Table of Contents

EQUITY RESIDENTIAL
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Business

Equity Residential (EQR), a Maryland real estate investment trust (REIT) formed in March 1993, is an S&P 500 company focused on the acquisition, development and management of high quality apartment properties in top United States growth markets. EQR has elected to be taxed as a REIT.

EQR is the general partner of, and as of March 31, 2011 owned an approximate 95.5% ownership interest in, ERP Operating Limited Partnership, an Illinois limited partnership (the Operating Partnership). All of EQR 's property ownership, development and related business operations are conducted through the Operating Partnership and its subsidiaries. References to the Company include EQR, the Operating Partnership and those entities owned or controlled by the Operating Partnership and/or EQR.

As of March 31, 2011, the Company, directly or indirectly through investments in title holding entities, owned all or a portion of 442 properties located in 17 states and the District of Columbia consisting of 127,711 apartment units. The ownership breakdown includes (table does not include various uncompleted development properties):

	Properties	Apartment Units
Wholly Owned Properties	417	118,078
Partially Owned Properties Consolidated	23	4,828
Military Housing	2	4,805
	442	127,711

2. Summary of Significant Accounting Policies*Basis of Presentation*

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X promulgated under the Securities Act of 1933, as amended. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) and certain reclassifications considered necessary for a fair presentation have been included. Certain reclassifications have been made to the prior period financial statements in order to conform to the current year presentation. Operating results for the quarter ended March 31, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011.

In preparation of the Company 's financial statements in conformity with accounting principles generally accepted in the United States, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

The balance sheet at December 31, 2010 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements.

For further information, including definitions of capitalized terms not defined herein, refer to the consolidated financial statements and footnotes thereto included in the Company 's annual report on Form 10-K for the year ended December 31, 2010.

Income and Other Taxes

Due to the structure of the Company as a REIT and the nature of the operations of its operating properties, no provision for federal income taxes has been made at the EQR level. Historically, the Company has generally only incurred certain state and local income, excise and franchise taxes. The Company has elected Taxable REIT

Subsidiary (TRS) status for certain of its corporate subsidiaries, primarily those entities engaged in condominium conversion and corporate housing activities and as a result, these entities will incur both federal and state income taxes on any taxable income of such entities after consideration of any net operating losses.

Table of Contents

Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. These assets and liabilities are measured using enacted tax rates for which the temporary differences are expected to be recovered or settled. The effects of changes in tax rates on deferred tax assets and liabilities are recognized in earnings in the period enacted. The Company's deferred tax assets are generally the result of tax affected amortization of goodwill, differing depreciable lives on capitalized assets and the timing of expense recognition for certain accrued liabilities. As of March 31, 2011, the Company has recorded a deferred tax asset of approximately \$38.7 million, which is fully offset by a valuation allowance due to the uncertainty in forecasting future TRS taxable income.

Other

Effective January 1, 2010, in an effort to improve financial standards for transfers of financial assets, more stringent conditions for reporting a transfer of a portion of a financial asset as a sale (e.g. loan participations) are required, the concept of a qualifying special-purpose entity and special guidance for guaranteed mortgage securitizations are eliminated, other sale-accounting criteria is clarified and the initial measurement of a transferor's interest in transferred financial assets is changed. This does not have a material effect on the Company's consolidated results of operations or financial position.

Effective January 1, 2010, the analysis for identifying the primary beneficiary of a Variable Interest Entity (VIE) has been simplified by replacing the previous quantitative-based analysis with a framework that is based more on qualitative judgments. The analysis requires the primary beneficiary of a VIE to be identified as the party that both (a) has the power to direct the activities of a VIE that most significantly impact its economic performance and (b) has an obligation to absorb losses or a right to receive benefits that could potentially be significant to the VIE. For the Company, this includes its consolidated development partnerships as the Company provides substantially all of the capital for these ventures (other than third party mortgage debt, if any). For the Company, these requirements affected only disclosures and had no impact on the Company's consolidated results of operations or financial position. See Note 6 for further discussion.

The Company is required to make certain disclosures regarding noncontrolling interests in consolidated limited-life subsidiaries. The Company is the controlling partner in various consolidated partnerships owning 23 properties and 4,828 apartment units and various completed and uncompleted development properties having a noncontrolling interest book value of \$7.7 million at March 31, 2011. Some of these partnership agreements contain provisions that require the partnerships to be liquidated through the sale of their assets upon reaching a date specified in each respective partnership agreement. The Company, as controlling partner, has an obligation to cause the property owning partnerships to distribute the proceeds of liquidation to the Noncontrolling Interests in these Partially Owned Properties only to the extent that the net proceeds received by the partnerships from the sale of their assets warrant a distribution based on the partnership agreements. As of March 31, 2011, the Company estimates the value of Noncontrolling Interest distributions would have been approximately \$64.1 million (Settlement Value) had the partnerships been liquidated. This Settlement Value is based on estimated third party consideration realized by the partnerships upon disposition of the Partially Owned Properties and is net of all other assets and liabilities, including yield maintenance on the mortgages encumbering the properties, that would have been due on March 31, 2011 had those mortgages been prepaid. Due to, among other things, the inherent uncertainty in the sale of real estate assets, the amount of any potential distribution to the Noncontrolling Interests in the Company's Partially Owned Properties is subject to change. To the extent that the partnerships' underlying assets are worth less than the underlying liabilities, the Company has no obligation to remit any consideration to the Noncontrolling Interests in these Partially Owned Properties.

Effective January 1, 2010, companies are required to separately disclose the amounts of significant transfers of assets and liabilities into and out of Level 1, Level 2 and Level 3 of the fair value hierarchy and the reasons for those transfers. Companies must also develop and disclose their policy for determining when transfers between levels are recognized. In addition, companies are required to provide fair value disclosures for each class rather than each major category of assets and liabilities. For fair value measurements using significant other observable inputs (Level 2) or significant unobservable inputs (Level 3), companies are required to disclose the valuation technique and the inputs used in determining fair value for each class of assets and liabilities. This does not have a material effect on the

Company's consolidated results of operations or financial position. See Note 11 for further discussion.

Effective January 1, 2011, companies are required to separately disclose purchases, sales, issuances and settlements on a gross basis in the reconciliation of recurring Level 3 fair value measurements. This does not have a material effect on the Company's consolidated results of operations or financial position. See Note 11 for further discussion.

Table of Contents

Effective January 1, 2009, issuers of certain convertible debt instruments that may be settled in cash on conversion were required to separately account for the liability and equity components of the instrument in a manner that reflects each issuer's nonconvertible debt borrowing rate. As the Company is required to apply this retrospectively, the accounting for the Operating Partnership's \$650.0 million (\$482.5 million outstanding at March 31, 2011) 3.85% convertible unsecured notes that were issued in August 2006 and mature in August 2026 was affected. The Company recognized \$4.6 million and \$4.6 million in interest expense related to the stated coupon rate of 3.85% for the quarters ended March 31, 2011 and 2010, respectively. The amount of the conversion option as of the date of issuance calculated by the Company using a 5.80% effective interest rate was \$44.3 million and is being amortized to interest expense over the expected life of the convertible notes (through the first put date on August 18, 2011). Total amortization of the cash discount and conversion option discount on the unsecured notes resulted in a reduction to earnings of approximately \$2.0 million and \$1.9 million, respectively, or \$0.01 per share and \$0.01 per share, respectively, for the quarters ended March 31, 2011 and 2010, and is anticipated to result in a reduction to earnings of approximately \$5.0 million or \$0.02 per share during the full year of 2011. In addition, the Company decreased the January 1, 2009 balance of retained earnings by \$27.0 million, decreased the January 1, 2009 balance of notes by \$17.3 million and increased the January 1, 2009 balance of paid in capital by \$44.3 million. The carrying amount of the conversion option remaining in paid in capital was \$44.3 million at both March 31, 2011 and December 31, 2010. The unamortized cash and conversion option discounts totaled \$3.0 million and \$5.0 million at March 31, 2011 and December 31, 2010, respectively.

3. Equity and Redeemable Noncontrolling Interests

The following tables present the changes in the Company's issued and outstanding Common Shares and Units (which includes OP Units and Long-Term Incentive Plan (LTIP) Units) for the quarter ended March 31, 2011:

	<i>2011</i>
Common Shares

4.5%

In September 2009, the Company announced the establishment of an At-The-Market (ATM) share offering program which would allow the Company to sell up to 17.0 million Common Shares from time to time over the next three years into the existing trading market at current market prices as well as through negotiated transactions. During the quarter ended March 31, 2011, the Company issued approximately 3.0 million Common Shares at an average price of \$50.84 per share for total consideration of approximately \$154.5 million through the ATM program. The Company has not issued any shares under this program since January 13, 2011. Including its February 2011 prospectus supplement which added approximately 5.7 million Common Shares, the Company has 10.0 million Common Shares remaining available for issuance under the ATM program as of March 31, 2011.

EQR has a share repurchase program authorized by the Board of Trustees under which it has authorization to repurchase up to \$464.6 million of its shares as of March 31, 2011. No shares were repurchased during the quarter ended March 31, 2011.

Table of Contents

During the quarter ended March 31, 2011, the Company acquired all of its partner's interest in one consolidated partially owned property consisting of 404 apartment units for \$0.5 million. In conjunction with this transaction, the Company reduced paid in capital by \$0.5 million.

The equity positions of various individuals and entities that contributed their properties to the Operating Partnership in exchange for OP Units, as well as the equity positions of the holders of LTIP Units, are collectively referred to as the Noncontrolling Interests Operating Partnership. Subject to certain exceptions (including the book-up requirements of LTIP Units), the Noncontrolling Interests Operating Partnership may exchange their Units with EQR for Common Shares on a one-for-one basis. The carrying value of the Noncontrolling Interests Operating Partnership (including redeemable interests) is allocated based on the number of Noncontrolling Interests Operating Partnership Units in total in proportion to the number of Noncontrolling Interests Operating Partnership Units in total plus the number of EQR Common Shares. Net income is allocated to the Noncontrolling Interests Operating Partnership based on the weighted average ownership percentage during the period.

The Operating Partnership has the right but not the obligation to make a cash payment instead of issuing Common Shares to any and all holders of Noncontrolling Interests Operating Partnership Units requesting an exchange of their OP Units with EQR. Once the Operating Partnership elects not to redeem the Noncontrolling Interests Operating Partnership Units for cash, EQR is obligated to deliver Common Shares to the exchanging holder of the Noncontrolling Interests Operating Partnership Units.

The Noncontrolling Interests Operating Partnership Units are classified as either mezzanine equity or permanent equity. If EQR is required, either by contract or securities law, to deliver registered Common Shares, such Noncontrolling Interests Operating Partnership are differentiated and referred to as Redeemable Noncontrolling Interests Operating Partnership. Instruments that require settlement in registered shares can not be classified in permanent equity as it is not always completely within an issuer's control to deliver registered shares. Therefore, settlement in cash is assumed and that responsibility for settlement in cash is deemed to fall to the Operating Partnership as the primary source of cash for EQR, resulting in presentation in the mezzanine section of the balance sheet. The Redeemable Noncontrolling Interests Operating Partnership are adjusted to the greater of carrying value or fair market value based on the Common Share price of EQR at the end of each respective reporting period. EQR has the ability to deliver unregistered Common Shares for the remaining portion of the Noncontrolling Interests Operating Partnership Units that are classified in permanent equity at March 31, 2011 and December 31, 2010.

The carrying value of the Redeemable Noncontrolling Interests Operating Partnership is allocated based on the number of Redeemable Noncontrolling Interests Operating Partnership Units in proportion to the number of Noncontrolling Interests Operating Partnership Units in total. Such percentage of the total carrying value of Units which is ascribed to the Redeemable Noncontrolling Interests Operating Partnership is then adjusted to the greater of carrying value or fair market value as described above. As of March 31, 2011, the Redeemable Noncontrolling Interests Operating Partnership have a redemption value of approximately \$416.3 million, which represents the value of Common Shares that would be issued in exchange with the Redeemable Noncontrolling Interests Operating Partnership Units.

The following table presents the change in the redemption value of the Redeemable Noncontrolling Interests Operating Partnership for the quarter ended March 31, 2011 (amounts in thousands):

	<i>2011</i>
Balance at January 1,	\$ 383,540
Change in market value	29,294
Change in carrying value	3,500
Balance at March 31,	\$ 416,334

Net proceeds from the Company's Common Share and Preferred Share (see definition below) offerings are contributed by the Company to the Operating Partnership. In return for those contributions, EQR receives a number of OP Units in the Operating Partnership equal to the number of Common Shares it has issued in the equity offering (or

in the case of a preferred equity offering, a number of preference units in the Operating Partnership equal in number and having the same terms as the Preferred Shares issued in the equity offering). As a result, the net offering proceeds from Common Shares and Preferred Shares are allocated between shareholders' equity and Noncontrolling Interests Operating Partnership to account for the change in their respective percentage ownership of the underlying equity of the Operating Partnership.

The Company's declaration of trust authorizes the Company to issue up to 100,000,000 preferred shares of beneficial interest, \$0.01 par value per share (the Preferred Shares), with specific rights, preferences and other attributes as

Table of Contents

the Board of Trustees may determine, which may include preferences, powers and rights that are senior to the rights of holders of the Company's Common Shares.

The following table presents the Company's issued and outstanding Preferred Shares as of March 31, 2011 and December 31, 2010:

	<i>Redemption Date (1)</i>	<i>Annual Dividend per Share (2)</i>	<i>Amounts in thousands</i>	
			<i>March 31, 2011</i>	<i>December 31, 2010</i>
Preferred Shares of beneficial interest, \$0.01 par value; 100,000,000 shares authorized:				
8.29% Series K Cumulative Redeemable Preferred; liquidation value \$50 per share; 1,000,000 shares issued and outstanding at March 31, 2011 and December 31, 2010	12/10/26	\$ 4.145	\$ 50,000	\$ 50,000
6.48% Series N Cumulative Redeemable Preferred; liquidation value \$250 per share; 600,000 shares issued and outstanding at March 31, 2011 and December 31, 2010 (3)	6/19/08	\$ 16.20	150,000	150,000
			\$ 200,000	\$ 200,000

- (1) On or after the redemption date, redeemable preferred shares (Series K and N) may be redeemed for cash at the option of the Company, in whole or in part, at a redemption price equal to the liquidation price per share, plus accrued and unpaid distributions, if any.
- (2) Dividends on all series of Preferred Shares are payable quarterly at various pay dates. The dividend listed for Series N is a Preferred Share rate and the equivalent Depository Share annual dividend is \$1.62 per share.
- (3) The Series N Preferred Shares have a corresponding depository share that consists of ten times the number of shares and one-tenth the liquidation value and dividend per share.

4. Real Estate

The following table summarizes the carrying amounts for the Company's investment in real estate (at cost) as of March 31, 2011 and December 31, 2010 (amounts in thousands):

	March 31, 2011	December 31, 2010
Land	\$ 4,107,769	\$ 4,110,275
Depreciable property:		
Buildings and improvements	14,042,212	13,995,121
Furniture, fixtures and equipment	1,236,821	1,231,391
Projects under development:		
Land	27,505	28,260
Construction-in-progress	69,646	102,077
Land held for development:		

Edgar Filing: EQUITY RESIDENTIAL - Form 10-Q

Accumulated depreciation	(4,424,078)	(4,337,357)
Investment in real estate, net	\$ 15,271,843	\$ 15,365,014

During the quarter ended March 31, 2011, the Company acquired the entire equity interest in the following from unaffiliated parties (purchase price in thousands):

	Properties	Apartment Units	Purchase Price
Rental Properties	2	521	\$ 139,018
Other (1)			11,750
Total	2	521	\$ 150,768

Table of Contents

(1) Represents the acquisition of a 97,000 square foot commercial building adjacent to our Harbor Steps apartment property in downtown Seattle for potential redevelopment.

During the quarter ended March 31, 2011, the Company disposed of the following to unaffiliated parties (sales price in thousands):

	Properties	Apartment Units	Sales Price
Rental Properties Consolidated	12	2,731	\$ 261,771
Total	12	2,731	\$ 261,771

The Company recognized a net gain on sales of discontinued operations of approximately \$123.8 million on the above sales.

5. Commitments to Acquire/Dispose of Real Estate

In addition to the property that was subsequently acquired as discussed in Note 16, the Company had entered into separate agreements to acquire the following (purchase price in thousands):

	Properties	Apartment Units	Purchase Price
Rental Properties	3	975	\$ 255,250
Land Parcels (one)			12,000
Total	3	975	\$ 267,250

In addition to the properties that were subsequently disposed of as discussed in Note 16, the Company had entered into separate agreements to dispose of the following (sales price in thousands):

	Properties	Apartment Units	Sales Price
Rental Properties	7	2,797	\$ 240,880
Total	7	2,797	\$ 240,880

The closings of these pending transactions are subject to certain conditions and restrictions, therefore, there can be no assurance that these transactions will be consummated or that the final terms will not differ in material respects from those summarized in the preceding paragraphs.

6. Investments in Partially Owned Entities

The Company has co-invested in various properties with unrelated third parties which are either consolidated or accounted for under the equity method of accounting (unconsolidated). The following tables and information summarize the Company's investments in partially owned entities as of March 31, 2011 (amounts in thousands except for project and apartment unit amounts):

- (1) Project and apartment unit counts exclude all uncompleted development projects until those projects are substantially completed.
- (2) All debt is non-recourse to the Company with the exception of \$14.0 million in mortgage debt on one development project.
- (3) Represents the Company's current economic ownership interest.
- (4) Projects included here are substantially complete. However, they may still require additional exterior and interior work for all apartment units to be available for leasing.

In 2010, the Company admitted an 80% institutional partner to an entity owning a developable land parcel in Florida in exchange for \$11.7 million in cash and retained a 20% equity interest. This land parcel is now unconsolidated. Total project cost is approximately \$76.1 million and construction is expected to start in the second quarter of 2011. The Company is responsible for constructing the project and has given certain construction cost overrun guarantees. The Company's remaining funding obligation is currently estimated at approximately \$2.3 million.

The Company is the controlling partner in various consolidated partnership properties and development properties having a noncontrolling interest book value of \$7.7 million at March 31, 2011. The Company has identified its development partnerships as VIEs as the Company provides substantially all of the capital for these ventures (other than third party mortgage debt, if any) despite the fact that each partner legally owns 50% of each venture. The Company is the primary beneficiary as it exerts the most significant power over the ventures, absorbs the majority of the expected losses and has the right to receive a majority of the expected residual returns. The assets net of liabilities of the Company's VIEs are restricted in their use to the specific VIE to which they relate and are not available for general corporate use. The Company does not have any unconsolidated VIEs.

7. Deposits Restricted

The following table presents the Company's restricted deposits as of March 31, 2011 and December 31, 2010 (amounts in thousands):

	March 31, 2011	December 31, 2010
Tax deferred (1031) exchange proceeds	\$ 212,779	\$ 103,887
Earnest money on pending acquisitions	8,250	9,264

Totals	\$ 309,605	\$ 180,987

(1) Primarily represents amounts held in escrow by the lender and released as draw requests are made on fully funded

Table of Contents

development mortgage loans.

8. Mortgage Notes Payable

As of March 31, 2011, the Company had outstanding mortgage debt of approximately \$4.6 billion.

During the quarter ended March 31, 2011, the Company:

§ Repaid \$205.0 million of mortgage loans;

§ Obtained \$0.7 million of new mortgage loan proceeds; and

§ Assumed \$26.9 million of mortgage debt on one acquired property.

As of March 31, 2011, the Company had \$543.4 million of secured debt subject to third party credit enhancement.

As of March 31, 2011, scheduled maturities for the Company's outstanding mortgage indebtedness were at various dates through September 1, 2048. At March 31, 2011, the interest rate range on the Company's mortgage debt was 0.20% to 11.25%. During the quarter ended March 31, 2011, the weighted average interest rate on the Company's mortgage debt was 4.76%.

9. Notes

As of March 31, 2011, the Company had outstanding unsecured notes of approximately \$5.1 billion.

During the quarter ended March 31, 2011, the Company:

§ Repaid \$93.1 million of 6.95% unsecured notes at maturity.

As of March 31, 2011, scheduled maturities for the Company's outstanding notes were at various dates through 2026. At March 31, 2011, the interest rate range on the Company's notes was 0.75% to 7.57%. During the quarter ended March 31, 2011, the weighted average interest rate on the Company's notes was 5.08%.

10. Lines of Credit

The Operating Partnership has a \$1.425 billion (net of \$75.0 million which had been committed by a now bankrupt financial institution and is not available for borrowing) unsecured revolving credit facility maturing on February 28, 2012, with the ability to increase available borrowings by an additional \$500.0 million by adding additional banks to the facility or obtaining the agreement of existing banks to increase their commitments. Advances under the credit facility bear interest at variable rates based upon LIBOR at various interest periods plus a spread (currently 0.50%) dependent upon the Operating Partnership's credit rating or based on bids received from the lending group. EQR has guaranteed the Operating Partnership's credit facility up to the maximum amount and for the full term of the facility.

As of March 31, 2011, the amount available on the credit facility was \$1.34 billion (net of \$83.7 million which was restricted/dedicated to support letters of credit and net of the \$75.0 million discussed above). The Company did not draw and had no balance outstanding on its revolving credit facility at any time during the quarter ended March 31, 2011.

11. Derivative and Other Fair Value Instruments

The valuation of financial instruments requires the Company to make estimates and judgments that affect the fair value of the instruments. The Company, where possible, bases the fair values of its financial instruments, including its derivative instruments, on listed market prices and third party quotes. Where these are not available, the Company bases its estimates on current instruments with similar terms and maturities or on other factors relevant to the financial instruments.

The carrying values of the Company's mortgage notes payable and unsecured notes were approximately \$4.6 billion and \$5.1 billion, respectively, at March 31, 2011. The fair values of the Company's mortgage notes payable and unsecured notes were approximately \$4.5 billion and \$5.4 billion, respectively, at March 31, 2011. The fair values of the Company's financial instruments (other than mortgage notes payable, unsecured notes, derivative instruments and investment securities) including cash and cash equivalents and other financial instruments, approximate their carrying or contract values.

In the normal course of business, the Company is exposed to the effect of interest rate changes. The Company seeks

Table of Contents

to manage these risks by following established risk management policies and procedures including the use of derivatives to hedge interest rate risk on debt instruments.

The following table summarizes the Company's consolidated derivative instruments at March 31, 2011 (dollar amounts are in thousands):

	Fair Value Hedges (1)	Forward Starting Swaps (2)	Development Cash Flow Hedges (3)
Current Notional Balance	\$315,693	\$950,000	\$88,833
Lowest Possible Notional	\$315,693	\$950,000	\$ 3,020
Highest Possible Notional	\$317,694	\$950,000	\$91,343
Lowest Interest Rate	2.009%	3.478%	4.059%
Highest Interest Rate	4.800%	4.695%	4.059%
Earliest Maturity Date	2012	2021	2011
Latest Maturity Date	2013	2023	2011

(1) Fair Value Hedges Converts outstanding fixed rate debt to a floating interest rate.

(2) Forward Starting Swaps Designed to partially fix the interest rate in advance of a planned future debt issuance. These swaps have mandatory counterparty terminations from 2012 through 2014, and \$350.0 million, \$400.0 million and \$200.0 million are designated for 2011, 2012 and 2013 maturities, respectively.

(3) Development Cash Flow Hedges Converts outstanding floating rate debt to a fixed interest rate.

The following tables provide the location of the Company's derivative instruments within the accompanying Consolidated Balance Sheets and their fair market values as of March 31, 2011 and December 31, 2010, respectively (amounts in thousands):

Total	\$ (13,503)		\$ (726)		\$	

As of March 31, 2011 and December 31, 2010, there were approximately \$51.3 million and \$58.3 million in deferred losses, net, included in accumulated other comprehensive (loss), respectively, related to derivative instruments. Based on the estimated fair values of the net derivative instruments at March 31, 2011, the Company may recognize an estimated \$4.8 million of accumulated other comprehensive (loss) as additional interest expense during the twelve months ending March 31, 2012.

The following table sets forth the maturity, amortized cost, gross unrealized gains and losses, book/fair value and interest and other income of the various investment securities held as of March 31, 2011 (amounts in thousands):

Security	Maturity	Other Assets				
		Amortized Cost	Unrealized Gains	Unrealized Losses	Book/Fair Value	Interest and Other Income
Available-for-Sale Investment Securities	N/A	\$ 675	\$ 666	\$	\$ 1,341	\$
Total		\$ 675	\$ 666	\$	\$ 1,341	\$

A three-level valuation hierarchy exists for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels are defined as follows:

- § Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- § Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Table of Contents

§ Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following tables provide a summary of the fair value measurements at March 31, 2011 and December 31, 2010 for each major category of assets and liabilities measured at fair value on a recurring basis:

Description	3/31/2011	Fair Value Measurements at Reporting Date Using

Liabilities				

Edgar Filing: EQUITY RESIDENTIAL - Form 10-Q

Derivatives	\$ 39,078	\$	\$ 39,078	\$
Supplemental Executive Retirement Plan	58,132	58,132		
Total	\$ 97,210	\$ 58,132	\$ 39,078	\$

Redeemable Noncontrolling Interests

Operating Partnership	\$ 383,540	\$	\$ 383,540	\$
-----------------------	------------	----	------------	----

The Company's derivative positions are valued using models developed by the respective counterparty as well as models developed internally by the Company that use as their basis readily observable market parameters (such as forward yield curves and credit default swap data). Employee holdings other than Common Shares within the supplemental executive retirement plan (the SERP) are valued using quoted market prices for identical assets and are included in other assets and other liabilities on the consolidated balance sheet. The Company's investment securities are valued using quoted market prices or readily available market interest rate data. Redeemable Noncontrolling Interests Operating Partnership are valued using the quoted market price of Common Shares.

12. Earnings Per Share

The following tables set forth the computation of net income per share basic and net income per share diluted (amounts in thousands except per share amounts):

Table of Contents

	Quarter Ended March 31,	
	2011	2010
Numerator for net income per share basic:		
Income (loss) from continuing operations	\$ 7,727	\$ (9,407)
Allocation to Noncontrolling Interests Operating Partnership, net	(197)	613
Net loss attributable to Noncontrolling Interests Partially Owned Properties	40	250
Preferred distributions	(3,466)	(3,620)
Income (loss) from continuing operations available to Common Shares, net of Noncontrolling Interests	4,104	(12,164)
Discontinued operations, net of Noncontrolling Interests	119,761	64,027
Numerator for net income per share basic	\$ 123,865	\$ 51,863
Numerator for net income per share diluted (1):		
Income from continuing operations	\$ 7,727	
Net loss attributable to Noncontrolling Interests Partially Owned Properties	40	
Preferred distributions	(3,466)	
Income from continuing operations available to Common Shares	4,301	
Discontinued operations, net	125,339	
Numerator for net income per share diluted (1)	\$ 129,640	\$ 51,863
Denominator for net income per share basic and diluted (1):		
Denominator for net income per share basic	292,895	280,645
Effect of dilutive securities:		
OP Units	13,353	
Long-term compensation award shares/units	4,219	
Denominator for net income per share diluted (1)	310,467	280,645
Net income per share basic	\$ 0.42	\$ 0.18
Net income per share diluted	\$ 0.42	\$ 0.18
Net income per share basic:		
	\$ 0.014	\$ (0.043)

Income (loss) from continuing operations available to Common Shares, net of Noncontrolling Interests		
Discontinued operations, net of Noncontrolling Interests	0.409	0.228
Net income per share basic	\$ 0.423	\$ 0.185
Net income per share diluted (1):		
Income (loss) from continuing operations available to Common Shares	\$ 0.014	\$ (0.043)
Discontinued operations, net	0.404	0.228
Net income per share diluted	\$ 0.418	\$ 0.185

- (1) Potential common shares issuable from the assumed conversion of OP Units and the exercise/vesting of long-term compensation award shares/units are automatically anti-dilutive and therefore excluded from the diluted earnings per share calculation as the Company had a loss from continuing operations for the quarter ended March 31, 2010.

Convertible preferred shares/units that could be converted into 0 and 397,611 weighted average Common Shares for the quarters ended March 31, 2011 and 2010, respectively, were outstanding but were not included in the computation of diluted earnings per share because the effects would be anti-dilutive. In addition, the effect of the Common Shares that could ultimately be issued upon the conversion/exchange of the Operating Partnership's \$650.0 million (\$482.5 million outstanding at March 31, 2011) exchangeable senior notes was not included in the computation of diluted earnings per share because the effects would be anti-dilutive.

13. Discontinued Operations

The Company has presented separately as discontinued operations in all periods the results of operations for all consolidated assets disposed of and all properties held for sale, if any.

The components of discontinued operations are outlined below and include the results of operations for the respective periods that the Company owned such assets during the quarters ended March 31, 2011 and 2010 (amounts in thousands).

Table of Contents

	Quarter Ended March 31,	
	2011	2010
REVENUES		
Rental income	\$ 5,890	\$ 25,969
Total revenues	5,890	25,969
EXPENSES (1)		
Property and maintenance	2,709	7,831
Real estate taxes and insurance	477	2,777
Depreciation	1,395	6,692
General and administrative	9	3
Total expenses	4,590	17,303
Discontinued operating income	1,300	8,666
Interest and other income	44	6
Interest (2):		
Expense incurred, net	326	(1,208)
Amortization of deferred financing costs	(51)	(201)
Income and other tax (expense) benefit	(34)	(36)
Discontinued operations	1,585	7,227
Net gain on sales of discontinued operations	123,754	60,036
Discontinued operations, net	\$ 125,339	\$ 67,263

(1) Includes expenses paid in the current period for properties sold or held for sale in prior periods related to the Company's period of ownership.

(2) Includes only interest expense specific to secured mortgage notes payable for properties sold and/or held for sale.

For the properties sold during the quarter ended March 31, 2011, the investment in real estate, net of accumulated depreciation, and the mortgage notes payable balances at December 31, 2010 were \$135.3 million and \$11.0 million, respectively.

14. Commitments and Contingencies

The Company, as an owner of real estate, is subject to various Federal, state and local environmental laws. Compliance by the Company with existing laws has not had a material adverse effect on the Company. However, the Company cannot predict the impact of new or changed laws or regulations on its current properties or on properties that it may acquire in the future.

The Company is party to a housing discrimination lawsuit brought by a non-profit civil rights organization in April 2006 in the U.S. District Court for the District of Maryland. The suit alleges that the Company designed and

built approximately 300 of its properties in violation of the accessibility requirements of the Fair Housing Act and Americans With Disabilities Act. The suit seeks actual and punitive damages, injunctive relief (including modification of non-compliant properties), costs and attorneys' fees. The Company believes it has a number of viable defenses, including that a majority of the named properties were completed before the operative dates of the statutes in question and/or were not designed or built by the Company. Accordingly, the Company is defending the suit vigorously. Due to the pendency of the Company's defenses and the uncertainty of many other critical factual and legal issues, it is not possible to determine or predict the outcome of the suit or a possible loss or a range of loss, and no amounts have been accrued at March 31, 2011. While no assurances can be given, the Company does not believe that the suit, if adversely determined, would have a material adverse effect on the Company.

The Company does not believe there is any other litigation pending or threatened against it that, individually or in the aggregate, may reasonably be expected to have a material adverse effect on the Company.

The Company has established a reserve and recorded a corresponding reduction to its net gain on sales of discontinued operations related to potential liabilities associated with its condominium conversion activities. The reserve covers potential product liability related to each conversion. The Company periodically assesses the adequacy of the reserve and makes adjustments as necessary. During the quarter ended March 31, 2011, the Company paid approximately \$0.2 million in settlements and legal fees and released approximately \$0.2

Table of Contents

million of remaining reserves for settled claims. As a result, the Company had total reserves of approximately \$2.9 million at March 31, 2011. While no assurances can be given, the Company does not believe that the ultimate resolution of these potential liabilities, if adversely determined, would have a material adverse effect on the Company.

As of March 31, 2011, the Company has four projects totaling 747 apartment units in various stages of development with estimated completion dates ranging through September 30, 2013, as well as other completed development projects that are in various stages of lease up or are stabilized. Some of the projects were developed solely by the Company, while others were co-developed with various third party development partners. The development venture agreements with partners are primarily deal-specific, with differing terms regarding profit-sharing, equity contributions, returns on investment, buy-sell agreements and other customary provisions. The partner is most often the general or managing partner of the development venture. The typical buy-sell arrangements contain appraisal rights and provisions that provide the right, but not the obligation, for the Company to acquire the partner's interest in the project at fair market value upon the expiration of a negotiated time period (typically two to five years after substantial completion of the project).

15. Reportable Segments

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by senior management. Senior management decides how resources are allocated and assesses performance on a monthly basis.

The Company's primary business is the acquisition, development and management of multifamily residential properties, which includes the generation of rental and other related income through the leasing of apartment units to residents. Senior management evaluates the performance of each of our apartment communities individually and geographically, and both on a same store and non-same store basis; however, each of our apartment communities generally has similar economic characteristics, residents, products and services. The Company's operating segments have been aggregated by geography in a manner identical to that which is provided to its chief operating decision maker.

The Company's fee and asset management, development (including its partially owned properties), condominium conversion and corporate housing (Equity Corporate Housing or ECH) activities are immaterial and do not individually meet the threshold requirements of a reportable segment and as such, have been aggregated in the Other segment in the tables presented below.

All revenues are from external customers and there is no customer who contributed 10% or more of the Company's total revenues during the quarters ended March 31, 2011 and 2010, respectively.

The primary financial measure for the Company's rental real estate segment is net operating income (NOI), which represents rental income less: 1) property and maintenance expense; 2) real estate taxes and insurance expense; and 3) property management expense (all as reflected in the accompanying consolidated statements of operations). The Company believes that NOI is helpful to investors as a supplemental measure of its operating performance because it is a direct measure of the actual operating results of the Company's apartment communities. Current year NOI is compared to prior year NOI and current year budgeted NOI as a measure of financial performance. The following tables present NOI for each segment from our rental real estate specific to continuing operations for the quarters ended March 31, 2011 and 2010, respectively, as well as total assets at March 31, 2011 (amounts in thousands):

Table of Contents

	Quarter Ended March 31, 2011					Total
	Northeast	Northwest	Southeast	Southwest	Other (3)	
Rental income:						
Same store (1)	\$ 151,373	\$ 88,893	\$ 97,531	\$ 110,150	\$	\$ 447,947
Non-same store/other (2) (3)	28,474	8,061	4,787	7,313	22,235	70,870
Total rental income	179,847	96,954	102,318	117,463	22,235	518,817
Operating expenses:						
Same store (1)	58,874	32,404	39,346	37,615		168,239
Non-same store/other (2) (3)	11,967	3,379	1,867	3,135	18,175	38,523
Total operating expenses	70,841	35,783	41,213	40,750	18,175	206,762
NOI:						
Same store (1)	92,499	56,489	58,185	72,535		279,708
Non-same store/other (2) (3)	16,507	4,682	2,920	4,178	4,060	32,347
Total NOI	\$ 109,006	\$ 61,171	\$ 61,105	\$ 76,713	\$ 4,060	\$ 312,055
Total assets	\$ 6,050,142	\$ 2,623,015	\$ 2,700,350	\$ 3,194,880	\$ 1,506,942	\$ 16,075,329

- (1) Same store primarily includes all properties acquired or completed and stabilized prior to January 1, 2010, less properties subsequently sold, which represented 112,363 apartment units.
- (2) Non-same store primarily includes properties acquired after January 1, 2010, plus any properties in lease-up and not stabilized as of January 1, 2010.
- (3) Other includes ECH, development, condominium conversion overhead of \$0.1 million and other corporate operations. Also reflects a \$2.4 million elimination of rental income recorded in Northeast, Northwest, Southeast and Southwest operating segments related to ECH.

	Quarter Ended March 31, 2010					Total
	Northeast	Northwest	Southeast	Southwest	Other (3)	
Rental income:						
Same store (1)	\$ 143,813	\$ 84,971	\$ 94,389	\$ 107,500	\$	\$ 430,673
Non-same store/other (2) (3)	12,057	1,464	1,699	1,062	15,622	31,904
Total rental income	155,870	86,435	96,088	108,562	15,622	462,577
Operating expenses:						

Edgar Filing: EQUITY RESIDENTIAL - Form 10-Q

Same store (1)	57,903	32,308	40,483	39,327		170,021
Non-same store/other (2)						
(3)	5,622	754	826	854	18,193	26,249

Total NOI	\$ 92,345	\$ 53,373	\$ 54,779	\$ 68,381	\$ (2,571)	\$ 266,307

- (1) Same store primarily includes all properties acquired or completed and stabilized prior to January 1, 2010, less properties subsequently sold, which represented 112,363 apartment units.
- (2) Non-same store primarily includes properties acquired after January 1, 2010, plus any properties in lease-up and not stabilized as of January 1, 2010.
- (3) Other includes ECH, development, condominium conversion overhead of \$0.2 million and other corporate operations. Also reflects a \$2.0 million elimination of rental income recorded in Northeast, Northwest, Southeast and Southwest operating segments related to ECH.

Note: Markets included in the above geographic segments are as follows:

- (a) Northeast New England (excluding Boston), Boston, New York Metro, DC Northern Virginia and Suburban Maryland.
- (b) Northwest Denver, Portland, San Francisco Bay Area and Seattle/Tacoma.
- (c) Southeast Atlanta, Jacksonville, Orlando, South Florida and Tampa.
- (d) Southwest Albuquerque, Inland Empire, Los Angeles, Orange County, Phoenix and San Diego.

The following table presents a reconciliation of NOI from our rental real estate specific to continuing operations for the quarters ended March 31, 2011 and 2010, respectively (amounts in thousands):

Table of Contents

	Quarter Ended March 31,	
	2011	2010
Rental income	\$ 518,817	\$ 462,577
Property and maintenance expense	(128,357)	(120,203)
Real estate taxes and insurance expense	(56,024)	(55,575)
Property management expense	(22,381)	(20,492)
Total operating expenses	(206,762)	(196,270)
Net operating income	\$ 312,055	\$ 266,307

16. Subsequent Events/Other*Subsequent Events*

Subsequent to March 31, 2011, the Company:

- § Repaid \$193.7 million in mortgage loans;
- § Obtained \$91.5 million of new mortgage loan proceeds;
- § Acquired one operating property consisting of 322 apartment units for \$100.0 million and one land parcel for \$12.9 million;
- § Sold 15 properties containing 4,369 apartment units for \$530.2 million; and
- § Exercised the second of its two one-year extension options for its \$500.0 million term loan facility and as a result, the maturity date is now October 5, 2012.

Other

During the quarters ended March 31, 2011 and 2010, the Company incurred charges of \$0.5 million and \$3.4 million, respectively, related to property acquisition costs, such as survey, title and legal fees, on the acquisition of operating properties and \$1.7 million and \$1.0 million, respectively, related to the write-off of various pursuit and out-of-pocket costs for terminated acquisition, disposition and development transactions. These costs, totaling \$2.2 million and \$4.4 million, respectively, are included in other expenses in the accompanying consolidated statements of operations.

During the quarter ended March 31, 2010, the Company received \$2.0 million for the settlement of insurance/litigation claims, which are included in interest and other income in the accompanying consolidated statements of operations.

In 2010, a portion of the parking garage collapsed at one of the Company's rental properties (Prospect Towers in Hackensack, New Jersey). The Company estimates that the costs related to such collapse (both expensed and capitalized), including providing for residents' interim needs, lost revenue and garage reconstruction, will be approximately \$14.0 million, after insurance reimbursements of \$8.0 million. Costs to rebuild the garage are capitalized as incurred. Other costs, like those to accommodate displaced residents, lost revenue due to a portion of the project being temporarily unavailable for occupancy and legal costs, reduce earnings as they are incurred. Generally, insurance proceeds are recorded as increases to earnings as they are received. During the quarter ended March 31, 2011, the Company received approximately \$1.6 million in insurance proceeds which offset expenses of \$0.9 million that were recorded relating to this loss and are included in real estate taxes and insurance on the consolidated statements of operations.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

For further information including definitions for capitalized terms not defined herein, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Forward-Looking Statements

Forward-looking statements in this report are intended to be made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are based on current expectations, estimates, projections and assumptions made by management. While the Company's management believes the assumptions underlying its forward-looking statements are reasonable, such information is inherently subject to uncertainties and may involve certain risks, which could cause actual results, performance or achievements of the Company to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements. Many of these uncertainties and risks are difficult to predict and beyond management's control. Forward-looking statements are not guarantees of future performance, results or events. The forward-looking statements contained herein are made as of the date hereof and the Company undertakes no obligation to update or supplement these forward-looking statements. Factors that might cause such differences include, but are not limited to the following:

- § We intend to actively acquire and/or develop multifamily properties for rental operations as market conditions dictate. We may also acquire multifamily properties that are unoccupied or in the early stages of lease up. We may be unable to lease up these apartment properties on schedule, resulting in decreases in expected rental revenues and/or lower yields due to lower occupancy and rates as well as higher than expected concessions. We may underestimate the costs necessary to bring an acquired property up to standards established for its intended market position or to complete a development property. Additionally, we expect that other major real estate investors with significant capital will compete with us for attractive investment opportunities or may also develop properties in markets where we focus our development efforts. This competition (or lack thereof) may increase (or depress) prices for multifamily properties. We may not be in a position or have the opportunity in the future to make suitable property acquisitions on favorable terms. The total number of development apartment units, costs of development and estimated completion dates are subject to uncertainties arising from changing economic conditions (such as the cost of labor and construction materials), competition and local government regulation;
- § Debt financing and other capital required by the Company may not be available or may only be available on adverse terms;
- § Labor and materials required for maintenance, repair, capital expenditure or development may be more expensive than anticipated;
- § Occupancy levels and market rents may be adversely affected by national and local economic and market conditions including, without limitation, new construction and excess inventory of multifamily housing and single family housing, slow or negative employment growth, availability of low interest mortgages for single family home buyers and the potential for geopolitical instability, all of which are beyond the Company's control; and
- § Additional factors as discussed in Part I of the Company's Annual Report on Form 10-K, particularly those under Item 1A. Risk Factors.

Forward-looking statements and related uncertainties are also included in the Notes to Consolidated Financial Statements in this report.

Overview

Equity Residential (EQR), a Maryland real estate investment trust (REIT) formed in March 1993, is an S&P 500 company focused on the acquisition, development and management of high quality apartment properties in top United

States growth markets. EQR has elected to be taxed as a REIT.

The Company is one of the largest publicly traded real estate companies and is the largest publicly traded owner of multifamily properties in the United States (based on the aggregate market value of its outstanding Common Shares, the number of apartment units wholly owned and total revenues earned). The Company's corporate headquarters are located in Chicago, Illinois and the Company also operates property management offices in each of its markets. As of March 31, 2011, the Company had approximately 4,000 employees who provided real estate operations, leasing, legal, financial, accounting, acquisition, disposition, development and other support functions.

Table of Contents

EQR is the general partner of, and as of March 31, 2011 owned an approximate 95.5% ownership interest in, ERP Operating Limited Partnership, an Illinois limited partnership (the Operating Partnership). All of EQR's property ownership, development and related business operations are conducted through the Operating Partnership and its subsidiaries. References to the Company include EQR, the Operating Partnership and those entities owned or controlled by the Operating Partnership and/or EQR.

Business Objectives and Operating Strategies

The Company invests in apartment communities located in strategically targeted markets with the goal of maximizing our risk adjusted total return (operating income plus capital appreciation) on invested capital.

Our operating focus is on balancing occupancy and rental rates to maximize our revenue while exercising tight cost control to generate the highest possible return to our shareholders. Revenue is maximized by driving qualified resident prospects to our properties, converting this traffic cost-effectively into new leases at the highest rent possible, keeping our residents satisfied and renewing their leases at yet higher rents. While we believe that it is our high-quality, well-located assets that bring our customers to us, it is our customer service that keeps them renting with us and recommending us to their friends.

We use technology to engage our customers in the way that they want to be engaged. Many of our residents utilize our web-based resident portal which allows them to review their account and make payments, provide feedback and make service requests on-line.

We seek to maximize capital appreciation of our properties by investing in markets that are characterized by conditions favorable to multifamily property appreciation. These markets generally feature one or more of the following:

- High barriers to entry where, because of land scarcity or government regulation, it is difficult or costly to build new apartment properties leading to low supply;

- High single family home prices making our apartments a more economical housing choice;

- Strong economic growth leading to household formation and job growth, which in turn leads to high demand for our apartments; and

- An attractive quality of life leading to high demand and retention and allowing us to more readily increase rents.

Acquisitions and developments may be financed from various sources of capital, which may include retained cash flow, issuance of additional equity and debt securities, sales of properties, joint venture agreements and collateralized and uncollateralized borrowings. In addition, the Company may acquire properties in transactions that include the issuance of limited partnership interests in the Operating Partnership (OP Units) as consideration for the acquired properties. Such transactions may, in certain circumstances, enable the sellers to defer, in whole or in part, the recognition of taxable income or gain that might otherwise result from the sales. EQR may also acquire land parcels to hold and/or sell based on market opportunities. The Company may also seek to acquire properties by purchasing defaulted or distressed debt that encumbers desirable properties in the hope of obtaining title to property through foreclosure or deed-in-lieu of foreclosure proceedings. The Company has also, in the past, converted some of its properties and sold them as condominiums but is not currently active in this line of business.

The Company primarily sources the funds for new property acquisitions in its core markets with the proceeds from selling assets that are older or located in non-core markets. Since 2006, the Company has sold almost 100,000 apartment units for an aggregate sales price of approximately \$7.5 billion and acquired nearly 25,000 apartment units in its core markets for approximately \$5.6 billion. We are currently acquiring and developing assets primarily in the following targeted metropolitan areas: Boston, New York, Washington DC, South Florida, Southern California, San Francisco, Seattle and to a lesser extent Denver. We also have investments (in the aggregate about 17.4% of our NOI at March 31, 2011) in other markets including Atlanta, Phoenix, Portland, Oregon, New England excluding Boston, Tampa, Orlando and Jacksonville but do not currently intend to acquire or develop assets in these markets.

As part of its strategy, the Company purchases completed and fully occupied apartment properties, partially completed or partially occupied properties or land on which apartment properties can be constructed. We intend to hold a diversified portfolio of assets across our target markets. As of March 31, 2011, no single metropolitan area accounted for more than 16.1% of our NOI, though no guarantee can be made that NOI concentration may not

increase in the future.

We endeavor to attract and retain the best employees by providing them with the education, resources and

Table of Contents

opportunities to succeed. We provide many classroom and on-line training courses to assist our employees in interacting with prospects and residents as well as extensively train our customer service specialists in maintaining the equipment and appliances on our property sites. We actively promote from within and many senior corporate and property leaders have risen from entry level or junior positions. We monitor our employees' engagement by surveying them annually and have consistently received high engagement scores.

We have a commitment to sustainability and consider the environmental impacts of our business activities. With its high density, multifamily housing is, by its nature, an environmentally friendly property type. Our recent acquisition and development activities have been primarily concentrated in pedestrian-friendly urban locations near public transportation. When developing and renovating our properties, we strive to reduce energy and water usage by investing in energy saving technology while positively impacting the experience of our residents and the value of our assets. We continue to implement a combination of irrigation, lighting and HVAC improvements at our properties that will reduce energy and water consumption.

Current Environment

After much caution in 2009 due to the uncertainty in the economy and capital markets, late 2009 and early 2010 saw stabilization in the capital markets and modest improvements in the general economy. Property occupancy began to improve and in response, the Company began acquiring assets and increasing rents for both new and renewing residents, which led to better operating and investment performance. The Company increased rents to a greater extent in regions like the Northeast, where the economy was stronger and multifamily operating conditions were better. In 2010, the Company ceased to hold the large cash balances (often \$1.0 billion or more) that it held in 2009 in anticipation of debt maturities in an unsure capital markets climate. This had the result of increasing the Company's earnings by decreasing the amount of cash on hand that was earning limited interest income and instead was used to pay down higher cost debt. Finally, the Company was aggressive in acquiring \$1.5 billion of assets in its target markets in 2010.

Improvement continued throughout 2010, and in 2011 we expect strong growth in same store revenue (anticipated increases ranging from 4.0% to 5.0%) and NOI (anticipated increases ranging from 5.0% to 7.5%) and are optimistic that the improvement realized in 2010 will be sustained for the foreseeable future. Our strong results in the first quarter of 2011, with same store revenues up 4.0% and same store NOI up 7.3% over the first quarter of 2010, now lead us to believe that we may trend towards the higher end of these same store ranges for the year. Despite the anticipated improvement in operations, we still expect our full year Normalized Funds From Operations to fall near the midpoint of our guidance ranges due to increased dilution from our accelerated dispositions (see further discussions below).

We currently have access to multiple sources of capital including the equity markets as well as both the secured and unsecured debt markets. In July 2010, the Company completed a \$600.0 million unsecured ten year note offering with a coupon of 4.75% and an all-in effective interest rate of 5.09%. The Company also raised \$291.9 million in equity under its ATM Common Share offering program in 2010 and has raised an additional \$154.5 million under this program thus far in 2011.

In response to what we believe is a current robust market and favorable pricing for our non-strategic assets, we have accelerated our disposition program in 2011. Through April 28, 2011, we have sold 27 consolidated properties consisting of 7,100 apartment units for \$792.0 million. Based on the activity to date, the majority of our anticipated \$1.25 billion in 2011 dispositions will occur in the first half of the year. While the accelerated disposition program will result in increased dilution (due to the lost NOI from sales proceeds that were not reinvested in other apartment properties) which will negatively impact Normalized Funds From Operations, we believe that we can maximize long-term returns to our shareholders by selling non-strategic assets at current pricing levels.

Competition for the properties we are interested in acquiring is significant due to the overall improvement in market fundamentals and we expect a greater concentration of our 2011 acquisitions to occur in the latter half of the year. We believe our access to capital, our ability to execute large, complex transactions and our ability to efficiently stabilize large scale lease up properties provide us with a competitive advantage. The Company acquired two consolidated properties consisting of 521 apartment units for \$139.0 million and one commercial building for potential redevelopment for \$11.8 million during the quarter ended March 31, 2011.

We believe that cash and cash equivalents, securities readily convertible to cash, current availability on our revolving credit facility and disposition proceeds for 2011 will provide sufficient liquidity to meet our funding obligations relating to asset acquisitions, debt maturities and existing development projects through 2011. We expect that our remaining longer-term funding requirements will be met through some combination of new borrowings, equity issuances (including the Company's ATM share offering program), property dispositions, joint ventures and cash generated from operations. There is significant uncertainty surrounding the futures of Fannie Mae and Freddie Mac. Any changes to their mandates could have a significant impact on the Company and may, among other things, lead to

Table of Contents

lower values for our disposition assets and higher interest rates on our borrowings. Such changes may also provide an advantage to us by making the cost of financing single family home ownership more expensive and provide us a competitive advantage given the size of our balance sheet and the multiple sources of capital to which we have access.

We believe that the Company is well-positioned as of March 31, 2011 because our properties are geographically diverse and were approximately 95.1% occupied (95.0% on a same store basis), little new multifamily rental supply will be added to most of our markets over the next several years and the long-term demographic picture is positive. We believe our strong balance sheet and ample liquidity will allow us to fund our debt maturities and development costs in the near term, and should also allow us to take advantage of investment opportunities in the future. As economic conditions continue to improve, the short-term nature of our leases and the limited supply of new rental housing being constructed should allow us to realize revenue growth and improvement in our operating results.

The Company anticipates that 2011 same store expenses will only increase 1.0% to 2.0% primarily due to modest increases in payroll expenses, real estate tax rates and utility cost growth (same store expenses increased 0.9% for 2010 when compared with the same period in the prior year). This follows three consecutive years of excellent expense control (same store expenses declined 0.1% between 2009 and 2008 and grew 2.2% between 2008 and 2007 and 2.1% between 2007 and 2006). Effective expense controls continued in the first quarter of 2011 as same store expenses declined 1.0% as compared to the first quarter of 2010. The Company now anticipates that its same store expenses will trend towards the lower end of its guidance range.

The current environment information presented above is based on current expectations and is forward-looking.

Results of Operations

In conjunction with our business objectives and operating strategy, the Company continued to invest in apartment properties located in strategically targeted markets during the quarter ended March 31, 2011 as follows:

- § Acquired \$139.0 million of apartment properties consisting of two consolidated properties and 521 apartment units at a weighted average cap rate (see definition below) of 5.7%, both of which we deem to be in our strategic targeted markets;
- § Acquired a 97,000 square foot commercial building adjacent to our Harbor Steps apartment property in downtown Seattle for \$11.8 million for potential redevelopment; and
- § Sold \$261.8 million of consolidated apartment properties consisting of 12 properties and 2,731 apartment units at a weighted average cap rate of 6.7%, the majority of which was in exit or less desirable markets.

The Company's primary financial measure for evaluating each of its apartment communities is net operating income (NOI). NOI represents rental income less property and maintenance expense, real estate tax and insurance expense and property management expense. The Company believes that NOI is helpful to investors as a supplemental measure of its operating performance because it is a direct measure of the actual operating results of the Company's apartment communities. The cap rate is generally the first year NOI yield (net of replacements) on the Company's investment.

Properties that the Company owned for all of both of the quarters ended March 31, 2011 and 2010 (the First Quarter 2011 Same Store Properties), which represented 112,363 apartment units, impacted the Company's results of operations. The First Quarter 2011 Same Store Properties are discussed in the following paragraphs.

The Company's acquisition, disposition and completed development activities also impacted overall results of operations for the quarters ended March 31, 2011 and 2010. The impacts of these activities are discussed in greater detail in the following paragraphs.

Comparison of the quarter ended March 31, 2011 to the quarter ended March 31, 2010

For the quarter ended March 31, 2011, the Company reported diluted earnings per share of \$0.42 compared to \$0.18 per share in the same period of 2010. The difference is primarily due to higher gains from property sales in 2011 vs. 2010 and higher total property net operating income driven by the positive impact of the Company's same store and lease-up activity, partially offset by dilution from the Company's 2010 and 2011 transaction activity.

For the quarter ended March 31, 2011, income from continuing operations increased approximately \$17.1 million when compared to the quarter ended March 31, 2010. The increase in continuing operations is discussed

below.

Revenues from the First Quarter 2011 Same Store Properties increased \$17.3 million primarily as a result of an

30

Table of Contents

increase in average rental rates charged to residents, an increase in occupancy and a decrease in resident turnover. Expenses from the First Quarter 2011 Same Store Properties decreased \$1.8 million primarily due to decreases in repairs and maintenance expenses and on-site payroll costs, partially offset by increases in property management costs. The following tables provide comparative same store results and statistics for the First Quarter 2011 Same Store Properties:

First Quarter 2011 vs. First Quarter 2010
Same Store Results/Statistics
\$ in thousands (except for Average Rental Rate) 112,363 Same Store Apartment Units

Description	Results			Average Rental Rate	Statistics	
	Revenues	Expenses	NOI	(1)	Occupancy	Turnover
Q1 2011	\$ 447,947	\$ 168,239	\$ 279,708	\$ 1,400	95.0%	11.6%
Q1 2010	\$ 430,673	\$ 170,021	\$ 260,652	\$ 1,352	94.6%	11.8%
Change	\$ 17,274	\$ (1,782)	\$ 19,056	\$ 48	0.4%	(0.2%)
Change	4.0%	(1.0%)	7.3%	3.6%		

(1) Average rental rate is defined as total rental revenues divided by the weighted average occupied apartment units for the period.

The following table provides comparative same store operating expenses for the First Quarter 2011 Same Store Properties:

First Quarter 2011 vs. First Quarter 2010
Same Store Operating Expenses
\$ in thousands 112,363 Same Store Apartment Units

Description	Actual	Actual	\$	%	% of Actual Q1 2011 Operating Expenses
	Q1 2011	Q1 2010	Change	Change	
Real estate taxes	\$ 44,613	\$ 44,445	\$ 168	0.4%	26.5%
On-site payroll (1)	39,757	40,453	(696)	(1.7%)	23.6%
Utilities (2)	28,285	27,752	533	1.9%	16.8%
Repairs and maintenance (3)	23,501	25,034	(1,533)	(6.1%)	14.0%
Property management costs (4)	18,097	17,227	870	5.1%	10.8%
Insurance	5,256	5,571	(315)	(5.7%)	3.1%
Leasing and advertising	3,218	3,802	(584)	(15.4%)	1.9%
Other on-site operating expenses (5)	5,512	5,737	(225)	(3.9%)	3.3%
Same store operating expenses	\$ 168,239	\$ 170,021	\$ (1,782)	(1.0%)	100.0%

(1) On-site payroll Includes payroll and related expenses for on-site personnel including property managers, leasing consultants and maintenance staff.

- (2) Utilities Represents gross expenses prior to any recoveries under the Resident Utility Billing System (RUBS). Recoveries are reflected in rental income.
- (3) Repairs and maintenance Includes general maintenance costs, apartment unit turnover costs including interior painting, routine landscaping, security, exterminating, fire protection, snow removal, elevator, roof and parking lot repairs and other miscellaneous building repair costs.
- (4) Property management costs Includes payroll and related expenses for departments, or portions of departments, that directly support on-site management. These include such departments as regional and corporate property management, property accounting, human resources, training, marketing and revenue management, procurement, real estate tax, property legal services and information technology.
- (5) Other on-site operating expenses Includes administrative costs such as office supplies, telephone and data charges and association and business licensing fees.

The following table presents a reconciliation of operating income per the consolidated statements of operations to NOI for the First Quarter 2011 Same Store Properties:

Table of Contents

	Quarter Ended March 31,	
	2011	2010
	(Amounts in thousands)	
Operating income	\$ 133,510	\$ 110,008
Adjustments:		
Non-same store operating results	(32,347)	(5,655)
Fee and asset management revenue	(1,806)	(2,422)
Fee and asset management expense	948	1,958
Depreciation	167,968	146,042
General and administrative	11,435	10,721
Same store NOI	\$ 279,708	\$ 260,652

For properties that the Company acquired prior to January 1, 2010 and expects to continue to own through December 31, 2011, the Company anticipates the following same store results for the full year ending December 31, 2011:

2011 Same Store Assumptions

Physical occupancy	95.0%
Revenue change	4.0% to 5.0%
Expense change	1.0% to 2.0%
NOI change	5.0% to 7.5%

The Company anticipates consolidated rental acquisitions of \$1.0 billion and consolidated rental dispositions of \$1.25 billion and expects that acquisitions will have a 1.25% lower cap rate than dispositions for the full year ending December 31, 2011.

These 2011 assumptions are based on current expectations and are forward-looking.

Non-same store operating results increased approximately \$26.7 million and consist primarily of properties acquired in calendar years 2010 and 2011, as well as operations from the Company's completed development properties and corporate housing business. Although the operations of both the non-same store assets and the same store assets have been positively impacted during the quarter ended March 31, 2011, the non-same store assets have contributed a greater percentage of total NOI to the Company's overall operating results primarily due to 2010 acquisitions, increasing occupancy for properties in lease-up and a longer ownership period in 2011 than 2010. This increase primarily resulted from:

§ Development and other miscellaneous properties in lease-up of \$9.3 million;

§ Properties acquired in 2010 and 2011 of \$13.4 million;

§ Newly stabilized development properties of \$1.0 million; and

§ Partially offset by other miscellaneous properties of \$1.1 million.

See also Note 15 in the Notes to Consolidated Financial Statements for additional discussion regarding the Company's segment disclosures.

Fee and asset management revenues, net of fee and asset management expenses, increased approximately \$0.4 million or 84.9% primarily due to a decrease in asset management expenses, partially offset by the loss of fees due to the unwinding of four institutional joint ventures during 2010.

Property management expenses from continuing operations include off-site expenses associated with the self-management of the Company's properties as well as management fees paid to any third party management

companies. These expenses increased approximately \$1.9 million or 9.2%. This increase is primarily attributable to an increase in payroll-related costs, which is largely a result of the creation of the Company's central business group, which moved certain administrative functions off-site.

Depreciation expense from continuing operations, which includes depreciation on non-real estate assets, increased approximately \$21.9 million or 15.0% primarily as a result of additional depreciation expense on properties acquired in 2010 and 2011, development properties placed in service and capital expenditures for all properties owned.

General and administrative expenses from continuing operations, which include corporate operating expenses,

Table of Contents

increased approximately \$0.7 million or 6.7% primarily due to an increase in payroll-related costs, which is largely a result of the acceleration of long-term compensation expense for retirement eligible employees. The Company anticipates that general and administrative expenses will approximate \$40.0 million to \$42.0 million for the year ending December 31, 2011. The above assumption is based on current expectations and is forward-looking.

Interest and other income from continuing operations decreased approximately \$1.2 million or 56.2% primarily as a result of insurance/litigation settlement proceeds that occurred in the quarter ended March 31, 2010 and did not reoccur in the quarter ended March 31, 2011, partially offset by forfeited deposits for terminated disposition transactions. The Company anticipates that interest and other income will approximate \$2.0 million to \$3.0 million for the year ending December 31, 2011. The above assumption is based on current expectations and is forward-looking.

Other expenses from continuing operations decreased approximately \$2.2 million or 50.6% primarily due to a decrease in property acquisition costs incurred in conjunction with the Company's lower acquisition volume in 2011, partially offset by an increase in the expensing of overhead (pursuit cost write-offs) as a result of a more active focus on sourcing new development opportunities.

Interest expense from continuing operations, including amortization of deferred financing costs, increased approximately \$7.3 million or 6.2% as a result of interest expense on the \$600.0 million of unsecured notes that closed in July 2010 and lower capitalized interest, partially offset by a decrease in financing fees. During the quarter ended March 31, 2011, the Company capitalized interest costs of approximately \$1.7 million as compared to \$4.4 million for the quarter ended March 31, 2010. This capitalization of interest primarily relates to consolidated projects under development. The effective interest cost on all indebtedness for the quarter ended March 31, 2011 was 5.13% as compared to 5.22% for the quarter ended March 31, 2010.

Income and other tax expense from continuing operations was consistent between the periods under comparison. The Company anticipates that income and other tax expense will approximate \$0.5 million to \$1.5 million for the year ending December 31, 2011. The above assumption is based on current expectations and is forward-looking.

Loss from investments in unconsolidated entities decreased approximately \$0.5 million as compared to the quarter ended March 31, 2010 primarily due to the unwinding of four institutional joint ventures during 2010.

Net gain on sales of unconsolidated entities decreased approximately \$0.5 million primarily due to the gain on sale for two unconsolidated properties during the quarter ended March 31, 2010 that did not reoccur during the quarter ended March 31, 2011.

Discontinued operations, net increased approximately \$58.1 million or 86.3% between the periods under comparison. This increase is primarily due to higher gains from property sales during the quarter ended March 31, 2011 compared to the same period in 2010, partially offset by properties sold in 2011 which reflect operations for none of or a partial period in 2011 in contrast to a full or partial period in 2010. See Note 13 in the Notes to Consolidated Financial Statements for further discussion.

Liquidity and Capital Resources

As of January 1, 2011, the Company had approximately \$431.4 million of cash and cash equivalents, its restricted 1031 exchange proceeds totaled \$103.9 million and it had \$1.28 billion available under its revolving credit facility (net of \$147.3 million which was restricted/dedicated to support letters of credit and \$75.0 million which had been committed by a now bankrupt financial institution and is not available for borrowing). After taking into effect the various transactions discussed in the following paragraphs and the net cash provided by operating activities, the Company's cash and cash equivalents balance at March 31, 2011 was approximately \$306.1 million, its restricted 1031 exchange proceeds totaled \$212.8 million and the amount available on the Company's revolving credit facility was \$1.34 billion (net of \$83.7 million which was restricted/dedicated to support letters of credit and net of the \$75.0 million discussed above).

During the quarter ended March 31, 2011, the Company generated proceeds from various transactions, which included the following:

- § Disposed of 12 consolidated properties, receiving net proceeds of approximately \$258.2 million;
- § Obtained \$0.7 million in new mortgage financing; and
- §

Issued approximately 4.2 million Common Shares (including shares issued under the ATM program see further discussion below) and received net proceeds of \$190.0 million.

Table of Contents

During the quarter ended March 31, 2011, the above proceeds were primarily utilized to:

- § Acquire two rental properties and a 97,000 square foot commercial building for approximately \$123.9 million;
- § Invest \$29.8 million primarily in development projects; and
- § Repay \$205.0 million of mortgage loans and \$93.1 million of unsecured notes.

In September 2009, the Company announced the establishment of an At-The-Market (ATM) share offering program which would allow the Company to sell up to 17.0 million Common Shares from time to time over the next three years into the existing trading market at current market prices as well as through negotiated transactions. The Company may, but shall have no obligation to, sell Common Shares through the ATM share offering program in amounts and at times to be determined by the Company. Actual sales will depend on a variety of factors to be determined by the Company from time to time, including (among others) market conditions, the trading price of the Company's Common Shares and determinations of the appropriate sources of funding for the Company. During the quarter ended March 31, 2011, the Company issued approximately 3.0 million Common Shares at an average price of \$50.84 per share for total consideration of approximately \$154.5 million through the ATM share offering program. The Company has not issued any shares under this program since January 13, 2011. Through April 28, 2011, the Company has cumulatively issued approximately 12.7 million Common Shares at an average price of \$44.94 per share for total consideration of approximately \$570.1 million. Including its February 2011 prospectus supplement which added approximately 5.7 million Common Shares, the Company has 10.0 million Common Shares remaining available for issuance under the ATM program as of March 31, 2011.

Depending on its analysis of market prices, economic conditions and other opportunities for the investment of available capital, the Company may repurchase its Common Shares pursuant to its existing share repurchase program authorized by the Board of Trustees. As of March 31, 2011, the Company had authorization to repurchase \$464.6 million of its shares. See Note 3 in the Notes to Consolidated Financial Statements for further discussion.

Depending on its analysis of prevailing market conditions, liquidity requirements, contractual restrictions and other factors, the Company may from time to time seek to repurchase and retire its outstanding debt in open market or privately negotiated transactions.

The Company's total debt summary and debt maturity schedules as of March 31, 2011 are as follows:

Debt Summary as of March 31, 2011

Total Unsecured Debt			\$ 5,106,508	\$ (13,541)	\$ 5,092,967

- (1) Fair value interest rate swaps convert \$300.0 million of the 5.200% notes due April 1, 2013 to a floating interest rate.
- (2) Convertible notes mature on August 15, 2026. The notes are callable by the Company on or after August 18, 2011. The notes are puttable by the holders on August 18, 2011, August 15, 2016 and August 15, 2021.
- (3) Facilities are private. All other unsecured debt is public.
- (4) Effective April 5, 2011, the Company exercised the second of its two one-year extension options for its \$500.0 million term loan facility and as a result, the maturity date is now October 5, 2012.

(5) As of March 31, 2011, there was approximately \$1.34 billion available on the Company's unsecured revolving credit facility.

An unlimited amount of equity and debt securities remains available for issuance by EQR and the Operating Partnership under effective shelf registration statements filed with the SEC. Most recently, EQR and the Operating Partnership filed a universal shelf registration statement for an unlimited amount of equity and debt securities that became automatically effective upon filing with the SEC in October 2010 (under SEC regulations enacted in 2005, the registration statement automatically expires on October 14, 2013 and does not contain a maximum issuance amount). However, as of April 28, 2011, issuances under the ATM share offering program are limited to 10.0 million additional shares.

The Company's Consolidated Debt-to-Total Market Capitalization Ratio as of March 31, 2011 is presented in the following table. The Company calculates the equity component of its market capitalization as the sum of (i) the total outstanding Common Shares and assumed conversion of all Units at the equivalent market value of the closing price of the Company's Common Shares on the New York Stock Exchange and (ii) the liquidation value of all perpetual preferred shares outstanding.

Total Perpetual Preferred Equity		1,600,000	\$ 200,000		\$ 13,865	6.93%

The Company generally expects to meet its short-term liquidity requirements, including capital expenditures related to maintaining its existing properties and certain scheduled unsecured note and mortgage note repayments, through its working capital, net cash provided by operating activities and borrowings under its revolving credit facility. Under normal operating conditions, the Company considers its cash provided by operating activities to be adequate to meet operating requirements and payments of distributions. However, there may be times when the Company experiences shortfalls in its coverage of distributions, which may cause the Company to consider reducing its distributions and/or using the proceeds from property dispositions or additional financing transactions to make up the difference. Should these shortfalls occur for lengthy periods of time or be material in nature, the Company's financial condition may be adversely affected and it may not be able to maintain its current distribution levels.

During the fourth quarter of 2010, the Company announced a new dividend policy which it believes will generate payouts more closely aligned with the actual annual operating results of the Company's core business and provide transparency to investors. The Company intends to pay an annual cash dividend equal to approximately 65% of Normalized FFO. The Company anticipates the expected dividend payout will be \$1.56 to \$1.62 per share (\$0.3375 per share for each of the first three quarters with the balance for the fourth quarter) for the year ending December 31,

2011 to bring the total payment for the year to approximately 65% of Normalized FFO. The above assumption is based on current expectations and is forward-looking. The new dividend policy will lead to a dividend reduction more quickly than in the past should operating results deteriorate and make it less likely that the Company will over distribute. The Company believes that its expected 2011 operating cash flow will be sufficient to cover capital expenditures and distributions.

The Company also expects to meet its long-term liquidity requirements, such as scheduled unsecured note and mortgage debt maturities, property acquisitions, financing of construction and development activities and capital improvements through the issuance of secured and unsecured debt and equity securities, including additional OP Units, and proceeds received from the disposition of certain properties as well as joint ventures. In addition, the Company has significant unencumbered properties available to secure additional mortgage borrowings in the event that the public capital markets are unavailable or the cost of alternative sources of capital is too high. The fair value of and cash flow from these unencumbered properties are in excess of the requirements the Company must maintain in order to comply with covenants under its unsecured notes and line of credit. Of the \$19.7 billion in investment in real estate on the Company's balance sheet at March 31, 2011, \$12.7 billion or 64.6% was unencumbered. However, there can be no

Table of Contents

assurances that these sources of capital will be available to the Company in the future on acceptable terms or otherwise.

The Operating Partnership's credit ratings from Standard & Poor's (S&P), Moody's and Fitch for its outstanding senior debt are BBB+, Baa1 and BBB+, respectively. The Company's equity ratings from S&P, Moody's and Fitch for its outstanding preferred equity are BBB+, Baa2 and BBB-, respectively. During the fourth quarter of 2010, Fitch downgraded the Operating Partnership's credit rating from A- to BBB+ and the Company's equity rating from BBB+ to BBB-, which did not have an effect on the Company's cost of funds. During the first quarter of 2011, Moody's raised its outlook for both the Company and the Operating Partnership from negative outlook to stable outlook.

The Operating Partnership has a \$1.425 billion (net of \$75.0 million which had been committed by a now bankrupt financial institution and is not available for borrowing) long-term revolving credit facility with available borrowings as of April 28, 2011 of \$1.31 billion (net of \$114.1 million which was restricted/dedicated to support letters of credit and net of the \$75.0 million discussed above) that matures in February 2012 (see Note 10 in the Notes to Consolidated Financial Statements for further discussion). This facility may, among other potential uses, be used to fund property acquisitions, costs for certain properties under development and short-term liquidity requirements.

In 2010, a portion of the parking garage collapsed at one of the Company's rental properties (Prospect Towers in Hackensack, New Jersey). The Company estimates that the costs related to such collapse (both expensed and capitalized), including providing for residents' interim needs, lost revenue and garage reconstruction, will be approximately \$14.0 million, after insurance reimbursements of \$8.0 million. Costs to rebuild the garage are capitalized as incurred. Other costs, like those to accommodate displaced residents, lost revenue due to a portion of the project being temporarily unavailable for occupancy and legal costs, reduce earnings as they are incurred. Generally, insurance proceeds are recorded as increases to earnings as they are received. During the quarter ended March 31, 2011, the Company received approximately \$1.6 million in insurance proceeds which offset expenses of \$0.9 million that were recorded relating to this loss and are included in real estate taxes and insurance on the consolidated statements of operations. In addition, the Company estimates that its lost revenues approximated \$0.4 million during the quarter ended March 31, 2011 as a result of lost occupancy in the high-rise tower following the collapse. Through April 28, 2011, the Company has cumulatively received approximately \$5.6 million in insurance proceeds which partially offsets expenses of \$6.4 million and the Company's estimate of its lost revenues, which approximated \$1.9 million.

See Note 16 in the Notes to Consolidated Financial Statements for discussion of the events which occurred subsequent to March 31, 2011.

Capitalization of Fixed Assets and Improvements to Real Estate

Our policy with respect to capital expenditures is generally to capitalize expenditures that improve the value of the property or extend the useful life of the component asset of the property. We track improvements to real estate in two major categories and several subcategories:

- § Replacements (*inside the apartment unit*). These include:
 - § flooring such as carpets, hardwood, vinyl, linoleum or tile;
 - § appliances;
 - § mechanical equipment such as individual furnace/air units, hot water heaters, etc;
 - § furniture and fixtures such as kitchen/bath cabinets, light fixtures, ceiling fans, sinks, tubs, toilets, mirrors, countertops, etc; and
 - § blinds/shades.

All replacements are depreciated over a five to ten-year estimated useful life. We expense as incurred all make-ready maintenance and turnover costs such as cleaning, interior painting of individual apartment units and the repair of any replacement item noted above.

- § Building improvements (*outside the apartment unit*). These include:

- § roof replacement and major repairs;
- § paving or major resurfacing of parking lots, curbs and sidewalks;
- § amenities and common areas such as pools, exterior sports and playground equipment, lobbies, clubhouses, laundry rooms, alarm and security systems and offices;
- § major building mechanical equipment systems;
- § interior and exterior structural repair and exterior painting and siding;
- § major landscaping and grounds improvement; and
- § vehicles and office and maintenance equipment.

Table of Contents

All building improvements are depreciated over a five to ten-year estimated useful life. We capitalize building improvements and upgrades only if the item: (i) exceeds \$2,500 (selected projects must exceed \$10,000); (ii) extends the useful life of the asset; and (iii) improves the value of the asset.

For the quarter ended March 31, 2011, our actual improvements to real estate totaled approximately \$29.9 million. This includes the following (amounts in thousands except for apartment unit and per apartment unit amounts):

**Capital Expenditures to Real Estate
For the Quarter Ended March 31, 2011**

	Total Apartment Units (1)	Replacements (2)	Avg. Per Apartment Unit	Building Improvements	Avg. Per Apartment Unit	Total	Avg. Per Apartment Unit
Same Store Properties (3)	112,363	\$ 16,503	\$ 147	\$ 10,329	\$ 92	\$ 26,832	\$ 239
Non-Same Store Properties (4)	10,543	1,054	104	1,743	172	2,797	276
Other (5)		211		51		262	
Total	122,906	\$ 17,768		\$ 12,123		\$ 29,891	

- (1) Total Apartment Units Excludes 4,805 military housing apartment units for which repairs and maintenance expenses and capital expenditures to real estate are self-funded and do not consolidate into the Company's results.
- (2) Replacements Includes new expenditures inside the apartment units such as appliances, mechanical equipment, fixtures and flooring, including carpeting. Replacements for same store properties also include \$8.9 million spent in Q1 2011 on apartment unit renovations/rehabs (primarily kitchens and baths) on 1,132 apartment units (equating to about \$7,900 per apartment unit rehabbed) designed to reposition these assets for higher rental levels in their respective markets.
- (3) Same Store Properties Primarily includes all properties acquired or completed and stabilized prior to January 1, 2010, less properties subsequently sold.
- (4) Non-Same Store Properties Primarily includes all properties acquired during 2010 and 2011, plus any properties in lease-up and not stabilized as of January 1, 2010. Per apartment unit amounts are based on a weighted average of 10,137 apartment units.
- (5) Other Primarily includes expenditures for properties sold during the period.

For 2011, the Company estimates that it will spend approximately \$1,200 per apartment unit of capital expenditures for its same store properties inclusive of apartment unit renovation/rehab costs, or \$850 per apartment unit excluding apartment unit renovation/rehab costs. For 2011, the Company estimates that it will spend \$41.0 million rehabbing 5,500 apartment units (equating to about \$7,500 per apartment unit rehabbed). The above assumptions are based on current expectations and are forward-looking.

During the quarter ended March 31, 2011, the Company's total non-real estate capital additions, such as computer software, computer equipment, and furniture and fixtures and leasehold improvements to the Company's

property management offices and its corporate offices, were approximately \$2.7 million. The Company expects to fund approximately \$5.8 million in total additions to non-real estate property for the remainder of 2011. The above assumption is based on current expectations and is forward-looking.

Improvements to real estate and additions to non-real estate property are generally funded from net cash provided by operating activities and from investment cash flow.

Derivative Instruments

In the normal course of business, the Company is exposed to the effect of interest rate changes. The Company seeks to manage these risks by following established risk management policies and procedures including the use of derivatives to hedge interest rate risk on debt instruments.

The Company has a policy of only entering into contracts with major financial institutions based upon their credit ratings and other factors. When viewed in conjunction with the underlying and offsetting exposure that the derivatives are designed to hedge, the Company has not sustained a material loss from these instruments nor does it anticipate any material adverse effect on its net income or financial position in the future from the use of derivatives it currently has in place.

See Note 11 in the Notes to Consolidated Financial Statements for additional discussion of derivative instruments at March 31, 2011.

Table of Contents***Other***

Total distributions paid in April 2011 amounted to \$106.4 million (excluding distributions on Partially Owned Properties), which included certain distributions declared during the first quarter ended March 31, 2011.

Off-Balance Sheet Arrangements and Contractual Obligations

In 2010, the Company admitted an 80% institutional partner to an entity owning a developable land parcel in Florida in exchange for \$11.7 million in cash and retained a 20% equity interest. This land parcel is now unconsolidated. Total project cost is approximately \$76.1 million and construction is expected to start in the second quarter of 2011. The Company is responsible for constructing the project and has given certain construction cost overrun guarantees. The Company's remaining funding obligation is currently estimated at approximately \$2.3 million. The Company's strategy with respect to this venture was to reduce its financial risk related to the development of this property. However, management does not believe that this investment has a materially different impact upon the Company's liquidity, cash flows, capital resources, credit or market risk than its other consolidated development activities.

As of March 31, 2011, the Company has four projects totaling 747 apartment units in various stages of development with estimated completion dates ranging through September 30, 2013, as well as other completed development projects that are in various stages of lease up or are stabilized. The development agreements currently in place are discussed in detail in Note 14 of the Company's Consolidated Financial Statements.

See also Notes 2 and 6 in the Notes to Consolidated Financial Statements for additional discussion regarding the Company's investments in partially owned entities.

The Company's contractual obligations for the next five years and thereafter have not changed materially from the amounts and disclosures included in its annual report on Form 10-K, other than as it relates to scheduled debt maturities. See the updated debt maturity schedule included in Liquidity and Capital Resources for further discussion.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to use judgment in the application of accounting policies, including making estimates and assumptions. If our judgment or interpretation of the facts and circumstances relating to various transactions had been different or different assumptions were made, it is possible that different accounting policies would have been applied, resulting in different financial results or different presentation of our financial statements.

The Company has identified five significant accounting policies as critical accounting policies. These critical accounting policies are those that have the most impact on the reporting of our financial condition and those requiring significant judgments and estimates. With respect to these critical accounting policies, management believes that the application of judgments and estimates is consistently applied and produces financial information that fairly presents the results of operations for all periods presented. The five critical accounting policies are:

Acquisition of Investment Properties

The Company allocates the purchase price of properties to net tangible and identified intangible assets acquired based on their fair values. In making estimates of fair values for purposes of allocating purchase price, the Company utilizes a number of sources, including independent appraisals that may be obtained in connection with the acquisition or financing of the respective property, our own analysis of recently acquired and existing comparable properties in our portfolio and other market data. The Company also considers information obtained about each property as a result of its pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of the tangible and intangible assets acquired.

Impairment of Long-Lived Assets

The Company periodically evaluates its long-lived assets, including its investments in real estate, for indicators of impairment. The judgments regarding the existence of impairment indicators are based on factors such as operational performance, market conditions and legal and environmental concerns, as well as the Company's ability to hold and its intent with regard to each asset. Future events could occur which would cause the Company to conclude that impairment indicators exist and an impairment loss is warranted.

Table of Contents

Depreciation of Investment in Real Estate

The Company depreciates the building component of its investment in real estate over a 30-year estimated useful life, building improvements over a 5-year to 10-year estimated useful life and both the furniture, fixtures and equipment and replacements components over a 5-year to 10-year estimated useful life, all of which are judgmental determinations.

Cost Capitalization

See the *Capitalization of Fixed Assets and Improvements to Real Estate* section for a discussion of the Company's policy with respect to capitalization vs. expensing of fixed asset/repair and maintenance costs. In addition, the Company capitalizes an allocation of the payroll and associated costs of employees directly responsible for and who spend their time on the supervision of major capital and/or renovation projects. These costs are reflected on the balance sheet as an increase to depreciable property.

For all development projects, the Company uses its professional judgment in determining whether such costs meet the criteria for capitalization or must be expensed as incurred. The Company capitalizes interest, real estate taxes and insurance and payroll and associated costs for those individuals directly responsible for and who spend their time on development activities, with capitalization ceasing no later than 90 days following issuance of the certificate of occupancy. These costs are reflected on the balance sheet as construction-in-progress for each specific property. The Company expenses as incurred all payroll costs of on-site employees working directly at our properties, except as noted above on our development properties prior to certificate of occupancy issuance and on specific major renovations at selected properties when additional incremental employees are hired.

Fair Value of Financial Instruments, Including Derivative Instruments

The valuation of financial instruments requires the Company to make estimates and judgments that affect the fair value of the instruments. The Company, where possible, bases the fair values of its financial instruments, including its derivative instruments, on listed market prices and third party quotes. Where these are not available, the Company bases its estimates on current instruments with similar terms and maturities or on other factors relevant to the financial instruments.

Funds From Operations and Normalized Funds From Operations

For the quarter ended March 31, 2011, Funds From Operations (FFO) available to Common Shares and Units and Normalized FFO available to Common Shares and Units increased \$28.0 million, or 19.3%, and \$24.9 million, or 16.6%, respectively, as compared to the quarter ended March 31, 2010.

The following is a reconciliation of net income to FFO available to Common Shares and Units and Normalized FFO available to Common Shares and Units for the quarters ended March 31, 2011 and 2010:

Table of Contents

Funds From Operations and Normalized Funds From Operations
(Amounts in thousands)

	Quarter Ended March 31,	
	2011	2010
Net income	\$ 133,066	\$ 57,856
Adjustments:		
Net (income) loss attributable to Noncontrolling Interests Partially Owned		
Properties	40	250
Depreciation	167,968	146,042
Depreciation Non-real estate additions	(1,438)	(1,693)
Depreciation Partially Owned and Unconsolidated Properties	(750)	11
Net (gain) on sales of unconsolidated entities		(478)
Discontinued operations:		
Depreciation	1,395	6,692
Net (gain) on sales of discontinued operations	(123,754)	(60,036)
Net incremental gain on sales of condominium units	395	388
FFO (1) (3)	176,922	149,032
Adjustments:		
Asset impairment and valuation allowances		
Property acquisition costs and write-off of pursuit costs (other expenses)	2,164	4,383
Debt extinguishment (gains) losses, including prepayment penalties, preferred share redemptions and non-cash convertible debt discounts	2,063	2,872
(Gains) losses on sales of non-operating assets, net of income and other tax expense (benefit)	(376)	(367)
Other miscellaneous non-comparable items	(2,100)	(2,000)
Normalized FFO (2) (3)	\$ 178,673	\$ 153,920
FFO (1) (3)	\$ 176,922	\$ 149,032
Preferred distributions	(3,466)	(3,620)
FFO available to Common Shares and Units (1) (3) (4)	\$ 173,456	\$ 145,412
Normalized FFO (2) (3)	\$ 178,673	\$ 153,920
Preferred distributions	(3,466)	(3,620)
Normalized FFO available to Common Shares and Units (2) (3) (4)	\$ 175,207	\$ 150,300

(1)

The National Association of Real Estate Investment Trusts (NAREIT) defines funds from operations (FFO) (April 2002 White Paper) as net income (computed in accordance with accounting principles generally accepted in the United States (GAAP)), excluding gains (or losses) from sales of depreciable property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect funds from operations on the same basis. The April 2002 White Paper states that gain or loss on sales of property is excluded from FFO for previously depreciated operating properties only. Once the Company commences the conversion of apartment units to condominiums, it simultaneously discontinues depreciation of such property.

- (2) *Normalized funds from operations (Normalized FFO) begins with FFO and excludes:*
- the impact of any expenses relating to asset impairment and valuation allowances;*
 - property acquisition and other transaction costs related to mergers and acquisitions and pursuit cost write-offs (other expenses);*
 - gains and losses from early debt extinguishment, including prepayment penalties, preferred share redemptions and the cost related to the implied option value of non-cash convertible debt discounts;*
 - gains and losses on the sales of non-operating assets, including gains and losses from land parcel and condominium sales, net of the effect of income tax benefits or expenses; and*
 - other miscellaneous non-comparable items.*
- (3) *The Company believes that FFO and FFO available to Common Shares and Units are helpful to investors as supplemental measures of the operating performance of a real estate company, because they are recognized measures of performance by the real estate industry and by excluding gains or losses related to dispositions of depreciable property and excluding real estate depreciation (which can vary among owners of identical assets in similar condition based on historical cost accounting and*

Table of Contents

useful life estimates), FFO and FFO available to Common Shares and Units can help compare the operating performance of a company's real estate between periods or as compared to different companies. The company also believes that Normalized FFO and Normalized FFO available to Common Shares and Units are helpful to investors as supplemental measures of the operating performance of a real estate company because they allow investors to compare the company's operating performance to its performance in prior reporting periods and to the operating performance of other real estate companies without the effect of items that by their nature are not comparable from period to period and tend to obscure the Company's actual operating results. FFO, FFO available to Common Shares and Units, Normalized FFO and Normalized FFO available to Common Shares and Units do not represent net income, net income available to Common Shares or net cash flows from operating activities in accordance with GAAP. Therefore, FFO, FFO available to Common Shares and Units, Normalized FFO and Normalized FFO available to Common Shares and Units should not be exclusively considered as alternatives to net income, net income available to Common Shares or net cash flows from operating activities as determined by GAAP or as a measure of liquidity. The Company's calculation of FFO, FFO available to Common Shares and Units, Normalized FFO and Normalized FFO available to Common Shares and Units may differ from other real estate companies due to, among other items, variations in cost capitalization policies for capital expenditures and, accordingly, may not be comparable to such other real estate companies.

- (4) FFO available to Common Shares and Units and Normalized FFO available to Common Shares and Units are calculated on a basis consistent with net income available to Common Shares and reflects adjustments to net income for preferred distributions and premiums on redemption of preferred shares in accordance with accounting principles generally accepted in the United States. The equity positions of various individuals and entities that contributed their properties to the Operating Partnership in exchange for OP Units are collectively referred to as the Noncontrolling Interests Operating Partnership. Subject to certain restrictions, the Noncontrolling Interests Operating Partnership may exchange their OP Units for EQR Common Shares on a one-for-one basis.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's market risk has not changed materially from the amounts and information reported in Part II, Item 7A. *Quantitative and Qualitative Disclosures About Market Risk*, to the Company's Annual Report on Form 10-K for the year ended December 31, 2010. See the *Current Environment* section of Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations* relating to market risk and the current economic environment. See also Note 11 in the Notes to Consolidated Financial Statements for additional discussion of derivative and other fair value instruments.

Item 4. Controls and Procedures**(a) Evaluation of Disclosure Controls and Procedures:**

Effective as of March 31, 2011, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in its Exchange Act filings is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

(b) Changes in Internal Control over Financial Reporting:

There were no changes to the internal control over financial reporting of the Company identified in connection with the Company's evaluation referred to in Item 4(a) above that occurred during the first quarter of 2011 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company does not believe that there have been any material developments in the legal proceedings that were discussed in Part I, Item 3 of the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Item 1A. Risk Factors

There have been no material changes to the risk factors that were discussed in Part I, Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) *Unregistered Common Shares Issued in the Quarter Ended March 31, 2011*

During the quarter ended March 31, 2011, the Company issued 23,901 Common Shares in exchange for 23,901 OP Units held by various limited partners of the Operating Partnership. OP Units are generally exchangeable into Common Shares of EQR on a one-for-one basis or, at the option of the Operating Partnership, the cash equivalent thereof, at any time one year after the date of issuance. These shares were either registered under the Securities Act of 1933, as amended (the "Securities Act"), or issued in reliance on an exemption from registration under Section 4(2) of the Securities Act and the rules and regulations promulgated thereunder, as these were transactions by an issuer not involving a public offering. In light of the manner of the sale and information obtained by the Company from the limited partners in connection with these transactions, the Company believes it may rely on these exemptions.
