REPORT OF INDEPENDENT AUDITORS ON FINANCIAL STATEMENT SCHEDULES

To the Board of Directors and Stockholders of
McDermott International, Inc.

We have audited the consolidated financial statements of McDermott International, Inc. (the Company) as of December 31, 2003 and 2002, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2003, and have issued our report thereon dated March 15, 2004. Our report includes an emphasis of matter paragraph referring to Notes 1, 20 and 21 of the consolidated financial statements which discusses The Babcock & Wilcox Company's (B&W), a wholly owned subsidiary of the Company, voluntary petition with the U.S. Bankruptcy Court to reorganize under Chapter 11 of the U.S. Bankruptcy Code as well as the preliminary settlement agreement and proposed consensual plan of reorganization filed with the U.S. Bankruptcy Court to resolve the Chapter 11 filing and other matters. In addition, the emphasis of matter paragraph refers to Notes 12 and 21 of the consolidated financial statements which discuss significant operating losses incurred by J. Ray McDermott, S.A. (JRM), a wholly owned subsidiary of the Company, on certain construction projects which have negatively impacted the Company's results of operations and liquidity, and raise substantial doubt about JRM's ability to continue as a going concern. Our audit also included Schedule I - Condensed Financial Information of Registrant and Schedule II - Valuation and Qualifying Accounts. In our opinion, these financial statement schedules presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements.

Table of Contents

Schedule I

McDERMOTT INTERNATIONAL, INC.
(PARENT COMPANY ONLY)
NOTES TO CONDENSED FINANCIAL INFORMATION
DECEMBER 31, 2003

NOTE 1 - BASIS OF PRESENTATION

The accompanying financial statements have been prepared to present the unconsolidated financial position, results of operations and cash flows of McDermott International, Inc. (Parent Company Only). Investments in subsidiaries and other investees are stated at cost plus equity in undistributed earnings from date of acquisition. These Parent Company Only financial statements should be read in conjunction with McDermott International, Inc.'s consolidated financial statements and independent auditors' reports thereon. We have reclassified certain amounts previously reported to conform with the presentation at December 31, 2003.

NOTE 2 - CONTINGENCIES

At the time of The Babcock & Wilcox Company (B&W) bankruptcy filing, McDermott International, Inc. was a maker or guarantor of outstanding letters of credit aggregating approximately \$146,500,000 (\$0 at December 31, 2003) which were issued in connection with the business operations of B&W and its subsidiaries. Although new letters of credit have been issued under B&W's Debtor in Possession (DIP) Credit Facility to backstop or replace these preexisting letters of credit, McDermott International, Inc. has agreed to indemnify and reimburse B&W and its filing subsidiaries for any customer draw on any letter of credit issued under the DIP Credit Facility to backstop or replace any such preexisting letter of credit for which B&W has exposure and for the associated letter of credit fees paid under the facility. As of December 31, 2003, approximately \$42.0 million in letters of credit have been issued under the DIP Credit Facility to replace or backstop these preexisting letters of credit.

McDermott International, Inc. has agreed to indemnify our two surety companies for obligations of various of its subsidiaries, including B&W and several of its subsidiaries, under surety bonds issued to meet bid bond and performance bond requirements imposed by their customers. As of December 31, 2003, the aggregate outstanding amount of surety bonds that were guaranteed by McDermott International, Inc. and issued in connection with the business operations of its subsidiaries was approximately \$84.3 million, of which \$80.1 million related to the business operations of B&W and its subsidiaries.

As of December 31, 2003, McDermott International, Inc. had outstanding performance guarantees for six projects of one of its subsidiaries. We are not aware that McDermott International, Inc. has ever had to satisfy a performance guaranty for this subsidiary or any of its other subsidiaries. Five of these guarantees (with a total cap of \$136 million) relate to projects which have been completed and are in the warranty periods, the latest of which would expire in January 2006. The subsidiary has incurred minimal warranty costs in prior years and any substantial warranty costs in the future could possibly be covered in whole or in part by insurance. However, if the subsidiary incurs substantial warranty liabilities and is unable to respond, and such liabilities are not covered by insurance, McDermott International, Inc. would ultimately have to satisfy those claims. McDermott International, Inc.'s remaining MII guaranty for this subsidiary (with a cap of \$24 million) is for a pipeline project which is currently in progress and expected to be completed prior to April 15, 2004. This performance guaranty also runs through the one-year warranty period, which we expect to expire prior to April 15, 2005.

As of December 31, 2003, McDermott International, Inc. had outstanding performance guarantees for five contracts for a subsidiary of The Babcock & Wilcox Company (B&W). These guarantees, the last of which will expire

on December 31, 2005, were all executed in 2001 and have a cap of \$46 million. These projects have all been completed and McDermott International, Inc. has never had to satisfy a performance guaranty for this subsidiary of B&W. Under the terms of an agreement between McDermott International, Inc. and B&W, B&W must reimburse McDermott International, Inc. for any costs it may incur under any of these performance guarantees. As of December 31, 2003, B&W has sufficient liquidity to cover its obligations under this agreement. However, if this B&W subsidiary incurs and is unable to satisfy substantial warranty liabilities on these projects prior to expiration of the guaranty periods and B&W is not able to satisfy its contractual obligation to McDermott International, Inc. and such liabilities are not covered by insurance, McDermott International, Inc. would be liable.

Table of Contents

NOTE 3 - DIVIDENDS RECEIVED

McDermott International, Inc. received dividends from its consolidated subsidiaries of \$98,880,000, \$100,000,000 and \$26,900,000 for the years ended December 31, 2003, 2002 and 2001, respectively.

NOTE 4 - LIQUIDITY

As a result of the B&W bankruptcy filing in February 2000, our access to the cash flows of B&W and its subsidiaries has been restricted. In addition, J.Ray McDermott, S.A. (JRM) has incurred substantial overruns on its three Spar projects. Further, McDermott Incorporated (MI) is restricted, as a result of covenants in its debt instruments, in its ability to transfer funds to us and our other subsidiaries, including JRM, through cash dividends or through unsecured loans or investments. Given these issues, we have assessed our ability to continue as a viable business and have concluded that we can fund our operating activities and capital requirements. Management's plans with regards to these issues are as follows:

B&W Chapter 11 Filing. Our ability to obtain a successful and timely resolution to the B&W Chapter 11 proceedings has impacted our access to, and sources of, capital. We believe the completion of the overall settlement outlined in Note 20 to the MII consolidated financial statements will alleviate the impact of this uncertainty.

JRM's Negative Cash Flows. Due primarily to the losses anticipated to be incurred on three Spar projects, we expect JRM to experience negative cash flows for three of the four quarters in 2004. We intend to fund JRM's negative cash flows with the proceeds from the JRM Secured Notes, other potential borrowings or credit facilities permitted under indenture governing the JRM Secured Notes, including a planned new letter of credit facility for JRM, and sales of nonstrategic assets, including certain marine vessels. However, with regard to asset sales, covenants in the indenture governing the JRM Secured Notes contain various restrictions on asset sales in excess of \$10 million and generally prohibit JRM's use of such proceeds to fund working capital needs. Also, if JRM experiences additional significant contract costs on its Spar projects or any other project as a result of unforeseen events, we may be unable to fund all our budgeted capital expenditures and meet all of our funding requirements for contractual commitments. In this instance, we would be required to defer certain capital expenditures, which in turn could result in curtailment of certain of our operating activities or, alternatively, require us to obtain additional sources of financing that may not be available to us or may be cost-prohibitive.

JRM's Letters of Credit. JRM's letters of credit are currently secured by collateral accounts funded with cash equal to 105% of the amount outstanding. Therefore, we are currently seeking a new letter of credit facility that would not require cash collateral, which is critical to JRM's liquidity. If we are unable to obtain this new facility, JRM's ability to pursue projects from customers who require letters of credit as a condition of award will be limited and JRM's liquidity will continue to be restricted. Our ability to obtain a new letter of credit facility for JRM will depend on numerous factors, including JRM's operating performance and overall market conditions, including conditions impacting potential third party lenders.

Outlook. If we are unable to obtain additional third party financing for a new letter of credit facility for JRM, obtain other borrowings or sell JRM assets, we expect JRM will be unable to meet its working capital needs. These factors, in addition to those outlined above, cause substantial doubt about JRM's ability to continue as a going concern. JRM would have to consider various alternatives including a potential restructuring or filing for receivership. A Chapter 11 filing would be an event of default under the indenture governing JRM's recently issued notes. Should JRM file to reorganize under Chapter 11, we believe we and our other subsidiaries, including, MI, Babcock & Wilcox Investment Company (BWICO), BWX Technologies, Inc. (BWXT) and

B&W would not be a party to these proceedings. In addition, we, MI, BWICO, BWXT and B&W have assessed our ability to continue as viable businesses and have concluded that we can fund our operating activities and capital requirements. We have not committed to support JRM should it be unable to acquire additional third party financing. However, there are numerous risks and uncertainties that could arise from a Chapter 11 filing of JRM and we can not fully predict its potential impact on us and our other subsidiaries. We have issued performance guarantees related to JRM construction contracts. A Chapter 11 filing by JRM would require us to give notice to the U.S. Pension Benefit Guaranty Corporation (the PBGC). This would cause the PBGC to consider, among other things, whether it would be prudent for them to involuntarily terminate the JRM pension plan. JRM is current on all required pension funding obligations to date. However, if the JRM qualified pension plan were terminated by the PBGC, we believe its

Table of Contents

termination liability would not exceed \$55 million. If JRM were unable to meet this obligation, under law, we and our other subsidiaries would be jointly and severally liable to make up any shortfall. Based on our experience in the B&W Chapter 11 proceedings, we believe that it is unlikely that the PBGC would exercise its right to terminate the JRM pension plan. However, if the JRM pension plan were terminated and JRM were unable to fully fund its termination liability, we believe that one or more of our U.S. subsidiaries would be required to make up any shortfall. Although we do not believe that this is likely, based on the current liquidity forecast for our other U.S. subsidiaries, a \$55 million shortfall could be met. Although we believe an action by the PBGC is remote, it could result in a potential event of default under the BWXT Credit Facility which could have a material adverse impact on our liquidity.

Table of Contents

Schedule II

McDERMOTT INTERNATIONAL, INC.

VALUATION AND QUALIFYING ACCOUNTS

Description	Balance at Beginning of Period	Additions		Deductions (3)	Balance at End of Period
		Charged to Costs and Expense(2)	Charged to Other Accounts
