RESTATED RESULTS FOR THE YEAR TO 30 SEPTEMBER 2005

BOC has today released annual and quarterly results for the financial year to 30 September 2005 restated under International Financial Reporting Standards (IFRS). These can be viewed in detail on The BOC Group website using the link below.

http://www.boc.com/investors/annual_and_quarterly_reports/2005/ifrs_restatement

..pdf

Under IFRS

- o Basic earnings per share were 75.5p compared with 74.1p under UK GAAP. Basic earnings per share before exceptional and certain re-measurement items were 67.8p compared with 67.5p under UK GAAP.
- o Net assets at 30 September 2005 were (pound)2,040.4 million compared with (pound)2,053.1 million under UK GAAP

It is important to note that IFRS does not affect the underlying economics of the business and has no strategic implications. The implementation of IFRS may result in increased volatility in future reported results principally due to changes in the accounting for financial instruments and foreign exchange.

In terms of presentation, the most significant change relates to BOC's joint ventures and associates. While these continue to be equity accounted, BOC's share of JVs and associates are excluded from both Group revenue and Group operating profit under IFRS. BOC's share of their after-tax earnings is shown in profit before tax. However BOC will continue to present additional non-statutory information to facilitate a full segment analysis including JVs and associates (please see sections 4.5, 5.2 and 5.3 in the release).

27 JANUARY 2006

THE BOC GROUP plc - ANNUAL GENERAL MEETING

Edgar Filing: BOC GROUP PLC - Form 6-K

STATEMENTS MADE TO SHAREHOLDERS BY MR ROB MARGETTS CBE, CHAIRMAN, AND MR TONY ISAAC, CHIEF EXECUTIVE

Mr Rob Margetts CBE

Good morning, ladies and gentlemen, and welcome to the 120th Annual General Meeting of The BOC Group. These are exceptional times and to reflect that fact I will concentrate on the topic that is no doubt at the forefront of your minds - the unsolicited, preliminary approach for your company from Linde and your board's rejection of it.

First I would like to say your company is in excellent health, strategically, operationally, financially and managerially. Not only did we produce record earnings in the past financial year but we have embarked on a wide-ranging investment programme, including the construction of ten significant new plants this year. We are the largest gases group in Asia and have a leading position in China, the world's fastest-growing industrial nation. We are winning a high percentage of all new business in the industrial gases market including in hydrogen, where our share of new business is almost double its historical market share

2005 was another good year, with adjusted earnings per share at 67.5p, and your company has outperformed the FTSE100 by over 64 per cent in the five year period from October 2000 to the end of September 2005. Tony will explain shortly how we have achieved that. It has been done with a great deal of hard work and a sense of vision that drives the entire business.

That brings me to the announcement that we made earlier this week, rejecting the unsolicited approach from Linde. This was a unanimous rejection by your board. Your directors were extremely mindful in making this decision of their responsibilities to you, our shareholders.

Many of you are long-standing shareholders of BOC and will remember the ten-month period of damaging uncertainty some six years ago after BOC agreed to a preconditional offer from Air Products and Air Liquide. The preconditional offer failed when they did not get the consents they wanted. Whether or not the issues are less in the case of Linde does not hide the fact that regulatory clearance was a precondition.

Page 22 of 38

The unsolicited approach from Linde also contained regulatory hurdles as a precondition, which meant your company would inevitably have had to suffer a further period of uncertainty while these were examined.

The proposal was conditional on financing arrangements that had to be finalised and they were themselves subject to commercial due diligence.

These preconditions were onerous enough but also the proposal failed to take account of the growth prospects for your company. Our successes in the hydrogen market and in Asia are examples of the strengths and the potential of the Group and Tony will expand on this.

BOC is an exciting global company with strong positions in growth markets, a stated commitment to delivering shareholder value and an excellent management team. As a board we are confident in the current strategy of the Group to

Edgar Filing: BOC GROUP PLC - Form 6-K

deliver growth and excellent returns to you, our shareholders, and in the ability of Tony Isaac, his executive team and all our people.

Mr Tony Isaac

Good morning ladies and gentlemen.

We finished 2005 with record adjusted earnings per share; our adjusted return on capital employed rose to 16.2 per cent; and our balance sheet was strong on the back of continued good cash generation. We have worked hard over the last six years to develop your company and before I look to the future let me remind you of the strategic themes we have consistently pursued.

We knew that the oil and refining industries would be strong growth markets. We foresaw increased demand for hydrogen to improve the refiners' returns on each barrel of oil and to meet ever stricter environmental conditions. We saw increased need for nitrogen for enhanced oil recovery. By focusing on these growth markets we increased our sales from hydrogen and HyCO schemes by an average of more than 30 per cent each year from 1999 to 2005 and for 2005 to 2007 we expect them to grow at the rate of nearly 40 per cent a year. We have won hydrogen business at almost double our historic market share. At the world's largest nitrogen scheme in Mexico, which is used to enhance oil recovery, we are currently investing in a fifth module, having increased our share of the joint venture from 35 per cent to 65 per cent in 2004.

Page 23 of 38

We have been successful in selecting and developing our share of growing industrial markets and we have also succeeded in sustaining our leading position in Asia, and particularly in China. Asia already generates over 20 per cent of Group revenues. We have invested steadily in Asia over many years and our success rate this decade has seen the sales of our businesses in China alone climb from (pound)50 million in 1999 to (pound)99 million in 2004, and they will increase to well over (pound)200 million a year when plants currently on order are installed. Our aggregate interest in these businesses is 50%.

We have a good pipeline of projects. Process Gas Solutions is currently executing projects around the world that will require investment of some (pound)485 million. Some of this will be with our joint venture partners and so BOC's investment will be about (pound)300 million, generating profits of around (pound)30 million in the first full year of operation.

We have been active in leading profitable local consolidation in the industrial gases industry through divestments, mergers and acquisitions. Through these local deals we have captured most of the potential synergies available to us in markets such as Poland, Japan and Canada. Most recently we have divested our Afrox hospitals business to a group led by black economic empowerment investors, keeping a 20 per cent share of the equity of the new business.

Our Industrial and Special Products line of business has number one positions in many important geographies. ISP's well developed distribution channels, its wide range of customers, and its high levels of customer service have enabled it to achieve sustained growth in both our traditional and new markets.

At BOC Edwards, while it continues to strengthen its market position we need to improve returns and are acting on it.

While encouraging growth we have increased return on capital employed to 16.2

Edgar Filing: BOC GROUP PLC - Form 6-K

per cent in 2005, reducing borrowings in the process and strengthening our key financial ratios.

Your Group and the people who work within it have achieved a lot over the past six years.

Looking to the future, the Group is well positioned for growth. We have made good progress in the first quarter of 2006 and continue to pursue our longer-term investment plans. We continue to be confident that the current strategy of the Group will deliver growth and excellent returns to you our shareholders.

Registered office:

Registered in England No. 22096

30 January 2006

To: The BOC Group plc's shareholders and, for information only, to participants in its employee benefit schemes

Dear Shareholder

Statement Relating to Preliminary Proposal

On 24 January 2006 The BOC Group plc ("BOC") issued an announcement confirming that it had received an unsolicited preliminary proposal from Linde AG ("Linde"). The proposal was subject to a number of pre-conditions including financing, anti-trust approvals and due diligence. The board of directors of BOC (the "Board") stated in the announcement that it had unanimously rejected the proposal because of its preconditions and its failure to value fully the growth prospects of BOC.

Later on 24 January 2006, Linde issued an announcement confirming its approach. The announcement stated that the approach was friendly and that Linde would continue to look for the support of the Board and BOC's management. It added that the approach was based on an all cash offer at 1,500 pence per share and was subject to a limited number of standard preconditions which Linde believed could be readily satisfied. However, it made clear that there could be no certainty that any offer would be made or that a transaction would result even if the preconditions were satisfied or waived.

Having considered the announcement by Linde, the Board has not changed its view and unanimously rejects the unsolicited preliminary proposal because of its preconditions and its failure to value fully the growth prospects of BOC. The Directors of BOC state their continuing confidence in the current strategy of the group to deliver growth and excellent returns to its shareholders as an independent company.

Edgar Filing: BOC GROUP PLC - Form 6-K

BOC shareholders need take no further action at this time.

Yours faithfully

Dealing Disclosure Requirements

Under the provisions of Rule 8.3 of the City Code on Takeovers and Mergers (the "Code"), if any person is, or becomes, "interested" (directly or indirectly) in 1% or more of any class of "relevant securities" of BOC all "dealings" in any "relevant securities" of that company (including by means of an option in respect of, or a derivative referenced to, any such "relevant securities") must be publicly disclosed by no later than 3.30 pm (London time) on the London business day following the date of the relevant transaction. This requirement will continue until the date on which the offer becomes, or is declared, unconditional as to acceptances, lapses or is otherwise withdrawn or on which the "offer period" otherwise ends. If two or more persons act together pursuant to an agreement or understanding, whether formal or informal, to acquire an "interest" in "relevant securities" of BOC, they will be deemed to be a single person for the purpose of Rule 8.3.

Under the provisions of Rule 8.1 of the Code, all "dealings" in "relevant securities" of BOC by Linde AG, or by any of their respective "associates", must be disclosed by no later than 12.00 noon (London time) on the London business day following the date of the relevant transaction.

A disclosure table, giving details of the companies in whose "relevant securities" "dealings" should be disclosed, and the number of such securities in issue, can be found on the Takeover Panel's website at www.thetakeoverpanel.org.uk.

"Interests in securities" arise, in summary, when a person has long economic exposure, whether conditional or absolute, to changes in the price of securities. In particular, a person will be treated as having an "interest" by virtue of the ownership or control of securities, or by virtue of any option in respect of, or derivative referenced to, securities.

Terms in quotation marks are defined in the Code, which can also be found on the Panel's website. If you are in any doubt as to whether or not you are required to disclose a "dealing" under Rule 8, you should consult the Panel.
