Dear Shareholder:

PIMCO Funds is pleased to provide you with the initial annual report for PIMCO Municipal Income Fund, PIMCO California Municipal Income Fund and PIMCO New York Municipal Income Fund (the "Municipal Income Funds"), for the period June 29, 2001 (commencement of operations) through April 30, 2002.

The Funds' first--albeit abbreviated--fiscal year was marked by ongoing volatility in both the stock and the bond markets. Given this environment, I am pleased to report that each of the Funds posted positive results during the period. In fact, the Municipal Income and California Municipal Income funds increased their per share common dividends in January. Each of the Funds continue to deliver a steady stream of tax-exempt income: all were yielding well over 6% (annualized, based on each Fund's market price) at April 30, 2002.

Please note that the Municipal Income Funds' utilize leverage--which entails additional risks, including enhanced interest rate risk--added to these results. During adverse market conditions, leverage can also exacerbate negative performance. That is why it continues to be important to maintain a well-diversified portfolio of investments. Your financial advisor can work with you to develop an asset allocation strategy that is right for you.

I encourage you to review the fund information and commentaries on the following pages carefully. If you have any questions, please contact your financial advisor, or call our shareholder services area at 1-877-819-2224. You can also access a wide range of information and resources through our Web site--www.pimcofunds.com.

Thank you again for the trust you have placed in PIMCO Funds.

Sincerely,

/s/ Stephen Treadway

at NAV returned 4.36%, compared to 4.99% for the Lehman General Municipal Bond Index over the same time period. (For share price information, see opposite page.)

BONDS PERFORM WELL AMID RECESSION, MILITARY UNCERTAINTY.

Bonds were among the top-performing investments in a volatile and disappointing year for the financial markets. However, municipal bonds underperformed taxable debt as investors sought Treasuries in reaction to a sharp economic slowdown driven by deteriorating corporate profits, surging unemployment and decreased business investment. The attacks of September 11th exacerbated these trends and caused confidence to decline. Ongoing tensions in the Middle East have also driven investors towards the safety and quality of Treasury debt. To stave off a recession, the Federal Reserve mounted an aggressive easing campaign, lowering the nominal Federal Funds rate to its lowest level in 40 years. Late in the period, signs of a recovery emerged, increasing expectations for renewed Fed tightening. As a result, interest rates rose, causing bonds to give back some of their gains.

REVENUE BONDS, HIGH QUALITY FOCUS, FUEL RETURNS.

The Fund's emphasis on high quality bonds was positive for performance as credit premiums in the national municipal debt market widened amidst volatility in the financial markets. Revenue bonds also performed well, boosted by improved credit profiles and a pickup in investor demand. The Fund's use of preferred shares increased portfolio yield as the national municipal yield curve steepened in response to the Fed's easing campaign. However, the Fund's exposure to transportation bonds detracted from performance as this sector experienced difficulty in the wake of the terrorist attacks.

MUNICIPAL BONDS OFFER COMPELLING VALUE, ATTRACTIVE YIELDS.

We believe that the global downturn has ended, and that a modest recovery will ensue led by the U.S. Growth in the U.S. will come from the restocking of inventories after one of the steepest and fastest liquidations on record. However, we expect growth to slow in the second half of 2002 as gains from inventory rebuilding work through the economy. We also feel that the Fed will take back some of its post-September 11 emergency easing later this year. In this environment we intend to emphasize high quality, as fiscal conditions remain strained for many municipal issuers. We expect to continue to emphasize revenue bonds, which offer attractive risk-adjusted yields.

INVESTMENT PROCESS

The top-down investment process begins with our annual secular forum at which PIMCO develops a 3-5 year outlook for the global economy and interest rates. This helps set the basic portfolio parameters, including duration, yield-curve positioning, sector weightings and credit quality. Our municipal bond team seeks to add value in a number of ways. They believe that investments should be made from the point of view of maximizing after-tax total return as opposed to simply reaching for maximum yield. So the portfolio is scrutinized using a process that models the potential changes in yield and price as the underlying variables of the marketplace change. Yield-to-worst measures are carefully examined, as are the impact of a shifting municipal yield curve and the influence of yield volatility and credit shifts on the portfolio.

PAST PERFORMANCE IS NO GUARANTEE OF FUTURE RESULTS.

- (1) Market yield is the annualized dividend yield on the market price for the last day of the period.
- (2) Taxable-equivalent yield represents the yield on a taxable investment necessary to equal the yield of the Fund on an after-tax basis. It is

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

calculated using the current market yield and a federal tax rate of 38.6%.

- (3) Duration is a measure of a portfolio's NAV volatility in reaction to interest rate movements.
- * The Fund's portfolio is actively managed, and its current and future credit quality breakdown, portfolio statistics and portfolio composition are likely to vary from those listed above as of the date of this report.

(For share price information, see opposite page.)

RECESSION, FED EASING, DRIVE BOND RETURNS

Bonds performed well over the course of the past year as the U.S. entered a recession in March of 2001. The Federal Reserve provided a powerful tailwind, lowering the nominal Federal Funds rate to its lowest level in 40 years in an effort to revive the economy. A slowdown in business spending and mounting unemployment led the downturn, while the terrorist attacks heightened these trends, and also caused confidence among businesses and consumers to decline. For most of the Fund's fiscal year, California yields fell, however signs of a recovery towards the end of the period heightened expectations for Fed tightening and caused interest rates to rise. California underperformed the national market due to weaker fiscal conditions and expectations of increased supply.

HIGH QUALITY FOCUS ANCHORED PORTFOLIO AMID VOLATILITY

Aggressive Fed easing, the September 11th attacks, and the announcement by the Treasury that it would cease issuing 30-year bonds all contributed to a volatile financial market environment over the past year. The Fund's high quality focus allowed it to withstand the effects of these events, as lower-tier credit premiums widened. Extended duration and exposure to long-term issues also helped returns as, for most of the period, California municipal yields fell. The steepness of the California municipal yield curve allowed the Fund to generate additional yield by utilizing leverage in the form of preferred shares.

MODEST RECOVERY WITH MUTED GROWTH, BENIGN INFLATION, LIKELY.

We believe the global slowdown has ended and anticipate a moderate recovery in the U.S., driven by inventory restocking. However, we expect the pace of growth to slow as inventory gains work their way through the economy. As growth resumes, we expect the Fed to take back some of the emergency easing that took place post-September 11. While long-term California municipal issues offer fair value, we expect yields to be volatile in the short term due to new issuance and weaker state fiscal conditions. We intend to maintain high average credit quality, as existing premiums are inadequate for the associated credit and liquidity risks. We also expect to enhance portfolio yield through higher quality California revenue bonds.

FIXED-INCOME INVESTMENTS PERFORM WELL IN A VOLATILE YEAR FOR FINANCIAL MARKETS.

Bonds were among the top-performing investments in an otherwise turbulent and volatile year for the financial markets. The U.S. economy entered a recession in 2001, driven by a significant contraction in business investment. Corporate profitability also deteriorated, causing unemployment to climb, with the terrorist attacks heightening these trends. In an effort to lift the economy from its slump, the Federal Reserve lowered the nominal Federal Funds rate to its lowest level in 40 years. Late in the period, however, signs of an economic recovery emerged, causing increased expectations for Fed tightening. As a result, bonds gave back some of their gains. For the period, the New York municipal market slightly underperformed the national market.

REVENUE BONDS, EXTENDED DURATION, HIGH QUALITY FOCUS, DRIVE RETURNS

The Fund's exposure to high quality revenue bonds added to returns as these bonds generated strong cash flow over the past year. An emphasis on high quality also helped returns due to widening credit premiums as New York faced uncertainty after the attacks of September 11th. Extended duration was also positive as New York municipal yields fell for most of the period. The Fund's use of leverage through preferred shares enhanced portfolio yield as the New York municipal yield curve steepened in response to aggressive Fed easing.

ECONOMY APPEARS POISED TO RECOVER, BUT STILL FACES HEADWINDS

We believe the global downturn has ended, with the U.S. expected to lead a global recovery. After one of the steepest and fastest inventory liquidations on record, inventory restocking should boost manufacturing demand worldwide, but will be the sole source of accelerated growth. As the recovery ensues, we anticipate the Fed will take back some of the emergency easing provided after September 11. Intermediate New York municipal issues offer fair value, however premiums could rise modestly as state and local governments look to close budget deficits. We intend to maintain a high portfolio credit quality should yields rise amidst investor demand for credit and liquidity premiums. We also intend to focus on higher quality revenue bonds, which currently offer relatively attractive yields with limited credit risk.

NOTES TO FINANCIAL STATEMENTS

April 30, 2002

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

PIMCO Municipal Income Fund ("Municipal"), PIMCO California Municipal Income Fund ("California Municipal") and PIMCO New York Municipal Income Fund ("New York Municipal"), collectively referred to as the "Funds", were organized as Massachusetts business trusts on May 10, 2001. Prior to commencing operations on June 29, 2001, the Funds had no operations other than matters relating to their organization and registration as non-diversified, closed-end management investment companies registered under the Investment Company Act of 1940 and the rules and regulations thereunder, as amended, and the sale and issuance of 6,667 shares of beneficial interest of each Fund at an aggregate purchase price of \$100,005 per Fund to PIMCO Funds Advisors LLC, formerly PIMCO Advisors LP (the "Investment Manager"), an indirect, majority-owned subsidiary of Allianz AG.

Municipal, California Municipal and New York Municipal issued 20,600,000, 15,200,000 and 6,200,000 shares of common stock, respectively, in their initial public offerings. An additional 3,090,000, 2,280,000 and 930,000 shares of Municipal, California Municipal and New York Municipal, respectively, were issued in connection with the exercise of the underwriters over-allotment option on June 26, 2001. These shares were all issued at \$15.00 per share before underwriting discount of \$0.67 per share. Offering costs of \$710,700, \$524,400 and \$213,900 (representing \$0.03 per share for each Fund), for Municipal, California Municipal and New York Municipal, respectively, were offset against the proceeds of the offerings and have been charged to paid-in capital. The Investment Manager has paid all offering costs (other than the sales load) and organizational expenses exceeding \$0.03 per share for each Fund.

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

In addition, the underwriters discount and offering costs associated with the Funds' issuance of Preferred Shares in the amounts of \$2,000,000 and \$335,000, \$1,500,000 and \$364,023 and \$630,000 and \$205,414, for Municipal, California Municipal and New York Municipal, respectively, have been charged to paid-in capital.

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Funds:

(A) VALUATION OF INVESTMENTS

Debt securities are valued daily by an independent pricing service approved by the Boards of Trustees. Any security or other asset for which market quotations are not readily available is valued at fair value as determined in good faith under procedures established by the Boards of Trustees. Municipal invests substantially all of its assets in a portfolio of municipal bonds, the interest from which is exempt from federal income taxes. California Municipal invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal and California income taxes. New York Municipal invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal, New York State and New York City income taxes. The Funds will seek to avoid bonds generating interest income which could potentially subject individuals to alternative minimum tax. The issuers' abilities to meet their obligations may be affected by economic and political developments in a specific state or region.

(B) FEDERAL INCOME TAXES

The Funds intend to distribute all of their taxable income and to comply with the other requirements of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required. In addition, by distributing substantially all of their taxable ordinary income and long-term capital gains, if any, during each calendar year, the Funds intend not to be subject to U.S. federal excise tax. New York Municipal has selected June 30, 2002 as its year end for income tax purposes. At June 30, 2001, New York Municipal did not have any undistributed tax exempt income, ordinary income or capital gains. Additionally, New York Municipal incurred no book/tax differences.

The tax character of dividends and distributions for Municipal Income for the period June 29, 2001 (commencement of operations) through April 30, 2002 was:

Ordinary income	\$628,190
Tax exempt income	\$18,839,914

At April 30, 2002, Municipal Income had tax basis distributable earnings of:

Undistributed ordinary income	\$1,022,101
Undistributed tax exempt income	\$2,685,291

The tax character of dividends and distributions for California Municipal for the period June 29, 2001 (commencement of operations) through April 30, 2002 was:

Ordinary income	\$123,015
Tax exempt income	\$13,449,757

At April 30, 2002, California Municipal had tax basis distributable earnings of:

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

Undistributed tax exempt income \$1,101,271

At April 30, 2002, California Municipal had a capital loss carryforward of \$2,250, all of which expires in 2010, available as a reduction to the extent provided in the regulations, of any

4.30.02 | PIMCO Municipal Income Funds Annual Report 21

future net realized gains. To the extent that these losses are used to offset future realized capital gains, such gains will not be distributed.

In accordance with U.S. Treasury regulations, California Municipal elected to defer realized capital losses of \$107,673, arising after October 31, 2001. Such losses are treated for tax purposes as arising on May 1, 2002.

(C) INVESTMENT TRANSACTIONS AND INVESTMENT INCOME

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Interest income is recorded on an accrual basis. Original issue discounts or premiums on debt securities purchased are accreted or amortized daily to non-taxable interest income. Market discounts, if any, are accreted daily to taxable income.

(D) DIVIDENDS AND DISTRIBUTIONS -- COMMON STOCK

The Funds declare dividends from net investment income monthly to common shareholders. Distributions of net realized capital gains, if any, are paid at least annually. Each Fund records dividends and distributions to its shareholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principles. These "book-tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment; temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes, they are reported as dividends and/or distributions of paid-in capital in excess of par.

(E) EXPENSE OFFSET

The Funds benefit from an expense offset arrangement with their custodian bank whereby uninvested cash balances earn credits which reduce monthly custodian expenses. Had these cash balances been invested in income producing securities, they would have generated income for the Funds.

2. INVESTMENT MANAGER AND SUB-ADVISER

Each Fund has entered into an Investment Management Agreement (the "Agreements") with the Investment Manager to serve as Investment Manager to each Fund. Subject to the supervision of each Fund's Board of Trustees, the Investment Manager is responsible for managing, either directly or through others selected by it, the investment activities of the Fund and the Fund's business affairs and other administrative matters. Pursuant to the Agreements, the Investment Manager will receive an annual fee, payable monthly, at the annual rate of 0.65% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding). In order to reduce Fund expenses, the Investment Manager has contractually agreed to reimburse each Fund for fees and expenses at the annual rate of 0.20% of the Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding) from the commencement of operations

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

through June 30, 2006, and for a declining amount thereafter through June 30, 2009.

The Investment Manager has retained its affiliate, Pacific Investment Management Company LLC (the "Sub-Adviser") to manage each Fund's investments. Subject to the supervision of the Investment Manager, the Sub-Adviser makes all investment decisions with respect to each Fund's assets. The Investment Manager (not the Funds) pays a portion of the fees it receives to the Sub-Adviser in return for its services, at the maximum annual rate of 0.37% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding). The Sub-Adviser has contractually agreed to waive a portion of the fees it is entitled to receive from the Investment Manager, such that the Sub-Adviser will receive 0.25% of each Fund's average daily net assets (including net assets attributable to any preferred shares that may be outstanding) from the commencement of the Funds' operations through June 30, 2006, and will receive an increasing amount (not to exceed 0.37% of each Fund's average daily net assets, including net assets attributable to any preferred shares that may be outstanding) thereafter through June 30, 2009. The Investment Manager informed the Funds that it paid the Sub-Adviser \$1,051,373, \$778,783 and \$317,043 in connection with sub-advisory services for Municipal, California Municipal and New York Municipal, respectively, for the period ended April 30, 2002.

3. INVESTMENTS IN SECURITIES

For the period ended April 30, 2002, purchases and sales of investments, other than short-term securities, were as follows:

	Municipal -----	California Municipal -----	New York Municipal -----
Purchases	\$713,911,162	\$559,950,008	\$236,322,993
Sales	\$183,858,919	\$164,174,542	\$ 74,235,690

4. CAPITAL

The Funds have an unlimited amount of no par value common stock authorized.

5. AUCTION PREFERRED SHARES

Municipal has issued 1,600 shares of Preferred Shares Series A, 1,600 shares of Preferred Shares Series B, 1,600 shares of Preferred Shares Series C, 1,600 shares of Preferred Shares Series D and 1,600 shares of Preferred Shares Series E each with a net asset and liquidation value of \$25,000 per share plus accrued dividends.

22 PIMCO Municipal Income Funds Annual Report | 4.30.02

California Municipal has issued 2,000 shares of Preferred Shares Series A, 2,000 shares of Preferred Shares Series B and 2,000 shares of Preferred Shares Series C each with a net asset and liquidation value of \$25,000 per share plus accrued dividends.

New York Municipal has issued 2,520 shares of Preferred Shares Series A with a net asset and liquidation value of \$25,000 per share plus accrued dividends.

Dividends are accumulated daily at an annual rate set through auction procedures. Distributions of net realized capital gains, if any, are paid annually.

For the period ended April 30, 2002, the annualized dividend rates ranged from:

The Funds are subject to certain limitations and restrictions while Preferred Shares are outstanding. Failure to comply with these limitations and restrictions could preclude the Funds from declaring any dividends or distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of Preferred Shares at their liquidation value.

Preferred Shares, which are entitled to one vote per share, generally vote with the common stock but vote separately as a class to elect two Trustees and on any matters affecting the rights of the Preferred Shares.

6. SUBSEQUENT DIVIDEND DECLARATIONS - COMMON SHAREHOLDERS

- (1) Total investment return is calculated assuming a purchase of common stock at the current market price on the first day and a sale at the current market price on the last day of the period reported. Dividends and distributions are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Funds' dividend reinvestment plan. Total investment return does not reflect brokerage commissions or sales charges. Total investment return for a period of less than one year is not annualized.
- (2) Calculated on the basis of income and expenses applicable to both common and preferred shares relative to the average net assets of common shareholders.
- (3) Inclusive of expenses offset by earning credits from custodian bank. (See note 1e in Notes to Financial Statements).
- (4) Annualized
- (5) During the period indicated above the Investment Manager waived a portion of its investment management fee. If such waiver had not been in effect, the ratio of expenses to average net assets and the ratio of net investment income to average net assets would have been 1.21% (annualized) and 7.34% (annualized), respectively.
- (6) During the period indicated above the Investment Manager waived a portion of its investment management fee. If such waiver had not been in effect, the ratio of expenses to average net assets and the ratio of net investment income to average net assets would have been 1.24% (annualized) and 6.73% (annualized), respectively.
- (7) During the period indicated above the Investment Manager waived a portion of its investment management fee. If such waiver had not been in effect, the ratio of expenses to average net assets and the ratio of net investment income to average net assets would have been 1.34% (annualized) and 6.77% (annualized), respectively.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Shareholders and Board of Trustees of:
PIMCO Municipal Income Fund, PIMCO California Municipal Income Fund and PIMCO New York Municipal Income Fund

In our opinion, the accompanying statements of assets and liabilities, including the schedules of investments, and the related statements of operations and of changes in net assets applicable to common shareholders and the financial highlights present fairly, in all material respects, the financial position of each of PIMCO Municipal Income Fund, California Municipal Income Fund and New York Municipal Income Fund (collectively hereafter referred to as the "Funds") at April 30, 2002, and the results of each of their operations, the changes in each of their net assets applicable to common shareholders and each of their financial highlights for the period June 29, 2001 (commencement of operations) through April 30, 2002, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at April 30, 2002 by correspondence with the custodian, provide a reasonable basis for our opinion.

TAX INFORMATION

Subchapter M of the Internal Revenue Code of 1986, as amended, requires the Funds to advise shareholders within 60 days of the Funds' tax year end (April 30, 2002 for Municipal and California Municipal and June 30, 2002 for New York Municipal) as to the federal tax status of dividends and distributions received by shareholders during such tax year. Accordingly, we are advising that substantially all dividends paid from net investment income for Municipal and California Municipal during the tax period ended April 30, 2002 were federally exempt interest dividends. Although these Funds invested in municipal bonds containing market discount, whose accretion is taxable. Accordingly, the percentage of dividends paid from net investment income during the tax year which are taxable were:

Municipal	3.24%
California Municipal	0.91%

Per share dividends for the tax year ended April 30, 2002 were as follows:

MUNICIPAL:

Dividends to common shareholders from net investment income	\$0.7095
Dividends to preferred shareholders from net investment income	\$263.839
Distributions to common shareholders from net realized gains	\$0.0185
Distributions to preferred shareholders from net realized gains	\$7.97

CALIFORNIA MUNICIPAL:

Dividends to common shareholders from net investment income	\$0.6830
Dividends to preferred shareholders from net investment income	\$264.47

Similar information as indicated above will be provided to shareholders of New York Municipal within 60 days of June 30, 2002.

Since the Funds' fiscal year is not the calendar year, another notification will be sent with respect to calendar year 2002. In January 2003, you will be advised on IRS Form 1099 DIV as to the federal tax status of the dividends and distributions received during calendar year 2002. The amount that will be reported, will be the amount to use on your 2002 federal income tax return and may differ from the amount which must be reported in connection with each Fund's tax year ended April 30, 2002 or June 30, 2002. Shareholders are advised to consult their tax advisers as to the federal, state and local tax status of the income received from the Funds. An allocation of interest by state will also be provided which may be of value in reducing a shareholder's state or

local tax liability, if any.

DIVIDEND REINVESTMENT PLAN

Pursuant to the Fund's Dividend Reinvestment Plan (the "Plan"), all Common Shareholders whose shares are registered in their own names will have all dividends, including any capital gain dividends, reinvested automatically in additional Common Shares by PFPC Inc., as agent for the Common Shareholders (the "Plan Agent"), unless the shareholder elects to receive cash. An election to receive cash may be revoked or reinstated at the option of the shareholder. In the case of record shareholders such as banks, brokers or other nominees that hold Common Shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder as representing the total amount registered in such shareholder's name and held for the account of beneficial owners who are to participate in the Plan. Shareholders whose shares are held in the name of a bank, broker or nominee should contact the bank, whose broker or nominee elects not to participate on the investor's behalf), will be paid in cash by check mailed, in the case of direct shareholder, to the record holder by PFPC Inc., as the Fund's dividend disbursement agent.

Unless you (or your broker or nominee) elects not to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If Common Shares are trading at or above net asset value on the payment date, the Fund will issue new shares at the greater of (i) the net asset value per Common Share on the payment date or (ii) 95% of the market price per Common Share on the payment date; or
- (2) If Common Shares are trading below net asset value (minus estimated brokerage commissions that would be incurred upon the purchase of Common Shares on the open market) on the payment date, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price on the payment date, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market on or shortly after the payment date, but in no event later than the ex-dividend date for the next distribution. Interest will not be paid on any uninvested cash payments.

You may withdraw from the Plan at any time by giving notice to the Plan Agent. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. The Plan Agent will also furnish each person who buys Common Shares with written instructions detailing the procedures for

Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-30D

electing not to participate in the Plan and to instead receive distributions in cash. Common Shares in your account will be held by the Plan Agent in non-certificated form. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvested dividends and distributions are taxed in the same manner as cash dividends and distributions.

The Fund and the Plan Agent reserve the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained from PFPC Inc., 400 Belleview Parkway, Wilmington, DE 19809, telephone number 1-800-331-1710.

OTHER INFORMATION:

Since June 29, 2001 (commencement of operations of the Funds), there has been no: (i) material changes in the Funds' investment objectives or policies; (ii) changes to the Funds' charter or by-laws; (iii) material changes in the principal risk factors associated with investment in the Funds; or (iv) change in the person primarily responsible for the day-to-day management of each Fund's portfolio.
