- (1) Assumes conversion of all of the holder's OCEANs at the conversion price of \$37.598 per share based on the accreted principal amount of the OCEANs as of March 6, 2002. However, the accreted principal amount of the OCEANs will increase as described under Description of the OCEANs General and the conversion price is subject to adjustment as described under Description of OCEANs Conversion Rights. As a result, the number of shares of common stock issuable upon conversion of the OCEANs may increase or decrease in the future.
- (2) Our calculation of this amount is based on 39,011,578 shares of our common stock outstanding as of November 20, 2002 plus the number of shares of common stock issuable upon conversion of all of a particular holder's OCEANs. We did not assume the conversion of any other holder's OCEANs.
Investing in the OCEANs involves risks. See Risk Factors beginning on page 8 of the prospectus.
