Securities are valued as of the close of trading on the New York Stock Exchange (generally 4:00 p.m. Eastern time) on the valuation date. Securities that trade on an exchange or Nasdaq are valued at their last reported sales price taken from the primary market in which each security trades or, if no sale is reported for such day, at their bid price. Other over-the-counter securities for which market quotations are readily available are valued at their bid price. Securities for which market quotations are not readily available are valued at their fair value under procedures established by the Board of Trustees. Bonds and other fixed income securities may be valued by reference to other securities with comparable ratings, interest rates and maturities, using established independent pricing services.
