market area, changes in policies by regulatory agencies, fluctuations in interest rates, demand for loans in the Company's market areas and competition, that could cause actual results to differ materially from historical earnings and those presently anticipated or projected. The Company wishes to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. The Company wishes to advise readers that the factors listed above could affect the Company's financial performance and could cause the Company's actual results for future periods to differ materially from any opinions or statements expressed with respect to future periods in any current statements.

The Company does not undertake, and specifically declines any obligation, to publicly release the results of any revisions that may be made to any forward-looking statements to reflect events or circumstances after the date of

## Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

such statements or to reflect the occurrence of anticipated or unanticipated events.

### Critical Accounting Policies

The most significant accounting policies followed by the Company are presented in Note 1 to the consolidated financial statements (the "Consolidated Financial Statements") included in the Company's Annual Report on Form 10KSB filed with the Securities and Exchange Commission on March 31, 2008. These policies, along with the disclosures presented in the other financial statement notes and in this discussion, provide information on how significant assets and liabilities are valued in the consolidated financial statements and how those values are determined. We have identified the accounting of our allowance for loan losses as our critical accounting policy.

9

Allowance for Loan Losses. The allowance for loan losses is the amount estimated by management as necessary to absorb credit losses incurred in the loan portfolio that are both probable and reasonably estimable at the balance sheet date. The amount of the allowance is based on significant estimates, and the ultimate losses may vary from such estimates as more information becomes available or conditions change. The methodology for determining the allowance for loan losses is considered a critical accounting policy by management due to the high degree of judgment involved, the subjectivity of the assumptions used and the potential for changes in the economic environment that could result in changes to the amount of the recorded allowance for loan losses.

As a substantial percentage of our loan portfolio is collateralized by real estate, appraisals of the underlying value of property securing loans are critical in determining the amount of the allowance required for specific loans. Assumptions are instrumental in determining the value of properties. Overly optimistic assumptions or negative changes to assumptions could significantly affect the valuation of a property securing a loan and the related allowance determined. Management carefully reviews the assumptions supporting such appraisals to determine that the resulting values reasonably reflect amounts realizable on the related loans.

Management performs a quarterly evaluation of the adequacy of the allowance for loan losses. We consider a variety of factors in establishing this estimate including, but not limited to, current economic conditions, delinquency statistics, geographic concentrations, the adequacy of the underlying collateral, the financial strength of the borrower, results of internal loan reviews and other relevant factors. This evaluation is inherently subjective as it requires material estimates by management that may be susceptible to significant change based on changes in economic and real estate market conditions.

The allowance consists of specific, general and unallocated components. The specific component relates to loans that are classified as doubtful, substandard or special mention. For such loans that are also classified as impaired, an allowance is generally established when the collateral value of the impaired loan is lower than the carrying value of that loan. The general component covers non-classified loans and is based on historical loss experience adjusted for qualitative factors. An unallocated component is maintained to cover uncertainties that could affect management's estimate of probable losses. The unallocated component of the allowance reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating specific and general losses in the portfolio.

Actual loan losses may be significantly more than the allowance we have

## Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

established which could have a material negative effect on our financial results.

### Comparison of Financial Condition at March 31, 2008 and December 31, 2007

**Total Assets.** Total assets increased by \$25.4 million, or 15.2%, to \$193.0 million at March 31, 2008 from \$167.6 million at December 31, 2007. The primary increase in total assets reflected increases in the investment securities classified as available for sale funded by FHLB advances, deposit growth, and United States government agency securities maturities from the held to maturity portfolio. Part of the asset growth was attributable to a mortgage-backed securities balance sheet leverage strategy executed in February 2008 funded by FHLB advances, described below.

Loans receivable decreased by \$720,000, or 0.6%, to \$123.6 million at March 31, 2008 from \$124.3 million at December 31, 2007. The decrease in loans receivable was the result of sales of 30-year fixed-rate residential mortgage loans totaling \$1.4 million, partially offset by net portfolio increases in fixed and adjustable rate residential mortgages totaling \$697,000. The Bank continues not to be involved in, and has no exposure to, sub-prime lending activities.

10

Investment securities increased by \$25.4 million, or 88.2%, to \$54.2 million at March 31, 2008 from \$28.8 million at December 31, 2007. The increase was primarily attributable to the purchase of \$23.5 million of United States Government agency securities, purchases of \$18.0 million of mortgage-backed securities, partially offset with maturities of \$15.5 million of United States Government agency securities, and \$572,000 of principal payments received from mortgage-backed securities. Additionally, in February 2008, the Company executed a \$14.6 million mortgage-backed securities balance sheet leverage strategy in an effort to increase earnings that, at the time of the transaction, generated a positive 149 basis point spread over Federal Home Loan Bank funding costs. All securities purchased in the first quarter of 2008, other than \$3.0 million of United States Government agency securities, were classified as securities available for sale. Management made the decision to increase the securities classified as available for sale providing a portfolio of marketable securities for liquidity as an alternative to borrowings.

Investment in FHLB of New York stock increased by \$778,000, or 55.4% to \$2.2 million at March 31, 2008, from \$1.4 million at December 31, 2007. The FHLB of New York requires members to purchase additional stock with additional borrowings.

**Deposits and Borrowings.** Total deposits increased by \$9.1 million, or 7.6%, to \$128.3 million at March 31, 2008 from \$119.2 million at December 31, 2007. Certificates of deposit, including IRAs, increased by \$7.3 million. Transaction accounts, including checking, NOW, money market and savings accounts, increased by \$1.8 million. The net deposit growth was attributable to the Irondequoit branch growth of \$5.4 million, Fairport branch growth of \$2.2 million and Penfield branch growth of \$1.5 million.

Borrowings increased by \$17.3 million, or 67.6%, to \$42.9 million at March 31, 2008 from \$25.6 million on December 31, 2007. Borrowings increased by \$14.6 million as part of the balance sheet leverage strategy to fund mortgage-backed securities classified as available for sale.

**Stockholders' Equity.** Total stockholders' equity decreased by \$103,000, or 0.5%, to \$20.0 million at March 31, 2008 from \$20.1 million at December 31, 2007. The decrease resulted from a net loss of \$106,000 for the three months ended March 31, 2008, a \$4,000 decrease in accumulated other comprehensive

## Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

income, and a \$7,000 decrease in ESOP shares committed to be released.

Non-Performing Assets. At March 31, 2008, there were no loans or other assets classified as non-performing assets compared to \$63,000 in one-to-four-family residential mortgage loans classified as non-performing assets at December 31, 2007, which were brought current in January 2008.

At March 31, 2008, there were no loans or other assets that are not disclosed or disclosed as classified or special mention, where known information about possible credit problems of borrowers caused us to have serious doubts as to the ability of the borrowers to comply with the present loan repayment terms and which may result in disclosure of such loans in the future.

11

Average balances and yields. The following table sets forth average balance sheets, average yields and costs, and certain other information at and for the periods indicated. All average balances are daily average balances. Non-accrual loans were included in the computation of average balances, but have been reflected in the table as loans carrying a zero yield. The yields set forth below include the effect of deferred fees, discounts and premiums that are amortized or accreted to interest income. Yields have been annualized.

	For the Quarter Ended March 31,				
	2008			2007	
	Average Balance	Interest Income/ Expense	Yield/ Cost	Average Balance	Interest Income Expense
	(Dollars in thousands)				
Interest-earning assets:

## Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

Noninterest-bearing liabilities:			
Demand deposits.....	3,083		3,246
Other.....	2,255		1,844
	-----		-----
Total liabilities.....	160,886		137,026
Stockholders' equity.....	20,112		13,784
	-----		-----
Total liabilities and stockholders' equity.....	\$ 180,998		\$ 150,810
	=====		=====
Net interest income.....		\$ 886	\$ 841
		=====	=====
Interest rate spread (1).....			1.56%
			=====
Net interest-earning assets (2)	\$ 20,463		\$ 14,180
	=====		=====
Net interest margin (3).....		2.01%	2.30%
		=====	=====
Average interest-earning assets to average interest-bearing liabilities.....	113%		111%
	===		===

(1) Interest rate spread represents the difference between the yield on average interest-earning assets and the cost of average interest-bearing liabilities.

(2) Net interest-earning assets represent total interest-earning assets less total interest-bearing liabilities. (3) Net interest margin represents net interest income divided by total interest-earning assets.

### Comparison of Operating Results for the Three Months Ended March 31, 2008 and March 31, 2007

General. We had a net loss of \$106,000 for the three months ended March 31, 2008 compared to a net loss of \$135,000 for the three months ended March 31, 2007. The decrease of \$29,000 in net loss for the first quarter of 2008 compared to the first quarter of 2007 resulted primarily from an increase in net interest income. This improvement was generated by an increase in interest-earning assets, due to the investment of the proceeds of our initial stock offering that closed in August 2007 and the leverage strategy discussed earlier.

12

Interest and Dividend Income. Interest and dividend income increased by \$312,000, or 14.9%, to \$2.4 million for the three months ended March 31, 2008 from \$2.1 million for the three months ended March 31, 2007. The increase in interest and dividend income resulted from a \$23,000, or 1.3%, increase in interest income from loans, a \$78,000, or 33.2%, increase in interest income from securities, a \$143,000, or 242.4% increase in interest income from mortgage-backed securities, and a \$68,000 or 1133.3% increase in other interest income from federal funds sold. Average interest-earning assets increased by \$29.9 million, or 20.5%, to \$176.0 million for the three months ended March 31, 2008 from \$146.1 million for the three months ended March 31, 2007. The yield on interest-earning assets decreased by 26 basis points to 5.47% for the three months ended March 31, 2008 compared to 5.73% for the three months ended March 31, 2007, reflecting decreases in short- and long-term interest rates over the last year.

## Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

Interest Expense. Interest expense increased \$267,000, or 21.3%, to \$1.5 million for the three months ended March 31, 2008 from \$1.3 million for the three months ended March 31, 2007. The increase in interest expense resulted from an increase in the average balance in interest-bearing liabilities and an increase in the average cost of interest-bearing liabilities. The average balance of interest-bearing liabilities increased \$23.6 million, or 17.9%, to \$155.5 million for the three months ended March 31, 2008 compared to \$131.9 million for the three months ended March 31, 2007. The average cost of interest-bearing liabilities increased by 11 basis points to 3.91% for the three months ended March 31, 2008 from 3.80% for the three months ended March 31, 2007. The average cost of deposit accounts increased by 23 basis points to 3.80% for the three months ended March 31, 2008 compared to 3.57% for the three months ended March 31, 2007. In contrast, the average cost of borrowings decreased by 53 basis points to 4.28% for the three months ended March 31, 2008 compared to 4.81% for the three months ended March 31, 2007. The increase in interest expense reflects a higher volume of deposits and borrowings due to the leverage transaction.

At March 31, 2008, we had \$21.2 million of certificates of deposit, including individual retirement accounts that will mature during the second quarter of 2008 with a weighted average cost of 4.7%. Based on current market rates, if these funds remain with Fairport Savings Bank with similar maturities, the rates we pay on these deposits will decrease.

Net Interest Income. Net interest income increased \$45,000, or 5.4%, to \$886,000 for the three months ended March 31, 2008 from \$841,000 for the three months ended March 31, 2007. The increase in net interest income was due primarily to an increase in average interest-earning assets of \$6.3 million more than interest-bearing liabilities, due to the investment of the proceeds of the initial stock offering that closed in August 2007. The Company's net interest margin decreased 29 basis points to 2.01% for the three months ended March 31, 2008 from 2.30% for the three months ended March 31, 2007. The decrease in net interest margin is consistent with the lagging effect of the flat or inverted yield curve that existed for much of 2007, as well as competitive market rates for certificates of deposit and the impact of the balance sheet leverage transaction. We expect that the decrease in the Federal Fund's rate of 200 basis points during the first quarter of 2008 should improve our net interest margin over the next few quarters, as certificates of deposits mature and renew at these lower interest rates.

Provision for Loan Losses. Based on management's evaluation of the factors that determine the level of the allowance for loan losses, we recorded no provision for loan losses for the three month periods ended March 31, 2008 and March 31, 2007. The allowance for loan losses as of March 31, 2008 was \$321,000, or 0.27% of total loans, compared to \$322,000, or 0.27% of total loans as of March 31, 2007. In the first quarter of 2008 we had a recovery of \$2,000 from a previously charged-off consumer loan. We had no non-accrual loans as of March 31, 2008 compared to \$46,000, or 0.04% of loans in non-accrual status as of March 31, 2007.

13

Other Income. Total other income increased \$13,000, or 16.0%, to \$94,000 for the three months ended March 31, 2008 compared to \$81,000 for the three months ended March 31, 2007. The increase was the result of a \$20,000 increase mainly due to overdraft protection fees on customer checking accounts, which is included in other on the Consolidated Statements of Operations, and a \$7,000 decrease in commissions from Oakleaf insurance/annuity and security sales.

Other Expenses. Other expenses increased \$12,000, or 1.1%, to \$1.1 million for the three months ended March 31, 2008 compared to \$1.1 million for the three

## Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

months ended March 31, 2007. The increase was the result of an additional \$12,000 in salaries and benefits expense primarily due to annual cost of living raises effective January 1 of each year, an increase of \$7,000 in occupancy expenses primarily due to increased lease expense for the Penfield branch, a decrease of \$41,000 in advertising and marketing expenses, and an increase of \$34,000 in miscellaneous other expenses, primarily the additional costs associated with being a public company.

Income Tax Expense/Benefit. We had a pre-tax loss of \$164,000 for the three months ended March 31, 2008 versus a pre-tax loss of \$210,000 for the three months ended March 31, 2007, which resulted in a \$58,000 tax benefit for the three months ended March 31, 2008, versus a \$75,000 tax benefit for the three months ended March 31, 2007, a change of \$17,000. The effective tax rate was (35.4%) for the three months ended March 31, 2008 compared to (35.7%) for the three months ended March 31, 2007.

### Liquidity and Capital Resources

Liquidity is the ability to meet current and future financial obligations of a short-term nature. Our primary sources of funds consist of deposit inflows, loan repayments, advances from the Federal Home Loan Bank of New York, maturities and principal repayments of securities, and recently, but to a lesser extent, loan sales. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit flows and mortgage prepayments are greatly influenced by general interest rates, economic conditions and competition. Our asset/liability management committee is responsible for establishing and monitoring our liquidity targets and strategies in order to ensure that sufficient liquidity exists for meeting the borrowing needs and deposit withdrawals of our customers as well as unanticipated contingencies. We seek to maintain a liquidity ratio of 10.0% or greater. For the quarter ended March 31, 2008, our liquidity ratio averaged 24.0%. We believe that we have enough sources of liquidity to satisfy our short- and long-term liquidity needs as of March 31, 2008.

We regularly adjust our investments in liquid assets based upon our assessment of:

- (i) expected loan demand;
- (ii) expected deposit flows;
- (iii) yields available on interest-earning deposits and securities; and
- (iv) the objectives of our asset/liability management program.

Excess liquid assets are invested generally in interest-earning deposits, short-term and intermediate-term securities and federal funds sold.

Our most liquid assets are cash and cash equivalents. The levels of these assets are dependent on our operating, financing, lending and investing activities during any given period. At March 31, 2008, cash and cash equivalents totaled \$9.3 million.

Our cash flows are derived from operating activities, investing activities and financing activities as reported in our Consolidated Statements of Cash Flows included in our Consolidated Financial Statements.

At March 31, 2008, we had \$4.6 million in loan commitments outstanding. In addition to commitments to originate loans, we had \$7.6 million in unused lines

## Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

of credit to borrowers. Certificates of deposit, including individual retirement accounts comprised solely of certificates of deposits, due within one year of March 31, 2008 totaled \$72.6 million, or 77.6% of our certificates of deposit and 56.6% of total deposits. If these deposits do not remain with us, we will be required to seek other sources of funds, including loan sales, other deposit products, including certificates of deposit, and Federal Home Loan Bank advances. Depending on market conditions, we may be required to pay higher rates on such deposits or other borrowings than we currently pay on the certificates of deposit due on or before March 31, 2008. We believe, however, based on past experience that a significant portion of such deposits will remain with us. We have the ability to attract and retain deposits by adjusting the interest rates offered.

Our primary investing activity is and will continue to be originating loans. During the quarter ended March 31, 2008, we originated \$3.9 million of loans. However, the steepened yield curve, deposit growth, and FHLB advance availability provided the opportunity to increase our investment portfolio by \$25.4 million during the quarter ended March 31, 2008.

Financing activities consist primarily of activity in deposit accounts and Federal Home Loan Bank borrowings. We experienced a net increase in total deposits of \$9.1 million for the quarter ended March 31, 2008. Deposit flows are affected by the overall level of interest rates, the interest rates and products offered by us and our local competitors, and by other factors.

Liquidity management is both a daily and long-term function of business management. If we require funds beyond our ability to generate them internally, borrowing agreements exist with the Federal Home Loan Bank of New York, which provides an additional source of funds. Federal Home Loan Bank borrowings increased by \$17.3 million to \$42.9 million at March 31, 2008, compared to a net decrease of \$6.4 million for the quarter ended March 31, 2007. Federal Home Loan Bank borrowings have primarily been used to fund loan demand; however \$14.6 million of advances were used to fund the balance sheet leverage transaction. At March 31, 2008, we had the ability to borrow approximately \$94.8 million from the Federal Home Loan Bank of New York, of which \$42.9 million had been advanced.

Fairport Savings Bank is subject to various regulatory capital requirements, including a risk-based capital measure. The risk-based capital guidelines include both a definition of capital and a framework for calculating risk-weighted assets by assigning balance sheet assets and off-balance sheet items to broad risk categories. At March 31, 2008, Fairport Savings Bank exceeded all regulatory capital requirements, and was considered "well capitalized" under regulatory guidelines.

The net proceeds from our 2007 minority stock offering significantly increased our liquidity and capital resources. Over time, the initial level of liquidity will be reduced as net proceeds from the stock offering are used for general corporate purposes, including the funding of loans. Our financial condition and results of operations will be enhanced by the net proceeds from the stock offering, resulting in increased net interest-earning assets and net interest income. However, due to the increase in equity resulting from the net proceeds raised in the stock offering, our return on equity was adversely affected following the stock offering.

### Off-Balance Sheet Arrangements

In the ordinary course of business, the Bank is a party to credit-related financial instruments with off-balance sheet risk to meet the financing needs of

## Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

our customers. These financial instruments include commitments to extend credit. We follow the same credit policies in making commitments as we do for on-balance sheet instruments.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The commitments for equity lines of credit may expire without being drawn upon. Therefore, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if it is deemed necessary by us, is based on our credit evaluation of the customer.

At March 31, 2008 and 2007, we had \$4.6 million and \$1.9 million, respectively, of commitments to grant loans, and \$7.6 million and \$8.0 million, respectively, of unfunded commitments under lines of credit.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable since the Company is a smaller reporting company.

### Item 4T. Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no significant changes made in the Company's internal control over financial reporting or in other factors that could significantly affect the Company's internal control over financial reporting during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## Part II - Other Information

### Item 1. Legal Proceedings

The Company and its subsidiaries are subject to various legal actions arising in the normal course of business. In the opinion of management, the resolution of these legal actions is not expected to have a material adverse effect on the Company's financial condition or results of operations.

### Item 1A. Risk Factors

Not applicable since the Company is a smaller reporting company.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) There were no sales of unregistered securities during the period covered by this Report.

Edgar Filing: FSB Community Bankshares Inc - Form 10-Q/A

(b) Not applicable.

(c) There were no issuer repurchases of securities during the period covered by this Report.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Submission of Matters to a Vote of Security Holders

During the period covered by this report, the Company did not submit any matters to the vote of security holders.

Item 5. Other Information

Not applicable

Item 6. Exhibits

The following exhibits are either filed as part of this report or are incorporated herein by reference:

- 3.1 Charter of FSB Community Bankshares, Inc.\*
- 3.2 Bylaws of FSB Community Bankshares, Inc.\*
- 4 Form of Common Stock Certificate of FSB Community Bankshares, Inc.\*
- 10.1 Employment Agreement between FSB Community Bankshares, Inc. and Dana C. Gavenda\*
- 10.2 Supplemental Executive Retirement Plan\*
