Severance Arrangements

The PacifiCorp Executive Severance Plan provides severance benefits to certain executive level employees who are designated by the PacifiCorp Board, in its sole discretion, including the executive officers named in the Summary Compensation Table. To qualify for severance benefits, the executive must have terminated employment for one of the following reasons:

(1) voluntary termination as a result of a material alteration in the executive's assignment that has a detrimental impact on the executive's employment. A "material alteration in assignment" includes any of the following:

(a) a material reduction in the scope of the executive's duties and responsibilities;

(b) a material reduction in the executive's authority; or

(c) any reduction in base pay or a reduction in annualized base salary and target bonus of at least 15.0%, if the change is not due to a general reduction unrelated to the change in assignment; or

(2) involuntary termination (including a Company-initiated resignation) for reasons other than for cause.

In addition, the Executive Severance Plan provides enhanced severance benefits in the event of certain terminations during the 24-month period following a qualifying change-in-control transaction, including the Merger with ScottishPower. Executives designated by the PacifiCorp Board are eligible for change-in-control benefits resulting from either a PacifiCorp-initiated termination without "cause", or a resignation generally within two months after

a "material alteration of position". During the 24-month protection period under the Severance Plan, "cause" means the executive's gross misconduct or gross negligence or conduct that indicates a reckless disregard for the consequences and has a material adverse effect on PacifiCorp or its affiliates, and "material alteration in position" means the occurrence of any of the following:

(1) a change in reporting relationship to a lower level;

(2) a material reduction in the scope of duties and responsibilities;

Edgar Filing: SCOTTISH POWER PLC - Form U5S

- (3) a material reduction in authority;
- (4) a "material reduction in compensation"; or
- (5) relocation of executive's work location to an office more than 100 miles from the executive's office or more than 60 miles from the executive's home.

A "material reduction in compensation" occurs when an executive's annualized base salary is reduced by any amount or the annualized base salary and target bonus opportunity combined is reduced by at least 15.0% of the combined total opportunity before the change in compensation.

If qualified for the enhanced severance benefits, an executive would receive severance pay in an amount equal to either two, two and one-half or three times the "annual cash compensation" of such executive, depending on the level set by the Board. "Annual cash compensation" is defined as annualized base salary, target annual incentive opportunity and annualized auto allowance in effect on a material alteration or termination, whichever is greater. If the payment would result in imposition of an excise tax under IRC Section 4999, PacifiCorp is required to make an additional payment to compensate the executive for the effect of such excise tax. The executive would also receive continuation of subsidized health insurance from six to 24 months depending on length of service, and a minimum of 12 months' executive-level outplacement services. Several executives have terminated and qualified to receive change-in-control benefits.

Except in the event of a change-in-control, the definition of cause is determined by PacifiCorp in its discretion and by the Board in the event of an appeal by the employee. The Executive Severance Plan does not apply to the termination of an executive for reasons of normal retirement, death or total disability or to a termination for cause or for voluntary termination other than as specified above. Other than in connection with a change-in-control, executives named in the Summary Compensation Table (excluding Mr. Richardson) are eligible for a severance payment equal to one or two times the executive's total cash compensation, three months of health insurance benefits and outplacement benefits. Total cash compensation is defined as the combination of the annualized base salary, the target annual incentive opportunity and the annualized auto allowance in effect on the earlier of a material alteration or termination. Mr. Richardson left the Company in December 2001.

Retirement Plans

PacifiCorp and all of its subsidiaries have adopted noncontributory defined benefit retirement plans for their employees, other than employees subject to collective bargaining agreements that do not provide for coverage. Certain executive officers, including the executive officers named in the Summary Compensation Table (other than Mr. Richardson), are also eligible to participate in PacifiCorp's nonqualified supplemental executive retirement plan. The following description assumes participation in both the retirement plans and the supplemental plan. Participants receive benefits at retirement payable for life based on length of service with PacifiCorp or its subsidiaries and average pay in the 60 consecutive months of highest pay out of the last 120 months, and pay for this purpose would include salary and bonuses as reflected in the Summary Compensation Table above. Benefits are based on 50% of final average pay plus up to an additional 15.0% of final average pay depending upon whether PacifiCorp meets certain performance goals set for each fiscal year by the Board. Participants may also elect actuarially equivalent alternative forms of benefits. Retirement benefits are reduced to reflect Social Security benefits as well as certain prior employer retirement benefits. Participants are entitled to receive full benefits upon retirement after age 60 with at least 15 years of

Edgar Filing: SCOTTISH POWER PLC - Form U5S

service. Participants are also entitled to receive reduced benefits upon early retirement after age 55 or after age 50 with at least 15 years of service and 5 years of participation in the supplemental plan.

13

The following table shows the estimated annual retirement benefit payable upon retirement at age 60 as of March 31, 2002. Amounts in the table reflect payments from the retirement plans and the supplemental plan combined.

Estimated Annual Pension At Retirement (a)

Annual Pay at Retirement Date	Years of Service (b)			
	5	15	25	30
	-	--	--	--
\$ 200,000	\$ 43,333	\$130,000	\$130,000	\$130,000
400,000	86,667	260,000	260,000	260,000
600,000	130,000	390,000	390,000	390,000
800,000	173,333	520,000	520,000	520,000
1,000,000	216,667	650,000	650,000	650,000

(a) The benefits shown in this table assume that the individual will remain in the employ of PacifiCorp until retirement at age 60, that the plans will continue in their present form and that PacifiCorp achieves its performance goals under the supplemental plan in all years. Amounts shown do not reflect the Social Security offset.

(b) The number of credited years of service used to compute benefits under the plans for Ms. Johansen and Messrs. Pittman, Walje, Furman and Haller are 1, 23, 17, 8 and 1, respectively.

Retention Agreements

In order to retain executives who would otherwise have had the right to resign for any reason between 12 and 14 months following the ScottishPower Merger and qualify for the enhanced change-in-control supplemental retirement benefits, the Company has entered into retention agreements with qualifying executives (Messrs. Pittman, Walje and Furman). Those retention agreements provide for the same enhanced supplemental retirement benefits if the qualifying executives satisfy the retention criteria. Qualifying executives were required to waive their rights to unilaterally resign and receive the enhanced supplemental retirement benefits but will be eligible to receive these same enhancements if they either (1) have a subsequent qualifying "involuntarily termination" or "material alteration" in position or (2) continue employment through the established retention date of December 1, 2002.

These retention agreements also require qualifying executives to waive any rights to executive severance benefits which they may have otherwise claimed due to material alterations in their positions as of the date of the retention agreement. Unless there is a subsequent "involuntarily termination" or "material alteration" in position as defined in the Severance Plan, this waiver of severance benefits applies to these executives through November 28, 2004. The

Edgar Filing: SCOTTISH POWER PLC - Form U5S

executives' waiver of severance benefits was in exchange for the enhanced supplemental retirement benefits described above, retention bonuses determined individually in the Company's discretion for each executive, and special stock option awards that vest over a three-year retention period at 25% for each of the first two years and 50% in the third year.

These costs include relocation and repatriation back to the UK.

** Nolan Karras received emoluments in the US of (Pounds)22,613 (2001 (Pounds)26,857) in respect of services to the PacifiCorp and Utah advisory boards in the form of cash and shares.

Details of other share related incentives are contained in Attachment 2.

on 31 May 2001. Alan Richardson retired from the Board and as an employee on 31 December 2001. Ken Vowles retired from the Board and as an employee on 31 March 2002.

(iv) In addition to the above, payments were made to Sir Ian Robinson of (Pounds)385,000; Alan Richardson of (Pounds)372,099; and Ken Vowles of (Pounds)405,649, in accordance with the terms of their respective contracts.

(i) The accrued entitlement of the highest paid director (Ian Russell) was (Pounds)144,159. In 2001, the accrued entitlement of the highest paid director (Sir Ian Robinson) was (Pounds) 319,200. During the year, retirement benefits were accrued under the defined benefits pension scheme in respect of 5 directors (2001 6 directors). The method of calculation of retirement benefits for Sir Ian Robinson was agreed prior to his retirement and published in last year's Remuneration Report.

(ii) The transfer value of the increases after indexation represents the current capital sum which would be required, using demographic and financial assumptions, to produce an equivalent increase in accrued pension and ancillary benefits, excluding the statutory inflationary increase, and after deduction of members' contributions. Although the transfer value represents a liability to the pension scheme in respect of approved benefits and to the company in respect of unapproved benefits, it is not a single sum paid or due to be paid to the individual director and cannot therefore meaningfully be added to the annual remuneration. Instead, this value would not be payable until the director's retirement date, and thereafter would be spread over the remainder of his lifetime (and also covering the cost of dependants' benefits after his death).

(iii) With respect to Alan Richardson, the figures shown in the table above reflect the increase in his pension, including contractual changes made to enable his withdrawal. In addition, the value of allowing him to take his retirement benefits immediately was (Pounds)850,750.

(iv) The pension entitlement shown is that which would be paid annually on retirement based upon service to the end of the year. Members of the group's schemes have the option of paying additional voluntary contributions; neither the contributions nor the resulting benefits are included in the above table.

(v) Executives who joined the company on or after 1 June 1989 are subject to the earnings cap, introduced in the Finance Act 1989. Pension entitlements which cannot be provided through the company's approved schemes due to the earnings cap are provided through unapproved pension arrangements, details of which are included in the Remuneration Report. The pension benefits disclosed above include approved and unapproved pension arrangements.

(vi) The increase in accrued pension during the year allows for an increase in inflation of RPI as measured at December 2001 (0.7%).

(vii) The value of the increase in Members' entitlements has been calculated on the basis of actuarial advice in accordance with Actuarial Guidance note GN11, in two parts: The approved element being based upon the normal cash equivalent transfer value assumptions less directors' contributions; the unapproved element is calculated in line with FRS 17 assumptions.

(viii) Transferred in benefits represent pension rights accrued in respect of previous employments.

(ix) The total liabilities, calculated on an FRS 17 basis, for the 14 executives and senior employees arising in relation to unapproved benefits for service for

Edgar Filing: SCOTTISH POWER PLC - Form U5S

the year to 31 March 2002 was (Pounds)690,000 (2001 (Pounds)500,000). All benefits for the above are provided on a defined benefit basis.
