SCHLUMBERGER LIMITED AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Basis of Presentation

The accompanying unaudited consolidated financial statements, which include the accounts of Schlumberger Limited and its subsidiaries (Schlumberger), have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included in the accompanying unaudited financial statements. All intercompany transactions and balances have been eliminated in consolidation. Operating results for the three month period ended March 31, 2011 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2011. The December 31, 2010 balance sheet information has been derived from the audited 2010 financial statements. For further information, refer to the *Consolidated Financial Statements* and notes thereto, included in the Schlumberger Annual Report on Form 10-K for the year ended December 31, 2010, filed with the Securities and Exchange Commission on February 4, 2011.

Certain items from the prior year have been reclassified to conform to the current year presentation.

2. <u>Charges</u>

Schlumberger recorded the following charges during the first quarters of 2011 and 2010:

2011

Schlumberger recorded \$34 million of pretax merger and integration-related charges (\$28 million after-tax) in connection with the merger with Smith International, Inc. (Smith) and the acquisition of Geoservices. This amount is classified in *Merger & integration* in the *Consolidated Statement of Income*.

2010

Schlumberger incurred \$35 million of merger-related costs in connection with the Smith and Geoservices transactions. These costs primarily consisted of legal and other advisory fees.

During March 2010, the Patient Protection and Affordable Care Act (PPACA) was signed into law in the United States. Among other things, the PPACA eliminated the tax deductibility of retiree prescription drug benefits to the extent of the Medicare Part D subsidy that companies, such as Schlumberger, receive. As a result of this change in law, Schlumberger recorded a \$40 million charge to adjust its deferred tax assets to reflect the loss of this future tax deduction.

The following is a summary of these charges:

	(Stated in millions)			Consolidated Statement		
	Pr	etax	Ta		Net	of Income Classification
Merger-related transaction costs Impact of elimination of tax deduction related to	\$	35	\$	\$	35	Merger & integration
Medicare Part D subsidy			(40)	40	Taxes on income
	\$	35	\$ (40) \$	75	

3. Earnings Per Share

The following is a reconciliation from basic earnings per share of Schlumberger to diluted earnings per share of Schlumberger:

(Stated in millions, except per share

								am	ounts)
		2011					2010		,
		Average					Average		
	Schlumberge	er Shares	Ea	rnings	Schlu	mberger	Shares	Ear	rnings
	Net			per]	Net			per
	Income	Outstanding	S	hare	In	come	Outstanding	S	hare
First Quarter									
Basic	\$ 944	1,360	\$	0.69	\$	672	1,195	\$	0.56
Assumed conversion of									
debentures						2	7		
Assumed exercise of stock	ζ								
options		13					11		
Unvested restricted stock		2					2		
Diluted	\$ 944	1,375	\$	0.69	\$	674	1,215	\$	0.56

The number of outstanding options to purchase shares of Schlumberger common stock which were not included in the computation of diluted earnings per share, because to do so would have had an antidilutive effect, were as follows:

(Stated in millions)
2011 2010

First Quarter 1 13

4. Acquisitions

On August 27, 2010, Schlumberger acquired all of the outstanding shares of Smith, a leading supplier of premium products and services to the oil industry. Schlumberger issued approximately 176 million shares of its common stock which were valued at \$9.8 billion at the time of closing, to effect this transaction. Smith reported revenue of approximately \$2.1 billion during the first quarter of 2010.

On April 23, 2010, Schlumberger completed the acquisition of Geoservices, a privately owned oilfield services company specializing in mud logging, slickline and production surveillance operations for \$915 million in cash. During the first quarter of 2011, Schlumberger made certain acquisitions and minority interest investments, none of which were significant on an individual basis, for cash payments, net of cash acquired, of \$74 million.

5. Inventory

A summary of inventory follows:

	(Stated	l in millions)	
	Mar.		
	31,	Dec. 31,	
	2011	2010	
Raw materials & field materials	\$ 1,757	\$ 1,833	
Work in process	335	249	
Finished goods	2,000	1,722	
	\$ 4,092	\$ 3,804	

6. Fixed Assets

A summary of fixed assets follows:

	(Stated in millions)		
	Mar.		
	31,	Dec. 31,	
	2011	2010	
Property, plant & equipment	\$ 27,330	\$ 26,679	
Less: Accumulated depreciation	15,112	14,608	
	\$ 12,218	\$ 12,071	

Depreciation expense was \$661 million and \$547 million in the first quarter of 2011 and 2010, respectively.

7. Multiclient Seismic Data

The change in the carrying amount of multiclient seismic data for the three months ended March 31, 2011 was as follows:

Balance at December 31, 2010 Capitalized in period Charged to expense	\$ (Stated in millions) 394 83 (43)
Balance at March 31, 2011	\$ 434

8. Goodwill

In connection with the change in reportable segments as discussed in Note 14 *Segment Information*, Schlumberger reallocated the goodwill that existed as of December 31, 2010 to the new reporting units on a relative fair value basis. The changes in the carrying amount of goodwill by reporting unit for the three months ended March 31, 2011 were as follows:

					(Stated	in millions)
	Reservoir Characterization	 eservoir oduction	Drilling	Distr	ibution	Total
Balance at January 1, 2011	\$ 3,381	\$ 2,351	\$ 8,150	\$	70	\$ 13,952
Adjustments relating to Smith acquisition		1	(25)		4	(20)
Impact of changes in exchange rates and						
other	16	12	18			46
Balance at March 31, 2011	\$ 3,397	\$ 2,364	\$ 8,143	\$	74	\$ 13,978

9. Intangible Assets

Intangible assets principally comprise technology/technical know-how, tradenames and customer relationships. The gross book value, accumulated amortization and net book value of intangible assets were as follows:

		(Stated in	millions)		
	Mar. 31, 2011			Dec. 31, 2010	
Gross	Accumulated	Net Book	Gross	Accumulated	Net Book

Edgar Filing: SCHLUMBERGER LTD /NV/ - Form 10-Q

	Book Value	Amortization	Value	Book Value	Amortization	Value
Technology/Technical						
Know-How	\$1,847	\$ 250	\$1,597	\$1,846	\$ 215	\$1,631
Tradenames	1,678	79	1,599	1,678	61	1,617
Customer Relationships	1,971	157	1,814	1,963	129	1,834
Other	366	297	69	378	298	80
	\$5,862	\$ 783	\$5,079	\$5,865	\$ 703	\$5,162

Amortization expense charged to income was \$84 million during the first quarter of 2011 and \$28 million during the same period of 2010.

The weighted average amortization period for all intangible assets is approximately 21 years.

-9-

Table of Contents

Based on the net book value of intangible assets at March 31, 2011, amortization charged to income for the subsequent five years is estimated to be: remainder of 2011 \$240 million; 2012 - \$311 million; 2013 \$295 million; 2014 \$290 million; 2015 \$275 million and 2016 \$260 million.

10. Derivative Instruments and Hedging Activities

Schlumberger is exposed to market risks related to fluctuations in foreign currency exchange rates, commodity prices and interest rates. To mitigate these risks, Schlumberger utilizes derivative instruments. Schlumberger does not enter into derivatives for speculative purposes.

Foreign Currency Exchange Rate Risk

As a multinational company, Schlumberger conducts its business in approximately 80 countries. Schlumberger s functional currency is primarily the US dollar, which is consistent with the oil and gas industry. However, outside the United States, a significant portion of Schlumberger s expenses is incurred in foreign currencies. Therefore, when the US dollar weakens (strengthens) in relation to the foreign currencies of the countries in which Schlumberger conducts business, the US dollar reported expenses will increase (decrease).

Schlumberger is exposed to risks on future cash flows to the extent that local currency expenses exceed revenues denominated in local currency that are other than the functional currency. Schlumberger uses foreign currency forward contracts and foreign currency options to provide a hedge against a portion of these cash flow risks. These contracts are accounted for as cash flow hedges, with the effective portion of changes in the fair value of the hedge recorded on the *Consolidated Balance Sheet* and in *Accumulated Other Comprehensive Loss*. Amounts recorded in *Accumulated Other Comprehensive Loss* are reclassified into earnings in the same period or periods that the hedged item is recognized in earnings. The ineffective portion of changes in the fair value of hedging instruments, if any, is recorded directly to earnings.

At March 31, 2011, Schlumberger recognized a cumulative net \$10 million gain in *Equity* relating to revaluation of foreign currency forward contracts and foreign currency options designated as cash flow hedges, the majority of which is expected to be reclassified into earnings within the next twelve months.

Schlumberger is also exposed to changes in the fair value of assets and liabilities, including certain of its long-term debt, which are denominated in currencies other than the functional currency. Schlumberger uses foreign currency forward contracts and foreign currency options to hedge this exposure as it relates to certain currencies. These contracts are accounted for as fair value hedges with the fair value of the contracts recorded on the *Consolidated Balance Sheet* and changes in the fair value recognized in the *Consolidated Statement of Income* along with the change in fair value of the hedged item.

At March 31, 2011, contracts were outstanding for the US dollar equivalent of \$7.5 billion in various foreign currencies.

Commodity Price Risk

Schlumberger is exposed to the impact of market fluctuations in the price of certain commodities, such as metals and fuel. Schlumberger utilizes forward contracts to manage a small percentage of the price risk associated with forecasted metal purchases. The objective of these contracts is to reduce the variability of cash flows associated with the forecasted purchase of those commodities. These contracts do not qualify for hedge accounting treatment and therefore, changes in the fair value of the forward contracts are recorded directly to earnings.

At March 31, 2011, \$27 million of commodity forward contracts were outstanding. *Interest Rate Risk*

Schlumberger is subject to interest rate risk on its debt and its investment portfolio. Schlumberger maintains an interest rate risk management strategy that uses a mix of variable and fixed rate debt combined with its investment portfolio and occasionally interest rate swaps to mitigate the exposure to changes in interest rates.

During the third quarter of 2009, Schlumberger entered into an interest rate swap for a notional amount of \$450 million in order to hedge changes in the fair value of Schlumberger s \$450 million 3.00% Notes due 2013. Under the terms of this swap, Schlumberger receives interest at a fixed rate of 3.0% annually and pays interest quarterly at a floating rate of three-month LIBOR plus a spread of 0.765%. This interest rate swap is designated as a fair value hedge of the underlying debt. This derivative instrument is marked to market with gains and losses recognized currently in income to offset the respective gains and losses recognized on

Table of Contents

changes in the fair value of the hedged debt. This results in no net gain or loss being recognized in the *Consolidated Statement of Income*.

At March 31, 2011, Schlumberger had fixed rate debt aggregating \$5.5 billion and variable rate debt aggregating \$3.1 billion, after taking into account the effects of the interest rate swaps.

Short-term investments and Fixed income investments, held to maturity, totaled \$3.1 billion at March 31, 2011, and were comprised primarily of money market funds, eurodollar time deposits, certificates of deposit, commercial paper, euro notes and Eurobonds, and were substantially all denominated in US dollars. The carrying value of these investments approximated fair value, which was estimated using quoted market prices for those or similar investments.

The fair values of outstanding derivative instruments are summarized as follows:

		(Stated Fair V Deriv			
		Iar. 31,		ec. 1,	
		011)10	Classification
Derivative Assets					
Derivative designated as hedges:					
Foreign exchange contracts	\$	30	\$	4	Other current assets
Foreign exchange contracts		100		37	Other Assets
Interest rate swaps		12		14	Other Assets
	\$	142	\$	55	
Derivative not designated as hedges:					
Commodity contracts	\$	2	\$	3	Other current assets
Foreign exchange contracts		11		9	Other current assets
Foreign exchange contracts		5		9	Other Assets
	\$	18	\$	21	
	\$	160	\$	76	
Derivative Liabilities Derivative designated as hedges:					
T	A	0	Φ.	0	Accounts payable and
Foreign exchange contracts	\$	8	\$	9	accrued liabilities
Foreign exchange contracts		42		77	Other Liabilities
Interest rate swaps				7	Accounts payable and accrued liabilities
	\$	50	\$	93	

Derivative not designated as hedges:

Foreign exchange contracts	13	14	Accounts payable and accrued liabilities
	\$ 13	\$ 14	
	\$ 63	\$ 107	

The fair value of all outstanding derivatives was determined using a model with inputs that are observable in the market or can be derived from or corroborated by observable data.

The effect on the *Consolidated Statement of Income* of derivative instruments designated as fair value hedges and those not designated as hedges was as follows:

-11-

	(Stated in millions) Gain (Loss) Recognized in Income First Quarter				
	2	011	2	010	Classification

11. Long-term Debt

A summary of *Long-term Debt* follows:

(Sta	(Stated in millions)		
Mar.			
31,	Dec. 31,		
2011	2010		
4.50% Guaranteed Notes due 2014 \$ 1,406	\$ 1,319		
2.75% Guaranteed Notes due 2015 1,398	1,310		
4.20% Guaranteed Notes due 2021 1,100			
5.25% Guaranteed Notes due 2013 703	659		
2.65% Guaranteed Notes due 2016 500			
3.00% Guaranteed Notes due 2013 450	450		
9.75% Senior Notes due 2019	776		
8.625% Senior Notes due 2014	272		
6.00% Senior Notes due 2016	218		
Commercial paper borrowings 756	367		
Other variable rate debt 97	133		
6,410	5,504		
Fair value adjustment hedging 12	13		
\$ 6,422	\$ 5,517		

The fair value adjustment presented above represents changes in the fair value of the portion of Schlumberger s fixed rate debt that is hedged through the use of interest rate swaps.

During the first quarter of 2011, Schlumberger repurchased all of the outstanding 9.75% Senior Notes due 2019, the 8.625% Senior Notes due 2014 and the 6.00% Senior Notes due 2016 for approximately \$1.26 billion. These transactions did not result in any significant gains or losses.

During the first quarter of 2011, Schlumberger issued \$1.1 billion of 4.20% Guaranteed Notes due 2021. During the first quarter of 2011, Schlumberger issued \$500 million of 2.65% Guaranteed Notes due 2016. Schlumberger entered into agreements to swap these dollar notes for euros on the date of issue until maturity, effectively making this a euro denominated debt on which Schlumberger will pay interest in euros at a rate of 2.39%. The fair value of Schlumberger s *Long-term Debt* at March 31, 2011 and December 31, 2010 was \$6.5 billion and \$5.6 billion, respectively, and was estimated based on quoted market prices.

12. Income Tax

Income before taxes which was subject to US and non-US income taxes was as follows:

	•	<i>in millions)</i> Quarter
	2011	2010
United States Outside United States	\$ 365 873	\$ 61 827
	\$ 1,238	\$ 888

During the first quarter of 2011, Schlumberger recorded pretax charges of \$34 million, consisting of net charges in the US of \$23 million and \$11 million outside of the US.

During the first quarter of 2010, Schlumberger recorded net pretax charges of \$35 million outside of the US.

These charges are included in the table above and are more fully described in Note 2 Charges.

-13-

Table of Contents

The components of net deferred tax assets (liabilities) were as follows:

	(Stated	in millions)
	Mar.	
	31,	Dec. 31,
	2011	2010
Postretirement benefits, net	\$ 316	\$ 327
Intangible assets	(1,683)	(1,674)
Investments in non-US subsidiaries	(471)	(353)
Other, net	150	115
	\$ (1,688)	\$ (1,585)

The above deferred tax balances at March 31, 2011 and December 31, 2010 were net of valuation allowances relating to net operating losses in certain countries of \$277 million and \$263 million, respectively.

The components of consolidated *Taxes on income* were as follows:

		(Stated in million First Quarter 2011 2010			
Current:	2	011	2	010	
United States Federal United States State Outside United States	\$	155 16 64	\$	22 3 156	
	\$	235	\$	181

Valuation allowance		(7)		(1)	
	\$	60	\$	33	
Consolidated taxes on income	\$	295	\$	214	

A reconciliation of the US statutory federal tax rate of 35% to the consolidated effective income tax rate follows:

	First Q	uarter
	2011	2010
US federal statutory rate	35%	35%
US state income taxes	1	
Non-US income taxed at different rates	(11)	(16)
Charges (See Note 2)		5
Other	(1)	

Effective income tax rate 24% 24%

13. Contingencies

In 2007, Schlumberger received an inquiry from the United States Department of Justice (DOJ) related to the DOJ s investigation of whether certain freight forwarding and customs clearance services of Panalpina, Inc., and other companies provided to oil and oilfield service companies, including Schlumberger, violated the Foreign Corrupt Practices Act. Schlumberger is cooperating with the governmental authorities and is currently unable to predict the outcome of this matter.

In 2009, Schlumberger learned that United States officials began a grand jury investigation and an associated regulatory inquiry, both related to certain Schlumberger operations in specified countries that are subject to United States trade and economic sanctions. Also in 2009, Smith received an administrative subpoena with respect to its historical business practices in certain countries that are subject to United States trade and economic sanctions. Schlumberger is cooperating with the governmental authorities and is currently unable to predict the outcome of these matters.

On April 20, 2010, a fire and explosion occurred onboard the semisubmersible drilling rig *Deepwater Horizon*, owned by Transocean Ltd. and under contract to a subsidiary of BP plc. Pursuant to a contract between M-I SWACO and BP, M-I SWACO provided certain services under the direction of BP. A number of legal actions, certain of which name an M-I SWACO entity as a defendant, have been filed in connection with the *Deepwater Horizon* incident, and additional legal actions may be filed in the future. Based on information currently known, the amount of any potential

-14-

Table of Contents

loss attributable to M-I SWACO with respect to potential liabilities related to the incident would not be material to Schlumberger s consolidated financial position.

Schlumberger and its subsidiaries are party to various other legal proceedings from time to time. A liability is accrued when a loss is both probable and can be reasonably estimated. Management believes that the probability of a material loss is remote and, as such, that any liability that might ensue would not be material in relation to Schlumberger s consolidated financial position. However, litigation is inherently uncertain and it is not possible to predict the ultimate disposition of these proceedings.

14. Segment Information

Schlumberger previously reported its results on the basis of five business segments—Schlumberger Oilfield Services, WesternGeco, M-I SWACO, Smith Oilfield and Distribution and by geographical areas within Schlumberger Oilfield Services. As a result of the recent acquisitions of Smith and Geoservices, Schlumberger has reached a point where its coverage of the various activities comprising exploration and production services is so broad that Schlumberger has changed the primary way in which it allocates resources and assesses performance. Consequently, effective with the first quarter of 2011, Schlumberger changed its primary reporting to product group segments (the Groups). The Groups are as follows:

Reservoir Characterization Group This group consists of the principal technologies involved in the finding and defining of hydrocarbon deposits. These include WesternGeco, Wireline, Testing Services, Schlumberger Information Services and Data & Consulting Services.

Drilling Group Consists of the principal technologies involved in the drilling and positioning of oil and gas wells and is comprised of Bits & Advanced Technologies, M-I SWACO, Geoservices, Drilling and Measurements, Pathfinder, Drilling Tools and Remedial Services, Dynamic Pressure Management and Integrated Project Management well construction projects.

Reservoir Production Group Consists of the principal technologies involved in the lifetime production of oil and gas reservoirs and includes Well Services, Completions and Artificial Lift, together with the Subsea and Water and Carbon Services activities and the production activities of IPM.

The Groups are collectively referred to as Oilfield Services . Additionally, Schlumberger also reports the Distribution business, acquired in the Smith transaction, as a separate segment.

All prior period segment disclosures have been recast to reflect the new segments.

Pretax operating income represents the segments income before taxes and noncontrolling interests. The pretax operating income excludes such items as corporate expenses and interest income and interest expense not allocated to the segments as well as the charges described in detail in Note 2 to the *Consolidated Financial Statements*, interest on postretirement medical benefits, stock-based compensation costs and amortization expense associated with intangible assets recorded as a result of the merger with Smith International Inc. (Smith).

Sequentially, Oilfield Services revenue of \$8.12 billion decreased 4% while pretax segment operating income of \$1.46 billion was down 14% sequentially.

-17-

Table of Contents

Distribution revenue of \$601 million increased 4% sequentially. Pretax segment operating income of \$22 million improved 7% sequentially.

OILFIELD SERVICES

First-quarter revenue of \$8.12 billion decreased 4% sequentially. The impacts of extraordinary geopolitical events in North Africa and the Middle East as well as severe weather in the US and Australia during the quarter affected all three Product Groups and accounted for approximately half of the sequential decrease in total Oilfield Services revenue.

Excluding the impact of these geopolitical and weather events, sequential revenue performance varied by Group. Reservoir Characterization revenue decreased primarily on lower WesternGeco multiclient and Schlumberger Information Solutions (SIS) software sales following their fourth-quarter 2010 seasonal highs as well as on lower Testing Services activity, but these effects were partially offset by higher Wireline activity, particularly in North America. Drilling revenue increased on higher Integrated Project Management (IPM) Well Construction activity in the Middle East & Asia, Latin America and Europe/CIS/Africa Areas, which was partially offset by a decrease in M-I SWACO revenue following the high product sales of the fourth quarter, and by lower Drilling & Measurements revenue through a less favorable activity mix and lower pricing in Europe/CIS/Africa. Reservoir Production revenue increased sequentially on higher pricing and activity in North America, although this was partially offset by the absence of the IPM gain share payout in North America and the absence of the Artificial Lift and Completions Systems equipment sales seen in the fourth quarter.

On a geographical basis, Europe/CIS/Africa revenue decreased sequentially primarily due to disruptions resulting from the political unrest in North Africa, a less favorable revenue mix coupled with lower software sales in the North Sea GeoMarket, and seasonally lower activity in Russia. Middle East & Asia revenue was lower as increasing IPM activity in Iraq and shale gas activity in India were insufficient to offset the impact of geopolitical events in the Middle East, seasonally lower software and equipment sales, and weather-related slowdowns in Australia. In North America, higher pricing for Well Services technologies, stronger winter season activity in Canada, and increased demand for M-I SWACO services fully offset lower WesternGeco multiclient sales, the non-recurrence of the IPM gain share payout, and the impact of weather-related slowdowns on land in the US. In Latin America, increased WesternGeco and M-I SWACO activity in the Brazil GeoMarket balanced lower offshore activity and reduced software sales in the Mexico/Central America GeoMarket.

First-quarter pretax operating income of \$1.46 billion decreased 14% sequentially. Pretax operating margin decreased 206 basis points (bps) sequentially to 17.9% primarily due to the reduced software and equipment sales as well as the lower WesternGeco multiclient sales; the non-recurrence of the IPM gain share payout; the impact of the geopolitical events in North Africa and the Middle East; and the weather-related slowdowns in the US and Australia. The absence of oil production from Libya, combined with continued recovery in demand, has reduced the world s spare capacity significantly. The call on both fuel oil and natural gas will increase as Japan recovers. The exploration and production industry has begun to respond and, absent a further leg to the recession, will have to substantially increase investment to maintain a comfortable supply cushion in an era of political uncertainty. We anticipate that high oil prices will continue to support additional drilling in the liquid-rich plays in North America. The upturn in deepwater activity more generally is becoming increasingly visible, and the rate of permitting in the US Gulf of Mexico is accelerating. Middle East activity is increasing substantially, led by Saudi Arabia and Iraq. These activities will progressively mobilize over the next six months and the projected increases will reach levels where resources will become constrained. Schlumberger is ready for this scenario with new technology, equipment and people.

With respect to Libya, Schlumberger does not expect any return of activity in the short-term due to the ongoing political disturbances. The carrying value of Schlumberger s assets in Libya was approximately \$340 million as of March 31, 2011. This consists primarily of accounts receivable, inventories and fixed assets. Schlumberger s ability to recover these assets will ultimately depend on how the current situation evolves.

Reservoir Characterization

First-quarter revenue of \$2.19 billion was 12% lower versus the fourth quarter of 2010. Pretax operating income of \$460 million was 32% lower sequentially.

Table of Contents

Sequentially, Group revenue was severely impacted by disruptions from the geopolitical events in North Africa and the Middle East. WesternGeco revenue decreased following the fourth-quarter surge in multiclient sales in the US Gulf of Mexico and through lower Land activity as a consequence of the geopolitical events while Marine revenue increased due to a more favorable revenue mix. SIS revenue fell sharply from seasonally lower software sales across all geographic Areas. Testing revenue decreased on reduced equipment sales and activity, especially in Latin America; on completion of projects in the Australia/Papua New Guinea and East Asia GeoMarkets; on the winter seasonal slowdown in Russia; and on the geopolitical events. Wireline revenue was flat sequentially as strong winter activity in Canada was offset by the impact of the geopolitical events and weather slowdowns in Australia.

Pretax operating margin decreased 606 bps sequentially to 21% primarily due to the seasonally lower multiclient and software sales, the impact of the geopolitical events, the poor weather conditions in Australia, and the lower Testing activity in Latin America and Asia.

Drilling

First-quarter revenue of \$3.20 billion decreased 1% compared to the fourth quarter of 2010. Pretax operating income of \$467 million was flat sequentially.

Sequentially, the decrease in Group revenue was primarily due to disruptions resulting from geopolitical events in North Africa and the Middle East. Excluding the impact of these disruptions, Group revenue increased sequentially but varied by Technology. IPM Well Construction revenue increased on strong activity growth in Iraq, Mexico and Russia. Drilling & Measurements revenue declined from lower activity and pricing in Europe and Africa and the completion of offshore exploration projects in Australia/Papua New Guinea although these effects were mitigated by the return of some deepwater work in the US Gulf of Mexico and by an increase in activity in Latin America and Russia. Following strong product sales in the fourth quarter of 2010 and despite continued strong activity in North America, M-I SWACO revenue decreased as a result of the weather-related slowdowns in Australia as well as a result of delayed projects in the Europe/CIS/Africa Area.

Sequentially, pretax operating margin was essentially flat at 14.6% as the contribution from the increased IPM Well Construction activity was offset by the impact of activity declines for M-I SWACO and reduced pricing for Drilling & Measurements services.

Reservoir Production

First-quarter revenue of \$2.72 billion decreased 2% versus the fourth quarter of 2010. Pretax operating income of \$528 million was 9% lower sequentially.

Sequentially, the decrease in Group revenue was largely due to the impact of geopolitical events in North Africa and the Middle East as well as to the severe weather in the US and Australia. Excluding these impacts, Group revenue increased as higher pricing and strong demand for Well Services technologies in North America more than offset the non-recurring prior quarter s IPM gain share payout in North America and the seasonally lower Artificial Lift and Completions equipment sales.

First-quarter pretax operating margin decreased 145 bps to 19.4%, primarily due to the non-repetition of the IPM gain share payout, the lower Artificial Lift and Completions equipment sales, and the impact of geopolitical events and weather.

DISTRIBUTION

First-quarter revenue of \$601 million increased 4% as compared to the fourth quarter of 2010. Pretax operating income of \$22 million increased 8% sequentially.

The sequential revenue growth was primarily driven by increased project-based customer spending in the Industrial and Refining sector. Pretax margin was essentially flat at 3.7%.

OILFIELD SERVICES

First-quarter 2011 revenue of \$8.12 billion was 45% higher than the same period last year largely due to the acquisitions of Smith and Geoservices as well as the significantly improved activity and pricing for Well Services technologies in North America. These increases, however, were partially offset by the impact of extraordinary geopolitical events in North Africa and the Middle East, severe weather in the US and Australia and significantly lower deepwater drilling activity in the US Gulf of Mexico.

On a Product Group basis, Drilling revenue increased significantly primarily due to the acquisitions of Smith and Geoservices. Reservoir Production revenue increased mostly from a combination of higher activity and pricing for Well Services technologies in North America. These increases were partially offset by lower Reservoir Characterization revenue due to the impact of the geopolitical events, weather-related slowdowns and the significantly lower deepwater activity in the US Gulf of Mexico.

-20-

Table of Contents

On a Geographical basis, all Areas, particularly North America, grew appreciably from the acquisitions of Smith and Geoservices. Excluding the impact of these acquisitions, revenue performance varied by Area. North America revenue increased due to significant increase in activity and pricing improvements in US Land. These increases however were partially offset by lower revenue in the US Gulf of Mexico. Latin America revenue slightly decreased due to the decrease in IPM projects in Mexico more than offsetting the increase in activity throughout the Area.

Europe/CIS/Africa revenue slightly declined as the improved drilling activity in Russia was offset by North Africa geopolitical unrest. Middle East & Asia revenue grew with strong activity in Iraq and India which was partially offset by the impact of the severe weather in Australia and the geopolitical unrest in the region.

First-quarter 2011 pretax operating margin declined only 59 bps to 17.9% as a strong contribution from the increased activity and pricing for Well Services technologies in North America nearly offset the impacts of the Smith and Geoservices acquisitions, geopolitical events in North Africa and the Middle East, the lower deepwater activity in the US Gulf of Mexico, and the weather-related slowdowns in Australia and the US.

Reservoir Characterization

First-quarter 2011 revenue of \$2.19 billion was 2% lower than the same period last year primarily due to the impact of the geopolitical events in North Africa and the Middle East that affected Wireline, Testing Services and WesternGeco. Excluding the impact of the geopolitical events, Group revenue increased. By technology, Wireline revenue increased on stronger activity and pricing on land in the US although this was partially offset by significantly lower deepwater activity in the US Gulf of Mexico and by the impact of severe weather in Australia. WesternGeco revenue was higher primarily due to the addition of new vessels to the Marine fleet. SIS revenue increased on stronger software sales. Testing Services revenue was slightly lower as reduced equipment sales and pricing were nearly offset by increased service activity.

Year-on-year, pretax operating margin decreased 430 bps to 21.0% primarily due to lower activity in the US Gulf of Mexico, the impact of the geopolitical events in North Africa and the Middle East, and the weather-related slowdowns in Australia.

Drilling

First-quarter 2011 revenue of \$3.20 billion was 120% higher than the previous year primarily due to the acquisitions of Smith and Geoservices. However, these additions were partially offset by lower Drilling & Measurements revenue as the result of the cessation of deepwater activity in the Gulf of Mexico as well as from a less favorable activity mix and lower pricing, particularly in Europe/CIS/Africa and Middle East and Asia. IPM Well Construction revenue also decreased as significantly lower activity in Mexico was only partially offset by the ramp up of new projects in Iraq. Year-on-year, pretax operating margin decreased 423 bps to 14.6% primarily due to the combined impact of the reduced activity in the US Gulf of Mexico and the generally lower pricing for Drilling & Measurements services as well as to the impact of the Smith and Geoservices technologies.

Reservoir Production

First-quarter 2011 revenue of \$2.72 billion increased 44% year-on-year, particularly in North America, due to a combination of capacity additions, higher pricing and better assets utilization for Well Services Technologies. The addition of certain Smith businesses also contributed to the Group s growth. Artificial Lift increased on a combination of improved pricing and increased activity. These increases were partially offset by the impact of geopolitical events in North Africa and the Middle East and severe weather in the US and Australia.

Year-on-year, pretax operating margin improved 11 percentage points to 19.4% mainly due to the significant increase in activity, pricing and equipment utilization for Well Services technologies in North America partially offset by the impact of the geopolitical events in North Africa and the Middle East and the weather-related slowdowns in the US and Australia.

-21-

INTEREST & OTHER INCOME, NET

Interest & other income, net consisted of the following for the first quarters 2011 and 2010:

	,	tated in mil First Quarte	
	201	1 :	2010
Equity in net earnings of affiliated companies Interest income		21 \$ 10	47 17
	\$	31 \$	64

The decrease in equity in net earnings of affiliated companies is primarily attributable to the loss of equity earnings from the M-I SWACO joint venture as Schlumberger now owns 100% of this venture following its merger with Smith on August 27, 2010.

OTHER

Research & engineering and *General & administrative* expenses, as a percentage of *Revenue*, for the first quarter ended March 31, 2011 and 2010 were as follows:

	First Q	First Quarter	
	2011	2010	
Research & engineering	2.9%	3.7%	
General & administrative	1.1%	1.3%	

Although *Research & engineering* decreased as a percentage of revenue, it increased in absolute dollars by \$42 million.

The effective tax rate for the first quarter of 2011 was 23.6% compared to 24.1% for the same period in 2010. The charges described in Note 2 to the *Consolidated Financial Statements* negatively impacted the effective tax rate in the first quarter of 2010 by approximately 5 percentage points. Excluding the impact of these charges, the effective tax rate increased as compared to the same period last year. The increase was primarily attributable to the higher proportion of pretax earnings in North America in the first quarter of 2011 as compared to the first quarter of 2010.

CHARGES

Schlumberger recorded charges during the first three months of 2011 and 2010. These charges, which are summarized below, are more fully described in Note 2 to the *Consolidated Financial Statements*.

Schlumberger recorded \$34 million of pretax merger and integration related charges (\$28 million after-tax) in connection with the merger with Smith and the acquisition of Geoservices. This amount is classified in *Merger & integration* in the *Consolidated Statement of Income*.

Schlumberger also recorded \$35 million of pretax charges (\$75 million after-tax) during the first quarter of 2010. The following is a summary of the first quarter 2010 charges:

	(Stated in millions)			
	Pretax	Tax	Net	Income Statement Classification
Merger-related transaction costs	\$ 35	\$	\$ 35	Merger & integration
Impact of elimination of tax deduction related to Medicare Part D subsidy		(40)	40	Taxes on income
	\$ 35	\$ (40)	\$ 75	

CASH FLOW

Net Debt represents gross debt less cash, short-term investments and fixed income investments, held to maturity. Management believes that Net Debt provides useful information regarding the level of Schlumberger indebtedness by reflecting cash and investments that could be used to repay debt.

-22-

Key liquidity events during the first three months of 2011 and 2010 included:

On January 10, 2011, Schlumberger issued \$1.1 billion of 4.200% Senior Notes due 2021 and \$500 million of 2.650% Senior Notes due 2016.

During the first quarter of 2011, Schlumberger repurchased all of its outstanding 9.75% Senior Notes due 2019, 8.625% Senior Notes due 2014 and 6.00% Senior Notes due 2016 for approximately \$1.26 billion.

On April 17, 2008, the Schlumberger Board of Directors approved an \$8 billion share repurchase program for shares of Schlumberger common stock, to be acquired in the open market before December 31, 2011, of which \$4.0 billion had been repurchased as of March 31, 2011.

The following table summarizes the activity, during the three months ended March 31, under the April 17, 2008 share repurchase program:

-23-

Table of Contents

(Stated in thousands except per share amounts)

	Total cost of shares purchased	Total number of shares purchased	Average price paid per share	
First quarter 2011	\$844,192	9,683.2	\$ 87.18	
First quarter 2010	\$337,262	5,292.8	\$ 63.72	

During the first quarter of 2011 Schlumberger made contributions of \$49 million to its defined benefit pension plans as compared to \$64 million during the same period last year.

Cash flow provided by operations was \$0.8 billion in the first quarter of 2011 compared to \$1.0 billion in the first quarter of 2010 reflecting an increase in working capital requirements, primarily accounts receivable following the strong collections experienced in the fourth quarter of 2010.

Capital expenditures were \$0.8 billion in the first quarter of 2011 compared to \$0.4 billion during the first quarter of 2010. Capital expenditures for the full year of 2011 are expected to approach \$4.0 billion as compared to \$2.9 billion in 2010.

During the first quarter of 2010, approximately \$22 million of the 2.125% Series B Convertible Debentures due June 1, 2023 were converted by holders into 565,000 shares of Schlumberger common stock.

As of March 31, 2011 Schlumberger had \$4.2 billion of cash and short-term investments on hand. Schlumberger had separate committed debt facility agreements aggregating \$5.9 billion with commercial banks, of which \$3.7 billion was available and unused as of March 31, 2011. This included \$3.1 billion of unused committed facilities which support commercial paper borrowings in the United States and Europe.

Schlumberger believes that these amounts are sufficient to meet future business requirements for at least the next twelve months.

Schlumberger s total outstanding debt at March 31, 2011 was \$8.6 billion and included \$1.8 billion of commercial paper borrowings. The total outstanding debt increased \$0.5 billion compared to December 31, 2010.

FORWARD-LOOKING STATEMENTS

This Form 10-Q and other statements we make contain forward-looking statements within the meaning of the federal securities laws, which include any statements that are not historical facts, such as our forecasts or expectations regarding business outlook; growth for Schlumberger as a whole and for each of its segments (and for specified products or geographic areas within each segment); oil and natural gas demand and production growth; oil and natural gas prices; operating margins; improvements in operating procedures and technology; capital expenditures by Schlumberger and the oil and gas industry; the business strategies of Schlumberger's customers; future global political and economic conditions; and future results of operations. These statements are subject to risks and uncertainties, including, but not limited to, current global economic conditions; changes in exploration and production spending by Schlumberger s customers and changes in the level of oil and natural gas exploration and development; general economic, geopolitical and business conditions in key regions of the world; pricing erosion; weather and seasonal factors; changes in government regulations and regulatory requirements, including those related to offshore oil and gas exploration, radioactive sources, explosives, chemicals, hydraulic fracturing services and climate-related initiatives; continuing operational delays or program reductions as of result of the lifted drilling moratorium in the Gulf of Mexico; the inability of technology to meet new challenges in exploration; and other risks and uncertainties detailed in our most recent Form 10-K and other filings that we make with the Securities and Exchange Commission. If one or more of these risks or uncertainties materialize (or the consequences of such a development changes), or should underlying assumptions prove incorrect, actual outcomes may vary materially from those forecasted or expected. Schlumberger disclaims any intention or obligation to update publicly or revise such statements, whether as a result of new information, future events or otherwise.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

For quantitative and qualitative disclosures about market risk affecting Schlumberger, see Item 7A, Quantitative and Qualitative Disclosures about Market Risk, of the Schlumberger Annual Report on Form 10-K for the fiscal year ended December 31, 2010. Schlumberger s exposure to market risk has not changed materially since December 31, 2010.

Item 4. Controls and Procedures.

Schlumberger has carried out an evaluation under the supervision and with the participation of Schlumberger s management, including the Chief Executive Officer (CEO) and the Chief Financial Officer (CFO), of the effectiveness of Schlumberger s disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)) as of the end of the period covered by this report. Based on this evaluation, the CEO and the CFO have concluded that, as of the end of the period covered by this report, Schlumberger s disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in the reports that Schlumberger files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission s rules and forms. Schlumberger s disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is accumulated and communicated to its management, including the CEO and the CFO, as appropriate, to allow timely decisions regarding required disclosure. There has been no change in Schlumberger s internal control over financial reporting that occurred during the quarter to which this report relates that has materially affected, or is reasonably likely to materially affect, Schlumberger s internal control over financial reporting.

* Mark of Schlumberger

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

The information with respect to Item 1 is set forth under Note 13 Contingencies, in the Consolidated Financial Statements.

Item 1A. Risk Factors.

As of the date of this filing, there have been no material changes from the risk factors previously disclosed in Part 1, Item 1A, of Schlumberger s Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Unregistered Sales of Equity Securities

None.

<u>Issuer Repurchases of Equity Securities</u>

On April 17, 2008, the Schlumberger Board of Directors approved an \$8 billion share repurchase program for Schlumberger common stock, to be acquired in the open market before December 31, 2011.

Schlumberger s common stock repurchase program activity for the three months ended March 31, 2011 was as follows:

(Stated in thousands, except per share amounts)

		(Sittlet	(Siaiea in inousanas, except per snare amounts)		
			Total number	Max	ximum value
			of		of
	Total	Average	shares	sha	res that may
