Dear Shareholder:

On June 17, 2005, the Board of Directors declared a \$.45 per share dividend to be paid on July 20, 2005 to shareholders of record date June 17, 2005. Enclosed is your check or receipt of the dividend payment.

As management and directors, it is our responsibility to maintain adequate lines of communication with you, our shareholder. We would like to use this opportunity each quarter to present our thoughts concerning upcoming proxy items. We realize that some of the confusion surrounding this year's proxy may have been lessened had we communicated more effectively the reasoning behind the proposals.

One of the most important proposals for next year is increasing the number of the authorized shares. Our stock has been trading over \$100 per share since the

second quarter of 1999. To improve liquidity and accessibility, which should enhance the attractiveness and value of the stock, we would like to lower that cost per share down to the \$20 - \$30 range with a stock split. This was last done in 1996 with a stock split facilitated by an increase in the authorized shares. We currently have 1.5 million shares authorized, with 1.3 million outstanding. A stock split is not feasible until the number of shares authorized is increased. A 4-for-1 or 5-for-1 split would be required to bring the stock price down to the target range.

Although other proxy proposals, some similar to last year, will also be on the proxy in the spring, it is premature to know what the proposals will be. The intent is to provide your bank the flexibility needed to remain a growing independent community bank.

The authorization of stock and possibly some of the other issues would require an affirmative vote of two-thirds of all outstanding shares. This is a large number, and we cannot stress enough how important it will be for each share to be voted in person or proxy at the Company's annual meeting next spring.*

As always, you are encouraged to speak to any director or person from senior management with any questions or concerns. We value all input and thank you for your continued support.

Sincerely,

/s/ Paul S. Siebenmorgen
