GLOSSARY

Listed below are definitions of key terms that are used throughout this document.

Borrower Benefits Borrower Benefits are financial incentives offered to borrowers who qualify based on pre-determined qualifying factors, which are generally tied directly to making on-time monthly payments. The impact of Borrower Benefits is dependent on the estimate of the number of borrowers who will eventually qualify for these benefits and the amount of the financial benefit offered to the borrower. We occasionally change Borrower Benefits programs in both amount and qualification factors. These programmatic changes must be reflected in the estimate of the Borrower Benefits discount.

Consolidation Loan Rebate Fee All holders of FFELP Consolidation Loans are required to pay to the U.S. Department of Education (ED) an annual 105 basis point Consolidation Loan Rebate Fee on all outstanding principal and accrued interest balances of FFELP Consolidation Loans purchased or originated after October 1, 1993, except for loans for which consolidation applications were received between October 1, 1998 and January 31, 1999, where the Consolidation Loan Rebate Fee is 62 basis points.

Constant Prepayment Rate (CPR) A variable in life of loan estimates that measures the rate at which loans in the portfolio pay before their stated maturity. The CPR is directly correlated to the average life of the portfolio. CPR equals the percentage of loans that prepay annually as a percentage of the beginning of period balance.

Core Earnings In accordance with the Rules and Regulations of the Securities and Exchange Commission (SEC), we prepare financial statements in accordance with generally accepted accounting principles in the United States of America (GAAP). In addition to evaluating the Company's GAAP-based financial information, management evaluates the Company's business segments on a basis that, as allowed under the Financial Accounting Standards Board's (FASB) Statement of Financial Accounting Standards (SFAS) No. 131, Disclosures about Segments of an Enterprise and Related Information, differs from GAAP. We refer to management's basis of evaluating our segment results as Core Earnings presentations for each business segment and we refer to these performance measures in our presentations with credit rating agencies and lenders. While Core Earnings results are not a substitute for reported results under GAAP, we rely on Core Earnings performance measures in operating each business segment because we believe these measures provide additional information regarding the operational and performance indicators that are most closely assessed by management.

Our Core Earnings performance measures are the primary financial performance measures used by management to evaluate performance and to allocate resources. Accordingly, financial information is reported to management on a Core Earnings basis by reportable segment, as these are the measures used regularly by our chief operating decision maker. Our Core Earnings performance measures are used in developing our financial plans and tracking results, and also in establishing corporate performance targets and determining incentive compensation. Management believes this information provides additional insight into the financial performance of the Company's core business activities. Our Core Earnings performance measures are not defined terms within GAAP and may not be comparable to similarly titled measures reported by other companies. Core Earnings net income reflects only current period adjustments to GAAP net income. Accordingly, the Company's Core Earnings presentation does not represent another comprehensive basis of accounting.

See NOTE 11 TO THE CONSOLIDATED FINANCIAL STATEMENTS Segment Reporting and MANAGEMENT'S DISCUSSION AND ANALYSIS BUSINESS SEGMENTS Limitations of Core Earnings for further discussion of the differences between Core Earnings and GAAP, as well as reconciliations between Core Earnings and GAAP.

Edgar Filing: SLM CORP - Form 10-Q

In prior filings with the SEC of SLM Corporation's Annual Report on Form 10-K and quarterly report on Form 10-Q, Core Earnings has been labeled as Core net income or Managed net income in certain instances.

Direct Loans Student loans originated directly by ED under the FDLP.

Table of Contents

ED The U.S. Department of Education.

Embedded Fixed Rate/Variable Rate Floor Income Embedded Floor Income is Floor Income (see definition below) that is earned on off-balance sheet student loans that are in securitization trusts sponsored by us. At the time of the securitization, the value of Embedded Fixed Rate Floor Income is included in the initial valuation of the Residual Interest (see definition below) and the gain or loss on sale of the student loans. Embedded Floor Income is also included in the quarterly fair value adjustments of the Residual Interest.

Exceptional Performer (EP) Designation The EP designation is determined by ED in recognition of a servicer meeting certain performance standards set by ED in servicing FFELP loans. Upon receiving the EP designation, the EP servicer receives 99 percent reimbursement on default claims on federally guaranteed student loans for all loans serviced for a period of at least 270 days before the date of default and will no longer be subject to the three percent Risk Sharing (see definition below) on these loans. The EP servicer is entitled to receive this benefit as long as it remains in compliance with the required servicing standards, which are assessed on an annual and quarterly basis through compliance audits and other criteria. The annual assessment is in part based upon subjective factors which alone may form the basis for an ED determination to withdraw the designation. If the designation is withdrawn, the three percent Risk Sharing may be applied retroactively to the date of the occurrence that resulted in noncompliance.

FDLP The William D. Ford Federal Direct Student Loan Program.

FFELP The Federal Family Education Loan Program, formerly the Guaranteed Student Loan Program.

FFELP Consolidation Loans Under the Federal Family Education Loan Program (FFELP) borrowers with multiple eligible student loans may consolidate them into a single student loan with one lender at a fixed rate for the life of the loan. The new note is considered a FFELP Consolidation Loan. Typically a borrower may consolidate his student loans only once unless the borrower has another eligible loan to consolidate with the existing FFELP Consolidation Loan. The borrower rate on a FFELP Consolidation Loan is fixed for the term of the loan and is set by the weighted average interest rate of the loans being consolidated, rounded up to the nearest 1/8th of a percent, not to exceed 8.25 percent. In low interest rate environments, FFELP Consolidation Loans provide an attractive refinancing opportunity to certain borrowers because they allow borrowers to consolidate variable rate loans into a long-term fixed rate loan. Holders of FFELP Consolidation Loans are eligible to earn interest under the Special Allowance Payment (SAP) formula (see definition below).

FFELP Stafford and Other Student Loans Education loans to students or parents of students that are guaranteed or reinsured under the FFELP. The loans are primarily Stafford loans but also include PLUS and HEAL loans.

Fixed Rate Floor Income We refer to Floor Income (see definition below) associated with student loans whose borrower rate is fixed to term (primarily FFELP Consolidation Loans and Stafford Loans originated on or after July 1, 2006) as Fixed Rate Floor Income.

Floor Income FFELP student loans generally earn interest at the higher of a floating rate based on the Special Allowance Payment or SAP formula (see definition below) set by ED and the borrower rate, which is fixed over a period of time. We generally finance our student loan portfolio with floating rate debt over all interest rate levels. In low and/or declining interest rate environments, when the fixed borrower rate is higher than the rate produced by the SAP formula, our student loans earn at a fixed rate while the interest on our floating rate debt continues to decline. In these interest rate environments, we earn additional spread income that we refer to as Floor Income. Depending on the type of the student loan and when it was originated, the borrower rate is either fixed to term or is reset to a market rate each July 1. As a result, for loans where the borrower rate is fixed to term, we may earn Floor Income for an extended period of time, and for those loans where the borrower interest rate is reset annually on July 1, we may earn Floor

Income to the next reset date. In accordance with new legislation enacted in 2006, lenders are required to rebate Floor Income to ED for all new FFELP loans disbursed on or after April 1, 2006.

Table of Contents

The following example shows the mechanics of Floor Income for a typical fixed rate FFELP Consolidation Loan (with a commercial paper-based SAP spread of 2.64 percent):

Fixed Borrower Rate	7.25%
SAP Spread over Commercial Paper Rate	(2.64)%
Floor Strike Rate ⁽¹⁾	4.61%

- (1) The interest rate at which the underlying index (Treasury bill or commercial paper) plus the fixed SAP spread equals the fixed borrower rate. Floor Income is earned anytime the interest rate of the underlying index declines below this rate.

Based on this example, if the quarterly average commercial paper rate is over 4.61 percent, the holder of the student loan will earn at a floating rate based on the SAP formula, which in this example is a fixed spread to commercial paper of 2.64 percent. On the other hand, if the quarterly average commercial paper rate is below 4.61 percent, the SAP formula will produce a rate below the fixed borrower rate of 7.25 percent and the loan holder earns at the borrower rate of 7.25 percent. The difference between the fixed borrower rate and the lender's expected yield based on the SAP formula is referred to as Floor Income. Our student loan assets are generally funded with floating rate debt, so when student loans are earning at the fixed borrower rate, decreases in interest rates may increase Floor Income.

Graphic Depiction of Floor Income:

Floor Income Contracts We enter into contracts with counterparties under which, in exchange for an upfront fee representing the present value of the Floor Income that we expect to earn on a notional amount of underlying student loans being economically hedged, we will pay the counterparties the Floor Income earned on that notional amount over the life of the Floor Income Contract. Specifically, we agree to pay the counterparty the difference, if positive, between the fixed borrower rate less the SAP (see definition below) spread and the average of the applicable interest rate index on that notional amount, regardless of the actual balance of underlying student loans, over the life of the contract. The contracts generally do not extend over the life of the underlying student loans. This contract effectively locks in the amount of Floor Income we will earn over the period of the contract. Floor Income Contracts are not considered effective hedges under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, and each quarter we must record the change in fair value of these contracts through income.

GSE The Student Loan Marketing Association was a federally chartered government-sponsored enterprise and wholly owned subsidiary of SLM Corporation that was dissolved under the terms of the Privatization Act (see definition below) on December 29, 2004.

Table of Contents

HEA The Higher Education Act of 1965, as amended.

Managed Basis We generally analyze the performance of our student loan portfolio on a Managed Basis, under which we view both on-balance sheet student loans and off-balance sheet student loans owned by the securitization trusts as a single portfolio, and the related on-balance sheet financings are combined with off-balance sheet debt. When the term Managed is capitalized in this document, it is referring to Managed Basis.

Merger On April 16, 2007, the Company announced that an investor group (Investor Group) led by J.C. Flowers & Co. (J.C. Flowers) signed a definitive agreement (Merger Agreement) to acquire the Company for approximately \$25.3 billion or \$60.00 per share of common stock. When the transaction is complete, J.C. Flowers and certain other private equity investors, including Friedman Fleischer & Lowe, will invest approximately \$4.4 billion and own 50.2 percent, and Bank of America (NYSE: BAC) and JPMorgan Chase (NYSE: JPM) each will invest approximately \$2.2 billion and each will own 24.9 percent. The remainder of the purchase price is anticipated to be funded by debt. The Company's independent board members unanimously approved the agreement and recommended that its shareholders approve the agreement. (See also Merger Agreement filed with the SEC on the Company's Current Report on Form 8-K, dated April 18, 2007.) Pursuant to the Merger Agreement, the Company will not pay dividends on its common stock prior to the consummation of the proposed transaction.

Preferred Lender List Most higher education institutions select a small number of lenders to recommend to their students and parents. This recommended list is referred to as the Preferred Lender List.

Preferred Channel Originations Preferred Channel Originations are comprised of: 1) student loans that are originated by lenders with forward purchase commitment agreements with Sallie Mae and are committed for sale to Sallie Mae, such that we either own them from inception or, in most cases, acquire them soon after origination, and 2) loans that are originated by internally marketed Sallie Mae brands.

Private Education Consolidation Loans Borrowers with multiple Private Education Loans (defined below) may consolidate them into a single loan with Sallie Mae. The interest rate on the new loan is variable rate with the spread set at the lower of the average weighted spread of the underlying loans (available only to Sallie Mae customers) or a new spread as a result of favorable underwriting criteria.

Private Education Loans Education loans to students or parents of students that are not guaranteed or reinsured under the FFELP or any other federal or private student loan program. Private Education Loans include loans for traditional higher education, undergraduate and graduate degrees, and for alternative education, such as career training, private kindergarten through secondary education schools and tutorial schools. Traditional higher education loans have repayment terms similar to FFELP loans, whereby repayments begin after the borrower leaves school. Repayment for alternative education or career training loans generally begins immediately.

Privatization Act The Student Loan Marketing Association Reorganization Act of 1996.

Reconciliation Legislation The Higher Education Reconciliation Act of 2005, which reauthorized the student loan programs of the HEA and generally became effective as of July 1, 2006.

Residual Interest When we securitize student loans, we retain the right to receive cash flows from the student loans sold to trusts we sponsor in excess of amounts needed to pay servicing, derivative costs (if any), other fees, and the principal and interest on the bonds backed by the student loans. The Residual Interest, which may also include reserve and other cash accounts, is the present value of these future expected cash flows, which includes the present value of Embedded Fixed Rate Floor Income described above. We value the Residual Interest at the time of sale of the student loans to the trust and at the end of each subsequent quarter.

Retained Interest The Retained Interest includes the Residual Interest (defined above) and servicing rights (as the Company retains the servicing responsibilities).

Risk Sharing When a FFELP loan defaults, the federal government guarantees 97 percent of the principal balance plus accrued interest (98 percent on loans disbursed before July 1, 2006) and the holder of

Table of Contents

the loan generally must absorb the remaining three percent not guaranteed as a Risk Sharing loss on the loan. FFELP student loans originated after October 1, 1993 are subject to Risk Sharing on loan default claim payments unless the default results from the borrower's death, disability or bankruptcy. FFELP loans serviced by a servicer that has EP designation (see definition above) from ED are subject to one-percent Risk Sharing for claims filed on or after July 1, 2006.

Special Allowance Payment (SAP) FFELP student loans originated prior to April 1, 2006 generally earn interest at the greater of the borrower rate or a floating rate determined by reference to the average of the applicable floating rates (91-day Treasury bill rate or commercial paper) in a calendar quarter, plus a fixed spread that is dependent upon when the loan was originated and the loan's repayment status. If the resulting floating rate exceeds the borrower rate, ED pays the difference directly to us. This payment is referred to as the Special Allowance Payment or SAP and the formula used to determine the floating rate is the SAP formula. We refer to the fixed spread to the underlying index as the SAP spread. For loans disbursed after April 1, 2006, FFELP loans effectively only earn at the SAP rate, as the excess interest earned when the borrower rate exceeds the SAP rate (Floor Income) must be refunded to ED.

Variable rate PLUS Loans and SLS Loans earn SAP only if the variable rate, which is reset annually, exceeds the applicable maximum borrower rate. For PLUS loans disbursed on or after January 1, 2000, this limitation on SAP was repealed effective April 1, 2006.

Title IV Programs and Title IV Loans Student loan programs created under Title IV of the HEA, including the FFELP and the FDLP, and student loans originated under those programs, respectively.

Variable Rate Floor Income For FFELP Stafford student loans whose borrower interest rate resets annually on July 1, we may earn Floor Income or Embedded Floor Income (see definitions above) based on a calculation of the difference between the borrower rate and the then current interest rate. We refer to this as Variable Rate Floor Income because Floor Income is earned only through the next reset date.

Wholesale Consolidation Loans During 2006, we implemented a loan acquisition strategy under which we began purchasing a significant amount of FFELP Consolidation Loans, primarily via the spot market, which augments our traditional FFELP Consolidation Loan origination process. Wholesale Consolidation Loans are considered incremental volume to our core acquisition channels, which are focused on the retail marketplace with an emphasis on our brand strategy.

SLM CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Information at June 30, 2007 and for the three and six months ended
June 30, 2007 and 2006 is unaudited)

(Dollars in thousands, except per share amounts, unless otherwise noted)

1. Significant Accounting Policies

Basis of Presentation

The accompanying unaudited, consolidated financial statements of SLM Corporation (the Company) have been prepared in accordance with generally accepted accounting principles in the United States of America (GAAP) for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair statement of the results for the interim periods have been included. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Operating results for the three and six months ended June 30, 2007 are not necessarily indicative of the results for the year ending December 31, 2007. The consolidated balance sheet at December 31, 2006, as presented, was derived from the audited financial statements included in the Company's Annual Report on Form 10-K for the period ended December 31, 2006. These unaudited financial statements should be read in conjunction with the audited financial statements and related notes included in the Company's 2006 Annual Report on Form 10-K.

Reclassifications

Certain reclassifications have been made to the balances as of and for the three and six months ended June 30, 2006 to be consistent with classifications adopted for 2007.

Restatement of Quarterly Consolidated Statements of Cash Flows (unaudited)

The Company restated its 2006 quarterly consolidated statements of cash flows as more fully described within the Company's 2006 Annual Report on Form 10-K at Note 2, Significant Accounting Policies *Statement of Cash Flows* Restatement of the Consolidated Statements of Cash Flows and Note 21, Restatement of Quarterly Consolidated Statements of Cash Flows (unaudited). The restatements solely affected the classification of items in operating, investing and financing activities, and had no impact on the net increase (decrease) in cash and cash equivalents set forth in the consolidated statements of cash flows for any of the previously reported periods. The restatements did not affect the Company's consolidated balance sheets, consolidated statements of income or consolidated statements of changes in stockholders' equity. Accordingly, the Company's historical revenues, net income, earnings per share, total assets and total stockholders' equity remain unchanged.

Recently Issued Accounting Pronouncements

The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115. This statement permits entities to choose to measure many financial

instruments and certain other items at fair value (on an instrument by instrument basis) improving financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. Most recognized financial assets and liabilities are eligible items for the measurement option established by the statement. There are a few exceptions, including an investment in a subsidiary or an

interest in a variable interest entity that is required to be consolidated, certain obligations related to post-employment benefits, assets or liabilities recognized under leases, various deposits and financial instruments classified as shareholder's equity. A business entity shall report unrealized gains and losses on items for which the fair value option has been elected in earnings at each reporting date. The Company is currently evaluating the impact of this standard on its financial statements. The statement will be effective beginning January 1, 2008.

Fair Value Measurements

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007. This statement defines fair value, establishes a framework for measuring fair value within GAAP, and expands disclosures about fair value measurements. This statement applies to other accounting pronouncements that require or permit fair value measurements. Accordingly, this statement does not change which types of instruments are carried at fair value, but rather establishes the framework for measuring fair value. The Company is currently evaluating the potential impact of SFAS No. 157 on its financial statements.

Accounting for Servicing of Financial Assets

In March 2006, the FASB issued SFAS No. 156, Accounting for Servicing of Financial Assets, which amends SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. This statement was effective for the Company beginning January 1, 2007.

This statement:

Requires an entity to recognize a servicing asset or liability each time it undertakes an obligation to service a financial asset as the result of (i) a transfer of the servicer's financial assets that meet the requirement for sale accounting; (ii) a transfer of the servicer's financial assets to a qualifying special-purpose entity in a guaranteed mortgage securitization in which the transferor retains all of the resulting securities and classifies them as either available-for-sale or trading securities in accordance with SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities; or (iii) an acquisition or assumption of an obligation to service a financial asset that does not relate to financial assets of the servicer or its consolidated affiliates.

Requires all separately recognized servicing assets or liabilities to be initially measured at fair value, if practicable.

Permits an entity to either (i) amortize servicing assets or liabilities in proportion to and over the period of estimated net servicing income or loss and assess servicing assets or liabilities for impairment or increased obligation based on fair value at each reporting date (amortization method); or (ii) measure servicing assets or liabilities at fair value at each reporting date and report changes in fair value in earnings in the period in which

the changes occur (fair value measurement method). The method must be chosen for each separately recognized class of servicing asset or liability.

At its initial adoption, permits a one-time reclassification of available-for-sale securities to trading securities by entities with recognized servicing rights, without calling into question the treatment of other available-for-sale securities under SFAS No. 115, provided that the available-for-sale securities are identified in some manner as offsetting the entity's exposure to changes in fair value of servicing assets or liabilities that a servicer elects to subsequently measure at fair value.

SLM CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Information at June 30, 2007 and for the three and six months ended
June 30, 2007 and 2006 is unaudited)
(Dollars in thousands, except per share amounts, unless otherwise noted)

1. Significant Accounting Policies (Continued)

Requires separate presentation of servicing assets and liabilities subsequently measured at fair value in the statement of financial position and additional disclosures for all separately recognized servicing assets and liabilities.

The adoption of SFAS No. 156 did not have a material impact on the Company's financial statements as the Company did not elect to carry its servicing rights at fair value through earnings.

Accounting for Certain Hybrid Financial Instruments

In February 2006, the FASB issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments which amends SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, and SFAS No. 140. This statement was effective for the Company beginning January 1, 2007.

This statement:

Requires that all interests in securitized financial assets be evaluated to determine if the interests are free standing derivatives or if the interests contain an embedded derivative;

Clarifies which interest-only strips and principal-only strips are exempt from the requirements of SFAS No. 133;

Clarifies that the concentrations of credit risk in the form of subordination are not an embedded derivative; and

Allows a hybrid financial instrument containing an embedded derivative that would have required bifurcation under SFAS No. 133 to be measured at fair value as one instrument on a case by case basis;

Amends SFAS Statement No. 140 to eliminate the prohibition of a qualifying special purpose entity from holding a derivative financial instrument that pertains to beneficial interests other than another derivative financial instrument.

In January 2007, the FASB issued SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, Implementation Issues No. B39, Embedded Derivatives: Application of Paragraph 13(b) to Call Options That Are Exercisable Only by the Debtor (Amended), and No. B40, Embedded Derivatives: Application of Paragraph 13(b) to Securitized Interests in Prepayable Financial Assets. The guidance clarifies various aspects of SFAS No. 155 and will require the Company to either (1) separately record embedded derivatives that may reside in the Company's Residual Interest and on-balance sheet securitization debt, or (2) if embedded derivatives exist that require bifurcation, mark-to-market through income changes in the fair value of the Company's Residual Interest and on-balance sheet securitization debt in their entirety. This standard is prospectively applied in 2007 for new securitizations and does not

apply to the Company's existing Residual Interest or on-balance sheet securitization debt that settled prior to 2007.

If material embedded derivatives exist within the Residual Interest that require bifurcation, the Company will most likely elect to carry the entire Residual Interest at fair value with subsequent changes in fair value recorded in earnings. This could have a material impact on earnings, as prior to the adoption of SFAS No. 155, changes in the fair value of these Residual Interests would have been recorded through other comprehensive income (except for impairment which is recorded through income). The Company elected this option related to the Private Education Loan securitization which settled in the first quarter of 2007 and as a result, has recorded related unrealized gains/losses through earnings that, prior to the adoption of SFAS No. 155, would have been recorded through other comprehensive income.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Information at June 30, 2007 and for the three and six months ended
June 30, 2007 and 2006 is unaudited)
(Dollars in thousands, except per share amounts, unless otherwise noted)

1. Significant Accounting Policies (Continued)

The Company has concluded, based on its current securitization deal structures, that its on-balance sheet securitization debt will not be materially impacted upon the adoption of SFAS No. 155 as embedded derivatives will not have a material value. Accordingly, there was no impact for the six months ended June 30, 2007, as it relates to on-balance sheet securitization debt.

2. Allowance for Student Loan Losses

The Company's provisions for student loan losses represent the periodic expense of maintaining an allowance sufficient to absorb losses, net of recoveries, inherent in the student loan portfolios. The evaluation of the provisions for student loan losses is inherently subjective as it requires material estimates that may be susceptible to significant changes. The Company believes that the allowance for student loan losses is appropriate to cover probable losses in the student loan portfolios.

The following table summarizes changes in the allowance for student loan losses for both the Private Education Loan and federally insured student loan portfolios for the three and six months ended June 30, 2007 and 2006.

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2007	2006	2007	2006
Balance at beginning of period	\$ 391,351	\$ 247,677	\$ 328,661	\$ 219,062

2. Allowance for Student Loan Losses (Continued)

The following table summarizes changes in the allowance for student loan losses for Private Education Loans for the three and six months ended June 30, 2007 and 2006. The provision for the three months ended June 30, 2007, includes an update to the Company's projected default rates reflecting an increased gross charge-off expectation somewhat offset by an increase in expected life-of-loan recoveries. For the three months ended June 30, 2007, the net effect of these changes in estimates included in the provision expense is \$58 million.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Balance at beginning of period	\$ 369,072	\$ 232,147	\$ 308,346	\$ 204,112

June 30, 2007 and 2006 is unaudited)
(Dollars in thousands, except per share amounts, unless otherwise noted)

3. Goodwill and Acquired Intangible Assets

Intangible assets include the following:

(Dollars in millions)	Average Amortization Period	Gross	As of June 30, 2007 Accumulated Amortization	Net
<i>Intangible assets subject to amortization:</i>				
Customer, services, and lending relationships	12 years	\$ 375	\$ (139)	\$ 236
Tax exempt bond funding	10 years			
Software and technology	7 years	95	(70)	25
Non-compete agreements	2 years	12	(10)	2
Total		482	(219)	263
<i>Intangible assets not subject to amortization:</i>				
Trade name and trademark	Indefinite	116		116
Total acquired intangible assets		\$ 598	\$ (219)	\$ 379

(Dollars in millions)	Average Amortization Period	Gross	As of December 31, 2006 Accumulated Amortization	Net
<i>Intangible assets subject to amortization:</i>				
Customer, services, and lending relationships	12 years	\$ 367	\$ (115)	\$ 252
Tax exempt bond funding	10 years	46	(37)	9
Software and technology	7 years	94	(62)	32
Non-compete agreements	2 years	12	(9)	3
Total		519	(223)	296
<i>Intangible assets not subject to amortization:</i>				
Trade name and trademark	Indefinite	106		106
Total acquired intangible assets		\$ 625	\$ (223)	\$ 402

The Company recorded intangible impairment and amortization of acquired intangibles totaling \$17 million and \$18 million for the three months ended June 30, 2007 and 2006, respectively, and \$40 million and \$32 million for the six months ended June 30, 2007 and 2006, respectively. The Company will continue to amortize its intangible assets with definite useful lives over their remaining estimated useful lives.

In connection with the Company's acquisition of Southwest Student Services Corporation and Washington Transferee Corporation, the Company acquired certain tax exempt bonds that enable the Company to earn a 9.5 percent Special Allowance Payment (SAP) rate on student loans funded by those bonds in indentured trusts. In the first quarter of 2007, the Company recognized an impairment of \$9 million due to changes that restrict the loans on which the Company is entitled to earn a 9.5 percent yield. The impaired intangible asset is reported in the Lending segment and the impairment charge is included in operating expense in the Lending segment.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Information at June 30, 2007 and for the three and six months ended
June 30, 2007 and 2006 is unaudited)
(Dollars in thousands, except per share amounts, unless otherwise noted)

3. Goodwill and Acquired Intangible Assets (Continued)

A summary of changes in the Company's goodwill by reportable segment (see Note 11, Segment Reporting) is as follows:

(Dollars in millions)	December 31, 2006	Adjustments	June 30, 2007
Lending	\$ 406	\$ 1	\$ 407
Debt Management Operations	349	14	363
Corporate and Other	215	(8)	207
Total	\$ 970	\$ 7	\$ 977

Acquisitions are accounted for under the purchase method of accounting as defined in SFAS No. 141, Business Combinations. The Company allocates the purchase price to the fair value of the acquired tangible assets, liabilities and identifiable intangible assets as of the acquisition date as determined by an independent appraiser. Goodwill associated with the Company's acquisitions is reviewed for impairment in accordance with SFAS No. 142, Goodwill and Other Intangible Assets, addressed further in Note 2, Significant Accounting Policies, within the Company's 2006 Annual Report on Form 10-K.

4. Student Loan Securitization***Securitization Activity***

The Company securitizes its student loan assets and for transactions qualifying as sales, retains a Residual Interest and servicing rights (as the Company retains the servicing responsibilities), all of which are referred to as the Company's Retained Interest in off-balance sheet securitized loans. The Residual Interest is the right to receive cash flows from the student loans and reserve accounts in excess of the amounts needed to pay servicing, derivative costs (if any), other fees, and the principal and interest on the bonds backed by the student loans. The investors of the securitization trusts have no recourse to the Company's other assets should there be a failure of the trusts to pay when due.

Total securitizations	5	\$ 17,991			7	\$ 17,507		

- (1) In certain securitizations there are terms within the deal structure that result in such securitizations not qualifying for sale treatment and accordingly, they are accounted for on-balance sheet as variable interest entities (VIEs). Terms that prevent sale treatment include: (1) allowing the Company to hold certain rights that can affect the remarketing of certain bonds, (2) allowing the trust to enter into interest rate cap agreements after the initial settlement of the securitization, which do not relate to the reissuance of third party beneficial interests or (3) allowing the Company to hold an unconditional call option related to a certain percentage of the securitized assets.

Expected credit losses (% of principal securitized)		4.69%	.15%	.27%		4.79%
		12.5%	12.4%	10.6%		13.0%

Residual cash flows
discounted at (weighted
average)

- (1) No securitizations qualified for sale treatment in the period.
 - (2) Effective December 31, 2006, the Company implemented Constant Prepayment Rates (CPR) curves for Residual Interest valuations that are based on the number of months since entering repayment that better reflect the CPR as the loan seasons. Under this methodology, a different CPR is applied to each year of a loan s seasoning. Previously, the Company applied a CPR that was based on a static life of loan assumption, irrespective of seasoning, or, in the case of FFELP Stafford and PLUS loans, the Company used a vector approach in applying the CPR. The repayment status CPR depends on the number of months since first entering repayment or as the loans seasons through the portfolio. Life of loan CPR is related to repayment status only and does not include the impact of the loan while in interim status. The CPR assumption used for all periods includes the impact of projected defaults.
- * CPR of 20 percent for 2006, 15 percent for 2007 and 10 percent thereafter.

Edgar Filing: SLM CORP - Form 10-Q

Interim status	0%	N/A	0%
Repayment status	0-43%	3-9%	4-7%
Life of loan repayment status	24%	6%	6%
Expected credit losses (% of student loan principal)	.06%	.07%	4.36%
Residual cash flows discount rate	12.6%	10.5%	12.6%

- (1) Includes \$94 million and \$151 million related to the fair value of the Embedded Floor Income as of June 30, 2007 and December 31, 2006, respectively. Changes in the fair value of the Embedded Floor Income are primarily due to changes in the interest rates and the paydown of the underlying loans.
- (2) At June 30, 2007 and December 31, 2006, the Company had unrealized gains (pre-tax) in accumulated other comprehensive income of \$286 million and \$389 million, respectively, that related to the Retained Interests.
- (3) In addition to student loans in off-balance sheet trusts, the Company had \$61.4 billion and \$48.6 billion of securitized student loans outstanding (face amount) as of June 30, 2007 and December 31, 2006, respectively, in on-balance sheet securitization trusts.
- (4) Effective December 31, 2006, the Company implemented CPR curves for Residual Interest valuations that are based on seasoning (the number of months since entering repayment). Under this methodology, a different CPR is applied to each year of a loan's seasoning. Previously, the Company applied a CPR that was based on a static life of loan assumption, and, in the case of FFELP Stafford and PLUS loans, the Company applied a vector approach, irrespective of seasoning. Repayment status CPR used is based on the number of months since first entering repayment (seasoning). Life of loan CPR is related to repayment status only and does not include the impact of the loan while in interim status. The CPR assumption used for all periods includes the impact of projected defaults.
- (5) The Company increased its recovery rate assumption on defaulted Private Education Loans from 22 percent to 27 percent as of June 30, 2007.
- (6) As discussed in Note 1, Significant Accounting Policies Accounting for Certain Hybrid Financial Instruments the Company adopted SFAS No. 155, Accounting for Certain Hybrid Financial Instruments effective January 1, 2007. As a result, the Company elected to carry the Residual Interest on the Private Education Loan securitization which settled in the first quarter of 2007 at fair value with subsequent changes in fair value recorded in earnings. The fair value of this Residual Interest at June 30, 2007 was \$429 million inclusive of a net \$57 million fair value gain adjustment recorded since settlement.

(Information at June 30, 2007 and for the three and six months ended
June 30, 2007 and 2006 is unaudited)
(Dollars in thousands, except per share amounts, unless otherwise noted)

4. Student Loan Securitization (Continued)

The Company recorded impairments to the Retained Interests of \$35 million and \$91 million, respectively, for the three months ended June 30, 2007 and 2006, and \$46 million and \$143 million, respectively, for the six months ended June 30, 2007 and 2006. The impairment charges were the result of FFELP loans prepaying faster than projected through loan consolidations (\$11 million and \$68 million for the three months ended June 30, 2007 and 2006, respectively, and \$22 million and \$92 million for the six months ended June 30, 2007 and 2006, respectively) as well as impairment to the Floor Income component of the Company's Retained Interest due to increases in interest rates during the period (\$24 million and \$23 million for the three months ended June 30, 2007 and 2006, respectively, and \$24 million and \$51 million for the six months ended June 30, 2007 and 2006, respectively).

The table below shows the Company's off-balance sheet Private Education Loan delinquency trends as of June 30, 2007, December 31, 2006 and June 30, 2006.

(Dollars in millions)	June 30, 2007		December 31, 2006		June 30, 2006	
	Balance	%	Balance	%	Balance	%
Loans in-school/grace/deferment ⁽¹⁾	\$ 6,136		\$ 5,608		\$ 6,074	
Loans in forbearance ⁽²⁾	1,093		822		751	
Loans in repayment and percentage of each status:						
Loans current	7,002	95.3%	6,419	94.5%	5,483	95.7%
Loans delinquent 31-60 days ⁽³⁾	196	2.7	222	3.3	151	2.6
Loans delinquent 61-90 days ⁽³⁾	66	.9	60	.9	50	.9
Loans delinquent greater than 90 days ⁽³⁾	80	1.1	91	1.3	47	.8
Total off-balance sheet Private Education Loans in repayment	7,344	100%	6,792	100%	5,731	100%
Total off-balance sheet Private Education Loans, gross	\$ 14,573		\$ 13,222		\$ 12,556	

⁽¹⁾ Loans for borrowers who still may be attending school or engaging in other permitted educational activities and are not yet required to make payments on their loans, e.g., residency periods for medical students or a grace period for bar exam preparation.

- (2) Loans for borrowers who have requested extension of grace period generally during employment transition or who have temporarily ceased making full payments due to hardship or other factors consistent with the established loan program servicing procedures and programs.
- (3) The period of delinquency is based on the number of days scheduled payments are contractually past due.

5. Derivative Financial Instruments

Summary of Derivative Financial Statement Impact

The following tables summarize the fair values and notional amounts or number of contracts of all derivative instruments at June 30, 2007 and December 31, 2006 and their impact on other comprehensive income and earnings for the three and six months ended June 30, 2007 and 2006. At June 30, 2007 and December 31, 2006, \$714 million (of which \$58 million is in restricted cash and investments on the balance sheet) and \$418 million (of which \$53 million is in restricted cash and investments on the balance sheet) fair

2008	7.3	\$43.50 - \$44.00	\$ 43.80
2009	14.7	46.00 - 54.74	53.66
2010	15.0	54.74	54.74
2011	9.1	49.75 - 53.76	51.91
2012	2.1	46.30 - 46.70	46.40
	48.2		\$ 51.86

The closing price of the Company's common stock on June 29, 2007 was \$57.58. Should the market value of the Company's stock fall below certain initial trigger prices, the counterparty to the contract has a right to terminate the contract and settle all or a portion at the original contract price. For equity forward contracts outstanding at June 30, 2007, these initial trigger prices range from \$23.93 per share to \$30.11 per share.

Accumulated Other Comprehensive Income

Accumulated other comprehensive income includes the after-tax change in unrealized gains and losses on available-for-sale investments, unrealized gains and losses on derivatives qualifying as cash flow hedges, and the defined benefit pension plans adjustment. The following table presents the cumulative balances of the components of other comprehensive income as of June 30, 2007, December 31, 2006 and June 30, 2006.

	June 30, 2007	December 31, 2006	June 30, 2006
Net unrealized gains (losses) on investments ⁽¹⁾	\$ 250,263	\$ 340,363	\$ 375,503
Net unrealized gains (losses) on derivatives ⁽²⁾	(671)	(7,570)	(3,459)
Defined benefit pension plans:			
Net prior service cost	(23)	(24)	

Edgar Filing: SLM CORP - Form 10-Q

Net gain	15,819	16,342	
Total defined benefit pension plans ⁽³⁾	15,796	16,318	
Minimum pension liability adjustment ⁽⁴⁾			(1,840)
Total accumulated other comprehensive income	\$ 265,388	\$ 349,111	\$ 370,204

(1) Net of tax expense of \$130,348, \$179,244 and \$199,569 as of June 30, 2007, December 31, 2006 and June 30, 2006, respectively.

(2) Net of tax benefit of \$382, \$4,347 and \$1,977 as of June 30, 2007, December 31, 2006 and June 30, 2006, respectively.

(3) Net of tax expense of \$9,309 and \$8,787 as of June 30, 2007 and December 31, 2006, respectively.

(4) Net of tax benefit of \$991 as of June 30, 2006.

(Information at June 30, 2007 and for the three and six months ended
June 30, 2007 and 2006 is unaudited)
(Dollars in thousands, except per share amounts, unless otherwise noted)

7. Earnings per Common Share

Basic earnings per common share (EPS) are calculated using the weighted average number of shares of common stock outstanding during each period. A reconciliation of the numerators and denominators of the basic and diluted EPS calculations follows for the three and six months ended June 30, 2007 and 2006.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Numerator:				
Net income attributable to common stock	\$ 957,315	\$ 714,991	\$ 1,064,375	\$ 858,291
Adjusted for debt expense of convertible debentures (Co-Cos), net of taxes	17,679	16,460	35,189	31,277
Adjusted for non-taxable unrealized gains on equity forwards ⁽²⁾	(507,072)	(39,717)	(272,191)	
Net income attributable to common stock, adjusted	\$ 467,922	\$ 691,734	\$ 827,373	\$ 889,568
Denominator (shares in thousands):				
Weighted average shares used to compute basic EPS	411,870	410,957	411,457	411,811
Effect of dilutive securities:				
Dilutive effect of Co-Cos	30,312	30,312	30,312	30,312
Dilutive effect of stock options, nonvested deferred compensation, nonvested restricted stock, restricted stock units, Employee Stock Purchase Plan (ESPP) and equity forwards ⁽³⁾⁽⁴⁾	10,224	13,045	12,370	11,680
Dilutive potential common shares ⁽⁵⁾	40,536	43,357	42,682	41,992
Weighted average shares used to compute diluted EPS	452,406	454,314	454,139	453,803
Net earnings per share:				
Basic EPS	\$ 2.32	\$ 1.74	\$ 2.59	\$ 2.08
Dilutive effect of Co-Cos ⁽¹⁾	(.03)	(.08)	(.05)	(.07)
Dilutive effect of equity forwards ⁽²⁾⁽⁴⁾	(1.21)	(.09)	(.66)	
Dilutive effect of stock options, nonvested deferred compensation, nonvested restricted stock, restricted stock units, and ESPP ⁽³⁾	(.05)	(.05)	(.06)	(.05)

Diluted EPS	\$	1.03	\$	1.52	\$	1.82	\$	1.96
-------------	----	------	----	------	----	------	----	------

- (1) Emerging Issues Task Force (EITF) Issue No. 04-8, The Effect of Contingently Convertible Debt on Diluted Earnings per Share, requires the shares underlying Co-Cos to be included in diluted EPS computations regardless of whether the market price trigger or the conversion price has been met, using the if-converted method. On June 25, 2007, holders of these securities were notified that the Co-Cos would be called at par on July 25, 2007, as allowed by the terms of the indenture governing the Co-Cos.
- (2) SFAS No. 128, Earnings per Share, and the additional guidance provided by EITF Topic No. D-72, Effect of Contracts That May Be Settled in Stock or Cash on the Computation of Diluted Earnings per Share, require both the denominator and the numerator to be adjusted in calculating the potential impact of the Company's equity forward contracts on diluted EPS. Under this guidance, when certain conditions are satisfied, the impact can be dilutive when: (1) the average share price during the period is lower than the respective strike prices on the Company's equity forward contracts, and (2) the Company recorded an unrealized gain or loss on derivative and hedging activities related to its equity forward contracts.
- (3) Reflects the potential dilutive effect of additional common shares that are issuable upon exercise of outstanding stock options, nonvested deferred compensation, nonvested restricted stock, restricted stock units, and the outstanding commitment to issue shares under the ESPP, determined by the treasury stock method.
- (4) Reflects the potential dilutive effect of equity forward contracts, determined by the reverse treasury stock method.
- (5) For the three months ended June 30, 2007 and 2006, stock options and equity forwards of approximately 21 million shares and 8 million shares, respectively, and for the six months ended June 30, 2007 and 2006, stock options and equity forwards of approximately 26 million shares and 12 million shares, respectively, were outstanding but not included in the computation of diluted earnings per share because they were antidilutive.

(Dollars in thousands, except per share amounts, unless otherwise noted)

8. Pension Plans**Components of Net Periodic Pension Cost**

Net periodic pension cost included the following components:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Service cost – benefits earned during the period	\$ 1,775	\$ 2,073	\$ 3,550	\$ 4,146
Interest cost on projected benefit obligations	3,084	2,862	6,168	5,724
Expected return on plan assets	(4,494)	(4,069)	(8,988)	(8,138)
Net amortization and deferral	(179)	122	(359)	244
Total net periodic pension cost	\$ 186	\$ 988	\$ 371	\$ 1,976

Employer Contributions

The Company previously disclosed in its financial statements for the year ended December 31, 2006 that it did not expect to contribute to its qualified pension plan (the "Qualified Plan") in 2007. As of June 30, 2007, the Company had made no contributions to its Qualified Plan.

9. Income Taxes

The following table summarizes the Company's unrecognized tax benefits:

	As of January 1, 2007
Gross amount of unrecognized tax benefits	\$ 113,334
Total amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate	38,325
Total amount of interest and penalties recognized in the statement of operations and the statement of financial position	16,418

The Company adopted the provisions of the FASB's Financial Interpretation ("FIN") No. 48, "Accounting for Uncertainty in Income Taxes," on January 1, 2007. As a result of the implementation of FIN No. 48, the Company recognized a

\$6 million increase in its liability for unrecognized tax benefits, which was accounted for as a reduction to the January 1, 2007 balance of retained earnings. In addition, unrecognized tax benefits of \$3 million are currently treated as a pending refund claim, reducing the above balance of total unrecognized tax benefits that if recognized would affect the effective tax rate.

In the first and second quarters of 2007, the Company adjusted its federal unrecognized tax benefits to reflect the expected outcome of several issues that were addressed with the IRS as a part of the 2003-2004 exam cycle, primarily regarding the timing of recognition of certain income and deduction items. Several other less significant amounts of uncertain tax benefits were also added during the quarters. In total, as of June 30, 2007, the Company has gross unrecognized tax benefits of \$182 million, unrecognized tax benefits that, if recognized, would impact the effective tax rate of \$42 million, as well as total interest and penalties recognized in the statements of operations and financial position of \$17 million.

(Dollars in thousands, except per share amounts, unless otherwise noted)

9. Income Taxes (Continued)**Reasonably Possible Significant Increases/Decreases within Twelve Months*****U.S. Federal Tax Uncertainties***

The IRS issued a Revenue Agent's Report (RAR) during the second quarter of 2007 concluding the primary exam of the Company's 2003 and 2004 U.S. federal tax returns. However, the exam of these years remains open pending the conclusion of the separate IRS audit of an entity in which the Company is an investor (any results of which are not expected to have a material impact on the Company's unrecognized tax benefit amounts). In addition, the Company is currently filing an administrative-level appeal related to one unagreed item originating from the Company's 2004 U.S. federal tax return. An estimate of the range of the possible change to the balance of the Company's unrecognized tax benefits that may result from resolution of the remaining unagreed item cannot at this time be made, pending further development of the appeals process.

In addition, it is expected that during the second half of 2007, the IRS will commence the examination of the Company's 2005 and 2006 federal income tax returns. It is reasonably possible that issues which arise during the exam may create the need for an increase in unrecognized tax benefits. Until the exam commences, an estimate of any such amounts cannot be made.

Other Tax Uncertainties

In the event that the Company is not contacted for exam by additional tax authorities by the end of 2007, it is reasonably possible that there will be a decrease in the Company's unrecognized tax position liability, due to the tolling of various statute of limitations periods. Such change could be approximately \$3 million to \$5 million.

Tax Years Remaining Subject to Exam

The Company or one of its subsidiaries files income tax returns at the U.S. federal level, in most U.S. states, and various foreign jurisdictions. U.S. federal income tax returns filed for years prior to 2003 have been audited and are now resolved. As shown in the table below, the Company's primary operating subsidiary has been audited by the listed states through the year shown, again with all issues resolved. Other combinations of subsidiaries, tax years, and jurisdictions remain open for review, subject to statute of limitations periods (typically 3 to 4 prior years).

State	Year audited through
Florida	2000
Indiana	2000
Pennsylvania	2000
California	2002

Missouri	2003
New York	2003
Texas	2004

The Company recognizes interest accrued related to unrecognized tax benefits in income tax expense, and penalties in operating expenses.

(Dollars in thousands, except per share amounts, unless otherwise noted)

10. Contingencies

On April 14, 2007, the Company was served with a putative class action suit by several borrowers in federal court in California. The complaint alleges violations of California Business & Professions Code 17200, breach of contract, breach of covenant of good faith and fair dealing, violation of consumer legal remedies act and unjust enrichment. The complaint challenges the Company's FFELP billing practices as they relate to use of the simple daily interest method for calculating interest. The Company believes the complaint is without merit and it intends to vigorously defend this action. The Company filed a motion to dismiss on June 21, 2007, with a hearing on the motion expected in late August.

On January 25, 2007, the Attorney General of Illinois filed a lawsuit against one of the Company's subsidiaries, Arrow Financial Services, LLC (AFS), in the Circuit Court of Cook County, Illinois alleging that AFS violated the Illinois Consumer Fraud and Deceptive Practices Act and the federal Fair Debt Collections Practices Act. The lawsuit seeks to enjoin AFS from violating the Illinois Consumer Fraud and Deceptive Practices Act and from engaging in debt management and collection services in or from the State of Illinois. The lawsuit also seeks to rescind certain agreements to pay back debt between AFS and Illinois consumers, to pay restitution to all consumers who have been harmed by AFS's alleged unlawful practices, to impose a statutory civil penalty of \$50,000 and to impose a civil penalty of \$50,000 per violation (\$60,000 per violation if the consumer is 65 years of age or older). The lawsuit alleges that as of January 25, 2007, 660 complaints against Arrow Financial have been filed with the Office of the Illinois Attorney General since 1999 and over 800 complaints have been filed with the Better Business Bureau. As of December 29, 2006, the Company owns 88 percent of the membership interests in AFS Holdings, LLC, the parent company of AFS. Management cannot predict the outcome of this lawsuit or its effect on the Company's financial position or results of operations.

The Company is also subject to various claims, lawsuits and other actions that arise in the normal course of business. Most of these matters are claims by borrowers disputing the manner in which their loans have been processed or the accuracy of the Company's reports to credit bureaus. In addition, the collections subsidiaries in the Company's debt management operations group are routinely named in individual plaintiff or class action lawsuits in which the plaintiffs allege that the Company has violated a federal or state law in the process of collecting their account. Management believes that these claims, lawsuits and other actions will not have a material adverse effect on its business, financial condition or results of operations. Finally, from time to time, the Company receives information and document requests from state attorneys general concerning certain of its business practices. The Company's practice has been and continues to be to cooperate with the state attorneys general and to be responsive to any such requests.

11. Segment Reporting

The Company has two primary operating segments as defined in SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information—the Lending and Debt Management Operations (DMO) segments. The Lending and DMO operating segments meet the quantitative thresholds for reportable segments identified in SFAS No. 131. Accordingly, the results of operations of the Company's Lending and DMO segments are presented below. The

Company has smaller operating segments including the Guarantor Servicing and Student Loan Servicing operating segments as well as certain other products and services provided to colleges and universities which do not meet the quantitative thresholds identified in SFAS No. 131. Therefore, the results of operations for these operating segments and the revenues and expenses associated with these other products and services are combined with corporate overhead and other corporate activities within the Corporate and Other reporting segment.

11. Segment Reporting (Continued)

The management reporting process measures the performance of the Company's operating segments based on the management structure of the Company as well as the methodology used by management to evaluate performance and allocate resources. Management, including the Company's chief operating decision maker, evaluates the performance of the Company's operating segments based on their profitability. As discussed further below, management measures the profitability of the Company's operating segments based on Core Earnings net income. Accordingly, information regarding the Company's reportable segments is provided based on a Core Earnings basis. The Company's Core Earnings performance measures are not defined terms within GAAP and may not be comparable to similarly titled measures reported by other companies. Core Earnings net income reflects only current period adjustments to GAAP net income as described below. Unlike financial accounting, there is no comprehensive, authoritative guidance for management reporting. The management reporting process measures the performance of the operating segments based on the management structure of the Company and is not necessarily comparable with similar information for any other financial institution. The Company's operating segments are defined by the products and services they offer or the types of customers they serve, and they reflect the manner in which financial information is currently evaluated by management. Intersegment revenues and expenses are netted within the appropriate financial statement line items consistent with the income statement presentation provided to management. Changes in management structure or allocation methodologies and procedures may result in changes in reported segment financial information.

The Company's principal operations are located in the United States, and its results of operations and long-lived assets in geographic regions outside of the United States are not significant. In the Lending segment, no individual customer accounted for more than 10 percent of its total revenue during the three months ended June 30, 2007 and 2006. United Student Aid Funds, Inc. (USA Funds) is the Company's largest customer in both the DMO and Corporate and Other segments. During the six months ending June 30, 2007 and 2006, it accounted for 33 percent and 38 percent, respectively, of the aggregate revenues generated by the Company's DMO and Corporate and Other segments. No other customers accounted for more than 10 percent of total revenues in those segments for the years mentioned.

Lending

In the Company's Lending business segment, the Company originates and acquires both federally guaranteed student loans, which are administered by the U.S. Department of Education (ED), and Private Education Loans, which are not federally guaranteed. Private Education Loans are primarily used by borrowers to supplement FFELP loans to meet the rising cost of education. The Company manages student loans for nearly 10 million student and parent customers; its Managed student loan portfolio totaled \$153.2 billion at June 30, 2007, of which \$128.1 billion or 84 percent are federally insured. In addition to education lending, the Company also originates mortgage and consumer loans with the intent of selling the majority of such loans. During the six months ended June 30, 2007, the Company originated \$617 million in mortgage and consumer loans of which \$441 million pertained to mortgages in the held for sale portfolio. The Company's mortgage and consumer loan portfolio totaled \$600 million at June 30, 2007.

In addition to its federally insured FFELP products, the Company originates and acquires Private Education Loans which consist of two general types: (1) those that are designed to bridge the gap between the cost of higher education

and the amount financed through either capped federally insured loans or the borrowers' resources, and (2) those that are used to meet the needs of students who attend non-Title IV eligible institutions where FFELP loans are not available (such as career training, distance learning and lifelong

11. Segment Reporting (Continued)

learning programs). Most higher education Private Education Loans are made in conjunction with a FFELP Stafford loan and as such are marketed through the same channel as FFELP loans by the same sales force. Unlike FFELP loans, Private Education Loans are subject to the full credit risk of the borrower. The Company manages this additional risk through loan underwriting standards and a combination of higher interest rates and loan origination fees that compensate the Company for the higher risk.

DMO

The Company's DMO operating segment provides a wide range of accounts receivable and collections services including student loan default aversion services, defaulted student loan portfolio management services, contingency collections services for student loans and other asset classes, and accounts receivable management and collection for purchased portfolios of receivables that are delinquent or have been charged off by their original creditors as well as sub-performing and non-performing mortgage loans. The Company's DMO operating segment serves the student loan marketplace through a broad array of default management services on a contingency fee or other pay-for-performance basis to 14 FFELP guarantors and for campus based programs.

In addition to collecting on its own purchased receivables and mortgage loans, the DMO operating segment provides receivable management and collection services for large federal agencies, credit card clients and other holders of consumer debt.

Corporate and Other

The Company's Corporate and Other business segment includes the aggregate activity of its smaller operating segments, primarily its Guarantor Servicing and Student Loan Servicing operating segments, and its recently acquired Upromise operating segment. Corporate and Other also includes several smaller products and services, as well as corporate overhead.

In the Guarantor Servicing operating segment, the Company provides a full complement of administrative services to FFELP guarantors including guarantee issuance, account maintenance, and guarantee fulfillment. In the Student Loan Servicing operating segment, the Company provides a full complement of activities required to service student loans on behalf of lenders who are unrelated to the Company. Such servicing activities generally commence once a loan has been fully disbursed and include sending out payment coupons to borrowers, processing borrower payments, originating and disbursing FFELP Consolidation Loans on behalf of the lender, and other administrative activities required by ED.

Corporate overhead includes all of the typical headquarter functions such as executive management, accounting and finance, human resources and marketing.

Measure of Profitability

The tables below include the condensed operating results for each of the Company's reportable segments. Management, including the chief operating decision maker, evaluates the Company on certain performance measures that the Company refers to as "Core Earnings" performance measures for each operating segment. While "Core Earnings" results are not a substitute for reported results under GAAP, the Company relies on "Core Earnings" performance measures to manage each operating segment because it believes these measures provide additional information regarding the operational and performance indicators that are most closely assessed by management.

11. Segment Reporting (Continued)

Core Earnings performance measures are the primary financial performance measures used by management to develop the Company's financial plans, track results, and establish corporate performance targets and incentive compensation. Management believes this information provides additional insight into the financial performance of the core business activities of its operating segments. Accordingly, the tables presented below reflect Core Earnings operating measures reviewed and utilized by management to manage the business. Reconciliation of the Core Earnings segment totals to the Company's consolidated operating results in accordance with GAAP is also included in the tables below.

Segment Results and Reconciliations to GAAP

(Dollars in millions)	Three Months Ended June 30, 2007					
	Lending	DMO	Corporate and Other	Total Core Earnings	Adjustments ⁽³⁾	Total GAAP

11. Segment Reporting (Continued)***Summary of Core Earnings Adjustments to GAAP***

The adjustments required to reconcile from the Company's Core Earnings results to its GAAP results of operations relate to differing treatments for securitization transactions, derivatives, Floor Income related to the Company's student loans, and certain other items that management does not consider in evaluating the Company's operating results. The following table reflects aggregate adjustments associated with these areas for the three and six months ended June 30, 2007 and 2006.

(Dollars in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Core Earnings adjustments to GAAP:				
Net impact of securitization accounting ⁽¹⁾	\$ (15)	\$ 502	\$ 406	\$ 440
Net impact of derivative accounting ⁽²⁾	842	165	510	126
Net impact of Floor Income ⁽³⁾	(39)	(52)	(78)	(105)
Net impact of acquired intangibles ⁽⁴⁾	(17)	(18)	(40)	(32)
Net tax effect ⁽⁵⁾	6	(193)	(156)	(161)
Total Core Earnings adjustments to GAAP	\$ 777	\$ 404	\$ 642	\$ 268

- (1) **Securitization:** Under GAAP, certain securitization transactions in the Company's Lending operating segment are accounted for as sales of assets. Under the Company's Core Earnings presentation for the Lending operating segment, the Company presents all securitization transactions on a Core Earnings basis as long-term non-recourse financings. The upfront gains on sale from securitization transactions as well as ongoing servicing and securitization revenue presented in accordance with GAAP are excluded from Core Earnings net income and replaced by the interest income, provisions for loan losses, and interest expense as they are earned or incurred on the securitization loans. The Company also excludes transactions with its off-balance sheet trusts from Core Earnings net income as they are considered intercompany transactions on a Core Earnings basis.
- (2) **Derivative accounting:** Core Earnings net income excludes periodic unrealized gains and losses arising primarily in the Company's Lending operating segment, and to a lesser degree in the Company's Corporate and Other reportable segment, that are caused primarily by the one-sided mark-to-market derivative valuations prescribed by SFAS No. 133 on derivatives that do not qualify for hedge treatment under GAAP. Under the Company's Core Earnings presentation, the Company recognizes the economic effect of these hedges, which generally results in any cash paid or received being recognized ratably as an expense or revenue over the hedged

item's life. Core Earnings net income also excludes the gain or loss on equity forward contracts that under SFAS No. 133, are required to be accounted for as derivatives and are marked-to-market through GAAP net income.

- (3) **Floor Income:** The timing and amount (if any) of Floor Income earned in the Company's Lending operating segment is uncertain and in excess of expected spreads. Therefore, the Company excludes such income from Core Earnings net income when it is not economically hedged. The Company employs derivatives, primarily Floor Income Contracts and futures, to economically hedge Floor Income. As discussed above in Derivative Accounting, these derivatives do not qualify as effective accounting hedges and therefore, under GAAP, are marked-to-market through the gains (losses) on derivative and hedging activities, net line on the income statement with no offsetting gain or loss recorded for the economically hedged items. For Core Earnings net income, the Company reverses the fair value adjustments on the Floor Income Contracts and futures economically hedging Floor Income and includes the amortization of net premiums received (net of Eurodollar futures contracts realized gains or losses) in income.
- (4) **Acquired Intangibles:** The Company excludes goodwill and intangible impairment and amortization of acquired intangibles.
- (5) **Net Tax Effect:** Such tax effect is based upon the Company's Core Earnings effective tax rate for the year. The net tax effect results primarily from the exclusion of the permanent income tax impact of the equity forward contracts.

12. Merger Related Developments

On April 16, 2007, the Company announced that the Investor Group signed the Merger Agreement to acquire the Company for approximately \$25.3 billion or \$60.00 per share of common stock. When the transaction is complete, J.C. Flowers and certain other private equity investors, including Friedman Fleischer & Lowe, will invest approximately \$4.4 billion and own 50.2 percent, and Bank of America (NYSE: BAC) and JPMorgan Chase (NYSE: JPM) each will invest approximately \$2.2 billion and each will own 24.9 percent. The remainder of the purchase price is anticipated to be funded by debt. The Company's independent board members unanimously approved the agreement and recommended that its shareholders approve the agreement. (See also Merger Agreement filed with the SEC on the Company's Current Report on Form 8-K, dated April 18, 2007.) Pursuant to the Merger Agreement, the Company will not pay dividends on its common stock prior to the consummation of the proposed transaction.

The Investor Group has stated that it is committed to supporting the Company's focus on transparency among lenders, schools and students and on corporate responsibility. The Company will be subject to oversight by Congress and ED, and will continue to be subject to all applicable federal and state laws, including the Higher Education Act.

The termination of the waiting periods under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, was granted on June 18, 2007. On May 31, 2007, the Investor Group filed with the Federal Deposit Insurance Corporation its Interagency Notice of Change in Control with respect to the Sallie Mae Bank.

As announced by the Company on July 11, 2007, the Investor Group informed the Company that it believes that current legislative proposals pending before the U.S. House of Representatives and U.S. Senate could result in a failure of the conditions to the closing of the Merger to be satisfied. The Company strongly disagrees with this position, intends to proceed towards the closing of the merger transaction as rapidly as possible and will take all steps to protect shareholders' interests.

In connection with the transaction, the Company filed its definitive proxy statement with the SEC on July 18, 2007. The Company scheduled a special meeting of shareholders for August 15, 2007, to consider and vote on a proposal to approve the Merger Agreement.

Financing Considerations Related to the Transaction

Following the closing, the Company will continue to have publicly traded debt securities and as a result will continue comprehensive financial reporting about its business, financial condition and results of operations. Bank of America and JPMorgan Chase are committed to provide debt financing for the transaction and to provide additional liquidity to the Company prior to and after the closing date, subject to customary terms and conditions.

A portion of the Company's existing unsecured debt will remain outstanding, and such outstanding debt will not be equally and ratably secured with the new acquisition-related debt. The acquisition financing will be structured with the intent to accommodate the repayment of any outstanding debt as it matures. The Company expects this transaction to

have no material impact on its outstanding asset-backed debt and to remain an active participant in the asset-backed securities market.

On April 16, 2007, after the Company announced the transaction, Moody's Investor Services, Standard & Poor's and Fitch Ratings placed the long and short-term ratings on the Company's senior unsecured debt under review for possible downgrade, and secondary market credit spreads on the Company's outstanding senior

(Dollars in thousands, except per share amounts, unless otherwise noted)

12. Merger Related Developments (Continued)

unsecured bonds widened significantly. These factors limited the Company's access to new sources of senior unsecured funds at borrowing costs comparable to those available before the announcement. On June 1, 2007, Standard & Poor's downgraded the Company's senior unsecured debt rating to BBB+ from A. On July 2, 2007, Fitch Ratings downgraded the Company's long-term issuer default rating (IDR) and senior unsecured debt rating to BBB from A+. In its rating release, Fitch stated that it expects to downgrade the Company's IDR to BB+ and its senior unsecured debt rating to BB as the proposed Merger transaction nears completion. On July 11, 2007, Moody's stated that it is likely to downgrade the Company's corporate family rating to Ba3 and senior unsecured debt rating to B1 from A2 upon completion of the transaction.

On April 30, 2007, Bank of America and JPMorgan Chase provided the Company with new aggregate \$30 billion asset-backed commercial paper conduit facilities (Interim ABCP Facility). Interest expense for the second quarter of 2007 includes \$14 million in upfront commitment and ongoing liquidity fees as a result of the Interim ABCP Facility. These facilities terminate the earliest of (1) the Merger closing, (2) the 90-day anniversary of the date of termination of the Merger Agreement or (3) February 15, 2008.

Accounting Considerations Related to the Transaction

Upon closing, the transaction will be accounted for under purchase accounting, which will be pushed down to the Company. Under purchase accounting, the total cost of the acquisition will be allocated to the Company's identifiable assets and liabilities based on their respective fair values. Thus, all the assets and liabilities will have a new basis of accounting and therefore previous unamortized premiums, discounts and reserves related to those assets and liabilities will be written-off once the transaction closes. The excess of the purchase price over the estimated fair value of the identifiable assets and liabilities will be recognized as goodwill. Since the Company is the acquired enterprise, expenses incurred in connection with the transaction will be expensed. Transaction fees that are contingent upon the closing will be recognized when the transaction closes. Transaction fees that are not contingent on the closing will be expensed as incurred, and included in operating expense. These expenses totaled \$16 million for the second quarter of 2007. Vesting accelerates on all stock-based compensation awards, and as a result, all deferred compensation related to those awards will be expensed upon closing of the transaction.

At June 30, 2007, the Company had \$2 billion Contingently Convertible Debentures (Co-Cos) outstanding. On June 25, 2007, holders of these securities were notified that the Co-Cos would be called at par on July 25, 2007, as allowed by the terms of the indenture governing the Co-Cos. As a result, the Company classified its \$2 billion outstanding Co-Cos as a short-term obligation at June 30, 2007. For the three months ended June 30, 2007 and 2006, the impact of the Co-Cos on GAAP diluted earnings per common share was \$(.03), and \$(.08), respectively, and for the six months ended June 30, 2007 and 2006 the impact was \$(.05) and \$(.07), respectively; there was no impact to the Core Earnings diluted earnings per common share.

FORWARD-LOOKING AND CAUTIONARY STATEMENTS

This quarterly report contains forward-looking statements and information that are based on management's current expectations as of the date of this document. When used in this report, the words "anticipate," "believe," "estimate," "intend" and "expect" and similar expressions are intended to identify forward-looking statements. These forward-looking statements are subject to risks, uncertainties, assumptions and other factors that may cause the actual results to be materially different from those reflected in such forward-looking statements. These factors include, among others, the occurrence of any event, change or other circumstances that could give rise to the termination of the merger agreement (see "RECENT DEVELOPMENTS" that describes the definitive agreement ("Merger Agreement") for an investor group ("Investor Group") led by J.C. Flowers & Co. ("J.C. Flowers") to acquire the Company ("the Merger")); the outcome of any legal proceedings that may be instituted against us and others relating to the Merger Agreement; the inability to complete the Merger due to the failure to obtain shareholder approval or the failure to satisfy other conditions to completion of the Merger; the failure to obtain the necessary debt financing arrangements set forth in commitment letters received in connection with the Merger; the effect of the announcement of the Merger on our customer relationships, operating results and business generally; the amount of the costs, fees, expenses and charges related to the Merger and the actual terms of certain financings that will be obtained for the Merger; the impact of the substantial indebtedness incurred to finance the consummation of the Merger; changes in the terms of student loans and the educational credit marketplace arising from the implementation of applicable laws and regulations and from changes in these laws and regulations, which may reduce the volume, average term and yields on student loans under the Federal Family Education Loan Program ("FFELP") or result in loans being originated or refinanced under non-FFELP programs or may affect the terms upon which banks and others agree to sell FFELP loans to SLM Corporation, more commonly known as Sallie Mae, and its subsidiaries (collectively, "the Company"). In addition, a larger than expected increase in third party consolidations of our FFELP loans could materially adversely affect our results of operations. The Company could also be affected by changes in the demand for educational financing or in financing preferences of lenders, educational institutions, students and their families; incorrect estimates or assumptions by management in connection with the preparation of our consolidated financial statements; changes in the composition of our Managed FFELP and Private Education Loan portfolios; a significant decrease in our common stock price, which may result in counterparties terminating equity forward positions with us, which, in turn, could have a materially dilutive effect on our common stock; changes in the general interest rate environment and in the securitization markets for education loans, which may increase the costs or limit the availability of financings necessary to initiate, purchase or carry education loans; losses from loan defaults; changes in prepayment rates and credit spreads; and changes in the demand for debt management services and new laws or changes in existing laws that govern debt management services.

OVERVIEW

We are the largest source of funding, delivery and servicing support for education loans in the United States. Our primary business is to originate, acquire and hold both federally guaranteed student loans and Private Education Loans, which are not federally guaranteed or privately insured. The primary source of our earnings is from net interest income earned on those student loans as well as gains on the sales of such loans in off-balance sheet securitization transactions. We also earn fees for pre-default and post-default receivables management services on student loans,

such that we are engaged in every phase of the student loan life cycle from originating and servicing student loans to default prevention and ultimately the collection on defaulted student loans. Through recent acquisitions, we have expanded our receivables management services to a number of different asset classes outside of student loans. SLM Corporation, more commonly known as

Table of Contents

Sallie Mae, is a holding company that operates through a number of subsidiaries. References in this report to the Company refer to SLM Corporation and its subsidiaries.

We have used both internal growth and strategic acquisitions to attain our leadership position in the education finance marketplace. Our sales force, which delivers our products on campuses across the country, is the largest in the student loan industry. The core of our marketing strategy is to promote our on-campus brands, which generate student loan originations through our Preferred Channel. Loans generated through our Preferred Channel are more profitable than loans acquired through other acquisition channels because we own them earlier in the student loan's life and generally incur lower costs to acquire such loans. We have built brand leadership through the Sallie Mae name, the brands of our subsidiaries and those of our lender partners. These sales and marketing efforts are supported by the largest and most diversified servicing capabilities in the industry, providing an unmatched array of services to borrowers. In recent years, borrowers have been consolidating their FFELP Stafford loans into FFELP Consolidation Loans in much greater numbers such that FFELP Consolidation Loans now constitute 56 percent of our Managed loan portfolio. FFELP Consolidation Loans are marketed directly to consumers and we believe they will continue to be an important loan acquisition channel. We continue to expand our offerings in the Private Education Loan marketplace that we market both on campus and direct-to-consumers.

We have expanded into a number of fee-based businesses, most notably, our Debt Management Operations (DMO) business. Our DMO business provides a wide range of accounts receivable and collections services including student loan default aversion services, defaulted student loan portfolio management services, contingency collections services for student loans and other asset classes, and accounts receivable management and collection for purchased portfolios of receivables that are delinquent or have been charged off by their original creditors. We also purchase and manage portfolios of sub-performing and non-performing mortgage loans.

We manage our business through two primary operating segments: the Lending operating segment and the DMO operating segment. Accordingly, the results of operations of the Company's Lending and DMO segments are presented separately below under BUSINESS SEGMENTS. These operating segments are considered reportable segments under the Financial Accounting Standards Board's (FASB) Statement of Financial Accounting Standards (SFAS) No. 131,

Disclosures about Segments of an Enterprise and Related Information, based on quantitative thresholds applied to the Company's financial statements.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

A discussion of the Company's critical accounting policies, which include premiums, discounts and Borrower Benefits, securitization accounting and Retained Interests, provisions for loan losses, derivative accounting and the effects of Consolidation Loan activity on estimates, can be found in the Company's Annual Report on Form 10-K for the year ended December 31, 2006. There have been no material changes to these policies during the second quarter of 2007.

RESULTS OF OPERATIONS**Consolidated Earnings Summary*****Three Months Ended June 30, 2007 Compared to Three Months Ended June 30, 2006***

For the three months ended June 30, 2007, net income of \$966 million (\$1.03 diluted earnings per share) was an increase of \$242 million from net income of \$724 million (\$1.52 diluted earnings per share) for the three months ended June 30, 2006. Second quarter 2007 pre-tax income was \$1.1 billion versus \$1.1 billion earned in the second quarter of 2006. The increase in current quarter over year-ago quarter, after-tax net income versus no change in the pre-tax net income is driven by fluctuations in the unrealized gains and losses on equity forward contracts. Under

SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity, we are required to mark the equity forward contracts to market each quarter and recognize the change in their value in income. Conversely, these gains and losses are not recognized on a tax basis. Excluding the unrealized gain on equity forward contracts of \$796 million in the second quarter of 2007 and \$39 million in the second quarter of 2006, taxable income reduced the effective tax rate from 35 percent in the second quarter of 2006 to 10 percent in the second quarter of 2007.

The year-over-year increase of \$699 million in net gains on derivative and hedging activities is primarily due to the \$757 million increase in the unrealized gains on equity forward contracts as discussed above, partially offset by negative impact from basis swaps which fluctuated from an unrealized gain of \$14 million in the second quarter of 2006 to an unrealized loss of \$38 million in the second quarter of 2007.

Table of Contents

Offsetting the gains discussed above, was a decrease in securitization gains of \$671 million in the second quarter of 2007 versus the year-ago quarter. In the second quarter of 2007, we did not complete an off-balance sheet securitization and as a result we did not recognize any securitization gains. In the year-ago quarter, we recognized pre-tax securitization gains of \$671 million, which were primarily caused by a pre-tax gain of \$648 million from two Private Education Loan securitizations.

In the second quarter of 2007, servicing and securitization income was \$133 million, a \$50 million increase over the year-ago quarter. This increase can primarily be attributed to \$56 million decrease in impairments to our Retained Interests.

Net interest income after provisions for loan losses decreased by \$38 million versus the second quarter of 2006. The decrease is due to the year-over-year increase in the provision for Private Education Loan losses of \$80 million, which offset the year-over-year \$42 million increase in net interest income. The decrease in net interest income is also due to \$14 million in interim financing costs (commitment and liquidity fees) associated with the Merger (see RECENT DEVELOPMENTS Merger-Related Developments *Financing Considerations Related to the Transaction*). The increase in the provision predominantly reflects a further seasoning and mix of the portfolio and an increase in delinquencies and charge-offs related in part to operational challenges encountered from a call center move. These same factors affecting the provision also have a direct impact on the student loan spread due to the related increase in our estimate of uncollectible accrued interest income. The increase in net interest income is due to a \$29 billion increase in the average balance of on-balance sheet interest earning assets, which was partially offset by a 25 basis point decrease in the net interest margin. The year-over-year decrease in the net interest margin is primarily due to incurring \$14 million in interim financing costs (commitment and liquidity fees) related to the Merger and a decrease in the student loan spread.

In the second quarter of 2007, fee and other income and collections revenue totaled \$276 million, an increase of 4 percent over the year-ago quarter. This increase was primarily driven by revenue from Upromise, acquired in August 2006.

Operating expenses for the second quarter of 2007 include \$37 million in other Merger-related costs.

Our Managed student loan portfolio grew by \$23.1 billion (or 18 percent), from \$130.1 billion at June 30, 2006 to \$153.2 billion at June 30, 2007. In the second quarter of 2007, we acquired \$8.4 billion of student loans, a 6 percent increase over the \$7.9 billion acquired in the year-ago period. The second quarter 2007 acquisitions included \$1.7 billion in Private Education Loans, unchanged from the year-ago period. In the quarter ended June 30, 2007, we originated \$3.6 billion of student loans through our Preferred Channel, an increase of 13 percent over the \$3.2 billion originated in the year-ago quarter.

Six Months Ended June 30, 2007 Compared to Six Months Ended June 30, 2006

For the six months ended June 30, 2007, our net income increased by 24 percent to \$1.1 billion (\$1.82 diluted earnings per share) from net income of \$875 million (\$1.96 diluted earnings per share) in 2006. Pre-tax income for the six months ended June 30, 2007 increased by 7 percent to \$1.5 billion versus \$1.4 billion in the first six months of 2006. The larger percentage increase in year-over-year after-tax net income versus pre-tax income is driven by the permanent tax impact of excluding \$384 million in unrealized equity forward gains in the six months ended June 30, 2007, versus excluding \$83 million in unrealized equity forward losses in the six months ended June 30, 2006. The net effect from excluding non-taxable gains and losses on equity forward contracts from taxable income was a decrease in the effective tax rate from 37 percent in the six months ended June 30, 2006 to 28 percent in the six months ended June 30, 2007.

The \$429 million increase in the gain on derivative and hedging activities primarily relates to unrealized and realized gains and losses on derivatives that do not receive hedge accounting treatment. This increase is primarily due to the increase in unrealized gains of \$467 million on our equity forward contracts as discussed above.

In the first half of 2007, servicing and securitization income was \$385 million, a \$203 million increase over the six months ended June 30, 2006. This increase can primarily be attributed to a year-over-year

Table of Contents

decrease of \$97 million in impairments to our Retained Interests. The remaining increase in securitization revenue is due to the increase of higher yielding Private Education Loan Residual Interests, and the adoption of SFAS No. 155 in the first quarter of 2007. Under SFAS No. 155, the Company has elected to recognize the unrealized fair value adjustment to our Residual Interests in earnings, related to securitizations that settled in 2007.

Securitization gains decreased by \$334 million in the six months ended June 30, 2007. The securitization gains in the first half of 2007 were the result of one Private Education Loan securitization, which had a pre-tax gain of \$367 million or 18.4 percent of the amount securitized. In the year-ago period, there were two Private Education Loan securitizations that had a pre-tax gain of \$648 million or 16.2 percent of the amount securitized.

Net interest income after provisions for loan losses decreased by \$103 million versus the six months ended June 30, 2006. The decrease is due to the year-over-year increase in the provision for Private Education Loan losses of \$171 million, which offset the year-over-year \$68 million increase in net interest income. The increase in the provision predominantly reflects a further seasoning and mix of the portfolio and an increase in delinquencies and charge-offs related in part to operational challenges encountered from a call center move. These same factors affecting the provision also have a direct impact on the student loan spread due to the related increase in our estimate of uncollectible accrued interest income. The increase in net interest income is due to a \$25 billion increase in the average balance of on-balance sheet interest earning assets, which was partially offset by a 23 basis point decrease in the net interest margin. The year-over-year decrease in the net interest margin is primarily due to incurring \$14 million in interim financing costs (commitment and liquidity fees) related to the Merger and a decrease in the student loan spread.

Our Managed student loan portfolio grew by \$23.1 billion, from \$130.1 billion at June 30, 2006 to \$153.2 billion at June 30, 2007. This growth was fueled by the acquisition of \$20.9 billion of student loans, including \$4.1 billion in Private Education Loans, in the six months ended June 30, 2007, a 27 percent increase over the \$16.5 billion acquired in the year-ago period, of which \$3.6 billion were Private Education Loans. In the six months ended June 30, 2007, we originated \$11.6 billion of student loans through our Preferred Channel, an increase of 7 percent over the \$10.8 billion originated in the year-ago period.

Table of Contents**NET INTEREST INCOME****Average Balance Sheets**

The following table reflects the rates earned on interest earning assets and paid on interest bearing liabilities for the three and six months ended June 30, 2007 and 2006. This table reflects the net interest margin for the entire Company on a consolidated basis.

Table of Contents**Rate/Volume Analysis**

The following rate/volume analysis illustrates the relative contribution of changes in interest rates and asset volumes.

		Increase (Decrease) Attributable to Change in	
	Increase (Decrease)	Rate	Volume
Three months ended June 30, 2007 vs. three months ended June 30, 2006			
Interest income	\$ 535	\$ 20	\$ 515
Interest expense	493	114	379
Net interest income	\$ 42	\$ (94)	\$ 136
Six months ended June 30, 2007 vs. six months ended June 30, 2006			
Interest income	\$ 1,001	\$ 164	\$ 837
Interest expense	933	323	610
Net interest income	\$ 68	\$ (159)	\$ 227

The decrease in the net interest margin for the three and six months ended June 30, 2007 versus the year-ago periods, was primarily due to fluctuations in the student loan spread as discussed under **Student Loans** **Student Loan Spread** *Student Loan Spread Analysis* *On-Balance Sheet*.

Student Loans

For both federally insured student loans and Private Education Loans, we account for premiums paid, discounts received and certain origination costs incurred on the origination and acquisition of student loans in accordance with SFAS No. 91, *Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases*. The unamortized and unaccreted portion of the premiums and discounts, respectively, is included in the carrying value of the student loan on the consolidated balance sheet. We recognize income on our student loan portfolio based on the expected yield of the student loan after giving effect to the amortization of purchase premiums and the accretion of student loan discounts, as well as interest rate reductions and rebates expected to be earned through Borrower Benefits programs. Discounts on Private Education Loans are deferred and accreted to income over the lives of the student loans. In the table below, this accretion of discounts is netted with the amortization of the premiums.

Student Loan Spread

An important performance measure closely monitored by management is the student loan spread. The student loan spread is the difference between the income earned on the student loan assets and the interest paid on the debt funding those assets. A number of factors can affect the overall student loan spread such as:

the mix of student loans in the portfolio, with FFELP Consolidation Loans having the lowest spread and Private Education Loans having the highest spread;

the premiums paid, borrower fees charged and capitalized costs incurred to acquire student loans which impact the spread through subsequent amortization;

the type and level of Borrower Benefits programs for which the student loans are eligible;

the level of Floor Income and, when considering the Core Earnings spread, the amount of Floor Income-eligible loans that have been hedged through Floor Income Contracts; and

funding and hedging costs.

Table of Contents

The student loan spread is highly susceptible to liquidity, funding and interest rate risk. These risks are discussed separately in our 2006 Annual Report on Form 10-K at **LIQUIDITY AND CAPITAL RESOURCES** and in the **RISK FACTORS** discussion.

Effects of Floor Income and Derivative Accounting

In low interest rate environments, one of the primary drivers of fluctuations in our on-balance sheet student loan spread is the level of gross Floor Income (Floor Income earned before payments on Floor Income Contracts) earned in the period. Short-term interest rates have increased to a level that significantly reduced the level of gross Floor Income earned in the periods presented. We believe that we have economically hedged most of the Floor Income through the sale of Floor Income Contracts, under which we receive an upfront fee and agree to pay the counterparty the Floor Income earned on a notional amount of student loans. These contracts do not qualify for hedge accounting treatment and as a result the payments on the Floor Income Contracts are included on the income statement with gains (losses) on derivative and hedging activities, net rather than in student loan interest income.

In addition to Floor Income Contracts, we also extensively use basis swaps to manage our basis risk associated with interest rate sensitive assets and liabilities. These swaps generally do not qualify as accounting hedges and likewise, net settlements are required to be accounted for in the gains (losses) on derivative and hedging activities, net line on the income statement. As a result, they are not considered in the calculation of the cost of funds in the table below.

Wholesale Consolidation Loans

In the second half of 2006, we implemented a loan acquisition strategy under which we began purchasing FFELP Consolidation Loans outside of our normal origination channels, primarily via the spot market. We refer to this new loan acquisition strategy as our Wholesale Consolidation Channel. FFELP Consolidation Loans acquired through this channel are considered incremental volume to our core acquisition channels, which are focused on the retail marketplace with an emphasis on our internal brand strategy. Wholesale Consolidation Loans generally command significantly higher premiums than our originated FFELP Consolidation Loans, and as a result, Wholesale Consolidation Loans have lower spreads. Since Wholesale Consolidation Loans are acquired outside of our core loan acquisition channels and have different yields and return expectations than the rest of our FFELP Consolidation Loan portfolio, we have excluded the impact of the Wholesale Consolidation Loan volume from the student loan spread analysis to provide more meaningful period-over-period comparisons on the performance of our student loan portfolio.

Table of Contents***Student Loan Spread Analysis On-Balance Sheet***

The following table analyzes the reported earnings from student loans on-balance sheet. For an analysis of our student loan spread for the entire portfolio of Managed student loans on a similar basis to the on-balance sheet analysis, see LENDING BUSINESS SEGMENT Student Loan Spread Analysis Core Earnings Basis.

	Three Months Ended		Six Months Ended	
	June 30, 2007	June 30, 2006	June 30, 2007	June 30, 2006
On-Balance Sheet

Student loan cost of funds	(5.58)	(5.27)	(5.57)	(5.05)
Student loan spread, before Interim ABCP Facility fees ⁽¹⁾⁽²⁾	1.61	1.75	1.66	1.79
Interim ABCP Facility fees ⁽²⁾	(.05)		(.03)	
Student loan spread ⁽¹⁾	1.56%	1.75%	1.63%	1.79%
Average Balances				
On-balance sheet student loans ⁽¹⁾	\$ 101,871	\$ 80,724	\$ 99,382	\$ 81,781

(1) Excludes the impact of the Wholesale Consolidation Loan portfolio on the student loan spread and average balances for the three and six months ended June 30, 2007.

(2) The Interim ABCP Facility fees are the commitment and liquidity fees that related to a new financing facility in connection with the Merger. See RECENT DEVELOPMENTS Merger-Related Developments *Financing Considerations Related to the Transaction*.

Discussion of Student Loan Spread Quarter-over-Quarter Fluctuations

We estimate the amount of Private Education Loan accrued interest in a period that is not reasonably expected to be collected in the future using a methodology consistent with the status-based migration analysis used for the allowance for Private Education Loans. We use this estimate to offset accrued interest in the current period through a charge to student loan interest income. As our provision for loan losses increased significantly in the second quarter of 2007, we had a similar rise in the estimate of uncollectible accrued interest receivable which reduced the student loan spread by approximately 9 basis points in the second quarter of 2007 as compared 3 basis points the second quarter of 2006.

The second quarter of 2006 spread includes \$10 million or 5 basis points of income associated with non-recurring SAP that we accrued on PLUS loans as a result of program changes required by the Higher Education Reconciliation Act of 2005 (Reconciliation Legislation).

In addition to the reduction in Floor Income, slight increases in premium amortization and Borrower Benefits expense also contributed to the decline in the spread from the second quarter of 2006.

The student loan spread analysis above also excludes the impact of our Wholesale Consolidation Loan portfolio, which had an average balance of \$7.0 billion for three months ended June 30, 2007. Had the impact of the Wholesale Consolidation Loan volume been included in the student loan spread analysis, it would have reduced the spread by approximately 10 basis points for the three months ended June 30, 2007. As of June 30, 2007, Wholesale Consolidation Loans totaled \$7.5 billion, or 11 percent of our total on-balance sheet FFELP Consolidation Loan portfolio.

Table of Contents

FEDERAL AND STATE TAXES

The Company is subject to federal and state income taxes. Our effective tax rate for the three months ended June 30, 2007 was 10 percent versus 35 percent for the three months ended June 30, 2006 and for the six months ended June 30, 2007 was 28 percent versus 37 percent for the six months ended June 30, 2006. The effective tax rate reflects the permanent impact of the exclusion of the gains or losses on equity forward contracts recognized under SFAS No. 150.

BUSINESS SEGMENTS

The results of operations of the Company's Lending and Debt Management Operations (DMO) operating segments are presented below. These defined business segments operate in distinct business environments and are considered reportable segments under SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, based on quantitative thresholds applied to the Company's financial statements. In addition, we provide other complementary products and services, including guarantor and student loan servicing, through smaller operating segments that do not meet such thresholds and are aggregated in the Corporate and Other reportable segment for financial reporting purposes.

The management reporting process measures the performance of the Company's operating segments based on the management structure of the Company as well as the methodology used by management to evaluate performance and allocate resources. In accordance with the Rules and Regulations of the Securities and Exchange Commission (SEC), we prepare financial statements in accordance with generally accepted accounting principles in the United States of America (GAAP). In addition to evaluating the Company's GAAP-based financial information, management, including the Company's chief operation decision maker, evaluates the performance of the Company's operating segments based on their profitability on a basis that, as allowed under SFAS No. 131, differs from GAAP. We refer to management's basis of evaluating our segment results as Core Earnings presentations for each business segment and we refer to these performance measures in our presentations with credit rating agencies and lenders. Accordingly, information regarding the Company's reportable segments is provided herein based on Core Earnings, which are discussed in detail below.

Our Core Earnings are not defined terms within GAAP and may not be comparable to similarly titled measures reported by other companies. Core Earnings net income reflects only current period adjustments to GAAP net income as described below. Unlike financial accounting, there is no comprehensive, authoritative guidance for management reporting and as a result, our management reporting is not necessarily comparable with similar information for any other financial institution. The Company's operating segments are defined by the products and services they offer or the types of customers they serve, and they reflect the manner in which financial information is currently evaluated by management. Intersegment revenues and expenses are netted within the appropriate financial statement line items consistent with the income statement presentation provided to management. Changes in management structure or allocation methodologies and procedures may result in changes in reported segment financial information.

Core Earnings are the primary financial performance measures used by management to develop the Company's financial plans, track results, and establish corporate performance targets and incentive compensation. While Core Earnings are not a substitute for reported results under GAAP, the Company relies on Core Earnings in operating its business because Core Earnings permit management to make meaningful period-to-period comparisons of the operational and performance indicators that are most closely assessed by management. Management believes this information provides additional insight into the financial performance of the core business activities of our operating segments. Accordingly, the tables presented below reflect Core Earnings which is reviewed and utilized by management to manage the business for each of the Company's reportable segments. A further discussion regarding

Core Earnings is included under Limitations of Core Earnings and Pre-tax Differences between Core Earnings and

GAAP by Business Segment.

The Lending operating segment includes all discussion of income and related expenses associated with the net interest margin, the student loan spread and its components, the provisions for loan losses, and other fees earned on our Managed portfolio of student loans. The DMO operating segment reflects the fees earned

Table of Contents

and expenses incurred in providing accounts receivable management and collection services. Our Corporate and Other reportable segment includes our remaining fee businesses and other corporate expenses that do not pertain directly to the primary segments identified above.

(1) Operating expenses for the Lending, DMO, and Corporate and Other business segments include \$18 million, \$5 million, and \$9 million, respectively, of stock option compensation expense.

(2) Income taxes are based on a percentage of net income before tax for the individual reportable segment.

Limitations of Core Earnings

While GAAP provides a uniform, comprehensive basis of accounting, for the reasons described above, management believes that Core Earnings are an important additional tool for providing a more complete understanding of the Company's results of operations. Nevertheless, Core Earnings are subject to certain general and specific limitations that investors should carefully consider. For example, as stated above, unlike financial accounting, there is no comprehensive, authoritative guidance for management reporting. Our Core Earnings are not defined terms within GAAP and may not be comparable to similarly titled measures reported by other companies. Unlike GAAP, Core

Earnings reflect only current period adjustments to GAAP. Accordingly, the Company's Core Earnings presentation does not represent a comprehensive basis of accounting. Investors, therefore, may not compare our Company's performance with that of other financial services companies based upon Core Earnings. Core Earnings results are only meant to supplement GAAP results by providing additional information regarding the operational and performance indicators that are most closely used by management, the Company's board of directors, rating agencies and lenders to assess performance.

Other limitations arise from the specific adjustments that management makes to GAAP results to derive Core Earnings results. For example, in reversing the unrealized gains and losses that result from SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, on derivatives that do not

Table of Contents

qualify for hedge treatment, as well as on derivatives that do qualify but are in part ineffective because they are not perfect hedges, we focus on the long-term economic effectiveness of those instruments relative to the underlying hedged item and isolate the effects of interest rate volatility, changing credit spreads and changes in our stock price on the fair value of such instruments during the period. Under GAAP, the effects of these factors on the fair value of the derivative instruments (but not on the underlying hedged item) tend to show more volatility in the short term. While our presentation of our results on a Core Earnings basis provides important information regarding the performance of our Managed portfolio, a limitation of this presentation is that we are presenting the ongoing spread income on loans that have been sold to a trust managed by us. While we believe that our Core Earnings presentation presents the economic substance of our Managed loan portfolio, it understates earnings volatility from securitization gains. Our Core Earnings results exclude certain Floor Income, which is real cash income, from our reported results and therefore may understate earnings in certain periods. Management's financial planning and valuation of operating results, however, does not take into account Floor Income because of its inherent uncertainty, except when it is economically hedged through Floor Income Contracts.

Pre-tax differences between Core Earnings and GAAP by Business Segment

Our Core Earnings are the primary financial performance measures used by management to evaluate performance and to allocate resources. Accordingly, financial information is reported to management on a Core Earnings basis by reportable segment, as these are the measures used regularly by our chief operating decision maker. Our Core Earnings are used in developing our financial plans and tracking results, and also in establishing corporate performance targets and determining incentive compensation. Management believes this information provides additional insight into the financial performance of the Company's core business activities. Core Earnings net income reflects only current period adjustments to GAAP net income, as described in the more detailed discussion of the differences between Core Earnings and GAAP that follows, which includes further detail on each specific adjustment required to reconcile our Core Earnings segment presentation to our GAAP earnings.

	Three Months Ended June 30,					
	2007			2006

1) **Securitization:** Under GAAP, certain securitization transactions in our Lending operating segment are accounted for as sales of assets. Under the Company's Core Earnings presentation for the Lending operating segment, we present all securitization transactions on a Core Earnings basis as long-term non-

Table of Contents

recourse financings. The upfront gains on sale from securitization transactions as well as ongoing servicing and securitization revenue presented in accordance with GAAP are excluded from Core Earnings net income and replaced by the interest income, provisions for loan losses, and interest expense as they are earned or incurred on the securitization loans. We also exclude transactions with our off-balance sheet trusts from Core Earnings net income as they are considered intercompany transactions on a Core Earnings basis.

The following table summarizes the securitization adjustments in our Lending operating segment for the three and six months ended June 30, 2007 and 2006.

	Three Months Ended June 30		Six Months Ended June 30	
	2007	2006	2007	2006
Core Earnings securitization adjustments:				
Net interest income on securitized loans, after provisions for loan losses	\$ (118)	\$ (242)	\$ (286)	\$ (430)
Gains on student loan securitizations		671	367	701
Servicing and securitization revenue	133	83	385	182
Intercompany transactions with off-balance sheet trusts	(30)	(10)	(60)	(13)
Total Core Earnings securitization adjustments	\$ (15)	\$ 502	\$ 406	\$ 440

2) **Derivative Accounting:** Core Earnings net income excludes periodic unrealized gains and losses arising primarily in our Lending operating segment, and to a lesser degree in our Corporate and Other reportable segment, that are caused primarily by the one-sided mark-to-market derivative valuations prescribed by SFAS No. 133 on derivatives that do not qualify for hedge treatment under GAAP. Under the Company's Core Earnings presentation, we recognize the economic effect of these hedges, which generally results in any cash paid or received being recognized ratably as an expense or revenue over the hedged item's life. Core Earnings also excludes the gain or loss on equity forward contracts that under SFAS No. 133, are required to be accounted for as derivatives and are marked-to-market through earnings.

SFAS No. 133 requires that changes in the fair value of derivative instruments be recognized currently in earnings unless specific hedge accounting criteria, as specified by SFAS No. 133, are met. We believe that our derivatives are effective economic hedges, and as such, are a critical element of our interest rate risk management strategy. However, some of our derivatives, primarily Floor Income Contracts, certain basis swaps and equity forward contracts (discussed in detail below), do not qualify for hedge treatment as defined by SFAS No. 133, and the stand-alone derivative must be marked-to-market in the income statement with no consideration for the corresponding change in fair value of the hedged item. The gains and losses described in gains (losses) on derivative and hedging activities, net are primarily caused by interest rate and foreign currency exchange rate volatility, changing credit spreads and changes in our stock price during the period as well as the volume and term of derivatives not receiving hedge treatment.

Our Floor Income Contracts are written options that must meet more stringent requirements than other hedging relationships to achieve hedge effectiveness under SFAS No. 133. Specifically, our Floor Income Contracts do not qualify for hedge accounting treatment because the paydown of principal of the student loans underlying the Floor Income embedded in those student loans does not exactly match the change in the notional amount of our written Floor Income Contracts. Under SFAS No. 133, the upfront payment is deemed a liability and changes in fair value are

recorded through income throughout the life of the contract. The change in the value of Floor Income Contracts is primarily caused by changing interest rates that cause the amount of Floor Income earned on the underlying student loans and paid to the counterparties to vary. This is economically offset by the change in value of the student loan portfolio, including our Retained Interests, earning Floor Income but that offsetting change in value is not recognized under SFAS No. 133. We believe the Floor Income Contracts are economic hedges because they effectively fix the amount of Floor Income earned over the contract period, thus eliminating the timing and uncertainty that changes in interest rates can have on Floor Income for that period. Prior to SFAS No. 133, we accounted for Floor Income Contracts as hedges and amortized the upfront cash compensation ratably over the lives of the contracts.

Table of Contents

Basis swaps are used to convert floating rate debt from one interest rate index to another to better match the interest rate characteristics of the assets financed by that debt. We primarily use basis swaps to change the index of our floating rate debt to better match the cash flows of our student loan assets that are primarily indexed to a commercial paper, Prime or Treasury bill index. In addition, we use basis swaps to convert debt indexed to the Consumer Price Index (CPI) to 3-month LIBOR debt. SFAS No. 133 requires that when using basis swaps, the change in the cash flows of the hedge effectively offset both the change in the cash flows of the asset and the change in the cash flows of the liability. Our basis swaps hedge variable interest rate risk, however they do not meet this effectiveness test because our FFELP student loans can earn at either a variable or a fixed interest rate depending on market interest rates. We also have basis swaps that do not meet the SFAS No. 133 effectiveness test that economically hedge off-balance sheet instruments. As a result, under GAAP these swaps are recorded at fair value with changes in fair value reflected in the income statement.

Under SFAS No. 150, equity forward contracts that allow a net settlement option either in cash or the Company's stock are required to be accounted for as derivatives in accordance with SFAS No. 133. As a result, we account for our equity forward contracts as derivatives in accordance with SFAS No. 133 and mark them to market through earnings. They do not qualify as effective SFAS No. 133 hedges, as a requirement to achieve hedge accounting is the hedged item must impact net income and the settlement of these contracts through the purchase of our own stock does not impact net income.

The table below quantifies the adjustments for derivative accounting under SFAS No. 133 on our net income for the three and six months ended June 30, 2007 and 2006 when compared with the accounting principles employed in all years prior to the SFAS No. 133 implementation.

	Three Months Ended June 30, 2007 2006		Six Months Ended June 30, 2007 2006	
Core Earnings derivative adjustments:				
Gains (losses) on derivative and hedging activities, net, included in other income ⁽¹⁾	\$ 822	\$ 123	\$ 465	\$ 36
Less: Realized losses on derivative and hedging activities, net ⁽¹⁾	20	41	45	89

Other pre-SFAS No. 133 accounting adjustments		1		1
Total net impact of SFAS No. 133 derivative accounting	\$ 842	\$ 165	\$ 510	\$ 126

⁽¹⁾ See *Reclassification of Realized Gains (Losses) on Derivative and Hedging Activities* below for a detailed breakdown of the components of both the realized and unrealized losses on derivative and hedging activities.

Table of Contents*Reclassification of Realized Gains (Losses) on Derivative and Hedging Activities*

SFAS No. 133 requires net settlement income/expense on derivatives and realized gains/losses related to derivative dispositions (collectively referred to as realized gains (losses) on derivative and hedging activities) that do not qualify as hedges under SFAS No. 133 to be recorded in a separate income statement line item below net interest income. The table below summarizes the realized losses on derivative and hedging activities, and where they are reclassified to on a Core Earnings basis for the three and six months ended June 30, 2007 and 2006.

	Three Months Ended June 30, 2007 2006		Six Months Ended June 30, 2007 2006	
Reclassification of realized losses on derivative and hedging activities:				
Net settlement expense on Floor Income Contracts reclassified to net interest income	\$ (9)	\$ (12)	\$ (16)	\$ (33)
Net settlement expense on interest rate swaps reclassified to net interest income	(11)	(29)	(29)	(56)
Total reclassifications of realized losses on derivative and hedging activities	(20)	(41)	(45)	(89)
Add: Unrealized gains (losses) on derivative and hedging activities, net ⁽¹⁾	842	164	510	125
Gains (losses) on derivative and hedging activities, net	\$ 822	\$ 123	\$ 465	\$ 36

⁽¹⁾ Unrealized gains (losses) on derivative and hedging activities, net is comprised of the following unrealized mark-to-market gains (losses):

	Three Months Ended June 30, 2007 2006		Six Months Ended June 30, 2007 2006	
Floor Income Contracts	\$ 81	\$ 88	\$ 86	\$ 232
Equity forward contracts	796	39	384	(83)
Basis swaps	(38)	14	22	(68)
Other	3	23	18	44
	\$ 842	\$ 164	\$ 510	\$ 125

Total unrealized gains (losses) on derivative and hedging activities,
net

Unrealized gains and losses on Floor Income Contracts are primarily caused by changes in interest rates. In general, an increase in interest rates results in an unrealized gain and vice versa. Unrealized gains and losses on equity forward contracts fluctuate with changes in the Company's stock price. Unrealized gains and losses on basis swaps result from changes in the spread between indices, primarily as it relates to CPI swaps economically hedging debt issuances indexed to CPI.

3) **Floor Income:** The timing and amount (if any) of Floor Income earned in our Lending operating segment is uncertain and in excess of expected spreads. Therefore, we exclude such income from Core Earnings net income when it is not economically hedged. We employ derivatives, primarily Floor Income Contracts and futures, to economically hedge Floor Income. As discussed above in Derivative Accounting, these derivatives do not qualify as effective accounting hedges and therefore, under GAAP, they are marked-to-market through the gains (losses) on derivative and hedging activities, net line on the income statement with no offsetting gain or loss recorded for the economically hedged items. For Core Earnings net income, we reverse the fair value adjustments on the Floor Income Contracts and futures economically hedging Floor Income and include the amortization of net premiums received (net of Eurodollar futures contracts realized gains or losses) in income.

Table of Contents

The following table summarizes the Floor Income adjustments in our Lending operating segment for the three and six months ended June 30, 2007 and 2006.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Core Earnings Floor Income adjustments:				
Floor Income earned on Managed loans, net of payments on Floor Income Contracts	\$	\$	\$	\$
Amortization of net premiums on Floor Income Contracts and futures in net interest income	(39)	(52)	(78)	(105)
Total Core Earnings Floor Income adjustments	\$ (39)	\$ (52)	\$ (78)	\$ (105)

4) **Acquired Intangibles:** We exclude goodwill and intangible impairment and amortization of acquired intangibles. These amounts totaled \$17 million and \$18 million, respectively, for the three months ended June 30, 2007 and 2006, and \$40 million and \$32 million, respectively, for the six months ended June 30, 2007 and 2006, respectively. In the first quarter of 2007, we recognized an intangible impairment of \$9 million due to changes in projected interest rates and to changes that restrict the loans on which the Company is entitled to earn a 9.5 percent yield (Special Allowance Payment (SAP) loans).

Table of Contents**LENDING BUSINESS SEGMENT**

In our Lending business segment, we originate and acquire federally guaranteed student loans, which are administered by ED, and Private Education Loans, which are not federally guaranteed. The majority of our Private Education Loans is made in conjunction with a FFELP Stafford loan and as a result is marketed through the same marketing channels as FFELP Stafford loans. While FFELP student loans and Private Education Loans have different overall risk profiles due to the federal guarantee of the FFELP student loans, they share many of the same characteristics such as similar repayment terms, the same marketing channel and sales force, and are originated and serviced on the same servicing platform. Finally, where possible, the borrower receives a single bill for both the federally guaranteed and privately underwritten loans.

The following table summarizes the Core Earnings results of operations for our Lending business segment.

Table of Contents

Student Loan Spread Analysis Core Earnings Basis

The following table analyzes the earnings from our portfolio of Managed student loans on a Core Earnings basis (see BUSINESS SEGMENTS Pre-tax Differences between Core Earnings and GAAP). The Core Earnings Basis Student Loan Spread Analysis presentation and certain components used in the calculation differ from the On-Balance Sheet Student Loan Spread Analysis presentation. The Core Earnings basis presentation, when compared to our on-balance sheet presentation, is different in that it:

includes the net interest margin related to our off-balance sheet student loan securitization trusts. This includes any related fees or costs such as the Consolidation Loan Rebate Fees, premium/discount amortization and Borrower Benefits yield adjustments;

includes the reclassification of certain derivative net settlement amounts. The net settlements on certain derivatives that do not qualify as SFAS No. 133 hedges are recorded as part of the gain (loss) on derivative and hedging activities, net line item on the income statement and are therefore not recognized in the student loan spread. Under this presentation, these gains and losses are reclassified to the income statement line item of the economically hedged item. For our Core Earnings basis student loan spread, this would primarily include: (a) reclassifying the net settlement amounts related to our written Floor Income Contracts to student loan interest income and (b) reclassifying the net settlement amounts related to certain of our basis swaps to debt interest expense;

excludes unhedged Floor Income earned on the Managed student loan portfolio; and

includes the amortization of upfront payments on Floor Income Contracts in student loan income that we believe are economically hedging the Floor Income.

As discussed above, these differences result in the Core Earnings basis student loan spread not being a GAAP-basis presentation. Management relies on this measure to manage our Lending business segment. Specifically, management uses the Core Earnings basis student loan spread to evaluate the overall economic effect that certain factors have on our student loans either on-balance sheet or off-balance sheet. These factors include the overall mix of student loans in our portfolio, acquisition costs, Borrower Benefits program costs, Floor Income and funding and hedging costs. Management believes that it is important to evaluate all of these factors on a Managed Basis to gain additional information about the economic effect of these factors on our student loans under management. Management believes that this additional information assists us in making strategic decisions about the Company's business model for the Lending business segment, including among other factors, how we acquire or originate student loans, how we fund acquisitions and originations, what Borrower Benefits we offer and what type of loans we purchase or originate. While management believes that the Core Earnings basis student loan spread is an important tool for evaluating the Company's performance for the reasons described above, it is subject to certain general and specific limitations that investors should carefully consider. See BUSINESS SEGMENTS Limitations of Core Earnings. One specific limitation is that the Core Earnings basis student loan spread includes the spread on loans that we have sold to securitization trusts.

(1) Excludes the impact of the Wholesale Consolidation Loan portfolio on the student loan spread and average balances for the three and six months ended June 30, 2007.

(2) The Interim ABCP Facility fees are the commitment and liquidity fees that related to a new financing facility in connection with the Merger. See RECENT DEVELOPMENTS Merger-Related Developments *Financing Considerations Related to the Transaction*.

Discussion of Core Earnings Basis Student Loan Spread Quarter-over-Quarter Fluctuations

The student loan spread benefited from the increase of higher yielding Private Education Loans in the overall mix of the portfolio from the second quarter of 2006 to the second quarter of 2007, but this was offset by the items discussed below.

We estimate the amount of Private Education Loan accrued interest in a period that is not reasonably expected to be collected in the future using a methodology consistent with the status-based migration analysis used for the allowance for Private Education Loans. We use this estimate to offset accrued interest in the current period through a charge to student loan interest income. As our provisions for loan losses increased significantly in the first and second quarters of 2007, we had a similar rise in the estimate of uncollectible accrued interest receivable which reduced the student loan spread by approximately 7 basis points in the second quarter of 2007 as compared to 2 basis points the second quarter of 2006.

The second quarter 2006 spread includes \$18 million or 6 basis points of income associated with non-recurring SAP that we accrued on PLUS loans as a result of program changes required by the Higher Education Reconciliation Act of 2005.

In the first half of 2006, a significant amount of FFELP Consolidation Loans were consolidated away by third parties who used the Direct Loan Program as a pass-through entity, a practice which was restricted by The Higher Education Reconciliation Act as of July 1, 2006. This unanticipated loss of FFELP Consolidation loans impacted the spread through a write-off of associated unamortized premiums (increasing premium amortization expense) and a write-off of accrued Borrower Benefits (decreasing Borrower Benefits expense) in the period.

As discussed under *Student Loans* *Student Loan Spread* *Wholesale Consolidation Loans*, the *Core Earnings* basis student loan spread analysis above also excludes the impact of our Wholesale Consolidation Loan portfolio, which had an average balance of \$7.0 billion for the second quarter of 2007. Had the impact of the Wholesale Consolidation Loan volume been included in the *Core Earnings* basis

Table of Contents

student loan spread analysis, it would have reduced the spread by approximately 8 basis points for the second quarter of 2007. As of June 30, 2007, Wholesale Consolidation Loans totaled \$7.5 billion, or 9 percent of our total Managed FFELP Consolidation Loan portfolio.

Core Earnings Basis Student Loan Spreads by Loan Type

The student loan spread continues to reflect the changing mix of loans in our portfolio, specifically the shift from FFELP Stafford loans to FFELP Consolidation Loans and the higher overall growth rate in Private Education Loans as a percentage of the total portfolio. (See LENDING BUSINESS SEGMENT Summary of our Managed Student Loan Portfolio Average Balances.)

The following table reflects the Core Earnings basis student loan spreads by product, excluding the effect of non-recurring items and the impact of the Interim ABCP Facility fees on the second quarter of 2007. See RECENT DEVELOPMENTS Merger-Related Developments *Financing Considerations Related to the Transaction*. The table also excludes the effect of Wholesale Consolidation Loans as discussed above.

	Three Months Ended		Six Months Ended	
	June 30, 2007	June 30, 2006	June 30, 2007	June 30, 2006
FFELP Loan Spreads (Core Earnings Basis), before Interim ABCP Facility Fees:				
Stafford	1.12%	1.31%	1.18%	1.36%
Consolidation	1.04	1.19	1.04	1.22
FFELP Loan Spread (Core Earnings Basis), before Interim ABCP Facility Fees	1.06	1.24	1.09	1.28
Private Education Loan Spreads (Core Earnings Basis), before Interim ABCP Facility Fees:				
Before provision	5.26%	5.07%	5.27%	4.97%
After provision	1.53	3.90	1.81	3.62

Stafford Loan spreads have declined on a year-over-year basis as a result of a number of factors. The second quarter of 2007 had a higher proportion of Stafford loans in interim status, which carries the 0.60 percent lower SAP spread, as compared to the second quarter of 2006. Stafford loan spreads have also declined as a result of increased premium costs associated with absorbing the origination fees and guarantor fees on behalf of the borrowers. Another factor impacting the Stafford loan spreads is the increase in Borrower Benefits expense on a year-over-year basis. In the second quarter of 2006, there was a significant influx of consolidation applications resulting from the pending interest rate resets. We accrued a net write-off to our Borrower Benefits liability for loans whose consolidation applications had been processed or received by June 30, 2006 resulting in reductions to Borrower Benefits expense in the second quarter of 2006.

FFELP Consolidation Loan spreads were negatively impacted year-over-year primarily from the lower amortization associated with the maturing of existing Floor Income Contracts.

The increase in Private Education Loan spreads before provision from the second quarter of 2006 to the second quarter of 2007 was driven by widening margins associated with our various product offerings partially offset by the

increase in the estimate of uncollectible accrued interest. The decrease in the spread after provision was due to the increase in the provision associated with our allowance for Private Education Loan Losses as discussed below in Private Education Loans *Allowance for Private Education Loan Losses*.

Table of Contents***Floor Income Managed Basis***

The following table analyzes the ability of the FFELP student loans in our Managed student loan portfolio to earn Floor Income after June 30, 2007 and 2006.

(Dollars in billions)	June 30, 2007			June 30, 2006		
	Fixed Borrower Rate	Variable Borrower Rate	Total	Fixed Borrower Rate	Variable Borrower Rate	Total
Student loans eligible to earn Floor Income:						
On-balance sheet student loans	\$ 78.0	\$ 19.3	\$ 97.3	\$ 52.5	\$ 19.7	\$ 72.2
Off-balance sheet student loans	16.5	11.1	27.6	14.7	19.8	34.5
Managed student loans eligible to earn Floor Income	94.5	30.4	124.9	67.2	39.5	106.7
Less: notional amount of Floor Income Contracts	(14.6)		(14.6)	(24.5)		(24.5)
Net Managed student loans eligible to earn Floor Income	\$ 79.9	\$ 30.4	\$ 110.3	\$ 42.7	\$ 39.5	\$ 82.2
Net Managed student loans earning Floor Income	\$ 4.0	\$ 3.2	\$ 7.2	\$	\$	\$

We have sold Floor Income Contracts to hedge the potential Floor Income from specifically identified pools of FFELP Consolidation Loans that are eligible to earn Floor Income.

The following table presents a projection of the average Managed balance of FFELP Consolidation Loans for which its Fixed Rate Floor Income has already been economically hedged through Floor Income Contracts for the period April 1, 2007 to June 30, 2010. These loans are both on-balance sheet and off-balance sheet and the related hedges do not qualify under SFAS No. 133 accounting as effective hedges.

(Dollars in billions)	July 1, 2007 to December 31, 2007				2008	2009	2010
Average balance of FFELP Consolidation Loans whose Floor Income is economically hedged (Managed Basis)	\$	16	\$	15	\$	10	\$ 2

Private Education Loans

All Private Education Loans are initially acquired on-balance sheet. In securitizations of Private Education Loans that are treated as sales, the loans are no longer owned by us, and they are accounted for off-balance sheet. For our Managed Basis presentation in the table below, when Private Education Loans are sold to securitization trusts, we reduce the on-balance sheet allowance for loan losses for amounts previously provided and then re-establish the

allowance for these loans in the off-balance sheet section. The total allowance of both on-balance sheet and off-balance sheet loan losses results in the Managed Basis allowance for loan losses. The off-balance sheet allowance is lower than the on-balance sheet allowance when measured as a percentage of ending loans in repayment because of the different mix of loans on-balance sheet and off-balance sheet.

When Private Education Loans in our securitized trusts that settled before September 30, 2005, become 180 days delinquent, we typically exercise our contingent call option to repurchase these loans at par value out of the trust and record a loss for the difference in the par value paid and the fair market value of the loan at the time of purchase. If these loans reach the 212-day delinquency, a charge-off for the remaining balance of the loan is triggered. On a Managed Basis, the losses recorded under GAAP for loans repurchased at day 180 are reversed and the full amount is charged off in the month in which the loan is 212 days delinquent. We do not hold the contingent call option for all trusts settled after September 30, 2005 and as such, the loans are charged off in these trusts.

Table of Contents***Activity in the Allowance for Private Education Loan Losses***

The provision for student loan losses represents the periodic expense of maintaining an allowance sufficient to absorb losses, net of recoveries, inherent in the portfolio of Private Education Loans.

The following table summarizes changes in the allowance for Private Education Loan losses for the three and six months ended June 30, 2007 and 2006.

	Activity in Allowance for Private Education Loan Losses

Toward the end of 2006 and through mid-2007, we experienced lower pre-default collections resulting in increased levels of charge-off activity in our Private Education Loan portfolio. As the portfolio seasons and due to shifts in its mix and certain economic factors, we expected and have seen charge-off rates increase from the historically low levels experienced in the prior years. However, the large increase in the first half of 2007 is significantly impacted by additional factors. Among these factors, in the third and fourth quarters of 2006, we encountered a number of operational challenges at our DMO in performing pre-default collections on our Private Education Loan portfolio. In August 2006, we announced that we intended to relocate responsibility for certain Private Education Loan collections from our Nevada call center to a new call center in Indiana. This transfer presented us with unexpected operational challenges that resulted in lower collections that have negatively impacted the Private Education Loan portfolio. In addition, in late 2006 the DMO also revised certain procedures, including its use of forbearance, to better optimize our long-term collection strategies. These developments have resulted in increased later stage delinquency levels and associated higher charge-offs in the first half of 2007.

Management has been aggressively remediating these issues beginning with actions in late 2006 and early 2007, such as transferring experienced collection personnel to the new call center and conducting extensive training and monitoring. Beginning late in the second quarter and into the early third quarter of 2007, DMO has also instituted more precise analytic collection strategies and new systematic enhancements to better manage the volume, seasoning and shift in the portfolio mix. Because charge-offs are generally reflective of the collection performance of six or seven months prior to the 212-day charge-off event, the effect of all of these actions will not be fully realized until 2008. Due to the remedial actions in place, we anticipate the negative trends caused by the operational-related issues will steadily improve over the remainder of 2007 and the first half of 2008.

Table of Contents

The anticipated level of elevated delinquency and net charge-offs beyond June 30, 2007 discussed above is reflected in the higher level of provisioning for the quarter. Through our status-based allowance methodology, the provision is directly correlated to both the current level of delinquency in the portfolio and the expected rate of charge-off associated with each repayment status category. The gross charge-off rates are reduced by the expected life-of-loan recoveries anticipated on the charged-off portfolio to arrive at a net charge-off expectation. The provision for the quarter includes an update to our projected default rates reflecting an increased gross charge-off expectation somewhat offset by an increase in expected life-of-loan recoveries. For the quarter ended June 30, 2007, the net effect of these changes in estimates included in provision expense above is \$146 million on a Managed Basis and \$58 million for on-balance sheet.

Delinquencies

The tables below present our Private Education Loan delinquency trends as of June 30, 2007 and 2006. Delinquencies have the potential to adversely impact earnings through increased servicing and collection costs in the event the delinquent accounts charge off.

	On-Balance Sheet Private Education Loan Delinquencies

Table of Contents***Forbearance Managed Basis Private Education Loans***

Private Education Loans are made to parent and student borrowers in accordance with our underwriting policies. These loans generally supplement federally guaranteed student loans, which are subject to federal lending caps. Private Education Loans are not federally guaranteed nor insured against any loss of principal or interest. Traditional student borrowers use the proceeds of these loans to obtain higher education, which increases the likelihood of obtaining employment at higher income levels than would be available without the additional education. As a result, the borrowers' repayment capability improves between the time the loan is made and the time they enter the post-education work force. We generally allow the loan repayment period on traditional higher education Private Education Loans to begin six months after the borrower leaves school (consistent with our federally regulated FFELP loans). This provides the borrower time after graduation to obtain a job to service the debt. For borrowers that need more time or experience other hardships, we permit additional delays in payment or partial payments (both referred to as forbearances) when we believe additional time will improve the borrower's ability to repay the loan. Forbearance is also granted to borrowers who may experience temporary hardship after entering repayment, when we believe that it will increase the likelihood of ultimate collection of the loan. Such forbearance is granted within established policies that include limits on the number of forbearance months granted consecutively and limits on the total number of forbearance months granted over the life of the loan. In some instances of forbearance, we require good-faith payments or continuing partial payments. Exceptions to forbearance policies are permitted in limited circumstances and only when such exceptions are judged to increase the likelihood of ultimate collection of the loan.

Forbearance does not grant any reduction in the total repayment obligation (principal or interest) but does allow for the temporary cessation of borrower payments (on a prospective and/or retroactive basis) or a reduction in monthly payments for an agreed period of time. The forbearance period extends the original term of the loan. While the loan is in forbearance, interest continues to accrue and is capitalized as principal upon the loan re-entering repayment status. Loans exiting forbearance into repayment status are considered current regardless of their previous delinquency status.

Forbearance is used most heavily immediately after the loan enters repayment. As a result, forbearance levels are impacted by the timing of loans entering repayment and are generally at higher levels in the first quarter. As indicated in the tables below that show the composition and status of the Managed Private Education Loan portfolio by number of months aged from the first date of repayment, the percentage of loans in forbearance decreases the longer the loans have been in repayment. At June 30, 2007, loans in forbearance as a percentage of loans in repayment and forbearance are 14.0 percent for loans that have been in repayment one to twenty-four months. The percentage drops to 4.4 percent for loans that have been in repayment more than 48 months. Approximately 75 percent of our Managed Private Education Loans in forbearance have been in repayment less than 24 months. These borrowers are essentially extending their grace period as they transition to the workforce. Forbearance continues to be a positive collection tool for the Private Education Loans as we believe it can provide the borrower with sufficient time to obtain employment and income to support his or her obligation. We consider the potential impact of forbearance in the determination of the loan loss reserves.

Table of Contents

The table below stratifies the portfolio of loans in forbearance by the cumulative number of months the borrower has used forbearance as of the dates indicated. As detailed in the table below, 4 percent of loans currently in forbearance have deferred their loan repayment more than 24 months, which is 4 percent lower versus the year-ago quarter.

	June 30, 2007		June 30, 2006	
	Forbearance	% of	Forbearance	% of

Total Loan Net Charge-offs

The following tables summarize the net charge-offs for all loan types on both an on-balance sheet basis and a Managed Basis for the three and six months ended June 30, 2007 and 2006. The majority of Private Education Loan charge-offs occur on-balance sheet due to the contingent call feature in off-balance sheet securitization trusts that settled before September 30, 2005, which is discussed in more detail at **LENDING BUSINESS SEGMENT** Private Education Loans.

Total on-balance sheet loan net charge-offs

	Three Months		Six Months	
	Ended	Ended	Ended	Ended
	June 30,	June 30,	June 30,	June 30,
	2007	2006	2007	2006
Private Education Loans	\$ 80	\$ 30	\$ 155	\$ 56
FFELP Stafford and Other Student Loans	5	1	9	2
Mortgage and consumer loans	3	1	5	2
Total on-balance sheet loan net charge-offs	\$ 88	\$ 32	\$ 169	\$ 60

Total Managed loan net charge-offs

Three Months	Six Months
Ended	Ended
June 30,	June 30,

	2007	2006	2007	2006
Private Education Loans	\$ 108	\$ 34	\$ 205	\$ 60
FFELP Stafford and Other Student Loans	9	1	17	2
Mortgage and consumer loans	3	1	5	2
Total Managed loan net charge-offs	\$ 120	\$ 36	\$ 227	\$ 64

The increase in net charge-offs on FFELP Stafford and Other Student Loans from the year-ago quarter is the result of the legislative changes which lower the federal guaranty on claims filed after July 1, 2006 to 97 percent from 98 percent (or 99 percent from 100 percent for lenders and servicers with the Exceptional Performer designation). See

Private Education Loans *Activity in the Allowance for Private Education Loan Losses* for a discussion of net charge-offs related to our Private Education Loans.

Table of Contents**Student Loan Premiums as a Percentage of Principal**

The following table presents student loan premiums paid as a percentage of the principal balance of student loans acquired for the three and six months ended June 30, 2007 and 2006.

	Three Months Ended June 30,		2006		Six Months Ended June 30,		2006	
	2007		2006		2007		2006	
	Volume	Rate	Volume	Rate	Volume	Rate	Volume	Rate
Student loan premiums paid:								
Sallie Mae brands	\$ 2,298	1.47%	\$ 1,671	.77%	\$ 6,896	1.43%	\$ 4,975	.59%
Lender partners	3,382	2.96	4,225	1.64	5,759	2.93	7,817	1.80
Total Preferred Channel	5,680	2.36	5,896	1.39	12,655	2.11	12,792	1.33
Other purchases ⁽¹⁾	1,316	4.99	493	4.23	5,190	5.34	668	3.64
Total base purchases	6,996	2.85	6,389	1.61	17,845	3.05	13,460	1.45
Consolidation originations	485	3.09	853	3.37	1,187	2.61	1,750	2.66
Total	\$ 7,481	2.87%	\$ 7,242	1.82%	\$ 19,032	3.02%	\$ 15,210	1.58%

⁽¹⁾ Primarily includes spot purchases (including Wholesale Consolidation Loans), other commitment clients, and subsidiary acquisitions.

The increase in premiums paid as a percentage of principal balance for Sallie Mae brands over the prior year is primarily due to the increase in loans where we pay the origination fee and/or federal guaranty fee on behalf of borrowers, a practice we call zero-fee lending. Premiums paid on Lender partners volume were similarly impacted by zero-fee lending. The borrower origination fee will be gradually phased out by the Reconciliation Legislation from 2007 to 2010.

The Other purchases category includes the acquisition of Wholesale Consolidation Loans which totaled \$911 million at a rate of 5.67 percent for the three months ended June 30, 2007. At June 30, 2007, Wholesale Consolidation Loans totaled \$7.5 billion.

We include in Consolidation originations the 50 basis point Consolidation Loan origination fee paid on each FFELP Stafford loan that we consolidate, including loans that are already in our portfolio. The consolidation originations premium paid percentage is calculated on only consolidation volume that is incremental to our portfolio. This percentage is largely driven by the mix of FFELP Stafford loans consolidated in this quarter.

As shown in the above tables, off-balance sheet FFELP Stafford loans that consolidate with us become an on-balance sheet interest earning asset. This activity results in impairments of our Retained Interests in securitizations, but this is offset by an increase in on-balance sheet interest earning assets, for which we do not record an offsetting gain.

The following table includes on-balance sheet asset information for our Lending business segment.

	June 30, 2007	December 31, 2006
FFELP Stafford and Other Student Loans, net	\$ 31,503	\$ 24,841
FFELP Consolidation Loans, net	68,109	61,324
Private Education Loans, net	11,014	9,755
Other loans, net	1,178	1,309

Retained Interest in off-balance sheet securitized loans	3,448	3,341
Other ⁽²⁾	6,089	4,859
Total assets	\$ 129,985	\$ 113,604

(1) Investments include cash and cash equivalents, investments, restricted cash and investments, leveraged leases, and municipal bonds.

(2) Other assets include accrued interest receivable, goodwill and acquired intangible assets and other non-interest earning assets.

Preferred Channel Originations

We originated \$3.6 billion in student loan volume through our Preferred Channel in the quarter ended June 30, 2007 versus \$3.2 billion in the quarter ended June 30, 2006.

For the quarter ended June 30, 2007, our internal lending brands grew 39 percent over the year-ago quarter, and comprised 68 percent of our Preferred Channel Originations, up from 55 percent in the year-ago quarter. Our internal lending brands combined with our other lender partners comprised 92 percent of our Preferred Channel Originations for the current quarter, versus 83 percent for the year-ago quarter; together these two segments of our Preferred Channel grew 27 percent over the year-ago quarter.

Table of Contents

Our Managed loan acquisitions for the current quarter totaled \$8.4 billion, an increase of 6 percent over the year-ago quarter. The following tables further break down our Preferred Channel Originations by type of loan and source.

(1) FFELP category is primarily Stafford loans and also includes PLUS and HEAL loans.

(2) Represents loans that we either own on-balance sheet or in our off-balance sheet securitization trusts that we consolidate.

(3) The Total Managed Acquisitions line includes incremental consolidations from third parties and acquisitions.

Table of Contents

The increase in consolidations to third parties in 2006 reflects FFELP lenders reconsolidating FFELP Consolidation Loans using the Direct Loan program as a pass-through entity, a practice which was restricted by The Higher Education Reconciliation Act of 2005, as of July 1, 2006.

During 2006, we introduced Private Education Consolidation Loans as a separate product line and in the first half of 2007, we added \$55 million of net incremental volume of Private Education Consolidation Loans. This incremental volume is of higher credit quality than the volume that consolidated away from us. We expect this product line to continue to grow in the future and we will aggressively employ this and other tools to protect our portfolio against third-party consolidation of our Private Education Loans.

Other Income Lending Business Segment

The following table summarizes the components of other income, net, for our Lending business segment for the three and six months ended June 30, 2007 and 2006.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Late fees	\$ 32	\$ 26	\$ 67	\$ 51
Gains on sales of mortgages and other loan fees	4	4	7	7
Gains on sales of student loans	19	2	19	2
Other	4	19	11	32
Total other income, net	\$ 59	\$ 51	\$ 104	\$ 92

In the second quarter of 2007, we sold \$770 million of FFELP Stafford and Consolidation student loans, the majority of which were serviced by third parties. The decrease in the Other category versus the prior year is due to the shift of origination volume to Sallie Mae Bank. Previously, we earned servicing fees for originated loans on behalf of originating with third party lenders prior to their eventual sale to us. This revenue stream has been more than offset by capturing the earnings spread on the loans earlier.

Operating Expense Lending Business Segment

The following table summarizes the components of operating expenses for our Lending business segment for the three and six months ended June 30, 2007 and 2006.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Sales and originations	\$ 93	\$ 79	\$ 180	\$ 163
Servicing and information technology	56	52	111	102

Edgar Filing: SLM CORP - Form 10-Q

Corporate overhead	33	32	62	59
Total operating expenses	\$ 182	\$ 163	\$ 353	\$ 324

Operating expenses for our Lending business segment include costs incurred to service our Managed student loan portfolio and acquire student loans, as well as other general and administrative expenses. Operating expenses for the Lending business segment also include stock option compensation expense of \$13 million and \$8 million, respectively, for the three months ended June 30, 2007 and 2006, and \$22 million and \$18 million, respectively, for the six months ended June 30, 2007 and 2006.

Table of Contents**DEBT MANAGEMENT OPERATIONS (DMO) BUSINESS SEGMENT**

The following table includes the Core Earnings results of operations for our DMO business segment.

	Three Months Ended June 30,		% Increase (Decrease) 2007 vs. 2006	Six Months Ended June 30,		% Increase (Decrease) 2007 vs. 2006
	2007	2006		2007	2006	
Fee income	\$ 80	\$ 90	(11)%	\$ 166	\$ 182	(9)%
Collections revenue	77	67	15	143	124	15

DMO Revenue by Product

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Purchased paper collections revenue	\$ 77	\$ 67	\$ 143	\$ 124
Contingency:				
Student loans	62	69	130	139
Other	6	9	11	19
Total contingency	68	78	141	158
Other	12	12	25	24
Total	\$ 157	\$ 157	\$ 309	\$ 306
USA Funds ⁽¹⁾	\$ 39	\$ 46	\$ 83	\$ 92

% of total DMO revenue	25%	29%	27%	30%
------------------------	-----	-----	-----	-----

(1) United Student Aid Funds, Inc. (USA Funds)

The decrease in contingency fees versus the year-ago quarter is primarily due to the shift in collection strategy from loan consolidation to rehabilitating student loans. This shift was in response to a legislative change which reduced the rate earned from consolidating defaulted student loans. To qualify for a rehabilitation, borrowers must make nine consecutive payments. The first half of 2007 was also negatively impacted by lower performance in default prevention, which in turn, lowers the portfolio management fee on defaulted student loan collections. The increase in purchased paper collections revenue primarily reflects the increase in the carrying value of purchases.

Table of Contents**Purchased Paper Non-Mortgage**

	Three Months Ended		Six Months	
	June 30,		Ended June 30,	
	2007	2006	2007	2006
Face value of purchases for the period	\$ 1,064	\$ 461	\$ 2,140	\$ 992
Purchase price for the period	121	41	223	75
% of face value purchased	11.4%	8.9%	10.4%	7.6%
Gross Cash Collections (GCC)	\$ 124	\$ 93	\$ 239	\$ 182
Collections revenue	59	54	115	103
% of GCC	48%	58%	48%	56%
Carrying value of purchases	\$ 376	\$ 152	\$ 376	\$ 152

The amount of face value of purchases in any quarter is a function of a combination of factors including the amount of receivables available for purchase in the marketplace, average age of each portfolio, the asset class of the receivables, and competition in the marketplace. As a result, the percentage of face value purchased will vary from quarter to quarter. The decrease in collections revenue as a percentage of GCC versus the prior year can primarily be attributed to the increase in new portfolio purchases in the second quarter of 2007. Typically, revenue recognition based on a portfolio's effective interest rate is a lower percentage of cash collections in the early stages of servicing a portfolio.

Purchased Paper Mortgage/Properties

	Three Months		Six Months	
	Ended June 30,		Ended June 30,	
	2007	2006	2007	2006
Face value of purchases for the period	\$ 485	\$ 191	\$ 725	\$ 323
Collections revenue	18	13	28	21
Collateral value of purchases	442	212	690	362
Purchase price for the period	329	160	524	273
% of collateral value	74%	76%	76%	76%
Carrying value of purchases	\$ 930	\$ 453	\$ 930	\$ 453

The purchase price for sub-performing and non-performing mortgage loans is generally determined as a percentage of the underlying collateral, but we also consider a number of additional factors when pricing mortgage loan portfolios to attain a targeted yield. Therefore, the purchase price as a percentage of collateral value can fluctuate depending on the mix of sub-performing versus non-performing mortgages in the portfolio, the projected timeline to resolution of loans in the portfolio and the level of private mortgage insurance associated with particular assets. The increase in the collateral value of purchases and the carrying value of purchases reflects the increase in the amount of loans purchased in the quarter.

Contingency Inventory

The following table presents the outstanding inventory of receivables that are currently being serviced through our DMO business.

	June 30, 2007	December 31, 2006
Contingency:		
Student loans	\$ 8,739	\$ 6,971
Other	1,590	1,667
Total	\$ 10,329	\$ 8,638

The \$1.7 billion increase in this contingency inventory from December 31, 2006 is primarily due to higher placements of defaulted loans.

Table of Contents**Operating Expenses DMO Business Segment**

Operating expenses for our DMO business segment totaled \$96 million and \$85 million, respectively, for the three months ended June 30, 2007 and 2006, and \$190 million and \$175 million, respectively, for the six months ended June 30, 2007 and 2006. The increase in operating expenses of \$11 million or 13 percent versus the year-ago quarter was primarily due to increased expenses for outsourced collections and overall growth in the purchased paper business.

Operating expenses for the DMO business segment also include stock option compensation expense of \$4 million and \$2 million, respectively, for the three months ended June 30, 2007 and 2006, and \$7 million and \$5 million, respectively, for the six months ended June 30, 2007 and 2006.

At June 30, 2007 and December 31, 2006, the DMO business segment had total assets of \$2.1 billion and \$1.5 billion, respectively.

CORPORATE AND OTHER BUSINESS SEGMENT

The following table includes Core Earnings results of operations for our Corporate and Other business segment.

	Three Months Ended June 30, 2007 2006		% Increase (Decrease) 2007 vs. 2006	Six Months Ended June 30, 2007 2006		% Increase (Decrease) 2007 vs. 2006
Total interest income	\$ 7	\$ 1	600%	\$ 9	\$ 2	350%

Fee and Other Income Corporate and Other Business Segment

Edgar Filing: SLM CORP - Form 10-Q

The following table summarizes the components of fee and other income for our Corporate and Other business segment for the three and six months ended June 30, 2007 and 2006.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Guarantor servicing fees	\$ 30	\$ 33	\$ 70	\$ 60
Loan servicing fees	5	7	12	15
Upromise	26		51	
Other	18	17	37	40
Total fee and other income	\$ 79	\$ 57	\$ 170	\$ 115

Table of Contents

The decrease in guarantor servicing fees versus the prior quarter is primarily due to seasonality. The decrease in guarantor servicing fees versus the prior year is due to the cap on the payment of account maintenance fees imposed by ED in the fourth quarter of 2005. We negotiated a settlement with USA Funds in the second quarter of 2006 such that USA Funds was able to cover the previous shortfall caused by the cap on payments from ED to guarantors. This cap was removed by legislation reauthorizing the student loan programs of the Higher Education Act on October 1, 2006.

USA Funds, the nation's largest guarantee agency, accounted for 86 percent and 85 percent, respectively, of guarantor servicing fees and 17 percent and 37 percent, respectively, of revenues associated with other products and services for the three months ended June 30, 2007 and 2006.

Operating Expenses Corporate and Other Business Segment

The following table summarizes the components of operating expenses for our Corporate and Other Business segment for the three and six months ended June 30, 2007 and 2006.

	Three Months Ended June 30, 2007 2006		Six Months Ended June 30, 2007 2006	
Operating expenses	\$ 28	\$ 30	\$ 57	\$ 68
Upromise	21		42	
Corporate overhead	55	20	73	41
Total operating expenses	\$ 104	\$ 50	\$ 172	\$ 109

Operating expenses for our Corporate and Other business segment include direct costs incurred to service loans for unrelated third parties and to perform guarantor servicing on behalf of guarantor agencies, as well as information technology expenses related to these functions. The increase in the corporate overhead operating expenses in the three and six months ended June 30, 2007 versus the year-ago periods is due to Merger-related fees. (See RECENT DEVELOPMENTS Merger Related Developments.) Operating expenses in this segment for the three and six months ended June 30, 2007, also include \$21 million and \$42 million, respectively, of expenses related to Upromise, which was acquired in the third quarter of 2006. Also included in the operating expenses for the three months ended June 30, 2007 and 2006, was \$6 million and \$4 million, respectively, of stock option compensation expense, and for the six months ended June 30, 2007 and 2006, included \$10 million and \$9 million, respectively of stock option compensation expense.

At June 30, 2007 and December 31, 2006, the Corporate and Other business segment had total assets of \$731 million and \$999 million, respectively.

LIQUIDITY AND CAPITAL RESOURCES

Except in the case of acquisitions, which are discussed separately, our DMO and Corporate and Other business segments are not capital intensive businesses, and as such, a minimal amount of debt and equity capital is allocated to these segments. Therefore, the following LIQUIDITY AND CAPITAL RESOURCES discussion is concentrated on our Lending business segment.

Our primary funding objective is to maintain cost-effective liquidity to fund the growth in the Managed portfolio of student loans, as well as to refinance previously securitized loans when borrowers choose to refinance their loans through a FFELP Consolidation Loan or a Private Education Consolidation Loan. Since the announcement of the proposed Merger (see RECENT DEVELOPMENTS), credit spreads on our unsecured debt widened considerably, which significantly increased our cost of accessing the unsecured debt markets. As a result, in the near term, student loan securitizations will be the primary source of cost effective financing. We have built a highly liquid and deep market for our securitizations, and in the first half of 2007, we securitized \$18.0 billion in student loans in five transactions versus \$17.5 billion in seven transactions in the year-ago period. We believe the market for these securities will be available to meet our long-term funding needs for the foreseeable future. Securitizations comprised 70 percent of our Managed debt outstanding at June 30, 2007, unchanged from June 30, 2006. On April 30, 2007, in connection with the Merger, we were

Table of Contents

provided a \$30 billion asset-backed commercial paper facility (Interim ABCP Facility) which provides additional funding. See RECENT DEVELOPMENTS Merger-Related Developments *Financing Considerations Related to the Transaction* for further discussion.

We hedge the full fair value of certain fixed rate U.S. dollar denominated unsecured debt for SFAS No. 133 hedge accounting purposes. The widening of our credit spreads due to the Merger announcement resulted in certain hedge relationships no longer qualifying for hedge accounting as full fair value hedges. Those relationships which no longer qualify for hedge accounting as full fair value hedges were re-designated as hedges of changes in fair value due to benchmark interest rates only.

Prior to the announcement of the Merger, we issued \$1.6 billion in SLM Corporation long-term, unsecured debt in the first quarter of 2007. We did not issue any long-term, unsecured debt in the second quarter of 2007 (see discussion above of the effect of the Merger on the unsecured debt markets). In total, at June 30, 2007, unsecured corporate debt totaled \$48.1 billion versus \$42.9 billion at June 30, 2006.

Liquidity at SLM Corporation is important to enable us to effectively fund our student loan acquisitions, to meet maturing debt obligations, and to fund operations. The following table details our primary sources of liquidity and the available capacity at June 30, 2007 and December 31, 2006.

	June 30, 2007		December 31,
	Available		2006
	Capacity		Available
			Capacity
Sources of primary liquidity:			
Unrestricted cash and liquid investments ⁽¹⁾⁽²⁾	\$ 3,820	\$	4,720
Unused commercial paper and bank lines of credit	6,500		6,500
ABCP borrowing capacity	221		1,047
Interim ABCP Facility borrowing capacity	28,484		
Total sources of primary liquidity	39,025		12,267
Sources of stand-by liquidity:			
Unencumbered FFELP student loans ⁽²⁾	25,948		28,070
Total sources of primary and stand-by liquidity	\$ 64,973	\$	40,337

(1) Excludes \$656 million and \$365 million of investments pledged as collateral related to certain derivative positions and \$90 million and \$99 million of other non-liquid investments classified at June 30, 2007 and December 31, 2006, respectively, as cash and investments on our balance sheet in accordance with GAAP.

(2) Under the terms of the Merger Agreement certain asset sales require the approval of the Investor Group prior to the Merger.

We believe our unencumbered FFELP student loan portfolio provides an excellent source of potential or stand-by liquidity because of the well-developed market for government guaranteed student loan securitizations. There is also

an active wholesale market for FFELP loan sales that provides an additional potential source of stand-by liquidity. In addition to the assets listed in the table above, we hold on-balance sheet a number of other unencumbered assets, consisting primarily of Private Education Loans, Retained Interests and other assets. At June 30, 2007, we had a total of \$52.5 billion of unencumbered assets, including goodwill and acquired intangibles.

In addition to liquidity, a major objective when financing our business is to minimize interest rate risk by aligning the interest rate and reset characteristics of our Managed assets and liabilities, generally on a pooled basis, to the extent practicable. In this process we use derivative financial instruments extensively to reduce our interest rate and foreign currency exposure. This interest rate risk management helps us to stabilize our student loan spread in various and changing interest rate environments.

Managed Borrowings

The following tables present the ending balances of our Managed borrowings at June 30, 2007 and 2006 and average balances and average interest rates of our Managed borrowings for the three and six months ended

Table of Contents

June 30, 2007 and 2006. The average interest rates include derivatives that are economically hedging the underlying debt, but do not qualify for hedge accounting treatment under SFAS No. 133. (See BUSINESS SEGMENTS Pre-tax differences Between Core Earnings and GAAP by Business Segment *Reclassification of Realized Gains (Losses) on Derivative and Hedging Activities.*)

Ending Balances

	As of June 30,					
	2007			2006		
	Ending Balance			Ending Balance		
	Short Term	Long Term	Total Managed Basis	Short Term	Long Term	Total Managed Basis

Foreign currency denominated notes ⁽¹⁾		1,052	161	1,475	12,800	10,261
Extendible notes		999		999	5,748	5,246
Global notes (Institutional)		871	1,348	1,945	22,479	19,737
Medium-term notes (Institutional)					596	1,800
Other					245	1
Total	\$	\$ 3,032	\$ 1,568	\$ 4,686	\$ 48,060	\$ 42,909

⁽¹⁾ All foreign currency denominated notes are hedged using derivatives that exchange the foreign denomination for U.S. dollars.

In addition to the term issuances reflected in the table above, we also use our commercial paper program for short-term liquidity purposes. The average balance of commercial paper outstanding was \$0 for both the three months ended June 30, 2007 and 2006, and \$0 and \$165 million for the six months ended June 30, 2007 and 2006, respectively. The maximum daily amount outstanding was \$0 for both the three months ended June 30, 2007 and 2006, and \$0 and \$2.2 billion for the six months ended June 30, 2007 and 2006, respectively.

Table of Contents**Securitization Activities*****Securitization Program***

The following table summarizes our securitization activity for the three and six months ended June 30, 2007 and 2006. Those securitizations listed as sales are off-balance sheet transactions and those listed as financings remain on-balance sheet.

(Dollars in millions)	Three Months Ended June 30,					2006

- (1) In certain securitizations there are terms within the deal structure that result in such securitizations not qualifying for sale treatment and accordingly, they are accounted for on-balance sheet as variable interest entities (VIEs). Terms that prevent sale treatment include: (1) allowing us to hold certain rights that can affect the remarketing of certain bonds, (2) allowing the trust to enter into interest rate cap agreements after the initial settlement of the securitization, which do not relate to the reissuance of third party beneficial interests or (3) allowing us to hold an unconditional call option related to a certain percentage of the securitized assets.

Our Private Education Loan gain on sale percentages are significantly higher than our FFELP gain on sale percentages primarily for two reasons: (1) significantly higher excess spread earned by the Residual Interest holder which is primarily due to the higher spreads to index the Company earns on the underlying Private Education Loans compared to FFELP loans (see LENDING BUSINESS SEGMENT Core Earnings Basis Student Loan Spreads by Loan Type for further discussion regarding average student loan spreads by loan type) and (2) the weighted average life of the Private Education Loan securitizations are longer. The weighted average life for the first quarter of 2007 Private Education Loan securitization was 9.4 years. The Constant Prepayment Rate (CPR) assumption we use to determine the fair value of the Residual Interest impacts the weighted average life of the securitization. See the Company's 2006 Form 10-K, Note 9 to the consolidated financial statements, Student Loan Securitization, for a sensitivity analysis of the significant assumptions used to determine the fair value of the Residual Interest.

Table of Contents***Retained Interest in Securitized Receivables***

The following tables summarize the fair value of the Company's Residual Interests, included in the Company's Retained Interest (and the assumptions used to value such Residual Interests), along with the underlying off-balance sheet student loans that relate to those securitizations in transactions that were treated as sales as of June 30, 2007 and December 31, 2006.

	As of June 30, 2007			
	FFELP Stafford and	Consolidation	Private	Total

Residual cash flows discount rate	12.6%	10.5%	12.6%	

- (1) Includes \$94 million and \$151 million related to the fair value of the Embedded Floor Income as of June 30, 2007 and December 31, 2006, respectively. Changes in the fair value of the Embedded Floor Income are primarily due to changes in the interest rates and the paydown of the underlying loans.

- (2) At June 30, 2007 and December 31, 2006, we had unrealized gains (pre-tax) in accumulated other comprehensive income of \$286 million and \$389 million, respectively, that related to the Retained Interests.
- (3) In addition to student loans in off-balance sheet trusts, we had \$61.4 billion and \$48.6 billion of securitized student loans outstanding (face amount) as of June 30, 2007 and December 31, 2006, respectively, in on-balance sheet securitization trusts.
- (4) Effective December 31, 2006, the Company implemented CPR curves for Residual Interest valuations that are based on seasoning (the number of months since entering repayment). Under this methodology, a different CPR is applied to each year of a loan's seasoning. Previously, we applied a CPR that was based on a static life of loan assumption, and, in the case of FFELP Stafford and PLUS loans, we applied a vector approach, irrespective of seasoning. Repayment status CPR used is based on the number of months since first entering repayment (seasoning). Life of loan CPR is related to repayment status only and does not include the impact of the loan while in interim status. The CPR assumption used for all periods includes the impact of projected defaults.
- (5) The Company increased its recovery rate assumption on defaulted Private Education Loans from 22 percent to 27 percent as of June 30, 2007.
- (6) As discussed in Note 1, Significant Accounting Policies Accounting for Certain Hybrid Financial Instruments the Company adopted SFAS No. 155, Accounting for Certain Hybrid Financial Instruments effective January 1, 2007. As a result, the Company elected to carry the Residual Interest on the Private Education Loan securitization which settled in the first quarter of 2007 at fair value with subsequent changes in fair value recorded in earnings. The fair value of this Residual Interest at June 30, 2007 was \$429 million inclusive of a net \$57 million fair value gain adjustment recorded since settlement.

Table of Contents

During 2006, we, along with others in the industry, began consolidating Private Education Loans. This will increase the prepayment speeds in Private Education Loan trusts, and as a result, the Company increased its CPR assumption related to Private Education Loan trusts from 4 percent to 6 percent as of December 31, 2006.

Off-Balance Sheet Net Assets

The following table summarizes our off-balance sheet net assets at June 30, 2007 and December 31, 2006 on a basis equivalent to our GAAP on-balance sheet trusts, which presents the assets and liabilities in the off-balance sheet trusts as if they were being accounted for on-balance sheet rather than off-balance sheet. This presentation, therefore, includes a theoretical calculation of the premiums on student loans, the allowance for loan losses, and the discounts and deferred financing costs on the debt. This presentation is not, nor is it intended to be, a liquidation basis of accounting. (See also LENDING BUSINESS SEGMENT Summary of our Managed Loan Portfolio *Ending Balances (net of allowance for loan losses)* and LIQUIDITY AND CAPITAL RESOURCES Managed Borrowings *Ending Balances*, earlier in this section.)

	June 30, 2007	December 31, 2006
Off-Balance Sheet Assets:		
Total student loans, net	\$ 42,577	\$ 46,172
Restricted cash and investments	3,584	4,269
Accrued interest receivable	1,542	1,467
Total off-balance sheet assets	47,703	51,908
Off-Balance Sheet Liabilities:		
Debt, par value	46,093	50,058
Debt, unamortized discount and deferred issuance costs	(118)	(193)
Total debt	45,975	49,865
Accrued interest payable	350	405
Total off-balance sheet liabilities	46,325	50,270
Off-Balance Sheet Net Assets	\$ 1,378	\$ 1,638

Liquidity Risk and Funding Long-Term

Since the announcement of the Merger (see RECENT DEVELOPMENTS), the asset-backed capital markets have been the only source of cost effective financing and as a result we have significant long-term funding, credit spread and liquidity exposure to those markets. A major disruption in the fixed income asset-backed capital markets that limits our ability to raise funds or significantly increases the cost of those funds could have a material impact on our ability to acquire student loans, or on our results of operations. Additionally, if the Merger is not consummated, we cannot predict how our ability to access the fixed income capital markets will be affected. In such a case, our only source of liquidity that would likely to be adversely affected would be the unsecured debt market. We would expect to continue to have ready access to our \$6.5 billion revolving credit facilities, our investment portfolio, the asset-backed capital markets and our unencumbered FFELP student loans, barring general market dislocations or disruptions. In

addition, Bank of America and JP Morgan Chase provided the Company with \$30 billion of new asset-backed commercial paper conduit facilities. See RECENT DEVELOPMENTS Merger-Related Developments *Financing Considerations Related to the Transaction*. These sources of liquidity are anticipated to be sufficient to meet the cash needs of the company. Securitizations are, and will continue to be, the primary source of long-term financing and liquidity. Our securitizations are structured such that we are not obligated to provide any material level of financial, credit or liquidity support to any of the trusts, thus limiting our exposure to the recovery of the Retained Interest asset on the balance sheet for off-balance sheet securitizations or to the loss of the earnings spread for loans securitized on-balance sheet. While all of our Retained Interests are subject to some

Table of Contents

prepayment risk, Retained Interests from our FFELP Stafford securitizations have significant prepayment risk primarily arising from borrowers opting to consolidate their Stafford/PLUS loans. When consolidation activity is higher than projected, the increase in prepayments could materially impair the value of our Retained Interest. However, this negative effect on our Retained Interest is somewhat offset by the loans that consolidate back onto our balance sheet, which we view as trading one interest bearing asset for another, whereas loans that consolidate with third parties represent a complete loss of future economics to the Company. We discuss our short-term liquidity risk, including a table of our sources of liquidity at the beginning of this LIQUIDITY AND CAPITAL RESOURCES section.

Servicing and Securitization Revenue

Servicing and securitization revenue, the ongoing revenue from securitized loan pools accounted for off-balance sheet as QSPEs, includes the interest earned on the Residual Interest asset and the revenue we receive for servicing the loans in the securitization trusts. Interest income recognized on the Residual Interest is based on our anticipated yield determined by estimating future cash flows each quarter.

The following table summarizes the components of servicing and securitization revenue for the three and six months ended June 30, 2007 and 2006.

	Three Months Ended		Six Months Ended	
	June 30, 2007	June 30, 2006	June 30, 2007	June 30, 2006
Servicing revenue	\$ 74	\$ 88	\$ 151	\$ 168
Securitization revenue, before Net Embedded Floor Income, impairment	115	84	221	153
Servicing and securitization revenue, before Net Embedded Floor Income, impairment and unrealized fair value adjustment	189	172	372	321
Embedded Floor Income	2	4	4	10
Less: Floor Income previously recognized in gain calculation	(1)	(2)	(2)	(6)
Net Embedded Floor Income	1	2	2	4
Servicing and securitization revenue, before impairment and unrealized fair value adjustment	190	174	374	325
Unrealized fair value adjustment ⁽¹⁾	(22)		57	
Retained Interest impairment	(35)	(91)	(46)	(143)
Total servicing and securitization revenue	\$ 133	\$ 83	\$ 385	\$ 182
Average off-balance sheet student loans	\$ 43,432	\$ 47,716	\$ 44,044	\$ 44,909
Average balance of Retained Interest	\$ 3,552	\$ 3,004	\$ 3,498	\$ 2,754
	1.23%	.70%	1.76%	.82%

Servicing and securitization revenue as a percentage of
the average balance of off-balance sheet student loans
(annualized)

- (1) The Company adopted SFAS No. 155 on January 1, 2007. SFAS No. 155 requires the Company to identify and bifurcate embedded derivatives from the Residual Interest. However, SFAS No. 155 does allow the Company to elect to carry the entire Residual Interest at fair value through earnings rather than bifurcate such embedded derivatives. For the off-balance sheet securitizations that settled in the first half of 2007, the Company elected to carry the entire Residual Interest recorded at fair value through earnings. As a result of this election, all changes in the fair value of the Residual Interests for those securitizations are recorded through earnings. Management anticipates electing to carry future Residual Interests at fair value through earnings. For securitizations settling prior to January 1, 2007, changes in the fair value of Residual Interests will continue to be recorded in other comprehensive income.

Table of Contents

Servicing and securitization revenue is primarily driven by the average balance of off-balance sheet student loans, the amount of and the difference in the timing of Embedded Floor Income recognition on off-balance sheet student loans, Retained Interest impairments, and the fair value adjustment related to those Residual Interests where the Company has elected to carry such Residual Interests at fair value through earnings under SFAS No. 155 as discussed in the above table. The increase in securitization revenue, before net Embedded Floor Income and impairment, from 2006 to 2007, is primarily due to the continued increase in the amount of Private Education Loan Residual Interests as a percentage of the total Residual Interests.

Servicing and securitization revenue can be negatively impacted by impairments of the value of our Retained Interest, caused primarily by the effect of higher than expected consolidation activity on FFELP Stafford/PLUS student loan securitizations and the effect of market interest rates on the Embedded Floor Income included in the Retained Interest. The majority of the consolidations bring the loans back on-balance sheet, so for those loans, we retain the value of the asset on-balance sheet versus in the trust. For the three months ended June 30, 2007 and 2006, we recorded impairments to the Retained Interests of \$35 million and \$91 million, respectively, and for the six months ended June 30, 2007 and 2006, we recorded impairments of \$46 million and \$143 million, respectively. The impairment charges were the result of FFELP loans prepaying faster than projected through loan consolidations (\$11 million and \$68 million for the three months ended June 30, 2007 and June 30, 2006, respectively, and \$22 million and \$92 million for the six months ended June 30, 2007 and 2006, respectively) as well as impairment to the Floor Income component of the Company's Retained Interest due to increases in interest rates during the period (\$24 million and \$23 million for the three months ended June 30, 2007 and 2006, respectively, and \$24 million and \$51 million for the six months ended June 30, 2007 and 2006, respectively). The unrealized fair value adjustment recorded relates to the difference between recording the Residual Interest at its allocated cost basis as part of the gain on sale calculation and the Residual Interest's fair value. The unrealized fair value adjustment for the quarter ended June 30, 2007 is the recurring quarterly fair value adjustment, which is affected primarily by actual results of the underlying trust.

Table of Contents**Interest Rate Risk Management*****Asset and Liability Funding Gap***

The tables below present our assets and liabilities (funding) arranged by underlying indices as of June 30, 2007. In the following GAAP presentation, the funding gap only includes derivatives that qualify as effective SFAS No. 133 hedges (those derivatives which are reflected in net interest margin, as opposed to those reflected in the gains/(losses) on derivatives and hedging activities, net line on the income statement). The difference between the asset and the funding is the funding gap for the specified index. This represents our exposure to interest rate risk in the form of basis risk and repricing risk, which is the risk that the different indices may reset at different frequencies or may not move in the same direction or at the same magnitude.

Management analyzes interest rate risk on a Managed basis, which consists of both on-balance sheet and off-balance sheet assets and liabilities and includes all derivatives that are economically hedging our debt whether they qualify as effective hedges under SFAS No. 133 or not. Accordingly, we are also presenting the asset and liability funding gap on a Managed basis in the table that follows the GAAP presentation.

GAAP Basis

Index (Dollars in billions)	Frequency of Variable Resets	Assets	Funding⁽¹⁾	Funding Gap
3 month Commercial paper	daily	\$ 88.1	\$	\$ 88.1
3 month Treasury bill	weekly	8.4	.2	8.2
Prime	annual	.6		.6
Prime	quarterly	1.4		1.4
Prime	monthly	9.5		9.5
PLUS Index	annual	1.8		1.8
3-month LIBOR	daily			
3-month LIBOR	quarterly	1.5	102.9	(101.4)
1-month LIBOR	monthly		3.0	(3.0)
CMT/CPI index	monthly/quarterly		4.3	(4.3)
Non Discrete reset ⁽²⁾	monthly		10.1	(10.1)
Non Discrete reset ⁽³⁾	daily/weekly	7.3	.3	7.0
Fixed Rate ⁽⁴⁾		14.2	12.0	2.2
Total		\$ 132.8	\$ 132.8	\$

(1) Includes all derivatives that qualify as hedges under SFAS No. 133.

(2) Consists of asset-backed commercial paper, Interim ABCP Facility and auction rate securities, which are discount note type instruments that generally roll over monthly.

(3) Includes restricted and non-restricted cash equivalents and other overnight type instruments.

(4)

Includes receivables/payables, other assets (including Retained Interest), other liabilities and stockholders' equity (excluding Series B Preferred Stock).

The funding gaps in the above table are primarily interest rate mismatches in short-term indices between our assets and liabilities. We address this issue typically through the use of basis swaps that primarily convert quarterly 3-month LIBOR to other indices that are more correlated to our asset indices. These basis swaps do not qualify as effective hedges under SFAS No. 133 and as a result the effect on the funding index is not included in our interest margin and is therefore excluded from the GAAP presentation.

Table of Contents*Managed Basis*

Index (Dollars in billions)	Frequency of Variable Resets	Assets	Funding⁽¹⁾	Funding Gap
3 month Commercial paper	daily	\$ 111.5	\$ 12.2	\$ 99.3
3 month Treasury bill	weekly	12.6	11.4	1.2
Prime	annual	1.0		1.0
Prime	quarterly	7.1	5.5	1.6
Prime	monthly	17.1	16.3	.8
PLUS Index	annual	2.9	4.9	(2.0)
3-month LIBOR	daily		96.6	(96.6)
3-month LIBOR	quarterly	1.4	5.9	(4.5)
1-month LIBOR	monthly		2.0	(2.0)
Non Discrete reset ⁽²⁾	monthly		11.7	(11.7)
Non Discrete reset ⁽³⁾	daily/weekly	10.9	.2	10.7
Fixed Rate ⁽⁴⁾		11.0	8.8	2.2
Total		\$ 175.5	\$ 175.5	\$

(1) Includes all derivatives that management considers economic hedges of interest rate risk and reflects how we internally manage our interest rate exposure.

(2) Consists of asset-backed commercial paper, Interim ABCP Facility and auction rate securities, which are discount note type instruments that generally roll over monthly.

(3) Includes restricted and non-restricted cash equivalents and other overnight type instruments.

(4) Includes receivables/payables, other assets, other liabilities and stockholders' equity (excluding Series B Preferred Stock).

To the extent possible, we generally fund our assets with debt (in combination with derivatives) that has the same underlying index (index type and index reset frequency). When it is more economical, we also fund our assets with debt that has a different index and/or reset frequency than the asset, but only in instances where we believe there is a high degree of correlation between the interest rate movement of the two indices. For example, we use daily reset 3-month LIBOR to fund a large portion of our daily reset 3-month commercial paper indexed assets. In addition, we use quarterly reset 3-month LIBOR to fund a portion of our quarterly reset Prime rate indexed Private Education Loans. We also use our monthly Non Discrete reset funding (asset-backed commercial paper program and auction rate securities) to fund various asset types. In using different index types and different index reset frequencies to fund our assets, we are exposed to interest rate risk in the form of basis risk and repricing risk, which is the risk that the different indices that may reset at different frequencies will not move in the same direction or at the same magnitude. We believe that this risk is low as all of these indices are short-term with rate movements that are highly correlated over a long period of time. We use interest rate swaps and other derivatives to achieve our risk management objectives.

When compared with the GAAP presentation, the Managed basis presentation includes all of our off-balance sheet assets and funding, and also includes basis swaps that primarily convert quarterly 3-month LIBOR to other indices that are more correlated to our asset indices.

Table of Contents***Weighted Average Life***

The following table reflects the weighted average life of our Managed earning assets and liabilities at June 30, 2007.

(Averages in Years)	On-Balance Sheet	Off-Balance Sheet	Managed
Earning assets			
Student loans	9.3	6.0	9.2
Other loans	5.8		5.8
Cash and investments	.4	.1	.3
Total earning assets	8.6	5.5	8.5
Borrowings			
Short-term borrowings	.5		.5
Long-term borrowings	6.3	6.0	6.2
Total borrowings	5.8	6.0	5.9

Long-term debt issuances likely to be called by us or putable by the investor have been categorized according to their call or put dates rather than their maturity dates.

COMMON STOCK

The following table summarizes the Company's common share repurchases, issuances and equity forward activity for the three and six months ended June 30, 2007 and 2006.

(Shares in millions)	Three Months Ended June 30, 2007 2006		Six Months Ended June 30, 2007 2006	
Common shares repurchased:				
Equity forwards		2.1		4.5
Benefit plans ⁽¹⁾	.8	.4	1.0	1.3
Total shares repurchased	.8	2.5	1.0	5.8
Average purchase price per share	\$ 41.18	\$ 53.93	\$ 42.05	\$ 54.62
Common shares issued	1.5	1.4	3.0	4.3
Equity forward contracts:				
Outstanding at beginning of period	48.2	42.7	48.2	42.7
New contracts		5.3		7.7

Edgar Filing: SLM CORP - Form 10-Q

Exercises		(2.1)		(4.5)
Outstanding at end of period	48.2	45.9	48.2	45.9
Authority remaining at end of period to repurchase or enter into equity forwards	15.7	10.9	15.7	10.9

⁽¹⁾ Includes shares withheld from stock option exercises and vesting of performance stock for employees tax withholding obligations and shares tendered by employees to satisfy option exercise costs.

Table of Contents

As of June 30, 2007, the expiration dates and purchase prices for outstanding equity forward contracts were as follows:

Year of Maturity (Contracts in millions of shares)	Outstanding Contracts	Range of Purchase Prices	Weighted Average Purchase Price
2008	7.3	\$43.50 - \$44.00	\$ 43.80
2009	14.7	46.00 - 54.74	53.66
2010	15.0	54.74	54.74
2011	9.1	49.75 - 53.76	51.91
2012	2.1	46.30 - 46.70	46.40
	48.2		\$ 51.86

The closing price of the Company's common stock on June 30, 2007 was \$57.58. Should the market value of our stock fall below certain initial trigger prices, the counterparty to the contract has a right to terminate the contract and settle all or a portion at the original contract price. For equity forward contracts outstanding at June 30, 2007, these initial trigger prices range from \$23.93 per share to \$30.11 per share.

SUBSEQUENT EVENT

Effective August 1, 2007, the Company's Debt Management Operations (DMO) business segment, which includes Arrow Financial Services, General Revenue Corporation, GRP Financial, Student Assistance Corporation, and Pioneer Credit Recovery subsidiaries, was renamed the Asset Performance Group (APG).

RECENT DEVELOPMENTS**SLM Corporation Board of Directors Chooses New Chief Executive Officer, Tim Fitzpatrick Steps Down as CEO**

On May 22, 2007, the Company announced that Thomas J. Fitzpatrick, Chief Executive Officer and Vice Chairman, was leaving the Company effective May 22, 2007. Mr. Fitzpatrick also tendered his resignation from the board of directors, which was accepted effective as of May 22, 2007. On May 22, 2007, the Company also announced that C.E. Andrews, Executive Vice President and Chief Financial Officer, was appointed Chief Executive Officer of the Company effective immediately. The departure of Mr. Fitzpatrick and appointment of Mr. Andrews was reported by the Company in its Current Report on Form 8-K filed on May 22, 2007.

In accordance with the terms of the Merger Agreement, filed with the SEC on the Company's Current Report on Form 8-K, dated April 18, 2007, the Investor Group provided their written consent to the Company with respect to the termination of Mr. Fitzpatrick and the appointment of Mr. Andrews as Chief Executive Officer and have agreed that such termination and appointment will not be taken into account for purposes of determining whether a Material Adverse Effect (as defined in the Merger Agreement) has occurred.

Merger-Related Developments

On April 16, 2007, the Company announced that the Investor Group signed the Merger Agreement to acquire the Company for approximately \$25.3 billion or \$60.00 per share of common stock. When the transaction is complete, J.C. Flowers and certain other private equity investors, including Friedman Fleischer & Lowe, will invest approximately \$4.4 billion and own 50.2 percent, and Bank of America (NYSE: BAC) and JPMorgan Chase (NYSE: JPM) each will invest approximately \$2.2 billion and each will own 24.9 percent. The remainder of the purchase price is anticipated to be funded by debt. The Company's independent board members unanimously approved the agreement and recommended that its shareholders approve the agreement. (See also Merger Agreement filed with the SEC on the Company's Current Report on Form 8-K, dated April 18, 2007.) Pursuant to the Merger Agreement, the Company will not pay dividends on its common stock prior to the consummation of the proposed transaction.

Table of Contents

The termination of the waiting periods under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, was granted on June 18, 2007. On May 31, 2007, the Investor Group filed with the Federal Deposit Insurance Corporation its Interagency Notice of Change in Control with respect to the Sallie Mae Bank.

On July 11, 2007 the Investor Group informed the Company that it believes that current legislative proposals pending before the U.S. House of Representatives and U.S. Senate could result in a failure of the conditions to the closing of the Merger to be satisfied.

As discussed in the press release issued by the Company on August 6, 2007, the Company has reaffirmed its position that the legislative proposals currently being considered by the U.S. Congress, would not, if enacted, constitute a Material Adverse Effect (MAE) under the Merger Agreement entered into among the Company and the Investor Group.

First, the definition of MAE specifically excludes proposed legislation from being taken into account. Therefore, any viable assertion by the Investor Group that an MAE with respect to legislation has occurred must be based solely on legislation that is enacted into law.

Second, the Investor Group is required to close the Merger unless the Company's representations and warranties, subject to the specified exceptions and qualifications, are untrue on the closing date. On the closing date, the Company must represent and warrant that since December 31, 2006 and through the closing date there has not been an MAE. Items disclosed in the Company's 2006 10-K, filed with the SEC on March 1, 2007, cannot be taken into account when determining if a breach of a representation has occurred. The Recent Developments section of the Company's 10-K discloses the existence of the legislative proposals and President Bush's budget proposal pending as of the date of the filing and, as a result, none of those proposals, even if enacted, could successfully be asserted as a breach of the Company's representations.

Third, the definition of MAE specifies that the only changes in law that may be considered in determining whether an MAE has occurred are changes relating specifically to the education finance industry that are in the aggregate more adverse to the Company and its Subsidiaries, taken as a whole, than the legislative and budget proposals described ... in the Company 10-K, in each case in the form proposed publicly as of the date of the Company 10-K. Given this exclusion, legislation only would be relevant for MAE consideration to the extent its adverse impact materially exceeds the adverse impact of legislation disclosed in the Company's 10-K. As noted in the Company's August 6 press release, the Investor Group previously concurred with this reading of the Merger Agreement that only *materially* more adverse legislation can be considered in determining if an MAE has occurred. The Company estimates that the incremental adverse impact of H. R. 2669, the College Cost Reduction Act of 2007 or S. 1762, the Higher Education Access Act of 2007 on projected 2008-2012 Core Earnings net income would be less than 10 percent as compared to the matters already disclosed to the Investor Group. It is widely acknowledged that a material adverse effect must have a significant and sustained impact of which a buyer was unaware as of the date of signing, and, by any measure, a decrease in net income of less than 10 percent falls well short of a material adverse effect.

In addition, the Investor Group's knowledge at the time of the signing of the Merger Agreement of the likelihood that legislation negatively impacting the Company would be enacted makes it extremely difficult for the Investor Group to prove that an MAE has occurred, because a material adverse effect must be both significant and sustained and must be something of which an acquiror was unaware at the time an acquiror entered into a purchase agreement.

As a result of the definition of MAE discussed above and the Company's financial analysis of pending legislation, the Company strongly believes that it is highly unlikely that the Investor Group will be able to successfully prove that an MAE has occurred and, as a result, be excused from its contractual obligations to close the Merger.

In connection with the transaction, the Company filed its definitive proxy statement with the SEC on July 18, 2007. The Company scheduled a special meeting of shareholders for August 15, 2007, to consider and vote on a proposal to approve the Merger Agreement.

Table of Contents

Financing Considerations Related to the Transaction

Following the closing, the Company will continue to have publicly traded debt securities and as a result will continue comprehensive financial reporting about its business, financial condition and results of operations. Bank of America and JPMorgan Chase are committed to provide debt financing for the transaction and to provide additional liquidity to the Company prior to and after the closing date, subject to customary terms and conditions.

A portion of the Company's existing unsecured debt will remain outstanding, and such outstanding debt will not be equally and ratably secured with the new acquisition-related debt. The acquisition financing will be structured with the intent to accommodate the repayment of any outstanding debt as it matures. The Company expects this transaction to have no material impact on its outstanding asset-backed debt and to remain an active participant in the asset-backed securities market.

On April 16, 2007, after the Company announced the transaction, Moody's Investor Services, Standard & Poor's and Fitch Ratings placed the long and short-term ratings on the Company's senior unsecured debt under review for possible downgrade, and secondary market credit spreads on the Company's outstanding senior unsecured bonds widened significantly. These factors limited the Company's access to new sources of senior unsecured funds at borrowing costs comparable to those available before the announcement. On June 1, 2007, Standard & Poor's downgraded the Company's senior unsecured debt rating to BBB+ from A. On July 2, 2007, Fitch Ratings downgraded the Company's long-term issuer default rating (IDR) and senior unsecured debt rating to BBB from A+. In its rating release, Fitch stated that it expects to downgrade our IDR to BB+ and our senior unsecured debt rating to BB as the proposed Merger transaction nears completion. On July 11, 2007, Moody's stated that it is likely to downgrade the Company's corporate family rating to Ba3 and senior unsecured debt rating to B1 from A2 upon completion of the transaction.

On April 30, 2007, Bank of America and JPMorgan Chase provided the Company with new aggregate \$30 billion asset-backed commercial paper conduit facilities (Interim ABCP Facility). Interest expense for the second quarter of 2007 includes \$14 million in upfront commitment and ongoing liquidity fees as a result of the Interim ABCP Facility. These facilities terminate on the earliest of (1) the Merger closing, (2) the 90-day anniversary of the date of termination of the Merger Agreement or (3) February 15, 2008. This additional liquidity, combined with the Company's existing liquidity, is anticipated to be sufficient to meet the Company's cash needs beyond the expected closing date of the announced transaction, even if no additional securities are issued by the Company during that time. Since the announcement of the Merger, the Company closed its first issuance of the Company's traditional asset-backed securities on July 19, 2007 at spread levels comparable to pre-Merger announcement levels. The Company anticipates future issuances on a periodic basis.

Accounting Considerations Related to the Transaction

Upon closing, the transaction will be accounted for under purchase accounting, which will be pushed down to the Company. Under purchase accounting, the total cost of the acquisition will be allocated to the Company's identifiable assets and liabilities based on their respective fair values. Thus, all the assets and liabilities will have a new basis of accounting and therefore previous unamortized premiums, discounts and reserves related to those assets and liabilities will be written-off once the transaction closes. The excess of the purchase price over the estimated fair value of the identifiable assets and liabilities will be recognized as goodwill. Since the Company is the acquired enterprise, expenses incurred in connection with the transaction will be expensed. Transaction fees that are contingent upon the closing will be recognized when the transaction closes. Transaction fees that are not contingent on the closing will be expensed as incurred, and included in operating expense. These expenses totaled \$16 million for the second quarter of 2007. Vesting accelerates on all stock-based compensation awards, and as a result, all deferred compensation related to those awards will be expensed upon closing of the transaction.

At June 30, 2007, the Company had \$2 billion Contingently Convertible Debentures (Co-Cos) outstanding. On June 25, 2007, holders of these securities were notified that the Co-Cos would be called at par on July 25, 2007, as allowed by the terms of the indenture governing the Co-Cos. As a result, the Company classified its \$2 billion outstanding Co-Cos as a short-term obligation at June 30, 2007. For the three months

Table of Contents

ended June 30, 2007 and 2006, the impact of the Co-Cos on GAAP diluted earnings per common share was \$(.03) and \$(.08), respectively, and for the six months ended June 30, 2007 and 2006 the impact was \$(.05) and \$(.07), respectively; there was no impact to the Core Earnings diluted earnings per common share.

State Attorney General Investigations

On April 11, 2007, the Company entered into a settlement agreement with the Office of the Attorney General of the State of New York under which we agreed to adopt the New York Attorney General's Code of Conduct governing student lending and donate \$2 million to a national fund devoted to educating college bound students about their loan options. Under the agreement, the Company did not admit, and expressly denied, that our conduct constituted any violation of law. The Code of Conduct, among other things, precludes the Company from providing anything more than nominal value to any employees of an institution of higher education and requires additional disclosures to borrowers and schools under certain circumstances. We cannot predict the effect that adopting the Code of Conduct will have on our future business prospects. Under the settlement agreement, we are required to and intend to certify implementation of its terms by August 15, 2007.

Separate from the settlement agreement with the Office of the Attorney General of the State of New York, the attorneys general of the States of Arizona, California, Connecticut, Illinois, Indiana, Louisiana, Missouri, New Jersey, Ohio and Tennessee and the Commonwealth of Massachusetts have served civil investigative demands or requests for documents on the Company seeking information concerning our relationships with schools. The Company has responded to these requests by providing responsive documents.

New York State SLATE Act

On May 30, 2007, New York Governor Eliot Spitzer signed the Student Lending Accountability, Transparency and Enforcement Act, which codified the Code of Conduct that we agreed to adopt as part of the settlement agreement with the New York Attorney General described above. The new law, which has an effective date of November 25, 2007, prohibits lenders from making gifts to covered institutions in New York in exchange for any advantage or consideration related to the lenders' education loan activities. With very limited exceptions, the new law also prohibits lenders from making any gifts to employees of New York schools. In addition, the law prohibits revenue sharing arrangements between lenders and New York schools and establishes standards for schools using preferred lender lists. Finally, the law bars lenders from providing high risk loans (loans to students with a poor or no credit history) in exchange for a New York school providing concessions or promises to the lender that may prejudice other borrowers or potential borrowers.

SEC, House and Senate

The SEC is conducting an investigation into trading of SLM stock prior to the public release of the President's budget on February 5, 2007. We are cooperating with the SEC and have provided the requested information and documents. Before the SEC investigation commenced, U.S. Senator Edward Kennedy, chairman of the Senate Committee on Health, Education, Labor and Pensions, and U.S. Representatives George Miller and Barney Frank, chairmen of the House of Representatives Committee on Education and Labor and Committee on Financial Services, respectively, separately submitted requests for information regarding certain SLM stock sales by SLM's Chairman of the Board of Directors Albert L. Lord. We have cooperated with the Senate and House Committee counsel to provide the requested information.

The U.S. House of Representatives' Committee on Education and Labor submitted a request to the Company dated March 28, 2007 seeking information regarding our marketing practices in the student loan business. We are cooperating with committee counsel in order to provide the requested information.

The U.S. Senate Committee on Health, Education, Labor and Pensions submitted requests to the Company dated March 16, March 21, and April 26, 2007, seeking information regarding our marketing practices in the student loan business and our collections practices on delinquent and defaulted FFELP student loans. We are cooperating with committee counsel in order to provide the requested information.

Table of Contents

On June 7, 2007, the U.S. House of Representatives Committee on Education and Labor requested information from the Company about the qualifying factors and criteria borrowers and schools must meet to obtain the best loan rates and other borrower benefits. In addition, in a letter to the Company dated June 13, 2007, Senator Christopher J. Dodd, Chairman of the United States Senate Committee on Banking, Housing, and Urban Affairs, requested documents that reflect the Company's recent private education loan underwriting criteria, including the factors and relative weights assigned to those factors that the Company considers in its underwriting. The Company has responded to these requests.

Concurrent Resolution on the Budget for 2008

On March 29, 2007, the House of Representatives passed H.Con.Res. 99, its plan for the Fiscal 2008 budget. The House-passed budget resolution included a single reconciliation instruction to the House Education and Labor Committee which would require it to report legislation that would cut entitlement spending in its jurisdiction by \$75 million. Although the savings amount is minimal, it was widely reported that the language was included to facilitate passage of student loan reform legislation.

H.R. 2669, the College Cost Reduction Act of 2007

On July 11, 2007, the House of Representatives passed H.R. 2669, the College Cost Reduction Act of 2007. Certain provisions would:

- Reduce special allowance payments for Stafford and consolidation loans by 0.55 percentage points;

- Reduce special allowance payments for PLUS loans by 0.85 percentage points;

- Double lender origination fees on all loan types, from 0.5 percent to 1.0 percent, exempting non-profit and state entities from paying any lender origination fees;

- Reduce default insurance to 95 percent;

- Eliminate exceptional performer designation (and the monetary benefit associated with it);

- Reduce default collections retention on direct collections by guaranty agencies to 16 percent (from 23 percent); and

- Reduce and restructure the guaranty agency account maintenance fee to base some of the fee on non-delinquent loans.

- Increase annual loan limits for 3rd year and above undergraduates and increase cumulative loan limits for both undergraduates and graduates.

- Establish a new income-based repayment program in direct loans and FFELP, replacing the income contingent program.

Senate Reconciliation Bill, the Higher Education Access Act of 2007

On July 19, 2007, the Senate passed H.R. 1762, the Higher Education Access Act of 2007, which was its version of the reconciliation bill. Certain provisions would:

Edgar Filing: SLM CORP - Form 10-Q

Reduce special allowance payments for Stafford and consolidation loans by 0.50 percentage points on for-profit lenders, 0.35 percentage points for non-profit and state lenders;

Reduce special allowance payments for PLUS loans by 0.80 percentage points, 0.50 percentage points for non-profit and state lenders;

Double lender origination fees on all loan types, from 0.5 percent to 1.0 percent;

Maintain default insurance at 97 percent, but eliminating exceptional performer designation;

Reduce default collections retention on direct collections by guaranty agencies to 16 percent (from 23 percent);

Table of Contents

Change to payment of the guaranty agency account maintenance fee to a unit basis, from the current original principal balance formula; and

Require the Department of Education to develop and then implement an auction for participation in the FFELP PLUS parent loan program, by state.

Establish a new income-based repayment program in direct loans and FFELP, replacing the income contingent program.

Higher Education Reauthorization

On July 31, 2007, the President signed into law P.L. 110-51, the Second Extension of the Higher Education Act of 2007, which temporarily extends the HEA until October 31, 2007.

The extension will allow the House and Senate to complete action on HEA reauthorization. On July 24, 2007, the Senate passed the full HEA reauthorization bill, S. 1642. The Senate bill includes provisions that would affect the student loan programs. The Senate bill includes provisions that would regulate gifts, travel, entertainment, and services provided to institutions of higher education by guarantors and lenders. It includes new disclosure requirements on lenders and would prohibit schools from designating preferred lender lists. The Senate bill would allow schools to keep standard lists of lenders but would be required to include any lender on the list that requested inclusion. The bill would also eliminate school-as-lender, effective June 30, 2011.

The House committee has yet to report its version of the bill.

Student Loan Sunshine Act

On Wednesday, May 9, 2007, the House of Representatives passed H.R. 890, a bipartisan version of the Student Loan Sunshine Act. The bill would establish greater disclosure requirements on schools and lenders for both FFELP loans and Private Education Loans. The legislation would require higher education institutions to establish codes of conduct that would include prohibition on many areas that have been cited as creating conflicts of interest. Areas specified by the legislation include gifts, consulting or other fees paid by lenders to financial aid officers and other school officials, fees or other material benefits, including profit or revenue sharing to institutions or their staff, staffing assistance, opportunity loans, and advisory councils. The legislation would require that schools include at least three unaffiliated lenders on any Preferred Lender List and disclose the rationale for recommending such lenders.

Private Student Loan Transparency and Improvement Act of 2007

On August 1, 2007, the Senate Committee on Banking, Housing, and Urban Affairs approved the Private Student Loan Transparency and Improvement Act of 2007, legislation initially introduced by Senator Christopher Dodd (D-CT) on June 8, 2007. The bill provides for certain disclosures and prohibits certain activities in connection with private education loans.

The bill's disclosure requirements would:

Require all private education loan applications and solicitations to include a disclosure that includes the range of interest rates and fees available, in addition to other information regarding the terms and conditions of the loan;

Edgar Filing: SLM CORP - Form 10-Q

Require lenders to provide a clear and concise disclosure of the rate, terms and conditions of a private education loan that has been approved for a student borrower and provide borrowers with a "cooling off" period after the borrower receives the required disclosure documents within which to accept the terms of the loan and consummate the transaction;

Provide for a right to cancel a private education loan without penalty within three business days of consummation;

Table of Contents

Require that private education lenders provide additional disclosures at the time of loan consummation; and

Apply Truth in Lending Act (TILA) provisions to all private student loans.

The bill would also prohibit:

Private education lenders from offering or providing any gift to a covered educational institution or its employees and bar such institutions and their officers and employees from receiving such gift in exchange for any advantage or consideration provided to the lender related to its private education loan activities;

Private education lenders from engaging in revenue sharing with a covered educational institution;

Private education lenders from co-branding their private education loans in any way that implies that the covered educational institution endorses the private educational loans offered by the lender;

Private education loan lenders from imposing a fee or penalty for early repayment or prepayment of any private education loans; and

Financial aid office employees at covered educational institutions who serve on a private education lender advisory board from receiving anything of value from the private education lender other than the reimbursement of reasonable expenses incurred in connection with their service on the advisory board.

Department of Education Notice of Proposed Rulemaking

On June 12, 2007, ED published in the Federal Register a Notice of Proposed Rulemaking. The proposed rules set forth in the Federal Register are subject to a 60-day comment period that ends on August 13, 2007. Among the provisions of the proposed rules are the following:

Prohibited Inducements incorporates with certain modifications and expansions the existing regulations and guidance on prohibited inducements and activities for lenders and guarantors, and strengthens ED's authority to enforce the rules.

Preferred Lender Lists if a school maintains a preferred lender list, the regulations would require the school to have at least 3 unaffiliated lenders on that list. Lenders are considered affiliated if (i) they are under the ownership or control of the same entity; (ii) they are wholly or partly owned subsidiaries of the same parent; (iii) the directors of one of the lenders constitute a majority of the persons holding similar positions with the other lender; or (iv) one of the lenders is making loans on its own behalf and is also holding loans as a trustee lender for another entity.

Eligible Lender Trustees amends the lender definition to prohibit a lender from entering into a new eligible lender trustee relationship with a school or a school-affiliated organization after September 30, 2006.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

See Note 1 to the consolidated financial statements, **Significant Accounting Policies** *Recently Issued Accounting Pronouncements*.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures about Market Risk*****Interest Rate Sensitivity Analysis***

The effect of short-term movements in interest rates on our results of operations and financial position has been limited through our interest rate risk management. The following tables summarize the effect on earnings for the three months ended June 30, 2007 and 2006 and the effect on fair values at June 30, 2007 and December 31, 2006, based upon a sensitivity analysis performed by management assuming a hypothetical increase in market interest rates of 100 basis points and 300 basis points while funding spreads remain constant. This analysis does not consider any potential impairment to our Residual Interests that may result from a higher discount rate that would be used to compute the present value of the cash flows if long-term interest rates increased. See the Company's 2006 Form 10-K, Note 9 to the consolidated financial statements, Student Loan Securitization, which details the potential decrease to fair value that could occur.

A primary objective in our funding is to minimize our sensitivity to changing interest rates by generally funding our floating rate student loan portfolio with floating rate debt. However, we can have a fixed versus floating mismatch in funding if the student loan earns Floor Income at the fixed borrower rate and the funding remains floating.

During the three months ended June 30, 2007 and 2006, certain FFELP student loans were earning Floor Income and we locked in a portion of that Floor Income through the use of futures and Floor Income Contracts. The result of these hedging transactions was to convert a portion of the fixed rate nature of student loans to variable rate, and to fix the relative spread between the student loan asset rate and the variable rate liability.

In the above table, under the scenario where interest rates increase 100 and 300 basis points, the changes in pre-tax net income before the unrealized gains (losses) on derivative and hedging activities is primarily due to the impact of (i) our off-balance sheet hedged FFELP Consolidation Loan securitizations and the related

Table of Contents

Embedded Floor Income recognized as part of the gain on sale, which results in a decrease in payments on the written Floor contracts that more than offset impairment losses on the Embedded Floor Income in the Residual Interest; (ii) variable rate assets being funded with fixed rate debt and (iii) fixed rate assets being funded with variable debt. The first two items will generally cause income to increase when interest rates increase, whereas, the third item will generally offset this increase. In the 100 basis point scenario for the three months ended June 30, 2007, the increase due to item (i) was completely offset by item (iii), whereas, in the 300 basis point scenario, item (iii) had a greater impact than item (i) due to more of the Floor Income Contracts being out of the money in this scenario. In the prior year period, item (iii) had a greater impact than item (i) resulting in a net loss for both the 100 and 300 basis point scenarios.

In the 100 basis point scenario for the six months ended June 30, 2007, item (i) was offset by item (iii) resulting in a net gain, whereas, in the 300 basis point scenario item (iii) had a greater impact resulting in a net loss due to more of the Floor Income Contracts being out of the money. In the prior year period, item (iii) resulted in a net loss for both scenarios.

In addition to interest rate risk addressed in the preceding tables, the Company is also exposed to risks related to foreign currency exchange rates and the equity price of its own stock. Foreign currency exchange risk is primarily the result of foreign denominated debt issued by the Company. As it relates to the Company's corporate unsecured and securitization debt programs used to fund the Company's business, the Company's policy is to use cross currency interest rate swaps to swap all foreign denominated debt payments (fixed and floating) to U.S. dollar LIBOR using a fixed exchange rate. In the tables above, there would be an immaterial impact on earnings if exchange rates were to decrease or increase, due to the terms of the hedging instrument and hedged items matching. The balance sheet interest bearing liabilities would be affected by a change in exchange rates, however, the change would be materially offset by the cross currency interest rate swaps in other assets or other liabilities. In addition, the Company has foreign exchange risk as a result of international operations; however, the exposure is minimal at this time.

Equity price risk of the Company's own stock is due to equity forward contracts used in the Company's share repurchase program. A hypothetical decrease in the Company's stock price per share of \$5.00 and \$10.00 would result in a \$241 million and \$482 million unrealized loss on derivative and hedging, respectively. In addition to the net income impact, other liabilities would increase by the aforementioned amounts. Stock price decreases can also result in the counterparty exercising its right to demand early settlement on a portion of or the total contract depending on trigger prices set in each contract. The initial trigger prices as of June 30, 2007 range from approximately \$23.93 to \$30.11. At June 29, 2007, the closing price of the Company's stock was \$57.58. With the \$5.00 and \$10.00 decrease in unit stock price above, none of these triggers would be met and no counterparty would have the right to early settlement.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Principal Accounting Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of June 30, 2007. Based on this evaluation, our Chief Executive Officer and Principal Accounting Officer, concluded that, as of June 30, 2007, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is (a) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (b) accumulated and communicated to our management, including our Chief Executive Officer and Principal Accounting Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended) occurred during the fiscal quarter ended June 30, 2007 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

On April 14, 2007, the Company was served with a putative class action suit by several borrowers in federal court in California. The complaint alleges violations of California Business & Professions Code 17200, breach of contract, breach of covenant of good faith and fair dealing, violation of consumer legal remedies act and unjust enrichment. The complaint challenges the Company's FFELP billing practices as they relate to use of the simple daily interest method for calculating interest. The Company believes the complaint is without merit and it intends to vigorously defend this action. The Company filed a motion to dismiss on June 21, 2007, with a hearing on the motion expected in late August.

On January 25, 2007, the Attorney General of Illinois filed a lawsuit against one of the Company's subsidiaries, Arrow Financial Services, LLC (AFS), in the Circuit Court of Cook County, Illinois alleging that AFS violated the Illinois Consumer Fraud and Deceptive Practices Act and the federal Fair Debt Collections Practices Act. The lawsuit seeks to enjoin AFS from violating the Illinois Consumer Fraud and Deceptive Practices Act and from engaging in debt management and collection services in or from the State of Illinois. The lawsuit also seeks to rescind certain agreements to pay back debt between AFS and Illinois consumers, to pay restitution to all consumers who have been harmed by AFS's alleged unlawful practices, to impose a statutory civil penalty of \$50,000 and to impose a civil penalty of \$50,000 per violation (\$60,000 per violation if the consumer is 65 years of age or older). The lawsuit alleges that as of January 25, 2007, 660 complaints against Arrow Financial have been filed with the Office of the Illinois Attorney General since 1999 and over 800 complaints have been filed with the Better Business Bureau. As of December 29, 2006, the Company owns 88 percent of the membership interests in AFS Holdings, LLC, the parent company of AFS. Management cannot predict the outcome of this lawsuit or its effect on the Company's financial position or results of operations.

We are also subject to various claims, lawsuits and other actions that arise in the normal course of business. Most of these matters are claims by borrowers disputing the manner in which their loans have been processed or the accuracy of our reports to credit bureaus. In addition, the collections subsidiaries in our debt management operations group are routinely named in individual plaintiff or class action lawsuits in which the plaintiffs allege that we have violated a federal or state law in the process of collecting their account. Management believes that these claims, lawsuits and other actions will not have a material adverse effect on our business, financial condition or results of operations. Finally, from time to time, we receive information and document requests from state attorneys general concerning certain of our business practices. Our practice has been and continues to be to cooperate with the state attorneys general and to be responsive to any such requests.

Item 1A. Risk Factors

If the acquisition of the Company is not closed, our access to the credit markets and our liquidity could be materially adversely affected.

On April 16, 2007, the Company announced that an Investor Group led by J.C. Flowers & Co. signed a definitive agreement to acquire the Company for approximately \$25.2 billion or \$60.00 per share of common stock. See

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS RECENT DEVELOPMENTS in this Form 10-Q. Following the Company's announcement, Moody's Investor Services, Standard & Poor's and Fitch Ratings placed the long and short-term ratings on our senior unsecured debt under review for possible downgrade. In addition, following the announcement, secondary market credit spreads

on our outstanding senior unsecured bonds widened significantly. The transaction is subject to regulatory approvals and other closing conditions, and, under very limited circumstances, may be terminated by the Investor Group. While we expect to close the transaction in late 2007, if the transaction is terminated or otherwise does not close, our access to the credit markets and our liquidity could be materially adversely affected and new issuance of unsecured debt could be subject to much wider spreads and more restrictive terms than we have historically experienced. In addition, depending upon

Table of Contents

the circumstances under which the transaction is terminated, we will only have access to the interim asset-backed financing facilities for a limited period. Moreover, the price of our stock could be materially adversely affected. In such circumstances, if the stock price were to fall below \$30.11, we may be required to settle our equity forward contracts in a manner that could have a materially dilutive effect on our common stock, as more fully described within the Company's 2006 Annual Report on Form 10-K at Item 1A. Risk Factors LIQUIDITY AND CAPITAL RESOURCES.

As announced by the Company on July 11, 2007, the Investor Group informed the Company that it believes that current legislative proposals pending before the U.S. House of Representatives and U.S. Senate could result in a failure of the conditions to the closing of the Merger to be satisfied. The Company strongly disagrees with this position, intends to proceed towards the closing of the merger transaction as rapidly as possible and will take all steps to protect shareholders' interests.

Our derivative counterparties may terminate their positions with the Company if its credit ratings fall to certain levels and the Company could incur substantial additional costs to replace any terminated positions

The majority of our ISDA Master Agreements with our counterparties relating to non-equity forward transactions provide that the counterparty may declare a Termination Event and terminate its positions if a Designated Event occurs and the unsecured and unsubordinated long-term debt rating of the Company falls below a pre-determined level or the Company's unsecured and unsubordinated long-term debt is not rated. For purposes of these ISDA Master Agreements, the execution of the Merger Agreement constituted a Designated Event. Therefore under the agreements, the counterparties would have a right to terminate their positions if the Company's unsecured and unsubordinated long-term debt rating fell below either of the pre-determined levels which is typically Baa3 for Moody's and BBB- from S&P. As of June 30, 2007, our ratings were above those levels. In addition we have entered into agreements with counterparties holding substantially all of our non-equity forward derivative transactions under which the counterparties have agreed to waive their rights to declare a Termination Event based upon the execution of the Merger Agreement for a limited period of time, which, in most cases, is through the closing date of the Merger. Depending upon interest rates and exchange rates, the Company could be liable for substantial payments to terminate the positions. In addition, the Company may not be able to replace any terminated positions or may incur substantial additional costs to do so. Our liquidity could be adversely affected by these additional payments and costs.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table summarizes the Company's common share repurchases during the second quarter of 2007 pursuant to the stock repurchase program (see Note 6, Stockholders' Equity, to the consolidated financial statements) first authorized in September 1997 by the Board of Directors. Since the inception of the program, which has no expiration date, the Board of Directors has authorized the purchase of up to 317.5 million shares as of June 30, 2007.

		Total Number of Shares Purchased as Part of Publicly Announced Plans		Maximum Number of Shares That May Yet Be Purchased Under the Plans or
Total Number of Shares	Average Price Paid per			

(Common shares in millions)	Purchased⁽¹⁾	Share	or Programs	Programs⁽²⁾
Period:				
April 1 April 30, 2007	.1	\$	52.51	15.7
May 1 May 31, 2007	.1		54.58	15.7
June 1 June 30, 2007	.6		37.17	15.7
Total second quarter of 2007	.8	\$	41.18	

(1) The total number of shares purchased includes: i) shares purchased under the stock repurchase program discussed above, and ii) shares purchased in connection with the exercise of stock options and vesting of performance stock to satisfy minimum statutory tax withholding obligations and shares tendered by employees to satisfy option exercise costs (which combined totaled .8 million shares for the second quarter of 2007).

(2) Reduced by outstanding equity forward contracts.
